Feb. 1924

WOODROW WILSON IS NEARING DEATH

GERMAN CO-OPERATION PROVING AID TO EXPERTS ON FINANCIAL PROBE

Exhaustive Statements of Information on Fiscal condition and Status of Railways Laid Before Allied Commission of Financial Experts and Statesmen

SUB-COMMITTEES

Industrialists and Transportation Magnates Assure Complete Co-operation Toward Formulating Conclusions from vast amount of Data on Hand

Berlin, Feb. 1.—The scene of the inquiry into German finances shifted to the capital of the Reich as the first committee of experts, headed by Brig. General Charles G. Dawes, settled down for perhaps two weeks on Germany's budget and currency problems

Assurances of the complete co-operation not only of the government but also of financiers and banks, it appeared, would make the experts task chiefly that of formulating their conclusions from the vast amount of data which will be laid before them. The Government itself has prepared a budget for the current year, computed on a gold basis, which it hopes will help stabilize the mark and facilitate the flotation of a new gold currency issue.

Wide Information

With this financial statement to work on, the experts also will be confronted with exhaustive information on Germany's fiscal condition including a statement of the reparations payments in cash and kind she has already made.

They will also be supplied with full information on the Reich's railways which, it is expected, will figure largely in the experts' final plans for the salvation of German finances.

Many prominent industrialists financiers and transportation magnates have signified their willingness to give the committee all facts and figures at their disposal.

Hugo Stinnes and several leading bankers are among those who indirectly have agreed to offer testimony.

Prove Exported Capital

Tomorrow will find the second committee, headed by Reginald McKenna of Great Britain, opening its inquiry into the exported German capital, the return of which, it is felt, is of first importance in putting Germany on a "paying basis" from the standpoint of the reparation commission. The members of the second committee including Henry M. Robinson of Los Angeles Calif. arrived from Paris last evening.

THE WEATHER

Mostly Cloudy to-day and Saturday.

A few local snow flurries but not much change in temperature.

COMING EVENTS

DANCING

Saturday night at Moose Auditorium starting 8.30 sharp till 12. Wilson's Society Serenaders. Ladies free. Gentlemen 50c. All courtesy will be shown our patrons. 1-2td

NOTICE MOOSE

The next regular meeting of Belleville Lodge No. 1004 will be held on Tuesday evening, Feb. 5th instead of Monday evening Feb. 4th.

GEO. H. MOSSMAN,
Dictator.
F1-2td.

Members of all branches of fthe I. O. O. F. are cordially invited by the members of Mizpah Lodge No. 127 to attend the 50th anniversary on Monday evening, Feb. 4th at 8 p.m.. Bring your wives and husbands with you. W. Edmanson, Noble Grand; R. H. Ketcheson, Secretary. J31-3td

Mr. and Mrs. Johnstone's Social Assemblies are held every Saturday evening 8.30 to 12.—Private lessons given. Phone 750w or 892. J31-F2

At Emmanuel Church the Rector will preach each Sunday evening in Feb. Popular sermons for the people—The Religon of business, the Business of Religon, the Age of Immorality, Ku Klux Klan, and other secret societies. Topic next Sunday, "The Religion of Business. 1-2t

DEAL ON LEASE NEVER MULLED BY U.S. HEADS

Hughes Defends Administration from Charges of Senator Walsh

IS NOT RESPONSIBLE

Never Called Upon to Have Anything to Do With Lease

Washington, Feb. 1.—The legality or propriety of the naval oil leases were never brought before the cabinet for decision, Secretary of State Hughes declared to-day.

In reply to an inquiry Hughes made the fololwing statement. The questions of the legality or propriety of oil leases now under decision in congress were never brought before the cabinet fofr its decision. My opinion upon these questions was never sought or expressed either in or out of fthe cabinet. If the oil leases were ever referred to in cabinet meetings, and I do not recall that they were, it is certainly only by way of general reference and without requiring any responsible action, which, of course, I should not have been willing to take without examination of papers and statutes.

"Having plenty of work in the department of state, I had not occasion to consider the question of law and fact involved and I have not been called upon to take any responsibility in the matter."

HASTINGS BIRCH SENT TO ENGLAND

Fine Sample From North Hastings Shipped to London In Tree Form

A fine sample of North Hastings birch in tree form has been shipped from Bancroft to London, England, where it will be on exhibition at the world's fair there this coming summer. Mr. Kent of the Seaman Kent Co., is instrumental in having the exhibit sent to the Old Land, as he purposes attending the exhibition with a display of their products in finished and raw materials. Seaman Kent Co., purchase millions of feet of birch and maple from lumbermen operating in North Hastings.

BOUNDARY DISPUTE NEGOTIATIONS ON

London, Feb. 1 (British United Press).—Premier MacDonald today opened the negotiations for the settlement of the boundary dispute between the Irish Free State and Ulster, holding separate conferences at Downing street with President Cosgrave and Premier Craig. The joint conference opens this afternoon at the Colonial office.

When a Mexican Soldier Is Wounded

You hear lots about a Mexican soldier taking his family to war with him as his commissary department. Here's proof that the family also acts as the medical corps—and proof that occasionally someone does get hurt in these Mexican battles. The wonderful rebel trooper is being borne on a stretcher by four comrades while the wife and children trot alongside.

NOTIFY STATES OF CLEARANCE OF RUM SHIPS

Convention to Be Drawn up Between Canada and United States

CAN'T REFUSE PAPERS

Reciprocal Exchange — A New Agreement on Stolen Property

Ottawa, Feb. 1.—Within a few days a convention wil be drawn up between the United States and Canada giving effect to the conclusions of the conference on rum running here last fall.

The convention will be based upon a report of the officials.

The main recommendations, it was learned to-day, are:

1. That customs officers of Canada along the border be instructed to notify responsible United States officials of the clearances of liquor laden vessels where there is reason to believe that such cargoes are designed to be smuggled into the United States. Also that notification be sent of loads of liquor being forwarded from the country suspected of American destination.

2. The position is taken that Canada has no right to "refuse" clearances merely because a liquor laden vessel is going to the States.

3. It is recommended that there be reciprocal exchange of witnesses and records.

4. The customs department is authorized, to negotiate a new agreement with the States dealing with the treatment of stolen property.

5. The proposal for the extradition of liquor is refused on the constitutional ground that to be extraditable an offense must be common to the two countries and in this case there is dissimilarity.

6. Canada is to have the right to transport liquor to the Yukon across Alaska.

BLOCKADE RUNNER IS INVITED TO U. S.

(United Press Despatch)

Berlin, Feb. 1.—Captain Spinller of the munitions ship Libau, which ran the blockade during war time delivering supplies to the Irish, is leaving for the United States to undertake a lecture tour at the request of a group of Irish Americans

VETERANS' SPEAKER

Capt. W. G. Ferguson
Internationally known recruiting and Victory Loan speaker, and war veteran of Smith's Falls, who will be the speaker at the veterans' band concert which will be held at Griffin's Theatre on Sunday evening.

WIDELY-KNOWN WAR WORKER TO ADDRESS VETS

Captain W. J. Ferguson, of Smiths Falls, Possessor of Fine Record

SPEAKS SUNDAY

Benefit Band Concert at Griffin's Theatre For Local Veterans

In the newspaper game all his life except when he went overseas with the Canadians to fight the Hun, and since his return, is the record of Captain W. G. Ferguson, of Smith's Falls who modestly classifies himself as "tramp printer". He is more than a tramp printer however.

Captain Ferguson will be the speaker of the evening at Griffin's theatre on Sunday evening next, when a benefit concert will be given by the band of the 15th Argyll Light Infantry battalion, under the auspices of Belleville War Veterans, for indigent work among the veterans in this city.

Well-Known Here

A personal friend of the late Sir McKenzie Bowell, whom he met while at Ottawa where he was parliamentary press representative during Sir MacKenzie's regime, Ferguson never visits Belleville with out visiting the Intelligencer, which always calls to memory the name of Sir MacKenzie Bowell.

"I worked for the late Sir Sam Hughes on the Watchman Warder at Lindsay many years ago," Captain Ferguson explained today in speaking of his life in the busy newspaper offices. Versatility is the strong fort of the newspaper man, and Captain Ferguson is versatile. Besides being soldier, speaker, and writer he is also a musician, and was a member of the Ottawa Military band which toured the United States after the Great war. Last night he was the guest of fthe bandsmen who

(continued on page three.)

GOVERNMENT TO STOP OUTRAGES IN FAR EAST

Denial Made in Speech from Throne of Trouble With Afghans

DISCUSS REFORMS

Warning given of a Possible Check in Progress Being Made

Delhi, India, Feb. 1.—At the formal opening of the new legislative assembly here the vice-roy, the Earl of Reading, in the speech from the throne, said the government would continue to try to persuade the South African Government to incline its ear to the claims of the Indian residents in South Africa for more equable treatment in the matter of citizenship.

The speech from the throne made strong denial of the allegations that the British and Afghan governments were at loggerheads. It acknowledged with warm approval the action of the imperial government in giving India full opportunity to express her views further on the situation with regard to the Indians in Kenya colony. It declared that the government was determined to suppress outrages and conspiracies in India.

Reference was made in the speech from the throne to prospective reforms in India, but it was stated that these would not be discussed until they had been considered by the secretary of state and the British government. Anxiety as to future of these reforms was expressed and a warning given was expressed and a warning given to the assembly that there was a possibility of a check to their present progress. No constitutional change could be effected, it was declared, without the consent of the British parliament and people.

SASKATCHEWAN TO HAVE REFERENDUM

Regina, Feb. 1 (By United Press) —Saskatchewan will have liquor referendum at a date to be decided on by the present session of the Provincial Assembly, the speech from the throne at the opening said yesterday.

London, Ont., Feb. 1.—All students in the Central Collegiate Institute must submit to vaccination as the result of the discovery that one student had contracted smallpox.

WAR PRESIDENT OF U.S. IS SINKING RAPIDLY; CONDITION IS CRITICAL

BANK OFFICIALS HAVE RIGHT TO A SPEEDY TRIAL

But Attorney-General Entitled to Jury Trial in Certain Offenses

CROWN FAILS, 3 TO 2

And Appeal Dismissed, But With Order Amended as to Penalties Exceeding 5 Years

Toronto, Feb. 1.—Dividing three to two, the first divisional court at Osgoode Hall yesterday dismissed the Crown's appeal from Mr. Justice Middleton who had directed Judge Coatsworth to grant the Home Bank directors a speedy trial, but with this appellate revision:

"The order appealed from should be amended by reserving to the attorney-general his right under section 825, subsection 5, to require the accused to be tried by a jury for offenses coming within section 444 of the criminal code."

In the terms of the stay of the Middleton mandamus, no new charge may be laid until ten days have elapsed—say, until February 10th. Some time ago, the attorney-general instructed D. L. McCarthy, K. C., to indict the accused on a charge of conspiring to defraud.

Chief Justice Mulock and Justice Hodgins and Smith are the majority judges, with Justices Magee and Ferguson dissenting.

If the attorney-general declines to accept to-day's 3-2 division, he will go to the supreme court on another appeal.

Tried and Convicted

Sir William Mulock, speaking to the Giroux decision, says:

"If the accused had no right to elect, his pretended edection was a nullity, and the indictment was not before the sessions. Nevertheless he was tried and convicted by the judge of the session of the supreme court, upholding the conviction, which, under the circumstances it could not have done unless the accused had the right to elect. Therefore, I am of opinion that the decision of the supreme court, up holding the conviction, must be construed as a determination that the accused had the right to elect.

"It was argued that the election of the accused, though exercised under section 825 of the criminal code, might be construed as a consent (outside of the section) by the accused to be tried by the judge of the sessions, and that he was tried because of such consent. If the consent were of that nature, and not under section 825, the indictment would not be before the sessions, and the position would be that of a person consenting to be tried by the judge of sessions, but only if lawfelly put on trial. Such a consent could not dispense with the necessary judicial foundation for the right to try (such as a committal to the sessions) without which a person could not be put on trial in that court. In other words, without such foundation for holding a trial the sessions would not be seized of the case.

GREEK WOMEN ASK FOR FULL SUFFRAGE

Athens, Feb. 1 (British United Press).—The Greek Women's Association appealed today to the National Assembly to grant full suffrage regardless of Venizelos' promise to grant municipal suffrage. Conflicting ambitions are rendering settlement of the political crisis precipitated by the Premier's resignation most difficult. Venizelos recommended the formation of a Cabinet under M. Cafantaris.

Rear-Admiral Cary T. Grayson Issues official Bulletin After All-night Vigil at Bedside of Former United States Leader—Refuses To Leave Sickroom

TURN FOR WORSE

Sudden Reversal of Condition Follows Rally—Ex-President has Been in Ill-health Since Retirement From Public Life Five Years Ago

(United Press Despatch)

Washington, Feb. 1.—Woodrow Wilson, ill for several days is in "a very serious condition," Rear Admiral Cary T. Grayson, Wilson's personal physician who spent the night with the former President, issued a bulletin this morning stating that Mr. Wilson had "suddenly taken a decided turn for the worse. "I regard his condition as very serious," said Grayson "Mr. Wilson pased a restless night and has lost strength. He has suddenly taken a decided turn for the worse and I regard his condition as extremely critical."

Admiral Grayson declined to add anything to this statement further than to say that he had been up with Mr. Wilson during the entire night, and that he did not expect to leave his bedside today.

Ex-President Wilson has been ill since his retirement from public life five years ago. With the exception of his speech on Armistice Day. 1923 broadcasted over the nation by radio from his home in Washington, he has been unable to attend to any of the political problems facing the country.

Despatches concerning the critical condition of the war president indicate that his death would be a critical blow to the democrats of the country at this time, and both parties are anxiously awaiting bulletins from the bedside.

FIND FARMER DEAD IN BED

Alfred Firman, Belmont Township Farmer, Found Dead by Neighbors

Believed to have died on Sunday last, Alfred Firman also known as Alfred Cooney, aged 41, farmer, living one and one half miles east of the Trent bridge in Belmont township, was found dead in his bed early Monday last by two neighbors, Marshall McComb and a man named Saulter. Firman is a widower and lived alone on his fine farm,

Coroner W. Holdcroft gave heart failure as the cause of death, and interment has not yet been made pending receipt of a permit from the County Attorney.

Complained of Being Ill

When Firman was last seen, he was at a neighbor's farmhouse where he had remained for the night the SSaturday previous. Firman told the neighbor whose name is Brunton, that he was not feeling well, and the Bruntons prevailed upon him remaining for the night. In the morning he returned to his home and was discovered dead in bed the following Monday.

Firman who was also known as Cooney, because his mother had married a second time, owns one of the finest farms in the neighborhood, with fine bulidings, and a fine stock. Thirty cattle, four good horses, swine and hens went without food in the stables from Saturday until Monday, but luckily they were usually well fed, and were not suffering when neighbors came to their rescue and gave them food and water. The barn is well stocked with hay and grain, and all fall ploughing has been completed in readiness for the spring work, as Firman was an industrious farmer. A neighbor named Tyler is now attending to all the farm duties until some disposition is made of the farm and stock. The farm is on the boundary line between Seymour and Belmont townships, but is situated in Belmont township. It is known as the

Heavy Toll Paid Grim Reaper In Tropical Diamond Hunt

Toronto, Oit. Feb. 1.—Diamond hunters in British Guiana are paying heavy toll for their success to the Grim Reaper, according to a letter just received by friends from Lester Macgillivray, of London, Ont., present director of the Canadian expedition which left two years ago in search of gems on the unexploited reaches of the British Guiana rivers. After many months of hardships with death always in the offing the Canadians are now gathering a splendid harvest of precious stones from holdings formerly occupied by a New Yorker named Oliver. According to Macgillivray's letter two more white prospectors— not attached to the Canadian party—and litterly scores of native guides have died of tropical diseases and many others have either returned to their homes or are lying ill in hospital on the frontier.

After several days cruising in the jungle of the Meamu district, no diamonds, small or large, were found and the expedition dropped back to the Red Hill district, near the junction of the Eping river.

At this spot a large, comfortable and cosy house had been built by a prospector named Olive representing a firm of diamond importers located in New York City.

Re-Hypnotized To Discover Plot Against Anti Bolshevists

Berlin, Feb. 1 (British United Press—Dr. A. T. Chilles, who claims to be a PH. D., was under arrest to-day charged with hypnotizing Kurt Fromman, son of Admiral Fromman, prominent Anti-Bolshevik. The young man was kept absolutely in the doctors power for three months and sent out to beg, masquerading as blind.

A theory is that Dr. Chilles, who is suspected of Bolshevism, sought to obtain information from Anti-Bolshevik sources by hypnotizing the Admiral's son.

The plight of young Fromman was discovered by a scientist who re-hypnotized him and caused police investigation.

A CHECK ON "EXPORTS"

The Ottawa government has ordered the discontinuance of customs clearings from Petite Cote, a small place eight miles west of Windsor.

This is regarded as a first step taken by the Canadian government to co-operate with the authorities of the United States in preventing the smuggling of liquor across the border. Canada is doing a brisk trade exporting liquor. Supposedly the traffic is with Cuba, Mexico and other far-off countries; actually, it is said, most of the liquor which does not find its way back to Canada goes into the United States. Petite Cote, it is said, has been used as a base by the smugglers. It is admirably suited for the purpose, the loading and landing places being well sheltered and screened. Hereafter shipments of beer must clear from Sandwich, where the docks at all times are in full view on the American side of the river.

The order from Ottawa is regarded as a heavy blow at the smugglers; but it will probably take a good deal more than that to put them out of business. It is significant, however, as indicating a desire on the part of the government of Canada to face its responsibilities. Great Britain set an example with the treaty for the extension of the three-mile limit.

GENEROUS IMPULSES

A news item from Detroit furnishes an interesting subject for debate. An elderly doctor noticed an airedale puppy marooned on a piece of ice in the river. He realized that unless the dog was rescued, it would slowly freeze to death. At the risk of his own life he went after the dog and brought it ashore.

Did the doctor act wisely or not? Could his action be reasonably defended? What right had a doctor to risk his own life to save the life of a puppy? He might have lost his life in the attempt; the result might have been loss of life for both himself and the puppy.

Apparently all the arguments are against the doctor. But he did not wait to argue it out. And we feel that there is something stronger and more convincing than the logic of self-interest. All our deeds are not the result of careful deliberation. And it is well for humanity that it is so. The record of golden deeds would be much shorter and less impressive if people had stopped to think it all out before taking action.

SOME REMEDY NEEDED

A deputation of locomotive engineers has waited on Premier Ferguson, asking for legislation making it compulsory for all motorists to stop their cars at level railway crossings. It was claimed by the deputation that the noise of the motor might prevent motorists from hearing the approach of trains.

The number of accidents at level crossings shows the need for a remedy. Whether this remedy is to be found in legislation or in education is another thing. One thing is reasonably certain and that is that legislation would not be likely to be very effective without education.

EDITORIAL NOTES

Unfortunate W. G. Raymond, M.P. of Brantford, now fears that his faith in the continued falsity of the King Government to the Liberal party promise to place agricultural implements on the tariff free list may have been misplaced. He has been obliged to go to Ottawa and urge his leader not to be weak enough to do so under pressure from the Progressives.

—o—

Rev. John Roach Straton, a noted Baptist preacher in New York, has provided anti-evolutionists with a new argument. He suggests that there may have been a pre-Adamite world in which monstrous animals and man-like creatures may have existed.

—o—

The Teapot Dome scandal has reminded the American people of Franklin K. Lane, a Canadian born, who served them so faithfully as Secretary of the Interior. When he was head of the department there was no chance of any of the public domain being alienated.

—o—

The suggestion of a German society that African sufferers from sleeping sickness and tsetse fever be denied a new remedy until Germany's former African colonies are restored to her is, to say the least, ill-timed.

—o—

The pleasant fables told in the witness box by William H. Anderson, the Anti-Saloon League secretary who has been convicted of forgery, suggest that he is a descendant of Hans Christian.

—o—

William DeWolf Hopper has to pay thirty per cent. of his income to his former fifth wife. If he has to pay as much to other ex-partners he may yet be forced to give up marrying.

—o—

Having mopped up Czecho-Slovakia and Sweden, the Canadian Olympic hockey team is prepared to hurl defiance in the teeth of Persia.

The Letter Box

This is not an advertisement for MacLean's Magazine, only to call your attention to the articles being published in it regarding the civil service by Grattan O'Leary. Everybody should read them. Mr. O'Leary is taking a lot of time and trouble to give us facts and his articles no doubt are authentic.

The first article was published in the January 15th issue, the second just out Feb. 1st and the third and last Feb. 15.

In my opinion MacLean's magazine is one of the best published in America. Their "Review of Reviews" containing several articles, "The cream of the world's magazine literature, a series of Biographical, Scientific, Literary, and Descriptive articles which will keep you posted on all that is new, all that is imperitive and worth while to thinking men and women of the world to-day.'

W. B. RIGGS.

CHICAGO BUILDS FIFTH STATION

Chicago, Feb. 1.—The new union passenger station of Chicago will be opened early in 1925. This estimate is made after a survey of the work that remains to be done.

Ground was broken nearly nine years ago. Total cost of the station probably will exceed $30,000,000. The project includes acres of train sheds, miles of tracks and a monumental building which will contain a small city in itself.

Striking features of the gigantic new station include a modern jail for the detention of prisoners awaiting transportation. Travelers religiously inclined will find a chapel that will always be open to worshippers. The station will also have a morgue.

Some idea of the structures' vastness may be gained from the fact that the lobby of the concourse with the subway under Canal street will form a single room 300 feet long and 180 feet wide. It will join a waiting room 250 feet long and 100 feet wide. Limestone blocks for the station are all cut at the quarries and are numbered so that they may be swung into place without delay. The whole construction has been handled without interruption of a single train. Joshua D'Esposito is chief engineer.

TO THINK OF IT

"Wheres' my umbrella?" demanded the wife of a member of Parliament.

"I'm afraid I've forgotten it, my dear," meekly answered her husband. "It must still be in the train."

"In the train!" snorted the lady. "And to think that the affairs of the nation are entrusted to a man who doesn't know enough to take care of a woman's umbrella."

PRESS OPINIONS

BEATING THE RECORD

(Atlantic Monthly)

If Henry and Edsel Ford are not the richest father and son in America today, they soon will be. The enormous profits which Henry Ford ploughs back into the business, the pace at which he is extending his control of raw materials and his domination of supplies, his growing interest in water-powers and transportation, his exuberant health and zest of expansion, the morale of his labor forces and the competence of his technical staff, these predicate Ford production and profits beyond anything on record in American industry.

INCOMPETENT MOTORISTS

(Montreal Star)

Repeatedly juries in this city have adopted strong resolutions asking the courts to pass more severe sentences on furious drivers, and on drivers who hasten away after felling a victim.

While it certainly devolves upon pedestrians to take precautions before crossing streets, their lives should not be in almost certain peril if perchance they happen to be off their guard for a moment.

There should be much stricter regulations in connection with the issuing of licenses to drive. The engineer of a locomotive has to serve many years before he is considered competent to handle the throttle; but, strange as it may appear, "incompetents" can easily get a license to drive a motor thru crowded thorofares. Accidents will certainly increase in number so long as such conditions are allowed to prevail.

BEST LEFT ALONE

(London Standard)

The Dixmude was the latest German airship completed at the time of the armistice, and was handed over to France and put in commission by the French government instead of being, as it should have been, destroyed. Long before the end of the war the Zeppelin had proved itself entirely untrustworthy as a fighting instrument.

We had destroyed Zeppelins by sea and over land here and in Belgium and in the last raid over London not one of the ships employed survived the weather conditions to which they were subjected.

The practical German mind, well aware of the limitation of its own instruments, deflected the activities of the great airship factory at Friedrichshafen to the production of large aeroplanes instead. At any rate, for the moment, the best brains in aerial study in all countries are agreed that the airship had best be left alone.

UGLY BILLBOARDS

(New York Tribune)

In England many of the large advertisers are dismantling their signs in the rural districts. Out there the fight is practically won. Salesmen are keen enough psychologists to realize that a kind of advertising that arouses resentment in a multitude is not beneficial. This valid argument of self-interest will have its effect more and more as it is realized that every one who travels abominates the signs that disfigure the countryside and holds a grudge against the products thus heralded. A law "with teeth in it" is needed to confine the ugly billboards to spots where they are not obnoxious. The public is thoroughly sick of them on country roads and railways and city avenues. From every point of view they are bad advertising.

LOVE'S CHOICE

Awhile a go you pointed out the way
  And said that Fortune's frowning face must wear
A kinder look, ere you asked me to stay;
  Forgetting that the sunshine on my hair
Might fade, and people, sotto voice say,
  "He would not find her now, poor thing, so fair."

I'd rather share your crust of bread, my dear,
  Than be on Easy street with queenly fage,
I'd rather wear a hat year after year
  Have children 'gainst my knee at night-time prayer
Than face the future with the clutching fear
  That as the year went by, you'd cease to care.

—Edna Baldwin

Music & Drama

BURGLAR BREAKS INTO WES BARRY'S HOME

A burglar broke into the home of Wesley Barry in Hollywood recently, and according to report the freckled screen star proved to his legion of friends that he is as brave in real life as he is on the silver screen.

Wesley had just retired to his room after a hard day's work at the Warner Brothers studio. While glancing through a book of adventure he thought he heard the outside window squeak. He went out to investigate and ran plumb into a burglar. The burglar caught off guard tried to get away, but Wesley grasped his leg and tripped him up, and then began pummeling him with his fists.

The two struggled on the floor, but meanwhile others in the house, attracted by the rumpus came to Wesley's aid and held the burglar until the police arrived. In the latest Wes Barry picture, "Rags to Riches," which will be shown at the Regent Theatre, beginning Monday to Wednesday, the freckled star also undergoes some trying moments with a burglar. But it is said that in the film he aids the burglar to perform his dirty work and then follows after him in quest of exciting adventure.

In the supporting cast are Nile Welch, Ruth Renick, Richard Tucker, Russell Simpson, and a number of other well-known screen players.

"THE ETERNAL FLAME" SAID TO BE NORMA TALMADGE'S BIGGEST FILM

In carrying out her announced policy of giving the motion picture public the best that money, time and artistic endeavor can produce, Norma Talmadge is following her great triumph in "Smilin' Through" with another magnificent film, "The Eternal Flame" an adaptation of "La Duchesse de Langeais," Honore de Balzac.

In "The Eternal Flame" which will be the First National attraction at the Griffin Theatre Tuesday and Wednesday is to be found a story of tense heart interest that revolves around the scandals and romances of the court of Louis XVIII. Miss Talmadge portrays the leading role of the Duchess, a great beauty of high character, who, when she learns that her husband, the Duc de Langeais, is betting on her purity, becomes the coquette of the court. In her flirtatious she arouses the love of the invincible General de Montriveau. He is furious when he learns of her desire to be known as the conqueror of the man who has never fallen in love and in his rage kidnaps her, intending to brand her with the mark of infamy. She pleads and he has not the courage to go through with the terrible punishment and releases her. The Duchess realizes that her love is real and in daily letters to the general bares her soul to him. The letters are returned unread. In despair she determines to quit the world and seek spiritual solace in a convent and the events which follow her decision carry drama as poignant as the screen can give.

Conway Tearle portrays the leading male role as De Montriveau, while Adolphe Jean Menjou is to be seen as the Duc de Langeais. Others in the cast are Wedgwood Nowell, Rosemary Theby, Kate Lester, Thomas Ricketts, Irving Cummings and Otis Harlan. Frank Lloyd directed.

BRANSBY WILLIAMS HERE MONDAY AT GRIFFIN THEATRE

When the clever character actor, Bransby Williams, returns to the Griffin Theatre next Monday he will occupy the stage alone for two and a half hours with selections of his recitations, monologues, and character sketches from Dickens, in which he is inimitable. Among the Dickens sketches he will include Uriah Heep, Sergt. Buzfuz addressing the jury, and Grandfather Smallweed—probable Dickens' most humorous character. One of Bransby Williams" best character studies is that of a Chinese mandarin in the drama "Orange Blossom" and for a character study is superior to anything else the great actor does. He will also include impersonations of well-known actors and comedians, past and present, whose names the audience is invited to call, among them he will include Sir Herbert Tree as Svengali in "Trilby" and Sir Henry Irving in "The Bells." The seat sale for this entertainment opens on Saturday. Mail orders now.

JINGLE ALL THE WAY!

There is a vivacious refrain which we have sung ourselves upon occasions with considerable gusto. As we recall it, the bells are enjoined to jingle all the way because there is much enjoyment to be derived from riding in a one-horse open sleigh. Last night we groped our painful way to the piano and tore that mendacious song from our collection of ancient lays. And then we stamped on it.

For now we know that those words were written in another day and for another generation. This knowledge we gained at the price of no small personal discomfort. We do not wish to dwell upon an experience which would be as painful to us in the recital as it would be harrowing to our indignant readers. But was accompanied a sleigh ride recently and certain impressions jotted down during our convalescence bespeak your indulgent attention.

We have used the word "accompanied" as the one most accurately describing our contribution to the evening's hilarity. For, after crossing the turbulent Moira, we cannot remember doing any riding. Indeed, this seemed to distinguish the sleighing of 1924 from that diversion as we remember it in our youth. In that golden era, "sitting well in order," we kept the rugs straight and blended our fresh, young voices in close harmony. The youths and maidens of today rent a sleigh and two stout steeds—and then for several miles, they bend every effort to keep anyone from sitting on the blessed thing!

It occurred to us also that the chaps who rent these sleighs could improve the tone of the excursions by substituting the box-top for the flat flooring without even a toe-hold which seems to be in vogue. Remembering the hay-floored boxes in which we had once ridden, we were struck immediately with the inhospitable expanse of slippery boards. It suggested the deck of a battleship stripped for action. Action there was shortly and we were not the "last to leave the reeling deck."

There are some people who cannot endure to see others comfortable and enjoying themselves. We had cornered a portion of a rug and hoped by leaving others alone to be left alone. We even refrained from immoderate laughter when companions on either side were whisked off lest we should draw attention to our own immunity. But it was not so to be.

An individual, who shall be nameless but who appeared to be the self-appointed Royal Bumper, clutched us by an ankle. In vain we sought to brace our other foot. There seemed nothing for it but to slide over the edge where a ridge of about an inch, though utterly inadequate for a foot-hold, promised a parting scrape. In this jeopardous position, some misguided friends endeavored to foil the adversary by catching our arms.

Their interference only brought reinforcements to the aid of the Royal Bumper. He redoubled his efforts. Our friends sought new holds. And so for many leagues, as it seemed, we were the prize of battle and in imminent danger of dissolution till our friends on the sleigh suddenly lost interest in the tussle and permitted our racked frame to catapult overboard with a dull thud.

Thereafter we were content to limp along behind the sleigh and in communion with the frosty stars we bethought of us of this suggestion. We would favor the equipment of sleighs used for such amiable purposes with rope-handles along the side such as are attached to life-rafts. These would make the odds more even in favor of the defenders. A code of rules might also be drafted, defining illegal holds.

Vive La Reine!

Brockville Jan. 30.—May Echo Sylvia, queen of cows, and holder of the world's record for milk production, was despatched today at the age of 15 years by Dr. Waghorn.

Jerushabel Jopping was so moved by this despatch that he sat down on the floor and dashed off the following tribute:

Now pour we a humble libation
  So rich as our genius allows
To that marvel of super-lactation,
  Even Sylvia, Queen of the Cows.

In vain each bovine generation
  Down the years their endeavors may rouse
To equal the proud reputation
  Of Sylvia, Queen of the Cows.

Stately liners without trepidation
  On a sea might entrust their steep prows
Of the milk put into circulation
  By Sylvia, Queen of the Cows.

Yet old age brought the threatened cessation
  Of the gift that her memory endows—
And a merciful asphyxiation
  Closed the reign of the Queen of the Cows.

BAR POKER CHIPS IN CHURCH COLLECTIONS

Cannes, Feb. 1.—Christ Church here doesn't interfere with the business and faiety of the Casino, but it does object to being tainted by anything associated with the gaming tables. It has warned worshippers, who also frequent the Casino that whatever the practice down the road may be, they must place cash when the church plate is passed. An absent minded member of the congregation put two white chips on the plate one Sunday.

CANADA IS FISH HARVEST

Prince Rupert, B. C.—Twenty-nine million pounds of halibut were landed at this port during the past year.

Miss Winnie Babcock is spending a few days in Toronto.

The men are kept busy sawing ice at the Bay Bridge.

Mrs. Harold Thompson, Belleville, called on Mrs. Ray Belnap Tuesday evening.

Africa Is the Last "Great West" on Earth

Los Angeles, Cal. Feb. 1—"Africa will be the last great west," said Oscar W. Meeker of London, writer and globe trotter.

When the tide of migration moves to the end of the present west, said Meeker, it will jump across Asia and western Europe to the shores of Africa. "There it will find richness beyond the fondest expectations; a beauty no man can accurately describe! balmy breezes trailing with them the scent of virgin forests and the warm intoxication of the inland seas; rivers that murmur the chant of the tropics; all in all, a land far cooler and far more pleasant than people elsewhere think," was Meeker's description.

City and District

DIED

HAMILTON—In Belleville on Friday, February 1, 1924, Catharine Donovan, wife of Mr. George Hamilton 30 Albion street. Funeral notice later.

CARD OF THANKS

Mr. James McCourt and sisters wish to thank their many friends for the kindness and sympathy extended to them in the sad bereavement of their mother, Mrs. Ellen McCourt, also for floral and spiritual offerings.

Mr. Stephen Alyea is on a business visit to Bay City, Mich. Mrs. Alyea is still in this city, contrary to the report that she had also gone to Bay City, which was printed recently in this column.

WEDDING BELLS

TAYLOR—VILNEFF

A quiet wedding was solemnized last night at Bridge Street Church Parsonage, Rev. F. E. Malott, officiating. The groom was Mr. Dorland R. Taylor, of Madoc and the bride was Miss Elsie Vilneff, of Beleville. A few members of the contracting parties were in attendance at the ceremony.

MALONE—DIAMOND

In Missoula, Montana, on Jan. 16th. 1924, Miss Mina Diamond, formerly of this city, was united in marriage with Mr. Earl Malone, of Hamilton, Montana.

Escapes From House of Refuge

Edward Heath Captured after Struggle at Foxboro

Edward Heath, middle-aged man who has ben for some time an inmate of the County House of Refuge early this morning left that institution without permission. Mr. Leigh, superintendent of the institution later located Heath at Foxboro village and brought him to the city.

Puts Up Fight

At first Heath rebelled against being returned to the Home, and desired to indulge in a fictic encounter. He was however quieted down and came to the city. He was for a short time placed in a cell at the police station but later was taken to the House of Refuge. He promised to behave himself in the future.

STOPS CROUP

Mothers want it, for it quickly clears away the choking phlegm, stops the hoarse cough, gives restful sleep. Safe and reliable.

Geo. F. Ostrom Named On Board

At a meeting of the Board of Directors of the Belleville Chamber of Commerce Mr. Geo. F. Ostrom was unanimously elected director. This was necessitated by the resignation of Mr. Jamieson Bone who, owing to pressure of business duties, has felt obliged to retire for the present year at least.

Mr. Ostrom was one of those nominated for director at the primary election last December and owing to the very high vote he secured in the final election the Directors yesterday decided that they would be but voicing the sentiments of the membership to elect him director.

This procedure was in accordance with the by-laws and practice of the Chamber of Commerce; the By-Laws requiring that when a vacancy on the directorate occurs during the year that the directors shall nominate and elect a successor from the membership.

Misses Lillian and Olive Baldwin last evening at their parents apartments in the G. W. V. A. Memorial Hall entertained members of their Sunday School class of Bridge street Sunday School. The young people spent a most delightful time in singing and playing at games, after which dainty refreshments were served.

Carried Revolver On Way To Wife

But Police Interrupted the Journey—Man Sent to Jail for Three Months

Hamilton, Ont., Feb. 1.—"Jack" White, the former automobile salesman, who has been searching for his wife for a month, was today sentenced to three months for carrying a revolver. His wife disappeared on January 2, leaving four small children. The husband has been making a frantic search for her. His father-in-law announced yesterday that Mrs. White was staying near St. Thomas, but he declined to give the husband the address, saying that the wife refused to communicate with her husband. White learned the address and announced last night that he was setting out for St. Thomas to find her, and was carrying a revolver.

ARREST VAGRANT ON THEFT CHARGE

Acting on advice from the Chief of Police of Port Hope, the local police afternoon placed under arrest Fred Edwards who is wanted on a charge of theft. It is alleged that Edwards who was in Port Hope for a few days and out of work, was befriended by a resident of that town. When Edwards left, a gold ring and some other articles were missed. The police of Port Hope have been notified of the arrest. The missing ring was being worn by Edwards when he was apprehended.

Man Fined For Reckless Driving

The defence put up by C. J. Acton charged with reckless driving on Station street on January 22nd, was that a deep rut in the snow caused him to collide with a car driven by C. A. Cronk, taxi owner. It was, however, proven that the accused was not on the right side of the street when the accident occurred, and also that he was travelling at a much faster speed than he claimed to be. Magistrate Masson ruled that Acton was guilty of the charge preferred against him and imposed a fine of $10 and costs which was paid.

ANDERSON APPEALS

Will Carry to Higher Court Convictions For Forgery

Anderson, state superintendent of the Anti-Saloon League of New York, will appeal his conviction by a supreme court jury on an indictment charging third degree forgery, it was announced today by his chief counsel former Governor Charles S. Whitman. Papers of appeal to the appelate division of the state supreme court now are being prepared he said.

A prison term up to five years may be imposed on Anderson for conviction on the forgery charge.

CRUISERS REMAIN AT VERA CRUZ

Washington, Jan. 31.—The light cruiser Omaha and the six destroyers accompanying her were ordered by the Navy Department today to remain at Vera Cruz until further orders. The ships had previously been instructed to rejoin the fleet in southern waters and were expected to start south today.

REV. FATHER FOERSTER DEAD

Guelph, Jan. 31.—Rev. Father S. Foerster, for many years parish priest of New Germany and latterly St Clemens, Ont., died at noon today Father Foerster celebrated his golden jubilee in the priesthood last August.

Find Farmer

(continued from page one)

Charles Chase farm.

Neighbors Find Body

When McComb went to the Firman farm early Monday to buy some chicken feed, he found that there were no signs of life about the farm, and on going to the house, received no response. McComb returned to his home and with Saulter, another neighbor went back to the Firman home, and investigated. They found the man dead in bed. Dr. Holdcroft was summoned, and later sent a telegram to the dead man's mother, Mrs. Cooney who lives somewhere in Albany, N. Y. The police department of Albany are endeavouring to locate the woman.

Widely Known

(continued from page one)

will supply the programme at Griffin's on Sunday night, and a most enjoyable evening was spent, he declares.

Is Able Speaker

Captain Ferguson has given as many as seven speeches in one day on a Liberty loan and Red Cross tour of the United States, and was one of the five speakers who possessed physical and mental strength sufficient to complete the tour. A life member of the American Great War Veterans, Captain Ferguson is also member of thirty American clubs, and possesses voluntary letters of appreciation from the leading military and political leaders of United States and Canada.

Aid to Veterans

When asked about the conditions among Belleville veterans, Captain Ferguson this morning stated that there is considerable hardship due to unemployment, and also states that some six or seven tickets were purchased last week for veterans who were helped along their way in search of work. This concert at which a collection will be received, is for the benefit of veterans who are in straightened circumstances.

Tribute Paid To Dr. Wilkins

A congregation which completely filled St. Andrews Church, Trenton, assembled on Thursday afternoon to pay their last tribute of respect to the Rev W. T. Wilkins D.D., a man who had been their guide, philosopher and friend for many years. The service was held under the auspices of the Presbytery of Kingston. In the absence of the Moderator, Rev. I. N. Beckstett, the Rev. R A. Cranston was elected Moderator pro tem. Rev. Dr. McGillvery, of Kingston an old friend of the family, paid high tribute to the deceased as a man of ripest color, a genial friend, a kindly pastor and a earnest preacher. Mr Cranston also spoke of the real brotherliness of the deceased. Rev. Messrs Kerr, McTavish and Ramsay assisted in the devotional services.

THINK MEDICAL HEAD NOT NEEDED IN HOSPITAL

Ottawa, Ont., Feb. 1.—The replacing of Dr. McGibbon, former superintendent of the St. Anne Bellevue Hospital for returned soldiers by a lay superintendent in the person of Captain Boyd, will not in the opinion of the department of soldiers civil re-establishment accrue to the injury of the invalided men. "Captain Boyd, said Col. Parkinon deputy minister of the department, today, "will have charge of the business administration. The change is made to reduce the over head expense. We do not think it necessary to have a medical man on a professional salary doing the work, for instance, of supervising the laundry. The business end in short is to be attended to by an administrative staff but this does not affect the medical supervision at all."

Dr. Schacht Testifies

Shows How Germany Expects to Balance Budget

Brlin, Feb. 1.—Both sub-committees of the budgetary experts met this morning. That of committee number one conferred with Dr. Schacht, president of the reichsbank, to obtain fuller details of the currency situation. The second sub-committee began a study of the replies of the German government to the questions which the committee asked regarding the budget.

Among the mass of official data which the commission must examine is the reich's budget for 1924, which is drawn up in terms of gold marks. In this the ordinary revenue from taxation is estimated at 5,124,000,000 gold marks, while the extraordinary revenue is estimated at 130,000,000, making a total of 5.254,000,000.

MRS. LOUISE WHITE IS FOUND

Hamilton, Feb. 1.—Mrs. Louise White, who left four little children on January 3rd has been found. While half the newspapers of the continent and scores of Provincial Police officers have been endeavoring to locate the missing woman, the missing wife and mother, has geen found residing in the neighborhood of St. Thomas. She is in retirement.

EASIEST WAY OUT

Ottawa, Feb. 1.—While the succession of Hon. Ernest Lapointe as Minister of Justice and the appointment of Arthur Cardin as Minister of Marine is what was predicted when Sir Lomer Gouin retired, strong efforts were put forth by Maritime province interests to secure the portfolio of Marine for E. M. MacDonald. There were also Montreal objections that Cardin is not from that city. The course now followed is the simplest for the Government. Lapointe's transfer does not involve a by-election, while Richelieu is considered a safe Liberal seat.

THE ONLY REASON

"When I was young," said Aunt Jane, "young girls never thought of doing the things they do today."

"That's probably why they didn't do them," drawled the girl.

RUSSIAN UNREST PROVES SERIOUS

Helsingfors, Feb. 1 (British United Press). — Unconfirmed dispatches from Moscow state that the unrest in Russia has become so intensified since the death of Nickolai Lenin that several capietals report clashes between civilians and the military.

10,000 WOMEN "STUMP" COUNTRY

Cleveland, Feb. 1.—Ten thousand women speakers will stump the country in support of Democrats in this year's election campaign. A school has been opened in New York to instruct women in "spell binding".

LIKE HER MOTHER

A visitor said to a little girl at a children's party, "And what will you do, my dear, when you are a big lady like your mother?"

"Diet," said the modern child.

HOW THEY LOVE EACH OTHER

Mabel—"I have such a dread of growing old."

Maud—"Pshaw. I haven't."

Mabel—"No, I suppose you've got past that."

Children, the moon is a silver bowl
Filled with stars when out in the west
So it tilts and drops the stars to rest.

And when the moon is way uphigh
It holds a plator of silver bars,
And off they drop to be whitestars.

But when the moon comes up in the east
It rises out of a great gold mine,
And chips off stars that forevershine.

HUSBAND CLAIMED AT GRAVE!

BY MILTON BRONNER
NEA Service Staff Correspondent

LONDON, Feb. 1—As the mourners hushed in silence by death watched the lowering of the coffin of Captain Richard Lambart, war hero and aristocrat, a little figure, pathetically dressed in cheap black, edged her way through the richly-garbed throng.

Some tried to stop her. But there was no staying her. She pushed her way to the grave and cried:

"I am taking my place beside the coffin by supreme right. The dead man is my husband."

The hush grew deadlier. None of the dead man's relatives knew of his second marriage. The mourners quickly dispersed. But one remained. She carefully placed a small bunch of white chrysanthemums on the mound, and sobbed:

"Baby Joy says 'Good-bye, Daddy.'"

And that was all. For it was the closing chapter of a tragedy, as gripping as any invented in fiction—a tragedy of a girl who married out of her class.

"Captain Lambart ran a restaurant in London," Kitty Lambart told me. "We met when I was given employment. Later we were quietly married. He wanted to keep our wedlock secret so that he would fall heir to certain legacies.

"Then my bitterness began. I was married, but I had to hide my wedding ring. I was married, but my husband kept the fact hidden. I was married, but he continued to be the boss and I the hired waitress.

"Imagine my feelings when some of his fine lady friends came in and were entertained. And I waited on him and them. He spoke to me coldly, severely, just as he would to any other employee.

"Once he fined me for leaving crumbs on a table.

"Then he fell ill and his relatives took him away to a private hospital, where he died.

"For a time his relatives sent me 4 pounds a week. After his death I got a final remittance of 5 pounds."

All that the future holds for Kitty Lambart is search for a job—and painful memories.

"But I can pass on this advice," she says, "so that others may be spared the suffering I have to endure:

"Girls, marry in your own class and kind.

"Love cannot bridge the difference between a working girl and an aristocrat.

"A wife's devotion to her husband and his interests cannot overcome family prejudices."

MRS. KITTY LAMBART AND HER BABY, JOY.

CHANGES MADE BY FERGUSON

Toronto, Feb. 1.—A number of administrative changes were announced by Premier Ferguson today. It has been decided that in the future matters pertaining to the roads and bridges in Northern Ontario will be handled by the Northern Ontario Development branch instead of by the highways department, as at present.

The workmen's compensation board has been transferred from the department of health and labor to the Attorney-General's department.

The government has reduced the wolf bounty which from now on will be collected by the fish and game department instead of by the treasury department.

"Genius"

Henry Cowell of California, shown here, has just returned from Europe after a successful tour which has set music lovers up in arms over his methods. He uses his fists, fingers and elbows and yanks the strings inside the instrument. Modernists call him a genius. Others say he is all wrong.

INDIAN DIED AT 103

Grove, Okla., Feb. 1.—Robert Daniels, 103-year-old half-blood Cherokee Indian, died at his home near here of pneumonia. Born in the old Cherokee National territory in Georgia in 1820, Daniels moved to this section of the west with his tribe in 1836.

With the Soviet, lie-ability is counted as an asset.

Poor Woman Gag Nets Lone Thief Good Sized Haul

Washing Solicitor Decamps With $800 in Goods—Three Other Robberies

Montreal, Feb. 1.—Montreal police this morning are searching for persons who committed four robberies during the late afternoon and last night, and early today had two men in custody, who will be charged with breaking and entering.

The first theft to be reported was the loss of goods to the value of $800 from the apartment of Fred G. Lancaster, 5864 Sherbrooke street at 4 o'clock yesterday afternoon. Mrs. Lancaster answered a ring at the door. A woman said she was looking for washing to do, and pulled the same old "sob stuff". Mrs. Lancaster went to collect some laundry, and when she returned to the hall the woman was missing. Also gone were furs, jewelry and clothing to the value of $800. The woman is believed to be the same who has worked the same stunt in other houses.

As Alfred Mackay was leaving his residence at 128 Roy street at 5 o'clock yesterday afternoon he was held up by a man with a revolver. Mr. Mackay parted with $50 in cash, his gold watch and a locket. He notified Constable Desjardins who is searching for the hold-up man.

Early today two men were arrested. They were believed to have been concerned in the robbery of $9 in cash and half a dozen apples from a shop at 299 St. Lawrence boulevard. Someone broke a window and entered the shop. One of the men arrested had four apples in his pockets, which the shop keeper identified as his.

Some one entered the basement of the Mount Royal school at 1280 Clark street during the night and stole a small quantity of stamps, pens and other small articles. The police believe it was some one familiar with the premises.

ATMOSPHERE CHANGED

Wife—You used to rave about how fair I was.

Hub.—Yes, but now you do nothing but storm.

CALIFORNIA'S PROBLEM IS ENFORCEMENT OF LAND LAWS

San Francisco, Feb. 1 (United Press) —California land owners who have farmed their land under "cropping contracts" with Japanese, Hindus or Chinese must by the end of this coming summer make other arrangements for tilling their soil.

State authorities, particularly the district attorneys of the various counties, working as a unit under the direction of the state attorney general, have at last brought the alien land law clauses out of the woods and intend to force them to the letter.

In a recent conference here attended by district attorneys of 49 of the 58 counties a uniform plan of enforcement was evolved. Landowners and others dependent upon the working of land for their business in the Sacramento, San Joaquin and Imperial valleys of the state, are particularly affected.

Here crops are grown that call particularly for intensified labor to wring from the soil the best it can produce Japanese and Hindus especially, under croping contracts by which they snare the profits of the land, have been found best suited for the kinds of crops raised in these localities.

Root egetables, berries and in many cases deciduous fruit orchards, which form an important part of the California fruit and vegetable crop and rice have been farmed by aliens ineligible to own the land they tilled but who were spurred on to greater effort of cultivation by a reward proportionate to that effort.

Looking For White Farmers

Under the enforcement of the cropping contract clause of the law, this labor under such conditions is no longer possible. If cropping contracts are to be made, they must be made with white people or with those who are citizens of the United States. If Japanese, Chinese or Hindu labor is to be used, the day wage is the only legal basis.

Because of its willingness to put in long hours, working its family as well as itself, under contract, Mongolian labor has been exceedingly profitable to the landowner, as well as to the laborer. Many of the latter have become rich, enabling their children, born in this country, and eligible to citizenship, to acquire land denied their parents.

This agriculture structure now must rest upon the shoulders of white labor or upon the Mongolian as a day wage man. White labor will not put in the long hours as does the Mongolian and few Japanese will make adequate returns for their labor on a day wage basis.

Landowners, therefore, must dangle attractive propositions before the eyes of white farm laborers, must greatly improve living conditions better avenues of communication, establish schools, in short spend far more money than they ever did for the Mongolian with the hoe.

The proportion of the state's agricultural structure which must be thus re-buttressed has never been adequately estimated, but it runs into a high figure.

Landowners have been dealt with extremely leniently in view of this necessity for reconstruction. Since the law was passed by the 1920 session of the legislature, it has been fought in the courts while landowners continued to farm as before, hoping that the cropping contract clause, at least would be invalid.

Carried to High Court

The state supreme court did hold this clause invalid, but the United States supreme court reversed the state court. Not only did the federal court uphold the constitutionality of the clause prohibiting the Mongolian from leasing land or owning it, but that portion of the law prohibiting him from having any interest whatsoever in the product of the soil.

The federal court decision theoretically dissipated all doubt as to whether the alien land law was effective. Following that decision no more cropping contracts should have been made should have moved at once in applyand state enforcement authorities ing all its provisions.

In many cases, however, contracts were made for the crop season just passed, as usual. Landowners who entered into such agreement may be prosecuted, but due to the strain of the situation, leniency has been the unwritten order.

State Attorney General U. S. Webb shortly after the first of the year decided it was time for a halt to be called and everybody put right as to the law. The district attorney conference was called, the landowners warned, and the expiration of all contracts set for the harvesting of crops now in the ground.

Most of the contracts have been made for only one crop season. These cannot be renewed. Those running for a longer term must be cancelled.

Attempts at Evasion

There already have been attempts at evasion. The Japanese in many cases have formed organizations to fight enforcement and have employed counsel. The favorite method is organization of a cropping company, with Japanese owning 49 per cent of the stock. This has been prohibited. Bonuses for crop returns are forbidden, and any concession which landowners might make to hold the Mongolians which they would not extend to the white, such as long term employment agreements at high wages, is considered illegal. The effects of the enforcement are obvious. California will be able to place greater numbers of white farmers who can handle root and berry crops, rice and orchard land. It will mean a great deal of crop education aside from industrial teaching. California soil in districts where Japanese have done the farming is such that to obtain success the farmer must literally stick his nose in the furrow and go at the work with his hands. Such farming, aside from the agricultural knowledge necessary is irksome to the white man.

That much farm labor will flow to California or from California cities to California land, now that the competitive pressure of the Japanese is ended is inevitable. What the result will be how many will stay, what effect it will have on California's supremacy as a wide-range crop state, is too early to estimate.

The effect on the Japanese themselves will be marked. They will be dispossessed of rich crop returns and the rapid accumulation of their wealth will be retarded. Many will return to Japan. Others probably will filter into the agricultural life of other states with mild climates. Still others will remain here, turning their busy brains to inventions of ways "just as good" to make money.

Consul General Casima of Japan estimates there will be 10,000 Papanese farmers, exclusive of their dependents affected by the law's enforcement. He predicts that his countrymen will submit to such enforcement. The Japanese empire itself will be affected indirectly, and in a certain small measure, because of the interruption or lessening of money sent regularly by those who have left dependents at home, or who pay fealty in cash to the home clan.

From Egypt

Egypt has a minister to the United States now, Teifoullah Yousry Pasha, who is pictured above. The Egyptian embassy flies an Egyptian flag, and the minister was received at the White House.

THOUSANDS OF 'SALTS' IDLE AND PENNILESS

Liverpool, Eng. Feb. 1 (United Press) —Never in the history of British shipping have conditions been so bad as they are to-day, according to Thomas Scott, secretary of the Mercantile Marine Service Association. It is estimated that 2,000 British sea captains and mates are idle, with little prospect of employment. Many of them have not been at sea for two or three years and, their savings exhausted, they are on the verge of starvation.

It is estimated that 30,000 other sailors are idle, living on the unemployment benefit. They rendered service to the country during the war when the submarine menace was at its height. To-day, owing to the slump in the shipping industry, they have almost forgotten what it is like to feel a deck under their feet.

Captains are trimming lamps and swabbing decks for $50 a month as ordinary seamen; others are doing menial jobs on hand. So far, nothing has been done to stimulate the carying trade.

These conditions show why England is so anxious to stimulate trade with Rusia and Germany.

SUB-COMMITTEES MEET

Berlin, Feb. 1.—Both sub-committees of the budgetary experts met this morning. That of committee Number One conferred with Dr. Schacht, president of the Reichsbank to obtain fuller details of the currency situation. The second sub-committee began a study of the replies of the German government to the questions which the committee asked regarding the budget.

Kentville, N.S., Feb. 1.—Dairying is proving to be one of the big features of the Nova Scotia farmer's activi

HACKER WANTS AUDIT OF BOOKS

Toronto, Feb. 1—When the report of the audit of the 'oCnsumers' Gas Company's books for 1923 was submitted by the city auditor to the board of control today, Controller Hacker urged that the mayor make an effort as a director of the company representing the city to have made a proper audit of the audit of the Consumers' Gas the basic cost of producing gas. He pointed out that special audits had been made in 1918, 1919 and 1920.

"I will do anything you ask that I have power to do," promised Mayor Hiltz, "but I don't want you to ask me to do something I can't legally do. Please dont' pass the buck to me by asking me to do something I can't do and then say I would not do anything."

"I don't say that you have," said the mayor, "but I read the report of a speech in which you gave me warning if I didn't do something."

"No warning at all," disclaimed Con. Hacker, "It was nothing like a warning.

Mayor Hiltz said that owing to pressure of work he had not had time to act on a letter of Controller Hacker in reference to the gas audit.

Con. Hacker agreed to allow the other motion to remain on the order paper without good reason being shown," declared Con. Cameron in reference to Con. Hacker's motion asking for the city solicitor's resignation.

"That notice of motion is not going to stand with my consent without my voice being raised."

"That is your privilege," retorted Con. Hacker. "The city solicitor is not holding a brief for the gas company."

"He is holding a brief for the citizens," replied Con. Cameron, "and he is holding it very effectively."

CUSTOMS SHOWS HUGE INCREASE

Receipts Jumped $23,415,176 During Past Ten Months

Ottawa, Feb. 1.—Customs and excise revenue during the month that closes to-day totalled $23,638,329 an increase of $1,454,105 over January last year. The total customs and excise revenue for the ten months of the fiscal year ending last night amounts to $252,708,868; an increase of $23,413,176 over the corresponding ten months of the previous fiscal year.

As compared with the ten months of 1922-23, customs import duties show an increase of $3,462,773; excise taxes an increase of $18,841,401; excise duties an increase of $1,929,262, and in sundry collections an increase of $181,739.

In every branch of customs and excise revenue there has been an increase during the ten months of the fiscal year over that of the ten months of the proceeding.

INSTINCT BETRAYS DUCKS THOUSANDS ARE STARVING

Edmonton, Feb. 1.—Instinct has betrayed thousands of ducks at Buffalo Lake, near Camrose. Lured by the open fall, these birds, raised last year, decided it would not be necessary to migrate to warmer climes. Now they are starving and the death rate among them is high.

During the long open fall they were able to get sufficient feed from the grain fields about the lake and water from places where the lake was still open. With the recent heavy fall of snow their feeding grounds were covered up and only by their united efforts have they been able to keep an open space in the lake.

HOW STARS ARE MADE

"Can you tell us," the children cried,
"How the stars go up in the sky
"Why some are low and some are

MACDONALD WILL PROCEED SLOWLY

Gov't Not To Be Stampeded Even on Unemployment Problem

London, Feb. 1.—That the new Government is not disposed to act hastily even on such a problem as unemployment is seen in a statement made yesterday by Ramsay MacDonald, the premier, to a deputation received in Edinburgh.

It was a private function and no reports of the statement was issued, but, according to a statement made by the Rev. Mr. Warwick, a member of the deputation who afterwards addressed a committee of the unemployed, Mr. MacDonald said that any measures for relieving unemployment must depend on the financial arrangements which it would be possible to make. Therefore, the unemployed must be patient and wait until the various departments were in complete working order and able to handle the Administration successfully.

Further, according to the Rev. Mr. Warwick, the premier promised that he would put forward such subjects as recognition of Russia; credits at home and abroad and housing and unemployment when Parliament resumed its sessions.

MOTOR LEAGUE IS LIKE GOVERNMENT

Toronto, Feb. 1.—With the Directorate in Toronto resembling a federal cabinet, with the secretaries of the numerous local clubs acting as members of a federal house of commons, with the directorates of the local clubs analogous to provincial cabinets and with local club memberships akin to memberships of provincial parliaments the Ontario Motor League during the past years has been assuming more and more all the characteristics and complexities, cares and responsibilities of a system of Government.

The League now stands completely organized. Through the offices of the local clubs it is kept in close contact with sentiment of motorists from one end of the Province to the other, and is enabled to formulate policies in respect of questions of interest to motorists the province over.

Through its local clubs it is enabled to function where questions of purely local interest arise.

During the part year the affiliated clubs of the League have been carrying on very actively and to the benefit of thousands of motorists. They have kept in close touch with road building operations in their localities. They have made recommendations in respect to these operations, and they have been enabled to keep the entire provincial membership of their parent organization informed as to road work and road conditions in their respective localities. They have functioned with very great usefulness through their tourist information bureaus and during the touring season all of them receive many applications for information daily, from members and from tourists.

The local clubs have been particularly active during the past year in direction and locality signing in their territories. A move which originated in 1923, and which has assumed considerable proportions has been that to mark all the concession roads. The average resident of a locality speaks of concession roads as if they were very well defined and individually characteristic boundaries, but to the stranger one concession road looks confusingly like another.

Another activity of a number of the local clubs have been that of inducing rural residents to have their names inscribed more legibly upon their letter-boxes. These letter boxes could then be used as local guide posts.

Belleville Juniors Win Group By Easily Defeating Trenton Six In Game At Local Arena, 4-2

Locals Step Into Lead From First Tap of Gong and Are Never Headed—Four New Faces on Line-up of Local Squad—Strachan Makes Excellent Showing—Wardhaugh is Hard to Stop, Netting First Goal

Belleville Junior O.H.A. six won group honors at the Arena here last night when they easily disposed of the Trenton sextette in an ordinary game of hockey by the score of 4-2. Though the players had a fine sheet of ice to work on, the game was mediocre and pepless especially in the first frame. The other two periods were slightly more active, but there did not apparently appear to be sufficient laurels at stake for the players to wade in, as the group honors come to Belleville, win or lose. Trenton were never dangerous, and once the locals got a lead they played to hold the opposition mostly.

PRESENTS NEW TEAM

Then of course the locals presented a new team last night, as many as four new faces being seen in the game. Almost all four lack finish and experience, and were at the disadvantage of not having had the team play experience. Despite those facts, however, the new boys turned in creditable exhibitions. Although Lloyd donned the pads and protected the citadel in the first twenty minute go, a new player, Laporte finished the game between the posts, and acquitted himself very favorably before the few critical fans who saw the game. Delahay, a student at Albert College, whose home address is Pembroke, was used at centre part time, and played a fair game. He was too slow in shooting, however, and lost a golden opportunity of scoring once when in the goal mouth by waiting until the Trentonians were on him like so many hornets. Atchieson, another Albert boy who formerly played with Midland juniors, was used throughout the game at left wing. Atchieson is a hefty, lanky fellow, and his chief asset last night was weight, although he did do some fair checking. His stick handling was ordinary, and he shot at goal from way out invariably. Young "Red" Townsend another new kid, played a very nice game while on the ice. He was frequently subbed.

Strachan Looks Good

Bill Strachan was the best appearing player for the locals, although he was watched closely. Al Wardaugh who usually gets goals, and makes his presence felt, was away off last night, his effectiveness bing at a very low ebb. At one time on a rush with Hunter, who very unselfishly passed to him in the goal mouth, he missed the net after drawing Lewis out, for the softest looking chance of the evening. Hunter's work was noticeable when he worked, but he does not "swim into the fray". Hunter has a dangerous shot and is a tricky stick handler, and should create much "whoop de do' if he would wade into it.

Were Never in Danger

The locals had two-thirds of the play and never were in danger and yet they could not get goals. Their shots were as wild as hawks, especially Hunter and Atchieson, who possibly pack the hardest shots of any. This failing is a bad one for if it is impossible to find the net, the opposition may safely leave their net guardian "to home." The locals used plenty of combination, and were for the most part unselfish in their passes, although there were a few cases where selfishness prelominated and no goals were tallied.

Trenton blue and whites are a very ordinary team and apart from Bohan and Normie Wells, the midget wing man, their team does not attract attention. Wells is a nimble kid with speed and handles his "war club" with dexterity, and with a peculiarity all his own. Taking a short hold of his stick, Wells carries the puck with the very heel of the blade. Goaler Vern Lewis also turned in a good game, making many splendid saves.

Wardaugh Scores First

Wardaugh netted Belleville's first goal in the first frame when taking a short pass from a scramble in front of the net, he poked one by Lewis. Strachan took a pass from Townsend at centre ice, and choosing centre ice for his rush bored right in and with a swift shot bulged the twine for number two. Johnny Hibbard grabbed the disc right from the face off in the second period, and with a swift and accurate shot from the corner, and at close range he found a corner of the net for the third. Young "Nipper" wells opened the score column for the visitors in this stanza when on a pretty rush about half the length of the rink, in which he stick-handled by everyone save the net guardian, he beat Laporte with a clean shot for their first. Hibbard came right back however, after the face off and slammed in Belleville's fourth and last. Wells bore in on Laporte similarly for Trenton's number two which was a clean cut goal.

The lineups:

Trenton—Goal, Vern Lewis; Defence, C. Hood and A. Waldron; Centre H. Bernard; Wings, N. Wells and R. Anderson; Subs. C. Purdy, J. Bohan and A. St. Onge sub. goaler.

Belleville—Goal, Laporte; Defence, W. Strachan and [illegible] Hunter; Centre, Delahey, Wings, Atchieson and Townsend; Subs. A. Wardaugh and J. Hibbard, Sub goaler Lloyd.

Referee—Glaston Frechette.

OBJECT TO SUNDAY OLYMPICS

Paris, Feb. 1. (United Press).—Eric Leddel, Scottish sprinter, has advised the Olympic Games Committee that he cannot complete in the 100 metres event because it is scheduled to be held on Sunday and it is against his principles to race on the Sabbath. Many other athletes will it is believed, be influenced the same way, and already there is agitation by a section of the press to change the Sunday dates.

NEPTUNE BEATS KING

Madrid, Feb. 1 (United Press).—Seasickness has a slave. He is Alfonso XIII, King of Spain. The king loves the sea and would rather walk the bridge of a ship than sit on the throne. But the royal ambitions and the royal stomach don't mix. This was painfuly demonstrated on the recent voyage of the Spanish rulers to Italy. His majesty was terribly sick most of the time.

CITY LEAGUE GAMES

Tonight, two city league games will be played. The first game between the C. N. R. and Albert College and the second between Wolves of North and O. S. D.

ON THE ALLEYS

Domenicos Recreation Alleys

In one of the best and closest games of bowling was witnessed at the Recreation alleys last night between the Veterans (Lucky Strikes) and the Belmots, the former winning out by 36 pins, both teams rolling over 1800. Miss Rouhan tied the alley record when she rolled 226. Miss Harris of the opposing team had the three strings namely 475.

In the junior league the K. of C. won their third straight game when they downed the Baby Shoes. Goodwin rolling 260 and 631. The second junior game was between the Mac's and the Belleville Motors, the Mac's taking this game by a safe margin. Scores and players.

EXCELSIORS REGISTER FIRST LOSS

After winning ten straight league games on the Y alleys, and incidently the Fall League Championship without a loss checked up against them, the Excelsior Ladies Team suffered an interuption to their winning streak when they met the Granites in a league fixture last night. It was quite a strenuous game from start to finish with the Excelsiors trying all the time to overcome the lead which Granites obtained in the first of the three game match. They managed to reduce this somewhat in the second and final game but were still 32 pins down when the contest concluded. Last night's win was the third straight for the Granites and in so doing they advanced to first place in the league standing.

KINGSTON ANXIOUS TO ENTER C.O.B.L.

Oshawa Ont., Feb. 1—The executive of the Central Ontario Amateur Baseball League will meet in Port Hope on Saturday to pay their last respects to their departed past president, Sandy Lockington. Later in the afternoon the executive will convene to pass on the Kingston Amateur Baseball Association's request for admission to the league for the season of 1924, as the secretary of the league this morning received a deposit of $25 from the Limestone City to cover cost of meeting. Peterboro Oshawa and Belleville have signified their willingness to admit the Easterners and it now looks like a four team circuit for the coming paying season.

HOPPE BEATS SCHAEFER.

Cincinnati, O., Feb. 1.—Willie Hoppe world champion billiard player, defeated Jake Schaefer in the second block of a 1,600-point match here last night by the score of 400 to 243. The match now stands: Hoppe, 800, Schaefer, 496, the champion having won the afternoon game, 400 to 253. The final two games will be played this afternoon and evening.

BOWMANILLE BLANKS WHITBY

Whitby, Feb. 1.—Ginger Edger's Bowmanville intermediates applied a liberal coat of whitewash to the Whitby Veterans here last night, shutting out the County Town outfit by 8 to 0. This defeat makes the cellar position in the group sure for Whitby. There was no score in the first period, but Bowmanville got four in the second and four in the last. The teams:

Bowmanville—Goal, Cannon; defence, A. Piper and Densem; centre, I. Piper; wings, Avery and Moyse; subs., Crossey Rice and Cowlell.

Whitby—Goal, Brown (O'Connor) defence, Diver and Mayne; centre, Rice; wings, Charlton and Bundy; subs., Rogers and Toms.

Referee—H. H. Jacobi.

WELL KNOWN SPORT GRANTED AMATEUR STANDING

At Hamilton yesterday the registration committee of the Ontario branch of the A. A. U. of C. held a meeting to consider the applications for the holding of amateur sporting events.

The application for an amateur card of Harold Brownscombe, now of Toronto and late of Belleville, was granted.

FEW ONE-PUNCH FIGHTERS IN RING

New York, Feb. 1 (United Press).—"Jack Dempsey," says Bill Nolan, commenting in a western paper, "is a great fighter, but he can't stop 'em with one punch, like Bob Fitzsimmons could. When Fitz hit 'em, they stayed down."

Nolan, who managed Bat Nelson and Willie Ritchie and who made poor old Joe Gans weigh in with his shoes and gloves on, saw the Dempsey-Firpo fight, and gave it as his opinion afterward that Firpo would have been a cinch for Fitz.

"Firpo got up eight or nine times after being punched by Dempsey, but he couldn't have taken more than one from Fitz. Dempsey can hit, but he lacks the knack of hitting so that the punch is deadly."

There are no one-punch fighters among the champions today and there weren't very many among the old-timers.

If Fitzsimmons had the knack of keeping his man down with one punch he learned after he fought Jack Dempsey, the Nonpareil.

Dempsey has won several fights with one punch before he won the championship, and if he failed to do it since he won the title there is a reason for it.

Dempsey couldn't get a fight if he topped all his opponents with one crack. He could have stopped Carpentier with one shove. He didn't even knock out Tom Gibbons, but there hasn't been a fighter in the heavyweight class who could have stopped Tom with one punch.

Against two of the biggest men in the ring—Willard and Firpo—Dempsey won in such short time as to rank himself with the best punchers of the class.

Arguments on the subject will not prove anything, but it is very doubtful that Fitzsimmons or any other former champion of the class could have won any quicker from those two giants than Dempsey did.

• • •

Frank Chance, who has the rep for making the boys do as he says, has ordered that the White Sox players next season shall not smoke cigarettes, shall not drink "likker" and shall not have their wives tagging along on the road trips. That makes the P. L. eligible for the vice-presidency on one of the "Donters" tickets next fall.

If Commissioner Landis sustains the argument of Urban Shocker that a player, rather than the player's club has the say in matters pertaining to his wife, the non-wife order on several clubs will cease to function.

Cigarettes will only taste sweeter to the boys when they are forbidden.

• • •

Running hot and cold water in the dressing rooms is to be one of the novel accommodations the French Olympic committee is going to provide for the boxers who compete in the Paris games next summer.

Running water in the corners and a sink in which to empty the dirty water from the buckets also will be provided.

Electric fans and radio ear attachments to carry words from the coaches during the rounds, for some strange reason have been overlooked.

Th committee is considering specifications for a sliding couch that can be adjusted with great speed behind a falling boxer with springs strong enough to set him up again.

The French sure do do things!

New rules have also been approved for the boxing bouts. Each bout will consist of two three-minute rounds and one four-minute round, and in no case will an extra round be ordered. The committee takes a reasonable stand that at the end of three such rounds either of the boxers is the winner or it is a draw.

The judges, in handing in their slips at the end of the round, must note the number of points given to each boxer.

• • •

Benny Leonard and Mickey Walk are as good as matched to fight th summer for the world's welterweigh championship. Leonard does not lik to fight as a lightweight and Walk is afraid of the welterweights. Bo of them hate decisions, and it is pr bable that they will fight in New Je rey.

Leonard figures that the match wi draw $700,000. He should say that h hopes it will draw that much as h will work for a percentage. If the t price for seats is kept within reason and it is limited in Jersey—the matc will not draw anything near that su

No fans are violently agitated abo Leonard when he steps out of class. He acted so peculiarly in last attempt to win the welterweig championship by fouling Jack Britt when he was out, that he seemed have a reason for not wanting title.

Perhaps he may still have the s reason.

Walker has been so cautious si he won the championship that it w create some speculation if he d sign to fight Leonard.

As a match it would be one could do boxing no good and it woul not be permitted in New York, whe most anything goes.

• • •

The same bird who chirps abo boxing being the "manly art of s defense" and about boxing win the war, have figures to show that more athletes have been killed in playing baseball, football and hockey and in riding horses and automobiles than fighting in the ring.

OF INTEREST TO WOMEN

Home Remedies Of Our Ancestors

Almost every man and woman in America can remember the botanic recipes of our mothers and grandmothers for the treatment of disease and they were wonderfully dependable too. Every fall there were stored away in the attic, thoroughwort, pennyroyal catnip, sage, wormwood, rue, etc. for treating ills of the family during the winter months that followed. In 1873 Lydia E. Pinkham's Vegetable Compound was first prepared from one of these botanic recipes, and the demand for it has increased to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation. It has recently been proved that 98 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.

NOT TO EXTEND LIQUOR LAW BUT WILL TAX GASOLINE

Quebec, Feb. 1.—Two important decisions were reached last evening at the Liberal caucus held at the parliament buildings, when it was decided to impose a tax on gasoline in this province and not to make any change in the Quebec liquor law in the line of extending its scope.

MODERNIZING HAMLET

In the Player's scene in "Hamlet" the following lines occur:

Player Queen—In second husband let me be accurst.

None wed the second but who killed the first.

Hamlet (aside)—Wormwood, wormwood.

It is reported that at one performance recently Mr. John Barrymore changed Hamlet's comment to "Hollywood, Hollywood."

MRS. A. A. FOULGER

This Nurse Sends a Message to Every Woman in Canada

Brantford, Ont.—"During twenty-one years of experience at nursing, I not only took Dr. Pierce's Favorite Prescription myself to keep up my health and strength, but I have also recommended it to many a patient, especially to prospective mothers, and think it is by far the best tonic and nervine that a woman can take, and for that reason I give it my highest endorsement."—Mrs. A. A. Foulger, 41 Sheridan Street.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package.

See Smart Dancing Frocks In Parisian Dance Palaces

By HEDDA HOYT
Fashion Editor of the United Press

Paris, France, February 1.—To really obtain an authentic idea of the smartest frocks that Paris turns out one must visit the rendezvous where the stage luminaries, fashion leaders and women of wealth rub elbow with the midinettés, tourists and women of the demi-monde.

The dancing palaces offer one of the most varied and exclusive selection of frocks in all Paris. In these smoke-filled rooms, resounding with American jazz, are assembled women of nationalities as varied as their personalities. In this mixed crowd one has a peculiar feeling of "homeiness," for English seems to be the Esperanto of the multitude. Even the little French girls sing, "Oui, we have no bananas," as they trip to our American tune.

But, of course, here we see only the dance frock. For the formal evening gown, with its scant and sinuous lines, one must go elsewhere. Paris decreed more fullness in frocks this year than last and the dance floor is where we see the greatest evidence of fullness.

Everything is made with a swinging movement. Gowns of luxurious brocade terminate in circular fur-bound hems, chiffon widen into sunburst pleats. Frocks of gold-cloth use pleated skirts of gauge with pointed hemlines and velvet gowns use circular godets to conform with the movement of the dance.

The Skirt the Thing

It is the skirt, in every case, which distinguishes the dance frock from the more formal type of evening gown, for bodices remain much as they were last season on gowns of both types with simple basques, rounding necklines and armholes.

Waistlines continue below the normal in spite of attempts to heighten them and girdles are again being used to accentuate the joining of basque and skirt. In spite of the fullness concentrated on the dance frock, it still has the appearance of being slender rather than bouffant. Occasionally one sees a skirt composed of tiny ruffles posed over a satin foundation of the same shade but even here the effect is not entirely bouffant.

Lanvin is still showing some of fthe slender heavily beaded frocks which seem never to leave us. One of dull orange velvet, beaded in bronze, is particularly lovely. Of the velvet frocks one sees far more black than colors, the black being unrelieved by color except when ermine trimmed. One of the latter type shows a fringe of ermine tails, outlining the joining of the bodice to the circular skirt. Another uses round medalions of ermine here and there on the skirt, with tails of ermine forming the medallion centers.

At Zeilli's I saw a remarkable velvet gown of the belteless princess type. Beginning at the neck in gold velvet, it gradually deepened in tone to a gorgeous shade of bronze and ended with a band of brown fox. Material for such a gown could be made by any Batik artist although the effect was anything but Batik.

Hula Evening Frock

Another gown worn by a French actress was made with a long cloth of gold basque and a HULA skirt effect formed by hundreds of loops of gold ribbon on the skirt. With this she wore a necklace of brilliant orange beads, assimulating the Hawaiian lei. The effect was quite startling.

Regardless of warmth, wraps of some sort are invariably worn into the room Often they are Spanish shows, or capes of shirred chiffon, which are worn under the furcoat in the taxi.

Headdresses, favored at present by the American women, are not being worn by the Parisian, who refuses to wear anything which will diminish the sleekness of her new coiffure.

Evening Accessories

Huge single pearl rings are worn on the fourth finger of either hand.

Some of the younger women wear tiny colored handkerchiefs pinned to their waistlines with jeweled brooches—like we used to do in the "days that are gone forever."

Evening hosiery is invariably nude toned, the nuder the better.

Brocaded silver slippers rule in evening footgear. Plain silver pumps are quite as popular as are those with cutouts and many straps.

Even at the most formal evening function the Parisian remains gloveless. Instead of the bracelets of rows of pearls and the many colored bracelets that jangle, the Parisian prefers to wear but one or two bracelets of flexible diamonds or brilliants.

The wearing of artificial flowers, velvet orchids in particular, is quite the rage at present. Usually the orchid is placed on the right hip of the frock.

Girl Resceed From Burning Building By Montreal Fireman

Was Trapped in Berri Street Tenement House—Four Families Made Homeless by Disastrous Fire

Montreal, Feb. 1.—Trapped in a room on the fourth floor of a tenement house at 145 Berri street, 22 year old Jean Sarrazen, of Quebec ity, had anarrow escape from death at 11.30 this morning, and owes her life to the bravery of fthe firemen who entered the buliding and carried her down the ladders to safety. The blaze, which made four families homeless and badly damaged a four storey building broke out in the front room of the dwelling occupied by Mrs. Gauthier, on the third floor and sphead rapidly to the second and fourth floors. All the ocupants with the exception of Miss Sarrazen succeeded in leaving the place before the flames gained volume, but the young lady, who was only visiting Mrs. Gauthier lost her sense of direction. When she finally found the stairs, the fire had gained such headway that it was impossible to descend. Firemen of the eastern division under District Chief Sarrazen found the three storeys of the tenement in flames when they arrived. It was difficult to place the ladder as the fire was leaping out of the windows and the dense smoke almost smothered the men. Suddenly from a window in the fourth flat the firemen saw a young girl who was shouting for help and waving her arms. A ladder aws immediately run up and though the fire was at its height several firemen mounted, entered the room which was all ablaze and carried the hysterical girl down to the street. Soon after the rescue the blaze was under control. She third and fourth floors were found to have been burned out while the second floor suffered from fire and water and the fround flat was flooded. The total damage, according to the occupants will reach over $5,000. The cause of the fire is unknown.

INEXPERIENCED

A stingy man got a hot shot from his wife when he reproved her for taking a counterfeit bill.

"I don't see how you were dumb enough to let a man pass counterfeit on you," he roared.

"Well, you don't let me see real money often enough to know the difference," she hurled back at him.

All men are born free and equal, but some of them grow up and marry.

RECORD FAMILY SERVICE

What is probably a record for long service in the employ of one company has been established by the family of the late Mr. George F. Snyder, for more than 50 years an employee of the Grand Trunk Railway, now part of the Canadian National Railways System. By combining the service of Mr. Snyder with that of his four sons and two daughters, a total of more than 150 years in the employ of the Canadian National Railways is established. Of this total; the late Mr. George F. Snyder served 50 years and 9 months; and his son; Mr. George A. Snyder, 49 years and 3 months. The photograph on the left is that of Mr. George A Snyder, who is still in service as Day Supervisor of the Railway Telegraph Department of the Canadian National Railways at Montreal. The photograph on the right is that of the late Mr. George F. Snyder.

Are
your eyes
100 p.c.
efficient?

We don't expect you to answer yes or no to that, because we realize no one knows the answer to this question until his eyes have had a thorough examination. The well-informed person makes it a point to KNOW about his eyes, the knowledge is very valuable to him. I can tell you about your eyes and give you the help they need.

BLAMING THE HEART

I have had the privilege on a number of times of examining Johnny Dundee, world's champion boxer, before he entered the ring.

If ever a man should have what is called athlete's heart it is he. Athlete's heart is supposed to be some form of disordered action of the heart.

And yet his heart is as clear as a bell, beating sixty or less to the minute, and with a rhythm that is perfection itself.

His fights, and he has fought hundreds, of battles, and is still champion of his class, have not affected his heart.

Why?

Simply because he is always under light training and never really gets out of condition. Excitement is apparently unknown to him. Fighting is a sort of regular business.

I don't know where the idea started, but it is often stated by young men that they had been indulging in athletics so much that they had to stop, on account of the way the said athletics were affecting the heart.

A properly trained athlete cannot injure his heart because of the actual training he does.

Unfortunately training, particularly in colleges has got to be such a science, that high strung young fellows begin to have trouble with their nerves.

The heart acts in sympathy with the nerves, begins to lose a little of its regularity, to beat perhaps a little more rapidly than normal. Immediately the trouble is called "athlete's heart" and the chap thinks he has heart disease.

Now the stopping of hard athletics at this time is good sense all right because he is actually stale, but why blame the heart for it? If that chap be taken off the training table and sent home for a week or ten days, he is ready to start active exercise again.

Do you think that if he had recuperated so quickly.

No!

What's been the trouble?

His nerves have given out because he has eaten, slept, and played his athletics.

Where the coach is a diplomat and philosopher, like the famous Mike Murphy, staleness is unusual.

The nervous strain has exhausted him not his actual participation in athletics.

Say Film Star, Doing Diving Stunt, Found Treasure Chest With $43,000

Key West, Florida, Feb. 1.—Finding a fortune while under the sea is the experience of Miss Jean Tolley who, while doing her stunt in a movie scene at Nassau, discovered a chest containing the sum of $43,000, according to the story told by those who returned with her from Nassau, one of the Bahama group of islands.

As related, Miss Tolley was doing a diving scene and when in fifteen feet of water, noticed something protruding above the ocean bed and upon investigation she found i tto be an iron handle of some sort.

Coming to the surface of the water she told of what she had seen below the water, and divers were ordered to investigate. The result was an old chest of some very hard wood, bound with brass and having handles of the same material. When the chest was opened it was found to hold old Spanish and British coins.

As is ordered by the British law all such finds must be reported to the British admiralty, and Miss Tolley at once reported the finding of the treasure chest. The British government allowed Miss Tolley to retain two-thirds of the amount found in the chest and the remainder was turned into the treasury.

Make Your Own Syrup with
MAPLEINE
Just dissolve sugar in hot water and add Mapleine for delicious flavor. Total cost about 28c a quart. You'll enjoy it on your pancakes.
Grocers sell Mapleine

W. C. T. U. NOTES

The liquor party in Quebec (under Government Control) is putting up a big bluff to the effect that the manufacture of poisonous illicit spirits is practically unknown in that Province, and that bootlegging is kept within bounds. Not long ago the Montreal Star published the following:

"The illicit brewing of liquor has reached such proportions in some of the border counties in this Province in the last few months that shortly, it is learned, His Eminence Cardinal Begin, is to issue a circular letter in which he will warn the faithful that such abuses will be severely dealt with by the Church.

Doubtless the man with the illicit still, still argues with his conscience that he has as much right to make money out of liquor as his Provincial and Federal Governments have. Liquor is not simply a narcotic drug that deadens alone the physical man. Its use as a beverage, and the gain that comes from participation in its traffic, deadens the conscience alike in individual and in government.

The very fact that the government is soiling its habits by holding a bottle to the mouth of its people, makes its law enforcement of liquor requlations, weak."

Anyone can make a fool of himself; it's doing the hard things that make one a success.

Betrothed

Princess Nadejda, youngest sister of King Boris of Bulgaria, is to figure in the next royal wedding. She is engaged to Duke Albert von Wurttemburg.

CONTINUING

North—Wrounder is the descendant of a very fine family.

South—Yes, and he's still descending.

Turn Hair Dark With Sage Tea

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good even, color which is quite sensible as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Does Your Child Show These Symptoms?

Often perfectly healthy children will, for no apparent reason, suddenly lose their appetite, become tired and listless, pale, and take no interest in games or sports. Often the child has a dry cough. If neglected too long, these symptoms may develop into anemia or consumption. When a child shows signs of becoming run down, its system should immediately be built up with a tonic. Dorothy Oliver developed symptoms similar to those described above, and in the following letter Mrs. Oliver tells how the child was cured:

"My little girl Dorothy, seven years of age, was much run down, suffering from loss of appetite. She was tired and nervous. She was losing flesh and becoming thin. This had been going on for over three years. I had tried several remedies without effect. Finally I got a bottle of Carnol and almost immediately I noticed an improvement. She gained 100 per cent. in strength and flesh. Today she is again the rosy-cheeked child she used to be. She is now full of life, health and vitality. I therefore can conscientiously recommend Carnol as a builder and appetizer."—Mrs. O. S. Oliver, 648 Beverly St., Winnipeg. 6-9

Carnol is sold by all good druggists everywhere.

Sold By DOLAN The Druggist

Sulphur Is Best To Clear Up Ugly, Broken Out Skin

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth It seldom fails to relieve the torment or disfigurement. A little jar or Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

PROTEST BEER TAX

Munich, Feb. 1.—The "Associated Christian Brewery Workers" of Bavaria have opened a new breach between hard liquor and the malt. Ber the same tme the ancient feud between hard liquor and the malt. Berlin proposes to increase the tax on beer. Bavaria protests that beer is liquid bread and takes a dig at the profligate north, by suggesting instead more taxes on "Schnaps."

NOT ONLY IN THE EAST

Rosita Forbes, who appears to have read up considerably on sheiks, says shieks "are mostly dirt." It's a funny thing, but we were under the same impression after looking over the local members of the breed.

A MISSOURI OBSERVATION

It makes very little difference how much education a man has or how many facts he knows, if he does not know how to use what he does know.

Try this recipe for economy

Go to the red front store—one of the 300 in Canada's largest grocery organization. Pay cash—as all other DOMINION STORE customers do—no bad debts of others to pay for. Carry your purchases—saving the cost of delivery. Get as good goods as you can anywhere—and pay less because we buy for less and pass the savings along to you.

Repeat as often as you need groceries—that's the recipe for steady savings that count up so big at the end of the year.

Plan Prosecutions

Veteran Bureau Allegation to Be Probed by Jury

Washington, Feb. 1.—The federal government today moved to prosecute persons guilty of conspiracy, corruption and graft in the United States veterans bureau. At the request of John W. H. Crim, specialist assistant to Attorney-General Daugherty in charge of veterans bureau prosecutions, the department of justice summoned a special grand jury to meet in Chicago next Tuesday to take testimony with a view to their indictment.

WILDEST SCENE IN JAP HOUSE IN MANY YEARS

House Dissolved Amidst Scenes of Greatest Disorder

Tokio, Feb. 1.—The Imperial Diet was dissolved to-day following scenes of the greatest disorder in which water flasks were thrown and fists used. The disturbance resulted from attempts of the opposition to interpellate the government regarding the attempted wrecking of a train at Nagoya carrying Opposition leaders to Tokio.

The turbulent scenes which occurred in the Lower House made further business impossible.

The outburst came shortly after the representatives had taken their seats upon the resumption of the Diet session.

Interpellating the Government in connecton with the train wreck, in which three prominent opposition leaders escaped injury, although the locomotive of their train was damaged the foes of Premier Kiyoura and his newly installed cabinet demanded that the premier reply personally.

Great Disorder

Kiyoura, however, refused to rise.

Great disorder immediately ensued amid which Kenjiro Komatsu, minister of communications and a member of the House of Peers, attempted to reply to the interpellations In the confusion an agitator, not a member of the Diet, rushed to the platform and thrust Komatsu aside. A riot followed. The legislators used water containers as missiles and several engaged in fistic combats. Hostilities continued until the Speaker of the House hastily declared a temporary adjournment which was followed by dissolution of the Diet.

The political situation in Tokio is the tensest in years.

SALE OF STORE ADDS $135,000

J. G. McCrary Co. pay $110,000 for Business, Stock to Be Sold Separately

Buffalo, N.Y., Feb. 1.—Success of the stockholders' reorganization plan is assured through the sale of the Syracuse store, declared Walter M. Wilkins, executive secretary of the L. R. Steel stockholders' protective trust, today. "It gives to the receivers $135,000 in cash, which means there is just that much less for stockholders toraise."

The Syracuse store chain was sold yesterday to the J. G. McCrory Company chain store owners, for $110,000. the receivers to sell the merchandise which Wilkins estimated will produce at least $25,000 because of stockholder opposition to a former bid submitted by McCrory interests, $10,000 was added to the bid. The bid simply covered the leaseholders of the Steel interests because the Syracuse store was located in leased property, so the cash paid for the leaseholders and the money to be realized from the sale of the merchandise which McCrory interests did not buy will net cash to receivers, it was explained.

Treasurer John Loyd said the protective trust fund today is approximately $850,000.

Co. Ignorant Of Squires Affair

St. John's, N. F., Feb. 1.—Denial by H. B. Gillis, superintendent of the Dominion Iron and Steel Company at Bell Island. that the Company had v knowledge of authority being granted their Chief Accountant. J. J. Miller, to advance $46,000 for the accommodation of former Premier Sir Commissioner T. Hollis Walker, K. C., of the Company's neglect to prosecute their official for appropriating such a large amount, were the high spots of yesterday's session of the inquiry being conducted into the activities of the Squires Administration, prior to its resignation last year.

Mr. Gillis was on the stand all day and maintained throughout the cross-examination that his Company had not authorized Miller to advance money to Sir Richard's secretary, Miller's sister now Mrs. Harsant, and explained that the corporation countenanced the misdemeanor because to proceed against their accountant would be to strike out at Sir Richard Squires who was then the head of a Government which, for business reasons, they did not wish to antagonize.

SUSPECTED OF BEING MODERN 'BLUEBEARD'

Fifth Wife Given Glass Containing Poisoned Wine

Stuttgart, Germany, Feb. 1.—Suspected of being a modern "bluebeard," Jacob Zellar, 86 of Kemnatz, was arrested today. Zeller's fifth wife recently brought to the police a bitter tasting mixture which her husband attempted to force upon her.

It proved to be fresh wine, favorite drink of the Suabian district with hydrochloric acid. As Zeller's fourth wife died in agony under suspicious circumstances, the police are holding him while they investigate how the previous wives succumbed.

WORKS 105 YEARS THEN TAKES REST

Dallas, Tex., Feb. 1.—(United Press).—After 105 years George Young, Dallas negro, has decided to take a well earned rest.

George, who was born back in 1819, has been bothered with a "mis'ry" lately adn decided recently to ease up a bit.

When George came to Texas from Alabama a trifle more than 95 years ago, he picked cotton and did odd jobs on a Texas plantation for his master until the Civil War broke out. A middle aged man at that time he had charge of 125 negroes on a plantation.

After the war, George rented a farm and for some 38 years was an independent farmer. Tiring of that, he next turned his efforts to the lawn mower for a good many miles in the 29 years he devoted to that task.

Now he's taking his first vacation. George still has keen eyesight, good hearing and an abundant appetitte. He's been law abiding, never having ben in jail in 105 years, and he took his last drink of liquor when a sprightly young fellow of 75.

George's life has been so busy that he's never had time to learn to read or write. After applying for admission to a city hospital here not long ago because he "wasn't as pert" as he used to be, George decided to go back home and not become a guest of the city until his age really justified it.

Catholic Ban on Dancing Applies Only to Quebec

But Other Bishops Are Expected to Take Similar Steps

Ottawa, Feb. 1.—In the opinion of Mgr. Grivetti, secretary to Mgr. De Maria, apostolic delegate to Canada. the letter of Cardinal Begin, archbishop of the diocese of Quebec, banning modern dancing among Catholics, applies only to the diocese in question. It is however, regarded archbishops of other dioceses may follow his example. The ban is regarded here as a diocesan disciplinary measure governing Catholic morals.

Under the ban imposed by Cardinal Begin, not only is modern dancing forbidden in public places but it is regarded as a sin for a man and his wife to dance in the presence of their children at home.

WORLD MOTOR CONGRESS

Detroit (United Press).—The National Automobile Chamber of Commerce has arranged to hold a world motor transport congress here May 21-24. Delegations, it is announced, are expected from all civilized nations of the globe and special attention will be paid to delegates from South America, where a rapid development of motorcar and truck interests is expected.

MUTE DID NOT PICK GODARD

Man Accused of Murder Tells Counsel That Peacock First Picked two Officers

Toronto, Feb. 1.—Henry Peacock, the deaf and dumb mute, who claims he saw a man coming out of Mrs. Harriet Crooks' home last Friday, the day she was slain, did not make a positive identification of Harold M. Godard at police headquarters yesterday, it became known to-day.

It is reported that Godard told his counsel, Austin G. Ross, that when Peacock was brought into the room to try and pick out Godard seated amongst a number of police officers, that Peacock first picked out one detective and then another. Then Peacock, Godard states, was placed in a chair facing Godard so he could have a look at him and then picked Godard.

To-day the police took the stained hammer to have the stains on the handle analyzed. Every effort is being put forward by the police to locate other people who might have met a man leaving Mrs. Crooks' home the day she met her death. To date, Peacock, is the only witness the police have located.

Godard's movements between January 18, the day he admits he entered Miss Duncan's home and struck her with a pipe, up till the time he was arrested, are being checked by the police. The authorities have found a person, who met Godard on the street after Miss Duncan's attack, when he was wearing the overcoat he now claims he burnt in the furnace at his mother's home.

The pipe Godard used in his attack on Miss Duncan, which he states he threw in High Park, after he ran out of the house on January 18, has not yet been found.

PEOPLE ALL OVER THE STATE PRAISE DR. THACHER'S SYRUP; LARGE NUMBERS ARE HELPED

Hundreds of Test Cases Prove Cleansing of Liver Gives Quick Relief from Sour Stomach, Gases, Constipation and Stuffy Colds.

BUILDS UP SYSTEM; INCREASES VITALITY

With praise coming from the lips of men and women in all walks of life, there is little wonder that the vegetable syrup used by Dr. Thacher has aroused such widespread interest here and that large numbers in Belleville are now using it with such pleasing results.

In numbers of actual test cases of record it has been demonstrated that such symptoms as Indigestion. Sour Stomach, Gases that press against the heart, Nervousness, Colds that hang on, Constipation, tired out, run-down condition of the system, and other symptoms are quickly relieved by this vegetable prescription, now known as Dr. Thacher's Liver and Blood Syrup.

Gives Quick Relief!

This quick relief is now explained! In his private practice Dr. Thacher demonstrated that symptoms such as those described above are very often the result of a sluggish liver. And relief in such cases comes quickly when the Liver is properly cleansed and toned and the system is working again as Nature intended.

How Nature Helps

Science now knows that when your Liver is working properly it does three things necessary to keep you feeling your best. First, it purifies your blood, every drop of which filters through your Liver every fifteen minutes. Second, your liver furnishes the essences that are essential to perfect digestion. Third, your liver supplies the secretions Nature uses to lubricate your intestines so that your bowels can move gently, naturally and regularly every day.

But, when your liver is not working properly it cannot do these three things. Consequently you may wake up mornings feeling dull and tired. Often your head aches and you frequently suffer from gases, sour stomach, palpitation of the heart and other symptoms of indigestion. Still other symptoms are nervousness, constipation and a general rundown condition of the system that throw off a lingering, stuffy cold.

The minute your tongue is coated or you feel any of these symptoms, give your Liver intelligent help so that you may quickly feel your best again.

DR. H. S. THACHER
A.B., Ph.G., M.D.

Celebrated American Physician who demonstrated that symptoms such as those described in the column on the left can be relieved quickly with a Vegetable Syrup and without the treacherous use of dangerous or habit-forming drugs. His prescription is giving health and happiness to large numbers here in Belleville.

Use Vegetable Syrup

Science has now come to the aid of Nature in offering quick relief! Dr. Thacher perfected a vegetable syrup (Dr. Thacher's Liver and Blood Syrup) which is pleasant to take and is carefully designed to help Nature cleanse and tone the liver—to improve appetite and digestion—to soothe the tired and overtaxed nerves—to gently correct the cause of constipation—to nourish and strengthen the system so that you can throw off and avoid colds and feel your best again.

TRY THIS TONIGHT UNDER GUARANTEE

Read the article below showing how Dr. Thacher's Liver and Blood Syrup has helped hundreds in actual tests. Then try it, yourself. Just a spoonful after the next few meals. Notice the quick difference in the way you eat, sleep, look and feel! You will be completely satisfied, otherwise druggists are authorized to refund the small cost.

Dr. Thacher's Liver and Blood Syrup is sold in Belleville by Dolan, The Druggist and W. H. Lattimer; in Deseronto by T. L. McCullopgh, and by leading druggists in each city and town.

REPORTS FROM TEST CASES SHOW VEGETABLE SYRUP HELPS HUNDREDS

Test after test has been made of the vegetable syrup perfected by Dr. H. S. Thacher. Reports in hundreds of actual tests of record show the benefits his prescription has actually produced in cases similar to those described in the article above.

Put To Many Tests

Following are reports taken at random from these tests. We have no desire to exploit these people, although names and addresses will be furnished to those seriously interested.

All statements are founded on the statements of those who actually used Dr. Thacher's Liver and Blood Syrup and are passed on in the hope that their success in gaining quick relief may be helpful to others here:

Indigestion

"I had tried tablets, pills and medicines of every kind, but I had not been able to get relief. Food soured on my stomach and I would feel bloated with gases for hours after meals. I took a spoonful of Dr. Thacher's in a wineglass of water after meals for a few days and noticed a great improvement from the very first dose.

"My appetite is now hearty, my nerves steady and my digestion is in top notch condition. I can eat the heartiest kind of meal without the slightest trace of indigestion. I no longer wake up mornings feeling dull and tired but bounce out of bed with the strength, vigor and energy of younger days. I heartily recommend Dr. Thacher's Liver and Blood Syrup to those who feel the need of it as it certainly proved its merits in my case."

Nervousness

Another says: "I had been suffering from nervousness and stomach trouble and did not seem to get the full nourishment from my meals. One day I decided to try Dr. Thacher's Liver and Blood Syrup I began to notice a quick difference in my condition. I feel fine now; my nerves are steady and my digestion is splendid. I can now do all of my housework and walk to the market without getting the least bit tired or upset. When the family comes home nights I still feel fresh and cheerful after a hard day's work."

Biliousness, Constipation

Biliousness, Constipation

Still another states: "My bowels neither moved often nor thoroughly enough. My liver was sluggish and I simply could not get relief. I became bilious and suffered from sick headaches so much that I felt like flopping down on a bed instead of going to work. I had suffered so long I decided I would give Dr. Thacher's Liver and Blood Syrup a trial as they told me my money would be returned unless I was satisfied.

"Well, I certainly am more than satisfied now. This vegetable syrup struck the keynote of my troubles. I am never bilious, headachy or feel dizzy now. My bowels move naturally and regularly and I feel so much better. I never knew how much good health meant before I got sick but I can surely appreciate it now."

Feel Fine Again!

Go to any of the druggists listed in the guarantee coupon above and get a bottle to-day. Dr. Thacher's Liver and Blood Syrup is pleasant to take and is not expensive. You, too, will be completely satisfied; otherwise druggists are authorised to refund the small purchase price.

LIQUOR LAW IS CONSTITUTIONAL

Judge Quite Within Rights In Imposing Fine and Sentence

Montreal, Jan. 31.—The Quebec Liquor Commission was declared within its legal right and to be acting within the spirit of the constitution in passing a law regulating the imposition of a fine and imprisonment for violaters of the act condemned before a Judge of the Liquor Court in the Province of Quebec. Judge Monet, before whom argument was heard from Lucien Gendron, attacking the constitutionality of the law, and by Amie Geoffrion, K. C., for the government defending the Liquor Commission today, dismissed the motion made by Mr. Gendron that the law was unconstitutional. The costs of the action were laid to the appellants.

The cases upon which the judgment hinged were those of J. Greenberg, (4 cases pending), and Sam Schacter, both condemned to one month in jail and fined $1,000 or another month for the sale of liquor without a government permit. Mr. Gendron attacked the decision on the grounds of unconstitutionality of the liquor law, particularly section 49 of the act which allows a prison penalty. He quoted the Imperial Statutes of 1774 which was replaced in 1872, still in force, and section 5 concerning the goverment of taverns. That statute condemns a man to a fine of £10 but does not inflict a jail sentence.

Mr. Gendron contended that the statute was in force today and that the courts had no right to give a jail sentence which it is bound to do in virtue of the Quebec Liquor Law.

Judge Monet in his ruling stated that the motion was unfounded, because the liquor law does not conflict with the statutes quoted. The legislature has the right to make law and give sanction to its enforcement.

"In those days," continued the judge, 'anyone had a right to sell liquor, but today the Liquor Commission controls that right and liquor must be bought from the Commission They can impose new laws and new penalties and only the government has a right to sell liquor.

"There is no conflict between the old and new law, no conflict in regulating the granting of licenses and no conflict in regulating the sale of liquor, between the two laws, because they are not the same."

The motion asking that the law be flicting with the Imperial Statutes, was dismissed with costs.

HUGE OUTPUT

Annapolis, N.S., Feb. 1.—The green apple pack of the Annapolis Valley for 1923 has been estimated at 1,500,000 barrels.

CANADIAN CIVIL SERVICE NOW UNDER SUPERVISION OF AUDITOR-GENERAL

King Government Places Civil Service Under This New Body, Which Will Review All Appointments and Make Recommendations to Cabinet as It Sees Fit

TO ALTER ACT

Hon. Dr. W. J. Roche, Chairman of Civil Service Commission, Declares Auditor General to be Given Considerable Jurisdiction in Endeavoring to Effect Needed Economies

Ottawa, Feb. 2.—The Canadian Civil Service is placed under the direct supervision of the Auditor-General of Canada, under the new policy of the Mackenzie King Government announced last night.

Folowing a conference in which the Cabinet met heads of Givernment departments and members of the Civil Service Commission, Rt. Hon. W. L. Mackenzie King announced that the powers of the audit board had been extended to include supervision of expenditure for civil servants and the right to recommend to Parliament any changes in system or personnel in the service. Under the Audit Act, as amended last session, the Government is empowered to make such provision, the audit board to consist of the Auditor-General, the Deputy Minister of Finance and two independent accountants to be chosen by the first two.

The Premier said it would be made necessary that Deputy Ministers in all Government departments must compile a complete list of their temporary and permanent employes, and make such recommendation as were necessary for the carrying on of public business. In this way a sort of Doomsday Book of the Civil Service would be built up, omitting nobody who in any way earned money in the Government service. The Auditor-General and his Board would review all appointments and make such recommendations to Parliament through the Government as it saw fit. The Premier drew attention to the fact that the Auditor-General was exempt from party or Government influence, and could be removed from office only by a vote of the House of Commons.

To Alter Civil Service Act

The Prime Minister further said that a Superannuation Act for civil servants would be submitted next session, as already announced; some amendments to the Civil Service Act also will be brought down.

The Prime Minister did not indicate to what extent the new duties of the Auditor-General would impinge upon the province of the Civil Service Commission. In his references to possible amendments to the Civil Service Act, Mr. King said that it was hoped that Parliament would be persuaded that some of this legislation is bad. The system of classification, for instance, was cumbersome and cost too much. The audit board he said, may be able to persuade Parliament that it was best to modify the Act.

Dr. Roche's omments

Hon. Dr. W. J. Roche, chairman of that evidently the new Auditor-General was to be given very considerable jurisdiction in endeavoring to effect economies in the service. The new power conferred on him would enable him, if he thought two branches could be merged, to make recommendations to that effect. Dr. Roche said he had not understood at the conference to-day that it was proposed to make any change from the present method by which under the present Civil Service Act the task of effecting the merger would devolve upon the Civil Service Commission in concert with the Deputy Ministers of Departments.

Civil Servant's View

Major D. L. McKeand, president of the Civil Service Federation, when apprised of the new proposals with regard to the Civil Service said that on first reading it looked to him a very similar system to the British one. Major McKeand said that of course, the proposals were subject to the approval of Parliament, both Commons and Senate and if the suggestions were adopted the necessary amending bill would be sent to a Parliamentary committee before which the Civil Service Federation representatives would presumably be heard.

WAGE INCREASES ON NEW YORK LINES

New York, Feb. 2.—(United Press).—The New York Central Railroad announced to-day that it had agreed with leaders of the Big Four Unions to grant conductors and trainmen wage increases upon the same terms as were granted engineers and firemen last January 22 which average five per cent.

MOTHER GAZES AT MOVIE; BABY DIES IN LAP

Alto, Texas, Feb. 2.—While Mr. and Mrs. Wesley Steed were enthralled in the fast plot of a movie thriller, death claimed their 5-months-old baby in her arms.

Physicians declared the infant had been dead for an hour when the mother suddenly discovered the little form had grown cold, and screamed for aid.

JOBLESS MEN ARE DECREASING IN OLD COUNTRY

General Uncertainty Prevails, However, Due to Labor Troubles

SLUMP IN FRANC

Clydeside Shipbuilders To Provide 16 New Passenger Cargo Vessels

London, Feb. 2.—Although unemployment in Great Britain decreased during January until the number of jobless stands at 1,227,000, there is a general uncertainty in British trade owing to labor depreciation of the French franc, says the monthly summary of business conditions published by the American chamber of commerce in London.

Slump In Franc

The slump in the franc the survey asserts, has stimulated keen competition among the continental producers of iron and steel, while some furnaces have been damped down through the recent rail strike and because of a falling off of new orders.

The Clydeside shipbuilders are to provide 16 new passenger and cargo vessels for the projected service to Australia, but the British shipyards are now engaged on onethird less work than before the war, although their capacity is one third greater.

Tin Market Buoyant

The summary notes a buoyant tone in the tin market. The pottery industry is likewise in a healthy condition while substantial orders have been booked in timber with mahogany the feature.

The outlook for the boot and shoe trade is satisfactory. Wool prices are being forced to a high level on the anticipation of a shortage this year.

On the other hand, the summary says the cotton business is languishing.

LATOKA FARMER MURDERS FOUR

Kills Wife, Her Two Sisters and His Brother-in-Law

Lakota, N.D., Feb. 2.—Theodore Larsen, a farmer, killed his wife, her two sisters and his brother-in-law, on a farm near Kloten, N. D., late yesterday when they interfered with his efforts to seize his four year old daughter, poured kerosene oil over the bodies and ignited them. Larsen fled to his father's home three miles away, was disarmed, and surrendered to a posse which jailed him here.

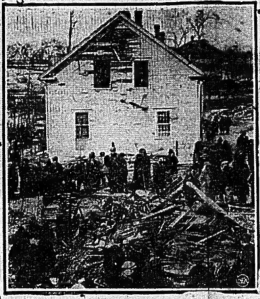
Neighbors extinguished the fire before the bodies had been consumed.

A coroner's inquest will be held today and it is also planned to arraign Larsen for murder.

In addition to Mrs. Larsen, who was 32, the ether victims were Helen Quanbeck, 36; Emma Quanbeck, 21 and Olaf Arneson.

Larsen is alleged to have beaten his wife so severely two weeks ago that she required medical attention. After that she went to her father's home, taking her daughter. Larsen is said to have followed. Yesterday he appeared unexpectedly at the Quanbeck farm and demanded that the child be given to him, was opposed and shot down the four persons who objected.

Fifteen Persons Killed



Dynamite used for wood cutting exploded, wrecking two-family home of Michael Conway and Adelard Hamel in Canville, R. I. Fifteen persons lost their lives. In foreground is shown all that remains of the house. Note the rent made in the house next door.

PACIFIC COAST FORGING AHEAD AS GRAIN MART

More than 31,000,000 Bushels of Grain Received at Vancouver Elevator

MORE EN ROUTE

United Kingdom, Orient and South America Principal Grain Buyers

Winnipeg, Man., Feb. 2.—More than 31,000,000 bushels of grain have been received at the government elevator at Vancouver since the opening of the crop year from Canadian Pacific cars. It was announced this morning at local offices of the railway, where it was stated there had been 8,392 cars unloaded since September 1.

In addition to this bulk grain, there has been a large quantity of sacked grain received at the Pacific port, this being sacked at algary. From September 1st to January 29th, there had been 1,076 cars of sacked grain representing 1,677,000 bushels delivered at Vancouver while to-day there are on hand at Vancouver or in transit to the port 75 cars of sacked grain representing 12,000 bushels.

Bulk grain loaded in Canadian Pacific cars on hand at the coast to-day amounted to 975 cars with 422 cars in transit between the fields and Vancouver and approximately 750 in the Alberta district.

Exports from Vancouver since the opening of the crop year, there have been 20,406,631 bushels comprising 15,488,348 bushels to the United Kingdom, 4,630,103 bushels to the Orient and 388,183 bushels to South America. This morning there were 19 vessels in Vancouver Harbor with a capacity of approximately 5,700,000 bushels.

CHAMBER NAMES COMMITTEES FOR 1924 BUSINESS

Standing Committees Are Drafted By Local Chamber of Commerce

HEAVY SCHEDULE

To Meet From Time to Time In Carrying Out Programs For City

The standing committee of the Chamber of Commerce for the current year have been drafted by the Committee to Name Committees. A considerable part of the work of the Chamber of Commerce is carried on by means of the standing committees These meet from time to time as occasion may require and carry on investigations, discuss policies and make recommendations either to the Board of Directors or general membership. The committees for the present year will be as follows:

Open Forum Com.—Dr. M. E. Branscombe, chairman; Chas. A. Cameron, J. L. R. Gorman, L. E. Walmsley, I. L. Moore, H. C. Earle, W. C. Mikel, F. R. Wotten, S. R. Burrows, H. A. Fish, J. E. Downey, Robt. Tannahill, Major D. T. McManus, H. A. Ross A. R. Schryver.

Works Committee

Program of Work Com.—Mack Robertson, Dr. O. A. Marshall, C. F. Wallbridge, Chas. Hanna, Howard Frost, A. P. Allen, John Elliott, C. L. Hyde, J. A. Borbridge, Dr. V. Blakslee, D. V. Ketcheson, R. D. Ponton, T. E. Sullivan, C. B. Scantlebury, Walter Thomas, Rev. D. C. Ramsay, Dr. A. D. Proctor.

—Industrial Com.—Fred B. Smith, chairman; R. J. E. Graham, N. L. Turner, W. C. Springer, O. H. Scott, S. Wessman, E. W. Rowsome, C. M. Rutten, G. A. Morton, Geo. Taylor, F. S. Deacon, Wm. Donahue, Geo. Bagley, C. B. Aikin, W. J. Hume, R. J. Stafford, Frank Kelleher, S. E. Vermilyea, E. R. McBride, D. W. Rollins, L. W. Marsh, O. A. Porritt, C. A. Hart, F. S. Wilson, V. E. Taplin, H. T. Hitchon, Wm. Wheeler, J. B. Ives.

Reception Committee

Reception Com.—Jamieson Bone, chairman; W. B. Deacon, Mack Robertson, Lt.-Col. W. N. Ponton, E. Guss Porter, M.P., A. W. Pratt, Lt.-Col. S. S. Lazier, W. H. Lattimer, H. F. Ketcheson, J. V. Jenkins, L. B. Cooper, J. S. McKeown, G. R. Sinclair, G. B. Smith, W. B. Riggs, T. D. Ruston, W. H. Gilbert, Arthur Harman, W. H. Buckley.

Recreation Com.—J. V. C. Truaisch chairman; C. D. Reid, Wm. Rose, W. J. Yerex, F. C. Chamberlain, S. Pappas, G. P. Ruttan, R. Tarlington, H. J. Clarke, Dr. M. A. Day, Geo. E. Ketcheson, J. W. Imlah, D. A. Martin, H. O. Stewart, C. H. McBride, Reg. Bumpstead, J. H. Bryant, John C. Adams, T. P. Demo, Harold Holton, Dr. G. T. Cronk, W. A. Elliott, Dr. J. L. Tower, L. Domenico.

Publicity Committee

Publicity Com.—J. A. McFee, chairman, A. Vandervoort, S. B. Dawson, A. G. Davie, P. M. T. Little, J. V. Doyle, Dr. G. O. Dupрau, Col. D. Barragar, Rev. Dr. E. N. Baker Henry Johnson, A. Y. Snider, C. M. Hall, A. H. Fowlie, Dr. Jos. Chant, Frank Fitzpatrick, W. A. Harden

Better and More Beautiful Belleville Com.—Wm. Nugent, chairman.

SYSTEM FOR TRACING STOLEN AUTOS ALSO CLOSES OUTLETS

Montreal, Feb. 2.—Emile Joncas, Provincial Automobile Director announced today that by virtue of a system, which will be inaugurated with the automobile year, which opens on the first of next month that he expected that stolen cars would be more easily traced than they have been in the past. Lists of serial numbers of cars, which are placed on automobiles by the manufacturers will now be alphabetically compiled by the Bureau so that any missing car can be traced by revenue men as soon as its loss is reported.

It is expected that the new system will be most efficient for as soon as the provincial automobile bureau has been advised by letter or by wire that a car is missing the serial number will be given to the revenue men and they will co-operate with provincial and municipal detectives in tracing the stolen car.

Everything is in readiness for the issuance of the new license plates, which will be effective on the first of March and today thousands of them reached the provincial automobile bureau ready for distribution. The license plates will be white with green figures. The series will start with the figure 10001 in Quebec district and in Montreal at 14001. Sherbrooke will follow with license plates starting at 40001.

Preparations are being made for an increase of 15 per cent. to 25 per cent to the number of cars. This will bring the total, according to estimates, to about 90,000 cars as compared with last year.

TO CURB THIEVERY ALONG THE BORDER

Washington, Feb. 2.—An agreement intended to curb thievery along the Canadian border has been made between the Canadian and U. S. government. Under it the two governments agree to return stolen property smuggled by thieves across the border to their proper owners either in the United States or Canada.

PREDICTS BIG LAKE TRAFFIC NEXT SUMMER

Western States Will See Exodus of Tourists For Montreal Route

OFFICIAL VIEW

Passenger Manager of Canada Steamship Lines Sees Heavy Passenger Year

Montreal Feb. 2.—Mr. J. F. Pierce passenger traffic manager of the Canada Steamship lines Ltd., returned this morning from an extended business trip covering Detroit, Michigan, Ohio and Pennsylvania. He is exceedingly optimistic of travel for the approaching summer. In an interview he stated there was every indication of very heavy American travel from many cities in the west to Montreal and the Province of Quebec generally During the coming summer. Rotarians from all parts of America will hold their annual convention in the city of Toronto which will be the means of bringing a thousand people to Montreal on Saturday June 21st. At the conclusion of this important convention this number will make side trips to Montreal, Quebec and the Saguenay.

Every year the students of the Cleveland State Normal School make a voyage of Discovery into different sections of the country with a view to gathering historical and other data for educational purposes. Mr. Pierce stated that a party of these students numbering three hundred will arrive in Montreal about the end of July.

It is also probable that a large contingent of members of the Erie Chamber of Commerce wil come to the Canadian Metropolis. This organization intend to visit Rochester, Toronto and Montreal inquiring into various harbor facilities and other matters of interest to the Chamber. The principle object is to inspect the harbor of Montreal and become better acquainted with the prevailing conditions, especially with regard to the gigantic elevator system and the handling of grain.

He was agreeably surprised to find during his travels many people talking of winter sports in Montreal. Thanks to the railroads, the posters and booklets which were in evidence everywhere, to say nothing of the newspaper publicity it was astounding how much Montreal winter sports were being discussed. "There is no doubt whatever judging from the experience I have had," concluded Mr. Pierce, "that the revival of winter sports in Montreal is causing a great deal of interest throughout the United States."

GOLF AT THE 'HAT'

Medicine Hat, Alta., Feb. 2.—(United Press)—With springlike weather prevailing the 1924 golf season has been opened by Medicine Hat residents and yesterday many games were played on the local links.

DIPLOMATIC RECOGNITION GRANTED TO SOVIET GOVERNMENT BY BRITAIN; PRESS SCORES MacDONALD'S ACTION

MacDonald Cabinet Issues Foreign Office Communique Announcing De Jure Recognition of Present Russian Government—Had Been Deferred to Prevent Appearance of Too Hasty Action on Part of Labor Chief—Moscow Government is Given Official Notification

MACDONALD'S ACTION CONSISTENT WITH PROGRAM FORMERLY ANNOUNCED

London Times, in Leading Editorial Bitterly Attacks Grant of Labor Government—Editorial is considered Opening Gun in Conservative Attack on Present Administration—Had Formerly Been Strongly Pro-Government in Attitude on Foreign Affairs

London, Feb. 2.—(British United Press)—The Times, in a leading editorial, bitterly attacked the Government's grant of diplomatic recognition to Russia.

Recognition, although accepted as inevitable ever since the Labor Government, headed by Prime Minister MacDonald assumed power, caused a considerable impression when announced by the Foreign Office late yesterday.

The editorial in The Times was interpreted as the opening gun in a Conservative attack on MacDonald's action. It was more surprising in that the newspaper recently has been broadly pro-Government in its foreign affairs attitude.

The MacDonald cabinet met yesterday and after its conference recognition of Russia was announced, in a foreign office communique.

Before and since his election to the office of Prime Minister, Ramsay MacDonald has consistently stood for early recognition by Great Britain of the present regime in Moscow. Action had been postponed for a time, however, due to the wish of the newly established labor government here not to appear hasty.

The foreign office communique said that the Moscow Government had been notified that de jur erecognition had been accorded Russia.

STOLE HENS TO SAVE MAN'S LIFE

Unusual Case Heard Before Judge Enright This Morning

Montreal, Feb. 2.—Judge Enright had a mysterious prisoner before him this morning in the person of Adelard Leblanc, who stole ten chickens valued at $20 from a farm at St. Laurent. The startling admission by Leblanc that he stole the chickens to get money to save a man's life prompted the judge to question the accused.

Leblanc stated that when he was in jail doing a year term, he had communication with Wilfrid St. Onge, condemned to death for the murder of a shoemaker. St. Onge, according to Leblanc told him to get in touch with a man, whose name was given to the judge, and to find out from this man if he was ready to swear as he was alleged to have done that he knew who murdered the shoemaker.

Leblanc had no money and stole the chickens to have something to offer the mysterious witness whose testimony would free St. Onge. Leblanc was at liberty four days when arrested as a chicken thief.

Charles Davidson has been appointed issuer of motor licenses for 1924. The markers will be ready for distribution about February 15.

CANADA'S UNOFFICIAL ENVOY TO ATTEND CELEBRATION OF U.E.L.

Sir Campbell Stuart, Managing Director of the London Times, will attend the U. E. L. Celebration. The following letter has been received by Mayor Mikel.

"My Dear Mr. Mayor,—

I am much obliged for your interesting letter of December 26th in regard to the Celebration of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists in Belleville, Ontario, on June 16th and 17th of this year.

It is my intention to go to Canada about that time, unless something unforeseen intervenes, and it will give me the greatest pleasure if you would care to have my company, to come to Belleville at the time of your Celebration.

I am sure you will be interested in my endeavors on this side of the water to promote interest in Canadian history. When a Canadian branch of the Canadian History Society is formed no chapter can be of greater interest than the early adventures, privations and sacrifices of the United Empire Loyalists."

Yours sincerely,
Campbell Stuart.

At a dinner given last fall in London attended by His Royal Highness the Duke of York, the Duke of Devonshire and many other prominent people in England, the Rt. Hon. W. Mackenzie King stated that Sir Campbell Stuart was the unofficial ambassador of Canada.

SURVIVES SUICIDAL LEAP

New York, Feb. 2.—A suicidal leap of 135 feet from Queensboro Bridge into the East River was said to have earned for Peter Rubinsky the distinction of being the only man to survive the feat. He was fished out unconscious by two tug boat deckhands and revived in a Long Island City Hospital where surgeons said he would recover.

THE WEATHER

Cloudy with local falls of snow or rain.

Sunday—Mostly fair and mild.

COMING EVENTS

Let there be harmony in things essential—liberty in things not essential—charity in all.

PEN SKETCHES

It was at Front Street, just south of the City Hall. A bob sleigh heavily laden with huge cakes of crystal ice, proved too much for the powerful team of heavy horses which would ordinarily move the load with ease.

The seligh runners were bound on the bared concrete sidewalk. The horses were not sharp shod and it was slippery where they stood. That was the situation.

Then a heavy moving van lumbered around the corner with clanking chains, and the germ of a great idea originated.

Backing the powerful truck into the load from behind, the horses hauling as well ,the load was shifted from its temporary moorings in one minute.

The incident was reminiscent of the circus elephant who heaved the circus wagon out of the mud hole with his powerful trunk and body.

WHY FIRST AID SHOULD BE TAUGHT IN SCHOOLS

The First-Aid is a very useful subject to teach children who are old enough to understand the great necessity and advantage of being able to give relief immediately in case of accidents or illness, and to prevent further injury. For youthful students it is possible that a special abridged Text Book would be specially compiled, as the subject is a fairly extensive one and requires much study and practice, and they must understand quite clearly that any assistance they render would be as a temporary measure only.

The majority of children are clear-headed and quick-witted, and as anatomy and physiology are two important subjects taught in schools, this would give them a deeper understanding and much greater interest in first-aid, and probably enable them to render assistance not only amongst their own companions, but in their homes, and in the streets if circumstances of necessity occurred. Very particularly would this early assistance be of value in remote country villages, some of which are particularly isolated, and it is possible that it might even mean the saving of valuable lives.

It is hardly possible to mention in detail the large number of cases which might need help, but two of the most important and most frequent instances would be hemorrhage and fractures.

For instance, on cutting a finger, the first impulse is to rush to a cold water tap, or to a pond or spring as the case may be, when the injured member is held for several minutes in the water which is not by any means sterile, and it is quite possible for a germ to enter the wound and cause grave developments, while if the finger had been firmly bound up with a clean handkerchief, or even clean paper if nothing better was available, until proper attention could be given, much trouble might have been saved.

Again, the sight of blood flowing greatly upsets some people, and too often an injured limb is left hanging helplessly down, thus encouraging more extensive bleeding, while the patient being too frightened to help herself, (or himself) seeks assistance from a neighbor or simply hugs the injured limb, while even a child with an idea of the need of prompt action could give relief and prevent collapse by elevating the limb, covering the wound and applying digital pressure, or in the case of a leg or trunk injury, persuade the patient to lie down, and in this way obtain in addition nature's assistance in checking hemorrhage.

On school playing fields fractures are very apt to occur, and great suffering and complications can be avoided by improvising bandages and splints, and placing the injured limb at rest without delay, and arranging for medical assistance and the removal of the patient as comfortably and expeditiously as possible. Also the treatment for shock is all important.

Faints and fits are cases that are frequent, and instead of being shocked and helpless at seeing the sufferers, children with a little training would render help readily in an emergency and without hesitation.

PRESS OPINIONS

MORE PRESS MERGERS

(Toronto Globe)

The process of newspaper consolidation goes on all over the continent under the pressure of two forces—rising costs of production, which are forcing the weekly papers to the wall, and the ambition of a few rich men, from motives chiefly financial, to extend the area of their power or control in the journalistic field.

In New York City Frank Munsey, who who has just digested the Sun and the Globe, has now swallowed the Evening Mail. All of these journals have disappeared within a little more than a year.

The name of the Sun, a daily which had great traditions, is still carried on the front page of Mr. Munsey's morning paper, the Herald, in small type, and that of the Evening Mail is recalled to memory in the same way in Mr. Munsey's evening paper, the Telegram, but these are only epitaphs.

TO THE ONTARIO GOVERNMENT, DR.

(Sault Daily Star)

The Sault Historical Society has not yet been able to get any grant from the Ontario government, tho it has tried for several years to get on the same floor as a score of other local historical societies, which secure regular yearly grants.

And yet the Sault society has some good work to its credit. It has published a couple of annual reports containing many interesting papers, and last year had a dozen historical tablets erected around town,, not to speak of the Brule monument, and the cairn erected by the Dominion government. Insofar as creditable work done, no historical society in Ontario has been more active for the last two or three years.

And let it be noted that the Sault has some history to record. There are societies whose chief historical reminiscences go back to John Smith buying a brindle cow from Sam Jones in 1876 on this spot (X), but in the Sault it's different. Brule and Father Raymbault, Radisson and Grosseilliers, the Sieur St. Lusson and the good Nicholas Perrot, Marquette, Duluth, Durantye, Lasalle,—all that glorious galaxy of venturesome explorers, merely lifted the curtain.

It's a great story, Howard, and we need the money!

SCRUBBING SCENARIOS

(New York Tribune.

If the law against vicious plays is rigorously enforced, vicious plays will disappear. But to try to make unclean plays clean by scrubbing the scenarios with the soap and water of censorship will never bring about any real reformation.

Moreover, the principle of censorship is un-American, no matter where or how applied. There are too many persons in the world who would like to censor opinion that is in conflict wth their own to make it safe for legislatures to undertake the regulation of literature, between covers, in the press or on the stage.

DISCREET NEUTRALITY.

(Toronto Telegram)

Just a little more acerbity in the disputes between the modernists and fundamentalists, between the unionists and the anti-unionists, etc., and the cautious layman may decide to get his religion privily over the radio rather than run the risk of permanently expiating the sin of taking the losing side of a doctrinal controversy. When the battle is over there will no doubt be a charitable forgiveness of the wrong-thinkers. But, meanwhile, there is an increasing temptation for timorous souls to maintain an attitude of discreet neutrality and keep their thoughts to themselves.

L. P. Campbell, Teacher.

BEFORE THE SNOW

Now soon, ah, very soon, I know
The trumpets of the north will blow,
And the great winds will come to bring,
The pale, wild riders of the snow.

Darkening the sun with level flight,
At arrowy speed, they will a light,
Unnumbered as the desert sands,
To bivouac on the edge of night.

Then I, within their sombre ring,
Shall hear a voice that seems to sing,
Deep, deep within my tranquil heart,
The valiant prophecy of spring.

—Bliss Carman.

T. P. O'CONNOR MENTIONED FOR POST

London, Feb. 2.—According to the London Star, the position of Lord Chamberlain, which includes the duties of censorship of stage plays, will be offered to T. P. O'Connor, veteran Nationalist member of the House of Commons, who spoke on the Labor side during the recent election campaign or to James Sexton, the Liverpool dock worker's leader and member of Parliament for St. Helen's.

Tortures Of Sciatica

RELIEVED BY ENRICHING AND PURIFYING THE BLOOD

Sciatica is neuralgia of the sciatic nerve and the treatment should be the same as for other forms of neuralgia. Sciatica is stubborn in resisting treatment and the patient frequently suffers for years.

So many cases of sciatica have been helped by Dr. Williams' Pink Pills that every sufferer is justified in giving the treatment a thorough tral. Dr. Williams' Pink Pills do not simply relieve pain—they correct diseases by weak, watery blood. Thus they are beneficial in the treatment of even the most severe disorders. Their value in cases of this kind is shown by the experience of Miss Lizzie Freeman, Noges Creek, Ont., who says:—"I was confined to bed for seven weeks with sciatica. What I suffered is almost impossible to realize. The doctor did all he could for me and yet I was not getting any better, and he told me the trouble was likely to leave me crippled. A neighbor who was in to see me, strongly advised me to try Dr. Williams' Pink Pills. I decided to do so and after taking them for a while found they were helping me. I continued taking the pills until I had taken nine boxes, when I was able to walk as well as ever, and felt that I was fully restored. In view of what these pills have done for me I strongly recommend them to all sufferers."

If you are suffering from any condition due to poor watery blood or weak nerves, begin taking Dr. Williams' Pink Pills now and note how your strength and health will improve.

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

WOOD'S PHOSPHODINE. The Great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Used for Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. Price $2 per box, 3 for $5. Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes and the foot calluses, without soreness or irritation.

MR. E. KIRBY HUNT

Formerly Assistant to the General Manager of Hotels has been appointed Superintendent of Canadian National Railways' Hotels, Western Region with headquarters at Winnipeg.

SOLID AS THE CONTINENT

The North American Life Issues Best Report in Its History.

The year 1923 proved to be a bumper year for the North American Life Assurance Company of Toronto. In every feature of the business marked increases were made during the year. The President, Mr. L. Goldman, at the recent Annual Meeting of the Policyholders, particularly pointed with just pride, to the Company's Assets which now amount to $25,394,128.18. After all the liabilities have been fully provided for, there was at the end of the year the substantial Net Surplus of $3,776,823.87, the largest figure yet reached in the Company's history and establishing beyond a doubt the unexcelled financial position of the North American Life.

It is interesting to note that during the year the policies issued and revived, amounted to $20,237,711, showing an increase of over $2,300,000 as compared with the business for last year. The total Insurance in force now amounts to $115,055,491. the highest mark ever reached in the Company's history.

The management of the North American places particular emphasis on the fact that their's is a Policyholders Company and the figures from their 1923 Report bear out this assertion. During 1923 over $2,480,000 was paid to Policyholders, of which amount $497,766 was paid as dividends or surplus and at the same time the Company announces that an even more liberal scale of dividends will be paid in 1924.

It has been reported that a certain well known young married man of this community burst into the office in the wildest excitement recently and wired his wife's relations as follows: "Twins to-day; more tomorrow!"

Says Vicks Is Only Remedy For Croup

QUEBEC MOTHER ENTHUSIASTIC OVER VAPORIZING SALVE

Every mother wants her children to be active and to grow strong through outdoor play. But frequent colds sap their vitality, cause loss of school standing and keep youngsters puny and delicate.

Mothers who use Vicks VapoRub for children's colds find that the kiddies can play outdoors and their cold troubles can usually be checked overnight.

Applied externally, Vicks acts like a liniment or poultice. In addition the ingredients are vaporized by the body heat and are inhaled directly into the inflamed air passages. This double action quickly loosens up a cold.

Mrs. Leon Crandall, Box 247, Lake Megantic, Quebec, writes: "I used Vicks VapoRub for my little girl when she had croup, and I found that it relieved her at once. It is the only remedy for croup and I would not be without it."

At all drug stores 50c a jar for a free test size package, write Vick Chemical Company, 344 St. Paul St., W., Montreal; P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

BLIZZARD AN IOWA TERM

Western Editor Claims to Have First Used Word to Describe Snowstorm

Taken From Old English

Originally Used as Meaning a Sharp, Rattling Volley of Musketry

Des Moines, Feb. 2.—The word "blizzard" one which is a part of the vocabulary of every resident of a word which has doubtless been used by every Iowan old enough to talk within the last few days, is claimed as an Iowa invention.

O. E. Bates, pioneer Iowa editor and founder of the Estherville Vindicator, claimed to have been the first to use the word "blizzard" in reference to a snow storm.

The word itself, he did not invent—it is an old English word and comes down to us with a meaning derived from its use centuries ago. It referred in its English use to "a rattling volley," meaning a rattling cannon fire, and came originally, the students say, from the English word "blaze."

First Adapter His Claim

Mr. Bates claimed to have adapted it first to the sweeping snowstorms of the prairies. Davy Crockett wrote that he "saw two fine bucks and took a blizzard at them," meaning a volley of shots. Editor Bates wrote of a snowstorm as a blizzard comparing the similarity of the sharply driven snowflakes to the rattling volley of gun or cannon fire.

And if he was not the first to use the word in that sense, the fault of his claim has never been discovered by students who have spent much effort in tracing the origin of the word as used in this country.

What Webster Says

Webster's dictionary defines the word as meaning, in the United States, "a gale of piercingly cold wind, usually accompanied by fine and blinding snow; a furious blast." It attachs a notation to the effect that this meaning is purely American meaning.

In his study of the American language, H. L. Mencken sets the word "blizzard" in a class with "English words rescued from absolescence or changed in meaning." He includes it with such words as "greaser" "conniption", "campus," "galoot," "roustabout" and 'bugaboo", some of which are not yet recognized as good English in this country.

All the etymologists agree that the word "blizzard" is never used by an Englishman to describe a snowstorm unless he has picked up the word from the prevalence of its use in the United States.

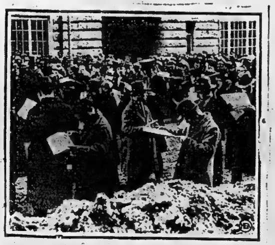
Use Honey in The Radiator of Your Auto

Lansing, Mich., Feb. 2.—Honey as a substitute for alcohol to keep automobile radiators from freezing is advocated by R. R. Kelty of the entomology department of Michigan Agricultural College. Mr. Kelty said he has used a mixture of honey and water in his radiator with success, the honey serving the same purpose as the alcohol and being much cheaper. For $1.50, Mr. Kelty said, enough honey may be purchased to last the life of a car.

POINCARE PROPOSES NATIONAL LOTTERY

Paris, Feb. 2.—Among the amendments to Premier Poincare's tax bills now before the Chamber of Deputies is a plan for a national lottery with an issue of tickets amounting to 3,000,000,000 francs in prizes amounting to 1,000,000,000. It is proposed in this way to raise a part of the money the Premier expects to get out of the twenty per cent. increase in taxes.

My Kingdom for a Job!



It's no laughing matter—this finding of jobs in Germany. A newspaper issues a free sheet of help wanted ads—and look at the throng seeking work. This is the most recent picture from Berlin.

Green Tea Lovers prefer

Five Acquitted in Connection With Racine Robbery

Name of Well-Known Montreal Merchant Cleared of Charge of Receiving Stolen Goods—Crown Prosecutor Admitted No Case Against Accused.

Montreal, Feb. 2.—What was heralded as a case promising starting developments with names of prominent business men running through the expected evidence, dropped from its position as headliner to the limbo of dead things this morning in the Enquete Court.

Some time ago the warehouse of A. Racine, Ltd. was robbed of $5,000 worth of goods. Walter Scroggie, well known Montreal merchant, Armand Provost, A. Charbonneau, Norman Sylvestre and J. Chagnot were arrested by city detectives charged with receiving the stolen goods. The Dominion Detective Agency recovered part of the loot and was paid $2,000 for their work.

This morning efforts to connect Mr. Scroggie with the receiving were made by the prosecution with R. L. Calder acting for the Crown. Seven witnesses were examined, the Crown prosecutor admitted he had no case against Scroggie and admitted that the cases against the others would fall also.

The five men were acquitted by Judge Perrault. For the defence Messrs. Chenneville, Crankshaw, (who replaced Leonce Plante owing to the death of Mr. Plante's father), and Cohen, did not cross examine a single witness so far from Scroggie was the evidence produced.

Wallpaper Remnants

Having just finished taking stock of our wallpapers we find more small remnants than ever before.

SEVEN LOCAL MEN TO LEADERS' CORPS

Belleville representatives to the Leaders' Corps Conference which is being held at Brantford to-day and Sunday, will use their influence to have next years' convention held in this city.

Election of officers will be one of the important items of business today.

This afternoon games will be played at the Brantford Y.M.C.A. and sessions will also be held. The delegates will attend church in a body to-morrow, and will hear an address from special speaker, Mr. A. G. Studer, of Detroit.

Seven young men from Belleville have gone to Brantford. They are Captain William Bowie, Albert Armstrong, Fred Miles, Ernest Edmunds, Leo Barlow, Cecil Facer and William Deruche.

URGE RESTRICTION OF IMMIGRATION

Washington, Feb. 2.—A bill proposing restriction of immigration to the United States to two per cent. of the foreign born each nation here in 1890 and permitting virtual selection of the immigrants at the port of embarkation was ordered favorably reported to the House today by the immigration committee.

Argyll Rifles Shooting Good

Composite Scores of Dominion Champions Totals High Figures

The Argyll Rifle Association, Dominion champions for the 1922-23 shot off their first match for the 1924 series on Thursday evening, Major B. C. Donnan of the H & P. E. Regt was the Range Officer.

Considering the small amount of practice, due in a large degree to the recent very inclement weather scoring was very good and is just about the same average as the first match last year. This year there are several Cadets shooting on the teams, all of whom did splendidly and there is no doubt that their names will appear among the chief scorers in the remaining three matches, Lionel Blaker one of Queen Mary's School shots, scored a splendid 89 and gained a place on the team. The other lads were very near and only missed the team by narrow margins.

The following were the scores:

Highest possible obtainable points, 100.

Lieutenant W. [illegible] Elliot	9[illegible]
Lieutenant D. W. McManus	94
Corporal H. Cummings	93
Private R. [illegible]ese	93
Sergeant [illegible]. L. Stewart	91
Bandsman W. Hart	91
Sergeant H. Stanley	90
Sergeant A. R. Symons	90
Cadet L. Blaker	89
Sergeant W. J. Andrews	88
	912

Average—91.2

The practice will be going on each Monday and Friday evenings except the week before the matches when the Range will be available every evening, the next match takes place on Friday 29th February, 1924.

LOCAL CURLERS WIN FROM KINGSTON BY FOUR SHOTS

Three rinks of curlers came up from Kingston last night and played the return Junior C. O. C. League game. The ice was in good condition and the games were keenly contested, Belleville winning by 4 shots.

Kingston—D. A. Shaw, H. McCartney, J. S. Asseltine, H. W. Newman, skip—15.

Belleville—F. Domenico, C. Tice, Wm. Gilbert, H. Bryant, skip—5.

Kingston—L. C. Lockett, W. McCartney, Jas. Newell, A. E. Treadgold skip—10

Belleville—W. Symons, G. S. Dawkins, Jos. Imlah, Wm. Hazden skip—18.

Kingston—J. Taugher, Capt. Deraney, J. Pigeon, L. Langdon, skip—11.

Belleville—Rev. Malott, F. E. O'Flynn, W. A. Elliot, G. H. McArthur skip—17.

Kingston—36 Belleville—40.

CUSTOMS ARE LESS

The customs return for the port of Belleville of January of this year, showed a slight decrease over those for January 1923. The figures for the two months were as follows:

1923	$147,534.61
1924	145,756.89
Decrease	$ 1,757.72

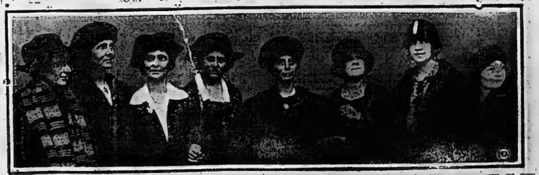
First and Exclusive Group Photo of Women M.P.'s



This is the first photograph of women members of Parliament, showing them in group, to reach this country from London. Left to right: Miss Jewson, Miss Susan Lawrence, Lady Astor, Mrs. Wintringham, Duchess of Atholl, Mrs. Phillipson, Lady Terrington, Margaret Bondfield.

"Put Up Your Dukes, Marquis!"

Exclusive picture showing the Marquis of Clydesdale (left) in the ring at Bermondsey Town Hall, England, with F. K. Lucas, whom he defeated in his six rounds. The marquis is captain of the Oxford Boxing Club. His Mother, the Duchess of Hamilton, recently expressed satisfaction that her boy had picked boxing as a hobby. She thinks it's great stuff, as we Americans say.

End Rheumatism With Red Pepper

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

New Burlesque House For Toronto, Rumor

Toronto, Feb. 2.—In theatrical circles reports are current of another burlesque house for Toronto. Negotiations are said to be under way by the Mutual Circuit of New York to take over the vacant Piccadilly Theatre on Yonge street, and open up an up-to-date burlesque house. I. H. Herk, of New York, the head of the Mutual Circuit, the only competitor to the Columbia Circuit, is understood to be a figure in the negotiations.

The Piccadilly has one of the best situations in Toronto for a burlesque theatre. The owners yesterday announced that they were not in a position to discuss any rumors concerning the property.

Machinists Hold At-Home Here

Members of local lodge 777 Machinists were last evening at home to their friends, when they held a social evening in the Moose Academy. Mr. Charles Hanna acted as chairman and delivered a short address. Piano selections were rendered by Miss Evelyn Reid, Miss Ruby Burr, guitar selection by Master Johnny Lloyd. Songs by Miss Violet Morris, Reid Brothers, Fred Marsh, and Tommy Byrne and Miss Rainbird. Novelty dances, Miss Meldrum and Miss Torrence, Mr. Marnska, and Miss Lillian Marsh.

Dancing was indulged in until one o'clock this morning. Appropriate music for same was furnished by Al Wilson's Orchestra.

Just a Few of His 28 Children!

Lee C. Gentle of Atlanta, Ga., has been "buying shoes for baby" for nearly 40 years. The Gentles have 28 children. Eleven are shown here with them. There never have been twins or triplets—all came singly.

NORTH AMERICAN LIFE
ASSURANCE CO.

HEAD OFFICE TORONTO, CANADA.

THE results achieved by the North American Life Assurance Company during 1923 continue to establish beyond question the strength and security of the Company. The following outstanding figures will be very gratifying to all interested in the welfare of the Company:

POLICIES ISSUED AND REVIVED	$ 20,237,711.00
AMOUNT OF INSURANCE IN FORCE	115,055,491.00
ASSETS	25,394,128.18
PAYMENTS TO POLICYHOLDERS	2,480,510.16
NET SURPLUS	3,776,823.87

THESE records are the outward evidence of the unexcelled financial position attained by the Company, and of the solid foundation upon which it has been built. In the North American Life, policyholders' interests are paramount, over 99% of the profits earned being allotted to them. When contemplating new insurance, see one of our representatives. If you desire fuller information about the Company's operations during 1923, mail the attached coupon.

NEITHER FRANCE NOR GERMANY CAN PROSPER ALONE, REPORT

By J. W. T. MASON

(United Press)

New York, Feb. 2.—Germany is steadily improving her economic condition, due to the arbitrary stoppage of reparations payments by the Berlin government, and to stabilization of the currency. The German people are showing confidence in the ability of their government to outwit the allies in the final reparations settlement.

The most noteworthy indication of the returning self satisfaction of the Germans is the persistent recovery of government bonds on the stock exchange. Individual state bonds also are showing advances. The collapse of Germany so frequently predicted as the result of French pressure along the Rhine and in the Ruhr is no longer regarded as a cause to worry by the German people.

This change in the situation across the Rhine is accompanied by wavering confidence in France's ability to right herself. The previous fall of Germany's own self confidence in herself had bolstered up international belief in France's buoyancy; but now the seesaw is swinging the other way.

Must Work Together

The facts of reality thus point to the unbreakable relationship industrial and financial, which exists between Germany and France. Under present conditions of uncertainty, both countries cannot prosper and neither can prosper for long without the other. When France seems to be getting the upper hand, Germany begins to tremble; and when Germany shows elements of recovery, France sees her financial stability endangered. The whole of the evidence since the beginning of the war shows that neither France nor Germany is strong enough to crush the other and endure in solitary gradeur as the dictator of continental Europe.

Instead, the two countries have demonstrated that their destinies are bound together. Unless the haphazard seesaw of prosperity and adversity is to continue, the Rhenish neighbor must reach a common agreement. If they don't the bumping of the see-saw with the Rhine as the buck horse will permanently cripple both.

Ruhr Invasion Falls

This is the lesson now being taught the French and the Germans by the swing back and forth of their fortunes. One year ago France went into the Ruhr and crushed German resistance there. But, instead of this victory resulting to the advantage of France, no sooner was the Ruhr success made complete than the franc began its heavy downward plunge. A 20 per cent increase in taxation Ruhr victory is impressive evidence of the hollowness of such methods of warfare.

The Poincare ministry failed to gain anything for France of permanent value. The various German ministries that have risen and fallen during the Poincare dictatorship of continental Europe likewise have failed to gain anything permanent for Germany. The battle has been a losing one for both.

In modern life of trade and finance when great stakes are being played for, compromise inevitably follows such a measure of strength. Business men realize the uselessness of battling one another's powers away in vengeful rivalry. This is the course that must be followed by Poincare or his successor if the vicious see-saw is to be ended.

Claims Liquor Act Illegal

Revenue Cutter And Sub Entered Ports Without Permission

Montreal, Feb. 2.—Another contention that the Quebec Liquor Act is in direct contravention of the British North America Act was made this morning before Mr. Justice Bruneau in chambers. Raoul Paquette made application to be liberated from jail through his attorneys. Paquette claims that an Imperial statute of George III passed in 1774 which imposed a license fee of £50 sterling on those obtaining liquor permits and all infractions of the law were to be punished by a fine of £50, was never revoked by the Fathers of Confederation in 1880, so that the present law is unconstitutional and ultra vires. Paquette was sent to jail for a month on June 8, last by Judge Enright in Court of Special Sessions for selling liquors illegally and was also condemned to pay a fine of $100 or spend another month behind the bar for having intoxicants in his possession contrary to the Quebec Liquor Act.

Other Illegalities

Paquette asks to be heard in habeas corpus and Mr. Justice Coderre ordered the writ to issue ordering Governor Sequin of Bordeaux jail to produce Paquette in court on February 7, and state why he is detained.

Counsel for Paquette also maintains that Papuette was sent to jail some eight months after sentence while the ly be detained. For these reasons the court is asked to annul the conviction law stipulates that he shall immediate- and liberate the accused. Paquette is allowed out ont $1,000 bail.

Sound Advice From Chief Parole Officer

St. Catharines, Feb. 2.—"I do not believe in the lash for any crime, but Providence provided a good place for a strap," declared Dr. A. E. Lavelle, chief dominion parole officer, addressing the Lions Club here yesterday. He said he wished magistrates would give more indeterminate sentences, because in such cases the parole board can use its previleges to advantage.

FIGURES MISLEAD?

Ottawa, Feb. 2.—(United Press).—Misleading figures are being published by a Canadian publication in a series of articles on the expenditure of the Canadian Civil Service, right Hon. W. L. Mackenzie King, Prime Minister asserted to-day.

Home Made Cough Mixture Considered Best

Spreads Over Membrane, Soothes, Heals and Stops Cough Almost Instantly.

Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best.

Simple coughs, or stubborn coughs, it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

It's fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice the costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

And remember—any remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Healing Cream Stops Catarrh

CLOGGED AIR PASSAGES OPEN AT ONCE—NOSE AND THROAT CLEAR

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffing. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure

Mayor Outlines Labor Commitee

Mayor Will Do All Possible to Straighten Out Gas Problem

Mayor Mikel in his inaugural address recommended the formation of a standing Committee on Labor and Unemployment and following up that recommendation he drafted a By-law designed to carry the suggestion into effect, which received its first reading Monday night.

The Mayor has given out the statement that the By-law is intended to relieve unemployment and help labor by the following methods. (1) the Committee is to see that By-laws and Resolutions as to wages, hours of work, etc., designed to aid labor are carried out, (2) plan ahead for work during the season when work is scarce, (4) when a worthy citizen scarce, (3) encourage citizens to provide jobs of all kinds for workers during the season when work is finds himself in difficulties and distress, the Committee can be appealed to for suggestions that might aid in helping him out of his difficulties.

A few days ago the Mayor of Toronto made an appeal to the citizens of that City to provide jobs for those out of work, thus approving of the principle of the Labor Committee By-law. There are many services required in Belleville, but one of the most important is to see that the willing worker is provided with work—it is better than charity.

Keep Little Ones Well In Winter

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

FRENCH GIVE MEDAL TO ATLANTIC HERO

(United Press Despatch)

Paris, Feb. 1.—The French Maritime League has presented Alain Gerbault with a gold medal in recognition of his feat in crossing the Atlantic in thirty foot open boat.

Independent Order of Foresters

1874 FIFTY YEARS OLD 1924

Total Benefits Paid $82,000,000.00
Total Admitted Assets Over $40,000,000.00
NOW SELLS
20 Pay Life 20 Years' Endowment
One Hundred Per Cent. Protection Policies

All policies have cash withdrawal, and automatic non-forfeiture features after only two annual premiums have been paid.

In event of total and permanent disability from any cause, at any time, all payments cease, and the insured draws in cash 70% of the face of the policy, balance at death, or the end of endowment period.

Age limit 16 to 55 for men or women.
Premiums may be paid monthly.
Annual rates at a few ages for $1,000.00:

Age	100 Per Cent. Plan	20 Yr. Endowment	20 Pay Life
20	14.16	39.19	20.80
30	19.41	39.88	25.14
40	29.52	42.64	32.84
50	50.77	50.77	47.13

Members are entitled to full fraternal benefits, also to the protection of our Sanitorium and our Orphan's Home.

For full information apply to:

FRED M. LAUDER, District Deputy

Canada Banks on This Team in Olympic Games

TOP, LEFT TO RIGHT: CAMERON, McNUNN, McCAFFERY, MUNRO. BOTTOM: SLATER, SMITH, WATSON, RAMSAY.

Herewith is pictured the representative amateur hockey team of Canada. This team is representing the dominion in the Olympic ice games now being played in France. Canada has always produced great hockey teams and the experts predict the present Olympic combination will take an awful lot of beating.

A LONG TIME INVESTMENT

Every Dodge Brothers Sedan body is steel built throughout—sills, pillars, panels, frames and all.

This all-steel design—exclusively a Dodge Brothers feature—possesses certain practical advantages which recommend it most emphatically to the closed car buyer.

It reduces cost, assures a structural precision which is particularly evident in the snug fit of doors and windows, and results in a staunchness of construction which guarantees to the owner a long time investment—and a long time satisfaction.

SPORTS THROUGH EDGREN'S EYES

STRIBLING MOST PROMISING YOUNGSTER IN YEARS

(By Robert Edgren)

Young Stribling, the nineteen year old Georgia boxer, has raised a ripple to a tidal wave in the pugilistic pond during the past two or three months. It's a dull day when the sporting news doesn't tell how Stribling out-tapped some formerly respected light-heavyweight and "made a monkey of him". Pa Stribling, advising from his corner and handling the youth's training, has monopolized columns of newspaper space and been written up by all the lady "sob sisters." And unless Pa Stribling slaps a referee the entertainment of the evening before has been almost a total loss.

The Stribling family did circus stunts, trapeze and all that sort of thing, all over the country for several years under the name of the "Four Grahams." Pa and Ma Stribling are expert acrobats and both fine physical specimens. William (Young) Stribling, and his younger brother, were both trained as acrobats. Pa and Ma Stribling had an ambition for higher things than trapeze work for the youngsters. Financially higher than trapeze work, that is. So when Willie was about two years old they got him a pair of baby boxing gloves and a kid punching bag.

When the younger brother came along he was started on the boxing path too. For some years Willie and his kid brother assisted in the Four Grahams trapeze act. Then their boxing developed so that they could put on a very attractive exhibition bout. It was this exhibition stuff that developed Young Stribling into a fighter. When fifteen he went to his mother and said he wanted to try out his boxing inareal professional bout. He was fast and clever, and he made good from the start. He never has been hurt because the others can't hit him.

McTigue Greatly Surprised

esting example of the result of here-esting eqample of the result of heredity and early athletic training. Father and mother were trained professional athletes, living the hard, clean lives necessary to their dangerous occupation, enthusiastic over feats of strength and skill. From the time he was a baby he was trained to become an acrobat.

That training made him supple, quick hold, adventurous enduring and strong His early start in boxing exhibitions made him an unusually skilful boxer The rag offered much more of a finan- The ring offered much more of a financial reward than the big tent. A champion boxer, well handled, can retire comfortably after three or four years as a title holder. Even a near-champion, fighting the champions and "contenders," can make a big clean up. Johnny Dundee made a ring fortune long before he ever held any title. So did Harry Greb.

A student in the high school in his home town, Macon, Ga., Young Stribling took a great interest in all the school sports and wanted to play on the basket ball team. Naturally as he was a professional boxer he couldn't play as an amateur in any other athletic sport. So he practiced with the teams, went to the games, and kept up his boxing.

The first time Willie was heard of outside Georgia was when he met Mike McTigue. Mike has the unique distinction of being a world's champion although only a second rater and unwilling to "risk" the title against any dangerous light-heavyweight. Since taking the decision over Battling Siki in Ireland on St. Patrick's Day, with the ring surrounded by the Irish army and bombs and guns going off at the corner below, Mike has dodged danger persistently and successfully. He has been bushwhacking about a bit, but hasn't had any real contests. That is—he didn't have until he met Young Stribling. That was an accident so far as McTigue was concerned. He didn't expect Stribling down there in the sticks, to be anything but a set up. How could he figure Stribling any other way—an inexperienced nineteen year old boy with a local reputation far away from the boxing centers.

However, McTigue was cautious enough to take along a referee when he went South. Papers all over the country next day carried a sensational story. The high school boy, Stribling, had outclassed McTigue's title by calling the bout a draw. In the excitement, it was claimed the referee changed his decision, but changed it back again a few hours afterward.

Has Machinery For Punching

Ertle may have been all right, of course. But as a rule boxers who carry around their own referees do so to make sure they can't lose when they're whipped. There is at least a very strong suspicion in the country that Stribling whipped McTigue. The reluctance of McTigue to take on a return engagement indicates nothing else. Stribling and his whole family came right along North after the McTigue mixup challenging McTigue and everybody else in general. When Stribling whipped Dave Rosenberg at Newark on New Year's Day, easily taking every round from a tough, rugged bird who has been hard for any of them but Mike Gibbons to handle, he showed fighting ability. Rosenberg virtually didn't lay a glove on Stribling. At least he didn't reach Striblings face with a punch in the whole bout. That indicates that Stribling is going to be a very successful fighter. You can't whip a man you can't hit, and he doesn't lack aggressiveness. He is no tap and dance away artist. He sticks in close, fighting all the time.

Stribling has developed great speed and accuracy without a great punch. But Benny Leonard used to be called the "feather-duster" boxer. Benny has speed and no punch. He learned how to punch in two weeks when he changed his system, and then went straight up to the championship in a few fights. Stribling can punch if he cares to turn his attention to punching. He has all the machinery for it.

He has perfect judgment of timing, developed in acrobatic work. He has speed. He has general strength and supple joints and muscles. And best of all he has exactly the hand, wrist and forearm equipment needed for heavy hitting. Acrobatic work, trapeze and bar work, hand balancing, etc., have given him big powerful hands with thick fingers, extremely thick wrists, and powerful, heavy forearms.

His Family a Ring Handicap

His left and right are equally developed. At nineteen, he weighs 165 pounds stripped. He will grow from 10 to 25 pounds bigger in the coming three years. Ten pounds bigger, he'll still be a light-heavyweight. Within a year, with more experience, he should give Gene Tunney a hard contest for the championship. McTigue isn't likely to figure a year from now. Mike is remarkably well built for boxing, has speed and a fair punch, and is a very clever boxer. But even before he was champion he wouldn't take a chance and since gathering a title he has become as cautious as a fat rabbit in the coyote country.

The champion who won't fight is soon forgotten.

Of course Young Stribling may go back to school. He may box along in "the sticks" and learn more and then come back to New York and clean up the best in the light-heavy class. He may be a champion in another year, or he may be forgoten. Bet it's likely or he may be forgotten. But it's likely handicap of having his family in his corner. If Pa Stribling gets a case of exaggerated ego because he's Young Stribling's pa, and swats every referee he disagrees with, it isn't going to help the boy's career. The rest of the family stuff makes good dope for the press agent, but keeps Stribling back. He needs a quiet, wise, experienced manager, like Jack Kearns, Billy Gibson or Danny Morgan, to develop his ability and match him up to a championship and a fortune. Anyone of these three probably could do it.

Stribling is five feet ten, weighs 165, is fast and likes to "pull fancy stuff," Dundee style, while boxing. He hits equally with either hand but is no great socker. He has a very good defence. Tex Rickard wants to sign him with McTigue, Greb, Tunney and Wilson, but a New York boxing rule prohibits engaging in 15 round bouts while under 21 years of age.

He began boxing professionally in 1921 as a bantam and has taken on forty pounds in the past two years. John Cox of New Orleans who took several boxers up into Georgia to beat Stribling, and failed each time, says the boy is going to be a great fighter. Stribling has had just 90 fights, has lost four decisions and later reversed two of them, and has a large percentage of winning decisions. He doesn't lack experience in the small time rings, but his fights with McTigue and Rosenberg were practically his initiation to big time stuff. He carried these two off very well.

ON THE ALLEYS

There are often eclipses of the sun and moon, but stars being eclipsed are exceptionally scarce. Last night such an event occurred and in Belleville. There is in connection with the men's bowling league at the Y. M. C. A. a team the members of which term themselves All Stars. Their brilliancy when they encountered the Printers team, and were defeated by over 200 points. It was an interesting game and was witnessed by a number of spectators. Whilst Hill was high in the three string for the winning team Wannacott with 207 had the high single score. Hall for the All Stars was by far the best bowler on the team and rolled a good score namely 559. His best single score was 229. The score and players were as follows:

Printers			
Hill	161	206	201—564
Wannacott	185	166	207—558

			2356

Domenico's Recreation Alleys

Only three pins separated the Willowbanks and the C.I.A. girls at the Recreation alleys last. It was a close game all the way through, the C.I.A. tking the first game and losing the second and third game. In the Junior league the Cyclists won and the Durant Motors by over 200 pins. Mohor and Sloan leading for their teams. The Senior game was between the Ball Team and the Hardware, the former rolling up a total score of 2752 against the Hardware 2457. Cornell carried off the high single and three strings with 267 and 650. Whalen was high for the Hardware with 543. Scores and players:

FANNING WITH FARRELL

DEMPSEY AND HIS SOCIETY STUNTS

New York, Feb. 2. (United Press)—With anyone but Jack Dempsey doing it, the tendency of a heavyweight champion to get into the social business might be looked upon as the beginning of the end.

Being picked up and petted by society, as Dempsey was, while idling around the fashionable Florida watering places, would not only get the average boxer's mind off his business but would cultivate an intense dislike for his business.

No champion can remain a champion long when he gets to disliking the game, because it takes more than the desire for money to encourage him to train and kep in condition.

Dempsey can do the social stuff, without being hurt, because he will not do it too long. He is of such a restless, wandering disposition that he can't remain long enough in one place to cultivate dangerous association and habits.

The heavyweight champion, more than any other champion of the day, is proud of the title as champion, although he does not like to be known as a prize fighter. It is that pride that will keep him going for a long time, because he will keep himself in condition just as long as he wants to retain his championship.

Dempsey more closely resembles the old fighters, who got more pleasure out of the glory of the title than in the money derived from it, than any of the other current champions.

It can be argued, of course, that Dempsey ought to treasure his title because it is of uch value to him, but Dempsey showed a natural liking for the game when he was fighting it way up from the bottom, and he still shows a love for fighting when he is in the ring.

So far Dempsey has taken good care of himself. He is getting toward the age where he will "fill up" easier, unless he keeps constantly in training. When Dempsey is not fighting, he gets only in print when he is dancing or entertaining at some conspicuous place. Eyebrows are then lifted and it is remarked: "Ah, at last! There he goes!"

When Dempsey is working daily in light training it is not a matter of news, because that is something of routine. When he starts to do things himself out of shape, it will be news.

There must be some outlet for the youth and vigor that Dempsey possesses, and his outlet is very mild. He is taking good care of himself and he is smart enough to know, from examples of the past, that there is only one way to stay in shape.

Dempsey has done a lot of good missionary work for boxing. Since becoming the champion, he has done nothing to discredit the game or himself. Petty, little things, like the demands of his manager for huge purses have been held up against him, but they were brought up for malicious purposes.

Dempsey likes to meet people and get around. He takes a keen delight in showing those whose ways never lead near the ring that a heavyweight champion can be very ordinary, refined and sociable person.

John L. Sullivan and some of the former champions up to the time of Corbett, gave the heavyweight champions a name that would never gain entrance into polite circles, but Dempsey and Corbett have done much to get a degree of respect attached to the title.

Dempsey has made a business of making friends. He is naturally of a genial disposition. The only qualification he needed for that "business" of widening the circle of his friends was the knowledge of the proper thing to do and the proper way of doing it. This he picked up in traveling and in meeting with proper people.

The champion can converse intelligently on any subject of current events. He is a good story-teller and he has a very kind memory that retains interesting experiences. He has a subtle form of wit and is quite good at repartee, as was shown in New York recently when a young lady reporter tried to draw out his ideas about "women." She went to interview him and he interviewed her.

Dempsey's memory is most pronounced when it comes to remembering names and faces, and he takes delight in being able to call by name persons that he has met only once under very extraordinary circumstances.

Perhaps the most likable trait of the champion is that he never knocks. Not only that, but he never criticises anyone. Dempsey has had some rough experiences and he has had some nasty things said about him, but he bears no malice. He treats friend and foe alike. He respects the privileges of writers to express their own opinions about him; and if it is derogatory he does not hold it against them.

Firpo, as one of the opposite type would call the attention of writers to anything written about him that he disliked, and he would not be pleasant to them; but Dempsey goes along like he had never read or heard of the unpleasant things.

Perhaps he knew that to reply would only be encouragement to those who have been making a business of trying to make him look bad.

Dempsey is a real champion, a grand fellow and is unfortunate that the present generation may never realize it.

Followed Instructions

A cadet was told by his instructor to draw up th plans and specifications of a railroad viaduct to connect two high hills, between which ran a small stream.

In due course an excellent set of drawings was presented, one showing the bridge in its completion with a sketch of the surroundings. On the bridge sat two men, with their legs hanging over the side, fishing. The drawing was returned with the request that the men be removed from the bridge.

Upon receiving the paper the second time the professor discovered that his instructions had been carried out, that the two men were seated on the bank of the stream, still in quest of fish.

Again was the paper returned, and this time with positive orders to remove the men from the drawing altogether. Imagine the consternation which overspread the features of the "learned instructor," upon receiving the paper for a third time, to find two little graves and tombstones with appropriate epitaphs situated near the bank of the stream. His orders had been obeyed, and the men removed altogether.

A WOUND IS AN OPEN DOOR

Absorbine Jr. enables you to shut the door quickly.

The skin is Nature's own protection against germs. When it is bruised, broken or cut, that protection is withdrawn. The door is open. As quickly as possible Nature closes it by forming what we call a scab and renders you comparatively safe against infection. But this scab sometimes takes days to form and until it has fully sealed the wound, even until the wound has thoroughly healed-again you must furnish the required protection yourself.

A few drops of Absorbine Jr. in the water will give you an antiseptic wash that will kill all possibility of infection and help nature to heal the wound. As well as being a very powerful germicide, Absorbine Jr. will draw out the inflammation and bring instant relief.

Absorbine Jr. is antiseptic, germicide and liniment in one container—handy to keep always in the house; easy to carry around if you travel.

$1.25 at your druggist's.

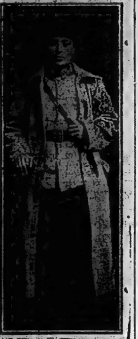
OF INTEREST TO WOMEN

SOCIAL and PERSONAL

Mr. and Mrs. Armstrong and Mrs. Caroline Ferguson, of Belleville, were visitors in Oshawa this week.

Mr. Hugh Middlemiss left to-day for Toronto and Brantford on a visit.

Mr. H. Sample, of Kerrobert, Sask., is visiting his cousin, Miss O. Walsh, Everett street while renewing acquaintances in Belleville.



Allow us to introduce Mme. Hanoum Bombachi, the woman commander of the 38th Regiment of Turkish cavalry Snapped in Constantinople where the colonel recently went on leave of absence.

PERFUME LEADS THE WAY TO HEART OF "MERE MAN"

Right Kind is Sure to Land any Male, avers one Proud Of Vamping

SYSTEM WON 2 MATES

Strong Men Like Sweet and Simple scent, high Brows Prefer something Elusive

Boston, Feb. 2.—Want to be a vamp and grab a shiek? Or win a husband? It's easy. Take it from Vivian Montgomery, who has so many beaux she doesn't know what to do.

For the first time Vivian told the secret of her "vamping" prowess when she reached Boston en route from Ottawa to Palm Beach.

"It's simple," she says, "so simple I got two husbands after I made a science of it. I canned them both and now I guess I've had enough. Like a good sport, I'm willing to share the secret of my success with girls less fortunate.

"Perfume does the trick. Men all fall for it. Study your victim, girls. Find the sort of scent that knocks him woozy. If he's a big, strong man he'll like something sweet and simple—like violet or lilac or lily of the valley.

Favor Vampy Kind

"Sheiks like the vampy kind—something heavy and musky, Oriental-like.

"If he's a sport and a spender, he'll fall for something snappy—a dash of sweetness, plus a little pep. For the [illegible] I mix up a flower perfume with something more pungent.

"Home loving men all capitulate to plain ordinary cinnamon. It makes them think of their mothers' kitchens and baking day. I sprinkle it in my hair. That brings back memories of cookies and apple pies and ginger bread. Then, I start talking about what a good I'll cook I am—and the trick is done.

"Pugilists and race track men and their ilk like something definite—a decided odor. Scientists and physchologists and all the learned birds prefer something elusive—now you get it, now you don't. Black narcissus is best for them. They get it in breaths you know. It floats on the breeze, elusive-like, if you know what I mean.

Her Stock in Trade

"When I started making a serious study of this 'vamp' business I went and squandered my last cent on a bunch of perfumes. Then I started mixing them. The results were a whole lot better than anything you can get over the counter at $23.50 per ounce.

"Talk about profiteers! Say, I discovered that the chief ingredient of violet perfume is turpentine. Ask a chemist if you don't believe me. They even put in oil from sperm whales. And musk!—say they get that from the belly of the musk deer.

"Most perfume isn't made from flowers at all, but almost entirely from chemical solutions. You see, I learned to analyze the stuff I bought and to make it better than the manufacturers.

"I never sold a penny's worth of it, though I've given a lot to girls who begged me to help them in their love affairs. It's only natural men should fall for sweetness, mystery and elusive charm. It's more lasting than pretty wiles and stands up better than flattery. In fact, it's the surest way to vamp."

SOVIETS SEND PROTEST TO U.S.

Moscow, Feb. 2.—M. Litvinoff, the Deputy Foreign Minister has sent a note of protest to the United States Secretary of State, Charles E. Hughes because the United States revenue cutter Bear entered a Russian port of Kamchatka, and the destroyer 223 entered Batum September 15 without permission of the Soviet authorities.

M. Litvinoff asserts that this violated the principle of international law relating to warships and asks that the United States prevent further violations.

Many are born with eye defects

We do not mean with diseased eyes, but with eyes that are imperfect in size or shape. Nothing and no one can CURE such a condition. But the Optometrist, happily for humanity, can overcome it. He does that by placing glasses before the abnormal eyes, causing them to function normally, or as nearly so as possible. That is a duty I perform every day.

J. A. McFEE
Optometrist

Zutoo

Will stop any headache in 20 minutes, will nip a cold in the bud, will relieve the monthly pains of women, and in every case it

Leaves you Feeling Good

That Body of Yours

By James W. Barton, M.D.

AFTER AN ILLNESS—WHAT?

Although the hospitals and hospital treatment on this side of the water have much to commend them, there is one point where we seem to lack, and that is in the treatment of the patient who is safely over his illness or operation, and is sitting around his ward or room until the time comes for him to leave the institution.

His appetite comes back very slowly, he feels strangely weak. When he first attempts to get out of bed he almost faints away with weakness. The same condition is true about one who is recovering from an illness at home. It seems to take weeks and weeks to get back the strength, in fact they are back at their occupations often for months, before they feel their real selves again.

What is my point?

In some European hospitals they have physicians and nurses whose duty it is to hurry along the convalescence of the patient. To get his strength back in shorter time.

How do they do it?

When a patient is ready to get out of bed, he is taken out into the open air when possible, and given very light exercise; otherwise the gymnasium is used.

This exercise is increased as the days go by, until even in the institution, he is actually able to take exercise in a class with others.

Immediately, from this exercise, particularly if in the open air, he develops a natural appetite, and enjoys the plain nourishing food of the institution, which otherwise, from the sameness, would pall upon him.

By exercising in this way all the organs of the body are stimulated to activity, and activity means strength and life itself.

All the organs throwing off waste are particularly active.

Thus the food taken in is actually used in building up the body, enriching the blood.

When he come in from his exercise the patient lies down and completely relaxes, often going into a sound sleep, which is a great nerve builder.

So after an illness, although your doctor will be anxious about your heart, and will not want you to strain it while it is soft, he will gladly consent to short walks or other light exercise, with short rests immediately following.

There is only one way to gain strength, and that is by using the body.

Women! Dye Old Things New

Sweaters Waists Draperies
Skirts Dresses Ginghams
Coats Kimonos Stockings

Diamond Dyes

Each 15-cent package of "Diamond Dyes" contains directions so simple any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

Quentin's Grave

Paris, Feb. 1 (United Press).—The features of Quentin Roosevelt, as symbolizing the American spirit during the war, have been selected by M. Maxine Real del Sarte, sculptor and a disabled French veteran, for perpetuation in the commemorative monument to the French and Americans who fell during the fighting in the Champagne region. The monument will be erected on the site of what was Navarin Farm, famous in military operations.

A committee of Frenchmen conferred with the sculptor on the question of a likeness for the figure representing an American soldier done in a striking pose with two French comrades. They have finally agreed that in the youngest son of the former president was to be found all the characteristics of the true American soldier and the American war spirit.

Lieutenant Roosevelt was a pilot in the 95th Air Squadron and fell in combat with an enemy plane in 1918.

Reads Like Story

New Bern, N.C., Feb. 1.—Dr. Herbert A. Taylor, malarial expert of an international organization located here, killed a full-grown deer with a penknife during a hunt in Craven county low grounds. Two deer were started simultaneously by Taylor and companions. Only one was visible. Gunners blazed away at this. The other almost collided with Taylor in its dash to escape. The latter seized the deer's ear as it flashed past him. A rough and tumble fight followed. Taylor brought a vest pocket knife into play. With this he cut the deer's throat.

SAVED FROM AN OPERATION

Now Recommends Lydia E. Pinkham's Vegetable Compound

Washington, D.C.—"Lydia E. Pinkham's Vegetable Compound saved me from an operation which a physician said I would have to have for a very bad case of female trouble. My system was all rundown for two years after my little girl was born. Then I read of your wonderful medicine and decided to try it. I could hardly drag one foot after the other, and after taking six bottles of the Vegetable Compound I felt like a new woman. I now do all my housework, also washing and ironing, and do not know what real trouble is. My health is fine, and I weigh 140 pounds. When I started taking it I weighed 97 pounds. I gladly recommend Lydia E. Pinkham's Vegetable Compound to any one who is suffering from female trouble or is run down. You may use this testimonial for I am only too glad to let suffering women know what the Vegetable Compound did for me."—Mrs. Ida Hewitt, 1529 Penna. Ave. S.E., Washington, D.C.

Such letters from women in every section of this country prove beyond question the merit of Lydia E. Pinkham's Vegetable Compound.

Well Instructed

The Judge—"Now are you sure you understand the nature of an oath?"

The youth (scared stiff)—"Sure; ain't I yet caddy down at the links?"

Only Those In Declining Years • Realize What It Means •

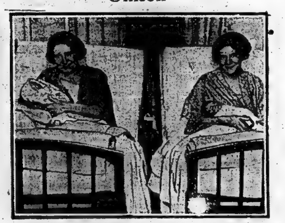
As people pass middle age, their strength and vitality usually begin to wane. They are easily tired. They notice that they are not as active as they were. They need something to tone up their system — something which will put new strength, life and vitality into them—a tonic. But such a tonic must contain no harsh ingredients. Old age was Mr. Snider's trouble. Read what he says:

"It is only those who are in the declining years of their life who can understand the many troubles which old people have to endure. The slightest over-exertion brings on weakness, which affects the whole system, resulting in indigestion, sleeplessness, depression, loss of strength and vitality. This was my trouble. I was suffering from old age. I needed something to renew my strength and vitality. I told my druggist about my trouble and he recommended Carnol. A short time after I started taking it I felt better. I noticed my strength and vitality returning. I had more energy. I felt better than I had felt for twenty-five years. My appetite has returned. My friends all say how well I look. I have no hesitation in recommending Carnol to old people. I conscientiously believe that it will help them as it has helped me." — Mendel Snider, Hanover, Ont. 6-9

Carnol is sold by all good druggists everywhere.

Sold By DOLAN The Druggist

Unison



On Jan. 7, 1923, the Rochleder sisters celebrated a double wedding in New York City. One became Mrs. Nat Wells (left) and the other Mrs. Henry Tewel. The other day they again celebrated a double event, each becoming a mother. Mrs. Wells' baby is a girl and Mrs. Tewel's a boy.

INDIGESTION, GAS, UPSET STOMACH

INSTANTLY, "PAPE'S DIAPEPSIN" CORRECTS STOMACH SO MEALS DIGEST

The moment you eat a tablet of "Pape's Diapepsin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery-making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

"I'm the train caller," answered that didnitary.

"Well, call me one, then. I'm in a hurry."

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its pleasant taste.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

Rolls 'Em

Miss Betty Roche demonstrated at the Tobacco Show in New York how easy it is "to roll your own." Meaning cigarets—not hose a la flapper style.

GIRLS! LOTS OF BEAUTIFUL HAIR

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating—not sticky or greasy! Any drugstore.

Too Much

"I say, y'know, all these bills are dated months before we were married."

"Yes, darling, I know they are."

"Well, it's a bit thick to expect me to pay for the bait I was caught with."

GLORIA SWANSON

A SAFE RELIEF FOR WOMEN'S DISORDERS
10 DAYS' TREATMENT FREE.

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A free trial treatment, enough for 10 days, worth 75c., will be sent free to any suffering woman who will send me her address. Enclose three stamps and address:

Colds Headache Neuralgia Lumbago
Pain Toothache Neuritis Rheumatism

Genuine Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Relieved After Two Years Suffering

IF you suffer from backache, rheumatism, lumbago, bladder weakness or any other symptom of bladder trouble, read this most astounding testimonial:—

"For two years I was an invalid, incapable of work of any kind. I was unable to move without the assistance of a crutch or cane. I had given up hope, when a friend advised me to try Gin Pills. This I did, and within two months was a well man. This was four years ago, and I have had no return of my trouble since."

(Name upon request.)

It is remarkable recoveries such as this—one of thousands—that enables 25,000,000 Gin Pills to be sold every year. The people Gin Pills relieve are the greatest advertisers of Gin Pills.

If you are suffering from any form of kidney trouble, get Gin Pills and join the multitude of happy people who have been relieved of their sufferings by this specific remedy for kidney disorders. Gin Pills are 50c a box—at all druggists.

Immigration Move

Ottawa, Ont., Feb. 1.—Immigration into Canada showed an increase of 102 per cent. in the seven months ending Dec. 1, according to figures compiled by the Department of Immigration and Colonization.

Newcomers entering the Dominion in this period numbered 106,506, as compared with 52,651 in the corresponding months of 1922. Immigration from the British Isles registered the biggest single gain, increasing 125 per cent.

British settlers during the seven months totaled 57,612 or more than 50 per cent. of the total. Settlers from the United States numbered 14,900 and from other countries of the world 33,996.

Definite Arrangement

A tailor had called to collect his bill frequently, but without success. Finally, in desperation, he said vehemently:

"Mr. Jones, I must insist that you make some definite arrangement with me."

"Why, surely," replied Mr. Jones agreeably. "Let's see. Well, suppose you call every Thursday morning."

Hunting Wives

"Wise young men do not hunt for wives on the streets, or at shows." In the modest seclusion of happy homes, helping mother, or in the Sunday School and church, helping to make the world better, or in the school room leading young lives into a higher place—in places like these they seek to find them. And the young men that gadding girls "catch" are not worth catching."

They Appreciate Canadian Varieties

The Heart's Delight Farm at Chazy, New York State, consisting of eleven thousand acres, is one of the most noted farms in America. It is interesting to learn, when on a recent visit to this farm, that the hundreds of acres of spring grains under cultivation were, in all instances, varieties which had been originated in Canada; the oats and the barley at Guelph, and the spring wheat at Ottawa. The O.A.C. No. 104 variety of winter wheat, originated at Guelph more recently, was being tested out.

Additional Sports

OSHAWA TRIMS TRENTON

Oshawa, Feb. 2.—For the first appearance on Oshawa ice of a Trenton hockey team and a recollection of a 30-minutes overtime struggle when the locals visited the eastern town a capacity crowd greeted Trenton at Bradley's Arena here last night for the intermediate O.H.A. group game and it was only after sixty minutes of great hockey and sensational goaltending by Dick Smith that Oshawa carried off a 5 to 2 victory The Trenton team:

Trenton—Goal, Bowen, defence, C. Allore, R. Burns, centre Shonicker, wings, Scheisch and J. Anderson, subs Barr and E. Shannon.

LADIES HOCKEY

Campbellford, Feb. 2.—The first league game was played in the arena on Thursday evening between Lakefield and Campbellford resulting in a victory for the latter by 8 goals to 5. The rink was filled to capacity and the spectators witnessed a real snappy game. Referee—Charlie Holmes.

STRATFORD LOSE FIRST

Galt, Feb. 2.— The Terriers last night lowered the colors of the Stratford Indians and smashed their old goose egg when they registered a 2-1 victory in the Big Four here. It was the hardest fought ice battle Galt has witnessed in many a day but on the night's play the locals deserved to win, playing a much improved brand of hockey over anything they have displayed this season.

MID-SEASON "FADE-OUT"

Kingston, Ont., Feb. 2.—Cornwall defeated Queen's 3-1 in a dismal intermediate O.H.A. game here last night. Queen's lacked punch and seemed indifferent as to the result. Two of Cornwall's goals were farcical. Arthur Brouse refereed.

PORT HOPE MEN LOSE RACEHORSE

Harry H. Owned by Dr. Johnston and H. Van Alstine Dies Suddenly

Port Hope, Feb. 2.—The race horse owned by Mr. H. M. VanAlstine and Dr. Johnston was taken sick Saturday and died suddenly Wednesday when thought to be well on the road to recovery.

Saturday afternoon Harry H. suffered a severe attack of Flu and indigestion and with careful treatment his condition was brought back to normal, as far as his owners could see. Wednesday evening Mr. VanAlstine was in the stable when the horse had a weak spell, death ensuing in two minutes, not even giving him time to call the doctor.

Death was due to a rupture of a blood vessel which broke into the animal's lungs.

His time was 2.24½ and Harry H. won the last race in which he competed. It was at Warkworth, on October 6th last, where he won in three straight heats. It will be a heavy loss to his owners as he was a valuable horse.

Got To Work

"An' what's your job around here, young feller?" asked the farmer of an official in a big city railroad station.

COMMITTED FOR ALLEGED THEFT

Accused Plead Not Guilty at Hearing Held at Bowmanville.

Bowmanville, Feb. 2.—Two Toronto youths, Russell Walters and Harold McBrien, appeared before Col. Floyd, county police magistrate of Cobourg, at Bowmanville yesterday, charged with the theft of $100 in cash and two cheques for $67 and $27 each from John Walters, a general store keeper at Courtice. The men were committed for trial at the assizes at Cobourg and were admitted to bail in $1,000 each. W. F. Kerr, K.C., of Cobourg, crown attorney, conducted the prosecution and D. A. J. Swanson of Oshawa, appeared for the defense.

Pleaded Not Guilty

Both prisoners pleaded not guilty. John Walters, telling his story, said the robbery was committed on September 7th last. On that day he had $100 in cash in the till in his store at Courtice and two General Motors pay cheques for $67 and $27 which he had cashed for customers. Three men in a car drove to a point a few yards west of his service station and Russell Walters got out and purchased a quart of oil for the car. The other men also alighted from the automobile, but witness declared he did no see where they went. After they had gone he found the money and cheques had been stolen from his till. He then reported the case and took steps to have the trio arrested.

Under cross-examination by Mr. Swanson witness admitted that Walters told him who he was an also gave the address of his father in Toronto. He did not see either McBrien or Walters in his store.

Signed a Statement

Provincial Constable Couzens, who arrested Walters in Toronto, said the prisoner made and signed a statement, placed in evidence, in which he admitted buying oil from the complainant, and also telling him his name and Toronto address. He said he then got back into the car and that McBrien had not left the automobile at all. On the way back from Courtice to Toronto they stopped at Oshawa and Whitby. One Zetter, the third man in the car, purchased cigarettes at Oshawa and at Whitby and paid McBrien $30 for the use of the car. When they got near to Toronto Zetter told that he had "fleeced the old man at Courtice." but witness declared he got none of the money and knew nothing about it except what his companions had told him.

Detective Hill, of Toronto, who arrested McBrien, said that the prisoner had told him a story which coincided with that of Walters.

Zetter is at present serving a term in the reformatory in Guelph where he is ill and consequently unable to stand trial for the Courtice offense. It was agreed that the prisoners should be committed to the assizes for their trial and admitted to bail which was fixed at $1,000 each.

23 Saved From Sunken Vessel

Three Lost When Ship Battered in by Ice in Ohio River

Smithland, Ky., Feb. 2.—Twenty three persons, passengers and members of the crew of the steamer Tom C. Powell, were taken off the top deck of the vessel, which settled on a sand bar in the Ohio river near here last night, by the tow boat Marcia Richardson shortly after midnight Friday.

The steamer Powell sank early last night when her hull was battered in by ice floes. Settling on a cottonwood bar in about twenty five feet of water her top deck kept clear and furnished refuge for those on board.

Eleven persons had escaped earlier from the vessel in a yawl. Among those in the yawl, who were sent to Paducah after landing on the Kentucky side of the river, was W. E. Pemberton, Iowa, chief engineer, who suffered two broken ribs in the wreck of the steamer.

Paducah, Ky., Feb. 2.—Survivors of the wreck of the river steamer Tom C. Powell, arriving here early today on the tugboat Marcia Richardson, reported that three deckhands lost their lives when the Powell's hull was battered in by ice and the vessel settled on a sandbar in the Ohio river at a point near Smithland last night.

TORONTO YOUNG SET BARBARIOUS

Society Matrons Shocked by Conduct of Rising "400" at Private Functions

Toronto, Feb. 2.—What's the matter with the rising generation?

Are the younger set of Toronto's 400 "social barbarians," whose manners are nil?

Public opinion has been startled by the emphatic "Yes" which several of the prominent hostesses of this city gave to the above question.

Stories of happenings at social functions in Toronto's most exclusive during the holiday season, are now going the rounds.

Not merely tales of drinking, petting parties and midnight joy rides, but of absolute disregard of all social conventions, boorishness in hosts and hostesses and wanton damage and destruction to household furnishings.

Matrons of the 400 tell of lighted cigarets being dropped into expensive rugs and tapestries, liquor spilled over costly furniture, and of rooms in all quarters of the house, even the servants' bed rooms, being invaded by young couples seeking seclusion.

Chivalry and the accompanying "small, sweet courtesies of life" if not atogether extinct among the younger set, are today being slowly strangled by the selfish, thoughtless and unsupervised habits of the sons and daughters of many of the country's oldest families, according to the view expressed by one of Toronto's society women, noted for her penetrating wisdom.

U. S. AGRICULTURAL RELIEF

Washington, Feb. 2.—The Government by stopping the sale of its treasury savings certificates in seventeen Western and middle western states yesterday stepped aside so that available funds hereafter may be applied to the relief of agriculture and banks in the stringent credit area. Sale of the savings certificates through post-offices—the medium used to reach the modest investor,—was ordered stopped by the Postmaster General Now.

REBELS CUT RAILWAY

El Paso, Tex., Jan. 31.—Direct rail communication with Mexico City from the border was severed again today by rebel forces operating near the city of Jiminez, in Southern Chihuahua, advices received in El Paso stated. Casualties occurred on both sides when a passenger train was attacked according to the report.

"We got our Exercise at the Wood Pile"

IN the good old days when we were boys in the country there was no lack of exercise.

When other jobs ran out there was always wood to be cut and there is no denying that pushing the buck saw and swinging the axe are real exercise.

Rosy cheeks and sparkling eyes told of pure blood and an active liver. There was no lack of appetite those times and no complaints of indigestion.

But wood piles are not so plentiful now as they used to be and the tendency to avoid exercise is continually on the increase.

For this reason it becomes absolutely necessary to resort to other means of keeping the liver active and the bowels regular.

Particularly in the cold season when we live so much indoors with too little pure air to breathe and too much artificial food to eat do we require the use of medicine to regulate the vital organs.

In the great majority of homes Dr. Chase's Kidney-Liver Pills are constantly kept on hand for this purpose because they have proven to be the most dependable regulator and suitable for all the family.

Neglect to keep the liver, kidneys and bowels in healthful activity is only courting trouble from such ailments as appendicitis, Bright's disease of the kidneys, diabetes, high blood pressure or other dreaded diseases.

By the use of one pill a dose at bedtime once or twice a week you can be sure of the healthful action of these eliminating organs and the prevention of such ills as naturally develop in a poisoned system.

Please note, that while the price of Dr. Chase's Kidney-Liver Pills is increased to 35 cts. a box the number of pills in a box is increased in the same proportion. Edmanson, Bates & Co., Ltd., Toronto.

GRIM REAPER CLAIMS WOODROW WILSON

SOVIET EXPECTS FLOOD OF NATIONS TO JOIN IN GRANTING RECOGNITION

Italy, Norway, Belgium and France Expected to "Fall Into Line" Established by action of Premier MacDonald in Recognizing Russian Government

LETTERS PUBLISHED

Personal Letters, Exchanged by Labor Premier and Poincare, Made Public—Policies of Co-operation Outlined in Message Sent To French Leader—Cautious Reply is Given

Moscow, Feb. 4.—(British United Press)—Russia expects recognition during February by Italy, Norway, Belgium and possibly France.

Soviet authorities, now that the ice has been broken by the action of the Labor Government in Britain, believes that recognition notes from other nations are about to come thick and fast.

Meanwhile, realignment of the governmen has taken place. The new Central Executive Committee elected A. I. Rykoff to succeed Lenine as president of the council of the People's Commissars or Premier.

Rykoff has been a member of the triumvirate which ruled Russia during Lenine's last illness. Kameneff, Murupa, Tsubar and Orckhelashhaly have been chosen vice-presidents.

Personal Letters

London, Feb. 4.—(British United Press)—"Personal" letters exchanged by Premiers MacDonald and Poincare which have aroused interest becauseof the novelty of such procedure were published to-day.

On January 26th the British Labor Premier wrote Poincare recalling Anglo-French sacrifices in a common cause and expressing grief that so many points remained unsettled. "I assure you it will be my daily endeavor to help settle them to our mutual benefit." MacDonald wrote, adding that hope that by strenuous good will he and Poincare would be able to settle their conflicts and devise policies of co-operation enabling France and England to "advance together and establish peace and security in Europe."

Two days later Poincare replied cautiously expressing his confidence that they would be able to effect "that Anglo-French co-operation which is essential to world tranquility."

Licence Markers Expected Soon

Local motor licenses will be issued at the office of the H. F. Ketcheson Company, G. E. Ketcheson, issuer. All supplies with the exception of the 1924 license plates are on hand, and over 4000 markers are now on the way here. These should be here in a day or so. The local series starts from 197—501.

STIRRING APPEAL FOR PATRIOTISM MOVES KIWANIS

Bransby Williams Delivers Remarkable Talk as Guest of Local Organization

LOST SON IN WAR

Address of Noted Speaker is Last to Be Given Prior to Sailing for Europe

At today's noonday luncheon of the Kiwanis Club, Bransby Williams was the guest of honor and speaker of the day, and delivered an address on Canada that made one feel he would like to be as good a Canadian as Mr. Williams, even though he is an Englishman and has only spent ten weeks in Canada.

As he said in that ten weeks he had lost $10,000 in putting his play before the public and yet he was so impressed with our country he had decided to return at some date in the not distant future.

He said that today was a day when most serious talk and thought was needed, and contrary to what most effected a humorous talk, he was going to be serious.

He was going to be man first off the stage and an entertainer on the stage.

He said that strange to say his first public address in Canada was to the Kiwanis Club in Montreal on landing and as he sailed hTuesday for England this would be his last talk to any club.

He spoke of Canada's need of wise immigration. In his observations throughout the country and after serious thought he could not associate himself with any set scheme of immigration but one thing sure, he said, Canada has no place for loafers.

He touched on many incidents during the war and said that the men who were causing most trouble in England were those who had earned big wages during the war, while his own son and thousands of others were fighting. He made mention of the fact that his only son had been killed while serving in the air force. He regretted that movies and Jazz had got such a strange hold on the youth of today and he pleaded for a better literature and a betterstage.

His entire life had been spent in trying to give entertainment of a higher type for the public.

He concluded his address with a stirring appeal for unity within the Empire and continued allegiance to the old Union Jack.

On motion of Ed O'Flynn and F. E. Malott it was ted one of the best addresses yet given to local Kiwanians, and in reply Mr. Williams said he was proud to belong to a sister organization, the "Rotary Club", and eulogized the work both these organizations were doing to attain the conditions he had been talking on.

P. C. McLaurin was chairman of the day with Ernie Dickens as song leader and Russ Wotten at the piano. Harold Barrett delighted the members with a solo.

The meeting was held today instead of Tuesday in order to hear Mr. Williams.

Canadian National Dog Team

IN MONTREAL CARNIVAL DERBY.

The Canadian National Railways have entered a team in the Montreal Winter Carnival's Senior Dog Derby, which is to be run in Montreal on Saturday, February 9th. The team is composed of three Danes and two Mastiffs and they will be driven by Jack Dooley, a former resident of Labrador and now a clerk in the Canadian National Railways Shops at St. Malo, Quebec. The dogs are the property of Patrick Nolan, foreman of the Blacksmith Shop of the Canadian National Railways at St. Malo. In a trial run this dog team has covered 35 miles in three and one-half hours. The course of the Montreal Derby covers 30 miles. The photo at the top shows the team ready to start in a trial run. In the oval is seen Jack Dooley with "Jack," the leader of the team. At the bottom Mr. Joseph Samson, who has been Mayor of Quebec City for two terms and who is running for his third term this year, is seen standing beside two of the dogs in the team.

CANADA TO SHOW HER GROWTH BY GRAPHIC CHARTS

Outlines of Historical events—To Interest Visitors at London Exposition

GIVE STATISTICS

Mineral Production, Insurance, Manufacturing, Wealth, Among Features

Ottawa, Feb. 4.—Canada's remarkable growth in the 300 years of her existence and her present imposing position in the commercial world will be presented in a most graphic form to the hundreds of thousands of visitors to the British Empire exhibition in London this year.

Some pains have been taken to get the earliest possible population records of Canada, and on the chart devoted to growth of population a start is made with forty-four people in the

ABLE SPEAKER ASKS AID FOR RETURNED MEN

Captain W. G. Ferguson Outlines Need of Support at Griffin's

SACRIFICES MADE

Argyll Light Infantry Band and Capable Soloists Brighten Program

Speaking favorably of sacred concerts when held for a worthy object Capt. W. G. Ferguson, of Smith's Falls, at Griffin's opera house last night asked the large audience to contemplate the object for which they had assembled. It was to pay a tribute to those who are fighting the battle of life against great odds, and to assist in the caring of widows and orphans and helping their pathway through life.

It was also to help restore some to civil life, and care for the men who fought the nation's battle.

Many are to-day in a great struggle for the battle of life on account of the condition they have been left in since the war. No living soul on the continent actually knows what did occur in that gigantic struggle. No human mind can conceive it and no tongue can tell the horrors of that war. Every ingenuity and every known devise was used to destroy mankind.

There are thousands of returned men who have no friends, no influence in this country and what is life to them in their condition? They know they did their duty and are ready for the inevitable.

He (the speaker) was a Canadian and was speaking for the returned men who fought for liberty, christianity and God.

Three nations were devastated in that great struggle and hundreds of thousands of lives lost, and thousands maimed for life. There may have been to some an excuse for the war but there was no necessity for it.

Is it not a fact that today some nations are mobilizing for war again?

Japan is building six battle ships. Millions are being expended on ships in other countries and even gigantic aeroplanes are being constructed. Was that sacrifice made in vain, and was the great sacrifice on Calvary made in vain? There appears to be nothing but

(continued on page three.)

ROYALISTS PLOT TO PUT CYRIL ON THRONE IN SOVIET RUSSIA

London, Feb. 4 (United Press).—A royalist conspiracy to place Grand Duke Cyril on the Russian throne has branches in London and many continental cities and is also said to have agents in the United States.

The affairs of the organization are admittedly directed by the Grand Duke Cyril from his office in Paris and his villa at Nice.

Recently Cyril circulated a proclamation promising control of land by the peasants and liberty of voting power for all workers in Russia.

The agent for the royalist conspiracy in England is M. Thaddee Wiltchinsky, who outlined the royalist plans as follows.

"We want to overthrow Bolshevism and establish conditions which will enable every man to record his vote without fear of Bolsheyist oppression.

"We have proof that the country desires a return to the Monarchist regime. The Bolshevists know this, too and that is why they keep a firm hold on ports and telegraphs and all other means of communication.

"The moment we smash Bolshevism in Moscow, we shall smash Bolshevism throughout Russia. When that is done we shall let the people vote as they please, and if a Russian National Assembly elected under these conditions votes for the reestablishment of the Monarchy the Grand Duke Cyril will be made Czar. He will accept the will of the people whatever that may be."

The royalist organization claims that there was a revolt in Moscow last September in the interest of Cyril, when his adherents held the Kremlin for four hours. The plot failed, it is claimed, because the plans of the royalists were betrayed by spies. It is said that many were put to death after this revolt.

GREAT PACIFIST AND WAR LEADER OF U. S. ANSWERS DEATH'S CALL; ENTIRE NATION MOURNS PASSING

LABOR'S AIM TO WIN DOMINION AS IN ENGLAND

Advent of Labor To Power In Britain Fires Imagination of Unions

LOOK FAR AHEAD

Union Labor In Canada Fighting for Universal Eight-Hour Day

Hamilton, Ont, Feb. 4.—The advent of a Labor government to power in Great Britain has fired the imaginations of labor unions and labor organizations of all sorts in Canada and a determination to have an important part in the next federal election in Canada is manifest.

The past couple of years the labor idea so far as politics are concerned seemed to have been losing ground. Immediately following the war, the labor men were threatening to take over the reins of government but latterly there has been a change of sentiment on the part of the voters.

But the success of the party of Ramsay MacDonald, and the opinion that when another election takes place, the British laborites will have a clear majority over the Liberals and Conservatives, has aroused tremendous interest in labor circles in Canada and a bid is to be made for power in the dominion forthwith.

Look Far Ahead

Looking ahead, the Labor leaders have been working to block any attempt of the Liberals to secure the aid of the farmer or Progressive party, it being argued that the Progressives and the Laborites have the same ideals and should work together. The Liberals, it is claimed, are just moderate Tories, and always prove themselves such when occasion offers. In this regard, it is recalled that when the farmers and most of the labor men opposed conscription in Canada, except for home defence, the Liberals beat them by joining hands with the Conservatives, forming in 1917 what was known as the union government of Sir Robert Borden.

Few Are Socialists

Labor in Canada, however, has but few of the ideals of the Labor party in Great Britain. There are few avowed Socialists in the labor ranks of this country, whereas MacDonald and most of those behind him are Socialists. West of Winnipeg there may or may not be some Socialists with Bolshevist sympathies, but in eastern Canada, unless it might be in Nova Scotia mines district, red-doctrine is not tolerated. The Independent Labor party of Canada should not be confused with the labor unions of the country, although in the majority of instances most of the members of the unions are in favor of most of the planks contained in the political party's platform.

Labors' Aims

Union labor in Canada is fighting for a universal eighthour day, better working conditions for men and women, and generally higher wages all around. The Independent Labor party goes further and has ambitions to rule the country, as well as each of the provinces. Until such time as it can get the complete support of the unionized workers of the dominion, however, there is not much chance of its overwhelming success in the political field. For the time being, union labor seems content to lay its grievances before the government of the day, by means of the Trades and Labor congress of Canada which the other day asked the government of Premier W. L. M. King to abolish the Senate.

Pulpit, White House and Radio Broadcast Sorrow of Entire Nation at Passing of One of Greatest Figures of His Time—Death Came Quietly, as Though Closing Eyes in Sleep

ENTIRE WORLD PAYS TRIBUTE; COOLIDGE OFFERS STATE OBSEQUIES

Last Thought of Departing Was For Wife—Sank Into Unconsciousness and Finally Death with Wasted Hands Holding Wife Close—Great Figure Never Moved by Other Than Desire to Build

Washington, Feb. 4. (By Lawrence Martin, United Pres sStaff Correspondent).—A nations sorrow at the death of Woodrow Wilson was expressed to-day in silencing of the wheels of Government flags dropping at half staff and in a proclamation from President Coolidge providing that the highest honors that can be paid shall be accorded the war chieftain of the nation.

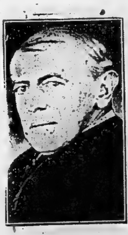
Mr. Wilson died at 11.15 a.m. Sunday while prayers were ascending in the churches for him.

He simply went to sleep, passing from life without struggle or pain. Arrangements for his funeral awaited to-day the decision of Mrs. Wilson who was too exhausted after her long vigil at the bedside to consider questions regarding burial and funeral services.

Her wishes, however, will decide whether Mr. Wilson is to have a great state funeral, with military pomp and ceremony, and with burial in the hallowed ground of Arlington National Cemetery, among the nation's heroic war dead of all wars. If she wishes instead a simple, non public funeral, and burial in the old boyhood home at Stauntan, Va., that is what will be done.

President Coolidge has put at her disposal the whole machinery of Government. He has ordered the war and navy departments to prepare to accord fitting honors to the departed chief.

So far as is known Mr. Wilson did not express any preference as to where he should be buried nor as to the character of his funeral.



WOODROW WILSON

The death of Woodrow Wilson removes the dominant world figure of the decade from 1910 to 1920. Wilson and Theodore Roosevelt will probably go into history as the leading actors on history's stage during the generation in which they were the culmination.

Only the mature judgment of history can assign Wilson his certain place. He lived and worked and ruled in the years that produced Kaiser Wilhelm, Lloyd George, Clemenceau, Kitchener and other men who occupied whole chapters in world history. He reached the world's summit of applause during the Paris peace conference and his ebb, as broken in body and fame, but not in spirit, he rode down Pennsylvania avenue through the sunshine of March 4, 1921, away from the White House, forever.

Born of stern, unbending Scotch Presbyterian stock, Wilson had much of the cold austerity of Scotland's craigs. To him there were only two classes of men—those for him and those against him. He saw no middle ground. Few outside of his immediate circle loved him, and he loved few. Millions admired him for his admitted strength of vision, idealism and indomitable courage. Millions hated him for his intolerance to views other than than his own and for the ruthlessness with which he swept aside opposition. His was a lonely, self-controlled personality.

Yet, with body broken and old age creeping fast upon him, his closest friends say he mourned that he could not awaken love in the hearts of the people for whom he felt he had done so much; for whom he had advanced his ideals and for whom he felt he had suffered something akini to martyrdom.

Desired Lave

the animosities of ruthless politics and the passing of the ex-President is today mourned by a nation that always had the highest respect for his deep learning, diligent search after truth and unswerving devotion to what he believed were the world's ideals and which he adopted as his own.

In a measure, Wilson was a self-made man. His parentage was sturdy but poor. His father was a Scotch-Irish Presbyterian minister; his mother, Janet Wilson, the descendant of a family of Scotch Presbyterian ministers noted for their aggressiveness.

Thomas Woodrow Wilson was born Dec. 28, 1856, in Stauton Va., where his father was pastor. Two years later the family moved to Augusta Ga., where Wilson spent most of his childhood. He was a normal boy, played baseball on the corner lot and refused to learn the alphabet until he was nine years old. His early tutors were his father and mother.

At seventeen Wilson began his scholastic career at Davidson College and in 1875 he entered Princeton Uni-

TRACES FOUND OF INDIAN TRIBE BELIEVED OVER 3000 YEARS OLD

Perkeley, Cal. Feb. 4 (United Press).—Excavations of mounds in the lake region of the southern San Joaquin Valley conducted by University of California anthropologists has recently uncovered new evidence of the existence of an Indian race in that district over 3,000 years ago.

Dr. E. W. Gifford, associate curator of the university museum of anthropology, reports that in opening ten ancient mounds he and his helpers brought to light bones of some forty individuals, which have been brought here for study. Some of the bones are well preserved, others crumbled when exposed to the air.

Dr. Gifford believes that the find opens a page of history for a new race and extends still farther in scope the romance of the prehistoric man of California.

The scientists found evidence of a highly developed Indina culture in the Buena Vista man, as the San Joaqun race s called. It was apparent that the race maintained regular intercourse with the more advanced peoples of the Santa Barbara coast. Examination of the famous rock paintings of the Carriso plains disclosed the location of many of these intertribal trade routes, Dr. Gifford reported.

Unlike the San Francisco Bay Indian, the Buena Vista tribes, according to Dr. Gifford, did not merely toss their dead upon piles of rubbah to be buried by dumpings of further refuse, but like the Oregon mound builder, heaped clean earth, according to priestly custom, making of each burial a ceremony and a religious celebration.

CURTAIL TRADE

If England has stopped buying grain, rice and skins in India, how can India afford to buy from England. If England no longer sells to Germany, who was her best customer before the war, how can she buy in the United States?

With the exception of Great Britain which has a large credit reserve and is developing her export market all European exchange will continue to "soar downward". As long as the occupation of the Ruhr and the present situation in Germany lasts, the whole world will feel the economic effect.

France has created grave dissension in Germany. But the Germans, betrayed, robbed and oppressed, are a hardy race. They will piece together their unity even if they have to wade through torrents of blood.

The delusion of 1918 and 1919, the league of nations, was supposed to be a dove announcing the end of the deluge, but it turned into the crow that heralds the storm. It is not only an executive organ of the victors, but, like the commission for reparations, renders its rulings without regard to justice.

INSTABILITY

Everything in Europe is unstable and every day this instability renders all conditions of life uncertain not only for the vanquished, but for victors and neutrals.

France has in view certain well-defined objectives:

1. To paralyze England's efforts for peace.

2. To hold under her military control Belgium, Poland and Czecho-Slovakia, gradually destroying German unity by successive territorial occupations.

3. To cut up Germany into five or six small states, promising all separatist, revolutionary and reactionary movements.

4. To annex the left bank of the Rhine, peopled by twelve million Germans, after the constitution of a short-lived Rhineland Republic.

5. To monopolize Europe's production of coal and iron.

The peace-time productive power of Europe has been paralyzed. The two greatest buying markets in Europe were Great Britain and Germany. Before the war they were America's largest customers.

Now Germany is no longer in a position to buy in foreign markets. Her consumption has been reduced 30 to 90 per cent. German Austria, Budgaria, Hungary, Czecho-Slovokia, Roumania and Poland can buy very little.

EDITORIAL NOTES

The Canadian Pacific Railway will establish it owns radio, with receiving stations in the homes of its 100,000 employes. Once a week the president of the road will talk to them all. Sir Henry Thornton, the president, says this new scheme, "a radio in every worker's home," will human's business. It will, and also add power to business. The first message, first comment, will come straight from the boss. Kings of old could not do that.

The Rev. Dr. Straton will build a great religious hotel, as part of his great white temple, close to New York's Great White Way, at a cost of five millions. That will amaze the foxes and birds that had better homes than the Founder of Christianity.

Only true Christians will be admitted to the hotel, says Dr. Straton. Merely writing on the register "Jones and wife" won't be enough. You must be a true Christian, no modernist, no Darwinian. Frescoes in the lobby, doubtless, will show the whale swallowing Jonah, Joshua stopping the sun in its movement around the earth, and "the four angels standing on the four corners of the earth." Nothing is more beautiful than faith.

Stagnation is dangerous, even in fashions. Look around and you see in womankind an ever shifting kaleidoscope. Short skirts and long, low front, low back—almost no back at all. High heels, tight corsets, wasp waists. Suddenly, no corset, no waist at all. You rave and protest but you are wrong. It all means something, and has to do with progress.

A female Egyptian mummy almost three thousand years old is found wearing clothes identical with the clothes of Egyptian women today. No fashion change in 3,000 years in Egypt, and no change of any kind worth while. Stagnation in fashions, stagnation in mind. Therefore be reconciled to the dressmaker, emblem of change and progress.

PRESS OPINIONS

ALTERED CONDITIONS

(Springfield Republican)

How important the route thru the Arctic may become is strikingly shown in the historic quest for the "northeast passage." This was inspired by a real commercial need, but the search only showed the Arctic to be usually too obstructed by ice for navigation to be practicable.

The problem has been wholly altered by the conquest of the air, which opens for the first time the possibility of navigation in a straight line between the northern parts of the continents. To cut off a thousand miles or so of distance it will be well worth while to go to the expense of maintaining bases on whatever barren foothold the Arctic may offer.

LIKE SOME CANADIAN JURIES!

(London Times)

The acquittal of Germaine Berton by the Seine Assize Court for the murder of M. Platteau is an outrage upon justice. There was no question of the material facts. The prisoner admitted in open court that she had shot M. Platteau; her only regret was that she had not shot M. Leon Daudet instead. Her counsel did not plead insanity. His argument was that in murdering M. Plateau she conceived that she was not murdering an individual, but striking at an organization. This audacious sophism apparently satisfied the jury of the Seine.

The result has naturally delighted the Communists and the Anarchists; it has filled good citizens of all parties in France with shame and regret. They realize that verdicts of this kind given in the teeth of proven facts are a deadly blow not merely to the legal system under which they are possible but to the framework of society. The juries which deliver them, whatever their motive, are encouraging the repetition of the crime. They are lending countenance to the infamous doctrine that so-called "political" crimes are not crimes at all. The whole course of the proceedings seems bewildering to English minds.

RURAL ENVIRONS

(Detroit News)

To the children especially a dog means very much, and he is an unhappy kid who never was permitted to own one. City life does not make for the keping of pets, which is one more argument why the rural environs should be made available by rapid transport to all the people

LABOR'S WARNING

(Montreal Star)

During the heat of the British elections M. Poincare did a great deal to facilitate the return to power in Britain of Stanley Baldwin. Mr. MacDonald's turn has come, and with a French general election a few weeks off he gives tit for tat by telling the French people that a continuance of the Poincare policies will lead to a rupture of relations with England and the "seeking of new alliances."

It is a clear warning which no French statesman can afford to ignore.

Many are born with eye defects

We do not mean with diseased eyes, but with eyes that are imperfect in size or shape. Nothing and no one can CURE such a condition. But the Optometrist, happily for humanity, can overcome it. He does that by placing glasses before the abnormal eyes, causing them to function normally, or as nearly so as possible. That is a duty I perform every day.

That Body of Yours

By James W. Barton, M.D.

WHY TARTAR SHOULD BE REMOVED FROM THE TEETH

Perhaps you are of the opinion that the tartar on the teeth is harmless.

You have seen it on the teeth of many people, perhaps members of your own family and relatives.

They seemed to enjoy fair health. True they had all their teeth removed early in life and were wearing plates, but they were still alive. What's a little tartar?

Now it is this little tartar—this hard bony scale made up from salts taken from the blood—that forms around the margin of the gum where the tooth enters, and actually sets up an irritation.

This irritation starts a mild inflammation, which later becomes a severe inflammation, and soon you have a well developed case of pyorrhoea, or flow of pus from the gums—a serious condition.

There is first a tenderness of the gums and they bleed very easily; the ordinary light brushing with a tooth brush being sufficient to cause considerable bleeding. Then around the margin of the gum will appear little white or gray patches. These break down and it is thought that infection goes into the root of the teeth in this manner. The teeth often become loose in their sockets

There is a controversy amongst physicians as to whether some general condition of the body causes the pyorrhoea, or whether the pyorrhoea causes trouble in other parts of the body.

That the food is not chewed sufficiently, thus sending food unprepared into the stomach is thought to be one cause.

However it is felt that if we were to chew food more thoroughly, we would exercise the teeth and jaws and surrounding parts, would thus have a better supply of blood coming to the mouth, and a more thorough removal of wastes. Again a place where activity is health—is life. However the tartar has started—the first stage. Go to your dentist and have it removed. He will likewise scrape the surrounding tissues, clean and give the gums a fresh start.

Some dentists actually advise the scrubbing of, fthe gums with a brush just as you do the teeth. This stimulates the circulation and prevents the return of tartar.

THE EDISON MEDAL FOR JOHN W. LIEB

Philadelphia, Feb. 4 (United Press)—The Edison medal is to be presented to John W. Lieb, vice president of the New York Edison Company, by the American Institute of Electrical Engineers here this evening. The presentation will be a feature of the midwinter convention of the institute. This medal is bestowed annually by the institute for "meritorious achievement in electrical science, electrical engineering or the electrical arts." The award was made to Lieb for meritorious achievement in "the development and operation of electric central stations for light and power."

DIRECTOR PULLS WOOL OVER WES. BARRY'S EYES

Patrons of the silent drama, when they observe the spirited acting of fifteen-year-old Wesley Barry, the freckled and featured player in "Rags to Riches," to the Regent Theatre today will be curious to learn how the youngster's untainable spirit was leashed during the time necessary for the filming of the picture.

Director Wallace Worsley, who made this Harry Rapf production sponsored by Warner Brothers, says it was the hardest job he ever tackled. While Wes loves to pose for the cameraman there are times when the lure of the bat and ball and corner lot is even stronger. And during the filming of the picture, a fast ball game always happened to be in progress. Wes was fidgety throughout.

"Say, Mr. Worsley, how long will it be until I kin get out 'nget on the team?" he would ask a dozen times each day.

Finally, the director hit on the only feasible solution to the baffling problem. At first he threatened to remove Wes from the small list of screen luminaries but when this proved unsuccessful, he plotted a dark plot that won the day. While Wes was busy putting on rags for his part, Mr. Worsley stole out to the lot, and promised the boys that if they kept away from the vicinity of the studio for another month he would give them ten dollars apiece. The trick worked.

Wes instantly confided himself to the business of the day—that of making one of the funniest, rollicking pictures ever seen.

BRILLIANT CAST BACKS NORMA IN "ETERNAL FAME"

A cast of unusual brilliance surrounds Norma Talmadge in her picturization of Balzac's "The Duchess of Langeais," which goes to the silver screen at the Griffin Theatre as "The Eternal Flame" Tuesday and Wednesday.

Norma herself runs the gamut of emotions in the leading role of the Duchess of Langeais, the famous court beauty whose flirtations scandalized the court of Louis XVIII in the Second Restoration Period and whose romance with General de Montriveau forms one of the most vivid and dramatic achievements from the pen of Balzac.

Conway Tearle again proves himself an actor of sterling worth in his convincing portrayal of De Montriveau, the warrior friend of Napoleon, who falls in love with the beautiful Duchess, kidnaps her to inflict a revenge for her apparent deceit, finds he cannot mar her beauty, then metes out the deadliest of all punishments by ignoring her altogether.

Adolphe Jean Menjou portrays the role of the jealous but loveless Duc de Langeais, who is killed in battle, and whose death opens the way for a happy culmination of the domance.

Rosemary Theby enacts the part of Madame de Serizy, court rival of the Duchess of Langeais, of whom she is bitterly envious. Otis Harlan is said to give an inimitable characterization of the Abbe Gonrand, spiritual adviser and confessor of the Duchess. Wedgwood Nowell is seen astheMarqu is de Ronque-rolles, Kate Lester as Princess de Vlamont-Chaurray, Thomas Ricketts as Vidame de Pamier and Irving Cummings as Count de Marsay.

BRANSBY WILLIAMS IS A QUICK CHANGE ARTIST

In romance and detective work we read of the disguises adopted by the characters and they sometimes seem impossible. Bransby Williams, the great English character actor now visiting Canada and who is returning to the Griffin Opera House to-night, is, perhaps, the greatest living artist at make-up, and has proved in real life by experiment upon the public that he can deceive. There are so many stories of his practical jokes that they would fill a book.

On the occasion of his departure from from England for the States some years ago, where he was going to fulfill an engagement, the passengers at a London depot were astonished to see Fagin, the Jew, walk down the platform and enter a reserved carriage. Soon after, Bill Sykes arrived and entered the same carriage. Fagin, a few minutes later, left the carriage hand in hand with Oliver Twist, returning later with a green carpet bag. Peggotty, came rambling along and stepped into the same carriage and outstepped Wilkins Micawbar, who swaggered up and down the platform twirling his little cane. He returned to his carriage and when Bransby Williams and his son, Eric, walked out, the passengers realized the little joke the actor had played on them and laughed heartily. Playgoers in this city should not miss seeing Bransby Williams to-night, as it will be many years before another artist appears on the horizon who can reach the high standard of histrionic art set by the English actor.

NEW TORONTO MILL

Toronto, Feb. 4.—Construction is now under way on the erection of a 600-ton mill by Canadian Associated Gildfields, Limited.

Mr. W. J. Boyes is in Pickering owing to the death of his father.

Help Kidneys By Drinking More Water

TAKE SALTS TO FLUSH KIDNEYS AND HELP NEUTRALIZE IRRITATING ACIDS

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation of the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithiawater drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

SINCLAIR'S

COATS at $15.95

Some good Coats are offered at this low clearing price. Coats with fur collars, made in up-to-the minute styles, coats on tailored lines, made from good fabrics that will give long service. We have grouped a number of these which were formerly priced to $25.00, to clear at $15.95.

New Curtains

Many rooms will be brightened this month, with new Curtains. Many pretty materials are shown in Nets, Madras, and Marquisette. Prices start as low as 25c. and run to 90c. yard.

New English Skirting

One of the smartest materials for shirts is a nappy brushed fabric in an overcheck effect. It is distinctly new and good looking, 54" wide at $2.50 yard.

GOWNS 79c.

Three styles are shown in these Nainsook Gowns in round or square neck styles. Special values at 79c.

BATH TOWELS

They are shown in combinations of Brown, Red and White, and will dry up a lot of water. Big value at 49c. each.

HEATHER HOSE 79c.

Fine quality ribbed or plain Heather Hose, in Brown, Green or Camel tones. Formerly to $1.50 to clear at 79c.

WORSTED HOSE 50c.

Why Ford Predominates

Proof that Ford predominates is to be found in the fact that 50 per cent of all cars in Canada are Fords.

Ford predominates because it supplies the essentials of adequate, economical transportation.

Ford has been the pioneer in the automotive industry; has blazed the trial in every fundamentally sound transportation principle.

Ford service is an outstanding example of Ford predominance. Authorized Ford service is to be found wherever motor cars are used—always capable, business-like and prompt.

More than 4,000 service stations in Canada are assurance of this.

TWO WERE INTOXICATED

Two local men ran foul of the police over the week end by imbibing too freely and then coming out in the open. Today before Magistrate Masson they were assessed $10 and costs. There were just two cases on the Monday morning docket.

ORANGEMEN TO MEET

The Orange Association of the County of Hastings will convene in Belleville at ten o'clock Tuesday morning.

Sunday School Council Meets

Annual Convention Held in Plainfield Methodist Church

The annual convention of the Thurlow Sunday School "Ontario Religious Educational Council" was held in Plainfield Methodist Church on Wednesday, January 30, 1924.

The afternoon and evening sessions were both well attended and most of the schools of the township were represented.

Great interest was shown in all departments of the work as manifested in the reports given by the superintendents of each department.

A hearty vote of thanks was tendered Mr. W. Moore from the Thurlow S. S. association showing their love and esteem for him on his retirement from active work in the association.

Rev. N. Norton, the provincial representative gave two very inspiring addresses.

In his address on "What I Would Do If I Were a Teacher" he brought in the best methods, helps and also the study of the character and environment of each pupil.

The thought of his second address was taken from the 8th chapter of Mark. He prayed that we, like the blind man whose eyes were opened by Jesus might have our eyes opened to see the needs of our family, our friends and our community.

Rev. R. Thompson gave a very practical talk on "Training the Devotional Life," through beautiful art, music and architecture. Our churches should be sanitary and beautiful, then greater reverence will be shown. Parents in the home should train their children for the Christian life. A few of the many ways of doing this was specified.

The next convention will meet in Foxboro Methodist Church.

Foxboro choir rendered the music for the evening session.

The collection amounted to $13.60.

The following officers were elected for the year 1924:

President—Mr. Archie L. Greatrix.
1st Vice-Pres.—Mr. H. Dafoe.
2nd Vice-Pres.—Mr. G. McCullough
Sec.-Treas.—Miss B. Tummon.
Children's Dept.—Miss L. Prindle.
Girls' Dept.—Miss M. Johnston.
Boys' Dept.—Mr. Jas. Huffman.
Adult—Mr. H. Dafoe.
Home Dept.—Mr. E. Huffman.
Teacher Training—Mrs. H.K. Denyes.
Temperance—Mr. G. McCullough.
Missionary—Mrs. W. Badgley.

HOUSEWIVES' COLUMN

Would you rather have a hundred people give you one dollar each, or one person give you ten dollars?

I think most any of us would prefer the hundred dollars. It's just the same way with Dominion Store profits. Each of the 300 Dominion Stores sells a lot of groceries at a very small profit on each sale. The result is that a million customers a week buy at our red front stores and the little profits add up into the biggest retail grocery business in Canada.

That's good for us—and good for you. You pay less for your groceries and our business keeps on growing bigger and bigger as more and more thousands of Canadian housewives discover that the surest way to steady savings is to buy regularly from the Dominion Stores.

It's a good thing to remember, too, that Dominion buying experts buy our high quality foods in enormous quantities—and therefore at surprisingly low prices. So you see why the price tags on Dominion Store shelves are so low. We buy for less and sell at a very small profit indeed.

Thousands of careful Canadian housewives have proved to themselves that Dominion Store savings help them feed their families for less. They keep a record of their food expenditures. Then at the end of each month they add up their food costs and see how they actually came out.

They find that regular buying at their Dominion Store saves them three to ten dollars a month.

Canada to Show

(Continued From Page One)

year 1605 under the French regime. Sixty years later the population had grown to 3,215 and in 1865, when the British regime began, it had risen to 61,989. The 1921 census shows Canada's population to be 8,788,483.

It is shown that from 1911 to 1921 the number of employees on Canada's railways increased by 18 per cent. while the salaries and wages in that tenyear period increased by 200 per cent.

Another chart shows that while in 1914 practically 100 per cent. or all of Canada's national debt was held in London, in 1922, 79 per cent. of it was held in Canada.

The value of Canada's manufactures in 1870 was $221,617,773, of which 51 per cent. was produced in Ontario and 34.8 per cent. in Quebec; while in 1920 the total value was $4,019,371,569, of which Ontario produced 50 per cent. and Quebec 27 per cent., with the other provinces about evenly divided.

Fire insurance policies in 1871 totalled $228,453,784 and in 1922 had increased to $6,376,566,569. Life insurance policies in 1871 totaled $45,825,935 and in 1922 $3,172,774,844.

Mineral production, based on values in 1922 was divided as follows in regard to the principal items: coal, 35 per cent; nickel, 10 per cent; gold, 7 per cent; copper 8 per cent, and silver 6 per cent. By provinces the mineral production is shown to be distributed as follows: Ontario, 36 per cent.; British Columbia, 17 per cent; Nova Scotia, 15 per cent; Alberta, 15 per cent, and Quebec, 12 per cent.

High Scoring Cheese Shown

Returns of Government Cheese Grades Attracts Much Interest

Great interest is being shown in the returns of the Government Cheese Graders at Belleville, showing how the cheese of different factories graded during the season of 1923. A number of factories that sold at Belleville through the United Dairymen Co-operative Limited obtained particularly good scores in the matter of pecials. These were as follows:

Hoards of Stirling, 40.76 per cent specials, 100 per cent. specials and firsts.

Mennie of Campbellford, 39.80 per cent specials, 100 per cent specials and firsts.

Springbrook of Stirling, 39.00 per cent specials, 100 per cent specials and firsts.

Ben Gil of Prince Edward County, 20.22 per cent specials, and 100 per cent specials and firsts.

Haldimand of Colborne, 15.56 per cent specials and 100 per cent specials and firsts.

Rylestone of Campbellford 1.50 per cent specials, and 99.65 per cent specials and firsts.

Cooks of Marmora 15.96 per cent specials and 98.08 per cent specials and firsts.

Alexandria of Madoc, 24.15 per cent specials and 90.11 per cent specials and firsts.

Riverside of Marmora 27.58 per cent specials and 89.03 specials and firsts.

Brickley of Hastings 25.26 per cent specials and 85.88 per cent specials and firsts.

The United Dairymen Co-operative Limited factories were the only ones in the Central Ontario districts that secured specials last season, for which they were paid a premium of 1-8c a pound over the top market price for firsts. The reason so many graded specials as given by the Government grader is that their cheese was placed in cold storage for two or three days before being graded.

DARING PARTY TO HUNT OIL IN FAR NORTH

Small Expedition to be Sent To Alaskan Barrens In Search

GEOLOGICAL SURVEY

Lack of Fuel in Treeless Areas Chief Factor to be Overcome

Washington, Feb. 4 (United Press).—In March a little party of American explorers dispatched by the Geological Survey wil plunge into the frozen treeless barrens of northern Alaska, to chart the navy's greatest petroleum reserve.

Valuable mineral deposits, especially coal and oil, are believed to exist in northern Alaska and a great tract has been set aside for the use of the navy. But until this survey is made no one knows in what quantity oil exists or even how it may be withdrawn.

Some of the region along the norther coast has already been explored.

This expedition will enter it from south after hundreds of miles of transportation of men and supplies by dogsled. The party plans to be well into the area before the snow melts. With the coming of summer the party will split in two and each division will descend the Meade and Chipp rivers, respectively, to the coast near Point Barrow.

Incidentally, if the plans for the naval aircraft expedition mature the geological survey will find at Point Barrow the base for the giant dirigible Shenandoah.

The technical member of the party who will explore the naval reserve are Philip Smith, geologist in charge J. B. Mercie and William T. Foran, geologists; General Fitzgerald and R. K. Lynt, topographic engineers, and several assistants.

Chief among the difficulties the party expects to encounter is the lack of fuel. The expedition will plunge into the arctic barrens called by the Indians "the land of little sticks," because the trees are stunted by the cold and will proceed beyond to the region where no vegetation grows to the size of a lead pencil.

For fuel the party will take kerosene. With the spring thaw the surveyors will be confronted with the fresh difficulties of bottomless swamps and myriads of gnats and mosquitos.

Honor Roll

ST. MICHAEL'S ACADEMY
January, 1924.

Sr. IV.—Helen Finkle, Audrey Wilkins, Agnes Donoghue, Jack Belair, Freddie Sullivan, Thomas Finnegan.

Jr. IV.—Alice Belair, Georgina Ray Catherine Gallagher, Violet Osler, Phyllis Dutton, Francis Osler.

Sr. III.—Donald Hansman, Aimi Chaouinard, Helen Tracoy, Leo La Porte, Thomas Boyle, Arthur Crucjil, and Barbara Shannon equal.

Jr. III.—Estella Burkett, Dorian Williams, John O'Callaghan, Loretta Summers, Leo Culhane, Joseph Dorlan.

Second Class—Mary Donoghue, Frederick Forster, Ella Blaind, Frederick Temple, Leo Kennedy, John Lee.

First Class—Doris Blaind, Freddie Ethier, Stella Doran, Helen De Carlo, Terry Boyle, Bill Quinn.

Sr. Primary—Harold Lynch, Lloyd Webster, Annie Crucjil, Teddie Fitzgerald, James Brennan, Cecil La Porte.

Junior Primary—Rona Amo, Ray Savage, Mary Forster, Madeline Walsh, Margaret Fitzgerald, Arnold Demo.

Obituary

MRS. JAS. STAPLEY

After a lingering illness there passed away on Friday, Jan. 20th, at her residence in the 9th Con. of Sidney, Mrs. Jas. Stapley in her 65th year. She was born in the township of Rawdon 64 years ago being the daughter of the late Paul Eggleton and has resided in Sidney for the last 45 years. She was a life long member of the Methodist Church also a life member and faithful worker of the W.M.S. She leaves to mourn her, her husband, 5 sons and 6 daughters, also 21 grand children.

They being Harry and William, of Rawdon; Fred, of Alta.; Robert, of Thurlow; and Murney, at home.

Mrs. Frank Sarles, Mrs. C. A. Jarvis, and Mrs. John Cook, of Sidney, Mrs. William Cooke, Mrs. Ernest Wilson and Mrs. Roy Wilson, of Thurlow; also 5 brothers and one sister, George A., Thomas A., Herbert P., of Stirling; Walton E., Nathan D., and Mrs. George Clarke, of Sidney.

The funeral was held on Jan. 28th at one o'clock from her late residence with the services at the Eggleton church, conducted by the Rev. Mr. Lane. Interment at Clarks cemetery. The bearers were:—R. Chambers, B. Hoard, S. Danford, H. Ashley, W. Fitchett and D. Stewart.

The floral offerings were:—
Gates-a-jar—Family.
Anchor—Grandchildren.
Pillow—Brothers and sister.
Wreath—Mrs. Sara Stapley and family.
Wreath—W. M. S.
Sheaf—Sadie Jarvis, Toronto.

Tweed and Madoc paper please copy.

MARGARET CARTER

There passed away on Sunday, January 27th, at her home in the north concession of Thurlow, Margaret Carter, wife of William H. Carter. The deceased, whose maiden name was Vance, was born in Elzevir Township, June 4th, 1852. On May 24, 1876, she was married to Mr. Carter in the Cannifton church. Mr. Carter was then a cheesemaker and moved in turn to Marlbank, Ont., Howick, Quebec, Picton and Latta.

Besides the husband there survive three daughters and two sons: Mrs. Pearsoll of Holloway, Mrs. Ish of Roslin, Mrs. Hulbert, Toronto, Charles of Demorestville, and William on the home farm.

The entire family was home during the last illness of Mrs. Carter and gave every attention loving hands could give.

Interment took place in Thomasburg cemetery, the funeral being largely attended by sympathetic friends.

MRS GEORGE HAMILTON

At St. James' cemetery this morning, the body of the late Mrs. George Hamilton of this city, was laid at rest after services had been conducted by Rev. Father Whalen. At St. Michael's Church Rev. Father Killeen celebrated Mass. Many relatives and friends were in attendance. The numerous floral tributes and Mass cards were mute evidence of sympathy. Bearers were relatives of deceased, namely L., Con, and R. Hamilton, M., W., and J. Donovan.

war and profiteering.

We must help those who survive. The heart of the world is hardened and the poor are appressed. Thousands of Canadian lives were sacrificed and thousands today are suffering as the result of the war. There were in Belleville returned men who are 85 per cent disability.

We should do all we could to brighten and cheer their lives, relieve their anxiety and reward will come.

Even though the names of many of struggle are not on the hall of fame, and received no decoration in their passing on the field of flanders or in France was recognized by One who says "Come Unto Me and Receive the Reward Due You."

The death of a soldier is a glorious death. There is a glory attached to it that springs from the heart. Capt. Ferguson in conclusion expressed the hope that he would at some other date have the privilege of addressing a Belleville audience.

The object of the sacred concert was a most worthy one as the chairman ex-Mayor Hanna stated. During the war everything was promised to those who went in defence of the Empire. The G. W. V. A. is carrying on a good work, but money was needed to replenish the treasury which was depleted. The Association had spent $400 and $300 was now needed. He appealed for a liberal collection for such a worthy cause.

After a sacred selection by the Argyle Light Infantry band under the capable leadership of bandmaster R. Hinchey, Rev. A. L. Geen offered up an appropriate prayer.

The following programme was carried out and those taking part acquitted themselves in a most creditable manner. The soloists were all compelled to respond to encores.

Solo "Hear My Cry", Mrs. W. H. Gill of Trenton, encore "O Canada". Her sweet voice was also heard to advantage in other selections.

Trombone solo by V. Asselstine "Air Varie", encore "Asleep in the deep."

Solo by Mr. A. E. Baldwin "Holy City", encore "Golden City".

Violin solo by Mr. Marion Young "Berceuse", by Goddard.

Solo by Mr. F. Burke "Rock of Ages".

The band at intervals rendered some beautiful selections.

Accompaniments were played by Mrs. Gaine, Misses A. Burns and Lilian Baldwin.

The National Anthem brought the proceedings to a close.

"SPEED DEMON" KILLED

Los Angles, Calif. Feb. 4.—Jimmy Craft, automobile racer of Detroit, was killed and Morris Spears, Los Angeles driver, seriously injured when Spears' car crashed into Craft's machine on a turn during a race here yesterday.

The Strength Of A Bank

OVER one hundred and six years ago the Bank of Montreal was established with a single office and a capital of $350,000.

Today, after more than a century of conservative progress, the combined capital and reserve of the Bank amount to $54,500,000, its total assets are in excess of $650,000,000, its five hundred and fifty Branches extend to all parts of Canada, and it has its own offices in financial centres throughout the world.

The full resources of the Bank are behind every Branch

HALF-MILLION IS PAID FOR JAN. COMPENSATION

Toronto, Feb. 4.—The Workmen's Compensation Board during the month of January awarded $459,552.96 for compensation and $63,168.74 for medical aid.

During the month 4,650 accidents were reported, 35 of them being fatal. The total for December was 4,772, of which 38 were fatal, and the total for January a year ago was 4,326, of which 25 were fatal.

Man Sent After Prize But Never Returned

Buenos Aires, Feb. 4 (By mail to United Press).—Tragedy followed upon the prosperity of five Italians in Patagonia who won the grand prize in the national lottery, amounting to 300,000 pesos. The men were working as peons. When they learned the ticket they held had won they gathered in a little shack. The ticket was placed on the table with five daggers sticking in the wood around it.

All night they debated as to which of their number should go to Buenos Aires and collect the money—they had only the fare for one. At last it was decided, and one left. He never returned.

One of the men became a raving maniac when it became certain that the messenger would not return.

MIZPAH LODGE TO CELEBRATE EVENT

Mizpah Lodge No. 127 I.O.O.F. will tonight celebrate the 50th anniversary of the institution of the lodge. P.G.M. F. S. Evanson and Bro. Gen. A. E. Ross, Grand Warden of Grand Lodge of Ontario will be present. A number of prominent members will also be present, and the evening will close with a dance.

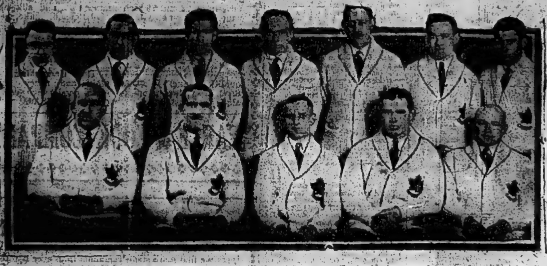
CANADIAN HOCKEY TEAM WORLD'S CHAMPIONS

AMATEUR HOCKEY CHAMPIONS OF THE WORLD!



The above are the men, who by their overwhelming defeat of the Un ited States team Sunday b ythe scor eof 6 to 1, after eliminating the best teams Europe could prodice by scores that left no doubt of their superiority, brought the undisputed hockey championship of the world to Canada. Left to right: Top Row—Reg. McMunn, Winnipeg; Best McCaffery, Hooley Smith, Beattie Ramsay, Ernie Collett, "Sy" Slater, Jack Cameron. Second row—Pete Campbell, Granites' Manager; Harry Watson, W. A. Hewitt, C. H. A. Representative and Olympic Team Manager, Dunc Munroe, Captain; Frank Rankin, coach.

United States Team Downed In Defeat At Olympic Finals

Chamonix, Feb. 4—Canada won the blue ribbon event of the 1924 Olympic Winter games and added ten Olympic points to her score, when the Dominion's hockey team yesterday defeated the United States in the final of the hockey series by a score of 6 to 1. It was a fast and furious contest from start to finish, and when Paul Loicq, of Belgium, the referee, blew his whistle and the game was over, the United States players were physically exhausted and stumbling from fatigue. It was the smoothness and finish of the Canadian offensive combination that overwhelmed the brilliant individual play of the United States team. As regularly as htough conducted by well-oiled machinery the puck passed from Smith to McCaffery to Watson, or from Munro to Smith to Watson and into the net. Drury, who scored the lone tally for the United States, did so after a single-handed dash down the ice. Dunc Munro and Beattie Ramsay made an almost impregnable defence for the Canadian goal, and smothered the individual efforts of the United States forwards with efficiency.

Hard Fought Battle

There was little love lost between the two teams, rivals since the Olympic hockey commenced. The game had not proceeded more than two minutes when Harry Watson was bleeding from the nose and Rice was stretched out on the ice after a collision with Reg "Hooley" Smith. The United States fought hard in the opening session when they were fresh, and frequently Rice, McCarthy or Drury, getting the puck in United States territory, rushed down the ice only to be checked hard by the Canadian defence. Then began the reyular action of the Canadian combination in its mechanical perfection heart-breakinr for the United States. The puck seemed to pass ceaselessly between the sticks of the Canadian forwards. Hard back checking was of little avail. The fast skating and stick-handling of Uncle Sam's representatives was futile against the relentless Canadian machine.

Thrilling Game

The thousands of spectators who filled the stands watching the most hard fought and swiftest hockey that Europe had ever seen wer ethrilled by the desperate stand made by the United States under the pressure of the better co-ordinated Canadian team. Time after time cheers broke from the crowd as Drury or Rice broke away for a rush into Canadian territory, only to be foiled as he reached Ramsay and Munro, and shots from outside the line of point were easy for Jack Cameron, the Canadian goaltender. Counter cheers rose as the popular Canadians penetrated the United States lines and drove their bulletlike shots at Lacroix.

The referee has ris difficulties from the openin gof play, and his frequent cautionary admonitions seemed of little avail. Collisions between rival players were frequent and time was called often when either a Canadian or a United States player lay streched on the ice. During the match several of the men were ruled off for rough tactics.

Americans Fag First

As the game progressed the United States team, probably in quite as good condition as the Canadians, showed the effects of their individual efforts to stem the combined rushes of their opponents. The occasion to which they were able to break away for tries became fewer, and their general play suffered in consequence of fatigue. The Dominion's representatives seemed to be a great deal fresher and pressed the attack hotly, still retaining the beautifully co-ordinated play to which they owed their success in the earlier stages of the game.

During the sixtieth minute of play when the United States players, exhausted and struggling on their skates gamely fought to prevent the rolling up of a larger score, the Canadians played fiercely mercilessly rushing the puck through and through the United States line.

The Teams

United States—Goal, Lacroix; right defence, Small; left defence, Abel; centre, Drury; right wing, Rice; left wing McCarthy; sub, Synott.

Canada—Goal, Cameron; right defence, Ramsay; left defence, Munro; centre, Smith; right wing, McCaffery; left wing, Watson; subs, McMunn and Slater.

Referee—Paul Loicq, Belgium.

Frenchmen Trim Champions By 1-0

Montreal Feb. 4.—Canadiens have battled their way back into a strong contending position for National Hockey League play-off honors. The local sextette advanced another step in place when they blanked the champion Ottawa Senators at the Mount Royal Arena on Saturday night by 1 to 0, in a game which was crowded with all incidents that are necessary to a fast thrilling struggle such as is generally waged between these two old time rivals. The game was rough and there were numerous penalties.

Billy Boucher got a goal in the first period, the way for which was paved by Sprague Cleghorn, was the lone tally of the game and sent the local club within one game of the Toronto St. Patrick's. It came as the culmination of over 18 minutes of one of the fastest and most thrilling periods seen locally in the N. H. L. this season and was a well earned margin. But the edge was a narrow one and the final session caused considerable apprehension among the Canadien supporters for in the latter moments Ottawa pressed determinedly and only the splendid efforts of George Vezina in the Canadiens' net saved at least an overtime battle and possible defeat.

Penalties to players placed Canadiens in a dangerous position in the final period. At one time they were represented with but four against six and Ottawa let loose with their strongest efforts. But past Vezina they could not get.

As was anticipated, the Arena was taxed to its capacity and the large crowd of 6,000 enthusiasts, expecting a thrilling struggle, were not disappointed.

INTERMEDIATES OFF TO CORNWALL

Manager Ed. Thomas Takes Strong Team to the Eastern Town for Last Group Game

Belleville Intermediate hockey team got away to a bad start today on their trip to Cornwall where they play the final game in this group for the season, having cinched the group honors. This game is meaningless, but will provide excitement and fun for the hockey lovers on Cornwall who will doubtless be anxious to see the best team in this group pitted against their own fast team in a game on Cornwall ice.

The badstart was the fault of the C. N. R. train Number 14 which was one hour and a half late. Manager Thomas accompanied the team on the journey and the regular players made the trip.

KINGSTON PLAYS IN C.O.B. LEAGUE

Decision is Harmoniously Made at Meeting Saturday

Oshawa, Feb. 4.—The first executive meeting of the Central Ontario Amateur Baseball League for 1924 was held in Port Hope on Saturday afternoon when the following were present:—President, M. P. Duff, Belleville; First Vice-President J. J. Solomon, Peterboro; Secretary-Treasurer, J. G. Nott, Oshawa; F. E. Convery, Peterboro; E. Parsons, Oshawa; N. W. Thompson, Belleville.

A resolution of sympathy to the relatives of the late Sandy Lockington was passed and the session adjourned to allow the executive as a body to attend the funeral service of their departed past president.

An hour later the delegates convened to hear Kingston's application for admittance to Central Ontario League for the season of 1924, with the Limestone City Club being represented by Messrs Bill Kennedy and Bert Booth After the reading of the correspondence between Kingston and the secretary of the league and hearing the eastern representatives, it was moved by F. E. Convery of Peterboro and seconded by N. W. Thompson, Belleville, that they be given a franchise which was unanimously carried. The secretary was instructed to draft a triple schedule with five teams, allowing for either Lindsay or Cobourg to remain in, and a quadruple schedule with the four teams, Kingston, Belleville, Peterboro and Oshawa included. The next meeting of the executive will be hld in the scond week of March when the schedule will be passed and umpires alloted for the season.

PETERBORO PLAYS HERE THIS WEEK

Petes and Local Intermediate Teams Clash at Arena Wednesday

Peterboro Intermediates, champions of the Lindsay-Peterboro-Lakefield group, will meet Belleville Intermediates in the first game of the home and home games in the first round elimination contest for Provincial honors on Wednesday next. The first game wil be played in Belleville, the locals returning to Peterboro on Friday night next.

This is the decision of the O. H. A. executive whose officials are anxious to get the winners in the elimination series before the ice commences to go back with the first hints of spring weather.

Peterboro here Wednesday next then is the "talk of the town."

Hams Down Irish In Hard Game 4-2

Toronto, Feb. 4.—Hamilton got the big end of the 4-to-2 score, against St. Pat's here Saturday night and in winning they showed every cause for climbing closer to the locals in the bitter three-cornered race for second place and the right to meet Ottawa in the play-off for the older bunting. The winners were alway in front after the first goal of the game had been scored, eighteen minutes after the game had started, and for twenty-four minutes of the remaining forty-two they had a two-goal margin. Twice Jack Adams reduced their lead to one goal, but the Hams managed to regain the counter, the first time in fifteen seconds, and the other time after seventeen minutes' play.

While the locals lost, it was the best-played game of the N.H.L. season at the Arena, and the locals looked a lot better in losing than they have in winning several of other home engagements, and had the defence been tighter they might have won, but there is no doubt that Hamilton showed enough to warrant the statement that they are real contenders for second place, and some might go so far as to say they looked better than either Canadiens or St. Pats have on local ice. They had all kinds of speed and the necessary condition, and in Roach and Dennenay had two relief men for the forward line who were able to carry on the pace while the regulars were getting short breathers. The regular forward line of Burch and the two Green brothers compares very favorably with the Canadiens' speedy trio and the three veterans from Ottawa. They worked well together and stepped inside the local defence for shots on Roach in a manner that has not been witnessed here previously this year.

SPORTS THROUGH EDGREN'S EYES

By Robert Edgren

Gene Tunney, American light-heavyweight champion, is taking on a lot of bouts along the Atlantic Coast. Usually between matches he goes down into New Jersey and rests for a while, merely keeping up a little regular road work and light boxing. Gene is beginning to stir up a little more ambition. When he began boxing he won his fights with kockouts. Since them he has become "clever" and has lost his wallop. Tunney knows from the experience of other chapions that fighting is the only real training for a fight. The best place for that kind of training is in actual ring matches. Fighting every couple of weeks Gene is likely to pick up the old punch, harden his hands, and get back the old trick of knocking opponents out. There are two men in the ring that Tunney would like to polish off by the ten count rather than the decision route—Greb and McTigue. That's why he is going around the country practically meeting all comers. Tunney says he hopes McTigue's hands will be all right in a couple of months. McTigue has discovered a broken hand lately every time a Tunney match is mentioned.

Battling Siki is going to France when he can raise the price of a steamer ticket. The Battler's campaign has flivvered. He hoped to knock over a lot of American dollars and achieve fame. But he din't know enough about boxing to beat anybody. If Mike McTigue is wise he'll run around and slip Siki liberal travelling expenses and wish him luck and a quick journey. He ought to put Siki on the boat and bribe the steward to keep him there until beyond swimming range of Sandy Hook, outward bound. Siki has been an awful give-away for Mike. Before Siki showed up there were people in this country who thought Mike did something when he won from Siki. Now they are only wondering how on earth Siki ever managed, or happened, to knock out Carpentier. Georges must have been counting the house when Siki hit him. There isn't any other way he could land on Georges in four weeks. It's no wonder Carpentier was running all over France trying to get a return match for Siki. Anyone who wants to promote a massacre might try to sign that one up now. Carpentier can't have gone far enough to lose to Siki a second time.

Charlie Paddock plans to start training for Uncle Sam's team about March first. By that time he'll probably know whether the A.A.U. is going to let Uncle Sam send Charlie to the Olympic Games or not.

Papers are full of stories by golfers who describe their most amazing shots. Favorite appears to be the tale of the shot played with great difficulty from an impossible lie in the woods, where the ball struck about six trees and bounced back on the green to within two inches of the cup for a birdie.

Some day some original cuss is going to come along and tell how he played a shot from an impossible lie in the woods, and the ball hit six trees and bounced so far back into the woods that he never saw it again. The editor will demand an affidavit with that one.

Anyhow, there's no such thing as an "impossible lie" in golf.

Jack Dempsey, after a month of swimming and jogging around the beach at beautiful Miami, dodging the blizzards up North, starts on a boxing tour exhibitions with a staff of good fast light-heavyweights and middleweights. Dempsey doesn't like to loaf too long. He wants boxing every day. When there's nothing else to do he hunts up some small gymnasium and boxes with a lot of kids. They have the times of their lives, and Dempsey enjoys it as much as any of them. Dempsey's favorite sport is boxing. He doesn't pretend that he's a bank clerk or a financier or something, who accidentally became a boxer as a sort of fine. That's why he plays his game well. It's the only game he wants to play.

Jack Kearns says that there's no heavyweight in the country he'd choose ahead of Harry Wills as easy picking for the champion. That's all right. If Wills is matched with Dempsey some time, and Dempsey flattens Harry in a punch, the public can't accuse Kearns of bunking it by choosing a set-up for the champion. Kearns has warned 'em. The responsible gent will be the promoter, who will probably "work up the show" by sending Wills around in the sticks somewhere to knock over three or four bimbos and make a knockout reputation.

Luis Firpo has to fight some bird called Romero-Rajas within three months, in South America, or lose his proud title of South American Heavyweight Champion. Romero-Rajas of Chili bases his claim to greatness and a right to be licked by Firpo on a victory over Marcel Nilles, a French heavyweight who—who—well, a French heavyweight. The South American Boxing Confederation has put it up to Loole.

Joe Kirkwood has gone into the oil game. He has started digging, or drilling, or whateve, it is on the golf course of the Rockefeller estate near Tarrytown. Joe is now the highest paid professional golfer in the world. Probably John D. himself would give a couple of oil wells per shot to get some of Kirkwood's specialties.

At 86 John D. is still improving his game.

ON THE ALLEYS

Excitement ran high at the Recreation alleys on Saturday night when Miss Brooks of the J. & J. Cash team rolled 304 in a league game against the Wanderers. This is the first time in the city that a lady bowler has hit the 300 mark and at that there are not over 8 men bowlers that have gone over the 300 mark. Miss Brooks had a score of 102 in the fifth frame and ended the last five frames with a spare and 5 strikes. Although Miss Brooks rolled such a high score the Cash's team lost to the Wanderers by 300 pins, the rest of the team rolling low scores.

In a senior game between the Wanderers and Ball team the former won out in the last game after both teams running close until the second game. Hill of the Wanderers teams only lacking two pins from making 300; Hill also had the three strings with 641. For the Ball team Peeny Mills was high with 234 and 620. Scores and players.

St. Louis Women Encroach Further On Men's Domain

St. Louis, Mo. (United Press).—Women are continuing to encroach upon fields once regarded as sacred to men.

Women doctors, lawyers, surgeons, judges, ministers are old stories.

St. Louis, however, has a woman sauerkraut manufacturer, a woman diamond expert and a woman silversmith.

Miss Clara Meyer, partner in a sauerkraut factory, began at the bottom and worked up. It took 14 years. All her employes are men, with the exception of one stenographer. The nosepowderers and lipstick-wielders of today are too decorative she says.

Mrs. Annette Pickles, owner and creator of a large retail and manufacturing jewelry concern, started at the age of 12 as a jewel polisher at $4 a week. She built up a business of $25,000 a year and is one of the recognized diamond experts of the country.

Miss Ruth L. Barry is a silversmith. She studied it at schools of art here and in Brooklyn, dropping it for overseas work with the Red Cross during the war. She is making jewelry designed to reflect the personality of its owner, which, she says, are not "casual adornments."

OIL LEASES TO BE CANCELLED

Washington, Feb. 2.—Without debate the House today passed the Walsh resolution already approved by the senate, directing the president to bring about cancellation of the Doheny and Sinclair naval oil reserve leases.

The vote was 120 to 4. The leaders agreed to forego debate in deference to Woodrow Wilson. Representative Longworth, the Republican leader urging that there be no show of partisanship with the former president near death, askeo that debate be limited to thirty minutes. Rep. Howard, Democrat, Nebraska, suggested that the House proceed immediately to a vote—a suggestion that was accepted.

80 Per Cent Of 'Bootleg' Sold Is Dangerous

Police Findings Strike Terror to Thirsty who Patronize Canadian 'Speak Easies'

New Penalties Favored

Suggestion made to Scale Fines According to Grade of Liquor Involved

Toronto, Feb. 4.—The average patron of the Toronto bootlegger is a 4 to 1 risk for the undertaker.

In other words 80 per cent of all the strong liquor purveyed in local "speak easies," or intended for sale there but diverted en route, comes under the heading of poison.

Such is the warning with which the local and provincial police of this city have struck terror to the hearts of the thirsty.

There is a great range of bad whiskies, ranging from wood alcohol to the milder brand of alcoholic bay rum.

Most Of It Is Poison

General results of tests by the police department, show that the average Toronto bootlegger is dealing for the most part in liquors which should come under the head of "poison." So startling in fact, are the revelations of the department that there is a strong and growing sentiment, in favor of grading the penalties for convicted bootleggers, according to the quality of their product.

Instead of scaling fines in proportion to the number of times an offender has appeared in court, it is urged, there should be a test of every bottle of liquor seized. Such a suggestion, it is argued, would do more in the way of overcoming bootlegging evils, than the method by which an offender's fine is fixed in proportion to the number of previous convictions, if any, registered against him.

Test Up To Consumer

Under existing conditions, the consumer of bootleg liquor has only one sure test of its quality. That is the geographical test. If after patronizing a "blind tiger," he awakens in his own home, he can feel fairly certain that the liquor consumed was more or less genuine. If he opens his eyes in a hospital ward, it was, apparently, not so good. If he finds himself unable to open his eyes or to see, the probability is that he has been drinking wood alcohol.

Fortunately for the local public, however, there are comparatively few professional bootleggers here, who deliberately make use of wood alcohol in their beverages. The milder forms of poison handed out in this city are usually due, in the opinion of the police, to immature preparation. This sort of whiskey frequently contains a high percentage of fusel oil.

Some Use Floor Oil

Other ingredients which go to the manufacture of "swamp root" whisky are floor oil, bay rum, unripe wine and other substances not conducive to purity. So far as the drinking public are concerned, it is difficult to detect bad whisky from good, inasmuch as a thriving business is done in the forging of labels and government seals, which enables concoctions of every variety to be passed off as "real stuff," bottled in bond under government supervision.

CLASSIFIED ADVERTISING

For Sale

FOR SALE — FIVE PASSENGER touring car, new battery, tires inner and outer are practically new. Ford spare. Will exchange for good Ford runabout or a half ton truck. Apply evenings 240 E. Dundas St. 1-4td

Wanetd—A Man For Farm Work

AN OPENING FOR THE "I'LL TRY" WORKERS

Wanted:—A man for hard work and rapid promotion; a man who can find things to be done without the help of a manager and three assistants.

A man who gets to work on time in the morning and does not imperil the lives of others in an an attempt to be the first to quit work at night.

A man who is neat in appearance and does not sulk for an hour's overtime in emergencies.

A man who listens carefully when he is spoken to and asks only enough questions to insure the accurate carrying out of instructions.

A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth every time.

A man who does not pity himself for having to work.

A man who is cheerful, courteous to every one and determined to "make good."

A man who, when he does not know, says, "I don't know," and when he is asked to do anything says, "I'll try."

Grossberg Asks For Freedom

Montreal, Feb. 4.—Harry Grossberg, who is fighting extradition to the United States, appeared before Mr. Justice Coderre in Practice division of the Superior Court this morning when pleading on habeas corpus proceedings started. Grossberg asked to be immediately freed, holding that the extradition proceedings against him were illegal and that the judgment whereby he was committed to jail, were unfounded. The American Consul-General and Vice Consul were interested spectators at the hearing.

Grossberg was arrested on June 28, 1922 on information received from authorities in Cleveland, Ohio, to the effect that he was wanted there on three counts. Extradition was ordered by Judge Choquet and in appeal was upheld by the judges in the Court of Appeals. He was sent to Bordeaux to await the arrival of American officers but given two weeks to appeal by habeas corpus.

Grossberg, by commitments signed by Judge Choquet, was sent up as having been guilty in April, 1922, of signing a false permit to obtain liquor contrary to the Volstead Act; of forging the name of the Armand Drug Company to said documents; and of perjuring himself in an affidavit before the state commissioner to the effect that liquors taken out of bond were for other than beverage uses.

No Proof of Perjury

He attacks these warrants on the grounds that the alleged crimes are not comprised in the Criminal Code of Canada; that no proof was made of Commission of either perjury or forgery; that the extradition act does not apply because offenses must be contained in both the American and Canadian laws; and that the extradition officer acted without authority.

He adds that the documents referred to were authorized as proven by his evidence, and that there was consequently no fraud.

Wanted

WANTED—GOOD EXPERIENCED girl or young woman capable of taking full charge of household duties. Apply Mrs. Savage, 27 Forin St., Phone 1100W. 1td

Be Careful What You Wash Your Child's Hair With

If you want to keep children's hair in good condition, be careful what you wash it with.

Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can not possibly injure the hair.

Simply moisten the hair with water and rub it in. Two or three teaspoonfuls of Mulsified will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive and a few ounces will last for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

PIONEER CITIZEN DIES

One of the pioneer citizens of Seymour Township was removed by the death in Campbellford Monday morning of James Watson, at the age of eighty years and eight months.

The late Mr. Watson was born on the seventh line Seymour Township, known as the Four Corners, and had resided at home there until removing to Campbellford a few years ago. While not active in public life, he was a staunch Conservative and Presbyterian.

Surviving are two sons; Allen G. of Campbellford, Lindsay, of Seymour and two daughters Mrs. Thos. Watson and Mrs. George Anderson, of Seymour.

The funeral will be held Tuesday afternoon at 2.30 service by Rev. C. F. McIntosh, with interment in Burn Brae cemetery.

Great Pacifist

(continued from page one)

versity. Here he seems to have moulded those peculiar traits of personality that afterward set him apart as an individual, as President of Princeton University, Governor of New Jersey and President of the United States.

Wilson's urge to self-expression first took a literary bent. While a student at Princeton, and later while attending the University of Virginia law school he wrote various pamphlets and articles, mostly devoted to political and humanitarian subjects. Vague idealism combined with an amazing grasp of his subject mark his early writings Perhaps the best known of his more mature works is a "History of the Freedom." The latter book is regarded by critics as a masterly presentation of liberal theories of government and economics.

Completing the law course at Virginia. Wilson hung out his shingle in Atlanta, Ga., but clients did not flock to the young attorney. and in 1883 he abandoned the bar and took up a course of special studies at John Hopkins University. Here he met James Bryce, the Ambassador from Great Britain, and collaborated with Bryce on his great work on the "American Commonwealth." Undoubtedly Wilson was greatly influenced by the scholarly and Utopian Englishman.

In 1885 he married Helen Louise Axson, of Savannah, Ga., the mother of his three daughters, Margaret, Jessie and Eleanore.

Wilson began his teaching career as professor of history an political economy at Bryn Mawr, which chair he filled for two years, going in 1888 to Wesleyan University for a one-year stay as profesor in the same subjects.

Went To Princeton

Back at Princeton in 1890 as professor of jurisprudence and politics, Wilson lectured to crowded classrooms. and in 1892 he was elected President of Princeton University.

Princeton at that time was the home of a large number of clubs composed entirely of the sons of rich men, creating a so-called aristocracy abhorrent to the new president's broad democratic views. After a stiff tilt with entrenched privilege as represented by the gilded student youths, Wilson gained a partial victory but never able to liberalize Old Nassau to his liking.

Partly as a result of this fight, which developed into conflict between Wilson and the board of trustees. Wilson resigned the presidency of Princeton, and accepted the Democratic nomination for Governor of New Jersey.

As Executive of New Jersey from 1911 till he was nominated for President by the Democratic national convention, Baltimore, July 2, 1912. Wilson amply demonstrated the vigor and independence of his political aspirations, and in some measure manifested the personal aloofness that characterised his latest career.

Woodrow Wilson took the oath of office as President on March 4, 1913. after one of the most sweeping triumphs ever known in Presidential elections. Factional war in the Republican Party gave him an overwhelming majority of electoral votes and his party had a majority of five in the Senate and held more than two-thirds of the seats in the lower house.

The Mexican Affair.

In March 1915. Wilson authorized mobilization of trops on the border to deal with Villa. the Mexican insurgent.

Mr. Wilson's first wife died Aug. 6, 1914.

In the fall of 1915 the engagement of the President to Mrs. Edith Bolling Galt of Washington, daughter of William H. Bolling, a prominent Virginia lawyer, was announced.

They were married in Washington on Dec. 18. 1915. This was the third Wilson wedding in the White House, two of the President's daughters having been married there. Miss Jessie Wilson became the bride of Francis Bowes Sayre on Nov. 25 1913. Miss Eleanor Wilson was married to William G. McAdoo, Secretary of the Treasury, in May, 1914.

In the meantime, Wilson's notes of warning were unheeded by Germany and Austria, and on Feb. 3, shortly after he had first outlined in a memorable address to Congress his plan for a league of nations, Wilson broke off diplomatic relations with Germany This was in reply to the Kaiser's submarine wariare. On March 16, 1917. Wilson declared a state of "armed neutrality" and a month later, April 2, he demanded that Congress declare war on Germany.

From that day until the armistice on Nov. 11 1918, Wilson bent his energies to defeat Germany at once taking the position of spokesman for the allies. He helped bring about unity of command which ultimately defeated Germany. He pushed through Congress gigantic bills for selective draft and governmental food, fuel telegraph and railroad administration.

Early in 1919 Wilson broke all precedents by going to Paris to participate in the peace conference, from which he returned with both victories and defeats. His fight was far from ended, and after presenting the treaty to Congress, he again took the issue to the people, with another 8,000-mile stump-speaking trip for the treaty and the League of Nations.

After speaking once and sometimes twice a day for twenty-three days, the President suffered a nervous collapse on a train between Pueblo, Col. and Wichita, Kans., and on orders of Admiral Grayson, his personal physician, he gave up his speaking trip. Cancelling his scheduled Wichita speech, the President was rushed to the White House. where for nearly four months he was kept abed most of the time.

The date of Wilson's "return to power" after his illness probably will go down as Feb. 13 when it was revealed by correspondence given out at the White House he had accused Robert Lansing, Secretary of State, of attempting to usurp the President's authority and had practically demanded the Secretary's resignation. Lansing retire from the Wilson Cabinet but denied his intentions in calling informal Cabinet meetings during the President's illness was for superceding the head of the Government.

Public comment on the incident in which Lansing generally was upheld had hardly ceased before President Wilson again caused a sensation in despatching a note to allied Premiers in session at London, in which he was reported as making a threat to withdraw his concern from European affairs unless a previous decision regarding disposition of Fiume and the Adriatic question was upheld.

Owing to his illness Mr. Wilson was comparatively inactive to the date of his retirement, when succeeded by Warren G. Harding on March 4. 1921. He retired to his newly purchased home in the national capital and busied himself with his books until death came. While he took little active part in politics or public business his letters from time to time showed that his keen grip on public affairs had not weakened and his fighting heart was still strong.

In the Fall of 1923. Mr. Wilson received several delegations and several statements by him were broadcasted He also contributed to magazines.

Dec. 28. 1856—Born, Stauton, Va.

1874-5—Student at Davidson College, North Carolina.

1879—Student at Princeton.

1881—Graduate in law, University of Virgina.

1882—Practiced law in Atlanta Ga.

1883-5—Student at John Hopkins.

June 24, 1885—Married Ellen Louise Axsen.

1885-8—Professor Bryn Mawr College.

1888-90—Professor Wesleyan University.

1890-1910—Professor Princeton.

1902-1910—President, Princeton.

1911-1913—Governor New Jersey.

Nov. 4, 1912—Elected President United States.

March 4 1913—Inaugurated President.

Aug. 4 1914—Proclaimed neutrality in World War of United States.

Aug. 6, 1914—Wife died.

Feb. 10. 1915—Sent note to Germany holding German Government to a "strict accountability" for safety of American ships and lives.

Dec. 18. 1915—Married Edith Bolling Galt.

Nov. 7. 1916—Re-elected President

Dec. 20, 1916—Sent "peace note" to belligerents.

Feb. 3, 1917—Severed diplomatic relations with Germany, dismissing Ambassador Bernstorff.

March 4, 1917—Second inauguration

April 2, 1917—Asked Congress to declare the existence of the state of war with Germany.

April 6, 1917—United States declared war on Germany.

Nov. 11. 1918—Read terms of German armistice to Congress and announced end of war.

Nov. 29—Named American peace commission.

Dec. 4—Sailed from New York for Europe as head of American peace commission.

March 4. 1921—Turned over Presidency to Warren G. Harding.

TWO-MINUTE TOURS

(By United Press)

When Babylon, often regarded as the oldest great city of the world, was in its infancy a neighboring city was already hundreds of years old, it has been established by recent archeological researchs in the Tigris-Euphrates valley.

This city was called Kish. Babylon, according to discovered records, first became important about 2200 B.C., but it is believed Kish was an important city 1000 years earlier.

Previously, the Sumerians were supposed to have been the earliest civilized inhabitants of the Mesoptation region, but recent discoveries have indicated that the even older race inhabiting Kish ruled the Sumerians for a long period.

Probably the earliest international boundary of which there is any record was established when a king of Kish decided a boundary dispute between two Sumerian cities and set up stones to mark the line of his award.

BODY ARRIVES HERE

The body of the late Mrs. R. M. Pope, who died at Mission, Texas, arrived here on Saturday night and was taken to a home of a relative. The funeral took place this afternoon and was attended by a number of relatives and friends.

Police Raid Rooming-House; Arrest Seven

Toronto, Feb. 4.—The police in a sudden swoop on rooming houses on Shuter street and Walton street at noon Saturday netted five men and two women, all Americans, who had seven revolvers in their rooms and a bag of cartridges.

On Shuter street the police arrested Morris Lesser, Joe Seriena, and wife and Sam Behan, and wife. With Plainclothesmen Charlie Scott and Sam Boyd, of Dundas West station, aided by Detectives Frank Wicket, George Tuf, Charles Taylor and Jack Stewart, the police raided the house and caught the parties in their rooms. On papers found on one of the men the police secured an address on Walton street and Detective Wicket with Plainclothesmen Ward and Scott went to the house and arrested Joe Corerri and Ciro Nierri.

It was due to the alertness and observation of Scott and Boyd that the party were rounded up. A few days ago Scott and Boyd became suspicious of men and women leaving the Shuter street house and kept it under observation. Today Scott followed one of the women to a pawn shop where she pawned some jewellery. Then Scott and Boyd decided to investigate and sent for help.

Brought To Headquarters

Without any demonstration the officers entered the Shuter street house and caught the people before they could make any resistance They were amazed and called down the officers for entering their rooms. The men and women were brought to police headquarters where they were closely questioned by Chief of Detectives Guthrie Wallace. The married men stated they had come to Toronto from New York with their wives early this week and had been in Europe traveling in France, Italy and other countries for some months. Their hand bags carried labels of the "S. S. Leviathian."

"We are here on a visit to see the country," one stated under examination. But they refused to talk about themselves. They gave different names at first and told several conflicting stories. The two men arrested with the other men but they all denied they knew each other. They had little money on them but the police while at the house seized a telegram stating a sum of money was being telegraphed from Montreal. while two checks revealed trunks at the Union Station.

In a black suit case, found in one of the rooms on Shuter street occupied by the party, the police found five guns, one heavy army weapon, .45 calibre, two .38's and one .32. The men denied knowledge or ownership of the guns, although they stated the suit case belonged to them. In another club bag the police found two revolvers, one loaded.

During their examination the men told the police they would not tell them anything. Told they would be kept in custody until they revealed their identity or explained their presence in the city, one man stated: "You can hang me first before I will talk."

The men and women are held on a charge of vagrancy and having possession of firearms. They were photographed and had finger prints taken and their descriptions and photos sent to the United States and Canadian centres.

To Discuss Anti-Fire Measures

Important Convention Next Week Fire Prevention Association

Montrel, Feb. 4.—An important convention of the fire prevention association of the province will be held next Wednesday in the Windsor Hotel to which representatives of all the municipalities of the province have been invited by the Union of municipalities. A special invitation has been issued to the Montreal city council by the Union who are taking a keen interest in the proceedings.

Invited To Liverpool

The city council has received an invitation from the Royal Sanitary Institute of London to attend their 35th convention which will be held in Liverpool, England. from the 14 to 19 July 1924. Local authorities are asked to send representatives to the gathering which will be one of the most important held in the British Empire for many years. Among the many measures that will be discussed are school hygiene, sanitary science, domestic and individual sanitation, child welfare, protection of mothers and industrial hygiene. There will be several conferences at which sanitary authorities doctors and construction engineers will discuss subjects of vital moment. There will also be an exhibition of the most modern sanitary appliances while trips will be made to points of interest.

EX-KAISER IS INDISPOSED BIRTHDAY PARTY SEQUEL

Doorn, Feb. 4.—Former Emperor William was observed this morning walking in the grounds of his castle here, accompanied by his physician. The ex-kaiser appeared to walk with some difficulty. The chief of the gendarms assured inquirers that William was recovering from a slight attack of influenza. According to gossip in the village, the ex-rulers present indisposition is largely due to fatigue from entertaining during the recent fete on the celebration of his birthday anniversary.

RITCHIE'S

12 DOZ. GINGHAM HOUSE DRESSES $2.95

36-inch "Scotch" Ginghams in checks, plaids and plain shades, specially priced 49c. yard.

Col. Ponton Speaks At Queen's Dinner

Kingston, Feb. 4.—In Grant Hall on Thursday evening the Art students gathered in goodly numbers for their annual dinner, nothing was lacking to assure everyone a good time and the committee, composed of Messrs J. H. Findlay convenor, S. F. Saunders, E. L. Murphy, D. M. Allan, E. M. Patton and A. J. Brown cannot be praised too highly, as their arrangements were perfect. T. O. Fowler filled the position of toastmaster admirably.

In proposing the first toast, "Canada and the Empire," Dr. J. L. Austin said that it was his first opportunity of visiting the Arts' Faculty since he had come to Queen's some four years ago. Proceeding, Dr. Austin pointed out that while man had passed through the feudal system and the chains of serfdom, he was in chains still. In this country we are bound by great distances of race and religion and even extravagance. But, in spite of all this, this country has a great future before it in which the young graduates of today and of the future years have a part, and must play that part to the utmost of their ability. In a university young men were permitted to choose their own calling in life and the intellectual intercourse which they received while at college, should bind them together The advantage in living in a relatively small city was more than real, for here one does not see the vice, crime and sickness which are so naturally prevalent in large cities such as London, England, or even in Toronto. The speaker assured his hearers that he for one was quite satisfied to remain in a city of this size. In conclusion, Dr. Austin advised the undergraduates to keep as far away as possible, and having done that to get a wife and stick to her.

In replying to the toast, Lt.-Col. W. N. Ponton, K. C., Belleville stated that while be himself was more identified with the Toronto senate than with Queen's his social and sentimental relations were more with the university on the Old Ontario Strand. On the other side the university was regarded as a great melting pot, but in Canada it was looked upon as a moulder and builder of men, a true laboratory which turns out the finest product that the nation produces. The essential thing in Canadian life was the home and it was a well-know fact that those who marry live the longest. It was also well-known that without production the people perish. When Canadian have their own homes there will be less waving of the red flag of Bolshevism, because no man would dare wave it in his own home. We would still have the red flag, but with it the white and blue, the good old Union Jack.

Col. Ponton touched on Canada's need for immigration and also the crying need for the working of our natural resources such as pulp-wood and coal. In conclusion Col. Ponton urged the necessity of united action and the better relations between people who speak the English language

RAIL WORKERS "CRATE UP" MADMAN

Toronto, Feb. 2.—Railway workers at Conmee Junction, near Fort William, Ontario. literally crated Tony Krusiski up within the telegraph office, when he became suddenly insane and ran amuck with a two-edged axe. After Krusiski had driven everyone from the office, the posse resorted to primitive tactics and brought a battering ram into play. The door was smashed in and the maniac pinned behind it. Spikes were then driven through either side of the door into the wall behind, holding him a captive until reinforcements arrived.

DEAD ARE UNBURIED

Berlin, Feb. 4.—The municipality of Berlin lets the bodies of deceased public charges lie in their dwellings awaiting burial until sufficient are reported from a given neighborhood to warrant sending a truck to gather them up, according to the Deutsche Tageszeitung, a Berlin newspaper. Berlin's efforts to economise are vicious and dangerous to public health and life, the paper declares.

BELLEVILLE, ONTARIO, TUESDAY, FEBRUARY 5, 1924

BIG DECREASE IN CRIME IN BELLEVILLE DURING 1923 SHOWN BY REPORT

Report Presented to the Board of Commissioners For Police By Chief Kidd Shows Great Improvement in Suppression of Lawbreakers

COMPARISON MADE

336 Transients are Given Shelter at Police Station During Year — Fewer Complaints of Petty Stealing Reported — Fire Alarms Answered 110 Times

The report presented to the Board of Commissioners of Police for the city of Belleville by Chief Constable Kidd shows a great improvement in regards to crime during the past 12 months. Comparative statistics for previous years show that 1923 has been a progressive year for the local department and the report outlines in a comprehensive way, the large amount of work that has been satisfactorily carried out under the direction of Chief Kidd.

Chief Constable's Report For Year 1923.

To the Board of Commissioners of Police for the City of Belleville.

Sirs.—

I have the honor to herewith submit for your information and approbation, my third annual report dealing with the Criminal and Police Statistics for the City of Belleville for the year ending December 30th, 1923.

During the past 12 months, 320 persons were brought before the Court namely 298 males and 22 females, which shows a decrease of 53 persons from 1922.

The amount of Fines and Fees imposed by the Court amounted to $3,737.15 and were paid over as follows:

City Treasurer	$2,806.15
Provincial Government	$ 900.00
Dominion Government	$ 1.00

I might say at the beginning of my report that there has been a great improvement in regards to crime during the past 12 months, also less complaints about petty stealing.

During the past 12 months the number of Transients who were given a night's shelter at the Police Station, totaled 336, which is an increase of 38 over 1922.

The number of Fire Alarms received and given to the Fire Department was 110, which were attended by the Police.

The following are a list of the cases classified:

Animals at large	1
Assault	17
Attempt to break and enter	1
Breach of Bridge By-law	1
Breach of Carters By-law	3
Breach of Garbage By-law	2
Breach of Sanitary By-law	3
Breach of Traffic By-law	4
Breach of Milk By-law	1
Breach of Parking By-law	2
Breach of Pawnbrokers Act	2
Breach of Children's Protective Act	1
Breach of Food & Health Act	1
Breach of Game & Fisheries Act	4
Breach of Health Act	4

(Continued on Page Eight)

MAKE TOURISTS AID CANADA TO FILL COAL BINS

Premier Ferguson Rumored To Have Plan to Aid in Reducing Cost

TAX ON GASOLINE

Cheaper Rate on Alberta Coal to Manufacturing Centres Great Need

Toronto, Ont., Feb. 5.—If the rumors of the halls of the Ontario legislature are to carry any weight, the Ferguson government has a card up its sleeve to cut the cost of living for the ordinary man through the medium of Alberta coal.

According to one story which seems to have much truth in it, the Ontario government is going to levy a special tax on gasoline and then apply the money to the subsiding of Alberta coal by paying the Canadian National railways a bonus to carry the fuel to the people of the east at a rate that is less than will pay for the traffic.

It has become a plank in the platforms of the Conservatives, provincial and dominion, that the people of eastern Canada must have cheaper fuel, and that they must be made independent of the United States. Ex-Premier Meighen has been talking Alberta coal all along the line, and the papers that support him have taken their cue from his speeches, and are calling for lower freight rates, that will enable the fuel to be sold in Ontario at rate to compete with the American fuels.

Money Would Help All

It is pointed out that last year Canada bought $65,000,000 worth of hard and soft coal from the United States, all of which might just as well have been purchased in Canada, making work for Canadian miners and circulating much badly needed money in this dominion. Nothing in the shape of retaliation against the big republic to the south is admitted, but attention is drawn to the fact that the American tariff has been very hard on the Canadian people, and that in all probability it will shortly be increased, especially on wheat. Canadian wheat now pays a duty of 30 cents a bushel to enter the United States, and it is said that this will soon be increased by 50 per cent, or to 45 cents a bushel.

Coal Bonus Wanted

Premier Ferguson does not seem to be bothering himself about the Yankee tariff, but he has been decidedly busy trying to interest the government of Premier King at Ottawa in the matter of bonusing Alberta and the developing of an important new industry in the Canadian west.

The Ferguson government, it is said feels that if a tax is placed on every gallon of gasoline sold in Ontario, or in Canada, the American tourists who visit this country in ever increasing numbers, will be unwittingly compelled to assist in the bonusing of the bringing of Alberta coal east to take

(Continued on Page 3)

BOTH FEET AND HANDS SEVERELY SCALDED

To have both hands and feet scalded by boiling coffee was the unfortunate experience which last evening befell ex-Alderman M. J. Lynch of this city. In company with Mr. F. Vannorman, Mr. Lynch was assisting in carrying up a pair of stairs a boiler containing the coffee when one of the carriers slipped with the result that Mr. Lynch who was behind, was deluged by the boiling liquid. As a result his hands and feet were scalded to a considerable extent. Today he is in bed but was resting easily. The unfortunate accident occurred in connection with the K. of C. dance at the Moose Academy.

They Are Rowing In England

Cambridge University rowing crew in training on the Thames for the annual race against Oxford.

LEADING LOCAL CITIZENS ARE NAMED TO MAKE SERIES OF ADDRESSES DURING THRIFT WEEK IN CITY OF BELLEVILLE

Special Committee in Charge of Thrift Week Campaign Completes Arrangements and Announces Program—Thursday, Feb, 7, to be Opening Day—Efforts to Be Confined to Pupils of Various Educational Institutions and Sermons Bearing Upon Observance In Various Churches in City

The special committee in charge of the Thrift Week for Belleville has now completed arrangements and is enabled to announce its programme. The week beginning Thursday, February 7th, will be observed. It was thought advisable this year to confine the efforts to addresses by leading citizens to the pupils and students of the various educational institutions throughout the city and sermons having a bearing upon the subject at the Belleville churches.

It should be borne in mind that Thrift Week is not a movement tending to promote what has become known as a "buyers' strike" in favor of locking up one's money and not spending anything at all but rather an educational campaign to promote efficiency and wise expenditure both in regard to time and money.

Earning Power

The speakers will emphasize the importance of increasing one's earning power and paying bills and debts promptly, of taking out life insurance, of owning a home, of sharing with others, of making a will, of opening a bank account and other kindred topics such as have to do effective citizenship rather than hoarding or miserliness. The addresses will be brief and interesting and with many illustrations to make them impressive or inspirational.

The various speakers, the place and their time of speaking are as follows:

Queen Alexandra School, Thursday, February 7th, Mr. Sidenius, General Secretary of the Y.M.C.A., will speak to the junior classes of the school at 2.30 p.m. and Mr. P. C. MacLaurin, Principal of the Belleville High School to the senior classes at 3.30.

Queen Victoria School, Friday, February 8th, Mr. Sidenius will speak to the junior classes at 2.30 p.m. and Mr. John Elliott, Manager of the Belleville branch of the Standard Bank, at 3.30.

Queen Mary School, Monday, February 11th, Mr. Sidenius is assigned to speak to the junior pupils at 2.30 p.m. and His Worship Mayor W.C. Mikel at 3.30 p.m. to the senior pupils.

King George School, Tuesday, February 12th, Mr. Sidenius will be the speaker to the junior pupils at 2.30 p.m. and Mr. W. H. Merry, Superintendent of the Marchmont Home, Belleville, to the senior pupils at 3.30 p.m.

Prince of Wales School, Thursday February 7th, Mr. Sidenius will address a community gathering of the school children and adult rate-payers at 8 p.m.

Belleville High School, Friday, February 8th, Mr. I. L. Moore, Principal Ontario Business College, will speak to Sections 1 and 2 at 2.30 p.m. and 2.45 p.m. respectively, and Lt.-Col. W. N. Ponton, K.C., will address Sections 3 and 4 at 3 o'clock p.m. and 3.20 p.m.

Ontario Business College, Thursday, February 7th, Rev. E. N. Baker, principal of Albert College, will address the students at this institution at 3.30 p.m.

Albert College, Tuesday, February 12th, Mr. I. L. Moore, Principal of the Ontario Business College will address the students immediately after the evening dinner hour at 6 o'clock p.m.

St. Michael's Academy, Rev. Father Killeen is making special arrangements for addresses to the children of this institution.

Sunday Program

Next Sunday is known as "Share With Others" day in the Thrift Week program. For this day the ministers of the Belleville churches are preparing special messages bearing upon the question of thrift, efficiency and better citizenship of which announcement will be made in the church notices next Saturday.

It is expected that various members of the School Board, particularly the chairmen of the different schools will accompany the speakers on their separate assignments.

Cheque Forgeries Cost $50,000,000

New York, Feb. 5 (United Press).—Fantastic estimates of the annual total of check forgery losses have received a setback by the publication just made of the total clearing though Federal Reserve banks for 1923, which indicate that forgery losses on checks so cleared last year were slightly in excess of $50,000,000.

Unofficial estimates of these losses have ranged from $100,000,000 to $125,000,000 a year. Bankers, however, accept $50,000,000 as being more nearly correct, since losses are computed on the basis that one dollar in every $8,000 cleared is lost through raising or forging of checks. The total clearings in 1923 through Federal Reserve banks were more than $400,000,000,000.

The cities bearing the brunt of the year's forgery losses were New York, whose estimated losses were about $27,000,000; Chicago, $4,000,000; Philadelphia, $3,000,000; and Boston, $2,500,000.

Bankers are agreed that these figures are a cause for grave concern and for again emphasizing the importance of a greater care in the drawing and handling of checks. A very large percentage of forgery losses, they assert, are preventable by simple protective means.

WHAT IS SHE COMPLAINING ABOUT?

A New York woman wants a divorce because she hasn't seen her husband in three years, although he has sent the money in every week. She must be a hard lady to please.

Watch Wasn't Stolen at All Just Sticks to Railman's Belt

Port Colborne, Ont., Feb. 5.—"Who has been tagging you?" was the query which greeted Arthur Brockson, an employee of the Canadian National railway, upon his arrival home in Fonthill, recently.

Brockson, taken by surprise, wanted to know what wife was trying to get at. He was speedily shown; for dangling on the belt of his overcoat was a $200 gold watch and chain.

Just about this time at the Niagara, St. Catharines & Toronto trolley line, a man named A. H. McGill, of Toppish, Wash., was making indignant complaint to the police that his watch and chain had been stolen. He reported to Chief of Police Collins there that he had felt a jerk and was sure that some pickpocket had been on the car from which he had just dismounted.

Chief of Police Reavely, of Port Colborne, was notified, and the police were soon convinced that McGill's statements were correct. All passengers known to have been on the trolley were sent for and questioned.

It was then Brockson received a call from the police station that he was wanted to tell what he knew about the watch that he realized his predicament. The watch had apparently traveled twelve miles hanging to the belt.

The watch was turned over to the Washington visitor, and all facts explained, but there is no record of a reward to its finder—Mrs. Brockson.

GRIEVANCES OF DOMINION TO BE TOLD TO EMPIRE

Status of High Commissioner In London Not on Equality

SHOWN THE DOOR

Labor Government Willing To Make Concessions on Ambassadorical Dignity

Motreal, Que., Feb. 5.—With a Labor government in power in Great Britain, Canada intends to have some grievances concerning relations with the motherland remedied, and remedied without delay.

One of these grievances relates to the status of the Canadian high commissioner in London. At present he has not equal rights with an ambassador, and finds on many occasions that while he sits on a bench outside, the ambassador of some inconsequential "toy republic" or "effete monarchy," enjoys an interview with a minister of the crown, something for which the plenipotentiary has been unsuccessfully angling for days and perhaps weeks.

It is being shown that in Great Britain the representative of Canada is not allowed to wear an ambassadorial uniform, but "something akin to it." He does not rank with ambassadors but his wife is allowed, as a sort of sop for his feelings, to sit with the peeresses, who, of course, do not lose any too much time on her.

Shown the Door

If Canada's representative wants an interview with the colonial secretary, he generally is accommodated, but if he should seek to interview the foreign secretary, he would be politely shown the door.

Thus is Canada shown that there is nothing in the phrase that the domin-

Knights' Ball Proves Success

The annual ball under the auspices of the local Knights of Columbus, held in Moose Hall last night, proved one of the feature events of the season in social circles.

The hall was beautifully decorated and several new features were introduced in special dances that added to the thorough enjoyment of the many present.

Music furnished by Ewalt's Orchestra, of Toronto, was of high order, several new numbers being introduced that met with hearty approval.

Beware of the widow who acts as though she were glad of it.

LEADERS REPRESENTING 120,000 DOCKWORKERS SEEKING CONCILIATION

PREPARE FOR EXHAUSTION OF AMERICAN COAL

Future Outlook Expected to Furnish Issue in Next Federal Election

TO ALBERTA MINES

Figures Show Substitutes Can be Obtained Cheaper than from U.S.

Ottawa, Feb. 5.—Has the Dominion of Canada received a friendly intimation from Washington that the Canadian people must protect themselves against the diminishing supply of Pennsylvania anthracite?

Intense interest is manifested in the public declaration of Dr. Charles Camsell, deputy minister of mines, before the Engineering Institute of Canada that "delay in obtaining substitutes for anthracite coal importations is dangerous because of the certainty of ultimate exhaustion, rising prices and the possibility of an embargo against export from the United States."

"We must make preparations for the time when Pennsylvania anthracite will not be available," Dr. Camsell warned.

Fuel Problem Dominant

The fuel problem has become one of the dominating questions of Canadian public affairs and it promises to furnish a battle issue at the next federal election. Already the Conservative party has injected a coal plank into its election platform and the Hon. Arthur Meighen in his preliminary campaigning is promising the province of Ontario a supply of fuel from Alberta semi-anthracite mines.

Dr. Camsell's analysis of the situation, based on a government survey, shows that the dwindling reserve and expanding market in the United States may force Washington to embargo exportations for the protection of American consumers.

Look to Alberta

The Canadian fuel board in casting about for substitutes, has concluded that the most promising substitutes within reach of Canadians are Alberta coal, by product coke, Welsh anthracite and peat.

It is claimed that Alberta has a sufficient coal deposit to meet the world's needs for 300 years.

Reports have been prepared showing that Alberta coal can be purchased at the Drumheller mines at $4 a ton in the Summer months and that if a freight rate of [illegible] a ton could be secured the coal could be sold in Ontario at $13 and $14 a ton, thus replacing the United States anthracite, which brings from $16 to $20.

A year ago Sir Henry Thornton, president of the Canadian National Railways, brought down two experimental consignments of 10,000 tons each, and on the basis of this practical experience he maintains the existing rate cannot be reduced without government subsidies.

Sometimes an officeholder has more of a pull than a dentist.

Union Chieftains Open Important Conference With Employers in Effort to Effect Compromise and Avoid General Walk-out in Every Port in England

CABINET MEETS

Marquis Crewe Discusses Specific Questions Regarding France and Premier Poincare's General Attitude Toward Ruhr—Ambassador is Optimistic

London, Feb. 5.—(British United Press).—Leaders representing 120,000 dockworkers, who threaten to strike February 16 unless their demands for a two-shilling per day increase are satisfactorily met, opened an important conference with employers to-day in an effort to effect a compromise and avoid a walk-out, which would paralyse every port in England.

The Cabinet met to-day and considered reports from committees on agriculture, housing and unemployment, and also questions of foreign and Indian policy. Two more Cabinet meetings will be held this week in preparation for announcement of the Government's intentions when Parliament reconvenes on February 12.

Marquis Crewe Sees MacDonald

Marquis Crewe, British Ambassador to Paris, saw Mr. MacDonald today and discussed specific questions regarding France and Premier Poincare's general attitude toward the Ruhr, reparations and the expert committees. The ambassador was optimistic, and believes Poincare with his position shaken at home, is prepared to make important concessions. This view is not shared in important diplomatic circles here and in Paris, including the American Embassy at Paris.

Mr. MacDonald also discussed with Lord Crewe the advisability of his going to Paris in the near future for a personal interview wih Poincare. This is not yet settled, but the Premier leans toward the trip, and it is probable Lord Crewe, on his return to Paris, will announce the coming visit.

The three Laborites elevated to the peerage do not belong to the ranks of manual workers. Sydney Arnold, of Manchester, is a former Liberal, and comes from the middle class. Sir Sydney Olivier was educated at Oxford, was secretary to the Earl of Selbourne, and was Governor of Jamaica. General Thomson is the son of Major-General Thomson, who was physician to Queen Victoria and King Edward. So it cannot be said that the House of Lords yet contains a single representative of the working class.

IRELAND TO ASK SEPARATE QUOTA

(United Press Despatch)

London, Feb. 5.—The Irish Free State is planning to ask the United States for a separate immigration quota for the coming fiscal year, similar to those alloted to other British Dominions.

SALARY QUESTION

(United Press Despatch)

London Feb. 5.—The Daily Express says it hears that the Labor Cabinet is planning to institute "flat rate salaries for all ministers", abolishing "gross inequalities which are illogical and merely historical."

FIERCEST STORM SWEEPS STATES

(United Press Despatch)

Chicago, Ills., Feb. 5.—Some loss of life, heavy property damage and demoralized communications resulted as the result of winter's fiercest storm in the United States.

Blinding rain and sleet swept a zone from Minnesota to Texas, wires down and trains moving slowly on irregular schedules.

GANDHI RELEASED FROM ALLAHABAD

Allahabad, India, Feb. 5 (United Press).—Mohandas Gandhi, Indian Nationalist leader, sentenced in March, 1922, to six years of imprisonment for his part in the non-cooperation movement which he originated, has been unconditionally released from prison because of ill-health. Gandhi has recently been confined in a prison hospital, and physicians declared he would die if he were not permitted to go to the seashore to convalesce.

COURTS ASKED TO PASS ON CHARACTER OF "JIM" BRIDGER, FAMOUS SCOUT

Kansas City, Mo., Feb 5 (United Press).—The once wild west has arisen to defend the character of the "uncrowned king of all Rocky Mountain scouts, guides, trailers, Indian fighters, trappers and plainsmen from the '30s to the '70s," as recorded on the rough-hewn granite monument marking the resting place of "Jim" Bridger, path-finder of the plains.

On the monument in Washington park cemetery here, a base relief of famous old trail blazer looks out from the stone toward the west, which he helped win and develop into the great inland empire.

The inscription was dictated by Maj. Gen. Granvildie M. Dodge, who, with Bridger's help, laid out the course of the first trans-continental railroad.

The public recently has been given another picture of the character of Bridger, as interpreted by Tully Marshall in the film version of Emerson Hough's "Covered Wagon." This depicts Bridger as shabby, uncouth, maudlin, constantly intoxicated and living with two squaws simultaneously. Between drinks, he shot tin cans off heads of other men.

As a result o fthis version Mrs. Virginia Bridger Hahn, only surviving daughter of the plainsman, has brought suit against producers of the picture for $1,000,000, charging libel of her father, and has by court injunction tied up showing of the picture in some states.

As evidence to support her contentions, Mrs. Hahn has collected statements regarding her father from many who knew him. There is no doubt but Bridger took a drink when he wanted it. But, according to Mrs. Hahn's supporters, in no single instance is there any statement which would even indicate that the clarity of his brain was ever disturbed by liquor and nowhere is there any intimation, they contend, that he broke the moral code by living with more than one wife at a time.

Bridger, according to all historical accounts was married three times and lived with each of his wives in ordinary domestic relations at Ft. Bridger. The last wife accompanied him back to Missouri and died on the farm near Dallas where he spent his final days. Two of his wives were Indians. Several children, born of each marriage, were educated in St. Louis schools, and, according to all indications, Bridger was solicitous that they should have every advantage of training. He died in 1881.

Let there be harmony in things essential—liberty in things not essential—charity in all.

HIGH TAXATION

Is Canada rapidly drifting toward a bureaucracy? Many people think so and the government is being bombarded with suggestions that a good way to save money would be to cut down the civil service staff.

One of the chief newspaper supporters of the government of Premier King reminds him that ,while the United States in the past five years has reduced its government employes by no less than 360,000 men and women, Canada has actually increased the number of its employees since 1918.

High taxation is at the bottom of the trouble. The people are now in full cry after the taxeaters and are demanding that the government forthwith send thousands of heads to the guillotine. Statistics show that there are about 40,000 persons in the civil service alone, or double the number of prewar years. This means that one person out of every 224 in the Dominion is getting a living for himself and family out of the taxes levied on the people—the other 23 are working for him or her. This also means a tax of $5.74 per annum on every man, woman and child in Canada for federal government service alone.

The salaries paid the 40,000 government employees average $1,284, or about 50 cents an hour. His takes in every office boy, page, laborer and woman in the public employ, with the exception of the well-paid cabinet members and members of Parliament.

Forty thousand people to conduct the public business of less than 9,000,000 seems laying it on pretty thick, especially when it is considered that there are many thousand other civil servants employed by each of the nine provinces, and by the hundreds of municipalities. In fact, Canada seems to be swarming with tax eaters; just like the king-ridden little Balkan states, which at frequent intervals pull a revolution in order to get their minds off their taxation troubles.

A somewhat superficial survey of the civil service situation in Canada shows that bureaucracy first got a real start when the war was at its height. New officials were constantly being employed, some of them necessary and some only necessary because a friend of a member of the government stood in need of a soft job. Every time an official was appointed, it is claimed he at once set about to employ a swarm of subordinates, so that he, too, might reward his friends, make his own job more important and thereby boost his salary, and also make his position merely executive, and not a working job.

The condition of affairs is shown by the fact hat last year the Canadian civil service cost about $58,000,000, against about $35,000,000 six years ago. Many new appointments and salary increases to already well paid employees caused the jump.

But even with the people on the warpath and determined to cut the civil service to the bone, the clamor for jobs never ceases, and every day there are hundreds of people waiting on ministers with the object of securing positions for themselves or friends. It is said, however, that a lead in the use of the guillotine is to be given the government this year by Sir Henry Thornton, president of the Canadian National railways, who has just completed a reoganization of the staffs of the railways that were merged in the national lines, and as a result of which several thousand employees are slated for the ax.

That Sir Henry is going to do something drastic is borne out by the fact that he expects to increase the surplus of the national lines in 1924 by about $10,000,000, and much of the increase, it is said, will be brought about by the climinaion of the costly duplications of staffs.

PRESS OPINIONS

CONFLICTING NATURES

(New York Commercial)

No man, other than a designing knave or a fool, desires war. No man other than a fool will deny that, as the world has been constituted up to now, wars have been inevitable and unfortunately seem in a fair way to continue themselves indefinitely. All this because of the difference in human beings as individuals and also as constituting nations. One set of men have a kind of religion that makes them so conduct themselves toward other sets of men that the time comes when war results. This statement applies with particular aptness to fanatics and barbarians still living in the tribal relation and some six hundred years or more behind the times.

CO-OPERATION IN CHURCH

(Boston Globe)

The weakness of the Protestant churches in trying to appeal to those outside of any religion has been the number of apparently antagonistic divisions into which Protestantism has fallen. Amid the clash of tongues it has been difficult for the multitude to distinguish a clear call. Church people themselves have been troubled by the situation in which each little group seemed to be working chiefly for its own peculiar interests. If it is coming to pass that a new unity among Protestants is working itself out, an enormous gain should result to the great cause of spiritual brotherhood and human service to which all the churches are dedicated. The message will become more distinct and compelling as differences give way to co-operation.

TREMENDOUS THOUGHT

(American Exchange)

Imagine fifty-three worlds the size of our own planet strung as a necklace. Enough lead-covered telephone cable was produced during the month of November at the Western Electric Works at Chicago to go thru fifty-three globes the size of our own. This gives us some idea of the magnitude of the electrical business.

THE CREDIT PLAN

(Flint Journal)

Credit, however, is the life of business and is the salvation of a modest home. True, some people are inclined to abuse the credit plan, but they are comparatively few in number. But there is always the danger that over-indulgence in this form of buying is going to make some folks "dollar-a-week slaves."

Cur ambition for the comforts and pleasures of today should not lead us to place too big a mortgage on the future. However, discounting the future is, to a certain extent, an aid not only to our social, but to our economic life. It establishes our faith in tomorrow, and it heralds the fact that our financial transactions are honorable enough for us to obtain credit.

SIMPLICITY

Who has not met the simple chap,
  Some call him "silly ass"
Because they all have failed to see
  He is not in their class.

Simplicity is just his forte;
  Within, a solid heart,
Devoid of slacking or deceit,
  He always does his part.

He seems to do the simple things;
  Is butt of all around;
Still, when it comes to industry,
  No better can be found.

He puts his shoulder to the wheel;
  A willing horse to work;
Too busy at his job to see
  The other fellows shirk!

Explanatory of the cause,
  Why often he is late.
Good-nathred, too, he does the chores,
  Deserving better fate.

Withal the day, the Simple's day,
  Came when the war broke out,
For he it was who led the van,
  Left others home to shout.

As he had always been, he fought,
  Still called the "silly ass"
Still what he did, and deeds do count,
  It was not seen, alas!

There could be but one ending for
  A simple soul as he,
His sole thought was not himself,
  But all "for victory"!

How many would consider such
  A privilege of class
In courage, steadfastness and truth,
  To be a "silly ass"?

NORMA TALMADGE PORTRAYS FAMOUS COURT COQUETTE

Norma Talmadge ,of great beauty and many talents, again registers her histrionic versatility, this time as one of the most alluring and loving of coquettes, in her portrayal of the Duchess of Langacis in the big spectacular production of "The Eternal Flame," now playing at the Griffin Theatre.

The story, by Balzac is laid during the reign of Louis XVIII in the Second Restoration Period. With the passing of a season, the court grows curious as to why the Duchess has become a bitterly cynical coquette, conferring her favors equally among her admirers, accepting the homage of all Paris, yet giving nothing in return. It was a period of extravagant frivolities, magnificent liaisons, yet her life was without reproach.

Then General Armand de Montriveau, an intimate of Napoleon became the fashion in Paris by the strange law of contraries. A man of battles and grim realities, utterly unversed in the ways of women and love, he was an outstanding figure among the brainless coxcombs of the court, and therefore the mark of the patrician coquettes' wiles.

With the arrival of De Montriveau, the Duchess contrives a conquest which changes the course of her whole life and results in a romance as splendid as that of the Immortal Beauties.

'RAGS TO RICHES' DELIGHTFUL STORY

Not in a long time has a Belleville audience expressed their appreciation so whole heartedly as they did yesterday at the first showing of Rags to Riches featuring Wesley Barry, the freckled faced youngster at the Regent Theatre yesterday where it began a run of three days.

Rags to Riches is good straight, clean comedy with the pranks of mischievous Wes making for hundreds of laughs through the picture while it is hardly fair to reveal the plot and thus probably rob you of a few thrills we cannot refrain from telling something about it. Wesley Barry has the role of young Marmaduke Clarke the over-petted child of wealthy parents Marmaduke wants adventure, but has to do all the silly things expected of him. He had to thump at the violin when he would rather be plunging into the old swimming hole. A burglar in the house helps him to break away from his old life, and then begins an amazing series of adventures ending in the capture of a gang of desperate and notorious crooks.

A beautiful love story is woven into the action, and gives the film a unity and perfection rarely attained The picture is packed with thrills, and is wholesome throughout. Stan Laurel in Frozen Hearts, William Duncan in The Steel Trail and a News picture completes an excellent program.

2ND LINE SIDNEY

Several from this line attended the sleighing party given by some of the classes of Holloway Street Sunday School on Thursday evening.

Mrs. Geo. Babcock is suffering from eczema.

Mrs. Clayton Herman spent Thursday with her sister, Mrs. Jack Graham.

Mrs. Geo. Moy burned her arm quite badly while their pipes were being——last week. The Dr. had to dress it.

Mr. and Mrs. F. H. Bedell spent Tuesday at Mr. Lorne Brickman's.

Mr. and Mrs. W. Jones of Cannifton spent Wednesday with Mr. and Mrs. John Roblin.

Mr. and Mrs. Walter Meyers and Helen had tea on Tuesday evening at Mr. Martin's, Cedar street, Belleville.

Mr. H. Donnelly has his house in Belleville nearly decorated, also the plumbing is finished.

Mr. and Mrs. Clarence Meyers spent Sunday afternoon at Mr. Walter Meyers.

Mr. and Mrs. John Roblin spent a day recently at Mr. John Vandevoorts, Front Road.

Mr. Morley Wellbanks and Miss Audra Brickman had tea on Sunday evening at Mr. Frank Bedell's.

Mrs. Floyd Thrasher and Olive spent the week-end in Belleville.

Mr. and Mrs. Walter Meyers entertained company from Belleville on Sunday.

Mr. Lorne Sharpe entertained a friend from Stirling for a few days last week.

One can't put a bushel of potatoes into a peck measure, but it is possible to get a peck of trouble out of a pint flask.

Pen Sketches By a Local Bard

'THE MISFORTUNE IS GREATER'

In the contemplation of a greater misfortune than our own, we may often win surcease from the cares that oppress our souls; in the spectacle of another's frailty, we may deem ourselves, in comparison stronger and nobler men.

It was in a somewhat bitter mood that we took our seat recently in a train that was to tear us away from Belleville. The unwonted luxury of the super-six which bore us to the station was lost upon us by reason of the things which too late, we remembered had not found lodging in our suitcase. We arraigned the treacherous memory which forever dooms us to leave our brushes and shaving soap behind us; with especial regret we lamented our failure to pack a neck-tie of chaste design purchased expressly for that journey. As we collapsed in utter dejection, we were poignantly reminded of a vicious pair of manicure scissors which, with other articles discovered after the suitcase was strapped, we had distributed about our person. Verily, the iron had been driven deep into our soul.

Absorbed in gloomy retrospection, our heart waxed more and more bitter within us. We spoke unkindly to a courteous youth who offered to sell us two oranges for a quarter. Indeed, we were on the way to becoming downright disagreeable when a diversion occurred that restored our good humour.

When the train pulled out from a wayside station, the chap in front of us asked a boarding passenger if we were near Trenton. It seemed that we were leaving Trenton. He rushed to the door in time to confirm the ominous tidings and hurrying back dragged down several unwieldy pieces of luggage from the rack and fairly dived into his overcoat.

Forgetful now of our sorrow, we sat up and laid mental odds against the absent-minded one effecting a good landing. For the train was gathering speed and the station platform was left behind. We wondered whether he would throw his baggage off first or make the leap tout ensemble. As he did not come back immediately, in company with others who sensed the impending drama, we peered out of the window expecting to see him hurtle down the embankment.

But our morbid curiosity was disappointed. For the unwilling traveller returned and resumed his seat. An ineffable sadness settled upon his visage as the snowy landscape dropped behind us. The brakeman and conductor endeavoured to cheer him They produced documentary evidence to the efect that he could get a train back to Trenton at 9.10 that night. They made special marks on a time table and presented it to him. He accepted it with a wan smile that seemed to say: "Leave me now, I must fight this battle —alone."

We yearned to comfort him. It was in our heart to say, "Fair sir, we too have swallowed this bitter pill. We have been restrained by a horrified Celtic porter from hurling ourselves at a fugitive compartment train that bore our cap, British warm and haversack toward the Grampian hills—leaving us to wander the streets of Carlisle." But we hesitated to intrude upon that noble grief.

We were strangely cheered by so timely a proof that we are not alone in our weakness. And should any honest burghers of Trenton feel that we have drawn undue attention to the circumstances of a traveller passing through their bustling centre without recognizing it, we can but observe that towns, like persons of a dark complexion, look very much alike in the dark. For, upon the return trip, we ourselves would have alighted at Trenton under the impression that it was Belleville!

PLAIN COOKING AND HIGH THINKING

We drew Jerushabel Jopping's attention this morning to a news item stated that the recently appointed Treasurer of the King's Household had maintained himself at Ruskin College, Oxford, with his wife and family, on 50 shillings a week. To our amazement, Jerush opened a letter which he addressed to his son, an undergraduate at Albert College, and, extracting a cheque, slowly tore it to pieces.

"You are not going to disinherit the boy?" we asked.

"No," replied Jerush, his face illumed with the great light, "I'm buying him a marriage license."

THE LAST STRAW!

Ameliasburg, Feb. 5.—Charged with rushing wildly from a local tea-room and burying his head in a snow-bank leaving sundry viands untouched and unpaid, Ebenezer Simpkins, aged 29, appeared before his Honour, Judge Joping (father of the celebrated poet by that name) this morning. After hearing the evidence, his Honour dismissed the case as ipso facto and anno domini. "I wish more of our citizens would use their heads as you have done," said his Honour.

Taking the stand in his own defense, Simpkins said, in a voice vibrant with emotion: "It was very cold last night, and all the way down town I pictured the hot soup I would order. It was all that kept the spark of life in my body your Honour. I banished the piercing blasts by conjuring up buckets and tubs of steaming soup. I could almost smell the hot soup in my face and, with that goal before me, I struggled on.

"When I staggered inside the tearoom, I stood by the stove till the icicles melted from my moustache, and, when I could open my mouth, I told the waitress: 'Hie thee and bring me soup, any kind, so it be piping hot, scalding, steaming, boiling soup. And brew me a quart of tea. Set it over a spirit lamp and let it buble and boil before me as I sup the soup. For, byy my halidom, the very marrow of my bones is frozen and congealed.'

"I was rubbing my hands together in pleasurable anticipation when another waitress passed me bearing a tray. And what I saw made my blood run colder. Ice cream sodas with straws sticking up and icebergs bobbing about in them! It was a sight, sir, to make strong men turn pale. It haunts me still.

"She laid the tray on the table in front of me, while she spread tissue paper on the table across the way where sat the maidens for whom the stuff was intended. I tried to shut out the sight but that shivering, [illegible] frozen array fascinated me. At last, with a scream, I pressed my hands over my eyes and fled into the night. It was too much, your Honour, too much."

AN UNAPPRECIATED TRIBUTE

A retired professor of English wrote to Jerushabel Jopping, and, alluding to that touching sonnet, 'Sylvia, Queen of the Cows," said "My dear Jopping, how well you struck the pastoral lyre!"

Jerush was awful mad. He said he never hit a minister in his life.

CONSECON

Mr. and Mrs. Rufus Howe returned home on Saturday after visiting relatives in Bloomfield.

The Young People's League here visited Hillier League on Tuesday evening. The home league furnished the programme and Hillier League furnished refreshments. All report a good time.

Mrs. H W. Weeks and Mabel spent the week end in Rosehall, guests of Mr. and Mrs. R. Collins.

Mr. Arthur Gibson of Selkirk, Man., spent a few days with Mr. and Mrs. Geo. Johnson recently

Messrs. Ross Adams and Kenneth Alyea were tea hour guests of Rev. and Mrs. Wolfrain on Tuesday.

Miss Mabel Hubbs of Hillier spent Saturday evening with Mr. and Mrs. Rufus Howe.

Mrs. George Bush is visiting relatives in Napanee.

Mr. Harvey Cook was tea hour guest of Mr. and Mrs. L. Howe on Friday evening.

Mr. and Mrs. Geo. Elmy and Marjorie and Mr. and Mrs. Chas. Carnrike and Eva were tea hour guests of Mr. and Mrs. Frank Hickerson on Thursday.

Dr. and Mrs. Holling gave a party to a number of young people on Saturday evening in honor of her sister, Miss Rosalie Guichard. The evening was spent in dancing and cards. Mr. Earl Snider won the gentleman's prize for cards and Miss Marion Bush won the ladies' prize.

Mr. and Mrs. Geo. Lazier of Waupoose spent Friday night with his parents, Mr. and Mrs. G. Clarke.

A number from here attended the sale of Mrs. Etta Humphrey on Friday 1st. Mr. Fred Taylor purchased the farm and buildings.

Dr. and Mrs. B. Weeks gave a card party to a number of friends on Wednesday evening. A contest was given in which the winners were Mr. Roy Taylor and Mrs. Dr. Holling. Each received prizes.

Mr. and Mrs. W. W. Ward, Mrs. J. D. McKean and Mrs. Roy Taylor spent Friday afternoon in Trenton.

Sidney

Sidney Township S. S. Association held their annual convention in Johnstown Church, on Jan. 31, with a good attendance from throughout the Township.

At the afternoon session the reports from the Sunday Schools were given by the Sec.-Treas. of the Association. There are seventeen protestant schools in Sidney. The reports from the Dept. Superintendants showed that they were working and trying to improve the conditions of the schools.

Rev. W. N. Norton representative of the O.R.E.C. was present and conducted a Round Table Conference, in which he showed his ability as a Sunday School worker by answering many problems of the delegates.

An excellent address was also given by Rev. W. E. Honey, of the Sidney Circuit.

This address was followed by the meeting of nominating committee and also brought the afternoon session to a close.

Two very helpful addresses were given at evening session. The first by Rev. R. S. Cranston, of the Presbyterian Church, Trenton. In which he stated that he had been a minister for nearly 23 years and that he had always found time on Sunday to teach a class and it had been a great help to him.

The next address by Rev. W. N. Norton was also very helpful to all S. S. workers.

The report of the nominating committee was as wollows:—

President—E. B. Lott, Belleville R. R. No. 2.
Vice Pres.—F. Finkle, Foxboro, R. R. No. 1.
Sec.-Treas.—L. J. Ketcheson, Foxboro, R. R. No. 1.
Dept. Superintendant
Children's Div.—Miss Norma Lloyd, Belleville, R. R. No. 5.
Young People—Girls—Mrs. S. Spafford, Belleville R. R. No. 5.
Young People—boys—Walter Morrow, Frankford.
Adult—F. R. Rikley, Belleville No. 2
Home Dept.—Wm. Holmes, Belleville No. 2.
Teacher Training—Rev. W. E. Honey Beleville No. 5.
Missionary—Mrs. D. Coon, Frankford No. 2.
Temperance—Edwin Adams, Trenton No. 5.

An invitation to hold the next annual convention at the Stone Church, was accepted.

WHY, CERTAINLY

May—I'm having a new dress made, but my heart isn't in it.

Tilly—Will you dare wear it as low as that?

HE FELL

In her own crisp dialect the Lancashire housemaid explained to her sympathizing neighbor what happened when the canvasser called. "First 'e knocked at t' door," she said. "Then 'e talked an' talked until I was tempted——"

"Dear me," interposed the other, "an' ye fell for him!"

"Sweet mercy, nay!" answered the other, shaking her fist. "Twas 'e that fell. I 'it 'im."

It Sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

WOMAN SO ILL COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

Glens Falls, N. Y.—"For over two months I was so sick I was not able to stand on my feet, and my husband did my housework. The doctor said an operation might be necessary. I read testimonial letters about Lydia E. Pinkham's Vegetable Compound and began to take it. Before I had finished taking the first bottle I saw what good it was doing me. I am now well and strong, doing all my work for a family of four, all my washing and my sewing, which I think is remarkable, as I had not dared to run my sewing machine, but had done all my sewing by hand. I truly feel that were it not for your medicine I would not be here today as my case seemed very serious."—Mrs. GEORGE W. BURCHELL, Glens Falls, N.Y.

Free upon Request

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free, upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information that every woman should have.

ADVERTISING

"Waiter," growled a customer, "I should like to know the meaning of this! Yesterday I was served with a portion of pudding twice the size of this."

"Indeed, sir!" replied the waiter. "Where did you sit?"

"By the window," answered the customer.

"Oh, that explains it!" said the waiter. "We always give the people at the windows a large helping. It's a good advertisement."

SURE!

His arm went 'round her slender waist
  She coyly raised her head.
"Your form," he said, "is quite divine"
  "Of corset is," she said.

the place of American fuel products. Then again, it is argued, that people who own motor cars are for the most part well to do, and if they are not well to do they should not have cars. So that it is only fair that they be made to pay something for the betterment of the people of this province as a whole. The population of Ontario is about 3,000,000 and there are about 500,000 motor cars in the province.

Freight Under Cost

Sir Henry Thornton, president of the Canadian National Railways, has said that Alberta coal cannot be brought to the east under $9 a ton, unless the country is prepared to stand a loss on the traffic. Admitting this to be a fact, the people are now calling on all governments to arrange with Sir Henry for rate of from $6 to $7 a ton, and then for the federal and provincial governments to make up the difference by means of bonuses to the C.N.R. based on the amount of coal brought to each province under the preferential rate.

It is understood that the C.P.R may be given a share of the subsidized traffic, else the [illegible] might complain to the traffic trusts that control freight rates, and thereby make trouble for Sir Henry Thornton and the C.N.R.

Grievances

(Continued From Page One)

ions are coequal partners in the greatest empire in the world.

"If Canada and the other overseas dominions are now equal states with Britain in the British commonwealth of nations, says one newspaper critic, "the representative of this country in London ought surely to have equal status with the representatives of Nicaragua, Chile, Brazil, Portugal and Argentina.

If the dominions are no longer colonies, why does the colonial secretary persist in shepherding the dominions' commissioners about London, and why does the court tailor design uniforms which 'resemble' but are not those worn by the ambassadors?"

See Change Coming

This is pretty straight talk, and it represents the bulk of Canadian opinion on the subject. But the government studiously frowned on any attempt of Canada to seek ambassadorial rank for her representatives in London, and the same has been true of this dominion to have her own personal representative at Washington. But the wheel of time has wrought a great change in Great Britain, and Canada now expects to have a representative at the American capital and also to have ambassadorial rank accorded her minister in London, Hon. P. C. Larkin. The Labor government is said to be quite willing to make these concessions to a dominion which has shown itself loyal to the core when Britain stood in need.

Obituary

MRS. REV. R. M. POPE

The funeral of the late Mrs. Rev. R. M. Pope who died at Mission, Texas, took place in this city yesterday afternoon and was attended by a number of relatives and friends. At the home of Mrs. Townsend, Foster Avenue, Rev. Dr. Brown of Holloway street church, conducted service, assisted by Rev. F. F. Malott and Rev. H. B. Kenny. The body was placed in the Belleville Cemetery vault.

Bearers were Messrs. B. Quincy, G. T. Woodley, J. McCarthy, B. Frederick, Geo. Bacon and C. Frederick.

Mr. Claude Pope, son of the deceased was unable to accompany the body here owing to illness.

Texas Sleuth Tells How He Foiled Crooks

Now Travels About Warning Others of Weird Adventures

Fort Worth, Tex., Feb. 5.—J. Frank Norfleet, celebrated Texas rancher-sleuth who basked in national prominence through his relentless three-year search and capture of the four con men who relieved him of his life's savings of $45,000, has succumbed to the lure of the lecture platform.

Following the opening of his first engagement here Norfleet stated he had arranged a long tour over the nation that he might lay before the eyes of the world his own fallacy as a warning to get-rich-quick aspirants—and recuperate his fleeting fortune.

Three years ago four swindlers, presenting an ancient stock game, appeared at his home and allowed him to make a few nickels on his first minor investment.

"One of them dropped to his knees and, with a Bible to his forehead, declared that, in the name of his 'angel mother' their investment was an honest proposition," he says.

On the strength of their mother oaths and first small profit Norfleet plastered his ranch with mortgages, sold off his cattle, withdrew his savings from the bank, borrowed of his friends and brought forth $45,000 in cash on the well-known silver platter. The notes which he placed in their keeping were never cashed, confining his loss to the currency.

With frequent illustrations of "quick drawing—shooting from the hip—desperate grappling with his assailants"—Norfleet punctuates his talks with an enthusiastic vigor that twangs an excitable cord long the spinal column.

He tells of his three-year-search for the four swindlers, several personal encounters attending their capture and how each in turn—when confronted by himself, single-handed—dropped to his knees, pleading for clemency with genuine tears.

He has sent three of them to prison. The fourth will be brought to trial here within several weeks.

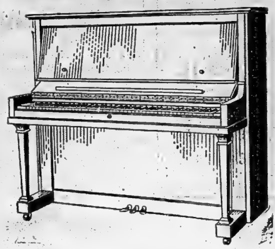
THE J. M. GREENE MUSIC CO. Ltd.
ANNOUNCE THEIR
FEBRUARY PIANO CLUB

Limited to 15 Members. Every Member Receives Special Club Prices, Terms and Privileges. Club Opens Wednesday, February 6th, at 8.00 a.m. Closes Positively with 15 Members.

THE CLUB PIANO

It is fitting in a community like Belleville to have such an extraordinary piano selling event as the Greene Piano Club. It enables parents to give the children whose birthright it is to know and enjoy the inexhaustible beauties and delights of music, the opportunity to purchase a piano—so conveniently **now**—when the child should be taking lessons, and not have to miss the golden age period through waiting for a more convenient time.

The Greene Piano Club gives every parent the opportunity to have the music study begin **now**. The earlier the better, but, start right, with a good piano, having a good action and good tone, the proper foundation for the child's musical ear and an instrument that all in all, it will be a pleasure to own.



Wednesday, February 6th, we will inaugurate our club, one of the biggest events that has ever taken place in the piano trade. Incidentally, we will have reached our Nineteenth Anniversary in the music business, the business having been established in 1905. In other words, the big Greene Piano Club—with its 15 members participating in the big purchase—is intended to really celebrate our Nineteenth Anniversary in a business way; to impress the importance and significance of 19 years of continuous business upon the public mind, and, most important, to make if possible for 15 families who really need pianos to secure them under ideal conditions.

The Greatest Piano Offer in Canada

This tremendous Piano event is undoubtedly the most attractive Piano offer made in Canada. The low price offer, easy terms, no interest and special privileges are the magnets that draw. You cannot equal elsewhere the value offered here.

An evidence of the public confidence in the old established firm of Greene Music Co., and their Piano Clubs is the fact that many people telephone or write in, to join, without ever seeing the Piano.

The Value of Each of These Pianos is $450
The Club Price is
$337.00
NO INTEREST

Many of These Same Instruments

have been sold right here in Belleville at $450.00. Hundreds more are being sold every month all over the Dominion of Canada at $450.00. **They are worth $450.00.** They are worth it on our floors or on the floors of any reputable dealer in the country. The Greene Club price is $337.00. The price includes everything. There are **no extras** of any kind. No interest to be added. Nothing to be added for cartage, freight or stool—**absolutely no extras.** Three hundred and thirty-seven dollars is the price and the price **includes everything.**

The saving to each Club member is $113.00—will pay for the musical education for one child for more than three years at 75c. a lesson per week.

$6.00 Cash $2.00 Weekly
ARE THE CLUB TERMS—NO INTEREST

The Deal and the Instrument

The deal is a straight-cut offer of 15 Pianos. The instruments are of a most reliable, trustworthy character—**The Ennis** (Colonial Style), in which the real value is put on the **inside** rather than in fancy cases, although the cases are of genuine walnut or mahogany. We have known the instruments for years. We know them to be as reliable a Piano as was ever put in a home. They are made by good Canadian workmen, in one of the best factories in the world.

Exclusive Club Offer
of the Greene Piano Club

CASH SAVING — Every member selecting a Piano saves $113.00 cash and pays no interest.

CLUB PAYMENTS — The special Club Price is payable in reduced weekly terms of $2.00

NO INTEREST — Club members pay no interest on Club plans. The Club price includes everything. There are no extras of any kind. This is a great saving also.

PROTECTIVE INSURANCE —If a Club member dies with all payments made as due, the heirs receive instrument without any further charge.

RELIEF INSURANCE—If a member is taken sick, or becomes unemployed, the privilege of making half-payments is granted for as long a period as he has previously paid in full.

REBATE FEATURE — A Club member can lessen the special Club price still more by paying faster than the Club terms call for.

EXCHANGE PRIVILEGE—Club members have the privilege of exchanging their Piano anytime within one year, without loss, for any other new Piano or Player-Piano of equal or greater value.

GUARANTEED — Every Club Piano is guaranteed for five years in writing.

FREE—Stool with Piano and city delivery FREE, if on ground floor.

15 Ennis Pianos

These 15 Pianos will be sold $6.00 cash, then $2.00 a week. The $6.00 just about covers the cartage and delivering—yet the $6.00 payment made when you join the Club is credited to your account. The instrument is delivered immediately. You do not have to wait until the Club is filled. You get your Piano when you join. The remainder is payable every week. Club members do not have to pay more than the regular terms unless they wish. This gives them 165 weeks in which to pay, and still get the Club price.

Club Books Open on Wednesday

The Club books open at 8.00 a.m. Wednesday. In other words, Wednesday will be the first day you can join the Club. The Pianos, however, are now on display in our warerooms, where you can see and hear them. You are cordially invited. The Piano will be delivered immediately upon your becoming a member and making the initial payment of $6.00. During the first few days of the Club's life we hope to give everyone their choice of two woods—mahogany or walnut.

The Club Price Can Be Lessened

The Club members' agreement includes 165 payments, each payment represent one week. One hundred and sixty-five payments represents 165 weeks, or the life of the agreement. Every time a payment is made you are credited with that payment in your Club Book. For payments made in excess—that is, in addition to the regular payments—a rebate of 20 cents is handed over to Club member in cash. You can, therefore, see that the price can be reduced just as many times twenty cents as you make weekly payments in excess of the regular payment.

Williams New Scale Pianos and Player Pianos

Front Street

ENGLISH ACTOR SCORES SUCCESS

Bransby Williams, English Character Actor, Delights Bellevillians

Clever and high salaried monologuists in the varieties, are considered accomplished if they are able to hold the interest of their audiences for fifteen minutes. The majority of such entertainers are able to do so. At Griffin's last night, one man, Bransby Williams entertained a fair sized and exceptionally appreciative audience for two hours without the slightest waning of interest.

Bransby Williams, versatile and widely known English character actor, who is seen at his best in Dickensonian plays was "At Home" to his friends, when he presented a programme of descriptive and humorous monologues and character sketches from the novels of Charles Dickens, and two lengthy monologues, "Orange Blossom" by Sax Rohmer and "The Stage Door Keeper's Review of the Stage".

His famous monologues "His Pipe", which is the story ot an old London workman in conversation with his old pipe, a gift of his departed wife, is as touching as "The Student" is surprisingly humorous. "The difference", which is the story of a real occurence in Hyde Park following the war, between two ex-service men, is decidedly clever and pathetic.

For real congeniality however, "The last number, "The stage Door Keeper's Review of the Stage" stands aloof, and in this piece, the character actor is seen at his best.

From the inside stories of the stage, to politics, the wise old doorkeeper tells his simple story, which is one round of mirth and merriment, sparkling with English humor and excellent histrionic ability. As a closing feaure, Williams impersonates world famous actors past and present, whom he has seen, the audience selecting the particular actor who they wish impersonated.

Some excellent dramatic ability was shown in the Chinese monologue, "Orange Blossom" which told a tragic story as well, and the versatility of stage, when he gave such humorous Bransby Williams was seen in his quick change "make-up" demonstration on character sketches as "Sergt. Burfex", "Uriah Heap" and "Grandfather Small weed".

Williams is an English gentleman of rare ability, who has been impressed with Canada, and is intensely interested in the country, although he may not agree to the letter with the stage loving public of this, the new country. Williams has made a decidedly favorable impression in Canada and especially in Belleville where he addressed both Rotary and Kiwanis Clubs. He sails for Old England from Montreal on Thursday, and will tour Australia next. It is to be hoped that he will again tour the Dominion, and assist in still cementing the bonds of friendship between Canada and the Motherland.

NIAGARA BORDER CLEAN UP SEEN

Provincial Police Determined Wipe out Bootlegging in Thorold District

Would End Liquor Flood

Gambling Dens, Vice and Other Crime Object of Latest Campaign

Bridgeburg, Ont., Feb. 5.—Provincial police are determined to clean up the Thorold district, which for some time has been the center of distribution of Canadian liquor over the Niagara border to the States. With that object in view the provincial police force at Thorold has been augmented, raids conducted on alleged blind pigs and gambling joints, and sufficient evidence obtained to put a number of foreigners out of bounds.

The better class citizens in Thorold have demanded action to cleanse the canal town, which has gained considerable notoriety recently through several murders, the result of a vendetta, the shooting of a provincial officer, and the sale of booze with impunity.

$2,500 Reward Offered

In connection with the clean-up now underway, the provincial government has offered a reward of $2,500 for information that will lead to the arrest of persons implicated in the shooting of Provincial Officer Joseph Truman last fall, and every effort will be made to clear up the mystery.

The forces under Maj. Gen. Williams, commandant of the Ontario police, have determined to clean the town up, no matter who it hits. It is said that several business men in Thorold have been implicated in the the liquor traffic, which has been extensive for the last four years.

Pardons Rouse Citizens

In the vendetta shooting of a year ago, residents of Thorold were bitter because two of the men known and proved directly responsible, were pardoned at the last moment from death and sentenced to life imprisonment. A third, believed to be the principal, escaped to Roumania.

Bootleggers have created a distinctly bad atmosphere in Thorold, which for years bore the reputation of being one of the most orderly towns in the Niagara district.

The influx of a number of foreigners, who were brought in by some of the large plants, has created a problem.

It is believed that Provincial Officer Truman was murdered as a result of his activity against the boot-legging ring, who, angered at his continued activity, brought a gangster over from the American side of the river and had him murdered in cold blood.

Pick Eighteen Greatest Men In World's History, Recently

Seattle, Feb. 5. (United Press).—"Greatest men" aren't raised any more, according to the University of Washington faculty.

The professors balloted for the 18 men who have made the greatest contributions to learning in the history of the world, and they didn't pick a single man who lived in the twentieth century. Benjamin Franklin was the only American on the list.

They picked three Greeks, three Germans, three Englishmen, three Italians, a Scotchman, a Roman, a Frenchman, a Hebrew and a Dutchman.

Statutes of these will decorate the library building now under construction. H. C. Henry, Seattle patron of the arts, made a gift to the university in order that these bursts could be completed. Allen Clark, Tacoma sculptor, will model the figures appearing on the facade of the new building.

The names selected by the university faculty include:

Homer (About 1000 B. C.) Greek poet, author of the "Iliad" and "Odyssey."

Dante (1265-1321), Italian poet, author of the "Divine Comedy."

Goethe (1749-1832), German, poet and philosopher.

Shakespeare (1564-1616) English dramatist.

Da Vinci (1451-1519), Italian artist, painter of the famous "Last Supper."

Beethoven (1770-1827), German musician and composer.

Moses, Hebrew religious leader.

Plato (429-347 B. S.) Greek philosopher.

Heroditus (484 B. C.) Greek historian

Justinian (483-565), Roman, law and administration.

Grotius (1583-1645), Netherlands, noted international law and politics.

Adam Smith (1723-1790), Scotch sociologist.

Darwin (1809-1882), English biologist, author of "Origin of the Species."

Galileo (1564-1642), Italian scientist.

Newton (1642-1727), English mathematician.

Pasteur (1822-1895), French physician and scientist.

Gutenberg (1400-1468), German, inventor of printing.

Benjamin Franklin (1706-1790), American scientist, printer and statesman.

Germans Failed To Prove Kinship To Nordic Race

Toronto, Feb. 5.—Germany, within a few years, will be, as before the war, Great Britain's most formidable industrial competitor.

Such is the warning delivered by Sir Robert Horne, former chancellor of the British exchequer, who is now visiting Canada. England, in his belief must reconcile herself to the handicap of German competition in order that Europe may be restored to a condition of efficiency and peaceful harmony.

Germany's capacity to pay, Sir Robert believes, depends on complete freedom to develop her industrial life. This fact he hopes to see established from the present deliberations of the allied committee of experts.

"Occupation of the Ruhr was a great mistake, because it strangles the industrial life of Germany in its most important center," says Sir Robert. "The mistake the French made is that they think they can squeeze the neck of the goose and at the same time expect it to lay golden eggs. If Germany is left alone, I feel she can pay a great deal more than even the optimists imagine. She has her business intact. She has improved her industry since the war, she has equipped her industrial works, and she is in a position of great advantage to compete with the products of the rest of the world.

"Everyone, of course, realizes that France must be put in a position of feeling secure against military aggression, but that can readily be done. There is no reason why Europe's ills cannot all be smoothed out in a very few months by amiable discussion. It is for that reason more than any other that I am glad to see the United States aking a part in the present deliberations. The weight of her influence is sure to be felt, nd the fact that her geographical position is completely detached from that of Europe will destroy any suspision of prejudice in the views which she may take.

"The world needs a new start. As long as these questions remain sore and unsettled, they will continue to create a great impediment to the business and commerce of the world. Germany at the present time is not performing her proper functions. And you cannot have a great nation which is one of the links within the commercial circle broken without causing injury to the whole international system of trade relations."

The present decline of the French franc need not be viewed as presaging the financial collapse of that country in Sir Robert's opinion. France is solvent, and will have no difficulty in adjusting her exchequer, if proper methods are applied, he states.

FANNING WITH FARRELL

WHY BABE RUTH CUT OUT ROUGH STUFF

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 4 (United Press).—Babe Ruth, getting ready for another big season, has been chopping wood, tilling the soil and minding the chickens, since he deposited his world's series money and his end of a few exhibition games.

From all evidence the reform that the Babe announced this time last year "took." For personages of the prominence, the means and the disposition of the Babe, reforms seldom "take."

Ruth caught himself, however, before he had dissipated to the danger line, and as long as he grants permanence to his resolutions to attend strictly to the business of playing baseball, he will have many more seasons as the greatest of the ball players.

Ever since Ruth was made to see the error of his ways, fans and professors have been curious to know who are and what was responsible for his reformation.

Frank Baker, the former home-run king, according to a story that was told recently, was really the one who got the Babe back on his feet. Baker was a star before the day of the big money, but he was sober in his habits and saving in his ways, and he is now financially fortified for the future.

Baker lectured the Babe constantly on the wisdom of saving his money, but the Babe has plenty and he saw piles coming in, so the advice of his friend did not take.

Turning to the ponies for amusement, Ruth was "taken" for everything he had, and he went $30,000 "on the nut." He started to slip as a player, and the source of his revenue was threatened.

After having the lessons that Baker preached to him rather alarmingly illustrated for him, Ruth then turned over and he hasn't flopped back.

* * *

Although he did not make any slugging records last season, Ruth had his biggest year, and he won the prize as the most valuable player in the American League. To a player who loves glory as much as the Babe does, the award of that prize to him was more than new records and a lot of money.

The Babe may not break his home-run record next season, and it is probable that he will not. He does not like the right field layout of the New Yankee stadium, and he is bothered by the mental belief that he can't hit in his home park.

He is keen about the Polo Grounds, and he said he felt sure if the Yanks had played all their home games on the National League grounds last season he would have hit seventy homers.

Ruth also has changed his batting style. He is secure as the home-run record holder, and he is satisfied with the mark he has established. He wants to have at least one season as the champion batsman of the league, and it is almost certain that he will confine his attention to beating out Harry Heilman next season for the championship.

* * *

Speaking of amateur rules, of which there has been much recent conversation, an amusing case has come to the attention of the United States Football Association through the "London Athletic News."

It seems that football associations in Europe have been following the rather lenient policy of allowing amateur players to be reimbursed for the time lost from their business while they were playing.

This leniency, as is always the case, was stretched in several cases, as was shown by the "News" in a letter received from an Englishman, residing in Europe, who told the following:

"One of the richest clubs in the first division of the Italian League had two star forwards. In order to be sure of them not transferring their affections, the club set them up in business in their town. The business has boomed to such an extent that the two forwards now cannot find time to play football."

* * *

Release of Steve O'Neill and Bill Wambsgans (usually known as Wamby to the Boston Red Sox leaves on the roster of the Cleveland Indians very few players who won the world's series in 1920. The survivors are Speakers, and Jamieson. George Burns came back in the deal with the Sox after being away two years.

Champion ball clubs never lost, as is shown in the personnel of the Brooklyn Robins, who opposed Cleveland in 1920 series.

Johnston, Wheat, Griffith, Olson and Grimes are the only players remaining on the team who took part in the series.

It was expected, however, that the Robins would not hold together long, as it was in 1920 one of the oldest clubs that ever won a pennant.

* * *

Benny Leonard, roaming around the country doing his vaudeville stuff, weeps that he can't get credit for what he does.

"They say I'm through," he complains, "until I beat the best man in the class and then, after a while they say I am all in, regardless."

No one has ever said that you were through, Benny; but the boys do say that you'll be through if you ever meet a good man at 135 pounds.

* * *

Leonard ought to get out into the welterweight class, where he could get plenty of business and hold his own just as well as he did in the lightweight class.

There are possibly only two legitimate lightweights in the class, and they are Pal Moran and Rocky Kansas.

Cornwall Wins Last Group Game

Defeat Local Intermediates by 13-1 Score at Cornwall

Belleville Intermediates lost their first and last game of this season last night at Cornwall, when the Cornwall Frenchmen defeated them by the lop-sided score of 13-1 in a rough game which was meaningless as far as the locals are concerned. Belleville had the group cinched before they went down east, but as the "flying Frenchmen" wanted a game, and it was the last of the group games, the locals made the trip. Belleville team has a heavy week ahead of them, as they meet the fast Peterboro squad here to-morrow evening and play the return game at the Electric city on Friday night. They have little time to waste with teams like Cornwall.

Two Casualties.

The easterners were out with a chip on their shoulders, and played a very rough game, but the locals are not protesting in the least, for that's the way they like them (according to Brockville news stories.) Cornwall's rought tactics netted them two casualties, Hagerman having one ear slit open, and Strachan having his face cut. Both wounds required stitches, but the players are none the worse to-day, and Hagerman will be "Johnny-on-the-spot" here to-morrow evening against the Petes.

Not Regular Team

The Belleville team was minus the services of Bill Green and "Bunny" Frechette, and that is saying a "saucer-ful". Bill Strachan, junior defence player replaced Green, and Whalen went in the line instead of Frechette with Jimmie Hunter, junior defence man subbing, in his place. Cornwall had the best team they could muster, with plenty of practice plus blood in the eye, so Belleville were not anxious to win, and just held the Cornwallites for full sixty, laying off when the butcher business" was called into play.

Jimmy Hunter tallied the only counter the locals netted, and the Contants were going great guns for the enemy.

The Line-ups.

Corwall—Goal, Gallinger; defence, Contant and Lane; Centre, E. Contant; right wing, Dick; left wing, DeGray.

Belleville—Goal, Nurse; defence, Finkle and Strachan; centre, Hagerman; right wing, Weir; left wing, Whalen; sub., J. Hunter.

Arthur Brouse, of Kingston, referee.

TRENTON WIN HARD GAME

Trenton, Feb. 5.—After 90 minutes of strenuous hockey Trenton won from Port Hope by a score of 4 to 3, last night. The game was fast, but a large number of penalties marred the cleanliness of the game. The line-up:—

Port Hope—Goal, Micks; right defence, Jex; left defence, Carter; centre, Hills; right wing, Weir; left wing, Hills; subs Weir and Hagerman.

Trenton—Goal, Bowen; right defence, Allore; left defence, Burns; centre, Shoniker; right wing, Schenoel; left wing, Allore; subs., Anderson and Batte.

Referee—Harold Mitchell Toronto.

Both the New York Yankees and the Washington Senators are making high bids for the services of Eddie Collins star second baseman of the Chicago White Sox.

Queen Boo Hoo Seeks Her Shadow

Kingston, Feb. 5.—A large bear was amusing herself yesterday, inspecting the grounds of Mowat Sanitorium, according to information reaching Kingston yesterday. The bear was just about fullgrown and appeared entirely unafraid owing to the proximity of man, and for this reason the staff and patients at the Sanitorium who saw the animal formed the opinion that it had evidently been at some time or other in captivity and made enquiries this morning as to the whereabouts of Queen Boo-Hoo.

Trainer Billy Hughes believes the Queen has escaped and he is investigating the matter for if she does not see her shadow she will not return.

PRESTON OUTCLASSES GALT

Preston, Ont., Feb. 5.—The Galt Terriers, with a following of several hundred fans, fresh from their win over Stratford last Friday night, invaded Preston last night expecting another victory, but their hopes were blasted by the Preston players, who displayed their best form of the season winning 7 to 3. "Buck" Bowman, the veteran of the home team, scored two goals, and was in the play at all times. "Eagle Eye" Schmaltz lived up to his reputation as one of the best net guardian in the "Big Four." The three goals scored by the visitors were of the impossible variety, and would have beaten the best of them.

BRANTFORD SURPRISES

Woodstock, Ont., Feb. 5.—Brantford intermediates handed Woodstock a beautiful surprise last evening, skating Frank Hyde's men off their feet and trimming them 6 to 2 in the first game of intermediate second round series. Woodstock were outclassed by a team in every department of the game, and particularly in combination. The locals efforts were entirely individual, and they did not look good against the dashing combination of the Red and Black crew from the Telephone City. The veteran Jimmy Freeman played a great game and was the best man on the ice.

IKE OWENS, former big league catcher, last year with Minneapolis in the American Association, may wear the uniform of his home town, Toronto, in the International circuit this season.

BRITAIN ISSUES CHALLENGE

London, Feb. 5.—Great Britain has sent a challenge for the Davis Cup, the premier trophy of international lawn tennis, now held by the United States, it was announced last evening. Britain's challenge is the seventh to be filed for the 1924 Davis Cup contest, and the sixth from a nation in the European zone. Last year the British team, which did not measure up to the playing strength of a nation which has won the international trophy five times since 1900, was eliminated in the second round by Spain.

U.T.S. SQUAD ARE GROUP CHAMPIONS

Toronto, Feb. 5.—University Toronto Schools won the championship of the Preparatory School series of the Junior O.H.A. after one of the closest contested series of games in junior hockey in many years. The honors were only decided when the final bell sounded in the game, the champions winnings by a score of 4 to 3 over Upper Canada College. The U.C.C. students, who have yet to taste of the fruits of victory, tried hard to break the goose egg in their win column and only the clever work of Humphrey's in the U.T.S. goal prevented them from accomplishing the trick. U.T.S. needed the verdict to give them the laurels, as a loss would have put them tie with St. Michael's College and their chances of beating the Irish would have not been so bright, as Meauland, their star centre player, is out of the game for the season suffering from a broken shoulder bone, received in the last game with St. Andrew's College.

QUEENS DOWN BROCKVILLE

Brockville Feb. 5.—Queen's intermediate hockey team won from Brockville by 3 goals to 2 here last night, before a record-breaking crowd of spectators. There was no score in the first period and both teams scored twice in the second. Murray, Brockville's goalie, was injured at the end of the second frame and was unable to continue. He was replaced by Ellis who made some good saves, but let an easy one beat him for the winning goal. Mundell, Bond and "Red" McKelvey starred for Queen's while Higgins, Guest and A. Holway were best for Brockville. Bill Simon, Brockville, was referee, and the teams were:—

Queen's—Mundell, goal; Ritchie and McKelvey, defence; Grimes, centre; Bond and Johnston, wings; Young and Taylor, subs.

Brockville—Murray, goal; H. Holway and Burt, defence; A. Holway, centre; Higgins and Guest, wings; Miller, McLaren and Ellis, subs.

Mr. J. P. Warren was in Toronto yesterday attending the funeral of his sister, Mrs. J. Moore.

EXECUTE BANDITS

Moscow, Feb. 5 (United Press).—Although they did not kill a person during a series of robberies in Moscow, eight members of a band of 20 were sentenced to death. Four were actually executed, while four were commuted.

The head of the band was a German who never took a hand in the robberies, but sought acquaintance with prospective victims visited their homes and then plotted the crimes, carried out by his confederates. The German was one of the four executed.

The death penalty no longer exists in Russia, except for treason, but the courts construe banditry as treason, because "it endangers the safety of the state."

CO-INCIDENCE OF THIS GOLF COURSE

Pinehurst, N. C. Feb. 5 (United Press).—On either side of the great open fire place in the foyer of the country club here is a collection of carefully preserved mementoes and among them is a silver and amber cup.

The inscription shows the cup was presented to George C. Dutton away back in the last century, for the best gross golf score achieved that year.

The cup was the first trophy ever offered here and was given by James Tufts, founder of Pinehurst to the man making the highest score during the season of 1898-99. It was won by Dutton with a card of 81 made on the last day of the season over the original course. Previously W. N. Smith, also of Boston, was leading the race with a score of 83.

An unusual coincidence occurred here recently when these same golfers playing in the Advertisers' tournament, met and arranged a match over the same course.

Dutton won the match with a medal round of 81 the same score with which he defeated Smith a quarter of a century ago.

The two golfers have agreed to try it again in 1949.

These saucy little women are Sister Lilliputians, who are touring this continent with a European theatrical company. They visited a radio broadcasting station and insisted on throwing out their voices to the fans

DEAF NOW HEAR THROUGH ELBOWS

London, (United Press), Feb. 5.—The wonders of the otophone have recently been exhibited at the Imperial College of Science here.

By means of the otophone a deaf person is enabled to hear normal sounds transmitted not through the diaphragm of his ears but through the bones of his skull, his elbow joint or the knuckles of his hand straight to the brain.

Professor Low, lecturing at King's College stated that the British Broadcasting company had said that within 20 days Americans would be able to listen to cocktails being shaken over here, but he prophesied that before 20 years had passed America would be able to see us drink them over here. Wireless vison was very badly wanted; it was not in many ways very far removed from ordinary wireless.

Sleeplessness

Sleeplessness, like insanity, is greatly on the increase. Modern life, with its hurry and worry and noise, brings an enormous strain on the brain and nerves.

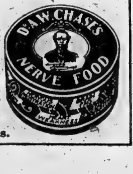
The temptation to depend on sleeping powders or tablets must be fought off if you would avoid catastrophe. Means of reconstructing the starved nerve cells must be sought. Since the digestive system fails to supply nourishment to the blood and nerves it is necessary to employ such treatment as DR. CHASE'S NERVE FOOD to instil new strength and energy into the tired nerves. This is Nature's way of affording lasting relief.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. a box of 35 pills, instead of 25c. for 25 pills.

Edmanson, Bates & Co., Ltd., Toronto.

New Box 60 Pills 60 cts.



FINANCIER ONCE, EVANGELIST NOW

Chicago, Feb. 5 (United Press).—Saving souls is better than making money, C. E. Putnam, former Kansas financier believes.

Putnam has abandoned six thriving enterprises to become an evangelist for the extension department of Moody Bible Institute here.

He was born at Richmond Kansas and started his career as a school teacher. A yearning for a business career made a rancher of him and he acquired a 1,400 acre live stock farm.

Putnam next went into the lumber business. That also was a success. He was piling up a fortune as lumber dealer, building contractor, jeweler, hardware merchant and rancher when he decided on a religious career.

As a young man he had read writings of Ingersoll and Paine. The more he read the stronger were his doubts and beliefs. He became a student of the Bible and made biblical statistics his hobby. Now, he asserts, he has "evidence" that the Bible was divinely inspired and is presenting it in evangelistic form, throughout the country.

Putnam declared the Bible made 3,000 promises which have been fulfilled. This would have been impossible unless the scriptures were conceived by a great power, he believes.

Treat Sore Throat With Vicks

FOLLOW THE EXAMPLE OF THIS NOVA SCOTIA LADY

Mrs. F.S. Myra of Bridgewater, Nova Scotia, writes: "I am delighted to let you know of the good Vicks VapoRub has done me. A few weeks ago I happened to have a sample of Vicks in the house, so I used it, and it did my throat so much good that I bought a bottle from my druggist. I cannot praise Vicks VapoRub too highly."

Treat one cold with Vicks Vapo Rub and you will adopt this external treatment for all the cold troubles of the family. Vicks is a salve that acts like a plaster and a vapor lamp at the same time. It is absorbed and inhaled.

When the children come in wet and sniffling apply Vicks liberally over throat and chest and cover with a warm flannel cloth.

Treated at bedtime, the child is usually better next morning, and all the bad after-effects of internal dosing are avoided. Croup attacks are kept away too.

At all drug stores, 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Sulphur Soothes Ugly, Itching Skin

THE FIRST APPLICATION MAKES SKIN COOL AND COMFORTABLE

If you are suffering from eczema or some other torturing, embarassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rowles Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

People shamefully neglect their eyes

About the last thing the average person decides to attend to is the examination of the eyes. Some folks like to boast of their ability to do without glasses, even though they admit that they need them. No greater mistake could be made. YOU do differently! If you only suspect that they are not just as they should be, have me give them a careful going-over, I can do it!

That Body of Yours

By James W. Barton, M.D.

SHOULD ENLARGED TONSILS BE REMOVED.

As a matter of fact I am unable to answer the above question.

I have seen tonsils which looked as large as chestnuts and yet there were apparently no symptons.

The child or adult seemed to breathe naturally, the lung capacity as registered by the spirometer was up to normal, there was no history of snoring during sleep, and absolutely no pain whatever.

Our leading specialists are inclined to leave such tonsils alone now, although in former years the removal all large tonsils was advised.

These specialists have tonsils divided into four classes, the large soft variety, the soft raged tonsil the hard small imbedded tonsil, and the buried tonsil which cannot be seen because it is behind the pilars.

Now just as long as these tonsils (which by the way should disappear before puberty) give no trouble, it is felt that no effort should be made to remove them.

If you should have an attack of tonsilitis whereby these tonsils become greatly inflamed, and you are prostrated with the usual sever illness that accompanies it, it would be well to have them removed, after you are well again.

Some physicians do not condemn the tonsils on one attack but advise waiting, and if a second attack ensues, then after you are well over it, the tonsils should be removed.

As you know this is also the system adopted by many physicians in the treatment of an inflammation of the appendix.

It is generally agreed that the chronic diseased tonsil with white plugs in evidence in the little holes or crypts in the tonsil is one of the causes of lowered vitality and a forerunner of rheumatism.

The operation for removal of the tonsils is now considered worthy of a throat specialist.

So if you look down your throat from time to time and see the white cheesy masses exuding from your tonsils, remember that these masses should be removed as they can do harm to your system.

And if you have ever had an acute attack of tonsilitis, you have already suffered more pain than the operation can cause you.

KICKED DOG HERO

Saranac Lake, N. Y., Feb. 4.—A man at Brasher Falls has an Airdale dog that once saved his life. Naturally he is fond of the animal, a cash reward of substantial proportions for information that will lead to the arrest of a youth that recently gave the dog a vicious kick, as it was passing a group of boys. The owner states he will press the matter.

For Mothers—"FRY'S"

For true nourishment in delicious form FRY'S COCOA is supreme. Make it this way and you will find it most appetising and digestible. To 3 good teaspoonfuls of FRY'S COCOA add three spoonfuls of sugar, mix well. Then add one half cup of boiling water and mix thoroughly. Add two cups of boiling water and boil very slowly for 5 minutes, stirring occasionally. Then add milk or cream to taste. This will give you Cocoa at its best.

REMEMBER, NOTHING WILL DO BUT FRY'S

ED. HOWE HAGGLES WITH THE WOMEN

Miami, Fla., (United Press).—Early birds of the human variety are apt to meet a lively little gentleman with a flowing black tie encircling his low stiff collar and topped with a soft black felt hat, busily engaged in his market gardening—or, as he himself describes it, "haggling with the women."

To those in the "know," he nods his brisk greeting in the friendly manner which has made Ed Howe known and loved from the wilds of his native Kansas to every city and town reached by his homely witticisms. Pessir, it's the Sage of Potato Hill. It's a particularly smart green grocer that can put over anything on Ed Howe—for he knows every trick of the trade—in fact, he helps to grow 'em back in Atchison.

The public market is his favorite stamping ground. And with his keen appreciation of the beautiful, the Sage never returns home without a bouquet of flowers in addition to his stock of vegetables.

GREAT SILVER PRODUCTION

Toronto, Feb. 5.—Silver production in Canada during 1923 is estimated to amount to 18,531,430 fine ounces valued at $12,570,750.

FOURTH LINE SIDNEY

Service next Sunday evening at 7 p.m. Rev. E. Honey, pastor.

Mr. C. Cassidy of Hillier has been visiting at the home of Mr. and Mrs. Ed Phillips recently.

The social evening which was held at the home of Mr. and Mrs. Herb Whitfield was well attended. The evening was spent in games and contests, after which the ladies served lunch.

Mr. and Mrs. F. Harris, Mrs. W. Philips and daughter Maud spent Tuesday evening wth Mr. and Mrs. H. Pound of Thurlow.

Mrs. J. McPherson of the 3rd line who has been spending the past three weeks with Mr. and Mrs. J. McPherson has returned home.

Mr. J. Tucker and daughter Pearl spent Sunday with Mr. and Mrs. F. Wood.

Mr. Geo. Wallace and Miss L. Waldron were Sunday guests of Mr. and Mrs. F. Harris.

A number from this line attended Mr. Earl Bird's sale of the 5th line on Monday last.

Mr. and Mrs. J. Hanna have gone to Madoc where the latter's mother, Mrs. Wannamaker is very ill.

GREAT INFLUX OF CARS

Montreal, Feb. 5.—The grand total of automobiles from the United States entering Quebec in 1923 was 132,905.

Sr. Pr.—Dorothy Zufelt.

Jr. Pr.—Marguerite Spanner, Fletcher Reid, Stanley Foster, Johnny Morris, Irene McInroy.

WISH JEWISH STATE

Moscow (United Press) Feb. 5.—An autonomous Jewish state in southern Russia, with Odessa as its capitol is being agitated by the general committee of the Communist party. As planned, the state will cover half a million acres and will contain three cities aside from Odessa. Five million dollars is said to be available to start the experiment.

The plan is said to be strongly favored by Rakovsky, Chickerin and Lunacharsky. None of these are Jews. It is said that one of the three will be named president of the committee in charge of the foundation.

BROADCAST THIS & BENEFIT OTHERS

"ECZEMA first appeared in the form of a severe rash on my body in 1916," says Mr. Alfred Rose, Booth Avenue, Toronto.

"This rash kept breaking out first in one part, then in another, and the constant raw, sore state of my skin caused great pain and inconvenience.

"During the war, through active service conditions, this skin trouble increased in severity. Even in 1919, when I was discharged from the Army, my skin was in such a bad state that the authorities delayed me leaving for home until its condition improved. But I arrived back in Toronto still in a serious plight. My skin was so painful and tender that I dreaded the thoughts of taking a bath; water's effect almost sent me crazy with pain.

"Whilst in this condition I was persuaded to get Zam-Buk. To my great delight, even the first dressing of this great herbal healer gave surprising relief and encouraged perseverance. To cut the story short, Zam-Buk has now completely cleared my skin, ridding me of an unsightly trouble which caused suffering and discomfort for over six years."

If You Suffer from—

a skin that is chapped sore, inflamed or blotchy—from eczema, salt-rheum, ringworm, poisoned wounds, piles, boils, ulcers, or cold-sores, you will find Zam-Buk more quickly soothing and healing than anything else. For cuts, burns, scalds, bruises, sprains, etc., it is the safest and most reliable of first-aids.

Get a 50c. box of this grand herbal balm from the nearest dealer. Keep it always handy!

USEFUL TRIAL SAMPLE will be sent Free and Post-Paid on request by Zam-Buk Co., Dupont St., Toronto.

SPENDS FORTY YEARS IN PRISON

Louis Danval Then Found Innocent of Murder Charge

Paris (By mail to United States), Feb. 5.—The action of the high Court of Appeals here in rehabilitating Louis Danval, druggist, after forty years of penal servitude for the supposed murder of his wife by arsenical poisoning, has lead to widespread agitation for a review of cases of arsenical poisoning in the light of recent discoveries science has made. Danval who is 78 years old, has been granted an indemnity and a generous pension for life.

Senator Louis Martin has now made application for the rehabilitation of Marie Capelle, who died seventy years ago. She was a tragic figure in a sensational trial in 1840 for poisoning her husband with arsenic, and the controversy over her guilt or innocence stirred France under the reign of Louis Philippe.

There was no reason why Marie who was twenty-six should kill her husband, named Lafarge, because he was living comfortably on her money and they had not long been married. He ate a piece of cake, which she was supposed to have baked and died shortly afterwards. Three chemists failed to find arsenic in the body, but a fourth, Orfila, then famous, found an imponderable trace, and on the strength of this report the unfortunate woman was convicted. She was sentenced to life, and her pretty black hair turned completely white in one night. She was pardoned twelve years later, because of illness and died from the effects of her prison life.

PUP ATTACKS PLUMBER

Upland, Calif., Feb. 5 (United Press).—When George P. Lutz, plumber, went on a call to do some repair work recently, he found that he would have to crawl through a small hole in the foundation to get under the house. He pushed his tools through and started to go in after them. When he was about half way through a pup spied the wriggling legs and thinking that it was a new kind of game, took a mean advantage of Lutz and a nip at a leg.

It was necessary for Lutz to receive medical attention. The next time Lutz will build a fence around the hole or come to an understanding with the pup.

CLASSIFIED ADVERTISING

For Sale

FOR SALE — RADIO; MARCONI single valve receivers complete three sets earphones and extra radiotron U. V. 199. Nearly new. Good reasons for selling. Apply 91 North Front St., or phone 1219F after 5.30 p.m. 5-3td

AMERICAN NEGROES RETURN TO AFRICA

Los Angeles, Calif., Feb. 5 (United Press).—The steamer Nile, at one time famous on the Pacific Coast as a China trader, has been bought from a junk company for $80,000 by the Liberian Transportation Company and Church of God line.

The purchase was announced by Rev. J. Eliphalet Lewis, ebon-hued president general of the company, and also bishop of the Ethiopian Promoters of the World.

The Nile will be used in maintaining a direct passenger service between Monrovia, on the west coast of Africa and Los Angeles. She will carry blacks from this country to the negro republic, and return with a cargo of ivory, gold platinum and precious stones.

"The destiny of the black race lies in its people being returned to their homeland, Africa, and the salvation in America will be brought about by the Nile and the Church of God line," he said.

THE WAY OF THE HOBO

Columbus, Nob., Feb. 5 (United Press).—Hoboes, like other folks, seek their homes when the holiday season comes around, police here say. Just before the Christmas holidays a flood of hoboes and tramps pass through here. Freight trains and passenger trains carry many, some tramp the highway, still others beg rides from auto tourists.

The flood continues often until Christmas day. Then suddenly it stops and for the month of January very few tramps and hoboes are seen. Jail cells remain empty until the latter part of January and first of February then again the flood of restless wanderers commences.

TO TALK TRANSPORTATION

Philadelphia, Pa., Feb. 4 (United Press).—The engineering and economic aspects of transportation will be discussed by railroad officials and other high authorities at meetings to be held here on February 5, under the auspices of the American Institute of Electrical Engineers. At an afternoon session at the Bellevue-Stratford Hotel the operating phase will be covered by speakers who will talk on such subjects as train tonnages, locomotive performance, train movements, terminal movements, train speeds and acceleration rates. The future requirements of transportation will be enumerated.

At an evening session in the Metropolitan Opera House general transportation topics will be discussed by national authorities.

As Cream in Coffee

YOU add full-bodied richness and tempting color to your morning cup of coffee when you "cream" it with Carnation. Besides Carnation's richness and absolute purity, its convenience and economy are winning thousands of new users daily. Try it.

Order several tall (16 oz.) cans or a case of 48 cans of this convenient and dependable milk from your grocer.

Write for the free Carnation Cook Book which contains recipes for over 100 tasty dishes.

HOW TO USE CARNATION MILK IN COFFEE OR TEA

In Coffee: To give your cup of coffee an appetizing flavor with a golden brown color, use Carnation undiluted as it comes from the container. A teaspoonful is enough—use more if desired.

In Tea: To retain the full, fine flavor of the tea, dilute Carnation Milk with three parts water.

Of course the eagle flies high, but probably it worries a good deal over where its next meal is to come from.

How Do You Feel When You Wake Up In The Morning?

Once you open your eyes, are you wide awake? Do you feel thoroughly refreshed? Are you full of life and energy? Are you glowing with health and is it a joy to be alive? If you experience these feelings you are in perfect health. But—do you wake up feeling tired? Does it take you sometime to get thoroughly awake? Is it an effort to get out of bed? Do you feel depressed, weak, lifeless? This is the way Mrs. Lytle felt and this is the way she was cured:

"Having had a very strenuous time for some months in my work, I found myself weak and easily overcome with any extra exertion. As soon as I placed my head on the pillow at night my brain began to race and jump from one thing to another. It would be hours before I could get to sleep and when I did sleep it was only fitful. I would get up next morning more tired than when I laid down. It was an effort to dress. I had to fairly force myself to do the housework. At that I had to stop and rest every little while. Carnol was recommended to me. I found it was all I expected and more. Its building and toning qualities were daily noticeable. I have every confidence in Carnol as a splendid strengthening tonic for women. I strongly recommend Carnol to every woman who is feeling as I felt."—Mrs. R. J. Lytle, 235 16th Avenue W., Calgary. 9-9

Carnol is sold by all good druggists everywhere.

SOLD BY DOLAN THE DRUGGIST

WARNS BANKERS OF CHEQUE ARTIST

Chief Constable William Donnelly, of Brantford has notified police headquarters here of a cheque artist who has recently been operating in that city. On January 30th last, a young man forged two cheques on the Imperial Bank there for $19 in each instance, signing "James A. Gilbert" to one cheque and George Gilbert to the other. Gilbert masquerades in working clothes and represents himself as a painter. Aged between 20 and 25 years, he is five feet and six or seven inches tall weighing about 150 pounds. He is fair and wears blue overalls, dark cap, and tan shoes size 7½. He is an excellent penman.

They Save You Money!

Hydro Lamps are most efficient and economical—

EFFICIENT—

—because every Hydro Lamp you buy is guaranteed to give you full Wattage as marked on the lamp.

ECONOMICAL—

—because Hydro lamps burn half as long again as ordinary bargain counter lamps, and do it without any sacrifice of their lighting efficiency.

I have the honor to be
Your obedient servant
ALEXANDER KIDD,
Chief Constable.

LAND CHEQUE ARTIST AT PETERBORO DEPOT

Peterboro, Feb. 5.—A man with a craving for foot appliances and an aptitude for clever penmanship struck town Saturday and, after a short and hectic career spent in purchasing arch supports, was arrested after an unsuccessful attempt to make a swift getaway on the midnight train.

Styling himself as James A. Harris, the stranger was charged yesterday morning with uttering forged cheques, each to the amount of $24.50, on several city merchants. There was a sameness about his work that somewhat cramped his style. Each cheque was made out on a counter cheque form of the Peterboro branch of the Royal Bank for the same amount $24.50, and signed by R. E. Fleming, an Aylmer street contractor for whom the prisoner claims to have worked, but who has no place, as far as can be ascertained, in the city directory.

RITCHIE'S

12 DOZ. GINGHAM HOUSE DRESSES $2.95

The Famous "Martha Washington" Make

Almost too charming for House Frocks, these are really delightful dresses for Porch, Garden and General Summer Wear.

There are six distinct styles, all trimmed in the daintiest manner, in all the wanted shades, every one crisp and new. Just out of the Boxes. Sizes 16 to Oversizes.

1—Black and colored check with Swiss corded White braid and Organdy collar and cuffs.
2—Zara dress—a very youthful model, in block check, with pique embroidered collar.
3—Plain Chambray with wool embroidered design at front.
4—Matron's Dress, check and clear plaids with embroidered Tuxedo Organdy collar.
5—Self trimmed and open worked imitation hand drawn effect front.
6—Block checked Gingham with Organdy Peter Pan collar and cuffs.

This special event starts Tuesday—We advise early selection, as they are bound to go fast.

UNABLE TO WALK FOR THREE MONTHS

Toronto Lady Bed-Ridden By Terrible Rheumatic Pains. Three Bottles of Dreco Give Wonderful Relief—Is Now Up and Doing Again.

Dreco goes straight to the root of the trouble and gives relief in a measure surprising even to the sufferer. Such is the case with Miss A. Beland, of 256 Spadina Ave., Toronto.

"Only people who suffer as I did can fully appreciate what it means to be up and around and able to attend business," said Miss Beland. "I suffered from rheumatism in my limbs, joints and muscles. The pains were terrible in fact, so bad that I could not walk and was in bed for three months. Lumbago caused pains in my back and spots floated before my eyes. I tried ever so many medicines without result until Dreco came along. Now, thanks to this splendid medicine, I am up and about again, for which you may believe I am very happy.

"I only have a little pain now and again, which I am sure will entirely disappear as I progress with the Dreco treatment."

No one need suffer the agonizing pains of rheumatism when Dreco offers such prompt relief. This splendid herbal remedy strengthens the kidneys, the cause of most rheumatic suffering, aids digestion, keeps the bowels open, arouses a sluggish liver and purifies the blood. It is the best system cleanser and health builder known and makes friends wherever it goes. Dreco contains no mercury, potash or habit forming drugs, but is made solely from herbs, roots, bark and leaves of established medicinal value.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.

RENTED SCHOOL HOUSE; MUST GO TO JAIL

Los Angeles (United Press) Feb. 4. —Inspired by the deals of real estate men who sold under water lots on the beach and imaginary lots on the side of cliffs, Concepcion Estorga, formerly of Mexico, rented one of the city school houses to Francisco Martinez, a compatriot. When Martinez started to move into the school house, board of education authorities intervened.

Estorga was arrested and brought into police court. Here he was told that no one could deny that he had the real spirit of the realtor and that he deserved credit for the originality of his idea, but owing to the fact that the schools were going to be needed for a little time yet, he would be boarded at the city jail for about 180 days or until vacation time.

Plantol
Plantol Soap

Plantol

A Toilet Soap made only from plant fruit and flower oils

The soft, foamy, luxurious Plantol lather cleanses and benefits your skin as only a combination of rare floral oils from the tropics could accomplish. In twenty-five years many makers have tried to excel Plantol—none have succeeded. It has carried the British tradition of utmost quality and purity into every quarter of the globe. Now, in a popular shape and a new wrapper, you may buy Plantol at a very reasonable price.

LEGISLATURE OPENS INITIAL SESSION

CANADA AND U.S. MOURN AS GREAT AMERICAN IS BORNE TO RESTING PLACE

Simplicity and lack of State Pomp Marks Funeral of Woodrow Wilson—Flags at Ottawa Hang at Half-Mast as Mark of Respect to Memory of Dead

CEREMONY SIMPLE

But Twenty Vehicles and Sixty of Closest Friends in Funeral Cortege—Two Companies of Infantry and Marines Only Military Units Attached—Police Route of Funeral

Ottawa, Feb. 6.—The Dominion of Canada mourns with the United States over the death of Woodrow Wilson. As evidence of Canada's deep sympathy with the neighboring nation at this time, the flags on all buildings in the Canadian Capital were at half-mast, and remained so until after the obsequies in Washington.

Washington, Feb. 6.—With the simplicity that he preferred, Woodrow Wilson was laid at rest today in the quiet little Bethlehem Chapel of the Cathedral of St. Peter and St. Paul.

There were sixty of his closest friends who attended the brief and simple services at his S Street home and some four hundred found places in the cathedral while the Episcopal ritual was offered.

But of eulogy, imposing memorial, the roll of drums, the marching of troops, or the pageantry of the state funerals that have marked the passing of so many lesser men along the last road, here was none.

The services at the Wilson home were held in the library.

The cortege did not consist of more than twenty vehicles. It moved in the opposite direction from the White House and Capitol, through a thinly-populated section of suburban Washington.

There were no military detachments, aside from the small group detailed as active pallbearers, and no bands. The only military units for whom special orders were issued were two companies of infantry and two companies of marines, which assisted in policing the funeral route.

There was an utter lack of the pomp that would have attended a State funeral. Mr. Wilson, in the closing years of his life, a private citizen, was buried as a private citizen. The only link connecting his memory with his eight years of official state in the White House was an escort of honor composed of enlisted men of the army, the navy and the marine corps.

The services at the house began at 3 o'clock. The Presbyterian clergymen officiated. They were assisted by the Episcopal Bishop of the Diocese of Washington. The body was then borne from the home and placed in a hearse behind which walked eight soldiers, eight sailors and eight marines.

On arrival at the Bethlehem Chapel, a part of the great cathedral that is rearing its bulk on Mount St. Alban, the service men bore the coffin to the opening in the centre aisle which leads to the crypt. Bishop Freeman read the order of the burial of the dead from the Episcopalian Prayer Book and concluded the services by pronouncing the Benediction. Then, without ritual, the body was consigned to its resting place.

COUNTING STRIKE BALLOTS MADE BY RAIL UNION

Decision of Leaders to Affect Over 25,000 Maintenance-of-Way Men

BALLOT COMPLETE

Question Arose Following Conciliation Board Sessions Last October

Montreal, Feb. 6.—A decision affecting between 25,000 and 30,000 railway workers in Canada is expected to be made here this week by executives of the United Brotherhood of Maintenance-of-way Employees and Shop Laborers. The executive is gathering here, and will confer tomorrow.

Already in Montreal are P. Woods, of Winnipeg, federation chairman of the Canadian National workers; W. Aspinall, secretary of the Central committee, also of Winnipeg, and George Cummings of this city, another union official. The arrival of A. McAndrew of Moosejaw, Sask., chairman of the central committee and head of the Canadian Pacific Western Employees organization is awaited before the meetings begin. Mr McAndrew had not reached Montreal up to noon today. J. J. O'Grady of Ottawa, chairman of the Canadian Pacific eastern employees is also in Montreal.

A vote on whether to strike or accept offer of the Canadian railways has been in progress for some time and now the ballot is complete and the conference here is for the purpose of ascertaining the wishes of the thousands of union members. It is said—entirely unofficial—that the majority vote wil favor the strike.

The question arose following the conciliation board sessions last October, when the employees were awarded an increase of two cents an hour to all maintenance-of-way men now receiving less than 40 cents an hour. The Canadian Railway Association refused to accept the award and the men were asked to vote on the proposal.

Priest Is Shot Dead In Street

Unidentified Assailant Escapes After Firing Fatal Shot

Bridgeport, Conn. Feb. 6.—Rev. Father Hubert Dahme, pastor of St. Joseph's German Catholic church was shot and mortally wounded by an unidentified man on the street shortly after seven o'clock last night. The shooting occurred on Main street.

According to a story told the police by a negro boy, Father Dahme and an unknown man were walking south on the west side of Main street. Just as the two men stepped off the sidewalk to cross High street, Father Dahme's companion suddenly turned and drawing a revolver, shot the priest in the head. Father Dahme fell on his face on the street, and later died in a hospital.

The assassin, according to the negro boy, ran, and was out of sight in a minute.

MacDONALD WANTS GERMANY IN LEAGUE

London, Feb. 6 (British United Press).—"Germany's inclusion in the League of Nations must be insisted upon," declared Premier MacDonald in an interview published in the Manchester despatch.

MacDonald also discussed Labor's intention of proposing that Russia be admitted to the League, but said that he expected it would be difficult to get Russia in.

LEGLESS SOLDIER IN MURDER CASE

Forced to Enter Plea As Attorney Requests Examination

Montreal, Feb. 6.—Leaning on the dock, white of face and supported by two wooden legs, Delphis Godard, ex-soldier charged with the murder of his wife, strangled with a scarf in her sleep, appeared before Justice Wilson yesterday when his counsel Saluste Lavery, who has taken up the defense at the request of the G.W.V.A., made a motion to have his client examined by two doctors and was informed that the usual procedure in such case issued from the sheriff. The

RIGHT TO TAX GRAIN FUTURES IS QUESTIONED

Manitoba Legislation Assailed Before Supreme Court By Lafleur & Newcombe

ARRAY OF COUNSEL

Act Bitterly Attacked by Provinces of Alberta and Saskatchewan

Ottawa, Feb. 6.—The right of a province to impose a tax such as the Grain Futures Act passed by the Manitoba Manufacturers last year was questioned before the Supreme Court of Canada late Tuesday afternoon by E. L. Newcombe, K. C., Deputy Minister of Justice, representing the Dominion Government.

Provincial rights were restricted to direct taxation, within the province. Under this act, said Mr. Newcombe the tax was imposed on each particular contract and while the person making the contract was directly responsible, the tax was passed onto constituting an indirect tax.

Before the full bench of the Supreme Court of Canada—wearing the scarlet and ermine of opening day, and with an array of distinguished counsel—argument opened on the point whether the Grain Futures Act passed by the Manitoba Legislature last year is ultra vires or not.

The case comes before the Supreme Court on a reference from the Dominion Government. Two questions are submitted:

1. Had the Legislature of Manitoba authority to enact Chapter 17 of its Statutes of 1923, entitled "An Act to provide for the collection of a tax from persons selling grain for future delivery?"

2. If the said Act be, in the opinion of the court, ultra vires, in part only, then in what parts is it ultra vires.

(Continued On Page Three)

REVOLT SPREADING AGAINST MOSCOW

London, Feb. 6 (Special cable by United Press).—A new revolt against the Communist Government at Moscow is now being planned, stated a dispatch to the Daily Mail today from its Riga correspondent. The message says "The Red Army is in revolt. Those divisions of the Russian army which are free from tartar, mongolian and other mercenaries are now planning an offensive against the Communist Government at Moscow. No effort is being made to preserve secrecy.

WINNER OF BOK PRIZE ANNOUNCED

Charles Levormore of New York Receives $100,000 Peace Award

Philadelphia, Feb. 6.—Charles Herbert Levermore of New York student of international relations, writer and former college professor, last night was announced as the winner of the $100,000 prize offered by Edward W. Bok, Philadelphia piblisher, for the best plan to preserve peace amonog the nations of the world.

As his name dropped from the lips of John W. Davis Mr. Levermore came forward and received the $50,000 check, representing half of the prize given by Edward W. Bok, of Philadelphia.

A telegram giving the name of the winner was sent to Mr. Bok, who is in Florida. The winning plan which was made public January 7, was selected out of 22,165 submitted.

Briefly the plan provides for United States cooperation under certain considerations, reservations with a modification League of Nations without the United States becoming a member. It also provides for adherence to the world court wit hthe Hughes reservations and for a commission of jurist to codify international law. Under the Bok award, a second $50,000 will be given to the author if and when it is completed by the United States Senate in its essential parts or it receives subtantial endorsement of the country.

Last Official Act of Wilson To Answer Oshawa Request

Oshawa, Feb. 6.—The citizens of Oshawa will have reason to remember the late Woodrow Wilson, war-time president fo the United States. The last official act of the man who was so soon to pass to the Great Beyond was to send a stone from his native state to the Oshawa War Memorial Committee.

Several weeks ago the local committee wrote Ex-President Wilson asking him to select and send a stone from the United States. With an innate sense of the fitness of things they suggested that a stone from the native state of the war-time president be selected.

Mr. Wilson replied saying that he would personally select and send a stone from his boyhood home. Under his direction his secretary selected a suitable stone and the local committee have reason to believe that it was sent forward the end of last week and should arrive within a very few days.

Thus the last official act of the man who had played such a prominent part in the titanic struggle for world liberty, was connected with this town and our War Memorial.

SPEECH FROM THRONE FORECASTS CHANGE IN COMPENSATION BOARD

Lieutenant-Governor's Deliverance in Opening Legislature Indicates Readiness to Submit O.T.A. Question Provided Public Opinion Calls for Action

CAUCUS TO ADVISE

Radical Changes to be made In Workmen's Compensation Board — Follows Out Policy as Advocated So Strongly by Premier Ferguson When Opposition Leader

Toronto, Feb. 6.—The speech from the Throne delivered this afternoon at the opening of the Sixteenth Ontario Legislature, forecasted the legislative program of the first session of the Ferguson Government on two principal accounts. Primarily, it was non-committal with regard to the most discussed public issue of the day, a change in the Ontario Temperance Act; secondarily, it was announced a reorganization of the Workmen's Compensation Board so as to remove it from the criticism which it has encountered during the past few years and enable it to operate in a manner fairly in the interests of the injured working man.

Judicial Body

The amendment which the Government introduced will reconstitute the Board into a sort of judicial body, which will have attached to it a representative of the claimants, paid by the Government, and also a representative of the contributing manufacturers. Such representatives will, the Government believes, see that both sides of the cases coming before the Board are carefully presented, with a view to justice being dispensed. Such an amendment will be quite along the lines of criticism which Hon. Mr. Ferguson had delivered against the Act while leader of the Opposition.

In former sessions, H. H. Dewart, K. C.; Hon. G. H. Ferguson, now Premier and other members opposing the Drury Government, have vigorously assailed the board for what they termed its "autocratic administration," and now it is proposed to reconstitute the organization as a sort of judicial body, with an official representative of claimants, paid by the Government.

ontributors

Besides this official whose specific duty it would be to assist claimants in presenting all the facts of their cases, the legislation, it is said, will also provide for the appointment of an official to represent the contributors to the board's funds. It is the Government's view that such reorganization will ensure the careful and adequate preparation of each case before it comes to the board and remove the cause for such complaints as previously has been levelled against the Workmen's Compensation Act administration.

This legislation, it will be remembered, would be directly along the lines advocated by Premier Ferguson when in Opposition. In presenting the legislation to the House, it is understood, he will point out that such provision would eliminate the overhauling and revision of individual cases on the floor of the Legislature such as was the case last session.

O. T. A. Reference

The O. T. A. reference in the speech is of itself significant, as Premier Fer-

(Continued on Page Seven)

COLD STORAGE AND ICE PLANT NEW INDUSTRY

G. K. Graham to Manufacture Ice in Conjunction with Refrigerating Plant

PURE WATER USED

Freezing Process Expected to Turn Out Cakes of Crystal Clearness

An important business change and the establishment of a new industry in Belleville have been the result of the purchase by Mr. G. K. Graham from his father, Mr. R. J. Graham, of the cold storage plant and a section of the main warehouse in the Graham Block between Front and Pinnacle streets.

Mr. G. K. Graham will operate the cold storage plant along lines somewhat similar to what has been the custom since it was first erected in 1917. The new industry that Mr. Graham is establishing will take the form of an artificial ice plant which is now being installed in the main warehouse where there is for it ample accommodaton.

Large Capacity

The new plant will have a capacity of 20 tons of ice a day and will be ready for operation by March the first. There will not at that time of the year be much demand for ice but it is Mr. Graham's intention to manufacture several hundred tons which will be placed in the storage rooms of the refrigerating plant and held over until the summer months when the demand for ice may exceed the capacity of the producing plant.

How is artificial, or as Mr. Graham prefers to call it, "manufactured" ice made or prepared? It is an interesting process and one of which the average lay mind has little conception. On the main floor of the Graham warehouse there is now being erected an immense steel tank. This is thirty-eight feet long, sixteen feet wide, and four feet deep. It is composed of quarter-inch sheet steel. At the bottom and around the sides will be placed cork insulation a foot in thickness and over the top there will be a cover of two inch oak.

Freezing Mixture

The freezing mixture is composed of salt water which fills the tank to a sufficient depth. Circulating about the sides and bottom of the tank are coils of direct expansion ammonia pipes one and a quarter inches in diameter and reaching to a total length of 3,500 feet. The cold ammonia is forced through these pipes by the ammonia compressor engine and the briny water in the tank is by that means reduced to a temperature of about twenty-five degrees below freezing point but which does not actually freeze because of the strong salt solution.

Miniature Tanks

Into this larger tank there are placed a large number of cans containing pure water which is frozen and made into ice. These cans are in reality miniature tanks twenty-four inches wide, forty-five inches

(continued on page three.)

Millions Are Involved In U.S. Graft Charges

Washington, Feb. 6.—Wholesale duplications of liberty bonds of every issue since 1918 in the bureau of engraving and printing and the implication of treasury officials are included in the startling charges made by Charles B. Brewer, special assistant to the Attorney General, in a suit filed in the district of Columbia Supreme Court.

Brewer sued after he had charged the Department of Justice with attempting to seize the evidence he had collected at the personal request of president Coolidge and the late President Harding. He said he had refused to surrender the documents to the department for fear they would be suppressed and be discredited.

Brewer, in his suit, asked for an injunction restraining Secretary Mellon, Attorney-General Daughtery, Under-Secretary of the Treasury Winston and Acting Attorney General Seymour from destroying nearly $1,000,000 in duplicate bonds in his possession.

Immediately after filing his suit, Brewer met a score of Progressive Senators and Congressmen and laid his charges before them.

Representative King, of Illinois announced that he would intervene and become a party to the suit.

Let there be harmony in things essential—liberty in things not essential—charity in all.

TARIFF TANGLE

While eastern Canada has been crying loudly for higher tariff to bar out of the dominion the products of the United States, western Canada has been having its say in the opposite direction and is now demanding absolute free trade, not only with the republic to the south, but with Great Britain and the world at large.

The situation is thus most embarrassing to the federal and provincial governments, as it reveals a state of tariff opinion that seems impossible to reconcile.

The manufacturers have been claiming that they are unable to meet successfully the competition of the highly centralized and efficient shops of the United States, and have been asking for more protection. This is true of the manufacturers of the west as well as those of the east. But when it comes down to the rank and file of the people, the west stands almost as a man for free trade, while the east is almost as strong for a tariff that will adequately protect industry.

A resolution passed by the farmers' convention here calls upon the federal and provincial governments to do all in their power to bring about reciprocity with the United States, and asks for a greater preference for British goods in the Canadian market. This, of course, looks like a contradiction, but it is exactly what Laurier did in 1897, when he gave the British a preference over all competitiors in the markets of Canada and at the same time reduced the duties on many products coming from the United States.

Fearing that the United States will not be ready for some year to negotiate a trade agreement with Canada, the farmers of the west seem imbued with an ambition to have the duties on British goods coming into the dominion cut to the bone, as a means of cutting the cost of living. But the Canadian manufacturer is fully as jealous of English competition as he is of competition from the United States or any other quarter and a materially increased British preference is not to be looked for for some years, no matter what government may be in power at Ottawa.

The temporary failure of Messrs. Crerar, Dunning and Hudson to enter the cabinet of Premier King at Ottawa may be attributed to the fact that King is unable to whip his followers into line so that he could promise the gentlemen from the west a policy of greatly reduced tariff duties, with an ultimate objective of free trade. Crerar is the head of the grain growers; Dunning is premier of Saskatchewan and Hudson of Manitoba. All are dyed in the wool free traders, and as such would have mighty influence if admitted to the Liberal cabinet at Ottawa—an influence which is resented by the manufacturing interests of both Ontario and Quebec.

But the tariff issue is rapidly coming to a head, and it is confidently expected in some quarters, the King government is defeated and an election is held this year, the main issue before the Canadian electors will be as it was in 1911, a tariff question. From this distance it looks as though, despite any coalition, there will be three strong parties in the field with three different policies. The Liberals will again appeal on a tariff that will be for revenue purposes only. The Conservatives will be out with a platform calling for a tariff wall to bar out the goods of the United States, and aid Canadian manufacturers, and in turn, the citizens dependent on them. And the farmers will be out with a policy of absolute free trade.

"REORGANIZATION"

Mr. King's Cabinet changes will hardly rock the country—unless with laughter. There was to have been a mighty infusion of new blood; Crerar and Dunning and Hudson and other wise men from the west were going to instil new life and vigor and Liberalism into the Administration. Instead, we see Mr. Ernest Lapointe transferred from one department that he has made a deep study of and that he now understands pretty well to another in which he will have to begin all over again, and a Mr. Cardin, who has been in the House twelve years without the country being much aware of it, taking the portfolio of Marine.

The change may work well. Mr. Lapointe, whose legal spurs were won in the little French Canadian town of Kamouraska but who undoubtedly has grown much since then, may make a worthy successor to such men as Blake, and Thompson, and Mills, and Fitzpatrick, and Aylesworth, and Doherty, and Gouin; and Mr. Cardin may have been successfully concealing his light under a bushel.

But in the meantime the country must be pardoned if it laughs a little at the result of what the Prime Minister set out to make a major operation.

EDITORIAL NOTES

Social Service department was organized to give relief, and any taxpayer will tell you that's exactly what he's itching for.

—o—

Egyptologists say Tutankhamen's staves are unique, and lest they be thought too nosey and personal we repeat the word—staves, no slats.

—o—

An average of three arrests were made daily in Ottawa during 1923. Not a bad record for a city of over 117,000 people, in an urban centre of 160,000.

—o—

John Bull gets on with his business very well, but a bit sadly. He "views with alarm" not too happily, but tolerably, and "fears for the worst," serenely.

—o—

In other words the attitude of Rt. Hon. Ramsay MacDonald and his Government toward the royal household will be dictated by good taste and common sense.

—o—

Policemen on the best naturally thinks "staggered hours" means that part of the night between closing and the time the befuddled pedestrian lets himself in with a latch key.

BELL COMPANY USES MOVIE ILLUSTRATIONS

Excellent moving picture films have recently been prepared by the Bell Telephone Company and are being used for educational purposes. These pictures illustrate thoroughly the mechanism of the telephone as well as the various appliances and methods used in the operation of a modern telephone exchange. They also show the advancement in methods of communication from the time of the primitive Indian to the present, including the pony express, stage coach, sailing vessel, steamship, express train and long distance telephone.

Under the direction of Mr. J. A. Cokers, local manager of the Bell Telephone Co., these pictures were shown at Ontario Business College Monday afternoon and proved very interesting and instructive to the large number of students present.

HE'S WAY BEHIND

A scientist predicts that in ten years' time there will be no servant girls. He appears to be just ten years behind the times.—London Opinion.

PRESS OPINIONS

TOO MUCH GOVERNMENT

(Toronto Saturday Night)

A prominent public man from the Prairies suggested the other day that the Provinces of Manitoba, Saskatchewan and Alberta amalgamate their governmental forces and establish one Province in the place of three. We have been waiting some time for this suggestion, but thought that it would first come from the Maritime Provinces, where the need for concentration and amalgamation is even more pronounced than in the Canadian west. According to the last census the total population of Manitoba, Saskatchewan and Alberta is placed at 1,955000 while that of Prince Edward Island, Nova Scotia and New Brunswick is about a million. There is sense and reason in this suggested concentration of governmental machinery. Three Provincial capitals, three houses of assembly three Lieut.-Governors, three Premiers, with their secretaries of State and ministers this and ministers that and ministers without portfolio, together with a thousand other duplications of legislative machinery for a comparatively small population is a waste of men, material and money.

The issues before the people of Prince Edward Island New Brunswick and Nova Scotia are very similar, as are the questions which are likely to come before the Legislatures of the three Prairie Provinces, and there seems no good reason why one government for each group should not fill the bill. Thru the years Great Britain has got along very nicely without separate governments for England, Scotland and Wales.

Admittedly the present system gives more jobs to more people, which is another very good reason why it should be discarded. Our failing, like that of the United States, is over-government, and the more legislatures we have the more likely we are to fill the statute books with a lot of trash that no one pays any attention to after the ink is dry. Let us get down to government on a business basis and discard superfluous governmental machinery.

DANGER TO FOREIGNERS

(Sprinfield Republican)

The weakness of the Chinese government is due mainly to the impossible position in which it is put. On the one hand it has to do the best it can to propitiate foreign governments; on the other hand it has to reckon with a growing popular resentment against foreign domination.

If China had the necessary strength there would be an overwhelming demand for the expulsion of foreigners even at the risk of war; it was lately shown by the controversy over the Canton customs that the republicans of the south, for all their American training, are as deeply embittered as the conservatives of the north.

Resistance is impossible, but so long as this temper exists there will be danger of sporadic attacks on foreigners which no government could prevent and which must make diplomatic relations with other countries difficult.

LATENT CAPACITY

(London Times)

There are two schools of thought on the right method of teaching. One emphasizes the activity of the teacher the other that of the taught. To the older school knowledge is something to be tested, precept upon precept line upon line. The later theory holds that capacity of some sort is latent in every brain, and that the work of the teacher is to discover the nature of that capacity and to encourage its development.

At present the modernists hold the field, as may be seen from the popularity of such subjects as the Dalton plan, individual work, terminal assignments and the magic name of Mme Montessori. To the student of educational history such things are not so new as they sound, but they are none the worse for that. At all events it is good to get away from Orbilius and the idea that "it does not matter what you teach a boy so long as he hates it."

CHICKEN SALAD AGAIN

This is not the story of a hidden romance. But we purchase a certain magazine every month just to see what is the latest social crime of a young woman for whom we entertain a wondrous feeling. Her shrinking face points the obvious necessity of procuring a book on etiquette; she is held up, as it were, for a horrid example. Poor thing! She does the most ghastly things. But we like her for they are things we do ourselves.

We have seen her photographed features registering the most abject mortification because she held out her hand toward a young man who was thought of all the perfectly correct maidens who have made us feel terribly foolish by ignoring our extended paw. We bless her for it. For we have never been able to murmur, "Charmed, I assure you," as though it came natural to us.

We felt downright sorry for her the month before last. The dear girl is revealed to us sitting in a fashionable restaurant. She was all by herself so she risked a really large mouthful of baked potato. But who are these exquisite beings who can scarcely mask their scandalized feelings? Ah, they are her fiancee and his mother whom she had hoped to impress. Our heart bled for her. She could not swallow the potato, and she dared not speak.

What should she have done? Alas, until we obtain the book we are at a complete loss for the correct answer. But we know what we would have done. We would have gulped down a flagon of icewater and said, "Sit down, folks. Dig in and get your name up!" Of course, we are led to infer that the uncouth girl had no alternative but to return his ring. Such a memory would always come between them down the relentless years.

Would you know the heinous offence for which she is ostracized this month? It seems scarcely credible but the poor dear was so shamefully void of savoir faire as to order chicken salad at two successive luncheons. It does not excuse her at all that she may have wanted chicken salad. She was convicted in the judgment of her vis-a-vis of crass illiteracy. He concluded, naturally enough she could not translate pie a la mode, steak du Hamburg, or puree au chemin de fer.

We sympathised with her for, indeed, we have always envied the men of the world who are supposed to kindle the unwilling admiration of even the majestic waiter by their epicurean omniscience. When in doubt, we order eggs and we have been able to order them in three languages without clucking like a hen. One of the most satisfactory meals we ever demolished was obtained in Brussels by giving this password: "Beaucoup faim. Manger toute suite."

Somehow, we think we could get Embarrassments. Wonder what atrocious break she will make next month:

ENCORE CHICKEN

Your gracious indulgence, gentle reader, if we appear to harp on subjects culinary tonight. The truth of the matter is that we are feeling somewhat gaunt but are averse to braving the cold and sleet in quest of food. It may be that we shall yet sally forth to forage but meanwhile we shall try to exorcise the gnawing at our vitals by reviewing former banquets.

Having occasion recently to dine on a train we discovered a dish called chicken fricassee. We do not propose to lock the secret in our breast. Nay, it is free to you, my brethren of the Spartan hostelry.

We must confes that our first instinct was to avoid the chicken fricassee, because experience has taught us that the most plebeian hash may masquerade under intriguing nomenclature. However, after eliminating such dubious dishes as buffalo tails, the fricassee was the only course open to us. But first we consulted our waiter. He is not really ours, but our heroes of fiction always command the attention of their own peculiar waiter.

"George," we demanded sternly, fixing him with an hypnotic glare calculated to worm the truth from his guilty soul, "how is the chicken to-night?"

We hoped by the casual addition of "tonight" to convey to George the impression that we were in the habit of munching in dining cars every night. By the way, George is probably not his name but we have slipped into the habit. Once a week we are separated by only twelve inches of lath and plaster from the Kiwanis Club.

George entered obligingly into the spirit of our innocent play-acting.

After disappearing in the direction of the scullery to make a minute inspection of the fricassee, he returned with a reassuring smile.

"Very nice, indeed sir," he murmured in a confidential whisper, "very tasty, I assure you, sir."

"Then, George," we said solemnly after a decent interval of portentious deliberation, "you may bring us a couple of slices of fricassee."

"Very good, sir."

"And, George—"

"Yes, sir?"

"Lots of dressing."

"Dressing sir? Thank you, sir."

"But, mark you, George, very little gravy."

We enjoyed the fricassee and for those who may be induced to order it we volunteer this suggestion. The most favorable moment to attack a fricassee is while the train is motionless at some station.

P. S. There is no dressing in a fricassee.

P. P. S. And no gravy.

MOSE HAS PROOF

Mose—Dis here flying business am a mighty ole venture.

Rastus—How come you say dat? Esau sold his 'heirship' to Jacob?—Selected.

Music & Drama

An original motion picture story by the English novelist, Elinor Glyn, famous for her novel, "Three Weeks," is coming to the Griffin's theatre on Thursday for 3 days. It is called "Six Days" and has been picturized by Goldwyn under the direction of Charles Brabin, who made "Driven," one of last season's biggest successes. Mr. Brabin is said to have surpassed his own previous excellent direction in "Six Days."

"Six Days" tells the story of Laline Kingston, whose mother, left penniless by the business failure and suicide of her husband, schemes to marry Laline to Sir Charles Chetwyn of an old and wealthy English family. While in Paris, Laline meets and falls in love with Dion Leslie, son of a famous actress. Dion is in reality Sir Charles' son, his mother having left Sir Charles shortly after the boy's birth. After visiting the grave of her brother on one of the battlefields of France, Laline and Dion, accompanied by a priest as a guide, are trapped in one of the old German dugouts. Unable to make their escape and facing death through the exhaustion of air in six days, Laline and Dion are married by the priest just before his death. In a last frantic effort to escape, Dion and Laline fall into a chalk mine underneath the dugout, become separated and each is finally rescued.

The picture is brimful of action and drama and has a number of spectacular scenes. Thursday is Jazz night, special music will be offered by a 20 piece orchestra.

Nat Ross, who directed "The Six-Fifty", a Universal feature of remarkable simplicity and charm, which has scored a distinct hit, has added another winner to his list of feature productions by "Pure Grit," a drama of the Southwestern cattle country starring Roy Stewart, which comes Thursday to the Regent theatre. It is a film version of William MacLeod's famous novel, "The Texas Ranger."

For the Cough That Sticks

COMMON COUGH SYRUPS WON'T HELP—YOU'VE GOT TO MAKE YOUR OWN.

Cheap and Best

For any kind of a cough, but especially for the stubborn one that persists and keeps you awake nights, this home made cough mixture will quickly loosen the phlegm, allay the inflammation and stop the cough

You can make it yourself at home in two minutes by following these instructions:

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hangon cough to cease almost immediately. No ordinary slow-acting cough syrup contains this expensive ingredient.

It's a mighty fine remedy for chest colds and acute nasal remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

THE FIRING POINT

"How long do you generally keep your maids?"

"Oh, until they begin to show how sorry they are for my husband."

SINCLAIR'S

Dresses $5.00

A number of Dresses that are marked at a small fraction of former prices to clear them from our racks. Dresses of serge, tricotine, jersey, flannel, taffeta, messaline silk and a few frocks for evening wear in taffeta. Sizes range from 14 to 18 only. There are some splendid values if one desires a cheap frock in small sizes. To clear at one price $5.00.

32 in. GINGHAMS 30c a Yard

32-inch Ginghams are usually much higher in price than these. Good qualities of English and domestic Ginghams in checks, small plaids, dark grounds with hair line check. Some very pretty patterns are included. They are worth while values at 30c. yard.

36" CHINTZ 35c. Yard.

About 15 new patterns are shown in this good good quality Chintz, 36" wide in designs, suitable for curtains, cushions, comforters, priced 35c. yd

GIRLS' COMBINATIONS

Sizes 28 to 32 only in these Combinations. They are good quality Watson's make. A few to clear at $1.39.

SATINETTE

English striped Satinette of the best quality, is shown in about fifteen shades for slips, knickers, and even for linings. 37" wide at 75c. yard.

TERRY TOWELS 29c.

A rack of White Terry Towels in close weave. Size 18 x 36. Special value at 29c. yard.

SNOW IN THE MEADOW

On Sunny days
The meadow lies
So dazzling white
I shut my eyes.

The sun makes prisms
Where the mass
O small, hard edges
Are like grass.

The curved drifts stand
Like billows caught
In some still charm
By magic wrought.

This crystal sea
By the sun lit,
Shines so I cannot
Look at it.

On cloudy days
The meadow seems,
In Winter, like
A sea of dreams.

A blue mist drifts
Like sails that go
To countries that
We do not know.

The black crows in
The pointed firs
Cry out to shadow
Mariners.

I wonder if
The fieldmouse stirs
In that low covered
House of hers.

She dreams of clover
Fields again,
And green that rests
The eyes of men.

—Louise Driscoll.

YUKON LIQUOR TO CROSS ALASKA

Vancouver, B. C., Feb. 6.—Liquor from Vancouver destined to the Yukon territory will be allowed to cross Alaska under the terms of the agreement reached at conferences in Ottawa between representatives of the Canadian and United States Governments, according to information received here by high authorities. As a return favor, it is said, the Canadian customs officials will be instructed to refuse clearances to small craft loaded with liquor which pretend they are going abroad, although known to be headed for the United States.

TRENTON MEN INJURED

During a recent fire in R. May's barn at Trenton, Police Sergt. White and Fireman Wm. Dawson held the nozzle of the hose when the water was turned on the pressure forced both men to slip on the icy road. Fireman Dawson was able to let go but received a terrific gash in the back of his left hand while the sergeant was thrown into the air, and came down on the side of his head. He was stunned from the impact and badly cut over the left ear. His shoulder and back were also bruised. Both men were placed in Mr. Jerome Hendricks' car and rushed to the doctor's.

Both the injured men are resting well but are in a weak condition from shock and loss of blood.

OUR DAILY THOUGHT

"Some day I'll wander back again,
To where the old home stands;
Beneath the old tree down the lane.
Afar, in other lands;
Its humble cot will shelter me,
From every care and pain.
And life be sweet, as sweet can be,
When I am there again."

Right To Tax

(Continued From Page One)

Array of Counsel

The Act is attacked by the provinces of Alberta and Saskatchewan, represented by Eugene Lafleur, K.C., while Manitoba is represented by Hon. A. B. Hudson, M.P., and E. L. Newcombe, K.C., represent the Dominion Government. Argument in this case will probably take several days. Western cases are being heard first.

Mr. Lefleur, in opening on behalf of Alberta and Saskatchewan, described the procerude in disposing of the wheat crop. The price of the wheat crop was fixed in Liverpool, he said, and every addition to the cost meant that the farmer would get so much less.

NOT SUCH BAD LOGIC

"Mamma," said small Freddie, who had just been punished for disobedience, "you must have an awful bad memory."

"Why do you think so?" she asked.

"'Cause," replied the little fellow, "you never forget the bad things I do."

Cold Storage

(continued from page one)

deep and twelve inches across. The resultant block of ice weighs almost exactly three hundred pounds. To complete the process of freezing requires thirty-two hours in time. There is an automatic crane reel with an electric hoist whch lifts the cans from the tank. They are then lowered into a dip-tank of warm water which automatically releases the ice fro mthe cans. The block of ice is then sawed into cubes of convenient size, usually about a foot square.

Pure Water Used

The water that will be used in ice-manufacturng will be double filtered and pre-cooled in a storage tank before being put into the cans. It will first pass through a filter sixteen by thirty-six inches of quarts and after that through a filter of charcoal of the same dimensions which will remove all impurities. The sediment is automatically discharged and the filter is self-cleansing.

Artificial ice is usually of a whitish or clouded appearance somewhat like snow-ice. This is due to the presence of minute air holes through out the cake but the ice turned out at the Graham plant, because of the application of air pressure into the cans while the freezing process is going on, will produce ice absolutely solid and crystal clear. Ice of this kind lasts much longer than the cloudy or porus variety. Mr. Graham has already received strong encouragement in the carrying out of his new business venture.

Strongly Backed

He has already secured season contracts from a majority of the butchers, restaurants and hotels of the city besides a very large number of contracts from business places and private house-holders. The ice will be sold on the new system, that is to say by the pound and the customer will be supplied with tickets just the same as if he were purchasing milk or bread. The artificial or manufactured ice will not be any more expensive than the natural ice and will be infinitely more pure. It can be placed directly in drinking water without any danger of contamnation and will have about it no offensive odor of chemicals or anything of that kind. No sawdust is used and the ice when delivered will be absolutely clean with no necessity for washing. Mr. Graham has fitted up commodious offices in the Graham building where the executve staff will be accommodated.

Hard to Handle

"Say you," bawled the traffic cop, sarcastically at the fair young driver, "which wya are you going to decide to go anyhow?"

"Why, officer," she smiled at him, "you see I just had my car washed and I can't do a thing with it."

—And she got away with it.

WIFE BEATER GETS WHIPPING SENTENCE

Stratford, Ont., Feb. 5.—John Fraser, Stratford citizen, who whiled away his idle hours with odd jousts of wife beating, is convinced that man in Ontario has no more rights than an alley cat in a Boston woof show.

Fraser was convicted in police court of having regularly knocked his wife down and kicked her, and also of having thrust his child's hands through a pane of glass. For this he was sentenced to twenty days in the county jail with twenty lashes.

IMPERATIVE

"What's the matter, old boy?" asked Jimmie's friend. "I've never seen you looking so seedy."

"I've got to go abroad at once," remarked Jimmie, gloomily."

"Nonsense! These doctors mustn't frighten you out of your life like that."

"It wasn't a doctor. It was a lawyer."

Calnan, Mr. James Bryce, Mrs. Minnie Frechette, Mr. and Mrs. Robert Harrison, Marjorie Calnan, Mr. and Mrs. Robert Bird, Mr. and Mrs. Ray Hamilton, Frederick St. Louis, Mr. and Mrs. Jas. Boyle.

MRS. M. McCREADY

Mrs. Mary McCready, widow of the late Mr. James McCready, an aged lady, passed away on Tuesday at the family residence, Plainfield, Thurlow Township. Deceased who was 80 years of age was a daughter of the late Mr. Robert Aylesworth, of Odessa, where she was born. For 60 years Mrs. McCready had lived in Plainfield. She was a member of the Methodist Church A daughter, Mrs. Peter Hubble survives, also one brother, John Aylsworth, of Selby, and a sister, Miss Mary Alysworth, of Odessa.

MRS. BESSIE M. ELLIOTT

After being ill for some time Mrs. Bessie M. Elliott wife of Mr. J. E. Elliott passed away at an early hour this morning at the family residence, 272 Coleman street. Deceased was a daughter of Mr. and Mrs. T. M Rutherford, of Roslin, where she was born [illegible] years ago. Mrs. Elliott was a member of the Presbyterian Church She was a lady much respected by all who knew her. In addition to the husband, two sons and two daughters survive, also two brothers and two sisters. The brothers are James Elliot, of Roslin, and Bert, of Napanee. The sisters are Mrs. M. Hamilton, Thomasburg, and Mrs. John Robinson, of Napanee.

Orangemen Are Given Welcome

The Orange Coounty Lodge of South Hastings held its annual meeting Tuesday afternoon in the Belleville Orange Hall, and during the proceedings His Worship Mayor W. C. Kidd K.C. attended and extended a welcome to Belleville.

After [illegible] and expressing the hope that the meeting would be a success he said by the principles of the Order every Orangeman must uphold everyone in the enjoyment of the right to worship at his own altar.

There is no virtue in fighting for an open Bible if it was not used when open. Freedom of worship did not mean freedom from worship, and the small congregations in Protestant Churches sometimes suggested that some thought it did.

The Mayor referred to the celebration of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists at Belleville June 16th and 17th next, and said that Orangemen in Ontario who could do so, should attend the celebration.

After routine busines had been completed the officers for the ensuing year were selected as follows:

Co Master—G. W. Henderson.
Dep. Co Master—G. D. McCullough.
Chaplain—Rev. A. L. Geen.
Recording Secretary—W. J. Hall.
Treasurer—G. F. Reid.
Director of Ceremony—Wm. Wood.
Co Lecturer—J. Marvin.
Co Auditors—G. A. Reid and G. M. Campbell.
Deputy Lecturers—Jas. Donaldson and C. Johnson.

The officers were installed by Bro. F. M. Clarke, Grand Secretary of the Orange Association of Ontario East.

SECURE HEALTH NURSE

Miss Reiba Veitch public health nurse has arrived at Campbellford, and under the auspices of the Provincial Board of Health will for the next three months, conduct a campaign of education in matters pertaining to the physical welfare of the community. She will have an office in the Ferris block, the home of all the municipal departments in town.

Quite matchless are her dark brown i i i i,
She talks with perfect e e e e e
And when I tell her she is y y y y y

Farmer Killed In Collision

Was Hurled to Death When Train Struck Sleigh

Montreal, Feb. 6.—Hurled from his sleigh when the vehicle was struck by an engine of a Rutland train at a level crossing near St. Valentin at 6.45 o'clock yesterday morning Etienne Langevin, 58 years of age, a farmer of St. Valentin, was instantly killed. Langevin apparently thought he had time to cross the tracks but the train was travelling at a higher speed than he had figured. The body was brought to the victim's home where Coroner Chevalier, of St. Johns will hold an inquest this morning.

TRUE IF NOT GRAMMATICAL

She—Funny no one seemed to realize what a bad egg he was while he was rich.

He—My dear, a bad egg is only known when it's broke.

DELAYED REPENTANCE

A Wisconsin man, attending a revival was pressed to repent. He wavered for a time, but finally rose and said:

"Friends, I want to repent and tell how bad I have been, but I dasn't do it when the grand jury is in session."

"The Lord will forgive," shouted the revivalist.

"Yes, but He ain't on that grand jury."—Success.

SINGING PAYS

London—Street singers are gleaning a golden harvest in london just now. A young Manchester man, fined [illegible] went into the streets, sang and earned enough to pay the fine. Many are refusing offers of 8 pounds a week in orchestras to sing in the gutters and snatch the passerby's shilling.

The name "pekoe" of orange pekoe tea is derived from the Chinese word "Pah ho," which means "white hairs" and refers to the small white pieces in this tea which look like stems but are the finest part of the leaf.

TRUE TO TYPE

Percy—I wish to have a picture of myself sitting in my flivver. What kind of picture would you suggest?

Photographer—Tin type.

HILLIER

We are having all kinds of weather these days. The crossroad is pretty good for sleighs while the other is good for wheeling.

A few took in the dance at Gilead on Friday night.

A Salvation Army captain lectures in the Methodist church on Tuesday night here. Everyone welcome. A silver collection at the close of the programme.

The Methodist Church Board meets on Tuesday evening at 7 o'colck.

Mr. Chas. Cassidy went to Foxboro on Thursday after two cows that he had bought there at a sale the same week.

Mr. Morris Dafoe had a bee hauling hay last week from the farm near Rose Hall where he had been renting for the past few years to his new home at Niles Corners, on the farm bought of Ralph McDonald a short time before.

Mr. Wm. Foster was busily engaged last week threshing beans and buckwheat with his own machine.

Mr. Joseph Harvey returned home last week from visiting relatives at Toronto.

Charlie Sherwin, a youngster from the village, while at the station one day last week crawled over the tracks in under the train while it was at the station. Just escaped by a hair's breath as the train started. Young boys should not be allowed around the railway alone.

The Young People from Consecon put on an entertainment here in the Hall on Tuesday night.

CANNIFTON

Mrs. Farnsworth entertained her Sunday School Class of young men on Thursday and spent the evening in songs and games and organized the Tuxis Boys with Douglas Loucks as mentor and Bob Empson as practor.

Mrs. Bailey, Madoc, is visiting her sister, Mrs. Tom Smith.

Mr. Gilbert Bedell spent Sunday at Mr. Black's.

Mr. and Mrs. C. A. Callery entertained some of their friends on Friday evening.

Mr. Richard's, Baltimore, is a guest at Mrs. McGuire's.

Mrs. Lambert has had a very bad attack of heart trouble but is some better.

Mrs. Montiere, Detroit, is visiting a few days at Mrs. Scott's.

Mr. Frank Whitney had a bad attack on Saturday but was better again on Sunday.

Mr. and Mrs. Chas. Mills and family took tea Friday with Mr. and Mrs. Black.

Mr. and Mrs. W. Jones entertained a few friends Thursday evening.

Mr. and Mrs. Callery entertained at dinner Sunday, friends, being a birthday anniversary.

6TH LINE SIDNEY

The remains of the late Mr. Stephen Sine of Frankford were laid to rest in Sine's cemetery on Tuesday last.

Mr. and Mrs. Wm. Moon spent Sunday with Mr. Geo. Bells.

Mrs. Wilmot Rose and children are spending a few days with her parents at Foxboro.

Mr. Vernon Bush of the 4th Con. Sidney visited his sister, Mrs. Gerald Sine recently.

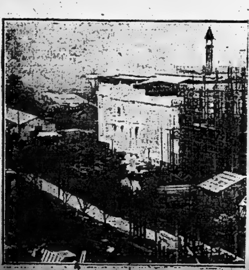
Mr. and Mrs. J. A. Lott spent Sunday in Frankford, guests of Mr. and Mrs. N. Potter.

Mr. and Mrs. Carman Frost spent Sunday at Mr. Howard Dafoe's.

STOPS THREE RUNAWAYS

Peterboro, Feb. 5.—Mr. A. H. Cooke of 183 Wescott street, has succeeded in the last 14 months in catching 3 single runaway horses and one team. In these four daring captures he has only received a bad shaking up in one, the last one, which happened on Friday night, in which one of the C. P. R. tracks saved him from falling under the pacing horse. As he leaped for the horse's head he slipped, his heel catching in the rail .If he had attempted to stop the horse twenty feet farther north on George, and slipped like he did, he would most likely have gone under the horse.

The Age Of Progress



Break A Chest Cold With Heat Of Red Peppers

Ease your tight ,aching chest. Stop the pain. Break up the congestion. Feel a bad cold, loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles".

WEALTHY HEIR FOUND IN JAIL

Son of Rich Candy Maker Arrested as He Tried to Sell rented Typewriter

FREE, GOES FOR RICHES

Charge of Larceny Against Man of Many Aliases Dropped by Police

Washington, Feb. 6.—Heir to a fortune, and user, the police say, of half a dozen aliases, Bertram Menne, 30-year-old son of the late Frank Menne, wealthy Louisville candy manufacturer, was released from the Occoquan jail and was headed for his home city to clear up his "mysterious" disappearancee..

Menne was convicted of larceny, after trust in police court here on December 21 and sentenced to thirty days in jail.

Reveal His Identity

His identity was revealed when announcement was made by Louisville police that Menne had not disappeared, as reported, but was serving time in the District of Columbia jail.

Menne was arrested here when he attempted to sell a typewriter he had rented on the installment plan from a local store. At the time of the attempted sale Menne was living at the New Willard Hotel and the typewriter was delivered to him there.

An hour later when he attempted to sell the machine to another dealer he was recognized by the man from whom he had rented the typewriter and was arrested.

In Louisville Menne was reported by members of his family to have disappeared "mysteriously" and police began a search.

Wife Finds Him

Information given by Menne's estranged wife, Mrs. Genevieve Menne, who lives in Louisville, led to the location of the young heir of the Menne fortune.

Frank A. Menne, before his death built up a prosperous candy manufacturing plant, and in his will left an estate of more than $500,000 to be given to his five children after his wife's death.

Mrs. Frank Menne lives in a luxurious home on the Brownsboro road near Louisville.

Menne was listed on the local police records as having several aliases among them "Wet Deuane," "Fred Blum," "J. T. Wilson" and "Jack Thompson."

At the time of his conviction here a charge of uttering a worthless check for $250 in partial payment of a $1,000 ring was not pressed, as the ring was not delivered.

Take Salts If Rheumatism Is Bothering You

TELLS RHEUMATISM SUFFERERS TO TAKE SALTS TO GET RID OF TOXIC ACID

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folk who are subject to rheumatism.

HONOUR ROLL

Bayside School Report

Names are in order of merit

Fourth Class—George Rush, Gordon Jeffrey, Harold Bonisteel, Blake Hunt Fred Thompson.

Junior Primer—Elgin Crawford, Bessie Marner.

Class A—Jean Burke, Eva Dalton,

Great West Life Has Good Year

The annual reports of Canada's large life insurance companies are always scanned with interest by the people of all classes, since all are interested in the development of this most useful form of family protection and saving.

One of the most progressive and best known of these is the Great West Life, whose report for 1923 appears in these columns.

In all departments the Company has made notable progress and is in an excellent position. The new business issued during the year exceeded that of 1922 by over ten million dollars. A reduction in mortality and in expense coupled with the high rate of interest earned on investments ensures to policyholders a continuation of the splendid profits for which this company is so favorably known.

The assets are now over $50,000,000 and the income nearly $15,000,000. The investments are conservatively valued and are found to be in a thoroughly sound condition. The reserves and other funds for the protection of policyholders have grown to impressive protection, and from every point of view the company is to be congratulated on the splendid results of the year's operations.

Girls Of C.G.I.T. Entertain Well

Last eveningthe girls of the C. G. I. T. group of Bridge Street Methodist church presented a splendid entertainment in the church parlours. The programme was divided into two parts, the first being miscellaneous numbers.

Chorus—"Lil' Old Granny O' Mine, C. G. I. T. Group
Vocal Solo—Margaret Stewart.
Piano Solo—Mary Day.
Vocal Solo—Hilda Countryman.
Realing—Ruth Yanneman.
Piano Solo—Jennie Vandervoort.
Vocal Solo—Lorna Ridley.
Chorus—Love's Old Sweet Song.

Each one did their part well especially Jennie Vandervoort, who shows remarkable ability at the piano

The second part of the programme was a short play entitled "Patsy". The character part was well taken by Miss Ada Ketcheson.

Preceding the play the prologue was well given by Dorothy Diamond.

The cast of the play was:

Mis Lane—Theodore Reid.
Nita Farrell, Miss Lane's niece—Helen Lattimer.
Ruth Fielding, Nita's Chum—Alice Sulman.
Other Girls—Ella Earle, Muriel Morgan.
Twins—Violet Stevens, Margaret Van Tassell.
Hilda Williams, Insurance Agent—Edna Gartley.
Patsy, The Irish Maid—Ada Ketcheson.

Each girl did their part well and deserve great credit.

The success of the entertainment is due to Miss Nettie Ketcheson, Miss Ida Zufelt and Miss Annie Morton, who have been so faithful to the C. G. I. T.

The furniture used in the play was kindly loaned by the Geo. Thompson Furniture Co.

INTENTIONS GOOD ANYWAY

An Edinburgh solicitor was once visited by an elderly, respectable-looking man, who state dthat he had come to have his will drawn up. Seeing the prospect of a good client, the solicitor devoted much time to drawing up the instrument, in which property, shares and funds to a considerable amount were assigned to certain relatives. When the client had paid many visits, and was at length pleased with the wording of the will, the solicitor asked where the property etc., was invested. The client replied; "Oh, I haven't any! I only want my relatives to see after I'm dead what I would have done for them had I been able."

Delay No Longer!

EVERY day that you let slip past is a lost opportunity for you to attain the ownership of a new Superior Chevrolet car this Spring. The more you deposit to your credit in the Chevrolet Springtime Club before May 1st. the more 6% interest you will get and the sooner your car will be paid for. Do not delay. Start now to save for *your* car by joining the Chevrolet Springtime Club. Remember that the Chevrolet Motor Co. of Canada, Limited stands back of the Chevrolet car. FANNING WITH FARRELL

WILLS THE HARD-LUCK CHAMP, ANYHOW

New York, Feb. 6 (United Press).—Harry Wills will go down on the books as one of the hard luck champions if he never gets something more imposing to hang on his name.

Wills not only is unfortunate in running up against bad streaks that work to his individual loss, but he has had the bad luck to furnish constantly material for those who have an interest in making him little.

He lost at least $25,000 in actual cash and the chance to force a bid for the championship recently when he cracked his right hand while training for four well paying bouts.

When he announced that he would have to get back on the shelf for more than a month with his bad hand, his enemies suggested that if he wanted to run out of the bouts arranged for him he should have been original, like Joe Lynch, who fell over his dog the day before the fight with Joe Burman, instead of pulling the old gymnasium racket.

Wills, however was on the level. He did fracture his hand and he had X-rays taken of the duke to show that it was broken. There are such things, however, as showing an old picture of another hand, but Wills had the picture taken in the presence of the medical representative of the New York commission.

After being panned all around for more than four years, it is quite likely that he was prepared for the razzberry when he called off the four fights and it is certain that he didn't take it too much to heart.

However, he has something to take to heart. He knows that his right hand is gone. He has had enough experience to know that after a fist has been fractured several times it is a dangerous liability. His right hand has been fractured before.

It has been pointed out frequently of late that his hands were too fragile. His last fight against a punk in Newark showed clearly that he hesitated to put all his force behind his punches because he knew that his hands were not able to stand the impact.

Wills never can beat Dempsey without a right hand. There is evidence to show that a two-handed fighter can't beat the champion and it is a cinch that a one-handed fighter can never do it.

The only chance he would have to knock out Dempsey would be with one punch of his right hand, figuring that even if he broke his hand again with the punch, Dempsey would not be able to get up for another one. Wills certainly can't get any more force behind his right hand than Firpo put in a dozen that landed flush on Dempsey during their fight last summer.

If Wills could hit Dempsey as hard as Firpo did he certainly would break his hand and Dempsey certainly would come up—even if he went down.

"Pop" Stribling, in a bout down south recently, jumped into the ring and took a punch at the referee who had disqualified his boy for holding. "Young" Stribling is a promising fighter. He is one of two or three youngsters being developed who look like he might some day be heavyweight championship material.

Stribling has a long way to go and the road, which is hard enough, will be made rougher for him if he has to overcome the handicap of family interference.

There are numerous cases to prove the point that a boxer is better off when he keeps his relatives at home. Jack McAuliffe, the retired lightweight champion, had his brother in his corner for several fights and he said he couldn't stand it.

Any number of promising young boxers in these modern days has had the same experience and as a rule it will not work.

"A strange allegation has been made by a well-known hockey international, who claims that the game is deteriorating because many players prefer to spend their afternoons dancing instead of on the hockey field."—A London clipping.

About this grave subject a London paper comments

"There cannot be Englishmen—at least, those who count in the scheme of national sport—who deliberately will forsake a virile, manly game in order to jazz on an afternoon when their fellows are striving valiantly and gallantly to defeat a formidable rival.

"To me it seems an impossibility. Let us dance by all means, but at the right time and not during those hours that can be devoted to sport'."

That's a durn tough situation.

A British referee was trying to pull the principles out of a clinch during the Frush-Matthews fight when Frush fell to the floor, claiming a foul.

The referee refused to grant the claim and later when the same thing happened he stopped the fight and would not give a decision. His official statement was:

"I was disengaging Matthews' arm at the moment Frush received the blow and I was unsighted."

Unsight is no qualification for a referee.

Local Juniors Meet Kingston

Manager Ed. Thomas of the local junior O. H. A. champions of this group, received official word this morning from O. H. A. headquarters that the local kids are slated to meet the Kingston Frontenac juniors in the first round play off for the junior Provincial honors.

The Frontenacs will play the first game here on Monday night next and the return game will be played in Kingston on Wednesday February 13th.

OKLAHOMA HAS FINE LIQUOR CHEST, EMPTY

Oklahoma City, Okla. (United Press).—Oklahoma has the finest liquor chest in America, although the bottles are empty.

Attendants say the chest is far superior to the Washington and Jackson chests formerly regarded as the height of beauty in their line.

The box contains four crystal quart bottles, inlaid with gold, and several pint bottles of similar design.

The relic dates from the time of Napoleon I. and is said to be a copy of the chest of the "Little Corsican." It was purchased in Paris in 1829 by Chief Greenwood Le Flore and brought to the United States. After being handed down to three generations, relatives of Le Flore presented it to the state historical society, and it is in the society rooms at the capitol.

ON THE ALLEYS

Two ladies league matches and one junior game was on the card at the Recreation alleys last night. In the first game the C.I.A. girls went down to defeat before the Ramblers, the former team playing one girl short, which unbalanced the rest of the team. Miss V. Blaind had the high single score and three strings. The second game between the Wanderers and the Willowbanks the veterans won by a safe lead. Miss Goyer had the high three strings. In the junior game the Aristocrats made it four straight wins in a row when they won from the National Castings in a hard fought game. The Nat. Castings won the first game and lost the next two. Geo. Savage was high single with 247 and Newman the three strings with 544. Scores and players.

New Three String Record

Another record was smashed at the recreation alleys last night when in three consecutive games C. Cornell rolled 781 or four pins more than the previous record which was held by F. Barlow. Barlow's score was hung up on these alleys over a year ago. Cornell had a wonderful opportunity to break the single record in his first game but had two bad breaks in a row. The three scores that Cornell rolled are as follows 322 208 251 total 781.

AN APPEAL TO FANDOM TO "LIFT SMOKE SCREEN"

When Brockville played here recently, the arena was so filled with smoke that it was with difficulty that the players were distinguishable even at short distances. This was an inconvenience to loyal fans who had paid real money to see the game. The players complained of the heavy, smoky air being exceptionally disagreeable, as it affects the throat when breathing heavily and fatigued. Goal tenders are liable to lose sight of the puck and stop it with their face if their vision is dimmed by a blue smoke screen.

To-night, the fans are asked to refrain from smoking as a kind favor to the management and players of the two hockey squads. The hearty co-operation of fans will be deeply appreciated, and the visiting team will also appreciate it, for there is no arena in Ontario, where the smoking law is enforced as religiously as it is at the Brock street arena in Peterboro.

Petes Arrive For Big Game Tonight

Peterboro Intermediates, champions of the Lindsay-Peterboro-Lakefield group, arrived in Belleville this afternoon on the 2.45 train, for the first of the home and home games in the first round elimination contest for the Provincial honors. A special train was not chartered, but some twenty fans accompanied the team and have reserved seats for the contest. The team will stay in this city overnight, returning tomorrow morning to Peterboro.

The locals are all set for the battle, their spirits being high, and injuries "repaired." They will present a formidable front to the husky quakers from the home of rolled oats. Petes have a strong aggregation including Dwyer, Halpin, Collins, McMartin, Parker, Burgess, Ranger, Rose and Lackey. Followers of the winter pastime will associate several of those names with strenuous games of "shinney" in past seasons.

Herb Matthews, former St. Michael's player, who refereed the St. Mary's-Varsity game at Toronto last night will handle the game here tonight, and is reported to be a capable official, although it is believed that this will be his debut in the Arnott arena here.

The plan of the arena was sold out this morning, so the rush seats will certainly get the big rush before the game tonight. The arena should be crowded to the doors. The game is called for 8.15 p.m.

HOOP LEAGUE OPENS TONIGHT

Local Five Meet Peterboro O.A.B.A. Squad in Electric City To-night

Belleville O. A .B. A. team in the basketball league will open their league tonight when they meet the Peterboro squad in that city.

Belleville team will be minus the services of Stan Nurse and Vern Weir who are playing hockey here tonight against the Peterboro Intermediates.

The members of the local basketball team are: Albert Armstrong, Percy Cole, James Alexander, Ralph Morden, A. Hitchen and Ronald Doughty.

LINDSAY IS ELIMINATED

Peterboro, Ont., Feb. 6.—On a keen sheet of ice and before a large crowd, the Peterboro Junior O.H.A. team last night eliminated Lindsay by a score of six to one, winning their district by a margin of three goals. The locals will play off with either Oshawa or Bowmanville, Piercy and Fortier starred for Lindsay and Harry Cheu, the only Chinese O.H.A. hockey player, did good work for the locals. The checking was close with Lindsay working hard to add to their two goals lead.

The Vancouver, British Columbia, Amateur Swimming Club held its annual Christmas Day dip in the sea despite the high wind. Two of the fair members are shown playing tag on the beach

"Cascarets" 10c
Best Laxative
for Bowels

"They Work While You Sleep."

If you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

OF INTEREST TO WOMEN

SOCIAL and PERSONAL

The condition of Mr. A. E. Cole, Pine St., shows some slight improvement to-day.

Mrs. Benford and daughter Violet are spending a few days with friends in Galt.

ARRESTED AS DESERTER

Paris, Feb 5 (United Press).—After hiding in his own home for nine years, Jules Raiset, aged 43, an army deserter, has been arrested. Raiset was mobilized in 1924 and served for a short time with the 371st Infantry, and disappeared when his company was on the Alsacian front. He made his way to his home, which was isolated on the edge of the village of Lariviere, near Belfort, and lived there with his wife and two children. He kept indoors all day, and slipped out only at night to work in the fields. After the Armistice Mme. Raiset obtained a pension as a widow. Raiset was denounced by neighbors, whose curiosity was aroused by the mystery man who worked only at night.

BRONCHITIS

Leaves a bad cough. So does "flu" and la grippe. But these lingering coughs yield easily to the healing and remedial qualities of

CHAMBERLAIN'S COUGH REMEDY

Every user is a friend

Do not catch cold—take SCOTT'S EMULSION

EVERY MONTH MANY WOMEN

Take ZUTOO Tablets and are free of the Griping Pain and Sick Headaches.

Read what Mrs. Wright says: "I received your sample of Zutoo Tablets, and took them for severe pain (monthly) and headache. At the end of 20 minutes, I was entirely free of pain and experienced no more throughout the period. I suffer a great deal at these times and feel grateful that I have a remedy which affords quick relief. Every woman in the land should know about Zutoo Tablets and what they will do."

A New Creation

The Hips the Thing In Paris Fashions

By HEDDA HOYT
Fashion Editor of the United Press
(Written for the United Press)

Paris, France, Feb. 6 (United Press).—"ON THE HIP" has a meaning all its own in the Parisian fashion world. But lo, the feminine hip reveals rather than conceals, spilling its cascades of chiffon down the hip in a most intoxicating manner. It can truthfully be said that the hip carries the treasure of the evening—frock.

The left hip is the one usually selected for the drapery, shirred flounces, circular panels and pleatings. On the dance frocks that are made with uneven hemline it is always the left side which has the shortest length. So many of the new gowns scoop up at one side these days. Everything is being done to do away with the plain evening frock that trusts only to jewels or beads for embellishment.

Despite the popularity of brilliant reds, fusias and greens for evening wear, black is noticed at every gathering where smart Parisians are assembled. These are not, however, the straight lined beaded gowns of last season but sheer black laces, tulles and nets worn over flesh-colored slips which might give quite a startling effect of nudity, were it not for careful draping. One sees the Parisian's fondness for black emphasized again at tea time. Here black satin rules the day it would seem, as every other woman wears it.

Smartly tailored coats of black cloth trimmed in leopard fur strikes a new note in the wrap world. We haven't seen leopard for years and now it looms up as the smartest fur for the black street wraps. Spring will see many smart little jacquettes made entirely of this spotted fur.

Parisian Evening Wraps

While ermine, mink and chinchilla coats and capes predominate for evening wear, there are also many lovely wraps of metal tissues and brilliant hued velvets. These are made with wide upper puffs and shirrings and tight hemlines and are generally lined throughout with the same material or the same color of the gown with which they are worn. For instance a gown made of cloth of gold may be worn with a cape of Chinese red, the cape being lined with gold cloth.

Fashion Notes

Moire is especially favored for evening frocks by the younger girls of Paris. What is the most predominate shade used, though all pastels are good. One of the loveliest of the white moire frocks has a circular flounce being made of soft, brown marabou. Marabou, by the way, is one of the most fashionable trims. Shaved marabou dyed to imitate chinchilla is used on many of the advance spring sports models.

Little Eaton collars of white ermine are worn on many of the black velvet and satin afternoon gowns. Cunning little black velvet bows tie under the chin.

Suede and undressed kids are replacing the glazed gloves of past seasons. Even the few evening gloves one sees are of soft suede, fawn, champagne and nude—a shade which corresponds with the nude hosiery, are more in demand than white as glove shades.

A little hat shop on the Rue De La Paix is showing a tiny hat made of lizzard skin. The model displaying this odd hat wore the simplest of black street suits with shoes, hat and gauntlet cuffs of reptile skin. Though a big bizzare, the effect was quite stunning.

Bandeaux and head dresses for evening wear are taboo in Paris. I failed to see any of them. But calling on a friend at tea time one afternoon I found her with a regular Russian head dress perched on her tousled red head. It was made of gold cloth in crown shape, with softly draped folds embroidered in white, pink and orchid pearls.

"Oh yes," she sighed, "everyone is wearing them. They hide the uncurled locks that one is apt to have on rainy days and are so much prettier than the boudoir caps we used to wear. Besides these can be worn so nicely with the tea frock."

SAVE THE KIDDIES FOR CANADA

Forty thousand Canadian children die each year under ten, largely due to maternal ignorance. The greatest ignorance exists in the matter of feeding. Most mothers consult only the child's desires, to their own sorrow and Canada's loss. Most children today live upon "Excess Acid" white flour, refined cereals, fats, meats, and white sugar sweets, all lacking in repair substances and alkaline salts. This lack lowers vitality and turns the blood acid. Children so fed are fit subjects for disease germs, always in the air to fasten upon, multiply themselves by billions, and produce in the child disease and death. This could not happen a child fed upon natural alkaline (opposite of acid) foods; whole grains, milk, eggs, nuts, beans, peas, leafy vegetables and fruits, honey, and brown sugar sweets. All are the unrefined products of nature and the most important are whole grains. Such a diet is all important in cold weather. It keeps the blood in its natural alkaline state and carries the child through the dangers of winter fortified against disease.

Roman Meal is the only alkaline cereal. It is 400 parts in each 1,000 parts "Excess Alkali;" alkaline enough to correct the acids of "Excess Acid" foods, if used some way once every day with milk. It can be made into delicious porridge, pancakes, pudding, bread and cakes, all of which increase the vital resistance of your child to disease. Your child needs Roman Meal, because it has four times as much bone-forming materials as even milk, essential to well-formed bones and good teeth. At grocers.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups — No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising there from, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates. The genuine bears signature of

Chas H. Fletcher.

98 OUT OF EVERY 100 WOMEN BENEFITED

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Replies, to date, have been received from over 50,000 women answering that question.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.

Did you ever hear anything like it? We must admit that we, ourselves, are astonished.

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

Its reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Cobourg, Ontario.

People shamefully neglect their eyes

About the last thing the average person decides to attend to is the examination of the eyes. Some folks like to boast of their ability to do without glasses, even though they admit that they need them. No greater mistake could be made. YOU do differently! If you only suspect that they are not just as they should be, have me give them a careful going over, I can do it!

URGES LIVING APART TO AVOID DIVORCE

Detroit Feb. 4.—Husbands and wives who are not temperamentally suited to live together can avoid divorce by living apart and visiting each other only on occasional weekends, George E. O'Dell, author and lecturer told members of the New Country Club.

Mr. O'Dell, an Englishman, denounced as "middle class" the old-fashioned man and wife who not only live together the year through, but spend their Summer vacations together and are never out of each other's sight.

The marriage convention, Mr. O'Dell conceded, is necessary to the preservation of home life, but he deplored the hard and fast rules laid down for married people to follow.

Danger In Rules

"There is anger in making sweeping rules for other people, especially for married people to follow," Mr. O'Dell said. "Every couple should work out their own scheme for marital hapiness. If a husband and wife are not suited by a temperament to live together, why should they

"If they believe each can contribute more to the finer development of the other's personality by living apart, they should do so. But the marriage convention must be preserved."

Young people should be taught the physchology of marriage to warn them against the pitfalls and dangers that obstruct the path of marital happiness," Mr. O'Dell urged.

"Fostering an Illusion."

"Young people are brought up with the idea that marriage brings happiness," he said. "but this is only fostering an illusion.

"They should be taught that to be successful a marriage must be based on a friendship that upholds self-respect and mutual respect of both husband and wife.

"They should be given courses that would instill in their minds the fact that the idea marriage is one in which each party contributes to the finer development of the other's personality. If there were more seriousness about marriage there would be less flippancy about divorce."

Healing Cream Is Quick Relief For Head Colds

Colds and catarrh yield like magic to soothing, healing and antiseptic cream that penetrates through every air passage and relieves swollen, inflamed membranes of nose and throat. Your clogged nostrils open right up and you can breathe freely. Hawking and snuffling stop. Don't stay stuffed up and miserable.

Get a small bottle of Ely's Cream Balm from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.

Relay Carnival Will Be Success

Philadelphia, Feb. 6 (United Press)—Interest in Pennsylvania's great relay race carnival, to be held on Franklin Field, April 25 and 26, seems to be greater than ever among colleges and universities.

Already many colleges have accepted the invitation sent out to participate.

Penn State, winner of the international two mile relay championship, in which they defeated the great Oxford team; Syracuse, winner of the one mile relay championship; and Navy, winner of the four mile relay championship, are among the institutions which have announced they would have entries at the meet.

Princeton, Columbia, Virginia, Massachusetts Institute of Technology, Carnegie Institute, Johns Hopkins, Colgate, Rutgers, Bucknell, Delaware, Swarthmore, Stevens, Gettysburg, Franklin and Marshal, and Ohio Wesleyan are among those who have sent entries.

Butler College, of Indianapolis, winner of the college quarter, half and one mile relays at the Des Moines relays last season, informed the carnival committee that their relay team is intact and they will probably enter the one mile relay for the open collegiate championship.

Occidental College of Los Angeles will also come to the carnival. Joe Pipal, their coach, wrote that he has exceptionally good relay material this year and he hopes to show something in the shorter distance relay championships and also in the one mile.

With the entry of Cambridge of England, the University of Havana, Canadian universities and colleges and teams for the middle west and Pacific Coast this year's carnival promises to be the greatest that has ever been held.

Invitations to the high and preparatory schools were mailed recently. Hamilton College Institute of Canada may not be represented this year as their coach has written his team is "shot to pieces." The Hamilton, Ontario, technical high school will be represented.

'Listless' Langour Imperiling Girls

Morgantown, W. Va., Feb. 6—Dr. Caroline Hedger of the Elizabeth McCormick Foundation, Chicago, condemned the listless langour which she said is so apparent in the girl today and which she termed the "debutante slouch."

Dr. Hedger was addressing farm women in attendance at the annual farmers' week at the West Virginia University. She declared that the girl of today is becoming "skinny because fashion has upset the center of gravity in their bodies.

"Such girls are not fashionable, although they imagine they are to the last detail." said Dr. Hedger. "They are simply deformed and are to a certain extent ruining their health by such antics.

"If a girl is inclined to plumpness why should she torture herself to attain this so-called willowy form? Fashions of today are not decreed with any thought of benefiting the present generation's health, but merely for the commercial gain."

She advised young girls to eat boiled cabbage, string beans, spinach and lettuce three times a day, use plenty of soap aplied with lots of elbow grease and drink three pints of water a day.

Bible Workers at Moody Institute For a Conference

Chicago, Feb. 4 (United Press).—Religious workers from all sections of the world were here today for the opening of the annual "founders' week" conference of the Moody Bible Institute.

The conference closes February 8 after the consideration of one of the most comprehensive programs in the history of the Methodist church, conference officials said.

Listed among the speakers are: Rev. J. Gresham, author of "Christianity and Liberalism," the professor of New Testament literature at Princeton Theological Seminary; Rev. Harold Paul Sloan, Bridgeton, N.J., opponent of antiorthodox tendencies in Methodism; Rev. Dr. Leander S. Keyer, professor of Christian evidence, Wittenberg College, and of systematic theology, Hamma Divinity School, Springfield, Ohio; Rev. Alexander Sprunt, Charleston, S.C., moderator of the Presbyterian Church in the United States, and Rev. W. Talbot Hindley, vicar of St. John't church, London.

INSTRUCTIONS REQUIRED

"If I only knew what to do with baby!"

"Didn't you get a book of instructions with it, mother"—Kasper, Stockholm.

MRS. FRANCIS STONE

Your Good Health and Long Life Depend on Your Kidneys

FOLLOW THIS ADVICE!

Brantford, Ont.—"I take the greatest of pleasure in recommending Dr. Pierce's Anuric (kidney) Tablets to all sufferers of kidney and bladder ailments. Four years ago I first learned the value of the Anuric Tablets. I had suffered severely with backaches and my bladder was giving me considerable inconvenience, when I was advised to try Dr. Pierce's Anuric Tablets, obtaining almost immediate relief. Relatives have taken the Anuric (anti-uric-acid) Tablets on my advice and every one of them is enthusiastic in praising Anuric for the relief of backaches and kidney and bladder weakness."—Mrs. Francis Stone, 43 Grey Street.

Don't wait for serious kidney ailment to set in. Help your weakened kidneys with Dr. Pierce's Anuric. At all drug stores, or send 10 cents to Doctor Pierce's Laboratory in Bridgeburg, Ont., for trial package. Write Dr. Pierce, President of the Invalids Hotel, Buffalo, N. Y., for free medical advice.

Ladies! Darken Your Grey Hair

USE GRANDMA'S SAGE TEA AND SULPHUR RECIPE AND NOBODY WILL KNOW

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hir beautifully dark, glossy and attractive. Whenever he hair took on that dull, faded or streaked appearnce, this simple mixture ws applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of Wyeth's Sage and Sulphur Compound, you will get this famous old preparation improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beutifully dark and glossy.

FOREIGNERS STAY OUT OF GERMANY

German Hotelmen Wail About Falling Off in Tourist Patronage

Foreigners in Germany

Berlin, Feb. 5.—The number of foreigners visiting Berlin in 1923 was 30 per cent less than the number visiting here ten years ago—the year before the war. Despite the fact that general European tourist traffic now is many times that of pre-war days, foreigners have recently been avoiding Germany. Whereas 280,000 foreigners visited Berlin in 1923, the year just closed saw only 160,000.

By GUS M. OEHM.

Berlin, Feb. 5. (United Press).—Germany, which last summer did everything possible, officially and otherwise, to drive the foreigner from within its borders, to-day sees the folly of its policy and pleads for their return.

"The custom of the American business man having occasion to come to Germany of leaving his wife or his family in London, Paris, Holland, Denmark or Switzerland, while he alone makes the "dangerous journey' because his family, through fear based on false impressions abroad, refuse to accompany him into Germany must cease," according to Ewald Kretschmer, director of the Bristol, famous hotel on Unter den Linden.

Kretschmer is well known in the United States, having visited many cities there last spring. He was guest of honor of the Dutch Treat Club in New York where he spoke to more than 200 representatives of the press on the theme "Prospects of International Travel in Germany". He assured the American people at the time that most of their impressions of Germany were based on false information.

A Land of Barbarians

"I was asked about the normal breakdown in Germany," Kretschmer declared. "In South Bend I attended a dinner at which the leading townsmen were present to hear direct regarding conditions in Germany. I was granted an audience by President Harding and spoke in Baltimore, Atlantic City, Philadelphia and Washington. Everywhere they seemed to look upon Germany as a land of barbarians.

"The whole country was convinced that Germany was not to be considered in mapping a pleasure trip. They had heard of difficulties with passes, visas, unpleasantness especially for ladies at the German borders, high taxes, general unfriendliness toward foreigners and the moral breakdown in Germany. I know of women who carried their own cookies and tinned meat because they believed they couldn't buy anything to eat in Germany. They feared a Bolshevistic uprising.

"Our task now is to enlighten the peoples abroad as to modifications in pass regulations, reduction of taxes against foreigners, and the changed attitude of the people toward travellers. We must carry on a propoganda which is not purely advertising. Americans hate the word propoganda and Americans journalists use it only when they wish to convey a harmful meaning. Therefore, we must put at the disposition of the American newspaper men in Berlin information regarding modifications of border examinations, customs requirements, etc.

"The government should lead in this move. A special bureau should be formed in the foreign office to handle this task. Germany cannot afford to lose her tourist trade. Her position in the center of Europe demands it."

Speech From

(Continued From Page One)

guson when a member of the Opposition consistently maintained that intimation should be given in the address of those major matters in which Government legislation might be expected. In the address the statement was merely repeated to the effect that when the Government considers public opinion to demand a referendum it will grant one. The Conservative members, however, are to hold a caucus and a luncheon on Thursday. The O.T.A. is expected to come up for discussion there and it is considered probable that Premier Ferguson will obtain from the gathering a pretty accurate digest of the sentiment in regard to the Temperance Act in the various parts of the Province.

Bounty on Iron Ores

Another item of importance which the Speech from the Throne referred to is legislation providing for a bounty on iron ores, conditional upon the Dominion Government coming in with a subvention. Hon. Charles Stewart, Minister of the Interior, visited Premier Ferguson in his office yesterday relative to the subject, and it is understood that legislation will be introduced into the Federal House at the next session to provide for the payment of a Dominion Government subvention.

The University Act, to provide for graduate-representation on the Board of Governors, as was suggested in the report of the University Committee during the last session was also mentioned.

Unrepentant

Wife—"Your Honor, he broke every dish in the house over my head, and treated me cruelly."

Judge—"Did your husband apologize or express regret for his actions."

Wife—"No, Your Honor; the ambulance took him away before he could speak to me."

ASHES OF VICTIMS TO FORM BUDHA

Vancouver, Feb. 5 (United Press).—Remains of 32,000 Japanese victims of the earthquake will be burned and their ashes mixed with cement to make a huge concrete Budha to console the mental pains of religionists who lost relatives in the quake.

CORONER RESENTS SUCH CRITICISM

Trent River, Feb. 6.—"The story of a watch dog watching the remains of Alfred Firman for two weeks is a pure fabrication," states Coroner Holdcroft in protest against some of the reports of conditions surrounding the death at Mud Lake of Alfred Firman farmer.

According to the doctor, Alfred Firman died in bed at his home from heart failure on January 21. On the Coroner's instructions the body was prepared for burial by the undertaker and held pending search for Firman's mother in the United States. Finally she was located by the Chief of Police of Albany; she arrived at her son's home yesterday and now the burial is to take place on Wednesday next.

"The remains of this man," said the doctor, "were as decently treated as any body was ever treated. As to the delay, his mother was on a visit to the United States, and I held the body until we found his mother. She came on Saturday. There was no unnecessary delay."

Concerning the interesting story of "the faithful dog" maintaining a fortnight's vigil, Dr. Holdcroft declared it to be untrue. The dog was taken away by a neighbor when the farmer died, he said.

Dr. Holdcroft expressed indignation at some of the press reports of the situation at the Firman home and announced his intention of taking matters up personally with some editors.

SEMI-CENTENNIAL OF LOCAL LODGE

The semi-centennial anniversary of the institution of Mizpah Lodge No. 127 I. O. O. F. was fittingly celebrated Monday night at the Oddfellows Temple. The chairman, Bro. L. B. Cooper, P. G. M., was supported on the platform by P.G.M, Bro. F. S. Evanson, Grand Warden Bro. A. E. Ross, both of Kingston; the D.D.G.M., of Bay of Quinte District, No. 47; Bro. G. G. Way; P. G. Chap. Rev. A. L. Geen, and the officers of Mizpah Lodge, Belleville Lodge No. 81 and Quintena Rebekah Lodge No. 133.

In welcoming the large number of members present, Bro. Cooper briefly referred to the history of Mizpah Lodge and spoke of the good work it had accomplished in this city during its 50 years of existence.

P. G. Bro. R. H. Ketcheson, Rec. Sec., of the Lodge then read the names of the charter members, only one remaining in membership at the present time, Bro. Rev. A. L. Geen; also the names of 51 veteran members of 25 years membership.

D. D. G. M. Bro. Way then expressed on behalf of the District congratulations to the officers and members of Mizpah Lodge for their past record and best wishes for the future. He also referred to the pride all the members have in P.G.M., L. B. Cooper, the only Belleville member who has occupied the office of Grand Master of Ontario.

Miss S. Johnstone in her usual pleasing manner delighted the members by rendering a vocal solo, "The Swallow".

Bro. Rev. A. L. Geen spoke of the early history of the lodge and expressed his appreciation of being the first Vice-Grand of the Lodge. Bro. Geen has since transferred into Belleville Lodge No. 81.

Bro. A. F. Stillman then sang "We all go home the same way" the members joining in the chorus. Bro. Stillman's tenor voice was in his usual splendid form and he responded to an encore. In introducing the next speaker the chairman referred to the honor Gen. Ross had received and said Ontario Oddfellows honored the brother for his service to King and county. To give his full title, Brigadier General Hon. A. E. Ross, C. B. C. M. G. Bro. Ross brought fraternal congratulations from the Grand Master of Ontario who was unable to attend, also from P. G. Bro. R. B. Bell, of Kingston, who is a member of Mizpah Lodge. Bro. Ross listened to with great interest as he spoke on what Oddfellowship means.

Mrs. Knapp then sang "Smiles" and received great applause for the manner her splendid soprano voice was heard. In introducing P. G. M. Bro. Evanson the chairman referred to the fact that Bro. Evanson was considered the most eloquent member of the Order in Eastern Ontario. Bro. Evanson referred to the Grand Lodge meeting in Belleville in 1913 when he had the honor of being Grand Master, and expressed the wish to again visit Belleville.

Bro. Ralls then sang in splendid voice, "An Evening Song". P. G. Bro. F. M. Clarke the oldest member in continuous membership in the lodge spoke and referred to the men who had put Oddfellowship on such splendid foundation in Belleville 50 years ago. Mrs. Duff and Mrs. Nicholson then sang as a duet "Song of Breeze", needless to say their singing was of their usual good style. Bro. G. A. Griffith's, of Hamilton, then gave an imitation of a Trombone player. Other speakers were P. G. Bro. J. O. Herity and Broker G. Marshall.

Refreshments were then served after which Sills Orchestra supplied music for dancing concluding in the small hours by the National Anthem. One member expressed the sentiments of all by saying, "the best evening I have ever spent in the Oddfellow's Temple. The accompanists of the evening were Mrs. Duff and Miss E. Fenn.

LEGLESS SOLDIER

(Continued From Page One)

motion was taken en delibre until the 14th, but it created an unusual happening in court.

A man who is seeking to have medical examination as to his sanity is not asked to plead and this course was being followed when Justice Wilson insisted on a plea from the accused. R. L. Calder, crown prosecutor, asked that Godard make his answer to the clerk and the unusual occurrence of a prisoner asking for medical examination making a plea, was witnessed by the spectators.

"While I don't see the usefulness of this course," said Mr. Lavery, "I will submit to the ruling. At the same time no matter what he pleads his statement will not have any effect or alter the matters in the slightest. It is not necessary that he plead guilty or not guilty."

Mr. Ladouceur was told to read the charge and Godard after hearing the indictment that brought him before the court on a charge of murdering his wife was asked what answer he had to make. The prisoner remained silent a moment. He suddenly straightened up and with a military salute was once again the soldier relying on the commands of his superiors.

"Sirs," he muttered, "for the answer I refer you to my officer." Mr. Lavery smiled as did the court and Godard was informed that the court would render judgment on the motion for examination on the 14th.

FOREIGNER VICTIM OF HOLD-UP MEN

Oshawa, Feb. 6—Frank Bobivski, 134 Olive Ave., was held up at the point of a revolver and robbed of $960 early Saturday morning, a short distance from his home, as he was going to work. Two young men are being held by the police charged with the robbery.

They apeared before Magistrate Hind in the Police Court yesterday and were remanded until Friday.

Foreigner Had Liquor

Mike Kawuala was remanded for eight days on $2,000 bail. He appeared in court charged with having illegally 50 gallons of American alcohol sealed in tins and packed in canvass. It was stored in his garbage and was seized Saturday afternoon by License Inspector C. A. Mason.

"CUB GEDLE SPRIG"

Prayer of Our Ancestors Before Modern Science Taught Us How to End Colds.

Watery eyes, aching bones, sniffling nose, and sluggish liver—this is the season for colds and Grippe.

Your grandfather used to simply try to bear it and wait for better weather. He would plead with the poet—"Come Gentle Spring". Now we know that colds are too dangerous to let them run their course.

Dr. Thacher's Liver & Blood Syrup will make your liver work again. When active, the liver filters all the blood every fifteen minutes. This gives the blood a chance to fight the germs of colds.

Try it tonight! Just a spoonful after the next few meals, and tell others what a big difference it makes in the way you look, eat, sleep and feel. You will be completely satisfied: otherwise druggists will return the small cost.

Dr. Thacher's Liver & Blood Syrup is sold and recommended by

Dolan the Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

GERMANS FAIL KINSHIP STAND

Toronto, Feb. 6.—Sir Bertram Windle had a bit of fun at the expense of the Germans in his lecture on world races at Convocation Hall, continuing h's series on this interesting theme.

He was discussing the Nordic race, when he came to the consideration of the effort of the Germans to claim themselves to be the chief, if not the only representatives of this hardy race of northern Europen.

"The Germans did this for political purposes," he asserted, going on to relate to the amusement of his large audience how some 40 years or more ago the great German anthropologist, Virchow, got his orders to collect the data to establish the fact of the German connection with the Nordic people.

Virchow did work at the job. He examined the heads of a million German children. But he found exactly the opposite of what the German leaders had wanted to prove, so they called him off the job. It was not what they had hoped for, and the effort was abandoned.

As a matter of fact, declared Sir Bertram, the characteristics of the Nordic people were that they were tall and fair and narrow headed.

Belgian King the Type

He showed a picture of Albert, King of the Belgians, as probably one of the best types in the world of the Nordic race. On the contrary, the Germans were well known as people with broader and rounder heads, "square heads," in fact, was a term that had frequently been applied to them. But it was characteristic of them that with their usual thoroughness, they had set out to prove their relationship to the Nordic folk, and then found that the fact did not fit. Notably in Bavaria and Saxony, the people were much given to the round-head type.

In opening, Sir Bertram said that the world was populated by people of two types of skull, the long and the short. The cradle of the human race was assumed to be in Eastern Asia, and the people had then spread out to the east through Mongolia and into North and South America. They also went southeast into Africa. Westward went some into Europe and the British Isles.

"The oldest race in Europe is known as the Neanderthal. That was the name of the place where the first specimen of this early people had been found. Sir Bertram did not give the impression that this early type was near to the ape species, in fact he spoke of the Neanderthal as being a fairly good type of man, making tools that could be well used, and even having a belief in the future life.

After 10,000 Years

Another type of the early folks was the Cro-Magnon, whose skulls were quite similar to those of present day people. In fact the descendants of these people were still to be found in the Dordogne district of central France, where relics of the early ancestors were found in caves. These people and their descendants had probably lived in that region for 10,000 years. All these first peoples had long narrow heads.

Then from Asia came a round-headed lot who spread along the hills across Europe and into the British Isles. "They brought with them a knowledge of bronze and of the practice of cremation," said the lecturer.

Thus Europe became divided into three bands of people, the narrow heads being south of the Baltic and north of the Mediterranean and the broad heads intervening.

Sir Bertram referred to Grant's book, "The Passing of a Great Race," a work which claimed for the Nordic people almost everything worth while that had been done in Europe. "That is much too sweeping a statement when it is considered that men such as Napoleon and Foch belonged to the Mediterranean and not the Nordic race.

A Thousand Years in Passing

Prof. Dixon, of Harvard, in a recent work claimed that the Nordics were a mixed race which developed about the beginning of the iron age and had been in the act of passing for at least a thousand years, not just of late.

Sir Bertram showed that the British Isles had been entered by all the early races, and there had taken place a sort of backwash from Cornwall to Brittany, so that the people of Brittany were first cousins of the Cornish and the Welsh. Of the present peoples of the British Isles, the tallest were the Scots, and next in order came Irish, English and Welsh. In the north and east of Scotland the men were fairhaired, but west of Argyle and in Cornwall the dark-haired predominated.

FRANTIC MOTHER SEES SON PERISH AS HOUSE BURNS

Greenfield Park Woman Sa ves Three Children, But is Unable to Return For T wo-year-old Baby Trapped by the Flames—Futile Use of Snow

Montreal, Feb. 6.—While his hysterical mother stood by watching and attempting to protect her other three small children from the cold, and the firemen of St. Lambert made futile attempts to check the fire by Henry Baker, trapped in his bed, was burned to death when his home on Devonshire Road, Greenfield Park, caught fire at 11 o'clock last night. The charred body of the little victim huddled up in his cot was found later by firemen who entred the ruins of the house.

The fire, which claimed one of the members of the Baker family and from which the mother and three other children had a narrow lescane, broke out as the family were in bed and spread so rapidly that the rear of the dwelling was a mass of flames before the blaze was noticed. Mrs. Baker awakened her children and succeeded in bringing three of them to safety but when she was about to return for the fourth she found that she could not enter thehouse.

Neighbors called the firemen of St. Lambert and attempted to hold the flames in check until the apparatus arrived but the blas ehad gathered such headway that nothing could be done. Chief Gravel and his men found that there were no water facilities and though they workd with snow, Dppak.

Mrs. Baker, overcome with the horrible realization that her little son begged to be allowed to enter and rescue the boy, but the firemen who had tried to get into the house succeeded in showing hr how useless it was to throw away her life in such a futile attempt.

The fire burne ditself out after it had destroyed the house and the victim's body was then recovered. The cause of the fatal blaze is undetermined but it is thought that it was started by wood falling from a stove in the kitchen. The father of the little family i sin Detroit at present but has been notified to come home immeriately.

Deputy Coroner Prince heard the details of the tragedy this morning and returned a verdict of accidental deat hin the case.

CANUCKS GET OLYMPIC AWARDS; NORWAY LEADS IN POINTS

Chamonix, Feb. 6.—The curtain went down on the first act of the 1924 Olympic games yesterday. The closing scene witnessed the distribution of the Winter sports prizes at the stadium, by Baron Pierre De Coubertin, president of the international Olympic Committee, assisted by Count Clary, the Marquis De Polignac and Frantz Reichel, respectively, president and vice-president and general secretary of the French Olympic committee.

The winners received gold medals second place competitors silver, and third place holders bronze medals. All the participants were awarded Olympic diplomas.

Patrick James Mulqueen, chairman of the Canadian Olympic committee, and member of the Internatonal Olympic committee received the prizes for the members of the Canadian hockey team. Baron Coubertin presented him with the Canadian flag which was run up last Sunday when Canada defeated the United States for the Olympic hockey championship, and Mulqueen declared he would not part with the bit of bunting for a million dollars.

Norway, wth four first prizes and ranking first in the general classification, made to-day resemble a Norwegian national holiday, and the Alpine "blue devils" brass band was kept red in the face from playing the Norwegian national anthem. Finland was a close second in the honors, with four firsts.

Virtually all the athletes of all the nations except the ski performers, have already left Chamonix. Haug, of Norway, three times winner of ski events, was officially crowned the Olympic ski king, in addition to the crown of Norway, already bestowed upon him by his countrymen.

Norway's athletes amassed 134½ points out of the total of 391, in winning the Olympic Winter sports, Finland was second with 76½, the two northern countries thus taking more than half of the points allotted.

Great Britain Beats U.S.A.

Great Britain placed third with 30 points, just nosing out the United States with 29. The other scoring nations in the order of their finish were:—Sweden 26, Austria 25, Switzerland 24; France 19½, Canada 11, Czecho-Slovakia 8½, Belgium 6, and Italy 1.

The receipts from the games amounted to 251,000 francs, the banner day being Sunday, when the crowd paid 31,000 francs to see the hockey final between the Canadian and United States teams, which Canada won, six to one.

The receipt total was disappointing to the organizers, who expected to reach 500,000 francs, and one of the explanations is that too many complimentary tickets were issued to relatives of athletes participating.

BUFFALO MEAT IS ON SALE TO-DAY

Signs displayed in butcher shops in this city today read as follows, "Order your Buffalo meat today." "Buffalo meat from the Canadian Government herd, Wainwright, Alberta." Dealers and many citizens have been for some weeks waiting anxiously for the delivery of Buffalo meat in this city. The meat arrived this morning and the demand for it is heavy. One butcher who received only 50 pounds was sold out this afternoon, but will have a fresh supply tomorrow.

One hundred pounds is consigned to each purveyor who wishes to handle it.

Forty-Two Die In Mine Cave-in

Entombed Near Crosby, Minn., only Seven Miners Escape

Crosby, Minn., Feb. 6.—Forty two miners perished when the bottom fell out of a small pond and flooded the workings of the Milford iron mine near her elate yesterday.

Caught in th lower levels of the small mine, only seven of the crew of 49 at work were able to gain the safety of the skip and ascend to the surface. Like rats in a trap, their comrades died suffocated by the slimy mud and water that gushed through the workings, roaring into the shaft within a few feet of the top within fifteen minutes.

There was no extended warning; just a "rumble like a thousand automobiles roaring down a distant road," one survivor said. Then the leaping black wave of death engulfed them, battering its victims against the walls.

The Milford mine is owned by the Whitemarsh Mining Company, which has sent special equipmenet to the mine in an effort to rescue the men entombed. The mine is of manganese ore and is on the Cuyuna Range.

MURRELL GUILTY, VERDICT OF JURY

Take Only Thirty-five Minutes to Arrive at a Decision

London, Ont., Feb. 6.—Sydney Murrell, one of the leaders of the gang that brought London's crime wave to a climax in the Spring of 1921 with the robbery of the Home Bank at Melbourne and the murder of Russell Campbell, a villager, must expiate his crime on the gallows. Thirty-five minutes after the jury retired at 8.44 last night, a messenger was sent to the court-room with the announcement that a verdict had been reached. Fifteen minutes later with the court reassembled and Murrell, manacled and tense in the prisoner's dock, John Stanley, foreman, announced: "Your Lordship, we find the prisoner guilty of murder."

Murrell, sharing the belief of spectators that so brief a deliberation must mean the death sentence, stared intently at the jury, while his chest heaved at every breath.

His mother, father, sisters and a younger brother sat in the front row of the spectators' section. Mrs. Murrell made no outburst, and Murrell throwing his head back toward his friends forced a smile to prove his nerve.

Judge Lennox announced that Harry Williams, Murrell's co-partner, must face his trial for murder in the morning and adjourned the court, without stating when sentence is to be imposed.

Murrell, flanked by eleven Provincial officers, county constables and uniformed jail turnkeys, was ordered back down the tunnel to the cells. As his leg-irons clanked he turned again to his family and friends and kissed his manacled hands.

Judge Lennox's charge to the jury was a brief analysis of the law that set aside practically everything except the fact that a man was killed, that the prisoner was a party to it, and that it was a case of murder or nothing. The Judge declared that manslaughter was out of the question, that robbery and murder has become a commonplace in the country, and that a responsibility rests upon decent people to stop the crime wave.

RITCHIE'S
12 DOZ. GINGHAM HOUSE DRESSES $2.95

The Famous "Martha Washington" Make

Almost too charming for House Frocks, these are really delightful dresses for Porch, Garden and General Summer Wear.

There are six distinct styles, all trimmed in the daintiest manner, in all the wanted shades, every one crisp and new. Just out of the Boxes. Sizes 16 to Oversizes.

2—Zara dress—a very youthful model, in block check, with pique embroidered collar.
3—Plain Chambray with wool embroidered design at front.
4—Matron's Dress, check and clear plaids with embroidered Tuxedo Organdy collar.
5—Self trimmed and open worked imitation hand drawn effect front.
6—Block checked Gingham with Organdy Peter Pan collar and cuffs.

This special event starts Tuesday—We advise early selection, as they are bound to go fast.
—Ready-to-Wear Section—Main Floor

SEE Window Display Tonight!

MID-SEASON HATS
THAT BRING A HINT OF COMING SPRING

Zestful affairs these Midseason Hats! They hint of Spring in their clever fabrics—intriguing colors—trimmings that dare many new devices—Shot Taffetas, French Visca Fabrics, in allover embroideries are very smart—The close fitting clocke shape holds full sway.

We cordially invite you to see these new midseason modes just arrived here. A very unusual group featured at these moderate prices $5.50 and up to $15.00.

New Ginghams
REFRESHING AS THE FIRST PERT ROBIN

A refreshing spectacle these new Ginghams. They are harbingers of spring—one of fashion's first edicts concerning new tubables for the new Season.

They conjure up visions of crisp little frocks for the children—Practical yet charming—as well as innumerable frocks for yourself as freshly attractive as a shining May morning. Not to mention the many interesting house aprons and frocks that make a decorative affair of housekeeping!

Our Wash Goods Section is resplendent with stocks of new Ginghams at very attractive prices.

27-inch Gingham Checks and Plain shades very special at 25c. yard.

32-inch Ginghams in Checks, Plaids and Plain shades very special at 35c. yard.

36-inch "Scotch" Ginghams in checks, plaids and plain shades, specially priced 49c. yard.

SITUATION WANTED

Teckla, a girl just over from Northern Europe, who is being Americanized by the domestic service route, is having a rough passage in her first few weeks in a kitchen of one of the Boston suburbs. She cannot cook and she is not used to American methods of housekeeping. When finally her mistress asked in exasperation the other day:

"Teckla, is there anything you can do?"

"Yes, Missus," she replied in all sweetness and assurance, "I can milk a reindeer."

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the 'Bayer Cross' on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of salicylicacid. While it is well known that Aspirn means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

STOP SMUGGLING VIA BABY CARRIAGES

Sarnia, Feb. 5.—Those ladies in Sarnia and environs who delight in smuggling merchandise from the neighboring American city of Port Huron read with dismay the latest announcement that the department of customs would receive applications for the position of lady customs officer for this city.

This particular threat has long rested over the heads of the "baby carriage" sisterhood, who smiled sweetly at the male customs officers as they passed the baby buggy and its various contents by the barrier.

It is claimed that thousands of dollars' worth of Christmas gifts were smuggled into this city during the month of December.

NOW YOU TELL ONE

"Mrs. Gones was a widower with three small motherless children at the time."

MISS CECIL SMITH, Canada's woman representative in the figure skating events at the Olympic games.

SECRET PACT CHARGE STIRS EUROPE

GERMAN SLIGHT TO U.S. TERMED 'BONEHEAD' PLAY BY TEUTON JOURNALISTS

Berlin Government Is Doing Best to Convince Everyone Concerned That No Ill-Will Toward United States Was Intended by Refusal of Ambassador to Pay Respect of Passing of Woodrow Wilson by Lowering Flag to Half-Mast

GERMAN OFFICIALDOM MAKES WIEDFELDT "GOAT"

Foreign Office Spokesmen Merely Shrug Shoulders When Asked if Offending Plentipotentiary Will be Recalled—Declares Foreign Office Committed Grave Error in Not Instructing Ambassador to Follow Course Set By Others

Berlin, Feb. 7 (British United Press).—The German Government did it's best to-day to convince everyone concerned that no ill will toward the United States was intended by the flag incident at the embassy to Washington where the German emblem was not at first displayed at half mast during Woodrow Wilson's funeral. It was a plain "boner", one heard on every side to-day.

Government officials make Ambassador Wiedfeldt the "goat" but foreign office spokesmen merely shrug their shoulders when asked if the Minister to Washington will resign or be recalled. Theodore Wolff, influential editor of the Berliner Tageblatt, declared the affair "dummheit" in American Parlance, "Dumb Bellism", accusing Wiedfeldt of lack of either initiative or courage. He held that the foreign office also had erred by failing to tell the Ambassador either to use his own judgment or to follow the course set by other plenipotentiaries.

THE WEATHER

North and northwest winds. Mostly fair and cold to-night and Friday.

COMING EVENTS

DANCING

Mr. and Mrs. Johnstone's Masquerade Dance for pupils, former pupils and friends will be held Monday evening, Feb. 18th. For information phone 750W or 892. 6-2td

Mr. and Mrs. Johnstone's Social Assembly held every Saturday 8.30 to 12. Private lessons given. Time arranged to suit pupils. Phone 750W or 892. 7 & 9

St. Thomas' Church Sunday evening next, Grand Musical Service. Symphony orchestra, Male quartette and organ. Silver collection Orchestra of Soloists — Messrs. Young, Elliott, Hinchey, Weymark, Brown and Asseltine. Quartette and soloists—Messrs. Stillman, Haffner, Moorman and Burke. Ernest Wheatley Mus. Bac., at the organ. 7-3td

Keep Monday evening, Feb. 11th, for the Canadian Order Woodmen Dance and Euchre, Moose Auditorium. Music by Al. Wilson's Society Serenaders. Tickets including tax 50c. Refreshments. F5, 7, 9, 11

NEW BUILDINGS LEAD ISSUE IN BRITISH HOUSE

Labor Plans Big Building Program Through Co-operation of Opposition

SHELTER 500,000

Reduction In Prices, Encouragement of Municipalities Among Plans

By CHAS. P. HALLINAN
(United Press Staff Correspondent)

London, Feb. 7 (United Press).—The new labor government of England has for one of its leading plans the building of houses to shelter half a million people. It is planned to build these in a year.

Whether the plan will go through depends largely on the life of the Labor government and the degree of cooperation it can command from the Liberals and Conservatives. No one can guarantee the question of the life of the MacDonald government.

As far as cooperation is concerned, however, the labor leaders claim they have been promised the help of the Liberals, while they say they will gain some Tory help—it won't be much, but Lady Astor and the Dutchess of Atholl are said to have promised their personal aid to the plan and will draw some personal support to the plan from party friends.

Heres' the Program

The housing program will probably be changed from time to time, but, roughly, at the start it is about as follows:

1. Gently persuade the various "building material rings" to reduce their prices;
2. If obdurate, then, in Ramsay MacDonald's own language, "break them";
3. Encourage municipalities to go ahead with building, letting contracts directly under government guarantees;
4. Where municipalities or local authorities feel it to be necessary, give them power to purchase brickyards and make their own materials;

JEAN AND THE TREASURE SHE FOUND IN THE SEA

Jean Tolley, film star, on the steps of the Royal Bank of Canada, in Nassau, just before the pirate chest containing a $50,000 fortune in Spanish doubloons was deposited in the bank vaults to await disposition of the British Government, which exacts a share of all treasure found in its domains. The man in knickers is J. E. Williamson, noted submarine engineer, inventor of the process of photographing pictures under the sea and producer of Metro's "The Uninvited Guest."

LOVE, THE TYRANT

Love, the Tyrant, new serial story, the opening chapters of which appear on page 6 of this issue, will appeal to those lovers of narrative in which action, romance and color vie to hold the attention of the reader from the opening to the closing chapter. Charles Garvice, the author, is well known for the high quality of his works.

ARREST MAN ON ASSAULT CHARGE

Italian Charged With Threatening to Shoot Young Girl

Montreal, Feb. 7.—Arrested by two city detectives, suspected of being the man who threatened to kill a 17 year old girl because she refused to live with him, an Italian was brought to headquarters where he is in a cell awaiting court action tomorrow morning. The young woman lives in the east end of the city and, according to information given to the detectives by her, the man who is alleged to have threatened her life resides in the west end on Lusignan street. A search of rooms occupied by the arrested Italian, resulted in the recovery of a white handled razor with which he is alleged to have made the attempt on the girl's life. The warrant for his arrest was sworn out by the father of the intended victim of an assault and threat to kill if she did not go and live with a man who is now believed to be the prisoner at headquarters. He was placed under arrest this morning.

OPTIMISTIC OF CHURCH REUNION

Archbishop of Canterbury Hopes For Results From Conference

London, Feb. 7.—The movements toward the reunion of the christian churches wer discussed by the Archbishop of Canterbury in addressing the convocation of Canterbury at Westminster this afternoon.

Conference, he said, were steadily taking place at Lambeth between representatives of the Church of England and non Episcopal churches of this country, and before long he hoped for the publication of "results, not merely conclusions". As for union with the Roman Catholic Church the archbishop reiterated that nothing in the nature of negotiations had taken place, nor were such negotiations within measurable distance and therefore there was nothing to make public.

Mr. Morley Welbanks and Miss Bessie, and Mr. and Mrs. Allan Clapp and Mr. George Clapp and Miss Lilliam Heggerty, also Mr. and Mrs. A. E. Phillips were entertained at the home of Mr. and Mrs. Lorne Brickman on Thursday evening.

MOTHER FOUND IN POOR HOVEL; CHILD IS DEAD

Kind Neighbors Save Orland Girl From Miserable Death in Shack

PROBE IS PLANNED

Quick Arrival of Doctor Over Snow - Blocked Roads Saves Life

Orland, February 7.—A case of sordid destitution was revealed when Dr. Rundle of Brighton was called at midnight on Monday to attend a young girl who was living in a hovel on the roadside a short distance from this place.

The child was dead, and the life of the unfortunate mother was probably saved by the prompt and charitable action of some of the neighbour' who had her removed to more comfortable quarters in this village.

The girl's name is Mary O'Brien, and she was living in the shack with a young fellow named Gifford, not much older than herself. Her life story is a sad one, and those who are familiar with it believe that recent developments are the natural sequel to her upbringing and environment.

Some years ago Edward O'Brien and his wife, who were living in Trenton, separated. The mother and her children, three daughters and four sons, continued to reside in that town, but as the boys grew up they left home, and all are said to be doing well. Two of the girls are being cared for in a home at Belleville.

Friendless and Alone.

Mary secured work in a hotel in Trenton and remained there until the early part of the winter, when she unexpectedly appeared here.

Her mother had preceded her to this place, and was living with Mike Ash, who owned an acre of land on the Brighton Road, not far from here, upon which there stands a shanty that is scarcely fit for human habitation. This shanty never fails to excite remarks from strangers travelling on the Brighton Road, and such travellers are slow to believe that such a hovel was occupied by human beings.

Mrs. O'Brien and Ash were living in that shack when the daughter reached there.

Mary went to work in the home of a local farmer, Mr. J. O'Halloran, but left there and took up her abode with her mother and Ash.

The two later left the neighbourhood a short time ago and are now believed to be living in Corbyville.

The unfortunate girl, whose condition must have been known to the mother, was allowed to remain alone to shift for herself. It was then that young Gifford appeared as her companion.

The O'Brien girl was taken ill at noon Monday and Dr. Anderson of Wooler was called. He prescribed for her but at midnight, Dr. Rundle of Brighton,

(Continued On Page Three)

RULES CONSERVATIVES OFFICIAL OPPOSITION.

London, Feb. 7.—The Speaker of the House of Commons, J.H. Whitley, rules that the Conservatives in the House will be recognized as the official opposition and will occupy the seats formerly occupied by the Labor representatives. The Liberal members will sit on the government side of the House but below the gangway or the cross-passage half way down giving access to the black benches.

ACTION TO ANNUL $2,000,000 FIRM

Proceedings Started To-day Regarding Business Directories Ltd.

Montreal, Feb. 7.—Action to annul the Business Directories Limited, a $2,000,000 corporation that went into liquidation in 1921 after taking over the business of the Canadian automatic Directories Limited, was started this morning in Superior Court before Mr. Justice F. Demers. H. Grandbois, of St. Casimir, and J. Coulombe of Quebec east ask that the corporation be dissolved as the charter was obtained under false pretences, the stock subscriptions were obtained by fraudulent representations and the law was infringed before ten per cent. of the capital was paid in.

The claimants had bought stock in the company and had paid in part of their holdings and they ask annulment of the charter to prevent the trustee H. Sumner from calling in unpaid capital. The Company denies each and all imputations.

PETERBORO PAIR ARE IN TROUBLE

Edith Dibble, Who Left Peterboro with Bruce Chambers Will be Deported

Buffalo, N. Y., February 7.—R. Bruce Chambers, 28 years old of Peterborough Ont., who the police say is wanted in Peterborough on charges of forgery and desertion of his wife and child was arrested here late on Tuesday by Detective-Sergeant Truxes.

A nineteen-year-old girl Edith Dibble, of Peterborough, Ont., also was taken into custody by the detective.

The authorities charge that Chambers obtained more than $500.00 by forgeries from the Dominion Express Company, by whom he was employed.

He is also alleged to have deserted his wife and child to come here with the Dibble girl.

Detective Truxes said that the couple have been living in Buffalo at a downtown hotel since 11th of January.

Chambers and the girl were arrested on descriptions furnished the local police by the Canadian authorities.

The police here say that the man induced the girl to come to Buffalo by promising her that she would live in luxury.

CONTINENT IN FURORE; CLEMENCEAU GIVES LIE TO BRITISH EX-PREMIER

Great Britain and France Involved in Charges Made by Lloyd George that Woodrow Wilson and Clemenceau Had Arranged Secret Pact to Occupy Rhineland For Fifteen Years—Many Prominent Figures Involved In Scandal

FLAT DENIAL OF STATEMENTS MADE BY "TIGER" IN PARIS

Bristling Savagely One Minute, Gruffly Good-Natured the Next, "Pere La Victoire" Declares Alleged Statements Are False In Entirety and Utterly Without Any Foundation—Declares Occupation of Rhineland by Troops in Secret is Absurd and Impossible.

(By Lloyd Allen, British United Press Staff Correspondent)

London, Feb. 7.—A tremendous furore swept the British Isles and the continent on the heels of a charge by ex-Premier Lloyd George that Woodrow Wilson and Clemenceau, during Peace Conference days, fixed up a secret pact behind his back whereby the American President agreed to occupation of the Rhineland by French troops for fifteen years.

A sensation such as the Teapot Dome oil scandal stirred in the United States involved one after another of the prominent figures who helped make the Versailles Treaty. The French and British foreign offices were busy beehives, the former issued a flat denial of Lloyd George's charge. The latter put the matter up to the former Prime Minister for further explanation.

INTERVIEW WITH "TIGER"

From Paris came an interview with "The Tiger", Clemenceau denying Lloyd George's assertion. Andre Tardieu, who played a prominent part in Peace Conference proceedings did not know of the pact.

The British Press to-day printed at length everything Washington, New York, Paris and London had to say in connection with the alleged secret pact.

Meanwhile Lloyd George was pressed to produce the pact, or at least to answer the indignant denial of the French Foreign Office.

CLEMENCEAU DENIES ANY PACT WAS MADE

(By Webb Miller, British United Press)

Paris, Feb. 7.—Bristling savagely one minute, gruffly good-natured the next, old Georges Clemenceau, "Pere La Victoire" gave the lie direct to a statement credited to Lloyd George, in an interview in the London Chronicle to the effect that "The Tiger" and Woodrow Wilson signed a secret pact during Versailles days.

"I never signed a secret treaty with anybody. I can't understand Ll. George's object in saying so", Clemenceau growled. Then the veteran statesman of France laughed in his white moustache. "Why," he explained, gesturing expressively with his gloved hands, "let anybody show me any secret treaty signed by me and I'll engage to pay all the reparations myself."

Clemenceau declared the affair "inexplicable". "Evidently", he said, "Lloyd George didn't reflect that Wilson was the only one who could not have signed a secret treaty. He was dependent on Congress. He repeatedly reminded us of that during the negotiations. "Besides, what aim could a secret treaty have had?" he asked. It would have been futile. Was it concerned with occupation of the Rhineland. You cannot occupy such a region and hide your troops. Consequently, such a treaty, had one existed, would have been public property quickly."

Dogs Vamped By Wolves, Leave Their Happy Homes

Olympia, Wash., Feb. 7 (United Press).—Domestic dogs are being "vamped" by she wolves in a number of western states, according to information to the biological survey.

Poisoning campaigns under supervision of the survey have so reduced the number of adult wolves that the remaining animals have been driven to that extremity, declares Dr. A.K. Fisher, who is in charge of the economic investigations of the survey.

Litters of hybred young have been produced in a number of instances, it is said, and the animals have proved equally as destructive as the native wolves.

In one instance, the adventures of "Old Three-Toes," an especially destructive she wolf, were detailed by a rancher in Colorado.

"We hold a private grudge against this old gray wolf," the rancher stated "as she mated with our pet collie dog even going so far as to dig him out of a pen. He heard the call of the wilds and answered it, going off for a few days at a time, sometimes coming home. At last he finally went away for weeks and was eventually poisoned by a government hunter. This was a good thing, as a collie hearing the call of the wild' kills for his young too."

Frowzy Canines Preferred To Children In Montreal

Montreal, Feb. 7.—With the annual hunt for domiciles now under way many complaints are reaching some of the aldermen that barriers are being thrown up by certain landlords against large families occupying their flats or houses. Ald. George Lalancette of Prefontaine ward said this morning that he would bring the matter to the attention of the city council at the next meeting and while he knew that they could do very little in the matter he felt sure that the spotlight of publicity on their lack of humanitarian instincts would probably shame the landed gentry into affording shelter to children.

City officials said that some people prefer dogs, but it was pointed out that as much damage was done to houses by canines as by children and that the kiddies were outclassed when it came to noise. Barring children from flats and houses was another trend of modernism and would eventually prove damaging to Canadian ideals. One of our greatest sources of pride said an alderman, was the fact that there was very little race suicide in Quebec. If landlords started a concerted drive on children they would be held accountable for the serious results.

In New York some time ago a similar drive against large families took place but it soon petered out as these landlords were boycotted, even by those who had no children. At the present time there are landlords in Gotham who give a bonus for every child that is born on their premises and this should be done here instead of trying to stifle population and encourage race suicide.

Let there be harmony in things essential—liberty in things not essential—charity in all.

APPLES ON BRITISH MARKET

In view of some statements which were recently given considerable prominence in the press in Canada, to the effect that "only 10 per cent. of the requirements of the United Kingdom were for the medium and small sizes commonly exported, and that the English housewife naturally prefers the larger sizes," it is, perhaps, desirable that the situtıon in this regard, as far as boxed apples are concerned, should once again be made clear.

Large sizes are considered an advantage in the case of cheaper apples, sold for cooking purposes. But, for dessert purposes, medium sizes, in themselves, and quite irrespective of cost, are generally preferred, the idea being that a large apple is too much for individual consumption at dessert. No one, however, can afford to buy British Columbia applies at 5d. to 6d. or more a pound, for cooking purposes, and, in the case of such expensives apples, cost also, adds it weight in the determination of consumers' size preference. If the consumer is paying 12 cents to 18 cents a pound he feels that he must get several apples for his outlay, and so he calls especially for the medium sizes 150 to 175, and also, prefers even 188 to 213, to larger sizes. The retailer, also, adds his influence to the preference, as he is bound to lose money, in weighing out large sizes, the smaller sizes lending themselves to more accurate scaling.

If evidence of this size preference is required, it will be found in all sales returns from this country, which steadily show the peak of value between 150 to 175, and a regular drop beginning at 138 on the one side, and 188 on the other, the drop being much sharper and more regularly seen in the case of the large than in the case of the small apples. Exhibitors at the Imperial Fruit Show will, also, remember that the judges in the Overseas Section, all members of the fruit, systematically scored down all sizes larger than 150, as not being the "Best Commercial Size," the fine Wealthy [illegible] 104, losing half of the total number of size points on this account.

LIQUOR ISSUE

Premier Ferguson's stand in regard to the O.T.A. as outlined in the Speech from the Throne yesterday, can hardly be criticized by either Temperance advocates or anti prohibitionists. It was simply a clear, concise and judicial view of a man who is capable, in a larger way than others, of feeling the public pulse on a matter that has more diverse angles, for and against, than any other problem.

In declaring that a plebiscite will be held, if demanded by the people of Ontario, he has put the question directly to those who have been loudest in agitating the pros and cons of the situation—"What are you going to do?"

There is no doubt that something must be done in regard to the liquor issue in Ontario. Every day despatches are carried in the news columns of other provinces of the deplorable conditions existing through utter disregard of the law, and big headlines recently were carried in a Chicago newspaper stating the following—"Eighty per cent. of liquor sold in Ontario is Poisonous". It is safe to say that the eighty per cent. mentioned is "Bootleg", and of the "bottled in barn" variety.

Can changes be made in the O.T.A. and it's enforcement that will drive the peddlers of illicit poison from our country? Can we devise some means of protecting our youth from the insidious, despicable tempting to break the law of our country "because it's smart"? Instances of this kind have been brought home to us here in Belleville when only recently boys still in their 'teens have been arraigned on charges of intoxication in public places.

It is now up to the people of this Province to demand protection from this evil. The pulpits, children's Aid Societies, local and provincial organizations, the W.C.T.U. and other kindred organizations have given their best to protect our boys and girls and uphold the law; it is now the turn of the laymen to stand firmly behind the popular government we have placed in office and answer, emphatically, the question—"What are you going to do about it?"

EDITORIAL NOTES

Democracy is enthroned in Japan. A riot has taken place in the Imperial Diet. Countries where constitutional administration is established will, of course, go on kidding themselves that Government of the people is best for all. We agree that this is true—but with certain qualifications.

—o—

Speed the parting guest should be the guiding principle in dealing with those Dukhobours who are itching to go back to Russia. Some people never know they are well off until they renew acquaintance with hunger and privation. A Dukhobour that can't think with his brains can compute and reason with an empty belly.

—o—

That Mr. Ramsay MacDonald's proposal to recognize Soviet Russia holds little terror for the British people, may be seen from this comment by Mr. J. L. Garvin in the London Observer.

Mr. MacDonald's first act will be the recognition of Russia. It is an obligatory step. But delay will have robbed it of most of the significance it would have had eighteen months or a year ago as a stroke of enlightened leadership. If our information is correct, France, using M. Benes as intermediary, has already made Russia a proposal for recognition. It was M. Poincare who principally obstructed the attempts made by the Genoa Conference in this direction. We do not regret the change. We regret only the mixture of prejudice and timidity by which British interests have been made to suffer in a wholly avoidable way.

BOOTLEG CONFERENCE

No Announcement Until Mr. Bureau's Recommendation Fully Considered

Ottawa, Feb. 7—The Canadian cabinet is still considering the recommendation of the Minister of Customs Hon. Jacques Bureau, concerning rum running across the Canadian border into the United States. Meantime no official announcement will be made concerning the results of the recent conference between Canadian and United States authorities on the question.

It is expected that some concessions will be made on both sides to facilitate the administration of the liquor laws of both countries.

Cruise of Squadron

Some Members of R.C.N.V.R. Will Have Nice Trip

The itinerary of the cruise of the British squadron, which will be participated in by a selected number of representatives of the Royal Canadian Naval Volunteer Reserve, is announced. The squadron will leave Victoria, B.C., July 4, and visit San Francisco (4 days), Panama, Colon, Jamaica (4 dys). Halifax (Aug. 5 to 15), Quebec (Aug. 18 to Sept. 2), and the next fortnight in Nova Scotia and Newfoundland waters.

PRESS OPINIONS

INCREASING COSTS

(Flint Journal)

An interesting item of news comes from Kitchener, Ontario. A citizen of that town is a member of the local bricklayer's union. The collegiate board engaged him to teach the trade to attendants in a vocational school, and he has been devoting three nights a week to that work. His union fined him one hundred dollars on the charge of "selling the trade," and ordered him to appear before it if he had any protest to make against the fine. He failed to appear and the union added twenty-five dollars to the fine, making a total of one hundred and twenty-five dollars.

The item has infinitely more interest from an economic point of view than as an instance of union labor discipline. Of course the object of the latter is to restrict the number of skilled mechanics in order to maintain a higher average wage. But suppose the same policy were adopted by all other trades—by roofers, plumbers, furnace setters and builders, window glass makers, and all the other mechanics engaged directly or indirectly in the construction of a building?

The inexorable consequences would be an increase in the cost of the building. If the latter were used, say, for a retail store, then each item of merchandise sold therein must bear its proportion of the increased cost which must be paid by the consumer. If a building were a dwelling house intended for rent, then the increased cost is included in the monthly rental. But extend the policy to garment makers to shoemakers, to coal diggers and to producers of foodstuffs. Again the increased cost is added to the necessaries of life, which must be paid by mechanics as well as by everybody else.

If a builder cannot make a profit out of his enterprise he will not build, and that profit can only be made by adjusting the price of his service, products and rentals to the original cost of conducting his business. Prosperity consists in abundance of consumable or usable things, not in scarcity and high cost.

INDISPENSABLE

(Hamilton Herald

While the body of Nikolai Lenine lay in state, the Holy Synod of the Russian Church met for the purpose of declaring him a Christian, in order that masses might be said for his soul. That was because the Soviet premier, altho he had persecuted the church in his lifetime and his followers called Christianity "the opium of the people," was beloved of his countrymen, and it was thought that they should be made to feel that all is well with him in the hereafter.

No government can displace religion nor can reason take the place of faith. Man, whose life is like a bird which flies into a lighted room from the darkness and out again, must have something to hold to. In the midst of things that he cannot understand, he must have his faith. It is indispensable.

AMERICA'S NEED

(Boston Transcript)

Emigration from Canada to the United States is very heavy just now particularly from the northwest, and it is the aim of the Canadian authorities to replace it with immigrants to the Dominion from Great Britain. Canada remains, quite happily for us a great "incubating ground" for good American citizens, and most Americans are willing to see the process continue.

It is true that there is now before Congress at least one bill to put upon Canada a limitation which will be equivalent to the restrictive percentage enforced in the case of immigrants to this country from Great Britain, but it is hardly to be supposed that such a bill will become law. We need Canadian enterprise, Canadian thrift and Canadian brawn in the United States.

STRIKE AT ABUSE

(London Chronicle)

We think it is generally agreed that tho the Prohibition law is constantly evaded and mocked at, none the less it has vastly reduced the national consumption of alcohol. But in America there is a growing alarm at the contempt for law which the easy and often habitual breach of this particular law is engendering in American society.

It is questioned whether this weakening of the law-abiding sense is not more harmful than the evil at which the prohibitionists aimed. The experience of America is likely to lead English reformers in another direction.

The drink trade must be controlled and far more stringently; but it is more likely to be effective if we strike, not at the moderate use of alcohol, but at its abuse. That is what the Carlisle experiment aimed at, and within its limited area it has achieved success.

NATURAL PHILOSOPHY

"Nature is a grand thing," said Jones. "It is wonderful to think of how nature brings the seed to shoot to plant, the plant to bud, the bud to blossom and the blossom to fruit."

"Yeah," said Bingham, "you're right. An' didn't nature act sensible when it put four legs on a quadruped to'd t'hold up all th' corners!"

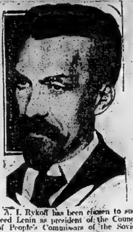
Appropriate Selection.

The concert last evening in aid of the hospital was a great success. Among the soloists was the town undertaker, who sang "I'm Waiting For Thee."—Wexford Chronicle.

How Did He Explain It?

She (tenderly)—"And are mine the only lips you have kissed?"

He—"Yes, and they are the sweetest of all."—Columbia Jester.



A. I. Rykoff has been chosen to succeed Lenin as president of the Council of People's Commissars of the Soviet Government.

Short Drives, Long Waits

Passenger Must Pay $18 for Using Taxi Seven Hours

Toronto, Feb. 7.—According to the story told by the driver of a taxi owned by Stephen's Garage and Livery, when George Faulkner was a passenger, the meter was not over-worked ticking off the miles. The seven hours during which the car was hired were spent in short runs and long waits while the passenger visited at addresses on Sherbourne, Harbord, St. Patrick and other streets.

"I will not ask for any of the numbers," said Judge Morson, before whom the Stephen's Co. sued for $22 in the Division Court.

"What rate did you charge this man?" asked the Bench.

"Three dollars an hour," replied the driver.

"Be careful," said his Honor, who as a Police Commissioner has to do with fixing cab rates. "Does not the rate decrease after the first hour?"

The plaintiff showed that the charge was legal, and although Faulkner thought $10 would be sufficient, judgment was given against him for $18 and costs.

WEST LAKE

Mrs. A.Benham's many friends are glad to know she is able to be around again.

Miss Florence Heffer returned home on Sunday after spending a week with friends at West Point.

The remains of the late Bethshebe Jackson were laid to rest in the Deiph cemetery here on Tuesday. The funeral service was conducted at the home of her daughter, Mrs. Byron Ryckman. Mrs. Jackson was in her eightieth year. Her husband, Mr. Edgar Jackson, predeceased her several years ago. She leaves to mourn her loss, five daughters, Mrs. W. G. Tozer, Mrs. Byron Ryckman, Mrs. Ben Payne, Mrs. Peeling and Miss Flossie, also four sons, J. Jackson of Plainfield; Will Jackson, of Wellington; Earl, of Detroit; and Leslie Jackson, East Lake; who have the sympathy of the neighbourhood in their loss.

Miss Flossie Jackson returned to Toronto on Saturday.

The Tugwell family have moved into A. P. Hyatt's tenant house.

Mr. and Mrs. Robt Irwin visited at Mrs. Oscar Benham's Wellington, on Thursday.

Took Number of Note

Police Expect to Trace $1,000 Bill Stolen from Premier Taschereau

Quebec, Feb. 7.—The thousand dollar bill which was stolen from Premier Taschereau in Montreal over the week-end was one issued by the Bank of Montreal and the serial number has been forwarded to banks as well as to other places, where attempts to cash it might be made, so that it will be very difficult for the author of the theft to exchange this bill. A trail is now being followed and the police have adopted a theory which is expected to lead to an arrest within a few days.

BARRACKS DAMAGED

Kingston, Feb. 7.—The centre portion of the stables at Tete de Pont Barracks was badly damaged by fire which broke out at an early hour yesterday morning. After about five hours work the firemen had extinguished the flames, but not before the centre part of the building was badly gutted. A portion of the roof was burned and a quantity of hay stored in the second floor of the building was destroyed. When the fire started, the horses, which were located on the right and left of the portion of the building which was destroyed, were taken to outside stables.

RUB CHEST COLDS AWAY: STOP PAINS

Pain and congestion is gone. Quickly?—Yes. Almost instant relief from chest colds, sore throat, backache, lumbago follows a gentle rubbing with St. Jacobs Oil.

Rub this soothing, penetrating oil right on your chest and like magic relief comes. St. Jacobs Oil is a harmless liniment which quickly breaks chest colds, soothes the inflammation of sore throat and breaks up the congestion that causes pain. It never disappoints and does not burn the skin.

Get a 35 cent bottle of St. Jacobs Oil at any drug store. It has been recommended for 65 years.

Music & Drama

A picture that ends with a dash o speed that it almost leaves one breathless, opens at the Regent Theatre today. I tis "Pur eGrit" a western feature dealing with life in the southwestern range country. A girl is shown in a buckboard drawn over the rocky mountain road by a runaway horse. One of the big thrills occurs when the buggy takes a couple o curves overhanging a cliff on two wheels with the girl clinging desperately to the back of the seat when she is rescued from the rig.

Roy Stewart is starred in the production in the role of a Texas Ranger. Outdoor characters seem to be just the roles for him.

The story is simple and direct built around the romance of the Ranger and the district school teacher, but there is plenty of adventure woven into the theme to make it dramatically interesting.

A big feature in the picture is the fight that ensues at a little cabin after Stewart overtakes Jim Austin, in the role of the escaped convict who [illegible] as her brother, who is fleeing with the school teacher in the hope that he would get over the border In the terrific fight that results the cabin breaks into flames the men slug each other which gives the school teacher an opportunity to break thru a window and escape.

Two comedies and a news picture rounds out a pleasing performance.

In six days the new Goldwyn picture which opens at the Griffin Theatre tonight and is to be shown for balance of the week, was written by Elinor Glyn author of the sensational story "Three Weeks". tells one of her most original and colorful stories.

It has bold drama, swift action, with characters all drawn in bold relief. There are thrilling episodes and spectacular events in this screen story which was directed by Charles Brabin the man responsible forDriven and one of the ablest directors in filmdom. He has made of the Elinor Glyn story a picture that enthralls the interest from start to finish, that is entirely credible in atmosphere and in action, and realistic in characterization. The story is too complicated to be told here in detail and such a telling would lessen picturegoers pleasure in seeing it unreeled, a suspense is admirably maintained. The photography is clear with many extraordinary beautiful shots an dthe story is one sur eto appeal to every taste.

Corinne Griffith, one of the popular screen stars of the day is seen at her best in this picture.

Frank Mayo who has been starred in many big pictures is featured along with Miss Griffith in the role of her lover. It is one of the best pictures to play the Griffin Theatre this season and no one should miss the opportunity of seeing it.

Tonight a twenty piece orchestra will render a special musical setting for six days and also play latest Jazz numbers.

"Greatest Medicine In World"

So Says Mr Pearson After Terrible Digestive Sufferings Relieved by Dreco. Mr. Pearson Declares He Spent Hundreds of Dollars Vainly Trying to Get the Help Two Bottles of Dreco Brought Him.

"For over four months I haven't been able to walk down town," says Mr. William Pearson, of 65 Bethune St., Peterboro, Ont., "and it has been over two years since I did a day's work. My digestive system was a wreck.

"I would get such severe pains through my stomach and sides that I couldn't move and I also had awful bilious and vomiting spells, followed by headaches that would last for days. Every particle of food I ate disagreed with me and my entire system became run down for lack of proper nourishment.

"My kidneys were in bad shape and I would get severe pains across my back and I had to keep continually taking laxatives to move my bowels. I guess during those two years of misery I must have spent hundreds of dollars on medicines, but got no relief till I tried Dreco.

"Dreco is the great medicine of the world. Every pain has left me. My appetite is better than for years and my food agrees with me perfectly. My bowels are regular every day and I feel like I am living in a new world."

Dreco contains no mercury, potash or habit forming drugs. It is a reliable tonic and corrective for digestive disorders made from the juices of twelve medicinal herbs, roots, bark and leaves.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy, and is sold by a good druggist everywhere.

Her Daily Dozens

Though she came well recommended,
  Though she's never-prone to shirk,
O Lord, she has me raving
  Like a Hotentot or Turk!
I would fire her to-morrow
  But for her appealing way,
As she does her daily dozens
  In my office through each day.

When she's taking down dictation
  She's as eager as you please,
And her fingers are rose petals
  As they dance across the keys,
But when I review her copy,
  Lord, my being fairly quakes
As I glimpse her daily dozens—
  Daily dozens of mistakes!

—E. D. K.

Thrift

"I fear Helen is going to marry a very stingy man."

"Why do you think so?"

"She suggested a morning wedding, but he said to make it after lunch, on the ground that she would get one more meal at home."—Boston Transcript.

Block Out The Auto Thief And Accidents Will Drop To Half

Such is The Opinion of Those Now Seeking Amendments to Quebec Civil Code—Present Situation in New York State Offers Some Close Parallels

Montreal, Feb. 7.—To reduce automobile thefts is to cut down auto fatalities and accidents. Such was the statement made today by certain members of auto and insurance interests that went to Quebec in an effort to secure sterner legislation against auto thieves. They said that while the reduction sought in car thefts is an end in itself it will also, automatically, trim down the number of accidents, as many of these occur in attempts at a get-away. In fact they estimate that such accidents would be diminished fifty per cent.

In view of the seriousness of the present position and the urgent need for new safeguards, the trade is watching with the keenest interests efforts now being made in New York State to overcome practically the same problems that face Montreal. A number of Bills being presented at Albany just now cover a large ground, but perhaps a short summary of certain main points may be of interest:

Amendments tending to curtail auto thefts provide for a certificate of title as a condition precedent to registration, and make it a felony punishable by $1,000 fine and ten years' imprisonment to transfer the ownership of a motor vehicle without an assigned certificate of title. In addition to existing penalties for the larceny or unauthorized taking of property, the possession of a motor vehicle known to have been stolen is made a felony.

The sale of a motor vehicle, with a changed engine number, except under conditions prescribed in the Act is made a misdemeanor; and the wilful removal or defacement of a special engine number designated by the Commissioner in place of the original number is made a felony.

All Sheriffs, police officers and other peace officers are required to report to the Motor Vehicles Commission at least once a month the stolen and recovered cars of which they have knowledge.

To facilitate the enforcement of the Act and to expedite the issuance of licenses and registration of title certificates, the Commissioner is authorized to deputize such officers of motor vehicle clubs as he may deem necessary for any of these purposes.

Successful Tests Made

The provisions of the new Motor Vehicles Bill relating to the prevention or reduction of theft provide for a certificate of title which is practically the same law now in operation in the State of Michigan and several other States and similar to the law which has worked so successfully in the State of Maryland where last year over 90 per cent. of the stolen cars were recovered and insurance rates reduced 20 per cent.

The experience in every State which has a certificate of title law has been great reduction in the number of thefts and also a great increase in the recovery of cars that have been stolen. In New York State last year over 12,000 automobiles were stolen, many of there stolen cars contributing to the fatalities by reason of the number of accidents in which stolen cars were involved, largely due to the reckless haste of the thief in attempting to cover his tracks. The bill provides a penalty for the delivery or acceptance or transfer of a motor vehicle without an assigned certificate of title which makes such action a felony punishable by a fine of not less than $100, nor more than $1,000, or imprisonment of not less than two or more than ten years, or both.

These suggestions, among others have the approval of the Legislative Service Bureau of the Merchants' Association of Greater New York and are being studied with close interest by the Merchants' Association of Montreal whose Auto Theft Bureau works in close co-operation with the insurance companies here.

Mother Found

(continued from page one)

eight miles away, was summoned. For a doctor or anyone else to travel even a short distance through the storm and over the blocked roads, was a serious problem.

But the child was dead and the mother, too, was at the point of death. A kindly lady from Orland, who had heard of the case, went to the home and did what she could for the girl whose condition was pitiable in such a situation. Later she was removed to a house in Orland. When she has sufficiently recovered to give information to the authorities a thorough investigation of the case is likely to be made.

LITTLE CHILD LOST IN FIRE

Mother Unable to Drag Girl to Safety and Found Unconscious

Quebec, Feb. 7.—A grim tragedy was enacted at 26 Champlain Market Place this morning when a baby girl named Jacqueline Blouin lost her life in a fire which threatened the lives of a large number of tenants. Mrs. Blouin has brought one of her children to safety and had returned to the blazing house for the infant when the dense smoke overpowered her. She succeeded in reaching the child but was unable to carry her out to the street. The mother was found unconscious shortly afterwards with the dead child lying beside her.

The poignancy of the discovery lies in the fact that it was made by police sergeant Blouin, a brother of the dead child.

Mr. W.H. Nugent, County Clerk is in Toronto attending a meeting of the executive of the Municipal Association of which he is a member.

MAGISTRATE GIVES YOUTH A CHANCE

The local youth charged with breaking and entering the office of the Essex garage one week ago, appeared before Magistrate Masson today and the case was laid over for one month to give the youth a chance to go to work. C.A. Payne appeared for the accused.

It was shown at the trial that accused had gone around to the garage office to collect some money which he had previously loaned to former driver whom he was told was at the office then.

"I walked around to the garage and entering, called the man's name as I entered," he explined to The Intelligencer this afternoon. "Two police officers who I noticed following me, then placed me under arrest," he added. The office which the accused was charged with breaking and entering is always left unlocked, according to his story, and was not locked on the night of his arrest.

Had Him There

Lawyer: "Tell the court exactly where you were on the 20th day of said month at 5.30 in the afternoon."

Defendant: "I was on the corner of Second and Main streets asking a man a question."

Lawyer: "Ah-ha! But how do you know it was exactly 5.30?"

Defendant' "Ah-ha yourself! The question I was asking him was what time it was."—American Legion Weekly.

Obituary

MRS. WM. O'SULLIVAN

Mrs. William O'Sullivan, a resident of Tyendinaga Township, died at Smith's Falls last night. Deceased was about 35 years of age and had lived all her life in Tyendinaga. She was a member of the R. C. Church. A husband and family survives. The body was brought to this city this afternoon and taken to her late home.

The Letter Box

THE RETURNED SOLDIER

It is well-known that many of our boys who went overseas returned in a badly crippled condition.

It must be humiliating to men of such spirit when helpless to have to ask for help.

The excellent entertainment given on Sunday evening in the Opera House for the purpose of raising money to help the returned unfortunate soldiers was highly appreciated by 1300 people.

It is hard to believe that 1300 people contributed only $70.00; half of this amount was required for printing and other expenses.

The burden of helping the crippled and helpless returned soldiers is borne by the G.W.V.A. and ample funds should be at their disposal for this purpose.

I firmly believe that if this matter were placed before our good citizens by your paper they would freely and generously respond.

OLD SUBSCRIBER.

Unique Case In Admiralty

Montreal, Feb. 7.—In one of the first actions of its kind to be heard in the local admiralty court the S.S. Tiverton was condemned to pay $4,455 t othe town of Weston, Ontario, for 417 tons of coal that were missing when the ship arrived at its destination. The plaintiffs alege that 4,400 tons of coal was shipped at Cardiff, Wales, the freight and customs being paid, but when the load arrived it was short the above amount.

The consignees alleged that the missing coal was used in the bunkers of the ship en route but the defendants produced a statutory declaration that there was no specified cargo mentioned on the bill of lading which bore the words "weight unknown". The master of the ship said the coal was weighed at shipboard and a full cargo had been loaded, that is between 4,000 and 4,400 tons.

The court maintained the claim for damages as to short weight but did not allow the claims for excess weight or duty, which might be collected by draw back from the parties concerned.

TWO MEN HAVE NARROW ESCAPE

Stout Pair of Reins and Prompt Action Saves two From Train Wheels

Toronto, Feb. 6.—A stout pair of reins and the promptest kind of action is all that saved R. E. Harpell and Percy Ball of Cataraqui and a team of horses which Harpell was driving, from being carried directly into the path of the eastbound C.N.R. flyer at the Cataraqui crossing shortly after one o'clock yesterday. Their escape was so narrow that the train officials were under the impression that they had been caught and they stopped the train and backed up to the crossing to investigate.

Blinding Snowstorm

Mr. Harpell and an employee, Mr. Ball, were proceeding from the city to Mr. Harpell's home in Cataraqui, and though they listened and watched as they approached the crossing they could neither hear nor see the train in the heavy storm which was blowing. It was the whistle which warned them just as the engine plunged out of the white storm blur. The horses were within a few feet of the rails at that moment, but both men pulled hard on the reins, which fortunately held, and enabled them to throw both horses sidewise clear of the train. Fortunately also the animals lay quiet while the train passed, for had they attempted to rise they undoubtedly would have been caught under the passing wheels and drawn into the train which was travelling at well over forty miles an hour. It took but a few seconds for the train to pass, and it was with great relief that the two men then assisted the horses to their feet. By that time the train had been stopped and had been backed up and the relief of the members of the train crew was as great as that of the fortunate drivers.

Ask Sentence Be Commuted

Montreal, Feb. 7.—D. J. MacAvoy, K.C., returned to Montreal this morning from Ottawa where he visited the Hon. Mr. Lapointe Minister of Justice in an effort to have the sentence of death, pronounced on Walter Muir, commuted to life imprisonment.

Walter Muir condemned to be hanged April 4th for the murder of J. Laviolette at the Windsor Hotel, Valleyfield last August, had a champion in the person of his mother, Mrs. W. Muir, of New York, who called on Mr. MacAvoy to intercede on her son's behalf. The grounds put forth for a commutation to life imprisonment were stated to be no premeditation on the part of the condemned man to kill as he did not know the victim, and the shooting was done in the heat of passion.

Shoots His Young Wife

Romance of Young Eastern Townships Girl Ends in Grim Tragedy in Pennsylvania Home

Stroudsburg, Pa., Feb. 7.—Eli Everitt, 65, shot and killed his wife, Hattie, 23, and then turned the gun on himself at their home in East Stroudsburg today. The double tragedy followed a violent quarrel, one of a series that had been going on for some time. Mrs. Everitt was a Canadian.

Everitt had been married three times. His first wife died. He divorced his second, and the third marriage was the result of a romance in the Eastern Townships of Quebec, where Everitt went to secure trees to cut for Christmas trees.

Everitt was a pioneer in the tree-cutting business. While in Magog, Que., two years ago he met the girl who was to be his third wife. She had just turned 21, and was very pretty and vivacious. She was the daughter of Mrs. Wesley Cox, who later came here to make her home.

The killing occurred in the bedroom of the Everitt home. The married life of the pair had been unhappy.

POLICE BOOTHS TO GUARD CITY EXITS

Toronto, Feb. 6.—Police booths are to be erected on a dozen of the main roads leading out of Toronto, if Chief Dickson's recommended appropriation for the innovation, passes the commissioners. The booths will be manned by motorcycle police, armed with shotguns, who will be in telephone communication with headquarters. In the event of bandits breaking loose they will be notified, and act as a guard to prevent escape from the city by auto.

About the easiest way to settle an argument is to shut up.

How It Is Done

To bring out the delicious flavor of Quaker Oats, it is necessary to cook them in a Double Boiler, and the Quaker Oats Company is making it easy for users of Quaker Oats to obtain one of these cookers.

For eight days in this city they are offering the Quaker Oats Double Boiler, made of high-grade aluminum, at less than cost. The special offer will remain open till a week from Saturday night. Look for the window displays of grocers who have these Quaker Double Boilers in stock.

Quaker Double Boilers should not be confused with "seconds" in aluminum ware which are frequently offered at reduced prices. These cookers are made to the order of The Quaker Oats Company by a leading Canadian manufacturer, under a contract which provides that every article shall be first-grade, 99% pure. No finer aluminum is sold in Canada.

The Quaker Oats Double Boilers hold two quarts. They are useful for every boiling and stewing purpose. In the usual way, they would cost at least $2.50.

The elimination of the hulls in the milling of rolled oats has always been a problem to manufacturers. The Quaker Oats Co. recently perfected a process which eliminates practically every hull. To those who do not use Quaker Oats, the present is a good opportunity to find out how good rolled oats can be. If you secure the Quaker Oats Double Boiler on this special offer you will learn that Quaker Oats are almost entirely free from bothersome hulls, and you will enjoy the delicious, nut-like flavor of the Oats. The double boiler cooks the oats thoroughly without burning.

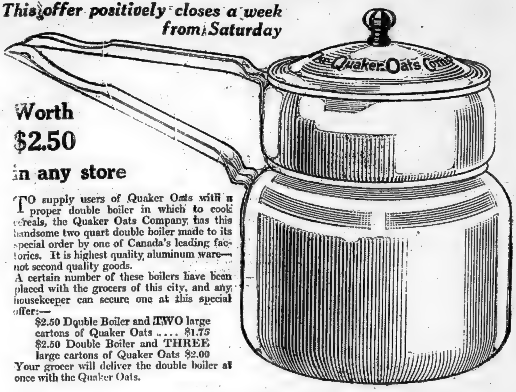
Quaker Oats Double Boilers will be delivered by your grocer during the special offer. There will be no waiting to secure them. But after this special offer is closed, no boilers will be procurable except in the regular way.

QUAKER MAKES WONDERFUL OFFER

To the Housekeepers of this City

Your Grocer will give this PURE ALUMINUM DOUBLE BOILER at less than half its cost

This offer positively closes a week from Saturday



Worth $2.50 in any store

TO supply users of Quaker Oats with a proper double boiler in which to cook cereals, the Quaker Oats Company has this handsome two quart double boiler made to its special order by one of Canada's leading factories. It is highest quality aluminum ware—not second quality goods.

A certain number of these boilers have been placed with the grocers of this city, and any housekeeper can secure one at this special offer:—

$2.50 Double Boiler and TWO large cartons of Quaker Oats	$1.75
$2.50 Double Boiler and THREE large cartons of Quaker Oats	$2.00

Your grocer will deliver the double boiler at once with the Quaker Oats.

Get your Double Boiler Early

Thousands of housekeepers in all parts of Canada are using the Quaker Double Boiler, and all are enthusiastic about it.

It is one of the most useful of kitchen utensils—it can be used for every boiling and stewing purpose.

Order YOUR Quaker Oats and your double boiler tomorrow. Remember the quantity of double boilers allotted to this city is limited, and the offer positively closes a week from Saturday.

If you are using Quaker Oats, get one of the Quaker Double Boilers and see how it brings out the full flavour of the oats. If you are not using Quaker Oats try them on this special offer. You'll know how good porridge can be when boiled in the right way, and you will know how free Quaker Oats are from bothersome hulls.

A picture of a kilt-clad Highlander, standing on the peak of some rocky crag in high Caledonia, with wisps of cloudy fog veiling the bright Tartan colors. The Scot is a hardy man, worthy scion of generations of hardy people, and his bowl of "porrige" is his daily bread. way of making "porige", it will be hard to make them understand how ground oats, flavored with a pinch of salt, and cooked until thoroughly softened could be so tasty. The majority of oatmeal users in England and other parts of the world have found that they could not get along without their "sweetening and milk, but oats, one of the most nutritive of known grains, has a natural sweetness of taste that the Scotsman takes full advantage of.

The first known people to have used oats in an extensive way were the Egyptians. Discoveries in the tomb of Tut-Ankh-Amen, the Pharoah who died over three thousand years ago, show that oats, in various forms, were used by rich and poor alike.

Traces of the use of oats in ancient Rome and Greece have been found in scanning the incomparable bas-reliefs and harvest freizes in still standing ruins of the age of sculpture. It can well be imagined that the mythical heroes of Greece such as Thesis, Hercules and others, made ready the day with a steaming bowl of porridge.

Coming down to more modern times, the hardy pioneers and conquerors of the Middle Western plains in the days of the gold rush found oats among the necessities of existence. The keeping quality of the grain made it of great value in making the long marches across vast areas far from habitation other than the domain of the Indian.

The modern method of rolling the grain preserves the nutritive quality in a way not known by the ancients, and the variety of tasty dishes that can be prepared to please the appetite of the most fastidious are without number.

Locals Are Leading In Play-OFF Series

Local Intermediates Led By Bill Green Defeat Peterboro In Whirlwind Game at Arena

Visitors Forced to Take Short End of 5-3 Score—Game is Fast and Clean—Belleville Defense Baffles Onslaught of Peterboro'

Those who failed to be in attendance at the Arena last night missed more than a mere hockey game; they missed seeing one man hold an entire team at bay, score three of the five local goals and stand up under punishment and the killing pace set by the fast visitors and come back asking for more. Bill Green, local defense man extra-ordinary, certainly gave the fans something to remember long after this season's hockey has become a memory. Bill played goal, forward and defense all rolled into one. Many times the fast Peterboro' forwards would come flashing down the ice with only Bill to beat, stick-handling like champions, only to find that they had two goalies to beat.

Falling flat on the ice, batting the puck like a baseball with his stick, catching them on the fly no matter how hard they were driven, he put up an exhibition of defense play that has seldom been seen in amatuer hockey or any other, for that matter.

Peterboro and Belleville Intermediates gave the eighteen hundred fans present last night a treat in the way of fast hockey. Belleville won, 5 to 3, and are two goals ahead in the home-and-home series to decide which team plays in the O.H.A. semi-finals. It was a nip and tuck battle from the tap of the gong, both teams going at top speed and giving all they had to put in the deciding goal. Very little rough play was evident, the visitors playing a clean game and using straight hockey throughout.

Peterboro' Good Team

Peterboro' has reason to be proud of their team. They are fast breakers, can stick-handle, and their combination was pretty to watch. Ronger and Burgess made a pair that needed to be watched during the entire game. Ronger scoring two of their three goals and Burgess was like a flash on the ice, his pokechecking breaking up the Belleville play many times.

Parker and McMartin are a fine defense pair, their work throughout the game showing style and finish that was a big factor in holding the score down. With a goalie as good as Dwyer backing up this pair it takes some real hockey to get goals.

Collins in centre stood up well under the heavy going and only the fact that he was facing the unbeatable Hagerman prevented him from showing even better. Jacobi, Halpin and Rose were very fast in carrying the puck, Rose finally beating Nurse with a corner shot for Peterboro's third goal.

All Were Stars

Now, to tell who were the stars on the Belleville team. They were Green, Nurse, Finkle Frechette, Weir, Whalen, Hagerman, Canning. Green of course, stood out like a super-star, but every one of the team was in there fighting.

Nurse played a fine game; his goalkeeping had the fast Peterboro' line completely baffled and those who managed to get around Green and Finkle were turned back so neatly that even the most difficult stops were made to look easy. Any shot that beats Nurse is labelled a goal before it leaves the stick.

Finkle Tries Hard

Finkle played his usual whole-hearted game and only the hardest kind of luck prevented him from getting more than the goal he registered. That goal certainly was a new one on the fans. Slipping from the Belleville defense line and weaving his way through to the Peterboro' defense, he slipped, lost the puck, whirled completely around and back-handed it into the net before the surprised Dwyer knew what was happening. It was a fine example of fast thinking and head play.

Frechette came into his own last night, and made life miserable for the Peterboro' hopefuls. They never knew just when and how he managed to get the puck away from apparently a clear field, but he was there, somehow. His goal was the result of a pretty piece of stick-handling and well-earned, the puck being rifled into the corner of the net without a chance to save.

Weir's poke-checking drew cheers from the fans time and again; it seemed one minute the puck was safely ensconced against the visitor's stick, the next minute sailing back to their own defense.

"Centre Defense"

Hagerman might well be called the 'centre defense' man. He was trying all the time and was in the Peterboro' end of the ice most of the evening. Only the fine work of the visitors' defense prevented him from chalking up on the score sheet and it is fairly safe to say that he has several goals he is waiting to let loose in Peterboro.

"Daw" Proves Worth

"Daw" Whalen has improved so greatly in the past few games that he would fit in on any hockey team. He was unable to slip one past Dwyer last night, but that gives no indication of how much of a factor he was in the local victory. "Daw" gives as good as he is sent and is grit clear through.

Canning's good work was a surprise to those who have not seen him in action, and proved valuable in keeping the team at full strength, no matter whom he relieved.

First Starts Slowly

The first period started slowly, the teams seeming to be feeling each other out. After a minute of play, Frechette broke loose and missed netting a goal by the narrowest of margins. A few seconds later he duplicated the play but Dwyer was on his good behavior and again saved. The Peterboro' team was frequently called back for offsides and warned several times.

Bill Green announced his presence on the scene by throwing a fine scare into the visitors by going through the entire team, only to be blocked at the goal. Ronger took the puck and passing to Burgess, carried the puck to Belleville territory and scored from a wild scramble in front of the local net. Nurse fought hard to be everywhere at once but Ronger managed to push the puck through.

Green Saves Goal

The Belleville goal was attacked again a minute later but Green proved defense and goalie combined and saved an open net. "Sixty minute" Weir was given his first voluntary relief of the season, and Whalen appeared on the scene. The steady bombardment of the Belleville goalie seemed to wake the locals up to the fact that they were in for a real battle. The bell rang on the Peterboro goalie making desperate efforts to see how tall he was on the ice, horizontal.

Real Battle Starts

The second period had hardly gotten under way before the fans realized that the teams were giving all they had; Peterboro to add to their one goal lead and Belleville to break into the score column. Ronger and Hagerman were issued free passes to the penalty box soon after resumption of hostilities; then Frechette ripped his way through the line for Belleville's first goal. It was a pretty play and the shot was dead into the corner.

Frechette and Collins had a mild argument and were given two minutes in the box.

Green Scores

Green then stepped out to win the game and flicked the puck into the net through the entire Peterboro' team. How it got through the tangle of players was hard to see but when the goalie finally 'got out from under' the disc was in the net.

Hagerman and Finkle were given penalties and with only four men on the ice things looked pretty blue for the locals. Green secured the puck behind his own net, and slipping away from the scramble, he began to weave his way to centre ice with the fans begging him to shoot the puck down the ice and delay the play as much as possible until the penalty time had expired. Bill thought otherwise, however, and nursing the puck through the defense scored his second goal. It was the prize play of the night and it will be many moons before another like it will be seen.

Takes Hard Fall

Green took a hard fall a minute later in saving his net, and was laid out for a few seconds. However, he was up and ready before any thought of relief.

Rose and Halpin were sent to the penalty box and with the teams playing four men on the ice, Ronger went through for his second tally. It was a hard shot and well placed. The bell rang with Belleville again besieging the Visitor's citadel.

Green Again Stars

Green, in the third period, proceeded to make hockey history in how defense should be played, and the desperate efforts of the Peterboro' team to overcome the local's lead were useless against his great playing. When he couldn't reach them with his stick he threw himself full length on the ice and blocked the path to the goal. Not once, but many times.

Finkle, making sure of the game, made his contribution to the score sheet when he played his new 'whirl-around' shot. Some time was taken out to discuss whether the goal should be allowed but the disc was clearly in the net and no other decision could be rendered.

Rose Scores

Rose scored the final Peterboro goal in an easy fashion, following Whalen's trip to the penalty box; slipping his way through the defense, he neatly dropped the puck in the corner.

Green then showed the visitors how real stick-handling is done and flashing down the ice, drew the goalie to one side, slipped around him, and tallied number five for Belleville. It was an unusual play and the final bell rang as the referee's hand went up, announcing the goal.

The Line-Ups

Peterboro'—Dwyer, goal; Parker and McMartin, defense; Collins, centre; Burgess and Jacobi, wings; Halpin and Rose, subs.

Belleville—Nurse, goal; Green and Finkle, defense; Hagerman, centre; Weir and Frechette, wings; Whalen and Canning, subs.

Herb. Matthews Good

Herb Matthews, former St. Micheals star, refereed the game in a fine way, and nothing escaped him. A good many plays were started for the goal net, but if any offside or play not in the book occurred, he ruled without fear or favor. The teams were fortunate in securing him.

ON THE ALLEYS

At the Y.M.C.A. alley last night the High School and Originals, two lady teams, battled for supremacy. The result was a win for the Originals by a fair margin. In the first two games the High School girls had a slight lead, but in the third game the Originals had a decided advantage and won out by over 100 points. The players and scores were as follows:

High School—			
Miss McArthur ..	72	118	109—299
Miss Sidenius	116	119	77—312
Miss Horrigan ..	106	106	66—278
Miss Potter	103	78	102—283
Miss Whalen	119	128	95—342

HOCKEY HISTORY IS BROUGHT TO MIND

Hockey history of interest was brought to mind at the arena here last night when Peterboro Intermediates clashed with the Thomas crew. Two players who figured on the Sarnia Intermediate squad who won the Provincial championship in 1915-16, were last night of the players on the Belleville team of 1915-16 (the team which Sarnia ousted for the laurels) was also seen in action, still playing for Belleville.

In 1915-16, Dwyer, net guardian for Petes was Captain and goaler of the Provincial champions, and Halpin also played on that team. Both these men were on the ice for Petes last night. Bill Finkle defence man for the locals, played for the runners-up that season, and he was in action last winter. the Bay of Quinte league this winnight also. It is quite likely that two members of the old Belleville team (the only two of the old team except Finkle) saw the game from the rail. Those two men are Ted Whalen and Sammy Symons both of whom are playing with the 34th battery team in

In passing it might be stated that Belleville fans proved themselves to be "Just real good sports" last night. The appeal for no smoking in the arena was surprisingly well respondedto, many men going outdoors between periods to smoke, out of consideration for the players. A huge sign placed on the ice between periods and the gentlemanly requests of police officers reminded the very few who forgot themselves, and the results were excellent. It is to be hoped that the practice will continue.

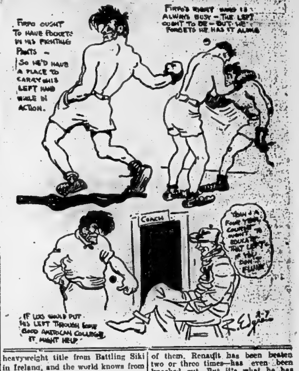
SPORTS THROUGH EDGREN'S EYES



FIRPO OUGHT TO HAVE POCKETS IN HIS FIGHTING PANTS — SO HE'D HAVE A PLACE TO CARRY HIS LEFT HAND WHILE IN ACTION.
FIRPO'S RIGHT HAND IS ALWAYS BUSY — THE LEFT OUGHT TO BE — BUT HE FORGETS HE HAS IT ALONG
COACH
YEAH A FOUR YEAR COURSE MIGHT EDUCATE THAT LEFT — IF YOU DON'T FLUNK
IF LUIS WOULD PUT HIS LEFT THROUGH SOME GOOD AMERICAN COLLEGE IT MIGHT HELP
R. Edgren 2-7

I think that right now, Renault would give Tommy Gibbons a tough evening, might introduce Firpo to the floor a few times, and might be able to beat Wills. Incidentally he might give Dempsey as hard a fight as any of them. Renault has been beaten two or three times—has even been knocked out. But it's what he has done since that time that counts.

Just picked up a piece of paper while clearing my desk and took a glance before dropping it into the waste basket. Looked like a lot of Aztec hieroglyphics. Here it is.

"1. F rushed right body—W jabs fast—F right body-red spot—W jabs—F right body and head—W left nose—F runs in misses—F right—W right and F right again—F terrific right side of body hurts W—F rushes swings two rights-wild-F misses with right and W jabs him on head and sinks hard right in body—F stands back and looks up at W—then dives in with rush and pushes W to corner—F slugs W on ropes while W laughs and blocks—F lands fierce right on side of body—W wild and crosses two-left-right-as F rushes in. Bell. Timekeeper off. actual time of round 3 min., 4 sec. Note—F's right is a battle axe but he doesn't remember that he has a left.

Simple enough—just my original pencil notes made during the first round of the Firpo-Willard fight last year. A glance through that abbreviated outline of the fighting action is as good as reading a book about Firpo, F stands for Firpo, W for Willard of course.

Firpo's landing right hand blows is noted twelve times, besides which F "slugs" and they "mix." No mention of Firpo's left hand landing a blow. Willard uses either hand, but Firpo only his right. Firpo lands many of those rights, nearly all on one spot on Willards body a few on Willards head. The effect of some of these rights is apparent—Willard is "hurt," and is "wild" after being hit. When Willard laughs and blocks Firpo lands a "fierce right on side of body."

There is nearly a complete picture of Firpo's fighting style, as it was when he landed in America through his small bouts, and in the big fights with Willard and Dempsey and as it will be when he fights again.

They teach him that he has a left hand—and train him in using it—and in the ring he forgets all about the left and fights entirely with the right.

Lacking a left hand, lacking a plan of battle to follow, and lacking skill to make a definite plan, Firpo is still dangerous because he is always trying with that crashing right—because he has a knack of landing it—and because being outboxed doesn't worry him and make him let up. He may be too "dumb" to know he is being outboxed. If you can't be smart enough to know how to lick the other fellow it isn't a bad game to be too "dumb" to know you are being licked. You may outlast the man who is beating you. That seems to be Firpo's way in most of his fights.

Mike McTigue may get the $150,000 he demands for fights with Stribling and Carpentier. Mike has a title and is likely to lose it the first time he meets a good man. The public will pay high prices to see a title change hands But there isn't much chance of Mike's losing the title unless there is a decision. Mike has done a lot of boxing and he's a master at getting through ten or fifteen rounds without taking unnecessary risks.

Mike hasn't done anything worth mentioning since winning the light-heavyweight title from Battling Siki in Ireland, and the world knows from Siki's unbroken string of defeats in this country that outboxing Siki is no championship feat.

France, with heavy rains instead of snow and ice, and hundreds of Olympic Games hockey teams, skaters, ski jumpers, etc., waiting over the scheduled date to compete, isn't turning out much of a place for winter sports. It would be a better plan to hold the Olympic winter sports in winter sport countries.

Bob Weaver says that Los Angeles can handle winter sports, even with the January thermometer soaring around 75 in the shade. When L. A. gets the Olympics, the ski jumpers will be sent up to do their sliding on the snow capped peak of Old Baldy.

Jack Renault's name appears in a small paragraph at the bottom of the column about once a week. Jack is travelling around the smaller towns taking on bouts with fairly good men and knocking them out one after another. It's great practice. It's very likely that Renault, who isn't making much noise and isn't shooting out any "propaganda" may bob up this coming summer and spoil a lot of heavyweight fight plans. Nobody is "giving Renault a tumble." Yet here is a real heavyweight who got his first ideas of fighting style by working with Jack Dempsey in his training camps, and who is nearer Dempsey in fighting style than any other heavyweight in the country. He has a punch much like Dempsey's, is tough and strong and aggressive, and has better than average speed.

National Boxing Association is going to try to have the anti-boxing film Federal statute repealed.

It is a useless, foolish law at the present time and should be repealed Under present conditions it is merely another senseless restriction on everyone's personal liberty.

The Federal law prohibiting interstate transportation of "fight films" including any kind of boxing picture, was put through in a hurry to prevent a fake fight that might cause race troubles. Jack Johnson, then heavyweight champion, was to meet Jim Flynn, a small second rate heavyweight, at Las Vegas, New Mexico, in a fight advertised as a world's championship contest. It was widely rumored that the fight had been framed up for Flynn to win and that the moving pictures of a fight in which a new white champion knocked out the black champion would be shown everywhere and bring in an immense sum to the parties to the frame-up. The rumor may have been true, or there may have been no truth in it.

Only the inside parties know today whether the fight was a frame or not. No pictures were taken. No crowd went to see it. It was a terrible piece of cheese as a "championship contest" and Johnson won on a foul.

Boxing has become a national sport since it was taken up by the government as the chief sport in all army camps. It has been legalized in many states. There is no sensible reason why fight pictures should not be shown all over the country subject only to local regulation.

EMPLOYMENT GROWS STEADILY

Montreal, Feb. 7.—The Provincial Employment Bureau of Quebec announces that unemployment in the province has decreased appreciably during the past two weeks. There were 1,163 unemployed registered for the week ending January 19, of this number 43 were women. For the week ending January 26 there were 995 unemployed women. For the week ending January 26 there were 995 unemployed, 87 being women. Last week the number of out-of-works dropped to 885.

Trials Of Indigestion

COMMON ERRORS ABOUT THIS TROUBLE INTO WHICH PEOPLE FALL.

Many people so far misunderstand the digestive system as to treat it like a machine; neglecting it until it works sluggishly, then irritating it into work again by the use of purgatives. The stomach needs help at all times, but a study of the process of digestion will show that purgatives, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Over-eating is always harmful, but one must assimilate enough food to supply the needs of the blood. Remember, the blood has to carry nourishment to all parts of the body and find fuel for its energy. Hence when the blood becomes weak and fails to do its work indigestion arises. Therefore the sure remedy for indigestion is to build up the blood. If you suffer from any form of indigestion choose your diet carefully and take wholesome nourishment. Above all, start building up your blood by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood supply, your digestive system will respond naturally, your appetite improve and your food will do you good. So begin to improve your digestion by starting to take Dr. Williams Pink Pills now.

The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price from The Dr. Williams' Medicine Co., Brockville, Ont.

Lady Isabel (above) is the daughter of the Marchioness of Granby, granddaughter of the Duchess of Rutland and niece of Lady Diana Manners, prominent actress now playing on Broadway.

W.C.A. REPORTS ON GOOD WORK

The W. C. A. held its monthly meeting in the Council Chamber, on Feb. 5th, at 2.30 p.m., Mrs. Mikel presiding. Reports from the various departments were very satisfactory.

Mrs. Hearst was appointed lady in charge of the "Home" for February.

Gifts to the Home for the Aged were as follows:

"Bon Ton Orchestra"—Cake and sandwiches.

Mrs. H. Corby—Literature.

Johnstone's Dancing Academy (Palencia Club)—Cake.

W. C. T. U. (per Mrs. Hunter and Mrs. French)—Cake, currant bread, butter, coffee, sandwiches.

Mrs. R. A. Backus—Can pickles.

Christ Church Sunday School (Miss Black, Mrs. J. Thompson)—Cake and bread.

Mrs. Jas. R. Reid—Underwear.

J. W. A. Christ Church per Mrs. D. Lees—Bread and butter.

WOMAN KILLED IN STREET BATTLE

New Orleans, La., Feb. 7.—Mrs. Roland Clark, candidate for mayor of Palmetto, La., in a recent primary was killed; Huey of the opposing faction, was probably fatally wounded, and Mrs. Clark's son and daughter were wounded in a gun battle today on the streets of Palmetto.

I.O.O.F. CARD PARTY ENJOYED BY MANY

A large number were last evening in attendance at the monthly card party given under the auspices of the I. O. O. F. Society. The Temple was well filled with those who desired to compete for prizes offered.

The successful competitors were as follows:

LADIES—First prize, Margaret Farrone, consolation prize, Mrs. S. Sprague.

GENTS—First prize, Walter Gibson, second prize W. E. Claire, consolation prize, A. Cook.

At the conclusion of the contest, refreshments were served after which the floor was cleard and dancing was indulged in for some time. Music appropriate for the dances was furnished by the Sills Orchestra.

A fire in the furnace is never called a cross fire, but any wife can tell you the husband who looks after the furnace fire is a cross man.—Cincinnati Enquirer.

One Reason

Little Edna (in church): "Why do so many people put envelopes on the contribution plate?"

Little Billie: "Oh, that's to keep the pennies from making so much noise."—Chicago News.

Little Girl (viewing the elephant at the zoo)—"Pleasing, Mr. Keeper, would it hurt him if I gave him a raisin out of my cookie?"

Quart Of Water Cleans Kidneys

TAKE A LITTLE SALTS IF YOUR BACK HURTS, OR BLADDER IS TROUBLING YOU

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys may act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

Your eyes and your nerves

Your eyes are directly connected with your general nervous system. Strain your eyes and the effect is felt almost anywhere in the body. Headaches are a common result, but there are many other attendant ills. When your eyes receive proper attention this nervous drain is removed, and usually the troubles vanish at once. Let me help you as I have hundreds of others.

In Most Homes

In these days of sedentary habits it becomes necessary for nearly all the members of the family to use some treatment to arouse the sluggish liver and ensure regularity of the action of the bowels.

Because Dr. Chase's Kidney-Liver Pills can be depended upon to produce the desired results under all conditions they are the most popular of family regulators and are found in the great majority of homes as a safeguard against the scores of ailments which have their beginning in constipation, biliousness and a deranged digestive system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.

Special Menus For Children

On Canadian National Diners

A special menu for children will be introduced on dining cars of the Canadian National Railways this week. The menu, the first of its kind ever used on a railway in Canada, was conceived by Mr. Walter Pratt, General Manager of the Sleeping, Dining Car and Hotel Department of the National System, and it is designed to so add to the dining car service of the System that every juvenile passenger will be catered to in the most satisfying manner.

In the compilation of the menu, Mr. Pratt sought and obtained the collaboration of one of Canada's foremost dietitians specializing in selecting food for children. The result is a menu that will not only provide a correct guide to the proper food for children of all ages up to 10 years, but it is also so attractively decorated and written that it will be a source of entertainment to the children during the journey.

The children's menu has been developed as the result of close personal investigation by officers of the Dining Car Department of the Canadian National Railways into ways and means of further improving the service. It was found that many parents travelling on all railways were feeding their children food bought prior to the journey, rather than make use of the dining car service, there being a more or less general feeling that it was a difficult task to choose from the regular menu, proper food for the child. In some cases there was also a feeling that prices charged in the dining cars were disproportionate to the amount of food a child requires.

These objections are overcome by the children's menu. For each meal, breakfast, dinner and tea, there are four combinations of fare; breakfast ranging in price from 40 to 60 cents; dinner from 50 to 85 cents, and tea from 35 to 55 cents. As the dining car steward passes through the cars, announcing the calls for meals, he distributes a menu to each passenger travelling with a child so that the parent or companion has time to decide upon the choice of food and knows the sum it will cost before going into the dining car. It is felt that this menu will accordingly prove a real boon to passengers, accompanied by children.

The artistic features of the menu, which contains eight pages, are most attractive. In addition to the menu proper, there are pictures printed in blue and brown and verses that are certain to appeal to the childish fancy. The verses tell a story and the pictures illustrate it. The menu, itself, occupies the two centre pages, the reading matter being bordered by a series of children's blocks, each block bearing a letter which spell out, "Menu for little boys and little girls." The new children's menus go into service immediately on all dining and parlor-café cars over the entire system of the Canadian National Railways.

LOVE, THE TYRANT

OR,

WHERE HER HEART LED

BY

CHARLES GARVICE

CHAPTER I

In the intense stillness and clearness of the Australian night there is something weird and strangely oppressive; and a young man who stood at the door of a shepherd's hut which stood in a small clearing, looked round and shuddered slightly as if the solitude might be peopled by ghosts.

He was pale and thin, with that red look about the eyes which fever paints so skilfully; and as he leant against the door he listened with the eagerness and impatience which revealed themselves in the twitch of his thin, parched lips. At his feet a dog lay curled up as if asleep, but his eyes were open, for, like the man, he was listening, and when his master said: "Arthur's late, Bob, isn't he?" the dog wagged his tail as if he understood: which it's even money he did.

The young man went in presently and stirred the fire under the rough kettle, lit the tallow candle, though the moon was shining brightly through the window, then dropped, rather than threw himself, beside the fire, and sighed wearily. Notwithstanding the heat, he shivered now and again as if with cold, and once he wiped the chilly dampness from his forehead with the sleeve of his coat. Half an hour passed and he had fallen into a fitful doze, when he heard the sound of a horse; the dog heard it, to, and sprang up with a bark of welcome.

The young fellow rose, staggering slightly, and made his way to the door. As he did so, a horseman rode into the clearing, dropped from the saddle, spoke to the dog, that leapt caressingly upon him, and said, cheeringly:

"Back at last, old man. How goes it?"

"Oh, so so," replied the other. "I thought you were never coming—that something had happened. Look sharp and come in, Arthur."

Arthur Burtan nodded, led his horse round to a shed at the back of the hut, rubbed the animal down swiftly but with the loving touch of a man who loves his horse, gave it a double feed, and then went into the hut. Jack Gordon was bending over the fire, but he rose as his chum entered, and held out his hand, with a smile on his fevered face. Arthur took the thin, hot hand, and pressed it; and as they stood, the contrast between them was marked and painful; the one was so gaunt and thin and wasted, the other so magnificent a specimen of English manhood. He stood a good six feet; his chest was broad, his limbs finely moulded, and as hard as iron and as supple as steel; there was not an ounce of fat upon him; it was all sinew and muscle. There was strength not only in his form but in the handsome face, tanned by sun and rain; in the dark eyes, shining like agates in the firelight, and the short curls of the chestnut hair that grew in waves on the forehead which the wide hat had kept white.

"You're not so well to-night, Jack," he said, as he flung his hat in a corner and took off his coat. "Why don't you lie down and rest? You promised me you would."

Jack laughed rather shamefacedly.

"I tried it, but it wouldn't wash. For the first time in my life I got the blues being a lone, and was as full of fancies as a woman. I imagined all sorts of things had happened to you. Last night I heard footsteps and voices in the gulch, or fancied I did; which is all the same, for it kept me awake. It's the fever, I suppose."

Arthur Burton nodded.

"Must have been, for I saw nothing of them, though I heard at the store that a gang had been seen in the neighbourhood; but that was days ago and they must have passed on; anyway, it's not likely they will happen on us; we're too far off the track. Now, you just leave that kettle alone and lie down. I'll get the tea; I've been sitting in the saddle so long that I'm hankering for domestic duties. I got some quinine at the store, and you'll have a dose before we go any farther."

He opened the little white packet as if the powder were gold-dust—and, indeed, it was more precious than gold-dust— and himself tilted it on to his chum's tongue.

Jack looked up at the strong, handsome face with a wistful gratitude.

"Arthur, old man," he said, with that quaver in his voice of which every man is ashamed, "you've been a true, good chum to me. Ever since we met there, at Wally Ford, six months ago, you've stood by me, shoulder to shoulder, like — a brother. You've stood this peevish temper of mine and all my tantrums, and never offered to kick me."

"Which I shall promptly do now, my good Jack, if you don't shut up."

"You've shared your last crust with me like the coves in a novel, and now you ride a matter of a hundred and fifty miles to get me quinine and pretend you went because you were dying to see a newspaper—you who never cared for it when we came across one."

"Well, anyway, I've got one," said Arthur, and he took a newspaper from his jacket hanging on a nail and chucked it on the bed.

"But I don't think you'll have to put up with me long, Arthur," said Jack Gordan, in the calm and quiet tone of the man who hears the soft footsteps of Death approaching him. "Laugh at me if you like, but I've a notion I'm going to peter out before long."

Arthur winced and turned his head away that the sick man might not see the spasms of grief which had passed over his face.

"Not you, old man!" he said. "You're worth ten dead men, and you and I will be making for Melbourne presently, for that spree which we've been looking forward to so long. What you really want is a darned good shaking, and I'd give it to you if I weren't too tired. Here's your tea, and here's some soft tommy I got at the stores; though it's a fulsome compliment to call it soft, for it's as hard as a fossil; but you can soak it in the tea, and it will be a change anyway."

"Arthur, you ought to have been a woman," said Jack, as he took the cake. "You're as strong as a lion, and as hard as nails, but you've got a heart as soft as putty, and it will land you in trouble some day, if it hasn't done so already."

Burton's face reddened under its tan, and he laughed a soft curt laugh.

"Yes, some woman will get hold of that heart of yours, Arthur, and wring it—wring it hard and tight, if you don't watch it. It's always chaps like you who fall victims to what they call the 'gentle sex.' But I have no reason to complain; that heart has stood me in good stead. How does it go? 'The friend that sticketh closer than a brother;' that's the sort you are, old man, and it was a lucky wind that drifted me across your path."

(To be Continued.)

That Body of Yours

By James W. Barton, M.D.

BEING CAREFUL ABOUT MUMPS

That a mild epidemic of mumps seems to be about this year is well known to physicians and parents.

Unfortunately a number of "grown ups" are also affected, so that a few words about this trouble might be of interest and of service.

It is simply an inflammation of one of the salivary glands—the glands that manufacture the saliva in the mouth.

The strange thing about it is that it does not seem to interfere with the saliva in any way, no change in its composition.

You remember what the youngster looks like with a well developed case of mumps. There is a swelling of the neck just below the ear, which actually lifts the lobe of the ear out of its place.

In fact it is the displacement of the lobe of the ear upward and outward that is one of the sure signs of mumps. The lobe stands at such a distance outward that it is plainly noticeable.

Sometimes the swelling extends beyond the region beneath the ear right over to the entire cheek, over to the eye, or even down into the neck to the collar bone.

Another peculiar thing about the swelling is, that although it stretches the skin until it is shiny, the skin never becomes red as it does in other swellings.

Sometimes there is no pain worth speaking about, but other times, especially in adults, the pain is severe, and the act of chewing or swallowing greatly increases the pain.

There is of course some temperature, but only for two or three days. Now why do I write about it?

Because as it takes two to three weeks to properly develop, you may wonder just what is coming over you when mumps is underway in your system.

Further, that the possibility of being infected lasts also for a long time, as much as six weeks sometimes.

Also that although fortunately in the majority of cases there are no complications, still there are some painful affections in other parts of the body very often.

The idea therefore is to take mumps seriously until all the swelling is gone, and you are free from pain and temperature. Being careless may bring on complications and delay recovery for weeks.

Aunt Martha's HOUSEWIVES' COLUMN

When you stop to think of it there are not many friends you see oftener than your grocery store man. Your daily shopping trip is pleasanter if he is a really friendly sort of person, anxious to be of service to you.

The manager of your red front Dominion Store is surely such a person. Just step into his store and see what a cheerful, restful sort of place it is. The bright, clean rows of canned goods and other foods on the shelves, the polished equipment and immaculate furnishings, will be pleasant to your eyes these dull winter days. And the courteous, ready service will make your day easier and happier.

It's no wonder the Dominion Store manager is so cheerful. He knows that he represents the biggest retail grocery organization in Canada, and that he can save you money on everything you buy from him. He is sure of the quality of his goods too, for he knows that they were selected by Dominion buying experts, who have nothing to do but search the world for high quality, low price goods for the 300 Dominion Stores.

So your Dominion Store manager does not have to worry about buying the foods for his shelves. He knows that is done for him — far better than he could do it himself. All he has to do is to keep his store clean and attractive, and give you the best possible service.

It will pay you to get acquainted with the nearest Dominion Store man. He can help you on the sure road to steady savings.

CHANGE OF LIFE LOSES TERRORS

For Women who Rely upon Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 55 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are sincere expressions from women who describe as best they can their feelings before and after taking this well-known medicine.

New Building

(Continued From Page One)

5. Contractors who are willing to work, in co-operation with the government, showing their books and their costs and accepting a reasonable profit, to be preferred over those contractors who decline to do so.

At present the building unions in Great Britain have 13 per cent. of their members totally unemployed. As soon as the building program takes up these idle workers, the unions have agreed to take in and train in the building trades enough ex-soldiers to guarantee against lack of workers to carry out the program.

To insure governmental funds to aid this program the labor cabinet has decided to either scrap altogether or greatly reduce the costs of a number of projects which labor regards as a militaristic tendency. Included is the proposed naval station at Singapore or Cape Town and two or three other plans whose aggregate cost would be many millions of pounds.

The program, if supported by enough members of Parliament, could be carried out in a year, according to Premier MacDonald.

TOO MUCH WOOD

"Is this the woodenware department?"

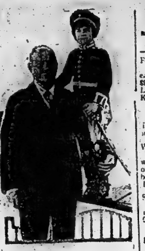
"Yes."

"I dunno if I am in the right place."

"What is it you wish?"

"My wife told me to get some lipstick."—Judge.

A Peterboro Italian fruit dealer was fined $10.00 and costs of $5.75 in the Police Court yesterday morning by Magistrate Langley, on a charge of failing to remove the snow and slush from the front of his premises after reasonable notice had been given him.



Sir A. Conan Doyle, creator of "Sherlock Holmes" stories, visiting with Jackie Coogan when the little Metro star was making "Long Live the King" for Metro.

Blood Poisoning Fatal

Man at Work in Bush When Hand Infected

Toronto, Feb. 7.—When his hand became infected while at work in a lumber camp at Balkan, Ont., blood poisoning set in and Henry Best, aged 43 years, of 103 Bolton avenue, died in St. Michael's Hospital this afternoon. He was admitted on Sunday.

Best was employed by Austin Nicholls and Company and sent to Balkan. He injured his hand while working in the bush. He returned to Toronto some days before going to the hospital. The accident occurred five weeks ago. Chief Coroner Dr. Graham was notified and an investigation will be made.

Stonewall Jackson Next Figure On Stone Mountain

Atlanta, Feb. 7 (United Press).—The head of Stonewall Jackson will be the next figure completed in the gigantic panorama of the "Lost Cause" on Stone Mountain here.

Gutzon Borglum, sculptor, who is directing the carving of the massive memorial in the huge granite rock, has started work on the second figure and hopes to have it completed by early summer.

The head of General Robert E. Lee already has been completed as the first step in the panorama.

"I shall now start work on Stonewall Jackson's head," said the sculptor. "The first work will be to free the head by removing granite around the head area. When that is finished I shall work back into Lee's head and give it the final touches, then begin work on the figure of Lee and his horse."

Lee will be mounted on his famous charger "Traveler" by fall, said Borglum.

Why Ford Predominates

Low First Cost

The low price of Ford cars and trucks has been one of the great dynamic forces in the development of motor transportation.

Since January 1920 the average price of Ford products has dropped 38% and Ford prices are now the lowest in the history of the industry.

And because Ford prices are so low, the worker and his family enjoy the innumerable benefits and delights of owning an automobile; the merchant and manufacturer extend their business into new and profitable fields by means of motor delivery; the farmer carries his fresh produce to the best markets with none of the old-time hardship and delay—and all for a very small initial investment.

Fifty out of every hundred cars and trucks in Canada are Fords—due to the public appreciation of Ford value.

$10,000 BAIL IN NARCOTIC CASE

Painter Charged With Possessing Several Boxes of Dope

Montreal, Feb. 7.—Constables Rocheleau and Belanger of the narcotic squad last night arrested Leon St. Jean alias Marchand, a painter aged 31 of 203 St. Elizabeth street. He appeared in Recorder's Court this morning on a charge of possessing drugs He pleaded not guilty. Recorder Geoffrion fixed bail at $10.000 bond or $5,000 cash, one of the biggest securities ever set in a drug case.

Marchand, according to the police, had several boxes and decks of what is declared to be narcotic drugs in his possession. He was found at 8.30 last night at the St. Elizabeth street address.

The Lady Auto Buyer

The auto salesman talked and talked
To sell Miss Jings a car;
He talked of gears and four-wheel brakes
And springs that didn't jar.
He talked about the body lines,
Upholstery and door,
The engine, the magneto and
Such things as stroke and bore,
He talked about the bearings and
Transmission, gas and spark,
The driving shaft, the pump, the plugs,
The lights with which you park.
He talked to HER on all the points
That count for three long hours—
But she bought another auto
"CUZ IT HAD A VASE FER FLOWERS!"

Modern Version

Grocer: So you want a job? Are you honest?

Boy: "Yes, sir. But I know that business is business.—Detroit Free Press

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small, and You are on the Road That Has Convinced Thousands

Sent Free to Prove This

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 501-c Main St., Adams, N.Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance. Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Free for Rupture

W. S. Rice, Inc.,
501-c Main St., Adams, N. Y.

KITCHENER DOWNS AVENUE ROAD SIX

Kitchener, Ont., Feb. 7.—In a wild battling game of hockey, in which endurance was a great factor, the Twin City seniors last night defeated Aura Lee 5 to 3 and thus remained in the running for the senior play-off in Group No. 1, and put the Toronto team in the position of having to defeat Varsity to get in the play-off. It was the most exciting and toughest game of the year here by long odds. The two teams checked closely all the way, and as the conflict wore on the players became more aggressive, and finally in the third period two fights broke out, in which Charlie Dinsmore played a prominent part.

The first scrap was entirely unprovoked, while in the second he and Gelly Schnarr got in a jam and the Toronto man came out with a badly cut face, and he went after the Kitchener player with his stick, wielding it like a woodman uses an axe. There was nearly a riot in the rink then, and the police had to pry the combatants apart, and Schnarr and Dinsmore were chased for the remaining three minutes of the game. Dinsmore was handing out rough stuff pretty regularly, and he had to take a good deal too, and it was not surprising when the final blow-up came.

MAYOR PLAYS HOST TO LITTLE LADIES

Montreal, Feb. 6.—Mayor Martin, Monday morning acted as host to twenty-five or thirty diminutive ladies and gentlemen all members of Singer's troupe of midgets performing at the Princess Theatre this week. The Mayor welcomed the visitors in his usual thorough manner while he offered them the freedom of the city at the same time. His Worship and the troupers were photographed outside the City Hall annex and were then taken for a tour of Headquarters under the guidance of Captain "Billy" Lamont who showed them the mysteries of the Rogues Gallery and the collection of artillery, black jacks, stiletto, that is one of the features of the famous room.

Several of the little ladies were finger printed and seemed to enjoy the experience immensely. Unlike their taller sisters none of them were adverse to telling their age, one pert little damsel, remarking however that while she was all of 20 summers and as many winters and three feet high she thought that the question was rather personal to say the least. After exploring the mysteries of the rogues gallery they were taken to see the cells in the subterranean tunnels.

Abbie Wright the manager of the Princess Theatre conducted the party around, the visit being much enjoyed by the wee performers.

Singer's Midgets delighted patrons of Shea's Theatre at Toronto last week.

ANOTHER PUZZLE SOLVED

"We don't see any lady tramps," remarked the idler.

The philosopher as usual, was ready to discuss any proposition that came up.

"That is easily explained," he began.

"Shoot," assented the other.

"A tramp depends on cast-off clothing," the philosopher continued.

"Well?"

"Do you suppose a woman is going around in castoff short skirts when other women are wearing long ones? You'll never see any lady tramps."

Hams Win 6-4 In Game Of 'Fights'

Hamilton, Ont., Feb. 7.—Hamilton is keeping St. Pats company on the second rung of the N.H.L. ladder following their 6 to 4 victory over the 'Patties' here last night in as wicked a battle as seen here in many a moon. There was good and bad hockey dished up by both clubs, but a little too much of the rough stuff, and for this St. Patrick's were to blame. Everything went along swimmingly until Jack Adams cross-checked "Shorty" Green in the second period and the feud was renewed. Unfortunately for Adams he suffered for his mistake as he was struck across the face by a stick, in a scramble in front of the Hamilton net and rendered unconscious. The slash opened up a cut on his left ear and robbed him of much of his playing power.

Bert Corbeau who was a "Goat" for "Red" Green, did not like it any too well and with ten minutes of playing time left in the final period he dropped his stick and piled into "Shorty" Green without any cause. For this he was given a major penalty and Green who retaliated was treated likewise. Corbeau could not stop "Red" Green from horning in on Roach and Stuart was but little better. As a matter of fact the defence work of both teams was very loose. In the second period Noble, Adams and Dye were in on top of Forbes repeatedly and only his good work prevented the "Patties" from running up a larger count in that frame.

TWEED DOWNS MARMORA

Peterboro, Feb. 7.—Tweed defeated Marmora last night 5 to 3 in the Trent Valley League in a closely-contested game that was anybody's until the final twinkle of the bell. It was as clean a game of hockey as has been seen in the series.

Senators Blank Frenchmen 4-0

Ottawa, Feb. 6.—Before a crowd that smashed all attendance records for hockey matches in Ottawa, Canadiens of Montreal and Ottawa Senators last night staged another torrid battle, with the home team winning by 4 to 0. The contest was replete with excitement from start to finish, and, while interest lagged in the second period, it was because the winners were content to play a waiting game, saving their energies for a last-period rally.

The story of the game may briefly be set out by stating that Ottawas took two-well earned goals in the first session; played a careful, defensive style in the middle period, and finished up the performance by boosting their total by two more in the final twenty. Canadiens never let up in their attacks, and carried a fair share of the play, even against the four-goal margin the winners secured, but their chances to break into the score column were minimized by the faultless display given by Benedict in the local nets.

The game was strenuous all the way, especially so in the final period, when only minutes remained to play. Both teams used the body with telling effect, and in the most part the bumps handed out were legitimate. Ill-feeling was much in evidence and many well-intended, stiff checks went begging through not being timed properly.

Brockville Still Easily Irritated

Brockville, Feb. 7.—A thorough investigation into occurrences during the Brockville-Belleville intermediate O.H. A. hockey match at Belleville on January 28 is promised by W. A. Fry, president of the Ontario Hockey Association, in a telegram received by the Brockville Recorded and Times yesterday morning from him at Dunnville. Mr. Fry adds that to ensure an adequate enquiry the charges of unsportsmanlike tactics directed against the Beleville team must be substantiated by evidence. The telegram reads as follows:

"Have just read your report re recent Brockville-Belleville game. Reflections on the O. H. A. are unjust. That body does not and never did countenance deliberately rough and unsportsmanlike play and clubs have never failed to receive the consideration to which they are entitled in sifting official complaints. If your charges are true and can be substantiated by evidence, we will guarantee complete investigation."

In another column the Recorder and Times re prints the story of the Belleville-Cornwall game at Cornwall as taken from a Belleville newspaper, the heading being, "THE BELLEVILLE WAIL".

There seems to be "hard feelin's" between those two railroad towns for some reason.

OSHAWA WINNERS OF GROUP HONORS

Port Hope, Ont., Feb. 7.—Oshawa won the group here last night when they defeated Port Hope in a fast game, 5 to 2. Port Hope was without Carter, their stellar defence man, who is suffering from severe injuries received at Trenton on Monday night. The team was badly weakened but in the first period they held Oshawa and the goals the visitors got were of the lucky kind, the period ended in favor of Oshawa, 2 to 1. In the second period, when Jex was in the box, Rowden slipped in two in quick succession and Lowe got a third with one minute to go. No scoring took place in the last period. On the play Oshawa fully deserved to win. Finnigan Hills was the best man on the ice with Kenneth Ware next best for Port Hope and Lowe and Rowden were the outstanding men for Oshawa. Both of these boys are from Port Hope.

Additional Sports

GALT WINNERS OF THE TANKARD

Toronto, Feb. 7.—The Ontario Tankard, the blue ribbon event for Ontario curlers, will during the Summer months repose in the Galt Curling Club, they defeating Hamilton Victorias in the finals last night at the Victoria Club by the close margin of two shots. The finals were featured by the one-sided scores on both rinks, McDougal of Galt defeating Fletcher of Vics by 25 to 10, while Torrance of Vics beat Goldie by 24 to 11.

Three ends remained to play in the Goldie-Torrance game when the other match was finished. Torrance counted one on the sixteenth and was lying three on the seventeenth when his last stone died on the hog line, and Goldie managed to cut the Vics out of one with his last stone. This made the score even up on the round, with one end to play and somebody whispered it looked like Galt for you know they won their group by one shot and knocked out Collingwood in the first round by one shot.

The Last End

Henderson, the lead for Goldie laid in two perfect shots while Hutchinson was short with one and heavy with his second. From here on the complexion of the end began to change Muir, the vice-skip for Torrance, knocking out both Galt shots and lying himself. McCallum then picked out the shot with his last, leaving Galt two shots on the side. Torrance just got the front ring with his first but it was a good stone, as a raise or a draw around it would win him the game especially after Goldie's line. Torrance played a perfect tee shot with his last stone but it wrecked on his own stone not through any fault of his, the weight being perfect but because on the big drawing ice he was not given enough broom. He should have at least been given another foot of ice, but then it is hard to blame anyone for losing a tankard on one shot.

There were seventeen other ends in the game, and eighteen ends in the other game, where there was not the players before Torrance played the stone that meant either defeat or the first Tankard for Hamilton. A little stronger sweeping also in the seventeenth end would have got Torrance's last stone over the hog line.

Mr. Justice Wright, president of the O. C. A. presented the Tankard to the winning club, Mr. Goldie receiving same on behalf of the new champions Mr. Goldie remarked that it was just twenty years ago that Galt won the Tankard, when they beat the Caledonians in the final. This year Mr. W. J. Veitch, the other skip on that occasion, started out with Mr. Goldie skipping the Galt rinks, and he took it as a hunch that this was Galt's year after they won their group. However owing to the illness of his mother Mr. Veitch was unable to come to Toronto.

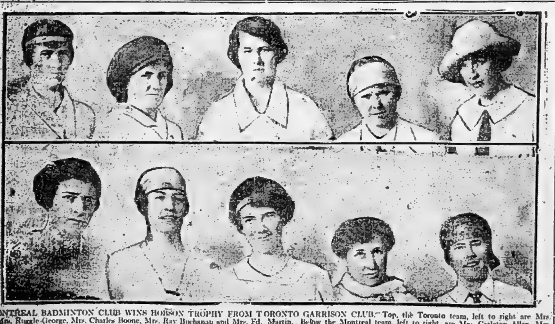
The semi-finals in the morning at Victoria were played on sticky ice and probably should have been transferred to Oakwood, where the ice was much better. Galt beat Orillia by 10 shots, while Hamilton Victorias were 3 up on Shelburne.

Lindsay and Orillia will meet this morning at Oakwood club in the final of the Governor General's Cup, the former qualifying by defeating Queen City this morning (the game ending at 1.45) by 3 shots while Orillia put away Shelburne.

NAPANEE HERE ON FRIDAY NIGHT

Napanee team in the Bay of Quinte hockey league meet the 34th battery squad in this city at the arena to-morrow night in the last game of the first half of the schedule. Belleville now leading this league with 4 wins and 1 loss with Kingston second in the race with four wins and two losses, so that a win for Napanee to-morrow night means that Belleville and Kingston are tied and a play off will be necessary Belleville won the last game they played with Napanee by the close score of 3-2.

The new schedule for the second half of this league is out now.



MONTREAL BADMINTON CLUB WINS HOBSON TROPHY FROM TORONTO GARRISON CLUB.—Top, the Toronto team, left to right are Mrs. Coke, Mrs. Ruggle George, Mrs. Charles Boone, Mrs. Ray Buchanan and Mrs. Ed. Martin. Below the Montreal team, left to right, are Mrs. Carleton Allen, Mrs. E. M. Stephens, Miss J. Johnson, Mrs. William Bobell and Mrs. Philip McKenzie.

36-inch "Scotch" Ginghams in checks, plaids and plain shades, specially priced **49c. yard.**

LINDSAY FEARS AUTOMATIC ELIMINATION FROM C.O.B.L.

The following baseball comment from the Lindsay Post was forwarded to The Intelligencer with a request to publish, and out of courtesy to our northern baseball neighbors the comment is herewith reprinted.

Lindsay, Feb. 5.— At a meeting of the C. O. B. L. Executive held at Port Hope on Saturday last it was decided to admit Kingston to the League.

Viewing matters hurriedly it would appear that this will automatically eliminate Lindsay from the Central Ontario League. At the annual meeting held in Lindsay some months ago, Lindsay was entered in the League and entrance fee was accepted, on condition that Kingston would not be in the league. Opinion was expressed at the time by delegates present, that should the admittance of Kingston mean the elimination of Lindsay or Cobourg, then the Limestone city would not be admitted.

However, conditions have changed, Kingston has been admitted.

Lindsay's objection to Kingston was purely on the question of traveling expense. It was also pointed out that it was foolish to assume that any team in the League (except Belleville) could play with Kingston and remain Simon pure amateur. To go to Kingston, (Peterboro, Oshawa or Lindsay) actually meant two days off work for the players, and for Lindsay, practically three days. It was argued that no employer of baseball help would stand for players being off work two and three days a week It was also argued that no player could afford to remain off work two and three days a week unless the baseball club pieced out his salary and paid his expenses.

The Central Ontario League, which at its inception was a grand baseball circuit, when every town in the league was furnished with a good brand of baseball and the fans and players were all satisfied and clubs made money, is SHOT! Those days are passed.

The day of importing players commenced and in this respect Peterboro was the first offender. Other clubs followed suit until the clubs even took players from other towns in the League. Today it is the town with the most imports that generally wins the League.

Port Hope was forced to the wall—couldn't stand the pace. Bowmanville followed. Then Cobourg felt the pinch of finances and quit in mid-season. Lindsay clung to the League like a puppy to a root, hoping that the League would get back to a more amateur standing and now it looks as if this town would be forced to drop out.

The industrial towns, or cities, are remaining in, a good brand of baseball is being played, but it takes a fortune to keep the teams running.

The late Sandy Lockington, one of the best supporters of the League ever had, predicted the end of the C. O. B. L. when Peterboro started importing. This conviction grew with him and others who had seen the success and downfall of the old Midland League because baseball became associated with high finance.

Today the C. O. B. L. is simply marking time and its end is inevitable. A year or two more and Peterboro, Belleville, Oshawa and Kingston will be sorry that they broke up the old Central League. The worm is bound to turn.

In the meantime the Ontario Amateur Baseball Association stands by and ignores the importations and allows the various clubs to "put it over them like a tent."

PETES PILE SCORE AGAINST LOCALS

Beleville O. A. B. A. team lost the first game of the basket ball league when they were soundly beaten at Peterboro by the Y. M. C. A. team of that city last night by the score of 35-17.

The locals who returned to this city today at 11 a.m. admit that the Petes are a heavy, well experienced hard working aggregation, and also admit that the locals lack finish co-ordination, teamplay and practice. Belleville were unable to handle the ball and their shots were wild. Doughty was the most dependable shot of the quintette from Quinte.

LOCALS DUE IN PETERBORO FRIDAY

It is not definitely known as yet whether or not the local hockey club will charter a special train for the trip to Peterboro tomorrow (Friday) night, for the second game in the play off games in the first round elimination contest for the provincial honors. Home and home games, goals counting, is the system, and locals take a two goal lead to Peterboro with them by virtue of their 5-3 victory here last night, and the question before the house is, will they be able to hold the speedy, tricky Petes to that lead in their own home town?

IF a special train is not run, the players will go up via Port Hope on No. 15. All players are feeling fit and fine today and are highly elated over their success last night. Minor injuries consisting of bruises and cuts are not worrying the hardened locals who are "rarin' to go."

Late this afternoon, manager Thomas stated that he had arranged for a club rate to Peterboro of $3.25 return for fans who wish to accompany the team, going on the C.N.R. train No. 15 leaving here at 2.50 p.m. tomorrow.

The winners of the Peterboro-Belleville series play off with Oshawa next, who ousted Port Hope last night for their group honors, according to a wire received here this afternoon.

The junior series between Belleville and Kingston is off as there is a tie-up down in the eastern group, Brockville still having a chance to tie the group up.

Quinte Schedule

Napanee, Feb. 7.—At a meeting of the Executive of the Bay of Quinte Hockey League, held on Monday night, the following schedule for the second half of the season was adopted.

Feb. 8—Kingston at Point Anne.
Feb. 11—Belleville at Napanee.
Feb. 14.—Belleville at Point Anne.
Feb. 15—Kingston at Napanee.
Feb. 19.—Belleville at Kingston.
Feb. 22—Point Anne at Belleville.
Feb. 25—Point Anne at Napanee.
Feb. 25—Kingston at Belleville.
Feb. 27—Point Anne at Kingston.
Feb. 29—Napanee at Belleville.
Mar. 3—Napanee at Kingston.

VOL. LVI. BELLEVILLE, ONTARIO, FRIDAY, FEBRUARY 8, 1924

QUEBEC ICE BRIDGE VICTIMS SAVED

SUBURBAN ROADS COST AND ARBITRARY POWER ARE STRONGLY OPPOSED

Belleville Civic Committees Heartily Concur in Resolution Passed by Peterboro Council Scoring Placing Responsibilities and Expenditures entirely in Hands of Commissioners

HAVE LITTLE VOICE

Many Other Recommendations Are Passed on For Submitting to Council at Meeting on Monday Next—Payment of Various Sums Owing on Former Accounts Recommended to Council

At a recent meeting of the Peterboro City Council, the following resolution was unanimously adopted:

"Whereas the suburban roads commission are given arbitrary powers to commit Councils to responsibilities and expenditures without the knowledge or consent of the elected representatives of the people.

"And whereas city councils have practically no voice in the amount to be expended on suburban roads and have no jurisdiction as to what levy shall be made on their constituents for the purpose.

Resolved that this council is of the opinion that the present law for the adoption or setting apart of suburban roads for the construction and maintenance of which cities are taxed should be repeated.

The following recommendation was adopted at the civic committee meeting held here last evening.

"Recommended that Belleville Council concur in the petition of the Peterboro City Council in the matter of suburban roads commission and take action accordingly.

Many accounts were passed and the following recommendations were passed on for the council meeting on Monday night next.

Recommended that the contract entered into with Mrs. Elizabeth Thompson in October, 1920, covering purchase of lots on water front be completed and that upon the Solicitor delivering proper conveyance of land in question, the treasurer be authorized to pay the balance of purchase price due thereon.

Recommended that the chairman of water and finance and Ald. White be a committee to authorize payment of monies due under contract with Gore, Nasmith and Storey, certificates being in accordance with agreement.

Recommended that this Council continue membership in the Ontario Good Roads Association and the treasurer be authorized to issue a cheque in payment thereof, namely $25.

Recommended that the mayor, chairman of finance and public works be a committee to attend the Good Roads Association to be held in Toronto on February 27th, 28th and 29th.

Recommended that Aldermen Foster, Greenleaf, LaRoche and McCreary be a special committee to investigate and report to the council upon the condition and operation of the gas plant.

THE WEATHER

Fair and cold today and part Saturday, then moderating somewhat.

COMING EVENTS

St. Thomas' Parish House, Motion Picture's Pathescope Company, "The Stream of Life", Travelogues. Prof. Wheatley, Mr. Harry MacKay, soloist. Mayor Mikel opening address. Friday at 8 p.m. sharp. Admission 25 cents. 7-2td

St. Thomas' Church Sunday evening next, Grand Musical Service. Symphony orchestra, Male quartette and organ. Silver collection Orchestra of Soloists — Messrs. Young, Elliott, Hinchey, Waymark, Brown and Asseltine. Quartette and soloists—Messrs. Stillman, Haffner, Moorman and Burke. Ernest Wheatley Mus. Bac., at the organ 7-3td

AROUND WORLD FLIGHT PLANNED BY U.S. FLIERS

Four Specially Constructed United States' Planes to Encircle Globe

SEEK AIR HONORS

Experts See Great Possibilities For Air Development in Trip

By A. L. BRADFORD

(United Press Staff Corespondent)
(Copyrighted 1924 by United Press)

Washington, Feb. 8. (United Press).—The American Army is determined to win for the United States, birthplace of aeronautics, one of the greatest honors within the grasp of the science of the air—a successful around-the-world flight by airplane.

Launching into this daring endeavor, the army now is completing arrangements for the final signal that will send four Douglas World Cruiser Airplanes—the type of plane that has been selected—into the clouds next spring in the attempt to capture this prize.

Voyage to Pole

While the around-the-world flight is in its first stages, the giant U. S. Navy dirigible Shenandoah will begin its epochal voyage to the North Pole. But both the army and the navy are approaching these epochal trips as practical explorations, not as sensational games of exploit; so there will be no element of competition in the flights.

"We are out to make a successful flight around the world, not to run a race," officers of the army air service explain. There will be no competition between the services of the United States or with any other nation.

As an illustration of this spirit, the army is giving its flight approximately six months to be completed. It is desired, however, to send the flight out with the interest and hopes of every American citizen backing its success.

To increase this interest on the part of Americans in the around-the-world voyage of their army's planes, the air service here plans to christen each of the four planes after the cities or states in the main sections of the United States.

Practical Purgoses

Practical Purposes of the flight are numerous. Added experience in long-distance flying, and particularly in supply problems connected therewith, will be gained. There will be the problems of completing a flight around the world in the shortest practicable time and of demonstrating the feasibility of establishing an airway around the world. Valuable information on the difficulties of operating aircraft in different climates also will be obtained.

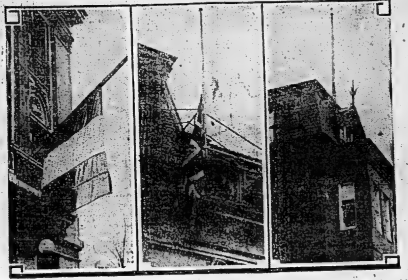
ALL BUT GERMANY!



When official announcement of death of Woodro w Wilson was made, flags of all foreign embassies, with exception of German, were placed at half-mast. Left to right: France, England, and Germany. The latter, under pressure, agreed to place flag at half-mast during funeral ceremonies.

PRINCE VICTIM OF HEAVY FALL; BONE FRACTURED

Prince of Wales Suffers Broken Collar Bone when Thrown From Horse

IN STEEPLECHASE

Was Practising Jumps For Race When Horse Tumbled at Fence

London, Feb. 8 (British United Press).—The Prince of Wales suffered a broken collar bone when he fell from his horse at the Billington Steeple Chase today.

His doctor said it was a simple fracture, and that the Prince would probably be able to ride again in a few weeks. The Prince was practicing for a race at the end of this month and tumbled at a fence.

At first it was believed he had suffered only a minor injury to his shoulder and he was taken to a local physician, then motored to his hotel with his arm in a sling.

A later examination, however, revealed the fractured collar bone. At York House, the London residence of the Prince, it was announced he was returning immediately to the capital.

NO NEW IDEAS; TAKES OWN LIFE

Whitley Bay, Eng., Feb. 8.—The celebrated English novelist, Queenie Scott Hooper, committed suicide here by slashing her throat with a razor because she was unable to "think up any new ideas for stories."

W. H. IRELAND, M.P.P.

At the caucus of the Conservative members of the Ontario Legislature held on Thursday afternoon Mr. W. H. Ireland, of Trenton, M.P.P., for West Hastings, was unanimously elected chief whip of the party. Mr. Earl Rowe, M. P.P., was chosen as assistant whip.

SUSPECT ADMITS MURDER OF GIRL

Dramatic Confession of Slaying Canton Girl By Detroit Man

Canton, Ohio, Feb. 8.—"That's the girl I killed," cried Joseph Pierce, 31, of Detroit, last night as he gazed upon the body of Miss Florence Nitzman, pretty 19-year-old telephone operator which was found in a shallow creek in the southeast end of the city last Friday. Pierce was arrested in Wooster yesterday. He was taken to an undertaker's establishment, where Miss Nitzman's body had been since its recovery, immediately upon his arrival here.

Following his dramatic confession he was lodged in a cell on a charge of "suspicion" he collapsed while being taken from the morgue to the police station.

After questioning Pierce, police said there is no connection between the murder of Miss Nitzman and the slaying of Miss Ruth Hunter, another pretty Canton girl, whose body was found on a lonely road here early in January.

Police had been working on the theory that the same person committed both murders.

Better Outlook In Immigration

Montreal, Feb. 8.—The immigration looking up, J. E. Laforce, General Agent of Colonization and Development for the Canadian National in Boston who is now in Montreal, reports that an average of 150 French Canadian families per week are leaving the New England states to return to Quebec Province; while Dr. W. J. Black, European Agent for the same railway, reports a growing interest in Canada as a prospective homeland on the part of various assimilable Europeans.

ALCOHOL PLANT AT CORBYVILLE MEETING BOOM

Canadian Industrial Alcohol Company Undertake Extension Program

MANY NEW FEATURES

To Install Equipment For Recovery of Carbonic Acid Gas in Drinks

Corbyville, Ont., Feb. 8.—The Canadian Industrial Alcohol Company which suffered a fire at their plant at Corbyville some time ago, have undertaken a very extensive reconstruction and building program.

The new plant will be one of the largest and most modern industrial alcohol distilling plants in America and will include the erection of buildings and the installation of equipment for the production of Ethyl and Amyl acetates not heretofore manufactured in Canada on an extensive scale. These two products are coming into great demand for the manufacture of imitation leathers and lacquers and the demand has in the past been mostly supplied from foreign sources.

The company will also install equipment for the recovery of carbonic acid gas which is used in large quantities by soft drink manufacturers and soda fountains. Another feature of the new plant is the installation of a still of the most modern design with a capacity of 10,000 gallons a day which will, when completed, be one of the largest units at present in use in any country.

EX-MISSIONARY DEAD IN STORM

St. John's Nfld., Feb. 8.—Returning on foot over a lonely twelve-mile stretch from Seldon-Come-By, to Fogo. Overtaken by the blizzard he perished within a mile of his home. The tragedy occurred Monday and followed close upon the news of the loss of the schooner President Coaker with its crew of six men, swelling the toll of lives taken by the violent storm that swept over the island during the past week. Rev. Mr. Mercer set out Monday morning to walk the twelve miles to his headquarters at Fogo. Overtaken by the blizzard he refused to turn back, and attempted to push through to his destination. He reached the ridge that gave him a view of his home a few miles away. But there too he met the full force of the blizzard sweeping in over Fogo Island from the sea. When it became known at Fogo that he had attempted the journey, a searching party set out and on Tuesday, when the blizzard had abated, his body was found some distance off the trail and within a mile of his goal. Rev. Mr. Mercer, formerly a student at Mount Allison University, Sackville, N.B., was transferred to this district a few months ago by the Methodist Conference.

GET ON THE VOTERS' LIST NOW

The assessors in the Ontario rural municipalities begin work of assessment on February 15th of each year, and they are by law directed to return their roll on or before April 30th of each year.

Any elections that may take place in any of the constituencies, whether for Provincial or Dominion purposes, will be held on the Voters' List prepared from the Assessor's roll with the corrections and additions thereto each year or on the eve of a parliamentary election.

Every person resident in Ontario for the past nine months, and resident in the municipality at the time the assessor begins to make the assessment, is entitled to be on the Voters' List, providing he or she is 21 years of age and a British subject.

The names of persons who early in the fall will be 21, may also be entered on the list, provided they will then be 12 months in Ontario, and possess the other qualifications.

Fishermen, lumbermen and students, absent from home, may be placed on the list.

Any person, no matter what his or her occupation, who goes away even for months occasionally or for a temporary purpose, intending to return, does not cease to be a resident of the municipality unless a new home is taken up elsewhere.

It is not necessary for a man or woman to own property to be tenant or have an income or pay taxes in order to have his or her name entered on the Voters' List as a Parliamentary voter.

QUICK RESCUE ACTION SAVES SCORE OF LIVES WHEN BRIDGE BREAKS

All Persons Caught on Ice Floes When Suddenly Hurled Into Icy Waters Are Accounted for—Scare Thrown Into Quebec by Failure of Rescued one to Make Any Report

UNUSUAL BRIDGE

Ice Formation Across St. Lawrence First Formed Since 1896—falling Darkness and Cries of Victims Added to Tensity of Situation as Marooned Ones Were Swept Away

Quebec, Feb. 8 (British United Press).—All persons caught on the ice floes when the ice bridge between here and Levis broke last night, have been accounted for and what at first seemed a disaster because of the neglect of the rescued persons to notify this city has resulted in nothing worse than a bad scare and wetting a few who plunged into the chilly water and swam to shore.

With Roar and Crackle Ice Breaks

With dramatic suddenness the picturesque bridge, the first to form here since 1896, was torn from its mourings by the rising tide. The roar and crackle of the breaking ice attracted the attention of hundreds of people who had congregated on Dufferin Terrace to view the spectacle of the ice bridge, and in a moment the beauty and wonder of the scene was changed to tragedy. At that very moment there was a string of pedestrians, men, women and children, fighting their way across the traverse, one way or the other, in order to avoid the long trip round by the Quebec Bridge, rendered necessary by the cancellation of the ferry service earlier in the day.

Almost at the same instant as the watchers on the terrace realized what had taken place the stranded people on the ice discovered that they were adrift on a gigantic floe. Some of them on the Quebec side had almost reached their goal, and in the half light of dusk they could be seen making frantic signs for help, and faint cries of "Au secours, au secours" could be heard on the land.

In a very few minutes all of them knew that they were beyond aid from the shore, and there was a waving of arms and lighting of matches to signal their danger to the spectators standing in safety on the banks. One or two of them were even possessed of electric torches, and they made every use of them to communicate their plight to the helpless watchers. Shouts of men and screams of women added to the horror of the scene as the great mass of ice slowly drifted up the river with the freight of human souls marooned as completely as on an uncharted island.

Darkness Gathers Over the Scene

Darkness fell with almost appalling rapidity to hide the victims from those who would attempt a rescue and to hamper the efforts of the rescuers. In a few minutes the faint light of the torches and the fainter shouts of the stranded people were all that was to be seen or seen of the tragedy that was being enacted in the river.

The alarm was given instantly, and rescue work was at once initiated, but under tremendous handicap. Deputy Chief of Police Bigagouette immediately assumed command of the situation, and with a detachment of policemen set the rescue operations in motion.

CHAMBER PLANS WORK PROGRAM FOR YEAR 1924

Various Suggestions for Activities for Coming Year Considered in Detail

NAMING OF STREETS

Number of Members Deeply Interested in Park System and Memorial

The Program of Work Committee for the Belleville Chamber of Commerce held a meeting yesterday afternoon during which the various suggestions for Chamber of Commerce activities for the current year that had been sent in by the members were considered in detail.

The recommendations that the members make cover a very wide field of aim, endeavor and proposition and if all the things are accomplished that the members recommend Belleville will see in 1924 a very active year.

Naming of Streets

A large proportion of the suggestions sent in refer to the lack of name-plates at the various street intersections making it impossible for a stranger and difficult for our own citizens to determine their location in unfamiliar parts of the city. It is strongly and urgently recommended therefore, that suitable name-plates should be provided and put in place before the United Empire Loyalist celebration in June. And it is further recommended that the proposal that has been made from time to time to have the three names now borne by our main thoroughfare leading to the Canadian National depot merged into one appropriate title.

Extension of Parks System

Numbers of members are also deeply interested in the extension of Belleville's park system. They strongly recommend that the spoliation and disfigurement of Zwick's Island should be sternly prohibited and that no further depredations upon the landscape of what was at one time a beauty spot should be allowed. They believe that his happily situated island should be reserved exclusively for park purposes and preparations entered upon at once to carry that design into effect. To assist in the work it is recommended that suitable trees should be secured from the Forestry Department of the Ontario Government. These are supplied free of charge and could be used not only for the decoration of Zwick's Island but for the other parks and streets of the city.

Establish Park

The members were also of the opinion that the proposal to acquire and establish a park and grounds for amusement purposes and for the holding of an agricultural fair should be encouraged and promoted with all possible dispatch, and that an up-to-date hockey arena should be among the projects to be seriously considered.

Closely associated with the parks system and what is now generally regarded as a civic necessity is the establishment of tourist camps. Belleville has as yet no tourist camp and it was thought that temporary quarters might be secured and provided for on Zwick's Island. The grounds should be equipped with lavatories, means for simple cooking operations and a supply of good water. When Trenton, Napanee, Deseronto and all the other towns in the district have well-located and equipped tourist camps it gives an exceedingly bad impression to the increasing number of tourist campers to ascertain that the City of Belleville has not provided tourists with any stopping-place. A tourist camp does not, as some suppose, interfere with the patronage of hotels. When it is discovered that Belleville has no camping ground the tourists merely pass on to Deseronto or Napanee, if going east, or to Trenton if going west, and in this way those Belleville merchants who are dealing in souvenirs and tourist supplies are deprived of very important patronage and Belleville acquires a reputation for being behind the times.

Let there be harmony in things essential—liberty in things not essential—charity in all.

TOURISTS AND ROADSIDE BEAUTY

The attraction of tourists to Canada has been described as selling our scenery to them, and it is of course, largely for the natural beauties along our highways that visiting motorists come here. That being so, it is obviously of paramount importance to preserve these natural beauties in the highest degree. In this connection it is instructive to note that in England two great oil companies have announced their intention of assisting in preserving the natural beauty of the country.

The companies are the Shell-Mix, Limited and the Anglo-American Oil Company. The Shell Company announce:

"That, in sympathy with the movement for the preservation of the natural beauty of the landscape, they are proceeding forthwith to dismantle and remove all their road signs of exclusively advertising character throughout the countryside."

The Anglo-American Oil Company state:

"In view of the efforts of the Scapa society (Society for Control of Abuses in Public Advertising) to preserve the beauties of the countryside, the proprietor of Pratts' Motor Spirit have decided to remove all Pratt field signs, and so help to maintain the natural beauty of the landscape of the British Isles."

These are admirable examples which might well be followed in Canada. The disfiguring of natural beauty by advertising signs is increasing in this country, and if steps to curb it are not taken automobile highways will gradually become mere advertising avenues. When advertising signs degrade a landscape the feeling on the part of those who see them is one of disgust and resentment, and advertisers would do well to remember this fact.

WHERE DELAY IS NOT DANGEROUS

Replying to the United States Government which asked (1) immediate conclusion of a treaty for the development of the St. Lawrence waterway along the lines suggested by the International Joint Commission, or (2) the constitution of a joint commission of experts to make preliminary studies and frame a "project" for a treaty, the Government of Canada asks further inquiry into the development scheme's engineering features and cost.

The reply given is the right one. We think it right because (1) there is no imperative need to rush such a project and (2) because Canada should be given time to think twice and thrice before launching upon additional great capital costs.

The position of the United States is different. That country, immensely wealthy, is enjoying annual national surpluses, and on the same press page that we read of this St. Lawrence proposal, there is this despatch from Washington:

"Republicans of the House Ways and Means Committee to-day completed their draft of the 1924 revenue bill which carries a reduction of 25 per cent. to apply on all personal taxes payable this year. The measure is to be formally ratified by the whole committee on Thursday and reported to the House on Monday.

"The 25 per cent. reduction on 1923 taxes, which was voted by the majority members to-day, would mean a saving o taxpayers this year of about $225,000,000. Secretary Mellon has approved this section. A reduction of about $13,000,000 in the jewelry tax also was approved to-day by the Republicans."

Canada is not balancing her budgets. On the contrary, she has increased her public debt by $100,000,000 during the past two years; has had to heighten her taxation; and will count herself lucky if she can make revenue meet expenditure this year.

Under the circumstances, it does seem as if it would be wise to at least wait until railway deficits are further reduced, and until taxation is somewhat decreased, before launching lightly upon a project which, however, great its merits, will increase the fixed charges of this country by a number of millions of dollars.

EDITORIAL NOTES

Responsibility makes Ramsay MacDonald, labor union man, work fourteen hours a day.

—o—

If they keep on talking about the lid of the sarcophagus, we'll scream

—o—

And what has happened to the poor old Georgian Bay Canal.

—o—

A few less Royal Commissions might also help to effect economy. Mr. King has had six of them roaming up and down the country all year.

—o—

Pink is the color of King Tut's funeral overcoat. A pleasing color one would say, though we still prefer seasonable woollens in grey.

—o—

One-sixth of the population of Canada resides and does business within 50 miles of Hamilton, boasts a paper in the Ambitious City. In other words the dog wags outside the radius of his tail.

—o—

There was no mad rush to raise the flag at the German embassy, Washington, in honor of Wilson. Thus the German, never conspicuous for his tact, registered his sentiment and opinion. He will inevitably pay—possibly in social ostracism or intensified unpopularity—for daring to indulge the courage of his convictions.

—o—

Now that the Government has announced its zeal for economy, what about stopping the waste of millions upon the Hudson Bay Railway? That project, fathered by the desire of both the old parties to curry favor with the West, represented nothing but the "pork barrell" on a national scale. It has meant a loss of millions; and the only argument in going on with it is that good money should be thronw after bad.

—o—

The Canadian Manufacturers' Association has been informed that upwards of three hundred Canadian industries will be represented among the exhibits of Canadian products which will be shown in the Canadian Pavilion at the British Empire Exhibition. Already fully 60 per cent. of the exhibits are on their way to London, and the balance will be sent forward in the near future. The entire space allotted to manufactured goods in the Pavilion has now been taken up, and there is every reason to expect that the display of Canadian products will do full credit to the industries of this country. The goods to be shown embrace a very wide range of products.

HE KNEW

Two small boys once halted before a brass plate fixed on the front of a house, whereon was inscribed in bold characters, the word "Chiropodist.".

"Chirrupodist!" remarked one of them perplexedly. "What's that?"

"Why," replied his companion. "A chirrupodist is a chap what teaches canaries to whistle."

A little bit of worrying in advance often saves a whole lot of worrying afterwards.

PRESS OPINIONS

THE LITTLE ROOSTER

(Cincinnati Times)

Death called Lenin, and now Trotsky, a smaller figure passes from the Russian spotlight, crowded into the shadows of the stage by his Communist comrades. No longer one of the bunch in spirit, he was not tall enough to be it. So the army was taken from him and his scheme for a labor draft dies. The man's vanity and theatricalism have been his undoing. He could not sense the strength of the Russian drift toward the status of a "capitalistic state." Still he dramatized himself in a cocked hat directing military and industrial armies—the little rooster at whose crowing the Muscovite sun arose.

DANGEROUS MEN

(Chicago Tribune)

The dangerous man in the streets is the habitual and deliberate speeder. It is our guess that about 15 per cent of police activity against infractions of motor vehicle law is directed against the man who parks his car illegally or commits some infraction which would not have a death as the consequence. It may even be less one way and more the other. The drivers who are shooting up the death rate speed past policemen without interference turn corners at twenty miles an hour and whizz along streets in which children are running from curb to curb. An attempt at law enforcement lasts about ten hours.

OAKS FROM LITTLE ACORNS

(Los Angeles Times)

Once the world really realizes that wars are needless and criminal and that all the faiths of our civilization should lead us to band together to make them impossible we shall see that it is as logical for the great nations of the world as it is for the individuals of a community to cooperate by forbidding individual gun toting and employing police to keep the peace.

It is folly to say a thing cannot be done when it is being done even in a comparatively small way. And all great things grow from small enough seed.

GERMAN PRODUCTIVENESS

(Kansas City Star)

What Germany needs is not direct help but such relations with other countries as would enable it to stabilize its own affairs. It is on this theory the Reparations Committee is proceeding. The British Government has held to this ground. France acting on its natural theory of self-preservation has stood in the way. Obviously the thing to be accomplished is to convince France that German productiveness may be promoted without re-establishing the German military menace. And of course if this cannot be done France cannot be expected to yield.

FINANCIAL WORRIES

(Flint Journal)

There is always more or less worry connected with money. Those of us who do not have it worry about getting it and those of us who have it are often put to considerable worry in hanging on to it. In addition to this no little worry is brought on by the desire to make two dollars grow where only one dollar grew before. It seems as though poets and philosophers have conspired to bring money into disrepute so anxious are they to tell us that the mere possession of it is a great burden. But most folks willing to stand the burden even more burden when increased by such possessions.

WINTER TREES

The winter trees have kinship with the skies
When the pale sun of February lies
Upon the level west and the air is cold;
Then the last chilly rays like splintered gold
Come slanting up the fields, and swift they set
A torch in every treetop,—in the net
Of naked birches, in the maple brush
A twig or two will glimmer like a rush;
And up the apple trunks a pinkness pour.
And copper lights are in the sycamore.

But soon the sunlight wanes, and sudden slips
The lovely glazing from the maple tips
And strikes along the evening cloud and glows
In richest plummy hues and burnished rose.
And now by field and dusky wood and lane
The trees are faded down to drab again.
Only the upper branches in the sky
Reach for the colored clouds as they go by,
Tangle them in their boughs and pull them down
And wear them like a soft arboreal crown.

—Christine Curtis.

THE DEAR OLD BICYCLE

"The bicycle had some advantages over the automobile," sighed the owner of a second-hand car. "Well, name them." said his wife wearily. "You couldn't have more than two blowouts at one time."

FORESIGHTED

Barker—Why does a woman always keep a man waiting so long after she says she'll be ready in a minute?

Harker—Because she picks out a minute which is about half an hour away.

ALL-STAR CAST GRIFFIN'S MONDAY

Another Marshall Neilan picture, "The Eternal Three," will be the feature at the Griffin Theatre on Monday for three days. According to reports, Neilan and the Goldwyn Company have added another screen success to their list in this photoplay.

There is an excellent cast including Hobart Bosworth, Claire Windsor Raymond Griffith, Bessie Love, Tom Gallery, William Norris, Helen Lynch and others.

The story, which was written by Neilan himself, is about a noble surgeon who is cruelly hurt by the ingratitude of others. In fact, his adopted son, (Raymond Griffith) seeks to steal his beautiful young wife (Claire Windsor).

No expense was spared by Goldwyn to make this picture as great a photoplay as "The Strangers Banquet" "Bob Hampton of Placer" and other Neilan productions which have made him at thirty-one an outstanding figure in the movies.

EXCELLENT CAST IN "THE GLORIOUS FOOL"

A model Goldwyn cast will be seen in the new Mary Roberts Rinehart picture, "The Glorious Fool," which will be presented at the Regent Theatre for three days, beginning Monday. It is a hospital story in which Helene Chadwick plays the part of probationer. Her patient is the charming Richard Dix, who has made a pronounced success in his recent Goldwyn pictures. Otto Hoffman, one of the best character actors on the screen to-day, plays the part of "dummy", a deaf and dumb orderly whose interference in the romance between the probationer and her patient leads to a happy conclusion. Other well-known players in the cast are Vera Lewis, Kate Lester, John Lince, Theodore Von Eltz, Frederic Vroom and Lillian Langdon.

A grafter by any other name would still be a thief.

The Letter Box

The Editor, The Daily Intelligencer
Belleville Ont.
Dear Sir:—

The Toronto "Mail and Empire" carries a lengthy article on "Yachting" in their issue of February 6th, suggesting that the eastern and southern Lake Ontario Yacht clubs organize for yacht racing in the "R" class. Kingston has two "R" boats Watertown, New York (Crescent Yacht Club) two, Oswego two, and Rochester is building one, and the editor of the article in the "Mail and Empire," thinks that Belleville yachtsmen should get busy and buy or build in order to complete the eastern and southern association, which would be composed of Belleville, Kingston Watertown, Oswego and Rochester.

Yacht racing is undoubtedly the cleanest, healthiest and most scientific of all sports, and since the revival of yachting in Belleville, a great many notables have taken more than a common interest in this city, such as Dr. R. Bruce Taylor, Principal of Queen's University, and owner of the "Scrapper" the Lansings of Watertown, Judge Francis D. Culkin of Oswego, Geo. Gooderham, Aemilius Jarvis, Thomas Wade and a great many others of the R. C. Y. C., Toronto.

The R. C. Y. C. has a record to maintain which it should endeavor to do on account of its well known history. The fleet of yachts of the olden days owned by Belleville yachtsmen comprised such famous boats as the "Nora" owned by the late John Bell Q. C., and the "Atlanta" built sailed off New York Harbor for the American Cup.

The interest and efforts of former yachtsmen should stimulate the interest in yachting of the present day and it is to be hoped that this great sport will be continued at Belleville.

A SUBSCRIBER

IT WOULD HAVE BEEN OTHER WISE

The teacher was trying to impress on the children how important had been the discovery of the law of gravitation.

"Sir Isaac Newton was sitting on the ground, looking at the tree. An apple fell on his head, and from that he discovered gravitation. Just think, children," she added, "isn't that wonderful?"

The inevitable small boy replied—

"Yes, miss an' if he had been sitting in school, lookin' at his books, he wouldn't never have discovered nothin'."

VICTORIA

Church next Sunday at 10.30, Sunday School at 9.30.

Mr. and Mrs. Frank Bedell and Evelyn spent Tuesday at Mr. Lorne Brickman's.

Mr. James Grinmon spent the week end at his home in Picton.

Mr. and Mrs. Ray Fox and girls and Mr. and Mrs. Lorne Brickman and Audra took tea at Mr. Everett Brickman's on Wednesday evening.

Mrs. Peter Cavalry of Fort Steward who attended the funeral of her father Mr. Alfred Wannamaker, is spending a few days visiting at her brothers, Mr. Amos Wannamaker and sister, Mrs. W. Loney.

Mrs. B. L. Redner spent a few days with her parents, Mr. Phillip Pearsalls, of Bloomfield.

Mrs. A. Reddick, of Belleville, has been spending a few days at her brother's, Mr. A. Wannamaker's.

Mr. and Mrs. Stanley Welbanks and Mr. James Grinmon spent Thursday evening at Mr. Everett Brickman's.

Miss Beryl Weese entertained a number of young people at her home on Tuesday evening.

Mr. and Mrs. A. Gough and family of Foxboro spent a few days at her brother's, Mr. Amos Wannamaker's.

Mr. and Mrs. Will Fox and Earl took tea at Mr. Everett Brickman's on Sunday evening.

Mr. and Mrs. B. L. Kidner and Ralph took dinner on Sunday at Mr. Ernest Adams, Rednersville.

The funeral was well attended on Monday afternoon of the late Alfred Wannamaker. Interment at Albury cemetery. Mr. Wannamaker leaves to mourn his loss, besides his widow, one son, Mr. Amas Wannamaker and four daughters, Mrs. W. Loney, Mrs. A. Reddick, Belleville; Mrs. A. Gough, Foxboro; and Mrs. Peter Cavalry, Fort Steward.

600,000 Scouts To Celebrate 14th Anniversary

New York, Feb. 7 (United Press).—In connection with the fourteenth anniversary of the Boy Scouts of America, February 8 to 14, the Boy Scout Foundation of Greater New York will try to increase the 3,000 scout leaders by at least another thousand. There are now over 23,000 registered scouts in the greater city, and it is estimated that there are at least 100,000 boys of scout age in New York City who might join the movement if there were sufficient leaders. There are now nearly 600,000 boy scouts in the United States and over 3,000,000 in the whole world.

The forthcoming Boy Scout week will be celebrated all over the United States wherever there is a Boy Scout troop, and there are over 24,000 of them, scattered from Maine to California. An outstanding feature of the anniversary week will be the pilgrimage hikes to patriotic shrines, birthplaces of famous Americans, and historical spots on Tuesday, February 12, Lincoln's Birthday. While the scouts of Springfield, Ill., are hiking to Lincoln's tomb, the Baston boys will march to Bunker or the tomb of Paul Revere. Some of the New York scouts will pay their annual visit to Roosevelt's grave, while others will hike to a dozen other historic shrines, and a thousand or so scouts will visit the battleship "West Virginia," the latest pride of the Navy, at Brooklyn Navy Yard. The scouts of Marion, Ohio, will make a visit to the tomb of their late friend and benefactor, Warren G. Harding. The scouts of Washington, D. C., will sail down the Potomac to the tomb of Washington, at Mt. Vernon.

HAPPY INSPIRATION

Dear Editor—I have a bald spot on the back of my head, about the size of a silver dollar and smooth as glass. What would you advise?—REPLY.

It might be a nice place to record license number and your motor number; then you'll always have them in the back of your head.

INFLUENZA EPIDEMIC SWEEPING BRITAIN

London, Feb. 8.—There is no sign of the epidemic of influenza which is sweeping over the United Kingdom, abating as yet. The deaths recorded from influenza last week numbered 367.

Paris as well as London, is being afflicted with the influenza epidemic.

WEDDING BELLS

WINDOVER—CHARLTON

A quiet but pretty wedding was solemnized at noon at the home of the bride's parents Mr. and Mrs. Alfred Charlton Sr., 124 Bridge St. West, on Feb. 7th, 1924, when Ella, youngest daughter was united in marriage with Mr. Everette Windover, eldest son of Mr. and Mrs. M. Windover, Everett St. Rev. A. B. Ransom, B. A. of Avonmore Ont. performed the wedding ceremony.

The bride entered the drawing room on the arm of her father, who gave her away, charmingly dressed in sand canton crepe. She was assisted by her cousin, Miss Helen Babcook of Harrowsmith who wore navy canton, each carrying a bouquet of carnations. The groom was assisted by Mr. Arthur Charlton, nephew of the bride. The wedding march was played by the bride's sister, Miss Pearl Charlton.

The groom presented the bride with a cheque, the bridesmaid with a pearl ring, the best man a tie pin, the pianist a white gold brooch, and the bride's gift to the groom was a gold Waldemar chain. After the ceremony about forty guests enjoyed a bountiful luncheon. The bride was the recipient of many pretty and useful presents and several cheques, showing the esteem in which she is held. The newlyweds left for western points in the afternoon amid showers of good wishes and confetti. The bride wore navy tricotine suit with grey hat, blouse and shoes and southern coon coat.

A number of out of town guests were present from Harrowsmith, Marmora Empey Hill, Corbyville, Point Anne, Kingston, Avonmore and Cobourg.

ISSUE WARRANT FOR MAN'S ARREST

Police issued a warrant this morning for the arrest of Earl Davidson, on information furnished by Nick Stathopoulas, Greek employe of the Sam Pappas Billiard Academy, 227 Front street.

Davidson is charged with damaging a show case in the Pappas store at 8.30 p.m. yesterday to the extent of $27.

"She was the sort of woman who bought furniture on sight and repented on the instalment system."

TAMWORTH VILLAGE SUFFERS BY FIRE

Two Stores Gutted and Two Others Are Badly Damaged

Kingston, Ont., Oct. Feb. 8.—The Village of Tamworth suffered a heavy loss by fire early yesterday morning when two stores were gutted and two others very badly damaged along with the Masonic Hall. The cause of the fire is unknown. The buildings destroyed were: L. B. Wells' harness shop. Walter Redden's warerooms, agents for autos and separators, badly damaged; Redden's drug store. A. B. Carcallen's, general store and the Masonic Hall.

The fire broke out about one o'clock and there was great excitement in the village. Many of the shopkeepers carried out their stock fearing they would be wiped out. It is stated that the fire originated in the shop of Walter Redden. Tamworth has no fire brigade and it was a case of everyone turning in and fighting the fire.

RADIO FANS MAY HEAR DEBATES

Ottawa, Feb. 8.—Radio fans may soon hear debates in parliament by appropriate wave length. No definite decision in the matter has yet been reached, but there has been some discussion, it is understood, of proposal to broadcast such headliners as principal speeches in the debate on the address and on the budget.

The idea put forward is to install microphones in the House. These microphones would be linked up with a regular broadcasting station where the speeches would be broadcast to expectant fans.

Cries Of "Resign" In French House

Stormy Scenes in Deputies Follow Gov't Victory on Text Vote

Paris, Feb. 8.—Cries of "Resign! Resign!" greeted Premier Poincare last evening after the tumultuous termination in the Chamber of Deputies of a test vote on the powers demanded by the Government to effect economies by decree.

The vote in favor of the Government on the proposed rejection of the article in the Bill giving the powers asked for was less than half the full strength of the Chamber as now constituted, and a quorum was barely attained. The majority was 237, but only 16 of the Opposition voted.

The vote was by roll call, on demand of fifty members. This procedure is rare in the Chamber, and the rule is that the members demanding the roll call shall be counted in the quorum, whether voting or not. Thus the vote was valid, and the motion of M. Herriot, the radical leader, to reject the Government's demand for full powers was defeated.

Pandemonium reigned after the announcement, the Radicals, Socialists and Communists yelling in chorus: "No quorum! No quorum!"

Comparative calm finally was established, permitting M. Poincare to explain that the reduced vote was due to the fact that many members had left the Chamber, tired out by the all-day discussion of the amendments, in the course of which the Communists and Socialists vied with one other in obstructive tactics.

Obituary

JAMES MULROONEY

Mr. James Mulrooney, a resident of Thurlow Township passed away this morning after being ill for some time. Deceased who was 67 years of age was born in Ireland, but had resided in this locality the greater portion of his life. He was a member of St. Michael's Church. Mr. Mulrooney was a bachelor. His parents and other members of the family predeceased him.

Talks In Court; Fifteen days

Fast talkers often talk themselves into money, but not as a rule in police court, as William C. O'Hearn of Toronto learned today when he appeared before Police Magistrate Masson on a charge of having been intoxicated in a public place. William was not quite sober when he appeared and he opened up with a berrage of oratory about his rights, also the rights of the Canadian National Railway, and incidently attempted to put Crown Attorney B.C. Donnan right. The result was that he was assessed $10 and costs of $3 or fifteen days in the county jail, the minimum being given out of consideration for accused, who lost his right arm in France during the war. He went up rather than pay the fine.

Put Off Train

O'Hearn, who had been in Montreal loaded up "internally" and boarded the Toronto bound trai nleaving "The Oasis" at 11 p.m. Long before the train reached Belleville, the train crew report that O'Hearn was creating much "whoop de do" aboard, and it beame necessary for them to put him off at Belleville, into the arms of the C.N.R. constable, Pat Donovan, who did the rest. The train crew stated that they tolerated more abuse from accused than they would have from any other passenger owing to his physical disability, but he became un-

Argument Unnecessary

Today, accused objected to the officials having taken his ticket, as he held that the C.N.R. had contracted to carry him to Toronto when he bought the ticket, and it was over this point that he and the Crown Attorney clashed.

"You are prosecutor around here and should know those things. Read the back of any railway ticket," advised the accused. "Yes, and I will be doing some more prosecuting in a minute," replied the Crown Attorney, who explained that misbehaviour on the part of the ticket owner cancels the contract to carry him.

"Alright, go to it," was the invitation.

All was set at rest, however, when the ticket was returned to the owner, and he seemed pleased to note that the ticket would not be outlawed when he is liberated from the castle.

DENBY DEFENDS ACTION ON LEASE

Extended Statement On Naval Oil Lease by U.S. Secretary

Washington, Feb. 8.—On the eve of the renewal of the Senate of the demands for his removal from the cabinet secretary Denby made public last night an extended statement defending his course in assenting to the lease of the naval oil reserves. Asserting that there are involved three basic questions the naval secretary answered then well in the affirmative; that the transfer of administration from his department to the interior department was legal; that the leases themselves were legal and carried out the expressed will of Congress; that they were beneficial to the Government, prevanting the further loss of millions of dollars worth of oil and greatly increasing power of the navy to defend the country.

With the Senate and its oil committee both in recess Mr. Denby's statement was the only concrete development of the day in the oil situation. Debate in the Senate will break out afresh to-day and the committee will get back to its hearings on Friday.

SECOND DEATH FROM GUN DUEL

Slayer of Palmetto Woman Dies from Wounds in Pistol Battle

New Orleans, Feb. 8.—Louis Meyers, who shot and killed Mrs. Roland Clark during a pistol fight last night at Palmetto, La., after he had been wounded by the woman, died in a local hospital late last night. Meyer, a merchant of Palmetto was brought here late yesterday.

Meyer, denied last night that the recent election in which Mrs. Clark was a candidate for mayor of Palmetto had anything to do with the cause of the shooting.

He corroborated the story of the shooting told by his brother, Charles, who accompanied him here and who said it resulted from charges by Mrs. Clark that he had made remarks reflecting upon the character of her daughter, Wilda who also was wounded in the shooting.

INFLUENZA IN BRITAIN

London, Feb. 8.—There is no sign of the epidemic of influenza, which is sweeping over the United Kingdom, abating as yet. The deaths recorded from influenza last week numbered 367. Paris, as well as London, is being afflicted with the influenza epidemic.

COMMERCIAL AWARDS

There have been further successes in the senior Commercial Form of the Belleville High School. Misses Thelma Noyes, Helen McDonald, Olive Adams, and Margaret Cannon have been awarded certificates for proficiency in typewriting in the January contest on the Remington Machine.

THIS MAY BE SIGN OF AN EARLY SPRING

Spring is not here, but the sunshine has almost as much "kick" today as real moonshine, with several natural results. No robins have been seen today as it is believed that the cold snap "finished off" the brave red breast seen recently on Bridge street. There is one evidence of spring, however.

Two young boys were having a real marble game on the sidewalk during the noon hour.

All that is needed for springtime now is, the spring "slush," poetry, the "hurdy-gurdy" and—Spring weather.

That Body of Yours

By James W. Barton, M.D.

WHAT IS BEHIND RHEUMATISM?

You may remember some years ago when all cases of rheumatism were supposed to be caused by getting a severe cold, or due to prolonged exposure to dampness and cold.

Then a little laterit was supposed to be due to uric acid in the blood, and so huge and regular doses of epsom salts were given.

Lean meat was blamed for the formation of this uric acid, and so these sufferers were denied all meats.

Later on again the tonsils were blamed for the trouble, and tonsils were removed in wholesale manner.

Then later came the teeth, infection about the roots of which were blamed for causing rheumatism.

Then more recently the sinuses—the little hollow spaces in the bones of the cheeck and forehead which connect with the nose.

And then the intestine with unremoved waste products came into disrepute as the cause.

And finally a germ was found by a celebrated Chicago physician and it was considered the cause.

Now what about all this?

Well, it would appear that practically any one or all of these things might cause a definite attack of rheumatism, which as you know is an inflammation in the joints, just as you can have an inflammation anywhere else.

And so each one of these factors may enter in.

The cold and exposure lowers your vitality, and the ever present germ gets busy.

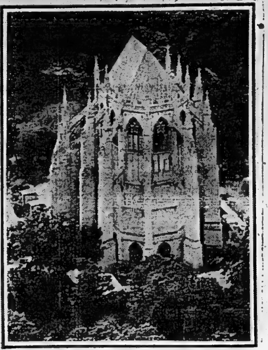
The accumulation of acids in the body may be the factor and so you see the big doses of salts cleared out considerable of this but did not prevent the manufacture of more.

The removal of tonsils certainly cleared up thousands of cases as did likewise the extraction of teeth, and the cleaning up of the gums from pyorrhoea.

The raining of the sinuses, the removal of growths in the nose has also done its share. The correction of constipation deserves its share of the credit also.

Why do I say all this?

That whilst exposure to cold and dampness may apparently cause the attack of rheumatism, there is some place in the body, nose, throat, teeth sinuses, or intestine, that is manufacturing the trouble, and it remains quiet owing to the fighting ability of that body of yours, until the coldness, dampness, exposure, overwork or worry, lessens that fighting ability, and rheumatism, for a time at least, gains the day.



View of the Cathedral of Saints Peter and Paul, at Mount St. Albans, Washington, resting place of mortal remains of Woodrow Wilson.

Sir H. Thornton Urges Service And Courtesy

Message to Employees Sent By Radio Last Evening

Montreal, Feb. 8.—Sir Henry Thornton's radio address last evening was broadcasted by W. D. Robb, vice-president of the Canadian National Railways, owing to the president's absence from town; this being the third of the railway's radio programmes, which include vocal and instrumental music.

Much of the address was in the way of a friendly chat in which employees were thanked for their devotion to work and asked to be courteous on all occasions not only to the aged, the weak and the poor but even to those who ask what appear to be foolish question. In fact, the chief expressed a wish to see Canadian National people showing up well in all direction including sport and social recreation.

Coming to specific points Sir Henry said:

"The month of January was not up to our expectations from a traffic point of view, due largely to traffic conditions that were beyond our control. I believe we will more than make it up within the next few weeks, but it is a sufficient indication for me to send a warning throughout the railway that we must be up on our toes and hustling for business. Our net earnings last year were a little over twenty million dollars. We want thirty millions net this year. We shall have our hands full to get it, but with a little luck and the support of our men I have no fears of the result.

Winter Hardships

"Railroading in Canada, during the winter, is a man's job and sometimes weather conditions would try the patience of a Job. I have much sympathy and a great deal of admiration for all of our men who are battling with the weather to keep our trains on time. Thus far, the weather has not been so bad, but we shall probably pay for it later on. Therefor, I can only thank you for your good work in the past with the knowledge that you will keep it up in the future.

"Just here let me say a word about trains that may be badly delayed on account of weather conditions. In such cases the important thing is to keep our passengers warm and fed.

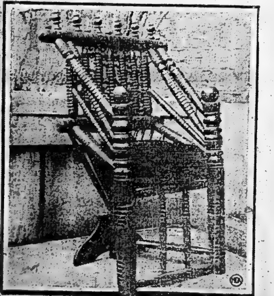
In an Emergency

When a train is considerably delayed no effort should be spared to get our passengers something to eat. When a dining car is on the train this is relatively simple. We do not want to go into the practice of furnishing free meals wholesale, but the important thing is to see that our passengers are comfortable even though it may cost us something extra to do it. It is money well spent."

Breakdown Of Wage Meeting

Sydney, N. S., Feb. 8.—With the Montreal wage negotiation broken up and the miners determined not to quit the fight the coal situation in Cape Breton is completely up in the air this morning. Nobody knows what may happen next. About the only certainty is that the miners will not work until some sort of an agreement is reached.

The men are receiving United Mine Workers strike relief, although not formally on strike and as they claim they are better off within this assistance than working one or two days a week, they are evidently prepared for a long struggle.



This is an exclusive view of the famous Harvard University "Presidential Chair," used by presidents since 1737. It was photographed recently for the first

ANNUAL MEETING OF CROWN LIFE

The annual meeting of the Crown Life Insurance Company was held on Moday February 4th at the Company's Head Office at 59 Yonge St. The President, Mr. G. T. Somers, presided and the Financial Statement was read by the General Manager, Mr. H. R. Stephenson.

Applications for new policies during 1923 totalled $15,123,290, an increase of nearly 50 per cent over the previous year. Policies were issued to the amount of $13,840,920 and the total insurance in force at December 31st last was $42,175,180 being an increase of $7,715,136 (more than 22 per cent.) during the twelve months.

The assets totalled $5,472,666.94, of which first mortgages on real estate amounted to $2,527,685.21 and on this large amount only $7,311.94 of interest was out-standing. Government and Municipal Bonds amounted to $1,337,233.07.

The cash premium income was $1,362,378.31 and the cash interest income $337,462.62. The average rate of interest earned was 7.02 per cent.

The sum of $574,098.00 was added to the Policyholders Reserve Fund which now amounts to $4,097,973 in addition to $76,381.20 of Alloted Surplus. Unalloted Surplus stands at $470,277.43. Dividends paid to Policyholders were $70,452.52.

The scale of Policyholders dividends has been raised, the same advance being made as was made a year ago. Profits paid in 1924 will accordingly be 23 per cent greater than were paid on corresponding policies in 1922.

In moving the adoption of the report, President G. T. Somers said in part: Our Company is growing very rapidly, the net increase of insurance placed on our books during the past five years exceeds, by almost 50 per cent, that of the years, 1901 to 1918 combined. Lest you should fear that this large amount of new business has been obtained at an excessive cost, I hasten to assure that our expense ratios which in recent years has been quite low, has again declined and is in fact one of the lowest.

Our Assets are well distributed and in excellent conditioin and our interest yield is certainly most satisfactory. The ever-increasing returns to Policyholders in the way of Dividends cannot fail to be gratifying to them and helpful to our Field Force. We are confident of continuing during 1924 the splendid progress reflected in this report.

SAVED PARALYSED MAN

Sarnia, Ont., Feb. 8.—Awakened from his sleep by crackling flames yesterday, Geo. Allen, Confederation street, rescued from an adjacent room his guest, Charles Hall who is paralysed. Mr. Allen was wearing only his night robe and was badly burned about the face, but succeeded in reaching a neighbor's home with his helpless burden.

Sage Tea Turns Gray Hair Dark

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybodys uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beauti-

The Periscope

By LAWRENCE MARTIN
(United Press Staff Correspondent)

Washington, Feb. 8 (United Press)—As Congress assembled, the politicians announced that this session running as it will up to the 1924 national conventions, would prove a test of President Coolidge's political fortunes, which might be conclusive.

What they had in mind was that Congress would prove his ability to lead, to get things done and to prevent, by one means or another, the doing of things inimical to his administration's policies.

His administration had a majority in name only in both House and Senate—a majority the effectiveness of which was blasted at the very outset when the progressive blocs in both houses proved that in coalition with the Democrats, they could control the legislative situation.

It is now fairly apparent that the testing of Mr. Coolidge will occur upon two questions, and that upon no others will the record, as between the President and Congress, have much importance in the campaign. These two questions are taxation and the naval oil reserve leasing scandal.

The question of relief for farmers of the northwest might also be included, but that problem has been reduced to a relatively local one. Also the soldier bonus probably will be rated by some as likely to prove a severe test for the President. That seems doubtful, and in any event, it is interlocked to a considerable degree with taxation, so that the effect of the two may be considered together.

As for Congress, it has settled down into an investigating body and leaders already are beginning to formulate in their minds plans for adjournment in June, and legislative programs to be carried out in the interval.

Tax reduction, a bonus bill, some farm relief measures, another temporary immigration bill, a measure disposing of Muscle Shoals—these seem at this time to be the probable limit of congressional activity, over and above the regular apropriation bills. Adjournment by June 7, is already tentatively planned.

The Tax Program

To return to Mr. Coolidge's "testing,"—it is already under way. The President has mystified some of his friends and a good many of his political enemies by his steadfast repitition that he will accept no compromise on the Mellon tax reduction plan.

It is hard for a good many observers to understand why the President is so emphatic about this, and appears to go out of his way to emphasize it. In Congress there is no longer any attempt to disguise the fact or to evade the certainty that there must be a radical change in the Mellon program if any tax reduction is to be accomplished.

The central brace of the Mellon plan upon which the rest of the structure is hung, will never be accepted either by the Democrats or the progressives, unless they are all bluffing outrageously now. This is the provision cutting to 25 per cent the maximum surtax on big incomes. The maximum now is 50 per cent.

Mr. Coolidge has said definitely he would not accept any material deviation from Mellon's figure. Therefore, if both he and the congressional groups maintain their position, there will be no tax legislation, and the President and his party will be charged with responsibility for this failure. They will be charged with letting a desire to benefit men of great wealth stand in the way of tax reduction for the masses.

Their reply to such a charge has already been made vigorously, it being that the Mellon surtax reduction is not in the interest of the rich, but means more revenue for the government and more capital for business and industry. However, the opposition argument could be counted on to appeal more strongly to the millions who saw themselves cheated by some means of tax reduction.

There is therefore every reason to believe that Mr. Coolidge and Congress will get together on tax reduction before the Republican national convention meets June 10.

Teapot Dome Scandal

The Teapot Dome scandal has already been recognized by Mr. Coolidge as a part of his test, and he has moves to clear the skirts of his administration from its taint. How far he will go depends on what the various investigations under way disclose in the way of actionable facts.

The President can be expected to do what these facts seem to him to warrant, and not what popular clamor demands. While at this time everything points to government action to annul the Teapot Dome and California leases, Mr. Coolidge's eminent counsel may report to him that there is no legal ground for annulment and then Mr. Coolidge will have to decide whether he wants to go to the length of saying that, even if there are no legal flaws in the leases, they are so manifestly against public policy that they will be annuled anyway.

The situation that now confronts the President is one calculated to show whether, under stress, he is a man who sways political or popular pressure, or a man who cannot be swerved from what he has decided is the right course, no matter how wrong that course may appear to others.

DR. BAKER SPEAKS ON THRIFT WEEK

Under the direction of the Thrift Week Committee, Rev. Dr. Baker Principal of Albert College, delivered a fine address yesterday afternoon on the subject of Thrift at Ontario Business College. The address was very instructive and interesting and was highly appreciated by those who had the privilege of hearing it. Dr. Baker received a vote of thanks, which was moved by MacArthur Hill and seconded by Harold Harns.

OTTAWA WEDDING NOT FULLY CHORAL

Much Discussion in Ottawa But No Decision Reached

Ottawa, Feb. 8.—Contrary to all speculation, the wedding service will not be fully choral. Solos will be sung during the service by N. T. Allan. John Beader, F.R.C.O., will preside at the organ, and will play the Wedding March from Lohengrin.

It is rumored that the bride's dowry is in the neighborhood of four million dollars, two millions of which will be contributed by her grandfather, J.R. Booth, Canada's lumber king.

The local florists are importing flowers from Florida to decorate the church. The preparations will be begun on Sunday morning, and the florist will have a staff busy all day Sun-

Grandfather Absent

J.R. Booth, millionaire lumberman, will not attend the wedding of his granddaughter, Miss Lois Frances Booth, to Prince Erik of Denmark next Monday, it was announced here. Mr. Booth has been ill for five weeks. Although his condition has improved, it is stated he is still confined to his bed.

Baby's Body Buried Here

Chicago, Ill., Feb. 8.—Martha Thompson was arrested here on request of Toronto authorities on account of mysterious death of her baby. She says the body was buried at west end of High Park boulevard, Toronto, two hundred feet from the big gate.

Chief Coroner Dr. Geo. W. Graham states that he has heard of no such case.

WOMAN SAVED FAMILY

Brantford, Ont. Feb. 8.—Awakened by the constant mewing of their pet cat, Mrs. T.H. Hedden found that the house was full of coal gas from a defective furnace. Her husband was unconscious. Throwing open the windows she awakened the five children and carried them to safety, after dragging her husband to an open window.

OSHAWA PRODUCES MUSICAL "VENDOR"

Constantine Glecoff, Long-haired Musician Retails Wine from Violin Case

Oshawa, Feb. 8.—It was demonstrated in police court this morning that things are not always what they seem. Thus citizens who have observed a pale, long haired, aesthetic appearing young man about the streets carrying a violin case might have thought that he was an ardent devotee of the muse of Music, a possible successor to Beethoven or Mozart. Such, however, was not the case, for that violin case was not as innocent as it appeared, being really used as a container for booze and literally packing a quantity of Canadian wine with a most potent kick.

Police and License officials "spotted" the student some days ago. Whenever he was seen he was accompanied by his violin case and the officers came to the conclusion that no matter how musically inclined he might be, it did not seem reasonable that he spent his entire time in taking music lessons. Consequently they decided to investigate that violin case and in consequence the student, Constantine Glecoff by name, appeared in police court to-day charged with having a quantity of liquor in a place other than a private dwelling.

Glecoff pleaded that he did not know he had been guilty of an offence. He said he got the wine from the T. G. Bright Company of Niagara Falls, and thought it was all right to sell it by the bottle, as the firm from whom he obtained it had sold it to him, and he thought Canadian wine was exempted from the provision of the O.T.A. Magistrate Hind, however, disabused him of this impression and fined him $200 and costs or the option of three months imprisonment in Whitby with hard labor.

Girls Should Wear Bright Red Petticoats

Can anyone tell us why so many girls are making or buying red flannel petticoats. Surely not for the heathen? Is it because someone has told them, that this being Leap Year, if they propose to an eligible young (or old) man and he refuses them he must give them a silken gown. The condition attached to this, however, we are told, is that the rejected damsel must be wearing a red flannel petticoat when she proposes, and must be prepared to prove the fact! Of course no conceited girl makes or buys a red petticoat, she is certain of acceptance.

Just like a woman! Anna J. Kream, 21, "flapper bandit," walked into a Cleveland drug store, pointed a shiny little automatic at the male attendant and proceeded to help herself to the cash register's contents. Five days later she phoned to tell him how sorry she was. That proved her undoing, for police, tracing the source of the call, arrested her as she left a pay station. Anna told detectives unemployment and impending hunger drove her to it. Just another case of a small-town girl getting off on the wrong track in a big city, the officers say.

Chamber Plans

(Continued From Page One)

Collegiate Institute and Technical School

The present exceedingly unsatisfactory condition of over-crowding and bad sanitation in the High School building make it absolutely essential that the city should forthwith give most serious consideration to the building of a new collegiate institute and technical school, the same as are now being provided by Hamilton, St. Catharines, Sarnia, Windsor, Renfrew, Guelph and a number of other towns of Ontario that belong to the progressive group. The financial obligation is a heavy one but there does not seem to be any alternative but to face the problem and carry it through in a courageous manner and thus complete Belleville's educational edifice.

City Manager Plan

Some of the members suggest economy and curtailment of civic expenditures and a reduction of taxes; all of which is exceedingly desirable but it is felt that the best way to bring about economy and a reduction of expenditures, and therefore of taxation, is to adopt more efficient methods, that is to say by the introduction of the city manager plan and have sound business administration for the carrying out of civic work and policies. The history of hundreds of Canadian and American cities which have adopted the plan proves beyond the shadow of a doubt that Belleville could save many thousands of dollars every year in this way and not curtail any essential service.

Extension of Paving

A considerable number of members recommend that the permanent paving on Dundas Street East be extended to the civic bounds and have this important entry to the city a good advertisement for the city instead of a means of giving us a bad reputation as at present. Similar suggestions are made in regard to Dundas street west and the extension of the permanent pavement from Highland Avenue to the westerly bounds of the city and also in regard to Front street north, commonly known as the Madoc road. Others recommend the permanent paving of the roadways north and south of the market Square where most unsatisfactory conditions exist after every rain fall. Some of those making recommendation about paving intimated that it is altogether unnecessary to tear up the solid water-bound macadam foundation that at present underlies all our main thoroughfares. It is believed that in many cases this foundation could be saved and the asphalt surface applied with practically as good results as are secured where the more expensive method is used of providing a foundation of concrete.

Memorial for the Soldiers Who Fell

It is recommended by a number that Belleville should carry out in an adequate way the proposal to erect a suitable memorial for those who sacrificed their lives in the Great War. A number of valuable suggestions have been made by those contributing to the daily papers and it is felt that some one of these should be carried to conclusion.

Preparing for the Celebration

The members are in many cases of th eopinion that Belleville should enter upo nthe proposed celebration of the Hundred and Fortieth Anniversary of the settlement of Upper Canada b ythe United Empire Loyalists i na whole-hearted way and in order to do this the citizens are urged to fix up their lawns, and boulevards and use paint where it is necessary and during the actual celebration to decorate becomingly and extensively and that merchants should take especial pains in dressing their windows in a striking and attractive manner. All of these things require considerable forethought and if carried out in an adequate manner will place our city in a most favorable light before many thousands of important visitors from various parts of Canada and the countries of the world.

"Belleville" Motor Markers

As a means of advertising Belleville it is further suggested that each owner of a motor car in Belleville when taking out a license should also procure another small plate with the word "Belleville" appearing upon it. These will be on sale where the licenses are sisued for the small price of seventy-five cents a pair.

Better Sanitation

Some of the members have suggested that there should be more frequent and effective inspection by the Belleville Board of Health or similar officials of bakeries, restaurants, slaughter houses, dairies and all buildings and factories where articles of food are produced or handled.

St. Lawrence Development

It was further recognized as an important duty of the Chamber of Commerce and indeed of every citizen of Belleville to use every legitimate influence to urge upon the Dominion Government the necessity of immediate development along the St. Lawrence so that the future industrial needs of this sertion of Ontario may be met in an adequate way that our interests may not suffer as will undoubtedly be the case if this essential work is not proceeded with in the immediate future.

COMMUNIST ACTIVITY IN CANADA

Calgary, Feb. 8.—The International Workers of the World, by organizing the lumber dispute in Eastern British Columbia, is making an effort to tie the entire labor industry of the Dominion as a starting point to overthrow constitutional government and introduce Communism in its place, was the opinion expressed yesterday by John H. Hanna, secretary of the Calgary Board of Trade, after giving full consideration to information he had received on the situation from every available source.

Grain Inquiry Again In Action

Sessions Resumed in Winnipeg After Two Month's Adjournment

Winnipeg, Feb. 8.—The Royal Grain Inquiry commission resumed its sessions this morning after an adjournment of two months. The probabilities are that at the end of the week the commissioners will move to the head of the Lakes for the investigation of terminal elevator operations. The session there may require a week. Then they will continue the Winnipeg sessions, taking up the examination of various organizations doing business on the grain exchange.

Eight witnesses are to be examined Thursday and Friday. They are inspectors of the Federal Department who have to do with the grading and inspection of grain in the Winnipeg yards. This is a very important phase of the case being probed.

On opening to-day S. B. Woods, chief counsel, will address the commission at some length, reviewing generally the evidence already submitted and what it is proposed to touch on during the balance of the investigation.

At the same time the financial report based upon an investigation that has been made during the past month by a member of the commission into the records of the companies on the grain exchange owning and operating country elevators, will be submitted.

PROBE OF BOND CHARGE LIKELY

Alleged Duplication of Government Securities May Be Re-Opened

Washington, Feb. 8.—The controversy between the Treasury and Charles B. Brewer, a department of justice attorney, over the latter's charges of bond duplication in the bureau of engraving and printing threatening last night to lead a congressional investigation. Some house members never fully satisfied with the manner in which the administration closed the incident of the dismissal of President Harding of twenty-eight officials of the bureau, were prepared to revive the whole story and make it a matter of permanent record.

Mr. Brewer exhibited his "evidence of alleged duplication of government securities to a group of house members late yesterday, showing them, it was said, two safe deposit boxes filled with government bonds in the preparation of which, he declared, he had evidence of irregularities. The developments yesterday came after Mr. Brewer had conferred with the house members Tuesday night in a meeting called by Representative King, Republican, Illinois, and at which, they said, Mr. Brewer informed them in detail of the results of his investigation, a report on which already has been turned over to Secretary Mellon.

Philadelphia, Feb. 8 (United Press). —While the population of the United States has almost doubled in the last twenty years, utility service is growing much more rapidly, according to the Pennsylvania public service information committee. In the last twenty years the business of the street railways has increased 166 per cent; the use of gas has increased 207 per cent; the telephone demand 1,000 per cent, and electricity 2,000 per cent. More electricity is used in Philadelphia alone today than in the entire United States twenty years ago, according to the committee.

Certificate Of Pilot Suspended

St. John, N. B., Feb. 8.—By order of Captain L. H. Demers, Dominion Wreck Commissioner, who presided at the inquiry yesterday into the collision between the Peruvian steamer Perene and the Nova Scotia schooner Maid of Scotland which occurred off Patridge Island early Friday morning with the result, it is feared, that eight lives were lost, the certificate of Captain Ewart White, commander of the Perene has been temporarily cancelled pending the wreck commissioner's final report which will be submitted later, probably from Ottawa.

"In view of your conduct" said Captain Demers addressing Captain White, "I feel justified in withholding your certificate in the meantine especially in view of the loss of life, the gravity of the case and your own conduct. I feel that I am acting in the right direction by refusing to allow you to take command of that ship again and it now rests with the steamer's agents and brokers to see that the ship sails with a new captain."

The question of jurisdiction in the revocation of the captain's certificate may come in for considerable investigation for Captain White, although he possessed a British master's certificate, was sailing under Peruvian colors.

Mrs. Tratch To Hang On May 20

Woman Found Guilty of Murdering Husband Last October

Prince Albert, Sask., Feb. 8.—Found guilty of murdering her husband at their home in the Fish Creek district on October 19, last Mrs. Katherine Tratch, was last night sentenced to hang on May 20 by Mr. Justice J. F. L. Embury. The jury was out four hours. The woman was unmoved when sentence was pronounced.

She was persuaded to poison her husband, according to a police confession, by another man whom she loved.

According to medical evidence submitted Tratch died from the effects of strychnine poison which had been administered to him in a drink of home brew.

"I Had General Debility," Writes Mrs. Pelletier.

General Debility or a run-down condition of the system may be due to overwork, going out too soon after an illness, worry, neglecting to take proper care of one's health, sleeplessness, etc. Its symptoms are weakness, lack of energy. The person so afflicted is easily fatigued, nervous, depressed. Headaches, nervous dyspepsia are other symptoms of nervous debility. Building up the system with Carnol is the way Mrs. Pelletier was benefited. Her letter follows:

"I had general debility. I was all run down. I hadn't any appetite and could only digest liquids. I was nervous. I couldn't sleep. I was losing weight. The least exertion tired me. I consulted my doctor. He said I had general debility. He told me to take several bottles of Carnol because I needed building up. When I told Mr. H. H. Page, the druggist, my trouble he said he knew of no finer tonic. He said he always recommended it when a good, reliable tonic was needed. After taking three bottles I got relief, but I am still taking it. My appetite has come back. I can sleep. I have no more headaches and have already gained ten pounds. I am well satisfied with Carnol and always recommend it to my friends."—Mrs. M. Pelletier, Rivière du Loup. 10-9

Carnol is sold by all good druggists everywhere.

Ottawa Couple Wed 50 Years

Mr. and Mrs. Charles Tyers, 147 Pretoria Ave. Ottawa Ont. celebrated their golden wedding. There was a grandchildren from far and near gathered at the homestead.

Mr. and Mrs. Tyers were married on Feb. 3, 1874 in Barnsley, Yorkshire Eng. After coming to Canada they first resided at Cobourg, but more than 26 years ago they moved to the Capital City.

They have eight sons and two daughters, William J. of Belleville, Edwin, Toronto, Percy North Bay, Ernest, Herbert and Sidney, Ottawa Harold, Britannia, Albert, Hawkbury Miss Katie, Newark N. J. and Miss Anne the other daughter passed away last year, being the first break in the large family.

On Monday a reception was held for the friends and relations from 4 until 9 p.m.

Spring flowers were used effectively to adorn the rooms. Mrs. Tyers received in a handsome gown of amethyst panne velvet with a corsage of roses and violets and was assisted in the reception by her many daughters-in-law.

Mrs. H. Denault and Mrs. P. Menzies presided at the tea table, which was attractively centred with a beautiful wedding cake bearing the inscription and date of the marriage. The flowers were roses, hyacinths and daffodils. The ices were cut by Mrs. F. H. Plant. Superintending in the tea-room was Mrs. G. H. Tyers and was assisted in serving by one of the grand-daughters. Miss Kathleen of Belleville.

The happy couple are both in good health and the anniversary was a merry one.

They were in receipt of a handsome purse of gold from the sons.

The out of town guests were Mr. and Mrs. W. J. Tyers of Belleville, Mr. and Mrs. Edwin Tyers, Toronto and Master Chas. Tyers, eldest grand son of Belleville.

NOT ENOUGH GOWNS FOR HOME BANK COUNSEL?

Toronto, Feb. 8.—There was an overwhelming array of learned counsel in court yesterday morning when Judge Coatsworth heard argument concerning the Home Bank case. Some of them wore their gowns, and others did not. A wag suggested that there were not enough gowns in town to go around.

"That is so," agreed one of the learned counsel, "and when we go over to the Privy Council we will charter a special boat."

"Yes, and you can send the accused over as exhibits," chimed in another counsel.

H. J. DALY LOOKING WELL

Tronto, Feb. 8.—Herbert J. Daly, President of the Home Bank of Canada has sufficiently recovered from his illness to be able to attend court for the proceeding before Judge Coatsworth. Mr. Daly looked better than he has done for some time. He stepped smartly around the court, and appears to have gained considerably in weight.

Around the World

Continued from page one.

The flight will start probably from Washington about the middle of March. The fliers will "hop off" from Seattle about the first of April. The itinerary of the flight has been arranged with the object of dodging the raining seasons in the United States and India and assuring the passage of the fliers through Iceland and Greenland during August and September. The following route has been tentatively decided upon;

The Line of Flight

From Seattle, fly northward along the coast of Canada and southern Alaska; across the Aleutian Islands; down through the possessions of Japan; along the shore of China, French Indo-China, Siam and Burma; across India; up the Persian Gulf; across Turkey and Europe to England; thence north through the Farge Islands to Iceland; thence to Greenland and southward southward along the eastern shore to Cape Farewell, Greenland, from which point a direct flight will be made to Hamilton Inlet on the Labrador Coast; thence southward along the Canadian shore and up the St. Louis River to Quebec and Montreal, whence the flight will proceed triumphantly to Washington.

The State Department here has successfully concluded negotiations to secure permission from the different nations through which the route passes for the army fliers to pass over their territory and land if necessary. Supplies now are being shipped from the United States to various points on the route. The flight has been divided into six divisions—from Washington to Attu Island in the Aleutian group; to Nagasaki, Japan; to Calcutta, India, to Constantinople; to Hull, England; to Washington.

Supply Depots

Each division will have a main depot with one or more sub depots for principal articles of supply. Gasoline, oil and smaller items are being placed at practically all stops.

"Path-finding expeditions" of officers of the air service have been out for some time over the route to be followed by the flight and some of them have returned here with their reports for the War Department. Each of the six divisions of the flight are being covered in this way so that all necessary preparations can be made. Existing airway facilities will be used in the United States, southern Japan and between India and London.

The Douglas World-Cruisers will be equipped alternately with pontoons and landing gears, in accordance with whether the planes are flying over land or sea. The planes carry Liberty engines, and it is expected that their motors will have to be changed several times during the progress of the flight.

Major Frederick L. Martin will command the flight. He and the men of his command have been undergoing a long course of training to steel them for their dash around the world.

Salvation Army Aids Lonely Girl

Alone in the city, and friendless, a seventeen-year-old Indian maiden was taken into custody last night, charged with vagrancy. Today in police court the girl was remanded to jail for one week for sentence. In the meantime, Adjutant Cranwell of the Salvation Army will communicate with Salvation Army Headquarters at Toronto and endeavour to arrange for the girl being placed under the supervision of the army hostel, where army officials who are doing such a noble work each day will take charge.

In the meantime Mrs. Cranwell will visit the girl in her loneliness.

Is Unfortunate Case

"This girl's mother lives in Picton where she is a basket maker and her father is somewhere in the United States," explained Chief Kidd. "Margaret has lived in Belleville for some nine months, and has worked but six weeks of that time. She lives where ever night overtakes her, and besides leading the life of least resistance, has invited other girls to also follow those channels. I do not wish to see the girl go to Mercer Reformatory, but I would like to see her taken from her present environment, and given an opportunity to work."

To the Rescue

The over spreading wings of that noble organization, the Salvation Army, which steps in where other organizations fear to tread, will probably save this girl from herself.

"We keep all the girls in our institution for nine months," explained Adjutant Cranwell and in 75% of the cases the girls effect reform in that time.

TACT

"I forgive my enemies," said Uncle Eben. "But when a man has th'owed a brick at me I's gineter keep out'n his range, even at de risk of seemin' unsociable."

Plan Reception For Olympic Team

Toronto, Feb. 8.—An informal meeting of representatives from the City Council, Sportsmen Patriotic Association and Ontario Hockey Association was held in Shea's Theatre last night, with the object of arranging for the home-coming reception to the Canadian Olympic hockey team which last Sunday defeated the United States best at Chamonix, France, for the amateur hockey championship of the world.

Controller J. J. Gibbons was elected chairman and Mr. E. S. Jackson secretary. Mr. F. W. Lyonde suggested that with a view to making the participants in the reception thoroughly representative, all sporting organizations in the city and other citizens interested meet at the City Hall on Friday, February 15, at 4 o'clock.

A committee composed of Controller Gibbons, James Summers, Charles Soady Jery Shea, President W. A. Fry of the O. H. A., and Sheriff J. F. Paxton, treasurer of the O. H. A. was formed to make the necessary the victorious players.

The Olympic team in charge of Mr. W. A. Hewitt, secretary of the O. H. A. is expected to reach Toronto on or about March 6, and the arrival will be timed if possible to permit the citizens to take part in the reception at the City Hall.

ENFORCED REST FOR CHIEF JUSTICE TAFT

Washington, Feb. 8.—Chief Justice Taft, who suffered an attack of indigestion yesterday and has been ordered by his physician to take a complete rest for a few days, was said, at his residence this morning to be much improved. He passed a restful night, but decided as a matter of precaution, to remain in bed during the day.

30,000 ARE HOMELESS IN RIVER FLOODS

Rio De Janero, (British United Press) Feb. 8.—Thirty thousand people are homeless from the flood of the River Parahyba, which yesterday inundated the city of Cambes in the State of Rio De Janeiro according to advices here today. Floods are reported from many parts of Northern Brazil owing to recent heavy rains.

Fiery, Itchy Skin Quickly Soothed

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema, that is covered wit hugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications the eczema is gone and the skin is so delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.

PRINCE OF WALES' FALL IS STIRRING UP STORM OF NATIONAL PROTEST

England is Aroused by Recklessness of Prince on the Hunting Field, Following Accident in which Heir to Throne Suffered Broken Collar Bone In Bad Fall

BULLETIN ISSUED

Much More Importance Attached to Accident to His Royal Highness in View of Recent Death of Famous Steeple-chaser — Is Fourteenth Accident Prince Has Experienced

London, Feb. 9.—(British United Press)—A storm of national protest against the Prince of Wales' recklessness on the hunting field has been aroused by the accident in which the heir to the British throne broke a collar bone near Leighton Buzzard yesterday.

The Prince's physician issued a bulletin at 10 o'clock this morning saying the patient had slept well and was pro-

CITY IS LOSER IN DEATH OF WESLEY BULLEN

Passing of Old Resident Removes One of Best Known Citizens

RESULT OF FALL

Attack of Pneumonia In Conjunction with Fall Hastens Death

One of Belleville's best known and much respected citizens in the person of Mr. Wesley Bullen passed away last evening at his late home 93 Victoria Avenue. Although deceased had been in failing health for some time a fall which he sustained a few weeks ago, hastened his demise. An attack of pneumonia was the ultimate cause of death.

Mr. Bullen who was 84 years of age was born in Belleville and had resided here all his life. He was the youngest son of the late Mrs. Roche Bullen. When a young man, deceased embarked into the grocery business, and for 58 years was a merchant in this city. Honest, upright and courteous in business dealing had the effect of building up for him an extensive trade. With the public generally he was a business man whom they delighted to patronize. For the past few years Mr. Bullen had lived a retired life.

In early life deceased was connected with the militia and rose to the position of Capt. in the 15th Argyll Light Infantry.

Mr. Bullen was a prominent Mason and for many years was secretary of fices in the blue lodge. In religion, deceased was a Methodist. Deceased was a widower, his wife having predeceased him a number of years ago No family survives. Mrs. John McKeown Sen. of this city is a sister of the deceased. Nephews and nieces survive.

Of Mr. Bullen, it can be truthfully stated that he was generous to a fault and possessed of a kindly disposition. His demise will be deeply regretted by a large circle of friends.

HOPE TO FIND BLACK GOLD IN NORTH CAROLINA

New Bern, N.C. (United Press).—Local prospectors for oil will begin boring operations at a locality a few miles from here shortly.

Jack Henry Williams Now With Rochester Colts-Will Leave For South Shortly

Has Signed Contract for George T. Stallings and will Pitch in International League Next Season—Will Shortly Move to Rochester and Accompany Team on Tour With New York Yankees

Jack Henry Williams has pitched his last game of amateur baseball. He is now a full fledged professional. He has attached his "John Henry" and the Williams also, on the dotted line of one of George T. Stalling's contracts. He is now a member of the Rochester Colts in the International Professional Baseball League.

Williams, who is still living in Belleville will leave here in time to report at the pitchers' and catchers' camp down south, where he will b eunder the personal direction of a veteran hurler of the National League, who will coach the Indian boy until he meets the Rochester club for their preparatory tour which commences on March 5th. The Colts will practice with the New York Yankees, world's champions and American league leaders, the team for which the great Bambino "King of Swat", does his stuff.

Williams signed Stalling's contract on Monday, January 21st, and on Thursday last received a letter from Stallings in which Stallings congratulated the clever southpaw for his decision and action: "I am very pleased to see that you have decided to join our club", the letter stated. "And I do not believe you will ever regret having done so," it continued, "as I assure you that you will be given every chance and consideration." Stallings now has the signed contract.

In a long personal interview with the dusky Williams recently, he appeared to be highly elated over his decision. There appears to be real romance in the southern trip for Jack, although as yet he does not know the exact itinerary of his tour.

"We will be away down south soon," exclaimed Williams, "and travelling with old Babe Ruth" he added with a sly smile.

"Do you think you could strike out the big boy?" Jack was too modest to say yes, but too game to answer in the negative—so when in doubt he smiles.

CALIFORNIA SENATOR IS AFTER OFFICE

Washington, Feb. 9. (United Press)—Senator Shortridge, junior Senator from California, is in a receptive mood for the Republican nomination for the Vice Presidency according to his friends here.

He would like to be President Coolidge's running mate in the next election they say.

The Senator's fancies were stirred by reports reaching him that some of his supporters in California had started an "Idge Club"—supporting Cool-Idge and Shortr-Idge.

California, his friends say, is the logical balancing state with Massachusetts and should supply the Vice Presidential nominee if Mr. Coolidge is chosen to be the Republican standard bearer.

Thirty Degrees Below Too Hot for Eskimo Prisoner

Winnipeg—Sentenced to serve ten years for slaying a fellow-Eskimo, Na-Kood-La fears Manitoba's humid climate, even at 30 below zero, is too tropic for him and has petitioned to be moved back to more congenial native haunts to serve out the remainder of his sentence.

Ever since the long grasp of the white man's law reached out and encircled him he has lived in an immensity of silence. True there has been a constant jangling in a foreign tongue; his ears, attuned the dirgeful cadences of the Eskimo language, made keen by the death-like silences of the frozen Arctic Circle, have been pierced with the steam whistles of giant engines, the drumming of steel wheels over the white man's rail—far beyond Na-Kood-La's wildest dreams.

Yet in the midst of the hectic whirl of civilization he has lived alone and apart. In the heart of the granary of the world, he has starved for the food which his palate craves, and in the torrid climate of Winnipeg he has grown soft and sickly.

Last summer Na-Kood-La was brought down from Ponds Inlet, on the northeast coast of Baffin Land, after being sentenced. He was taken to Stony Mountain Penitentiary as being the penitentiary in Canada most fitted climatically to house him.

[illegible] reports, Na-Kood-La has not done well. The white man's fare has been as ashes in his mouth. He longs for a nice fat seal steak, a slice of blubber, a feed of walrus meat, such delicacies are beyond the resources of His Majesty's Government in Canada, at least insofar as the organized territories are concerned. Na-Kood-La has been forced to partake of the regular prison fare.

Far Too Warm

The climate has proved much too warm for the captive from the north. Accustomed to an open life in the Arctic Circle the humidity of Manitoba's winter has distressed him beyond words. His health is failing and in his heart he has concluded that, unless the present year brings a return to the Far North, Na-Kood-La will die.

In the Stony Mountain Penitentiary Na-Kood-La still seeks for the clue to the greatest riddle of his life. He is surrounded by the enemies of justice, most of whom, even though their circumstances were explained to him in his native tongue, will remain enigmas.

What does he know about arson, bank robbing, assault and battery His race, during the countless ages, has played the game of life on the basis of "an eye for an eye" and a "tooth for a tooth" and the devil invariably has taken the hindmost.

Somewhere in the North Mrs. Na-Kood-La his fair spouse, languishes—or so, at least, he hopes.

It is possible, however, that the end of his term in this tropic climate is in sight. The Department of Justice at Ottawa, it is learned, is considering transferring him again to his native climate, where he will be able to serve the remainder of his term under more natural conditions.

USE LETHAL GAS FOR EXECUTION

Tong Slayer Pays Extreme Penalty For Murder at Carson City

Carson City, Nev., Feb. 9.—Gee Jon, Chinese tong slayer, faced death this morning in the first execution by lethal gas in the history of the United States.

Until last night two men had been doomed to die in this execution at the Nevada state prison. At a special meeting of the state board of pardons, however, it was decided by the vote of Governor Scrugham to commute to life imprisonment the sentence of the other condemned man, Thomas Russell, a Mexican convicted of killing his sweetheart, an Indian girl. The mother of the Indian girl had testified that she saw Russell kill the daughter but Russell had insisted all along, even yesterday as he saw death a few hours away, that he was innocent and that it was the mother who was the slayer.

The execution of Gee Jon was set for 10 o'clock in the death chamber, a little building in the prison yard in which cells had been fitted for the condemned men. It was arranged for the Chinese to be strapped in a chair in the cell. The deadly gas which vaporizes from a liquid solution of hydrocyanic acid was in another air tight stone compartment. Warden Denver S. Dickerson, had arranged for the witnesses to view the execution through two windows.

LOCAL MARKET PRICES GOOD

Fine weather prevailing today had a tendency of increasing the attendance upon the market. Both sellers and buyers were out in large numbers There were but slight changes to note in prices.

Fresh dairy butter was firm in price at 45c. per pound. A few basket lots sold at a slightly lower figure.

Fresh eggs sold from 45c to 48c per dozen.

Dressed meat was plentiful and reasonable in price. Beef sold from 12c to 18c per pound and pork 15c to 20c per pound. Beef by the quarter sold from 8c to 10c per pound and pork $13 per hundred weight.

NINETY-FIVE PER CENT OF TOTAL MEMBERSHIP IN BROTHERHOOD ARE IN FAVOR OF MOVE, BALLOTS SHOW

United Brotherhood Officials Meeting In Montreal Complete Count of Ballots Made by 25,000 Members in Canada of Brotherhood of Maintenance of Way and Shop Laborers of Canadian National and Canadian Pacific Railway Companies

OVERWHELMINGLY IN FAVOR OF COUNTRY-WIDE WALK-OUT

Union Heads Declare Conference to Determine Whether Strike Will Be Immediately Called are in Progress—President Leaves for Detroit After Refusing to Make any Definite Statement Regarding Situation—Expect Statement Soon

Montreal, Feb. 9.—Approximately 95 per cent. of the 25,000 members in Canada of the Brotherhood of Maintenance of Way Men and Shop Laborers of the Canadian National and Canadian Pacific Railway companies have voted to strike in consequence of the refusal of the Canadian Railway Association to accede to the conciliation board's award of an increase of two cents an hour in cases of employees receiving less than 40 cents, it was unofficially learned.

Meetings have been going on all week at the Windsor hotel of officials of the union men, headed by Mr. Pljozdale, grand president of the international brotherhood. The president left this morning for his home in Detroit, and refused to make any official announcement here. Other officials, however, while declining to be quoted in the matter, indicated that the ballot, which has been counted here, was overwhelmingly in favor of a walkout.

Whether a strike will take place could not be learned today. The union heads still in Montreal said that conferences were still in progress. They did not know when a decision would be reached; nor would they give out any information of a definite nature.

"The grand president will have something to say when he reaches Detroit," was the only direct comment.

LABOR SOLIDLY BEHIND ACTION ON BOOK COST

Cheaper Protestant Text Books in Quebec and Uniformity are Urged

FREE MANUALS

Laborites in Meeting Declare Present High Prices Must be Trimmed

Montreal, Feb. 9.—The ranks of Labor are massing solidly behind the movement for cheaper Protestant school text books. Some insist that they be not only cheaper but free; others that their texts be uniform throughout the Province—and perhaps eventually throughout the Dominion—but, as a first step, all are agreed that the present high price must be trimmed down to a figure more in conformity with the poor man's purse and with the level of prices ruling in other provinces.

Labor in Montreal, as elsewhere, represents a large and important element in the city's muster roll, and there are obvious reasons why it wishes in regard to education should be met, as far as possible. Last evening, at a meeting of the Montreal Trades and Labor Council 83 delegates thousands of union men. Opinion was unanimous. It agreed in toto with the views previously expressed by President John T. Foster, Secretary Gus. Francq and others. Mr. Foster stated that the matter would be brought up at the coming meeting of he executive council on Thursday next and that a report would be drawn up for submission to the meeting of the whole council a fortnight hence.

The doyen of union officials in Montreal, W. N. Dixon of the Patternmakers' union who is widely and favorably known in Montreal, said that free text-books and free tuition was the only solution of the school problem.

"Free books, in addition to placing education within the reach of all, should actually make our schools cost less," he declared. "With care books should last much longer than they do now. Not only should they be handled more carefully by the children, because they would not be individual, but community property, but they should not receive the wear and tear as is the case during vacation period when they are knocking about the house.

"I am most emphatically in favor of free text books, and will support any good movement to secure the adoption of the system by the government," he said.

Not only is the Trades and Labor Council, and consequently all that great body of organized labor in the city, favorable toward decreasing the cost of school books but other business and social organizations as well are taking up the matter. It is realized that the time for pressing the matter at this session of the legislature is short, and an intensive campaign will be carried out from now on

MOVIE ACTRESS FOUND STRAPPED TO POSTS OF BED WITH LIFE EXTINCT

New York, Feb. 9.—Bound to the posts of her bed and with her mouth gagged, Miss Louise Larson, a twenty four year old motion picture actress today was found dead in her rooms in a fashionable apartment house on West 77th St.

U.S. APPROVES ARMS CONTROL

Ambassador Tells Commission U. S. in Complete Sympathy

Geneva, Feb. 9.—Joseph C. Grew, United States Minister to Switzerland, who is acting as unofficial observer at the sessions of the Disarmament Commission of the League of Nations, yesterday stated anew that position of cordial sympathy of the United States Government for the control of the traffic in arms.

Mr. Grew explained at the session that the laws of the United States were vigorous and that United States was shipping no arms to any extent to the South American countries. He added, however, that the United States objected, among other things, to the St. Germain Treaty, because this treaty would prevent the United States forwarding arms to Latin American states which had not signed the convention.

Viscount Cecil of Chelwood, representing Great Britain, replied that although the United States was not shipping any considerable amount of arms, it was also true that all states must sign the proposed convention before any single state would consent to enforcing its terms. There was necessity for obtaining universal accord; including the United States— in spite of that country's fine record—so that the other countries would feel easy in mind. Viscount Cecil emphasized the need of the United States attending the Paris meeting of the Disarmament Commission in March, saying it was vital that the United States be represented.

Beef Stew And Wine Go Higher, And French Ministry Trembles

By J. W. T. MASON
(Written for the United Press)

New York, Feb. 9 (United Press).—"La Vie here," which is the French name for the high cost of living, is threatening the downfall of the Poincare ministry far more than the failure of France to get an adequate indemnity from Germany. The chief issue at the coming French general election in the spring will not be the Rhine, but the increase of "vin ordinaire" for thirty centimes per litre (13-4 pints) before the war, to one franc and forty centimes, and the increase of "pot au feu" from three francs to twelve francs. In American values, there is no difference in these prices because of the fall in the franc.

The litre of wine is still approximately six cents and the pot au feu is sixty cents. But wages have not kept pace with the variation in exchange, and to the Frenchman the present costs are twice as high proportionately to his wages as before the war.

A National Dish

Pot au feu, the French national dish, is a stew of beef, onions, carrots and turnips. The liquid is taken as a soup and the solids follow as the final course. As long as pot au feu and vin ordinaire are cheap, the French workingman is satisfied. But these two prime necessities of his life are going up little by little, without pause, while wages remain stationary.

In all things, too, affecting the middle classes, prices in France show the same tendency to mount. Eggs were formerly ten centimes each; and now they cost a franc, an increase of one thousand per cent. Butter has increased six hundred per cent. So has sugar. Potatoes have gone up five hundred per cent. A mutton cutlet, costing forty centimes formerly, now costs two francs seventy centimes, an increase of nearly six hundred per cent. Bread, however, has advanced only one hundred and fifty per cent, due to artificial causes.

A woman could obtain before the war in Paris, an excellent tailor made costume for ninety five franc. The same dress now costs 295 francs. It costs forty centimes to ride on the Paris underground, second class, as against fifteen centimes before the cost of living started to climb.

These are examples of the way the so-called "Germans counter-offensive" is beginning to produce results in France. The Germans are not responsible for the serious economic plight of the French, except if the indemnity had been paid at France's own figures, there would be money for all. But Germany has succeeded in holding off payments, and the French are seeing vin ordinaire and pot au feau dizzily mount higher and higher.

Poincare Must Fall

Premier Poincare's eventual downfall is evitable under these conditions. He may manage to hold on a little longer, but he cannot fight against "la vie chere". His answer to the growing complaints of the people is to increase taxation. Taxes must be increased to make France solvent; but the Poincare government has let Germany slip further away from reparations, and has spent uselessly on military expense and loans to France's lilliputian allies enough money to balance the budget if only the money could be recovered.

Let there be harmony in things essential—liberty in things not essential—charity in all.

PULPWOOD SOFT PEDAL

The Royal Commission re pulpwood continues to meander up and down the land picking up here and there what purports to be crumbs of wisdom concerning our timber situation. What the Commission is really doing is having its time taken up hearing statements by those interested financially in the export of pulpwood—interested either as agents of the American Paper and Pulp Association, or indirectly as exporters or jobbers of pulpwood to these same United States interests.

Latterly the American Paper and Pulp Association have been endeavoring to soft pedal concerning the magnitude of their pulpwood imports from Canada. In attempting to minimize the increase in the volume which has been so heavy of late, the American Paper and Pulp Association make the statement that "the higher imports for the year 1923 were merely sufficient to compensate for the low imports of 1922". This is a more or less futile attempt to draw a herring across the trail, the reason of the 1923 increase being the fear of an embargo upon the exports of pulp wood to the United States. In the year 1923 sufficent wood went over the United States border to produce upwards of nine hundred thousand tons of news print, whereas over a four year period Canadian pulpwood exports to the United States was sufficient to manufacture annually upward of eight hundred thousand tons of newsprint.

From the selfish standpoint of the wood butchers who are making their bread and butter through the sale of Canadian pulpwood to United States paper mills one can hardly blame them for using all available arguments, transparent though they be, against an embargo. On the other hand their evidence, coming mostly as it does from interested parties with selfish motives, should have little or no weight. These witnesses have contributed a lot about farmers with wood lots, and how these farmers will suffer if United States competition for pulpwood is discontinued. If these farmers are well advised they will hang on to their standing timber for a long hold the higher the price they will hold the hikher the price they will eventually obtain.

This Commission should be ordered to pack its trunk. It is serving no good purpose, and besides it is a needless expense. If Canada wishes additional paper mills, all we will have to do is to place an embargo upon our raw materials. That will be quite sufficient. Indeed there are now many new projects of this character in hand, some of which are contingent upon an early application of an embargo.

OUR RAW MATERIALS

Canada's men of business success are now coming out strongly for the policy of manufacturing [illegible] raw materials within Canada. [illegible] the past few days they [illegible] pronouncements subject by men of such varied interests as C. Howard Smith, president of the Canadian Manufacturers' Association, and a successful manufacturer himself; Sir Lomer Gouin, whose attitude seems to be a clear demarcation from the policies of the present Ottawa government; and Hon. James Lyons, Minister of Lands and Forests of the Province of Ontario.

After emphasizing that no nation can get rich exporting its raw materials to other countries to be manufactured into finished products, Mr. Smith declared that only by promoting manufacture of our raw materials at home could we provide a domestic market for the agricultural production of the country and thus insure prosperity not only for the farmer but for the business man as well. And only in this way could we give ourselves a favorable balance of trade, especially in our trade relations with the United States. Our exports to the United States consisted of our previous raw materials and our imports from the United States consisted almost entirely of highly finished products.

Mr. Smith was speaking to a gathering of paper manufacturers and he came out strongly for the embargo on pulpwood exports. He instanced asbestos as another raw material that we were exporting in such a way as to bring us but a very small revenue. We controlled the world's asbestos, 95% of the supplies being in this country, and yet last year the United States paid us $7,000,000 for raw asbestos that was made up into between $73,000,000 and $80,000,000 of fine asbestos articles in addition to many articles of a coarser nature.

Hon. James Lyons, Ontario's forestry minister, outlined the advantages that would accrue to Canada from keeping its raw materials, and particularly its wood pulp, at home for manufacture here.

We got $14,000,000 for the pulpwood we sold in the United States last year, he pointed out. If we had forced this to be manufactured in Canada it would have meant the investment of many more millions in industrial development here; it would have provided employment for thousands of people; it would have been responsible for the building of thousands of permanent homes; it would have supplied a market for agricultural products that could not now be sold by the farmers; it would have given the National Railways many additional tons of freight; it would have provided large revenues in sales tax, income tax of employees, business profits taxes and municipal taxes.

Frank J. D. Barnjum, the dauntless fighter for a pulpwood embargo, said last week that conditions were now such that he did not plead with any government to pass an embargo but he dared any government not to put an embargo into effect. When the best brains of the country are agreed on this one point, it seems that Mr. Barnjum has stated a reasonable proposition

EDITORIAL NOTES

A radical is a man who wishes he had what the conservative has.

Arbitration is what you believe in if you think you can't lick the other fellow.

If you wish to know a man's income, ask him where the surtax should begin.

Things are different here. You never hear Congress asking for a vote of confidence.

As we understand it, the money speculators in Germany are living on the fat of the land.

The latest alibi is that of the Kansas man who courted a vamp to make his wife worry and thus help her to reduce.

The danger in having liberals ideas is that you may cling to them and be called an old fogy ten years from now.

Mr. Bryan's career teaches us that the boy born with a silver spoon in his mouth hasn't anything on the one born with a silver tongue in his mouth.

Don't despair. The most celebrated wit is stupid much more frequently than he is brilliant.

Habit is what makes a smoker reach under the covers to strike a match on his foot.

Money isn't everything unless you are having an argument with a dry agent.

Still, it must be admitted that skill is required to write 100,000 words that mean "sex."

Another proof of determination and persistence is a diamond on the third finger of the left hand.

Dictionaries are funny. In defining a radical, ours doesn't even mention his hatred of railroads.

PRESS OPINIONS

IDIOTIC SNOBBISHNESS

(Sydney Bulletin)

Educationists of all parties and denominations seem to be agreed just now that the schools are turning out too many professional men. But there is no sense in stressing this obvious truth unless a means of remedying the abuse is indicated. The cure for too much professionalism is to a great extent the cure also for too much cityism, and it consists in presenting the public with an entirely new conception of labor in its social aspect.

The same idiotic snobbishness which changes good domestic servants into indifferent factory hands is keeping thousands of young men in black coats who should be working in their shirt sleeves, and the first aim of the state educational system should be to remove the undemocratic superstition which is at the root of this disaster.

FOOD FADDISTS

(London Express)

Diet, it seems, is an essential factor in education. We must be taught what we ought to eat as well as what we ought to think. The schoolmasters desire to train our digestion as well as our intellect.

Yesterday they solemnly conferred at University College. Mr. Hecht asserted that in diet the brainiest men are the greatest sinners. Herbert Spencer went to bed an hour after dinner and suffered from insomnia. He ought to have digested his dinner before he went, to bed. Another giant intellect was fond of milk puddings. They shortened his life. Even bread and milk cannot be devoured by "brain workers" without disaster.

Mr. Hecht is a pedant as well as a pedagogue. We refuse to be robbed of our bread and milk and our rice pudding by any food educator. These cranks have collectively banned nearly everything we eat and drink. Most of them are themselves dyspeptics. The only sound rule is to eat what you like and what agrees with you. We wish the food faddists would eat each other, and let the rest of us select our own diet.

UNIFORM TAXATION

(Chicago Defender)

It is unfair and unjust to punish a person simply because he or she happens to be wealthy. To tax one person out of proportion to his or her income simply because that person happens to own more than his neighbor would be class legislation and unjust if not illegal.

Taxation should be uniform and applicable to all alike, based upon a fair and equitable assessment upon the property or income of each individual or group of individuals. This in substance is the Mellon plan which is attracting nation-wide attention.

NOT FOR MIRACLES

(London News)

A temporary trade boom cannot solve the heavy problem of British unemployment. It will be solved only, if it is solved at all, in a world at peace and unafraid; and the key to peace and to plenty lies, ready to be seized, in the heart of Europe.

Great Britain has stood up to the poverty and distress of the post-war years with the same calm courage and self-restraint that her soldiers displayed when they received punishment in the trenches without flinching.

The people as a whole will now look to their new leaders, not for miracles, but for a sane, strong, consistently followed policy of appeasement, which is the one sure hope of a happy issue from their present economic affliction.

SPLENDID EPITAPH

(Montreal Star)

Whether Wilson was a glorious failure or a man who lived fifty years before his age time alone must tell. If his great monument is the League of Nations he has but a flimsy structure on which his fame will be graven. If his idealism is his great gift to his age, only the gods can as yet assay its worth.

His courage, his devotion to his country, his tenacity and his honesty of purpose are beyond dispute. Not of every statesman can such a splendid epitaph be written.

ARGENTINE IMMIGRATION

Buenos Aires (United Press).—According to the statistics published by the national immigration authorities 31,606 immigrants entered the Argentine during the past year, which shows an increase over 1922 of 71,743. Italian and Spanish immigration has greately increased, there having entered 91,2[illegible] Italians and 50,050 Spaniards.

Music & Drama

"THE ETERNAL 3" AT GRIFFIN'S

A new motion picture directed by Marshall Neilan, made for Goldwyn and written by Neilan, is "The Eternal Three," which will be screened for three days at the Griffin Theatre, commencing Monday. It tells the engrossing story of a surgeon whose foster son falls in love with the surgeon's young wife and fascinates her. The son is injured and only an operation by the famous surgeon can save him. A slip of the knife, which no one would detect, and the boy would be forever out of the way. But the doctor believes his wife loves the boy. What did he do? That's the engrossing problem which the picture propounds.

The story is perfectly acted by a capable cast, including Hobart Bosworth as the surgeon, Claire Windsor as his wife and Raymond Griffith as the son. Among the other notable players in the cast are Bessie Love, Tom Gallery George Cooper, William Norris, Helen Lynch, Victory Bateman, Lillian Leighton, Alec Francis and Peaches Jackson.

Frank Urson, assisted Mr. Neilan in producing the film. Scenes were shot in Mexico City, on a big ranch at Chapultepec and in Bryce Canyon, Utah.

"THE GLORIOUS FOOL" AT REGENT MONDAY

Whether they know it or not, all authors write about themselves or their friends. Mary Roberta Rinehart, who wrote the story of the new Goldwyn photoplay, "The Glorious Fool," which will come to the Regent Theatre for three days beginning Monday, knew intimately the source from which her story came. In her youth Mrs. Rinehart was a hospital nurse; and no doubt the part of the pretty probationer, played by Helene Chadwick, was suggested by some lovely nurse the authoress had known.

The story begins with the marriage of an inexperienced probationer to a private patient who is on the point of death. The patient is desirous of cheating his vulturous relatives of his fabulous fortune; and the poor, wracked nurse consents to the marriage only when she feels that her patient will not die content unless she acquiesces to his wishes. But the man gets well—uncomfortably well. And what is more, knows that he is in love with his nurse.

Then hospital politics come into play. The little nurse is transferred to a maternity ward, where her sympathies again cause her to do something that nurses simply don't do. And when it appears that she is about to be dismissed, that she has been a complete failure, fortune takes a turn and shows her many things she never guessed were in its wheel.

The rich patient in the case is played delightfully by Richard Dix. Mrs. Rinehart has expressed her pleasure at the excellent production and the consummate direction given "The Glorious Fool" by E. Mason Hopper. Under his guidance, the picture is a sweet romance with many tense moments that dissolve into happy events.

TIME, THE THIEF

"Here comes the thief
Men nickname Time,
Oh, hide you, leaf,
And, hide you, rhyme.
Leaf, he would take you
And leave your rust,
Rhyme, he would flake you
With spotted dust.
Scurry to cover,
Delicate maid
And serious lover,
Of your burning hair;
He has an eye
Girl, bind the braid
For the lusciously fair
Who passes by.
O Lover, hide—
Who comes to plunder
Has the crafty stride
Of unheard thunder.
Quick—lest he snatch,
In his grave need,
And sift and match,
Then sow like seed
Your love's sweet grief
On the backward air,
With the rhyme and the leaf
And the maiden's hair."

—Hazel Hall

Bladder Weakness

Have you wished that you could be free from the annoyance and suffering attendant on bladder trouble? Read this Buffalo man's experience:—

"I suffered from Bladder Weakness and frequent urination. I had tried other kidney remedies, but got no relief. Advised to take Gin Pills, I did so, and after taking half a box noticed much improvement in my condition. I can sincerely recommend these pills to anyone suffering from kidney or bladder derangement."

(Signed) George F. Doetterl.

Why suffer longer when Gin Pills can grant you such a speedy release? Order a 50-cent box from your druggist to-day.

National Drug & Chemical Co. of Canada, Limited

MINERS AND OPERATORS TO MEET IN SOUTH

Jacksonville, Fla., Feb. 9 (United Press).—The question of another strike in the bituminous coal fields of the nation was expected to be decided at a series of conferences opening here Monday.

Representatives of coal miners and operators of Ohio, Pennsylvania, Indiana and Illinois are scheduled to hold the annual meeting here, in an attempt to reach a wage agreement for the year.

The shadow of a strike began to appear when representatives of the miners charged that operators intended holding out for a reduction in wages of workmen and announced they would oppose any cut in the present scale.

Decision of the operators and miners of the central competitive field for years has governed the action of miners in practically all the bituminous fields of the nation.

The Florist's

The Victim—I want you to send a bouquet to the lady at the address on this card.

The Clerk—What sort of flowers, sir?

The Victim—Oh, use your own judgment.

The Clerk—Yes, sir; but it would help me if you would tell me whether you are saying it with them, or just admitting it.

Recommends Vicks For Pleurisy

QUEBEC MOTHER THANKFUL SHE CAN NOW GET VICKS IN CANADA.

Mrs. J.A. Leblond of 114 Rue Galt, Sherbrooke, Quebec, writes: "Vicks VapoRub is not a new remedy for us because we have used it in our family for four or five years. We got it from the United States. This shows you how much we think of it. We are glad to get it here now, for there is nothing better for pleurisy, chest colds, etc."

Here is the last word in treating cold troubles—rub Vicks well in over throat and chest, get into bed and have the coverings loose about the neck. All night long you breathe in the healing vapors of Camphor, Menthol, Eucalyptus, Turpentine, etc. The application also acts like a heating liniment or plaster. Usually colds go in one night and croup is commonly relieved in 15 minutes.

Vicks comes as a salve—the external direct treatment for all cold troubles—absorbed like a liniment and inhaled as a vapor.

Vicks is the ideal treatment for children's cold troubles; it avoids so much internal dosing.

At all drug stores, 50c a jar. For a free test size package write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has remarkable sale in the States. Over 17 million jars used yearly.

WOODROW WILSON

He walks no more on earth, with mortal feet,
Nor hears the voice of nations that acclaim
A master man. And neither praise nor blame
Can touch the heart which never more shall beat.
A failure, some have called him! Few there are
Whose lives a greater courage did evince.
He fixed his life's ambition on a star;
He dared to face reproach, and never wince.

What man, since earth from nothingness was born,
Has grappled with a task as Wilson did?
What man hath toiled so bravely, with a thorn
Of anguish in his heart? His features hid
The worry of his soul beneath a smile.
Through years of stress and misery, his hand
Controlled the Ship of State when every mile
Was fraught with horrors few could understand.

If Wilson was a failure, who can say
The meaning of that little word "Success"?
Ungrateful we should be, to praise him less
Than those who had a smaller debt to pay!
For he was one who sacrificed his brain,
His heart, his strength, his manhood—all of these,
For—what? 'Twas not for glory or for gain;
'Twas just to cure the Nations' dread disease!

—Aubrey Schofield Williamson.

BIRTH NOTICE

GIFFORD—At Belleville General Hospital on Wednesday, February 6, 1924, to Mr. and Mrs. S.H. Gifford, a son.

DIED

BULLEN—In Belleville, on Friday, February 8th, 1924, Wesley Bullen, aged 84 years.

The funeral will take place on Monday 11th inst. from his late residence, 93 Victoria Avenue, at 2.30 p.m. Services at the house at 2 o'clock. Interment Belleville Cemetery.

JENKINS—Mrs. Mary Ann Jenkins, of Graphite, in Belleville General Hospital last night.

The late Mrs. Jenkins was the wife of James Jenkins. The remains, in the care of the Belleville Burial Company, was shipped this morning at 7.45 to her home in Graphite.

The Periscope

By "THE OBSERVER"
(Written for the United Press)

Washington, Feb. 9 (United Press).—Behind the guarded doors of a Washington hotel lives the "mystery minister."

Oriental mystery and an air of secret pervades the place. The sounds of the city coming up from the street seem far off and vague in that silent place.

S. Yousry Pasha, first Egyptian minister to the United States and first minister plenipotentiary sent out by Egypt in modern times, believes in Oriental seclusion.

A hotel employee stands constantly outside the door of the suite the minister is occupying temporarily as a legation. Within the suite, the visitor is inspected by two sets of attaches before being permitted to see the minister.

In one wing of the suite houses in cloistered silence is the family of the diplomat—his wife, an Egyptian princess, his two children and a Mohammedan priest.

Yousry Pasha, himself, has every diplomat in Washington beaten when it comes to being politely silent under questioning. He is cultured to his fingertips—radiates Oxford and the air of exclusive English clubs, in fact But he simply will not talk.

The fact that the American people might be interested in Egypt's first diplomatic representative here fails to move him to an expression regarding his mission, his impressions of America or anything else.

He politely declines to discuss Egypt a land of tourists. Efforts to draw him out on the explorations in the Valley of the Kings, where Tut-ankhamen lies, are futile. He simply smiles and murmurs something polite but expresses no opinions, makes no statements.

Yousry Pasha is a good looking man, whose age it would be hard to guess. You might mistake him for an Englishman of the outdoor type—an English aristocrat.

It is quite natural, in view of his "masterly silence" under the questionings of many Washington correspondents, that Yousry Pasha should, in his few short days inWashington, have earned for himself the not inappropriate title—considering the land he comes from—of The Sphinx.

Men who won't talk are not uncommon. There is "Silent Cal" Coolidge to cite a notable example. But women who won't talk—

Well, there is Mrs. Mae Nolan of California to cite another example example.

Mrs. Nolan is a representative in Congress. She succeeded her late husband.

And Mrs. Nolan is probably the the least talkative outfit in the world.

She does not crave the limelight of publicity, Mrs. Nolan says. She does not believe people are hankering to know what she thinks about women who smokes cigarettes. She does not believe a single woman would be influenced either for or against cigarette smoking by what she thinks of the habit.

Nor has she views to voice about Washington's social lobbies. She has no theories of legislation to project. She feels no yearning to see her name or her picture in print upon the pages of the press.

And so Mrs. Nolan doesn't talk much for publication. She is even averse to saying that she believes there is too much talking by members of Congress.

But it is reliably reported that she thinks so.

By "THE OBSERVER"
(Written for the United Press)

Washington, Feb. 9 (United Press).—Representative Snyder of New York was commenting in the House the other day on a speech by Representative Kelly, Pennsylvania. Snyder said Kelly's speech was "old stuff."

"It reminds me," Snyder said, "of a conference that I have with my good wife each year when we come to Washington.

"She does not care particularly about leaving the comforts of home for a hotel in Washington. When we come here, the first night we always have an extended argument as to how long she is going to remain.

"At the beginning of this session of Congress we had the same discussion, and I said: 'My dear,' that is a good speech, but there is nothing new in it.'"

• • •

Any time you start war talk in the House of Representatives, Representative Isaac Sherwood of Ohio, lone Union veteran of the civil war now remaining there, begins to get interested.

The other day in a meeting of the military affairs committee a somewhat heated discussion of the Muscle Shoals project was under way and R. V. Taylor, mayor of Mobile, Ala., who was on the stand, referred to Henry Ford as a modern Napoleon. Representative Sherwood, who does not hear well, didn't get the whole thing, but when he heard Napoleon mentioned, he apparently assumed somebody was talking about war, and he therefore rose up and told what an inconsiderable general Napoleon was beside some who led in the Civil War; how puny the fighting was in Napoleon's wars, and for that matter, in the World War, in comparison with that in the Civil War.

"Why in one battle I was in," said Sherwood, "thirteen generals were killed. Thats more than were killed in the whole World War. Talk about a war—huh!"

And he sat down, satisfied that, having vindicated "his" war as the biggest and best ever, the committee might now resume a discussion of Muscle Shoals.

When Admiral Dewey sailed into Manila harbor on May 1, 1898, one of the first to come over the side of his flagship, the Olympia, was Padro Guevara. Padra was one of the Filipino rebel leaders, under Aguinaldo, fighting the Spaniards. Now he is Resident Commissioner of the Philippine Islands in Congress.

Admiral Dewey took a great fancy to the young Filipino and members of Congress on both sides of the aisle are learning why. Guevara, who has since become the leading native lawyer in the islands, has a charming personality that none can resist. He is seeking Filipino independence by exercising the arts of diplomacy and statesmanship and many believe that he will succeed.

Self-made men are not new in Congress, but few have the interesting story of their rise in life that Sol Bloom of New York has. Sol, now a power in the theatrical world, went to work at the age of eight in San Francisco. At the age of 11, he was bookkeeper and manager of a factory with 60 employes under him. At 19 he was ready to retire from business with enough of this world's goods to keep him comfortably. But his folks wanted him to go into the clothing business. He went broke at the business in which most of his race succeeded. Then he "put over" the Midway at the Chicago World's Fair and really began his career as a showman. his hobby now is rehabilitating disabled soldiers.

• • •

Every new Congress brings some interesting new types to Washington. Not the least of these is Representative Edgar Howard of Nebraska. Howard, for many years the private secretary of William Jennings Bryan, looks enough like the commoner to be his twin brother. He wears his hair down over his ears and sticks to the old fashioned jimswinger coat and broad brimmed slouch hat. He started life as a cow puncher and wound up as a newspaper man. The last "job he had was city editor on "Jimmy" Cox's paper out in Dayton, Ohio. Now he edits his own in Columbus, Neb.

Howard is winning his spurs early in Congress as a wit. He recently coined a new name for rural voters—"cornfield canaries."

Obituary

The funeral of Mrs. Mary McCready was held Thursday afternoon from the residence of her daughter, Mrs. Peter Hubble, of Plainfield, the Rev. Mr. Thompson officiating. Interment was in Plainfield cemetery. The pallbearers were: R. Hall, T. Mills, G. Collins, E. Bates, H. Hudgins and C. Ravie.

Regular $200.00 Grafonola for $125.00 Ten selections. $10.00 cash and $6.00 per month.

gressing.

Upon learning that the Prince of Wales had not suffered serious injury, the public reaction was indignant.

This is believed to be the fourteenth bad fall suffered by the Prince, who is untiring and fearless and is out every day during the hunting season.

People attach more importance to the accident to His Royal Highness in view of the recent death of Captain Bennett, prominent steeplechaser, who was killed in a fall.

LOCAL RADIO FANS FORM CLUB

The first meeting of the Radio Club of Belleville was held at the Chamber of Commerce, the following officers were elected:

President—Dr. J.O.S. Caldwell.
Vice Pres.—Fred W. Sprague.
Sec. Treas.—H. G. Davison.

The idea of the Club is to get more co-operation among the Radio Fans and to promote radio in our city.

Any other radio fans with receiving sets who wish to join, may do so by communicating with H. G. Davison, secretary. Meetings to be held at the Chamber of Commerce the second Friday in each month. Mr. Morris Stork was appointed instructor for next meeting.

Anyone wishing a Radio Receiving Set License may get same from secretary.

JUDGE MACAULEY SPEAKS IN TRENTON

"Mr. Justice C. D. Macauley of Dawson City, Y.T. who is now spending the winter in Belleville was the speaker at a largely attended meeting of the Trenton Canadian Club Thursday evening.

The subject, "The Yukon" was most interesting and comprehensive and was thoroughly enjoyed by all fortunate enough to be present.

The address was supplemented by slides furnished by the Dominion Government for the occasion. Mr. F. L. Fraser, the president of the club presided."

Blinks—Why is Bill so upset about having had a "blowout" when driving home with his girl last night?

Jinks—They were very late and he had planned to use a fake "blowout" as an excuse to her father.

Solve Weather Puzzle, Find New Airship Lane

U.S. Navy Sees Great Advantage in Trip to This Frozen North This Summer

By A. L. BRADFORD

(United Press Staff Correspondent)
(Copyrighted 1924 by United Press)

Washington, Feb. 9 (United Press) —Twentieth Century Columbuses will go forth this summer on a voyage that will bring greater hazards than encountered by the man of Genoa. This will be the exploration of the giant United States navy dirigible, Shenandoah, to the North Pole.

Under the command of Rear Admiral William A. Moffett, head of the Bureau of Naval Aeronautics of the Navy Department, the man who conceived the flight, this modern "dash to the Pole" will get under way late in May or sometime in June.

The voyage will have as its purposes the exploration of the vast wastes of the North Polar regions, the increasing of science's knowledge by the investigations of the explorers and pioneer work to further the cause of commercial aviation by the laying out of great new air routes.

There are estimated to be more than 1,000,000 square miles of territory between Alaska and the North Pole never explored by man. The Washington government would like to plant the American flag over this vast domain which, if really found to exist, undoubtedly would prove of inestimable economic and military value to the United States in the future. It probably would place the control of the North Pole in American hands.

Scoffers of these hopes of the American Navy in the coming flight to the North Pole are reminded by naval officers here that the purchase of the great territory of Alaska was termed "Seward's Folly."

One Weather Problem.

From the investigations of the navy explorers science may very probably be able to piece together the final bits of the world's weather puzzle, it is held here. In the search for the beginning of its weather, the United States is vitally interested in the unexplored territory to the north of Alaska. Daily reports by radio out of this mysterious region might often furnish the unknown factor that would determine next week's weather in Minneapolis, Chicago and New York.

The Navy Department here has been advised by explorers and men who have spent a greater part of their lives in the Arctic that commercial air routes over the Arctic are practicable. An air line over the Arctic between England and Japan, for instance, would represent a saving of about one-half the distance that would the popular belief, the temperature of the Arctic is not one of the intense cold throughout the year, the Navy Department holds, in the summer moderately low temperature existing on the surface.

A New Type Of Ship

A new type of naval vessel, designed to be a mother ship for airplanes and the Shenandoah and to provide a mobile base for the huge air scout has been developed, for the flight to the North Pole.

Two ships have been selected for conversion into such airship tenders the Ramapo and the Pateka, erstwhile Navy fuel oil tankers. These vessels will be used to push the base of operations for the expidition as far north as practicable before the aircraft are sent on their mission of exploration.

The tender ships are to be equipped with mooring masts for the Shenandoah, mounted on the deck. The idea is unique in naval aviation, but is held to be thoroughly practicable.

On the deck of each of the mother ships is provided a space for the carrying of seaplanes. It is planned that two or three planes will be carried on each vessel. They will be used for short distance reconnaissance work over the Artic.

The Land Base

Nome, Alaska, has been selected as the land base for the exploration. Also the Shenandoah is expected on its way to Alaska to stop over at Fort Worth, Texas, where the American navy obtains its supply of helium gas, that is used in such airships, and at San Diego and Seattle. Mooring masts for the Shenandoah probably will be erected at those points and also at Nome. The only mooring mast that now exists in the world, with the exception of one in England, is at the home port of the Shenandoah at Lakehurst, N. J.

Helium, the non-inflammable gas, is to be employed on the Shenandoah on the Polar flight. Tanks for this gas are to be stowed on board the two tender ships for the voyage, along with all other necessary supplies and materials.

It is planned to send one of the tender ships through the Bering Strait as far north into the Artic as ice conditions will permit, while the other ship will go to Spitzbergen and the eastern side of the Pole and stand by for a trans-polar attempt by the Shenandoah.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapepsin" Corrects Sick, Sour, Upset Stomachs At Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

W.C.T.U. NOTES

The recent sub-executive meeting reached many important conclusions. One decision was made that may be the means of uniting nearly 100,000 women in a prayer and work compact in behalf of prohibition. Will every woman who reads this item, ask God that if He gave the thought, He will carry it to a glorious fulfilment.

Do not fail to pray. If you do, you fail God, and you neglect the cause He has committed to your care. The crisis is at hand.

When Daniel and his fellows and all the wise men of Babylon were about to be massacred, Daniel went to his own home, and with his three comrades, "desired mercies of the God of Heaven"—and obtained them. It did not take a big meeting to secure the answer. These four young captives saved themselves and a great company of others, because they prayed.

"A little kissing now and then is why we have the married men."

Increase Shown By Mutual Life

The fifty-fourth Annual Statement of the Mutual Life o Canada, published in this issue, is an interesting resume o the past year's business. The operations of the Company are disclosed in figures that should cause the directors, management, field force and policyholders the deepest satisfaction. The new business written amounted to $39,040,578. Allowing net increase to the business in force amounted to $23,495,912 the total assurances in force standing now at $269,982,566.

The mortality experienced was less than 40 per cent. of the expected deaths according to the standard tables, so that there will result a substantial profit to the policyholders from this source.

The rate of interest was satisfactory although there is a general decline from the high rates obtaining in recent years, but the rate actually realized of 6.55 per cent. will ensure more satisfactory results to the members of the Mutual Life.

The net results of al the various transactions are summed up in the surplus which amounted to $3,012,806.99.

There has existed in some quarters in Canada during the past year a marked feeling of pessimism. It is reassuring, in view of this, to note the comparative strength of Canadian life companies, among whom the Mutual occupies so conspicuous a position.

Altogether the position of the Mutual is enviable and one distinctly reassuring to the Canadian public in these anxious days.

Red Pepper For Rheumatic Pain

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

DODGE BROTHERS
TYPE-B SEDAN

Probably no closed car has ever been received with equal enthusiasm the nation over.

This is unquestionably due to the fact that in spite of its acknowledged beauty, and exceptional riding comfort, the Type-B Sedan is as sturdy as an open car—and costs but little more.

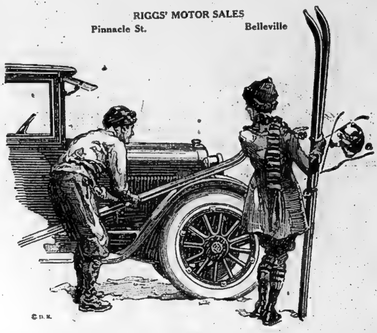
Pinnacle St. Belleville



The Mutual Life of Canada (Operated Solely For Its Policyholders) Makes A Notable Record

Again Achieved Remarkable Surplus Earnings of Over $3,000,000

Our Company's Sound Progress

"Accordingly, though doubtless pleased, we are not surprised by a showing of over thirty-nine millions of new business, by a net increase in the total business in force of nearly twenty-three and a half millions, and by our magnificent surplus earnings of more than three millions of dollars."—*From President Cronyn's address.*

"Our holdings of bonds and debentures have a present value of slightly over a million dollars above the figures at which they are carried in the books of the Company."—*From President Cronyn's address.*

THE Directors presented a report to the policyholders at the Annual Meeting on February 7th, which was one of the most gratifying submitted during the past fifty-four years of its history. The following are the most salient features—

The Assurances in force now total..................	$269,982,566
A net increase of $23,495,912 over the previous year.	
The new business written amounted to............	39,040,578
An increase over 1922 of..............................	4,583,330
The assets have accumulated to......................	59,727,388
An increase over the previous year of..............	6,121,767
During the year there was paid to Policyholders and their Beneficiaries..........................	5,369,743

The invested assets earned the high average rate of interest of 6.55%.

The death claims were only 39.26% of the expected mortality according to the standard mortality tables.

Careful and economic management is again indicated by the circumstance that only 16.15% of the total year's income was required to meet all expenses of administration.

The net result of the various transactions, which are briefly summarized above, is shown in the

Surplus Earnings of $3,012,806.99

This magnificent amount further strengthened the Company's impregnable financial position, increasing the provision against possible depreciation of securities and for mortality fluctuation and other contingencies, besides enabling the payment of

Increased Dividends to Policyholders

The past year has been one of grave anxiety in financial circles owing to economic conditions, and there has been a pessimistic note sounded in some quarters. But this pessimism has not been reflected in the experience of The Mutual Life of Canada. It is natural that in times of financial stress the people should look more carefully than ever to their expenditures and give first consideration to the absolute security and protection of life insurance as afforded by

Thrift Week Launched By Local Institutions

Thrift week, an educational campaign to promote efficiency and wise expenditure both in regard to time and money, has been successfully launched in this city.

In Queen Alexandra school in the city and Prince of Wales school in Thurlow Township just north of the city limits, pupils and others were addressed by speakers who are versed in the matter. Principal P. C. McLaurin of the High School spoke to the scholars of Queen Alexandra school as did also Mr. R. C. Sidenius of the Y.M.C.A.

Mr. McLaurin had an acrostic on thrift which he explained in a most interesting manner. T was for treasury, H for health, happiness and home, R for religion, I for Independence and ideals, F, for fearlessness and faithfulness, T for thrift.

At Prince of Wales school in the evening Mr. R. C. Sidenius was the speaker and his address was replete with information in regard to thrift week and its meaning. He showed conclusively that the person exercising thrift will have more pleasure out of life than the spendthrift. Thrift is the application of thought to money. If we earn by our intelligence, why not bring intelligence to bear on our spending. Mr. Sidenius by figures showed how a bank account can be obtained by even a small amount being saved daily and weekly.

The Decline of the Spat

By "THE STROLLER"
(Written for United Press)

New York, Feb. 9 (United Press).—The well dressed business man of New York—the man one sees on Wall Street as well as on Forty-second—is discarding the gaiters or "spats" which he used to wear with his oxfords on wintry days. Men of the cities are gradually breaking away from the habit of wearing high shoes. The oxfords are too comfortable to dispense with altogether.

The reason for this is that the producers of hosiery are manufacturing an excellent line of wool socks. Some are of pure wool and others among the better-class are a combination of silk and wool. The socks are good looking and both warm and comfortable. The vogue of the woollen sock has brought forth a great variety of colors and styles this winter. The dominating colors, as in most socks are browns and blacks, but tans, grays and heather mixtures are very popular. They can be secured plain, drop stitched, ribbed, clocked and unclocked. In the silk-and-wool class, a popular combination is the speckled brown and white or black and white.

• • •

The winter overcoats this season show that men's styles do change. Last year the huge ulster was being worn to the exclusion of practically every other type. But this year, men, if New Yorkers, may be taken as the American standard, are wearing a diversified variety of overcoats. The single breasted overcoat, made of material just a little lighter than that put into the ulster, is being favored and has secured quite a hold on those men whose daily activities do not take them into the cold outdoors too frequently. The men who own and operate their sedan or coupe automobiles prefer the less bulky overcoats for the reason that while driving their closed cars, they are practically indoors. Then, too, the lighter coat provides them with more freedom in the operation of their cars. However, a majority of New Yorkers prefer comfort in their winter overcoats, and while the heavy ulster is not so prominent as it has been, a compromise between the light and heavy has been struck and the double breasted half belt style is popular.

Browns and dark grays are the prominent shades, with light grays and tans enjoying popularity among the younger men. Pockets these days are large and patched, and add an air of lavishness to the better quality coats. In the higher priced coats, the blue "guards" coat is attracting some attention. This coat is an imported style, patterned on the ulsters worn by British guardsmen, and is made of close-nap chinchilla.

CRANK EXPERT PROMOTED

Washington, (United Press).—After a quarter of a century on the police force of Washington, 15 years of the time having been spent on duty at the White House, "Larry" Seaman is wearing a sergeant's stripes.

Sergeant Seaman has for years been the principal assistant to Sergt. Clarence Dalrymple. These two have been stationed at the entrance of the executive office to receive visitors. Their keen eyes have spotted more than one "crank" and they are known personally to hundreds of notables.

Very Inconvenient

Lottie—It's a very inconvenient custom to wear the engagement ring on the left hand.

Kitty—Why? What difference does it make?

Lottie—Because it's so hard to learn to use your left instead of your right hand.

You will never "come to the end of a perfect day" unless you begin one perfectly.

FAMOUS FRIENDSHIP WRECKED

Los Angeles, Calif. (United Press).—A love feud has ended, for a time at least, a life-long friendship between Damon and Pythias, two five-year-old ostriches at the Cawston Farm, South Pasadena. This is the time of the year when the young ostriches lightly turn to thoughts of love. Damon and Pythias had both been paying attention to Priscilla, with Damon gaining greatest favor with her. Pythias flew into a rage and attacked Damon. In the fight, Damon's chest was ripped. It took 140 stitches to sew up the tear made by Pythias' heavy claws.

Decorative Auxiliary

A fireplace is a grand think in a house if you have got a good furnace or steam plant to keep the house warm.

Almost Helpless After Influenza

LEFT WEAK, NERVOUS AND BROKEN DOWN—HEALTH REGAINED.

"A few years ago," says Miss Frances Hankla, of Plenty, Sask., "my mother, Mrs. Walter Hankla, was stricken with influenza which was then epidemic, and for a time was in a critical condition. She appeared to get over the prominent symptoms of the trouble, but did not regain her strength. Some weeks later her weakness developed into sinking spells in which she would almost smother. Notwithstanding medical aid these spells continued and she was constantly growing weaker, until she was practically reduced to skin and bone. Her lips and gums were colorless, she was nervous, and suffered from indigestion and palpitation of the heart. At this stage a friend of mother's, who lived at a distance, came to see her and strongly advised her to try Dr. Williams' Pink Pills, which, she said, had greatly helped her in a critical illness. We got these pills and mother began taking them. The improvement was slow at first, but we could see that the sinking spells were growing less frequent, and that strength was returning. The treatment with Dr. Williams' Pink Pills was continued, and day by day health and strength returned, until she was again able to go about, and help with the work of the house. The improvement this medicine made in her case was simply remarkable.

"I may also say," adds Miss Hankla "that in my own case these pills were of the greatest benefit. Last winter I was in a badly run-down condition, and very nervous. My appetite failed and I had no color. Knowing what Dr. Williams' Pink Pills had done for mother, I began taking them with the result that they soon made me as strong and full of vigor as the other girls of my age. I may just add that I think we owe mother's life and my good health to the pills and I hope our experience will be of benefit to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

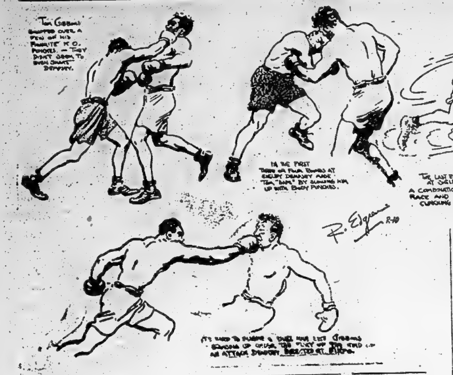
HERE, THERE AND EVERYWHERE



Tom Gibbons showing off a few of his favorite K.O. punches — they didn't seem to bother smart Dempsey.
In the first three or four rounds at Shelby Dempsey made Tom "sag" by slamming him up with body punches.
The last round at Shelby was a combination foot race and clinching bout
R. Edgren 2-10

SPORTS THROUGH EDGREN'S EYES

The probable meeting this spring between Tom Gibbons and Jack Dempsey will satisfy the desires of at least two people—Jack and Tom. Ever since Shelby Gibbons has been saying that it is his inviolable rule never to offer an alibi. BUT—that the referee kept him from beating Dempsey at Shelby—that he had Dempsey out-pointed until the last three round—that he didn't fight his best because he was fouled—that he didn't deserve to lose the decision anyway. Dempsey has kept his reply to a few words: "Tom is a nice fellow. He was hard to hit just right. I'd like to get him again." The reply is characteristic of Dempsey. He either says something complimentary or keeps still. But it's significent that he is anxious to box Gibbons again under different circumstances. Perhaps Dempsey wants to wipe out the memory of Shelby and its complications, which made him fight the least satisfactory bout he has engaged in since he became champion.

Dempsey says "Tom is a nice fellow, but I have a notion he has read every word Gibbons has said about the fight and that when he meets Tom again, in June, he'll step into the ring intent on showing the public a couple of punches he didn't use on Tom at Shelby. Next day Dempsey will probably say: "Yes Tom is a nice fellow I was lucky to land on him so soon. Who do I fight next?"

Gibbons Started Well

On his showing at Shelby Tom Gibbons is entitled to another chance at the championship. He fought Dempsey fifteen rounds. In the early rounds of that fight were several short periods when Gibbons looked extremely dangerous—when he caught Dempsey flush on the tip of the chin with perfectly timed and delivered right hand punches. Gibbons has knocked out a lot of fairly good men with punches exactly like those he landed on the champion. He is known to have a good punch in either hand—particularly in the right. There were times when it looked as if Gibbons might follow one of those good hard clips on the chin by throwing over a flock of them before Dempsey could recover. But Gibbons never had a chance to start a series of blows. The first perfectly timed and delivered blows didn't even shake Dempsey. There was nothing to follow up. Gibbons would simply have run into trouble if he had tried to press Dempsey. So he kept on boxing.

The effect of the whole fight seemed to prove either that Dempsey has lost his punch, or that he was content to outbox Gibbons without trying for a knockout. His later fight with Firpo proved that he had as bad a punch as ever. So we'll have to accept the other alternative. Dempsey was in the ring to make sure of beating Gibbons, but not to make any desperate effort to knock him out. He didn't fight in his usual headlong style, leaping in at the first opening and putting the "Kayo" whip behind every punch until something dropped.

The fight at Shelby, in short, was just like this:

Trick Punch Didn't Work

Dempsey boxed Gibbons carefully. Gibbons boxed ever more carefully, opening up only at intervals to drive over an unexpected right to Dempsey's chin. He seemed able to land these nearly every time.

Dempsey hit Gibbons hard on the body for three or four rounds. Gibbons, breathing hard, seemed distressed by the body blows and went on the defensive. Dempsey didn't press his advantage, but boxed at a fast clip, making Gibbons hustle around and keeping him winded.

Gibbons tried several tricks. Once he stamped hard with his left foot, stepping in, and threw his weight forward with a straight right that caught Dempsey on the mouth. Instantly he stamped again and started the same blow, but Dempsey, at the instant Gibbons stamped, started a right uppercut delivered with a long sweep. The blow would have caught Tom under the chin if he hadn't barely managed to jerk his head back so that it only grazed him. The threat of a knockout in that grazing blow, and the knowledge that Dempsey had outguessed and beaten him to the punch kept Gibobns from trying any more trick punches.

From the middle of the fight on, Dempsey pressed Gibbons faster and faster, hitting short, snappy blows without throwing his weight into them as he does in fighting heavy men. He kept Gibbons winded from the fast pace, until Gibbons was compelled to clinch and hold at every opportunity. Referee Dougherty had to pry Tom loose in the last few rounds, and as soon as he pried one of Tom's arms away from the grip he held on Dempsey's left, Tom reached for another grip. He was evidently very tired, while Dempsey was fresh and up on his toes, keeping up about the same pace he uses in his long practice bouts with sparring partners.

Tom Very Elusive

In the last round Tom alternated running with clinching. As Dougherty lifted Dempsey's right arm at the end of the bout Gibbons seemed delighted with having lasted the fifteen rounds, and not disappointed with the decision. He was laughing and looking around for congratulations. It was something to have stayed with the world's champion fifteen rounds. Nobody else ever did it.

It is possible, as Dempsey says, that Dempsey found it hard to land a good punch on Gibbons because of Tom's speed and skill. It may be Dempsey couldn't throw everything into the punch at that shifting target without risking breaking his hands on an elbow or a head. He socks the giants as if he were punching a stuffed bag.

It is possible, as Dempsey says, that he needed a fifteen round fight to find out if he still had the goods and could deliver them, to know just how he'd stand in a fight against tougher and much bigger men—Firpo, for instance. Dempsey had been out of the ring for a long time.

It may be that Dempsey tried to get a good workout by carrying Gibbons along at a fast pace for thirteen rounds, intending to finish him in the last round or two. It surely looked that way from the ringside. In the last two rounds Dempsey fought much faster and pressed Gibbons harder, but Tom showed the elusiveness of an eel and the clinching ability of an octopus.

Whatever happened at Shelby I didn't expect to see Gibbons repeat his feat of staying to a decision with the champion. A win for Gibbons by the knockout route is only the flukiest sort of a possibility and a win on points at least very unlikely.

Tom has the intelligence, the courage and the skill to put up a fine fight against Dempsey or anyone else. But he is meeting a man fully his equal in intelligence, courage and skill, and his superior in both speed and hitting power. Gibbons is an unusually clean living fellow, which accounts for his endurance. But Dempsey is the cleanest living champion and the most conscientious so far as training is concerned, that we've ever had. This won't be a case of a champion broken down by dissipation meeting a clean, eager youngster. It's a battle between two remarkable athletes, both in condition. And nearly all the conditions favor Dempsey.

Jack is 6 feet 1½ inches tall; Gibbons is 5 feet 10½. Dempsey weighs approximately 190 pounds in condition; Gibbons 175. Dempsey was born June 24, 1895, and is now twenty-seven. Gibbons is six years older.

With everything else even, Gibbons would be tremendously handicapped by his age in another fight with Dempsey. He was very weary in the fifteenth round last year, and did amazingly well, at thirty-three, in keeping up such a pace for fifteen rounds. But this is a year later—and at Hom's age a year may mean as much as five years to the more youthful Dempsey. Gibbons probably feels that there will be some difference. His bout with Dempsey followed a long campaign of fights in which he worked himself up to his best form. He has done little ring work in the past few months.

The Financial Boomerang

Dempsey and Gibbons will put up a clever bout at any time. No matter what signing up there is this winter, Wills probably won't cut much of a figure as a championship contender. The refusal by Paddy Mullins of Tex Richard's offer of $500,000, for Wills' services in two fights, opponents unnamed, shows how little confidence Mullins and Wills have in the old-time colored boxer's fighting ability to-day. A beating in the first of the two bouts would naturally cancel the second—and then—fooey all chances for one Dempsey fight and its big percentage of a heavyweight championship gate.

Rickard's intention for months has been to sign Gibbons and Dempsey for June, Firpo and Wills for July, and the two winners for September. This would round out a fine big year even for Tex Rickard. Firpo, who expects to put a way both Farmer Lodge and Spall of Italy in the Argentine during February, and ought to make little more than a training session of either fight, wants $250,000 for fighting anyone but Dempsey. He hasn't yet told Tex Rickard his figure for the Dempsey bout in September. Tex is probably in for the shock of his life. But he has no one to blame but himself. Tex Rickard took the boxing fraternity out of the financial kindergarten and gave it a college education.

A man is generally nervous when he proposes—and a girl when he doesn't.

Her Doing

Wife (during squabble)—You can't deny that I made you what you are.

Hub—I certainly can't, for what I am is over my ears in debt.

OVER SEVEN HUNDRED FANS ENJOY INTELLIGENCER SERVICE

League of Nations, British Labor and politics were shelved in the minds of local hockey fandom last as was evident in the minds of local hockey fandom last night, as was evident in the number of calls taken care of by The Intelligencer staff at inauguration of their play-by-play service.
play-by-play service for the benefit of those unable to attend the game in Peterboro.

Tally kept of the number of phone calls from 8-30 to 11-00 p.m. showed over seven hundred inquiries. Bulletins of play by periods posted in front of the Front street office also attracted much attention.

Direct wire service from the Arena was carried by the Canadian National Telegraphs, in conjunction with our office, and the prompt service rendered was fully appreciated.

PETERBORO WIN ROUND FROM LOCAL SEXTETTE IN STRENUOUS BATTLE

Fast Petes on Own Ice are Complete Masters of Situation —Win Game by 8-1, and round by 5 Goals—Collins, Parker and Ranger are Constellation—Mark Green, and Bottle Locals in the Narrow Rink—Green and Whalen Best for Losers

(By Staff Reporter)

In one of the gamest, most strenuous and stubborn hockey exhibitions ever staged at the Brock street arena, Peterboro, the Peterboro Intermediates ousted the Ed. Thomas Belleville six from the Provincial honor race, and qualified to meet Oshawa champions in round 2 next week. The score was 8—1 but it doesn't indicate the play. The scores at the end of the periods being 3-0, 4-1, and 8-1, always in Pete's favour. Belleville won the Belleville game 5-3 but they lose the round and series by 5 goals.

Game Was Clean

Despite the terrific speed at which the game proceeded from gong to gong in every period, it was a clean exhibition, referee Bobby Hewitson watching everything [illegible] especially in the early stages. Only six penalties were drawn in the game, all for minor offences.

From the drop of the hat, Petes tore into it like madmen in an endeavour to secure themselves on the round early. They had speed galore, every man including subs going great guns. On their narrow rink, they knew every corner and played fine combination. They checked like demons and got by with some dashing in the first frame. They back skated and circled as though their lives depended upon it. They were a dangerously aggressive squad all right.

Locals "Die" Fighting

The Quinte squad fought it to the bitter end like Trojans and were not beaten until the sixty minute gong. The work of Nurse in goal was wonderful, and he drew many sympathetic and commendable remarks from Peterboro fans as time after time he turned aside shots, blocked sure thing rushes and scooped the gypsum out when the odds were ten to one that they were counters. With a weaker net guardian the score would have been higher nothing surer. Petes were simply peppering them at Nurse with remarkable accuracy and speed which made the end boards rattle when they registered there. They also had the marksmanship down fine on their own ice box.

Green Marked Man

Bill Green who starred against Petes here, was a marked man all right. Whenever he broke away, the crowd shouted "He's dangerous, stop him." and as many as four would pile into him. Green played a remarkably fine game nevertheless, and his work again stood out prominently, although his stick handling was as in the case of other players, hampered by the peculiar sticky nature of the keen appearing ice. Finkle was twice as effective as he was in the Belleville game having secured a new pair of boots and skates. Both he and Green used their weight to advantage, and they carried the end of the rush game all evening.

Everyone Played Hard

The outstanding and most persistent hornet of the crew however was "Daw" Whalen who played his best game of the season. He was used a good deal, and his condition has improved wonderfully. He is a stick handler, and a goal getter and he worried the life out of the opposition although he failed to tally last night. Weir and Hagerman played their usual sixty minute, aggressive, useful game, their checking being especially effective. Frechette did not seem to have the steam and speed, but when used held up his share of the work and netted Belleville's only tally with one of his wicked long shots. Canning was not used much, but made two or three pretty rushes when on.

Petes Wonder Machine

Every man on the Petes team was going like a house afire last night, and it Collins at centre, taken every way was is difficult to name the best. Probably best. He can skate like a fiend, stick handle and shoot and his condition is of the sixty minute type. Bib "Zip" Parker on defence played a whale of a game also, and "Biffer" Ranger on the left boards, was also a desperate man to hold. Grover Halpin, though an old timer broke out last night, and uncorked speed and stick handling ability which made Peterboro officials gasp. Burgess was effective too, but could not stand the terrific racket. The pace was killing. Big "Pontiac" McMartin and Lornie Rose were useful subs.

Pete's Tally First

The first frame had scarcely started when it was evident that Petes were out with speed, and combination which on their own narrow ice sheet, would give the locals all that they could handle. Their combination was beautiful, and they came mighty nearly scoring on two or three occasions, before Parker with a wicked shot from well out and fair in the centre of the ice packed one by Nurse. The goal umps shoved up the hand, but Belleville disputed the goal, removing the umpire. The goal went, but Nurse claims it never entered the goal but just skimmed the right post on the outside. With Whalen off, Rose bored one at Nurse shortly after Parker's tally, which was after 10 minutes play, and he bulged the twine for number two. Ranger had a close chance Nurse turning it aside, but Ranger came back and from left boards well in a goal, and just before the gong sailed number three past Nurse. In this frame, Petes intercepted Belleville passes time and again and all but demoralized their attack. They also checked like demons. Collins, Finkle and Whalen drew rests for minor offences.

Petes Clever Work

Near the Beginning of number two, Burgess came within an ace of netting one when he bored right in on Nurse and the disc just eased off his pad missing the corner by an inch. Then Petes tallied their prettiest counter, when Ranger and Burgess came down like a cloud of dust, Burgess shooting, Nurse saving, but Collins poking in the disc in a flash.

Belleville Open Up

Belleville then cut loose and had the best of the play till the gong. Petes roughed it up a bit, Parker and Collins getting trips for going after Green. In flashes Petes came through and Nurse was the only man between Petes and goals on at least 4 occasions in this tilt. His saves were wonderful. With two minutes to go, Frechette sent a sizzler in at Dayer from the boards near half way up the ice and it registered for the first, last and only.

Locals Desperate Struggle

The last 20 minute go was terrific. Belleville planned to rush Petes off their pins in the first 10 minutes, get 2 goals, then all get in front of the net and stave off defeat by defense till the tap of the bell. They skated, checked shot and worked like crazy men and had Dayer ducking and stabbing here, there and everywhere guarding his citadel, but they could not find the net.

Collins Wrought Havoc

Collins tallied another in ten minutes or close range shot, and then Petes went wild, the locals showing signs of fatigue but still fighting like mad men. Burgess grabbed the puck and from his wing beat Nurse with a hard shot. Then Parker pulled the same play that Green pulled at Belleville. Grabbing the play at the Petes net he chose the centre of the ice and unassisted went through like a "big train" and tallied with a short tricky shot with no one to beat but Nurse. Collins capped it off by netting number 8 on a quick rush from face off fifty seconds before the old gong told the sad story.

The Brick street arena was packed to the rafters with fans who called for Belleville scalps. The noise was deafening.

CORNWALL WIN LAST

Brockville Ont. Feb. 9.—Playing 59 minutes and 50 seconds of scoreless hockey here last night, Cornwall got through for a flukey goal and trimmed Brockville out in the last game of Group No. 1 of the Intermediate O. H. A. series. The game was a goalers' battle from start to finish, and "Old Man Jinx" camped right on Brockville's tail as he has all season. Playing on a fast sheet of ice, the teams battled evenly al the way were all set for an overtime period to break a scoreless tie. In the closing seconds, E. Contant shot from close in Muray made the save, but in clearing the puck bounced over his stick and into the net. John Dennenay, Cornwall was the referee ad only a couple minor penalties were imposed.

ON THE ALLEYS

At the Y. M. C. A. Alleys last night considerable interest was manifested in two games that were played. In the early part of the evening the game was in connection with the ladies league, the teams being the Ramblers and the Granites and later the Reds and Excelsior men teams played. The Excelsiors proved to be the winners by a good margin. Players and scores were as follows:

Excelsiors			
Gilbert	164	204	203—570
Herity	151	212	128—494
Adams	170	154	127—451
Newman	129	172	180—481
Yerex	175	149	143—417
			2463
Y Reds			
Cornell	118	140	140—404
Pearson	146	141	136—422
Thompson	173	169	146—478
Jones	129	165	135—429
Alexander	141	161	102—464
			2197

BATTERY BOYS ARE WINNERS OF FIRST

Thirty-fourth Battery of this city defeated Napanee here last night 4 to 1 and won the first half of the Bay of Quinte League. Napanee led at the end of the first period by 1-0, but in the second period the home team scored three.

In the last frame a short from Whelan passed off the end of Huffman's stick into the goal. All goals were scored from short range.

Battery—Goal, Scott; defense, Goyer and Williams; centre, Whelan; right wing, Symons; left wing, Armstrong; subs, Garnott, Blute.

Napanee—Goal, Finn; defense, Spencer and McNeill; centre, Bentley; right wing, Johnson; left wing, Huffman; subs, Babcock and Napin.

Referee—Casselman, Kingston.

The team standing is:

	Won	Lost
Belleville	5	1
Kingston	4	2
Point Anne	3	3
Napanee	0	6
	Scored	**Against**
Battery	23	11
Kingston	31	23
Point Anne	21	23
Napanee	13	31

OF INTEREST TO WOMEN

CAPTURED BALD EAGLE

Saranac Lake, N.Y.—(United Press).—While hunting rabbits, Guy Taylor of the hamlet of Brier Hill found a full grown bald eagle with a broken wing. He carried the great bird home in his coat and set the wing. The eagle promptly broke the wing again, but the second time it was set permitted the splints to stay on.

The eagle is being kept in a grain bin and fed upon raw meat. Its body is larger than that of a cock turkey and it has a great spread of wings. It hisses and snaps viciously at anyone coming near it. Its mate flies for hours high over the barn in which is the wounded bird. As soon as the eagle's wing is healed it will be released, it being too fierce to keep.

"Dearest," he said, sighing, "it doesn't seem like the same old smile you used to give me."

"Oh, no, Jack," replied the sweet girl, "this is a new one. I have been studying at a school of dramatic art."

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even if cross, feverish, bilious, constipated or full of cold, children love the pleasant taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on the bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Short-Coated Sack Suits Have Call For Spring

By "THE STROLLER"
(Written for United Press)

New York, Feb. 9, (United Press)—Men's suits these days are getting back to the almost severe plainness which characterized them several years ago. Even in the suits for young men for the coming spring, there is very little in the way of fripperies. The shortcoated sack suit will be worn extensively during the spring, as it is being worn now. Most of the suits are being made single breasted and with no perceptible "shaping" along the body lines. The coats are loose and comfortable and the trousers are likewise with an added feature of greater length.

Trousers today must fall over the instep. The day of the short, almost [illegible] trousers is gone. So too has the day of the bell bottom or "toreador" trousers. Of course, this [illegible] enjoyed its dubious success with the adolescent youth and has never invaded the precincts of men who take pride in their appearance. There is an astonishing vogue of light colored suits in New York this winter. As a general rule, dark suits are winter suits, but young New Yorkers, and some old ones, are clinging to their fall sport suits for winter wear to business. However, with the older men, the conservative sack suit, two or three button style, is being worn.

Nearly every man is being confronted with the problem of formal evening dress at some time or another. During the past two years, it has been noticed that full evening dress is coming into its own. It always has been the rule that full dress suits should be worn to every formal evening affair where there were ladies present; tuxedos to "stag" banquets and informal evening gatherings. But the war upset this formula to a great extent and the comfortable tuxedo was worn to every type of evening affair without a murmur of protest being voiced. However, the man possessing a full dress suit need not [illegible] anguish because he does not possess a tuxedo to boot. The old order is returning and it is safe to wear your full dress suit to evening functions where the fair sex are also in attendance as well as to a big banquet or reception to some distinguished personage. It is less embarrassing to be the only one present wearing a full dress suit, than to be the sole tuxedo among those attired in the full formal costume.

"DONT'S" FOR YOUNG MOTHERS FROM A NOTED SURGEON

Philadelphia, Feb. 9 (United Press)—In the realm of childhood many roads seem to lead to the clinic of Dr. Chevelier Jackson, who is famous for his skill in extracting foreign objects from the throats and lungs of the rising generation.

[illegible] surely as they learn their [illegible] begin to take prominent [illegible] and brief childish arguments, they find their way to the white fresh smelling room in Jefferson Hospital.

They come from far and wide and one and all return home free from the button, pin, thimble, needle or what not that threatened to put an untimely end to the young careers.

"Safety pins have killed more children than firearms," Dr. Jackson warns the mothers of young Americans. He issued a list of "Don'ts" for careless parents:

"Dont give children under two years peanuts or any kind of nut candies.

"Don't set a bad example to a baby by holding a straight pin in your mouth.

"Don't bend over a baby without making sure no pins, needles, buttons or jewelry in your waist can get into the baby's mouth.

"Don't" use a coin as a tooth cutter.

"Don't allow a child to run or jump with anything, even food, in its mouth.

"Don't put babies on the floor to amuse themselves, until the floor is cleared of all small objects or allow the babies to play with corn, coffee, berries, seeds, marbles, jacks or small toys.

"Don't fail to inspect toys or small loose parts such as eyes, ears, buttons and fragments of metal and wood."

To back up his "Don'ts" Dr. Jackson now has a collection of 1,256 in his foreign body exhibition. Every specimen has been removed from the throat or lung of a child.

There is a new one, mounted on a white card. It is a tack removed from the lung of Cletus Moore, eight months old son of a St. Louis laborer. The tack had been in the infants lung four months and Dr. Jackson removed it. There is a rusty shawl pin removed from the esophagus of a little girl; a metal goat taken from the throat of Anna McHale, of Ashland, Pa., and everything else imaginable in the collection.

"Children come into the world with their minds blank, Dr. Jackson said. "They must learn that things are hard and soft, rough or smooth, hot or cold, sweet or sour, edible or inedible and the chief way of acquiring this knowledge is to put into their mouths everything in reach.

"There are only three things they can do at a certain age, swallow the thing whole, spit them out or aspirate them into the lungs."

The surgeon performs his operations with a bronchoscope, an instrument of his own invention. It is an electrically lighted tube which illuminates the lung cavity and enables the operator to locate the foreign objects. Forceps which are within the tube are used to extract the object. It has never been necessary to use an anesthetic.

Girls! A Gleamy Mass Of Hair

35-Cent "Danderine" so Improves Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing stimulating tonic—not sticky or greasy! Any drugstore.

THE LITTLE HOUSE

It would be such a little house
I'd build for you and me,
Within a garden all abloom
With rose and peony;
And all about the box-roofed porch
The tall trees looking down,
With a white gate, to swing for those
Who wander out from town.

It would be such a little house,
Away from cities' din,
With blooming plants and jars of flowers
That bring the garden in;
With curtains idly blowing
In every breeze that [illegible],
With rows of shining cups and plates
And bread to break with friends.
—Elizabeth Evelyn Moore in the New York Sun and Globe

Neatly Put

"Was there any evasion on his part when you asked him for the money?" inquired the manager. "None sir," replied the collector. "The evasion was all on my side. He tried to kick me out."

The eyes after middle life

Some people who wear glasses for close work only, must have their lenses changed every year or so. As the eyes steadily change, the glasses must be changed to suit. The ageing of the eyes is perfectly natural and all are subject to it. I can supply you with the right glasses for the present condition of your eyes. Please make appointment first.

That Body of Yours

By James W. Barton, M.D.

HEART FAILURE

Did you ever notice that the expression "he died of heart failure" is not as common as it was a few years ago.

In fact a physician is not supposed to use the expression on a death certificate, because in a sense everybody dies because of the failure of the heart to work any more.

And yet this very failure of the heart, this piece of muscle we call the heart, accounts directly for many deaths.

Not because it has valves that are not closing properly, or that remain partly open when they should be closed, but just because the muscle itself is not strong. Not heart disease at all as it is popularly known.

Take the muscle anywhere in your body, the upper arm for instance because that is the muscle that as a boy you liked to exhibit to give other boys an idea of your physical strength. This arm muscle is either getting weaker, stronger, or remaining the same, according to the amount of exercise you take. If you have been doing the same amount of exercise for some time it will remain about the same. This exercise may be just raising your food to your mouth three times a day, hanging on to the wheel of a motor car, to a strap in the street car, or actually working at manual labor.

If you increase this work or decrease it, that arm muscle will increase or decrease in strength.

Did you ever stop to think that your heart muscle acts just the same way?

You say "That's impossible because my heart is not under the control of my will, and keeps on beating whether I work or not."

That's true, but if you were to keep your body absolutely still for weks and months the heart muscle would become flabby and soft just exactly like your arm muscle.

If after lying for weeks or months you were to get directly out of bed, and attempt to walk or exercise, your heart would not be able to pump the blood properly, and you would faint away, in fact might collapse entirely.

What is my point?

That you are only just as strong as your heart, and your chances of life rest to a great extent on the actual muscular power of your heart to keep pumping the blood for you.

How can you keep it strong?

No royal road. Just plenty of walking, slow running, in fact any simple regular exercise will do it.

And remember—nothing else on earth will do it.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

I disgraced them and myself, and betrayed the trust my father had left me. Nice kind of brother! Poor little girl! I hope she is happy! I'm sure she has forgiven me. Arthur, if anything should happen to me, when you go back to the old country I want you to look my sister up and tell her what chums we were, and what a friend you've been to me. I want you to give an eye to her and see that she's all right. Observe my colossal selfishness: I'm not satisfied with all you've done for me, but I must worry you about my sister! But I know you'd do it, old man. You're the strong kind of chap that weak men like myself always prey upon. You'll do it, Arthur?"

"Of course I will," said Arthur.

His eyes closed as if the talk had tired him, and he slept for a few minutes; then woke with a shudder and complained of the cold. Arthur took off his coat and insisted upon putting it on his sick chum—Jack's was a much thinner one and in rags—and Jack got up and lay beside the fire, which Arthur stirred into a blaze. He made a cushion of the other coat, but Jack was restless and could not lie still.

"Do you think I only fancied that I heard voices in the valley, Arthur?" he asked. "If I hadn't had the fever on me I could have sworn there were men down there."

"Only your fancy, I think, old man; at any rate, they wouldn't be rangers, for the police are in the neighbourhood and the scoundrels would have cleared out."

Jack nodded.

"Where's that paper you bought?" he asked, presently.

Arthur took it from the bed, and, unfolding it, handed it, and while Jack was reading it, made some more tea. Suddenly an exclamation from Jack caused him to look round.

Jack had sprung to his feet and was staring at the paper, which he was clutching with shaking hands. His face was crimson, his lips trembling, and Arthur thinking that he was seized with the delirium of the fever, went to him quickly and put an arm round him.

"What's the matter, old man; feeling bad?"

"Bad! I must be going mad. Feel my pulse, Arthur!" He thrust one hand out. "Is it fever; am I off my head? Tell me—tell me quick, for God's sake!"

"You're all right," said Arthur, soothingly. "Keep your hair on, old chap. What ails you?"

Jack struck the paper with his shaking finger.

"Here's something about my sister, Arthur; the girl I've just been telling you about! It's like a dream, a miracle. Here's her name, plain enough; and a story about her that's too wonderful to be true. It says—here! you read it yourself, for I can't see the words, there's a mist before my eyes. Read it out loud, and for God's sake, be quick or I shall go mad! There it is; there—there!"

He thrust the paper into Arthur's hands and pointed to the paragraph, and Arthur read it aloud:

"'Berkshire has sustained a severe loss in the death of Sir Richard Vancourt of Vancourt Towers. He was prominent as a landlord and a magistrate, and will ever be remembered by the poor as there benefactor and friend. The baronetcy descends to Mr. John Vancourt, and to this nephew the late Sir Richard has left immense fortune; but, as is well known, the young man left England for Australia some years ago, and is supposed to have died there. If this should, unfortunately, be the case, all Sir Richard's wealth goes to a distant relation, a young lady named Esther Vancourt. Diligent enquiries after Sir John, the present baronet, having proved futile, Miss Esther Vancourt is, so to speak, in possession of the property. While deploring the death of the young baronet—if dead he be—we offer our respectful congratulations to the young lady who is presumptive mistress of Vancourt Towers.'"

Arthur neither started nor uttered a word, but just looked straight before him with eyes that saw the painted lines on the opposite wall. This chum of his was a sort of cousin, the little sister Jack had consigned to Arthur's care was the girl who would have inherited Sir Richard's money, if he, Arthur, had not been alive! For a moment he wished that he was dead. A cry from Jack roused him from his stupor. The sick man was sitting on the bed, clutching at the edge of it as if for support. An expression of amazement, of joy, was on his face; he was trembling violently.

"It's true, Arthur; you read it yourself, and you're sane enough! My little Esther! God bless her! Rich! Oh, Arthur, old man, if you knew how hard and bitter a time she must have had! She must have had to work for her living, must have had to suffer and put up with all sorts of slights and hardships. You know what a girl has to endure in England when she is poor and friendless. The thought of it has kept me awake many and many a night, and made life a hell for me. And now she's rich! You think it's true, don't you; the fellow isn't lying?" he broke off, eagerly.

"No, no; it's all right," said Arthur, with a calmness which surprised himself. "So your name is Vancourt?"

Jack nodded.

"Yes," he said, hoarsely, weakness setting in after the excitement. "It's a good old name. The Sir Richard that died and left his money to Esther was a kind of cousin of mine. I never saw him or any of his people; we were too poor and proud to claim his acquaintance, and I don't know how he came to remember Esther's existence. But I'm grateful to him, for he's made it easy for me to hand in my checks. I shall die as happy as a bird, now that I know my little girl is safe; for to be rich in England is to be safe, Arthur," he added, with a hoarse laugh.

Arthur was silent for a moment, then he said, gravely:

"But the nephew, the present baronet, may be alive, old man."

Jack started and looked at him almost angrily.

"What do you mean?" he demanded, excitedly. "Of course he's dead! Doesnt the paper say so? Wouldn't he have heard of his luck and gone bounding over to England to claim the money and title long ago? I'm certain he's dead!" He wiped the sweat from his brow. "Oh, it would be too cruel to have him turn up and rob Esther. She's a girl, and alone in the world—for I am dying and shall never go back to her—and she wants the money. It's her due, it's been left to her—it would be cruel, cruel! What do you mean by saying he's alive?"

"Don't excite yourself," said Arthur, soothingly. "I only said he might be: I daresay he's as dead as a herring, and for your sake and your sister's, old man, I hope he is. But don't you talk about dying; this good news is just what you wanted to shake you up. You lie down again; and, whatever you do, keep your hair on."

He gently forced Jack on to the bed and covered him up with a rug.

(To be Continued.)

Two Sides to a Story

They were talking about a friend and his motor bike. "He seems to be very well satisfied with it," remarked one of them. "He hasn't paid a farthing for repairs all the ten months he has had it, he tells me." "Yes," replied another. "I heard the same thing from the man who did the repairs."

BEFORE MY BABY CAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ontario.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, rundown condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

Healthy Children Always Sleep Well

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the newborn babe with perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from the Dr. Williams' Medicine Co., Brockville, Ont.

Not Experienced

Minister—Do you take this woman for better or for worse?

Nervous Negro—Pahson, dis am mah fust wife. Ah don' prezackly know how to take her.

Sore Throat

It aches and throbs with pain. The tonsils are so swollen that it hurts to swallow. And the chest feels "as tight as a drum".

If you follow these simple directions, you will feel better—very much better—in a short while. Get a bottle of

Absorbine Jr.
THE ANTISEPTIC LINIMENT

Make a gargle of 1 part Absorbine Jr. to 9 parts of water and use three or four times a day. Also bathe the outside of the throat with full strength Absorbine Jr. Absorbine Jr. is simply invaluable for those subject to attacks of sore throat and colds.

Charge Mother With Choking Baby To Death

Montreal, Feb. 9.—Details of a shocking tragedy were told Coroner McMahon this morning, when Chief Durocher of Lachine told of the case of a new born baby who is alleged to have been choked to death by its 20-year-old unmarried mother yesterday afternoon. The woman, who is in St. Joseph's Hospital, Lachine is being guarded by a constable and the infant's body is at the Morgue where an autopsy will be made this afternoon and an inquest will be held on Tuesday next before the jury.

According to Chief Durocher, notification of the affair was first given when Captain Champagne of No. 4 station, was called yesterday afternoon by a man, whose name and address are being withheld, and told that a maid in his employ had given birth to a child and that the infant was dead. Investigation by the police is alleged to have shown that the woman who is said to be unmarried was attempting to hide her trouble from the family and that when the child began to cry she choked it with her hand. The chief had the mother taken to the Hospital immediately and then brought the baby's body to the Morgue. The mother is alleged to have admitted her guilt while being examined by the police, and marks on the infant's throat lend weight to her story. Further investigations will be made before the inquest is opened on Tuesday.

Gandhi Urges Moderation In Strong Appeal

Bombay, India, Feb. 9.—The Indian Nationalist Mahtma Gandhi, has written to the president of the national congress, Mohamed Ali, expressing regret that the Bombay government released him from prison owing to illness, because he does not regard the illness of a prisoner as offering grounds for liberation.

Moreover Gandhi says, his release has not brought him relief because he is overwhelmed with a sense of the responsibility which he is now not fit to discharge. He declares that the National problems are more perplexing to-day than when he was in prison, owing to the deplorable disunion of the Hindus and Mussulmans, and he appeals for cessation of the mutual distrust and the promotion of unity.

Two years of solitude and hard thinking, the Nationalist leader says, have convinced him of the necessity for a conservative programme, in the prosecution of which the people need never resort to civil disobedience, although his belief in the latter plan has not weakened. Gandhi urges his followers to refrain from quarreling with the moderates, because they also are well wishers of the country.

"The Englishmen also are friends, don't treat them as enemies," he writes.

"The struggle against the system for which the British government stands is not against the Englishmen who are administering the system. Those who fail to bear in mind this distinction harm the cause."

DECORATED AT NEW YORK

Upon the arrival of the Canadian Pacific S.S. Empress of Canada at New York, following her cruise Round America, Captain S. Robinson, R.N.R., who now commands this vessel on world cruise, was created a Commander of the Order of the British Empire in recognition of his heroic work at Yokohama when Japan was rocked by earthquake and when the Empress of Australia, which he then commanded, was the headquarters for the rescue parties and relief workers. The investiture was made by Sir Harry Armstrong, British Consul General at New York in the presence of a large gathering of important figures in Canadian and American political and commercial life. This photograph was taken at the time of the investiture and shows, from left to right, Sir Harry Armstrong, Captain S. Robinson, C.B.E., R.N.R., and Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, who visited the blue ribbon vessel of the Canadian Pacific fleet after the ceremony.

CHURCH DIRECTORY

ST. ANDREW'S PRESBYTERIAN

Rev. A. S. Kerr, M.A., Minister.

FLAPPERS

Chicago, Feb. 8 (United Press).—The evolution of footwear dating back several thousand years, will be depicted at the thirteenth annual convention of the National Shoe Retailers Association here Feb. 11-14.

Fifteen thousand pairs of shoes—no two alike—will be exhibited. The first will be a pair of Roman sandals, bearing close resemblance to an ultra-fashionable model for the spring clientele.

Straps will be the vogue for women next spring. A shoe that belonged to Catherine de Medici, was the model.

One of the earliest shoes in existence, belonging to an Egyptian princess 4,000 years ago, will be exhibited. It is fashioned of green leather and gold laces and resembles footwear seen on the streets in the summer.

Experts to teach efficient methods of keeping shop will be sent to the convention by the School of Business Research, Harvard University. More than 10,000 shoe retailers are expected to attend.

MEASURE

Chicago, Feb. 8 (United Press).—Measure your child's brains with a yard-stick, not by the height of his forehead.

This is the advice of Prof. Howard R. Mayberry, of the department of psychology, University of Chicago, after three years' experiment with 6,000 children.

"The childs brain power," Prof. Mayberry said, "can be measured accurately (from the outside) by only one sure method—the distance from the ears to the top of the head."

This measurement, according to Prof. Mayberry, "gives the relative cranial capacity from which intelligence can be calculated."

He adds that the relative size of the forehead—'highbrow'—has nothing to do with intelligence.

Prof. Mayberry has used 26 different systems of measurement and concluded the tip-of-ear-top-of-head system is best.

KEEN INTEREST IN GRAIN PROBE

Winnipeg, Feb. 9.—Keen interest was displayed by spectators and numerous legal lights in the first session of the Royal Grain inquiry commission in Winnipeg. It developed early that there will be much contentious matter considered especially when chief counsel S. B. Woods' suggestions concerning the scrutiny of the cooperative marketing proposition was challenged.

Mr. Woods, in his lengthy address on the evidence adduced and that which he anticipated, mentioned that the pool idea might have some considerable attention paid to it and that he had already conferred with H. W. Wood, of the grain growers.

Isaac Pitblado, K.C., representing terminal elevators and other marketing interests told the commission that he had not been advised that the pool would be a subject of the body's probe. He was asking for information. If, however, the pool was to be the subject of investigation Mr. Pitblado said he was sure the trade generally would welcome a discussion at this time.

Cream Clears A Stuffed-Up Head

INSTANTLY OPENS EVERY AIR PASSAGE—CLEARS THROAT, TOO

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or snuffling. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine.

HIS OWN REPAIR MAN

Saranac Lake, N.Y. (United Press).—Tired of waiting days for linemen that never came, John Mageen, a farmer living ner Duane ,ambled out on a recent morning when the mercury was below zero and repaired telephone lines torn down in a gale some days before. Armed with a ladder, plyers and wire, the amateur lineman soon restored service that had been interrupted for days.

WOULD NOT HAVE ULCER CUT OUT OF STOMACH

Took "Fruit-a-tives" Instead and this Medicine made from Fruit Juices Relieved the Trouble.

MAPLEHURST FARM, HILLHURST, P.Q.

"*About 25 years ago, I began to have trouble with my Stomach.*

Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 70 years old. I said "NO,"

Then, I began to take "Fruit-a-tives".

I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much." H. W. EDWARDS.

"Fruit-a-tives" is made from the juices of apples, oranges, figs and prunes, combined with tonics, and gives quick relief in stomach troubles.

This fruit medicine actually strengthens the stomach muscles and enables the stomach to give out sufficient gastric juice to digest the meals.

"Fruit-a-tives" also correct Constipation and Biliousness from which so many Dyspeptics suffer.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent post paid on receipt of price.

Made Iron Bar Intoxicated MacDonald Questions Act

(United Press Despatch)

London, Feb. 8.—"Fancy having a Prime Minister of England who is actually interested in science," exclaimed George Bernard Shaw, following a lecture at India House by Sir J. Chandra Bose on "Plant Life."

Premier Ramsay McDonald, Lord Hardinage and other distinguished guests attended.

"Why it is simply staggering. It never happened before." Shaw commented.

Ramsay McDonald grinned broadly and made a little speech of thanks to the lecturer, saying, "I have keen recollection of some of Dr. Bose' lectures which I heard in Calcutta. I remember in which he proved he could make an iron bar drunk. I suppose the science of that experiment is perfectly sound, but I've always questioned its morality."

WILKINSON QUITS

Galt, Feb. 9.—When the Terriers took the ice last night, Wylie Wilkinson who has guarded the nets for the local team ever since he returned from Toronto where he attended school and made a name for himself as a goalkeeper, was missing. Wylie who is the only hockey player member of the O. H. A. executive, announced that he felt he did not have the confidence of the Management Committee of the team, and decided to quit playing. He claims that to have success there must be a fair spirit of co-operation between players and management.

BRIGHT PROGRAM AT ROTARY MEET

About one hundred and fifty Rotarians, friends and guests enjoyed Ladies' night at the Quinte Hotel last night. The program put on mostly by a crowd of Toronto visitors was bright and snappy, and kept the fun going until breaking up time about eleven o'clock.

The mind reading stunt put over by Dr. Adenoids (who in private life is known as Ed Flanagan) and his partner "Red" Owens, mystified the crowd completely, until President Scotty, inadvertantly gave the thing away. Wilard Gibson's illustrated song created more hilarity than sentiment as the slides were accidently run backwards. Al Stillman as song leader made everybody take part in the fun.

The full program:—Welcome to Toronto visitors, Gordon Moffta; Welcome to guests, Bill Deacon; Song Ernie Caldwell; Talk Bert Trestail Mind Reading, Ed Flanagan and Red Owens; Piano Solo, Roland Todd Toast to Ladies, Duke Johnson; Illustrated Song, Willard Gibson; Talk Owen Herity; Song, Ernie Caldwell; Recitation, Jasper Humphries; Story Telling, Bill Fulton; Ont to Buffalo, Dan McMillan, Thanks to Toronto Club, Chas. Dolan, and Bill Doyle.

Warm Exchange Over Charge Of Lloyd George

Premier MacDonald Condemns Indiscretion of Ex-Premier

London, Feb. 9.—The four-cornered controversy between Lloyd George, Clemenceau, Poincare and Premier MacDonald over the alleged existence of a secret agreement by Woodrow Wilson and M. Clemenceau respecting the occupation of the Rhineland waxed warmer yesterday, Mr. MacDonald criticized Mr. Lloyd George's indiscreet handling of the whole matter, condemning his attitude as indefensable and contrary to diplomatic usage.

This has been followed by a frank statement by Mr. Lloyd George, saying it was ridiculous to describe the agreement as secret, and acknowledging that Mr. Wilson acted with perfect loyalty, Mr. Lloyd George denies that he gave the interview to Harold Spender the writer of the article in question, and states that he has informed the British Foreign Office that he has no objection to the publication of the documents.

Apology to France

Fearing that the French premier might believe he was connected with the disagreeable turn of the affair the British Prime Minister yesterday instructed the Embassy at Paris to apologize to Premier Poincare. The government regards Lloyd George's utterances particularly unfortunate at a moment when Mr. MacDonald is striving to establish more friendly relation with France.

An extremely delicate situation is believed to have arisen out of the partial publication of the contents of the memorandum by Mr. Lloyd George without the consent of M. Poincare.

Lloyd George's Statement

Mr. Lloyd George, through the Daily Chronicle has issued the following statement concerning the interview printed in the New York World on the alleged secret Rhineland agreement between President Wilson and Premier Clemenceau at the Paris Peace Conference.

"I did not give the interview referred to and was more than surprised when my attention was called to it by telephone messages. I cannot accept the views attributed to me as accurately setting out the facts of what happened at a critical moment in the Peace Conference. As to those facts the official statement issued by the French Foreign Office is substantially correct."

No Secret Compact

Then, alluding to how he was called to London at the time in question, Mr. Lloyd George proceeds: "I found on my return to Paris that during my absence an agreement had been arrived at between Mr. Wilson and M. Clemenceau on two very important issues. One was the military occupation of the Rhineland and the other a guarantee by the United States of the French frontier against acts of aggression by Germany.

"To describe this agreement as 'a secret compact' between Mr. Wilson and M. Clemenceau is ridiculous. Mr. Wilson, I need hardly say acted with perfect loyalty, and it cannot be imputed as a blame either to the late president or to M. Clemenceau that I was called to England at the time these grave matters were under discussion.

Explains Clause

"The fact that the late President and Mr. Clemenceau had arrived at an agreement during my absence was communicated to me on my return, and the agreement regarding the occupation of the Rhineland was after some modification ultimately incorporated in the peace treaty."

Expressing regret that any public reference should have been made to a communication sent to him by the British Foreign Office, Mr. Lloyd George says: "The facts are in effect set out in the Foreign Office Communique." (This communique was issued by the Foreign Office Wednesday night.)

HEALTH CONFERENCE TO BE HELD AT PANAMA

Ancon, C. Z. (United Press).—President Porras, president of the Republic of Panama, has called a conference to meet in Panama February 25-29 to consider an international standardization of maritime quarantine on the west coast of South America. The conference will inspect the anti-malarial work being done by the health department of the Panama canal. The secy-general of the conference is Surgeon William C. Rucker, chief quarantine officer of the Panama Canal.

The Healthful Walk

WHAT is more pleasant and exhilarating than a brisk walk in the crisp, fresh air.

You breathe deeply. The blood is purified. The circulation is quickened. The bloom comes to the cheeks and you feel fine.

The vital organs are put in fine condition by walking and many ailments can be relieved mainly because the liver action is aroused.

And yet we do not walk.

It is so much easier to ride in an auto or street car that walking is becoming a lost art.

Since we do not take the necessary exercise to keep the liver active and the bowels regular it becomes necessary to resort to other means.

The most popular family regulator is Dr. Chase's Kidney-Liver Pills, for by use of this medicine once or twice a week you can be sure of the healthful action of liver, kidneys and bowels.

Our greatest danger in this age of sedentary habits is from overeating and neglecting to pay attention to the regularity of these eliminating organs.

Most of our ills come from this condition. For proof of this statement you need only enquire at the hospitals where there is always a rush of appendicitis and liver and kidney cases after the holdiay season and during the winter months when we use so much artificial food and live cooped up in houses from which fresh air is carefully excluded.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box for 50 pills. Edmanson, Bates & Co., Ltd., Toronto.

THAT HANG-ON COUGH MUST GO

Home Made Cough Mixture Best of all for the Cough that Sticks

Make It Yourself In Two Minutes

The coughing season is on and every home should have a supply of the best cough remedy to be had, and as you can make this supremely excellent cough mixture yourself why pay high prices for the common kind.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Then when any member of the family starts coughing or catches cold in chest or head, or has acute catarrh, you are prepared as you should be.

And the children love to take it.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing, healing poultice, and blessed relief comes at once.

And you should also bear in mind that any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Doubtful

"Oh, Carrie," exclaimed a doubting father to his daughter, "what about that young man who wants to marry you? Has he any money?"

"Yes, father," returned the girl; "why he has just bought me a diamond ring."

"I know that," agreed her parents, "but has he any money—left?"

OTTAWA SCHOOLGIRL IS NOW ROYAL PRINCESS; NOTABLES AT WEDDING

Dignified Simplicity Marks Wedding In Ottawa of Miss Lois Booth to His Royal Highness Prince Erik of Denmark, Relative of King George

SON OF COUSIN

Bride, Gowned in Purest White Satin, makes Beautiful Picture amid Lily-Decorated Surroundings —Many are Present at Nuptials—Couple Leave Immediately

Ottawa, Feb. 11.—Dignified simplicity marked the wedding here today of Miss Lois Booth, only daughter of Mr. and Mrs. J. Fred Booth, and granddaughter of Mr. John R. Booth, to His Royal Highness, Prince Erik of Denmark, a son of His Royal Highness, Prince Valdemar, first cousin of His Majesty King George the Fifth of England. Formerly an Ottawa schoolgirl, Miss Booth became today at four o'clock, Her Highness Princess Erik, Countess Rosenberg.

All Saints Church, the scene of the royal ceremony, was full to overflowing, and many who were invited from distances so far away that they were not expected to be able to attend were present. Many notables were seen in the brilliant gathering. King George and Queen Mary were represented by Lord and Lady Byng.

The bride, gowned in the purest of white satin, and the white lilies profusely decorating the church made a setting for a ceremony of rare beauty.

The service commenced promptly at four o'clock, His Lordship Right Rev. J. C. Roper, Bishop of Ottawa, officiating, assisted by Major the Rev. Channell G. Hepburn, M.C., rector of All Saints' Church. Mr. John W. Bearder, F.R.C.O., the organist of All Saints' Church, presided at the organ, and during the signing of the register, Mr. N. T. Allan sang "Till the Sands of the Desert Grow Cold," this at the wish of the bride-elect.

Seating arrangements were excellently carried out by the four ushers, H.R.H. Prince Viggo, a brother of the bridegroom; Count Leon De Moltke Hultfeldt, Count Roussey de Sales and Lieut.-Col. Charles O. Fellowes, M.C. Their Excellencies the Governor-General and the Lady Byng of Vimy, with Miss Walpole and the male members of their staff, occupied the front pew to the left of the main aisle. Mrs. Booth, mother of the bride and the other near relatives were in the family pew, which is the front seat to the right of the main aisle. It is regretted that the bride's grandfather, Mr. John R. Booth was unable to be present, although he is greatly improved from an illness of several weeks. The bride visited her grandfather on Sunday afternoon and he greeted her with his blessing, being able to be downstairs for the first time in a few weeks. Miss Eleanor Margaret Green of New York, the fiancee of H.R.H. Prince Viggo, was a member of the Booth family. Miss Green was accompanied by Mrs. R. Gordon Williams of New York.

Wonderful Array of Gifts

The wonderful array of gifts were on view to the guests in the billiard room on the lower floor of the house, and these include tokens from near and far on the American continent, from across the Atlantic, from Royalty to the humblest member of the Booth household. Their Excellencies the Governor-General and Lady Byng of Vimy sent a complete set of the work of Rudyard Kipling bound in crimson leather. The Lady Elizabeth Byng and the Lady Mary Byng sent three purple bound kid volumes of Shakespeare. From Right Hon. W. L. Mackenzie King came a large sterling silver frame, to which later will be added a photograph of the Premier. From R.H.R. Prince Valdemar also is a pair of bracelets and from the bride's mother is a Sheffield silver tea service and large tray.

His Highness Prince Erik and his bride will leave shortly after six o'clock for New York, whence on Saturday, the 16th, they will sail for England to spend some time in London. They will go to France to spend some time on the Riviera, and then go to Copenhagen for a lengthy visit. On their return to America they will go to California, where they will take up residence.

R. L. Rose, of Omaha, Nebraska, is making an intense effort to locate his brother, Wilbur Elija Rose, who was born in Ontario in 1865, and was a Great Lake staidor.

R. L. Rose is associated with the Dold Packing Company 27th and Y Streets.

NATIONAL LINES ON SOUND BASIS IN THREE YEARS

Will Cease to Burden Taxpayers within that Time, Says Thornton

ESSENTIAL POINTS

Stresses need of Immigrants as Cardinal Point in Coming Prosperity of Country

Montreal, Feb. 11.—Addressing a large audience of the Montreal Women's Club in Victoria Hall Saturday afternoon, Sir Henry Thornton, president of the Canadian National Railways, stressed the need of immigrants as the cardinal point in the country's prosperity; stating that if Canada's population were 25,000,000 as it well might be, then the National Lines would be an asset as there would be sufficient business to cover their mileage. In any case, he ventured the guess that with normal luck and barring accidents the C.N.R. would cease to be a burden on taxpayers within three year's time as efficient as any in the world. It takes at least that long to develop a highly trained personnel, he said.

The speaker instanced various proofs of progress already made; notably the gain in net earnings from $3,000,000 in 1922 to $20,000,000 in 1923.

Essential Points

Reverting to the question of immigration Sir Henry said: "We would be safe in bringing to this country any individual who would answer to the following specificatons: 1. Sound in mind and body. 2. Willing to live under the laws of the country and under our conditions of society in tranquility. 3. In a condition to become selfsupporting. 4. He must be of caucasian race. We have respect for other races, but it would be just as well if they remain where they are.

"Such an immigration policy should be pursued aggressively."

COUNCIL TO PASS ON COMMITTEES

A regular fortnightly meeting of the City Council will be held this evening when matters appertaining to the City's welfare will be considered.

From the Civic Committee a number of recommendations will be brought forward for endorsation. The two by-laws creating a power and labor committees of the Council will in all probability receive their second and third reading.

At the last meeting of the Council the by-laws were given their first reading.

GOV'T WILL EXTEND ITS FIGHT AGAINST DREAD TUBERCULOSIS

Quebec, Feb. 11.—Half a million dollars to be used in the fight against the white plague is expected to be voted by the government within a few days, according to information from Secretary David. The government realizes to the full the dangers from tuberculosis and is preparing to do everything in its power to care adequately for those already affected and to prevent the spread of the insidious disease. A measure approving the appropriation of $500,000, to be taken from the consolidated revenue fund during five years, will be presented shortly.

But cities and towns must do their part in the fight, it is said. The government appropriation will do its best only when the people are solidly behind the movement. Already the Quebec officials have done much in the campaign through widespread publicity, and are ready to do much more.

Highway Debate

Cost of repairs to the Laprairie-St. Constant road formed the subject of a debate in the Assembly. The municipality of Laprairie in 1916 bought the road for $20,000 from the private owner, and improved it under an arrangement whereby it would obtain special consideration from the government. Tenders for the work were called for, and two received, one from Leo Doyon, for $55,000 and the other from the Kennedy Construction Company for $56,000 and the latter was accepted. The cost of the work was $84,000 of which amount the municipality paid $28,000.

Mr. Perrault said that the department had inspected the road in December of 1917 when the road was frozen and it had been difficult to make a proper estimate of the cost of reconstruction. Furthermore, said Mr. Perrault, the roadbed had not been good in many places, a state of affairs which could not be found out when the estimate was made, and this had been responsible for the higher cost. The municipality had been satisfied, said the minister.

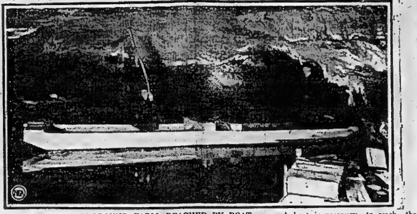
School Activities

An intensive campaign of education along the lines of sanitation and prevention of infection will be carried out in the schools of the province. Pamphlets will be distributed, and in addition it is expected that special talks on tuberculosis and its dangers will be given from time to time.

Free dispensaries, where there are none, will be opened for the treatment of tubercular patients. Such success has followed the opening of dispensaries in Three Rivers, Sherbrooke and other municipalities as well as in the two larger cities, that further places for treatment will be opened in order to provide adequate treatment for every one who requires it.

The hospitals, both general and special, are doing excellent work, but it is felt that the activities must be broadened to include all localities in the province.

An Underground Farm



HERE'S AN UNDERGROUND FARM—REACHED BY BOAT A boat is necessary to reach the "farm," which is a limestone-walled cavern, at one end of a small lake. The temperature is always 60 degrees in the cavern, so winter and summer it is so attractive that Smith's "stock" never wanders away.

Story of Long-Dead Pharoah's Curse Revived By Sudden Death of McGill Professor At Tomb of Tut-Ankh-Amen

(United Press Despatch)

London, Feb. 11—The story that an ancient curse dooms all who probe the mysteries of the Tomb of Tutankhamen, has been revived by dispatches from Luxor, reporting the death of another man working on the tomb.

Prof. Lafleur of McGill University, Canada, has died of pneumonia at Luxor. Superstitious natives point to his death as another evidence of the curse of the Pharoahs.

The story started when Lord Carnarvon, bitten by an insect, died just as all was ready for the opening of the Tomb. The Hon. Aubrey, half brother of Lord Carnarvon, had predicted that "something dreadful will happen in our family" as a result of tampering with the ancient burying place.

Herbert died here last September. "The Pharoah's Curse" was mentioned when George J. Gould American financier, died at Mentonne, France, after a visit to the Valley of the Kings and again when Princess Fahmy murdered her husband at the Hotel Savoy here. Prince Fahmy and his French wife had spent the season at Luxor and were frequent visitors to the mysterious Valley.

Numerous other incidents, some involving fatal or less serious illnesses, also figure in the superstition.

DYING PRISONER CLEARS MYSTERY

Craig On Death Bed Confesses Attempt to Rob Curtis House

Newton, Mass., Feb. 11.—Some of the matters which had puzzled the police with regard to the wounding of Lewis F. Curtis, wealthy sportsman and the creditable way in which they morning were cleared up late yesterday when the intruder made what he believed to be a death-bed statement.

Gerald B. Craig, formerly of Charlottetown, P.E.I., who also had been known as Earl Craig, and Roy G. Vance, confessed to the Boston police at the hospital in the Brighton district that he had intended to rob the Curtis home and that he had participated in a number of recent burglaries in this vicinity. He said that he was making the confession in order to clear his brother Lewis Craig, who had been arrested on suspicion of complicity in various burglaries. Lewis Craig who was taken to the hospital to see his brother, told the police that Gerald had been employed with him in a Boston restaurant but about a month ago gave up this work, saying that he was going into the bootlegging business under the protection of a former police officer.

Prepare At Peterboro For Schell Murder Case

Lindsay, Feb. 11.—Provincial Officers Storey of Lindsay and Davis, of Peterboro journeyed to Swamp Lake, Galway township recently to serve papers in connection with the Schell murder case which comes up for hearing at Peterboro on February 19th. The officers expected to have some difficulty in reaching Swamp Lake as it was thought the roads would be badly blocked. They secured a good team of horses at Bobcaygeon and had little trouble in making the journey.

RICHES ARE EASY THROUGH THRIFT

Mayor Mikel Uses Motto on Belleville Coat of Arms to Emphasize Point

"Magnum est Vetigal Parsimonia." His Worship Mayor Mikel in addressing the senior scholars at Queen Mary School today on "Thrift" quoted the above which is the Latin motto on the Coat of Arms of the City of Belleville, and gave its literal English translation—"Economy is a great revenue." The Mayor said this expression was used by the great Roman lawyer and statesman, Cicero, two thousand years ago, and it is just as true today.

Queen Elizabeth saved her income to help pay the national debt and repair the navy, with the result that England was able to defeat the great Spanish Armada.

Vataces, the ruler of the Eastern Empire saved from the sale of eggs produced on his estate, enough wealth to procure a beautiful jewelled crown for the Empress.

Getting rich is simple if you are willing to pay the price. Any boy or girl can become rich. Save fifty cents out of every dollar you get and you you will surely become rich. Of course you will have to deny yourself of clothing, food and pleasure. If you get rich by this rule you will derive no pleasure from spending your money but only from keeping it.

Thrift as to time is more important even than thrift as to money. heaviest tax masters. They put heavier burdens on us than the City Council, the Ontario Government and the Dominion Government combined.

Principle should not be sacrificed for the acquisition of wealth. The U. E. Loyalists gave up their property and wealth amounting to many millions of dollars, sacrificed their opportunity for the acquisition of riches in the New Republic, came to the unknown lonely Northland of Canada, and buried themselves in its native forests where there were no inhabitants but roving bands of Indians. They practiced thrift endured hardships and suffered privations to lay the foundation for the wealth possessed by Canada today, with its two million British homes. If this generation will be half as thrifty as those early pioneers, Canada's wealth will exceed the dreams of avarice.

"I wonder why it is a girl can't catch a ball like a man."

"Oh a man is so much bigger and easier to catch."

LORD ADVOCATE IS APPOINTED

Premier MacDonald Forced To Accept Services of Conservative

London, Feb. 11—Premier MacDonald has overcome the difficulty of filling the office of Lord Advocate for Scotland, but has had to accept the services of another Conservative. The noted Scottish advocate, H. P. MacMillan, agreed to fill the gap stipulating that he did so "on a basis entirely non political and without participation in the policy of the government."

An appointment under such conditions is altogether unusual, but the traditions of the Scottish bar seem to have made any other solution impossible. It has already evoked strong adverse criticism from the Glasgow extremists, Neil MacLean, M.P., declaring that "giving the post to a Tory will make Keir Hardie turn in his grave."

Hardie, founder of the Independent Labor party, is the national hero of the Scottish Laborites.

Two more appointments to the royal household, which are traditionally political, have also been made, Baron Muir-Mackenzie and Earl De La Warr being named lords in waiting. De La Warr, who is only 23 years old enlisted as a seaman in the navy during the war. He served on a mine sweeper and appeared in the House of Lords on one occasion in his sailor's uniform. He is credited with socialistic sympathies.

GERMAN BIRTH RATE HAS DECLINED STEADILY DURING LAST 5 YEARS

Berlin, Feb. 11.—Judging from vital statistics the idea of birth control would appear, to a limited extent, to have been adopted in Germany. Particularly does this seem to be the case in Berlin and other cities where, for several years, the birth-rate has fallen below the death rate, while it is only in the rural and outlying industrial districts that the tendency to bring forth children has returned to anything like normalcy.

The "thoughtless production" of children so characteristic of the Germans and other European nations some years ago is gradually disappearing, in the opinion of Professor Heinrich Silbergeit who contends that people living in the cities do not care to have their social activities handicapped by large families.

The change has come about gradually. Where the birth rate in the last decade of the 19th century was as high as 36 to every thousand of population, it has been reduced to 23, or even less, due to various circumstances and the economic conditions prevailing in Germany since the end of the war.

Lectures on hygiene, moving pictures and other propaganda designed to teach the benefits of rearing smaller families, avers Prof. Silbergeit, have resulted in an increasing tendency even among the middle classes to restrict the number of children in many cases by one-half. Uncertainty of the food supply, particularly in the industrial areas, also has had much to do with this change, which is in direct contrast to the ideas prevailing prior to the world war, for then the majority of German families appeared to plan to have as many children as possible.

In 1913-14 the average birth rate in Germany was 26 to every thousand of population. This added 800,000 babies a year to the empire. But the rate began to decrease almost as soon as hostilities opened, and during the war the surplus of deaths, including those killed in battle, over the newly born increased from one in every thousand in 1915 to ten in every thousand when the fighting was at its height in 1918.

The first year after the war the birth rate again began to show an increase, and it reached its maximum in 1920 with 26 a thousand. But the years since have averaged about 23 or less, with the cities month by month gradually falling below this rate.

Professor Silgergeit estimates the population of Germany to-day, minus Upper Silesia and other territory lost as an outcome of the war, at 63,000,000.

U.S. OIL BARON SEEKS JUNCTURE WITH GERMANY

Harry F. Sinclair Leaves for U. S. Following Meeting with Hugo Stinnes

DENBY TO RESIGN

Theodore Roosevelt and Attorney-General Daugherty May Quit

(United Press Despatch)

Paris, Feb. 11.—Harry F. Sinclair, lessee of the Teapot Dome Naval reserve, now occupying the attention of the Government in Washington, will sail from Southampton tomorrow for the United States. After a long interview in Cologne with Hugo Stinnes regarding amalgamation of European oil interests, Sinclair and his wife passed through here last night enroute to London with the expectation of sailing tomorrow.

Washington, Feb. 11.—The adoption by the Senate today of the Robinson resolution is expected to precipitate the resignation from President Coolidge's Cabinet of Edwin Denby, Secretary of the Navy, who approved the navy oil leases. It was announced last night that Mr. Denby would adopt this course as soon as the resolution is carried, and that Theodore Roosevelt, Assistant Secretary of the Navy would also tender his resignation.

Mr. Denby held a long conference yesterday with Secretary of War Weeks. It was said afterwards that he feels impelled to resign, lest the President be embarrassed. His resignation will be accepted.

Attorney-General Daugherty, who was attacked by Senator Walsh because of his connection with the oil leases, it is said, will also leave the Cabinet in the near future.

Club Problems Before Rotary

Rev. Dr. Drysdale of Rochester was to have been the speaker at the Rotary Luncheon today, but he was unable to come to Belleville this week. The committee hope to have him here later.

Failing the speaker the meeting was thrown open to general discussion on club problems. A vote of thanks to the committee who arranged the recent Ladies' night was passed and the membership seemed to want another night as soon as possible.

It was unanimously agreed that the Belleville Intermediate O.H.A. hockey team be invited to attend the next Monday luncheon as guest of the Rotary Club in view of the fine sportsmanship they have shown this year and the creditable way in which they have represented Belleville.

SEVEN MEN AND WOMAN IN TREACHEROUS FIELD OF ICE; FEAR FOR LIVES

Party of Seven Men and one Woman Left on Thursday From Point Pelee in Mail Boats Suited Either to Ice or Water, But No Word Has Been Received—Should Have Been Back Friday

NO COMMUNICATION

Submarine Telephone Cable Connecting Island with Mainland Out of Commission—Ten Sacks of Mail and Several Small Express Parcels — Radio Broadcasting News

Leamington, Ont. Feb. 11.—No word as to the fate of the seven men and one woman who are reported lost on the treacherous ice between Point Pelee and Pelee Island, had been received here at a late hour this afternoon, and grave doubts are entertained as to the probable finding of the party of eight alive.

Leamington, Ont. Feb. 10.—The fate of seven men and one woman who set out on Thursday morning to traverse the nine miles of treacherous ice between Point Pelee and Pelee Island is to-night uncertain. Fears are expressed by many that shifting winds may have disrupted the ice fields and engulfed the party and their frail boats. James Grubb, however, from whose home on the Point the mail carrier and his boat sledges set forth on the usual run, points out that while in the ordinary course of events he would have expected the boats back Friday morning, adverse winds or shifting of the ice would be sufficient reason for postponing the return trip for several days.

The anxiety felt in some quarters is probably known on Pelee Island as radio sending stations have been carrying messages about the mail party for a couple of days, but while the Islanders have several receiving sets, they have no sending apparatus and cannot reply. The submarine cable with the mainland is, as usual after the ice has formed, out of commission.

THE WEATHER

Southerly winds today. Light snow tonight and early Tuesday.

COMING EVENTS

THE KIWANIS JOLLIES REVUE

Will the girls and young men who took part in the chorus work of the Kiwanis Jollies kindly meet at the Y. M. C. A. tonight at 7.30 o'clock.

Let there be harmony in things essential—liberty in things not essential—charity in all.

TREADING ON MIDDLE GROUND

We are all more or less familiar with expressions used to typify the ultra-thrifty man or woman. We have heard of people who are mean enough to steal the coppers off a dead man's eyes (a gruesome thought indeed!) and we are familiar with the person who would squeeze the eagle on a nickel until it screams.

There is a middle ground between being thrifty and being stingy. Man does not live by bread alone and we need some candy and knicknacks, a moving picture, a picnic, a concert, a new book, a new rug, a new picture, and similar things to make life worth while. The man "who has the first dollar he ever made" is not a character to hold up as an object lesson to the youth of your country. One may respect such worthies but one does not love them. Rockefeller may keep on distributing shiny dimes as souvenirs but that fact is not going to give him a name for generosity.

There are many who are "penny wise and pound foolish", but after all these are usually people who make the money fly. They will walk blocks to save a car fare but they will give a newsboy ten cents and tell him to keep the change. There is nothing of penuriousness in their funny little economies and most of the financial deals are marked by true generosity. Then there is the ultra thrifty person who weighs every cent before parting company with it. This type of person is the one who gets the least good out of his money. When every dollar is expended with a view to "value received" it loses much of its charm. The money that is scattered without any visible returns is very frequently the best invested. One may not have any material returns to show for one's prodigality but one has had the fun and the experience and even if the bank does fail, one cannot stand to lose in such cases. One has a treasure house of memories upon which to draw at will. And after all that is a pretty good investment.

There is a line between extravagance and stinginess that is well known to men and women of common sense. The happy man is found in the practical distribution of one's means and in the prudence that looks forward to a possible "rainy day"—an atmospheric downpour that strikes most of us at some time or another.

The country is always most prosperous when there is a free circulation of the coin of the realm. This condition is one of the outward and visible signs of natural well-being. Trade is stimulated and the steady stream of commerce is quickened by the influx of currency. And what is true of the country at large it likewise true in the case of communities and of individuals.

"Save To-day—Have To-morrow" is a good maxim—if it is broken once in a while!

Old Lady—Can't you do something to stop those dogs fighting?

[illegible]—Not [illegible] me dog's goin' to get licked.

OBJECT OF OLYMPIC GAMES

It is reported that the French authorities in control refuse any but French concessionaries the privilege of making news pictures, still and motion, of the Olympic games in Paris.

If this be true it is but another evidence of French selfishness. They lose sight of the fact that the primary object of the games is to stimulate athletic prowess among the youth of the world. Contestants from many countries enter the various events and their supporters the world over are interested in their success. France has not a mortgage on the modern Olympic games. The world makes the games and the world is entitled to the news, pictorial and other wise of them. Such details should be free of access to all nations. Just as well might the Japanese government have prevented any but Japs from photographing the recent earthquake which was of world-wide interest. Clean sport is bound to suffer if any one nation is allowed to monopolize to its own profit rights that belong to sport-lovers at large.

France is impulsive as a nation as her people are as individuals, and like all impulsive natures she does not stop to think of the far-reaching effects of her acts.

PRESS OPINIONS

GOODNESS THAT COUNTS

(Dubuque, Witness)

The world in our day needs good men rather than good fellows. The distinction between a good man and a good fellow is this. A good man is the father of a family or the head of the house who regards his home as the place (after God's house) nearest and dearest to his heart; and his children, in proportion to their number, as the greatest reward of his life's love and sacrifice. The home is his club house to which he owes his first loyalty in time and social intercourse.

This idea should be practiced by men in general, more particularly by married men and heads of families. This method, it is true, will not gain for its followers the reputation of being "good fellows," but the character of good man demands this course of conduct.

To be a good man is exceedingly more important than to be a good fellow. The tendency of the modern club house is to unmake the good man by turning him into a good fellow. Just now the world is groaning for leadership in good men, and moral conditions would be vastly improved were there less of the good fellow type.

SCOFFLAWS

(Flint Journal)

"Try again," suggests the New York Evening World in asking whether anyone "has noticed any heads bowed in shame under the pulverizing, triple-power, $200 prize epithet of excoriation? On the contrary, "scofflaws" seem tick'ed by the term. They have genially pinned the opprobious decoration to their coats and displayed it without a sign of dismay or depression.

The most law-abiding of citizens may scoff at a bad law. "The best use of good laws," declared Wendell Phillips, "is to teach men to trample bad laws under their feet. Then again as the Columbus State Journal points out "a certain spontaneity in their coinage seems requisite to the popularity of new words. The writer and no less the word coiner, fails of his potential best when he consciously sets out to please somebody else."

This is also the view of the Manchester Union which insists coining a word "like one of those proposed national anthems or college songs written as substitutes for those in use and which never get anywhere because they do not speak out of emotion to emotion."

Judge—Have you anything further to say?

Prisoner—I should like to ask that the time occupied by the counsel's speech for the defence be deducted from my term of imprisonment.

The eyes after middle life

Some people who wear glasses for close work only, must have their lenses changed every year or so. As the eyes steadily change, the glasses must be changed to suit. The ageing of the eyes is perfectly natural and all are subject to it. I can supply you with the right glasses for the present condition of your eyes. Please make appointment first.

Pen Sketches By a Local Bard

The Inevitable End.

When one considers the latter end of many really decent bits of poetry and prose, it is impossible to refrain from thinking that they might better have been "born to blush unseen" than to be thus badly exploited. Better, it would seem, that they had never seen print than to be rolled about the tongues of after-dinner speakers until from sheer satiety the ear shrinks from them as from the Mischa Elman record on the phonograph upstairs.

The great pity of it is that these passages which are so eagerly snatched upon for quotation by every luncheon club orator had, if left alone, some ephemeral sweetness or even more than that, else they would not have attracted the vandals. We are not denying that there is a place for quotation but it should be employed economically and spontaneously—not as a final douche in the hopes of redeeming "an infinite deal of nothing." It has become so conventional now for alleged speakers to conclude their maunderings with some current and usually irrelevant "classic" that the minute they scent a poem in the offing the reporters stop defacing the tablecloth and make a relieved exit.

Yet it is amusing to note how some have gained a reputation as orators who never exceed a hundred consecutive words of their own composition. Such a spell-binder will commence by getting rid of a few heavy jokes, very laboriously introduced; then he delivers himself of commonplaces so banal that the veriest "cub" reporter would not think of recording them except under the specious convention of "inspirational and instructive remarks"; and finally, he says: "Now, I just want to leave this thought with you."

This leaving of "thoughts" is a stock formula with speakers of a certain class. It is not their "thought"; indeed, they were not the first to think of quoting the "thought" but were impressed by it as the finale of some other orator's de[illegible] community singing breaks forth, some lesser light will jot down this "thought" for future use. And so the poor thing is kicked about—until a greater "thought" gains vogue.

Probably no "thought" was more frequently left with audiences during the heyday of its popularity than Sir James Barrie's rectorial address. We had occasion at that time to interview a man whose paper-crowned visage graced all festal boards where they called each other by their first names. As we rose to go, he drew a little book out of his desk.

"I've a little thing here that ought to interest you," he said. "It's a great inspiration to me. Barrie, you know. Chap who wrote that picture at the Oakwood—'Sentimental Tommy.' It's called 'Courage.' I'll read you some of it."

"Mr. Blank," we answered courteously, "I just want to leave this thought with you. Monday night I attended a meeting of the Burns Society—and a man read 'Courage.' Tuesday night, I reported the meeting of the Young Men's Canadian Club—and some one read 'Courage.' Wednesday was my birthday—and I received two copies of 'Courage.' Thursday night I was sent to the convention of Retail Clothiers—and the president-elect read 'Courage.' To-night I am going to watch the banquet of the Young Men's Club of the Board of Trade. I shall hear it there. You can read it to your stenographer."

With evident reluctance, he replaced the book in the drawer.

The Monks of Ely

A subscriber writes: "Can you tell me where I can find the ballad of which the following lines are a part,

Cheerful sang the monks of Ely
As Canute, the King, rode by.

We can do better than that. Jerushed Jopsing, the uncrowned poet laureate of Anctia-burg, who has made a life study of Old English ballads, kindly consented to reconstruct this one.

Cheerful sang the monks of Ely
As Canute, the King, rode by.

Swift wrath clouded the royal eye,
Summoned he archers armed cap-a-pie.

"Sour notes sore my patience try,
Wireless offends not more the sky.

"Yon tenor's feet in butter fry,
Smite me the villian hip and thigh."

Led was the tenor forth to die—
His gears Canute shoved into high.

No more sang the monks of Ely
After Canute, the King, rode by.

The King of Schnorrers

Israel Zangwill, the diffident playwright who affects to shudder at the headlines of newspapers on this continent yet contrives to give the boys lots of copy, told the eager lads who bounded him to the gangway last Thursday that he was going direct to Paris to witness the production of his play, "The King of Schnorrers."

With his usual reticence, Mr. Zangwill did not announce the name of the actor slated for the title role but it would seem that, unless actors are made in a different mould to the rest of humanity, his selection should not present much difficulty. Indeed, we can supply Mr. Zangwill with the names and addresses of several estimable gentlemen who by reason of their musical slumbers could qualify for the Order of the Royal Clothespin.

Yet such is the deep-rotted vanity of mortals that, in a day when many thrones are tottering or have fallen, it is extremely unlikely that His Majesty, the King of Schnorrers, will ever be embarrassed by rivals claimants of his sceptre. Alone he holds the lists—for those of his subjects as be best fitted to pit a vibrant larynx against him are the loudest in disclaiming any pretension whatsoever to his crown.

But, under the imperial purple, a dread thought disquiets this solitary monach, even the King of Schnorrers. For a lilting chant reaches him in the royal chamber; a chant that penetrates the wall of sleep and causes the rhythmic rumble of his respiration to soar in agony to the wail of a saw riving a cedar fence-post.

Io Hymen! Throughout this and other lands, engagements are in turn predicted, announced, denied, and confirmed of princes and princelings, heirs apparent and disapparent, to queens of beauty, richly dowered. What magic cloaks the name of prince that it should claim so sweet surrender!

But who will give her hand to one whose ominous title brands him King of Schnorrers?

Verily, Romance forsakes a snoring king!

The genius of a certain Arkansas editor showed itself recently when he printed the following news item in the local columns of his paper:

"Miss Beulah Blank, a Batesville belle, of twenty summers, is visiting her twin brother, aged thirty-two."

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY

CHARLES GARVICE

"Give me the paper," said the sick man, brokenly; and he clutched it and tried to read the paragraph, repeating lines here and there and murmuring every now and then:

"Esther! Little Esther—rich! Oh, thank God! God bless my little Esther!"

Arthur went and stood in front of the fire, his hands thrust in his breeches pockets, his head bent, his handsome face grave and troubled. How could he tell his chum that Sir John Vancourt was alive, that he was the missing baronet, and that he was going to deprive the little sister of her wealth? He couldn't.

The sick man's muttering ceased, an intense silence fell upon the hut, broken only by the breathing of Bob, who had been rushing around, sharing in the excitement, but had now coiled himself up beside the fire, close to his master's feet.

Suddenly the dog raised his head and emitted a low growl. Arthur started from his reverie and listened, and his ears, almost as sharp as Bob's, heard the sound of footsteps outside the door. He sprang on tiptoe to the bed: Jack was sleeping heavily, the sleep of exhaustion. Arthur caught up his rifle, felt the revolver in his belt, and stood in front of the heavily bolted door, waiting.

Presently the dog gave a loud bark. Jack sat up in bed, and a voice outside called out:

"Hallo, in there!"

"Hallo," responded Arthur. "Who's there?"

"A traveller—let me in, mate!" came the voice.

Arthur drew his revolver and slowly unbolted the door. A man wearing a mask sprang in with pointed revolver.

"Hands up!" he cried. "We don't want no bloodshed!"

Arthur fired promptly; but prompt as he had been, the bushranger had ducked and the bullet passed over his head. The next moment three other men flung themselves upon Arthur; he fired twice before the revolver was knocked out of his hand, and he struggled and fought like —an Englishman; but it was four against one, and he was at last forced against the wall, his arms bound behind his back and his feet securely tied.

Jack had sprung from the bed, but before he could seize his revolver, he was struck backwards by a blow from the butt end of a rifle and lay panting and helpless.

"Now, bail up!" said the man who had first entered. "Where do you keep the stuff. We know you've got some; own up, or we'll shoot you like a dog."

Arthur smiled.

"Shoot away!" he said.

The bushranger lifted his revolver, but one of his companions stopped him.

"Hold hard; give him time. He looks a sensible sort of chap. Come now, mate!" addressing Arthur. "Just tell us where the swag is, and give us a drink, and we're off as peaceable as lambs."

"Go or stay, it's all one to me," said Arthur. "I don't help you to a penny."

The leader of the gang swore a terrible oath.

"Let me finish him!" he cried. "We can search for the stuff afterwards."

Arthur looked towards the panting figure lying across the bed.

"Stop!" he said. "My chum there is in a bad way; you've knocked him senseless; it may kill him; give him a drink of water and pull him round."

One of the men picked up a pan of water and was advancing to the bed, but the ringleader stopped him.

"Hold on there!" he said. Then he smiled sardonically at Arthur. "Look here, mate; tell us where the stuff is and we'll help your chum; play the d——d obstinate mule, and I'll put a bullet in him before your eyes."

He pointed his revolver significantly at Jack.

Arthur went white to the very lips, and his dark eyes burnt like two spots of fire; then he said in a low voice, but with perfect calm:

"Don't fire. You'll find the little we possess in a canvas bag, under that barrel aof mealies."

Two of the men sprang to the spot indicated and dug up the bag with their knives, the third—the man with the pennikin in his hands—went to Jack, and poured some water down his throat and over his head. The ringleader still stood in front of Arthur, eyeing him vindictively; for the scorn on Arthur's white face cut like a lash. The two men with the bag came forward.

"Better be off now," said one; "there's nothing more, I reckon."

"Search their pockets," said the ringleader. "Here, I'll go over this man's."

He went up to Arthur to search him; but Arthur had managed, with extreme difficulty and indescribable pain, to release one arm, and he struck the ranger a blow which sent him reeling across the hut and tore the mask from his face.

With a cry of rage and an oath, the ranger snatched up the revolver, which had fallen from his hand, and levelled it at Arthur.

"Don't shoot—it's safer!" cried one of his companions.

"Not shoot! Why not? He's struck me—he's seen my face—will know me! I'll shoot him if a thousand devils stood in the way!"

He hissed the words rather than spoke them, and his face—a handsome but sinister one—was white as marble, excepting where Arthur's fist had struck it. He levelled his revolver and took careful aim at Arthur's heart; but as the lookers-on stood in breathless suspense, a figure rose from the bed, staggered across the hut and flung itself across Arthur's breast.

The sharp report rang out, the wreath of smoke curled up from the revolver, and with a cry Jack fell dead at his chum's feet.

Hardened as they were, a murmur of horror rose from the other rangers.

"Curse it all, you've shot the wrong man!" said one.

"It was his own fault, the fool!" snarled the ringleader. "But there's time to shoot the right one."

Two of the gang sprang at him and caught him by the arm, and there was a struggle. In the midst of it, while Arthur, forgetting his own impending fate, bent down over his chum, a whistle sounded, and one of the gang, who had been left outside as sentinel, rushed in.

"The police!" he said. "They're coming up the gulch! What the devil's on? Looks like murder! Come on!"

The men rushed out, and the dead chum and the living one were left alone.

The dog, that had been kicked almost senseless into a corner, crawled across the floor, and, whining, licked the dead man's face; and tears dropped from Arthur's eyes on to the dog's shaggy coat.

(To be Continued.)

RUB PAIN OUT OF RHEUMATIC JOINTS

For 65 years millions have rubbed soothing penetrating St. Jacobs Oil right on the tender spot, and by the time they say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism and pain liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.

SOCIAL and PERSONAL

Mrs. Eddie Baker of Belleville is visiting her parents Mr. and Mrs. J. Connolly, Ridout St.—Lindsay Post

Mr. Raymond Scott of Oshawa, spent the week-end at his home here.

Mr. William Scott left on Sunday for Sarnia where has accepted a position.

Miss Helena Hill, Church street and Miss Helen Middleton, Turnbull Street spent the week end with friends in Napanee.

Mrs. Chas. Walters, Catharine St. is confined to her home through illness.

Mrs. M. MacMullen, Hillside St. who was injured in a fall on the icy walks some weeks ago is gradually recovering.

Miss Agnes Trotter, of Kingston, Ont., is spending a week's visit with Mr. and Mrs. E. M. Doyle, 256½ Front St.

"When I was a young man I worked twelve hours a day."

Son—"I admire your youthful energy, dad, but I admire still more the mature wisdom which led you to stop it."

Soft fluffy blankets

Woollens must be washed very carefully. A strong soap shrinks and coarsens wool just as it chafes and reddens a delicate skin.

The original soft fluffiness of your best blankets can be entirely lost by washing them with the wrong soap or washing powder.

Keep them soft and downy

Lux won't shrink or mat your blankets. It keeps them soft and fluffy. With the pure Lux suds you don't have to rub the delicate wool fibres. Just squeeze the rich lather through and through them, and the dirt floats off.

If your woollens are safe in pure water, they are safe in Lux.

Sold only in sealed packets—dustproof!

On Friday evening the regular meeting of Christ Church Anglican Young People's Association was held. The ladies had arranged for the evening's entertainment a hike. The members left the Parish Hall and proceeded to the Ontario School for the Deaf, everyone enjoying themselves in the snowbanks or snowballing. On arrival back at the Hall a very dainty lunch was served, everyone present voting the ladies to be ideal hosts. The singing of the National Anthem brought a very pleasant evening to a close.

If your property is large or small you need the protection afforded by Fire Insurance—We are prepared to quote the minimum rate on all properties in this city—Call and talk it over—BELLEVILLE LOCATORS

Aunt Martha's

HOUSEWIVES COLUMN

When you see a business growing bigger and bigger you know there must be some good reason for its success. For customers are mighty keen—they know quality and price and cannot be deceived in the long run.

Canada is a pretty big country—it takes a good many days to travel across it—but in all that great expanse of land you won't find any more outstanding business success than the 800 red front Dominion Stores. It's the largest retail grocery organization in Canada, with a million people a week as its customers.

There must be a good reason.

As a matter of fact there are several. Quality has never been sacrificed to price in the Dominion Stores. Whether you want your old favorite national brands, or the special high quality brands you can get only at Dominion Stores, you are sure of fresh foods that are tasteful and healthful.

And then there's the price advantage. Dominion prices are always low prices that mean steady savings for you. Dominion buying experts choose from all the world vast quantities of food products at the special low prices only a big organization like this can demand. When you buy at a Dominion Store you are getting the full benefit of these hundreds of bargains.

Just try it and see.

ROBBED WHILE IN MAYOR'S OFFICE

$75 Mink Head-Piece, Left In Outer Room Was Stolen

Montreal, Feb. 9.—Consternation is rampant in the circles of the elect at the city hall. A bold bad thief has had the nerve to enter the hallowed precincts of the mighty and pinch a fur hat belonging to Alderman George Vandelac while he was passing the time of day with the Mayor in the latter's sanctorum.

It appears from information gleaned at great expense, that the Alderman had placed his mink head piece which by the way he had purchased for all of $75 only last week, on the table in Sergeant Lafleur's guard room, through which the hoi polloi must pass and undergo the "once over" before being admitted to the presence.

Sergeant Lafleur who is the Mayor's equerry, aide de camp and general all round assistant had stepped out of the office for a few minutes to attend to some business of the chief executive. When he stepped out, the light fingered gentleman stepped in and helped himself.

Up to a late hour Alderman Vandelac was still minus his new cap and unless somebody contributes, he will either have to go home with a handkerchief around his aldermanic brow or the mayor will have to lend him the official cocked hat that is reserved for special occasions. And if anybody doesn't believe that this is a special occasion, Alderman Vandelac would like to know what is.

Some of the other aldermen said that they wished the mysterious visitor would visit some other departments and lift the public debt.

Hiram—My daughter at college writes me that the Purity League there had a parade of all students who had never kissed a girl.

Ruben—How dd it turn out?

Hiram—One of the fellows took sick and the other wouldn't march alone.

Your choice of a $450.00 piano in Mahogany, Oak or Walnut for $337.00, $6.00 cash and $2.00 per week. No interest.

FRUIT DEALER FACES CHARGE

Charge Pietro Croce with Altering Figures on Express Bill

Police court was the scene of wild excitement this morning when Pietro Croce, Italian fruit dealer of this city was charged with altering an express bill to the prejudice of the Canadian National Express Company. Croce does not speak good English, and was so excited that the court could not make any headway whatever until an interpreter was secured. Mr. F. Domenico was called and after explaining the case to Croce as the Magistrate had explained it to him, the case was laid over until Friday. In the mean time, Croce will see his solicitor.

A driver for the Express company presented two bills to Croce for $18.40 but the "one" was so faint on the bill that the driver did not notice it and accepted payment of $8.40. On checking up however, at the Express office, the driver noticed his mistake and went back to collect the $10. Croce presented the bill which showed a total of $28.40 the "one" having been changed to a "two". This alteration lead to the charge being laid by the Express Company.

YOUTH WILL TREK TO IROQUOIS

Liberated on Vagrancy Charge, Toronto Youth Commences Walk With Fifty Cents

How long does it take to walk to Iroquois town, beyond Brockville? A seventeen-year-old Toronto youth suffering from "wander lust" commenced the hike this morning at 10.30 a.m. after being liberated by Police Magistrate Masson on a vagrancy charge. The youth, a well set up and well dressed young fellow, "rode the beams" from Toronto, but was picked up here on a vagrancy charge and kept at the station overnight.

Attired in warm clothes, golf sox et al and carrying a military kit bag, the boy started down the Kingston road on the long, long trail. In one pocket rests 50 cents, which will be called upon to tide him over until he arrives at Iroquis where his father and grandfather reside. The boy lived with his grandfather for four years and was on his way east to visit him again.

Musical Service At St. Thomas

A very enjoyable, musical service was held in St. Thomas Church last evening, the following numbers being rendered:

Orchestra—"The Enchanted Hour"
Cornet Solo—"The Rosary"—Lieut. Hinchey.
Orchestra—"Chant sans Paroles"—Friml.
Violin Solo—"Berceuse"—Mr. M. Young.
Organ Solo—"Poet and Peasant"—Ernest Wheatley.
Male Quartette — "The Wayside Cross."
Vocal Solo—"Face to Face"—Mr. A. F. Stillman.
Vocal Solo—"They Have Crucified Him"—Mr. H. Moorman.
Male Quartette—"Glorious Things"
Vocal Solo—"Consider and Hear Me"—Dr. Haffner.
Orchestra—"Intermezzo"—Friml.
Male Quartette—Messrs. Stillman, Haffner, Moorman, Burke.
Orchestra—Messrs. Young, Elliott, Weymark, Brown, Hinchey, Asseltine, Thompson.
Organ—Ernest Wheatley, Mus. Bac., A.R.C.O.

SUDDEN DEATH OF DAVID STAFFORD

The body of Mr. David Stafford, a former well-known resident of Ameliasburg Township, who died at Cleveland, arrived here this afternoon for interment. Deceased who was about 65 years of age died as the result of burns he sustained, but how the unfortunate affair occurred is not known here. Mr. Stafford had been in Cleveland for some time. Mr. Roy Stafford of this city is a nephew of the deceased.

Obituary

WESLEY BULLEN

Many citizens were this afternoon in attendance at the funeral of the late Mr. Wesley Bullen. At his late residence, 32 Victoria Avenue, services were conducted by Rev. F. E. Malott, pastor of Bridge Street Church. Floral tributes were many and beautiful in effect. The body was placed in the vault at Belleville cemetery. Bearers were Messrs. R. Tannahill, R. Templeton, A. McGie, H. A. Morgan, F. Quick and D. M. Waters.

MRS. T. E. ELLIOTT

On Friday afternoon the funeral of the late Mrs. T. E. Elliott of this city took place and many relatives and friends were present to pay the last tribute of respect to the departed. At the family residence, 282 Coleman street, Rev. A. S. Kerr, pastor of St. Andrew's Church conducted services. The body was taken to Thomasburg for interment and Rev. Mr. McDonald conducted the committal service. Beautiful floral designs were tokens of sympathy. Bearers were immediate friends of deceased.

SHOULD BEWARE CHEQUE ARTISTS

Three Smooth Artists Have Operated in Brantford, Galt, Guelph and Peterboro

Police headquarters here received notification from Peterboro police department to be on the look out for three cheque artists, warrants having been issued for their arrest at Peterboro where they have been operating.

Following is the communication.

James A. Harris alias J. A. and A. J. Wells alias James A. Martin alias Robert J. Martin, age 28 to 30, rough looking face, dark hair, and complexion, height 5 ft. 7inches, weight about 155 lbs, clean shaven, bald spot on back of head, which he tries to cover when cap is off, deep voice, passes off as a painter, and when cashing cheques odd times he wears overalls, but mostly appears as though just coming from work, usually uses counter cheques on Royal Bank of Canada, account No. 461 made payable to James A. Harris, signed R. E. Fleming.

R. E. Fleming alias Delaney alias Finlayson, age about 30, height 5 ft 3 or 4 inches, fair complexion and hair, clean shaven, long thin white hands, nervous disposition, quick talker and very active dressed in a dark grey suit dark cloth cap, brown knitted tie, black boots, clear ringing voice, weight 155 lbs.

Greb, age 23 to 30, fair complexion, height 5 ft, 9 or 10 inches, weight 145 to 150 lbs, flat cheeks, walks loosely, inclined to be stooped, smooth talker.

These men engage a private room by the day with telephone connection. No. 2 stayed there and answered phone while No. 1 went out and passed cheques, as soon as he passed one, he would phone No. 2 who would immediately go out and collect money from No. 1 and give him a fresh cheque. In all they passed eight cheques.

These same men operated in Guelph on January 19th last also in Galt and Brantford.

Saturday after banking hours is there favorite day.

If located, arrest and wire me when I will send officer with necessary papers.

SAMUEL NEWHALL,
Chief Constable.

GOOD CONDITIONS IN PENITENTIARY

Kingston Accommodation Better Than in Country Hotels States Hughes

Toronto, Feb. 11.—The accommodation in Kingston penitentiary is better than in the country hotels of Ontario declared Brig. General William Hughes, superintendent of Canadian penitentiaries addressing the Toronto Rotary Club.

General Hughes said he first entered Kingston penitentiary as an official 31 years ago. At that time the largest cell was 7 foot 6 inches long and 29 inches wide and 6 foot 4 inches high, with wooden equipment bed, basin, etc., and no ventilation. "The civilized world to-day has no finer place of confinement than Kingston penitentiary," he exclaimed proudly. The cells are now thoroughly modern, containing running water, iron bed with spring and matress, four linen sheets never used by another prisoner, comb, bible hymn book, four towels, books, spare clothing and shoes.

"You can go into the highway and byways of Ontario and absolutely fail to find better accommodation in the country hotels, than in the penitentiaries. Sixty per cent. of our prisoners leave the institution without a crime of any kind being charged against them, and no military unit in the world can boast such a good record."

"We have not one man breaking stones in Kingston and we have not one idle man to-day."

Mrs. Nunnemaker says Tanlac Met Every Test

"I will always bless that day I bought Tanlac, for it made me one of the healthiest, happiest women in all Canada," is the striking statement of Mrs. Jesse Nunnemaker, 200 Welland Avenue, St. Catharines, Ontario.

"I was dreadfully weak, frail and run-down and had such a poor appetite I went for days without eating. Even then I suffered from indigestion, and was so nervous sleep was almost impossible. My kidneys and liver also bothered me and my back acked like it would break.

"Although it was six years ago when Tanlac ended these troubles I have never had a sick day in all the years since then. It gave me such a splendid appetite and digestion that my weight increased twenty-one pounds and to this day I have retained my strength and weight, have slept fine and felt just grand. I also gave Tanlac to my little son and he gained six pounds."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

Photographed Top Of Mount Whitney

Los Angeles, Calif. (United Press).—Mount Whitney the "camera-shy" old giant of American mountains, at last posed for a motion picture camera, when Sam Greenwald and William Stapp, cameramen, photographed the top of the mountain from airplanes.

Starting from the Mojave desert, two planes climbed to an altitude of 15,000 feet. The surface over which they passed was composed of deep snow drifts and jagged cliffs hundreds of feet high.

Stapp had a narrow escape when he accidentally loosened the catch of his parachute, which started to open. Had he not caught it in time, he would have been jerked out of the plane, camera and all.

On the return trip Greenwald and his aviator, Lieutenant Rice, were forced to make a landing in the Mojave desert, because of trouble with their gasoline tank. Clad in the fur-lined clothes donned for the cold upper air, they started to walk to Mojave, 27 miles away, but were overtaken by a "desert rat" with an automobile, who gave them a lift.

HERE, THERE AND EVERYWHERE

WILLIAMS' BASEBALL CAREER IS METEORIC--RISES FROM VILLAGE TEAM TO INTERNATIONAL CLUB

First Played for 146th Battalion in Military League at Valcartier and in France—Wins Frontenac County League Two Seasons, then Joins Belleville Grand Trunks For Two Seasons — Now With "Pros"

As first published by the Intelligencer on Saturday, John Henry Williams, curve ball southpaw, who has made his mark as a baseball pitcher in the Central Ontario Baseball League, with the Belleville Grand Trunk team during the past two seasons, has signed a contract for George T. Stallings, President of the Rochester Baseball Club Inc. and will play this season with the Rochester Colts in the International Professional League.

From the village, back lot ball team of a pretty but humble Ontario village, to the International League, Williams has earned his promotion by ability and plenty of hard work, the greatest part of which was done for the Belleville Railroaders during the past two seasons. Prior to 1916, Jack lived at the cottage home of his parents, Mr. and Mrs. Michael Williams, about one half mile out from the neat and pretty little village of Verona, which is situated twenty one miles north of Kingston. The Great War was at its height at that time, and everywhere, Canadians were joining the colors and forming into battalions which were later to crown Canada with honor as her representatives in France. Few families have a better record than the Williams, for the father and two sons enlisted in the same battalion, the 146th, of Kingston. All three served in France, and Mitchell, the older son (three years older than Jack) paid the supreme sacrifice in France.

Won Soldier League

Jack enlisted on April 12th, 1916 at the age of 15 years, joining the battalion at Verona, but later training at Kingston until the end of June, when the troops were sent to Valcartier. It was there that Jack started the old ball game, although when going to school, like all kids, he played at it, but not seriously. There were some 30,000 troops mobolized at Valcartier, and a baseball league was formed. Before the 21st of August that same year, when the 146th battalion proceeded overseas, the 146th, had won the Military League, and largely through the efforts of "Lefty" Williams who did the twirling for their team. He was presented with a fine medal for his achievement, which he still possesses. Prior to going to Valcartier, a few games had been played at Kingston by his team also.

First Pitched by "Accident"

The circumstances under which Williams first commenced to pitch ball are interesting. Two battalion teams were having a hard battle one day, and Williams was in the game, playing in the outfield. The pitcher on his team was suddenly injured, and rendered unable to proceed with the game. Williams was called in to try his luck, and his performance was so successful that he has not stopped yet. His brother Mitchell did all the receiving for the 146th team, and from that time, the two brothers made up the battery. Williams gives much credit to an officer of this outfit for his splendid coaching and assistance. The officer, whose name Jack could not recall, was a finished ball player himself and took a great interest in the battalion team and Williams.

Pitched Ball in France

Williams was in France in 1917 and when his battalion was out of the lines, exhibition games were arranged between the battalions out on rest. Of those games, Williams pitched all and won nearly every one. "We did not play so much ball there though," explained the Indian. 'It was mostly fight in France, not like it was at Valcartier, where the ball players missed a lot of drill." In the spring of 1919, Williams returned from overseas, and went to Parry Sound to work for the C.N.R. He returned home to Verona that autumn, but had played no baseball that season.

Wins Intercounty League

In 1920, he signed up with the Verona team in the Frontenac Intercounty league. There were five teams in this league, Verona, Wolfe Island Kingston, Yarker and Sydenham. Verona won the league handily, and fans began to take notice of Williams in league games and at Fall Fair tournaments. That season the Verona team with Williams pitching, played an exhibition game with the Red Sox negro team of Watertown, N. Y., and lost out to that good team by the close score of 8-7. The same team defeated the Belleville team with Freddy Goyer pitching by the score of 4-0 that same season at Napanee. Williams watched Goyer pitch this game against the Red Sox. The manager of the Red Sox told Williams after the game that he was a foolish boy playing with a village team like Verona, where he often had eighteen strike outs and once struck out 23 men out of a possible 27 in a nine inning league game. During the summer of 1921, Williams again pitched for Verona and again won the league handily.

Is finally "Discovered"

Belleville heard about this Indian boy at Verona through a C. N. R. employee here who at one time lived at Verona, knew the Williams family, and believed

Additional Sport on Page Six

In a typical caboose conversation one that Jack had a future on the sand lot. day, one of Belleville's greatest and most modest baseball fans heard of Williams and immediately interested himself. Taking the man who knew Williams with him, this rabid ball fan, Mr. J. Raymond Carr, 22 Chatham street, left for Verona to hunt the wonder boy, and walked out to the Williams home, which is situated near the railway line on the bank of a pretty little creek, with a deserted lumber yard on the other side. Jack was at home but did not appear like a ball tosser that day. He had just returned from a trapping tour, and with the open front shirt, high rubber boots and—well he had not shaved that morning.— it was difficult for Carr to picture him on the ball park pitching "big" baseball.

Confifidence of Youth

Carr had a long talkk to the boy, telling him that the Belleville team would like to get a good hurler, as they had lost a good one in the person of "Lefty" Goyer. Williams was told that the Central Ontario league was a fast one and recognized as such throughout the Province and Dominion.

"Do you think you can pitch ball as well as Goyer"? Carr asked.

"Well, I have seen him pitch," replied Williams, "and have studied his methods, and I believe that I can pitch as good as Goyer."

From that time on, Carr pinned his faith on Williams and arranged to have him come up to Belleville and talk the matter over. All those negotiations were arranged by Carr and he paid all the bills personally. Williams came up to Belleville on March 21st and returned home the next day. Later he arranged to pitch ball that season for Belleville Grand Trunks.

Results with Railroaders

Williams had an excellent year with the Trunks and made a name for himself, and the team. He lost the final game to Galt Terriers for the Provincial Championship that autumn, in the third game at Guelph after having won the Central League and disposed of Toronto Hillcrests, in three stubborn games. The central league that year was exceptionally keenly contested, Leaside, Cobourg and Peterboro being mighty hard nuts to crack. Williams cracked 'em plus the "Cannon ball Ed Scott"-Lionel Conacher outfit from Toronto, and possesses the record of being the only pitcher who ever got that sweet baby Conacher "up in the air". "Conny" is the Big Train, Big smoke. Big everything of The "Good" city, so the Press Association of the "Good" city states. He is the one and only clean and square sport and athlete. When Hillcrests played down here however the Big Train ran off the track and then ran amuck. Williams had them all "cuckoo" that hectic day.

Had Great Record

In twenty days that Autumn, Williams hurled nine games, eight of which he won. In three games he had 45 strike outs, and in four successive games he had 56 strike outs. He lost but two league games and the final game to Galt that season. He had eighteen strike outs against Bowmanville in the opening game at Bowmanville on Victoria Day, eight of the Bowmanville batters being right hand hitters. He repeated this performance against the strong Peterboro team later in the season.

Pro Scouts Get Busy

After the ball season, he received offers from such well known professional teams as Baltimore, Rochester, Toronto Leafs, Denver, Col.; Chicago White Sox and from several good Canadian towns and cities.

Last season, Williams remained with the Trunks and had another wonderful season, getting ito the semi-finals for the provincial honors after his team had fallen down behind him. Of twenty-one games which Williams pitched last season, he won sixteen, and had one no-hit game against Peterboro. Last autumn, the Professional scouts were again hot on his trail and besides the above mentioned cities, Waterbury, Conn., also made a bid for the Indian's services for this coming season. Just two weeks ago, Comisky of the Chicago White Sox again wrote Williams.

On January 21st Williams decided to cast his lot with Rochester, and has done the rest. He leaves Belleville with the highest praise for the ball team with which he really made his mark, and has the highest praise for his trustworthy old catcher, Bill Mills.

Not Yet Twenty-three

John Henry Wililams, son of Mr. Michael Williams, son of the late Mrs. Williams (who passed away while her husband and two sons were overseas) will not be twenty-three years of age until May 15th this year. He weighs 165 pounds, is 5 feet 8½ inches in height, pitches left handed and bats right handed. On February 25th, 1922 he was married to Miss Huffard, whose parents now live in Rochester. Mrs. Williams will live at Rochester with her people while Jack is on the road. There are no children. Jack plays a very good game of hockey, and has played this season with the 34th battery soldier team in the Boy of Quinte League. He was born at St. Regis, P.Q., is three parts Iroquis Indian and the remainder French. His grandmother on his father's side was a French woman, but his mother was a thoroughbred Indian woman.

The Intelligencer joins with Belleville citizens in general as well as the odd 100,000 Canadians in Rochester, in wishing Jack every success in his new venture.

LOCAL BOWLERS GO TO TORONTO

Frank Domenico to Take two Teams to Karry's Recreation Club tournament

Toronto, Feb. 11.—The sixth annual handicap tournament of the Karry's Recreation Club is due, according to Manager Chestnut, to be by far the best in th ehistory of five-pin bowling. In making such a statement it is only necessary to point to the big success of last year's show, and this year conditions are greatly better. Most of the big local teams are now covered with reservations, while there is going to be a big entry from out of town. Five teams are coming from Brantford, two will bowl on the last day and the other three on Wednesday, while F. Domenico of Belleville is sending two teams and has reserved alleys on the Saturday. London's four crack teams will also shoot on the final day which is almost entirely booked up now. The entry list will be huge and it will take no little time to check the averages and arrange the handicap, therefore every team is urged to complete theri reservations and send their entry to the office of the secretary as soon as possible.

All dates will be thrown open on Monday Feb. 11th and no reservation will be held after that time as it is necessary to open the schedule book to protect the filling of entries that are turned in before closing on Feb. 20th, which is the last day entries will be accepted.

Practically all team captains have been prepared to forward entries for some time and they are reminded that it is now up to them to get in before the last minute rush. They might just as well come in now and make the handling of entries a little easier for the secretary who will greatly appreciate this assistance.

ON THE ALLEYS

Domenico's Recreation Alleys

K. of C. roll over 3000. O'Callaghan has new three string record. The Lucky Strikes made it four wins in a row in the ladies' league at the Recreation Saturday night when they won from the St. Pats. The St. Pats go off to a bad start in the first game but in the second and third rolled some very good scores. Miss Nafin was high in the single and three strings. In the junior league the Natural Tread won from the Durant Motors by a very close score. Allen for the winners being high man.

In the "Big Six" senior league the Millionaires lost to the Hardware by 34 pins, both teams rolling high scores namely Hardware, 2809, Millionaires 2775. It was a hard game for the Millionaires to lose as they won two games out of three but the Hardware only lacked 3 pins from rolling 1000 in the second game and got a good lead on their opponents. Shappee was high man with 246 and 639.

The second senior game between the K. of C. and the Sprinklers the former won with ease rolling up a total score of 3010 or being out only the second team to go over the 3000 mark. Dr. O'Callaghan broke Cornell's three string record when he rolled one game before the league and the first two league games. Doc totaled 785. For the three league games OCallaghan rolled 703. An early evening game on Friday, between the Ramblers and the Granites proved of more than ordinary interest to the Railbirds. The Granites who had not previously lost a game and were leading the league, started out strong by obtaining a lead of over seventy points in the first string. In the second game the Ramblers reduced this somewhat, then came stronger than ever in the final and closing game which they won by an even hundred points giving them a margin of 57 points on the evening's play.

PETERBORO GIVES TRUE GAME REPORT

Examiner's Story of Game Almost Co-incides with Local Version

This is what Peterboro says about the Belleville-Peterboro game:

Peterboro, Feb. 11.—Dominating the red-shirted vistors from gong to gong and skating them into the ground the Petes eliminated Belleville from the O.H.A. race for the second year in succession by beating Ed. Thomas' crew 8 goals to 1 at Brock Street Rink Friday night.

There never was any doubt as to which was the better team. The Petes wiped out their deficit in the first period and were one in front on the round at the end of the first twenty minutes. Each team scored once in the second session although on the play the Petes should have had half a dozen and the last period started with the home talent still one to the good on the round. Belleville made a last stand early in the last period, but the Petes held them off and then came on in the last ten minues and ran in four goals.

Better All Round

The winners had a wide margin over the Easterners in practically every department of the game. They broke faster, passed better and more often and showed more cleverness in stickhandling on the attack, while defensively the checking of the blue shirts was a treat. Green, the clever Belleville defence man was made to look a very ordinary player, indeed, so hornet-like was the checking of the homesters and the red-sweatered gang that had walked through all opposition in a tough five-club group did not appear any more formidable than the teams the Petes overcame in their own district. They were, of course, but the Petes set such a pace that Belleville appeared weak although a team that can triumph over Kingston Frontenacs, Queen's University Brockville and Cornwall, need something besides a set of uniforms and a few hockey sticks.

Breaks Helped Visitors

On the play the home crew should have had a wider margin just as in Wednesday's game at Belleville they should have won. The breaks beat them in Belleville just as in the second period of Friday night's game the breaks enabled the visitors to hold the Petes to one goal although they were attacking 75 per cent. of the time and were inside on half a dozen occasions.

A huge crowd saw the battle, too huge for the ice, which, although like glass when the game got under way, soon grew sticky. The no-smoking rule was vigorously enforced and the conditions were much better than usual for both players and spectators.

Whole Team Good

Every one of the Petes did his bit towards the clean cut victory. Dwyer has had much busier evenings but he had some mean shots to handle, nevertheless, and he dealt with them in his usual effective style. Parker's checking was immense and his rushing had the Belleville crew cross-eyed trying to stop him. The big boy was a very material help to the Petes Friday night for he was dangerous every time he broke away. Grover Halpin was the surprise of the evening, showing his old time speed and cleverness and checking with good judgment. Halpin has been working hard to get into shape and last night he showed that he has arrived with a vengeance. McMartin subbed for him on the defense and so did an odd turn on the forward line and worked hard in both positions.

The Advance Guard

The whole advance guard was good all the way. Ranger played his best game of the year, doing some beautiful stickhandling while his poke checking stopped the visitors time after time. Collins' back-checking was immense and he found time to corrall three nice goals on his own account. Ray Rose subbed in all three positions on the forward line and was effective wherever and whenever used while Burgess was brilliant and going either way and even a jab in the eye faled to stop him for more than a few minutes. The little right wing is playing his best hockey since he came to Peterboro three season's ago.

Belleville Outplayed

Nurse, the Belleville goal-minder, did his best to hold his team up, making a lot of good stops and he had little chance with most of those that beat him as they were from close in with the defence beaten. Green, although bottled up pretty well when he took the offensive did some excellent checking and Finkle also worked hard. The Belleville forwards were badly outplayed and although Weir and Hagerman did some great back checking they were never particularly dangerous on the attack. Whelan was the most effective of the visitors when it came to working in on the defence, although he did not score, the only goal going to Frechette, who loafed all night as usual and saved Belleville from a shut out by a snap shot from a scrimmage near the boards.

Kingston Wins At Basket Ball

By the score of 50 to 24, Kingston Collegiate basketball team, on Saturday evening defeated the local High School team here. The game was played in the Y. M. C. A. gymnasium before a large crowd of spectators.

In the first and second periods the visiting team had a decided lead which our boys could not overcome. In the third period the locals scored 8 goals to their opponents 2. The game throughout was interesting, though it was rather one-sided. Ralph Morden was referee and handled the game satisfactorily. The line-ups of the teams were:

Belleville High School—Barlow and Deroche, forwards; Faulkiner, centre; A. Weir and Townsend defence; Walters, Clare and Facer, subs.

Kingston—Brouhke and Crawford, forwards; Jenkins, centre; Groves and Kendrick defence; Harper and Smith subs.

CAMPBELLFORD CURLING CLUB ANNUAL BONSPIEL

Campbellford, Feb. 11.—The Campbellford Curling Club will hold their annual bonspeil Feb. 12-13-14 commencing Tuesday at 10 a.m. Many rinks from outside points are expected and there will be first and second prizes in each competition. The Victoria, Campbellford and A. L. Riendeau trophies will also be played for. Everybody is welcome. C. A. Wilson is secretary of the Bonspiel committee.

GIVES UP 35 GOWNS FOR NURSE'S UNIFORM

From dinner gown to nurse's uniform, and from dress suit to bathrobe,—for a matter of six weeks or so—is one of the little abrupt changes in the life of motion picture actors, Helene Chadwick and Richard Dix, who will be seen in the leading roles of "The Glorious Fool," coming to the Regent Theatre, for three days, commencing today, started playing in this picture shortly after they had appeared together in "Dangerous Curve Ahead!" and other Goldwyn picture, in which Miss Chadwick wore thirty-five changes of imported gowns, and Dix as many different suits possible to a man, to keep up with her.

HIS FOURTH PICTURE WITH FRANK URSON

Marshall Neilan's "The Eternal Three," which comes to the Griffin today for three days, marks the fourth collaboration with Frank Urson.

Mr. Neilan's system of direction has always been marked by the collaboration of a co-director and is based on the ancient adage that two heads are better than one. It is Mr. Neilan's contention that no single director can do full justice to a story and that the collaboration of another mind in the directoral phase of picture-making is highly essential. The record of consistent successes that have marked Neilan's past performances seems to confirm his belief.

Mr. Urson affiliated with Mr. Neilan a year ago, following the production of many Paramount successes in which the former directed the foremost stars of that organization. "The Eternal Three," illustrates more effectively than any Neilan picture of the past, various striking examples of achievements made possible only through the association of two directorial minds on the production of a photoplay.

Rickets? SCOTT'S EMULSION Food Unrivalled

POLICE BULLETS STOPPED SUSPECT

Fugitive is Alleged to Have Robbed Grocery Store

Montreal, Feb. 9.—Failure to stop and answer questions put to him by Constable Charron at 3.40 this morning on Cadieux street, led to revolver shots being used by the constable to effect the arrest of Michel Mastrachi, 557 St. Timothee street. The prisoner threw away a bag containing $17 worth of cigars, tobacco and meats. Two of the prisoners companions escaped. The arrest was reported to headquarters at the same moment that A. Choquet, grocer, 28 Craig street, east, phoned in a break at his store and later recovered two other bags of goods which the grocer identified as his property. This morning the Italian prisoner was held in the sum of $3,000 bail for his appearance at enquete on the 14th by Judge Perrault.

Mr. Gaaram—"Yes I suppose I can claim to be a financial success and just think I started business with a shoestring."

Miss Green—"Mercy! It's a genius! A man who could get anybody to buy one shoestring couldn't help but succeed."

Drink Water If Back Or Kidneys Hurt

BEGIN TAKING SALTS IF YOU FEEL BACKACHE OR HAVE BLADDER WEAKNESS

Too much rich food forms acids which excite and overwork the kidneys in their efforts to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison else you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoon ful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders.

By all means, drink lots of good water every day. Have your physician examine your kidneys at least twice a year.

HELD IN BAIL OF $10,000 EACH

Two Held for Burglary, and One for Daylight Hold-up

Montreal, Feb. 9—Charles Williams colored, arrested last night after he is alleged to have held up and robbed Emile Barrette, of Valleyfield, of the sum of $28, appeared before Judge Perrault this morning in the arraignment Court. Williams, who is alleged by the complainant to have tossed him in a snow bank and then placed him against the wall of a building was held in sum of $10,000 bail for his appearance at enquete on the 14th.

Delphis Morrisette and Eldridge Sabourin, charged with burglary and David Cote, charged with receiving the goods Morrisette and Sabourin are alleged to have stolen, appeared before Judge Perrault for arraignment and a bail bonds of $10,000 each were exacted for their appearance at enquete. The goods are alleged to have been stolen from the Hochelaga Boot Shoe Store, 3183 Ontario street east Wednesday night.

Why Ford Predominates

Ford Resources

The Ford is the product of a self-made institution which, over a period of years, has provided dependable transportation for all peoples.

Recognizing the value of Ford transportation, these peoples have purchased Ford products in such volume that the sale of Ford cars and trucks equals the sales of all other makes combined.

As a result, the resources of Ford of Canada are now over $20,000,000. These resources mean ability to buy the best material at a minimum price.

They mean the ability to organize each process of production, from the purchase of materials to the completion of the finished car, on such a basis that every non-essential operation is eliminated.

The economies thus accomplished are reflected in Ford prices which, always consistently low, are now the lowest in history. This is what Ford resources mean to you.

ADDITIONAL SPORTS

TO CHOOSE QUEEN FOR EACH LEADING EVENT IN SPORTS

Montreal, Feb. 11.—The executive of the Montreal Winter Sports Association and representatives of sporting organizations, have decided to arrange for selection of a "Queen" for each of the leading outdoor winter sports. The plan is somewhat unique and is entirely different to the "Miss Canada" and "Miss Montreal" competition held last year. The organizations co-operating are the following: Montreal Toboggan & Skating Club (M.A.A.A.), Montreal Ski Club, Park Tobogganing Club, East End and West End Snowshoe Unions.

There will be a "Queen of skating; a "Queen" of skiing; a "Queen" of snowshoeing and a "Queen" of tobogganing, one of whom will be selected as the "Queen" of Winter Sports. The selection of the "Queen" of skating will be at the M.A.A.A. rink next Tuesday evening, February 12th, at a feature skating party. There will be no candidates asked to submit their names but judges will be present at the skating party and invite eligible young ladies to compete. The same plan will be used in connection with the selection of the other "Queens," which will take place on Mount Royal on the evening of Wednesday, February 13th.

There will be five judges; four named by the Winter Sports Association and the four to select a fifth.

The "Queen of Skating" will be selected at the M.A.A.A. rink at a special event on the evening of Tuesday, February 12th.

The "Queens" of Snowshoeing, Skiing and Tobogganing all to be selected on the evening of February on Mount Royal.

The Association has just closed a contract for what is believed to be the fastest dog team in Canada; that of Dr. Larose of Les Pas, who won the big Dog Derby last year. Records that had been made of previous derbies at Ashton were carefully studied and the representatives of the Winter Sports Association did not feel with any certainty that any of the teams contesting locally could win the race at Ashton, and they are anxious to bring the cup to Montreal. Accordingly, negotiations were entered into with Dr. Larose of Les Pas and were successfully terminated yesterday. The team is now on its way to Ashton. Miss Lyda Hutchison left last Thursday night for Ashton. She will meet the team at Salt Lake City.

A special delegation was at the station to see Miss Hutchison off. She was in high spirits when she heard the description of the team she is to drive for Montreal and felt confident that she would turn into fact the good wishes which were extended to her for success.

FANNING WITH FARRELL

New York, Feb. 11 (United Press.—American skaters did full credit to themselves and their country in the Chamonix, even if they couldn't finish any higher than third place.

To those who consider that nothing is worth while unless won, the American boys who scored only 11 points against Finland's 48 1-2 and Norway's 39 1-2 points didn't do anything to crow about.

The main point, however, is that the Americans did not alibi when they had no opportunity to crow. They showed the European nations that at least four American athletes knew how to lose.

No one who had any facts at hand or who gave it any study dared to hope that the American team would win the skating championship. Finland could not send a baseball team to this country that would have a chance to beat the New York Yankees and skating is just as much a national and universal sport in the northern countries of Europe as baseball is in this country.

In winning one of the four events on the program, the Americans can feel satisfied and the country has reason to be proud of Charles Jewtraw, who comes back as the Olympic 500 meter champion.

The Americans certainly would have made a better showing if they had been able to get in some work before the skating contest started. Perhaps they could not have won the championship even if they had beene able to workout daily before the games started.

Several of the American skaters were violently ill on the voyage across the Atlantic and when they arrived at Chamonix they found a mild spell of weather on the resort, which made it impossible for the skaters to get out on the ice.

They were all short of work but the layoff did not handicap the Fins, the Norwegians, the Swedes and the French. Perhaps the rest did them good because they all had a lot of work under their belt.

It will be recalled that the American team had practically no work up to the time that it sailed. The weather was so mild that it was with the greatest difficulty that the American committee succeeded in holding the trials from which the team members were selected. The trials at Saranac Lake had to be postponed twice and when it is warm enough up in the Adirondacks in December to thaw ice, it certainly is an unusual season.

The boys made no mention at Chamonix that they had been out of luck and it is quite certain that they will not complain when they return home. They certainly would have no reason to feel ashamed and perhaps they will feel rather proud that they were able to do as well as they did.

There is little significance in as far as it relates to the track and field games next July, in Finland's victory in the skating matches. The winter sports will have been forgotten by that time and as points are not carried over from one department to another, they will not affect the big summer sports.

Finland, since 1920, has been regarded as the one nation that America will have to beat in Paris next summer and the conviction that this will be the case is even stronger now because it would seem that Finland is going to make a bid for the championship just as big and as elaborate as that of the United States.

The fact that America's only victory in the skating contests was won in the sprint race does not mean that it was a discreditable feat. It does not imply, as some have pointed out, that the Americans are less sturdy, less strong and less game than some of the younger athletic nations.

It does not mean that the American type of athlete is going back. It is clearly apparent that the European athletes are improving by the application of American training and teaching methods.

The Finns, particularly, are quick to see something of a lesson in another man's game. They observe closely. They know their own defects and they know how to apply methods for correction.

In 1928 it is quite possible that the Finn skaters will win the sprint race because they saw how the Americans did it this year. One of the Finn coaches saw how Jewtraw, Moore Donovan and Bialis swung their arms when they took off from the line and he remarked that all the Finn's needed to perfect their game was that start. "In four years we will be able to get away as fast as your boys do and then no one on the ice will be able to stop us."

The Finns are great men for endurance and patience. These two qualities are shown in their runners as well as their skaters. Perhaps the Finns will never have an Olympic 100 meter champion and perhaps the United States will never again have a 5,000 or 10,000 meter champion.

The superiority of the Americans in the sprint races and their inferiority at distance running is due almost entirely to the difference in national temperaments.

The American is nervous, spontaneous and dynamic; the Finn is deliberate, patient and durable.

The American has to do something and get it over with quickly; the Finn is content to start out and run a week if necessary.

Americans are built and trained for speed; the Finns are cut out for endurance.

Local Hockeyists Form S.S. League

At the Y.M.C. A Saturday evening a junior Sunday School Hockey league was formed. The majority of the players interested are Trail Rangers and must be under 16 years of age. A schedule will be drawn up and games will be played between the hours of 6 and 7 in the evening. Up to the present time the Sunday Schools entering teams are as follows:—Christ Church, Bridge Street, two; St. Andrews, Baptist and Tabernacle. Possibly other Sunday Schools will be represented.

BATTERY TEAM AT NAPANEE TO-NIGHT

34th Battery hockey team, winners of the first schedule of the Bay of Quinte league, left this afternoon for Napanee where they meet the Napanee squad in the first game of the new schedule.

Frenchmen Climb From The Bottom

Montreal, Feb. 11.—Canadiens have climbed from the bottom position in the National Hockey League and with seven scheduled games remaining are bunched on even terms with St. Patrick's and Hamilton for second place. The climb from the cellar position was made at the Mount Royal Arena Saturday night at the expense of the St. Pats, who were beaten 5 to 3, while Hamilton was conceding defeat to Ottawa at the Capital.

With the score 4 to 0 in their favor going into the final period of the game, the local players eased up in their efforts and but for this their margin might have been greater, for St. Pats carried the play in the later stages and broke through with three scores, though they never became a danger to Canadiens' chances of victory. John Ross Roach also added his quota towards keeping the goal averages of the Canadiens in check for the clever visiting goalie was at his usual best.

Tigers Lose Close Game 1-0

Ottawa, Feb. 11.—Ottawa Senators sent the Hamilton Tigers down to defeat by a score of one to nothing in a National Hockey League game played here Saturday. The game was one of the nip and tuck variety with little separating the teams at any stage of contest. The result was in doubt till the final gong had sounded and only a careful and stubborn defence kept the aggressive Tiger attack from tieing the count in the final moments.

The game was one of the tamest seen here this season in the professional schedule. Referee Lou Marsh had one of the easiest nights of his career as a referee and was not called upon to inflict a single penalty. While the score was close and the result uncertain till the last, only a few instances occurred where there was any tendency on the part of the players to interfere with one another.

DEMPSEY ROCKS SIEFERT TO SLEEP

Memphis, Tenn., Feb. 11.—Two thousand fight fans witnessed a less than one minute bout here Saturday night, when Dutch Siefert of Etuttgart, Ark., met Jack Dempsey. Forty-five seconds after the gong sounded, Siefert was listening to the referee countin ghim out. The Arkansas, who weighed 225 pounds, went down under a terrific onsalught of rights and lefts to the head. The men fought with four-ounce gloves. The bout was scheduled to go four rounds.

THIRD ROUND OF HOCKEY CONTEST

Third round of Intermediate O.H.A. will start this week, the schedule being as follows:

Collingwood won from Gravenhurst at Gravenhurst, 6 to 2. Return game in Collingwood, Tuesday, Feb. 12.

Monday, Feb. 11—Renton at Brantford.

Wednesday, Feb. 13.—Brantford at Renton.

Monday, Feb. 11.—Peterboro at Oshawa.

Wednesday, Feb. 13.—Oshawa at Peterboro.

Friday, Feb. 15—Sarnia at New Hamburg.

Monday, Feb. 18.—New Hamburg at Sarnia.

Markham, North Toronto, Port Colborne, Niagara Falls, Osgoode Hall, Milton, N.O.H.A., T.A.H.A.

$1.65 & $2.00 yd.

HELPING THE SICK THROUGH THE WINTER

Winter weather is serious weather, especially to the aged, ailing or the unfit. An undertoned system needs more than the ordinary stimulation to make life bearable when the thermometer hovers around zero.

Roman Meal is especially valuable for invalids, little children, and old people, as an item of diet for cold winter months. It is acid blood that causes that "all in" feeling. Acid blood is caused by acid foods. Acid foods are white flour, refined cereals, fats, meats and sweets.

Roman Meal is the only alkaline cereal—400 parts in each 1,000 parts "Excess Alkali"—alkaline enough to correct the acids of acid foods and keep the blood alkaline in cold weather.

Roman Meal may be made into porridge, pancakes, puddings and cakes. Roman Meal is rich in bone and tooth forming elements which are lacking in white bread and refined cereals. Since a child is only "As good as its bones," Roman Meal becomes the best of all foods for growing children. A child fed Roman Meal throughout its growing period, will be larger, better developed and have superior teeth; whether the Roman Meal is eaten as porridge or as baked products.

Cooked in any form, Roman Meal prevents indigestion, positively relieves constipation. At grocers.

"How far do they trace their ancestry?"

"The grandfather, a City Bank Director, was traced as far as China; there all traces were lost."

Alkali in Shampoos Bad for Washing Hair

Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconnut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

A NOTE NOT ALWAYS BINDING

A suit over a promissory note made by Mike V. Whalen and James Simpson in favor of W. G. Burd for $240 the amount of goods Whalen bought at a farm sale in the Township of Hungerford in the Spring of 1920, occupied the Court nearly all day Friday, and at the close of the case, His Honor Judge Deroche dismissed the action with costs.

Whalen is not now residing in Ontario and Burd sued Simpson alone as his name was on the note as a maker.

W. C. Mikel, acting for the defendant Simpson, raised the objection that Simpson, though he signed on the face of the note under Whalen's name, nevertheless was really only an endorser to the knowledge of the plaintiff, as he did not buy any of the goods, and as the note was not protested, defendant was not liable. Mr. Mikel also contended that in any event, defendant was only a surety, and as plaintiff had given time to the principal debtor, the defendant was discharged. James M. Simpson, Napanee, for plaintiff and W. C. Mikel, K. C. for defendant.

Jack—"I say! How long did it take you to learn to drive?"

Betty—"Only four cars."

Washington, Feb. 9.— President Coolidge, responding today to representatives of agricultural members of the northwestern farm and bank conference, declared he hoped justification for an increase in the tariff on wheat would result from the present investigation of the wheat duty by the U. S. Tariff Commission.

LOCAL COUNCIL PASSES RESOLUTION ENDORSING ST. LAWRENCE PROJECT

Action of Delegation Representing Over 350 Municipalities in Ontario Requesting Dominion Government to Use Every Effort to Enable Development of Electric Energy Heatedly Endorsed

IMMEDIATE NEED

Municipal and Industrial Requirements of Province Demand that Government of Canada Approve Plans of Hydro Electric Power Commission of Ontario For Non-Delaying of Work

At the City Council meeting last night the following resolution in regard to the Hydro Electric Power Commission developing energy on the St. Lawrence was adopted:—

Ald. McCreary moved, seconded by Ald. Foster, that the Municipal Council of Belleville desires to endorse the action of the delegation of January 11th, 1924, representing over 350 municipalities in requesting the Premier of Canada and his Government to use every effort to enable the Hydro Electric Power Commission to develop electric energy on the St. Lawrence River on behalf of the Municipalities of the Province of Ontario.

necessity of making pprovision for an adequate supply of power to meet the municipal and industrial requirements of this Provincee, we respectfully request that the Government of Hydro Electric Power Commission of Ontario for the development of the St. Lawrence River and the undertaking of the first stage in such development at Morrisburg and that immediate action be taken so that the commencement of this work may not be delayed."

The session of the City Council last business being transacted in an expeditious manner. Two by-laws creating a power and labor committee, were passed through their various stages and numbered. Chairmen will be appointed later. Several recommendations passed at the civic committee meeting were endorsed.

Want Building

The Baby Shoe Company wrote the Council relative to the procuring of the building on Pinnacle street known as the Pinnacle street school building, for their use. The request was referred to the Industrial committee.

Mr. E. T. Chery asked permission to have a vacant lot on Everett street filled in with ashes. The request was granted provided Mr. Cherry assumes all responsibilities of any trouble or complaints arising from same.

Members present were:—Mayor Mikel, Aldermen E. La Roche, S. H. Treverton, J. E. R. Graham, W. Patterson, R. Gardiner, G. F. Foster, A. H. Ketcheson, H. W. Greenleaf, A. Robinson, D. N. Ketcheson.

DEATH OF SCHOOL TEACHER

Miss Laura Blackburn who was a teacher in the Prince of Wales School Thurlow Township, passed away this afternoon. An obituary notice will appear to-morrow.

DOES HOLE IN ONE

(United Press Despatch)

London, Feb. 12.—J. S. Martin of the Indian Hill Golf Club, near Chicago, a one-armed player, did the seventh hole of the difficult Stoker Boges course in one, during play here yesterday.

THE WEATHER

Northerly winds and colder. Wednesday fair, stationary or higher temperature.

ANNUAL MEETING

Of the Belleville Poultry Association will be held in R. H. Ketcheson's office, Wednesday evening, Feb. 13 at 8 p.m. sharp. A. S. Large, sec., Col. E. D. O'Flynn, Pres. F11-2td

BRITAIN HOLDS HUGE SUM IN RUSSIAN DEBTS

Pre-War Investments of British People In Securities Around $200,000,000

OTHER ENTERPRISES

War Debt of Russia to British Government Aggregate $3,350,000,000

London, Feb. 12.—The pre-war investments of the British people in securities issued by the Russian Government or guaranteed by the Russian Government approximated in par value $200,000,000 according to figures received by the Bankers Trust Company from its British Information Service. The British Government, in its note extending recognition to the Soviet Government, said:

"Technically unconnected with recognition, but clearly of utmost importance, are the problems of settlement of the existing claims by the government and nationals of one party against the other and the restoration of Russia's credit."

In addition to the $200,000,000 of pre-war investments, the British people, according to the Soviet's own figures, have investments in Russian commercial enterprises amounting to $261,000,000. This latter capital was invested largely in he naptha industry, in the production of copper, in the making of thread and in the manufacture of tobacco. The war debt of the Russian Government to the British Government aggregates some $3,350,000,000.

MacDonald Announces Reconstruction Idea

(United Press Desppatch)

London, Feb. 12.—Ramsay MacDonald announced in the House of Commons today that one of the first important proposals of the new Labor Government would be a world conference on reconstruction.

In response to a question, the Premier said that the details of a memorial appealing for such a conference were now being considered by the Cabinet and "I am glad to report that the prospects are bright," he added.

Y.M.C.A. SECRETARY SPEAKS ON THRIFT

At Queen Mary School yesterday afternoon Mr. R. C. Sidenius, Secretary of the Y.M.C.A. gave an address to the junior pupils of the school. The subject was thrift and the speaker was most interesting and practical in his remarks.

He showed the scholars that if they spent their money on candies and some other things not altogether useful they would never be able to procure those things which were more useful and lasting.

The points made by Mr. Sidenius were well illustrated by an object lesson. The pupils appeared to be much interested in the talk given them.

Mr. J. O. Herity, Secretary of the Chamber of Commerce occupied a seat on the platform.

MUST MEET DEMANDS OR FACE MINE STRIKE

(United Press Despatch)

Wilkesbarre, Pa., Feb. 12.—An ultimatum was delivered to officers of the Lehigh and Wilkesbarre Coal Company today that unless they adjusted all existing grievances by Monday night all of the 10,000 miners at their collieries would strike.

The strike order was decided on at a meeting of the Union General Grievance Committee here last night.

Too Poor For Burial

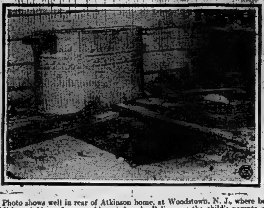

Photo shows well in rear of Atkinson home, at Woodstown, N. J., where body of Miriam Atkinson, 6 years old, was found. Police say the child's parents said they were too poor to bury the body when the child died.

Insurance Great Aid In Giving Stability To Business Credits

Members of Local Kiwanis Club Are Given Able Address On How Great a Factor Life Underwriting Is To Dominion—Luncheon Is Attended by Many

Members of the local Kiwanis Club, at their weekly luncheon held at the New Queens Hotel, were fortunate in having for their principal speaker Mr. H. W. Manning, of the North American Underwriters Association. Mr. Manning from Toronto, who holds a high position in insurance circles, was introduced in an able manner by Mr. H. F. Ketcheson.

Taking as his subject the adaptation of life insurance to business needs, Mr. Manning divided the main topic into three separate parts; stock, shock, and credit.

Shock includes the small merchant; the corner grocer and other businesses in which the integrity of the owner is foundation on which the business is built. The loss by death of the owner or head of a small business is a severe blow in two ways; a loss being incurred in the sudden removal of a guiding hand, and in a forced sale should one be deemed necessary. Life insurance, stated the speaker, guarantees against this loss.

Stock takes in the closed corporations in which a small body of men control the major interest. The death of one of the principal stockholders and the resultant throwing on the market of his interest sometimes means the disruption of a well organized business. Insurance in this case is a means of covering loss and keeping control in the hands his business associates.

Credit, as stated by Mr. Manning, includes everyone. The man wishing to obtain credit at banking institutions is first queried as to his ability to pay and determination to pay. The holder of a Life policy shows these characteristics, and moreover, guarantees against loss in case of death. Letters were read by the speaker from officials of leading banking institutions in which they asserted life insurance was one of the greatest aids in stabilising business.

Mr. Dick Ponton was winner of the attendance prize today, which was enclosed in a reminiscent manner. With Kiwanian Wotten at the piano, the songs were much enjoyed by all present.

OBREGON SEES END OF REVOLT

Mexican Chief Declares "Backbone of Revolution Broken" In Sweeping Victory

Mexico City. (By Alfred G. B. Hart, British United Press Staff Correspondent) Feb. 12— "We broke the backbone of revolution at Ocotlan," General Obregon wired the British United Press here today, from the front.

"The rebels lost 3,000 in casualties in the eleven hours and have already been forced to evacuate Guadalajara, in addition to Vera Cruz."

With a graphic description of Ocotlan battle, Obregon designated it as a "strenuous combat unprecedented in my experience. It stands alone in Mexican military history."

Describing the battle itself, Obregon wired. "The enemy had built modern entrenchments, carefully camouflaged and it was only with great difficulty that our airplane scouts ferreted out their position. In spite of this after a heavy bombardment, our loyal Indian troops for whom I have the greatest praise, crossed the Lerma River under a terrific fire from machine guns and rifles. For eleven hours the battle raged. The enemy lost 3,000 casualties to perhaps 350 on our side, although it is impossible yet to make accurate estimates.

"The final splitting up of rebel activity wil come not later than a few days more. This rebellion will end revolution in Mexico."

TOPPING CASE TO BE APPEALED

Contention Made That Presiding Judge Erred On Five Counts

Ottawa, Feb. 12.—The case of Clarence Topping who was found guilty of murder at the Middlesex Assizes in London last week and on Saturday sentenced to hang on April 10, will be appealed according to the statement of D. A. J. Swanson, who conducted the prisoner's defence. The grounds on which the appeal will be taken are:

First—That the Judge erred in refusing to hear evidence as to the general reputation of the prisoner.

Second—That the Judge erred when he prejudiced the jury in attacking Dr. J. P. Wilson, jail physician, of London, who was an important defence witness.

Third—That the Judge erred when he stated that Dr. Gordon Howland, eminent psychiatrist in his testimony as a defence witness had increased Topping's mental age without offering an explanation.

Fourth—That the Judge erred in refusing to direct an issue to be charged by the same jury with regard to Topping's ability to conduct his defence.

Fifth—That the Judge erred in his presentation of material facts.

Mr. Swanson returned from London on Saturday evening.

ACCEPT GERMAN BID DESPITE BRITISH LOAN

(United Press Despatch)

London, Feb. 2.—There is considerable feeling in industrial circles because the Indian State Railways, with a part of the proceeds of a British loan, have ordered locomotives from a German firm whose bid was 23 per cent. lower than ten English firms.

It is announced that the Indian High Commissioner has instructed that future state purchases be made the lowest market consistent with

DEPRESSION OF FRANC NOW CRIMINAL OFFENCE

(United Press Despatch)

Paris, Feb. 12.—The Chamber of Deputies has adopted a bill already passed by the Senate, providing three years imprisonment with heavy fine to persons trying to depress the Franc. Foreigners so operating are subject to expulsion from France.

Austria Must Have Papers Before Heiress Wedding Valid

Vienna, Feb. 12. (British United Press).—It is necessary to await the arrival of documents relating to the marriage of Count Ludwig Salm Von Hoogstraat to Miss Millicent Rogers from the United States before the marriage can be considered valid in Austria, a statement issued by the Counts Attorney says the marriage of the Austrian adventurer nobleman to the American heirss to the $40 million fortune of H. H. Rogers has aroused widespread interest among friends of the Count here and many stories which necessitates the statement from his attorney.

The statement denied reports that the Count obtained authorization for his marriage to Miss Rogers illegally, departing the ceremony from the Austrian Provincial authorities. Documents must be registered in Austria, however, before the marriage can be considered valid.

LABOR HEAD ADDRESSES BRITISH HOUSE ON GOVERNMENT POLICIES FOR THE FIRST TIME IN HISTORY

UNIQUE GIFTS RECEIVED BY OTTAWA BRIDE

Happy Couple Recipients of Everything From Kipling's Works to Leather Clock

LOCAL INTEREST

Former Belleville Residents Among Donors—Peterboro and Kingston are Represented

It required two columns and a half of space in the Ottawa Journal yesterday to carry the names of the wedding gifts and donars received by Prince Erick of Denmark, and Her Highness Princess Erik, Countess of Rosenberg, formerly Miss Lois Frances Booth, of Ottawa, who were married at the Capital yesterday afternoon.

The happy couple received almost everything imaginable from volumes of Rudyard Kipling's works to a leather clock, with a number of cheques and many diamonds numbered among the list. Opera glasses, a cock tail shaker from a Calgary friend, three cut glass whiskey bottles in antique case, and an Egyptian tray were other novelty gifts.

One gift is listed as being from Peterboro.

The foremost gift in the list is the gift from Their Excellencies the Governor General and the Lady Byng of Vimy, which was a red letter set of Rudyard Kipling consisting of twenty eigh volumes. The gift from Mr. J. Fred Booth, father of the bride is a cheque and diamond bracelet and from the bride's mother, a Sheffield silver tea service and tray. A unique gift from Mr. Nesbitt Kirchhoffer is a Crown Derby cup, saucer and spoon made from gold to celebrate the coronation of King Edward VII.

Unique gifts were received from England and as far west as Vancouver. Among the unusual gifts are ostrich plumes, cigarette stands, whiskey glasses, chinese ornament, candlesticks, decanters, silver grape scissors and a Japanese picture.

Mr. and Mrs. W. B. Northrup, of Ottawa, and formerly of Belleville, gave cut glass dishes. Mr. Northrup is Clerk of the House at the Capital.

Mrs. H. Cameron and Harry Tamplett, of Peterboro, gave a high vase.

Major F. J. Alderson and Mrs. Alderson, of Kingston, gave a silver frame.

Then there were four other outstanding gifts, a pair of knitted bed sox, brass toast fork, antique brass coal scuttle, and an old rose bridge set.

MORNING FIRE CAUSES ALARM

Chimney Fire Damages rear Half of George Belcher's Home

Fire which is believed to have started from a chimney blaze, caused the firemen of both No. 1 and No. 2 stations considerable alarm this morning at 11 o'clock necessitating their presence at the scene of trouble for almost one hour before they had assured themselves that the house was not further menaced by smoldering portions.

The residence which is situated at corner Moira and St. Charles streets is owned by George Belcher, who lives there. The fire caused damage as well as the smoke and water, which proved disastrous to the furniture and interior of the rear part of the house where the fire originated.

The front part of the residence is not badly damaged and the greatest part of the furniture in this part of the house was removed by neighbors and firemen. The back part of the roof, the upstairs and kitchen are badly damaged.

Three Brothers Die In Crash

Boston, Feb. 12.—A special train carrying Henry Ford, struck four hunters walking on the tracks, killing three brothers, Charles, Francis and Robert Manning, and a fourth man, Ralph Reed, was seriously injured.

FRAUD MUST BE STATED TO HOLD CASE VALIDITY

Justice Logie Holds Particulars Must be Given in Stewart-Bundock Case

TIME EXTENDED

Case Follows Trouble in Stirling last Fall—Youths Fined in Belleville

Hon. Mr. Justice Logie on Saturday last at Osgoode Hall, Toronto, gave judgment on the appeal of the defendant in the case of Stewart v. Bundock, holding that as the case seemed to be grounded wholly on undue influence, if any fraud, misrepresentation or deceit is relied on, particulars must be given, otherwise the charges of fraud, misrepresentation and deceit as distinguished from undue influence in paragraph 3 to 8 of the Statement of Claim must be struck out.

Cost of the motion for particulars and of the appeal to be costs to the defendant in any event. Time for defence to be extended until delivery of the particulars or amendment of the statement of claim by striking out the charges of fraud, misrepresentation and deceit.

The case followed the trouble in the Apostolic Church at Stirling last Fall when Rev. Elijah Bundock was roughly handled by some Stirling youths, who were later fined in the Belleville Police Court. Mrs. Stewart who had been one of the Church members, brought this action to set aside Deeds given by her to Rev. Elijah Bundock, also for board and damages. The defendant demanded particulars of the charges in the Statement of Claim which were refused by the Local Judge of Hastings, and on the above appeal the particulars were ordered or in the alternative the claim to be amended.

W. N. Ponton K. C. for plaintiff; W. C. Mikel K. C., for defendant.

MAKE 2 ARRESTS IN ORLAND CASE

Provincial Police Take Action in Revolting Case

Two arrests have been made in connection with a case that occurred at Orland, near Brighton, on Monday, February 4th, when Mary O'Brien aged 17 years gave birth to a male child under circumstances which it is alleged were revolting. The body was subsequently buried in a potters field but was exhumed and an inquest ordered when the circumstances of the affair became known to Provincial Officers who made the investigation. The jury after viewing the body had the proceedings adjourned until the 21st inst. when it is expected the mother will be in a position to give evidence in the case.

Provincial Constable Cousens of Cobourg, who investigated the case visited the hovel where the child was born and stated it was the most sorbid human habitation he had ever seen. When the physician who had been called to attend the O'Brien girl arrived at the shack he found her in a most deplorable condition, snow drifting in upon her.

Rev. Dr. J. T. Daly, superintendent of the Children's Aid Society at Port Hope also made an official visit to the scene and made arrangement for the young mother to be moved to more desirable quarters as soon as she is able to be removed.

Premier Ramsay MacDonald Meets House of Commons—Opening New Era In History of British Politics

NOT NEW SESSION

Announces Policies of Labor in Regard to French Concessions in Palatinate, Settlement of Rhineland Rail Controversy and cordial Relationship With France

London, Feb. 12.—Premier Ramsay MacDonald to-day met for the first time in history, the House of Commons as the head of a Labor Government. In his speech from the Treasury Bench he announced the policies of Labor in regard to the French concessions concerning the Palatinate, the settlement of the Rhineland conflict over railroads, and announced his determination to bring about the most cordial relations between Britain and France on all problems relating to European troubles.

While the meeting of the House to-day was not the beginning of the new session, the speech of the Premier opened a new era in British politics.

London, Feb. 12.—Col. L. C. Amery former First Lord of the Admiralty has written to ex-Premier Baldwin announcing his intention of continuing to urge the need of fairer treatment for British industries, regardless of the limitations imposed upon the official program of the Conservative party, and adding, that unless "the bar to Empire preference and Empire co-operation is overcome within a reasonable time the Dominions will decide we are incurable and will seek economic and ultimately, political partnership elsewhere."

Col. Amery is credited with being partly responsible for the Conservative Government going to the country recently on a policy of protection.

London Feb. 12.—Though protection is dropped by the Conservative party, imperial preference is to be retained as a plank in its platform. That had already been made clear on Saturday, when Lord Derby, at a meeting of the Lancashire Conservatives which condemned protection, admitted he "would go a little further in the direction of Imperial preference and strengthening the application of the Safeguarding of Industries Act."

Sir Robert Horne, on his return from Canada on Saturday told interviewers that "many people on both sides of politics expressed to him the point of view that if action was taken in Britain now to indicate disapproval of the principle of preference already established, and which the Imperial Conference was prepared to extend, it would have an awkward and embarrassing reaction in relation to the development of Imperial policy."

Vancouver, B. C. Feb. 12.—More than 8,750,000 gross tons of shipping entered the port of Vancouver during the year 1923.

Thief, In Trunk Robbed Travellers of Own Baggage

By GUS M. OEHM

(United Press Staff Correspondent)

Berlin, Feb. 12. (United Press).—Erich Wegener, Berlin's traveling thief, has been arrested and his apartment house trunk—in which he traveled as "baggage" from place to place—has been confiscated.

Wegener's trunk was built especially for human baggage. It is large enough so that a man can place himself inside without great discomfort. It is so arranged that the occupant can shift his position in the event the trunk is turned upside down or placed on end. It has room for food and drink.

Wegener, with wife and a man accomplice, named Erich Schlonies, would start out on a definite journey inside his special trunk. He always arranged to get himself placed in a car where much valuable baggage was being transported. He usually had his trunk arrive just before the train started, so that it would be piled on top.

From here he could, when opportunity offered, open his trunk and gather together articles of value from the car, which he took back into the trunk with him. His usual method, however, was to change the labels on the trunks so that they were delivered to him or his accomplice, at a given address.

The trunk recently arrived at [illegible] and, when unloaded, aroused suspicion. Wegener was able to free himself, fled through a train and over a wall, but was captured. His accomplice was waiting in the station, but did not come to Wegener's aid. Instead he hurried back to Berlin where he warned Wegener's wife. She was not at home when police called to arrest her. Schlonies has also evaded capture.

Meantime Wegener is in jail. His trunk—Exhibit Number One—is being closely guarded as the star witness against its owner.

Let there be harmony in things essential—liberty in things not essential—charity in all.

THE FARMERS' PULPWOOD

Despite all that has been written on the subject of pulpwood markets and prices—American interests or their representatives in Canada still persist in trying to draw the proverbial red herring across their trail by way of pretending to champion the rights of the farmer and settler by continually referring to conditions governing pulpwood prices in the past which will have no bearing whatever on the future.

Now that the Canadian pulp and paper manufacturers fully realize how small the remaining wood supply in Canada really is, they are perfectly willing to pay as much for pulpwood as the American mills, thus conserving their own limits and putting off the day when they will be forced to dismantle their mills for lack of a supply of raw material.

The very argument that these American representatives use, namely, that the farmer is in such desperate straits that he would starve but for the sale of a small amount of pulpwood annually, is the strongest possible argument for an embargo on raw materials.

It is conceded by everyone, and substantiated by applications already received for location for some twenty new pulp mills in Canada, that an embargo would bring these new industries into the country, developing home markets for the farmer's wood and farm produce as well as furnishing employment to his family; while if the exportation of pulpwood in its raw state is allowed to continue, (according to the testimony of American interests) these settlers will be forced to abandon their lands when their pulpwood is gone and probably leave the country. The fact must not be overlooked that it only takes six or seven months to build a pulp mill, consequently there would be no cessation in the demand for the farmer's wood, and the only difference would be that he would sell his wood for home industries with all the resultant benefits that would thereby accrue instead of disposing of his raw material to develop industries, give employment to and enrich the people of another nation.

With regard to prices to be paid for this wood, the influx of these new mills would in itself produce sufficient competition with the mills already established to assure the farmer a fair price for his wood; or, if necessary, the farmers could adopt co-operative selling methods similar to the Grain Growers' Voluntary pool; or the price could be controlled by the government, as recently suggested by Sir Lomer Gouin. With all of these safeguards the farmer need have no fear for pulpwood prices for the future.

The present temporary surplus of pulpwood has been brought about through the effort of the paper companies to salvage as much as possible of the bud worm and fire-killed wood. This salvaging is about over, and when cutting begins in our small remaining supply of green timber a famine in pulpwood will very soon develop.

PLAN A GARDEN

Paying for the family dinner becomes more and more of a problem in this era of high prices. Together with high prices is the constant problem of varying the diet. Many families have a ready means of reducing living expenses by utilizing backyard space. Besides reducing the price of food in dollars and cents the backyard offers a means of providing variety and quality that cannot be secured readily by depending upon the limited stock offered by the stores.

Almost any kind of ground that has sunlight for the greater part of the day will grow vegetables of some kind, provided only that it is not permeated with gas or composed of tin cans and ashes. No one who has as much as five feet square of available ground need go without some fresh homegrown vegetables.

The only price that doesn't go up is the price of seeds. They are always the same and from five to ten cents will provide seed for the smallest plot. For those who are more fortunate and have a lot 50 by 100 or 150 the problem is easier. They need not be without vegetables for the entire summer of a quality that money cannot buy. By the first of May they may have radishes, young onions and spinach.

And so on throughout the season, following with green peas, sweet as sugar, that cannot be bought, tender and stringless string beans, young carrots, young turnips, tomatoes. Lima beans, always an expensive luxury, and last and most gratifying of all the vegetables, sweet corn that is really sweet.

THE OPTIMIST

The fields were bleak and sodden
Not a wing
Or note enlivened the depressing wood.
A soiled and sullen, stubborn snowdrift stood
Beside the roadway. Winds came muttering
Of storm to be, and brought the chilly sting
Of icebergs in their breath. Stalled cattle mooed
Forth plaintive pleadings for the earth's green food,
No gleam, no hint of hope in anything.

The sky was blank and ashen, like the face
Of some poor wretch who drains life's cup too fast,
Yet swaying, to and fro, as if to fling
About chilled nature its little arms of grace,
Smiling with promise in the wintry blast,
The optimistic willow spoke of spring.
—Ella Wheeler Wilcox.

A young fellow, the son of quite a wealthy man, was engaged in some clerical capacity by a friend of his father in order to try and make something of him. He was, however, shiftless to the last degree, and nothing he said could be relied upon.

One day his employer called him into his private office and gave him a sound lecture. He dwelt chiefly on his prevarication, and wound up by saying: "You know, James, that you are always lying."

"Sir," said James, "I would have you remember that I am a gentleman."

"There you go again," said the employer.

TO EXPECTANT MOTHERS

A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children were born and afterwards, and find it a great help. Before my first baby was born I had shortness of breath and ringing in my ears. I felt as if I would never pull through. One day a friend of my husband told him what the Vegetable Compound had done for his wife and advised him to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now, and I always find the Vegetable Compound a great help as it seems to make confinement easier. I recommend it to my friends."—Mrs. FRED H. SMITH, John St., Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectually as nature intended. Thousands of women testify to this fact.

PRESS OPINIONS

PROFITEERING APPETITES
(London Express)

The trouble is that post-war conditions oppress the land in two ways. The farmer and the laborer, on the one side, and the consumer on the other, have to suffer for the vastly increased wages bill in the transport and distributive industries.

The other factor is the profiteering appetite which the war stimulated in certain classes of middlemen. The standard of life in these classes has undoubtedly gone up to a marked degree, and quite naturally every individual strives to maintain it, while at the same time, the war-born passion for easy profits is not less strong than the passion for high profit.

In other words, the idea to get as much out of the community as possible, while rendering it a minimum of service.

DANGEROUSLY INDEFINITE
(New York World)

A right to search ships at a distance from shore for contraband goods tho innocuous enough in times of general good feeling, may easily create international complications in times of strained courtesy.

There was for example, a time when American ships left the docks at Hoboken with cargoes of arms for Irish revolutionists. If the United States may search for liquor, why may not other sovereign powers search during a crisis, for arms?

An hour's steaming from shore is an elastic range, liable to convenient redefinition. Once begin to encroach on the freedom of the seas and the wide oceans begin to split themselves up into territorial waters with dangerously indefinite boundaries.

ADVANTAGES OF SUNSHINE
(London Telegraph)

Long before the dawn of history the sun was worshipped as the bringer of all good things to mankind, and the farther the investigation of light healing is carried, the more it is realized how much of scientific truth had been grasped unconsciously by the devotees of that form of paganism.

The human race in short, has always been far wiser than it knew in loving and seeking the sunlight. The open air, the ordinary diffused light of day, are excellent and health-giving, but with the falling of the sun's direct rays upon mankind a much more potent agency for physical well being is set to work, the manysided importance of which, for medical science, is only now beginning to be understood.

GLOOMY PROPHET
(Hamilton Herald)

Professor Raymond, a Budapest seer, who happened to hit it right a year or so back by predicting the occupation of the Ruhr and the earthquake in Japan, the death of President Harding and a few other things that did happen, comes forward again with a dose of gloom.

Among his prophecies is that Britain will wage war with a French-Italian. Russian-German combination and lose all her colonies. Perhaps the professor doesn't understand that the "colonies" are self-governing dominions.

At any rate, he seems to think that to be a prophet one must deal exclusively in gloom.

Music & Drama

"THE ETERNAL 3" NOW AT GRIFFIN'S

Marshal Neilan has surpassed his own previous pictures—and they have been big ones—in his screen version of his own story "The Eternal Three," produced for Goldwyn. This picture, a glorification of the self-sacrificing work of the physician and surgeon, was shown last night at the Griffin Theatre and held the entire audience spellbound.

Dr. Walters, the surgeon hero of the story, marries a young wife who becomes fascinated by the gay charm of the husband's graceless foster son, Leonard. The boy suffers of serious brain injury through his mad haste to meet the surgeon's wife and elope with her. Only a delicate operation can save him. Dr. Wolters has learned the state of affairs between his wife and Leonard and the question that confronts him is, Shall he live up to his oath as a member of the surgical profession and save Leonord's life or let his own private feelings dominate him and give the knife an undetected twist?

Neilan has made a thrilling story around this problem and it is superbly acted by Hobart Bosworth, Claire Windsor and Raymond Griffith as the members of the eternal triangle, and by Alec Francis, Bessie Love, Tom Gallery, George Cooper, William Norris, Helen Lynch, Victory Bateman, Lillion Leighton, Peaches Jackson and the other members of the cast. This is a Neilan picture that will make you thrill and think and tingle. Don't overlook it, is the advice of the present reviewer.

HELEN CHADWICK IN "THE GLORIOUS FOOL"

"The Glorious Fool," the Goldwyn picture now playing at the Regent Theatre, lives up to all the good things we have heard about it. Mrs. Mary Roberts Rinehart, the author of the story, has an uncanny sense of comedy values on the screen without ever becoming commonplace. For her latest Goldwyn picture, she has chosen the scene of her first professional work, a large city hospital for the background.

Here we find a pretty little probationer—Mrs. Rinehart may have had herself in mind—whose sympathy for her patient is so deep that when, in a delirium, he begs her to marry him so that his relatives who are waiting for him to die in order to inherit his wealth will be disappointed, she painfully consents. But the patient does not pass away. He takes a quick turn for the better and the poor nurse finds herself in quandary.

However, the patient is delighted. Love never stops at means. And in his case, the man knows his own mind and sets out to help his nurse make up hers. How he does it, and at the same time helps his wife-nurse bring about the reconciliation of another patient with her husband, is delightfully told in "The Glorious Fool."

There is no reason for disclosing further details of the story. Those who see "The Glorious Fool" will thank us for our reticence and agree that it is excellent comedy. We need more of this variety.

Helene Chadwick makes a pretty, appealing and capable nurse and Richard Dix an obstreperous but amusing and convincing patient. The entire cast is an excellent one.

GRIFFINS OPERA HOUSE TO HAVE WONDER PICTURE

Emerson Hough's great story of the winning of the west "The Covered Wagon," is booked for an engagement of three days at the Griffin Theatre commencing next Monday, matinee, Feb. 18, where it will be presented exactly as it has been shown in New York, Chicago, Boston and Los Angeles, the past season and is still running along to the greatest success ever known by a production of this kind.

"The Covered Wagon" tells the story of the opening of the Oregon trail and how the wagon train which started out to open up the vast west in 1848 divided in the desert when word of the gold discovery in California reached them and some treked south to search the placer mines for precious nuggets while others with that great spirit which founded the west trudged patiently and bravely northwestward to Oregon and with plow and shovel planted the first seeds which have flowered into the great treasures undreamed of in their aggregate wealth as the steady stream of produce continues to flow from those fertile fields and valleys.

In this hegira of two thousand miles through unexplored plains and deserts naturally hardships and adventures were encountered and Indian fights and massacres fill their historic page i the development of the story with its picturesque scouts and the rough hewn characters who peopled these trains in the days when men's souls were tried to the last reach of human courage and endurance.

Mr. Hough has revived a tradition in his historical background to his story but he has gone further and made the people of that period in whose debt generations upon generations to come will ever remain, come out upon the plains again and live their drama over to inspire us with patriotic appreciation of what their living deeds meant to all of us. How you do thrill and how intensely absorbed you become in the reaction to this achievement cannot be described. It has to be seen to be fully appreciated and even after you have followed its development for two hours the spell of the thing takes hold of you and you write more of your own drama into it hours after you have left the theatre.

James Cruze who made the picturization of the story for Famous Players-Lasky has caught the spirit of its greatness. He makes his protagonist that odd mode of conveyance, the "prairie schooner" and the people who live in these moveable homes the great accomplishment.

The cast is a remarkable one and includes J. Warren Kerrigan, Lois Wilson, Alan Hale, Charles Ogle, Ethel Wales, Earnest Torrance, Tully Marshall, Johnnie Fox, Indians, Plainsmen and five hundred covered wagons. An orchestra of selected musicians carried by Covered Wagon Company play a special score arranged by Hugo Reisenfeld.

The Letter Box

Hamilton, Ont., Feb. 9, 1924

To the Editor,
Dear Sir,—

Indications now point to the C. N. Railway making a $7.00 rate on coal from Alberta to Ontario as being about cost.

At present this rate might encourage considerable business, but U.S. coal men will not give up the Canadian market so easy, as already indicated, they will reduce their price to tempt buyers to waive loyalty to Canadian products, in the interest of economy.

After several years continuous study, have concluded that a $4.00 rate is necessary to insure a continuous market and permanent trade.

Therefore I suggest, in order to assure the C. N. R. of at least cost for transportation, the Province of Ontario grant a subsidy, of $1.00 per ton as insurance against fuel famine, the Province of Alberta $1.00 to insure a permanent market, and the Coal owners and miners $1.00 to insure a continuous full season's work, saving the subsidy in actual cost, said subsidies to continue until shown by actual experiment with train load lots during the slack seasons, that $4.00 will more than cover actual cost.

This would supply our dealers at $8.50 F.O.B. here, and the consumer at a reasonable rate.

The U.S. Mine Owners and Miners have shown their willingness to let Ontario perish, to serve their own profitable ends. Now that Canada has undertaken to deal with the matter, let Canada show that we will never be at their mercy again, that in future we will be self-reliant, and distribute our $100,000,000 fuel expenditure entirely in our own Country.

With transportation organized to the Southern Boundry and Fort William, we can help the U.S. out in coal as well as wheat for Montana, Dakota, Wisconsin, Michigan, etc., in fact all upper lake points could be supplied, as well as a combination rail and water route via Fort William down to all this part of Ontario.

With 20,000,000 bushels of wheat going via Vancouver this season and probably 100,000,000 bushel next year, it would require 2,000,000 tons of coal to come east, to make up this difference alone.

Volume of business during slack seasons will solve the rate, as demonstrated by Penny Postage, 2c. Street railway fare in Glasgow, night telegram rate, night letter rate, day letter rate, parcel post, and many other most practical and profitable examples.

If the people approve, we should act immediately, and have it dealt with at the approaching Parliamentary sessions.

Yours truly,
W. O. SEALEY,
61 Hunter St., W.

$35,000,000 IN GEMS WILL PAY FOR RAILROADS

Persian Government to Sell Gorgeous Collection Belonging to Young Shah

Includes Noted Stones

Chief Among these is Ocean of Light, Famous Diamond Weighing 186 Carats

London, Feb. 11.—Thirty-five million dollars worth of the most gorgeously beautiful gems in the world are shortly to be sold by the Persian government in order to raise money for the construction of railways.

The glittering regalia of jewels which are thus to be flung into the world market are the precious crown jewels belonging to the young shah of Persia, who is still in his early twenties, and who, despite the sale of these gems, is reputed to be fabulously wealthy.

The Persian crown jewels were inventoried some years ago, when Mohammed Ali Shah was about to go into exile in the Crmea. It was then that their value was etsimated at the enormous figure of $35,000,000. And there is not the slightest doubt that in the intervening years it has increased even beyond this figure.

Include Ocean of Light

They include many of the world's most famous stones, and chief among these glittering emblems of wealth and power is the famous diamond known as the Dar-la-Noor, which translated means ocean of light.

The Ocean of Light weight 186 carats and is a veritable pool of the most brilliant flame, which scintillates in all directions from its perfectly cut facets.

According to legend it is the missing Great Mogul, and tradition says that it was set with he famous Koh-i-Noor in the eye of the sacred peacock. It adorns the aigrette in one of the royal kolahs and was worn by the shah at his coronation. Preceded by a number of his ministers, the shah made his way to the wonderful peacock throne in the palace of Tehern, where he assumed the imperial crown. A short oration followed, after which he donned the kolah containing the Ocean of Light diamond.

Golden Globe

The Sea of Glory is yet another gem of priceless worth amongst those set in the Parisian crown, whilst another is called the Mountain of Light.

Then he possesses a pair of diamond studded epaulettes which are only worn on very important state occasions in connecton with military affairs. In addition he sometimes wears special lambskin caps which are tastefully ornamented with aigrettes of matchless diamonds.

Only the famous Hapsburg jewels, perhaps, exceed in value those which belong to this youthful ruler over Persia.

A golden globe, twenty inches in diameter, set with 50,000 colored precious stones representing the various countries of the world, is one of the most remarkable and valuable of all this galaxy of jewels. This globe alone is valued at $5,000,000.

THERE IS NO UNEXPECTED

You cant kiss a girl unexpectedly. The best you can do is to kiss her sooner than she thought you would.

REASON ENOUGH

Bananas grow wild in many parts of the world, it is announced. Who can blame them?

BRITISH INCOME TAX REFUNDS

The Editor,
"Intelligencer," Belleville, Canada.
Dear Sir—

A misleading impression appears to have gained currency through the press, that persons claiming refunds of British Income Tax have been called upon to pay duty on income derived from sources outside Great Britain.

An impression so utterly false and entirely erroneous in its conception and distinctly libellous on the British Inland Revenue authorities should be immediately refuted.

Applications for the refund of British tax cannot in any way involve a person residing permanently outside Great Britain in tax on income derived from sources outside that country or in any liability whatsoever. On the other hand, every person of British nationality who derives income from Great Britain in any form (which is always taxed at the highest current rate) may recover the whole or at least a proportion of the tax so deducted.

If there is any point in this connection on which any of your readers like enlightment, I shall be pleased to answer any queries sent to me at 13 Buckingham Palace Gardens, London England.

Yours faithfully,
WILFRED T. FRY.

Quality is guaranteed because Lipton's grow it, blend it and pack it

LIPTON'S TEA

Red Label Best for the table

ELECTED A DIRECTOR

At a meeting in Toronto yesterday of swine breeders, known as the Ontario Yorkshire Club, Mr. R. J. Garbutt of Thurlow Township was elected a director. Mr. Garbutt is a well-know breeder of Yorkshire swine.

RUTS IN STREET CAUSE AUTO CRASH

A deep rut along Front street was the direct cause of an automobile crash just north of Victoria avenue on Front street this morning, when a delivery truck of the Kellaway's grocery, was struck head on by another car the front of the truck being dented and twisted.

The truck was proceeding north in a deep rut, and was unable to get out to evade a car coming towards it. Although the delivery truck was brought to a standstill, the collision was not averted. No one was injured and the car was quickly towed away.

WOODMEN HOLD ENJOYABLE AT HOME

More than two hundred people attended the delightful At Home which was held at Moose Auditorium last night under the auspices of the local Camp of Woodmen of the World. Cards and dancing were the features of the evening, commencing at 8.30 and continuing until 1 a.m.. A dainty lunch was served at midnight.

Lady winners in the card contest were Mrs. J. Hanna, Mrs. L. Moore and Mrs. W. Clare; and the gentlemen prize winners were Messrs. H. Lavender, Louis Soules and W. R. Vandervoort. In addition to the regular prizes, Mr. Conway, representative of "The Covered Wagon" feature picture, who was present, gave complimentary tickets to each lucky or accomplished card player who won in the contest.

Music for the dancing was supplied by Al Wilson and his Society Serenaders.

Men Wear Mufflers More This Year-Vests Popular

(Written for United Press)

New York, Feb. 12 (United Press).—Mufflers or scarfs, are being worn more frequently this winter than last. The long, heavy muffler, generally of camel's hair, has practically disappeared, being supplanted by a heavy silk one or a light one of fine silk or cashmere. The former is either single or double and quite long; usually with a fringe on the ends. Blues or grays are favorite colors. The light scarfs are generally short and white with black polka dots or other distinctive designs. As a rule, they are made square and doubled from corner to corner, making a triangular effect or doubled so as to make a rectangular shape.

Many men despise mufflers and with an ulster overcoat, a muffler is more or less superflous. However, with the lighter overcoats being worn these days, the smaller coat collars provide little defense against an unexpected blast and many men like to wrap a muffler about the neck to ward off throat troubles. Then, too, a good silk muffler—or a closely knitted scarf— provides a relief from the monotony of the plain overcoat. In this manner it acts much as a distinctive necktie in bringing a bit of color above a sober sack suit.

Wool vests are proving to be an indispensable and dependable part of a man's wardrobe. There are wool vests to fit almost every type of pocket book and they are capable chest protectors as well as neat appearing. Pockets are provided in the same places as in the ordinary vest and they have the added virtue of not getting out of shape no matter how much is crowded into them. Light tan is the shade most worn and this goes well with almost any color suit. Some of the vests are ribbed and some have facing and pockets of different material to provide a change.

Men's fashions in shoes show very little change from year to year, but occasionally a novelty is brought out which takes popular fancy. The latest of these is the "trouser crease" shoe. This shoe has no broguing about the tip, which is made perfectly plain. However a crease has been made in the centre of the upper, extending from the bottom of the lacing to the point. This continues the trouser crease to the point of the shoe and serves to make the foot appear narrower. Just whether it will develop into an institution or not is hard to forsee, but practically all of the boot shops in New York are carrying them in stock.

BONSPIEL ON AT CAMPBELLFORD

Campbellford, Feb. 12.—The Curling bonspiel is in full swing here to-day and will continue for three days. Additional curlers are arriving this afternoon to take part in the two days play yet remaining. Towns-people are crowding the curling rink, where their curlers are away to a wonderful start in the race. Twenty-six rinks were ready for action at noon to-day, and five games were played this morning.

Skip W. H. Fletcher, of Keene, defeated Captain Bottum, of Belleville, 20-9.

Skip W. J. Meiklejohn, of Campbellford, defeated W. J. Puffer, of Norwood, 11-8.

Skip J. P. Archer, of Campbellford, defeated skip W. R. Learmount, of Hastings, 10-9.

Skip S. Cambric, of Claremont, defeated Fred J. Smith, of Campbellford, 15-9.

Skip Samuel Gibson, of Lakefield, defeated S. J. Moore, of Campbellford, 11-10.

Fights for Life

Rev. Adelard Delorme, charged with the murder of his half brother, Raoul, will go on trial for the third time in Montreal, to-day. By the time final disposition of his case is made, court costs will have mounted to approximately $1,000,000, provincial officials estimate.

IS ARRESTED HERE GETS TWO MONTHS

Port Hope, Feb. 12.—Fred Edwards, who was remanded last week for sentence came up before Police Magistrate Campbell, yesterday morning and was given two months in the County goal at hard labor. He was arrested in Belleville, brought here and found guilty of stealing a ring from Mrs. Fred Schulthorpe, Walton St.

THIS SHERIFF SELLS AIRPLANE FOR LIEN

Atlanta, Ga., Feb 12.—An airplane will go on the auction block here for the first time in March according to announcement of Sheriff Lowry.

The airplane will be sold to the highest bidder to satisfy a laborer's lien filed by F. F. Hughes, a mechanic, against J. H. Elliott.

Hughes in his complaint alleged that Curtiss Oriole became unmanageable and that he was called on to make adjustments and repairs. His bill of $260 for the work has never been paid, Hughes claimed.

The bi-plane was located at Watkins field and held in custody of the sheriff for public sale.

Vicks Relieves His Catarrh

"THE BEST REMEDY YET," SAYS NEW BRUNSWICK SUFFERER

Melt a little Vicks VapoRub in a spoon. Inhale the vapors. Then insert some in nostrils, snuffing it well back. You will be delighted to see how it clears the head.

Catarrh sufferers seem to think they have to endure it forever because they live in a "catarrh climate." The disease is hard to get rid of, but Vicks brings welcome relief and in many cases persistent use has wrought permanent benefit.

Vicks is a quick-acting treatment for all cold troubles—absorbed like a liniment and at the same time inhaled as a vapor.

Mr. John T. Pyne of South Tilley, New Brunswick, says: "I have used Vicks VapoRub for catarrh of head and throat and found it the best remedy yet. When rubbed well into the forehead and chest and snuffed up the nostrils it relieves the congestion and makes breathing full and free."

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Deaths and Funerals

MRS. SARAH J. BOYCE

An aged resident of the village of Cannifton, Thurlow Township, in the person of Mrs. Sarah J. Boyce, passed away on Monday afternoon after a few weeks' illness. Deceased was a widow, being the wife of the late Mr. A. P. Boyce. She was born in Sidney Township nearly 81 years ago and was a daughter of the late Mr. Samuel Rose. Mrs. Boyce had been for years a member of the Methodst church. Two sons, Harry K. of Cannifton and Stephen D. of Colborne and one daughter, Mrs. Oliver Mather of Thurlow Township survive. Two sisters, Mrs. Jessop and Mrs. Maybee of Brighton are living.

Church Pageant Much Enjoyed

Bridge Street Sunday School Parlors were crowded to the last seat last evening to witness the presentation of the Missionary and Patriotic Pageant under the auspices of the Young Peoples' Society of that Church. From the points of instruction and entertainment it was an evening of rare enjoyment.

The following is the complete and self explanatory programme with the names of the entertainers.

Northern Europe—Lt.-Col. E.D. O'Flynn, Mrs. G. Stobie, Miss V. Stevens, Miss A. Clarke.

Oriental—Mrs. McKinnon, Mr. C. Hyde, Mr. J. Roblin, Miss G. Tucker.

Indian—Miss M. Sine, Mrs. (Rev.) Malott, Miss Moran, Mr. E. Holway.

British Isles—Mr. S. Cherry, Mr. A. Kerr, Miss H. Countryman, Mr. Bankier, Miss Irene Moore.

Southern Europe—Mr. R. Wotton, Miss A. Ketcheson, Miss M. Minns, Mr. H. Clarke.

Livestock Train Broadens Scope

For the first time, the itinerary of the Better Livestock Train, equipped, staffed and operated by the Government and the two railway companies, will this year include points in Northern Ontario.

The train consisting of sixteen cars will tour Western Ontario commencing March 10th, gradually working its way north until it reaches Sturgeon Falls on April 18th, from whence it will travel over Canadian Pacific lines north and west, calling at Verna April 18th, Chelmsford April 19th, Massey, April 21st, Thessalon and Echo Bay April 22nd, Sault Ste Marie, April 23rd and Sudbury April 24th.

Arrangements have been made to carry six cars of live stock and one of poultry. Cars have been fitted up as lecture rooms and each day lectures will be given by various agricultural expense on all questions pertaining to the improvement and production of live stock an number of pedigreed bulls of both and beef these will be carried for sale and swine of bacon standard poultry and eggs will also be for sale.

Vera Cruz Again In Rebel Hands

Vera Cruz, Feb. 12 (via Radio, Dallas News and the Associated Press)—Orizaba, Cordoba and Vera Cruz were reoccupied by revolutionary forces last night. Martial law was declared in Vera Cruz by order of the revolutionary general Eduardo Loyo. A few cases of looting were reported last night in Vera Cruz and vicinity. General discontent exists among the populace here due to lack of work and hunger.

African Trip To Boost Mileage Made By Prince To Over 100,000

By MILTON BRONNER

NEA Service Staff Correspondent

LONDON, Feb. 12—On May 2 next Edward Albert Christian George Andrew Patrick David Windsor—the champion "drummer" of the world—will pack his grip and set sail on the Union Castle liner, Arundel Castle for Cape Town and all points north, south, east and west in the Union of South Africa.

He will take along with him for free distribution a very winning smile, a happy facility in public speaking, a certain blytheness of manner, and a fundamental democracy born of mixing with all kinds and conditions of men in every part of the world. And by means of these things he will "sell" one more huge section of the globe the idea of British Empire and renewed loyalty to the British royal family.

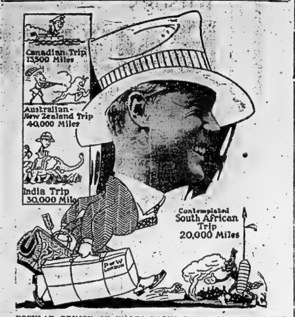
For this particular Edward Windsor is the Prince of Wales.

When he completes the contemplated trip he will have covered more ground and will have seen more of the British Empire than any member of the family in its entire history.

His total mileage by land and sea will be well over 100,000. It is divided about as follows:

Canadian trip late summer of 1919:	
By sea	7,000 miles
By land in Canada and U. S. A.	6,500 miles
Australian-New Zealand trip in the spring of 1920:	
By sea	32,000 miles
By land in Australia and New Zealand	8,000 miles
Indian trip, 1921-1922:	
By sea	26,000 miles
By land in India, Ceylon etc.	4,000 miles
Contemplated South African trip:	
By sea	16,000 miles
By land	4,000 miles

All Set to Add Another 20,000 Miles to Royal Long-Distance Records



Canadian Trip 13500 Miles
Australian-New Zealand Trip 40,000 Miles
India Trip 30,000 Miles
Contemplated South African Trip 20,000 Miles
P of W London

POPULAR PRINCE OF WALES PACKS HIS BAGS AND POWERFUL SMILE FOR NEW JOURNEY.

The trip of the coming May will be unlike his other great visits to British dominions and dependencies in that he will not travel on the warship Renown, but will go on the biggest regular South African liner. He will have a special suite of apartments prepared for him on the promenade deck. He is due to arrive at Cape Town on May 19 where he will be formally welcomed to South Africa by his kinsman, the Earl of Athlone, who is the new governor general, and by General Smuts, the great Boer soldier and statesman, who is the prime minister.

The extent of his travels will be limited by the fact that he will only be able to devote two months to the tour.

His furthest objective north will be the great Victoria Falls, said to be even bigger and grander than our own Niagara Falls.

The prince, who has hunted wild game in western Canada, tigers in India and kangaroos in Australia, will here have the opportunity of shooting lions, leopards rhinoceroses, hippopotimi and elephants.

While in Rhodesia he will visit the grave of Cecil Rhodes, to whose initiative a huge slice of British African territory is due.

He will be taken into the deep level gold mines in Johannesburg and the great diamond mines of Kimberley and will also visit the principal South African battlefields where Briton and Boer fought each other on many a stubbornly contested field.

He will see Briton and Boer making a new nation together, just as in eastern Canada he saw Briton and French-Canadian doing the same thing.

When he sets sail for home, the prince will have definitely brought to a conclusion his series of visits to the various parts of the empire and will then probably stay in or near England for some time to come.

The girls' football team of Doane College, Nebraska deny that they are a powder puff aggregation since they play under men's rules, pass, kick and skirt ends like gridiron veterans.

PARM CONDITIONS

The following is a summary of returns made by the Agricultural Representatives to the Ontario Department of Agriculture:

Small fruits appear to be in good condition so far. Strawberries have been well covered with snow, although soft weather of late has caused some ice-forming on low fields. Fruit bushes have escaped injury from ice storms or from weight of snow. Orchard trees also have so far been free from winter damage. Inclement weather has prevented much pruning being done since the holiday season, but during the last week there was more activity in that line.

Wood chopping and ice cutting are now getting the attention of many farmers. The weather has not been favorable for activity in the woodlot, but a good deal of cord-wood will likely be taken out this winter. Hardwood is quoted at $10 a cord, delivered in Hastings.

The Essex representative complains of inadequate railway accommodation for shippers of live stock in winter, and instances the fact that seven hogs died of exposure in a local railway yard during the recent cold snap.

The Middlesex representative states that he is receiving about a dozen application weekly for farm hands, most of them to begin work at the beginning of March. Halton reports daily demand for single men with experience at from $300 to $350 a year, with board, etc. Hastings farmers offers from $300 to $400.

The number of cattle now wintering is reckoned to be about normal, and with a sufficiency of grain in most cases, and an abundance of hay and other coarse fodders, they are likely to be carried through in good general condition, although many animals began their stabling in rather poor form on account of being kept on pasture too late in the season.

The marketing of live stock was fair during the latter part of January, and more animals would have been disposed of, but for the stormy weather prevailing at times.

Grain has not been selling very freely, and the low range of the thermometer has checked to some extent the sale of potatoes.

Kenora—General indications are that there is sufficient supply of grain for feeding purposes on most farms, and some will have as high as two and three hundred bushels of oats to sell for seed. As there was very little clover threshed last fall, there is a large quantity of clover hay on hand, and a great deal of which will not be marketed. Farmers with silos are well pleased with the way this feed is hanging out, and also satisfied with the way that the stock are keeping on this food.

Halton—Many farmers are retaining and breeding ewes, and others are purchasing in order that they might have a few sheep on their farm. Live stock are wintering well.

Bruce—The publicity regarding hog grading which we have conducted during the past few months through the local press has apparently been instrumental in inducing a number of shippers to pay on graded basis instead of flat rate at several points in the County. Generally speaking, hog grading has met with much favor, especially by those farmers producing the right type of hogs.

Huron—There are quite a few cattle coming into the County, as several leads are reported to have come in from the outside during the last two or three weeks. These are brought in by drovers and sold through auction sale to the farmers. During the fall not so many cattle were brought in as in 1922, and as there is a liberal supply of feed in the district, farmers are ready to buy a few. A number of horses are being shipped out of the county from time to time. These are mostly cheap horses, and good big horses are apparently a slow sale.

Middlesex—Beef cattle are beginning to thrive, and feeders are quite satisfied with the gains being made.

Waterloo—There are more feeding cattle in the stables this winter than for some time back. These will not start to move until sometime during March and April.

Frontenac—Farmers have about the same holdings in live stock as usual, and in the majority of cases condition is good. One hog shipper stated that he had shipped more mature sows during the last six months than for a long time. It may be said, however, that these were the sort that would not produce the bacon type of hog.

Victoria—Some pure-bred Herefords sold this week at a consignment sale at an average of $95 with a top price of $155.

Waterloo—There seems to be an over supply of milk at the local dairies again. The consumption of milk does not seem to be hardly as great as earlier in the season. The price is 24c. a gallon with one day a week's surplus at 11c.

That Body of Yours

By James W. Barton, M.D.

A SIMPLE LIFE SAVING METHOD

Some years ago I was taken out to the life saving motor boat on the bay, where the police officers were attempting to resuscitate a woman by means of the pulmotor. She had been in the water nearly an hour, and unfortunately we were unable to bring her around. I questioned the officers and found that they had used the usual methods of getting the water out of the lungs, before applying the pulmotor.

The thing that struck me was the great advance that had been made in the last few years in restoring the apparently drowned and suffocated. A few years ago about four people were required to look after such a case. One would apply artificial respiration by moving the arms from the sides of the body up over the head; another would rub the hands and feet. Still another would take hold of the tongue by means of a handkerchief, and move it in and out to induce breathing.

A fourth would go for the physician.

Now but one person is needed and even without the aid of a pulmotor, hundreds are restored to life by means of what is known as the Schafer method.

The patient is laid on his abdomen face to one side. The operator kneels across the patient facing his head, and applies his hand to the lower part of the back at the short ribs.

He then presses or throws the weight of his body slowly on this point, thus squeezing on the chest and expelling any air.

He then raises his body and relaxes the pressure allowing the chest to expand, and air to enter the lungs.

He presses and relaxes about sixteen times a minute, just as in the natural act of breathing.

The advantage of this method is apparent.

The water runs out naturally, and tremendous pressure can be made on the chest. And one person can do it all. So don't wait for the pulmotor or physician but get busy at once should the need arise, whether it is a drowning or a gas victim.

AN UNWELCOME PRESENT

It seems to be the thing at Christmas for everybody we come across to expect largess on an unusually liberal scale. Railway porters are no exception to this rule.

The traveller and his companions stood on the platform of the London terminus waiting for the train, which was to take them home for Christmas, to leave. Their luggage was all aboard, and the porter stood before them in an expectant attitude.

"Well, my man," said the traveller chaffingly, "can I give you anything?"

"Anything you like, sir," answered the porter.

"Well, you fellows," said the traveller, turning to his companions, "what do you say to giving the porter three cheers?"

The label is Red and White
Carnation Brand Evaporated Milk

Better Home-Made Candies

MAKE your candy at home with Carnation Milk — bon bons, creams, pralines, taffy, fudge. Make them from the recipes given in the Carnation Recipe Book. Their richness and smoothness will surpass all your previous efforts.

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

There are over 100 tested recipes in the Carnation Recipe Book. Write for a copy.

PARLOR BON BONS: Put equal parts of Carnation Milk and white of egg into a bowl; then stir in XXXX confectioner's sugar until mixture is stiff enough to shape. This fondant may be used as follows:—
Flavor the fondant with cinnamon; color red and make it into squares, patties or any other desired shapes.
Flavor the fondant with pistachio; color green and make into squares or patties.
Flavor the fondant with peppermint; make into patties and dip in melted chocolate; place on a greased paper and let harden.

FANNING WITH FARRELL

BERLENBACH MAY BE NEXT HEAVY CHAMP

New York, Feb. 12 (United Press).—Jack Dempepey, in one of his syndicated articles, says that the fighter who wins the championship from him must do it with his left hand. He reasons that his left hand is his best and he will remain champion until some challenger comes along with a faster landing punch.

Dempsey, it will be remembered, survived two of the greatest right hands in the business: The lightning-like thrust of Carpentier and the bludgeon-swing of the powerful Firpo.

It would seem then that the champion is right when he figures he will have to be beaten by a left hand.

There is only one fighter coming up that shows a real left hand, and he is Paul Berlenbach, the latest light heavyweight sensation. He is the finest looking prospect to come out since Dempsey started knocking them dead six years ago.

Berlenbach is just a few pounds over the middleweight class. He is only twenty-two years of age and he will fill out as he goes along. The way he has come along since he left the amateur ranks makes it seem that he may be the one who is to give Dempsey the real test.

Berlenbach has won 23 consecutive knockout victories and, in his first real test against Frank Carbone, he stopped a fighter who had never been knocked out before.

Berlenbach started out to be a wrestler. He is ponderously built about the neck and shoulders and he has a most powerful pair of arms. He seems to be a little bit muscle bound, but Dan Hickey, his trainer and instructor, feels sure he can be loosened up.

Hughie McQuillan, one of the pitchers of the New York Giants, was the one who really got Berlenbach into boxing. He had tired of the amateur wrestling game, and one night McQuillan asked him to put on the gloves in a little amateur tournament that was being held in their club at Astoria.

Berlenbach consented and he knocked out nearly every one in the club. He took a liking to the gloves and decided to try the game. In his first bout [illegible] he was knocked kicking, but he was not discouraged, and he finally consented to place himself in the hands of Dan Hickey, boxing instructor of the New York Club.

Hickey has done wonders with him and it is improbable that he will make any mistakes in bringing him along. He is being built slowly and well, and another year he ought to be a light heavyweight champion. There aren't many of the top notch light heavyweights now who could stand up under his murderous left hand.

As has been referred to several times recently, England is also complaining about bad boxing decisions. The English fans take their sport more seriously and they know much more about point scoring than is known or carried out in this country.

To decrease the chances for making mistakes, a fan wrote into a London editor recently suggested that after each round the referee announce the winner of the round and the number of points scored by each fighter. These scores he suggested, should be posted on a score-board, over the ring so that the spectators would know the actual standing of the two fighters at all times during the fight.

Georges Carpentier told London friends, on a recent visit to the British capital, that he was going to surprise a lot of the American fighters who are scrambling to get the first punch at his chin.

The Frenchman says he now weighs 190 pounds, and that he has filled up so he can fight at 188 pounds. His hands have mended, he says, and he wants to prove it by tapping the chins of Tom Gibbons, Gene Tunney and Mike McTigue.

Carpentier from the looks of things is going to be the first wolf to get Mike McTigue. In accepting terms to fight the Frenchman for the Milk Fund benefit here in May, McTigue apparently believes the stories that Georges is all in.

McTigue is so careful that he would not dare to fight Carpentier if he did not feel sure there was no chance for Carpentier to win.

If Georges gets that light heavyweight title back, Tunney and the rest of the contenders might as well give up, because Georges will run home with it, and he'll die with it.

Carpentier has found that a fighter without a title hasn't much glory to live on, and he loves the hurrah more than anything else.

C. D. Welch, one of the football authorities in England, discussed, in a recent issue of a London newspaper, the surprising growth of football in the United States.

He saw the Bethlehem Steel and Fall River teams play last season, and he expressed the opinion that either one of the teams could go far among the British teams, and could beat many of the first teams there.

Brockville Trims Circle Six 3 to 1

Brockville and Kingston Play-off Here To-morrow Night

Brockville, Ont., Feb. 12—A three cornered tie exists in group one of junior O.H.A., as a result of Brockville winning from Circle Six of Kingston here last night, by 3 to 1. The game was one or the best played in Brockville this Winter and from first to last was lightning fast. Play had progressed 10 minutes before the scoring opened. Lang finding the net for Brockville. There was no further scoring for 27 minutes, the teams being very evenly matched.

McInrue found the nets for Brockville near the close of the second period and eight minutes had elapsed in the third when Kennedy netted the last goal scored by the locals. Two minutes later Hartley scored for Kingston and despite heavy checking and fast playing the teams were unable to score further. The two teams played a 3-3 tie in overtime, a week ago, and the game last night was to break the deadlock. Brockville meets Queen's in Belleville on Wednesday night.

Kirby, Hartley and Meltz starred for Kingston and McMahon, Lang and Sheridan were the outstanding players on the Brockville team. The visitors had the advantage in weight but depended largely upon individual play which was off-set by Brockville's combination.

Peterboro Trims Oshawa At Home

Have No Trouble With Automotive Team in First Game of Series—Score 5 to 2

Oshawa, Ont., Feb. 12.—Grover Halpin and his Peterboro puck chasers, who captured the honors of O.H.A. groups 1 and 2, came here last night and added furthers honors to their list by taking a 5-2 fall out of Oshawa Green-Shirted clan that headed the heap in Group 3. Ranger, Collins and Rose scored in the first for the visitors, while Williams came through with Oshawa's first goal just before the first period, making the score 3 to 1 for Peterboro. In the second twenty minutes of play the lift-lockers found the net for the only goal, Parker doing the turn, and the score stood Peterboro 4, Oshawa 1 when the teams left the ice for the second rest. In the final period Rowden hit the twine for Oshawa's second goal of the game, while Parker got number five for Peterboro on a lone rush. The win gives the easterners a three-goal margin for the return game on Wednesday evening and the Petes will likely represent the east in remaining group play-offs of the O.H.A.

..Vancouver Feb. 12.—..............

Vancouver, B. C., Feb. 12.—Vancouver has shipped and booked for shippment to date almost 50,000,000 bushels of the 1923 crop.

Queen on the Ice!

Gladys Robinson, champion woman skater of Canada, recently broke record for 100 yards at Onota Lake. This unusual action picture shows her at a difficult angle.

NAPANEE WINS FIRST BIG GAME

Napanee, Ont., Feb. 12.—In the first game of the second series of the Bay of Quinte League, Napanee defeated Belleville by the score of 5 to 2. Line-up:

Belleville—Goal, Scott; defence, Goyer and Blute; centre, Whelan; wings, Symons and Armstrong; subs, Arnott and Arnott.

Napanee—Goal, Fenn; defence, McNeill and Spencer; centre, Bentley; wings, Huffman and Johnson; subs, Johnson, McLaughlin and Babcock.

Jeweler Hockeyists Break "Main Spring"

Tie games seem to be the style nowadays. Last night at Gar Arnott's rink the Jewelers and Swastikas played good fast hockey. At the end of the first period the watch doctors had the score three to nothing in their favor, but their mainspring broke when Doolittle left the nets in the second period and before they knew it the club boys had run in the tieing goals. At full itme the score read 5-5. The return game comes off next week.

For the Jewelers W. Wannacott on defence, and Jones, their tricky sub, starred. For the Swastika Club the Baker Brothers combined beautifully and Wolfe played a fine game on defence. John Hibbard's handling of the bell was entirely satisfactory.

The line-up was as follows:

Jewelers	Position	Swastikas
Doolittle	goal	George
W. Wannacott and		N. Wilbur and
A. Wannacott	defence	H. Wolfe
L. Woodley	centre	W. Baker
W. Harding	left wing	R. Baker
A. Herity	right wing	H. Adams
Jones-Woodley	subs.	Frost
Jones and		Frost and
Woodley	subs.	Humphreys

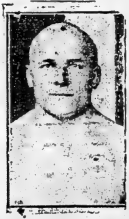
Referee—John Hibbard; Time Keeper—E. V. Adams.

CANADIENS ARE AFTER CONACHER

Pittsburgh, Feb. 12—Two of the largest offers in the history of Canadian professional hockey to amateur hockey players were made here yesterday

Sunday by a well-known and prominent Toronto hockey magnate in the interests of the Canadien team of Montreal. The inducements to turn professional were made to Lionel Conacher, Canada's greatest of all-round athletes, now the most outstanding hockey player of the United States Amateur Hockey Association; and Harold Cotton, the star forward of the Pittsburgh team—two Toronto-born and bred hockey players who migrated to Pittsburgh just to play Hockey and obtain academic training.

While both Conacher and Cotton seriously and carefully considered these sparkling offers, they both declined to take the plunge into professionalism, although they intimated that at no far distant date they might be found with the Canadiens line-up. They declared they are content with their present surroundings amidst the American hockey world, and their training and tuition in the American world of knowledge and learning; but they were undoubtedly pleased with the fact that Canadian professional hockey promoters are anxious to have Canada's hockey players back among the zenith of hockey.



AUGUST JOKENEN, the Finn who holds the European Graeco-Roman light heavyweight wrestling championship. He trained the Finnish Olympic wrestling team which won the wrestling championship at Antwerp in 1920, and his claim to the Finnish national and European championships has stood the test of investigation. He has been in Toronto since December.

Domenico's Recreation Alleys

The Belmonts and the Wanderers got off to a whirlwind start at the Recreation Alleys last night when these two teams met in a ladies' league fixture, the former rolling 734 and the latter 737, this is the highest score for a single game to date. In the second game the Belmonts were leading by 108 pins in the fifth frame, but alas, a few blows against strikes and spares and when the second game was over the Wanderers were leading by 43 pins. Mrs. Lee rolled the highest single score and three strings while for the losers Miss Donoghue was high.

In the junior league the Natural Tread took a fall out of the K. of C. junior when they swamped them by a one sided score to the tune of 2469 against 2118. This was the K. of C. first loss. F. Benford was high man with 222 and 779. In the senior league the Hardare made a sudden drop from their fine showing of a week ago and lost to the K. of C. in the last game. The Hardware were leading by 41 pins at the end of the second game, but in the third the Knights came back strong with G. Lee rolling 278 and won out by over 100 pins.

Another Record

A. Chouinard broke Dr. O'Callaghan's three string record at the Recreation Alleys when he rolled up a total score of 799. This is the third time it has changed in a little over a week.

DANNY McPHEE WILL LEAVE FOR SOUTH

St. Thomas, Ont., Feb. 12.—Daniel McPhee, the local pitching ace, who is going into Major league company this year, has been training at the local Y. He leaves next week for Clearwater, Fla., where he will commence training with the Brooklyn Nationals. It is probable that McPhee will have the opportunity of working out under his advisor, Robert D. Emslie, veteran National League umpire, who has taken a great interest in his work, Emslie is wintering at his home here, and is curling most of the time. He expects to go south this Spring, it was learned to-day.

Stratford and Kitchener Tied

Kitchener, Ont., Feb. 12.—The longest overtime game of the Big Four group took place here last night, when the Stratford Indians and Kitchener Green Shirts played a thirty-minute overtime game to a tie at two all. On the night's play the Green Shirts should have won the contest and lack of punch in the goalmouth cost them the verdict, for on the whole they carried the play to their opponents and held the Indians lashed pretty well to the mast by their close back-checking. The Green Shirts were battling to get into second place and the right to meet Stratford in the play-off, and they put up their best battle of the year.

That they did not carry off the verdict was also due to the good goal tending of Dolson for the visitors. The former Galt boy in the Stratford net time and time again saved what appeared to be sure tallies by his clever work, while Woods at his end was not idle by any means. However, the visiting twine-minder had far more to do than the home goalie.

The game was quite dull for half the way, with the good Kitchener combination being the redeeming feature. After that it pepped up materially, and as it progressed became hotter and hotter, and the going was very hard after the half way mark owing to the stickiness of the ice.

OF INTEREST TO WOMEN

SOCIAL and PERSONAL

Mr. Hugh Ingham who has been living at Toronto for the past month, returned to this city to-day.

Dr. Roy M. E. Wood, who underwent an operation for appendicitis last Friday at the Belleville General Hospital is progressing favorably.

Ottawa, Feb. 12.—The acreage under field crops in Canada has almost trebled since 1900.

WEST HUNTINGDON

We welcome Mr. and Mrs. J. Chambers to our midst.

Mr. and Mrs. Wm. Bray spent Sunday with Mr. and Mrs. Noyes of White Lake.

Miss Evelyn Totten of Wellman's Corners spent the week end with Miss Marguerite Haggerty.

Miss Mildred Marshall of Plainfield spent a few days with her cousin, Evelyn Wilson.

Mr. and Mrs. Howard Ashley, Mr. and Mrs. Sam Fargery were guests of Mr. and Mrs. M. Emmerson of Plainfield over the week end.

Mr. Lorne Wilson is spending a few days with his uncle, Mr. Sam Kincarde of Demorestville.

Mr. and Mrs. Harry Thompson entertained a few young people on Thursday evening.

Mr. and Mrs. Hugh McFee of Keene are spending a few days with her parents, Mr. and Mrs. A. Adams.

Miss Edith Abbott of Frankford was the guest of her cousin, Miss Mollie Haggerty for a few days.

We congratulate Mr. and Mrs. T. Tanner—a baby boy.

That Body of Yours

By James W. Barton, M.D.

DO YOU LOSE YOUR VOICE SOMETIMES?

You feel a little dryness in the throat with a tendency to cough at frequent intervals.

The throat seems to burn, and again there is a sort of tickling sensation which causes your cough.

You are able to eat your food usually, but sometimes certain articles of food cause a little pain in swallowing

Then you notice that your voice is a bit husky and you find yourself trying to clear your throat very often. You try to expectorate, but there seems to be nothing to come from the throat.

A little later the voice becomes very husky, and you find it extremely painful to talk at all.

What's the matter?

It simply means that a slight cold from the nose has travelled down to the throat—to vocal cords which stretch across the top of your windpipe just like the band of a rubber over the wooden portion of the noisy toy balloon.

Perhaps you have been singing or talking too much.

Sometimes due to some obstruction in your nose, you are breathing through your mouth, and so the throat gets dry, due to the air going into the lungs taking its moisture from your throat, instead of from the nose.

Any of these things you can really see would slightly inflame the little fleshly ribbons or strings, which we call the vocal cords. It is called Laryngitis.

It is not usually serious but is very inconvenient when one has to use the voice.

And the big factor is curing or relieving this condition is right there, namely, in keeping absolutely quiet and not using the voice whatever.

Where it is absolutely necessary to use the voice the slightest whisper and the fewest possible words should be used.

The treatment aside from the rest is usually breathing the steam of Friar's Balsam or Tincture of Benzoin Co., as it is called. A teaspoonful of this preparation is put in any ordinary cooking vessel and a couple of quarts of boiling water is poured on it. You put a blanket or towel over your head and breathe in the fumes from the utensil.

This should be done three or four times a day.

However, the main treatment is to refrain absolutely from speaking.

METHODS OF TREATING MANGE

Mange, scabies, or itch is a pestilential and serious contagious disease of the skin to which every domestic animal is liable. A bulletin, just issued from Ottawa, of which Dr. George Hilton, Chief Veterinary of the Health of Animals Branch, is the author, goes thoroughly into the nature of the disease describes the horses cattle and sheep, and prescribes the most effective treatment The bulletin which can be had free on application to the Publications Branch Ottawa, is one that should be in the hands of every owner, breeder, dealer and veterinary surgeon, especially as under the Animals Contagious Disease Act each and every one is required to immediately report to the nearest veterinary inspector any suspected evidence of the disease. he rapidity with which the disease may develop is illustrated by the fact that reproduction of the insect giving rise to it is at the rate of million and half in three months. In addition to the prescriptions contained in the Bulletin, a list of disinfectants, with methods of preparation and use, can be had free on application to the Veterinary Director General., Ottawa.

Visit the Optometrist as a "patient"

He is not a seller of spectacles. His chief benefit to you will be to determine precisely what your eyes require to make them as nearly as possible normal. This he does with instruments that are exact to the smallest imaginable degree. He has a service for sale not merchandise. So I repeat, visit him as a patient, not as a customer. Glad to number you among my patients.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

His friend was dead, had given his life for him, laid it down willingly, cheerfully. Had died in the fond belief that the sister he loved was rich and safe and provided for. And he, Arthur, the man poor Jack had died for, was going home to deprive the girl of her money. Oh, was he?

The minutes passed. Bob lay with his paws and head over the prostrate figure, whining intermittingly. Arthur crouched with his hand upon his dead chum's head. Presently there came the sound of horsemen; voices called, a word of command rang out; the door was opened, and a police officer, followed by some of his men, entered the hut. He ran to Arthur and cut his bonds, and Arthur staggered on to his knees beside Jack.

The sergeant examined the body, shook his head, and laid his hand upon Arthur's shoulder.

"Your chum?" he said, in a low voice. "He's quite dead."

Arthur rose, tried to speak, then staggered back against the wall and slid down to the floor fainting from the wound which until now he had been unconscious of.

When he came to and was helped to his feet, Jack's body was lying on the bed, decently covered, and the sergeant was standing beside it with an open letter in his hand.

"We did not know how long it might be before you came to," he said, "and so we searched your friend for means of identification. We found this letter—an important one—in his jacket pocket. It appears by this that his real name is Sir John Vancourt, and that he is the heir to a large property in England. Poor fellow! Is that so? Is that his name?"

"Yes," said Arthur, without a moment's hesitation.

His voice was hoarse with weakness and anguish, but it was so clear and distinct that every one heard it.

"And what is yours?" asked the sergeant.

"Jack Gordon," replied Arthur, as promptly, as calmly, as before.

CHAPTER II.

"What you have always to remember, my dear Esther, is that you are a Vancourt.

It was seven months later, and the lady who thus adjured Esther Vancourt was the Miss Worcester, the maiden aunt, with whom Esther had lived since childhood.

The two ladies were on the small terrace in front of the west wing of the Towers, and they were waiting for the pony-carriage, in which they were going for a drive. It was a lovely evening in spring—strange to say, considering that an English spring has now become rather more hateful than winter—and, so warm that Esther wore no cloak over the white dress with the black sash, which was its only ornament.

Miss Worcester was a charming old lady with silvery hair and blue eyes, which had always been pacid, but had lately, since Esther's "change of circumstances," endeavoured to assume, with more or less success, an expression of dignity. At this moment she was sitting bolt upright on one of the stone seats built into a recess of the old red wall, and regarding the owner of the historic name with something like an appeal and reproach; for that young lady had not seated herself in stately dignity beside her aunt, but had perched herself on the stone balustrade of the terrace, and was swinging a pair of very small and very daintily brown-clad feet—"just like a school-boy," Miss Worcester thought.

The girl made a picture which, though it shocked her aunt's sense of propriety would have set an artist or a poet thrilling; for, whatever else she might be, she certainly was ravishingly and dangerously pretty, with a prettiness which later on would develop into actual loveliness; for—let it be whispered with bated breath—few women come to loveliness at twenty-one.

She was dark, with a wealth of hair which caused her, by its vagaries, considerable trouble to keep within its coil; with dark and rather thick brows, and that clear and colourless complexion which goes sometimes with perfect health. Her eyes were grey, light sometimes, dark or violet at others, just as the mood coloured them; and her mouth was shapely but by no means small. Both mouth and eyes were expressive, too expressive sometimes; for like most women who have gone through the mill of poverty—which grindeth so exceeding small—there was a touch of pride and melancholy in her character which sometimes made her haughty and sometimes sad. But as a rule she was high in spirits; indeed, her aunt had more than once called her a tomboy: but that was before Esther had come into the Vancourt property. She was very nearly tall, and thin—for at twenty-one a girl has not quite ceased growing—but not with the thinness which is painful to the beholder, but with that slender suppleness which should belong to a girl as her birthright.

She was looking now rather dreamily across the drive and toward the setting sun, but she heard her aunt's admonition and laughed.

"Somehow, I don't think I'm likely to forget it, aunt, dear," she said.

"You mean that I remind you of it too frequently, my dear. Perhaps I do, but you must remember that I have a duty to perform—my dear Esther, I am perfectly certain you will lose your balance and fall over that parapet."

"No danger, I assure you, dear. If I felt myself going, I should cling to the pillar with my toes—like this—see?" responded Esther, cheerfully, and she crooked her foot round the pillar.

"All the same, my dear Esther, one must consider appearances. If the butler or one of the footmen were to see you, for instance."

"He'd be shocked, I suppose," said Esther. "And yet, would they? I have shocked them so often since I came that they must be used to it."

"I am almost afraid they are," assented Miss Worcester, with a sigh. "Yesterday, Palmer had to go to the sideboard to conceal his laughter over that story of yours about the bishop and the miner, and the footman nearly choked and was compelled to retire from the room."

"Did he really?" said Esther, with an air of surprise and satisfaction. "Palmer has risen in my estimation; I was under the evidently erroneous impression that he was carved out of a chunk of wood."

"Piece of wood, my dear Esther; though the description in any form is scarcely a suitable one to apply to so highly respectable a servant as—"

(To be Continued.)

CONCEALING THE EVIDENCE

Judge—"This man says that after he fired a shot he saw you run from his chicken coop."

Rastus Johnsing—"He could easy be mistaken, jedge. Fast ez Ah was runnin', it mought have been some one else what faintly resembles me."

IT ALL DEPENDS

The teacher had been trying to inculcate the principles of the Golden Rule and the turn-the-other-cheek.

"Now Tommy," she asked, "what would you do supposing a boy struck you?"

"How big a boy are you supposing?" demanded Tommy.

Indigestion

The most discouraging feature of nervous indigestion is the fact that it does not tend to right itself.

The nerves continue to grow weaker and weaker because the digestive system is not supplying proper nourishment and the digestive system fails for lack of nerve force.

The nerves must be restored by some other means and this is where DR. CHASE'S NERVE FOOD comes to the rescue.

It revitalizes the wasted nerves and builds up the nervous energy which is essential to the healthful working of the digestive system.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills.

Edmanson, Bates & Co., Ltd., Toronto.

New Box 60 Pills 60 cts.

SURPRISE SOAP

How to Wash and Preserve Woolens

Woolen garments or articles cleansed with SURPRISE soap feel soft, fluffy, and well washed. Dry woolen articles in a moderate temperature—not in the sun—and do not allow them to freeze. Sun is injurious to wool; freezing causes shrinkage.

Dramatic Turn To Oil Inquiry

Washington, Feb. 12.—A new turn was taken in the Senate oil investigation with the testimony of Frederick Bonfils publisher of the Denver (Colorado) Post, that Harry F. Sinclair had entered into a contract to pay him and his associates $1,000,000 in settlement of claims growing out of rights asserted in the Teapot Dome Naval Oil Reserve. Senator Walsh Democrat Mont. told the Senate that every vestige of these rights had been denied by the Federal Government.

According to Mr. Bonfils' testimony the contract was entered into in Kansas City after he had sent a reporter of his paper to the home of Albert B. Fall in New Mexico to investigate rumors regarding the leasing of Teapot Dome to Mr. Sinclair by Mr. Fall as Secretary of the Interior and after the publication of one article in the Denver Post attacking the lease by "analysis and theory." The contract was signed, he said after two conferences between Mr. Sinclair and Mr. Bonfils his partner, John Leo Stack a Denver oil man and H.S. Schwartz, their attorney.

Here and There

Navigation of the St. Lawrence river is expected to open early in the month of April. According to preliminary schedules issued by the various steamship companies operating between Canadian Atlantic ports and Europe, 192 ships will visit the port of Quebec in 1924.

The Canadian Pacific Railway has inaugurated as a special feature the serving of afternoon tea regularly on all dining, cafe and buffet cars throughout the system. The tasteful little menu which the company provides includes tea, coffee, chocolate, toast, muffins, cake, ice cream and preserves at reasonable prices.

The Spiller Company, a great British concern with $150,000,000 capital, has completed arrangements for the establishment of facilities in Canada which will entail an outlay of $6,000,000 to finish the plant of the Alberta Flour Mills in Calgary, with another $2,000,000 to build an elevator at Vancouver.

The second of the two large paper machines recently installed by the Belgo-Canadian Paper Company at Shawinigan Falls, Que., has commenced operations. The machine, which is the product of the Dominion Engineering Company, is now producing newsprint. It will be tuned up and is expected to produce a commercial grade of newsprint at or above its daily capacity of 75 tons in the near future.

Speaking at Toronto recently, E. W. Beatty, President of the Canadian Pacific Railway, declared that "what Canada is suffering from is lack of men, lack of capital and lack of those forward policies which will enable the country to realize within a reasonable time its own manifest destiny." He added that he did not believe in "exaggerated whisperings or in any statements which are calculated to destroy the belief of Canadians in their own country."

Captain S. Robinson, C.B.E., R.N.R., commanding the Canadian Pacific liner "Empress of Canada," was invested with the C.B.E. by Sir Harry Armstrong, British Consul-General at New York, when his ship arrived there on January 25th, prior to setting out on her great world cruise. Captain Robinson also received the freedom of the city of New York. These honors were in recognition of his gallant work when commanding the Canadian Pacific liner "Empress of Australia" at Yokohama, at the time of the Japanese disaster.

According to Canadian Pacific officials, immigrants from Europe who spend a few hours in Montreal on their way west are re-discovering America—or rather Canada—at a great rate. Some days ago there were eighty Scandinavians drumming their heels in the big waiting-rooms at Windsor Station, bored to tears. Then one of them suddenly discovered that the Province of Quebec, unlike Sweden, is not "dry." The rush of the Danes on Alfred's England was as nothing compared to that with which the delighted Scandinavian gentlemen emptied that waiting-room. So excellent did they find the beer that they did not show up again till train-time, when they announced unanimously, though with slight difficulty, that "Canada bane one fine country."

To be stranded in a strange city with no worldly assets but a suit of dress-clothes and yet to come out of the adventure victorious is to achieve something. Joe and Bill arrived in Montreal a few nights ago, their baggage consisting of the clothes they wore, two dress suits, an adequate quantity of the needful and an enthusiastic determination to see Life with a capital L. When they woke on the morning after, they found that someone had relieved them of everything they possessed except the dress suits they had slept in, and which they had worn for the previous night's affray.

In this predicament they appealed to the authorities at the Canadian Pacific Windsor Station, for work whereby to earn enough to take them out of the wicked city. Sympathetic officials put them on the snow-shovelling gang. And here these two stout fellows, in their dress suits, Joe with his feet wrapped in sacking to keep them warm, labored heartily for four days, earning the price of their tickets back to the little old home town. So once more fiction and the movies are beaten.

NOTICE TO CONTRACTORS

Separate sealed tenders marked "Tender ... Contract No. ...." will be received by the undersigned until 12 o'clock noon on Tuesday, March 4th, 1924, for the following work on the Provincial Highways:—

Contract No.		Mileage
	MACADAM ROADWAY	
1056	Deseronto	1.4
	SURFACE TREATMENT OF MACADAM ROADS	
1065	Picton to Bloomfield	4.5
[illegible]	Belleville to Foxboro	5.8
	GRADING	
1076	Bloomfield northerly	2.5

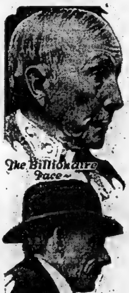
Plans, specifications, information to bidders, tender forms and tender envelopes may be obtained on and after Tuesday February 12th, 1924, at the office of the undersigned or from the Resident Engineer.

A marked cheque for $1,000.00 payable to the Minister of Public Works and Highways, Ontario or a Guaranty Company's Bid Bond for a similar amount must be attached to tenders for macadam, and for tenders on grading and surface treatment the above conditions apply, but the amount of bond or cheque required is $500.00. A Guaranty Company's Contract Bond for 50 per cent. of the amount of tender will be furnished by the Contractor to the Department when the contract is signed, with the exception of the surface treatment of macadam roads on which contracts no Contract Bond is required.

All Bonds must be made out on Departmental forms. The lowest or any tender not necessarily accepted.

S. L. SQUIRE,
Deputy Minister of Highways

Department of Public Highways, Ontario
Toronto, February 4th, 1924. F12 1td



Is there such a thing as a billionaire face? Here are two of the richest men in the world. They look like twins. The upper one is John D. Rockefeller and the lower one, in this pose, happens to look like him. But he's no other than Henry Ford.

A negro preacher was preaching a rousing sermon for the purpose of getting a big collection. In his remarks he cried, "Bruddern, dis church am got to walk."

"Let 'er walk, brudder; let 'er walk," came in unctuous tones from the amen corner.

Warmed by his encouragement the preacher yelled: "Dis church am got to run."

"Let 'er run, let 'er run,' was the enthusiastic assent from the front seat.

"Dis church am got to fly, brudders! dis church am got to fly."

This eloquence brought from the seat of honor the hilarious response, "Let 'er fly."

"And," contnued the preacher, "it am gwine ter take money to make dis church fly."

Then from the amen corner came the low, mournful words, "Jes' let 'er run."

TROUBLE AHEAD

A pawnbroker's shop was on fire and the firemen were busy trying to prevent the conflagration from spreading. Among the crowd of onlookers was a woman who was evidently in an agony of excitement. Every now and again she would urge the firemen to more strenuous efforts, and as the flames leaped higher, her brief became violent.

"Whats' wrong, missus?" said a sympathetic bystander. "Don't upset yourself. There ain't no one in there. Whats the row?"

"Row!" exclaimed the lady through her tears. "There ain't no row at all at present; but there will be if they don't get that fire out soon. My old man's Sunday suit is up that spout—and he don't know it."

FIVE YEARS' AGONY ENDED

When He Took "Fruit-a-tives" For Rheumatism

The Medicine Made From Fruit

There can be no doubt, that "Fruit-a-tives" is the long sought remedy for Rheumatism and Lumbago. Proofs all over Canada come [illegible] testifying to this fact.

Mr. John E. Gullderson of Parrsboro, N.S. writes: "I suffered badly with Rheumatism for five years. [illegible] medicines—was treated by doctors in Amherst—and here at home—but the Rheumatism came [illegible]

[illegible] I saw an advertisement for "Fruit-a-tives" and took a box and [illegible] so I took them for about six months and the Rheumatism was all gone and I have never felt it since".

25c a box, 6 for $2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

Perhaps You Need a Tonic

A tonic is necessary in all run-down conditions, after colds, fevers and illnesses of all kinds. When a person is [illegible], undernourished, nervous, and listless, he needs a tonic. If [illegible] doesn't sleep, have no appetite, feel miserable and depressed, a tonic will [illegible] The tonic best suited for general use is Carnol. It can be given with perfect safety to a delicate child, a convalescent, or to an aged person. It is made from the prescription of an eminent physician. Hundreds of doctors prescribe Carnol in their practice. Here's what Mr. Davis says about Carnol:

"We have sold Carnol for two years. During those two years we have seen many other so-called tonics tried out, but they did not repeat, and people did not advise their friends to buy them. Carnol has been bought by people who used it before. It has been recommended by people to their friends and has enjoyed a good sale. We believe that it has the ingredients that go to make up one of the very best nerve and body builders ever put before the public."—Davis the Druggist, Columbia and 6th Sts. New Westminster, B.C. 11-9

Carnol is sold by all good druggists everywhere.

SOLD BY DOLAN THE DRUGGIST

A salesmanlike looking inspector was surprised to find a dirty roller towel in the washroom. Indignantly he said to the landlord:

"Don't you know that it has been against the law for years to put up a roller towel in this State?"

"Sure, I know it," replied the proprietor, "but no ex-post facto law goes up before the law was passed."

SCHOOL TEACHER NARCOTIC VICTIM

Toronto, Feb. 12.—The identity of the remains of the young woman found dead in her room at the Carls-Rite Hotel on Saturday afternoon, has been definitely established. It was believed at first that she was Miss Margaret Dorsey, of Buffalo, the name she registered under, but her correct name was Margaret Doherty, aged 3[illegible], and her home was in Erin Ontario.

Chief Coroner Graham yesterday afternoon paid tribute to the splendid system of statistics kept by the hotel which made it possible to have identification made. Looking up hotel records the management found that on Feb. 3rd she had 'phoned a certain number in the city. There her name, and in fact, that she was on the occasional teaching staff in the city, were ascertained. The cause of death is believed to have been narcotic poisoning, but no inquest is necessary.

Kingston Woman Able To Eat Now

Had Lost Her Appetite but found genuine relief from this and other ailments in Dreco. Two bottles proved beneficial

Mrs. Charles Cunningham, well known to Kingston women as a hair dresser and masseuse, found herself in an unsettled state of health, suffering from stomach trouble.

Mrs. Cunningham says: "I have suffered a long time with my stomach Food would sour and form gas, which made me so miserable I could hardly attend to my work. I would get headaches and billious spells, my appetite was poor and I was continually troubled with constipation. I have taken two bottles of Dreco and am feeling fine. I can eat most anything now without any after effects. I am not troubled with headache or those awful billious spells and feel that Dreco has done much good in every way. I have greater energy to do my work my appetite is good and my bowels are regular.

"My daughter who is also taking Dreco, is having even better results than I had myself. She was in a badly run-down condition and it is building her up fine.

There are no habit forming drugs such as mercury or potash in Dreco. It consists entirely of herbs and roots of the health producing body building type.

DRECO IS BEING SPECIALLY INTRODUCED IN BELLEVILLE BY THE BELLEVILLE PHARMACY. IT IS ALSO SOLD IN STIRLING BY J. S. MORTON, AND BY A GOOD DRUGGIST EVERYWHERE.

An Important Item

Sound digestion is the basis of health and vigor. Digestive disorders should have prompt attention. If you suffer from sluggish liver, constipation, impaired appetite, flatulence, dizziness, headache, biliousness, or other symptoms of stomach disorder you may expect to obtain relief by taking

The purity of its ingredients imparts exquisite cleanliness to the skin. Just try Plantol in its pleasing new shape and wrapper—you will find it the same superb soap, made with the traditional British standards of purity and excellence that have given it fame the world over for more than a quarter of a century.

An Exquisite Toilet Soap

NEVADA'S NEW DEATH LAW IS FINALLY PUT INTO EFFECT

Carson City, Nev., Feb. 12 (United Press).—Nevada recently added a new method of taking life under the law to those legally sanctioned.

The new method is "death by confinement in a lethal gas chamber," which in Nevada replaces "hanging by the neck until dead."

Its sanction, first by the legislature and then by the courts of this state, followed by being placed in practice, makes four methods of carrying out death sentences legal in the United States—the other three being hanging, execution by the firing squad and electrocution.

Two Chinese and one Mexican convicted of murder, are the men who were convicted and ordered to their ends by this—civilization's— latest way of taking "a life for a life."

Gee Jon and Hughey Sing, both young men from San Francisco's Chinatown, are the two Chinese Thomas Russell of Elko, Nevada, is the Mexican.

For two years the Chinese have been fighting to save themselves from the fate to which they were sentenced but a month ago the highest Nevada court ruled that death by lethal gas is "not cruel and unusual" but is "an humane, sleeping death," and ordered the sentence carried out.

That decision was in answer to the attack on the law on the grounds that it violated the constitutional provision against "cruel and unusual" punishment.

A War Development

Today's execution, like so many innovations which civilized man has adopted, is a development of the war. The use of poison gas; the swift, sure way in which it dealt death; gave members of the Nevada legislature, who were seeking some means of eliminating the horrors of hanging, their idea.

They passed a bill at the session of 1921 substituting death by gas for hanging. The bill as urged and carried as an humane measure. It was favored as providing a more kindly means of ending a life than by breaking a neck; shooting off a head, or burning out the human tissues with electricity. It was argued that a man could be placed in an airtight chamber and that while he slept gas could be turned into the cell and he would never awake. He would die without knowing it.

Opponents of the bill argued that there were tortures in death beyond physical tortures, that the uncertainty of not knowing when death would come creeping into one's dreams would be greater torture than knowing that at a given moment one's neck would be broken at the end of a rope.

But the advocates of lethal gas won and the measure became a law.

Nevada was ready to lay before the world an experiment—a subject being all that was needed.

The state waited a few weeks. Then war broke out in Chinatown, San Francisco. To tongs were fighting. In Chinese tong wars the law is rigid—"a life for a life." Orders of the tong chiefs are to be obeyed and not questioned.

Two Ordered to Kill

So, when the war spread beyond the confines of San Francisco's Chinatown and the tong chiefs ordered that Hughie Sing and Gee Jon should take their guns to the little town of Mina, Nevada, and kill Tom Quong Kee, they never hesitated. Tom Quong Kee belonged to the opposing tong. His tong had killed a brother tongman of theirs and it must pay "a life for a life."

In Mina, Tom Quong Kee lived peaceably and quietly, doing most of the town's washing at his laundry. He was a familiar figure, smoking his pipe during the noon hour of warm sunny days, sitting in front of his rude building. The children and the grown folks alike of Mina knew him.

But, whether he lived peaceably or not he was marked to die at the hands of Hughie Sing and Gee Jon, members of a rival tong.

Hughie and Gee arrived at Mina, slipped up at night to the window of Toms laundry and shot Tom to death.

The next day they were arrested, Hughie Sing, who had lived much of his life in Nevada, confessed the story in all its details. The two were convicted and so, it came, that two Chinese members of the world's oldest civilization were ordered by a judge to pay with "a life for a life" by being the first to die by civilization's newest legal means.

Hard Court Fight

The tong of which they were members threw thousands of dollars into a court fight against the sentence and against the law. Some of the shrewdest of Nevada's lawyers were employed. But at each step they were defeated until, after two years of futile fighting, these two Chinese were to be led into the room where they are expected to go to sleep and never awake.

Russell's crime had none of the glamour of Chinatown. He was accused of having murdered Mamie Johnson, a little Indian girl. It was the old story of love which led to the wrong road and to murder in a jealous rage. But he came near to escaping death when courts found errors in his trial and at one time the judge refused to pass sentence. Finally the law prevailed with its demand for death and Russell heard himself ordered to die.

The execution was accomplished with scientific thoroughness. Two cells were used. They are portable affairs of stone made airtight with a plastered interior. Early that morning they were placed in the prison yard and connected with three pipes through which air was pumped in a continuous flow.

Into these cells the prisoners were led at the appointed hour and then at some moment unknown to them the valves in the three air pipes were turned on by three guards. Two of the valves have no effect. The third is so arranged that it shuts off the flow of air and turns in hydro-cyanic acid gas—one of the most deadly of poisons. In a matter of a few moments after this valve was turned the men were dead.

The three valves are used so that none of the three men who turn them can be certain that he was the man who turned the valve which changed the flow of life-giving air to a flow of death dealing gas. It is a matter of mental protection for the guards; that they may go on living without definite knowledge that they took a human life.

WAKE UP FRESH AND VIGOROUS AFTER USING VEGETABLE SYRUP

There are lots of people here who are neither very well nor very sick, but who never really feel their best at this time of the year. And the trouble in the majority of cases, is due to the sluggishness of one vital organ.

This organ is your liver! When working properly it aids digestion, prevents constipation and purifies your blood. When it is clogged up with impurities, it cannot do these things until it is properly cleansed and toned. Consequently you often wake up mornings feeling dull and tired tongue coated, complexion sallow, digestion poor—often constipated, nervous and upset. You catch cold easily and your system is too run-down to throw off these ailments. You continue to feel badly until your liver has been properly cleansed and toned.

Get quick relief! Take just a spoonful of Dr. Thatcher's Liver & Blood Syrup after the next few meals. Notice the quick difference in the way you look, eat sleep and feel. This vegetable syrup contains only ingredients that are known to the medical profession for their corrective and healthbuilding properties. It is pleasant to take, and you will be completely satisfied; otherwise druggists will return the small cost.

Dr. Thatcher's Liver & Blood Syrup is sold and recommended by Dolan The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

2ND OF THURLOW

Filling ice houses is the order of the day.

We are glad to see that Mr. Clayton Houston is again able to be out after his illness.

Quite a number from this vicinity attended the box social given by the L. O. L. No. 342 at Shannonville on Friday evening. The proceeds amounted to $100. The program which was enjoyed by all, consisted of the following:

Opening Chorus.
Address—Dr. Edwards of Kingston.
Solo—Gordon Vivian.
Reading—Mrs. Mott.
Selling of Boxes.
Melrose Male Quartette.
Spencers Quartette.
Dialogue—Melrose.
Reading— Mrs. Mott.
Selection—Melrose Brass Band.
Piano Duet.
Solo—Mr. Totten.
Duet—Mr. W. Gray and Mr. A. Mitchell.
God Save the King.

A social evening was held at the home of Mr. Douglas Atkins last Wednesday. All present report a very enjoyable time.

Mr. and Mrs. Will Gray entertained some of their numerous friends on Thursday evening.

A few took in the hockey match at Belleville on Wednesday evening.

A number from this line attended the box social given in aid of the L. [illegible] Shannonville.

A very enjoyable evening was spent at the home of Mr. and Mrs. D. Atkins on Wednesday night.

Mr. Will Barlow entertained a number of young people on Saturday night to a skating party.

Miss Helena McDonnell spent the week end with her parents.

Owing to the storm on Sunday no service was held in Spencer's Church.

Mrs. John Donaldson is visiting in Toronto.

Miss Grace Moorman spent the week end with Miss Edna Wedden, Belleville.

Itching Eczema Dried Right Up With Sulphur

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

$1.65 & $2.00 yd.

"FLOUR" WHISKEY IS TAKEN AT TORONTO

Toronto, Feb. 11.—Whiskey trail between Toronto and Montreal, recently gave up perhaps the largest shipment of liquor that has fallen into the hands of the provincial police.

Forty barrels, containing 2,880 bottles of Corby's whiskey, valued at about $15,000 were seized by Provincial Constables Nelson, Carroll and Allen, in a freight car on a siding at the foot of Bathurst street.

The whiskey was shipped from the distillery at Belleville to Montreal, and left Montreal on Monday, ostensibly consigned from the Monarch Milling Co. as "forty barrels of flour" The destination, according to the freight bill was "J. Scott, Bathurst street, team track 57", and gave the weight of the "flour" as 12,600 pounds

A ROGUES' GALLERY

An elderly man of ultra-convivial habits, but withal learned and bookish, was haled before the bar of justice in a country town.

"Ye're charged with bein' drunk and disorderly," snapped the magistrate. "Have ye anything to say why sentence should not be pronounced?"

"Man's in humanity to man makes countless thousands mourn," began the prisoner, in a flight of oratory. "I am not so debased as Poe, so profligate as Byron, so ungrateful as Keats, so intemperate as Burns, so timid as Tennyson, so vulgar as Shakespeare, so——"

"That'll do, that'll do," interrupted the magistrate. "Ninety days. And officer take down that list of names he mentioned and round 'em up. I think they're as bad as he is."

A.—"She must have been surprised when her husband gave her such an expensive Christmas present."

B.—"No not surprised; suspicious."

A farmer rushed up to the home of a country doctor in the village late one night and besought him to come at once to a distant farmhouse.

The medicine man hitched up his horse. Upon their arrival, the farmer said:

"How much is your fee, doctor?"

"Three dollars," said the physician, in surprise.

"Here you are," said the farmer handing over the money. "The cabman at the station wanted four dollars to drive me home."

EUROPEAN TANGLE IS NEARING SOLUTION

DOHERTY, DISGRUNTLED, MOVES NO CONFIDENCE VOTE AT QUEENS PARK

Hon. Manning Doherty Causes Rumpus in Legislature Because He Is Not Designated Leader of Opposition — Two Appeals Taken From Speaker's Ruling

CENSURE REFUSED

One-Sided Divisions—U.F.O. Leader chafes at House Rules—Liberals Vote Solidly With Government Against Farmer Party

Toronto, Feb. 13—Two appeals by the "Progressives" from the ruling of the Speaker—the first in more than a decade—a motion of want of confidence in the Ferguson Government by Hon. Manning Doherty; a motion by the same member that was in effect a censure upon the Premier, and Premier Ferguson's accusation of "subterfuge" levelled against Mr. Doherty—all served to provide a hectic sitting of the Legislature yesterday.

Mr. Doherty was tripped up on a technicality when, rising to a question of privilege, he attempted to voice the protest of himself and his followers against Premier Ferguson's decision to recognize the Liberal group as the official Opposition. Mr. Ferguson took the ground that a member was entitled to arise on a question of privilege when his personal honor was concerned, and by no stretch of imagination, he said, could the affairs and status of a group be considered under that head.

Mr. Speaker's Ruling

When Mr. Speaker was called upon for a ruling he held that the clearly defined rules governing Parliamentary procedure upheld the Premier. He reiterated, however, the Premier's suggestion that the "Progressive" party Leader could bring the subject in later and debate it to his heart's content on a notice of motion.

Speaker Thompson became the storm centre of a chorus of protests and queries from Mr. Doherty and his lieutenant, Hon. W. E. Raney, who, finally, upon the Speaker's own

BAVARIA AGAIN SEETHING WITH BLOODY STRIFE

Fighting Breaks Out Anew Betwen Separatists and Germans oyal to Reich

LEADER IS LYNCHED

Twenty of Schwab's Followers Burned to Death in Pirmasin's City Hall

Berlin, Feb. 13.—(By Carl De Groat, British United Press Staff Correspondent)—Bloody fighting has broken out between Separatists and Germans loyal to the Reich in Pirmasens, Bavarian Palatinate, according to despatches here to-day.

Herr Schwab, Separatist leader, was lynched by a mob of infuriated loyal Germans. Twenty of Schwab's followers were burned to death in the City Hall. These Separatists had taken refuge in the building which was stormed by the loyal Germans and set on fire.

THREE ARRESTS IN ORLAND CASE

Mrs. Ash, Mother of Girl Mother charged with Bigamy

Further interesting incidents have developed in the Orland case where Mary O'Brien aged 17, gave birth to a child under circumstances which were of a revolting nature.

Mrs. Florence O'Brien, mother of the unfortunate girl now known as Mrs. Edward Ash, has, with her second husband, been arrested and at present they are in Cobourg jail. The charge preferred against the couple is bigamy.

Alleged Married Twice

It is stated that O'Brien the first husband is alive and residing near Campbellford. Mrs. Ash it is understood does not deny the fact that she knew O'Brien was living, but states that for some years he had neither lived with nor supported her. Ash is also charged with stealing chickens. George Giford, a companion of Ash was also arrested on a charge of stealing chickens. He appeared this morning before Col. Floyd, Police Magistrate of Cobourg and pleaded guilty to the charge. Sentence was deferred.

Care for Young Mother

Mary O'Brien, the young mother is at the home of Mrs. Thomas McBride at Orland and is doing as well as could be expected under the circumstances.

Ho! For the North Pole!

This is the advance party of the U. S. Navy's North Pole Expedition. They are flying to Alaska via Seattle from Washington, D. C. There they will make a base for the Shenandoah, the giant dirigible. Left to right: Hobert Francis, A. K. Anderson, Lieutenant B. H. Wyatt, in charge of party, and R. J. Carter.

TREES DOOMED IN THIRTY YEARS CLAIMS WITNESS

Engineer Tells Royal Commission Fire Danger Very Great

"GO UP IN SMOKE"

Canadian Forest Fire Protective Measures Are Declared "A Joke"

Montreal, Feb. 13.—Claiming that Canadian regulations for the protection of the forests are a joke, and that unless stern, effective measures of fire prevention are adopted and placed in operation, O. Sweezy, consulting engineer told the Royal Commission of pulpwood yesterday afternoon that within thirty years the accessible forest supplies would be exhausted. As a remedy he advocated a uniformed, trained force of rangers to patrol every section of woodlands.

Ninety per cent of our forests go up in smoke, compared to the ten per cent which is used in lumbering and for paper, declared Mr. Sweezy. He said afforestation was not practicable; the only thing to do was to prevent the enormous losses caused each year by fires.

The commission, composed of Joseph Picard, of Quebec, chairman and R. W. McLellan of Fredericton and A. B. Kerr of Toronto, as commissioners, was ready for business in the Board of Trade rooms yesterday morning, but nobody appeared to give evidence. In the afternoon, however, Mr. Sweezy and Albert Neighorn, vice-president and general manager of the Nichols Chemical Company of Montreal presented themselves. The hearing was continued this morning, opening at 10.30.

"Our forest fire protective measures are a joke", declared Mr. Sweezy, who said it was "hard to keep from swearing when discussing it." In his opinion, he said, the forest fires in the last twenty years had caused a greater loss than during the whole of the previous three-quarters of a century.

In connection with his suggestion that a force similar to the Royal Canadian Mounted Police be formed for fire prevention, the engineer declared that the lumber industry should be responsible for the cost, more particularly the pulp business.

The question of sulphur, a very important substance in the manufacture of paper, was brought up by Mr. Nieghorn, who said that practically all the Texas and Louisiana; He said the Saskatchewan sulphur was too far from the market and freight rates were too high to make its use practicable here, and that the European product was inferior in quality to United States were imported each year, but that it was only a question of time when the U. S. market would fail, and it would be necessary to fall back upon the Canadian product.

Mr. Nieghorn mentioned many of the chemicals required in the manufacture of pulp and paper.

MacDONALD DENIES SOCIALIST MEMBERS

(United Press Despatch)

London, Feb. 13.—On being questioned by Sir W. Davison as to whether any member of the British Cabinet belonged to Sozialistische Arbeiter Internationale the Premier made a flat denial.

COAL AND STEEL WORK IN MOTION

B. E. Steel Co., Concessions To Miners May Improve Efficiency

Montreal, Feb. 13.—An agreement was arrived at between the British Empire Steel Corporation executive and representatives of the United Mine Workers of America by which an additional $1,000,000 will go in miners' wages this year.

"It is confidently anticipated," said Roy M. Wolvin, president of the company "that as a result of a more thorough understanding arrived at, better operating conditions at the coal mines will result."

"It is a satisfactory agreement," said Silby Barrett, provisional president of the district and in this statement he was confirmed by Robert Baxter, the field representative and Messrs. Andrew Steele and William Dalrymple, the international representatives.

The contract will now be submitted to a referendum of the members of the district, but their representatives in Montreal expressed the opinion that it would be readily accepted on the vote.

By the terms of the contract it is in effect from January 16, 1924, to January 15, 1925, so that the scale becomes retroactive for those men who were at work since the former date. The existing practice with regard to explosives and the price remains unchanged. Coal furnished to employees will be at the rate of $3.60 an increase from the present rate.

The wage scale will be the same scale as in effect in 1923 with increases as follows: Datal men, underground, 30 cents a day; surface men, 25 cents a day.

Shooters and loaders, and contract men, including helpers, an increase of seven cents a ton. Hand pick miners an increase of eight cents a ton. Local contracts an increase of six per cent.

The agreement was signed by Mr. Wolvin for the corporation and Messrs. Barrett, Baxter, Steele and Dalrymple for the men, with Sir Newton Moore and R.M. Gray as witnesses.

Approximately 14,000 mine workers of various classification are affected by the scale and with resumption of work at the mines, the steel plant will be enabled to resume operations and that will start another 4,000, so that directly 18,000 men are affected by the negotiations. In addition there is a considerable number indirectly affected who will be enabled to resume work.

United Press Despatch)

Toronto, Feb. 13.—The population of greater Toronto is now 709,090 according to the latest City Directory. 74,974 of this number live in suburbs.

QUEBEC LIQUOR SALES FOR YEAR ARE $19,698,773

Net Trading Profit Totals $3,078,258—An Increase Of $4,485,971

COMMISSION REPORT

Notable Decrease in Consumption of Hard Liquor Feature of Report

Quebec, Feb. 13.—The second report of the Quebec Liquor Commission has been tabled in the Legislative Assembly here, satisfaction being expressed in government circles at the showing made for the year ending April 30, 1923, especially over the increase in the sale of wines and decrease consumption of hard liquor. Total sales for the year amounted to $19,698,773, net trading profit being $3,078,258. The total increase in amount of sales was $4,485,971.

The Hon. Jacob Nicol in presenting the report pointed out that the reason for the high price of spirits was due to the fact that the Federal Government got a big rake off through taxation.

The commission must pay to Ottawa $2.5[illegible] for each bottle of Scotch or Irish sold, $2.45 for each bottle of gin, $2.30 for brandy, $1.77 for Canadian rye and $[illegible].85 per gallon for alcohol, 65 per cent. overproof. This is for a 40 ounce bottle. The commission notes a large increase in the consumption of wines, which is the reason for the increase in sales by $4,485,971, but the consumption of spirits has dropped off.

Other revenue was $1,220,497 made up of fines seizures, permits and the 5 per cent. tax on beer. Beer sales fell off during the year, and this is attributed to the 12½ cents a gallon excise charged by Ottawa. The production of beer in Quebec for domestic use was 22,017,521 gallons with a value of $13,569,956 with an additional 207,413 exported from the province for a value of $127,500, and there was imported from three brewers in Ontario 558,836 gallons for a value of $893,741. At five per cent. on all this beer the commission collected $694,557, or $89,746 less than the previous year.

Law Well Observed

Tribute is paid to the manner in which the permit holders observe the law. There were more cases taken during the year, but the commission claims this was not due to more law breaking, but to greater police efficiency on the part of their own officers, to the campaign against clandestine establishments in which the Montreal police aided, and the better control it is possible to exercise over clubs because of the amendment to the law last year. The commission finds that many bootleggers got their supplies from licensed manufacturers operating excise bonded warehouses, and 19 of those establishments have been in-

(continued on page eight)

SCRAMBLE OF NATIONS TO FOLLOW BRITAIN'S LEAD IN RECOGNITION

RECORD PEACE LOAN IS MADE TO JAPANESE

Transaction Completed by Group of Financiers headed By J. P. Morgan

$150,000,000 TOTAL

Money Advanced to Japan to Return through Trade Channels to U.S.

New York, Feb. 13.—(British United Press).—A $150,000,000 loan, one of the greatest if not a record peace loan on international finance issue has just been completed between the Japanese government and a group of American financiers headed by J. P. Morgan.

The transaction completed at the Morgan home means that Japanese government bonds in this sum will be floated in the United States and certain European continental countries.

The money advances to Japan will for the most part, return to the United States through direct trade channels, constituting an assured business stimulus during the present year.

TO INVESTIGATE FARMER'S DEATH

Found Frozen on Roadside—Circumstances Bring New Development

Mr. Robert McKenzie, who resided about three miles north of Cobourg near the village of Baltimore, was a few days ago found frozen to death on the roadside with his team of horses standing near the body. At the time it was the general opinion that McKenzie had been thrown from his sleigh and injured and assistance not being available had frozen to death. Circumstances in connection with the affair have however arisen which demand an investigation and the Provincial police are at present engaged in the investigation.

NEW STEAMSHIP SERVICE

Genoa, Feb. 13 (British United Press).—Establishment of a new direct steamship service between Italy and Canada was announced here today by the Navigazione General Italiana. The first steamer will leave Genoa on March 7.

Austria and Norway Join Nations in Extending De Jure Recognition to Russian Government — Britain's Lead Followed by Principal European Countries

AMITY IS STRESSED

Premier MacDonald, in a Speech Before House of Commons, Pays Hearty Tribute to Poincare for Co-operation in Effecting Solution of European Problems

(United Press Despatch)

London, Feb. 13.—The scramble of nations to follow the lead established by Great Britain in recognizing the Government of Russia has been carried on at a great rate, and to-day advices from Austria and Norway stated that early recognition would be accorded the Soviet by these Governments.

Official despatches from Vienna, Austria, said formal moves toward Russian recognition had been made, and the policy would be carried out immediately.

Christiana declares that de jure recognition was scheduled for the "immediate future" and full particulars would be forthcoming as to terms. It is expected the British stand will be followed as closely as possible.

Premier MacDonald, in commenting to-day on the solving of this vexing European tangle by de jure recognition of the Russian Government declared that indication in all quarters point to an early peace settlement and adjustment of relations among the countries that have been strained since the war.

In addressing the House of Commons Tuesday, Premier MacDonald drew particular attention to the closer relationship and amity brought about between Britain and the French Government.

Astonishing optimism was shown by the Premier regarding Anglo-French relations. He paid tribute to the "hearty co-operation of Premier Poincare", and referred caustically to the "beastly clever despatches" of previous diplomatic controversies, which he said were like bricks thrown at people's heads. He declared, amid rousing Labor cheers, that, if negotiations are continued in the spirit in which they have been begun, before the year ends, "France and Britain should be whole-hearted co-operators with the other nations of Europe in establishing conditions for a European settlement."

It was noticeable, however, that in discussing the Ruhr, reparations, armaments and debts, Premier MacDonald was vague, and his refusal to answer the challenge thrown at him by Ronald McNeill, former Conservative Under-Secretary of Foreign Affairs, to state any particular in which his policy differs from his predecessors, was received with ironical Conservative laughter.

FREE TICKETS TO THEATRE FOR INTELLIGENCER READERS

Start To-night to Look for Your Name and Go to the Theatre—As Our Guest—Griffin's Showing Some Fine New Films

Through the courtesy of the Griffin Theatre management some ones in Belleville will get two free tickets to that theatre every night. Some where in the Classified advertisements in each issue of the Intelligencer will appear the name of some person who will be invited to call at the Intelligencer office to receive their tickets.

There are no conditions to this offer the names will be chosen at random from the directory and the tickets are absolutely free to the lucky ones. Look to-night in the classified columns and see if your name is there.

Everyone knows the fascinations of the "Movies". This is your chance to see the best films shown anywhere, as invited guests of Griffin's Theatre and the Intelligencer. The feature picture to be shown to-night is "The Eternal 3" and for the latter half of the week Marion Davies in "Little Old New York" will be the main attraction. The program includes the usual scenic and other features. If you cannot go to the theatre the night your name appears the tickets are good for any later night.

Free theatre tickets are not the only good things to be found in the classified ads. There, each night, you will see things offered which you might use to great advantage. Get the habit of reading the classified column. And, when you have articles to dispose of, rooms to rent, or any other wants, use the Intelligencer's Classified—it brings results.

Bells Ring Wrong Warning; Complications Now Arising

Madrid (United Press).—When the church bells of the hamlet of Cihur ring out, their chimes do not always mean to the populace a call of worship. On working days, they mean the approach of the tax collector.

Tax collectors have no friends in Cihur and when they approach the village, an aged watchman, notified by scouts, signals and priests who sound the church bells. And thereupon the good people drop their work and dash into the hills close by. Men, women and children have but a single thought when the alarm is given and the collectors can never find them in the dense forests.

But the system has led to legal complications. A few days ago a magistrate appeared to investigate the death of a girl who had been strangled. The watchman, believing him a tax collector, gave the signal and the magistrate found the village deserted. He sought out the local priest, to question him, but he, too, had slipped through the back door and reached the seclusion of the forest.

The attorney general of the county has ordered the arrest of all the town councilmen, the mayor and the priest.

Let there be harmony in things essential—liberty in things not essential—charity in all.

A THRIFTY RACE

The following talk on the results of Thrift Week and the value derived from the talks on Thrift given at the schools and colleges of Belleville will furnish a summary of the addresses as given.

Belleville is fortunate in having among her citizens speakers of the highest calibre, and those who gave considerable of their time during the past week toward impressing the youth of our city with the value of Thrift are to be congratulated on the work accomplished.

Never was the phrase "many men, many minds" exemplified with more versatility, than in the various addresses given in the schools and colleges of Belleville last week on the significant monosyllable THRIFT. We have epitomized the remarks of some of the speakers and we close the record by giving a brief summary of Colonel's Ponton's talk to the senior classes of the High School on Friday afternoon. By thrift we thrive—Economy is not miserly penuriousness; it is literally the management of the house and the household. We are all stewards—co-trustees of the heritages of life—to use—not abuse them nor let them die through disuse. Hoarding is not conservation, but we must husband our resources, national as well as personal. Develop your faculties; Preserve your friendships; make and keep friends. They are great assets. Preserve your traditions and memories—they are precious—and experience is one of the best teachers. Guard the truth and keep the faith—cherish your ideals. Keep the step—harmony and vibrant concord will carry you far and save many a jar. Make purposeful progress.

"Who learns and learns but acts
not what he knows,
Is one who ploughs and ploughs but
never sows."

If your work is the basis of all industry, agriculture, there is no reason why you cannot combine culture and agriculture but remember that—

"He who by the plough would thrive,
Himself must either hold or drive."

Do your own work—use your own (and those the best) tools. But be greater than your tools. The farmer must be greater than his farm—the scholar greater than his books. The mind and will should be cultivated. He that wavereth is like a wave of the sea. Dollars are mighty but not almighty. Money is the denominator of value. Remember the difference between value and price. Keep a debit and credit account—and a balance sheet. Especially record liabilities and responsibilities, sins of omission and commission which are bills payable some day.

Keep a bank account—money grows and works while you sleep. Put on life insurance not as a gamble with death but as a sure investment and provision for the future for yourself and near ones. A bank account and a policy will increase your self respect and confidence. Cultivate independence of character but not bumptiousness. Be plus not minus. Be positive not negative. Create, do not destroy. Be good, anyone can be bad. Work with a will. Have a zeal for work—a zest for play—a quest for the best.

"If you can fill each unforgiving minute
With sixty seconds worth of work
well done,
Yours is the earth and everything
that's in it
And what is more, you'll be a man,
my son!"

The Master said "My Father worketh hitherto and I work". Don't be misled by demagogues who would cut short your hours of work and limit your output. Time and health are precious possessions—use them to the full. Read "How to live on 24 hours a day"—and apportion these hours aright. Carry on and hand down. Share generously but discriminatingly.

"Neither a borrower nor a lender be
For loan oft loses both itself and
friend,
And borrowing dulls the edge of husbandry."

If you gain, consolidate your gain—dig yourself in, but don't bury your talents. "He grew in wisdom and in stature and in favor with God and Man" is the ideal. In a few years after leaving school you will look back with filial affection and will say of Principal and Staff as Kipling did:—

"Let us then praise famous men,
Ancients of the College,
Men who taught us common sense,
Better far than knowledge;
For their work continueth,
Broad and deep continueth,
Great beyond their knowledge."

Thrift is common sense and all life is a school: Be factors in it.

EDITORIAL NOTES

The first broadcasting station was a back fence.

—o—

Girls would dress sensibly if men were not insensible to sensible things.

—o—

A lower price for sugar is predicted. Oh, well, there isn't much to ferment at this season.

—o—

Premier MacDonald faces his first fight over relief to the jobless. Conservatives declare his policy to be pure socialism. It is now up to the Labor party to show its cards.

—o—

A machine has been invented that will shake the furnace, supply it with coal—and empty the ashes! Many a bored householder will believe that the millenium has as last arrived.

—o—

Premier MacKenzie King sent his photo in a silver frame as a wedding present to Miss Booth of Ottawa. Possibly the first bachelor of Canada intends the gift as a subtle reminder of the joys of single blessedness.

The following poem which appeared in Toronto Telegram was written by A. Lilsrub and is written in memory of Charles Thomas Bulpitt, English homeboy who committed suicide by hanging.

HOME BOY'S LIFE

Only a 'Ome boy—
Back on the farm.
"Inspectors" to guard him—
Keep him from harm.

Two barns to tend to,
Slaving all day;
No one to cheer him,
No mother to pray.

Life gets unbearable,
Outlook monotonous;
Flinthearted taskmaster,
No one to "give a cuss."

His British blood triumphs,
He flees from his fate;
This only increases
The slavedriver's hate.

He seizes poor Charlie,
Beats him with a strap;
O Britain, my country,
Your cub's in a trap.

Like wild life ensnared
He prepares to die;
Father, have mercy
When he reaches the sky.

With farewell schoolboy chums
He jumps from the mow
Mother of nations
He won't need you now.

His "contract" is finished,
And now he is dead,
Shall our people prosper
From the dog's life he led.

Magnificent Canada—
Broad as the seas,
Let's guard little 'Ome boys
From crimes such as these.

PRESS OPINIONS

THE LIVING BRIDGE

(London Times)

In this pitting of East against West of class against class, lies a very real danger not only to Mr. King and his Government, but to Canada itself. It is a danger that can only be surmounted by the bridging of the great geographical gap which divides the two communities.

Once the traveller leaves the cities and farmlands of the East, he must travel mile upon mile through country where never a man or a house is to be seen before he reaches the gateway of the Golden West. Small wonder, then, that such a gulf exists between the aspirations of the western farmer and the understanding of his countrymen farther east; it is only by the living bridge of population that the gulf can be spanned.

If Mr. King is successful in coming to a more definite understanding with the representatives of the very men who have turned the rolling prairies into rich wheat fields, and who ought to be the first to welcome new settlers there is no reason why he should not continue in office for some time to come.

And if his government directs its energies a trifle more vigorously towards this question of population, it will certainly help both to strengthen its own position and to safeguard the future of the Dominion.

AUTOCRACY OF WEALTH

(New York American)

The United States is not a democracy today. It is not a republic today. It is an Autocracy of Wealth—an autocracy where corrupt wealth has seized the political power, and, using it corruptly, discredits all those who possess property, no matter how honestly earned or how wisely and patriotically used, thus imperilling the very institutions which protect, or should protect, all citizens in their freedom, their rights and their possessions, including the honest possessors of large property as well as the possessors of small properties.

The only way to end this growing menace of bribery and plundering is to end the political power of this Autocracy of Corrupt Wealth. As long as bosses can pack conventions and dominate party candidates in the interests of corrupt wealth, so long will there be bribery and public plundering and protection for the bribers and the public plunderers.

As long as public officials can give away public property without the expressed consent of the people, as long as legislatures and congresses can enact legislation in direct defiance of the people's will, so long will the public plunderers seek a secret and sinister ways to improperly influence the representatives of the people. As long as judges can do as they please without fear of anything the people can do them, so long will judges be irresponsible tyrants and judicial decisions be made to order of powerful financial interests.

LENIN THE BUTCHER

(Boston Transcript)

The judgment of history will surely place Lenin in the list of the great scourges and destroyers of men. It may be doubted indeed whether any individual was ever responsible for the death of so many of his own countrymen as Nikolai Lenin. As a taker of human life, he will not soon be forgotten.

HUMANS NEED GOD

(Sacramento Herald)

Russia's "supreme revolutionary tribunal" forbids all Russians to pray for the Patriarch Tikhon in private or public prayers because he is accused of a crime against the state. They musn't pray for anybody accused by the state.

That's part of Russia's effort to fight religion with laws and other devices. Near churches they put up a sign: "Religion is the opium of the people." And recently the government undertook to manage a "non-religious Christmas Day celebration."

Fighting religion is like trying to mop up the Pacific Ocean. Voltaire knew it. "If there hadn't been a God it would have been necessary to invent one."

Human beings can no more do without religion than without air or water, as Arthur Brisbane observes.

"THE WILD PARTY" COMING TO THE REGENT

The English libel law of "the greater the truth, the greater the libel" would put a tremendous cramp in the style of the average American newspaper reporter, especially Gladys Walton, in the latest Universal attraction, "The Wild Party", coming to the Regent theatre Thursday to Saturday.

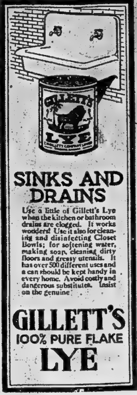
When an American reporter writes a story about a minister running away with the wife of the corner grocer, all his paper has to consider is the correct statement of the facts in the case. "If it's true it isn't libelous. But it must be accurate!"

Before Herbert Blache began the filming of "The Wild Party" he made a careful study of the libel laws relating to the publication of news involving to the slightest degree any angle which might be construed as libelous.

For one of the big punches in the picture hinges on this point. A sensational news story had stimulated street sales and a girl reporter was considerably elated over the "scoop" which she had put over on the rival papers. Then the bombshell burst.

A libel action to the extent of $100,000 was filed against the newspaper which had printed the story. Only part of the story was right!

"The Wild Party" was written especially for Miss Walton by Marion Orth of the Universal scenario department and the continuity, or working script, was written by Hugh Hoffman.



SINKS AND DRAINS

Use a little of Gillett's Lye when the kitchen or bathroom drains are clogged. It works wonders! Use it also for cleaning and disinfecting Closet Bowls; for softening water, making soap, cleaning dirty floors and greasy utensils. It has over 500 different uses and a can should be kept handy in every home. Avoid costly and dangerous substitutes. Insist on the genuine.

GILLETT'S
100% PURE FLAKE
LYE

ALL STAR CAST AT GRIFFIN'S

Marion Davies assumes the role of a comely young lad in her Cosmopolitan picture "Little Old New York" which will be the attraction at Griffin's theatre for three days beginning Thursday. She appears in the smart togs worn by the youths of a century ago when men were allowed more latitude in their style of dress. Embroidered waist coats and high silk hats made the men of 1820 able to vie with the women in becoming costumes.

All the quaint charm of New York as it was a century ago is revived in this super-picture in which Miss Davies plays the role of Patricia O'Day a little Irish girl who comes to America and disguises herself as a boy. The fair young star had her hair cut in a short bob in order to look more boyish. She makes of young "Pat" a most interesting character. The climax where "Pat" is forced to give up the disguise and reveal herself as a forlorn and frightened little girl is one of the most unique and thrilling episodes yet seen on the screen.

Woven into the picture is a beautiful love story which is as sweet and appealing as the old-fashioned mignonette which the belles of that day planted in their gardens. "Little Old New York" was adapted to the screen by Luther Reed from the stage play by Rida Johnson Young. Sidney Olcott directed and Joseph Urban designed the settings.

In the cast are more than a score of players well known on both stage and screen. Among them are Harrison Ford, who plays opposite Miss Davies, Mahlon Hamilton, Norval Koedwell, Louis Wolheim, Courtenay Foote Sam Hardy, J. M. Kerrigan, Gypsy O'Brien, Mary Kennedy, Charles Judels, Spencer Charters, Riley Hatch and others.

Removed from the thoughts and environment of the ordinary work-a-day world, forgetting for the time being you are in a theatre seat, is the delightful sensation experienced by those who will witness the remarkable screen version of Emerson Hough's tale, "The Covered Wagon," the big Paramount production to be seen at the Griffin's Opera House for three days, matinee daily, beginning Feb. 18.

This is much more than a motion picture, far greater in scope and appeal than any stage presentation; it is truly an epic of American life and one calculated to appeal to the finer emotions in that it has to do with a period of American history and development of which we are all justly proud. Not the wage of battle against exterior aggression nor the wreck of war for preservation of national integrity, but a heart, mind and body struggle to advance the greatness of the United States. In this struggle enthralling to behold we see both sexes, young and old, all part of the indomitable American will to go on to better things. This film presentation is accomplished in a manner thoroughly in keeping with the spirit it reflects and its striking characterizations are essayed by actors of ability who seem to share full well their responsibility to the national ideal. Among the noted players seen in the various roles are Lois Wilson, J. Warren Kerrigan, Earnest Torrence Tully Marshall and others.

A special orchestra of symphony musicians carried by the Company will play the accompanying score.

Pen Sketches By a Local Bard

ROSES ARE RED

We had a bad quarter of an hour in a store today. It had been our intention to browse about and quite casually select a suitable Valentine message, something that would carry conviction without appearing to protest too much. We had even timed our expedition for the noon hour in the hope that the place would be more or less deserted and that consequently we should have the privacy which so delicate a mission would seem to demand.

At first we appeared to have succeeded in our purpose for we had the place to ourselves. Camouflaging our real objective, we examined a few books; mah jong sets next engrossed our counterfeited interest; then we experimented with some new fangled pencils But all the time we were gravitating toward the tables where passionate greetings. Another step and we should have made a quick pounce and borne one of them away in triumph.

But we were not to be allowed to placate the Saint that easily. The chances are that we would have hit on a folder that would have served its purpose as effectively as any of them. However, a smiling saleslady actuated no doubt by the most praiseworthy motives, stepped forward to expedite our deliberations.

"Something in a Valentine greeting, sir?" There was an intimate understanding in the smile that accompanied the words; a sort of maternal tolerance of the frailty evinced in our furtive quest.

In some confusion we acknowledge the charge and submitted the thing we had picked up.

"Ah, very dignified, too," she said beaming on it, "Shall I wrap it up?"

Somehow, we did not like the sound of the adjective she had applied to it On reading the couplet, we decided that it was so dignified as to run the risk of being interpreted as even cool. Obviously, it would not do.

Meanwhile, with the most eager enthusiasm, the lady had been ransacking the pile. She came up with a complicated folder of many colors. There were windows in it and all that.

"So quaint, don't you think? And hand-painted. Very distinctive, really. Dear me, I don't know how many we've sold of these. See the little doves Aren't they just too cute for anything." But we are not listening. The thing was so modish as all that we would have none of it. We did not want our Valentine to be a duplicate or triplicate of other trophies that the lady will unseal tomorrow.

Sensing our revulsion of feeling, our fair mentor tried to win our approval of other cards. But the colors which she described as chaste and refined seemed to our restless gaze flambouyant and garish; the sentiments she hailed as sweet and restrained sounded only hackneyed and tortured doggerel; did she try us with whimsical efforts we voted them too flippant.

In the end, we compromised on a modest sort of card. The lady still retained her good humour. "Only one?" she asked playfully, as much as to say "What sly rascals you men are!" It was rather a flattering implication but we were forced to disclaim it. Besides, we had had enough of picking valentines for one day.

Since mailing the thing we have an uneasy premonition of trouble brewing. Later in the day, we saw a card, very much like the one we sent displayed in a window. And it bore a title-line that we had not noticed before, namely: "To My Dear Sister."

In other words after all the trouble we took, we may seem to have offered to be only a brother to her!

FASHION HINTS

As we see it, the supreme advantage of ordering an extra pair of trousers with a suit is that you do not have to "wait" while the aforesaid trousers are being pressed.

The date on which a man's suit ceases to be his "Sunday-go-to-meeting" may be fixed fairly accurate as the first night on which he neglects to put it on the hanger.

So men give their trousers a hitch when they sit down in order to ward off bagging at the knees; others wear quiet sox.

STILL AT LARGE

Jerushabel Jopping had a worried look when he dropped in this morning In answer to our solicitous inquiry, he said:

"I've been all up and down the City Hall and none of them high-faluting clerks can't tell me where to get a permit."

"Permit for what?" we asked. "To carry a revolver?"

"No," replied the dejected minstrel "one of these here poetic licenses you reads about."

SUCCESS SECRETS

"What is the secret of success?" asked the Sphinx.

"Push," said the electric bell.

"Take pains," said the window.

"Always keep cool," said the ice.

"Be up to date," said the calendar.

"Never lose your head," said the barrel.

"Make light of everything," said the fire.

"Do a driving business," said the hammer.

"Aspire to greater things," said the nutmeg.

"Find a good thing and stick to it," said the glue.

QUITE NOTICEABLE

Another big difference between a tightwad and a good fellow is that the former never seems to have any money and the latter never has.

"Cascarets" 10c if Sick, Bilious, Constipated

"They work while you sleep."

When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

OUR RUBAIYAT

Though you sit in an office and polish
a stool
With the seat of your one pair of
pants,
And the reason you don't give it up
and get out,
Is only the lack of chance.
Tho your boss is a man with a berserker rage,
And to please him's a hard thing to
do,
It's a rather safe bet that when he
was your age,
He was considerably worse off than
you.

Your particular job you may firmly
believe,
Is the worst which you ever had,
And the previous jobs you'll quite
freely admit,
Were every last one of them bad.
But tho you are far from your ideal
work
And your ambition is changing your
lot,
The easiest way to that far better
job,
Is "Make the best of the job you've
got."

J.A.N. Daranceau, Ed.

ROMANCE FLIES

Before the ceremony he wants to know when he can have her for his own; after the ceremony he wants to know when dinner will be ready.

We suffer individually for the sins we commit; socially for the sins we permit.

Stubborn Coughs Stop Quick With Home Made Cough Mixture

Not until you make your own cough mixture—a half pint of it for a small sum—will you know how easy it is to stop any bad persistent cough as if by magic.

It's pleasant tasting, but that don't stop it from knocking out a cough quicker than anything else in the world. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

This loosens the phlegm, stops the irritation, allays the inflammation, cleans out clogged nostrils, makes breathing easier, and causes sore throat and hoarseness to disappear.

With speed almost beyond belief, this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing healing poultice and blessed relief comes at once.

And it is always worth while to bear in mind that any remedy that overcomes catarrh partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

"What is the secret of success?" asked the Sphinx.

"Push," said the Button.

"Take Pains," said the Window.

"Always keep cool," said the Ice.

"Be up to date," said the Calendar.

"Never lose your head," said the Barrel.

"Make light of everything," said the Fire.

"Do a driving business," said the Hammer.

"Aspire to greater things," said the Nutmeg.

"Find a good thing and stick to it," said the Glue.

WEDDING BELLS

NICKLE—TEBWORTH

At two o'clock yesterday, Tuesday 12th February, at 284 William street, there was completed one of those serious but joyful partnerships which is to continue till "death do us part" when Mr. William James Nickle of Cobourg, cousin of Rev. Mr. Nickle, and Miss Grace Tebworth, daughter of Mr. Wm. Tebworth were united in Holy Matrimony by the Rev. Albert L. Geen, P.D. Miss Minnie Aut was birdesmaid and Mr. Morey Nickle was best man. The bride and bridesmaid were both gowned tastefully and chastely in white. After the ceremony all retired to the dining room where a bountiful feast was in waiting. The happy couple left by the evening train for the west. They will reside in Cobourg.

Mild Weather Prophets Lose

Predictions often fail and this is certainly the case in regard to weather conditons we are at present experiencing. Last fall, from causes unknown to the writer, many made the prediction that we would have a mild winter.

Those making the predication evidently are not living in the open, but rather enjoying the comforts of home life. Since the first of January there has been everythng but an open winter, unless it was that it was open at the north and south with north winds prevailing. Cold with considerable snow has been the rule and last night was no exception. During the night the self-registering thermometer at the city pump house registered 11 degrees below zero and at an early hour this morning it was 8 degrees below. Probabilities however indicate that the temperature will rise, which will be welcomed.

VALENTINE TEA

Under the auspices of the Parish Guild in connection with Christ Church, a Valentine Tea was held yesterday afternoon from 4 to 6 o'clock.

There was a large attendnce at the tea and the good things provided by the ladies were much appreciated. The tables were appropriately decorated for the occasion. The sale of homemade cooking netted a goodly sum to the treasury of the Guild.

Oldsmobile

The World's Lowest-Priced Six

THE new Oldsmobile Six is a sensation: A Six—and an Oldsmobile—at the price of a Four.

In finish—in appointments—in equipment—in performance—this new Six upholds every record of Oldsmobile tradition.

Delco ignition—Borg and Beck Clutch—Nickelled radiator—beautiful body lines in Six models, including handsome Sport and Closed cars. These features but indicate the general high standard set by the Oldsmobile Six.

And the Service facilities are on a par. Call around and inspect the New Six.

Deaths and Funerals

LAURA BLACKBURN

Many were the expressions of regret heard when it became known yesterday afternoon that Miss Laura Blackburn had passed away. Deceased was a popular young school teacher having for nearly three years taught at the Prince of Wales school in Thurlow Township, where she was exceptionally popular with the staff and pupils. Miss Blackburn was 23 years of age and was born at Smith's Falls where her parents, Mr. and Mrs. John Blackburn reside. Deceased since residing here had been identified with St. Andrew's church. She was a member of the choir, also an active worker in the Guild. One brother, William Wilbur, of Toronto; and a sister, Eva May, at home with the parents survive. The body after being prepared for burial by the Belleville Burial Company was to-day taken to Smith's Falls for interment. A number of beautiful floral designs were evidences of sympathy. Pupils of Prince of Wales school escorted the body to the station.

DANIEL HUNT

One of Belleville's oldest residents in the person of Mr. Daniel Hunt, passed away at an early hour this morning at the residence of his son-in-law, Mr. Edward O'Rourke, 118 Pinnacle street. Deceased who was 94 years of age was born in Ireland and for a number of years was engaged in farming at Cloyne, Ontario. For the past four years Mr. Hunt had resided in Belleville. Deceased was a member of St. Michael's Church. Mr. Hunt was much respected by all who knew him. An aged widow, two sons and three daughters survive. The sons are John of Saskatchewan, and James of Newburg, and the daughters are Mrs. Armstrong of Toronto, Mrs. Mulvahill of Frankford and Mrs. Edward O'Rourke of this city.

SOCIAL AND PERSONAL

Mr. F. R. Wotten is a business visitor in Toronto today.

Mrs. Knight McGregor of New York City is in this city owing to the serious illness of her father.

Mr. William Inglis of the Y. M. C. A. staff who underwent an operation at the General Hospital here yesterday is reported to be progressing very favourably today.

Members of the Y. W. C. T. U. were off duty last evening and after an hour's sleigh drive through the crisp snow, they made a call on their beloved leader, Mrs. John Williams. After a brief impromptu programme, participated in by Mis Maude Sine and Mrs. Williams herself, the guests departed singing "She's a jolly good fellow," and all repaired to the home of Miss Reeves where a substantial lunch was appreciated.

Scramble

(Continued From Page One)

The Final Aim

The final aim, Foreign Secretary MacDonald declared, was to come to an agreement to limit armaments, and to that end he proposes to do all he can to increase the character and authority of the League of Nations. The most significant passage of his speech was:

"We are working to settle permanently European problems, and I feel sure as soon as America knows these problems are being attacked from a new viewpoint and with an idealism which does not mean more expenditure on armaments—as soon as America feels there is something large, something moral in the spirit in which these problems are being aproached, then we will not have to go cap in hand to America to beg her to come in, but America will be perfectly willing to do her share in the great work."

The Premier believes that, after the expert committees have reported and the way is clear to take up reparations and debt settlement, the United States will take part in, perhaps summon, a world conference. But the Premier himself has made no plans for any conference. He also believes that his new methods, coupled with the changed political situation in France, have inclined Premier Poincare to moderation, and is most optimistic regarding the general situation so much so that he broadly hinted to the House to-day what was cabled recently that he proposes to retire as Foreign Minister as soon as these problems are on the way to settlement, which he believes is a matter of a few months only.

Large Crowd At Palencia Dance

Johnstone's dancing academy was crowded last night, the occasion being the happy monthly assembly of Palencia club members and guests. A most enjoyable evening resulted, a choice dancing programme having been presented.

Just before the lunch waltz, a pleasant and successful Leap Year novelty dance was given, which made a great hit with the guests. It was a case of unique favors each containing a number having been issued, after which the ladies searched for the corresponding number which would disclose the identity of their partner. The Leap Year scene was hilarious. Two numbers were then called by at random, and the young lady and gentleman holding the respective numbers won the prize awards. Miss Morton won the ladies prize, and Mr. T. Gage won the gentleman's award.

The usual bounteous yet dainty lunch was served before a midnight. The music for dancing was dispensed by the Bon Ton orchestra. This was the Bon Ton's initial appearance at this club dance, and the work of the young musicians was favorably commented upon on everyside.

Son Told Mother Merits of Tanlac

"The best I can say is not half good enough for Tanlac," is the exact statement of Mrs. Marie Sweeney, 3?4 Murray street, Peterboro, Ont.

"I was all run down, weak and thin and just suffered agony from indigestion. I had dreadful stomach pains and gas would almost convulse me. Nervousness nearly set me distracted and many nights it was almost daylight before I could get to sleep.

"My son had come home from the war, shell shocked, extremely nervous and so thin we hardly knew him. He wrote from Detroit 'Mother get Tanlac, for it has made a new man of me'. The medicine had actually built him up thirty-five pounds. Well, I took it, too, and every ailment left me, I gained twelve pounds, and was soon as strong and healthy as ever. While that was a year and a half ago I have never had a sick spell since, and I am still feeling fine."

Tanlac is for sale by all good druggists. Accept no sustitutes. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

Co-eds Practise With Real Baby

State College, Pa., Feb. 12.—Co-eds at Penn State are learning the art of housekeeping in a modern house with a modern baby.

Jackie Hillcrest, 10 months old, is probably the luckiest, or maybe the unluckiest, child in the United States for he has 26 "mothers" to care for him, and yet he has no real mother.

No one knows exactly where Jackie came from and no one knows what will become of him. At present he is a son of the Nittany Lions.

The baby was installed after the students complained to the college authorities that they needed a "tot" around to get first hand experience in the ultimate of happy home life for a woman.

They had a model home, equipped with gas and electricity and every convenience in which to study the arts of domesticity and economy, but it was decided that a necessary acquisition to the equipment was needed, so Jackie was installed as lord and master.

Jackie however, is just like other boys, in that he had only one "mother" at a time. The girls are assigned to the cottage in groups of six for a week at a time and each takes her turn at being hostess, chambermaid, cook, assistant cook and mother to Jackie.

Jackie appears to like his new surroundings, but does an immense amount of sleeping. He is being raised with modern methods and spends his awake hours smiling at the fair co-eds who flock to Hillcrest Cottage to pay their respects to the popular youth.

WOMEN APPRECIATE NEW LOCAL SERVICE

Mrs. Maude Darlington, who for the past nine years, has been connected with Ritchie's Corset Department, has just returned after spending a week of intensive training, in the Gossard School of Scientific Corsetry.

The Gossard Training School is practical and not theoretical. Besides the instruction in pointing out the anatomical essentials, to be observed in the adjustment and proper fitting of corsets, the course consists of medical fittings.

Mrs. Darlington passed all examinations with high honors and received her diploma as a "Graduate Corsetiere" having completed the course of study in the science and practice of corsetry, and having given satisfactory proof of proficiency in corset fitting and merchandising.

The Ritchie Company are justly proud of Mrs. Darlington's good showing and feel that through her knowledge of corsetry they can offer a service of paramount value to women of the community.

Corset Department Changes Location

This department has been moved to the front store (rear) together with knitted and cotton underwear and whitewear. Here it will be found a far more favorable spot for this class of merchandise, and with a competent and acknowledged corsetiere in charge, promises a unique service.

All fittings are positively free and all are invited to take advantage of this special opportunity.

Mrs. Darlington is always ready to impart any information required, in a very capable manner.

Scorned By Woman For Another Man; Turns Gun on Selt

Foreigner Living In Oshawa Carefully Plans Suicide When left alone in Boarding House

Oshawa, Feb. 12.—Infatuation for a woman who had grown tired of his affection is believed to have been responsible for the suicide of a Galician, named Kyrylo Budzyshyn, who killed himself with a shot gun at the home of Mr. and Mrs. Pete Yulek, 118 Olivo avenue, with whom he boarded, on Saturday morning. The victim of the suicide, although he was a maried man with a family in Galicia, had for some time been living with a woman, a widow, named Naskia Lukiw, and while the authorities are perfectly satisfied that the man's death was a clear case of suicide, they have also learned that a sordid condition of affairs in connection with the man's life had existed for some time.

Clear Case of Suicide

Coroner Dr. F. J. Rundle, who was called to the Olive avenue house a short time after Budzyhyn shot himself found the man dead and lying in a pool of blood on the main floor of the house. The coroner made a thorough investigation of the affair with Constable Flintoff and Court Interpreter Eigel who had been assigned to the case by Chief Friend, and as all evidence indicated that the victim had made deliberate plans to take his own life, and had been alone for nearly two hours, he announced that it was a clear case of suicide and that an inquest would be unnecessary. The woman in the case, however, who is still in Oshawa, is to be closely questioned by the police, and it is understood that an effort will be made to have her deported as an undesirable.

Carefully Planned Suicide

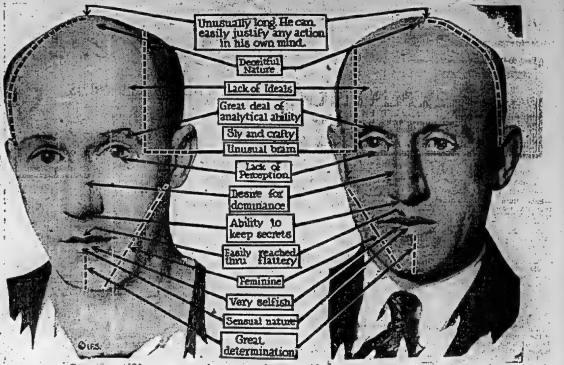
According to the information given to the authorities Budzyshyn ended his life around 10 o'clock on Saturday morning, and there is no doubt but that he made careful preparations for the rash act. He had not worked since last fall, and his last place of employment had been at the Ontario Malleable Co., where he worked as a laborer. On Saturday morning Budzyshyn appeared as usual, although the Yuleks had noticed that he had been brooding oveb the woman with whom he had been rooming and who had left him last Tuesday. Mr. Yulek left for his work as usual at seven o'clock, and about 9.30 Mrs. Yulek left her home to go up town to do some shopping. About 10.30 neighbors heard a shot ring out from the Yulek home, and they were just in the act of entering to see what was the matter when Mrs. Yulek returned. On opening the dorr she was horrified to see her boarder lying in a pool of blood on the floor and dead. Mrs. Yulek swooned away, but some of the neighbors raised the alarm and Dr. Rundle was the first official to reach the scene.

THE ONLY WAY

"Did he borrow any money off you?"

"Borrow! How can I tell unless he returns it?"

Do Killers Look Alike?



Do killers look alike? Here are Carl Wanderer (left), who killed his wife and a "ragged stranger" in June, 1920, in Chicago, and Warren J. Lincoln (right), who has confessed to murdering his wife and brother-in-law in Aurora, Ill. The character analysis of the two men, used above, shows a striking resemblance in almost every facial feature.

Dying Princess Now In Poverty

(United Press Staff Correspondent)

Berlin, Feb. 12 (United Press).—Once favorite of the German Court and noted for her striking beauty, the Princess of Pless is dying in a Berlin sanatorium of tuberculosis of the spine.

This famous beauty, born of the British West family, is ending her days in hopeless and straightened circumstances. Sometime ago the princess obtained a divorce from the Prince of Pless, one of Germany's wealthiest men. Gossip had it that the divorce was a pre-arranged affair, especially as the Prince was interested in marrying a young and beautiful girl.

This girl, however, is a Catholic and hitherto efforts to have the second marriage permitted are reported to be unavailing. The princess is allowed a modest alimony, but this is now scarcely more than pin money.

During the war the Princess of Pless was regarded with suspicion by the kaiser, who felt she was too friendly to people of her own race. The princess was a ministering angel to hundreds of British officers and tommies in German hospitals and prison camps.

And the old court society still recalls the mysterious death of Archduke Adolf Friedrich of Mecklenbourg-Strelitz. Gossip had it that the kaiser sent him a revolver with which to end his life rather than to have him tried on spy charges, because of his friendship for the beautiful British-born princess.

The doctors say she may live three months. She is dying alone, ignored and deserted by the host of friends who danced attention in the days when she held sway in a castle unequalled in Germany.

Gave Dollar a Day To Church Treasury

Chicago, Feb. 12.—In 1873 Charles H. Knights, founder of the Knights-Tiearle Company here, helped organize the Englewood Baptist Church and pledged himself to give $1 a day to the church as long as he lived.

Knights made good his vow, his recent death in California revealing, he paid $18,302 into the church treasury. For 31 years Knights had kept his donations secret, until accidentally discovered by the minister of the church.

Knights came to Chicago in 1865. Three years later he entered the jewelry business and founded the concern bearing his name, he was poor when he helped organize the church but believed he should give a definite part of his earnings to it.

Recipe To Clear A Pimply Skin

PIMPLES ARE IMPURITIES SEEKING AN OUTLET THROUGH SKIN PORES

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate; then the blood uses the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tblespoonful in a glass of water each week. This will help prevent the formation of toxins in the bowels. It also stimulates the kidneys, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant effervescent drink which usually helps make pimples disappear.

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

PRISON CONVERSATION BRINGS MURDER CHARGE

Toronto, Feb. 12.—Within the walls of a jail in northern Quebec two prisoners met recently, and as a result of their conversation, Verettee Cossette, young man of 23 years, is to be taken to Cochrane and charged with the murder of six year old Monica Foster last July. Provincial Inspector Moore of Cobalt and Inspector Ward of this city are now arranging for the transfer of the prisoner to Cochrane for trial.

At the present time Cossette is under sentence of seven years in St. Vincent de Paul penitentiary for a serious offence against a little girl. He was arrested in Pontiac county Quebec.

"Any unemployment in this part of the country?"

"Some," answered Farmer Corntossel. "The only thing that's workin' on Si Simlin's place is a barrel of cider."

HERE, THERE AND EVERYWHERE

FANNING WITH FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 13 (United Press).—Babe Ruth wants to hit 60 home runs next season, and win, in addition the American League batting championship.

The Babe is no half-way fellow. When he picks out a job for himself he certainly does not look for soft spots.

The way he goes about things, he would take on Dempsey after a couple of warm-up bouts, if he ever went into boxing. It will be recalled that the Babe cherished a secret ambition to become a boxer and he believes that he could have made good in the ring. When he came to New York recently, from his New England farm, Ruth said he knew he could hit 60 homers, if the Yankees were still using the Polo Grounds, but he doesn't like the layout of the Yankee stadium.

"I may not be able to crack my home-run record, but I know I'll get that batting championship," the Babe said. "If I had started out last season with that object in mind I would have led the league."

By his conduct last winter, the way he played during the 1923 season and the good care that he has been taking of himself this winter, the Babe certainly has earned public faith and confidence in himself.

When he says he is going to do a thing, there is no reason to believe that he does not mean it.

• • •

Senator James J. Walker, father of the Sunday baseball bill and the boxing law, discussed Ruth when he was making a speech at the recent dinner of the Baseball Writers' Association.

Senator Walker lives at St. Luke's Place, on the lower west side of New York, near Greenwich Village. He gave an example to illustrate the point he made that Ruth as one of the greatest inspirations for the kids of the whole country.

"There's a public playground right in front of my house," the Senator said. "Kids by the hundreds, from the nearby tenements, gather there daily. I always walk through the playground on my way to my office, and I have acquired quite a list of acquaintances among the little urchins.

"One morning last summer, I was stopped by a little Italian boy.

"'Gimme a quarter, Jimmy, please,' he said.

"A quarter was more than the usual appeal for a penny or so, and I asked him what he wanted with 25 cents.

"'I want to buy a Babe Ruth cap,' he replied.

"That little urchin never had seen Babe Ruth play, and he never will, because when he gets old enough to have money to go to the ball park, the Babe will have passed. But, even though he had never seen his hero, the Babe was the biggest thing in his life," Walker said.

• • •

It was Senator Walker who, just a year ago when Ruth entertained the baseball writers, pointed out to the Babe the duty that he had to his public.

"Its the dirty-faced kids in the streets, down in the slums, to whom you owe your most sacred duty," Walker told him. "Don't do anything to shatter the faith they have in you. Those kids haven't much to inspire them, and you mean more to them than the President."

The Babe then made the promise that he had taken his last drink and that he was going to make good for the dirty-faced kids.

• • •

Senator Walker is still a raving baseball fan, but he has cooled toward boxing, which, he said at the recent dinner, had been very close to his heart.

He gave no reasons and he didn't mention the sport by name, but he got over the idea very plainly when he said:

"If there were a Judge Landis at the head of this sport, it would not be tottering.

• • •

It has been known for some time that Walker would not lift his hand or his voice if the legislature wanted to kill the bill which he put on the law books, after a most strenuous campaign.

Governor Smith is not a boxing fan. In fact, he has no use for the sport, and he tolerates it only because he feels that a part of his constituency likes the game.

When complaints were being made recently about the manner in which the game was being played, the governor went to his friend, Walker, and asked what he should do about it.

"Throw it in the sink," Walker replied.

The game hasn't been thrown in the sink yet, but it is without a single friend at Albany, and its friends in New York aren't worth much. Just one more little straw and it will be in the sink. If the game goes down now after a trial under ideal conditions, which gave it every chance to make good, it is not likely that it ever will get another chance.

It is hard to tell just what is the matter with boxing, but something is radically wrong when it is too hard to find a good defense for the sport.

When defenders of the game have to fall back on such silly defenses that boxing won the war, it is a sad condition.

PETES TOO GOOD FOR OSHAWA

Queens—Brockville Play off Will Be Played in Brockville Instead

Oshawa Telegram comments on the Peterboro-Oshawa game as follows:

Oshawa, Feb. 13.—Peterboro Blues, journeyed west as far as Oshawa Monday night, waltzed onto the ice at Bradleys igloo and administered a 5 to 2 licking to Ed. Donald's intermediates in the first of a home and home series between the two sextettes that will decide which will proceed further in the big championship race.

Local Team Outplayed

As far as Monday night's affair is concerned the better team won out, and the visitors had the edge on the locals throughout.

The showing of the Green Shirts was a big disappointment to Oshawa fans for they know that the local team is possessed of whole lot of hockey ability that was not in evidence last night. Their attacking efforts during the entire game savored of the listless and the most of their shooting was done from long rang. In fact it looked as though the Donald boys had gone stale in a critical period of their young lives.

Petes Are Smart Team

The Peterboro outfit gave plenty of evidence that they were a fairly nifty aggregation. They are a husky team, know how to use their bodies to advantage ,and are strong both on the offensive and defensive. They uncorked some sweet combination play and their front line worked smoothly. Backchecking was their favorite occupation when the locals started anything, and in the majority of cases where the Green Shirts broke through the Blue defense was equal to the occasion. The visitors were also tricky and frequent gains were made on fake movements.

Smith Saved Many

Probably the hardest worked player on the ice was Dick Smith, the local goalie. He was beaten five times but with four of them he had no chance to save, and but for his sterling work the visitors' count would have been larger than it was. Apart from Smith, Houck and Williams were the best for the locals. They were in the thick of the fight at all times whenever they were on the ice, and appeared to be the only ones in the Green Shirts' attacking force who were not suffering from stage-fright. Hefferman and Whinfield both had an off-night, and "Kip" Rowden was not nearly the effective player that he is capable of being. Lowe was good at times but he was closely watched all night. The locals forgot all about combination work, and their individual efforts invariably ended in disaster.

For the visitors Parker on the defense and the forward trio, Collins-Ranger-Burgess bore the brunt of the work and did it well.

RARE

"Nowadays," says a writer, "a cook will refuse to do any work except the actual cooking." And that, very often is not done.

ON THE ALLEYS

The Excelsiors and Ramblers engaged in the first game of a double header at the Y Alleys last night and it proved quite an interesting contest. The Ramblers got away to a good start obtaining a 24 point lead in the first game, held most of it in the second but in the final string the Excelsiors let out in earnest and were up 184 points as a result of their strong finish.

EXCELSIORS

NAPANEE COMING

Four rinks from Napanee Curling Club will play four crack Belleville rinks here at the curling rink tomorrow night in a senior Central Ontario Curling League match, so the Intelligencer was informed early this afternoon.

Campbellford 'Spiel Continues Reach Semi-Finals At 2 A.M.

Campbellford is today the mecca of devotees of the roarin' game, and the townspeople are talking 'besom and stane'' mostly during the bonspiel which is in full swing there today, having commenced early yesterday. It will continue another day. When the town clock tolled off two a.m, today, the curlers might have been seen wending their way home or hotelwards after a thrilling day of respective ups and downs.

The ice battles at Campbellford are for three fine cups, the Victoria cup, the A. L. Riendeau cup and the Campbellford trophy.

The competition for the Victoria and A. L. Riendeau cups is now into the semi-finals, the elimination process having sent eight rinks into the semi-finals which were being played this morning.

W. J. Meiklejohn, S. Comrie, J. Houson and Pat J. Kelly are the four skips of rinks who will battle it out in the semi-finals and finals today. Meikeljohn's rink defeated J. P. Archer, 10-7. Comrie's rink defeated George Stephenson's rink 26-6 (the largest score of the spiel), J. Houson won from T. Huyecke 11-5 and Pat Kelly won from John Gay 17-11.

This morning the stiff competition for the Campbellford cup also occurred. Seven picked teams from Belleville Hastings, Norwood, Campbellford, Kene, Lakefield and Peterboro make up the field of competitors for this splendid award, so some real curling is expected.

The following is a list of the names of winning and losing skips in the contest, together with their respective scores.

Primary Games

Meiklejohn 11	J. J. Moore 8
Fletcher 20	Bottum 9

R.C.Y.C. SELLS CLASS "R" BOAT

Toronto, Feb. 3.—Probably the best known of all the popular "R" boats Swamba, of the Royal Canadian Yacht Club, has been sold to Dr. Ward, of Inglewood, New Jersey, by her owners Messrs. Frank Wilson and Frank Jeffery.

R.C.Y.C. members have only themselves to blame for the loss of the famous little flyer. Mr. Wilson offered the boat for a very low price to his fellow-members, and on the easiest terms but there is a limit to all things, and a generous offer coming from outside interests, and no encouragement from at home, the sale was made, as stated, and one more of the R.C.Y.C. fleet is lost to Toronto. Cark Miss Seneca and Swamba, three of the best, and good for years of active sailing, gone from the club in one season. Do the members realize what the loss of these boats mean, and how serious it will be if others are allowed to go,(also?

The Swamba holds a place of her own in the hearts of yachtsmen, because she Jarvis, before the war, for his son 'Bill' Jarvis, who was killed overseas, at the same times as those other well-remembered sailors and good friends, Gerard Muntz and Trumble Warren, lost their lives. It was Bill Jarvis who first put Swamba through her trial races, and won the name for her that has brought her prominence. A name, by the way, that is made up from the initials of all the members of the Jarbis family.

Will Sail on Quinte

There is one redeeming feature in the sale of the boat. Dr. Ward, her new owner though living in New Jersey, spends his summers near his old home, Napanee, and proposes to use his new purchase on the faters of the Bay of Quinte a nd Lake Ontario.

S. S. HOCKEY SCHEDULE

Dates for the first section of the Sunday School Hockey League (junior) have been arranged as follows:

Feb. 16—Voyageurs (Bridge St.) vs. St. Andrews.
Feb. 19—Christ Church vs. St. Thomas.
Feb. 21—Qui Vive (Bridge St.) vs. Baptists.
Feb. 22—St. Andrews vs. Christ Church
Feb. 25—Baptists vs. Voyageurs.
Feb. 27—St. Thomas vs. Qui Vive.
Feb. 29—Christ Church vs. Baptists.

Second Section
(Dates not arranged)

St. Andrews vs. St. Thomas.
Qui Vive vs. Voyageurs
Baptists vs. St. Andrews
Voyageurs vs. St. Thomas.
Christ Church vs. Qui Vive.
St. Thomas vs. Baptists.
St. Andrews vs. Qui Vive.
Voyageurs vs. Christ Church.

Varsity Outclass U. of T. and Win

Toronto, Feb. 13.—Defeating Aura Lee, 5 to 1, last night University of Toronto cut into second position in Group No. 1 of the Senior O.H.A. series, and a victory over Parkdale Canoe Club next Tuesday will assure the Blue a place in the play-off for the right to enter the finals for the championship. Aura Lee held Varsity to a tie for two periods, each team bulging the twince once, but when Chuck Dinsmore atempted to stop Lou Hudson head-on, as the Varsity captain was rushing in on the Aura Lee defence, he paved the way for his team's defeat Not that Varsity would not have won the game anyway, they likely would have for they had a stronger wallop on the offensive, but Dinny up to the time he was hurt in the second period had been playing a wonderful game of hockey. It was Dinsmore who gummed up the "T" combination, so much so that the blue clad players were unable to work their usual fast passing game, and when he was forced to leave the ice a few minutes after his collision with Hudson Varsity assumed the upper hand. From then until the end they were much the best team. That they did not score in the second period was due to the great goal-tending of Alf Moore in the Aura Lee net, and also to wild shooting. Dinsmore though not in fit condition to play, like the game youngster he is, went back on the ice, once in the second period, and on one other occasion during the final twenty minutes, but he was not the same player, and he finally had to quit for the night. At least he left the ice because Bill Marsden insisted that his star not play any more. Varsity scored four goals in the final period.

No O.H.A. Game Here Tonight

Queen's Juniors of Kingston and Brockville Juniors are playing a sudden death game tonight to decide who will meet Circle Six of Kingston to decide the winner of the three-cornered tie which exists in that group at the present time. This game WILL NOT be played here as stated yesterday, but will be played at Brockville, the management of the teams and the Manager of the arena here being unable to come to satisfactory terms for the lease of the rink for tonight.

The winners of tonight's game will play off with Circle Six in the city of the winning team tonight it is expected. Manager Ed Thomas of the local junior O.H.A. squad who was negotiating for the game to be played here received word yesterday afternoon that it would not be staged here.

CAMPBELLFORD WINS TROPHY

CAMPBELLFORD ... ...

Campbellford curlers won the Campbellford trophy this morning at the Campbellford bonspiel by twelve shots in a contest in which fourteen crack picked rinks from Belleville, Campbellford, Hastings, Keene, Peterboro Lakefield and Norwood participated.

Campbellford won four of the seven games, tied one and lost two.

Here are the results

S. J. Moore 19	W. J. Puffer, Norwood 5
R. H. Cole 9	J. Bacon Peterboro 9
W. J. Meiklejohn 10	Dr. S. Gibson, Lakefield 11
F. J. Smith 12	J. J. Moore Keene 10
P. J. Kelly 6	S. Comrie, Keene 15
A. W. Douglas 15	J. G. Galloway, Belleville 12
D. E. Tait 14	T. Huycke, Hastings 11

Totals 85—73.

This was the event of the bonspiel.

Olympic Games On Sunday Is Committee Ruling

Paris, Feb. 13. (United Press).—Olympic games will be held on Sunday, regardless of the religious views of some of the entrants on sports on the Sabbath.

The French Olympic committee has reached this decision after the question was brought up by the British Olympic committee, on behalf of the Scottish members of the team.

It was held that if the Sunday dates were eliminated the games would last too long, causing hard-ship to many nations which already have made all preparations and figured their expenses accordingly.

The committee was also influenced by the fact that Sunday is the biggest sporting day of the week in Paris and for many French people this will be the only day it will be possible for them to see the games. For that reason the program has been arranged so that many of the semi-finals and finals will fall on Sunday.

Clergyman a Sprinter

Several well known athletes will be affected by this decision, including the Scottish sprinter, Eric Leddel, who is an episcopal clergyman.

The committee has declined to heed the informal protests of American and British yachtsmen against holding the sailing races in the Seine at Meulan, instead of Havre, as originally planned. American and British yachtsmen felt it was unfair to ask eight-metre yacht crews to race on a river. It was pointed out that the same scheme was attempted in 1900, when the bigger yachts, although the best at sea, were defeated by a small light yacht on the Seine.

The rowing commission of the French committee has completed plans for the rowing events, which will be held on the Seine at Argenteuil, near the Colombes Stadium. There will be five events, single and double sculls, pairs, fours and eights, all with coxswains. These events will be rowed between July 13 and 17. The dates have been advanced about five weeks, which will put the American team at a disadvantage, because the tryouts are scheduled as late as June 13 Philadelphia, and the American oarsmen will have a shorter period of preparation than was originally planned.

HAIR STAYS COMBED, GLOSSY

Greaseless Combing Cream Costs Few Cents a Jar at Drug Store

HAIR GROOM Keeps Hair Combed

Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives the natural gloss and well-groomed effect to your hair. Not sticky, greasy or smelly. Fine for hair!

We have many enquiries daily for rented property—if you have a dwelling or an office to rent place it in the hands of BELLEVILLE LOCATORS and get the maximum of service for the minimum cost.

Ogden's CUT PLUG TOBACCO

Overcoats For Men

Do you wear a size 35, 36, 37 or 38? If so come and see the bargain we will give you. We also have just a few very large sizes 44 and 46, which we will sell at a big reduction.

It will pay you to buy now—lots of Winter yet and another to come next year.

When we advertise a bargain, you get it.

DELICIOUS MUFFINS

Shoe and Stocking Styles For Spring

By HEDDA HOYT
Fashion Editor of the United Press
(Written for the United Press)

Paris, France, February 12—United Press).—"Soles for sale," last season's shoe drama, has been scratched off the fashion boards. After a long run, it has been decided that soles held together by straps had many bad lines, to say nothing of poor support.

Shoes are no longer mere wisps of leather attached to a heeled sole. Perhaps fashion is revolting against eccentric shoe styles, but more likely women are revolting against fallen arches and crippled insteps. Paris still likes the strap idea for shoes, but insists upon some arch and foot support other than the tiny vamp that just covers the big toe.

Velvet for Shoes

Velvet is used quite as much as satin for dressy shoes this season. Models are usually made with the medium short vamp, but with good arch support. Buckles of rhinestone and rhinestone monograms are used frequently on these dressy shoes. Patents and other leathered shoes are also to be monogramed this year, with stencilled colors or with cut-outs.

Evening shoes can not be too glittering. There are some silver cloth studded with rhinestones throughout; others with entire heels of rhinestones with plain metal cloth used for the rest of the shoe. Brocaded slippers still retain their popularity, but are worn only with the flesh or nude stocking. Both silver and gold-dipped leather is being used, although it is not as attractive as the gold or silver cloth, to my mind.

Black shoes with pipings of contrasting colors are worn with the street frock. There are black shoes with red, purple and yellow pipings that go very prettily with the colorful embroidered frock. In no instance is the coloring blatant, however.

Red, green and blue shoes such as we saw last summer will not be as popular this season as last, although for sports wear there will be shoes that use these colors, but usually in conjunction with white. Spring will see many colors again, but subdued ones, such as taupe, deer shades, light browns and dark corn collar. Suede will be a popular feature for these colorings.

There seems to be no let up on light colored hosiery. Women have entirely given up the black stocking. Colors that verge on peach tones are favored by the Parisians.

Fashion Notes

Paris is wearing frocks with fringe from the knee down which carry out the flounce idea.

Summery frocks of voiles and linens have skirts made entirely of tiny ruffles.

The newest sports cape is hand crocheted in lustred wool. A vari-colored effect is produced by using rows of contrasting or blending colors with a fringe of these same tones. These capes are made on large needles and with a drop-stitch so that the effect is somewhat lacy. By knitting several rows of each different shade a striped effect is obtained.

The Spanish shawl will be used extensively for the summer evening wrap this season. It has been a popular wrap in England for years, but has never met with much success in America.

"The Way Things Happen"

By ALICE ROHE
(Written for United Press)

New York (United Press).—"The Way Things Happen" is not what you expect. This is not an abstract platitude, but a concrete criticism of the new Clemence Dane drama produced by Guthrie McClintic at the Lyceum.

I doubt if any modern English play has been greeted more eagerly by the well-informed theatregoer than this new work by the author of "The Bill of Divorcement" and "Will Shakespeare." Then, too, it has aroused the most extravagant praise in Philadelphia and on the road. From the brilliant Rebecca West, awaiting her countrywoman's "opus" from a stage box to the weariest dramatic critic there was genuine anticipation.

Of course, interest at the rise of the curtain, was about evenly divided with Katharine Cornell. Before the final curtain it was almost entirely centered on this most authoritative of our younger actresses.

Old Melodrama

Clemence Dane in "The Bill of Divorcement" rang the bell with a perfectly constructed, new ideal and thought stimulating drama. "Will Shakespeare" had beauty of language and fine characterization. In "The Way Things Happen" Miss Dane offers the stage merely old time worn melodramatic fictions. The powerful second act, with the truly magnificent acting of Katharine Cornell as the harassed Shirley, trapped into confession, gives the play a stimulating hope. Tom Nesbit as Martin does excellent work, too. Then, later in the return of Martin and the final curtain, there is an element of novelty—but despite excellent dialogue in spots throughout the play, it falls far short of the vital modern play the audience were awaiting.

Thes play is based upon the old, old situation of the innocent girl going to the villian's room to get the fatal papers. In this case Shirley Pride (Katharine Cornell) who has been reared by Mrs. Farren (Zeffie Tillbury) as a companion for her son Martin (Tom Nesbit) sacrifices herself to save Martin with whom she is in love from ruin. Martin has taken bonds to raise money to buy orchids and furs for his fiancee Muriel (Helen Robbins) a feline jazzy flapper.

The new turn in Clemence Dan's play comes when the tortured Shirley is baited into confessing why she sacrificed herself. Martin in his selfishness turns on her and reviles her—not for her "shame", but for the shame she has forced upon him as the victim of her sacrifices. Just to crush her hopelessly with the sense of the futility of her ultimate sacrifice, he rushes off like an hysterical young cad and confesses all.

Was Love After All

His return—after the death of his mother—discovers him still unchanged, even though prison and a life in the Colonies might have opened his eyes. He is still self centered and altogether detestable. It is only when the long suffering Shirley finally slaps him and delivers a few direct blows that he discovers it is love all the time that has made him such a hateful person. But much bigger than an individual characterization of Martin—She is striking at those acquired—if not fundamental—dominating attributes of the male creature in the relationship of man and woman.

Trite as it sounds—too much praise cannot be given Katharine Cornell for her superb acting. Her emotional work is always perfectly modulated. And she is one of the few who understands the art of unobtrusiveness. She is natural and human—always.

Efficiency Expert—"You are wasting too much time on your personal appearance."

Stenographer—"It's not wasted. I've only been here six months and I'm already engaged to the junior partner."

"By Jove—it's cold!
Must get myself some
of that jolly old
Italian Balm
that the girls use
It's all to the merry
after shaving—what?
Campana's—of course!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

U. S. IS A GREAT PORK-EATING NATION

Washington (United Press).—Americans ate more pork in 1923 than in any previous year. Statistics compiled by the Bureau of Animal Industry, U.S. Department of Agriculture, show that a total of 53,333,708 hogs were killed last year to meet the increased demand for pork as the main meat dish on the American dinner table. This number exceeds by more than 10,000,000 the total killings in 1922. During that year 43,113,629 were slaughtered and a record made.

During last December 5,903,759 hogs were slaughtered, the highest number of killings to be made in any single month.

SUCH A DELICATE INSTRUMENT

The little girl with childlike frankness, was talking family affairs at the neighbor's. "Mamma wouldn't pay the telephone bill," she said, "and papa wouldn't pay it, and so now the phone is out of order."

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

Esther, dropping like a falling blossom from her perch. "What a jolly little beast it is! It looks like a door-mat on four legs!"

"Y-es," assented Miss Worchester, doubtfully, for it was her first introduction to the pony in question. "Are you sure it is quite safe, my dear?"

"Quite," said Esther, cheerfully. "If it shows any inclination to fall down we just lean back in the cart and the shafts will hold it up."

"I meant was it likely to run away?"

"Oh, no, aunt. It is thirty years old, I believe—isn't it, Giles?"

The well-trained groom, standing bolt upright at the shaggy little morsel's head, touched his hat.

"Twenty, miss."

"Only twenty? I'm disappointed. get in, aunt," as she took the reins. "We'll have a nice long drive, and if the pony gets tired we'll put it inside the cart, and you and I will drag it in turns."

The groom turned away to hide a smile, and the modest equipage—"a biscuit-box on two wheels," Esther called it—jogged down the avenue.

"I'm surprised you like this better than the landau or the victoria, Esther," Miss Worchester remarked, her words being jerked out by the motion of the cart.

Esther shrugged her shoulders.

"Between you and me, aunt, I loathe the landau; and any way, I had enough of it yesterday to last me for a long time. Oh, shall I ever forget the miles we rolled along behind those fat horses, and how glad I was when we came to a house we had to visit—almost as glad as I was to get out of the house again."

"And yet I am sure every one was most kind."

"They were, I'm not denying it; but behind their kindness, what curiosity! What glances they cast at my hat and dress and hands—I suppose they expected to see a kind of superior servants, or a seamstress with the marks of the needle on her hands—I don't suppose many of them know I got my living by teaching music, do they?—and how they listened to detect the vulgar accent which might betray the 'poor girl who'd come into the Vancourt property.' But it's not nice of me to criticise them, though they criticised me, for they were all very kind when they saw that I should pass muster, and I think I may conclude that I am duly and solemnly received into county society."

"I should think so, my dear," said Miss Worcester, bridling. "A Vancourt is the equal of all and the superior of many; and though we were poor, we were always ladies, I trust, my dear Esther. I can say, humbly, that I did my best."

"Yes, I know, dear, and a very good best it was. What and where should I have been but for you, auntie? There, I can't kiss you through that veil, but I'll kiss my hand to you, and I'll beg your pardon for being naughty, and I'll promise to be good—but you must give me time, auntie; dear. You see, my greatness has come so suddenly; and it's hard to realise that I am not any longer Esther Vancourt, the music-teacher, but Miss Vancourt of Vancourt Towers. And now, auntie, I am going to pick some of those primroses"—they were in the lane by this time—"you hold the reins."

"My dear Esther, I'm sure the pony will run away!"

"No, auntie! What will happen, if anything does, will be that Toby will drop off to sleep and fall down; but you mustn't let him: give him a cut with the whip: he will only smile, of course, for he couldn't feel it through that thick coat, but it will keep him from dozing off."

She got out and ran lightly up the bank, and the pony wandered on at a snail's pace.

While Esther was picking the primroses, a man was coming down the road in the opposite direction to that in which Miss Worcester was being reluctantly dragged. It was tall and thin, and very shabby. The dust was thick on his boots, and there were rents in his clothes. He looked something like a trap at first sight, and he was followed by a splendid collie as dusty as himself. The man was walking slowly, suiting his pace to that of the dog, who was limping as if he were lame, and soon after they had passed the pony-carriage, and received a stony and timid glance from the elderly lady in it, the man stopped and seated himself on the bank, and said to the dog:

"Let's look at that foot again, Bob, old man. Seems to me you are going more dotty on it than you did this morning."

Bob limped up beside his master, and settling down, held up his paw in a matter-of-fact way, with an expression which said quite plainly: "Awfully kind of you to bother about it, but it really is nothing to speak of."

The man took the foot and looked at it anxiously, and wiped it with his handkerchief.

"'Fraid it's going to fester, old man," he said in the low monotone in which one addresses a beloved canine friend.

Bob's eyes said he thought not, and he did not wince when his master's gentle hand touched the root of the thorn which was buried in the pad.

"Wish I'd got some warm water! It's two miles to the nearest inn, Bob, and you're heavy to carry; besides, you wouldn't let me, you obstinate mule, you! Never mind, we'll have a spell of rest, and I'll hold your foot; it eases it, doesn't it, old chap?"

Bob said "yes," and looked up with grateful content, his foot clasped tenderly in the strong hand. The man got out a pipe and filled and lit it without disturbing the dog, and as he smoked looked at a corner of the Towers—at the half-ruined tower rising above the moat—which he could see from where he sat.

"Funny to come upon the old place like this, isn't it, Bob?" he said, with rather a grim smile. "I've pictured it many a time, but never thought I should see it from the tramp's point of view. But that is what is called the irony of fate, old man. Well, I'm glad I've had a look at it; and now we'll pad the hoof back to London; but we'll get this hoof of yours straight first—What's the matter?"

The dog had pricked up its ears and emitted a low growl; and the next moment a young girl in a white dress and a black sash, her hair blown loose, with her hat in one hand and a bunch of primroses in the other, bounded from the bank into the road within a few paces of them.

The dog was startled and made a rush for her, which startled her; but she stood still and quite calm, though with a touch of colour in the clear pallor of her face.

(To be Continued.)

Red Pepper Heat Stops Backache

The heat of red peppers takes the "ouch" from a sore lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine with the name Rowles on each package.

NO SENTIMENT IN BUSINESS

"See if I don't unload that worthless stock on Jobson."

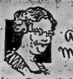
"I thought Jobson was an intimate friend of yours."

"Im counting on that."

Our idea of a modest man is one who can keep his opinion of himself to himself.

Secret of His Success

One of the most noted, successful and richest men of this country in a recent article said, "Whatever I am and whatever success I have attained in this world I owe it all to my wife. From the day I first knew her she has been an inspiration and the greatest help-mate of my life." Health is the first essential of every woman who wants to be a successful wife and to hold the love and admiration of her husband. If a woman finds her energies flagging; and dark circles appearing under her eyes, she has backache, headaches, nervousness and "the blues," she should take Lydia E. Pinkham's Vegetable Compound, the medicine which holds the record of helping 98 out of every 100 women who try it. There is nothing better.



Aunt Martha's
HOUSEWIVES' COLUMN

I believe the Dominion Store man in your neighborhood knows more kiddies than most anybody else. Little and big, he knows nearly all of them.

Their mothers give them a basket or bag and send them trotting along down to the red front Dominion Store. They tell the friendly man there what mother wants, or if they are too small, they just give him a piece of paper with the day's list written on it—and he sees that they get the best there is. Maybe they even get a piece of candy for themselves from their old friend the Dominion Store man.

For each of the 300 Dominion Stores is a real neighborhood store. Its manager looks on his store as food headquarters for the people nearby. Courteous service, and special attention to children are daily habits with him.

You can confidently send your littlest ones to the Dominion Store. There they will always get high quality foods at low prices that mean steady savings.

It's this *certainty* of savings that attracts a million customers a week to the hundreds of Dominion Stores. Careful housewives used to spend hours of time and hard work, walking around on hard pavements, searching the markets for good food at bargain prices. Now they know that even a child can do as well as they can—for *every* Dominion Store price is a bargain price, and Dominion foods are always clean and fresh.

SEVERELY CRUSHED BY ELEVATOR

Montreal, Feb. 9.—Caught between the edge of an elevator and the floor in No. 3 Harbor Commissioners' elevator, Roma Gagnier, 20 years of age, of 2219 Desjardins street, was severely crushed at 11 o'clock this morning. The victim was taken to the Hotel Dieu where he was found to be suffering from injuries to the neck and back and several fractured ribs. According to the information given the Harbor police, Gagnier was attempting to board the elevator when he slipped and fell between it and the floor. His condition is critical.

Keep the Family Healthy

"OVALTINE" is the ideal daily beverage for the whole family.

"Ovaltine" is super-nourishment. It gives an added store of health and vitality.

"Ovaltine" contains all the nutritive elements of ripe barley malt, creamy milk and fresh eggs. It is assimilated by the system without digestive effort, yet one cup supplies twelve times as much nourishment as a cup of beef extract, or seven times that of a cup of cocoa.

Introduce "Ovaltine" at your table to-day. Young and old will love its delicious, distinctive flavor.

Make Her Happy ON St. Valentine's Day

OF ALL days, none could be better for the giving of that enchanting gem, suitably mounted. Naturally here you'll find a most marvellous collection of out-of-the-ordinary gems to dazzle the eyes of a king and more likely your "Queen." Get her a deftly mounted gem here and you've opened the gates to her heart.

Angus McFee

216 Front St. Phone 128

MAKE IT A USEFUL Valentine

REMEMBER her this Valentine's Day with something useful—something that will bring her the thoughts of Valentine every day in the year.

We Suggest:

—a Reading Lamp.
—an Electric Stove
—a Royal Cleaner.
—an Electric Iron.
—an Electric Curling Iron.
—an Electric Portable Heater.
—an Electric Percolator.
—Electric Table Stoves.
—Lighting Fixtures.
—an Electric Washer.

The Hydro Shop is fully equipped to help you make St. Valentine's Day a lasting remembrance to her you love so well.

The Hydro Electric Shop

HOBO KINGDOM IS NOW FLOURISHING

Chicago, Feb. 12—"Chicago is the recognized 'Hobohemia' of America.

"Two million knights of the hobo kingdom have the seat of their government here.

"Though this government has no authority, its lure is evident to the impatient eyes of youth. Herein lies the menace."

This, in substance, is a report on "The Origin of Crime," submitted to the Chicago crime commission by a committee of Chicago professors.

"One of the weakest spots in Chicago's program for development of good citizen's," the report stated, "is giving the tramp or hobo permission to flourish here.

"There is probably an army of 2,000,000 tramps in the United States," the report adds, "and Chicago is the chief rendezvous.

"In the life of the tramp there is something strongly romantic, as viewed by the eyes of the 'teen aged boy. It is a life of variety and adventure. It calls loudly to the youth, particularly if he is not too strongly bound by association and environment."

"In Chicago the places where the boys may meet these aimless transients are not different than any other city, but are more numerous," the report said.

Some of the remedial measures recommended by the committee were: Co-operation with "hobohemia" hotel managers to prevent boys frequenting their places; the patrolling of "flop" headquarters by plain-clothes men, and stringent enforcement of working certificate laws.

SCHOOL TRUSTEES

At Kingston's Memorial Hall on Feb. 26th, 27th, 28th and 29th, the fifth annual convention of Urban school meet.

An extensive programme has been prepared for the gathering.

Mr. A. McGie, of this city, is a member of the Executive Committee and Board of Education will attend the convention.

Here and There

Manitoba is perhaps the most marrying province in Canada. For instance, in Ontario, there were 24,871 marriages in 1921, a rate of 8.5 per 1,000, while in Manitoba it was 8.7 per 1,000 of its 610,000 population.

Eastbound steamship travel from Canadian ports via Canadian Pacific steamships is heavier at the present time than for several years past at this season, a recent report declares. Bookings in some instances have run as high as 70 per cent increase over those of last winter.

According to a recent official compilation, out of every 100 people in Canada 51 live on farms. The 70,000 farms in Canada represent a gross worth of $700,000,000 or about $10,000 per farm, and produce an annual revenue of nearly $1,500,000, an average income per farm of $2,000 yearly.

From the opening of the crop year, September 1st, to the official closing of navigation, December 12th, the Canadian Pacific Railway reported the heaviest marketing of grain since the inception of the road. Cars loaded by the company also created a record for the season, having numbered 116,232. Grain marketed topped the 200,000,000 bushel mark.

Thirty-seven per cent of all automobiles in Canada are owned by farmers. Ownership of the balance, according to recent statistics, is made up as follows: business men and brokers, 16 per cent; salesmen and travellers, 16 per cent; professional men, 8 per cent; laborers, 4 per cent; contractors and livery men, 3 per cent each, and miscellaneous and no occupation stated, 13 per cent.

When the Canadian Pacific liner "Empress of Canada" left New York on January 30th for her great round-the-world cruise, she was the first Canadian vessel ever to commence such a voyage carrying a regular bookstall in the charge of experienced attendants, in addition to a free library. The stock includes many excellent recent books on travel, which will enable passengers to prepare themselves for the foreign lands they will visit, as well as a large number of novels by the best-known authors.

Of the total wheat exported from Canada in November, amounting to 64,196,903 bushels, by far the greater proportion went to the United Kingdom, which took 43,815,391 bushels. The United States was second largest importer of Canadian wheat, taking 9,010,143 bushels. Italy came next, taking 4,013,152 bushels, and Greece next, with 2,066,480 bushels. The exports of Canadian wheat to France during this period amounted to 1,328,668 bushels and to Belgium 1,076,216 bushels. Those to Germany totalled 129,320 bushels

In the keenest competition, embracing entries from all important agricultural districts of the North American continent, Alberta farmers won 48 prizes at the recent international stock and grain show at Chicago. Two grand championships—wheat, Major G. H. L. Strange and oats, J. W. Biglands—went to the province. Major Strange was also first with white field peas and Nunemaker Brothers, of Brooks, first with red clover seed. Major Strange's success is especially remarkable as he has only been a farmer four years.

The latest statements of the earnings and expenses of the Canadian Pacific Railway show that the strong position of that organization has been well maintained, and that a steady improvement has been achieved, in spite of the difficulties of the past few years. The figures for December show gross earnings of $19,136,674, working expenses of $16,180,548, and a net profit of $3,956,127, an increase of $491,322 over that of December, 1922. The 1923 totals show gross earnings of $195,837,089, working expenses of $158,358,079 and a net profit of $37,479,010, an increase of $1,177,319 over the total earnings of the road in 1922. Net earnings for this year were the highest since 1917 and gross earnings the highest since 1920.

NOTICE TO CONTRACTORS

Separate sealed tenders marked "Tender for Contract No. ...." will be received by the undersigned until 12 o'clock noon on Tuesday, March 4th, 1924, for the following work on the Provincial Highways:—

Contract No.		Mileage
	MACADAM ROADWAY	
1056	Deseronto	1.4
	SURFACE TREATMENT OF MACADAM ROADS	
[illegible]	Picton to Bloomfield	[illegible]
1066	Belleville to Foxboro	[illegible]
	GRADING	
1076	Bloomfield northerly	2.5

Plans, specifications, information to bidders, tender forms and tender envelope may be obtained on and after Tuesday February 12th, 1924, at the office of the undersigned or from the Resident Engineer.

A marked cheque for $1,000.00 payable to the Minister of Public Works and Highways, Ontario or a Guaranty Company's Bid Bond for a similar amount must be attached to tenders for macadam, and for tenders on grading and surface treatment the above conditions apply, but the amount of bond or cheque required is $500.00. A Guaranty Company's Contract Bond for 50 per cent. of the amount of tender will be furnished by the Contractor to the Department when the contract is signed, with the exception of the surface treatment of macadam roads on which contracts no Contract Bond is required.

All Bonds must be made out on Departmental forms. The lowest or any tender not necessarily accepted.

S. L. SQUIRE,
Deputy Minister of Highways
Department of Public Highways, Ontario
Toronto, February 4th, 1924. F12-11d

Ritchie's Store Is Remodelled

They are certainly rushing things at the Ritchie store these days. For the past two nights a large gang of men have worked all-night kalsomining ceilings and side walls and housecleaning the entire store. Paper-hangers, painters, plasterers, masons, carpenters and decorators are busily engaged each day remodelling things, moving shelving, putting down hardwood floors, decorating and getting all in readiness to receive the new goods.

The Ritchie Company have always been a progressive firm, and when the present improvements are completed, they will have one of the finest stores in Ontario. The new department for millinery and ladies ready to wear garments promises to be exceedingly attractive. All the work is being done by local workmen.

NAPANEE MAN

Mr. Alvin Perry, of Napanee, was seriously injured on Monday when he was struck by a C. N. R. train, sustaining a fractured skull and two ribs broken.

He was employed on the section gang near Napanee and during the snow storm did not see an approaching freight train which struck him with the above result. Mr. Perry was taken to his home after the accident.

THE PIONEER IN CANADA

Thirty-two years ago the now famous "SALADA" was placed on the market in metal packages. "SALADA" was the pioneer package tea in Canada. Immediately its superior flavour and purity won for it a great popularity that has been growing ever since. It is still a little different and a little better than ordinary tea.

Doherty

(continued from page one)

suggestion, appealed from the ruling of the Chair. When the thunder of Conservative and Liberal "ayes" had effectually drowned out the "Progressive" "nays" Mr. Raney demanded a recording of the votes, and division bells rang for the first time during the session on the question of whether the Chair should be sustained. The vote was 83 to 18 in support of Mr. Speaker.

Mr. Doherty Starts in Again

The House had time to cool off during a brief but able speech of Liberal Leader W. E. N. Sinclair on the debate on the reply to the Speech from the Throne and during half an hour of the subsequent address by Mr. Doherty. Then the whole thing happened practically over again when Mr. Doherty attempted to introduce the forbidden subject on an amendment to the reply to his Honor's address, which Mr. Speaker ruled out of order because it concerned the same matter dealt with previously.

Mr. Doherty then moved a straight want-of-confidence motion and sought to reintroduce the subject. In stentorian tones he demanded if a matter that had been made the subject of petition to the Speaker by the 17 members of his group and Messrs. Callan and Heenan, Labor members, was not fit subject to occupy the Legislature in the consideration of the Address. Mr. Speaker ruled that the petition which Mr. Doherty had sought to introduce and read was for the consideration of the Speaker only; that it should be tabled, and it would have his best subsequent consideration.

Gains Some Liberal Support

Again there was appeal from the ruling of the Chair, J. W. Widdifield, Progressive member for North Ontario, being the appelant, and this time Mr. Doherty's men found three Liberal supporters in A. Belanger, Russell; E. Proulx, Prescot; and H. Fisher, Ottawa. The Chair was sustained on this division by 79 to 20.

Crowded galleries and chamber floor witnessed one of the oddest Legislature afternoons in many years, and one which, with its two appeals from the Speaker's rulings, probably set a record. Hundreds more, it was stated by officials, were unable to gain admittance when the doors were closed to prevent serious overcrowding of the chamber facilities.

Quebec Liquor

Continued from page one.

vestigated, and 9 of them lost their permits.

Financial Details

The financial statement shows that the commission have assets to the value of $4,124,090. This comprises $554,491 cash in the banks, $67,012 in receivable accounts, $4,152,072 liquor in stocks the balance being furniture fixtures machinery plants, etc.

There is owed to the banks $2,087,217, a sum of $1,447,043 of bills payable and $553,275 of accounts payable. The revenue from permits for the present year, $702,151 is used as a suspense credit, $250,000 is held as reserve for insurance. The surplus is $4,458,277 less $3,784,935 turned over to the Government and $584,939 expended for account of the province.

Speaking of enforcement of the Liquor Act, Mr. Nichol said that during the past year there was an increase in the number of actions and investigations during the year. In the Montreal district 3,403 cases were handled as against 2,929 during the previous year. Judgments totalled 2,043 as compared with 798 in 1922. Actions taken under the Possession and Transportation Act totalled 54' an increase of 289 cases while the number of actions taken for sale without permits amounted to 1186 as against 637 in 1922.

The report states that while expenses have increased, the effectiveness of Commission and its officers has also kept pace. A purchasing office has been opened in Paris which is giving excellent service. Tribute is paid to the public who seem inclined to help the commission to make the venture a success. Other provinces are basing their laws on the lines of Quebec which is a signal tribute to its sanity and effectiveness.

Drive On Wild Cat Stocks

The Government expressed its intention yesterday of starting a drive to protect the public against sales of stock and bonds by misrepresentation. Premier Taschereau introduced a bill entitled "An act to establish a penalty for the issue and sale in certain cases of shares, bonds and other securities" but just how far the government intends to go with this "Blue Sky" legislation is not stated as yet. There will be plenty of action very shortly though it is hinted.

Hon. Mr. David brought in measures to amend the public health act, the public charities act, and to provide for the care of tubercular persons. Hon. Mr. Mercier brought in a bill to provide for the building of a dam by the Quebec streams commission on the Riviere Du Nord. The cost will be up to $800,000 to be secured on a 30-year five per cent. loan.

Municipal Legislation

The provincial treasurer and minister of municipal affairs, the Hon. Mr. Nicol has drawn up more drastic regulations to curb municipalities. This bill aims at more control of expenditure of public works. The law provides that before a contract is given the money must be available. It is now proposed that this shall also apply to day labor done by municipalities. It is further provided that aldermen who give contracts against the provisions of the law are liable jointly and severally and treasurers cannot pay such amounts. This measure does not apply to Montreal or Quebec.

The Hon. Mr. Perreault introduced a bill providing for important amendment to the Quebec Mining act. There were no details, barring the fact that the law will be brought up to date.

Agricultural estimates were taken up at yesterday's session, the house voting a sum of $35,000 for the dairy industry in the province among other items.

An Old Recipe To Darken Hair

SAGE TEA AND SULPHUR TURNS GRAY, FADED HAIR DARK AND GLOSSY

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Pharoah's Image Moulded In Gold

Undreamed-of Splendor Meets Eyes of Explorers When Sarcophagus Opened

ART WORK PRICELESS

Opening of colossal Mummy Case Not to be Undertaken This Year

Luxor, Feb. 13.—The greatest discovery in the history of Egyptology even, as many claim, in archaeology was made yesterday afternoon in the sepulchural chamber of Tutankhamen in the Valley of the Kings.

In the presence of a gathering representing the elite of Egyptology, the lid of Tutankhamen's great pink sarcophagus was raised, and a stupendously magnificent mummy case, covered with plates of solid gold, was brought to light.

The moment was the most dramatic in the history of the dramatic discovery of Tutankhamen's tomb. By general consent of those present the mummiform case, which indubitably encloses the King's mortal remains immeasurably surpasses in splendor and beauty even the previous magnificent treasures the excavators in this tomb have brought to light.

Mummy Case Intact

The mummy case is perfectly intact. It is described as one of the most wonderful things of its kind that ever have been found. The Pharaoh is represented in high relief covered with sheets of solid gold, more than twice life-size, his serene and beautiful face exquisitely incised, with glittering eyes of Aragonite and a long upcurved beard of solid gold. The flail and sceptre, which the king grasps in his crossed hands are of gilded wood more than three feet long. From the waist down the broad wings of protective goddesses meet across the knees to shield the Pharaoh from danger.

When the lid was raised, the mummy case was found to be covered with three thicknesses of linen, browned with age. This linen, when rolled up disclosed to the bewildered eyes of the excavators, as one of those present told a correspondent, "a gleaming golden man." The mummy case stands in a coffin on what seems to be a wooden sleigh, on which, doubtless, priests dragged it to the Valley of the Kings.

With Emblems of Sovereignty

The King was shown wearing the "nems" or folded headdress seen on the Sphinx, and in the centre of which, in lapis-lazuli, was the sacred uraeus or cobra side by side with a hawk's head. Framed in the golden folds of the wiglike headdress, Tutankhamen's face appeared. It was that wistful, beautiful boyish face which is seen so often in the hunting scenes adorning his chariots, his bows, his boxes and his chairs, with eyes of Aragonite gleaming strangely and eerily, a slender, finely curved nose, an exquisitely carved sensitive mouth and a chin adorned with the traditional beard.

Beneath the crossed arms down the front of the case run the traditional arms for the King, together with his two now familiar cartouches, one with the name of Tutankhamen and the other with his official title Rakheperuneb.

The only blemish on the golden sheet of the mummy case is that the feet are black, as though bitumin had stained them.

Contrary to expectations, no wreaths were found, barring a pathetic little chaplet of discolored and withered flowers, encircling the uraeus and the hawk's head in front of the Royal headdress.

Work Over for Year.

To picture the scene of this tremendous find one must visualize a narrow, low-roofed vault, the walls of which are decorated with rather garish religious scenes which King Ay had painted in honor of himself and his predecessors: in the foreground are a group of guests, bareheaded in shirt sleeves and unpleasantly warm, jostling one another in the heat of the tomb; in the background, beneath scaffolding, pulleys and ropes, the plain huge mass of the Royal sarcophagus, brilliantly illuminated under the blinding rays of an 3,000-candle-power electric lamp.

Those who were privileged to witness the historic scene were fairly overcome by the beauty and brilliance of the find. They overwhelmed Howard Carter and his colleagues with congratulations.

The opening of the colossal mummy case is such a formidable operation that it will not be undertaken this year. Mr. Carter does not propose to make any further investigations beyond recording his work for this season. As far as fresh discoveries are concerned, this year's work in the tomb of Tutankhamen has been completed.

FROLIC AND TEA AT THE Y.M.C.A.

One of the brightest Valentine events of the season was witnessed at the Y.M.C.A. gymnasium this afternoon, when a large crowd attended the Valentine frolic and tea which was held under the auspices of the Ladies' Auxiliary of the Y. M. C. A. Dainty and prettily decorated tables were in position about the outer edge of the gymnasium floor, the frolic programme being presented in the center of the floor, while the guests enjoyed the dainty afternoon tea, served by the ladies of the auxiliary. The gymnasium was tastefully decorated, all decorations by the way, being strictly in keeping with the Valentine season of blood red hearts and piercing Cupid darts. Even serviettes reminded one of Valentine Day.

Splendid Programme

A most enjoyably and versatile exhibition of Natural Classical and interpretative dancing was presented by the pupils of Miss Gwen Lazier, under her personal direction, commencing at 4 p.m. The programme proved to be a most interesting and entertaining novelty, in which the pleasing versatility of Miss Lazier's class was clearly shown.

The following is the programme as given:

"Little Brown Owl"—Song—Helen Potter.

Dutch Dance—Margaret Walker and Mary Blakley.

Trepak—(Russian dance)—Ida Folwell

Kewpie Dolls—Barbara Parker and Edward Porter.

Recitation—Mildred Lloyd.

French Baby—Cecilia Proctor.

Poppy Dance — Misses Gertrude Blackburn, Rachael Fox, Helen Cooper, Babe McCormick and Barbara Gillen.

"Sunrise, Noon day and sunset"—Gwen Lazier. (This number was arranged by Miss Lazier.)

"My Lady Goes a Walking"—Betty Faulkner.

Toe dance—"Jump Jim Crow"—Grace Cook.

Recitation—Mildred Lloyd.

English Gavot—Ida Folwell and Cecilia Proctor.

RESUME WORK IN STEEL PLANTS

Sydney, N. S., Feb. 13.—Operations at the Sydney steel plants are being resumed at once, following the completion of the wage agreement with the miners at Montreal.

The wind will be put on No. 8 blast furnace on Wednesday, which will bring two blast furnaces into operation. No. 1 has been kept going throughout the slack period. No. 7 will be blown in later.

Heating of the open hearths was commenced on Monday night, and eight furnaces are warming now. The open hearth battery will be producing steel by Sunday. There will be no increase in coke oven operations at present but this will follow as the other departments swing into full time activity.

The blooming mill resumes on Wednesday rolling cold steel until the open hearths are ready to produce.

The re-opening of the rail mill also depends upon the commencement of open hearth production and will likely come next week.

Great Relief

Sydney, N.S., Feb. 12.—Not for years has the public of Cape Breton been so interested in any matter in the same degree as in the wage conferences between the British Empire Steel Corporation and its employees which are now happily ended.

One could almost hear a sigh of relief as the news of the settlement was received by the hundreds who throughout the evening kept the telephones in the local newspaper offices in a constant jingle.

There was a feeling of high optimism felt all round which was freely expressed on receipt of the news which removed all fears of the catastrophe that was threatened during the past three weeks.

Instruction reached local mine workers officials at Glace Bay from Montreal directing that work be resumed immediately and similar instructions were wired to General Manager McLurg regarding steel operations earlier in the evening.

Will Draw Plans For Campaign

Chairman George F. Cole presided at a meeting of the membership committee of the Y.M.C.A. held there last evening. At the meeting it was unanimously decided that a supper be held at the "Y" within the next two weeks at which all "Y" workers who secured members for the Association in the drive last autumn, be requested to attend. At this meeting, general secretary R. C. Sidenius will outline the plans of the final drive of this year by which the balance of the quota of members for the year must be secured before May 1st next.

It was also decided by unanimous resolution to adopt a new award pin which will be entirely exclusive by reason of the fact that it cannot be purchased and can be secured only by those who do business for the Y.M.C.A. in the way of securing new members. For those who secure one member, the original button will be issued, but for those who secure three, a round brass button will be given the same kind of button in silver being given for securing five members and the same kind in gold for ten members. The awarding of the new buttons was made retroactive to the beginning of last autumn's campaign, but winners who advance from one award to a higher, must first turn in the lesser button, except in the case of the former triangular pin award for three subscriptions. As those are a very pretty pin and many winners wish to keep them, it will not be compulsory to turn them in when seeking the higher award button upon achieving the meriting goal. The buttons are very pretty and absolutely exclusive. The figure is the stamp of a man inside the "Y" triangle climbing a ladder.

Healing Cream Stops Catarrh

CLOGGED AIR PASSAGES OPEN AT ONCE—NOSTRILS CLEARED

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure

CONSECON

Mrs. H. W. Weeks and Mabel spent Sunday with Mr. and Mrs. W. Socie.

Miss Arkils, Miss R. Outchard, Mr. D. Bush and Miss M. Bush were tea hour guests of Rev. and Mrs. Wolfrain on Thursday evening.

Miss Helen Miller spent Sunday evening with Miss Marjorie Thompson.

Mr. and Mrs. W. W. Ward were at home to a number of friends on Thursday evening and also on Friday evening.

Mr. and Mrs. Clayton French spent the week end in Trenton the guests of her mother.

Mr. J. Thompson, Mr. Geo. Giles and Mr. J. McDonald spent Saturday evening in Wellington.

The Institute will meet at the home of Mrs. J. Thompson on Friday evening.

Additional Sports

DETROIT CURLERS WILL PLAY HERE

Five rinks, representing the Detroit Curling Club, which are touring On- February 21, and play exhibition games with the local curlers. It has been decided that, to break the tie in the senior series of the Central Ontario Curling League between Brockville and Kingston, home-and-home matches wil be played. Kingston will send two rinks to Brockville and two rinks from that place will come to Kingston. The number of points made in both places wil be added, and the winner will meet the Western winner at Kingston in the near future.

OSHAWA JUNIORS TO MEET PETERBORO

Whitby, Ont., Feb. 13.—Ed. Donald's Oshawa Green Shirts made sure of winning junior O. H. A. group No. 4 here last night in a sudden death game when they shut out the Bowmanville juniors 2 to 0. The game was necessary owing to Bowmanville and Oshawa being teid for leadership, and it proved a whirlwind exhibition.

Shortly after the start Oshawa scored a goal, the puck glancing into the goal from a defence man's stick, and from then until the final gong it was anybody's game. There was no furthre scoring until the dying minutes of final period when, after exhibiting nice combination, Corbeau bulged the net.

Garrison, in goal for the Motor Town crew, turned in the best game of his career, and Martin, for Bowmanville, was just as good. Both teams struck to their knitting and there were few penalties. The game was featured by the good combination of both teams.

ANDY ANDERSON IS TRADED TO BUFFALO

New York, Feb. 13.—Two International League ball player deals were engineered yesterday by Buck Herzog, new manager of the Newark Club. Andy Anderson, Newark utility player, was traded to Buffalo for George Mohart, pitcher, while Bill Styles, Baltimore catcher and infielder, was obtained in exchange for Greenae, catcher, and Edwin Tomlin, pitcher. No cash was involved in either deal, it was said.

Collingwood Sextette Win From Gravenhurst

Collingwood, Ont., Feb. 13.—Collingwood intermediates defeated Gravenhurst here last night in the second game of the second round by a score of 6 to 1, winning the group championship by 12 to 2.

VOL. LVI.
BELLEVILLE, ONTARIO, THURSDAY, FEBRUARY 14, 1924

CANADA GIVEN PREFERENCE ON GRAIN

DOHERTY'S FIRE FAILS TO SHAKE FIRM STAND OF PREMIER FERGUSON

Vote of June Last Declared Ample Proof of Expression of People Toward Abolition of Group System Established by U.F.O.—Only Stable Form of Government Present need

BOY PROBLEM

Program of Social Legislation Calculated to Solve Boy Problem of Province Enunciated in Forceful Address—Answers all argument of Doherty on Non-Recognition

Toronto, Feb. 14.—A session which in its discussions ranged from politics to politics, and which, bearing first Premier Ferguson's grounds for not recognizing Hon. Mr. Doherty as Opposition leader, heard afterwards in enunciation of a program of social legislation calculated to solve the boy problem of the Province, was held yesterday by the Ontario Legislature.

It was a session which, in both the matters which it discussed, was of highest importance. The Doherty matter, it is true, was not definitely settled, and merely came one speech closer to being voted upon in the form of the want of confidence amendment. But at the same time it was given full discussion, and both Hon. Mr. Doherty and Premier Ferguson stated clearly their positions in the matter.

Hon. Mr. Doherty restated his argument of being the leader of the largest Opposition group in the House and conceding that the U.F.O. party had been beaten in the political ring in June last, protested at its now being kicked out of the ring when down. He denied that the Opposition leader's salary was a factor in his agitation and promised to support legislation to abolish the salary entirely.

Premier Ferguson answered that the vote of June last was to be interpreted as a desire by the people to return to the party its stability in preference to to the instability attached to the group system of Government, which the Druryites had represented. He further quoted the responsible heads of the U.F.O. in their statements that the organization was not and did not desire to be in politics as an Opposition, but wished to sit as a bloc, free to support or criticise any party with a view to furthering legislation for the agriculturist! Hon. Mr. Ferguson pointed out that Hon. Mr. Doherty, in the face of the assertions of these U.F.O. officials, was endeavoring to usurp the O.F.O.

(continued on page three)

THE WEATHER

Partly cloudy with local snow flurries. Friday, north-west winds mostly fair and colder with local snow flurries.

COMING EVENTS

Handel's Immortal Oratorio, "The Messiah", Friday, March 21st, with soloists and large chorus. Keep this date open. 13-21d

ATTEMPT MADE TO SULLY NAME OF DEAD CHIEF

Senate Prepares to Run Down Gossip Against Late President

DRAGGED IN MIRE

Million-Dollar 'Slush Fund' Probe to Provide More Startling Moves

Washington, Feb. 14.—British United Press)—Reports of a one million dollar "slush fund" raised by oil interests provided the Senate oil scandal investigations with another startling "lead" to-day as they prepared to run down gossip which has dragged the name of the late President Harding into the affair.

Frank A. Vanderlip, New York financier faced strong examination by the committee this morning on his statement that the sale of the Marion Star by the late President Harding ought to be investigated.

The committee will call on Vanderlip to tell whether this statement was based on information indicating some connection between sale of the Star and the oil leasing scandal or merely upon rumor and Vanderlip has already indicated he had no definite information.

FRENCH PLEASED AT STATEMENT

MacDonald Policy Finds Favor in Official Circles

Paris Feb. 14.—Prime Minister MacDonald's speech in the British House of Commons created a most favorable impression in French offical circles, where it was pointed out particularly today that the British premier seems to share the optimism of President Millerand as to the prospects of a final clearing of the international atmosphere in Europe this year.

It is assumed here that both Premier MacDonald and President Millerand base their confidence in an improved situation on the progress made by the international committees of experts inquiring into Germany's resources with a view to stabilization of the currency and balancing of the budget.

New Official Family

Premier Ramsay MacDonald and his two daughters, Ishbel (left) and Jean. Miss Ishbel is the official hostess in the new home of England's Labor premier. This is their latest picture.

VETERANS FEAR ECONOMY MOVE

Ex-Soldiers In Civil Service Take Steps to Protect Interests

Ottawa, Feb. 14.—Declaring that the economy move in connection with the federal civil service will prove particularly detrimental to ex-soldiers government employes unless definite steps are taken in their protection, a meeting has been called of all veterans in the civil service and others interested, to be held here on Friday, February 15. A circular letter, signed by Captain F.G. Forster, president of the Ottawa branch, G.W.V.A. has been sent out to more than 1,500 veterans in the civil service in Ottawa. It is pointed out that many departmental questionaires designed to secure information concerning personnel had no mention of war service or disabilities. Action by the association secured an asurance that these points would be included in the permanent record which it is proposed shall be kept in future of all government employees.

According to the circular, the principal question to be decided is the step necessary on the part of the veterans' representatives to secure a continuance of preferential treatment in civil service appointment and promotions. It is pointed out by G.W.V.A. officials that if length of employment is the chief determining factor in making reductions of staff veterans will be particularly affected because most of those in the service received their appointments since the armistice.

ARREST ONE MAN ON SUSPICION

Provincial Officers Arrest Man Named Stephenson in MacKenzie Case

One arrest has been made in connection with the death of Robert MacKenzie, farmer who resided some three miles from Cobourg, and who a few days ago, was found frozen to death on the roadside. A man named Stephenson is in Cobourg jail awaiting further developments in the case. Provincial Constables Norman Maker of this city, and H. Cousens of Cobourg yesterday evening effected the arrest. No charge has been preferred against Stephenson as yet, and no public statement has been issued by Provincial Police Headquarters here.

Found in Snowdrift

MacKenzie, the unfortunate victim, when found dead, was lying on the roadside and a team of horses hitched to a sleigh were standing on the road not far distant. Circumstances arising since MacKenzie's death caused Provincial officers to investigate. MacKenzie was well known in the neighborhood in which he resided, and was a prosperous farmer.

CAPTAIN DIES IN AIDING MEN

Heroism Displayed by Captain of Tacoma As Vessel Broke Up

Washington, Feb. 14.—Capt. Herbert G. Sparrow, of the cruiser Tacoma wrecked at Vera Cruz, lost his life while endeavoring to aid his men of his crew who had been imperiled with him in the destruction of the ship's radio house in the great storm that made a complete wreck of the cruiser.

A partial account of what happened aboard the Tacoma on January 15 when the second norther struck the stranded craft became available yesterday at the Navy Department, however, and shows that Capt. Sparrow and another officer and four radio operators were in the radio room endeavoring to maintain communication with shore.

Capt. Sparrow believing that the men were less protected than he was went to their rescue, which proved to be the beginning of his own end. When he left his temporary shelter he was badly knocked about by the heavy seas and finally became unconscious. Two attempts were made by others to rescue him and these men in turn were either lost or seriously injured so that of the six originally in the radio house Capt. Sparrow and three radio men were killed and the others very seriously injured.

SOVIET MENACE AIRED IN HOUSE

Spectre Held Up in French Chamber in Attack on Budget

Paris, Feb. 14.—The spectre of Bolshevism was held up by the Chamber of Deputies yesterday as an argument against the Government measures to balance the budget.

M. Tardieu in his report bitterly critical of the Government's financial and general policy said the only result of the new taxes that could be forecast with some certainty was increased strength to the Communist party in the approaching elections. He regarded the Government's measures as full of danger. When he was interrupted and asked whether he had anything positive to propose to replace them, M. Tardieu launched into a violent speech in which he placed all responsibility for the present situation on the weakness of the Government.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

..The feature picture tonight is "Little Old New York," starring Marion Davies.

QUICK THINKING SAVES SERIOUS FIRE IN STORE

Small Pyrene Extinguisher Blankets spread of flames In Local Store

PIPES FROZEN

Salesman at Walker Hardware Store Saves Serious Fire Damage

A Pyrene fire extinguisher in the hands of Everett Smith, salesman at the Walker Hardware store, 248 Front street, saved that store from the ravages of an early morning blaze which burst forth at 8.45 a.m., underneath the north show window. Damages are very slight but the store was "smoked out" for a time.

Blow Torch Flame, Cause

Water pipes enter the Walker Hardware store from Carney's shoe store next door north, and the water in the pipes is frozen. Smith was in the Carney store with a blow torch, thawing out the pipes when a tongue of flame shot through a small hole in the floor about the pipes, igniting a tightly packed box of excelsior which had been packed about the pipes in a futile effort to keep frost from them The whole window box was a seething mass of flames instantly and heavy volumes of smoke poured forth. Smith noticed the fire immediately and rushed from the Carney store into the Walker store, where he could get into the window. Opening the small door in the window box, the smoke belched forth and filled the store, and if operations had been delayed two minutes longer it would have been impossible to work at the window, so Mr. Charles Hanna of the Walker Company stated this morning.

Water Useless

Smith dashed a pail of water which was handed to him into the hole, but it was of no use. He then grabbed a Pyrene extinguisher and emptying the contents into the heart of the fire extinguished it in an instant. The fire brigade responded immediately to the alarm but their services were not required.

Mr. Hanna is naturally strong for the extinguisher this morning, and in conversation with the Intelligencer, stated that last autumn as the driver of their truck was proceeding along a city street a woman rushed out into the street and cried "fire". Grabbing the Pyrene from the side of the truck, the driver rushed into the house and nipped a serious fire in the bud.

MOVIES BY RADIO NEW INNOVATION

First Public Exhibition to be at Radio Exposition Held in March Next

Washington, Feb. 14 (United Press).—Movies by radio is the latest wrinkle in the wireless world.

The first public exhibition of an apparatus which successfully broadcasts pictures, still and moving, will be among the displays at the radio exposition at Convention hall here, March 19 to 26. The machine will be displayed by its inventor, C. Francis Jenkins, Washington.

The radio photography apparatus is like a huge camera with the lens in one place and the photographic plate far away. During the exposition the photogrphic plate will be located in Boston and the lens in Washington. Ether waves will transmit the reflection on the Boston plate to the lens in Convention hall, from which place, the inventor declares, the pictures may be broadcast to hundreds of photographic plates simultaneously.

The picture broadcasting apparatus will be one of many features of the exposition. The first coin controlled radio receiving set will be exhibited by its inventor, D.J. Richardson. Another interesting display will be that of the navy department, which will consist of a 300-watt radio transmitting station an exact replica of that on the giant dirigible Shenandoah. Space also has been reserved for exhibits by the army and marine corps.

The committee of Washington radio dealers, who are conducting the exposition, are making an effort to have President Coolidge, Secretary of Commerce Hoover, Secretary of the Navy Denby, Secretary of War Weeks and Chief Radio Supervisor Terrell, as well as others prominent in the radio world, give talks on the future of radio during the week of the show.

Near Death?

Mohandas Gandhi's fighting days probably are over. The Indian nationalist leader, sentenced a year ago to six years' penal servitude for his part in the non-operationist movement, has been pardoned because of ill health. Physicians declare his condition is serious. A trip to the seashore is all that will save him now, they say.

POULTRY FANCIERS ELECT OFFICERS

Annual Meeting of Local Association Well Attended by Poultrymen

Much interest was manifested at the annual meeting held last evening of the Belleville Poultry Association. Many members were in attendance and reports presented were of an encouraging nature. The Association is increasing in membership and the prospects are that many new members will be added this year. The annual show held in the city recently was one of the best ever held under the auspices of the Association.

Officers-elect for the ensuing year were as follows:

President B. Burnham, vice-president, C. Waddell. treasurer, R. H. Ketcheson. secretary, W. J. Thomson directors, Col. E. D. O'Flynn, J. B. Archibald, W. Harvey, W. H. Govier Wm. Harris, A. S. Large, G. Thomson, W. Turner, C. Bishop, J. Livesey; auditors R. Zufelt and G. Vance

BRITISH ELECTION IN JUNE HINTED

Yorkshire Post Says Members Feel Must Be Ready

London, Feb. 14.—A general election in May or June is possible, according to the Yorkshire Post. The Post is strongly Conservative in its politics but it is not in the habit of making reckless partisan assertions.

The Yorkshire Post says there is a feeling in the lobby of the House of Commons last night, even among the members of the Government, that they must be ready for an election in May or June. On the other hand, the paper continues the demeanor of the ministers in the House of Commons gave the impression that the administration was determined to sit tight for a year or two.

IMPERIAL COMMISSION GIVEN REPRESENTATION OF VIEWS OF DOMINION

High Commissioner P. C. Larkin, In presenting case Declares Permanent Adjustment of Rates on Ocean Shipment of Grain Must be Made—For Protection of Canadian Growers and Millers

PLEDGE IS NEEDED

Difference Between rates on Flour and Wheat From Canadian Ports Declared Too Great—Disparity in Charges Declared Due to Difference in Perishable Quality of grain and flour

London, Feb. 14.—The Imperial Shipping Commission today were given a concise representation of the Canadian view of the present discrimination in ocean rates on Canadian and American flour, with the Dominion the loser. High Commissioner Hon. P. C. Larkin, in presenting the case for the Dominion, stated that while at present there is a temporary adjustment removing the rate disparity, it is necessary that Canadian grain growers and flour mills be protected to the extent of making a permanent rate, to the favor of the Dominion.

The Canadian authorities are after a pledge that the removal of the former discrimination will be permanent.

Former representation made to the Shipping Board by the Dominion have been carefully weighed by those in authority and the request made today, it has been indicated, will be granted by the Imperial Board.

It has also been represented to the Commission that the difference between the rates on flour and wheat from Canadian ports is too great. The steamship companies claim this is because wheat is often carried as ballast, while flour is more perishable.

The attitude of the Labor Government toward preference has been indicated in the official statement issued on the preferential trade conference between Canada and Australia held in Ottawa. The failure of the delegates to reach any compromise and the deferring of the agreement is termed "a blow at the ultimate full inter-empire trade."

The lack of success attendant on the visit to London of Premier Bruce of Australia, has again brought to the front the unsettled condition of both Federal and State trade affairs.

It is said that the Premier will have some difficulty in persuading his followers that his misson was even partly successful.

Beer Drinkers Are Fewer In Britain, Report Shows

London Feb. 14.—Consumers of alcoholic liquors in Britain have either not been so thirsty during the last two decades or have lost the desire to drink, for the consumption of beer spirits and wine in the United Kingdom has undergone an immense reduction since the end of the last century, according to the Alliance Year Book, the temperance reform handbook just issued.

Beer consumed in 1899 per head was 32.53 gallons, in 1922 15.80 gallons; spirits in 1899, 1.09 gallons, in 1922, 1.36 gallons; wines, in 1899, 0.41 gallons, in 1922, 0.26 gallons.

A contrast is made between the amount of beer consumed in 1922 and 30 years ago. Then a population of 29,000,000 in England and Wales accounted for 27,500,000 barrels. In 1922 the amount was 21,000,000 barrels, though the population has increased to 38,000,000.

Fig-Leaf Costume Too Real "Dress" Rehearsal Stopped

Vienna (By mail to Unite Press).—The fig-leaf costume of Eve in the playlet, "Adam and Eve," at the Volks Opera here was so realistic that Director Weingartner rang down the curtain on the "dress" rehearsal.

Fraul Lanik, authoress of the playlet appeared in the Garden of Eden style as the Eve.

Director Weingartner had followed the rehearsals and was pleased until the night before the performance was advertised to be shown for the first time to the public. On this evening the entire cast appeared in costume. All except Eve. She appeared without costume. The curtain went up, Eve appeared, Weingartner saw—and the curtain went down. Whether Adam was clothed equally as primevally as Eve has not been established. Weingartner did not wait to see.

Frau Lanik firmly avowed she could not wear a lot of twentieth century clothes when depicting a scene from Eden. Weingartner offered Frau Lanik the opportunity of presenting another little playlet named "Manon." But he wouldn't listen to Eve with all her realism. Neither playlet was staged.

Daily Intelligencer

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Printed and published every afternoon (except Sundays and holidays) for The Intelligencer Printing and Publishing House (Limited), in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 227 Front Street.

Let there be harmony in things essential—liberty in things not essential—charity in all.

WATER POWER

That the year 1923 was one of marked activity in the development of the Dominion's water power resources is evidenced by a review made by the Dominion Water Power Branch, Department of the Interior, of the principal undertakings from coast to coast. This indicates that some 255,000 horse power were added during the year, bringing the total water power installation in Canada to 3,228,000 h.p. The most significant feature, however, is the large number of projects actually in progress of construction or actively in prospect. These projects when complete will add to Canada's total more than 90,000 h.p.

The details of progress during the year are set forth in the following paragraphs but special attention may be called to the developments in British Columbia of the East Kootenay Power Company, the Granby Consolidated Mining and Smelting Company and the Pacific Mills, Limited; in Manitoba, of the Manitoba Power Company; in Ontario, of the Ontario Hydro-Electric Power Commission at Queenston, Niagara Falls, Nipigon, Trent River and South River and of the Northern Canada Power Company and the Great ada Power Company and the Great Northern Power Company in the mining district of Northern Ontario; in Quebec of the Quebec Development Company on the Saguenay River, and St. Maurice Power Company at La Gabelle, the Montreal Light, Heat and Power Consolidated at Cedars, and numerous others such as the Southern Canada Power Company at Hemming Falls on the St. Francis River; the Ottawa River Power Company at Calumet Falls, on the Ottawa River, and the Northern Canada Power Company on the Quinze River; in New Brunswick of the Maine & New Brunswick Power Company, and in Nova Scotia of the Nova Scotia Power Commission and the Avon River Power Company.

The development work of the Ontario Hydro-Electric Power Commission ranked first in Ontario during the year. At the Commission's gigantic Queenston plant on the Niagara River, two new 55,000 h.p. units numbers five and six, were brought into operation. It is expected that units seven and eight will installed in 1924, which will bring the capacity to 440,000 h.p.; the ultimate total of 550,000 to 600,000 h.p. being reached by 1926. A new 20,000 h.p. unit was installed in the Ontario Power mission at Niagara Falls, this unit replacing a similar one which was destroyed in 1921. A new plant of 1,2000 h.p. was constructed at Bingham Shute on the south River to serve the Nipissing system and work was started on the installation of a new pipe line at Eugenia Falls. On the Trent River construction was commenced of two new developments, at Dams 8 and 9, of 6,600 h.p. and 4,800 h.p. respectively. These will serve the Central Ontario system and are expected to be in operation in 1924. Operations were also commenced on the addition of two new units of 12,500 h.p. each in the Cameron Falls station on the Nipigon River to serve the Thunder Bay system.

THAT SETTLED STRIKE

The strike of Cape Breton miners is at an end. After a long period of idleness, during which production was seriously restricted, hardship imposed upon thousands, and hundreds of thousands of dollars lost to miners, operators and public, the men return to work—at increased wages.

The character of the settlement compels a questioning of the reason for the strike. How does it come that the operators who, on January 15, announced a cut in wages, approximating in some cases almost 20 per cent., thus causing a "walkout," are now able to resume operations under a wage schedule calling for actual increases of from five to ten per cent?

That, to our mind, calls for some explaining. It calls for explaining because neither operators nor men have a right to close down the coal mines of this country without just or adequate cause. These mines are the property of the Canadian people; their products are essential to this country. In the case of the strike just settled it looks suspiciously as though an attempt of the operators to take unfair advantage of the men paralysed an essential public utility and inflicted damage upon the entire country.

EDITORIAL NOTES

Are we to infer from the Luxor cable that there is still another lid?

Ottawa newspaper workers are frank to admit that one A1 wedding is enough to crown a lifetime of trouble.

Mr. Henry Ford's recipe for peace is "Make everybody speak English." But if they can also speak French their capacity for conciliation will be commensurate with their more highly trained intelligences.

Edison, at 77, says he feels no older than 40, and adds, "Work which one loves is the best form of diversion." Quite so; the man whose work is devoid of a few sporting chances find that the hands of the clock turn slowly For people of the Edison breed there are not enough hours in the day.

After noting the amount paid in taxes to the Dominion Government on a bottle of whiskey sold in Quebec and the total net profits of the Quebec Liquor Commission, we have come to the conclusion that the real value of the contents of said bottle must be low enough to cause, wonder why anyone should desire "hard stuff".

VALENTINES

I found them in the attic just the other day,
A box of quaint old valentines that Grandma'd put away,
Along wih queer old letters tied up with ribbons blue
And scented up with lavender and fragrant too, with rue.
They were such pretty little things bits of paper lace,
With little dancing cupids there to hold each in its place,
And when you turned the covers back, you read some verses true.
Like "The rose and violet are not more sweet than you."
There were some funny little cards about a girl quite fat,
But Grandma is so very thin, how could they send her that!
But Mother says that Grandma dear was once as plump as I.
And maybe some day I'll be thin just like her, oh, my!
The valentines were labeled too, from John and Tom and Ned,
But most of them just said so plain "From your devoted Ed."
And Ed, you see was Grandfather. Now doesn't it seem strange
That little folks grow old so fast but valentines don't change.
And maybe some day when I'm old. somebody else will see
This little bunch of valentines you folks have sent to me.
And they'll not think them queer at all, the verses odd, or strange
For though the patterns vary, why love, you see, won't change.

IF THERE WERE DREAMS TO SELL

If there were dreams to sell,
Do I not know full well
What I would buy?
Hope's dear, delusive spell
Its happy tale to tell,
Joy's fleeting sigh.

I would be young again;
Youth's madding bliss and bane
I would recapture;
Though it were keen with pain,
All else seems void and vain
To that fine rapture.

I would be glad once more,
Slip through an open door
Into Life's glory;
Keep what I spent of yore,
Find what I lost before,
Hear an old story.

As it one day befell,
Breaking Death's frozen spell,
Love should draw nigh;
If there were dreams to sell,
Do I not know too well
What I would buy?

—Louise Chandler Moulton.

PRESS OPINIONS

GIVE US PENNY POSTAGE

(Acton Free Press)

Canada's postal revenue is increasing, the returns for the eight months of the fiscal year to November 30 showing total receipts of $18,000,000 as compared with $17,000,000 for the same months last year. Expenditure is being kept pretty well in hand for during the same months it was $12,626,241 as compared with $12,214,893.

With such a healthy spread between revenue and expenditure the Postoffice department is now in a position where two-cent letter rates may safely be adopted again.

UNIVERSAL LAWBREAKERS

(Flint Journal)

Every person who read the account of the judge's decision in the New York shoplifting case naturally wondered what the girls pilfered. Not money, diamonds or clothes, as one might suspect. The articles were comparative trifles, and consisted chiefly of toilet articles and ornaments which they could not afford to buy and which, as they now realize, the shoplifters could well afford to do without.

Envy or vanity impelled them to steal, and going to jail and court hurt their pride. We cannot moralize about envy or about vanity. Most folks are infected with one or the other or both. A comparatively small percentage of the both steals but most of them break the law one way or another—some more often than others.

THE OLD-FASHIONED PREACHER

(Toronto Star Weekly)

Who remembers the old-fashioned gospel preacher who confined his activities mainly to preaching the gospel?—Kitchener Record.

But in the old-fashioned days not only were preachers different from now, but sinners were different too. The man who lost his temper and used bad language when the pigs got into his root crop used to be preyed upon by an agony of remorse until he had arisen in class-meeting and confessed his back-sliding before the whole congregation. Where are the old-fashioned consciences of that type?

Since the forming of joint stock companies and all sort of corporations the human conscience has claimed a limited liability for anything that may be done. The individual does not consider he is a sinner if he is but a minority shareholder in a piece of wrongdoing. An increasing portion of offenders or sinners when tempted of the devil or when reproached by conscience, refer both the devil and their consciences to the company's lawyer who is retained at a large fee to determine what course of conduct is legal—and if it is legal what more do you want?

Times have changed, sin and sinners have altered a great deal and preachers have or ought to have much to say nowadays that didn't need saying in the old-fashioned days.

ORGANIZED REPARATIONS

(Paris Le Temps)

Before the war, British industry found it more and more difficult to overcome German competition. During the first four years following the war British industry has only experienced one year of abnormal boom followed by a long depression. In 1923 British exports increased, thanks solely to German resistance in the Ruhr.

If 1924 is a peaceful and normal year, as we devoutly hope it will be and doubtless Mr. MacDonald also how will British industry bear up against the competition of countries with depreciated currencies, and above all German competition?

We know only one remedy—stabilize exchange and balance the cost of industrial production by organizing the payment of reparations. Otherwise how will Mr. MacDonald's voters eat?

Poincare Gov't Is Speeding Up

Premier Poincare sends Personal Note to Public Prosecutor

Paris, Feb. 13.—Three full weeks ago today the Poincare government introduced in parliament the fiscal measures for economy and additional taxation intended to balance the French budget and improve the situation of the franc in the world's exchange market. The bill contains 109 articles and the chamber this morning began the discussion of Article III. The entire work accomplished by the parliament in the three weeks was confined to voting the first two articles.

The present parliament must adjourn for the elections by the first week in May, the mandates of the members expiring May 31. Systematic obstruction by the opposition has made the government's progress so slow that unless radically different methods are adopted the elections will be held and a new chamber chosen before the measures are passed.

The cabinet council met this morning, presided over by M. Poincare, and is understood to have discussed means for foiling the manoeuvres of the opposition and to speed up the success of the measure in the chamber.

DELEGATED POWERS GIVE LABOR PARTY AUTHORITY

By C. T. HALLINAN

London, Feb. 14 (By mail to United Press).—Not in the House of Commons where it is liable to defeat at any moment, but in the great frowning government buildings along White Hall, is where the new Labor government will bring about its "revolution."

That, at least, is the expert view of Professor J. H. Morgan, professor of constitutional law in the University of London, who discloses, with almost dramatic abruptness, the extraordinary powers, free from the slightest parliamentary or judicial control, now passing into the hands of Ramsay MacDonald and his associates.

Here are some of the things which he says the new cabinet can do without even consulting Parliament:

1. Recognize Russia (already accomplished.).
2. Draft and sign any sort of treaty with Germany.
3. Grant complete self government to any or all the colonies and dependencies—a power strongly upheld by Gladstone as one of the perogative of the government without regard to Parliament.
4. While India is under Parliamentary control, the new secretary of state for India could, with a stroke of the pen, reduce the Indian viceroy to impotence and give Ghandi the run of the place, practically speaking.

These are merely some of the things they could do; what they will do remains, of course, to be seen.

Thirty years ago Mr. and Mrs. Sidney Webb, encouraged by an occasional cheer from Bernard Shaw, started out to teach the British labor movement something about the way England is really governed.

Labor Learns

Today, according to Morgan, the Labor party has learned the lesson thoroughly—far better indeed than the ordinary citizen who still thinks that the House of Commons runs the whole show.

The Labor party, he says, knows that in the old days when the House of Commons was "the finest club in Europe," it fell into the habit of delegating powers to the various ministeries and government departments chiefly from sheer indolence and dislike of being bothered with "details." These government departments have grabbed every tiny scrap of power thus given them and built up an immense citadel, free from parliamentary or judicial control, and it is behind that citadel that the new Labor government intends to bring about the "revolution."

For example, says Morgan, Parliament passed 82 laws in the year 1920 but these powerful government bureaus during the same period issued nearly 2,500 "regulations, rules and orders," all having the force of law. Less than 1 per cent of these came under parliamentary review or the notice of the courts.

"It would be a great mistake," says Mr. Morgan dryly, "to underestimate the intelligence of Mr. Sidney Webb."

END OF CHAPTER I)

President Coolidge Refuses To Ask Denby To Quit

Request of Senate Flatly Rejected as Outside Its Jurisdiction

Washington, Feb. 13.—A request to President Coolidge yesterday by the Senate asking immediately for the resignation of Edwin Denby, Secretary, of the Navy, was refused by the chief executive.

The Senate's request was embodied in a resolution which was adopted 47 to 31 and sent at once to the White House by special messenger.

The president's refusal was given in a statement issued four hours later in which he asserted that no official recognition could be given to the Senate resolution.

The dismissal of an officer of the government such as is involved in this case other than by impeachment, in exclusively function," the president said.

Declaring further that when in possession of all the facts he would take such action as seems essential for the full protection of the public interest the president asserted.

"I do not propose to sacrifice any innocent man for my own welfare nor do I propose to retain in office any unfit men for my own welfare."

An Eventful Day

The Senate's action came toward the close of another day of fast-crowding developments in the oil investigation. At a morning session the oil committee heard from Wm. G. McAdoo a detailed statement of his employment as a counsel for the Doheny interests a declaration that had no part in leasing negotiations and a charge that injections of his name into the inquiry was a political move to discredit him as a presidential candidate.

Music & Drama

The Griffin's Opera House offers for 3 days commencing Feb. 18, matinee daily, a production that has enlisted the attention and the delight wherever it has been shown, namely, the six key cities, Boston, New York, Chicago and Los Angeles, Montreal and Toronto. This attraction is 'The Covered Wagon' Made by Paramount from Emerson Hough's famous Saturday Evening Post serial of like title directed by James Cruze, it presents a romance of the forty-niners in the grandiose style, showing the hardships, perils, thrilling adventures and final conquest of the 2000 miles of Oregon Trail from the banks of the Missouri River to the Pacific Coast. Tully Marshall and Earnest Torrence contribute wonderfully life-like side splitting portrayals of old scouts. J. Warren Kerrigan and Lois Wilson, carry the equally delightful love interest of the story. Other notable players in the cast are: Alan Hale, Charles Ogle, Ethel Wales, Guy Oliver and Johnny Fox. The success of "The Covered Wagon" has been equally extraordinary here as in the other cities. Capacity business has marked all of its engagements. Showings are given twice daily at 2.30 and 3.30. A symphony orchestra will play the delightful score.

"THE WILD PARTY" NOW AT REGENT

Gladys Walton started her film career as a "bathing beauty," but in the course of her progress up the ladder to screen fame, her aquatic ability was almost forgotten by the motion picture public. In "The Wild Party," her latest starring vehicle for Universal, she proves that her skill as a swimmer and fancy diver has not diminished. There isn't much film devoted to the "water stuff," but what there is has a kick. Miss Walton's latest triumph is now showing at the Regent theatre, matinee daily.

New Strike In Britain Feared

Serious Strike of Dockers and Transport Workers Threatened

London, Feb. 13.—The formation of the new Labor Government took place simultaneously with a railway strike and it is possible that the opening days of Parliament, with that Government in control, may see a serious strike of dockers and transport workers. An important conference was held yesterday between the national council of port labor employers and the Transport and General Workers' Union in an attempt to arrive at a settlement of the threatened outbreak.

A conference of dock workers on January 29 decided to instruct the members of that union to withdraw their services February 16 in all the ports of Great Britain unless in the meantime a satisfactory settlement of the wages dispute was reached. The employers ahead offered as a compromise and advance of 1s a day in the men's wages, and an inquiry into the question of the decasualization of dock labor but after a long discussion the union rejected this offer, it being stated that the dockers were pressing unanimously for a two shilling advance. There are still several days available for mediation, but the position last night was considered serious, as not only 12,000 dockers are involved, but an enormous number of workers' railway men and others engaged in transport connected with the dock industry and belonging to nine different unions will be idle.

DOMINION COMBING MILLS PRESENTS SATISFACTORY STATEMENT TO SHAREHOLDERS

Company's Plant Now In Complete Operation

A financial statement of the Dominion Combing Mills Ltd., is going forward to shareholders covering the operations from the time this mill started until the end of the year 1923 which would average almost two full months' operations for the complete plant. Total assets are shown at $1,439,143; fixed assets at $950,503 liquid assets at $488, 540; current liabilities at $264,719, and operating surplus at $34,443. For the short period of operation this showing is considered quite remarkable.

Had Suffocating Feeling

Stomach and Liver In Terrible Shape Till Dreco Came to Tone and Regulate Them Back to Healthy Working Order.

"My stomach and liver had been in bad shape for several years," says Mrs. Ethel De Long, of 170 Perry St., Peterboro, Ont. "My food never seemed to digest properly. It caused gas attacks, heart burn and a suffocating feeling. My liver was sluggish, spots would float before my eyes and my nerves were so bad that after going to bed at nights I had to get up and walk the floor before going to sleep. I was also troubled with constipation and my whole system became weak and run down.

"Dreco has brought a wonderful change in me. I have only taken one bottle, but my stomach is much better already and I feel stronger and more energetic in every way. My bowels are regular, I eat heartily and my sleep is sound and refreshing. Dreco is certainly a wonderful medicine."

Dreco corrects and regulates the action of each digestive organ and builds them back to normal health and strength. It is a reliable remedy comprising scientific proportions of the very herbs, roots, bark and leaves that Nature herself has provided for such troubles. It contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.

Counsel Pays Fine For "Hard Luck" Client

Toronto, Feb. 13.—Fred Thompson has recently been obliged to make two unpleasant financial outlays, one when he had an operation for appendicitis, and later fell, breaking open the wound, the other, when his appeal against a Police court conviction for having liquor, was dismissed with costs. His counsel offered his personal cheque for $200 to pay Thompson's fine of $300 and the Crown, considering the circumstances, assented to a reduction of the fine. Mr. Essery expressed himself as perfectly satisfied that Thompson would repay him.

City and District

WEDDING BELLS

TODD—DAFOE

A very quiet wedding was solemnized at Bridge St. Parsonage, last evening, when Miss Bertha Ellen Dafoe of Sidney was united in marriage with Mr. Albert Wesley Todd of Frankford.

The ceremony was performed by Rev. F. E. Malott.

Last evening the U-2 Class of Holloway street Methodist Sunday School and friends enjoyed a merry sleigh drive to the home of Miss Marjorie Wood, Mountain View.

IN MEMORIAM

CETERINE—In loving memory of my dear husband, William A. Ceterine, who died Feb. 14th, 1923.

His weary hours and days of pain
His restless nights are passed;
His ever weary worn-out frame
Has found sweet rest at last.

The blow was great the shock severe:
to-gether of al members of the vari-
A committe of three to look after
ted to the Cou ncil. Regarding the
We little thought his death so near;
Only those who have lost can tell
The pain of parting to abid farewell.

This day brings back to memory
A loved one laid to rest
And those who think of him to-day
Are those who loved him best.

Sadly missed by wife, daughter and son.

Doherty

(Continued From Page One)

name and connection in order to introduce his newly christened Progressive party to the Chamber under advantageous terms.

Leaving the matter with this exposition in the hands of the House, Premier Ferguson moved an amendment to Hon. Mr. Doherty's want of confidence motion which was, in effect an expression of confidence in the Government. The objection was raised that there could not be two amendments to the Throne address, and the matter was left over until to-day for Speaker Thompson to give a ruling.

VALENTINES AND LEAP — YEAR IN OPPOSITION

So this is Valentine Day? This is Leap Year too, and what a wonderful impetus this fact may add to the usually interesting and duly observed February 14th. Retiring youths who propose to mail the significant little book-store "love token", may be met by a "proposal" before they act, for this is Leap Year. At all events, the mail carriers are today burdened by the "missives" which make the "posties" footsteps welcome sounds to some, but not so welcome to others.

There are two phases of almost every situation, and Valentine Day is no exception. Some people send and receive the beautiful cards and booklets which tell in pointed paragraphs the old story of young Dan Cupid, his pointed dart and the blood red heart. Others receive the grotesque and painfully amusing caricatures which exaggerate the weaker points in their make-up.

Emperor K.K.K. Sells His Stock

Disposes of Monthly Annuity of $1,000 for $145,500 in Cash

Atlanta, Ga., Feb. 14.—Wm. Joseph Simmons, Emperor and founder of the Ku Klux Klan has disposed of his right, title and interest in the invisible empire and renounced his monthly annunity of $1,000 for a consideration of $145,500 in cash, Paul Etheridge imperial klounsel and chief of staff to imperial wizard Hiram Wesley Evans, announced yesterday. was made public yesterday. Col. Simmons agreed to cease all opposition to the K.K.K. and to the administration of

Under terms of the contract which Imperial Wizard Evans and promised not to take part in any organization or movement having for its purpose the disruption, disorganization or interference with the klan. He retains "klan krest" the home the klan gave him several months ago.

Simmons Denies Report

Jacksonville, Feb. 14. — William Joseph Simmons, emperor and founder of the K.K.K. issues a statement here last night in which he denied "that I have sold all my rights in connection with the Knights of Ku Klux Klan."

In his statement Col. Simmons said that "a new movement not antagonistic to the klan was launched here by citizens of Florida and elsewhere, of national scope and of which I have the honor to have been made the head."

FIVE YEARS WITH LASH

Saskatoon, Feb. 14.—Five years in the Saskatchewan penitentiary and twenty lashes was the sentence Mr. Justice Donald MacLean yesterday morning gave Alex Safaros, alias Rose, who was found guilty by a jury Monday night on a charge of rape. The judge ordered that ten lashes be administered after the first six months and before the end of the first year, and ten more during the second year.

CHAUFFEUR A WAR ACE

Pasadena, Calif. (United Press).—The distinction of having in their employ as chauffeur one of the leading "aces" of England and winner of the English aerial derby last summer, Capt. George Clifford, belongs to Mr. and Mrs. D. W. Field of Brocton, Mass., who are spending the winter in Pasadena. Chauffeur Clifford is a captain in the reserve of the Imperial Royal Air Force of Great Britain.

Deaths and Funerals

JAMES J. ROW

On Tuesday at the hospital at North Bay the death occurred of Mr. James J. Row, aged 70 years, a former well known resident of this city.

Deceased suffered a paralytic stroke several years ago, and on Saturday was removed to the hospital. He was born in Sidney Township and for the the past 12 years resided with his son-in-law, J. T. McDougall, Crown Timber Agent. Two sons and two daughters are left to mourn: John, Superintendent of the Elmira Foundry and Machine Co., Elmira N. Y., William of Lyall, Cal., Mrs. Walter Pugh Minneapolis, and Mrs. J. T. McDougall, North Bay. Three brothers and one sister also survive, as follows: Henry and Charles of Belleville; John of Wyoming Ont., Mrs. Etta Carmichael of Toronto and Mrs. Miller.

MRS. SARAH J. BOYCE

At Cannifton on Wednesday afternoon the funeral of the late Mrs. Sarah J. Boyce took place and was attended by many friends and relatives. Rev. Mr. Farnsworth, of the Methodist Church conducted services at the house. The body was placed in the vault at Belleville cemetery. Floral tributes were many and beautiful in effect. Bearers were immediate relatives of deceased, namely. O. Mather, C. Massey, H. K. and S. D. Boyce, B. and R. Maybee.

BOARD APPROVES 1924 ESTIMATES

Parks Board Refers Several Important Items to City Council

The Parks Board held a special meeting yesterday afternoon and several items of importance to Belleville were discussed and referred to the City Council for their next meeting.

The estimates and figures for 1924 were approved and ordered transmitted to the Council. Regarding the proposed dredging operations in the local harbor, the Harbor Commissioners and City Council were requested to consider the Board in placing contracts for the disposal of their material.

The Board will meet at 4 p.m. Monday afternoons at the same time as the Council, and several other topics of local importance are scheduled for the next meeting.

A committee of three to look after the trimming of trees was appointed Chairman T. P. J. Powers; Chas. Simmons and J. C. Panter.

The secretary of the board asked that a request be sent the council to hold a conference and banquet at the Queens Hotel, in order that a get-to-gether of all members of the various committees could be held.

THREE FATALLY BURNED

Winnipeg, Feb. 14.—In a fire which followed the explosion of coal oil which was being used to light a kitchen range, three daughters of Karl Rickseidler, a farmer in the Dewet district, of southern Manitoba were burned to death and five other children severely injured, according to meagre reports reaching here last night.

How It Is Done

To bring out the delicious flavor of Quaker Oats, it is necessary to cook them in a Double Boiler, and the Quaker Oats Company is making it easy for users of Quaker Oats to obtain one of these cookers.

For eight days in this city they are offering the Quaker Oats Double Boiler, made of high-grade aluminum, at less than cost. The special offer will remain open till a week from Saturday night. Look for the window displays of grocers who have these Quaker Double Boilers in stock.

Quaker Double Boilers should not be confused with "seconds" in aluminum ware which are frequently offered at reduced prices. These cookers are made to the order of The Quaker Oats Company by a leading Canadian manufacturer, under a contract which provides that every article shall be first-grade, 99% pure. No finer aluminum is sold in Canada.

The Quaker Oats Double Boilers hold two quarts. They are useful for every boiling and stewing purpose. In the usual way, they would cost at least $2.50.

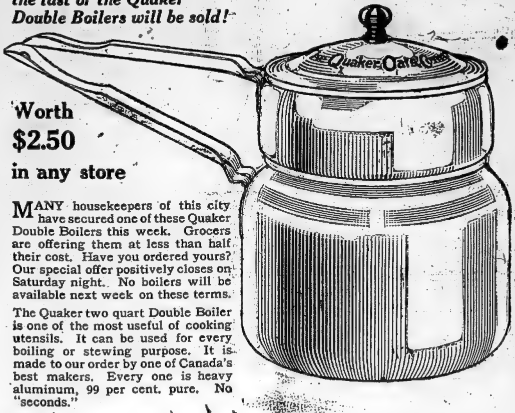
The elimination of the hulls in the milling of rolled oats has always been a problem to manufacturers. The Quaker Oats Co. recently perfected a process which eliminates practically every hull. To those who do not use Quaker Oats, the present is a good opportunity to find out how good rolled oats can be. If you secure the Quaker Oats Double Boiler on this special offer you will learn that Quaker Oats are almost entirely free from bothersome hulls, and you will enjoy the delicious, nut-like flavor of the Oats. The double boiler cooks the oats thoroughly without burning.

Quaker Oats Double Boilers will be delivered by your grocer during the special offer. There will be no waiting to secure them. But after this special offer is closed, no boilers will be procurable except in the regular way.

QUAKER MAKES WONDERFUL OFFER

Some time before Saturday Night—

the last of the Quaker Double Boilers will be sold!



Worth $2.50 in any store

MANY housekeepers of this city have secured one of these Quaker Double Boilers this week. Grocers are offering them at less than half their cost. Have you ordered yours? Our special offer positively closes on Saturday night. No boilers will be available next week on these terms.

The Quaker two quart Double Boiler is one of the most useful of cooking utensils. It can be used for every boiling or stewing purpose. It is made to our order by one of Canada's best makers. Every one is heavy aluminum, 99 per cent. pure. No "seconds."

How to get a Double Boiler

The grocers of this city have a limited supply of these Quaker Aluminum Double Boilers. Here is how you can get one if you act promptly.

$2.50 Double Boiler and two large cartons of Quaker Oats, worth 60 cents;
Total value $3.10, for - $1.75

$2.50 Double Boiler and three large cartons of Quaker Oats worth 90 cents;
Total value $3.40, for - $2.00

If you are using Quaker Oats, get one of these Quaker Double Boilers and see how it brings out the full flavor of the oats. If you are not using Quaker Oats, try them on this special offer. You'll know how good porridge can be when boiled in the right way, and you will know how free Quaker Oats are from bothersome hulls.

Thousands of housekeepers in all parts of Canada are using the Quaker Double Boiler and all are enthusiastic about it.

A picture of a kilt-clad Highlander, standing on the peak of some rocky crag in high Caledonia, with wisps of cloudy fog veiling the bright Tartan colors. The Scot is a hardy man, worthy scion of generations of hardy people, and his bowl of "porridge" is his daily bread.

It will be hard to make some understand how ground oats, flavored with a pinch of salt, and cooked until thoroughly softened could be so tasty. The majority of oatmeal users in England and other parts of the world have found that they could not get along without their "sweetening and milk, but oats, one of the most nutritive of known grains, has a natural sweetness of taste that the Scotsman takes full advantage of.

The first known people to have used oats in an extensive way were the Egyptians. Discoveries in the tomb of Tut-Ankh-Amen, the Pharoah who died over three thousand years ago, show that oats, in various forms, were used by rich and poor alike.

Traces of the use of oats in ancient Rome and Greece have been found in scanning the incomparable bas-reliefs and harvest freizes in still standing ruins of the age of sculpture. It can well be imagined that the mythical heroes of Greece such as Thesis, Hercules and others, made ready the day with a steaming bowl of porridge.

Coming down to more modern times, the hardy pioneers and conquerors of the Middle Western plains in the days of the gold rush found oats among the necessities of existence. The keeping quality of the grain made it of great value in making the long marches across vast areas far from habitation other than the domain of the Indian.

The modern method of rolling the grain preserves the nutritive quality in a way not known by the ancients, and the variety of tasty dishes that can be prepared to please the appetite of the most fastidious are without number.

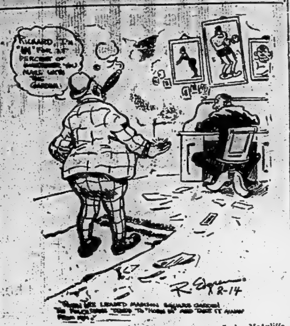
SPORTS THROUGH EDGREN'S EYES



RICKARD, I'M "IN" FOR 25 PERCENT OF [illegible] YOU MAKE WITH THE GARDEN.
R. Edgren 2-14

WHEN TEX LEASED MADISON SQUARE GARDEN THE POLITICIANS "TRIED TO HORN IN" AND TAKE IT AWAY FROM HIM.

William Muldoon, re-appointed Boxing Commissioner by Governor Smith of New York, is one of the best men that ever held the job. As a Boxing Commissioner Muldoon is unique. No scandal has ever been attached to his name. Muldoon may be autocratic, headstrong, opinionated, but he is a square shooter. And after some of the boxing commissioners New York has had in the past a man like Muldoon is too good to be allowed to retire. Muldoon does not hold up promoters for a share of the gate receipts at their shows. Muldoon does not travel around visiting boxing clubs and "borrowing" from promoters, managers and boxers, and training camp masseurs. In the wicked past such things have been done in New York, when governors appointed in haste and repented before the next election.

Muldoon may be the Duke of Muldoon, the boxing czar, and all that sort of thing. But long may he reign! Boxing has been better handled under Mr. Muldoon's inflexible supervision than ever before.

There's some talk of making Muldoon the "Landis of boxing." They have the line twisted. Landis is the Muldoon of baseball.

There's one other man I'd like to see on the New York Boxing Commission. That's Bill Brown. If Bill was in there he'd make gamblers and crooks jump into the East River. If they didn't jump fast enough Bill would throw them in. Bill being an experienced referee, would probably also make N. Y. referees read over the rules, and enforce them. That would be a real novelty. But first it would be necessary to carefully pick out referees who can read.

There has been some comment to the effect that Tex Rickard will be "in solt" with Muldoon back in the Boxing Commission. Rickard never had any trouble with Muldoon as Commissioner. Rickard recognized the fact that Muldoon was on the level and was trying to run boxing on the level. He tried to do what Muldoon ordered even when he didn't entirely agree with Muldoon's ideas. And Muldoon knew Rickard was a unique character as an honest promoter or professional sport. If he didn't keep a severe eye on Rickard it was because he knew h edidn't have to. If he took Rickard's word it was because he knew he didn't have to. If he [illegible] upon.

Rickard, himself, has scrapped his way through many an attempt to down him and seize the business his reputation for squareness has built up.

When Rickard leased Madison Square Gardens for ten years and opened his office there almost his first visitor was a stout, well manicured gent who used to run gambling houses in New York and later was identified with bigger enterprises. Rickard knew him by sight and repute—no more than that.

"Rickard," said the visitor. "I'm in for twenty-five per cent. of whatever you make with the Garden. I'm your partner to that extent."

"Nothing doing," said Rickard. "This is my investment and I don't care to take in any partners. You'll have to put your money into something else."

"Oh, I'm not putting money into anything," suavely said the visitor. "I'm simply declaring myself in for twenty-five per cent. of your profits. I represent—" (he named a New York political organization), "and we've decided that you are to contribute twenty-five per cent. I'll act as your partner and put my men in to check up the business and see that I get my split. In other ways I won't bother you at all."

In Alaska and the West, Tex Rickard's old reputation was that he never carried a gun or a weapon, but that all the gun fighters and bad men dodged him because they knew he'd fight if attacked and they could not figure what fighting methods his quick brain would invent. Nobody in the wild country ever imposed on Rickard. He wasn't going to go to his knees or stick his hand up in New York.

"You declare yourself in for nothing," he said quickly. "You've got just ten seconds to get out of here and I don't care whether you take the stairs or go down the elevator shaft."

"We'll put you out of business—we'll smash you—we'll drive you out of New York." howled the visitor.

"You have five seconds more," said Rickard.

Before the five seconds were up the door slammed behind the fat, well manicured man, beating a hasty retreat down the stairway from the tower—not even waiting for the elevator.

That visit was followed by many attempts to drive Rickard out of promoting, and many attempts to hold him up for large sums of money. He refused to be held up, and he is still promoting boxing matches. There have been attempts to destroy his reputation—to destroy him entirely—and he has fought his way clear every time.

"As long as Im absolutely square they can't run me out and grab the business I've built up." Rickard told me recently. "The public won't stand for it."

Rickard has great faith in his public.

Mike McTigue says it is "bad business" to "risk his title" in a bout with Gene Tunney before he has gathered all the money he wants. Why fight Tunney and lose the title right away? Much better to spend a year or two boxing set-ups and taking no wild chances with a bird who might hit back.

Mike seems a queer successor to those "fighting Irishmen" who held titles in the old days—Terry McGovern, John L. Sullivan, Bob Fitzsimmons (whose parents were born in Ireland and emigrated to Cornwall and later to New Zealand), the Twin Sullivans, George Gardner, Johnny Coulon, Jimmy Barry, Frankie Neil, Jimmy Walsh, Ike Weir, Harry Gilmore, Billy Murphy, Dave Sullivan, Johnny Kilbane, Jack McAuliffe, Jimmy Britt, Paddy Duff, Billy Smith, Matty Matthews, Honey Mellody, Jimmy Clabby, Jack Britton, Mike Donovan and Jack Dempsey, the Nonpareil.

Too bad Mike doesn't like fighting. He has a wonderful name for a fighting champion—if nothing else. There's something scrappy about the name "Mike", and something tigerish about "McTigue."

ON THE ALLEYS

FOUR LADIES' TEAMS IN ACTION.

The O.S.D. Quintette were working together, smoothly, in their game with the Origonals last night and by obtaining a commanding lead in the first and second game they were in no grave danger, when the Origonals came on in the third game, with a grand stand finish. Miss Blakley's 393 and Miss Blaind's 391 were the best totals, while Miss Gillander's 165 was the high single game score.

O. S. D.—

Miss Gillanders	165	110	111—386

Domenico's Recreation Alleys

The best and fastest games ever played at the Recreation Alleys took place last night between the fast Wanderers aggregation and Millionaires, the former rolling 3025 and the latter 2963, and incidently three new records were broken in one game, the first by the Wanderers who raised their own score for a single game, the second was made by Amy Chouinard who rolled a total of 785 for the three league games or over 60 pins more than the previous record and the third record is that these two teams have made the highest score in any league matches. Only one pin separated the teams at the end of the first game but the Wanderers came back strong in the second when they rolled the above score, taking a lead of 177 pins. The Millionaires staged a remarkable comeback in the last game with Chouinard rolling 307 nd Frost 269, but could not overcome the lead that the Wanderers had piled up losing out by 63 pins on the total score. "Jud" Lynch who got out of a sick bed to play this game rolled a total of 730 for the three strings. (We don't know what Lynch would have made if he was feeling good.) This is the fourth straight loss that the Millionaires have had and n the last three losses their opponents have had to break their own record to beat them.

In the Ladies' League the C.I.A. had about as much hard luck as the Millionaires did winning the first game by 110 pins and losing the second and third to the Lucky Strikes and the total score by 85 pins, both teams rolling very good scores. Miss Harris and Miss Bonisteel being the high bowlers. In a junior game the Express won fro mthe Belleville Motors to the tune of 2344 against 2196. Chapman for the losers being high man and Lloyd for the winners high for his team. Players and scores:

"Toots" Holway Has Joined St. Pats

Toronto, Feb. 14.—St. Patrick's took the elastic off the roll yesterday and before it was snapped back on again some of the outer covering had gone, and in its place was a signed receipt from A. R. Holway, of Brockville, better known as "Toots" to the followers of O. H. A. intermediate hockey in the eastern part of the province. Once bit twice shy, the Irish management had the new recruit sign a receipt and he was a spectator at last night's game and was out at practice this morning. Holway is a Belleville boy playing there last season, but he has been playing centre and defence for Brockville this year. He is a big lad and was originally a defence man. The Irish were after him last summer, but he refused to turn until Brockville had been eliminated from the O. H. A. running. It is also reported around the Arena that further announcements regarding new players for the local pros. will be forthcoming soon.

ELIMINATE BROCKVILLE FROM JUNIOR RACE

In a ding dong struggle here last night, Queen's juniors defeated the local junior O.H.A. squad by the close score of 2-0 and eliminated them from the Provincial race. The play off in this group will now be played at Kingston between two Kingston teams, the Queen's six and Circle Six. Belleville juniors play the winners of that group.

BEATTIE RAMSAY IS BACK FROM CHAMONIX

New York, Feb. 14.—Three divisions of the Winter sports group of the United States Olympic team—the speed and fancy skaters and skiling teams returned yesterday on the Berengaria from their unsuccessful competition with the nations of the world at Chamonix, France, in which Finland finished first. Of the hockey team, which made the best showing of any of the groups, getting to the final match which Canada won, only one member, Clarence Abel, of St. Paul, returned. The other players remained in Europe for a series of matches. Beattie Ramsay, star defence player of the Canadian hockey team, also arrived on the Berengaria and left for Toronto last night.

Campbellford Finals Last Until Morning

The finals in the Riendeau Cup were finished this morning at three o'clock. J. M. Baker of Peterboro, being the victor.

The Victoria Cup was won by W. J. Meiklejohn, of Campbellford.

The results of the fourth round were as follows:

T. Huycke, Hastings	13
George Houson, Keene,	10
J. Bacon, Peterboro,	14
F. J. Smith, Campbellford,	4
George Stephenson, Hastings,	17
W. H. Fletcher, Keene,	12

Consolation

S. Comrie, Keene,	11
T. Huycke, Hastings,	8
J. Bacon, Peterboro,	15
George Stephenson,	10

Finals

George Greene, Dr. Sutton, George Cairns, J. Bacon (skip)—15.

D. Orris, G. S. Taylor, C. E. Nelson, S. Comrie (skip)—12.

First Round, Campbellford Cup

W. J. Meiklejohn	12
S. J. Moore	5
R. H. Cole	19
A. L. Riendeau	8
P. J. Kelly	9
D. E. Tait	8
M. Mulhearn	13
J. P. Archer	6
J. Smith	16
D. W. Douglas	5

Victoria Finals

W. J. Meiklejohn	19
P. J. Kelly	15

President P. J. Kelly, in a few well chosen remarks, thanked the visitors for their efforts to make the bonspeil so great a success.

Irish Down The Good Senators

Toronto, Feb. 4.—For the first time this season St. Patrick's lowered Ottawa's colors in an N.H.L. game, when they defeated the world's champions by 4 to 2 at the Arena last night and by this victory they remain on equal terms with Canadiens in second place in the struggle for the right to meet the Senators for the league championships. The losers were without the services of George Boucher, but his place was ably filled by King Clancy, who teamed up well with Hitchman on the defence and the defeat cannot be attributed to the absence of Boucher.

The real reason for the victory is that the locals played their best hockey of the local season, the forward line looking a little better than on their last two appearances, while the two defence men showed great improvement. Right from the start Stuart and Corbeau indicated to the visitors that if they wanted to get in close on Roach they would have to take some stiff body-checks, and they also covered up well in front of goal, and Roach had a comparatively small number of shots to handle from close in, and he took care of these in great style.

Ottawa tested Roach from long range with the bow-high shots and two of these fooled him. The second, on a shot by Denneny, was the fault of the defence, who allowed the league's leading sharp-shooters to take a pass and then pick out the bullseye. The first goal for the [illegible] was as one of the easiest shots that Roach has had directed at him this year, being from the bords at the blue line, and he had an unobstructed view.

BONSPIEL AT OSHAWA

At Oshawa a curling bonspiel is in progress with rinks competing from various cities and towns. A rink from Belleville skipped by Mr. W. N. Belair was defeated in the first round by a Oshawa rink skipped by Dr. T. E. Kaiser, the score being 9 to 8. In the consolation competition for the T. Eaton trophy, Mr. Belair's rink in the first round was up 8 shots.

KIND BOY

Affable Visitor—"Well, and do you do a good deed every day, Tommy?"

Tommy—"Yes, sir. Yesterday, I visited my aunt in the country, and she was glad. Today, I came back home again, nd she was glad again."

Petes Win Round From Oshawa 3-1

Peterboro, Ont., Feb. 14.—Peterboro clinched the round in the O.H.A. battle here last night by defeating Oshawa 3 to 1, in a fast game, winning the round by five goals. The score was tied, 1 to 1, towards the end of the second period, when Peterboro went down the ice in a series of faultless combination plays, and Collins and McPherson bulged the twine.

Lowe, the human jumping jack, was a thorn in the sides of the Petes, being all over the ice with his wonderful stick-handling and heavy back-checking. He penetrated the defence time and again, and was stopped only by nice work by Goalie Dwyer. Rose, the only two-gun man on the ice, was to the front in the Peterboro play and Collins and Parker also starred for the home team. Oshawa was dangerous only in the latter part of the second period, and showed lack of combination that broke up their offensives on the Petes' defence line. The play was clean, only three penalties being drawn by each team, and none being sent to the bench in the last period. Peterboro deserved to win on the play. Line-ups:

Peterboro—Dwyer, goal; Parkin and Halpin, defence; Collins, centre; Ranger, right wing; Burgess, left wing; Rose and McPherson, subs.

Oshawa—Smith, goal. Heffernan and Whinfield, defence; Houck, centre; Rowden, right wing; Lowe, left wing; Williams and J. Smith, subs.

Referee—Bobby Hewitson, of Toronto.

Markham Win Round; Meet Peterboro Next

Markham, Feb. 14.—The locals entered the final period of the second game of the second round in the intermediate O.H.A. play-offs one goal behind North Toronto last evening, but they soon evened the count only to have North Toronto take a one-goal lead, but with the score 3-1, and less than fifteen minutes to play, the locals staged a rally and ran in three counters before the final bell, emerging victors in the game by 6 goals to 1, and winning the round, 10 to 8. The locals will likely meet Peterboro in the next round.

Canadiens Win From Hams 3-2

Hamilton, Ont., Feb. 14.—Hamilton's play-off aspirations received a rude jolt last night when they finished on the short end of a 3 to 2 count in the game with Canadiens, and the score is hardly an indication of the play. There was no denying the French squad victory. The performance they turned in was far above any they have shown here this season, and only smart work on the part of Forbes in the last two periods saved the Hams from a worse lacing. The invaders checked like fiends, and showed plenty of dash to their attack.

Morenz Best Yet

Morenz turned in his best performance since joining the pro. ranks. He was all over the ice, checking back, and aside from the four minutes he spent in the penalty box, he was on the ice during the entire game, going at top speed. Boucher and Joliat proved good helpmates. The former was in the thick of the battle throughout, while Joliat bobbed up when things looked most dangerous. Sprague Cleghorn and Coutu made a mighty fine defence. They broke up many a rush, and Cleghorn, with his poke check, was a thorn in Hamilton's side all night. And Vezina stood up with his team-mates. In the latter part of the second period, while Morenz was serving a well-earned penalty, Hamilton opened an attack that could have resulted in counters but for the good work of the French wizard between the pipes. fully a minute they rained shots at him from all angles, but he proved master of the occasion.

"Red" Green was best for Hamilton. The diminutive left wing player gave a neat exhibition of stick handling and held Boucher well in check, and the same might be said for "Shorty" who had Joliat tied to the mast. But "Shorty" was unfortunate enough to be ruled off on no less than four occasions. His every offence was seen by Referee Marsh who did not hesitate in sending him to the penalty box.

CURLING

Four senior rinks from the Kingston Curling Club will this evening visit this city and play four rinks of the local club. The game is one in connection with the Central Ontario

NO OPERATION FOR HER

She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicines and tried the Vegetable Compound and the Sanative Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish."—Mrs. Ed. Boehnlein, 1130 Ash St., Louisville, Ky.

Backache, nervousness, painful times, irregularity, tired and run-down feelings, are symptoms of female troubles. Lydia E. Pinkham's Vegetable Compound should be taken whenever there is reason to fear such troubles. It contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they may work in a healthy, normal manner. Let it help you as it has thousands of others. It is now selling almost all over the world.

England Sets the Best Styles In Sport Suits

By HEDDA HOYT
Fashion Editor of the United Press

London, England, Feb. 14.—An edict from Paris decreeing that gowns should be a trifle longer to "cover up the plump ankles that come from wearing high-heeled shoes," brought a furious protest from Lord Beaverbrook's London newspaper, the Evening Standard.

In behalf of the Englishwomen, the London newspaper stated that English women have no need of covering up their shapely ankles, which are more slender than those of the Parisians. And from recent observations one should say that the English champion of "nether portions" was right.

To begin with the English woman is above all a sports woman. She wears swank little suits of sporty lines throughout the day. Short skirts are quite essential to her, as London streets during the winter months are damp and muddy. English women strive to be sensibly dressed rather than modishly dressed for the street. Their sports shoes and woolen stockings are quite a contrast to the spineless slippers and cobweb hosiery the Americans and Parisians favor for the stormiest of days.

While Paris sets the world's styles for evening and afternoon frocks and accessories, London can be said to set the styles for sports wear. There are no women in the world who wear sports clothes as well as the English women of means who are never garish in their attire but achieve perfect harmony through correct and harmonious color combinations.

Knitted Sports Costumes

The knitted sports dress of slender lines which is to be the last word in spring and summer sports wear originated in England and there it is that we find it in all its shadings of color and silhouette variatons. Soft powder blues, tans, grays, greens and canary yellow are colors most often used this season. There are simple types which are but one color, frocks with floral border designs worked into the material, horizontal and vertical stripe effects, plaids checks and blended tones. Bands of contrasting or blending shades often begin at the hem and extend to the knees on the one-piece knitted frock. If sleeves are long, they are bell-shaped and the band treatment is used on them. Lines of black often accentuate the outline of the various bands. For instance, a frock of canary yellow which slips on over the head has its skirt trimmed with rows of white outlined in black. The long sleeves carry out the same banding idea. A narrow belt of yellow ties at a low waistline.

Sports dresses made of velvet are popular at present at the English resorts. One particularly lovely one is of white velvet made on straight lines and unbelted and uses as its only trim a huge V-shaped pocket edged at the top with a narrow band of ermine and finished at the pointed out with a cluster of ermine tails. Over this is worn a little hip-length cape of white velvet with its shirred roll collar edged in ermine and finished at the fastening with clusters of ermine tails. There is a turban of white velvet that accompanies this costume and a white cane with a brilliant red handle adds a gay color note.

Knitted Boyish Suits

One sees the English version of the Parisian boyish suit in the knitted double-breasted jacquette and skirt combinations which are made in navy blue, tans, greens and grays. These are worn with blouses following mannish lines with tucked shirt fronts, turn-back cuffs and starched turned-back collars.

Next in importance to knitted wear for the coming season, we have the men's shirting materials which hold such a prominent place at the winter resorts at present. Stripes favored are wide and run vertically rather than horizontally. Gowns made of this material are always extremely simple as to line depending upon their very simplicity for their smartness. The blouse portion usually closes just as a man's shirt does with pearl buttons. The collar is like that used on a man's sport shirt and is left open at the neck forming a V. There is a narrow belt made of the material and the skirt is short and slender lined. Stitched bosom fronts are often used to give a tailored effect.

CANNIFTON

Mrs. E. Hall took dinner on Thursday at Mr. Black's.

The W. M. S. meeting at the home of the Pres. Mrs. McGuire, was very largely attended.

The Ladies Aid have a meeting at Mrs. Farnsworth's on Tuesday, for election of officers and some other business.

The district convention held in the church was a very interesting meeting. All the members of this district were present. Reports of the various departments were read by Rev. E. Lane, Rev. J. Totten, Rev. Howly and Rev. Farnsworth.

Mr. E. W. Brown gave a very good paper on "Systematic Giving."

Mr. and Mrs. Twiddy, Mr. and Mrs Harry Twiddy and Miss Johns. Master Kenneth Twiddy, spent the tea hour at Mr. Black's on Tuesday.

Much sympathy is felt for Mr. Harry Boyce in the loss of his mother. She has resided here about 18 years and made many friends. She will be greatly missed at our Sunday School where she was a very regular attendant.

Mr. Dunning from Sask. is visiting his brother Mr. R. Dunning.

WOMEN VOTERS AT BUFFALO

Washington, (United Press).—The fifth annual convention of the National League of Women Voters will be held at Buffalo, April 24 to 29, it was announced today. Plans for the convention are being made by a committee composed of the following: Miss Elizabeth Hauser, Ohio, chairman; Miss Belle Sherwin, Cleveland; Miss Gertrude Ely, Bryn Mawr, Pa.; Mrs. Saspar Whitney, New York; Mrs. P. J. Burns, Buffalo, and Miss Louise Michael, Buffalo.

SIMPLE SOULS

A lowbrow is a person who thinks that the Baldwin everyone is talking about has something to do with an apple.

A Health Secret

It is frequently claimed by physicians that nine-tenths of all human ills may be traced to neglect to keep the bowels regular and the liver and kidneys active.

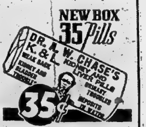
The result is an accumulation of poisons in the system which cause pains and aches and give rise to such dreaded diseases as appendicitis, Bright's disease, diabetes, high blood pressure, etc.

Dr. Chase's Kidney-Liver Pills are the ideal regulators of these vital organs because they act directly on the liver, kidneys and bowels, and ensure a thorough cleansing of the system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.

NEW BOX 35 Pills



That Body of Yours

By James W. Barton, M.D.

MOVABLE KIDNEY

As this condition is more common than is generally supposed a few thoughts about it might be profitable.

It occurs most frequently in women

It is stated by good authorities that almost one in three women complaining of aches in various parts of the body, are found on examination to have a movable kidney—usually on the right side.

Where any pain is present from the causes no pain nor symptoms, it is usually a sort of dragging pain in the loin, aggravated by constipation of menstruation.

This sometimes causes the person to think she has appendicitis.

Although there may not be any severe symptom, sometimes the general nervous system is affected, particularly where the patient suspects that one of her kidneys has "dropped" down.

Now what causes the condition?

Well it is generally found in people who are not very strong physically anyway.

There seems to be just a general weakness of the whole body, and the ligaments and muscular bails holding the organs up, share in the general weakness and allow the organs to sag.

Further, many of these patients have been through an illness of some kind, which has caused a wasting of the tissues of the body including the fat.

Thus the fat which should be holding the kidney in place has wasted away, and the kidney naturally drops from the lack of this support.

And the treatment?

No treatment necessary in the majority of cases, because when the general health improves the muscles and fat increase in strength and amount and hold the kidney in place.

When treatment is given it varies all the way from complete rest in bed, to an actual operation for fixing the kidney in place.

The middle course is considered the best.

That is to let the patient be up and around thus getting her strength back.

In the meantime the kidney is kept up in its place by a bandage or good fitting corset.

As she gets stronger the development of the abdominal muscles gives her a natural belt or corset of muscle, which thus keeps all the organs in their proper position.

The teacher was giving the class a lecture on "gravity."

"Now, children," she said, "it is the law of gravity that keeps us on this earth."

"But, please, teacher," inquired one small child, "how did we stick on before the law was passed?"

at the station wanted four dollars to

Visit the Optometrist as a "patient"

He is not a seller of spectacles. His chief benefit to you will be to determine precisely what your eyes require to make them as nearly as possible normal. This he does with instruments that are exact to the smallest imaginable degree. He has a service for sale not merchandise. So I repeat, visit him as a patient, not as a customer. Glad to number you among my patients.

J. A. McFEE

NEGRESS HELD AS INCENDIARY

Charged With Second Degree Manslaughter in Tenement Fire

Rockville Centre, N. Y. Feb. 13.—After seven hours' questioning at police headquarters yesterday, Margaret Lindley, negress, a servant for the last two years at the home of Mr. and Mrs. George S. Graves, at Lynbrook, was arrested on a charge of second degree manslaughter in connection with the deaths on Sunday of six persons in a tenement house fire believed to have been of incendiary origin. She was committed to jail in default of $5,000 bail.

The negress was brought here for questioning after Elma Miller, 14 years old negress told police she had seen her leave the rear of the tenement with her hair afire about ten minutes before the fire broke out.

The police declared she made many conflicting statements, finally signing a statement in which she stated the fire was caused by an oil stove which she upset while she was intoxicated.

ALE SMUGGLERS LISTED

Buffalo, Feb. 13.—A list believed by authorities to include names of most of the active ale smugglers of Buffalo and western New York is being investigated by the United States district attorney's office, assistant Federal Attorney Ganson G. Depew said yesterday. The list came into the hands of federal authorities in a raid of the Stumble Inn, a roadhouse on river road last week.

Mr. Depew said that it was believed the main arteries through which huge cargoes of Canadian ale and liquor had been daily flowing into and through the city had been closed.

ACTIONS SPEAK LOUDER

A man may build a reputation by taking, but it is a poor way to construct character.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

The man sprang to his feet and called the dog; and Bob, after a critical sniff at the white dress and the not much less white hand held out to him, wagged his tail and slowly limped back to his master.

The man raised his hat.

"I beg your pardon; I'm afraid my dog started—"

But Esther did not wait for the rest.

"What a beautiful dog!" she said; "and, oh, poor fellow, he is lame! What is it?"

"A collie," said the man.

She eyed him with a touch of impatience.

"Oh, of course, I know that, my good man! I mean what has he done to his leg?"

The "good man" bent down to hide a smile, and laid his hand on the dog's head.

"It's his foot. He ran a thorn into it yesterday. I thought I'd taken it out but I must have left a piece in—"

"Ah, yes! And it may fester! How painful! I know what he must be suffering. I wonder if I could get it out May I try? I've got a small pair of tweezers in my knife— where is it?" She felt in the mysterious region where women keep their pockets. "Oh, here it is! I'm not afraid of his biting me I'm used to dogs, and love them."

"He will not bite you," said the man "But he may soil your dress. If you will give me the tweezers—"

She looked up at him quickly Something in his voice, in his manner surprised her, and made her vaguely uneasy. She had taken him for a common or garden tramp; but his tone, and his face, now that she looked at it, and more especially the dark eyes regarded her so calmly and gravely, knocked the tramp estimate into a cocked hat.

"Perhaps if you held him while I tried to get it out—" she suggested.

He nodded, spoke a word to Bob, who had looked attentively and in courteous silence, and who now held up his paw with dignified and gentle resignation. Esther took the paw and began the usual game with the tweezers.

"I shall know if I hurt him, because he will call out," she said.

"No, he won't call out," said the man, quietly. "He never complains. He has walked miles with that thing in his foot, and tried to hide the limp."

"You are fond of him?" she said quickly, and leaving off the surgical operation to look up at his face.

The man only smiled.

"And no wonder! He is a beauty! Such a noble head and kind, gentle eyes! No, I can't reach it, but I know where it is. What shall we do?" she sighed and looked round impatiently. "He can't walk any farther. Oh, would you mind going down the lane till you come to a lodge? You could get a needle there, and some water to bathe his foot. I'll come after you directly. Where have auntie and Toby gone?"

They had not gone far, and were now returning: how Miss Worcester had succeeded in turning Toby will forever remain a mystery.

"My dear, I thought some accident had happened— What is this?" she broke off, eyeing the man and the dog fearsomely.

"The dog is lame. Isn't it a beauty, aunt? I never saw one like it. And I love collies."

Now, Miss Worcester was near-sighted, and the man was to her just a tramp. A brilliant idea seized her, and she rose to it promptly.

"It is a very handsome dog, my dear. Why not buy it." I am sure the young fellow would sell it Wouldn't you?"

The young fellow crimsoned from neck to brow; then, as if ashamed of his sudden emotion, he said, in a matter-of-fact way:

"Thank you very much. It would be a kindness to him to change owners. No, I'm afraid he's such a fool as not to think so; so I won't sell him, thanks very much."

Esther had gone red as the man; but to hide her embarrassment she became cold and impassive at once; it is one of those charming tricks which girls have.

"We don't want to buy your dog, thanks," she said, icily. "You can take it to the lodge and tell them that I sent you; and I hope it will soon be all right."

The man raised his hat.

"Thank you very much. I will be glad to do so. Whose name shall I say?"

"Esther Vancourt"—she bit her lip, and drew herself up haughtily—"Miss Vancourt, of the Towers."

CHAPTER III.

Jack Gordon—he had almost forgotten his real name, John Vancourt, or his old alias, Arthur Burton, looked after the pony-jingle with a rather curious smile about his lips, then he and Bob went on and found the lodge.

It was a large one, for it was the homstead of the home farm, and a little way from the house were the cattle-yard and sheds. Jack looked up admiringly at the low-thatched roof and the old quartering which supported the red brick work, almost covered with clematis and ivy, and wished that he were Miss Vancourt's farmer and lodge-keeper; for he was very tired and hungry, and Miss Esther was not the first person who had mistaken him for a common tramp.

As he opened the rustic gate and entered the little front garden, gay and odorous with roses and stocks, a little woman, with a somewhat careworn face, came to the door and immediately shook her head.

"I've nothing—" she began; but Jack cut in rather sharply:

"You mistake; I'm not begging— Ah, yes, by George! but I am though! My dog's got a thorn in his foot, and I want a needle and hot water, if you'll be kind enough to let me have them."

He did not want to use Miss Vancourt's name unless he were obliged; but the woman still eyed him with a troubled and rather suspicious expression; so he was compelled to add:

"I'm sorry to trouble you, but the poor fellow's in pain, and Miss Vancourt gave me permision to ask you."

The woman's face cleared.

"You saw her?"

"With another lady in a pony-carriage," he said. "I sha'n't be more than five or ten minutes, if you'll be so good. I can do it out here on the bench."

She nodded and presently brought him a bowl of hot water, a towel, and a packet of needles.

"Now then, old man"," said Jack cheerfully; "get up here and we'll have this operation over in a jiffy."

Though he had to probe deeply before he could extract the thorn, Bob never even winced, but looked up in his face with the confiding, grateful look which is only seen in a dog or a horse; and the woman, who stood looking on, was touched by the gentleness of the strong man and the evident love between him and the animal.

(To be continued.)

Gave Divorce In Five Minutes

Paris, Feb. 13.—As a result of the comments on the brevity of the proceedings by which Mrs. Francis Hugar McAdoo was granted a divorce from her husband, son of the former United States Secretary of the Treasury in November last and the prominence given the whole question of divorce in France, Premier Poincare has written a personal note to the public prosecutor saying it is regrettable that greater attention has not been paid his first note on this subject in October last.

Investigation showed that the summary of the McAdoo case was not seen by the clerk of the court as usually is required but went directly to the president of the court who, with the assistant judges pronounced a divorce in four or five minutes.

Further investigation is being made into the case as a result of M. Poincare's note but it will not affect the judgment which stands.

Ambassadress

Here is the first woman to hold the rank of ambassadress. She is Alexandra Kollontay, soviet Russia's minister to Norway.

CHEAP WORK

Doctor's Wife: "I see in the paper where a man was killed for three dollars."

Doctor (absently): "What a small fee! The fellow who did the work must have a fake diploma.

Rinso
Dissolve
Use enough
Soak

With Rinso—
snowy-white clothes just by soaking

SIMPLY soaking in Rinso suds loosens dirt, so that it rinses right out.

The old wearing method of rubbing soap on the clothes and then rubbing the clothes is done away with. There is no need of it with Rinso.

Only the dirtiest places—where dirt was actually ground in—will need just a light rubbing. Where this is necessary, use a little dry Rinso.

Rinso is made by the makers of LUX—the largest soap makers in the world. It does the family wash as wonderfully as Lux does fine things.

Rinso does the whole job— with it you need no other soap

Made by the makers of LUX

OUCH! BACKACHE! RUB LUMBAGO AWAY

When your back is sore and lame or lumbago sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of old, honest St. Jacobs Oil at any drug store, pour a little in your hand and rub it right on your aching back, and the soreness and lameness is gone.

In use for 65 years, this soothing, penetrating oil takes the [illegible] out, and ends the misery. It is absolutely harmless and doesn't burn the skin.

MODERN ART

Friend—"Yes. It's a fine picture of a lady, but where is the motor car that ran over her?"

BROTHERS BURNED TO DEATH AT CORNWALL

Cornwall, Ont., Feb. 14.—Lloyd and Gordon Kyer aged 4 and 2 years respectively, sons of Mr. and Mrs. A. Kyer, were burned to death yesterday afternoon in a fire which destroyed a double tenement house in which they resided. Mrs. Kyer left the house a few minutes before to visit a neighbor leaving the two children asleep upstairs. A daughter, Edna, aged 7, was at school. The father of the children, who works in the Dundas Mill, was notified and arrived on the scene early, and made frantic efforts to save his children, but without success. The charred bodies were recovered about an hour and a half after the fire was discovered. The origin of the fire is unknown.

BODY OF MISSING LAD FOUND

Vancouver, Feb. 14.—Word was received last evening from the party which has been searching over Grouse mountain for two lads missing since Sunday morning, when they left Vancouver on a climbing expedition, that the dead body of David H. Spencer had been found in the woods. The lads had separated and the fate of Arthur Wills is still in doubt.

WHY MANY STILL DESIRE WHISKEY

Poisoned by Clogged Filter, They Seek Something to Brace up System and Make Them Feel Better

The majority of people desire whiskey because they don't feel well. Some may look healthy, but one vital organ of their bodies is out of order.

This organ is the liver, the body's filter! When it is out of order, you often wake up feeling dull and tired, tongue coated, bad taste in your mouth, sallow complexion and unpleasant breath. You are bothered with such symptoms as poor digestion, no appetite, sour stomach and gas, irregular movement of the bowels and that rundown, tired out, nervous and upset condition! Often you have splitting headaches, catch cold easily and your system is too run-down to throw off the cold.

Better than whiskey. Take just a spoonful of Dr. Thacher's Liver & Blood Syrup after the next meals. Notice the quick difference in the way you look, eat, sleep and feel. Let this wholesome prescription cleanse and tone your liver, put your stomach and system in condition and keep you feeling fine. It is pleasant to take and you will be completely satisfied; otherwise druggists are authorized to return the small cost. Dr. Thacher's Liver & Blood Syrup is sold and recommended by Dolan The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

Small's Sisters Claim Fortune

Action to Establish Will Said to Have Been Executed in 1917

Toronto, Feb. 14.—That Ambrose J. Small, missing theatrical magnate in 1917, executed a will by which he left the bulk of his fortune to his sisters Miss Florence and Miss Gertrude Small, is alleged in an additional paragraph to the statement of defence as filed by the sisters in the action brought by Mrs. Therera Small to establish the validity of a will dated 1903.

This amendment Gideon Grant, K. C., seeks to have added to the statement of defence, and towards this end filed a notice of motion at Osgoode Hall yesterday afternoon. The notice reads:

"On the 25th day of September, 1917 the said Ambrose J. Small made and published his last will and testament by which last will and testament he disposed of all his estate, giving to his father, Daniel Small, $20,000; to his aunt Theresa Mullen, $20,000; to the House of Providence $20,000 and to the Muskoka Consumptive Hospital at Gravenhurst $20,000, and leaving all the rest and residue of his estate equally between these defendants Mary Florence Maud Small and Gertrude Mercedes Small and which will appoint John H. Moss, K. C. to be the sole executor there of".

The motion will be heard in Chambers at Osgoode Hall on Friday next.

How to Guard Against Appendicitis

The best way to guard against appendicitis is to flush both upper and lower bowel once a week with simple glycerine, buckthorn bark, etc., as mixed with Adlerika. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all poisons. Helps any case gas on stomach in TEN minutes. Excellent for obstinate constipation. J. S. McKeown, druggist.

DANCER ROBBED OF VALUED GEMS

Jewelry Worth $150,000 Taken and $2,000 in Cash

Chicago, Feb. 14.—Gilda Gray, dancer, reported to the police last night that she had been robbed by three men of jewelry valued at $150,000 and $2,000 in cash as she entered an apartment building where she lives with her parents, Mr. and Mrs. Max Michelski.

Miss Gray married recently to Gallard T. Boag, wealthy New York cabaret owner, had just left the theatre where she dances and been driven home by her chauffeur, Joseph Connolly, who witnessed the robbery. All of the jewelry, most of which she said she used in her dances, was in a small handbag, she reported. Some of the articles she listed as taken included an engagement ring, wedding ring and gifts from her husband, who left yesterday for New York. A pair of slippers with silver buckles was taken but a valuable mink coat she was wearing was left by the robbers.

Mr. T. Thompson took charge of the meeting in the Methodist church on Sunday. There was a good attendance, although the day was very rough.

U.S. to Blame for World Chaos Says Russell, Laborite Whip

By MILTON BRONNER
NEA Service Staff Corespondent

LONDON, Feb. 14—"America is morally responsible for the militarism of France, and France is directly responsible for keeping many parts of Europe in the condition of an armed camp, and all parts of Europe in a continued state of unsettlement, business depression and general anxiety."

The man who said this to me was Hon. Bertrand Russell, famous author of many standard works on philosophy, sociology and the higher mathematics—a typical example of the men with first-class brains who have joined the British Labor Party and given it much of its intellectual driving power. He is coming shortly to America on a lecture tour.

"America," said Russell, "began to be responsible for the attitude of France shortly following the Treaty of Versailles.

Along Different Lines

"The way of England and the ways of France have been divergent since the conclusion of the treaty. The war being over, England thought the thing to do was to get back to work and to business. She taxed her people enormously. She balanced her budget. She demobilised her big armies and went a long way toward disarmament. She considered herself in honor bound to hearken to America's demand for payment of money advanced to her and came to an agreement with your government for the payment of principal and interest.

"France has not greatly taxed her people and has not really balanced her budgets. She has maintained the most powerful army and the greatest military air fleet in the world. Protesting that she urgently needed the money Germany owed her for reparations, France has gone a long way toward making such payments utterly impossible, and towards destroying Germany, by juggling the plebiscite results in Upper Silesia and by marching into the Ruhr and utterly demoralising and partially destroying the fabric of the greatest industrial region in the world.

"Striving for the military, political and economic hegemony on the continent, France has concluded a series of alliances with Poland and the nations of the Little Entente which have made those countries military satellites of a militaristic France.

America's Responsibility.

"How is America responsible?

"By the mere fact that she has treated England in one way and France in another.

"America demanded that England pay her debts. And I don't blame her. I have never had much sympathy with those who have said America should forgive Europe the debts she owes. Europe has not behaved in such a way as to deserve such treatment.

"But America has never demanded in a drastic and downright way that France should pay her debts. If America had done so, the whole structure France has built up would tumble like the house of cards it is."

"But," I objected, "suppose my government asked France for the money and France, pointing to her devastated regions, said she could not pay until she got paid by Germany, what then?"

Mr. Russell replied:

"Your government could very rightly point out that France was finding the money for the upkeep of an army of over 600,000 men; that she was sending her officers down into the jungles of Senegal and drafting black men, training them as soldiers and shipping them to the Rhine; that she was maintaining on a war footing a tremendous air fleet; that she was pouring money into the coffers of Poland, Czechoslovakia, Yugoslavia and Rumania, not for the extension of peaceful commerce, not for the repair of the ravages of war, but to arm the Poles, Czechs, Serbs and Rumanians to the teeth.

"America could say to France: 'Cut out all this useless and wicked waste of money and apply it to the payment of your debt.'

"One of two things would happen.

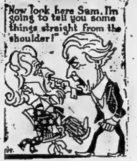
"France would, like England, begin paying off what she owed you and in that case would have to cut down her armies, withdraw from Germany and allow the continent to settle to peace and to work, or she would refuse to pay you, in which case she would be in the position of an avowed bankrupt who could not or would not pay its debts.

America Hold Key

"And that would be fatal to France, because it would mean that she could not again go into the money market of the world and secure loans. Such a state of things would not only cripple her commercially, but would also lame her powers to make war in the future.

"America holds the key. In many ways America is the arbiter of peace or war, progress or retrogression, settlement or unsettlement in Europe. All that is needed is that the full truth be told the American people. There are financial interests, oil interests and other big business interests which, for selfish reasons of their own, are making French propaganda in America. We British are not asking Americans to be pro-British or anti-French. We are simply asking you to be pro-peace, pro-world settlement, anti-war, anti-militarism, anti-imperialism. And you can bring this about by holding the scales evenly, by treating France exactly as you do England."

Russell



Now look here Sam. I'm going to tell you some things straight from the shoulder!"

Germans Ask For Aid to Print Bible

By GUS. M. OEHM
(United Press Staff Correspondent)

The circulation of the Evangelical Bible—and with it the commercial and moral stability of Germany—is in grave danger, according to the Deutscher Bibelhillsverein, which plans to have the country from this catastrophe.

In an appeal to all German evangelical faithful, the Verein declares:

"The whole work of the German Evangelical Relief is surrounded with fiery storm; the circulation of the Bible is endangered. Who wishes to let go of the last hold we have in the German household—the German Bible in its use among families and individuals?

"Yet this source of power and freedom is threatened. The German Bible organizations are unable to print and distribute new Bibles because of lack of funds. This work must be caried on through voluntary gifts. The German Bibelhilfsverein has taken this work upon itself."

If Back Hurts Flush Kidneys

DRINK PLENTY OF WATER AND TAKE GLASS OF SALTS BEFORE BREAKFAST OCCASIONALLY

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts in inexpensive; can not injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

People "All Nerves"

WHAT TO DO IF YOU FIND YOURSELF IN THIS CONDITION

The sort of thing that specialists speak of as nervous debility is the run-down condition caused by overwork, household cares or worries. The sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise startles and sets the heart palpitating violently. They are full of groundless fears, and do not sleep well at night. The hands tremble and the legs feel as if they would give way, following a walk or any exertion. The whole condition of such people may be described as pitiable.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of new rich blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills which promptly build up and enrich the blood. The revived appetite, the strong nerves, improved spirits and new strength which comes after a course of these pills will delight every sufferer.

You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sun Life Nears Billion Mark

Montreal, Feb. 12th.—A series of staggering figures is the only manner in which to describe the world wide activities of the Sun Life Assurance Company of Canada.

The annual statement of this great Canadian company, read at the 53rd annual meeting held here at the Head Office, with President T. B. Macaulay in the chair, shows the organisation to have added strength to strength at all the vital points of its great international business, making the greatest advance since it began business in 1871.

The day is not far off when one billion dollars of life assurance will be in force with the Sun Life. This development is not due to chance, but to efficient organization, method, adaptability, and the constant effort of forward looking minds. The annual report for 1923 shows well maintained large scale progress, the Sun Life upholding its position as the Premier Life Assurance Company in the British Empire.

Every year the same story is told. The figures are impressive, progress continues, and the company's own wonderful records of the past are eclipsed. There is however, one difference every year . . . the figures become mightier for one begins to dwell exceedingly close to the billion dollar mark.

Bell Bulletin of Service Helps

Vol I. 1924 No. 1

To increase business in 1924

WILL you get a bigger share of business in 1924? Is your telephone service organized to yield the most profit? Telephone service requires to be properly organized to yield the most profit.

Many more people learned how to get the most out of their service, Local and Long Distance, in 1923, than ever before. Our study of their business increased one firm's sales by telephone from $200 a month to over $8,000. Many more notified their customers that they would pay for Long Distance calls on orders, and thus increased sales surprisingly.

"Use the Bell to Sell"

Will you not give this subject of properly organized telephone service serious consideration? Our experience and resources are at your command. This service is free, and our recommendations will be based on your needs.

MILLION WORKERS PREPARE FOR STRIKE

RANEY AND FERGUSON IN HOT VERBAL TILT; BLOCKADE THREATENED

Former Attorney-General Forced to Withdraw Unwarranted Statement Against Premier—Attack Far Less Effective Than One Launched by Manning Doherty

PREMIER AND O.T.A.

Ferguson Declares Act was Will of the People and Must be Changed Only When People and Public Opinion Demand It—New Member Offers Three Recommendations

Toronto, Feb. 15.—What was generally accepted as an intimation of a Progressive blockade against any measure which the Government might introduce with a view to paying salary to only one Opposition Leader was launched on the floor of the Legislature yesterday by former Attorney-General W.E. Raney.

Double-Headed Opposition

Mr. Raney did not say directly that the Progressives would blockade an amendment to the Legislative Assembly Act, which, his colleagues maintain, must be introduced to legalize W.E.N. Sinclair's position as official Leader of the Opposition, nor did he throw any additional light on his meaning when queried in the corridor. What he said in the House was:

"If a salary is paid to one Opposition it will be paid to us, and don't you forget that, Mr. Speaker! And no legislation will go through this House which will give salary to one Opposition Leader unless it gives it to this Opposition Leader (Mr. Doherty), too."

The former Attorney-General was just as vehement as—although, it appeared, less effective than—his Leader, Hon. Manning Doherty, in denouncing Premier Ferguson for what Mr. Raney declared was his authocratic, illegal and unconstitutional action in refusing to recognize the majority Opposition as the official Opposition. He

(continued on page three)

PREMIER PLANS TO DROP FROM FOREIGN AFFAIRS

Task of Holding Dual Office Too Much Strain on MacDonald

SEEKS SECRETARY

Labor Taunted for Failing to Carry Out Program it Advocated

London, Feb. 15.—(British United Press)—It is stated on the highest authority that Premier Ramsay MacDonald is seriously considering the relinquishing of the Foreign Office portfolio owing to the enormous strain which it places upon his shoulders. The only difficulty which faces him in this connection is the task of finding a Secretary in his Cabinet or outside who is capable of filling the post.

The heavy responsibility and the immense amount of work involved in the dual role of Premier and Foreign Secretary is already telling on his constitution. MacDonald was almost too tired to deliver the opening speech in the Commons which lasted for nearly two hours and left him quite exhausted. Until the last minute there was the possibility that the speech would be made by the Rt. Hon. R. Clynes. He recovered sufficiently at the last moment to deliver this momentous address.

Should the foreign situation ease up at all in the immediate future, as the Premier hinted might very likely happen, there is little doubt but that the change would be made at once.

Baldwin Sympathetic

Stanley Baldwin's sympathetic reference in the House of Commons to the burdens being borne by the Prime Minister was based, according to some of the Parliamentary writers, on recognition that Ramsay MacDonald is actually in a very poor state of health.

They declare his physical frailties prescribe limits to his exertions. As he has been "working like a horse" since he was called to office he has probably overtaxed his strength. The writers make the prediction that unless the Premier conserves his energies he is likely to suffer a physical breakdown, necessitating a lengthy rest. Mr. Baldwin's reference to the matter was:

"We all hope that the immense double burden of Premier and Minister of Foreign Affairs which he has assumed may not be . . . as we fear it will be . . . . too much for him."

Dock Strike Tangle

Mr. Baldwin's criticisms of Premier MacDonald's speech because of its omission of any reference to defence and much needed economies were warmly supported by the Opposition members, both Liberal and Conservative.

London Liberal organs this morning head their Parliamentary report: "Mr. Asquith warns the Labor Cabinet" and "Liberal warning to Government." Meanwhile the Government's worries are increased by the near approach of the docker's strike due to begin on Saturday with prospects of throwing nearly one million men out of work. The parties to this dispute are no nearer a settlement than ever.

Some High Lights

Following are a few points of

(continued on page eight)

THE WEATHER

Fresh northerly winds; fair and much colder to-night and Saturday.

COMING EVENTS

Mr. and Mrs. Johnstone's social assemblies are held every Saturday evening 8.30 to 12.—Private lessons, given, time arranged to suit pupils. Phone 780W or 892. 15-21d

Mr. and Mrs. Johnstone's Masquerade dance for pupils, former pupils and friends will be held Monday, Feb. 18th, commencing 8.30. Admission $1.00. Extra lady 50c. Juvenile Pupils 25c including war tax. Masquerade or evening dress compulsory. 15-21d

At Emmanuel Church on Sunday night, the Rector will preach the third of a series of sermons for the people, on popular subjects. Topic for Sunday next is "Secret Societies—The Ku Klux Klan, Masonic, Oddfellows, Orange, Etc. 15-21d

Tabernacle Methodist Church anniversary services next Sunday, when Rev. J. W. Baird of Port Hope, will preach. An old-fashioned supper and musical entertainment on Tuesday evening 19th of February. 14-4td

RING OF AIRDROMES AND NEW TYPES OF AIRCRAFT TO PROTECT OLD LONDON

London, Feb. 15.—(British United Press by Harry N. Moore)—Huge plans to make London the most efficiently protected city in the world against air raids have been perfected within the last few days. Yesterday arrangements were completed for the purchase of land enough to establish a ring of aerodromes around the city.

New types of planes, capable of carrying new devices to enable movements to be made in combination by groups of planes at night and capable of attaining an extraordinary speed which until now has been regarded as only in the range of the fantastic are now being built in considerable quantities while delicate sound instruments capable of detecting the approach of aircraft at hitherto unheard of distances have also been perfected.

EXPERTS EVOLVE SCHEME TO END GERMAN TANGLE

Committee Confident Reparations Can be Paid Through Plan

TO PAY 50 BILLIONS

Financial Normalcy to Be Gained by Medium of Gold Note Bank

Berlin, Feb. 15.—A detailed plan which will solve the five year old tangle of the reparations problem will be turned over to the Reparations Commission by the international committe eof experts, who left Berlin last night after completing the details of their project.

It is a solution which will give France and Belgium everything that can be obtained without destroying Europe's economic future.

The reparations can be paid through the machinery devised, but a new feature of the experts' plan is that reparations will be paid to the same amount as the international markets will absorb German goods and to the same amount that Germany can produce for foreign markets. This amount can be gauged through a rough estimate of the minimum German goods which the world will absorb, but the figure is bound to fluctuate in accord with the world's economic condition.

The first point considered by the experts was financial normalcy which will be secured through the machinery of the gold note bank proposed by the committee. While publication of the definite details will be left to the Reparations Commission the general outline is known.

A bank will be established in Germany under a German president and under the control of a board of director, half foreign and half German but balanced so as to guarantee business activity free from political and national influence. It will issue gold currency amounting to about three billion gold marks, with an actual gold guarantee of 50 per cent.

This gold will be provided first, by German capital, second, by international loans and third, by secret German capital abroad, which naturally will be attracted to the bank owing to the high degree of security which it provides for capital which is hidden now on account of the nervous fears of its owners.

Loans Can Be Obtained

With a resumption of the full working power of its plants, Germany will require a bigger circulation of money, but this will come automatically with the return to normal economic conditions which will again lead to the possibility of reducing the fifty per cent. gold security, to the pre-war security basis—thirty-three per cent.

The experts are confident that loans can be obtained easily and floated without difficulty if the German plants return to full produc-

BLACK SHIRTS IN BRITAIN MAKING PLANS TO FIGHT

Ball Held by Italians in London Attended by British

ANTI-RED UNITS

Leaders Hope Day Will Not Come But are Preparing

London, Feb. 15.—At what was called the "first black shirt ball" under the auspices of the local Italian Fascists, nearly 500 members of the kindred brotherhood in the British Isles assembled at the Hotel Cecil to cement friendships and informally to discuss ways and means used by Italy to "put it over." The American ambassador and his aides were present and most of the leading Italian families of London were represented. But what was more important was the presence of black instead of white shirts on many well known patriotic Britons interested in perfecting an organization to interfere should any British Government become too red to suit them.

They admit that they do not believe any action on their part will be necessary in the near future. The present socialist government is in the minority and the British black shirts regard the nation as amply protected in the House of Commons. They are planning for the day—which they hope will never come—when Socialism may possess a working majority in Parliament and may attempt to ride rough-shod over the land.

Ready For "The Day"

In direct preparation for such a fight, they say that headquarters long have been established in Elm Bark Gardens in Chelsea. Enrolled through it branches have been established in many provincial towns and in Scotland as follows:

Units of one troop each to develop later into a company.

Transports, consisting of owner drivers and owners of motor vehicles to maintain communication in "event of a revolution."

Propaganda.

Intelligence.

Special sections, in which are included other "Britons of any age or sex or any class to volunteer for the practical work."

The leaders claim that the organization now exceeds 30,000 and is growing rapidly.

Those enrolling take the following oaths:—

"In the name of God I most solemnly swear to uphold His Most Gracious Majesty, King George V., his aires and successors, and the British Empire. I undertake that without personal consideration, I will render every service in my power to the British Fascisti in their struggles against all treacherous and revolutionary movements now working for the destruction of the throne and empire.

POLICE SCOUR COUNTRY FOR KNIFE USERS

Two Desperate Characters Sought by Authorities Following Stabbing Affray

ONE MAY DIE

Three Men victims of House Brawl In Oshawa—Describe Assailants

City, county and provincial police are today scouring the lake front towns and country side for two desperate men, who stabbed three Oshawa men, one seriously, in a house fight there last night shortly after 8.30 p.m. but as yet have been unsuccessful in landing the duo.

H. Habberfidlt, Masson street, Oshawa, is in Oshawa General Hospital in a serious condition suffering from knife wounds in the back and may not recover, the point of the blade having pierced one of his lungs it is believed. Henry Baldwin, who lives two doors from Habberfidlt is also in the hospital suffering from knife wounds in the neck, leg and shoulder He will recover. J. Gillespie, a guest at the Baldwin home was also stabbed in the left arm, but after receiving first aid at the hospital, returned to his home last night.

Burglars Pull Knives

Roy Morphy and family live on Masson street, their residence being between the Habberfidlt home and the Baldwin home. Last night the Morphy family went out for the evening bu tshortly after they left Mrs. Habberfidlt noticed that the lights were on in the house. She told her husband, and also called her next closest neighbor Baldwin. Habberfidlt and Baldwin's guest, Gillespie rushed to the Morphy home to give battle to the burglars, who, when they heard them coming up the steps, ran from the house. The three men tackled the two burglars, who pulled knives and the terrible fight occurred in the snow in front of the house. Not until they fellex hauseted from their wounds did the three neighbors give up the fight. The burglars then fled leaving their overcoats and one cap in the snow.

Take to Their Heels

The two desperadoes ran in the direction of the Oshawa exhibition grounds, and though police combed the city and country they were still at large at 2 p.m. today. They are unknown, were shabbily dressed and spoke broken English. They are believed to be either French Canadians or foreigners. Both men are described as being of medium height and build height about 5 feet 5 in ches or 5 feet 6 inches. They will be without overcoats or caps, and are between 25 and 30 years of age. They are both of fair complexion, one having been heard to call the other Gordon. The cap left behind was purchased in St. John N. B.

Broadcast News By Wire

Immediately the stabbing occurred Chief Constable Friend of Oshawa, rushed his men to the scene and later had them scour the city during the night. Before this however, he had the C. N. R. despatcher wire the news all along the line, and in this way Sergt. of city police Arthur Harman who was on duty here received the word from despatcher Hary Pringle here at 9.56 p.m. Sergt. Harman immediately notified Inspector R. Bumpstead of the Provincial Police here, and he ordered Constable H. Cousens of Cobourg to leave for Oshawa. Cousens motored to Oshawa and is assisting the posse there today. Pringle phoned the message in to the station here immediately he had received it from Oshawa from C. N. R. Constable Booth. Local police were on the look out for the men throughout the night.

Render Assistance

Provincial Police officers of this city are in close touch with Oshawa today, and are rendering every assistance. Oshawa is not in Inspector Bumpsteead's district but his Whitby and Cobourg men are assisting License Inspector Mason, county constables and Chief Friend and his active force today, in the man hunt for the murderous pair.

BEAUTIFICATION OF PIUS THE TENTH

Venice, Feb. 15.—(British United Press)—Complying with the personal request of his holiness, the Pope, Church authorities have started local proceedings for the Beautification of Pius the Tenth who died in 1914.

Forty witnesses have been sworn in and will gradually be questioned regarding the life of the late Pontiff while he was head of the Arch diocese of Venice.

FINAL ARRANGEMENTS TO CLOSE ALL PORTS IN BRITAIN ARE MADE

Only Last-minute Settlement Can Save United Kingdom from Complete Tie-up of Every Port—Workers Ready to Lay Down Tools When Hour is Struck

SEEK CANCELLATION

Scenes of Unprecedented Activity at Huge Docks of Port of London as Shipping Companies Speed Efforts to Clear Cargoes Before Impending Paralysis of Transport

(By Percy M. Sarl, British United Press Staff Correspondent).

London, Feb. 15.—One million dockworkers prepared today to quit work to-morrow and tie up every port in the United Kingdom, unless a last minute settlement cancels the strike orders.

Scenes at the huge docks of the Port of London at daybreak of unprecedented activity as shipping companies speeded efforts to clear cargoes before the impending paralysis of transport should set in.

London, Feb. 15.—Hopes of a settlement of the docker's dispute were not realized and it is even feared that the negotiations may break down. Hopes were built on the readiness of the provincial employers to grant the union's demands. The London employers, however, developed strong opposition to the concession of more than one shilling a day, and their influence caused such a stiffening of the employer's attitude that last night a strike on Saturday is regarded as a real possibility.

According to late reports the dock workers had agreed to accept an increase of one shilling a day in their wages, with another shilling to be added later—this after a conference of the employers and workers with the minister of labor. The men originally demanded an increase of two shillings a day immediately.

Crowned!

GERMAN BONDS PEDDLED IN WEST

Offered at Prices from $40 to $60 Per Million Marks

Winnipeg, Feb. 15.—The mails to Winnipeg and Western Canada just now are carrying may spacious advertisements to induce people to part with their money in the hope of making either a very high interest rate, or a profit out of all proportion to the amount invested.

A few months ago it was currency of Germany and other European countries that was being offered as the bait to catch the unwary dollar

Now, it is stocks and bonds of European cities that are being offered. But the principle is the same; "figure out yourself what profits you will have when the German exchange has reached one cent, one twenty fourth of its maturity," says one circular just to hand. Instead of trying to figure out this potential profit, here is a real question: "If one German mark at par is worth 23.82 cents, how long will it take them to come back within even a measurable distance of par when at present they are worth about four trillion, one hundred and seventy billion to the dollar or put into figures it is 4,170,000,000,000. However, the firms selling these bonds do not sell the bonds at any such figure. They offer them at various prices ranging from forty to sixty dollars per million mark bond. So apparently a good-sized profit has already been taken off somewhere."

NEW DIRECTOR OF CANADIAN NATIONAL

Ottawa, Feb. 15.—D.J. McDougald, leading Toronto financial man and brother of W.L. McDougald, president of Montreal Harbor Commission, succeeds R.P. Gough as director of the Canadian National Railways.

HOVEL IS BURNED

Orland, Feb. 15.—The hovel in which the O'Brien girl was found following the death of her infant child under tragic circumstances, has been burned to the ground.

ENDORSE PACT OR LEAVE UNION

View of Situation in Nova Scotia Mine Controversy

Sydney N.S., Feb. 15.—The miners of Nova Scotia must endorse the recent Montreal agreement or forfeit their affiliation with the United Mine Workers of America. That, in a nutshell, is the situation in District 26 today, according to those close to the district executive officers who arrived from Montreal this morning.

LADY ASTOR PREFERS BRITISH NAVY TO LEAGUE AS PEACE INSTRUMENT

London, Feb. 15.—(United News) "We do not want the League of Nations to replace the British Navy. Press for disarmament, but don't play with the British navy."

These declarations of Lady Astor roused a storm of Labor interruptions in the House of Commons Wednesday when, after welcoming Premier MacDonald's desire to strengthen the League of Nations, she warned Labor not to go too far.

"We do not want the navy for war, but for purposes of peace," she declared, adding: "The British navy has gone farther than any other agency to make peace plausible throughout the world."

Lady Astor represents the great naval port of Plymouth in Parliament.

Let there be harmony in things essential—liberty in things not essential—charity in all.

A FAKE ECONOMY CRUSADE

After having heightened the National Debt by $100,000,00 in two years and increased taxation as well, the King Government has suddenly proclaimed a passion for economy. Affrighted by Halifax and Kent and by the swelling tide of public protest against waste, it has begun a mushroom crusade against—the Civil Service.

The public will hardly be impressed. It will hardly be impressed because there is something about this sudden gesture against the Civil Service that smacks suspiciously of politics.

Mr. George Gonthier, the new $15,000 a year Auditor-General is undoubtedly an estimable man. But Mr. George Gonthier has never seen the Civil Service. He has no possible knowledge of its labyrinthe ramifications, of its piecemeal, haphazard organization, or of its peculiar weaknesses and defects. Yet Mr. Gonthier is asked to become chairman of an audit board and to investigate the Government's auditing system; to inquire into the finances of the Canadian National Railway; and to clean up the Civil Service—All within a few months. For, remember, he is asked to report to Parliament at this coming session. And to help him in performing this herculean, impossible task, he is given the assistance of two accountants whose very salaries of $3,000 per year prohibits their being efficient.

That, of course, is absurd. It is mere camouflage. Mr. King is simply unsheathing a visionary sword.

The way to economize is to economize. And if the King Government were really anxious to vest itself of extravagance, it would apply itself to more fruitful fields.

It would cease trying to bribe constituencies by using tens of thousands of public money to build wharves that are used chiefly for traffic in illicit whiskey—such as it did in North Essex last year.

It would cease trying to buy up ridings after the manner that it tried to buy Halifax—by promising it a $1,200,000 elevator, when Halifax already possessed a 500,000 bushel elevator, practically unused.

And it would cease trying to debauch a riding like Kent, where it tried to buy votes by promising to spend public money upon a new railway.

In a word, if the King Government desired economy, it would shut down on the "Pork Barrell". It would stop the kind of thing whereby in the dying days of last session it brought down $15,000,00 supplementary estimates to drench Liberal ridings with all kinds of public works.

A few days ago there was an official statement on Canadian finances from the Department of Finance. What did it show? It showed that although the King Government will take something like $15,000,000 more out of the pockets of the people this year than it did last year, the sole reduction of expenditure in ten months was but $378,000. Fifteen millions more of taxation; less than half a million reduction of expenditure! That is the record.

And so we have a strong Liberal paper like the Manitoba Free Press declaring—

"One of the strongest points in the indictment against the Government is this matter of finding new taxes and increasing old ones, in which Mr. Fielding has shown great pertinacity and ingenuity. The increase in the sales tax made by the Government last session, in disregard of an adverse public opinion, which at once made itself known, was the last touch which started the avalanche of criticism and condemnation."

There is a point in taxation which, once reached, inflicts peril upon a nation. That point has been reached in Canada. Taxation to-day—due to the profligate extravagance of the King Government—is drying up sources of vital capital. It is hamstringing industry. It is making Canada a dear country to live in, driving thousands of our people into the United States.

Yet the only answer of the King Government to appeals for sanity and economy is a fake attempt to "investigate" the Ottawa Civil Service.

FREENCH CONCEIT

(Paris Le Figaro)

French art and taste are so refined that no other people on earth can beat us on to perfection and spread throughout the globe, would contribute to the happiness of people less favored by nature. This vast clientele, allured by the grace of our ideas, by French intelligence and culture, would remain faithful to us in every country.

They would come to France to enjoy the charm of our climate and our countryside, our manners, our cooking, our wines and fruits. They would delay as long as possible in our midst. They would distribute in our country millions for which no others would be able to compete.

EDITORIAL NOTES

A thing too many people save for a rainy day is a grouch.

—o—

Many a stenographer is just the "right type", but the question remains: Can she "typewrite?"

—o—

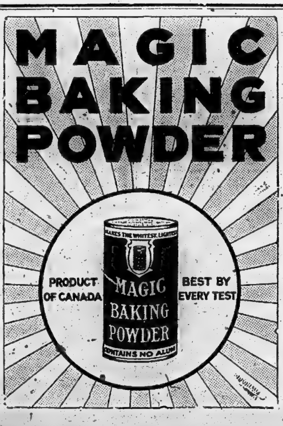
The girl who learned to swim six times last summer is now enjoying her fourth course of instruction in skating.

—o—

Young men who have taken up pipe smoking because the Prince of Wales set the example may now be expected to hire a horse to fall from.

—o—

Foreign governments asking their Washington representative for their opinion as to the effect of prohibition in the United States are being sent a terse report of twenty-five words: "The United States is divided into two classes with reference to prohibition—some who have a little still and those who still have a little."



PRESS OPINIONS

THE KEY METAL

(N.Y. Evening Post)

The four countries that led the way in the flight from the gold standard that characterized post-bellum finance have returned to the key-metal. Russia now has the gold techernovetz, Austria the gold crown, Poland the gold zloty, Germany the gold mark. There are still floods of paper in all these countries, but gold is again enthroned in law, if not yet in practice. There may be some difference of opinion concerning the correct ratio of gold to paper, a difference that is now being aired in Great Britain in the controversy between the inflationists and the non-inflationists. But there can scarcely exist any decided difference regarding the rock upon which a sound currency must be built. It must be gold.

UNDESIRABLE RULERS

(Sydney Bulletin)

Britain will probably learn, as Australia is learning, that the electoral constituency may be a great deal too wide. As regards the enfranchisement of the poor equally with the rich there is no limit. Neither poverty nor riches should come into the matter at all.

But there is need of much greater limitation of the voting power of criminals, anarchists and would-be destroyers of civilization. There is need that disfranchisement, for a lengthy period or for life, should attach automatically to a long list of offences so that the worst undesirables may not have a share in the control of the country's affairs, and may not have a chance to capture some party which, without them might be patriotic and honest.

JUST STRAIGHT—THANK YOU!

(Guelph Mercury)

Because iodine is supposed to prevent goitre, it is being added to the water of some towns and cities. It doesn't seem to make any difference that thousands never get this disease for one that does, the distasteful water is imposed on them just the same. There's something wrong with conditions when such methods are necessary. Owen Sound is one place contemplating this new cocktail for its inhabitants.

PHOTOGRAPHIC ART

(Detroit News)

Photography is an art, and has become a universal one. Like every other art it exacts intelligence, judgment and study. More than most arts it employs helpful mechanical devices, and, of course, equipment varies. Yet there is many an amateur photographer who knows that with very simple apparatus the results are eternally of life-long interest, if only care is given to the job.

IF IT HAD BEEN MONKEY WRENCH

It was the "Object" drawing lesson, where the boys were supposed to bring some article—a hammer, a top, a box, or what not—with them to school to serve as model.

One boy presented himself at the master's desk with the tearful announcement, "Please sir, I've swallowed my object."

"Swallowed it!" cried the master, in alarm. "Whatever was it?"

"Please sir,' with a gulp "a banana.'

Music & Drama

"THE WILD PARTY" SCORES AT REGENT

Gladys Walton, Universal film star, is fond of firecrackers. During the making of her latest attraction, "The Wild Party," at the Regent theatre now which extended over "July Fourth" week, Miss Walton spent all of her "off stage" moments shooting fireworks. One night she was just about to place a lighted firecracker in what she thought to be an empty can, a few feet off-stage. Jack Sullivan, assistant director, knocked the firecracker from her hand. She gasped at his rudeness. "That's half full of magnesium powder, and highly explosive," he said. The powder was used for "lighting" in some storm scenes.

GRIFFIN'S OFFER SPLENDID PICTURE

In this age of flappers and jazz and the upsetting of all traditions, the sight of an old-fashioned girl—one of a hundred years ago with her winsome modest charm and her feminine ruffles and frills is a refreshing sight. Marion Davies brought such a role to the screen of Griffin's theatre last night, with her Patrician O'Day in Cosmopolitan's new production "Little Old New York." Her Patricia is a thing of gayety, fun and charm, but also has the shyness and reserve which characterized the girl of long ago and made her so alluring.

In this delightful screen story which was adapted by Luther Reed from Rida Johnson Young's highly successful stage play, Miss Davies has another big role which is a worthy follow-up for her Princess Mary Tudor in "When Knighthood Was In Flower." The role of Patricia is perhaps more difficult than that of Princess Mary to act, in that it is more simply human and requires even more finess and delicacy in the handling. Certainly Miss Davies has never been seen to better advantage, has never acted more naturally and actively, nor transferred to the screen more of charm and beauty.

Patricia comes to New York with her father and her brother Pat, so that the latter may inherit a fortune left by his uncle. On the voyage over, Pat is taken ill and dies and John O'Day insists upon his daughter masquerading as her brother so that they may claim the inheritance. Larry Delevan, step-son of the uncle in New York, believes that the inheritance is not going to be claimed in time and feels that it is already in his possesson. Accordingly he meets the masquerading Patricia with natural resentment, but an inexplicable tenderness and sympathy. Patricia is whole-heartedly in love with Larry and to keep him from losing the money needed to finance Robert Fulton's invention of the steamboat, which he had wagered upon a fight between two local boxers, rings the fire-bell when he is in danger of losing. Her action infuriates the crowd and she is taken to the whipping post and is given a lashing. It is at this junction that she confesses she is a girl instead of a boy. Of course her love story with Larry has the expected culmination and the fortune comes to both of them.

ARLIE MARKS COMING

The lovers of popular priced amusement will be glad to learn that Arlie Marks and her popular players, fifteen in number, will open a four-days' engagement at the City Hall, beginning Wednesday evening, February 20th, presenting a repertoire of high class plays never before seen at popular prices. Six excellent vaudeville numbers will be given between the acts and changed nightly.

This charming Canadian comedienne needs no introduction to the playgoers of Belleville where she has a large following. Special scenery is carried for each production and the company's press agent assures us that Miss Marks has never been surrounded by a better company than she carries the present season.

"THE COVERED WAGON"

J. Warren Kerrigan, a favorite of women patrons in Belleville, Ontario, for his courtliness and courage in the leading role of Major Will Banion in "The Covered Wagon," has had a picturesque career. Once he was a member of the Spooner-Payton "stock" down at the foot of the Thespis wagon, but in 1911 he was already a star and "his name led all the rest."

He must have been a very personable Sampson in "Sampson and Delilah," fd he is tall, broad-shouldered and athletic and his features are strongly handsome. During this period Kerrigan played more than a hundred dierent big movie roles.

Then, after two years off the screen he was induced to return to play Will Banion in "The Covered Wagon." In this epic of the West, the former screen star is at his best. He lived like the others in the company, the life of a pioneer, undergoing severe hardships in Utah, 80 miles from a town or railroad.

Mr. Kerrigan hails originally from the blue grass country of Kentucky, the original home of the historic daredevil pioneers like Daniel Boone and Simon Kenton. He is a brother-in-law of Clay Clement with whom he acted in "Sam Houston".

Finely educated at the University of Illinois he was unusually well equipped for the work of the stage. Older playgoers remember with pleasure his lively juvenile lead in "Brown of Harvard" and his splendid acting in "The Road to Yesterday."

A decade in the "silent drama" has developed his pantomimic art, his expertness in outdoor stunts and thrills and his attractive qualities as a truly chivalric lovemaker.

"SO THIS IS LONDON"

One of the plays current in New York City all last season that does not require the pen of a persuasive press agent to extol its worth is "So This Is London," George M. Cohan's production of Arthur Goodrich's screamingly funny comedy.

However, backed by the enthusiastic opinion of some thousands of playgoers who have already enjoyed this English-American satire the P.A. desires to exercise here and now the right of free speech as it is interpreted to every American citizen through the Constitution of these United States and say without fear of contradiction that "So This Is London" is the most artistic, the most entertaining and the biggest laughing success the New York stage has known in the past ten years.

Furthermore, it is a play that everyone loves because of its charming atmosphere, sparkling dialogue and the deliciously satirical view presented of the English as Americans see them and the American as the English insist we are. And it's all delightful foolery most artistically translated by George M. Cohan's special company which includes Allen H. Moore, Ralph Locke, William Dean, Reginald Carrington, Donald Hall, Eugene Shakespere, William Hassen, Blossom O'Bryan, Marjorie Dalton, Eugenie De Bois, Barbara Allen and others.

"So This Is London" comes to the Griffin Opera House for one night only Thursday, February 21. Seat sale opens Wednesday, February 20. Mail orders now. Kindly send postal notes, express orders or cheques.

SOLVE MYSTERY OF DAMASCUS BLADE

London, Feb. 15.—The age-old mystery of how Damascus blades were tempered has at last been solved.

The so-called Damascus blades were made in India, but got their name from the market whence they were distributed to the west. For a thousand years and more no western smith has been able to account for the steel contained in them much less reproduce it.

The scimitar of Saladin, famed in history as the finest blade ever drawn from a scabbard has for many hundred years been the traditional symbol of perfection in the steel temperer's art.

Now the X-ray under the direction of such men of science as Sir William Bragg and others has brought to light the secret of how this famous blade was manufactured.

"The use of X-rays to look into the structure of crystals has explained all sorts of things we could not understand before," Sir William said.

"Nowhere is this shown more than among metals".

The distinguishing property of an atom of metal, according to Sir William, is that it is always ready to part with one or two electrons. When melted metal solidifies, its atoms nearly always pack into the simplest possible form something like a triangular pyramid of cannon balls. Such a pyramid is full of regular alleyways.

Among these minute alleyways in the metallic crystal the free electrons move easily, and the moving electrons form an electric current. When the metal is heated, the atoms swing about more and more rapidly with the result that the electrons find their way blocked.

The steel of Saladin's sword, Sir William said, originally contained great numbers of needle-like crystals of cementite, a compound of three atoms of iron with one atom of carbon. These needles were exceedingly hard.

The Indians of old found that they could work the metal if they kept it exactly at a certain temperature, so they heated it up in their charcoal furnaces, taking it out now and then to give it a tap or two, then heating it again, and so, with infinite patience producing a blade.

lerthegoslh'excasll, kf-ab

Now, a thousand years later, by utilizing the X-ray, it is discovered that the persistent smith had beaten each of the needle-like crystals into a minute ball of intense hardness.

But even with the knowledge of how it was done, no modern smith will guarantee to hammer out a sword of as fine a temper as the scimitar of Saladin.

The Beauty of Health

Newspapers and magazines are devoting columns to magic or over-night beautifiers. There is a beauty in health that is far more attractive to men than mere regularity of features or a made-up complexion. Health should be the first essential of women who want to win and hold admiration, respect and love. At the first indication of ill health as indicated by dark circles under the eyes, a sallow complexion, headaches, backaches, pain in the side, nervousness, irritability and melancholia, women should take Lydia E. Pinkham's Compound, the standard remedy for woman's ills which has been proven to help 98 out of every 100 women who try it.

TEAM WORK

I don't care if his best days are over,
Or whether he's just done his best,
I need him in all my travels—
The horse that can pull with the rest.
Tho' a horse may be stout and more steady,
I don't like his kind for my own,
Unless he can pull with the others
On the load that he can't pull alone
A horse that can pull well in harness
Just any old time that he's asked,
Is the kind that I'd pick from the others
To put to the most steady task.
There are men in this world that are like them,
Who feel that they're doing their best,
If they only knew how much better
They work when they pull with the rest,
And that is the reason you'll find that
A man who climbs steady and slow,
Has gained all his knowledge and power
Because he first learned when to go.
Don't envy the man who's above you,
For the place he has given his best.
But try all your might and you'll reach him,
By learning to pull with the rest.
There are plenty of steps for the climbers,
But the sturdiest surest and best
Are the steps that you take when you're trying
And learning to pull with the rest.
Ha sgainc dall his knowledge and

DIED

ST. CHARLES—In Belleville on Friday, February 15th, 1924, James O'Brien St. Charles, son of Mr. and Mrs. James St. Charles.

The funeral will take place from the family residence, 4 Moira street west, on Monday, 18th inst., at 8.45 a.m. to St. Michael's Church. Interment at S. James' Cemetery.

ROSE—At Foxboro on Thursday, February 14th, 1924, Marie Victoria Bushel, wife of Charles Rose, aged 57 years.

The funeral will take place from her late residence, Foxboro on Sunday 17th inst., at 1.30 p.m. to the Methodist Church. Services at 2 o'clock. Interment Foxboro cemetery.

IN MEMORIAM

CETERINE—In loving memory of my dear husband, William A. Ceterine, who died Feb. 14th, 1923.

His weary hours and days of pain
His restless nights are passed;
His ever weary worn-out frame
Has found sweet rest at last.

The blow was great the shock severe;
We little thought his death so near;
Only those who have lost can tell
The pain of parting to abid farewell.

This day brings back to memory
A loved one laid to rest
And those who think of him to-day
Are those who loved him best."

Sadly missed by wife, daughter and son

Deaths and Funerals

MARIA VICTORIA BUSHEL

Death removed a well-known and much esteemed resident of Foxboro, when the late Maria Victoria Bushel, wife of Mr. Charles Rose of that village, passed away at her late residence on Thursday afternoon. Deceased who was born in Thurlow township had resided there for the greater part of the fifty-seven years of her life.

Besides the sorrowing husband, one daughter, one son, five sisters and one brother, also deceased's father and mother survive.

Mrs. Zenas Palmer is the daughter, and the son, Maurice resides at home. Deceased was a daughter of Mr. and Mrs. James Bushel, of this city, who survive. The brother is Seymour Bushel, of Belleville, and the five sisters are Mrs. H. Carter, of Foxboro; Mrs. R. Perry, of this city; Mrs. C. Wickett, who lives in Saskatchewan, Mrs. John Evans, of Belleville, and Mrs. T. Kelly, of Foxboro.

MYRTLE BROOKER

After being ill for some weeks from heart trouble Myrtle Brooker, third daughter of Mr. and Mrs. John Brooker passed away at an early hour this morning at the family residence, 2nd concession of Sidney Township. Deceased was born in Sidney in 1914 being thus 10 years of age. Myrtle was a bright pupil of Hogle school in Sidney and a general favorite of her fellow pupils.

JAMES O. ST. CHARLES

At 7 o'clock this morning ex-Alderman James O'Brien St. Charles passed away at the family residence, 4 Moira Street West. Deceased had been ill for some months and his demise was not unexpected. Mr. St. Charles was the second son of Mr. and Mrs. James St. Charles and was born in this city where he had resided all his life. For some years after graduating from school deceased was connected with the St. Charles Omnibus Company of which his father was the head. He was in his 50th year and a bachelor. Mr. St. Charles took an active interest in municipal matters being for some time an Alderman of the city. One year he was chairman of the Fire Committee and fulfilled that position in a most acceptable manner. Jimmy, as he was familiarly called was a general favorite with all who knew him and his passing will be regretted by a large circle of friends.

Mr. St. Charles was a member of St. Michael's Church and was also a member of the Knights of Columbus and the Catholic Order of Forresters, and in these Societies he had filled offices.

In addition to the parents, two brothers, and three sisters, survive. The brothers are Dr. W. P. St. Charles, of Toronto; and Campbell, of this city. The sisters are Mary, Margaret and Helene at home and Sister May Ethne, of Loretta Abbey, Toronto. To the sorrow stricken family will be extended the heartifelt sympathy of many friends.

DANIEL HUNT

From the residence of Mr. Ed. O'Rourke, Pinnacle street, the funeral of the late Mr. Daniel Hunt took place this morning and was attended by many relatives and friends. At St. Michael's Church, Rev. Father Killeen celebrated mass. The body was placed in the vault at Belleville cemetery. Many flowers and spiritual offerings were evidences of sympathy. Bearers were nephews of deceased, namely J. McAlpine, P. Creagen, J. P., M. J. and D. Hunt.

Raney

(Continued From Page One)

quoted history and precedent to show what he deemed to be the error of the present Government.

Some Hot Cross-Fire

Despite the warmth of Mr. Raney's utterances there was not a single number of interchanges between him and Premier Ferguson and his followers—certainly not as many as were expected—but one exchange put Mr. Raney in the position of being the first member in the session asked to withdraw a remark.

To some remark of Mr. Raney's Premier Ferguson had replied, "You are out of a job," and Mr. Raney heatedly retorted that he had never sought a job and was "delighted" to relinquish the Attorney-Generalship after the election. Said Mr. Ferguson: "Yes, the Province was delighted, too."

Mr. Raney—That is characteristic of the ruffianism which has marked the course of the honorable member for years.

Premier Ferguson called the Speaker's attention to the remark, and Speaker Thompson requested a withdrawal, in which Mr. Raney acquiesced, askng, however, if the Speaker had not heard Mr. Ferguson's previous remark. The Premier said he would be delighted to withdraw if Mr. Raney would suggest what he should withdraw, but Mr. Raney said: "I will make no suggestion."

Premier and O. T. A.

Besides the vexed question of Opposition leadership, Mr. Raney discussed with customary vigor Premier Ferguson's O.T.A. utterances, and challenged him to place before the people his heralded course which was to please all parties. Mr. Ferguson said that everybody, except Mr. Raney "and a few other fanatics," understood his repeated statement—that the act was the will of the people and could be changed only by the people and that, when public opinion justified it, a referendum would be taken.

Besides Mr. Raney, W. Finlayson, Conservative member for East Simcoe, a new member, contributed to the debate. Mr. Finlayson made three interesting recommendations—that there be a smaller Legislature, of, say 65 or 75 members; that County Councils be abolished and that a liquor referendum should not be held until at least January 1 next, when the people would have had time to judge of an administration under Attorney-General for his "assistance" to the Conservative party in the last election, and in his sympathetic references to his "constituent up at Crown Hill."

CARELESS MAN

The young wife sat plying her needle. A coat of her husband's was in her lap. As the husband appeared, she said, fretfully:

"It's too bad, the careless way the tailor sewed this button on. This is the fifth time I've had to put it back for you."

WOMAN REFUSES TO GO TO HOSPITAL

When police officers visit a home on duty, it is the exception to the rule when they return without their "quarry". Local police officers met a "rebuff" today for the first time in many moons.

Receiving an ambulance call this morning, two kind-hearted officers drove the ambulance to the Station street address, with instructions to remove a woman to the hospital. They returned to the station without the woman, however, for she would not accompany them.

It appears that she was ordered to the hospital by a doctor, but because he was not the family physician, she refused to abide by the decision.

Father As Usual Is Just "Necessary Evil"

Toronto, Feb. 15.—In all Valentine stores pretty Valentines, ribbon tied and possessing deep sentiment in verse and headed up "To My Father," were left in their clean envelopes, while last-minute purchasers hunted wildly for a card for Mother.

Dawson, Yukon Territory.—That the gold output in the Yukon territory will be greater this year than last is the opinion of Dr. Alfred Thompson, M. P., for the Yukon.

TICKLING THROAT
Always an annoyance, worse when it afflicts you at night. You can stop it quickly with
CHAMBERLAIN'S COUGH REMEDY
Every user is a friend

In the Sunday school rooms of John Street Presbyterian Church, a Valentine supper was given last evening by the ladies of the congregation. There were a large number present and the supper provided was all that could have been desired. The school rooms and tables were appropriately decorated for the occasion, Mrs. Findlay and Mrs. Bloomfield being in charge of the decorations. The convenors of the affair were Mrs. C. J. Fisher and Mrs. Geo. Wallbridge.

HOME TO MOTHER

The seventeen-year-old Indian maiden whose aimless life ambitions were nipped in the bud one week ago by watchful police officers, and who was remanded to jail for one week to give the authorities an opportunity to decide upon the disposition of her case, left on Wednesday for her mother's home at Picton.

Use Sulphur To Heal Your Skin

BROKEN OUT SKIN AND ITCHING ECZEMA HELPED OVER NIGHT

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

SLOW WORK

Boecho—"Is he very grammatical?"

Asche—"I should say not. It took him a year once to finish one little sentence."

WOULD REMOVE EMBARGO

London, Feb. 14.—The Cheshire branch of the farmers' union has memorialized the government to remove the embargo on Canadian breeding dairy cattle during the time necessary to restock Cheshire's depleted farms. The outbreak of the foot and mouth disease among cattle has been worse in Cheshire than in any other country in the United Kingdom and thousands of cattle in Cheshire have been slaughtered by the authorities in the effort to stamp out the epidemic.

BANDIT CHIEF ORDERED TO RELEASE CANADIAN

Toronto, Feb. 14.—Strachan Johnston, solicitor for the Mexico Northern Power Company, whose local manager, T.G. McKenzie, is now held by Mexican rebels, has received a telegram from an agent of the company in Mexico that Huerta, the Mexican rebel leader has ordered the bandit chief, Hippolita Villa to release McKenzie at once, Mr. Johnston informed the Canadian Press last night. Mr. Johnston suggests that some days may elapse before the order can be delivered to Villa and the result made known to the outside world. McKenzie is held for $200,000. As Villa is practically under the command of Huerta it is not anticipated that he will ignore the order.

A minority may develop into a majority, but always at the sacrifice of its beautiful enthusiasm.

It is the ebbtide of love that shows the mud-flats of the soul.

Lure Of Sweets Led To Court

Five Small Boys Could Not Resist Wagon Load of Candy

Montreal, Feb. 14.—The lure of "all-day suckers" chocolates and other varieties of "sweeties" dear to the hearts, or palates of youth, proved too much for five small boys yesterday afternoon. Passing along the street from school they saw a delivery sleigh filled almost to the roof with boxes of candy.

"Come on," said the "gang" leader "there's nobody about. Let's have some 'buckshee' candy."

So they crept slyly to the open door filled their pockets and arms with the tempting viands, and turned to run.

But instead of getting away, they ran right into the arms of a passerby and soon the whole gang were in the cells at Juvenile Court. This morning they pleaded guilty before Judge Lacroix. They received a severe lecture and were dealt with in the proper manner. The candy, valued at $25 was recovered.

HE COVERED THE TRANSMITTER

Heck (to friend at phone)—What's the matter, old man? Trouble on the wire?

Peck—Yes, my wife.

REMAND WOMAN ON BIGAMY CHARGE

Mrs. Edward Ashe appeared before Magistrate Floyd at Cobourg yesterday on a charge of bigamy, and was remanded to jail for eight days.

Mrs. Ashe who is alleged to have married Ashe while her first hubby, a man named O'Brien was living, is the mother of the seventeen-year-old girl mother, Mary O'Brien, found in a deplorable condition in a hovel which was filth personified and which has since been burned to the ground.

This couple had been living in the miserable shack at Orland, East Northumberland, but left before February 4, the date upon which an infant was born to the woman's daughter Mary O'Brien.

Mrs. O'Brien stated in court yesterday that she was married at Watertown, N. Y. by Rev. Father Barnes to her first husband, O'Brien, with whom she lived for 25 years. She is the mother of ten children, seven of whom are living. It was alleged about a year ago her husband left her.

Later she was introduced to Ash. They went to Campbellford, secured a license, and were married by Rev. W. Elliott. Defendant stated she believed her husband to be dead.

Crown Attorney W. F. Kerr conducted the prosecution. T. F. Hall, K. C., appeared for the accused.

Tanlac Wiped Out Troubles, Says Dalton

"I was just about 'all in' but Tanlac has built me up so I feel as fine and healthy as I ever did," is the characteristic statement of George Dalton, well-known contractor, 84 Bridge St., Niagara Falls, Ont.

"My appetite had failed me and the little food I did force down caused such stomach pains I could hardly stand the pressure of my clothes, and my heart would palpitate like I had heart trouble. My nerves were so bad I couldn't climb a ladder, I trembled so at times and I couldn't sleep right at all.

"Tanlac has wiped out my troubles and put me to eating like a wolf and my nerves are so steady I can work with ease on a hundred-foot scaffold. I sleep like a rock and I'm so strong I feel like I could move a house by myself. Tanlac is genuine fine medicine."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

"BANANA MAN" IS UP FOR TRIAL

Pietro Croce, swarthy son of Italia, and Bridge street fruit merchant, who was recently charged with altering figures on a receipt form to the prejudice of the Canadian Express Company, appeared before Magistrate Masson to-day armed with his interpreter Mr. Frank Domenico, and his counsel Col. E. D. O'Flynn.

Pietro who was fore warned on the morning of his first appearance, came well armed for the legal battle to-day, and as his knowledge of English is limited, he is kept very busy following the evidence. He received the fairest possible trial however, with counsel and interpreter. Local representative Raymond Harris of the Canadian Express Company, together with driver Robert Brown, Chief Constable Kidd and Sergt Harman were witnesses for the prosecution. Croce, evidence in his own defence through his interpreter, and the case was served until one week from Saturday for judgment.

Crown Attorney Bryson Donnan conducted the prosecution.

PROTECTING THE BRIDGES

Guard—"Better keep your head inside the window."

Passenger—"I can look out of the window if I want to."

"I know you can. But if you damage any of the ironwork of the bridges you'll have to pay for it."

FANNING WITH FARRELL

FARRELL TELLS OF REAL GAME GUY

(United Press Sports Editor)

New York, Feb. 14 (United Press). —No one but a good game fellow can get along in boxing and no one can get along with boxing but a good game fellow.

Romantic fancy loves to paint a game fellow as one who rode the range alone in the old wild and woolly days; or one who ran a gambling house in Alaska when a "rod" on the hip was the only law; or a fellow who could push his whole pile across the board when the little ball started rolling around.

The game fellow is always associated with such situations in romance and fiction and many times these situations are found in real, every day life.

There isn't the same romance today in which the game fellow can show himself but the times are just as tough even if they are less spectacular and if they lack the old trimmings of the melodramatic.

Suppose that you put every cent you had into the promotion of boxing in a state where the sport had just been restored to legal standing; that you put a lot of bum fighters and bum managers into wealth that they never dreamed of; that you provided the means whereby Broadway became cluttered with imposing offices where presided the managers who used to do their business over the bar in a cheap booze joint; supposing then that these leeches turned upon you and dug the knife in your back.

Suppose that the men with whom you were dealing thought so much of their benefactor that they helped get you into criminal court on a nasty charge and it cost you $100,000 to prove that you were innocent.

Suppose that the same gang after the jury had acquitted you shrugged their shoulders and whispered from the corner of a thicklipped mouth that you had bought the jury and the state.

Suppose that you had taken a foreigner who had arrived as a tramp in the steerage of a ship and made $300,000 for him in two years and the same foreigner turned around and sent you a cable: "Don't count me in on any more of your fights."

Suppose that some managers who came to you and said: "Put this boy on in a preliminary. His family's starving"——and you not only put them on once but a dozen times until their family got so fat they had to be hauled around in a twelve-cylinder limousine and then your friends said: "He's got a monopoly. He's got the chairman of the boxing commission. We have to fight in the Garden to live and he robs us."

Supposing that you did something for your big city, got something for that city that the smartest business men and the wisest politicians had failed to land and then you heard from the alley: "He'll make $300,000 out of the concessions. He'll make a fortune bootlegging. He'll scalp the tickets."

Suppose that you knew a certain fight between two heavyweights could not be pulled off; that you had been told from high up to lay off it and that you made no attempt to arrange such a fight; that the manager of one of the fighters knew that it couldn't be staged, but he cut loose on you, assailed you for discriminating against his man and that the howl by the members of his race went to the legislature and nearly killed the game.

Supposing that your bitterest critic was the man for whom you had built a house and paid for it.

Supposing that all these things were true, that you figured out they were just the penalties of a funny business and went right along taking everything as it came and saying nothing—

Then you would be the gamest guy that ever lived.

* * *

By one of those breaks in luck which come once in a decade, John McGraw discovered such a fine young shortstop in Travis Jackson that he felt safe in disposing of one of the best players in the league.

It would be unusual for another club in the same time to duplicate the feat, but the St. Louis Cards have the hope of doing it.

Lester Bell, a youngster who spent last season with Houston, is being touted as the boy who may step into the St. Louis infield next year and make it.

Branch Rickey has been making desperate efforts to land a player to relieve Doc Lavan, but Charley Barrett, one of the St. Louis scouts, thinks he is wasting time.

"He's got the best prospect in the business right with the club and he'll find it out when he sees that young Bell next spring," he said.

* * *

All the experts around the circuit last season thought the Cards had a real prospect in Freigau, the youngster who took a job as batboy that he might get a chance to make the team.

* * *

The closer we get to the smell of baseball in the air, the more impressive that pitching staff of Luque, Rixey, Donohue, Benton, Mays, Sheehan and May looks. The Cincinnati Reds are going to get pitching if nothing else.

OSHAWA JUNIORS WIN FIRST GAME

Oshawa, Ont., Feb. 15.—The local juniors kept Oshawa on the O. H. A. hockey map by handing Peterboro a 6-3 defeat in the first of the home-and-home games played here last night to decide which will go into the next round. Palmer scored the first for Oshawa in ten minutes, and Lott followed shortly after with the locals' second, while Moore made it 3-0 just before the bell rang for time. Peterboro got the only counter in the second period, and when the teams went off for the second rest the score stood: Peterboro 1, Oshawa 3. Peterboro got the first two in the final twenty minutes and evened up the score, but Oshawa came back with three, and as a result they carry a three-goal lead to the Liftlock City for the return game on Monday.

OSHAWA AND PETES AT FESTIVE BOARD

Peterboro, Ont., Feb. 15.—Oshawa and Peterboro hockey team fraternized at a banquet after Wednesday night's game, and an enjoyable time was spent by the players and officers of the two clubs. Ald. Nagle-Phelan presided and congratulated the Oshawa tea mon the splendid fight they had made to win the round, expressing the hope that they would be seen here again in a game for the Brown Challenge Cup. Eddie Wright, president of the local club, also congratulated the Oshawa team on the Joe Welsh and Manager Ed. Donald, of the Oshawa team, expressed the hope that the Petes would win the championship and declared they would have the best wishes of Oshawa.

TOO LATE

Old Gentleman (engaging a new chauffeur): "I suppose I can write to your last employer for your character?"

Chauffeur: "I'm sorry to say, sir, each of the last two gentlemen I have been with died in my service."

RAILBIRDS SEE "TOOTS" HOLLOWAY

Toronto, Feb. 15.—Over 300 railbirds were out to give "Toots" Holloway a hand as he stepped out for his first practice with St. Pat's yesterday morning. "Toots" is a big six-footer and as blonde as they make them. His showing was enough to give St. Patrick's an idea of his style. Holloway was a little timid with his new equipment and surroundings when he first came out.

The St. Patrick's management think they have a coming star in the former Belleville boy. The other players gave him a few bumps to try him out and the "Kid" came up smiling. At first he worked on the defence with Corbeau. His method of getting his man with the long reach trick stopped many a rush. Later Captain Noble sent Laughlin to the defence and took Holloway on the line with him. Holloway this morning looked better in working with the forwards and rushing than he did on the defence. "Toots" has a great personality and has won many friends since his arrival. He will take in the Ottawa trip this week-end.

LOCAL JUNIORS PLAY WEDNESDAY

Manager Ed. Thomas of the Belleville junior O.H.A. squad, winners of this group, received definite word yesterday as to the play off games in which Belleville team and fans alike are interested. On Monday night next, Queen's juniors and Circle six of Kingston will play off for the championship of that group at the Jock Harty arena.

The winner of this sudden death game will meet the Belleville team in home-and-home games the first round play off. The first game will be played here at the Turnbull street arena on Wednesday evening next, and the return game will be played in Kingston on the following Friday, February 22nd.

R. M. C. PLAYS U. S. CADETS

(British United Press)

West Point, N.Y., Feb. 15.—For the first time the Army hockey team will be allowed to play away from home when the cadets meet the Royal Military College team in Kingston, Ontario, to-morrow. It is also the first time that an Army team has played on a foreign field.

Curling

A Central Ontario Curling match took place here last night between four rinks representing the Belleville and Napanee Curling Clubs. It was a senior game and Belleville won out by 25 shots. The visitors were entertained at the close of the game. The skips for Belleville were Messrs. J. A. McFee, J. W. Davison, P. O. Pitney and A. R. Symons. Napanee skips were Messrs. J. Carr, M. Graham, A. Maybee and Gleason.

Expect Great Immigration Rush Shortly

Canadian National Railways Renewing Equipment To Meet Demands

Extensive preparations are being made by the Canadian National Railways to meet the heavy traffic which is expected in the Spring when immigrants begin to arrive in Canada in large numbers. All colonist car equipment that can be spared from service is being brought into the shops and thoroughly overhauled and in some cases remodeled.

At the Moncton Shops four cars are being converted into lunch counter cars. This type of car has been used with success on harvester trains over the Canadian National Railways. A lunch counter almost the whole length of the car is installed together with a kitchen. A staff of five waiters are placed behind the counter and during the trip hot and cold meals are served to passengers. The choice of food is a wide one, being almost a duplicate of the menu served at station restaurants along the system.

In addition to three lunch counter cars, the Canadian National Railways will have in operation lunch-counter colonist cars. This innovation was introduced on the Winnipeg-Toronto service a few weeks ago and has proved a success. A small lunch counter is installed in one end of the colonist car and there passengers who do not desire to make use of the regular dining car or of the other facilities for feeding provided by the railways, may obtain hot and cold food at reasonable prices.

Reports from Dr. W.J. Black, European Manager of the Department of Colonization and Development of the Canadian National Railways in London, England, indicate that the immigration policy of the National System is meeting with considerable favor in Great Britain and that large numbers of immigrants will take advantage of the scheme this year.

U.S. SOFT COAL MINES DOOMED

Jacksonville, Feb. 15.—Members of the joint wage conference of miners and operators here last night said that thousands of soft coal miners in America face elimination from the industry, regardless of what wage agreement is signed, nor can any wage agreement save hundreds of mines and little mining hamlets over the country from gradual dissolution, they claimed.

"Elimination has commenced," a spokesman for the operators said, "and will only stop when economic conditions require. There are 700 bituminous shipping mines in the country. About half of them must go and with them more than 200,000 miners. Every delay in reaching an agreement will stave off the elimination, but only for a time. There is no escape from it."

ON THE ALLEYS

Two junior games were played at the Recreation Alleys last night. In the first game the Durant Motors pulled a surprise on the Aristocrats when the former after losing all there games, broke into the win column and gave the Aristocrats their first trimming. Jack White for the Durant being high man with an even 500. In the second game the Baby Shoe couldn't come out of their losing streak and lost to the Cyclists by over 100 pins, Baker and B. Wheeler being the high bowlers. In the ladies league the Cashs didnt turn up and defaulted their game with Willowbanks.

Y Reds lost to the Printers at the Y Alleys last night but not without giving the latter quite some argument. In fact only 42 pins seperates their total scores at the conclusion of hostilities. The Printers were bowing a steadier game than the Reds and obtained a better average while on the other hand they did not have any of their members bowling in the six hundred class as in case of the Reds.

Printers			
Hill	153	191	129—473

Mrs. Ellis, 16, Chatham street, who has undergone an operation at the General Hospital for mastoids is making favorable progress.

Miss June Warren, 193 Victoria Avenue, gave a Valentine and sleigh party to a number of her friends last night.

Canada's Greatest Piano, The Gerhard Heintzman. Buy Only the Best.

CORNERED AT LAST

A party of four business men in London often lunched together, and one of them, the only native-born Englishman among them, always took great delight in chaffing the others on their foreign birth.

"It's all very well," he said one day, "for you fellows to talk about what we need in this here country, but when you come to think of it you are really only intruders; not one of you was born here."

"Maybe," said an Irishman in the party. "Maybe. But there's one thing you seem to forget. I came into this country wid me fare paid an' me clothes on me back. Can you say the same?"

WHAT THE PACKAGE DOES

Tea growers have found from experience that it is necessary immediately to pack tea, in air-tight metal-lined chests, to preserve the flavour and goodness of the leaf. Equally so is an air-tight package necessary for the small lots of tea for individual consumption. Bulk tea is always inferior tea because it is exposed to air. The "SALADA" air-tight aluminum package is the most efficient way of preserving tea known.

HARLOWE

Mr. W. Thompson had the misfortune to get quite badly hurt on Friday last while helping to load teams for Mr. Vogan, the binder chain broke and threw him against the skidway nearly breaking his leg.

Mr. C. Hillier of Roblin and son Johnson, visited Mr. and Mrs. W. Scott last week.

Miss Anna White is visiting at Mrs. T. Thompson Jr.

Mr. and Mrs. W. Thompson, Mr. and Mrs. W. Scott, Mrs. C. Hellier and son Johnston, Mr. H. Neal are visiting at Mr. C. C. Thompson's, Northbrook.

Mr. R. Cuddy and Mr. W. Cuddy are employed drawing hay from Kenebec.

A little girl has come to brighten the home of Mr. and Mrs. E. Thompson.

Mrs. S. Wheeler from Cloyne is spending a few days with Mrs. J. Miller.

Mrs. J. White and Miss Anna White are at Mr. J. Huffman's.

New Styles are Uncommon In The Grand Opera Boxes

By HEDDA HOYT
Fashion Editor of the United Press

New York, N.Y., Feb. 15.—Searching for new styles at the Metropolitan Opera is like searching for a needle in a haystack: Diamonds, pearls, silks and satins, ermines and chinchillas are there in astounding numbers but—have been since time immemorial. Each year we search among the wealthy gathering of social celebrities for a change of hair-do, a startling silhouette, a new color note. And each year we find them quite unchanged.

Two years ago the leading colors were red and green. Last year the leading colors were red and green, with a slight emphasis on the red. This year we find the leading colors are red and green. By red we include shades of rose, coral, vermillion and pink, and itis quite safe to say that often one-half of the audience is gowned in these tones. Green has been fading into the background of late. Yellow and white bob up now and then on the younger misses and black is the occasional choice of the matron.

Of course, it is to be taken into consideration that the names of the box holders of the Horse-Show row are those of ancient lineage. They are not the "noveaux riche," who sprout "seasonally" from the fertile fields of Brad street. Eccentricity of dress is not one of their hobbies. They dress to suit themselves, rather than to cause comment from the audience on the main floor. But after one has star-gazed at them for several seasons one wonders why they don't occasionally blossom out in more individual styles. After all, clothes that are costly aren't always stunning and gems that are set in the usual tiara fashion can even become tiresome.

Gowns of Operatic Stars

At the Sunday evening concerts presented by the Metropolitan Opera, one has an opportunity to see the operatic stars as they are in real life. There are no stage costumes, no wigs, no furbelows, to detract from the personalities of the singers. Madame Matzenauer was garbed in a gown of coral velvet made on straight lines and studded throughout the skirt with pearls. About the low waist line was placed a wide girdle of pearls which clasped with a huge pearl cabochon in front. Marie Tiffany followed her also wearing a gown that chose coral velvet as its material. Her narrow train was attached in an unusual manner, falling from the right shoulder in long panel effect and draping over her arm. Her gown was embroidered in rhinestones and glittered enticingly as she sang.

Rosa Ponselle, the most youthful star of the Metropolitan, came on the stage in her usual buoyant manner, wearing a quaint, old-fashioned taffeta frock with a yellow back ground flowered in red roses. Her bodice was simple and form fitting, sleeveless and with rounding neckline. The skirt was very full and made with circular insets. Two rows of brown marabou were placed one above the other near the hem. Her last season's "bob" was drawn into a tiny knot at the nape of her neck from a center parting. It seemed strange that the wholesome looking, bobbed haired person of last year could become so entirely changed by a crinoline-effect frook and a simple hair dress.

Renee Chemet, the fascinating little French violinist, who is taking New York by storm, wore a bright green net gown with a tunic overskirt of green net embroidered in silver. Her bobbed auburn tresses were clipped in the latest cut.

MAKE MYSTERY OF ENGLAND'S NEW SUB: THE BIGGEST AFLOAT

London, (By mail to United Press).—The greatest secrecy is being observed regarding Great Britain's latest, greatest and fastest submarine, the XI.

As her name implies, the XI is the first of a new class. The British Admiralty firmly believes that she is the largest submarine in the world.

She has a surface speed of 32 knots which will enable her to keep station with the battle fleet in all weathers. Her submarine speed is a closely guarded secret, likewise the depth at which she is supposed to do her best operating. She recently returned from a 36-hour test in the English Channel.

One of the interesting details in her structure is the adoption of "thrust indicators," which will enable her commander to know the actual force in tons required to propel her through the water, submerged or awash. This will afford a check on distance and is expected to make her maneuvering accurate.

MISSING GIRL LOCATED

Hamilton, Feb. 14.—Dorothy Boorman, aged 17 years, missing since December 2nd last has been located in Boston by the Big Sisters organization. Her grandmother's disapproval of her lover caused the girl to leave home, it is stated. The parents of the girl who reside in England are now on their way

Sometimes a man has so many irons in the fire that he can't get any of them hot.

That Body of Yours

By James W. Barton, M.D.

WHY WORKING INDOORS TIRES YOU

In a former article it was shown that when a muscle was exercised, that products were formed—fatigue products—and that they gradually paralyzed the muscle so that it could not work anymore.

Experiments on animals showed that juices extracted from a tired muscle, actually paralyzed a fresh unworked muscle when injected into it.

If the blood going to the muscle is rich in oxygen these fatigue products are taken up by the blood and are thrown out of the body as carbon dioxide in the breath.

So just as long as the lungs can supply a sufficient amount of oxygen, then the fatigue products are practically carried away as soon as they are manufactured, because the oxygen of the blood immediately takes them up.

But if the blood has not sufficient oxygen in it, and the muscle keeps on working, you can readily see that the fatigue products will begin to accumulate in the muscle and so fatigue or tiredness comes on.

If in addition to working steadily, the air in the room in which you are working is not changed frequently, then the blood naturally cannot get as much oxygen from it. That's clear enough.

You will be breathing air as frequently, in fact more frequently, but there is the deficiency in the oxygen of the room, and an actual increase also in the carbon dioxide.

Part of the treatment in severe cases of pneumonia, where the patient is suffering from air hunger, and the body is actually turning blue, is to administer pure oxygen from a tank by the bedside.

This extra oxygen takes up a great amount of the waste products of the body, because after all, it is retaining wastes that is the dangerous thing in all illnesses.

The physician treating tuberculosis will tell you that it is expiration, breathing out the bad air, that is the hard thing for the patient to do.

What is my point?

That in the home where the necessary household duties must be performed, that tiredness would not come on so soon were more fresh air allowed to come in. In factories the same applies.

I've often thought that some of our department store people make a tremendous mistake in not ventilating their places better.

Women could stay longer and spend more.

And men?

Why half the trouble with men shopping is the closeness of the air. They tire from want of air.

NOT LATE IN 60 YEARS

Kingston, N. C. (United Press).—"Mind now, don't be late," was the last word drummed into the ears of David Stadiem, 6, when he started to school. David's parents, Hyman Stadiem and wife, and his seven brothers and sisters joined in the admonition. The family record must be jealously guarded. Seven of the young Stadiems have gone to school a total of 60 scholastic years, and never has one of them been tardy.

Why are errors of vision so generally neglected

Often it is because the person does not know that he has an error of vision, so it is naturally not given attention. The wisest plan for every one to pursue would be to have the eyes examined whether or not they seem to need it. Then every error of vision would receive proper attention. If you have been wondering about your eyes, let me give you the facts.

Mrs. Lizzie Almas

HERE IS THE REASON WHY CANADA HAS SO MANY HEALTHY WOMEN!

Toronto, Ont.—"Dr. Pierce's Favorite Prescription can be relied upon as a woman's medicine. I found it so very beneficial that I do hesitate to recommend it to others who suffer. I had suffered with a severe nervous breakdown, caused thru my having feminine weakness. I had no control whatever over my nerves, could not sleep and I suffered with backaches and pains extending down into my limbs. I also had severe bearing-down pains. I was a physical and nervous wreck when I was advised to try Dr. Pierce's Favorite Prescription. It put me right on my feet and removed all the trouble. My nerves became strong and I did not suffer any more with any of the above ailments."—Mrs. Lizzie Almas, No. 235 Ontario Street.

All druggists. Liquid or tablets. Write Doctor Pierce's Invalids Hotel, Buffalo, N.Y., for free medical advice, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont.

BUYING GRAVES ON THE INSTALLMENT PLAN

Munich (By mail to United Press)—The privilege of being buried in a family grave one on top of the other is again within the means of the poor Muenchener. Buying graves on the installment plan is now possible through a decree of the city council.

High cost of grave-digging has made it necessary until now for very poor persons to bury their relatives in single, shallow graves. The esteemed form of burial in a family lot cost dearly, for it entailed a deep excavation. Contrary to the American custom families are buried here in layers and the first one down must necessarily lie deep enough to leave room for the others.

Poverty worked no more severe hardship on the devout Muenchener than to deprive him of a layer in the family grave. The city authorities recognized the situation, and now a few marks will buy space in a good, deep grave. The survivors must finish the payment within six months of the burial.

PROBABLY WOULD

When a man gives a motor cop a tale of woe, the cop merely says: "Tell it to the judge."

But when a pretty girl gives the cop a dazzling smile, he doesn't advise her to try that on the judge.

He knows it would probably work.

LOVE, THE TYRANT
OR, WHERE HER HEART LED
BY CHARLES GARVICE

"It's a beautiful dog," one said, in a low and timid voice. "Is the water hot enough? will you have some more?"

"No, thanks," said Jack. "We shall do nicely now—that is, if he hadn't to walk so far. We'll rest a lot on the way."

"You have walked far already?" she asked, reluctantly.

Jack nodded.

"We've been walking for exactly seven days and a half."

She glanced uneasily at his old boots, and at his worn and shabby clothes. He was evidently a tramp, but very much unlike the species with which she was acquainted.

"You can rest here; it's cool and shady," she said. "And would you like a glass of milk?"

"Very much, indeed, thank you," said Jack, as he bathed Bob's foot.

She brought him some, and as he thanked her he raised his weather-stained cap; but he set the glass on the bench beside him, and throwing the water out of the bowl, poured some milk into it and gave it to Bob, and he even waited until Bob had eagerly started on his share before drinking his own.

This little bit of unselfishness, natural enough to Jack, broke down the woman's cautiousness, and she went into the house and brought out some home-made cake on a plate.

"Perhaps you—he—would like some," she said, almost apologetically.

"Both of us would," said Jack, "for it's a very long time since breakfast, isn't it, Bob? It's good cake, ma'am; and I'm qualified to know, for I've made it often enough."

She coloured faintly and was about to speak, when the cry of a child rose from the room window, and she hurried away.

Jack shared the cake with Bob, and leant back in the porch-settle, and indulged in the luxury of a rest and reflection.

So that was his dead chum's sister, the Miss Esther Vancourt for whom, he, Jack, had surrendered his title and estates! Pretty girl—more than pretty. And proud, too. Never, in his life had he been treated to so much hauteur. He had promised his chum that he would find her, and look after her; but it seemed as if she were not in need of much protection, and that she was quite capable of looking after herself. She had said that she would come on to the lodge, and perhaps she might; if so, he would clear out. There was no reason why he should see Miss Esther Vancourt again; she was rich and powerful, and was in the charge of her aunt: yes, he'd be off, back to London, to look for work.

He rose and gathered up the bowl and the other things.

"I'll get on my way now," he said, speaking to the open door. "You'll let me bring these things in?"

"Thank you," said the woman's voice from the room, and Jack walked in and set the things on the table. The woman was kneeling beside a chair in which was sitting a little girl—a pretty little soul, with a thin but flushed face which peered out pitifully from the big shawl wrapped round her; and Jack, to whom children were almost as irresistible as dogs and horses, could not help drawing near and looking at her.

"What is the matter with her?" he asked.

"She's had the measles," said the mother in a low voice. "She ought to be well by now, but she got a chill."

"Oh, only measles," said Jack, cheerfully. "That's not much; everybody has measles."

The child had half hidden her face behind her shawl, but her unnaturally bright eyes had been watching the stranger, and something in the tanned, handsome face, the deep, musical voice, must have reassured her, for she said with dignity:

"Measles is vewy painful."

"So they are!" assented Jack, promptly; "but you'll get over them all right. You've got too much pluck to be beaten by a paltry kind of thing like measles, you have."

"How do you know?" said the child, quaintly.

"I can see it in the curl of your nose," said Jack, gravely.

"Oh, do you always tell that way?" she enquired, much interested.

"Always," he said, solemnly.

"I'm so tired of sitting here! I want to lie down," she said, with a sigh.

"I'm not strong enough, and she can't walk. You must wait till father comes home, Nettie," said the mother, explainingly.

"Oh, no, she needn't," said Jack, cheerfully; "I'll carry her."

The mother looked grateful but doubtful, and the child shrank back a little; but Jack put his arm round her with that peculiar smile which goes straight to a child's heart.

"You're afraid I shall drop you, that's what you are," he said. "I don't think you were such a coward."

"I'm not a coward!" she declared, indignantly, "and I'm not afraid. But perhaps you're afraid you'll catch the measles, it's awful catchin', isn't it, mother?"

Jack pretended to tremble and draw back, but she detected the pretence and

(To be Continued.)

Careless Shampooing Spoils the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is Mulsified cocoanut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

Veterans Give Valentine Dance

Prizes Awarded Couple Possessing Lucky Numbers—Hall Well Decorated

Many social events of an interesting nature have taken place at the G. W. V. A. memorial hall, but none more so than that of last evening, when a Valentine dance was held.

Upwards of 100 couples were in attendance and thoroughly enjoyed themselves until 1.30 this morning. For the dances appropriate music was furnished by the Wannacott brothers and Miss Helen Burns at the piano.

The hall looked inviting being trimmed with colored toy baloons and paper. Two prizes were awarded to the lady and gentleman who was fortunate enough to possess the lucky numbers and Marie Murray and Mr. John Cotter secured same. A lady's vanity box and a silver pencil were the prizes. The Committee in charge of the affair was composed of comrades Geo. Irvine, O. G. Boyer, J. Varley, A. G. Angel, J. Collins and A. E. Baldwin. Mr. J. Varley, Mrs A. E. Baldwin and Mrs. Hilton were in charge of the kitchen. President G. W. Dawes was also present to assist in looking after the guests. During the evening a dainty lunch was served.

Here's Economy!

Make Your Own Syrup with

MAPLEINE

A rich old-fashioned flavor! New in economy! Delicious golden spread for all syrup uses, at a cost of only about 25c a quart. Try it for flavoring too!

INQUIRY DEMANDED INTO SALE OF PAPER

New York, N.Y., Feb. 13 (United Press).—Frank A. Vanderlip, the financier today indirectly demanded an inquiry into the conditions of sale of "a certain Marion newspaper which sold for $550,000 when it was well known to everyone that it was not worth that sum."

Do What Mr. Buckingham Did

'Flu attacks the apparently strong as well as the weak. We believe, however, that if a person contracts 'flu, it is largely because he is run down. The person who enjoys good health is fairly well safeguarded against most diseases. Nearly everyone can enjoy good health by taking Carnol and keeping their system in a healthy condition. When your system is run down you leave yourself open to any disease. If you have had 'flu or your system is in a weakened condition, do what Mr. Buckingham did to regain his health. His letter tells how 'flu affected him and how he was restored to health:

"After the 'flu I was in a very weak and run down condition. I was tired, listless, had no strength and no desire to do anything. I had no appetite. I was nervous and depressed. I was losing weight. I read in the Calgary Herald that Carnol was good for all weak and run down conditions so I decided to try it. I used two bottles of Carnol and after taking them, felt strong and well. I consider Carnol the best tonic I have ever taken and have great pleasure in recommending it to others."—J. Buckingham, 621 14th Avenue, Calgary. 12-9

Carnol is sold by all good druggists everywhere.

SOMEWHERE IN FLORIDA

To be somewhere in Florida, where the sun is always shining, where the golden oranges hang in clusters on the trees, the palms stir gently to the warm breezes and "where the sweet magnolia blooms," is the thought in the minds of hundreds of Canadians every winter.

When Canadians at home are skating and ski-ing, those in the south will be surf-bathing, sun-bathing on the warm sands, deep-sea fishing, golfing, etc.

When making arrangements for the trip south, consult any agent of the Canadian National Railways for particulars of service. Winter tourist fares are now in effect, valid to return up to June 15th, and good for stop-over at all important points.

Premier Plans

(continued from page one)

special interest made in the debates in the House of Lords and House of Commons last night:

In the House of Lords:

Lord Parmoor, Lord President of the Council: I hope, as a Christian idealist, that our foreign policy will be founded on the doctrine of "peace on earth and good-will towards men."

Viscount Cecil: If only such security existed in Europe as exists in Canada and the United States nine tenths of our European difficulties would end.

Earl of Balfour, former Premier: When the ink was hardly dry on the agreement with Russia that Government proceeded to institute intensive and unscrupulous propaganda for subverting our institutions.

In the House of Commons:

Former Premier Baldwin: The whole atmosphere concerning our relations with France has changed for the better since last summer.

Mr. Asquith: One of my lady correspondents has expressed the fervent hope that a place has been reserved for me in the lowest abyss of hell because I aided and abetted the advent of a Labor Government.

J. R. Clynes, Lord Privy Seal and Deputy Leader in the House of Commons: The least we can offer Russia is to treat her on conditions equal to those with which we treat other countries.

Lady Astor: The navy has done more than anything else to make civilization, not only in Great Britain, but throughout the world.

George Lansbury, well known Labor member for Poplar: In the east end of London are thousands of young men and women with souls broken because they cannot get sufficient work or adequate maintenance.

Experts Evolve

(continued from page one)

tion. According to them the economic efficiency of Germany must be restored and this involves the return of the economic control of the Ruhr and Rhineland to the Germans.

Reparations were the second and main object of discussion. It is for the sake of reparations that Ruhr and Rhineland plants ought to be returned to German economic control, it is held, because the experts are convinced that it is through the sale of German products that reparation can be paid.

The new gold bank will finance and control the payment of reparations. Until the gold bank is established, Dr. Schacht's plan for a gold credit bank will prove a practical stop-gap. The experts find conditions such that they believe it will be possible for Germany to balance its budget, even in the period of transition, until the gold bank has absorbed all the odd money in circulation.

It is stated that the German railways will play an important part in providing security for an international loan. Their value is estimated at about $6,250,000,000, but they would be used as security only in proportion as they showed earnings.

STEPHENSON IS REMANDED TO JAIL

Baltimore Man Arrested in Connection with MacKenzie Death, Remanded For Eight Days

George Stephenson, of Baltimore, near Cobourg, who was arrested Wednesday night by Provincial constables N. Maker and H. Cousens on a charge of keeping liquor for sale, appeared before Magistrate Floyd at Cobourg yesterday and was remanded to jail for eight days on the charge.

Stephenson's arrest culminated from investigations which were pursued by Provincial officers following the unusual death of a farmer, Robert MacKenzie who was found frozen to death in a snow bank after a recent heavy snowstorm accompanied by zero weather.

Drinking Party

Stephenson who was arrested at his home just outside Baltimore was in the possession of alleged illicit whisky, when the officers visited his home to query him regarding the movements of MacKenzie on the day of his death, January 21st. Stephenson was the last man to see MacKenzie alive it is said.

According to a statement made by Mrs. MacKenzie, Stephenson and MacKenzie had had a heavy drinking party at Stephenson's house that day while MacKenzie's team of horses were being shod at the village blacksmith shop. MacKenzie's body was found on January 31th, on a road which is not used extensively in winter. The road was blocked with snow and the faithful team of horses still hitched to the sleigh stood at a short distance from the body of their driver and owner who was frozen stiff.

Canadian Relief Worker Weds In Near East

Nova Scotia Girl Marries American College Professor in Far Off Syria

POOR CROPS BRING MISERY TO HEBRIDES ISLANDERS

London, Jan. 23.—(By Mail)—Once again the inhabitants of the northern islands of the Hebrides, and especially the island of Lewis are bordering on starvation.

The islanders depend mainly upon the food derived from the crops they raise themselves, but when the crops fail serious hardships are entailed.

This year the trouble came through the destruction of the crops by the abnormally wet weather of the summer and autumn. So widespread and acute is the distress that appeals have been issued in Scotland and elsewhere for assistance.

Just how do people find out what ails them now that they have quit reading the old patent magazine almanacs?

Mopping Up Moscow Is In Full Swing

Moscow, Russia, Feb. 14 (By mail to United Press).—The Soviet authorities are continuing the "mopping up" of undesirables. Professional gamblers, money speculators and everyone else without a recognized legal occupation will be deported to certain fixed places. Their quarters will be confiscated and handed over to the Soviet officials for redistribution.

The council of people's commissaries is now considering a project of stringently regulating the fluctuations of all Moscow visitors. The project provides that no stranger can stay longer than one month in Moscow unless he has been transferred from some state institution to Moscow to work there, or unless he has been detained by official business.

The penalty is a fine of from 100 to 500 gold rubles and expulsion from Moscow for three years.

SECOND-HAND GOODS

Father—"What do you think of your new mama, Elsie?"

Small Daughter—"Well, papa, if you took her for new I fink you got cheated."

Few Folks Have Gray Hair Now

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

VOL. LVI. BELLEVILLE, ONTARIO, SATURDAY, FEBRUARY 16, 1924

BRITISH DOCKERS TIE UP TRANSPORTS

BOARD OF EDUCATION NOTIFIED $31,000 DUE IN CONTRACT BALANCE

Toronto Barrister Writes Board on behalf of Thomas Manley and Son, Contractors, claiming amount Due in Connection With King George School

CLAIM DOUBLE

Col. Ponton Declares amount Asked Just Double What Board Claims is Due Contractors—Motion prevails To Arrange for Solicitor of Board and City to Act In Defense

Mr. J. P. White, barrister, of Toronto, wrote the Board of Education of this city, claiming on behalf of Mr. Thomas Manley & Son, the sum of $31.000 which it is alleged is the amount due them on balance of contract in connection with King George School.

Col. Ponton stated that the amount claimed was just double what the Board claims is due the contractors and even that amount was considered generous.

A motion prevailed that the matter be referred to the building committee also the solicitor of the Board and city solicitor and to arrange defence in the action if an action is proceeded with.

At a regular meeting of the Board of Education held last night considerable business, chiefly of a routine nature was transacted.

In the absence of Mr. G. T. Woodley, chairman, Mr. H. W. Ackerman was voted to the chair.

Members in attendance were Messrs. H. W. Ackerman, J. Elliott, Wm. Harvey, Chas. Hanna, P. Harrison.

(Continued On Page Three)

COMING EVENTS

"Didn't you 'ear—'e fell off a tram an' got concussion of the brain."

KNIFE VICTIMS TELL STORY OF HECTIC BATTLE

Oshawa Man and Neighbor Still in Serious Condition Following Struggle

BOY TELLS STORY

Burglars Leap from Dark Punching and Slashing With Clasp Knives

Fred Habberfield, 537 Masson St., Oshawa, most serious wounded victim of the stabbing affray there on Thursday night, is resting satisfactorily in General Hospital there, but is still in a serious condition. Henry F. Baldwin, 533 Masson St., neighbor who assisted in the fight against the two desperate burglars, is also in the hospital, and in a very serious condition, but not believed to be as dangerously wounded as Habberfield. Jack Gillespie, former Lindsay boy, who was calling Baldwin, who is also a former Lindsay boy was able to give a story of the battle to the Press yesterday afternoon, having suffered but one slash of the knife in the arm.

Gillespie who is employed at the Cleve Fox Hardware store, Oshawa, is a brother-in-law of Baldwin, and was at the Baldwin house paying a visit when Mrs. Habberfield called them and told them that burglars were in the home of Roy Morphy at 543 Masson St.

Baldwin and Gillespie along with Habberfield rushed the house and the fight ensued.

Tells Story of Battle

"We were so taken by surprise when the men rushed out." Gillespie said, "that we did not have time to get a firm grip on them. Baldwin managed to down one and Habberfield I think stopped to assist him. I chased the other and when he turned on me with the knife and came back, I managed to get a crack at him, He passed me however, and ran to help his companion. That must have been when he stabbed Habberfield, for he was stooping over the man on the sidewalk and got slashed in the back. I managed to get close in on my man again and he cut my coat to ribbons. Then he stabbed me in the left arm and the pain was so intense that he got away. He also lunged at my heart but he did not get it."

A gash in the left lapel of his under coat furnishes mute evidence that in the lunge for the heart the desparado with whom he grappled was not so far out of the way.

By this time the man who had been thrown to the sidewalk regained his feet and joined in the fight. Although weakened by the wounds they had received. Balwin Habberfield and Gillespie continued to struggle with the banits while their respective wives called for assistance and screamed until one of the bandits called to his companion. "Get them yelping women." Finally both men broke away from their captors and ran down Hillcroft St. in the direction of Simcoe. The burglars used flashlights as they worked.

Montreal, Quebec.—The Canadian Pacific Railways has received from Boorings, Willis, Faber and Company 2,152.10 pounds sterling for distribution to the officers and crew of the steamship "Empress of Australia" for saving their ship and, for salvaging during the Japanese earthquake.

His First Formal Public Appearance as Premier

The new British premier, Ramsay MacDonald (extreme left), attended the recent Pilgrims dinner, an important annual function in London. Left to right those at the table are: MacDonald, Prince of Wales, American Ambassador Frank Kellogg, Lord Desborough and Sir Esme Howard.

LOCAL OPTION DEMANDED BY LLOYD GEORGE

Former Premier Sets Nation's Yearly Drink Bill £200,000,00

HOUSE ADJOURNS

Government Will Leave Measure to Free Vote In Commons

London, Feb. 16.—In the House of Commons to-day J. C. Gould moved the rejection of the Welsh local option bill on the ground that its provisions were unfair and could not be put into operation without considerable amendment. Moreover, it was designed ultimately to achieve total prohibition in Wales.

On behalf of the Government, Rhys Davies declared that the latter would not support the bill in its present form but would "leave it to the free vote of the House."

The House adjourned, after a discussion of the proposed measure, without voting, thus shelving temporarily the issue of local option.

Mr. Lloyd George delivered a forceful remand for local option for Wales pointing out that various experiments were necessary before the liquor problem could be solved.

The former Premier emphasized the seriousness of the situation when the country's drink bill amounted to £200,000,000 annually.

London, Feb. 16.—In connection with the statement made to Parliament yesterday by Arthur Ponsonby, Under Secretary for Foreign Affairs, concerning the reports of the sale to the United States by Great Britain of Jamaica and by France of her West Indian Islands, it is learned that his alusion to an agreement for a certain small cession of "territory" in which the previous Government had submitted itself, had no reference to the United States.

The territory mentioned by Mr. Ponsonby is Jubaland, formerly a part of German East Africa, upon which Italy has certain claims by virtue of her participation in the great war. It will be recalled that one of the conditions upon which Italy entered the war was that in the event of the acquisition of German territory in Africa by the Allies, Italy would be entitled to a liberal rectification of her frontiers in Somaliland and Libya.

In the closing months of the Administration, Lord Curzon, it is asserted, told Premier Mussolini that the British Government was prepared to carry out its part of the Allied pledge by ceding a part of the present British territory in Africa known as the Kenya Colony, but that it could not grant Italy as large an area as she sought because to do so under British futelage from access to important water wells and would cross a number of caravan routes in British territory.

It is understood that if Italy is willing to accept that modification the Labor Government stands ready to fulfill Lord Curzon's promise. France already has compensated Italy by ceding her a small strip in Tunisia.

GERMAN MOB KILL SIX

Dusseldorf, Feb. 15 (British United Press).—Durkheimm mobs during the night, killed six Separatists who took refuge with others in the City Hall. French troops dispersed the Anti-Separatists. There was considerable movement of police and some police during the night but the situation in the Rhineland generally was quieter.

R. C. VAUGHAN

The appointment of Mr R. C. Vaughan, director of Purchases and Stores, as Vice President in charge of Purchases and Stores, Canadian National Railways, was announced this morning by Sir Henry Thornton, chairman and President of the System.

SEEK TO ENJOIN CHURCH MERGER

Formal Notice Sent Ottawa Government of Presbyterian Body's Action

TRY FOR DELAY

Advocates of Union Working to Pass Legalizing Measure

Ottawa, Feb. 16.—The Presbyterian Church Association has sent formal notice to the Government of its legal action to restrain by injunction, proponents of church union, from speaking for the whole Presbyterian Church. The inference from the communication is that Parliamentary procedure is sought to be arrested until the courts decide. Other communications affirm objections to the union.

On the other hand advocates of union have conformed to all rules and are going ahead with the private bill which would legalize union. Their Parliamentary agents take the position that the General Assembly the governing body of the Church, having ratified the union proposals, Parliament ought not to interfere with the domestic concerns of the denomination.

Want Trustees To Meet Here

The Urban School Trustees Association of Ontario will meet in convention at Kingston on the 26th, 27th, 28th and 29th inst and every effort will be made to have the convention in Belleville next year.

At the meeting of the Board of Education held last evening delegates were appointed to go to Kingston also instructed to use their influence to have the convention here. The delegates are Messrs. G. T. Woodley H. W. Ackerman, A. McGie, Alternates G. B. Smith, F. B. Smith and J. Elliott.

ORDER OFFICERS FROM RESIDENCE OF SICK BROKER

R. H. Greer, K.C., Counsel for H. B. Wills, Charges Intimidation

BIG DEMANDS MADE?

Protest Carried to Attorney General—Wills is Under Bail of $5,000

Toronto, Feb. 16.—Protesting against private detectives standing outside the home of Hamilton B. Wills, financial broker, 132 Crescent road, a member of the Wills household telephoned to Belmont street police station and complained to Inspector Snider that the men were a nuisance, and asked that police be sent over to take them into custody.

Mr. Wills is at present in bed ill with paralysis, under open arrest, and on $5,000 bail under indictment from Boston on a charge of falsifying accounts. He was arrested ten days ago and Judge Coatsworth went to the house and granted bail to Mr. Wills in bed.

Inspector Snider when informed of the facts, sent Plainclothesmen Lee and Barber, who located the men sitting in an automobile in front of Mr. Wills' home. Taken to the station they admitted they were private detectives assigned to duty to watch Mr. Wills' home, bu gave no other reason than they were told to stay there and "keep an eye on things."

Inspector Snider let the men go after warning them if they returned to the Wills home he would have to arrest them and hold them in custody.

DECREASE SHOWN IN REGISTRATION

Report of Belleville School Inspector Also Shows Increase in Average

According to the report of School Inspector Mr. H. J. Clarke, the registration at the city schools for January of this year was slightly lower than the same period last year. The figures are as follows:

Registration	1924	1923
Queen Victoria School	450	501
Queen Mary School	446	494
Queen Alexandra School	413	470
King George School	338	213
Total	1667	1681

Whilst the net result shows a decrease of 14 in registration the increase in daily average attendance was 94. Work in all the schools is progressing in a satisfactory manner.

The report also referred to the departmental examinations in June and the necessity there was of the Board providing a suitable place for the holding of same, as the assembly room at the High School was not now available.

The report was referred to the school Management Committee.

PROPAGANDISTS ACTIVE

Berlin, Feb. 16.—A German propagandist bureau has begun cutting in on the broadcasting musical programmes with propaganda against the separatists in the Rhineland.

MILLION WORKERS IDLE AS ALL EFFORTS FAIL TOWARD CONCILIATION

LABOR DEMANDS A HANDICAP TO MINE OPERATION

Indianapolis Control is Hampering Alberta Production

CANNOT PAY WAGES

Scale Fixed Without Relation to Local Conditions and Costs

Calgary, February 16.—Special significance attaches in Western Canada to the convention of the United Mine Workers at Indianapolis. Strange as it may seem that an American union should exercise an influence on wage contracts in Alberta it is nevertheless true that it has done so in the past and may do so again in the negotiations which open between the operators and miners in Calgary on March first.

The position of producers in Alberta is a peculiar one. The mine workers' organization is one only of the thirty or more districts of the United Mine Workers of America. Meeting annually in general convention in Indianapolis prior to the expiry date of wage agreements, a general policy is formulated covering all basic matters of wages, hours of work, and general working conditions. Individual districts have local autonomy in minor matters, but it is extremely limited, and has little if any effect on the general contracts, the basis of which is determined at Indianapolis. The inevitable effect is that negotiations in local fields may be carried on with some show of sincerity, but are in fact subject to policies and decisions over the making of which the local participants have little if any control. As between the various states of the Union this may involve little if any hardship. One coal-producing state paying a certain scale suffers little but ordinary competition from a neighboring state paying a scale closely similar.

The Consumer Pays

Conditions in Alberta, however, bring about a very different result. Isolated from any other coal-producing area, dependent upon its own people and those of the neighboring provinces for its market, limited in that market by the consuming and buying power of the public, supplied by mines with a tremendously wide range of physical conditions, and subject to the keenest local competition as a result the burden of wage schedules determined in Indianapolis rests directly on the western consumer whether industrial or domestic. In addition, many of the mines are not unionized, or if unionized, are not under the United Mine Workers of America. Ruinous competition results Some of the more expensively operated mines find themselves faced with the possibility of permanently going out of business, mines which have been well equipped, well managed, and might reasonably have looked forward to operating for many years to come.

Collapse of Negotiations Arises Out of Refusal of Employers to Make Any Advance on Terms Offered of One Shilling Increase at Monday's parley

MILLION MEN IDLE

Minister of Labor Shaw finds it Impossible to Unravel Tangled Skein—To-day's Conference Can Have no Effect in Postponing Putting Strike into Effect

London, Feb. 16.—To-day at noon labor in all the ports of the United Kingdom will cease. Notwithstanding the strenuous efforts Minister of Labor Shaw has made during the past two days to bring about a settlement of the dispute between the dock workers and their employers, it has been impossible to unravel the tangled skein, and this evening the dock workers ordered their men on strike to-day.

The collapse in the negotiations arose out of the refusal of the employers to make any advance over the terms they offered the dockers last Monday—an increase of one shilling a day in the wages of the men, and an inquiry into the question of the "decasualization" of dock labor. The dockers rejected the offer:

Will Not Stop Strike

Delegates of the National Council of Port Labor, Employees from various cities, who have been here attending the negotiations, are postponing their return home at the special request of Minister of Labor Shaw, who is holding a conference to-day. It was explained last night, however, that the conference would not have the effect of postponing the putting of the strike into effect.

The breakdown in the negotiations is attributed by the leaders of the dockers mainly to the attitude of the London employers, who refused to grant any concessions on the subject of decasualization, except another inquiry. Decasualization is the chief bone of contention, and the dockers rejected the proffered inquiry, because, they say, a similar inquiry was made in 1920 by a committee, which recommended guaranteed employment, under a joint plan, but which came to naught because the employers refused to carry out the plan. The dockmen also are equally firm in insisting on their demands for a two-shilling advance in wages.

Embarrassment to Government

This second great industrial strike in the short life of the new Labor Government will, it is believed, be of great embarrassment to the Ministers at a moment when they apparently had made a favorable impression on Parliament and the country. Contrary to the recent railway strike, the dockers will have a certain measure of public sympathy. Casual labor at the docks has been an admitted grievance which constantly has been cropping up during the last quarter of a century. It has been partially remedied from time to time, but never disappeared entirely.

DISCUSS DANCING HOURS

At the regular monthly meeting of the Kingston W.C.T.U. held recently the question of the regulations governing the city dance halls was discussed, and a resolution was passed requesting the City Council to pass a bylaw regarding the hours at which these halls shall close, and calling the attention of Council to the bylaws in force at Toronto.

Oil Leasing Scandals May Involve Relations In Europe

London, Feb. 16.—The British Press sees far reaching effects which eventually may become international in their scope growing out of the oil leasing scandals uncovered in Washington.

Morning Newspapers devote much space to what is described as virtual "panic" in Wall street as a result of the revelations.

They are typical of the comment of the London Daily News which says "deplorable affairs are shaking American politics to its foundations. Soon it will become difficult to find a politician whom the public does not believe to be in some way implicated, when the facts are finally established there may be so great an upheaval in the political parties that the reactions will affect American relations in Europe.

GERMANY'S GAPACITY TO PAY REPARATIONS MAY BE SOLVED

Paris Feb. 16.—It is believed that the Conference of experts headed by General Dawes of the United States, which has just completed its investigation into Germany's capacity to pay reparations will report to the Commission of Reparations about March 1, after which a plenary conference will be held in Paris.

The experts have just returned from Berlin and correspondents in the German capitol understand they have arranged a complete program for solution of the tangled reparations problems which has harassed Europe ever since the Paris Peace Conference.

While the program of the experts is guarded carefully it is understood that their recommendations will include. 1. —A two year moratorium for Germany. 2.—Economic Liberalism of the Ruhr and Rhineland without disturbing the Military Occupation. German Reparations paymeats on a scale depending on the excess of her exports over imports.

Let there be harmony in things essential—liberty in things not essential—charity in all.

THE FIRE MENACE.

Statistics of the past year show that, in the Dominion of Canada, there are ten dollars lost through fire to every one of any other cause, and the majority of these fires through lack of fire protection and precaution on the part of the small business man and house owner.

While the local fire department is efficient and one of which, as a city, we have the right to commend, still precious minutes must necessarily elapse between the turning in of an alarm and the arrival of the department.

Some of the largest institutions in the country have made it compulsory to have hand extinguishers in their buildings, and other public institutions have been required by law to provide extinguishers of an approved make in readiness, and placed in the most prominent place available

Thousands of dollars were saved a local store a few days ago through having one of these extinguishers on hand, the flames being smothered before gaining any headway. The extinguisher used cost about five dollars, which is a fairly good investment, something like one thousand per cent.

Insurance companies have made a campaign to bring the value of proper fire protection before the public for many years, and it is the small business man, the corner store and the home that have been the hardest to reach. Over eighty per cent. of fire losses are listed in these three, and lack of fire protection was cited in each case.

FACTS ABOUT PEAT

The widespread and general interest in the possibility of utilizing the extensive peat deposits of Canada as a source of fuel for domestic and other purposes has led to the publication by the Mines branch of the Federal Department of Mines of a bulletin entitled "Facts about Peat".

The present publication, which is comprised within 48 pages and written in non-technical language, aims, as its size and title indicate, to present in "Tabloid" form the outstanding facts in relation to the peat resources of Canada and their possibilities as a source of fuel.

The bulletin indicates briefly the nature of peat, the difficulties involved in the production of fuel from it, and the underlying principles upon which any successful attempt at manufacturing must be based. A short account is given of unsuccessful efforts made in the past in Canada and of the methods which were experimented with. The possibilities of removal of water from peat by pressure, evaporation by artificial drying, briquetting, carbonization and recovery of by-products are discussed. The air-dried-machine peat process, the only process which has so far been employed successfully on a large scale, is described, and the character and value of the fuel manufactured according to this process are discussed, and a number of opinions of users quoted. Other uses of peat are briefly dealt with. Detailed information relating to Canadian peat bogs so far investigated is summarised in tabular form. Tables relating to the production of peat fuel in Canada and other countries are appended and a short bibliography is included indicating the principal sources of information on which the bulletin is based.

Since it is probable that the peat resources of Ontario and Quebec may in the near future assist materially in coping with the fuel problem in the acute fuel area of these provinces, the appearance of this bulletin is timely and should prove of wide interest.

Copies of this Bulletin (Mines Branch Report No. 614) may be obtained on application to the Director, Mines Branch, Department of Mines, Ottawa.

EDITORIAL NOTES

News from Luxor convinces one that there is going to be another exodus from Egypt.

—o—

Bobbed-haired Brooklyn, N.Y., girl decided to be a bandit, but the police soon cut that short also.

—o—

What it's all about we dunno, but we suspect some official called an archaeologist a tomb robber.

—o—

Evil days art at hand for the "pork barrel" Member of Parliament. The taxpayers of Canada are waiting and ready to bawl him out.

—o—

We have it on the word of a tourist who combed the Orient from Honk Kong to Lan Chow that he never saw a Chinaman playing Mah Jong.

—o—

"A pathetic touch is given the effigy by a little crown of withered natural flowers set about the gold head dress"—Luxor cable. Now quote the entire stanza, "The boast of heraldry, the pomp of power," etc.

—o—

After reading Ramsay MacDonald's dignified statement concerning foreign relations, especially with France and the United States, one is encouraged to believe that a Daniel has come to judgment.

I'D RATHER NOT!

An old-fashioned girl, she said to me,
"Really, I'd rather not!"
An echo it seemed of a past century,
"Really, I'd rather not."
'Twas something quite unheard for many and many a year,
I offered her a cigarette, that's nothing strange or queer,
She shook her pretty head and said in accents clear,
"Really, I'd rather not!"

I had a flask upon my hip,
"Really, I'd rather not."
Just a little tiny sip—
"Really, I'd rather not!"
Her grannie must have brought her up,
She sipped her milk from an old tea cup,
And me, ah! me, I felt like a pup—
Really, I'd rather not!

She's only a little old-fashioned maid,
Really, I'd rather not;
But she thrilled my soul when she whispering said,
"Really, I'd rather not."
There's thousands of girls I won't condemn,
Here in our new Jerusalem;
I might, if I tried, get one of them,
But really, I'd rather not!

There's a little song on my lips to-night,
"Really, I'd rather not!"
It fills my soul with a young delight,
"Really, I'd rather not!"
My heart is glad with a new-found glee,
A glimpse of my grandmother's world to see—
Oh, whisper again those words to me,
"Really, I'd rather not!"

GIRLS! LOTS OF BEAUTIFUL HAIR

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating—not sticky or greasy! Any drugstore.

PRESS OPINIONS

EDUCATING EACH OTHER

The members of the Labor Government have undoubtedly a good deal to teach to the ruling classes that preceded them, but they have also a good deal to learn. And therein lies the principal significance, perhaps, of Labor's first taste of power. It is a great educational experiment in two directions, upward and downward.—St. Catharines Standard.

ATLANTIC WATER POWERS

From this time forward the Maritime Provinces should talk a great deal less about Confederation pledges and a great deal more about the resources we have at our very door. The proposed Hydro development on the Petitcodiac is practically in the centre of the Maritime population. Therefore it is the duty of every Maritime citizen to support the movement which so heartily endorsed at a recent meeting in this city —Moncton Transcript.

MEALS FOR PASSENGERS

One of the latest changes instituted by President Thornton should be conducive to increased passenger traffic. He has on trial a system of lunch counter on trains, for the use of the colonist cars. These cars are already equipped with a kitchen where passengers may cook their own meals. But often, for various reasons, the passengers are not able to cook meals or to patronize station restaurants. For these the lunch counter, with meals served at a reasonable price, will be a boon.—Brockville Recorder and Times.

DOING GOOD BY STEALTH

News writers who knew E. C. Whitney share the opinion that his life was exceptional even among rich men of acknowledged generosity. In the manner of his living and the spirit of his giving he was different. Little eccentricities in his attitude toward people in need or pleaders for institutional funds but served to sympathize the big heart and warm clasp of the hand. He hated to be "dunned," as he called it, but loved to give anonymously under conditions where his dollars came as a surprise. Thus he added causes that needed money and encouraged workers in their appeals.

Music & Drama

"THE GHOST CITY" A MOVIE SERIAL OF BIG THRILLS

every week at the Regent theatre com-every week t the Regent theatre commencing Monday.

"The Ghost City," Universal's new chapterplay, a western story laid in one of the old deserted mining cities that made romantic reminders of gold rushes of a long dead past in the middle West, comes Monday to the Regent theatre.

The story, written by Paul Bryan, is laid about such a deserted city in Wyoming, which has become the rendezvous of desperadoes preying on the rich cattle regions around. Their villainies are combated by the ultra modern methods, including an airplane patrol, in a thrilling series of incidents.

Pete Morrison, noted as a Western star and daring rider, plays the principal male role, while Margaret Morris, Unversal City's new "discovery," heads the feminine contingent in the cast.

Bud Osborne, well known Western "heavy" does the villain's part in the new chapterplay, and a cast of well known standard players surround them. Frank Rice plays the eccentric character role of "Sagebrush Hilton," an old plainsman, and Slim Cole is seen as Mort Curley, one of the leading lights of the past. Others in the cast are Valerio Olivio, William Quinn, and Princess Neola, who plays the role of an aged squaw who befriends hero and heroine throughout the fast action of the play.

The thrilling airplane stunts that will mark the chapters are furnished by Al. Wilson, Universal City's famous stunt flyer, whose daring work in "The Eagle's Talons" created many a thrill. Jay Marchant is director of the new chapter play. Outdoor locations in the high Sierras, on the Mexican border and middle West are used in the offering.

"SO THIS IS LONDON"

Arthur Goodrich's comedy, "So This is London," a George M. Cohan success of New York and London, is offered at the Griffin Opera House one night only, Thursday, February 21st.

The play, through pure comedy, nevertheless takes the turn of a distant appeal for international friendship. Lloyd George to this country, it seems a happy coincidence that his plea for American understanding of England and continental Europe i the present state of unsettlement should be followed by stage propaganda—comedy though it is—for a less hostile attitude of American and English individuals against each other.

The play amuses the audience with the persiflage and wit of the two nationalities, running all the way from the turning off of Niagara Falls because of labor troubles to the July Fourth birthday of George Washington.

From a feminine viewpoint the show is quite attractive as a fashion display, for the women of the cast wear gowns of the most exquisite materials and designs, each act bringing its own distinctive creations. Seat sale opens Wednesday, February 20th. Mail orders now. Kindly remit postal notes, express orders or cheques.

On account of the interest in pioneering days awakened by the special engagement of the picturization of Emerson Hough's novel, "The Covered Wagon" at Griffin's Opera House for 3 days commencing Feb. 18th, matinee daily, the executive committee of the Chicago Historical Society has made a special exhibition, illustrating the period of the great wagon trains, in the auditorium of the Society's building, at the corner of Dearborn and Ontario Streets. The exhibition consists of a Conestoga wagon, built in 1811 and used for many years on the western trails, hand made plows, implements, utensils and furniture of the pioneer period. These objects were assembled and placed, by members of the Society and will remain a feature of the museum for several months.

An interesting point in connection with this exhibition and its relation to "The Covered Wagon" lies in the fact that the late Emerson Hough, the author, was a frequent visitor at the museum and library of the Historical Society and gathered there much of the historical data that he used so skilfully in "The Covered Wagon." It is quite reasonable to conjecture that one of the massive plows seen in the exhibition, gave to Mr. Hough the idea of the character of Captain Wingate, to whom the plow is a symbol of civilization. "The pick and shovel never developed a country," says Wingate. "What you need is a plow."

In the library of the Historical Society are many books that prove the authenticity of the details of the story, as well as of the picture, Mr. Hough was thoroughly familiar with these volumes, and a search through them would doubtless reveal the genesis of many of the episodes in "The Covered Wagon."

A Symphony Orchestra carried by the Company will delight you.

"ARLIE MARKS" AT THE CITY HALL

Canada's own comedienne, Arlie Marks, supported by a company of fifteen will open a four days engagement at the City Hall, Wednesday evening, Feb. 20th. Manager L. E. Perrin claims Miss Marks has the best repertoire of plays, and the best company she has ever carried. Each play will be mounted with special scenery and nothing has been left undone to make this a banner season in the show's history. Six vaudeville acts are carried in addition to the dramatic position of the program and there will be a complete change each evening.

After Nights Of Coughing

SLEEP COMES AT LAST

HOME MADE COUGH MIXTURE BEST OF ALL

The cough that hangs on and hangs on—the cough you've taken everything for with no results, is just the cough that your own home made cough mixture will end speedily.

Make a supply yourself in a few minutes and keep it on hand this Winter—a half pint doesn't cost much; it's better than any you can buy, and the kiddies love it.

It's a fine remedy for chest colds and acute nasal catarrh.

With speed almost beyond belief this home made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrup) that immediately covers the membrane like a soothing, healing poultice and blessed relief comes at once.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it.

Any remedy that overcomes catarrh partially, or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Head Stuffed By Catarrh Or Cold?

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

ST. VITUS DANCE

SHOWS THROUGH A TWITCHING OF THE MUSCLES OF FACE AND LIMBS

Chorea or as it is more generally known, St. Vitus dance, is a trouble that usually attacks young children, though older people may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs. As the disease progresses the twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. Frequently the patient is unable to hold anything in the hands or to walk steadily. In severe cases the speech is often affected. The disease is due to debility of the nerves and relief comes through an enriched blood supply which feeds and strengthens the nerves. Dr. Williams' Pink Pills have been most successful in reaching this trouble through their specific action on the blood, which it enriches and purifies. The following instance will show what Dr. Williams' Pink Pills can do in this trouble. Mrs. S.E. Makins, Parry Harbor, Ont., says:—"As a young girl I was badly stricken with St. Vitus dance. My parents tried several medicines but without avail. I was steadily growing worse and could scarcely walk without falling. I had to quit school and had no control of my nerves or actions. Finally a neighbor advsed the use of Dr. Williams' Pink Pills, and the use of these for a couple of months restored me, and I have had no attack of the trouble since. I have, however, taken the pills at different times since, when I felt out of sorts, and find them all you claim for them if given a fair trial."

You can get Dr. Williams Pink Pills through any dealer in medicine, or by mail at 50 cents a box from the Dr. Williams Medicine Co., Brockville, Ontario.

Hastings County Shares In Full Natural Riches

Hastings County falls naturally into two strikingly different physiographic divisions, the northern part which is characterized by rugged rocky hills and numerous lakes and the southern part, which is a region of almost unbroken fertile farm land and of relatively low elevation. The northern part may therefore be described as the rocky lake country and the southern the lowland or farmland belt. The rock lake country forms part of the great Laurentian Highland while the lowland belt belongs to the Ontario Lowland. The reason of the difference in the surface of these two regions is to be found in the character of the underlying rocks.

The underlying rocks of the northern part are among the oldest in the world and are classed as Pre-Cambrian in age. There are treasurers here that have been laid up since the creation of the world. Truly the Great Architect of the world builds not for one brief day.

There are few, if any, localities in Canada or in the world probably, where mineral deposits occur in greater variety or more numerous than here in our country. Gold, silver, iron, copper, lead, molybdenum, arsenic, ochre, in fact twenty-five different minerals are named as being found here and as being of great commercial value. We mention the following minerals and where they are produced as being of practical interest to all our readers. Actinolite—Deposits in Elzevir township and a mill at Atinolite. Clay—Brick plants in operation at Belleville and Foxboro. Corundum—Carlow and Dungannon townships. Iron Pyrities—Sulphide ad Madoc. Limestone—Point Anne Crookston and Marmora. Marble—Bancroft and Bronson; total value of amount quarried in 1920 $1,230,922. Talc—Madoc, Huntingdon and Grimthorpe townships. Many more would be mentioned but this we believe is sufficient to indicate the natural wealth and the great possibilities for a more prosperus future for Hastings County.

Macdonald In Poor Health, London View

Stated Premier Must Conserve Energies Or Suffer Breakdown

London, Feb. 16.—Stanley Baldwin's sympathetic reference in the House of Commons to the burdens being borne by the Prime Minister was based according to some of the parliamentary writers, on recognition that Ramsay MacDonald is actually in a very poor state of health.

They declare he has physical frailties which prescribe limits to his exertions and as he has been "working like a horse" since he was called to office, he has probably overtaxed his strength. The writers make the prediction that unless the Premier conserves his energies he is likely to suffer a physical breakdown, necessitating a lengthy rest.

Mr. Baldwin's reference to the matter was: "We all hope that the immense double burden of Premier and Minister of Foreign Affairs which he has assumed may not be—as we fear it will be—too much for him."

TWO PERISH, NINE MISSING IN FIRE

Man and Women Fatally Hurt in Jumping From Montpelier Building

Montpelier, Vt., Feb. 16.—Two persons were killed and nine are missing and believed to have lost their lives in a fire which destroyed the Lawrence Building on Main street early yesterday. A number of others were seriously injured. The loss is estimated at $300,000. The known dead are Walter Washburn, a prominent insurance man, and Mason, and Mrs. J. F. Waterman. Both sustained fatal injuries when they jumped from windows and missed the life net.

Says Red Pepper Heat Stops Pain In Few Minutes

Rheumatism, lumbago, neuritis, back ache, stiff neck, sore muscles, strains, sprains aching joints. When you are suffering so you can hardly get around just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

Board of Education

Continued from page one.

A. McGie, Col. E. D. O'Flynn, Col. W. N. Ponton, G. B. Smith, Mrs. J. A. McFee, and Mrs. Florence Boyce.

number of communications chiefly applicants for positions on the teaching staff, were read and referred to respective committees.

Reports

The finance committee report recommending the payments of a number of accounts was passed. Mr. C. Hanna was chairman of the committee of the whole on reports etc.

A special committee submitted a report relative to the proposition to have a room in each school equipped with household equipments. The committee report was to the affect that no definite action be taken at present as rooms were not ready for some

Report was adopted.

Principal P. C. McLaurin of the High School presented a report which showed that the school was progressing in a satisfactory manner and the teaching staff was efficient.

The matter of providing an auxiliary class in connection with one of the schools was referred to the School Management Committee.

Applications to be appointed as examiners at the departmental examinations to be held in the city were referred to the School Management Committee.

Vocational Committee

The vocational committee in connection with the night school work was selected as follows: Members of Board. H. W. Ackerman, A. McGie, J. G. Moffatt, G. B. Smith and A. B. Collins. Manufacturers—W. C. Springer, F. S. Deacon and E. Worth. Industrial—F. H. Chesher, N. F. Turner and T. H. Cappin.

Committee rose and reported.

Report received and adopted.

Motions

A motion made by Col. Ponton was adopted. The motion amends a clause in the constitution of the Board relative to the inauguration meeting in January. By the amendment, general business can be transacted at the meeting in addition to the appointing of chairmen and various committees.

At a largely attended and representative meeting held at Picton of representatives from cheese factories in Prince Edward County, a motion prevailed that the Dairy Standard Act be amended to make it optional of paying for milk by test. Expressions of opinion at the meeting showed that the feeling of cheese factory patrons throughout the county was that of very strong dissatisfaction with the working out of the act, and in favor of paying for milk by the pooling system.

FINE WOOLS

When you think of using wools think of Sulman. 40 years' experience in the wool business has surely taught us the best wools to keep for all purposes.

If in need of wool study your interests by seeing Sulman's wools.

Deaths and Funerals

EDWARD QUINN

Mr. Edward Quinn, Sr. 85 South John street, of this city, died last evening after a short illness.

The late Mr. Quinn sailed for many years out of this port and was well and familiarly known among his friends for his congenial manner.

Leaving to mourn his loss are his widow, three sons, three daughters, also one brother and two sisters residing in this city.

CHAMBER HEARS ABLE SPEAKERS

Mayor Mikel and I. L. Moore Give Address Relating to Thrift and Economy

To a deeply interested audience at the Chamber of Commerce Thursday night His Worship Mayor Mikel gave an address on "The Motto for Belleville" and Mr. I. L. Moore, Principal of the Ontario Business College, gave an address on "Efficient Citizenship and Some Thrift Week Reflections."

Mr. Mikel, in opening his address, spoke of the origin of heraldric devices, crest and shields. From having been a means of distinguishing important families or individuals at a time when writing was not a general accomplishment these insignia later came to have a broader significance and were adopted by municipalities and by nations. Sometimes when two families were united the designs were divided into half sections and when the union continued the shield sometimes embraced four or more of the original signs. Thus it was that the shield adopted by Belleville was divided into four parts and upon it appeared four signs showing a sheaf of grain, a tree, a lion rampant and, surmounting all, the beaver to represent Canadian industry and the crown, imperial loyalty.

The motto beneath—"Magnum est Vectigal Parsimonia"—had its origin two thousand years ago when Cicero, a famous Roman orator and statesman, had used it in one of his addresses. Freely translated it means "Economy is a Great Revenue". Applying this motto to present conditions Mr. Mikel showed that thrift and sound economy as distinguished from parsimony were essential to the well-being of any municipality or any government.

Effective illustrations were drawn from the story of the defeat of the Invincible Armada because that Queen Elizabeth from her habits of thrift had devoted a large part of the Crown revenue to provide an efficient British fleet and a further illustration was given from the history of the Loyalist settlement of Upper Canada and the sacrifices and self-denial that had been practised by those who made it possible for Ontario to become what it is to-day.

Mr. Mikel was most optimistic about the future of Belleville. There had been practices in the past that were the reverse of economical and a debt of $408,000 had been incurred largely by overdraft that each succeeding council in its anxiety for a low tax-rate had lacked the courage to provide for. This amoun had been consolidated into a debenture debt which would be paid off in full in six or seven years and the financial position of the city would then be highly satisfactory.

Mr. Moore spoke of having addressed three very responsive audiences the last week on the subject of "Thrift", two of these were sections of the High School and the other the students and staff of Albert College. Mr. Moore quoted a few figures to show how that even a small increase in earning power accompanied by the habit of thrift would later mean efficiency and independence. He referred to some of the very unsatisfactory conditions that exist in the Canadian farming community to-day and threw out the suggestion that something would have to be done to ameliorate the farmer's lot. The agricultural and urban communities were closely inter-related. We could not have a prosperous city unless we had a prosperous countryside. Mr. Moore also referred to the tremendous losses incurred by forest fires throughout Canada. A very high authority had lately startled the country by the statement that our forest resources would practically be exhausted in ten years. While these statements had been challenged there was no doubt that the situation was extremely serious and one that called for drastic measures of economy and of safe guarding our present potential wealth. In one respect the pioneers had not been thrifty and that was in the wholesale destruction of the splendid forests that had covered land that was absolutely unfit for agriculture and which ought still to be producing its forest crop.

A general discussion followed the addresses of the evening which was taken part in by Mr. G. B. Jones, Dr. Proctor, Dr. Branscomb and others.

The housing situation in Belleville was also briefly considered. A statement that there was at present a dearth of satisfactory homes for rental or for sale in the city was challenged by Ex-Ald. Donahue who expressed the opinion that there was a sufficiency of homes to meet present requirements.

Use Water Wagons to Make Storm Movies

Los Angeles, Calif. Feb. 16 (United Press.—Probably movie fans wonder just how to reconcile stories of Los Angeles' sunny skies and Hollywood movies with pouring rain. However, the secret came out at a recent council meeting. It was shown that the film companies rent the city's water wagons to make dain storms and pay $30 a day for their use, besides prewagons to make rain storms and pay geles realizes several thousand dollars a year from this source.

Sleeplessness

Sleeplessness, like insanity, is greatly on the increase. Modern life, with its hurry and worry and noise, brings an enormous strain on the brain and nerves.

The temptation to depend on sleeping powders or tablets must be fought off if you would avoid catastrophe. Means of reconstructing the starved nerve cells must be sought. Since the digestive system fails to supply nourishment to the blood and nerves it is necessary to employ such treatment as DR. CHASE'S NERVE FOOD to instil new strength and energy into the tired nerves. This is Nature's way of affording lasting relief.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. a box of 35 pills, instead of 25c. for 25 pills.

Says He Was Broker "Toronto Aristocrat" Held

Technical Charge Laid Against Man in Buffalo Who Claims to Have Cultured Relatives in Toronto—Has Been Identified

Buffalo, N. Y., Feb. 15.—The aged "man of mystery", whom the police found shivering in the doorway of a tall building here Tuesday night as he peered through filmy eyes at the roar of traffic, was identified to-day as Henry E. Kerstman, 67 years old. He claims to be a "Toronto aristocrat." He told his story to the court with the politeness and ease of a cultured gentleman.

"I graduated from Trinity College at Port Hope, Ontario," he said, "and then worked for my father in Toronto. Later I opened a stock brokerage firm of my own there. For many years as a member of Toronto's club life. I prospered until I went as a captain in the Queen's Own Rifles to fight in the South African rebellion. After that, I roved around the world. I have always been supplied with funds put in trust for me by my father. That was interfered with a short time ago, but I don't care now. I'm waiting for the call of my Maker."

Kerstman said he had sisters in Toronto married to wealthy men connected with banks and brokerage firms. Because of his cultured poise, and aristocratic bearing, the police and federal authorities took more than ordinary interest in him. He is being held on a technical charge of vagrancy. Authorities are endeavoring piece by piece to draw more from him.

Labor Ministry Faces A Difficult Situation On "Poplarism" Issue

London, Feb. 15—At the very outset of its career the Labor Government finds itself confronted with a serious dilemma through former Premier Asquith's declaration in the House of Commons that the administration must reconsider its attitude toward "Poplarism" or lose the support of the Commons.

The theory that all citizens have the right to work or to maintenance at public expense has gained this so-briquet of "Poplarism" because of its recent application in Poplar, the metropolitan borough in the East End.

Strong Opposition

Had the incident arisen in a later stage of the Government's existence the situation would undoubtedly have been described as a crisis threatening its continuance in office, since both the Liberals and Conservatives are equally opposed to the Government's policy in this matter and it is therefore obvious that a direct motion of want of confidence, if submitted to the House, would have brought the Government down.

Extreme Difficulty

Such an outcome, however, is not expected now, as neither opposition party wishes to oust the new ministers yet and involve the country in another election. The position nevertheless is one of extreme difficulty for the ministry and not without difficulties for the other parties.

Speculation is rife in the lobbies and elsewhere as to what will happen. One suggestion is that Premier MacDonald may disavow the action of the Health Minister, John Wheatley, who was responsible for the decision from which the trouble arose and who according to several reports, acted on his own initiative without consulting the Cabinet. Should the Premier overthrow Wheatley, however, he would immediately be faced with an outburst of anger from his more extreme followers, especially the "Clyders" to whose ranks Wheatley belonged.

George Lansbury, extremist Laborite member for Poplar, who has been closely connected with the action of the Poplar guardians which aroused discontent, said last night, regarding the suggestion that the government might repudiate the health minister: "No government, under McDonald or anybody else, pretending to represent Labor dare do any such thing."

This appears to be the attitude of a large section of the party, which holds that the Government is bound to support Wheatley.

Poplarism, is not supported by all the ministers and it is regarded as certain that means will be sought in the interval before the Commons debate to placate the extremists through some method of parliamentary procedure which will save Wheatley's face and at the same time avert dangerously hostile action from the Opposition parties.

Among the proposals suggested is one for the appointment of a commission to investigate the whole matter of the existing poor law and incidentally devise a reform in the rate paying system.

Demand BAYER ASPIRIN

SAY "BAYER" when you buy—Genuine

Proved safe by millions and prescribed by physicians for

Colds Headache Neuralgia Lumbago

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Woman Politician Warns Her Sister

Washington Feb. 15 (United Press)—Democratic women should not seek election or appointment as delegates to the Democratic national convention unless they are "as gifted politically as any man who might seek the place," Mrs. Emily Newell Blair, vice-chairman of the Democratic national committee, warned today.

"Women must be thoroughly fitted to be candidates," Mrs. Blair said. "It is not proper for women to advance a woman candidate or seek her election as a 'woman':

"She must be, first, thoroughly fitted for the place with the proper experience and an entirely representative type, appealing to both men and women voters."

Mrs. Blair urges women to go after places among the Congressional delegations to the convention, if they feel themselves qualified. The national committee recently recommended that four women be included among the eight delegates-at-large from each state, but left participation in the congressional delegations to their own efforts.

TEAPOT DOME SCANDAL SPREADS TO BRITAIN

London, Feb. 15 (British United Press).—"The teapot dome disclosures have altered the whole course of the forthcoming presidential elections in the United States," the Daily Express commented today. "The situation created by the Washington scandal may have a world-wide effect."

The British Press today featured on front pages the situation in Washington temporarily side tracking the Labor Government and its troubles, the impending dock strike, reparations, etc.

TO RELIEVE PAIN AND BACKACHE

Women May Depend upon Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BIEBER, 3939 18th Ave. South, Minneapolis, Minn.

Finds a True Friend

"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 3227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

Expert Group Leaves Berlin

Two Weeks Study of German Financial Problems Ends

Berlin, Feb. 15.—Expert committee number 1, headed by Brig. Gen. Chas. G. Dawes, left here for Paris last night after having devoted two weeks of exhaustive study to the German budgetary and currency problems. The members of the committee were almost a unit in expressing satisfaction over the progress of their researches: They were equally unanimous in their appreciation of the accommodation extended them in offical German quarters as well as the co-operation accorded by industrialists ranks and labor, all of whom, it was stated, dealt with the problems under discussion with absolute candor and sincerity.

There is a strong sentiment among the majority of the experts that not only have their investigations been thorough and comprehensive, but that the findings of both committees are of such a character in their immediate bearing upon the international economic situation that the fullest publicity will be given to the report upon its presentation to the reparation commission.

That Body of Yours

By James W. Barton, M.D.

A FURTHER WORD ABOUT BUNIONS

In a former article I talked about bunions. That they were really an inflammation of a bag of water, at the junction of the end of the big toe bone with the corresponding bone on the inner side of the sole of the foot.

I saw a great many misshapen feet during the examination of recruits, and wherever I saw bunions I asked a chap if he had worn narrow shoes. His reply was "Well you see my foot was a bit wide naturally and I thought a narrow shoe would sort of shape it up better and make it narrow."

It is hard to credit this but it just showed the lack of enough. Now what actually happens when you wear a narrow pointed shoe

Why the outer ends of the toes are drawn inward, and the lower ends which meet the sole are thrown outwards, and so right across the ball the foot is actually wider than before

For instance, just take off your shoe and with your hand draw all your toes together to a central point.

What happens?

The lower end of your big toe sticks out very prominently, and it is just over this point where it meets the inner bone of the sole of the foot, that as I said above, the bag of water is located.

Your tight shoe, you see, thus presses on this bag, and starts that painful thing we call a bunion.

Fortunately the dressy shoe of today is of a good width, with a well rounded toe. This means foot comfort and freedom from bunions.

Should you have a bunion already developed, bathe it well with hot water for ten or fifteen minutes, two or three times a day.

Then wear a loose shoe and nine times out of ten the biggest part of the swelling will disappear. Narrow shoes will start all your trouble over again.

Your feet are worth a lot to you, so take care of them.

LABOR PARTY CAN STAMP OUT SLUMS

By C. T. HALLINAN

London, Feb. 15 (By mail to United Press).—A dull and prosy pamphlet by Sidney Webb—a pamphlet so dull that nobody read it at the time except a few workingmen and a few experts on constitutional law—contains all the TNT that the new Labor government will need for some time.

At least, in the judgment of Professor J. H. Morgan of the University of London.

That little pamphlet, now out of print, bore the drab title: "Grants-in-Aid." It wasnt' literature. It was more like a small mound of earth thrown up by a diligent mole.

For Webb, being well off in this world's foods and free to do as he pleased, had gone burrowing, burrowing through long-forgotten Acts of Parliament, musty decisions of the Privy Council and rulings of the Lord High Chancellor and had revealed painstakingly all the things a Socialist government could do IF it ever came into power, all the things it could do without anybody's leave. For instance:

1. Remold the entire police system of England by controlling the "grants-in-aid" to the local authorities.

2. Remold the educational system—except the great public schools controlled by the "governing classes," where their own sons are reared.

3. Control the health administration of the country stamping out slums, protecting childhood and maternity.

4. Remodel the poor law so as to reduce the number of 'unemployables' in England to a minimum.

5. And so forth and so on.

These are all things which can be started by a Labor minister without blare of trumpets and their total effect will constitute a "revolution."

LOCAL OPTION

London, Feb. 15 (British United Press).—In the Commons, A.H. Morris, Independent Liberal, moved the second reading of a bill to provide for local option on liquor traffic in Wales and Monmouthshire.

Dixie Kid started with 19 in a row.
K.O. Brown of N.Y. 30 knockout wins with 5 no-decisions mixed in
Terry McGovern, bantam and featherweight champion without a peer, counted 12 straight K.O. victories in his string.
In 2 years Jack Dempsey won 15 fights with one-round knockouts.
Stanley Ketchel was the only other famous fighter who ever made a record of 21 consecutive knockout wins
R. Edgren

SPORTS THROUGH EDGREN'S EYES

BERLENBACH HAS ESTABLISHED A NEW KNOCKOUT RECORD

Paul Berlenbach, stopping Frank Carbone in the sixth round at Madison Square a few nights ago, scored his twenty-third knockout and also a K. O. record. Berlenbach has now passed the best official figures for all other fighters. Few boxers have ever scored an unbroken list of knockouts that come anywhere near comparing to Berlenbach's feat.

The longest unbroken list of knockouts was owned by the great Stanley Ketchel, world's middleweight champion. In his early days, while working up to the championship, Ketchel won twenty-one fights in a row with clean knockouts. The twenty round draw with Joe Thomas of Marysville broke Ketchel's string of knockouts. At that time Joe Thomas was generally recognized as world's middleweight champion. He was a game fighter and a wonderfully smooth, deliberate boxer—a master of his art. Ketchel fought Thomas again, in San Francisco and knocked him out in the thirty-second round. Ketchel went right along doing his stuff after knocking out Thomas. He knocked out four more men, won two decisions and then was knocked out by Billy Papke in 12 rounds at Los Angeles, California. To show what an unusual fighter he was, Ketchel got a return match less than three months later and knocked Papke for a loop in the eleventh.

Some of Berlenbach's victims in establishing his K. O. record to date have been amateurs. That makes little difference. They were experienced light-heavyweights and heavyweights—and it takes as much of a punch to out a good amateur as to drop the average professional. Naturally Dan Hickey is matching Berlenbach along without going after the championship yet—giving him experience. The string of twenty-one knockouts accumulated by Stanley Ketchel before he met Joe Thomas didn't include many names known beyond Montana.

One of the greatest records of straight knockouts was made by Dixie Kidd back in 1901 to 1904. Dixie Kidd was a wonder in those days, a Missouri born colored boy, brought up in California, where he began fighting. Later he fought in the East, in England and in France where in 1911 he stopped Georges Carpentier in five rounds.

Gibbons Broke Dempsey's K. O. Line

Dixie Kidd started his fighting with nineteen straight knockouts—only two under the record of Ketchel and Berlenbach. The string was broken by a twenty round fight with Al Neill, which Dixie won. Then he won three more with knockouts (this time knocking out Neill in a round), took a twenty round decision over the great Joe Walcott, and won two more with knockouts before he went to Philadelphia and joined the no-decision colony. Dixie Kidd in his first five years of fighting won 24 fights with knockouts and four more on decisions, not to mention a bunch of no-decision affairs afterward.

Marvin Hart, who once claimed the world's heavyweight title and beat Jack Johnson to a twenty round decision, started with a long list of knockouts. Marvin began fighting in Louisville Ky., his home town, and his feats were so sensational that he was soon matched against the best men in his class. Hart would have had fourteen straight but for one fight he won on a foul—his opponent fouling when on the verge of a knockout.

In his fifteenth fight Marvin ran into one of Wild Bill Hanrahan's wild wallops in the first round and was knocked out himself. Later he resumed his knockout habit and beat several more good men before sliding back among the has beens.

Of course the most remarkable knockout record in the heavyweight class is that of Jack Dempsey, present champion. In his first year of fighting, through Utah, Colorado and Montana, he won eighteen fights with knockouts, but had five wins scattered through the bunch, and lost one decision. In 1918 he won seventeen fights with knockouts, ten of them in the first round. The continuity of this bunch of K. O. wallops was spoiled by two or three no-decision affairs. In the next year, 1919, Jack Dempsey started his knockout string again with five straight one-round knockouts. That's a record in itself—fifteen first round knockouts in two years. After the five straight he knocked out Champion Jess Willard in the third round. Actually he knocked out Willard in the first round, but a mixup with the bell gave Willard about two minutes to recover and wabble out for the second round.

After knocking out Willard, Dempsey added to his knockout string, the names Miske, Brennan and Carpentier, making eight in a row. Then Tommy Gibbons stayed fifteen rounds and broke that K. O. line. Dempsey started again by knocking out Firpo, but it's unlikely he'll ever make a world's record now for consecutive knockouts. Having shoved his price up to nearly half a million dollars for a fight Dempsey can't go barnstorming any more, and half a million dollar fights don't come along every month.

Abe Attell A Fox.

Joe Gans might have made a K. O. record, but Joe fought "to orders."

Bob Fitzsimmons has a wonderful knockout record. The greatest number he ever lined up in an unbroken row was thirteen. But he had hundreds of ring battles, and his knockout percentage was tremendous. According to the modern way of counting a "knockout." (if one man is not able to continue) Fitz had nineteen in a row from his start in America. He knocked out McCarthy, Upham, Nonpareil Jack Dempsey (middleweight champion), Congle, boxed an exhibition with Black Pearl, knocked out Peter Maher, Farrell, Godfrey, Slattery, Zender, Jim Hall, Mayo Warne, Hickley, boxed an exhibition with Joe Choynski knocked out Kellar Creedon, Allish, Maher, Tom Sharkey and Jim Corbett. Officially he lost to Sharkey on a foul, but the alleged "foul" blow was a fair solar plexus punch, and Fitzsimmons was robbed of a decision and a ten thousand dollar purse. He afterward fought Tom Sharkey again and nearly killed Tom with the same blow in the pit of the stomach.

Jabez White, English lightweight champion some years ago, had a record of eleven straight knockouts which is good in England, where "points" are highly regarded—and a warded for cleverness in dodging and getting away.

Aurelio Herrera, the great Bakersfield lightweight who was knocking them all out three years ago, had a run of twenty-one knockouts, punctuated with three draws. He afterward collected knockouts in bunches of half a dozen at a time, and might have made the string longer but for a thirst and a habit of taking a bottle to bed with him.

Abe Attell started with sixteen straight knockouts, but Abie was too much of a diplomat to go farther. He found he could make more money by stalling along with them and taking them on later in some other town.

Terry McGovern scored 12 knockouts in a row. He was the greatest featherweight of his time, and there has been none like him since then. When McGovern was winning the bantamweight and the featherweight titles, knocking out nearly all his opponents, he was meeting the greatest lot of little fighting men ever known in the ring game.

They were developed in long distance decision bouts, twenty and twenty-five rounds the common distance. No such boxers have been developed in the no-decision field, or in the shorter bouts with decisions that have come in since the war.

Kid McCoy Pulls Cute Tricks

One of the best middleweights I've seen was Tommy Ryan. He was extremely skillful, and was a real knockout artist. Yet in all his long career, Ryan never bunched more than five knockouts in a row. He had a different fighting style for every man he fought, and sometimes it wasn't good business to try to win with a knockout.

Not [illegible] theatrical tour, "meeting all comers" John L. Sullivan's best run of knockouts totalled twelve. John L. Was a walloper and often his men didn't come up for a second or a third round. In the [illegible] he was credited merely with a [illegible] where he'd be given a K. O. in the record books today. But most of his fighting was under London Prize Ring rules—a different game.

Kid McCoy, another real K. O. artist, didn't pile up any long list of consecutive knockouts. The foxy Kid sometimes preferred to win decisions. He had one record, however, that was unique in the knockout line. On one quick trip to England he matched himself to meet Jack Scales, English heavyweight champion and two other English heavyweights in the same ring on the same night, at the Wonderland in Whitechapel, London, with ten minutes rest between bouts.

McCoy knocked out Dave Barry in 2 rounds, Jack Scales in 1 round and Jack Madden in 4 rounds, all on the evening of December 2nd, 1901. McCoy pulled one of his famous tricks in the fight with Scales. He wanted to finish the champion in a hurry and take no chances. As they stepped toward each other in the first round, McCoy dropped his hands and looking down at Scales' feet with a critical expression said: "Why don't they lace your shoes before they send you out to fight?" Scales looked down at his shoes. He never knew what hit him.

Beecher Holds Odd Ring Record

Peter Jackson's fighting record is still remembered in Australia, but in America Peter is little more than a name connected distantly with some ancient tradition of cleverness. Peter Jackson was a better fighter than Jack Johnson, for with speed and aggressiveness and punch. He had a record of seventeen straight knockouts. If Peter Jackson had been given a chance before dissipation wrecked his marvelous body he might have become world's champion. He had heart, and everything else in the world a fighter needs.

Jimmy Dime is known as a manager. He was once a fighter. When a boy in Ireland. Dime won a great number of fights with knockouts—and seventeen of them in a string.

Valentine Braun, famous for a few years as "Knockout Brown of New York", nearly shoved into the lightweight champion by his energetic manager, Dan Morgan, had a great knockout string. In his first two years of fighting "Kayo" won 30 fights with knockouts, few going more than two rounds and would have been able to claim the record but for five no-decision short bouts scattered down the list.

Ad Wolgast, one of the most desperate little fighters who ever held a world's championship, the man who was first to beat Battling Nelson to a state of helplessness if not submission, piled up five knockouts in succession, two or three times, but never passed that figure.

Just by way of comparison let me quote one record of a different sort. Willie Beecher, a very rugged fighter of ten years ago made a world's record that probably never will be beaten. Beecher, in four busy years, fought 51 ring battles without losing or winning a decision.

Forty-eight went to the limit with no decision attached, all being no-decision fights. The other three he happened to win with knockouts.

NOTICE! BOWLERS

We want to draw the attention of all lady and gentlemen bowlers that want to practice in the evening that two alleys are open to the public until 7.45, two until 8.30 and two from 8.45 until 11 o'clock. On Tuesdays, two alleys are open all evening and on Saturday nights all six alleys are open for practice, we also reserve the right to reserve alleys for any parties that make arrangements previously. Bowlers kindly keep these hours in mind and prevent waiting for alleys.

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even a bilious, constipated feverish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Local High School Six Are Victors In Picton Game Here

Last night Belleville High School Hockey Six won their group by winning a game from Picton by a score of 3-0. This gives the B.H.S. boys the right to play Cobourg, the winner of the Lake Shore Group.

Great credit must be given Colling for the way the score turned out at the end of the 3rd period. He was on the job at all times. When a fast tricky shot would come at him, he would clear with ease. The two tallies Picton did score on him Monday were certainly not deserving ones.

The defence, Kerr and Hurley, did not have to work hard last night. The forwards were able to keep the disc down at the Picton goal much of the time. However, Kerr made some very fast and helpful rushes. 'Little Jumbo' Hurley is beginning to realize that he has 200 lbs. to hit them with as they came down.

Church of Picton appeared to be the best they had. He is a big boy and was able to get through several times only to be fooled by Colling. Both teams played better combination last night, but through the steady checking of B.H.S. Picton could do nothing. Townsend showed his right to play Junior O.H.A. last night. He certainly is a worker.

Belleville line-up was as follows:

Goal, C. Colling; Defence, C. Kerr and J. Hurley; Centre, H. Townsend; Wings, A. Weir and M. Mathews; Subs, "Bud" Galloway and H. Follwell.

High School Team Meet Cobourg Next

Belleville High School hockey team by virtue of their easy victory over Picton Collegians at the Turnbull St. arena here last evening, are now qualified to meet Cobourg college team in the Interscholastic league play-off.

The local kids are slated to meet the "summer town" boys in the "winter game" sport at the Arnott ice palace here on Monday evening next and the return game will be played in Cobourg on Thursday night of next week.

"Y" BASKET FIVE OFF TO KINGSTON

May Organize Intermediate Team and Link up With Bowmanville and Trenton

Belleville Y. M. C. A. basketball five leave today for Kingston where they will play Queen's University five in a scheduled O. A. B. A. game in that city tonight. The local team will be chosen from such well known players as Weir, Armstrong, Morden, Nurse, Alexander, Doughty, Hitchen and Cole.

"Wine" Olympic Athlets So "Athletic Referendum"

Washington, Feb. 16.—Commenting on a report that French officials in charge of preparations for the forthcoming Olympic games at Paris have provided wine and beer for the visiting athletes, the board of temperance prohibition and public morals of the Methodist Episcopal church asks:

"Is this a conspiracy of the French against the athletes of other nations or have the abstaining Americans perhaps induced the French to make sure another American victory?"

COBOURG IS DEAD "BASEBALLICALLY"

Cobourg, Feb. 16.—With Kingston again in the Central Ontario Baseball League, it is altogether likely that the towns composing the Central League this year will be Belleville, Peterboro, Oshawa and Kingston. So far, nothing has been done in Cobourg as to a team for this year, and unless things warm up considerably in the next few months it would not be surprising if there was nothing but a town league here this summer. Baseball in the Central Ontario League has become quite a problem, especially in the smaller places, and it is next to an impossibility to run a home brew team now. There has been some talk of an intermediate team in town which would hook up with the towns of Bowmanville, Port Hope and Trenton but so far this appears to be only talk, as no active steps have been taken to start such a league. There is enough material now in town for a good team, and such a team could be financed without supporters having to dig very deep in their jeans. With spring in the offing, perhaps baseball will commence to be talked a little more strenuously than it is now, but from present appearances there seems but little hope of their being much outside baseball seen here this summer.

Ottawa, Ont., Feb. 15.—Permission to build canals to allow ocean liners sailing under their own steam into Ottawa is provided in a bill to be submitted before the Government. This would involve an expenditure of $500,000,000 and would obviate the necessity of many international waterway schemes heretofore discussed.

INDIGESTION, GAS, UPSET STOMACH

INSTANTLY. "PAPE'S DIAPEPSIN" CORRECTS STOMACH SO MEALS DIGEST

The moment you eat a tablet of "Pape's Diapepsin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery-making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

Synical Sadie Sees

There's many a man who can't understand why he should buy a washing machine so long as his wife has got her health.

Arnold Bennett says that travel unbends the mind as nothing else can except love.

A French novelist says the unpardonable sin is for a woman to show a man how stupid he is. Now we know why so many marriages are failures.

Now one can buy Mah Jong cigarettes! "Sinical Sadie" wants to know how many puffs will change the direction of the wind, as she suffers from neuritis when the wind is in the East.

In Toronto the girls are eating apples for their complexions? The recipe (or prescription?) says "Take two cooking apples and bake them thoroughly, then mash them. Pour over the pulp a pint and a half of boiling water and beat up well. Then allow to cool and strain thro' muslin. Sweeten to taste. A glassful should be taken two or three times a day."

Pshaw! Belleville girls must have been brot up on apples.

Sinical Sadie says no apples for her. Apples have made trouble enough in this world.

A warning to those girls who intend to take advantage of their Leap Year privileges—Maidens! Why should you worry in choosing whom you should marry.

"Choose whom you may, you will find you have got somebody else."—(John Hay.)

"Some of the newest summer hats will have two brims." Ye gods! The brim less hat left us broke. Unless the wage-earner of this household doubles our allowance I see where we don't get a hat at all.

The reason why some marriages fail is because the man does everything he can to make his wife happy, when what she really wants is to be miserable.

A reader wants to know what a Gyro Club is. Sinical Sadie says That it is a bunch of Rotarians doing the "Prairie Flower" stunt.

FIVE CHARGED WITH BURGLARY

Montreal, Feb. 16.—With a combination of four burglaries charged against them, five prisoners whose ages range from 17 to 19 years, appeared before Justice Decarie this morning in the arraignment court and were refused bail for their appearance at enquete on the 22nd. The prisoners are, Roland Lapointe, 13 Coagrain street, Fidele Vanier, 835 Droiet street Maurice Brunelle, 13 Rother street Armand Beaupre, 593 Colonial avenue, and Paul Lavigne, 2028 Clarke street.

The prisoners were arrested by detectives Lapointe Labine, Page and Longpre early this morning. The quintette were located on the streets, two at 1.20, one at 2.30, one at 4.30, and the last one as he was leaving his house at 7 o'clock this morning. The four burglaries netted a total of $600 worth of household goods and groceries and covered a period of three weeks.

LOVE, THE TYRANT

OR,

WHERE HER HEART LED

BY CHARLES GARVICE

laughed—for the first time for many weeks, the mother remembered.

"Well," she said, resignedly. "But dont wrinkle me all up, as father does sometimes."

"I'll be as careful as if you were a jelly," he said and he raised her in his strong arms, drawing the shawl round her with a deftness which surprised the mother, who led the way into an inner room in which was a cot.

Jack laid the child on it, gave the pillow a shake, and drew the shawl over her neatly.

"How's that, umpire?" he asked, with the same irresistible smile.

"Very well, thank you. You did it better than father," she replied. "But I spec you're used to children. Have you got a nice little girl like me?"

Jack checked a sigh, though he kept the smile well on. Not for the first time was his loneliness borne upon him.

"No, thank goodness!" he replied. "See what a trouble they are! Well, good-bye, Nettie. And get well soon, for mother's sake."

"I will," she said, holding out her hot little paw. "You may kiss me if you like—if you're not weally afwaid of the measles."

"I'll risk it," said Jack, and he bent and kissed the parched lips.

The child watched him with hot, wistful eyes as he followed the mother out of the room.

"Was that wise?" she asked, anxiously, but with gratitude and liking in her timid eyes.

"What? Oh, kissing the child! Good heavens, yes! Besides, it wouldn't matter very much if I did. The inside of a hospital would be rather a pleasant change for awhile. She's a very pretty little thing. And there's no need for you to be anxious. She'll do very well."

"I don't know how to thank you," she faltered. "And— and I should like to beg your pardon. I took you for a tramp, sir; but—but I can see you're not what you seem."

"Very few of us are," said Jack, with his short laugh. "But there's no cause for apology; I'm just a tramp, I assure you. Good-evening, and thank you very much! I go straight on for Barminster."

She went with him to the gate to direct him, and would have liked to hold out her hand, but was afraid.

Jack and Bob took the road again and Bob checked the desire to limp, and even went so far as to lark about to show that he had completely recovered. His master walked along in a brown study which grew browner as, coming to a bend in the road, he got a very pretty, full view of the Towers. The place looked magnificent in the glow of the setting sun, and, leaning on a stile, Jack looked at it with a frown on his brow and a curious tightening of the lips.

"Just as well I'm clearing out," he murmured, "or I should be tempted to think I was being badly treated by Fate. No; I might be tempted, but I fancy I should stand firm. He gave his life for me, and life's worth twenty Vancourt Towers. No; let her keep it. After all, she's better suited to the shop than I am. She's young and pretty, and looks as if she'd play the part to perfection, while I—oh, Lord! what should I do with a place like that and a quarter of a million of money? What rot I talk! As if I didn't know what I'd do! Wouldn't I have a stable full of horses, and hunt four days a week in winter, and keep a yacht in the bay here and — Ah, well, what's the use of repining, as the song says. I've given my word, and I'll stand by it."

I ought to add that he confirmed this assertion with a word or two, which the highly respectable compositor would very properly refuse to setup; and reluctantly dragging his eyes from the vast building, the wide-stretching lawns and parks, the stately elms beneath which the deer were placidly feeding, resumed his tramp.

He had not got very far on the high-road when he heard the sound of wheels, and looking round, saw that it was the pony-jingle with the two ladies. His face flushed for an instant, and he quickened his pace; for he didn't want another interview with Miss Vancourt of Vancourt Towers; but that young lady was evidently urging Master Toby, and Jack was thinking of turning down a bye-lane until they had passed, when he heard a commotion on the road in front of him.

A small farmer's cart was coming down the road, not in the sober fashion appropriate to such a vehicle, but in a reckless, rollicking way due to the antics of the horse. It was all over the road at once, and half rearing and kicking; and, as Jack watched it, it looked very much as if it were going to bolt.

The driver was standing up in the cart, and when Jack got nearer he saw that the man was "three sheets in the wind." His hat was off, and he was laughing in a happy-go-lucky,reckless way, as he tugged at the rope reins.

Jack smiled.

"He'll come out on that jolly-looking head of his presently," he thought. "Being screwed, he won't, of course, hurt himself: they never do. The horse is a young 'un, and a good one too; as he's sober he'll probably rick himself or something."

Then the horse did actually bolt, and Jack's smile died away, for he remembered the pony-jingle which was trundling along behind him; the farmer's cart would make exceedingly small potatoes of that if it came into collision with it.

"Seems to me I'm in luck to-day," he said to himself, grimly. "Of course, I've got to stop that beastly thing, and I shall probably be knocked down and generally chawed up. I'm nearer that hospital than I thought. Here, Bob, you stand out of it, and take a back seat. Lie down now.

He ran forward as he spoke, and gathering himself together, made ready for a spring. As he did so, the jingle came round the corner, the two ladies saw the little play that was being enacted, and Miss Worcester cried aloud after the manner of her kind.

Jack heard it—noticing that the girl made no sound—as he leapt at the horse. There was a tussle, a clatter of hoofs, and a cloud of dust through which, as through a mist, Esther saw the horse forced back on to its haunches by a supreme effort which strained every muscle Jack owned. She also saw the low comedian of the play—the farmer, to wit—come out on his head, as Jack had mentally prophesied. She drew up beside the cart and jumped out, much to Jack's disgust.

"Keep out of the way!" he cried, none too gently, for the advent of the other characters on the scene excited the young mare and set her dancing dangerously near Jack's toes.

Esther retreated a few yards and looked on, pale but calm while Jack and the mare waltzed about in the dust; then, when the victory was with the man, she came up.

"Are you hurt?" he asked. She was trembling just a little, and she bit her lip to keep it steady.

"I? Not a bit!" said Jack, coolly. "But I shouldn't be surprised if that idiot is;" and he nodded to the jolly-faced figure lying in the dust.

She crimsoned painfully.

"Oh, I—I forgot him—for a moment!" she said, penitently; and she went to where her aunt was bending over the man. "Why, it's Martin!" she said. "Oh, Martin, are you hurt?" for Martin had struggled to his feet, and now stood looking extremely sheepish and ashamed of himself.

"Not by no means, miss," he replied, touching his forehead where his hat should have been. "Leastways, I think not. What happened, mister? We was a-coming along quiet and easy like—"

"Free and easy," said Jack in the tone in which a man who is sober addresses the man who is not. "This is a three-year-old, isn't it? Did you think you'd got a child's rocking-horse in the shafts?"

(To be Continued

Is Marriage a Success?

ONE of the boys was in love with the wrong girl, and his folks were fairly worried to death about him.

No, there was nothing really wrong about the girl, only she didn't belong in their set and her people were foreigners and they went to a different church and she had the queerest ideas about housekeeping and her clothes were queer too.

She was all right in her own simple little things that she wore at home, but when she tried to "dress up" and look like the other girls her sweetheart's family knew she really wasn't the thing at all—not at all.

She didn't know the right people or go to the right places and Jim's people just fairly died.

Of course, they were having a fine time with Tom.

Tom was engaged to a perfect darling—pretty as a picture, sweet as a peach—and dress!—well, she looked like a dress model, that's all.

And she could swim and ride, drive a car, play a good game of tennis and to see her dance you'd think she was a professional.

Her people were perfectly lovely. They had a fine house in the right part of town, her father belonged to the right clubs, one of her brothers was at Harvard, one was in a law office, and she had a sister married to a tiptop swell. Her sister lived in Honolulu, and was always sending home pictures of the volcano and the Hula Girls and things.

When the sister gave a party it was always in the Honolulu paper—with full details. Oh, you could see she was right in the swim.

So Tom's folks did the best they could with Jim, but they really took their comfort with Tom.

Tom and Jim both married. Nobody said much about Jim's wedding—but Tom's bride had her picture in the paper and four bridesmaid and the smartest kind of wedding. Tom and his bride went on a wedding trip to Honolulu and when they came back they had almost enough presents to furnish their smart little apartment, and everything was perfectly lovely.

Jim and his wife went into the suburbs to live. They brought their own house, if you please, and put out a garden and Jim's wife worked in the garden. The very very first year she was married she had a baby—well, the baby really was a darling. Black eyes, like Jim's wife's eyes, and red hair like Jim. You couldn't look at it without wanting to squeeze it. In another year there was another baby and Jim's wife didn't mind at all. She acted as if she thought it was all right, and Jim acted the same way, and Tom's wife didn't have much to do with Jim's wife and Tom and Jim didn't see much of each other—but what do you think?

The other day I met the old folks and they told me that Tom and his wife were divorced and that Tom was in debt up to his ears. His wife was extravagant, vain, frivolous and a lot of things that are best not told.

Jim—oh, he has three children now and they've bought the lots on both sides of their house. When Jim's father was taken sick and it grew hard for Jim's mother to take care of him Jim's wife sent for the old folks and put them in a big comfortable room she and Jim had built on purpose for them. She cooks the best things you ever heard of for Jim's father to eat. She and Jim's mother are as thick as thieves, and Tom comes out to spend Sundays with them and they never say a word to him about a thing that might be unpleasant—but he looks a little wistful when Jim's children come in to say good-night.

"This thing has taught me one thing," said Jim's mother to me, the other day. "I'm never going to try to play providence again. I helped to make Tom's match for him and I did everything I could to break up Jim's engagement. I'm awfully glad I couldn't do it."

Shuttle, shuttle, back and forth, in and out—how the swift threads run in the web and woof of life, and how the little we, who watch the shuttle working, know of the pattern it is trying to weave.

Best keep our hands off the loom—it seems to me.

Join the Family Circle

With to-day's issue the Family Page makes its bow to our readers. From time to time other features will be added and we have some good things in store for you.

The editor of this page will be glad to receive contributions to its columns. Particularly do we welcome original poems, grave or gay. Also letters of interest on any phase of family life. Secretaries of women's organizations are invited to send in regularly the reports of their meetings, thus keeping their Society and it's activities before the public.

Frills And Fancies

Black crepe satin is used in some of the smartest frocks this season.

The hat and parasol will be made to match this summer.

The wrap-around skirt is to remain in favour.

Leather is used to trim dresses as well as hats.

Early hats are small. Ribbons are much used in trimmings—and many ostrich plumes are seen.

The straight silhouette will continue in vogue.

The scarf with the noose knot is very new.

There are to be buttons galore.

Invisible spats are being shown for use under silk hosiery. They do not show under the sheerest hosiery.

The suit will come into it's own again—very slim; very straight and very boyish and severely tailored. Colors black and navy blue with a white flower on the lapel.

Coats and suits are mostly without belts and the long beltless tunic is very new.

Pleats are everywhere and stripes and plaids will be used a great deal.

SOCIAL and PERSONAL

Mr. H. W. Barrager who has been confined to the Belleville Hospital through illness has returned to his home 60 Octovia St., much improved in health.

Mr. Philip Scrimshaw, 23 Strachan St., who underwent a serious operation at Kingston General Hospital on Tuesday last is doing as well as can be expected.

REVIEW OF BOOKS WORTH READING

By ALICE ROHE

New York, Feb. 16 (United Press)—It isn't exactly fair to a new novel to call it a classic. There's the danger of arousing the thought: "Oh, well, it's so good we can read it any old time." But Arnold Bennett's "Riceyman Steps" (Doran and Co.) must be termed a classic. And it must not be put off reading "any old time."

This new Bennett novel, which is described as having the pleasant leisurely style of "The Old Wives Tale," has something more. Unlike the books which generally come under the leisurely classification, it grips your interest.

The theme, briefly stated, does not arouse one to wild interest. The spell lies in the telling of the tale. It is the story of a middle-aged miserly bookseller who marries a middle-aged miserly widow. They are served by a robust, pleasant faced servant, named Elsie. Elsie is a war widow, in love now with a shell shocked soldier The novel is merely the progress of this small group living in "Riceyman Steps" up to the death—almost simultaneously—of the miserly couple. The husband dies of cancer, the wife from tumor, both brought on by under nourishment. And through this seemingly sordid story there gleams the charm of sheer beauty. For there is always Elsie the charwoman; Elsie who serves, who is always kind and generous and good. There is always the rare beauty of romance with which Arnold Bennett veils ordinary things. He not only visualizes Clerkenwell for us, but he gives us the spirit of it. One feels this quarter of London and lives with its people. The descriptions tempt on to say there is a Dickenesque quality. But that would not be exactly true, for the descriptive power of creating life from the printed page is peculiarly Arnold Bennet's.

Those who were moved by the poignant beauty of Frank Swinnerton's "Nocturne" will find in his new book "Young Felix" (Doran and Co.) a still deeper call of sympathetic understanding. It is a story of middle class life, the doings of a middle class family, through which shines the joyous spirit of the boy Felix. Side by side in interest with Felix is the character of the mother—both of them saving the Hunter family from complete disaster with their rare sense of humour—in the face of overpowering obstacles. There is Grumpy, the drink addicted grandfather. There is the inadequate earner, the father,; the rink loving aunt, the brother who becomes an actor. They all leave their mark on the artist Felix. But despite the revulsion to tyrannical old age, they leave no scar. Felix the child grows to manhood; he marries disastrously, the self-sacrificing, loving mother dies. The book closes with Felix's new marriage plans.

"Young Felix" is said to be autobiographical. Whether or not this is true it is a book which moves one strongly with its simplicity of expressing the great emotions disguised as petty happenings. There is exquisite skill in the telling of it all.

MAH-JONG IS BANDIT'S GAME

Missionary From China Regrets Popularity of Chinese Game in America

If you get the mah-jong fever in China, you no longer can be trusted The bandits who rob at night gamble at mah-jong by day.

This is the comment on the Chinese game, which has become such a fad in America, made by the Rev. George Stens, S. V. D., a missionary in China for 30 years, who is in this country studying American educational methods.

"It is a great surprise to me to note how rapidly the game of mah-jong has gained such popularity in the United States", said the missionary. "Mah-jong is the game blamed for the present corruption in China. I know men and women in China who have lost their entire possessions playing this game. There are few games so contagious, and I am sorry to see it getting such a hold on America.

"Government officials sit through the entire night playing with officers employes and underlings in general They all lose in the end. Thus, regular duties are neglected and when it comes to paying their losses, they resort to all kinds of rascality, including theft. The robbers rob by night and sit gambling at mah-jong by day In China there is a saying that the victim of mah-jong can no longer be trusted. It is a sure thing then that he will soon come under the wheels.

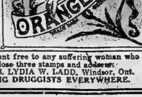
"This pastime that the Chinese have sent to Americans is not a felicitous offering. I know how many young Americans are fleeced over there by their Chinese friends in this game.

"So I am really sorry that the germ of this insidious pastime has secured such a root in the pleasures of the American people. I hope it will not become a permanent menace in this country as it is in China."

A SAFE RELIEF FOR WOMEN'S DISORDERS
10 DAYS' TREATMENT FREE.

Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels and nerves are toned and strengthened; and the circulation is rendered normal. As this treatment is based on strictly scientific principles and acts on the actual location of the disease, it cannot help but do good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price $2.00 per box, which is sufficient for one month's treatment. A free trial treatment, enough for 10 days, worth 75c., will be sent free to any suffering woman who will send me her address. Enclose three stamps and address:

MRS. LYDIA W. LADD, Windsor, Ont.
SOLD BY LEADING DRUGGISTS EVERYWHERE.



Menu For The Day

SUNDAY

Breakfast
Orange Juice Cereal.
Scrambled Eggs with Bacon
Toast Marmalade
Toast Marmalade Coffee
Dinner
Cream of Corn Soup
Roast Guinea Hens Currant Jelly
Baked Sweet Potatoes Spinach
Head Lettuce Cheese Dressing
Ice Cream Trilbys Coffee
Supper
Toasted Cheese Sandwiches
Hearts of Celery
Mocha Cake Tea

ROAST GUINEA FOWL

Prepare a young guinea hen. Put a small onion and slice of bacon inside, and brush outside with melted butter, sprinkle with salt, pepper and dredge with flour. Cover breast and legs with slices of fat pork and fasten in place with toothpicks. Lay, breast down, in pan, place in hot oven and baste every 10 minutes for the first hour, afterwards occasionally. When backs are brown turn breast upwards. Cook slowly about two hours or until tender.

TRILBYS

2 cups flour, 2 cups oatmeal, 1 cup sugar, ½ cup sour milk, 2-3 cups shortening, 1 tspn soda.

Roll out very thin and cut two cakes same size and put filling between. Press down edge and bake.

Filling for above—1 lb. dates or figs cut up and boiled in 1 cup sugar with small amount of water. When cool spread between dough and bake.

MOCHA CAKE

½ cup butter, 1 cup sugar, 1½ cup flour, 1 tspn soda, 2 tspn cream of tartar, ½ cup milk, 4 egg whites beaten stiff and added last.

Icing—Beat 2½ tbspns butter to a cream then add 2 cups icing sugar, 1 tspn. vanilla. Cut the cake in small squares, cover with icing and roll in minced nuts.

MONDAY

Breakfast
Grapefruit Cereal
Poached Eggs on Toast
Toast Jelly Coffee
Luncheon
Cold Sliced Guinea Hen
Scalloped Potatoes
Pineapple Nut Bread Tea
Dinner
Tomato Bouillon
Broiled Steak with Mushrooms
French Fried Potatoes
Peach with Cheese Salad
Blanc Mange Cookies Coffee

INDIVIDUAL PEACH SALAD

Arrange 2 halves of canned peaches on crisp lettuce. Fill cavities with balls of cream cheese. Garnish with pimento

People have abnormal vision

Because their eyes are abnormal. A perfect pair of eyes cannot help but give perfect sight. And an imperfect pair are forced to give imperfect sight. It requires so slight a deviation from normal to cause trouble, that just about everyone's eyes are more or less defective. Be interested enough in your eyes to learn their condition here. The fe is very modest.

PARIS BIRTH RATE FALLING

Paris (United Press).—The year 1923 registered another decline in the birthrate in Paris, as compared to that of 1911, despite all the propaganda aimed to bring the birthrate back to pre war normality. Last year the number of children born was 46,733, as against 48,903 in 1911. The deaths in Paris in 1923 numbered 40,315.

The Dormouse And The Doctor

There once was a Dormouse who lived in a bed
Of delphiniums (blue) and geraniums (red),
And all the day long he'd a wonderful view
Of geraniums (red) and delphiniums (blue).

A Doctor came hurrying round, and he said,
"Tut-tut, I am sorry to find you in bed.
Just say 'ninety-nine', while I look at your chest . . .
Don't you find that chrysanthemums answer the best?"

The Dormouse looked round at the view, and replied
(When he'd said "ninety-nine") that he'd tried and he'd tried,
And much the most answering things that he knew
Were geraniums (red) and delphiniums (blue).

The Doctor stood frowning and shaking his head,
And he took up his shiny silk hat as he said:
"What the patient requires is a change", and he went
To see some chrysanthemum people in Kent.

The Dormouse lay there, and he gazed at the view
Of geraniums (reds) and delphiniums (blue),
And he knew there was nothing he wanted instead
Of delphiniums (blue) and geraniums (red).

The Doctor came back, and to show what he meant,
He had brought some chrysanthemum cuttings from Kent;
"Now *these*", he remarked, "give a much better view
Than geraniums (red) and delphiniums (blue)."

They took out their spades, and they dug up the bed
Of delphiniums (blue) and geraniums (red),
And they planted chrysanthemums (yellow and white);
"And now", said the Doctor, "We'll soon have you right."

The Dormouse looked out, and he said with a sigh,
"I suppose all these people know better than I;
It was silly perhaps, but I *did* like the view
Of geraniums (red) and delphiniums (blue)."

The Doctor came round and examined his chest,
And ordered him nourishment, tonics and rest:
"How very effective", he said as he shook
The thermometer, "all these chrysanthemums look!"

The Dormouse turned over to shut out the sight
Of the endless chrysanthemums (yellow and white):
"How lively," he thought, "to be back in a bed
Of delphiniums (blue) and geraniums (red)."

The Doctor said, "Tut! It's another attack",
And ordered him Milk and Massage-of-the-back,
And Freedom-from-worry, and Drives-in-a-car,
And murmured, "How sweet your chrysanthemums are!"

The Dormouse lay there with his paws to his eyes,
And imagined himself such a friendly surprise:
There were no chrysanthemums there! . . . but instead,
Just delphiniums (blue) and geraniums (red)!

The Doctor next morning was rubbing his hands
And saying, "There's nobody quite understands
These cases as I do! The cure has begun!
How fresh the chrysanthemums look in the sun!"

• • • • • •

The Dormouse lay happy; it seemed, in a bed
Of delphiniums (blue) and geraniums (red) . . .
And all the night long he'd a wonderful view
Of geraniums (red) and delphiniums (blue).

And that is the reason (Aunt Emily said)
If a Dormouse gets in a chrysanthemum bed
You will find (so Aunt Emily says) that he lies
Fast asleep on his front with his paws to his eyes.

—A. A. Milne.

Watch the Want Ads. Daily and learn how to Buy and Sell to the Very Best Advantage

CHURCH DIRECTORY

ST. ANDREW'S PRESBYTERIAN

Stormy Weather Hard On Baby

The stormy blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep its stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville Ont.

Misfortune Is No Respector of Persons

Washington, Feb. 16.—Some penetrating student of human nature once said when a man loses his hat he loses his dignity.

President Calvin Coolidge proved he was right the other day when he lost his hat and coat at the Interior Department, where he went to open a conference on agricultural relief.

His speech completed, the President and his body guard strode out of the autorium and down the halls to the door. There he reached around for his hat, believing it in the possession of a secret service man. No hat. No coat.

"I gave it to you when we came in. What did you do with it? I can't go away without it," the President abruptly said.

After a five minute search, during which the President paced impatiently up and down Secretary Work's corridors, his dignity obviously ruffled, the apparel was located and returned. With it returned the Coolidgean calm.

[illegible]

TAKING NO CHANCES

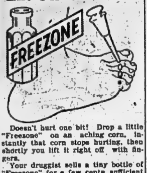
A little girl before starting on a three days' visit to her aunt was warned always to be down in time for breakfast, as the aunt was very strict in the matter. When the child returned home the first thing she told her mother was: "I was down to the table every morning just as soon as any of them."

"Glad to hear that, dear," said the proud mother. "How did you manage to be so punctual?"

"Every night" explained the youngster, "I put on my nighty and slept in my clothes, so's to be nice and ready in the morning."

CORNS

Lift Off—No Pain!



Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

GOOD ADVICE, BUT HARD TO FOLLOW

Doan. . pay to do much talking when
you're mad enough to choke,
'Cause the word that stings the deepest is the one that's never spoke;
Let the other fellow wrangle till the
storm has blown away
Then he'll do a heap o' thinking 'bout
the things you didn't say.
—Boston Transcript.

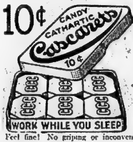
10¢



Feel fine! No griping or inconvenience follows a gentle liver and bowel cleansing with "Cascarets." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. For Men, Women and Children—10c boxes, also 25 and 50c sizes, any drug store.

SOVIET EXPLAINS TRADE DEMANDS

Moscow Feb. 15.—Maxim Litvinoff, deputy minister of foreign affairs in connection with the recent action of Great Britain and Italy in recognizing the soviet as the de jure government in Russia and yesterday's announcement that Norway also had accorded the government full recognition, gave an interview to the newspaper correspondents here. M. Litvinoff outlined the general principle that the Soviet Government refuse to sign any commercial treaties with countries prior to their de jure recognition of Russia. A direct question of the statement meant there could be no trade agreement between the United States and Russia unless there was de jure recognition. M. Litvinoff said there was a distinction between trade agreements implying de facto recognition and commercial treaties. At any rate he added Russia had not yet been approached on this subject.

Regarding Europe however, it seemed obvious that Litvinoff's statement that the soviet feels it now holds the trump cards.

"Some countries go on muttering about old debts" said Litvinoff. "We refuse to consider any preliminary conditions to commercial treaties. Countries first must recognize us de jure then we will discuss matters with them.

ADDITIONAL SPORTS

FANNING WITH FARRELL

MORAN LACKS BRAINS TO WHIP BENNY

New York, Feb. 15 (United Press).—When it was taken into consideration how many times Charley White has been stopped and when the caliber of the fighters who did it were recalled, it was not unnatural that Pal Moran, the New Orleans lightweight, should have been rated as the fighter next to Benny Leonard when he knocked out the veteran Chicago lightweight.

Perhaps it is still a fact that Moran is the outstanding contender for the crown of Benny Leonard, but if he is the best man in the class next to the champion, Leonard is in no more danger of being ejected from his throne room than Jack Dempsey is.

Strong as he is at 135 pounds, cool as he is under fire and punching as he can with his right hand. Moran showed in his recent fight with Johnny Dundee that he has yet to learn how to beat a clever fighter with a brain.

Moran was outwitted by Dundee. Against the feeble puncher that Dundee is known to be Moran, if he had enough mental agility, should have torn into Dundee with a willingness to take a left hand for the chance to counter with his right hand.

Moran didn't do that, however. His mental sluggishness permitted Dundee to fight just the kind of a fight that Dundee wanted to fight. It's [illegible] to beat a brainy, experienced fighter who is allowed to fight his own kind of a battle.

If Moran fought his real fight against Dundee, if he was not sick, as he seemed to be, he has no chance to beat Benny Leonard. For several years at least Leonard is not to be beaten by an opponent who permits the champion to fight his own way. To make Leonard fight any other way is something for a very brainy fighter to accomplish and Moran does not seem to qualify as a brainy fighter.

Granting that Moran did make a very creditable showing against the champion a year or more ago with a willingness to admit that Moran may have improved more in the interim than Leonard has, yet it would not be reasonable to contend that Moran has any advantage over Leonard by reason of their first meeting. On the other hand, it might be argued with a lot of sound logic behind the argument that Leonard was the one who would come out of the fight with the advantage that he might have and must have learned a lot more about Moran in that fight than Moran learned about Leonard.

For the sake of argument it will be recalled that Lew Tendler came mighty close to beating Leonard when they met the first time in a no decision fight in New Jersey. Had there been a decision given after that fight Tendler in justice could not have been given worse than a draw and he had Leonard on the verge of a knockout.

When they were training for their second fight in New York more than a year later it was natural and reasonable to assume that Tendler would not do worse than he did when they met the first time and that he should do even better if he was mentally qualified to pick up some learning from his first fight and temperamentally fitted to gain a little confidence.

On the contrary, however, it was Leonard and not Tendler who reaped all the benefit of the first meeting. It was Leonard who learned Tendler's game and not Tendler who found out how to beat Leonard.

The champion gave Tendler such a beating that he did the very unusual thing by admitting that he never could beat Leonard and announcing that he wasn't going to try any more.

Tendler at the time when he met Leonard in New Jersey and again when he faced him in New York was a better fighter below the shoulders than Moran is today. He was just as rugged, perhaps a little more tough; he was faster on his feet and could punch straighter and harder than Moran. Previous to the Dundee fight it was thought that Moran might have better mental qualifications than Tendler had when he was bidding for the title, but that contention has been shown to be wrong.

In attempting to speculate on what Moran might do against Leonard this summer by what Tendler did two years ago, it must be considered that Leonard may not be as good as he was then.

Leonard, however, is not at the age where time is a factor of great importance. He is young and he has been taking care of himself. He may not be the Leonard of three or four years back when he has to make 135 pounds, but if he were Moran, we would not figure on being the next champion simply because Leonard might not be good at the weight.

If Johnny Dundee could smother Moran's right hand, tie him up into knots and make him look foolish, Leonard could do the same thing as long as he was strong enough to hold up his hands, and Leonard, even if he has to weaken himself to make 135 pounds, is not going to be so reduced physically that he will have to be carried into the ring.

The Dundee-Moran fight was accepted by some critics as a contest that should decide the next opponent for Leonard in a championship bout. It would have been a legitimate "decider" if Moran had won, but as it turned out it proved only that Leonard is in a class by himself.

Moran would have been the legitimate contender for the title if he had beaten Dundee, but Dundee did not show any right to a championship bout by beating Moran.

Dundee is still able to go. He is one of the wonders of the game, but he couldn't go far with Leonard with the kind of a fight he has to fight now.

MACDONALD IS BOMBARDED BY MANY QUERIES

London, Feb. 16.—The Government in the House of Commons yesterday was subjected to a rapid fire of criticism and questions on every conceivable subject, most of which the ministers were inclined to parry. But when the debate concluded last night no division had been taken. Thus Premier MacDonald's declaration of policy was accepted without challenge.

The prime minister made two important statements, the first with respect to national defense, when he declared emphatically that he wished to avoid any policy calculated to increase armaments and that the Government was inquiring into the whole problem with the object of preventing the growth of war conditions, and, second, that as the country had rejected the idea of a capital levy, it could not be enacted in the present parliament.

Amusing Incidents

The novel position of a minority Labor Government continues to supply amusing incidents. Austen Chamberlain alluded to former Premier Asquith's peculiar position describing him as "sitting on one side of the house, speaking on the other and voting alternately on one side and the other", which created much laughter.

Another amusing situation arose from an attempt by Mr. Chamberlain to elicit what sort of parliamentary defeat the government would regard a vote of censure. To this Mr. MacDonald replied that it was impossible to define.

"Defeat on the Poplar question might be a vote of censure, he said, "but I can imagine a defeat on Poplar which which would not be a vote of censure at all. That very convenient political phrase 'Wait and see' was revised yesterday. I propose to keep it alive to-day, but I can assure the House that the Government will not remain in office five minutes after a vote depriving it of its sense of dignity."

Mr. Chamberlain made the principal attack on the Government and raised a number of interesting and important points, especially concerning Russian recognition, a capital levy and imperial preferences, which drew a long reply from the prime minister throwing further light on the government's general policy.

People who marry for money don't seem to get what they married for, and neither do all those who marry for love.

Treat Head Colds With Vicks

"NEVER HAD ANYTHING BETTER" SAYS ONTARIO MAN

At the first sign of a cold in the head, melt a little Vicks VapoRub in a spoon. Inhale the vapors. Then insert some in the nostrils, snuffing it well back. You will be delighted to see how quickly it helps to break up a cold.

Another way is to heat a tin cup, put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh.

Vicks VapoRub the discovery of a Southern druggist is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme, Turpentine, etc.

It is the modern, direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Mr. Thomas Bakewell of 33 Lincoln street Welland, Ont. says: "I tried Vicks VapoRub and found it satisfactory [illegible]. As a remedy for a cold in the head I have never had anything better. I melted a spoonful and inhaled it and got immediate relief and was able to go to my work the following morning. I always recommend it to anyone I know who is suffering from a cold the way I did."

Vicks is the ideal treatment for colds—both for grown-ups and for children—because it avoids so much internal dosing. Just as good, too, for cuts, burns, bruises, sores, stings and skin itchings.

At all drug stores, 50c a jar. For free test size package write Vick Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

RITCHIE'S
SATURDAY--$1.95 DAY
AT RITCHIE'S MEN'S STORE

Men's Mocha Gloves

Men's Fine Mocha Gloves in Tan, Brown and Grey shade, Wool and silk lined qualities; all our better makes; all sizes. Regular $2.50 and $3.00. Saturday Special $1.95. **1.95**

Men's Hose

Men's Wool Cashmere Hose in Black only; all sizes in the lot. Regular Values 75c. pair. Saturday Special 3 pair **$1.95**

BLIND IS BUILDER

Although totally blind, John Taylor of Canton, Ohio, is a successful carpenter. For 23 years he has been unable to see the hammer he works with yet in that time he has built six houses.

His infirmity, dating from his early youth, never has prevented him from hitting a nail squarely and soundly on the head, a feat that is beyond many with perfect vision. He now is finishing an addition of six rooms to his home, and is said to have done every piece of the work himself. He even laid an additional length of cement walk for the home that he recently enlarged.

"There must be something that will help me!"

It was the cry of a man suffering the tortures of the rack from one of the most agonizing of all human ailments—Bladder Trouble. For months he had been trying various remedies, but none seemed to give him relief—the gnawing pain was always there. He had almost given up hope, and was confronted with the prospect of a serious operation.

Then he chanced upon a Gin Pills advertisement in a newspaper, and decided to give them a trial as a last resort. As a result he is to-day enjoying the soundest health and good spirits.

His Sufferings Were Due to Deranged Kidneys

By correcting this, the origin of his complaint, Gin Pills granted him a happy release from his misery.

Gin Pills can relieve YOU, just as they did this man. There is practically no symptom arising from deranged or weakened kidneys that Gin Pills will not relieve if taken in time. If you are troubled with pain in the back, painful, scanty or too frequent urination, brick dust deposits—do not delay. Get a box of Gin Pills (50 cents) from your Druggist to-day, and save yourself future suffering.

LABOR SEEKS TO END DOCKERS STRIKE

FRANC FALLS TO RECORD LOW POINT ON EXCHANGE OVER HUNDRED TO POUND

Wild Scenes Prevail on Paris Bourse as Value of Currency takes Record Tumble — Sudden Slump throws Securities on Market

COLLAPSE SUDDEN

Fall Takes Place Amid Scenes of Tremendous Excitement and Activity in Foreign Exchanges and Securities—Passes Previous Low Mark

London, Feb. 18.—(British United Press)—The French franc fell to more than one hundred to the pound sterling this afternoon. Shortly before one p.m. the quotation on the London Exchange was 100.25.

Paris, Feb. 18.—(British United Press)—The French franc collapsed to a record low to-day of 23.8 0to the dollar before noon.

When the Bourse opened, amid scenes of tremendous excitement and activity in foreign exchanges and securities, the franc was within ten centimes of its previous low mark of 23.50, within a few minutes further decline was in evidence and at 11.30 a.m. while traders struggled frantically in the corridors and on the steps of the Bourse, the franc passed its record low and went to 28.57; the pound was at 93.50.

Egyptian Gov't To Finish Work

Luxor. Feb. 18.—Regarding the difficulties between Howard Carter and the Egyptian government in connection with the tomb of Tutankhamen, press correspondents were officially informed today that the Egyptian government had decided to take energetic steps to fulfil what it considers are its obligations towards science and the public.

Niagara Falls, Ont., Feb. 14.—William R. Flintoff, 28 formerly of St. cuted yesterday while working on lines at Niagara Falls, N. Y., in employ of Niagara Electric Service Corporation. Death was instantaneous, 2,200 volts passing through his body from a live wire.

THE WEATHER

Northeast winds, fair and cold tonight and Tuesday.

COMING EVENTS

Tabernacle Methodist Church anniversary services next Sunday, when Rev. J. W. Baird of Port Hope, will preach. An old-fashioned supper and musical entertainment on Tuesday evening 19th of February. 14-4td

CONCESSIONS TO WEST BY KING ARE PREDICTED

Talk of Tory-Progressive Alliance Not Taken Seriously by Some

BUDGET AND TARIFF

Recent Cabinet Changes May Let Government Alter Policies

Ottawa, Feb. 18. (Special).—All the activities at Ottawa these days are centralized in sessional preparations. The Government, which had an easy recess, has displayed great industry since the New Year with daily sittings. It is preparing to legislate on new lines and defend its position, while Conservatives are planning to attack and think they see several vulnerable spots. So far, no Progressives have shown up but, during the week, Andrew Knox of Prince Albert has been credited with a rather militant utterance and a prophecy of a possible Conservative-Progressive alliance in the House. Such a thing is conceivable as an incident, but in no sense does it seem probable as a matter of policy.

Last year Conservatives attacked the budget because it went too far and Progressives attacked it because it didn't go far enough. Such a tentative union can be conjectured this time under similar conditions but, on fiscal lines the probability of union between Protectionists and low tariff elements is not impressive. There appears to be a deepening view that the tariff will loom large this year, even though Mr. Fielding's pronouncement last session was essentially a declaration for stability. If he were making the budget he could not consistently go much further than he has already gone, but the veteran has made his last budget speech. He will not be back this year and, while he will be missed to a peculiar degree —especially when heavy hitting is called for— his absence enables some one to prepare a budget and, if the Government is so inclined, to introduce proobject. Sir Lomer Gouin's departure visitions to whom Mr. Fielding might and that of D. D. MacKenzie may be noted in the same respect.

Something Stirring

There is no apparent evidence of anything revolutionary being proposed, but the whole political atmosphere is suggestive of something being done. Nothing came out of negotiations with Western democrats here some weeks ago, but it is known that the idea then entertained has not been abandoned. If certain reductions in the tariff, especially on production implements, are calculated to enlist, in the House or outside, Progressive support, those reductions will likely be made.

The wind, however, will probably be tempered to the shorn lamb, for Eastern Liberalism will be exposed to a protectionist sentiment while moderate adherents of that view in the ranks of the Liberal party itself are neither few, nor very far between.

It is apparent that the Manufacturers Association is getting restive and may be expected to put up a fight against any tariff revision downwards, either as regards Britain or the States. Nevertheless, the experience last year of Progressives lining up, from different angles of views, with the Conservatives against the budget, and the adversity of by-elections suggesting the need of strengthening political fences together with the Prime Minister's affirmed purpose of "Liberalizing" the party and its platform—all these considerations suggest concessions to the West.

A REVUE OF THE KIWANIS JOLLIES

Announcement is made in another column that the Kiwanis Club are to present a Revue of their recent production the "Kiwanis Jollies".

This will be good news to local theatre-goers, for this production when staged last Fall was undoubtedly one of the best amateur shows ever put on in Belleville. The coming attraction being a revue of the other show will no doubt feature the b est parts of the "Jollies".

In conversation with Mr. Gorman and Mr. Lee, this morning, they stated that many new features were being added, new songs, new jokes, and a few new faces. The picture that is running in conjunction with the Kiwanis entertainment is also of high order.

Opening of the Olympia Games

Flags of all nations saluted when Olympic games opened at Chamonix, France.

SENATE SHOWS MAJORITY FOR ANGLO-U.S. PACT

Forecast Favorable Decision on Rum Smuggling and Entry

STORMY COURSE

British Ships for Months Taking Liquor Into U.S. Ports

Washington, Feb. 18.—Approval by a two-thirds majority of the Senate of the Treaty with Great Britain, with a view to curtailing rum smuggling by sea and also permitting British ships to carry liquor into American ports under seal, is indicated following the action in reporting the Treaty favorably without a dissenting vote.

As a matter of fact, the Treaty is actually being treated by officials as though it were in effect now. Seizures of rum runners are being made beyond the three-mile limit, and British ships for months have been bringing liquor into American ports under seal, despite the Supreme Court decision to the contrary.

The Treaty has had a rather stormy course since the first announcement that it was planned appeared in the press, but the storm has all died away. Judging by a canvas just made of the Senate, neither drys nor wets seem to be opposed to it, and very little debate is expected. Treaties under the rule are considered behind closed doors.

Senator Lodge, Chairman of the Committee, announced that he would lay the favorable report before the Senate without delay.

The Treaty was not made public by the Committee. Its general provisions, however, are well-known. It gives this country the right to visit and search British vessels which are under suspicion of smuggling liquor of seeking to smuggle it out to the distance of an hour's sail from the American coast. On the other hand, it gives to British vessels the right to bring into American territorial waters, that is, into the waters within the three-mile limit, ship stores liquor under seal.

It is sometimes said that the Treaty gives the right of search out of the 12-mile limit. Members of the Committee, however, pointed out after the meeting yesterday that the 12-mile limit is not mentioned.

The new Treaty has been endorsed by leaders of the Anti-Saloon League. It is the expectation that in due time it will be followed with similar treaties between the U.S. and other countries.

LOCAL BOYS ARE SENT TO JAIL

Oshawa, Feb. 18.—A bad record proved the undoing of Arthur Babcock, of Belleville, who, with John Wilson, another Beleville lad, appeared in the police court on Friday afternoon charged with entering a Grand Trunk freight car on Feb. 8, last with the intention of stealing a ride to Toronto.

The men arrived in Oshawa looking for work and failed to find it. They heard there was employment to be had in Toronto and decided to make their way to the provincial metropolis. Lacking the necessary funds with which to pay for their transportation, the "side door Pullman" route looked good to them and they had just succeeded in locating a nice, comfy box car when the railway detectives arrested them.

Wilson was sentenced to four months in jail with hard labor, but Babcock who has a record, was given six months in Whitby jail.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

The feature picture tonight is "The Covered Wagon"

ONE ARRESTED IN KNIFE CASE

Police Closing Net Around Possible Loopholes of Escape of Unknown Bandits

Oshawa, Feb. 18.—The arrest of a man who may prove to be one of the pair of bandits who on Thursday evening attempted to burglarize the residence of Roy Morphy, Mason Street, and who seriously stabbed Fred Habberfield, Henry Baldwin and Jack Gillespie, was made in Bowmanville Friday afternoon about 4 o'clock and Chief of Police Friend and Jack Gillespie went to that town Saturday morning to bring him back to Oshawa.

The man who gives his name as Joseph Cloutier, answers the description as to height, age and general appearance of one of the wanted men. He stands five feet five inches in height, is of medium build, fair complexion and speaks with a French-Canadian accent. Moreover, he admits having been in Oshawa on Thursday night and walking from this town to Newcastle, making the journey through the snow drifts and reaching Newcastle early Friday afternoon.

Fell Exhausted

At Newcastle he was so exhausted from his all night tramp that he fell in the snow bank unable to proceed further. He was picked up, a doctor summoned and after he had been revived sufficiently to tell who he was and that he had come down from Oshawa, the Bowmanville chief constable was notified. A car was obtained and he was started for Bowmanville but just before reaching that village he jumped out of the car and started to run away. The Bowmanville chief, however, got after him at once and arrested him on the C.P.R. track, evidently attempting to board a train for the east.

He was lodged in the Bowmanville lockup and Chief Friend notified. The chief started for Bowmanville Friday night but was unable to get through so instructed that the prisoner be kept in custody until his arrival to-day.

Tells Vague Story

Cloutier's story of the wanderings on Thursday night is vague. He admits he was in Oshawa but protests that he knew nothing of the crime of which he is suspected. He says he is a laborer and has done work along the railways chiefly in Quebec and Northern New Brunswick. This, if true, might explain the cap found by the Oshawa police at the scene of the stabbing and bearing the label of Vassie & Sons, St. John, N.B., as the territory from which Cloutier admits he came is covered by the firm named.

The police are continuing their combing of Oshawa and vicinity. All outside points have been notified and trains leaving town are closely watched.

ARLIE MARKS PLAYERS COMING TO BELLEVILLE

The Arlie Marks Players will be in Belleville as scheduled, despite rumors to the contrary. A telephone call to the Intelligencer from Trenton, stated that the company, in full strength, is coming here, and from advance notices, a good attendance is expected.

SETTLERS MAY FIND NO PATH TO U.S. VIA CANADA

Bonus to Voyagers Here Starts Retaliation Talk

REDUCED FARES

Reports Reaching England Say 4,000 Harvesters Went to States

London, Feb. 18.—Offers of a bonus of $15, to be paid third class voyagers on their arrival in Canada are regarded with much suspicion in American official and shipping circles in London, where the plan to-day was characterized as "a subterfuge aimed at evasion of the American emigration regulations and calculated to divert a larger share of trans-Atlantic steamship patronage from the United States to British lines." While the bonus, it is said, will be paid by the Canadian Government it is contended here that the shipping lines will reimburse the Government. It is said that the lines included in the scheme could not announce reduction in fares because of rate-fixing agreements with other companies in the North Atlantic Passenger Conference, but that the same end was achieved in this round-about way.

Retalliatory action by the United States ports is expected momentarily. Ships sailing from British ports are capable of transporting 1,500,000 passengers to America annually, according to one American authority here. This figure was reduced to considerably less than 500,000 by the American immigration legislation which, in the opinion of well-informed Americans here, explains the British shippers' business increase in passenger traffic to Canada.

That Britons, prevented by exhausted quotas from entering the United States direct, will find it possible to enter from Canada was demonstrated by reports published here that a third of the 12,000 harvesters transported to Canada last year found their way into the United States. The suggestion is made here that an effective check on this traffic could be applied by requiring immigrants to enter the United States through United States ports.

HOCKEY TEAM ROTARY GUESTS

Belleville Intermediate hockey team were the guests of the Rotary Club at its weekly luncheon today. President O.H. Scott and Charlie Symons commended the team on the good work they had accomplished and reminded them of the fact that they would rather see them defeated than to win the O.H.A. Championship by resorting to dirty playing. The Rotary Club stood behind all kinds of clean sports and it was hoped that Belleville would see a modern rink.

Rotarian Fred Osborne, now of Calgary, but formerly of this city, gave a five minute talk on the work of the club was doing in this city. The club there is seriously contemplating taking over the Y.M.C.A. for a period of two or three years until it was free from debt when they would turn it over to the Directors.

"Doug" Ramsay gave a brief, as well as an humorous, account of his visit to the Rochester Rotary Club last week.

LABOR MAKES EFFORT TO END PARALYSIS OF TRANSPORT IN BRITAIN

Labor Cabinet Meets to Discuss Nation-wide Tie-up of Shipping by Strike of 110,000 Dock Workers—Premier MacDonald May Act

MAIL HELD UP

Five Thousand Bags of Mail From the United States Unable to be Moved at Plymouth Owing to Walk Out of Dock Workers at All Ports

London, Feb. 18.—British United Press.)—The labor Cabinet met this afternoon to discuss the nation-wide dock strike of 110,000 workers, which has tied up shipping and paralyzed transportation at every port in the United Kingdom with the exception of London.

It was understood that the cabinet undoubtedly would approve immediate intervention by Premier MacDonald.

Plymouth, Feb. 18.—(British United Press).—Five thousand bags of American mail were held up to-day because of the national Dockworkers' strike.

Two thousand bags were landed from liners which arrived from the United States over the week-end but the striking dockworkers refused to move the mail.

The dockers are a section of the transport workers, the largest union in Great Britain. This union has nine members in Parliament, and the recognized leader of them all is Ben Tillett, pioneer organizer and strike director. He has always headed the union drives in the House of Commons, and when not busy at home he went away to the Continent to spread his gospel of internationalism.

DEMANDS EARLY REFERENDUM ON O.T.A. PROBLEM

Hon. T. W. McGarry, One of Those Who Framed Act, Moves For Action

UP TO PREMIER

Claims there is less Drunkenness in Vancouver under Government Sale

St. Thomas Feb. 18.—Hon. T. W. McGarry, as one of those who framed the Ontario Temperance Act, believes a referendum should be taken on the measure now.

Addressing West Elgin Conservatives at their annual meeting here Saturday afternoon, the former Provincial Treasurer said that, if a member of the Government now, he would be one of those to introduce legislation to take another vote."

"I am hopeful," he said, "that before the session is over the people will be given the opportunity of voting on the Ontario Temperance Act, and that they will go to the polls and register their opinions.

Opportunity to Vote

"I was a member of the Government that introduced this prohibitory measure. It was introduced as a war measure, and I think the intention of every man in the House (and Mr. Macdiarmid and I were members of the Government) was that after the war was over and things settled down it would be given a fair chance and that then the people would have opportunity to vote upon it. If I were there I would be one of those who would introduce legislation for a vote.

In British Columbia

"I have been living for most of three years in British Columbia and have seen the legislation there work out and I know that on the streets of Vancouver there is less drunkenness than in Toronto. Vancouver is a city to which many sailors come every day, and yet I have never seen a man the worse for liquor on the streets of Vancouver in those three years, although we have Government control and you can buy whatever liquor you want, but they have a provision there that a man seen intoxicated on the public streets has no option of a fine, but must go to jail for six months."

DOMINION ELECTION MAY BE CALLED EARLY IN SPRING

Opposition Will Challenge the Propriety of Four Ministers Retaining their Cabinet Positions—Exception will Also be taken to the Procedure of Hon. James A. Robb Delivering the Budget Speech

Ottawa, Feb. 18.—Every day appears to make the Government's position more untenable and adds to the prospects of a general election this year and even this Spring. It was felt that the support of the Ontario Progressives would be sufficient to keep the Government in office, but conditions have reached such a pass in the Cabinet that many believe the Government will not survive the session and that dissolution may come as early as May.

It is understood the opposition will challenge the propriety of four Ministers retaining their Cabinet positions and will press their challenges to the extent of taking the opinion of Parliament. Two of these Ministers are Hon. John Sinclair, Minister without portfolio, who represents Queen's P.E.I. Against Mr. Sinclair it will be urged that his association with the real estate promotions in Prince Edward Island by a Government agent in London are sufficient to cause his retirement from Government; these transactions have been the subject of inquiry by the Prince Edward Island Government, where Mr. Sinclair was examined under oath. They are also being ventilated in Bow Street Court, London, Eng. The second Minister whose retirement will be demanded is Hon. E. J. McMurray, Solicitor-General, who as a member of two firms which are large debtors to the defunct Home Bank, it is urged cannot remain in a Government that must decide on policy regarding the protection of the Home Bank depositors. Mr. McMurray entered the Government after the failure of the Home Bank but before it was known where this institution had sustained its heavy losses.

Two Other Ministers Under Fire

Two other Ministers will also be subjected to similar motions for their removal from the Cabinet or motions condemning the Government for retaining them. The allegations to be made against one are such, that if substantiated, will certainly create a Cabinet vacancy.

Against the fourth Minister under fire, the charges are not so serious, but show that there is a strong suspicion of waste of money either through ignorance, neglect or connivance. The Government will find great great difficulty in defending not only its policy, but in justifying the retention in the Cabinet of four of the Ministers. The Opposition is confident that in the attacks on the Ministers they will force the Government to the country.

Daily Intelligencer

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Printed and published every afternoon (except Sundays and holidays) for The Intelligencer Printing and Publishing House (Limited), in the City of Belleville, County of Hastings, Province of Ontario, at their offices, [illegible] Front Street.

Let there be harmony in things essential—liberty in things not essential—charity in all.

SOVIET RECOGNITION

In formally recognizing the Union of Soviet Republics as the rightful governing authority in Russia, Premier Ramsay MacDonald has taken a bold step. It may lead his government into a series of embarrassments and humiliations, or the outcome may prove to be fortunate from a commercial viewpoint. Whether the policy of the British Premier be rash and ill-considered, or a prudent policy adopted after careful study of the ground is a question which must be decided by the results.

It is certain that a risk is taken by the British Government. It grants recognition to the Bolshevik Government, and hopes that this expression of confidence will appeal so strongly to the gratitude of the men in Moscow that it will be easy to make fair and favorable terms with them regarding all matters in dispute between the two governments, and to restore trade relations.

If we are to judge from the conduct of the Russian representatives at the Genoa and Lausanne conferences, it is rather hazardous to assume that the government at Moscow is capable of generous sentiment. So far, it has in all international negotiations shown itself to be tricky, unscrupulous, utterly unreasonable and untrustworthy. It is just possible, however, that it will be moved by considerations of expediency to deal fairly with the British Government, in the hope that it will thus be able to rehabilitate itself morally in the eyes of the world.

This is the chance that Mr. MacDonald has decided to take. It should be observed that, although he has extended unconditional recognition to the government at Moscow, he warns it that really friendly relations between the two countries cannot be re-established until the government of each country has no reason to suspect the other of carrying on hostile propaganda against the other; also, that recognition automatically brings into effect the anti-revolution treaties, some of which have been repudiated by the Bolshevik Government. And further, the restoration of full friendly relations will depend upon the outcome of negotiations between the two governments.

Should these negotiations fail, the British Government will be left high and dry, having gained nothing. On the other hand the Soviet Government will have gained the precious boon of formal recognition by one of the great world-powers—an advantage for which the Soviet Government has been intriguing and striving unsuccessfully for four or five years. It could afford to sit tight and refuse all concessions, having already gained a "moral victory". However, Mr. MacDonald must have thought of such a possibility, and he has provided for it by holding out to the men at Moscow the hope that if they prove reasonable the British Government might be willing to consider "the restoration of Russia's credit"—that is to say, a substantial British loan for that purpose.

This appeal to the Russian sense of self-interest is likely to have more force than the appeal to Bolshevik magnimity and generosity.

PARTLY TRUE, ANYWAY

Some of the unemployed people of Toronto have written a letter to Premier MacDonald, warning him of the danger of encouraging emigration to Canada while so many Canadians are out of employment. The industrial and economic conditions of Canada are such, according to the writers of the letter, that there is no work for many of those who were previously employed, "therefore it must be impossible to absorb those arriving from other countries."

The letter tells at least part of the truth. In most of the larger centres of population there are more people than can find employment. From different cities, complaints have come of the burden of finding food and lodging for those for whom there is no work. It is true, of course, that there is plenty of room in the country districts; but it is also true that it is difficult to get people to go into the country districts or to stay there if they do go.

EDITORIAL NOTES

Lower taxes, please.

—o—

Skaters are praying.

—o—

"Manitoba dairy men urge tax removal." So does everybody else.

—o—

It may be possible to settle the European problem, but how about Mah Jong?

—o—

And the Minister of the Interior will assist at the opening of another big gas house at the end of the month.

—o—

It was the League of Nations which destroyed Woodrow Wilson politically. And yet, the League is his magnificent monument.

—o—

All-round economy is now said to be the aim of the King Government. A good aim. Let us hope that the Government will hit the mark.

—o—

The civil service is controlled by the Civil Service Commission; and the Commission is to be put under the control of the Board of Audit. Who is to control the Board of Audit?

—o—

With Hon. Jacques Bureau in control of all the revenue-producing machinery, there is likely to be more talk than ever about "Bureaucratic" methods at Ottawa.

HOOVER APPROVES CANADIAN PLAN

Washington, Feb. 16.—The Canadian Government's suggestion that the United States appoint experts to work jointly with similar appontees to be designated by Ottawa, on the St. Lawrence-Great Lakes waterways project, has been favorably viewed by Secretary of Commerce Hoover, in a communication to Secretary of State Hughes.

Mr. Hoover's opinion was sought by the State Department and will be used as a partial basis for the reply it will make at an early date to the Canadian note on the subject. All of the executive departments asked by Mr. Hughes to give him their observations regarding the appointment of United States experts, however, have not yet reported and an answer will be made to the Ottawa communication until these have been received, and studied by the State Department officials.

SPEEDY ACTION ON REVENUE MEASURE

Washington Feb. 16.—House leaders worked today to assure speedy action on the revenue bill as the second day of general debate proceeded on the floor, arguments centering mainly on the income tax rates section of the measure.

Members of the Ways and Means Committee drew up an agreement to be presented for unanimous consent making the income rates section in order Tuesday after the close Monday afternoon of general debate. The reading of the bill, which will be started as soon as the general debate ends, will open the measure to amendments.

Dispositon of the income section will remove the chief point of contention and leaders of both sides have predicted that once these rates are disposed of, discussion of the remainder of the measure can be finished within ten days. About two days are expected to be consumed by the income tax debate.

PRESS OPINIONS

(Montreal Star)

The pastoral of Archbishop Gauthier, following that of Cardinal Begin, dealing with dress, dancing, the feverish pursuit of pleasure and the criminal extravagances of the present day, is perfectly in harmony with sound opinion among thinking people of all religions and of none.

The dangerous drift of the age is the despair of men and women everywhere who realize that society rests upon certain principles of moral rectitude and decent behavior, and that—while such descents to the level of the ape as the Roman decadence and the hideous license of the Stuart Restoration in England may come from time to time—the present deliberate drive in that direction means disaster to thousands if not millions in our own time.

VICTORY DELUSION

(Chicago Tribune)

An opponent of M. Poincare after a vigorous denunciation of the French Premier's suggestion to increase taxation 20 percent. leant stearnly toward the Premier and thundered out. 'Did we win the war or not?'

Our own modest opinion, ripened by observation of events since November 11, 1918, is that nobody won the war. The war, it seems to us, was not won, but lost, and the loss is pretty widely distributed among all concerned. We might make an exception in the case of the Bolshevik party in Russia.

As for the rest of us it seems to us extremely desirable to rid ourselves of the victory delusion, and this is especially desirable in the French parliament where the theory of victory has produced its worst effects upon policy.

It is that delusion which obscures the fact that only one thing counts now, the peace and rehabilitation of Europe. That is a pragmatic view which does not appeal to the French sense of higher justice. It has in fact nothing to do with justice It has everything to do with the survival in Europe of western civilization.

COVETOUSNESS

(Detroit News)

A distinguished missionary of the Christian religion, the great Xavier himself toward the close of the long eventful life made a most revealing statement. He said that more than ten thousand men and women had confessed to him sins of every description, and all the way from mere foibles to foul and debasing crimes. Yet not one of the ten thousand confessed the sin of covetousness.

That is an amazing omission and it reminds us how easy it is to deceive ourselves. We go along our ways complacent and unsuspecting, when lo, suddenly, there is an upheaval, an exposure, in individual, community or national life. And once again mammon triumphs and the lust of gold claims another victim.

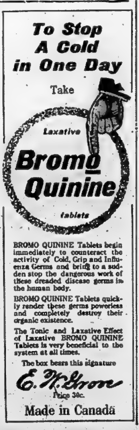
WILY CAMPAIGNER

(Los Angeles Times)

London dispatches recount that the change in government took place without any flurry in financial or industrial circles. Naturally so. Those who handle big affairs know that Asquith has a halter about MacDonald's neck; and they are confident that the Liberal leader will give him but little rope.

It is not a Labor leader who wears a frock coat and silk hat that England fears; it is one who flaunts a red flag and heads a mob. MacDonald is not a Jack Cade. He is not the leader of the rabble. He is a politician of the kid-glove type—and a canny Scot.

The real triumph is that of Asquith That wily old campaigner has disposed of Lloyd George and the Conservative leaders; and he has become the balance of power in the British parliament.



To Stop A Cold in One Day

Take

Laxative Bromo Quinine tablets

BROMO QUININE Tablets begin immediately to counteract the activity of Cold, Grip and Influenza Germs and bring to a sudden stop the dangerous work of these dreaded disease germs in the human body.

BROMO QUININE Tablets quickly render these germs powerless and completely destroy their organic existence.

The Tonic and Laxative Effect of Laxative BROMO QUININE Tablets is very beneficial to the system at all times.

"THE COVERED WAGON" GRIFFIN'S OPERA HOUSE

The new Paramount picture, "The Covered Wagon," which has already won the greatest success of many seasons in New York, Boston and Los Angeles, is now on view at Griffin's Opera House for three days, matinee daily, where, as in the other cities mentioned, it is drawing capacity houses at daily matinee and night performances. Beside the stirring dramatic incidents of the Emerson Hough narrative; the thrilling beauty of the scenes and the exciting episodes of the prairie fire, the Indian attack and perilous fording of the treacherous Platte River by the wagon train, the picture carries a message of high patriotism that reaches the heart of every beholder. No one can see "The Covered Wagon" without gaining a new understanding of the courage and idealism of those brave souls who created the civilization of the West, nor can anyone escape a feeling of pride that these men and women were the true forebears of the true American of today. The chief characters in this stupendous photoplay are impersonated on the screen by J. Warren Kerrigan, Lois Wilson, Alan Hale, Charles Ogle, Ethel Wales, Guy Oliver and Johnny Fox. The musical accompaniment to the picture, arranged by Hugo Reisenfeld, is played by an orchestra under the direction of Mr. Gordon. The Company's Symphony Orchestra will play at each performance.

GIRL RESCUED BY AEROPLANE FROM RUNAWAY

Unique Stunt Enacted For New Universal Serial to be Seen Here

Wilson does air tricks no other aviator dare attempt, and has in his picture career dared death to take passengers off buildings, off railroad trains and automobiles. This is the first time he has attempted the horseback trick.

There are many other thrills in the exciting story, which features Pete Morrison, Margaret Morris and a notable cast. From the very start the chapter-play is crammed with breathless action, and continues so until the astounding climax. Fights in underground caverns, the explosion of two giant twin silos, the wreck of a huge irrigation reservoir, are among the thrilling settings for Paul Bryan's story.

In the cast are Bud Osborne, Lola Todd, Alfred Allen, Frank Rice and other well known actors. Jay Marchant is the director of the new picture.

The exciting rescue by airplane of a girl from a runaway horse, is one of the strangest thrills ever staged for the screen. It will be seen in "The Ghost City," Universal's new Western chapterplay, to be shown at the Regent Theatre beginning Monday. Al Wilson, most famous of "stunt aviators" stages the thrill. Hovering over a galloping horse and dropping a rope, he succeeds in "taking off" with Margaret Morris in one of the most daring feats ever performed by airman.

"SO THIS IS LONDON"

"So This is London," George M. Cohan's great international comedy hit, that played twelve months at the Hudson Theatre, New York City, and is now the outstanding success of the season at the Prince of Wales Theatre in the British Metropolis, comes to Griffin's Opera House for an engagement of one night only, February 21st.

Mr. Cohan has provided this laughing triumph of two continents with a superb cast of clever Cohan comedians who scored a phenomenal success in the piece last season, notably during the record-breaking run of over four solid months at the Cohan's Grand in Chicago. In this captivating comedy of international appeal, we see ourselves as others see us, and, timed whirlwinds of wholesome laughter, at the vageries of the Britishers, we see the always good-natured shafts of satirical humor suddenly turned upon the other fellow, and get the English view point, only to find that under the the surface, there are virtually the same sterling qualities that prove the English speaking race, on both sides of the broad Atlantic to be really very much alike. It is the continual contrast of the Briton's idea of what he thinks Americans are like, and our notion of what we have pictured the English, that provokes the endless chain of laughs. The scenes are all laid in England, while the story of the play centers upon a love affair which involves the families of an American millionaire and of a British peer. They instinctively dislike each other and when it becomes known to them that the son and daughter of their respective houses have fallen in love, there is a fine conflict until the temperamental turmoil is smoothed out by a thorough-going diplomat, in the person of a sympathetic British matron who was born in America. Finally the difficulties are all adjusted the American eagle and the British lion shake hands and all is forgiven, when both families agree that they have been entirely in error in their mutual dislike and distrust of each other. Seat sale opens Wednesday, February 20th. Mail orders now. Kindly remit postal notes, express orders or cheques.

FACES CHARGE OF $5,000 THEFT

Montreal, Feb. 18.—Abraham Trachtonbroit who gave his address as Montreal was held in the sum of $1,000 bail for his appearance of enquete on a charge of theft of $5,000 which he is alleged to have converted to his own use while acting as secretary treasurer of the Star Loan Syndicate Company of this city.

The accused is out on bail awaiting judgment in another case and there are four charges pending against him in the Sessions Court, Justice Decarie raised the bail from $500 to $1,000 he was told by B. Robinson, for the prosecution, that the accused was awaiting trial on other counts.

Police Seized Large Quantity Narcotic Drugs

Paul Frenette, Arrested For Possessing, Held in $10,000 Bail

Montreal, Feb. 16.—One of the biggest captures of narcotic drugs in several months took place at 4.30 yesterday afternoon when Constables A. Belanger, Rocheleau, Francoeur and Bourdon of No. 4 Station raided a house at 3051 Lajeunesse Street.

There they found 39 ounce bottles of cocaine, which they declare to have been owned by Paul Frenette, aged 21, who said he was a chauffeur for a well-known taxicab company.

Frenette pleaded not guilty when arraigned before Recorder Geoffrion this morning, and the court set bail at $10,000 bond or $5,000 cash deposit for his appearance next week for trial.

The police went to Frenette's flat and knocked. They heard him shout "don't let them in," but they used force on the door and searched the place. In a suitcase they located the 39 bottles, valued at retail rates at several thousand dollars.

FOUGHT INDIANS OFF PACIFIC COAST

Retired Canadian Pacific Steamship Engineer had Adventurous Career in Coastal Service

Sailed on Maiden Voyage of old "Princess Louise"

Mr. David Stephen

BEFORE Vancouver existed and when Victoria was but a village of 1,000 residents, David Stephen with his face set towards the gold fields of the Cariboo country sailed up the Pacific Ocean from the Isthmus of Panama. Dundee, Scotland, had claimed him as her son and to Dundee he would return in a few years laden with the wealth of the North West.

That was in 1862. Today David Stephen still lives in British Columbia and Dundee is but a memory of his childhood and his youth.

Young David never saw the Cariboo. As far north as Lytton he journeyed with his two adventurous associates and two of them established themselves there while the other went into the Gold Country. Two years later the gold-digger came out "broke" and the three Scots returned to Victoria.

So David Stephen took to the sea and stayed with it until a few years ago when he became a pensioner of the Canadian Pacific Railway. In the capacity of engineer he served on many of the old-time side-wheel steamers which plied Pacific Coast waters from Alaska to San Francisco. In 1866 he was second engineer on the S.S. Labouchere, when she was wrecked off San Francisco. The year previous to this she had been granted a subsidy by the Crown Colony to carry mails at $1,500 a trip between Victoria and San Francisco and was one of the finest old steamers on the coast, being 202 feet long, with oscillating engines and a tonnage of 680 net.

After this David Stephen signed on one of the many trading ships running between Victoria and Alaska. The new berth held its dangers as many a steamer had set out from Victoria in those days on a trading mission never to return to its home harbor.

The Indians at this time were very hostile and resented the white man's invasion. On one trip north Mr. Stephen had what he terms "a racy experience" with Indians of the Sitka tribe. The affair took place at Hoonah after the Indians in all the glory of their war paint had swarmed round the ship in war canoes and jammed her side wheels with huge timbers. It took the twelve nine-pound guns which the ship carried to convince the Indians that the white men meant business but Captain Mouatt and his men avoided Hoonah for two full years. At the end of that time they ventured in again to be received with open arms by their former enemies and showered with valuable gifts including the pelts of martin, beaver and otter.

In 1901 the Canadian Pacific Railway took over the Canadian Navigation Company operating along the Pacific Coast, and out of the nucleus of a handful of side-wheelers has grown the fine fleet of twenty ships that ply the coastal waters today carrying the Canadian Pacific house flag from Skagway, Alaska, to Seattle, Wash. The employees of the old navigation company automatically became employees of the Canadian Pacific Railway and were credited with their record of service in the former company when they became eligible from a point of age for the pension system inaugurated by the latter. David Stephen was one of these.

The old Princess Louise, a fine side-wheeler in those days, was brought out from New York as the S.S. Olympia, and David Stephen was sent across to come with her on her maiden voyage to the B.C. coast sailing by way of the Straits of Magellan. Later he served on the S.S. Yosemite and the S.S. R. P. Rithet.

He now lives in Victoria and is one of the best known "old-timers" in British Columbia's Capital City.

Gum Chewing Aids the Teeth

You have the authority of doctors and dentists for this statement. Your own experience will prove it, if you will use WRIGLEY'S after every meal.

The following quotations from a recent work on teeth and health are worth remembering:

"Dentists have found that the exercise of gum chewing brings about a better nutrition of the teeth . . . ."

"The cleansing action of the gum between the teeth helps to keep them free from the particles which lodge in the crevices and cause decay."

The busy man—or woman either—rarely has time to clean the teeth after eating. Yet they *should* be cleaned, and

WRIGLEY'S

after every meal

will do it. *Also* it will aid digestion and furnish welcome refreshment to mouth and throat.

Sealed in its purity package, bringing all its original goodness and flavor to you.

Three Cars Crash Early This Morning

Heavy motor traffic on a street whose right of way is doubtless restricted by winter's mantle of snow and ruts, contributed to a three cornered automobile smash which occurred on Station street near the corner of Emily street at 12.30 a.m. today.

L. Johnson, 78 Victoria avenue was driving his car west on Station street, while one of the Frank Smith taxicabs, driven by G. Martin, and a car owned by the St. Charles Omnibus and Motor Co. and driven by G. McLaughlin approached from the west travelling towards the upper depot. The taxi was ahead of the St. Charles car, and collided with the Johnson car. Almost instantly, the front end of the Johnson machine swung out and the St. Charles car collided with it making a three car smash. After the accident the front wheels of the Johnson car were resting against the south sidewalk on Station street.

All three cars were damaged but no one was injured.

Police Sergeant, Arthur Harman, who answered a call at the police station informing him of the accident, proceeded to the scene of the trouble with P. C. William Evans.

THE REASON FOR ALUMINUM

Because tea deteriorates very rapidly if exposed to air, many tests and experiments have been made to find an efficient means of packing it so as to preserve the flavour. The "Salada" Tea Company first used lead packages but some years ago adopted aluminum foil, aluminum being mode durable and lighter than lead, besides, of course, being absolutely sanitary and air tight. This method of packing is admitted to be the most effective known to preserve the flavour of tea. All "Salada" is sold in airtight aluminum packages.

Deaths and Funerals

MARY J. McGREGOR

On Saturday evening Miss Mary Jane McGregor of this city passed away after being in ill health for some time. Deceased in 1863 was born at Brockville where she resided until two years ago when she came here to live with her brother, Mr. Wm. McGregor at 37 Alexander street. She was a daughter of the late Mr. and Mrs. James McGregor of Brockville. The body was today taken to Brockville for interment.

MARIA VICTORIA ROSE

The funeral of the late Maria Victoria Rose, wife of Mr. Charles Rose, which was held from the late residence at Foxboro on Sunday afternoon, was one of the largest funerals ever held from that village.

After a short service at the home, the cortege lead to Foxboro Methodist church where a very touching service was held, Rev. M. Butler, pastor of the church having charge of the service, assisted by Rev. Mr. Smith. Interment was made at Foxboro cemetery.

The various floral tributes, together with the large congregation of sorrowing friends and relatives which filled the church, showed the great respect which deceased had commanded in the community in which she had practically lived her whole life, of fifty-seven years.

Pall boarers were Messrs. J. McMullen, W. Cadman, W. Kelly, W. Wickett, J. Wilson and W. Cook.

JAMES O'BRIEN ST. CHARLES

The last sad respects of the multitude of friends of the late ex-Alderman James O'Brien St. Charles, were paid this morning, when his remains were laid to rest in St. James' cemetery. The funeral service which was held at St. Michael's church was largely attended, the cortege leaving the late residence 6 West Moira street, and proceeding to the church where Rev. Father John E. Burke of St. Peter's Church, Toronto, conducted the service.

Hundreds of Mass cards and innumerable floral offerings indicated the high respect which deceased had enjoyed in this city and vicinity. The service at the graveside was also conducted by Rev. Father Burke.

The pall bearers were Messrs. Fred Lee, A.B. Collins, Thomas Hurley, W. Dolan, J.V.C. Truaisch and Don Bleecker.

Members of local council Knights of Columbus, of which deceased was a member, paraded in the long funeral procession.

Out of town people who attended the funeral of James O. St. Charles were, Rev. Jno. E. Burke, C.S.P., Toronto; Dr. P.W. O'Brien, Toronto; Dr. W. P. St. Charles, Toronto; Mr. and Mrs. C.A. Gownly, Chicago; Miss S. McGuire, Trenton; Mr. E. O'Brien, Ottawa; Mr. F. Latchford, Toronto; Mr. J. Copeland, Toronto; Mr. J. Byrnes, Watertown; J. F. Johnson, Deseronto; A. Lebraccio, Toronto; J. V. McAllister, Toronto.

EDWARD QUINN

The funeral of the late Mr. Edward Quinn took pace this morning from his late residence, South John street. At St. Michael's church Rev. Father Killeen conducted services. In Belleville cemetery vault the body was placed. A number of floral tributes and Mass cards were contributed by relatives and friends. Bearers were Messrs. M. Conlin, C. Mullens, J. Lee G. Giffen, P. and F. Cote.

The floral and spiritual offerings were as follows:

Floral Offerings

Wreath—Mrs. E. Edwards, Toronto.

Cross—Mrs. Mac Diarmid and Mrs. Smith, Toronto.

Sprays—Staff Income Tax Office; Clarence and Jack Arnott, Mr. and Mrs. B. D. Harns:

Spiritual Offerings

Mr. and Mrs. R. A. Armitage, Mr. and Mrs. A Bunton, Mr. and Mrs. B. J Black, Mr. R. Blaind and family, Mrs. Barrett and family, Mr. and Mrs. W. Bawden, Mrs. and Gladys Bryce, Mr. and Mrs. T. R. Barrett, Mr. and Mrs. A. Burgoyne, Mr. and Mrs. D. Cotter, Mr. and Mrs. Maurice Connell, Mr. F. and Miss Carney, Mr. and Mrs. John Callaghan, Mr. and Mrs. M. Connell and family, Mr. and Mrs. F. Cote, Guelph; Mr. and Mrs. Jas. Connally, Mr. and Mrs. M. Callahan, Miss Helen Cote, Toronto; Miss Stella Cournyea, Mr and Mrs. P. Cote, Mrs. M. Doherty, Mrs. Drumm and family, Mrs. J. Demarsh, Mrs. F. Dolan, Mr. and Mrs. Chas. Dolan, Mr. and Mrs Ed. Ethier, Mr. and Mrs. Jules Ethier, Jr., Miss Ethel Ethier, Mr. and Mrs. Capt. Fagan and family, Mr. and Mrs. H. Flagler, Mr. R. SECOND
of the series dealing with the establishment of the Bank of Montreal at representative points in Canada and elsewhere
IN QUEBEC

WHEN the Bank of Montreal opened its first office in Quebec 106 years ago, travel between Montreal and Quebec was mainly by stage coach, occupying three days in the journey. The difficulties and exigencies attending travel were such that funds were only conveyed between the two cities "at the first safe opportunity."

With the opening of this Quebec office, the Bank of Montreal introduced into Canada branch banking, one of the elements that has contributed to the remarkable elasticity of the Canadian banking system, winning for Dominion finance an enviable reputation in all parts of the world.

Of the Bank's 567 Branches, 83 are situated in the Province of Quebec.

WEDDING BELLS

On Thursday last 14th inst Rev. C. E. Clarke, M.A., rector of Christ Church united in marriage Mr. Wm. Harry Dowsett and Miss Emma Harriet Trenear, both of this city. The event took place in the Parish Hall of the church, and the couple were unattended. The groom is a veteran of the great war and the bride a graduate nurse of Belleville Hospital. Mr. and Mrs. Dowsett are spending their honeymoon in the western part of the Province and upon their return will reside on Alexander street.

BORN

CHARLTON—Born on February 17, 1924, to Mr. and Mrs. W.A. Charlton, 28 St. Charles street, a son.

DIED

DALTON—At Kingston on Friday, February 15th, 1924, Elizabeth Dalton, mother of the late Mrs. William E. Finnegan.

Funeral from St. Michael's Church, Belleville, on Tuesday, February 19th, at 9 a.m.

Mrs. Edward Quinn and family wish to express sincere thanks for favors received during their recent bereavement.

Three Cars Crash Early This Morning

Heavy motor traffic on a street whose right of way is doubtless restricted by winter's mantle of snow and ruts, contributed to a three cornered automobile smash which occurred on Station street near the corner of Emily street at 12.30 a.m. today.

L. Johnson, 76 Victoria avenue was driving his car west on Station street, while one of the Frank Smith taxicabs, driven by G. Mastin, and a car owned by the St. Charles Omnibus and Motor Co. and driven by G. McLaughlin approached from the west travelling towards the upper depot. The taxi was ahead of the St. Charles car, and collided with the Johnson car. Almost instantly, the front end of the Johnson machine swung out and the St. Charles car collided with it making a three car smash. After the accident the front wheels of the Johnson car were resting against the south sidewalk on Station street.

All three cars were damaged but no one was injured.

Police Sergeant, Arthur Harman, who answered a call at the police station informing him of the accident, proceeded to the scene of the trouble with P. C. William Evans.

THE REASON FOR ALUMINUM

Because tea deteriorates very rapidly if exposed to air, many tests and experiments have been made to find an efficient means of packing it so as to preserve the flavour. The "Salada" Tea Company first used lead packages but some years ago adopted aluminum foil, aluminum being mode durable and lighter than lead, besides, of course, being absolutely sanitary and air tight. This method of packing is admitted to be the most effective known to preserve the flavour of tea. All "Salada" is sold in airtight aluminum packages.

Deaths and Funerals

MARY J. McGREGOR

On Saturday evening Miss Mary Jane McGregor of this city passed away after being in ill health for some time. Deceased in 1863 was born at Brockville where she resided until two years ago when she came here to live with her brother, Mr. Wm. McGregor at 37 Alexander street. She was a daughter of the late Mr. and Mrs. James McGregor of Brockville. The body was today taken to Brockville for interment.

MARIA VICTORIA ROSE

The funeral of the late Maria Victoria Rose, wife of Mr. Charles Rose, which was held from the late residence at Foxboro on Sunday afternoon, was one of the largest funerals ever held from that village.

After a short service at the home, the cortege lead to Foxboro Methodist church where a very touching service was held, Rev. M. Butler, pastor of the church having charge of the service, assisted by Rev. Mr. Smith. Interment was made at Foxboro cemetery.

The various floral tributes, together with the large congregation of sorrowing friends and relatives which filled the church, showed the great respect which deceased had commanded in the community in which she had practically lived her whole life, of fifty-seven years.

Pall bearers were Messrs. J. McMullen, W. Cadman, W. Kelly, W. Wickett, J. Wilson and W. Cook.

JAMES O'BRIEN ST. CHARLES

The last sad respects of the multitude of friends of the late ex-Alderman James O'Brien St. Charles, were paid this morning, when his remains were laid to rest in St. James' cemetery. The funeral service which was held at St. Michael's church was largely attended, the cortege leaving the late residence 6 West Moira street, and proceeding to the church where Rev. Father John E. Burke of St. Peter's Church, Toronto, conducted the service.

Hundreds of Mass cards and innumerable floral offerings indicated the high respect which deceased had enjoyed in this city and vicinity. The service at the graveside was also conducted by Rev. Father Burke.

The pall bearers were Messrs. Fred Lee, A.B. Collins, Thomas Hurley, W. Dolan, J.V.C. Truaisch and Don Bleecker.

Members of local council Knights of Columbus, of which deceased was a member, paraded in the long funeral procession.

Out of town people who attended the funeral of James O. St. Charles were, Rev. Jno. E. Burke, C.S.P., Toronto; Dr. P.W. O'Brien, Toronto; Dr. W. P. St. Charles, Toronto; Mr. and Mrs. C.A. Gownly, Chicago; Miss S. McGuire, Trenton; Mr. E. O'Brien, Ottawa; Mr. F. Latchford, Toronto; Mr. J. Copeland, Toronto; Mr. J. Byrnes, Watertown; J. F. Johnson, Deseronto; A. Lebraccio, Toronto; J. V. McAllister, Toronto.

EDWARD QUINN

The funeral of the late Mr. Edward Quinn took pace this morning from his late residence, South John street. At St. Michael's church Rev. Father Killeen conducted services. In Belleville cemetery vault the body was placed. A number of floral tributes and Mass cards were contributed by relatives and friends. Bearers were Messrs. M. Conlin, C. Mullens, J. Lee G. Giffen, P. and F. Cote.

The floral and spiritual offerings were as follows:

Floral Offerings

Wreath—Mrs. E. Edwards, Toronto.

Cross—Mrs. Mac Diarmid and Mrs. Smith, Toronto.

Sprays—Staff Income Tax Office; Clarence and Jack Arnott, Mr. and Mrs. B. D. Harns:

Spiritual Offerings

Mr. and Mrs. R. A. Armitage, Mr. and Mrs. A Bunton, Mr. and Mrs. B. J Black, Mr. R. Blaind and family, Mrs. Barrett and family, Mr. and Mrs. W. Bawden, Mrs. and Gladys Bryer, Mr. and Mrs. T. R. Barrett, Mr. and Mrs. A. Burgoyne, Mr. and Mrs. D. Cotter, Mr. and Mrs. Maurice Connell, Mr. F. and Miss Carney, Mr. and Mrs. John Callaghan, Mr and Mrs. M. Connell and family, Mr. and Mrs. F. Cote, Guelph; Mr. and Mrs. Jas. Connally, Mr. and Mrs. M. Callahan, Miss Helen Cote, Toronto; Miss Stella Cournyea, Mr and Mrs. P. Cote, Mrs. M. Doherty, Mrs. Drumm and family, Mrs. J. Demarsh, Mrs. F. Dolan, Mr. and Mrs. Chas. Dolan, Mr. and Mrs Ed. Ethier, Mr. and Mrs. Jules Ethier, Jr., Miss Ethel Ethier, Mr. and Mrs. Capt. Fagan and family, Mr. and Mrs. H. Flagler, Mr. R. Foster, Mrs. M. Flagler and family, Mrs. Fairman, Mr. and Mrs. W. Frawley, Mr. and Mrs. Geo. Giffen, Mrs. Jos. and Mrs. Frank Goyer, Mr. Stephen J. Garvin, Misses Margaret and Teresa Graham, Mr. and Mrs. H. Geary, Misses Gaughen, Guelph; Mr. D. Gallagher and family, Mr. and Mrs. L. Horrigan, Mr. P. Hayes and family, Mr. and Mrs. L. P. Hughes, Mr and Mrs. Peter Johnson, Mr. and Mrs. Jos. La Palm, Mr. and Mrs. Jno. Lee, Toronto; Misses Lynch, Mr. and Mrs. A. P. Luscombe, Mr. and Jas. Lynch, Mr. and Mrs. M. J. Lynch, Mr. and Mrs. John Lee and family, Mr. and Mrs. Geo. Lee, Mr. and Mrs. H LaPalm Mr. and Mrs. McGuinness and family, Mr. M. Meighan, Miss Kathleen McCourt, Mr. and Mrs. T. SECOND
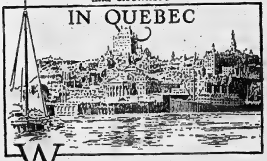
of the series dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere



WHEN the Bank of Montreal opened its first office in Quebec 106 years ago, travel between Montreal and Quebec was mainly by stage coach, occupying three days in the journey. The difficulties and exigencies attending travel were such that funds were only conveyed between the two cities "at the first safe opportunity."

With the opening of this Quebec office, the Bank of Montreal introduced into Canada branch banking, one of the elements that has contributed to the remarkable elasticity of the Canadian banking system, winning for Dominion finance an enviable reputation in all parts of the world.

Of the Bank's 567 Branches, 83 are situated in the Province of Quebec.

:-: Pictorial News Of Far-Away Points :-:

The Prince of Wales is seen among the boys of the Magdalen College mission, Somers Town.

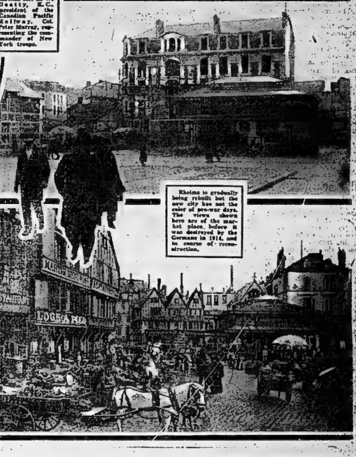
Prior to the sailing of the "Empress of Canada" on world cruise, Captain S. Robinson, her commander, was created Commander of the Order of the British Empire in recognition of his heroic work at the time of the Japanese disaster. Left to right, Sir Harry Armstrong, British Consul General at New York, Captain S. Robinson, C.B.E., R.N.R., Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, Col. Peter Murray, representing the commander of New York troops.

Some of the young immigrants who were recent passengers on the "Empress of Britain."

Mountie, the husky leader of the Chateau Frontenac, Quebec, dog team.

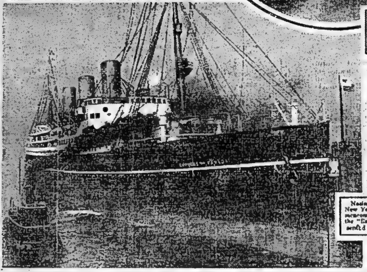
Taken from Thackeray's "Fireside Pantomime for Great and Small Children," "The Rose and the Ring." Prince Giglio making love to Betsinda at Wyndham's Theatre, London.

This is the kitchen of the Canadian Pacific quarters at Liverpool where third class immigrants are held pending the departure of their ship.



Rheims is gradually being rebuilt but the new city has not the color of pre-war days. The views shown here are of the market place, before it was destroyed by the Germans in 1914, and in course of reconstruction.

Stanley Baldwin, aged 2, believed in "Protection" and was under that of the Canadian Pacific from Liverpool to Hamilton, Ont. With him is Charlie Maguire, of Barrie, who answered Canada's call for professional footballers.



Nosing her way out of New York Harbor on the commencement of a world cruise, the "Empress of Canada" presented a majestic spectacle.

Political Upheaval Imminent
Spain May Replace De Rivera

BY MILTON BRONNER
NEA Service Staff Correspondent

Paris, Feb. 18.—Don't be deceived by the rosy reports about what is going on in Spain. And don't be surprized if at any time due to serious dissensions among themselves, you hear that Dictator Primo de Rivera and his whole crowd of generals have resigned and that King Alfonso has called on his old standby, 86-year-old General Weyler, to conduct the government for a time.

The military junta which grabbed supreme power last September has had a hard time trying to keep its promises of sweeping reforms, but disputes about the fate of fellow generals are the things that are sapping their strength.

Last year the Spanish army in Morocco, fighting the Riffs, sustained some of the greatest defeats in the history of the country.

Army Leaders at Odds

All over Spain, regardless of party, there arose a demand that those responsible for the debacle be brought to justice. The supreme council of the army has condemned one general to death and another to 17 years imprisonment for their alleged part in the Moroccan affair. But some military leaders say these men are innocent.

The heads of the army are thus at loggerheads. A feeling is growing in Spain that it might be well to return to constitutional government.

It's hard to tell just what is going on in Spain. As with Russia, there is a heavy censorship. Also as with Russia, no two persons seem to agree in their reports. Lately some newspaper reporters were welcomed in Madrid. King Alfonso and Dictator Rivera whispered soft nothings.

The king loved Rivera and Rivera adored his king. Apparently nobody asked any embarrassing questions and a nice time was had by all in the big stone palace.

A Tolstoi of Spain

But there is something to contrast with this stuff. It is the voice of the man who is the conscience of Spain—Miguel Unamuno.

Perhaps you never heard the name of this professor of Greek at the University of Salamanca. He is the greatest writer in Spain. He is philosopher, novelist, poet, essayist and seer. Apparently, he occupies in Spain a position similar to that held by Tolstoi in Russia of the Czars.

Tolstoi was so great that even the tyrannical Czars did not dare lay hands upon him. Unamuno is so great in his country that even dictators seem to leave him immune. And these are the scorching words he recently wrote to a great French newspaper:

"Poor Spain today is victim of the most barbarous reaction.

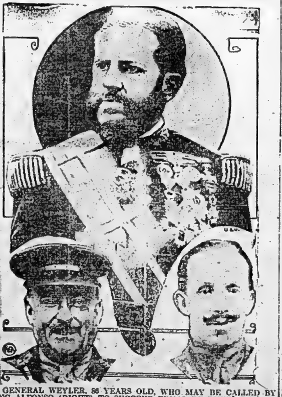
"We have come to the period where they say to one demands liberty. Of course. For anybody who demands it has his mouth closed with a gag and if he indicates with his hands that he is gagged, they fasten his hands."

Alfonso Adds Name to List

It is claimed people are complaining that the dictator's promised reduction in the cost of living has not taken place and that a very strict censorship on the press is maintained. It is pointed out that the Marquis of Cortina has been banished from Spain.

According to a tale, Rivera not long ago presented to the king a list of distinguished persons whom he wished banished.

"Ah," said the king, "you seem to have forgotten one name." So saying, he dipped his pen in the ink and wrote—"Alfonso."



GENERAL WEYLER, 86 YEARS OLD, WHO MAY BE CALLED BY KING ALFONSO (RIGHT) TO SUCCEED PRIMO DE RIVERA (LEFT).

PASTOR HONORED

At a largely attended meeting of the Quarterly Official Board of the Bridge Street Methodist Church, Friday evening, the popular pastor, Rev. F. E. Malott, B. A. B. D., was unanimously invited to the Bridge Street Methodist Church for the ensuing year.

The motion was made by F. E. O'Flynn, and seconded by C. M. Reid and W. B. Deacon, Geo. F. Ostrom, H. Holton, F. S. Deacon, Geo. F. Stewart an a number of other members of the Board expressed their great appreciation of the splendid services of Mr. Malott, and great tribute was paid to his successful work among the young people.

Mr. Malott accepted the invitation and expressed the great pleasure he experienced in his associations with the congregation of the Bridge Street Methodist Church.

A resolution was placed on the books expressing the appreciation of the Board for his splendid services and best wishes for Mr. Malott and the family.

Why Ford Predominates

VALUE

From 1904 until 1923 the Ford Motor Company of Canada, Limited, manufactured 450,000 Ford cars and trucks of which 91% are still in use. More convincing proof of their inbuilt worth could hardly be given.

Selected materials, simple design and accurate workmanship are factors in this long life. They explain the high utility and operating economy of the Ford when new. And they also give it the ruggedness to withstand the wear and tear of daily driving year after year.

This long life means slow depreciation, sustained value, satisfactory performance from your Ford while you continue to drive it, and a measurable resale value when you wish to dispose of it.

It means that the Ford gives you unusual value per dollar invested, not only this year but for a long term of years to follow—means that when you select the Ford you obtain approved security for the dollars you invest.

HERE, THERE AND EVERYWHERE

SPORTS THROUGH EDGREN'S EYES

By ROBERT EDGREN

The United States is going to find competition extremely hot in the coming Olympic Games, and we won't have the walk-over of former years. The rest of the world has gone in for athletics. Champions are being developed in many lands, and a large number of them will be Olympic point winners.

We will have a strong team. The colleges may bring out some new record breakers, but aside from that possibility we will not have as many outstanding champions as in former meets. Charlie Paddock and Loren Murchison are about the only unrivalled track champions Uncle Sam can count on. Their sprinting performances haven't yet been touched by the rest of the world and we have no other sprinters quite in their class. In the long distance events the Finns have had us outclassed of late, and now Nurmi, the greatest new Finnish runner, heavy point winner at Antwerp has broken the one mile champions with shot, discus and javelin. We are best in pole vaulting, the jumper, and hammer throwing. Hartranft is back at Stanford and if he takes the Paris trip may put the shot over 50 feet again and win. We always have good hurdlers and middle distance men, and plenty of fast runners for the relays. It is time for the A.A.U. to forget its ambition for universal control of amateur sport, and turn in and do its share toward bringing out a winning team. The American colleges will do theirs.

* * *

Frank Carbone fought 165 bouts without being knocked out. Then he met Paul Berlenbach. Seems that 166 is Carbone's unlucky number.

* * *

Here's a Rickard yarn that hasn't been printed before. It shows that Tex has a long memory. In 1910 Ted Rickard built a large arena in Central Park, San Francisco, under assurance that the Governor of California was favorably inclined, and that as the bout being held between Jeffries and Johnson was within the California laws governing boxing, there would be no interference. A few days before the date set the Governor suddenly discovered reasons, probably political for changing his mind. He ordered the prevention of the bout and threatened to call out militia if necessary to back his orders. They never catch Rickard flat-footed. He instantly decided that there was no use in trying to fight the Governor's orders, and within six hours had sold his uncompleted arena, received Governor Dixon's assurance that Nevada would welcome the fight, sent contractor McLaughlin to Reno to build an arena, on ground Rickard had leased by wire, had put money in the bank to refund on all ticket sales, camps immediately to Nevada, and was on the train to Reno, bag and baggage. Rickard made money on the fight, but taking it away from San Francisco cost him about a million dollars.

Tex Rickard was on the sports section of the Committee that went from New York to Washington to bid for the Democratic Convention.

Just before the session opened Rickard went to Charles Murphy and said: "Let's bid $500,000 for the convention."

"We're not a bunch of saps," replied the Tammany boss, surprised out of his usual classicalediction. "Forget it."

"We want the convention," said Rickard: "I give $500,000 for a fight—why not offer as much for a national convention?"

Unable to secure Murphy's O.K. Tex provided himself with a number of certified checks in sums of five and ten thousand dollars.

The bidding opened. When the amount got up around $40,000 Rickard bean pulling fists full of certified checks from his pockets. California was after the convention, and San Francisco bid as high as $50,000, and stopped. Rickard ruffled his fingers through his checks and carelessly bid $5,000 more, and the convention was awarded to New York.

"Say, Tex, why didn't you let us have it?" queried one of the San Francisco bidders.

Tex only smiled.

* * *

A special committee of the United States Golf Association has recommended that the weight of the offical golf ball shall be reduced from 1.62 to 1.55 ounces. If this is officially adopted the manufacturers will be given a couple of years to sell off present stock. The agitation for a lighter ball doesn't come from parties who have been beaned by golfers, or from the insurance companies. It was gotten up by golf officials who want to use less real estate money. The lighter ball won't travel so far when hit off the tee. Shorter driving—shorter courses.

The most popular point in golf is the occasional accident that happens to any dub golfer when he happens to time one right and slap the pill out just like Gene Sarazen. The long range call accounts for about half of the two million golfers now playing in the United States.

Experts say it will take more skill to play the lighter ball, because when there's any wind blowing it will sail around like a balloon. This will add to the delights of slicing, already one of America's most popular sports.

* * *

Luis Angel Firpo sends out weekly cables about his matches and the big purses he has signed for, the big arenas that will be built for his fights "near New York," and how much "Diamond Lew" Raymond has already paid Firpo—or promised to pay him, or something like that—for fighting a large dark gentleman here on July 4th.

For a fellow who is too economical to carry a press agent around our old friend Luis gets along pretty well.

We'll hear about those matches and purses and 125,000 seat stadiums, and Diamond Lew and various other enterprising gents, until Firpo arrives. After that Tex Rickard will probably be giving out the news.

Roach and Dye Win 2-1 Deadlock

Ottawa, Ont., Feb. 18.—Toronto St. Patrick's stayed in the fight for National Hockey League honors by reason of their two-to-one victory over Ottawa here Saturday night. Coming as a distinct surprise, the victory of the Irish was, nevertheless, well earned, and the two shots that "Babe" Dye counted with would have eluded any goaler in the business.

The teams were battling along with one goal each, and only forty-five seconds remained of the last period. The crowd had settled down for an overtime game, when Adams returned the puck from Clancy's rush. He was driven into the corner by Hitchman, but whipped the puck out to the right wing, where Dye tore in to secure it. It was a race between the Irish sharpshooter and Darragh, and the former won. Not having time to handle the disc, Dye mapped it at the cage. Benedict went down to block it, but it hopped into the net and the red light flickered a win for the visitors.

This was Dye's second goal, he having previously beaten the Ottawa net guardian with a blazing drive from the red line just after the second period opened. Cy Denneny secured the only local tally when he banged Hitchman's rebound over Roach's prostrate form, one minute and forty-five seconds after Dye had given St. Pat's the lead.

JUNIOR TEAMS ARE AGAIN DEADLOCKED

Toronto, Feb. 18—One hour's hockey again failed to declare a winner between Varsity III. and Aura Lee in the play-offs for championship of the Junior City Group of the O.H.A. When the teams met last Thursday they battled to a two-all tie, and when they resumed the battle in the second game of the round Saturday afternoon the sixty minute beel again found them deadlocked at two goals each, making the score four all on the round. The managers of the teams refused to let their players go overtime, as they were practically exhausted from the terrific pace when they left the ice, and it was decided to continue the battle to-night at the Arena. The decision to play an extra game has caused considerable unfaverable comment, but Andy Taylor, manager of the Arena, abolished the idea that overtime was not played to get an extra gate by ordering to-night's seats to be sold at the minimum, cutting the price in two in an effort to be fair to the public.

NOTICE! BOWLERS

We want to draw the attention of all lady and gentlemen bowlers that want to practice in the evening that two alleys are open to the public until 7.45, two until 8.30 and two from 8.45 until 11 o'clock. On Tuesdays, two alleys are open all evening and on Saturday nights all six alleys are open for practice, we also reserve the right to reserve alleys for any parties that make arrangements previously. Bowlers kindly keep these hours in mind and prevent waiting for alleys.

Hams Lose 2-1 Overtime Clash

Montreal, Feb. 18.—Odie Cleghorn, veteran player who has been filling a utility role with the Canadiens for the greater part of the present season, was the main factor in his club's two-to-one victory over Hamilton Tigers in the exteams at the Mount Royal Arena on Saturday night. This tricky player paved the way for the winning goal, which came thirteen minutes after the overtime session started, and gave Canadiens the victory and left them still tied for second place with St. Patrick's who scored over Ottawa at the Capital.

Sent into the play in the latter stages of the game when the Tiger forward line was beginning to establish a superiority over the tiring local front rank, die turned the tide in favor of Canadiens. Tigers, in the first extra ten minutes, were giving Vezina a busy session and then suddenly the veteran centre of the local team broke up a rush near Canadiens' blue line. He carried the puck down the ice and by sheer weight and good judgment barged through the Tiger defence. He could not complete the effort, but he had drawn the Tiger guards, leaving the puck loose in the goal mouth. From this position Billy Boucher swooped down on the disc and batted it into the net, ending a hard-fought gruelling game, and incidentally forcing Hamilton further away as possible contenders for play-off honors.

R.M.C. HOCKEYISTS DOWN WEST POINT

Kingston, Feb. 18.—The cadets of the Royal Military College defeated West Point American Military Academy in a hockey game at the Jock Harty Arena Saturday night by a score of 10 to 5. The score at the end of the first period was 3 to 1 for the winners and at the end of the second, 8 to 3. One year ago the Royal Military Academy cadets crossed to the American side and defeated West Point by a score of 3 to 0.

GORMAN WINS AND BREAKS RECORD

Saranac Lake, N. Y., Feb. 18.—The American national amateur speed skating championship passed into Canadian hands Saturday. Charles Gorman, of St. John, N. B., captured the title, and in so doing scaled hitherto unreached heights in speed skating annals when he flashed to victory in the world's record time of 36 3-5 seconds in the 440-yard dash. The Canadian flier scored 90 points. Harry Kaskey, of Chicago, the defending champion, was fourth in the final point score, with 40.

BIG LEAGUE STAR KILLED IN CRASH

San Diego, Calif., Feb. 18.—Norman D. Boeckel, star third baseman of the Boston National League baseball team died Saturday afternoon from injuries which he received in an automobile accident here Friday.

The accident occurred near the top of the Torrey Pines grade when three automobiles collided. Bob Albright Los Angeles theatrical man, who was driving the car, and Bob Meusel, of the New York Yankees, a passenger, escaped with slight injuries. Boeckel was removed to a hospital where it was found he was suffering from a fractured pelvis and puncture of the bladder.

ON THE ALLEYS

The Excelsiors got away to rather a poor start in their game with the Bowlers last night when they rolled a total for the first game exactly 250 less than their opponents. Besides this inauspicious beginning they had the additional handicap of a John Doe score to hold them down. The second game saw a decided improvement in their work but they could not repair the damage already done, however they were able to reduce the Bowlers lead to 190 at the end of the play.

EXCELSIORS

The Ramblers pulled a surprise on the Canucks in the ladies league at the Recreation Alleys Saturday and won out by 56 pins. The Canucks were just two pins up in the first game, lost the second by 131 pins and won the third but not enough to overcome the Ramblers lead. Miss Ryan for the Canucks was high bowler with 210 and 452 and Miss H. Blaind was high for the victors. In the junior league the National Castings lost to the O. B. C. and although Ethier rolled a single score of 310 and 565 for the three strings his team mates fell down behind him. For the students Wheeler was high man with 596. In the senior league the Ball Team rolled 2945 against the Sprinklers 2620, both these teams making their highest scores to date. Cornell, Denis and Weir were well over the 600 mark. Players and scores.

Jack Henry Williams Bids Adieu; Leaves Belleville 'For Good' Tonight

The following letter written by Jack "Lefty" Williams is self explanatory The Intelligencer joins Jack's multitude of Belleville fans and friends in wishing him the best success in the big league, together with health wealth and happiness.

Belleville, Feb. 18th, 1924

Dear Editor and Friends.—

I hope you will have a little space for these few lines.

I have at last got my instructions from the Rochester Club and I am leaving Belleville tonight for Verona, to spend a couple of days. then I am going to Haddock Georgia. I have to report there next Saturday morning to start my training in the pitching school there. I train there until March 16th, then my club comes along and we pitchers and catchers join them and we go to Savannah (no snow there). Then the New York Americans come along and with us they do their spring training. Watch old Babe Ruth smile when I am pitching. When I told Raymond Carr I would come to Belleville and make good I done everything I could to fulfill my promise I would like to have got you another Ontario Pennant but it wasn't my luck. I certainly appreciate everything my Belleville friends have done for me. Also the baseball club, their officers and also the press. My success is due to all of them.

I will always remember my two catchers, Peeney Mills and Firpo Hagerman. They always held me up so good when I was pitching. I wish they were coming with me. Stan is young and if opportunity ever comes to him, I hope he will follow me. I am sorry to leave you all. You have all been so good to me, but I must go. I hope you will be Pennant contenders next summer. I will be watching your papers. I am sorry to have to sell the furniture but I can't take it with me.

Belleville will always have credit for my start. I owe a lot to Raymond Carr and for him I am going to make good. Mrs. Williams joins me in wishing the baseball club and all their friends every success due them this summer. I am leaving by C. P. R. this evening so will say, good-bye and good luck to you all.

Miss Rambeau put Dr. Wolf on the wire. He said:

"Miss Rambeau, who has been overworked and laboring under a nervous strain, has been under my care for nine days. The result is that she now is suffering a complete breakdown.

STILL USE "SLOW" TIME

Word reached Port Hope some time Saturday last that Jack Williams had signed up with the Rochester ball club. The issue of Port Hope Guide of that date carried the story. It is doubtful if Port Hopers yet realize that their intermediate hockey team are out of the running.

"Well, what qualifications have you as a caddy?"

"Im the biggest liar in town."

Overcoats For Men

Do you wear a size 35, 36, 37 or 38? If so come and see the bargain we will give you. We also have just a few very large sizes 44 and 46, which we will sell at a big reduction.

It will pay you to buy now—lots of Winter yet and another to come next year.

When we advertise a bargain, you get it.

OF INTEREST TO WOMEN

SOCIAL and PERSONAL

Mrs. A. Harman and Mrs. R. King are attending the millinery openings at Toronto to-day.

Judge G.E. Deroche left today for Florida where he will remain until springtime.

Mrs. Irwin Armstrong of Hamilton is visiting Mrs. L. F. Green, Murney street.

Miss Ailene Fitzpatrick who has been visiting at the home of Mr. and Mrs. L. Mason, Cedar street, left today for her home in Smith Falls.

Miss Lillian Marsh, Octavia street, left yesterday for Montreal where she will visit friends and relatives.

Mr. Fred Wilson of Belleville was a visitor of Mr. and Mrs. W. Kennedy, King St., west, Oshawa, last week.

Mr. M. Dunsford spent the week end in Toronto.

Mr. Tom Ingham was a business visitor to Kingston on Saturday.

Mr. William Morrison visited Toronto over the week end.

Mr. Hugh Middlemiss left for his home at Brantford on Saturday afternoon.

Miss Violet Rowson of this city visited at the home of her parents at Port Hope, over the week end.

Menu For The Day

TUESDAY
Breakfast
Sliced Oranges Cereal
Bacon and Liver
Toast Marmalade
Coffee
Luncheon
Beef Balls Tomato Sauce
Potatoes au Gratin
Roast Apples Nut Bread
Tea
Dinner
Oyster Soup, Crackers
Baked Pork Chops, Apple Rings
Baked Potatoes, Creamed Onions
Grapefruit Salad
Cottage Pudding Coffee

Potatoes au Gratin

Reheat 2 1-2 cups cold boiled potatoes, cut in 1-2 inch cubes, in two cups thin white sauce, to which has been added 1 cup cheese, cut in bits. Season sauce with cayenne, Turn mixture into a buttered baking dish, cover with buttered bread crumbs which have been mixed with 1-4 cup grated cheese. Bake in hot oven till crumbs are brown.

Grapefruit Salad

Remove pulp from grapefruit, keeping each section intact. Cut heart stalks of celery in straws one inch long. There should be equal measure. Marinate separately in French dressing omitting onion. When ready to serve, drain, toss lightly together and arrange in nests of letuce with a spoonful of mayonnaise on the top. Sprinkle with paprika.

STOP that cough before it begins—take SCOTT'S EMULSION

WOMEN OF MIDDLE AGE

Relieved of Nervousness and Other Distressing Ailments by Lydia E. Pinkham's Vegetable Compound

Brooklyn, N. Y.—"I first took Lydia E. Pinkham's Vegetable Compound four years ago, and am taking it now for the Change of Life and other troubles and I receive great benefit from it. I am willing to let you use my letter as a testimonial because it is the truth. I found your booklet in my letter box and read it carefully, and that is how I came to take the Vegetable Compound myself. It has given me quiet nerves so that I sleep all night, and a better appetite. I have recommended it already to all my friends and relatives."—Mrs. ENGLEMANN, 2082 Palmetto St., Ridgewood, Brooklyn, N. Y.

For the woman suffering from nervous troubles causing sleeplessness, headache, hysteria, "the blues," Lydia E. Pinkham's Vegetable Compound will be found a splendid medicine. For the woman of middle age who is passing through the trials of that period, it can be depended upon to relieve the troubles common at that time.

You should give it a fair trial now.

Light Shoes For Men Are Popular

By "THE STROLLER"

New York, Feb. 16 (United Press).—Taking a look into the show windows of mens boot shops along Fifth Avenue, one is confronted with the fact that black is a color that is not favored as much as it used to be. And the same is true of the reddish-brown which was so popular not so long ago.

Light colored shoes are the ones which you find men wearing a lot nowadays. Some are even what used to be called "loud," especially those oxfords made of course grained leather, with heavy soles. But the browns and yellows have the call. The pointed shoe is a dream of the past. Most of the shoes today are square or round toed or with but an imperceptible shaping around the toes. The old comfort again.

But the man whose feet are a little larger than one would expect, or who feels embarrassment because of the prominence of his pedal extremities, there is always the good, old reliable black to fall back on, despite what his fellow men are wearing. If he wears a gaudy, yellow shoe the difficulty almost entirely disappears, because the dark shoes tend to make the foot appear smaller.

So, while the lighter shoes are popular the self-conscious man need have no fear that black will disappear. He can secure the same style of shoe in black that he can in lighter shades, as a general rule.

The epidemic of brogueing (that business of stippling or punching the cap of the shoe with intricate and fanciful designs) has passed and in its place we have the natural reaction of great plainness. Lots of shoes displayed in the shop windows in New York leave the fore part deserted of any adornment whatsoever, the shoe being perfectly plain from tip to the beginning of the shoe lace.

But this has its disadvantages, too. The part of the shoe which comes across the toes crumples considerably and the shoe fails to keep its shape for any extended period.

Saying which, naturally leads to the suggestion that the best way to preserve the shape of a shoe for as long as possible is to "tree" all the shoes in your closet. A little spare change spent on a few pairs of shoe-trees is an investment well worth making. As soon as the shoe is taken off at night, the shoe-tree should be inserted. This prevents the sole from "curling up," a condition which you may have noticed when you looked at that leather soled canvas shoes which you had tucked away last fall.

That Body of Yours

By James W. Barton, M.D.

YOUR HEIGHT AND WEIGHT

Years ago we were taught that the ideal height for a man was 5 feet 7 inches, and for a woman 5 feet 4 inches. This is for an adult of twenty-five to thirty years of age.

It was said that the atmospheric pressure at this height was ideal for the human body.

What about it?

Well most men would like to be least 5 feet 10 inches, whilst for women 5 feet 4 inches is the most popular, as that is the height of the Venus de Medici.

What about it from a health standpoint?

Well insurance companies prefer the heights of 5 feet 7 inches for men, and 5 feet 4 inches for women, so thatour early teachings must have been founded on facts.

It would appear that where a man or woman is a great deal taller, or a great deal shorter than the above heights that they are not considered as good a risk. Of course this does not tell the whole story, because the family history is more important even than the height. These companies have thousands of cases from which to draw their conclusions.

Of course the height is important in relation to the weight. For instance the man 5 feet 7 inches should weigh about 140 to 145 lbs at twenty-five years of age, and about ten pounds more than that at fifty to be considered a first class risk. For every inch over this add 5 lbs, and for every inch less subtract 5 lbs. If he weighs twenty pounds less or twenty pounds more he would not be as good a risk. In the one case, although older, they might suspect tuberculosis or some wasting condition, and in the other heart or kidney trouble. As a matter of fact to be a little, just a little lighter in weight as you grow older is really an asset, and the companies will tell you that those of lighter build stand the acute illness better that the heavy type.

Another thing they point out is that very old people are generally light in weight.

What lesson in this?

That as you grow older that you do not permit youself to get more than ten to fifteen pounds overweight at the most.

Simply cutting down on your food intake will keep your weight down. A little light exercise like walking will keep you nimble and light on your feet.

I haven't said anything about the two types of build—greyhound and bulldog. I've just used the insurance companies figures.

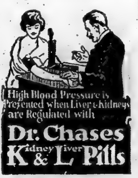
WHAT'S WRONG WITH SO MANY COMPLEXIONS?

Body ills are often due to a wrong diet—indeed, what we eat has largely to do with good or bad health. But there is one disorder that we can definitely trace to faulty food, a pimpled or erupted skin. Even beauty culturists admit the cure must come from within—balms, lotions, ointments being external agents to relieve but not to banish.

Especially in winter, must the diet be watched. White flour, meats, sweets, and refined cereals are "Excess Acid" foods cause acid blood. Acid blood is the direct cause of unsightly complexions.

Roman Meal is the natural corrective of this skin condition, because it is the richest in alkalis of any grain product. In fact, it is the only alkaline grain product now sold. This is because it contains the dark flour from three whole grains and that carries these alkalis. The white, dainty, refined flour and cereals have these mostly refined away, hence acid blood and unsightly skin conditions.

Roman Meal corrects blood acidity, soothes, heals, and clears th skin. In addition, it prevents indgestion and positively relieves constipation. With one excepton, it is the cheapest food sold. For rowing children, nursing and expectant mothers, it has no equal as a food. At grocers.



High Blood Pressure is Prevented when Liver & Kidneys are Regulated with Dr. Chase's Kidney Liver K & L Pills

World Champ!

Irvin Cobb's daughter, Elizabeth Cobb (above), was married the other day to Frank M. Chapman, Jr., in New York City. Photo shows her in costume taken at a recent society affair, out of town.

CLEVER CROOKS FINALLY FOILED

Stole Ladies' Dresses and Jewelry in Toronto, Stored Loot in Oshawa, and Re-shipped to Montreal

Oshawa, Feb. 16.—Good work on the part of Police Friend and Detective Williams of Toronto police force resulted in securing in Oshawa sufficient evidence to warrant the recent arrest in Toronto of Israel Schwab aged 18 and Morris Rosenbaum aged 19, on eleven charges of shopbreaking and four of housebreaking. The carnival of crime with which Schwab and Rosenbaum are alleged to have been connected dates back to May. In that time goods estimated at $15,000 were stolen and a large part of the loot was found in the rooms occupied by Schwab and Rosenbaum in Toronto. Still more was recovered in Oshawa where the men had disposed of it. The stolen property included women's dresses, cloth, suits, suit lengths, jewelry and automobile supplies. The goods found in the room where the prisoners were arrested in bed had been packed in boxes and ticketed preparatory to shipment to Montreal.

Officers Follow Clue

The Toronto police have been looking for the men guilty of the foregoing list of robberies for months. Suspicion was directed to Schwab and Rosenbaum who had friends in Oshawa. Chief Friend was notified and Detective Williams came here. The two officers worked on the case and succeeded in locating quite a part of the stolen property and with this information in his possession, Detective Williams returned to Toronto satisfied that he was on the right track.

A HARD NUT

A couple of travelling salesmen between train waits, were checking up their order sheets.

"Hapgood is a hard man to get an order from," said one.

"I didn't find t so" differed the other

"You don't mean to say you got an order from him do you?" questioned the first.

"I sure did," assured the other.

"What was it?"

"Get out!"

LOVE, THE TYRANT
OR,
WHERE HER HEART LED
BY
CHARLES GARVICE

The man looked at him with a kind of good-tempered resentment.

"We'd a-been all right if it hadn't stopped suddenly," he said.

"For shame, Martin!" Miss Vancourt broke in. "The horse was bolting, and this—this gentleman stopped it in the—the—the most wonderful way. It is a marvel he wasn't injured, and that you're not killed."

Martin, though not killed, looked very much wounded in spirit.

"Me, miss! Lor' bless your innercent heart! I've been tumbling out of carts all my life—"

"You'll tumble once too often, my friend," said Jack, who wanted to cut the business short and get on his way. "Tumble up now, and keep a steady hand on her. You're all right by now, aren't you?" he added, significantly.

The man understood and nodded.

"Right as rain, mister! Sorry I've caused all this rumpus, though if the mare had been let alone—" He moved toward the cart, but stopped and winced and put his hand to his leg with an air of surprise and humiliation. "Blest if I don't think I've been and hurted my blessed leg!" he muttered.

"Esther, you surely will not permit the poor man to drive that dreadful horse in his injured condition!" said Miss Worcester, in a flutter of excitement and anxiety.

Esther bit her lip softly and looked about her helplessly, then her face cleared.

"Of course! Aunt, you must drive to the farm and tell them to send someone, and I'll wait here; unless—"

Jack saw it coming and resigned himself.

"I'll drive him home," he said. "Is it far?"

"Oh, will you? Thank you very much," said Esther, with obvious relief. "It is the home farm—at the lodge, you know. It is very kind of you, and I—we—are very much obliged, I'm sure."

Jack raised his hat, but was too busy hoisting Martin into the cart to pay much attention to these polite expressions.

"We'll follow and wait to see if he is hurt," she added.

"He's either broken or sprained his leg—the latter, I think," said Jack. "Anyway, he'll want a doctor."

"Of course!" said Esther, again, apologetically. "We'll go and fetch him: it is only into the village."

Jack made Martin comfortable in the bottom of the cart, and mounting, kept the mare—who, with the cuteness of her sex, was well aware that she had met her master—at a walk. Presently Martin began to fidget with his hand at his coat, an anxious expression on his ruddy face.

"Lost anything?" asked Jack.

Martin succeeded in lugging a bottle out of his pocket, and, with a sigh of relief, remarked:

"It's all right! Blest if I didn't think I'd broke it. It's whiskey—have a drop, mister?"

Jack laughed and shook his head.

"No, not just now, thanks. No, you don't!" and he took the bottle away as it was approaching Martin's lips, "That's the wrong sort of stuff for your complaint."

"Whiskey's good for everything," said Martin, in a solemn and injured tone of voice. "You're talkin' foolish, young man!"

They reached the lodge at last, and Mrs. Martin came out. She uttered a little cry, but did not appear to be overwhelmed with astonishment.

"Is he very much hurt—this time?" she asked.

"Oh, no!" said Jack, cheerfully. "Lean on me, my friend. He's not though. Shut that door—there's no need to frighten the child," he added, in a lower voice.

The woman looked at him: the mother's look of appreciation—and between them they got Martin upstairs. When Jack came down again the jingle was just driving up; and there was annoyance and impatience in Miss Vancourt's face.

"The doctor is out," she said. "So provoking! Is he very much hurt?"

"Simple fracture," replied Jack.

She looked at him.

"Are you a—a doctor?" she asked.

"No," said Jack. "But I've seen a broken leg before. The doctor will be here presently, I suppose?"

"Oh, yes; we left word," she said. "How unfortunate it is. And Nettie, Mrs. Martin's little girl, ill. I'll go in and see her; perhaps she's frightened."

She entered the little passage, but Jack unceremoniously stepped in front of her and blocked her way.

"You can't go in there," he said, in his curt, not to say masterful, way.

She looked at him with amazement in her beautiful grey eyes.

"What?" she said, her face flushing. "Why can I not?"

"The child has the measles," he said, quietly.

"Well?"

"Well!" he echoed, rather impatiently. "Why, you may catch it; and it's a bad kind."

The colour deepened on her face, and her eyes fell before his cool and somewhat weary and bored ones; then she looked up with a hauteur which, if the truth must be told—and the truth shall be told of Esther Vancourt in this record—was not a little assumed.

"Please stand aside. Do you think I'm afraid? I'm—I'm ashamed of you!"

Jack shrugged his shoulders and stood aside, and she swept in like a queen; but looking over his shoulder a moment after, he saw her kneeling beside the cot and kissing the child, whom she had taken in her arms.

"Like the picture in a Christmas number!" he said to himself. "Well, I'll be off and take that remembrance of her with me."

He called Bob, who was sitting bolt upright eyeing the proceedings with a philosophic calm, and made his way to the door. But he was not to escape so easily.

"Oh, where are you going, my good man?" asked Miss Worcester from the jingle.

"To London, ma'am," said Jack, raising his hat.

"Oh—er—really. I think you had better stay!" said the old lady, with the calm assurance—Jack mentally called it cheek—of her age and class. "My niece may want you. At any rate, I shall be glad if you will remain here till she has spoken to you—and the doctor comes."

Jack bowed and leant against the porch.

"I chuck up the sponge!" he said to himself, with an air of resignation and long sufferinng. "Bob, Fate's one too many for us! This is the last time you and I do a friendly deed, old man; the very last time; and don't you forget it!"

(To be Continued.)

Aunt Martha's

HOUSEWIVES COLUMN

It is interesting to a good housekeeper to look around one of the Dominion Stores. She might be a little jealous, though, to see a mere man like the manager so amazingly expert in keeping things shiningly clean.

The 800 Dominion managers are proud of their red-front stores. They are trained in the best methods of keeping them bright and spotless—from the plate glass windows in front to the floors, counters, shelves and groceries within. Just take a look around next time you go into a Dominion Store. Look in the corners—anywhere. You will like the good "housekeeping" you see there.

The best thing about it is that you are sure of getting clean, fresh food in such a store. Whether you want your old familiar favorite brands, or the high quality, low price, special Dominion brands, you know you are getting brand new stock that has been properly cared for in its short journey from the maker to you—the user.

At surprisingly low prices, too. For the Dominion buying experts buy for the biggest retail grocery organization in Canada. Food makers are glad to sell at record-breaking low prices when they can sell in such great quantities. So we buy for less and pass these steady savings right along to you.

Over a million customers a week buy at the hundreds of Dominion Stores. More and more housewives discover that the sure way to feed their families for less is to buy regularly where every price is a bargain price.

Aunt Martha

DOMINION STORES
LIMITED
Canada's Largest Retail Grocers

Just one teaspoonful for each dishwashing

54 dishwashings in every packet

LUX is so rich in pure soap, that just one teaspoonful of the satin-like Lux flakes makes the dishwater soapy all through.

One swish of the dishmop, and your dishes are sparkling and clean. No need to dry them when you use Lux. Simply rinse them out in hot water, and place them on the dish-rack to dry. Lux does not leave them streaky and cloudy, but spotless and glistening in their original beauty.

Lux is sold only in sealed packets—dustproof!

For pretty hands

And Lux is so easy on the hands. It is as pure as a fine toilet soap, and hands which have become coarsened or reddened through dishwashing with strong soap will soon be restored to the soft, smooth texture so much desired, if you use Lux in the dishpan.

D. R. Kennedy of Buffalo as General Agent at Montreal; J. E. Parker, General Agent Steamship Traffic, Montreal to Toronto in the same capacity; and H. R. Mathewson to Buffalo, as General Agent, from the office of Assistant General Agent at Chicago.

Important changes in transportation circles just announced at the headquarters of the Canadian Pacific Railway affect six traffic men very well known throughout Canada and the United States, and offices at Montreal, Toronto, Buffalo and in the Orient.

E. F. L. Sturdee, general agent of the Canadian Pacific at Seattle has already left to take the post of Acting General Passenger Agent in the Orient. In recent changes, Mr. Sturdee stands senior in the service of the Company which he joined as junior clerk in 1893 at St. John, N.B. During his thirty-one years of service he has made many friends all over the North American Continent.

Edward Stone, although he only joined the Chicago office of the Canadian Pacific in 1916 has had long and varied service with rail and steamship business and his appointment as general agent at Shanghai meets with general appreciation. For three years Mr. Stone represented the Canadian Pacific as General Agent at Yokohama.

H. B. Beaumont, who held important posts in the European service of the Company, and has for the last few years been General Agent of Ocean traffic in Toronto, is appointed to the Montreal office as Assistant General Passenger Agent, Steamships. Mr. Beaumont was for many years connected with the Allan Line which company was absorbed by the Canadian Pacific.

Other important appointments are those of D. R. Kennedy of Buffalo as General Agent at Montreal; J. E. Parker, General Agent, Steamship traffic, Montreal to Toronto in the same capacity; and H. R. Mathewson to Buffalo as General Agent, from the office of Assistant General Agent at Chicago.

Here and There

Although the Canadian Pacific Railway has yet issued no forecast of construction contemplated for 1924, the fact that it has ordered 50,000 tons of steel from the Algoma Steel Company, of Sault Ste. Marie, seems to indicate that its program will be extensive.

According to a statement recently made by the Hon. Charles McCrea, Minister of Mines for the Province of Ontario, 85 per cent of the world's nickel supply is being taken out in the vicinity of Sudbury, where there is an inexhaustible supply of this metal.

Alberta's butter production last year was 18,500,000 pounds, or 2,600,000 pounds more than in 1922, according to reports presented at the annual meeting of the Alberta Dairymen's Association. It was not so long ago that Alberta was using butter imported from New Zealand.

The year 1923 was a favorable one in the building and construction activities of Canada, and returns show an advance of about 10 per cent. In 1922 the total expenditures in this regard were $315,000,000, and in 1923 $345,000,000, an increase of $30,000,000.

Exports of pulpwood from Canada for the year 1923 amounted to 1,384,230 cords, compared with 1,011,332 for 1922, an increase of 372,898 cords or 35 per cent. The 1923 figures are equivalent to about 900,000 tons of newsprint, the amount which can be manufactured from that amount of wood.

C. E. E. Ussher, General Passenger Traffic Manager, and E. J. Hebert, First Assistant General Passenger Agent, of the Canadian Pacific Railway, have been presented with medals by the French Government, in recognition of their services to the French Exhibition train in Canada in 1921. The medals take the form of tablets on small stands.

Attention has been drawn once more by airship experts in London, England, to the fact that the only known supply of helium gas in the British Empire exists in the Province of Alberta, that 10,000,000 feet of this gas is going to waste annually in this province and that the possibility of establishing an airship base at some future date in Alberta is being discussed.

Canada's fisheries production during 1923 is estimated to be worth $40,000,000. At the beginning of the year it was not thought that anything like this mark would be reached, for the Fordney tariff had cut deeply into exports to the United States. But as the year wore on the demand and prices generally improved, thus giving fishermen along the Atlantic coast especially a much better price.

Official figures recently issued show that the Dominion of Canada is the greatest single contributor to the wheat supply of the world. She stands second only to the United States in automobile exports. Her flour exports are far ahead of the palmiest war years and are rapidly gaining in the foreign markets. Canada's mineral, forest, agricultural and fisheries industries are now valued at $2,420,000,000, or $252,000,000 higher than a year ago.

British immigration during the nine months ended December, totalled 64,127, compared with 28,526 in the corresponding period of the previous year, an increase of 125 per cent. Immigration from the United States was 17,282, compared with 18,982, a decrease of nine per cent. Total immigration for the nine-month period of 1923 was 124,680, compared with 60,247 in the same period in the previous year, an increase of 107 per cent.

The Canadian Pacific Railway has received from Boorings, Willis, Faber & Company, 2,152.10 pounds sterling for distribution to the officers and crew of the steamship "Empress of Australia" for saving their ship and for salvaging during the Japanese earthquake. For the purpose of purchasing a memento to be presented to Captain Samuel Robinson, C.B.E., R.N.R., then commander of the "Empress of Australia" and now commander of the "Empress of Canada" on her world cruise, 210 pounds sterling have been retained from the above amount. Plans are being made to honor the captain when the "Empress of Canada" reaches Yokohama next May, the Japanese government participating in the ceremonies.

STARTS ACTION FOR $20,000 DAMAGES

Ottawa, Feb. 14.—An action for $20,000 damages for the death of her husband, the late Charles G. Hanger who died from injuries received by being struck by a motor car here on December 19, last, has been taken in the Supreme Court of Ontario by Mrs. J. Louis Hanger, widow, against Charles E. Living, and Charles W. Living, Westboro, one of whom owned the motor car which struck Hanger, and the other who was the driver of it.

SOMEWHERE IN FLORIDA

To be somewhere in Florida, where the sun is always shining, where the golden oranges hang in clusters on the trees, the palms stir gently to the warm breezes and "where the sweet magnolia blooms," is the thought in the minds of hundreds of Canadians every winter.

When Canadians at home are skating and ski-ing, those in the south will be surf-bathing, sun-bathing on the warm sands, deep-sea fishing, golfing, etc.

When making arrangements for the trip south, consult any agent of the Canadian National Railways for particulars of service. Winter tourist fares are now in effect, valid to return up to June 15th, and good for stop-over at all important points.

GLASSES!

Well becoming to your features, yet filling your every Optical need. This is the place to get them.

So, if your eyes trouble you at all, don't neglect them another day. Let us give them an examination and advise you as to just what kind of Glasses will do you the most good. Our prices and service will please you.

Get a 35 cent bottle of St. Jacobs Oil at any drug store, and in a moment you'll be free from pain, soreness and stiffness. In use for 65 years for rheumatism, sciatica, neuralgia, lumbago, backache, sprains.

Ontario mothers Declare Vicks Wonderful for Cold Troubles

IN the columns adjoining are given the actual experiences of a number of Ontario families who have adopted the use of Vicks VapoRub since it was introduced here last winter.

Though new here, Vicks is old in the States, where over 17 million jars are used yearly—for croup, children's colds, babies' colds, adults colds' catarrh, sore throat, bronchitis and all other such troubles down to incipient pneumonia.

A Vapor Lamp in Salve Form

Vicks is an ingenious combination in salve form, of the world's best remedies for congestion and inflammation. It contains Camphor, Menthol, Eucalyptus, Thyme, Oil of Turpentine and other volatile oils, which are released vapors when the salve is acted upon by the heat of the body. These vapors are taken with each breath, into the nose, throat and lungs, clearing the passages, loosening phlegm and relieving the congestion.

At the same time, the application acts like a liniment. poultice or plaster, drawing the blood away from the congested parts and relieving that soreness and tightness.

Double Direct Action Brings Quick Results

This treatment often gives amazingly quick results. Colds vanish over night. Croup is relieved inside of 15 minutes. Or one application at bed-time may keep croup away altogether. For deep chest colds, bordering on bronchitis or pneumonia, it is unexcelled. Melted in a spoon and inhaled, Vicks clears the head instantly. Fine for nasal catarrh and mouth-breathing at night.

Vicks is especially favored in homes where there are young children. Its use does away with dosing for colds—saves their delicate stomachs. It is not necessary, as with vapor lamps, to close the windows at night.

Vicks is equally good for cuts, burns, sores bruises, bites, stings and skin itchings. Thus it is useful every day in the home.

Vicks has met severe tests in these Ontario Homes

BRONCHITIS

Mrs. J. A. Rickett, of 60 Everett St., Belleville, Ont., writes: "I have found Vicks VapoRub all and more than it is advertised to be. I have used it for bronchitis and colds in the chest on my self and daughter; also for tonsilitis on the little girl I have here in my care. Vicks worked wonderfully."

CHEST COLDS

Mrs. George A. McCaw, of 22 Wallbridge St., Belleville, Ont., says: "My little girl had a cold on the chest. I rubbed her chest with Vicks and in the morning her cold was a lot better. I did the same to the baby when he had a cold and it relieved him."

HEAD COLDS

Mr. W. C. Jenkins, of 439 Johnston St., Kingston, Ont., writes: "I have used Vicks VapoRub for colds in the head and throat and it gave me great relief. I can recommend it as a household remedy. My wife is troubled with pharyngitis and at the first symptons she applies Vicks. She has warded off many attacks in this way."

CHILDREN'S COLDS

Mrs. Wm. J. Bounleau, of 95 Ragland Rd., Kingston, Ont., says: "I used Vicks on my little three-year old son when he had two very severe colds this winter. Vicks completely relieved him. I would not be without Vicks in my home and highly recommend it."

CROUP

Miss Lillian Marie Kenney of Wolfe Island, Ont., writes: "I found Vicks very good for croup, sore throat and coughs. My father got a large jar in Kingston and we have never used anything better for colds in the head and chest. At one time we were all sick with influenza and we found Vicks most helpful."

CATARRH

Mr. J. W. Milligan of Demorestville, Ont., says "I used Vicks VapoRub for catarrh in my head. I rubbed my forehead and nose with it and inserted small pieces in my nostrils. After the first few applications I was greatly relieved."

GRIPPE

Mrs. Edward Martin, of R.F.D. No. 1, Deseronto, Ont., writes: "The children had the grippe and severe headache. I bathed their heads with hot water and then applied Vicks VapoRub. They were beter in an hour and the fever left them."

COUGHS

Mrs. Henry Hears of Carleton, Ont., says: "I was greatly pleased with Vicks. I have been bothered with my chest and a nasty cough for a long time. I rubbed my chest with Vicks and I know it did me a great deal of good. I also found it good for burns and for cracked lips and recommend it to all my friends."

VICKS VAPORUB

OVER 17 MILLION JARS USED YEARLY

50c. A JAR AT DRUG STORES.

Australene Corticelli Yarns in one ounce balls in all the wanted shades including Sands, Browns, Buff, Coral, Rose, Helio, Nile, New Blues, etc., etc.

NEMO CORSETS

Sold by RITCHIE'S

Nemo Standard No. 131 Auto-Massage

A woman was heard to remark the other day: "I never knew there was real comfort in wearing any corset until I tried Nemo Corsets."

Corsets are not only the foundation of style, but are a preserver of health when properly selected. If not properly selected and fitted it not only makes style impossible, but many times results in bodily discomfort.

The Corset Section announces the arrival of many new models. This bit of news will be welcome, for, of course, you'll want to be fitted for a new corset or girdle before ordering your new spring gown. In fact the new lines demand a new corset.

A retained corsetiere will give expert attention to all fittings.

Sergical and maternity corsets are fitted with superior skill in the proper manner.

Stop at the Corset Section and see the New Models in CORSELETTES GIRDLES, CORSETS and BRASSIERS

RUSSIAN TRADE MUST WAIT ON CREDIT ESTABLISHMENTS

By J. W. T. MASON

New York, Feb. 16 (United Press).—Great Britain's recognition of soviet Russia by the new Labor government of Premier Macdonald means the diplomatic restoration of the Russians to international relations but economic restoration must wait on Russia herself. Resumption of trade between Russia and the world on an important scale depends on the confidence which financiers will have in Russia's future integrity.

Diplomatic recognition it is hoped by the British workingmen will be followed by the opening up of Russian markets for British manufactures. If this happens, unemployment in Great Britain will decline. But it cannot happen unless British merchants are willing to send their goods to Russia. Reluctance to give the Russians credit has been the principal drawback to Anglo-Russian commercial intercourse since the war. British merchants have never shown in the past special trust in political recognitions of foreign revolutionary governments. They have decided the question of credits apart from recognition. They have often guessed differently from their government, and often guessed earlier.

Taking a Chance

British foreign trade is in the hands of venturesome pioneers, however, who continuously make fortunes by taking risks. The risk of Russia has been very cautiously approached to the present. Nevertheless, there are signs that risks are being taken. They hav been moderately successful, and that is all. For British unemployment to fall on an important scale, British traders must show far more venturesomeness in Russia than they have done.

There is every pressing reason in Great Britain for bringing about successful trade relations with the Russians. But recognition of the Soviet by the Macdonald government is as far as the British can go. The next move must be on the part of Moscow. It will be necessary for the Bolsheviki to demonstrate to the satisfaction of international traders that their credit is good and that they are restoring Russia's own productivity. Until this is done all Europe may recognize Russia without producing an economic effect.

Hope has been expressed by Russians that recognition would be followed by the granting of foreign government loans to Moscow. If this were to happen it would be only because the foreign governments would expect the money to be spent with their own nationals for purchasing manufactures for Russia. The American government has taken this step, in roundabout fashion, by subsidizing American farmers for sending foodstuff to Russia.

Loans to Russia

Loans to Russia in such forms would be scarcely disguised philanthropy, not for the Russians, but for the people making the loans. The Russians cannot get back to the right road to prosperity until they can borrow abroad on their own credit as a nation, and use the money for internal development. Then foreign trade will follow in the only permanently safe path of exchanging goods for goods.

How far Russia is from being able to take this course remains to be seen. Lenders are reluctant to advance money unless there is a reasonable probability that it will be returned. Any government's attitude toward its past loans has long felt influence. This influence never is permanent; but it lasts a long while. That is the principal reason why Russia may expect difficulties in capitalizing the mere fact of British political recognition of the Soviet.

Drink Water If Kidneys Bother

TAKE A TABLESPOONFUL OF SALTS IF BACK PAINS OR BLADDER IS IRRITATED

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids; to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here. Take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush to neutralize the acids in the system and stimulate sluggish kidneys; also so they no longer irritate thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure and makes a delightful effervescent drink. By all means have your physician examine your kidneys at least twice a year.

FIRE DESTROYS FINE OLD HOME

Overheated Stove Pipe Causes Destruction of Thurlow Township Home stead

Fire which started from an overheated stove pipe, completely destroyed one of the oldest and finest farm homesteads in Thurlow township, late Saturday afternoon, driving the owners into zero weather, when the large residence on Leaven's Brothers farm, three miles from this city was burned to the ground.

Helpless to save the house which was being rapidly licked up by the seething flames, neighbors gathered and put up a brave and successful fight to save the barns. Once the barn caught fire, and it was feared it would also be destroyed. The work of neighbors, and the fact that a heavy coating of snow covered the roof, saved the barns.

The house which resembled an old time castle from the Kingston highway, as it nestled on the slope of a knoll, a pretty creek winding between it and the highway, was one of the sights of the drive along the highway towards Shannonville, with its tower, old fashioned arch windows and its massive appearance. To-day it is a smouldering ruin, but the thick, well made, red brick walls will stand, in defiance of fire, showing the excellent workmanship and material which made such a building possible.

The Leavens' home has been in the family for half a century, it being the former home of the late David R. Leavens, whose widow now resides at 252 George street this city. Three brothers, grand children of the late David R. Leavens, now operate the farm.

A few articles of furniture were saved from the ground floor of the house but the spread of the flames upstairs was so rapid that nothing could be removed.

The building and contents were insured but the insurance was by no means equal to the loss. Insurance was carried by a Trust Company in Toronto.

LOCAL PUPILS SAVE PENNIES

The pupils of Belleville Public Schools evidently save their pennies judging from the report of the Penny Bank Saving. The average monthly deposit is 20c for each scholar.

During the months of November and December last $782.10 was deposited. The deposits for the same period for three years were as follows:

	November	December
1921	$430.14	$272.81
1922	495.98	242.10
1923	429.25	352.85

QUEEN'S WIN IN HARD FOUGHT GAME

Defeat Local Y.M.C.A. Basketball Team by 35-26.

Although they were leading the score column at half-time the local basketeers were not able to head off the rush of the Queens University Five in the second half of the scheduled O. A. B. A. fixture played on the latter's floor Saturday night. At half time the score was 13-10 for the Belleville Quintette, but the superb playing of Hewgill, the stellar Queens forward, robbed them of a win. This one member of the Queens aggregation was responsible for 24 of their 35 points, the other three forwards geting only eight points between them The scoring of the Belleville Five Was prety well divided up amongst the members of the team with Armstrong taking the lead. The final score was 35-26.

The teams lined up as follows:

Queens—Forwards Hewgill, Ada Swayze, Gordon. Centre Graham Guards, Cleary, Ellis and Lane.

Belleville— Forwards, Armstrong Doughty and Nurse. Centre, Hitchon Morden, Guards, Weir, Alexander.

Following the Belleville—Queen's game, the Queen's Intercollegiate team played the McGill University Five which aggregation they managed to put away to the tune of 35 to 17. The members of the Belleville team were fortunate in seeing part of this game also the latter part of the hockey game between R. M. C. and West Point which was won by R. M. C 9-5. The Americans certainly put up a good exhibition of hockey for a team which has had ice to practice on for less than two weeks as claimed in their case.

Queen's team play the return game in Belleville Saturday Feb. 23rd.

In Division Court this morning before County Judge Wills, a case for damages was heard and judgment reserved. A.C. Cronk, taxi owner of this city was the plaintiff and J.C. Acton, defendant. The action arose out of a collision which occurred between cars driven by the two men at corner Front and Station streets. It was alleged that Acton at the time was driving in a reckless manner and his contention was upheld by Police Magistrate Masson when a charge of reckless driving was preferred against Acton, and he was fined.

An exciting moment in front of the Oxford goal, when Oxford Occasionals played Cambridge Wanderers in one of the most important hockey matches of the season.

ONTARIO BUDGET SHOWS HUGE DEFICIT

PANIC STRIKES BOURSE AS FRANC TAKES FRESH COLLAPSE IN VALUATION

Chamber of Deputies in a Stormy Session in Frantic Discussion of Financial Crisis—Pound Sterling is Quoted at 103.70 Francs—New Articles are adopted

FEVERISH MOVE

Four Million to Five Million Shares Changing Hands Daily on Bourse—Invaded by Crowds Seeking relief—War-Time Measure May be Adopted

Paris, Feb. 19 (British United Press, by Webb Miller, Staff Correspondent).—The franc suffered a fresh collapse today, crashing from 23.80 to the dollar at the opening to 24.20 at 11, 10 am.

The pound sterling was quoted at 101 francs, 90 centimes at the opening and 103.70 at 11 10 am.

Conditions in the money market were described as "panicky". The Chamber of Deputies was in stormy session in frantic discussion of the situation until 530 am.

Just before the adjournment the tired legislators, worn from a night of hectic argument at times featured by the wildest debate, adopted 25 articles of the Government financial program. Discussion of 11 other articles will be continued Wednesday. Further difficulties are feared regarding the proposed new prices on tobacco (a Government monopoly) and the proposed monopoly on matches.

Wild Speculation on Bourse

An atmosphere of fever reigned all day on the Bourse, where the slump in the franc has provoked a wave of speculation, as a result of which dealings in stocks, especially foreign, have reached colossal proportions. No fewer than 4,000,000 to 5,000,000 shares are changing hands daily in Paris. The Bourse is invaded by crowds of people who had never set foot in it before.

Business is so brisk brokers find their book-keeping is hopelessly in arrears. Hundreds of thousands of shares are sold and resold and sold again several times a day. In order to catch up, brokers propose to close the Bourse Saturdays.

Another proposal is that all exchange operations be prohibited pending institution of an official market on the lines of the one that functioned during the war. Former Finance Minister Marsal proposes a tax of three per cent. or more on all foreign securities negotiated in France. Louis Loucheur, former Minister of the Liberated Regions, proposes a gold loan of 2,000,000,000 francs. He believes peasants still possess that amount hidden in their stockings, and would lend it to the Government if assured their subscriptions would be redeemed at gold value.

It is also suggested the people be asked to lend the Government their foreign securities. This it is thought, would enable the authorities to regain control of exchange and stabilize the franc.

THE WEATHER

Strong easterly winds, cold with local snow falls and flurries.

Wednesday—Strong north east winds with snow.

FRENCH CLAIM BIG REDUCTION IN WAR DEBTS

Suggestion Made to French Government May Entitle One-Third Reduction

EXCESS PROFITS

Advised to Claim Third of Money Returned In Form of Taxes

Paris, Feb. 19.—(British United Press)—An editorial in Le Claire suggests to the French government a claim which may entitle France to a one-third reduction of her war debts to the United States and Great Britain. France is advised to claim that a third of the money she spent in the United States for munitions went back to the United States Treasury immediately in the form of excess profits taxes.

The editorial contends that America must be satisfied with the real value of the munitions and not attempt to collect the excess profits again from France.

Committees Meet

The two expert committees which have been investigating Germany's financial situation under the presidency of Brig.-General Charles G. Dawes and Reginald McKenna met at 11 o'clock this morning to discuss the construction of their recommendations to the reparation committee.

It was announced that a sub committee of the dates committee on the German debt would hear Dr. Schacht, president of the Reischbank this afternoon, and that a sub committee from the same committee, to consider the budget, would meet simultaneously. The next plenary meeting of the dates committee will be held to-morrow.

Very Optimistic

Mm. Francqui, Houtard and Janssens, the Belgian experts, arrived in Paris by way of Brussels, where they had a long conference with Premier Theunis and Foreign Minister Jaspar in which they were joined by Mr. Delacroix, senior Belgian member of the Reparations Committee. They were very optimistic.

"We have reasons to be satisfied with the results achieved thus far, and hope for a favorable issue," M. Francqui said upon his arrival in the Gare du Nord. Further than this, however, the Belgian experts would only break their silence to pay tribute of their "unbounded admiration" for those journalists who had already published what purported to be the experts' conclusions before they reached them themselves. Members of the party employed in minor capacities were not quite so reticent.

KIWANIS JOLLIES ARE CONTAGIOUS

Kitchener and Waterloo Kiwanis Club presented a Joe Bren amateur production, which played three nights with a Saturday matinee at the Star Theatre there. The crowds were gratifying, and the show pleased. The comedy centred about the antics of one King Coca Bola, stern ruler of a Pacific Ocean Island, who offered $50,000 to he or she who made him laugh for the first time. A whispered joke about Canada drew the laugh. It must have been either about the referendum or prohibition.

PROCEEDS OF KIWANIS JOLLIES FOR WORTHY PURPOSES

The Revue of the Kiwanis Jollies next Monday and Tuesday will serve a two-fold purpose, according to the President of the Club, Mr. P. C. MacLaurin. He stated that it would give the public two evenings of real good, high-grade entertainment, and put money in the coffers of the club to be used for needy and worthy purposes around our city. It has already been decided to use some of the proceeds to assist the boys' work movement of the city.

The Committee in charge of the staging of the show are working unceasingly to put across an evening equally as good as the one staged last fall and to this end they are being assisted by Al. Wilson at their rehearsals.

Let's get behind the Kiwanis Club and assist them in their worthy ventures.

The Dead Not Exempt

Roy D. Moore (left) and Louis H. Brush, present owners of the Marion (O) Star, told the Senate investigating committee of details of sale of the newspaper by the late President Harding. They defended the purchase and said not a cent of the money was obtained from the oil interests.

LOCAL FIRM'S FIRST CHOICE FOR BELLEVILLE WORKMEN

Tiger Tire and Rubber Company make arrangements with Employment Bureau to Engage Majority of Factory Workers Here—Give Residents of Belleville Preference Over Applicants From Other Cities

The Tiger Tire and Rubber Company who expect to resume operations early in March have made arrangements with Capt. L. F. Green, Superintendent of the Government Employment Service to engage the majority of factory workers through the Employment Office. A person registered for employment will be required to present a card of introduction to the Factory Manager, which, with this system will give residents of Belleville the preference over applicants from other cities.

This action of the Tiger Tire Co. is highly commended, as it is their earnest desire to have Belleville workmen co-operate in the success of a local Industry.

NO APPLICATION FOR MORE POWER

Beck Denies Washington Report Regarding Niagara Scheme

Toronto, Feb. 19.—"We haven't made any application for any increased use of power at Niagara Falls. I am not aware of a proposal for an agreement," said Sir Adam Beck, chairman of the Ontario Hydro Electric Power Commission when interviewed over the long distance telephone, relative to a despatch from Washington that the Canadian Government had sent the State Department a communication proposing an agreement for increased utilization of water power at Niagara. It was understood in Washington that the agreement was desired by the Ontario Hydro Electric.

No Ottawa Confirmation

Ottawa, Feb. 19.—Careful inquiry in official circles here has failed to disclose any communication from the Canadian to the United States Government proposing an increased utilization of water power at Niagara Falls. It is stated that recent installations on the American side enabled the United States power interests at Niagara to use a great deal more water than is allowed under the treaty limitations. It is also reported that these same interests are pressing at Washington for a new agreement which will permit them to divert more water for power purposes than is at present permissible.

Masquerade Dance Is Great Success

Johnstone's Dancing Academy assumed the atmosphere of a veritable Worlds' Conference last night at the pretty and successful masquerade dance given there, where "Indians, gypsies, tramps, clowns, Chinese, soldiers, Spaniards," and various other costumed persons enjoyed the evening of fun which terminated at 1.30 o'clock.

There was a very large crowd present and the members of the Bon Ton orchestra, quite in keeping with the spirit of the occasion, were suitably attired in black and orange clown uniforms. The music by the way, was very suitable, being enjoyably satisfactory, a complete and varied dancing program naturally resulting.

WOMAN FATALLY MANGLED BY CAR

Three Persons Injured in Automobile smash in Vancouver

Vancouver, Feb. 19.—One young woman mangled to death with both legs cut off and two women and one man injured, was the toll taken here when a street car crashed into a large touring car bearing nine people.

Miss Wood of Saperton, met death under the street car and Mrs. Percy Salt, Miss Gladys Howell and Jas. Kelvan, all of New Westminister, other occupants of the automobile, were taken to hospital more or less seriously injured.

Fred Homers, driver of the automobile said he had been driving the party to a football game. He said a street car struck his car squarely in the centre and carried it 175 feet.

ARE YOU ONE OF THE LUCKY ONES?

BURIED BOY ALIVE TO COLLECT RANSOM

Rheine Germany (By mail to United Press).—Sixteen-year-old Willie Deiters and 18-year-old Paul Krause were held by the police charged with murdering Berthold Falk and sending part of the body to Falk senior, in the hope of extorting money.

Unmoved by the enormity of their crime, the two boys have confessed that they dug a grave for Falk, hammered him into unconsciousness and then buried him alive.

A few days later they dug up the body out of the garden behind Krause's home, sawed off a foot, sent it to the elder Falk, with a demand for 25,000 marks.

Police doubted that the foot came from the Falk body, but later a companion of the youths revealed the crime.

RADICAL MINE CHANGES ARE RECOMMENDED

Federal Commission On Unrest in Cape Breton Issues Report

SUGGEST MOVES

Commission Takes View that hours of Steel Workers Excessively Long

Ottawa Feb. 19—(By Canadian Press).—Some fundamental changes in the working conditions of steel workers employed by the British Empire Steel Corporation are recommended in the report of the Royal Commission appointed to investigate industrial unrest in Cape Breton.

The commission was composed of Dr. J. W. Robertson, chairman; Fred Bancroft, Toronto; R. J. Johnson, Charlottetown. In respect to relations between employers and employees, the commission finds that the company (the British Empire Steel Corporation) has not paid enough attention between building and machinery equipment in materials and human equipment in men as factors in production and in the efficient carrying on of the operations. "There is no sentiment in machinery," says the report, "which affects its smooth or rough running but there is a great deal of it in men."

Changes Suggested

The commission takes the view that the hours worked by steel workers have been excessively long in some departments of the plant under the two shift system of operation and recommends that in the interests of employers and employed "early and earnest consideration" be given to

(1)—Elimination of the 24 hour change over period and the obilition of the seven day week.

(2)—Adoption of the threeshift plan (eight hours per shift) in the departments of continuous processes and a maximum of a ten hour day for other workmen.

In the opinion of the comissioners the change would be advantageous to the company and beneficial to the men and should be adopted.

Fluctuating Periods

The commissioners hold that the iron and steel industry at Sydney can be carried on successfully and amicably in such a way as to meet the reasonable desires and requirements of the workmen and the company and the public. Since the steel industry is one which has been characterized by intermittent periods of prosperity and depression, the commissioners recommend that:

(1)—In the interest alike of the shareholders and the employees, the company should discuss with representatives of the employees the question of drawing to some extent upon the surplus accumulated during fat years to tide the workmen as well as the shareholders over lean years when changes in rates of wages are in contemplation and when the prospect of regular employment is not good.

(2)—As an alternative some competent authority should, in the public interest be directed to investigate and report upon the use which is made of such surplus funds of the company.

Kiwanians Given Orchestral Treat

The local Kiwanis Club was given a treat today at their weekly luncheon held in the New Queen's Hotel. The full orchestra of the "Covered Wagon," now showing at Griffin's Theatre, were guests of the club, and the full musical program was given.

Dr. Haffner rendered a solo, "One Fleeting Hour" in his own inimitable style, and, as aptly expressed by Kiwanian Dick Ponton he "sang like a real Kiwanian."

Kiwanian Dick Ponton, as 'Booster' expressed his hope that a full attendance will be on hand at Griffin's Theatre Monday and Tuesday night for the 'Revue of the Kiwanis Jollies' This comedy skit was given last fall, and the hearty approval given the offering at it's appearance warranted a return engagement.

In order that more than an evening's entertainment may be given, a full feature picture will be shown after the performance.

WANT SETTLERS

Victoria, Feb. 19. (United Press Despatch)—The Provincial Government in an effort to induce settlers to locate in British Columbia will sell lands adjacent to Pacific Great Eastern Railway at three dollars an acre.

CONDITION OF TREASURY LAID AT FARMER'S DOOR IN EXPLAINING DEFICIT

Total Amount of Deficit in Provincial Budget expected to Total Between Eleven and Fifteen Million Dollars—Treasurer Price Offers Explanation

TWO PARTY SYSTEM

Meets First Challenge and is Overwhelmingly Sustained When Debate on Reply to the Speech from the Throne Collapsed and Reached a Vote—Doherty's Move Nullified

Toronto, Feb. 19.—(United Press).—When the provincial budget is presented to-day, it is expected to show an appalling deficit of from eleven to fifteen millions dollars. The deficit will be laid at the door of the Farmer government and Treasurer Price will explain condition of the treasury when Conservatives took over control.

The two party system of Government, brought back to the Ontario Legislature by the present Government, met its first challenge and was overwhelmingly sustained last night when the debate on the reply to the Speech from the Throne collapsed and reached a vote. Without the necessity of a division, Premier Ferguson's course of action in recognizing only the Liberal party was approved. Hon. Manning Doherty's want of confidence motion, tendered on the grounds that the House did not approve the denial to him of the post of Opposition leader, was not even called, as it was nullified by the practical unanimity with which the Chamber concurred in Premier Ferguson's parallel motion declaring confidence in his Administration.

The languishing of the debate yesterday and its lame conclusion was in striking contrast to its beginning ten days ago. In spite of all the passion which Messrs. Doherty and Raney had poured into their declamations, the debate at the voting stage was a listless thing. When Speaker Thompson put Premier Ferguson's confidence motion to the Chamber, so faint were the dissenting "nays" to it, that the Progressive leader did not demand a formal division. The original motion that the Chamber present thanks to His Honor the Lieutenant-Governor for his address was then put and unanimously carried, thus closing the first chapter in the life of this session of the Parliament and leaving the way clear for the budget, which is to be brought down to-day.

On its final day, the debate had some seven contributors, Messrs. J. W. Widdifield (U.F.O., North Ontario), J. A. McCausland Conservative Southwest Toronto), E. Proulx, Liberal, Prescott), E. R. Wigle, Conservative, Huron Centre), R. H. Kemp (U.F.O., Lincoln), Peter Heenan (Labor, Kenora), and E. P. Tellier (Liberal, North Essex). The subject matter of these speakers did little else than echo opinions which had previously been expressed in the Chamber. Mr. Widdifield was indignant at the contravention of the statute in refusing recognition to the U.F.O., but was unable to reply

A New Queen

Montreal is at present in throes of a Winter Carnival. Queen's of every different sport are to be chosen in the course of the carnival. Miss Dorothy Jeffrey (above) was given the title "Queen of Tobogganing."

INSANITY PLEA FOR DELORME

Reported Curator's Counsel Will Make Entry—No New Witnesses For Defence

Montreal, Feb. 19.—That the entry of a plea of insanity is a certainty when Father Delorme makes his appearance at his forthcoming trial for the murder of his half-brother, Raoul Delorme, Ottawa College student, was announced this morning through unofficial sources. Such a plea, if made, will come from counsel for the curators of the Delorme estate and will take precedence at court over any other court action in this celebrated case.

Father Delorme will appear before the highest criminal tribunal next Monday and preparations to have all the witnesses present have taken shape. This morning subpoenas were served on nine persons making a total of about twenty-seven out of the expected quota of thirty-four all told Eliminations have taken place with a view to prevent repetition only when it concerns corroboration.

It was officially stated that the defence has no new witnesses to bring forth and will rely on the statements of crown witnesses to defend accused. planned which is expected to bring out more details than at any of the preceding appearances of Father Delorme in court.

The King's Bench will undergo some changes this week with the convenience of the lawyers for the prosecution and the defence and the presiding judge in view.

Virtual Meat Blockade Is Declared Need of Germany

Berlin, Feb. 19 (United Press).—Demand that the Government forbid the import of frozen meats and re-introduce the pre-war meat inspection regulations was made today at a conference of the Reichsland-Bund, a junker organization, by Herr Roesck, one of it's directors. If this step was taken its effect would be to exclude virtually all foreign meats from Germany.

The Junkers pleaded that poverty was threatening ruin to the community and urged that a state of siege be maintained.

The populace are turning deaf ears to such pleas, however, as the cry has been a familiar one to them for some years.

Meat prices during last week have been on the increase, some inland products again passing the dollar mark.

Let there be harmony in things essential—liberty in things not essential—charity in all.

FALSE FRIENDSHIPS

Both friends and foes will be delighted to hear that the late president Harding's name has been cleared of all connection with he scandalous oil deal now agitating Washington. The chief regret is that such a name should even have been mentioned in connection with malodorous political doings.

President Harding's tenure of office was singularly free from scandal and the President himself was regarded by all as a man of unusual integrity. That suspicion should have been laid at his door after his death is deplorable and that these sinister reports were given voice by a so-called friend is even more to be regretted.

The flimsy excuse given by the man Vanderlip is to the effect that he wished to bring rumors to light in order that they might be effectively disproved. This is dangerous policy. Just as soon as a rumor is noised abroad it lodges in some mind to stay there. No later denials will wipe out the mental impression received and registered in the brain.

President Harding's friend—may we be delivered from such a brand!—admits that he had no facts whatever to back up his assertions regarding the dead statesman. This makes his shame all the greater. He has dragged into the limelight of public criticism the name of a man who practically sacrificed his life in the interests of his country. He has thrown mud at an honorable citizen who is fortunately beyond the reach of such mundane things. He has added a further grief to the sorrows of a widow who shared her husband's name as she shared his fame.

And all this in the name of friendship!

DOMESTIC TRIFLES

There are times when the little things of life get our goat. The details of the daily round, trivial, boring, and unsatisfying in their uncorrelated selves, seem only too frequently to be but one of the many flies in the domestic ointment. They are trivial. They are a nuisance. They do undoubtedly fail to satisfy our inner cravings for what is more worth while. But when we consider these little things in their relation to the rest of the domestic or business machinery we realize their importance.

Dishwashing is not exactly an art. It is no fun grubbing over a pan of greasy water or vigorously scrubbing coated pots and pans with gritty cleansers. But if the dishes were allowed to go unwashed the whole domestic system would be upset. Comfort would take to itself wings. Bad tempers would be let loose and a whole trail of woes would follow in the wake of those unwashed utensils.

It is not in itself a holiday to carry pans of ashes out for the garbage man or to the heap which awaits spring removal. But if the little hillock were allowed to grow into a mountain of dusty clinkers and pulverized diamonds the cellar would soon become a monopoly. The fruit cupboard would be crowded out, the potato bin would be submerged—and then good-bye to domestic peace and calm.

These are but two very prosaic instances of the unpleasant details of daily living. There may be people who like dishwashing and there may be others who glory in a pan of unsifted ashes, but we have yet to find them. All of these little things, however, have their bearing upon the bigger interests of life. They are inseparably joined and by a system of gradual progress are interwoven with events both great and small that go to make up our daily life.

The house which seems to run in oiled grooves, so smoothly does it perform its functions, is the house whose manager has an eye to detail and who tackles the little things as they show themselves. The most orderly office or shop is the one in which the small jobs are got out of the way to make place for the bigger ones.

In business and domestic relations it is just the same—the small things are of infinite importance. If they are well-looked after, the bigger affairs can also be trusted to work out satisfactorily.

EDITORIAL NOTES

Die-hard Raney seems to be the stormy petrel of the Ontario legislature.

—o—

Every man to his trade! "Sleet and Keen—ice dealers."—(Stratford Beacon Herald.)

—o—

It is to be hoped that spring won't wait to be drafted.

—o—

Which one of the kids will clean off the snow from the front walk might be called a question before the house.

—o—

"Shun", says a public speaker, "the vulgar display of wealth." A hint for those who are making out their income tax reports.

—o—

Premier MacDonald is reported to be on the horns of a dilemma which proves that the political merry-go-round is still revolving with nothing new coming round.

LOVED ART BUT——

Berlin, (United Press).—Berlin police have succeeded in rounding up an art thief who in the past year has stolen thousands of dollars worth of valuable paintings in daylight robberies. The man, giving the name of Heinrich Poppenberg of Muenster, confesses having stolen many of the valuable canvases sayin gthat his love for art nd his lck of love for work led him to this means of making a living.

Edward Young Clark, deposed imperial giant and wizard emeritus of the Ku Klux Klan, as he looked in the official robe of his office. This is the first time the black robe of the imperial giant has been photographed for publication.

PRESS OPINIONS

PLAY THE GAME

(Quebec Telegraph)

President Calder of the National Hockey League will have the warm support of all lovers of legitimate hockey in his efforts to cut out the "rough stuff" and constant bickering which has now for some time past made a laughing stock of the championship play. No sport whatever can outlive the continuance of the repulsive habits referred to and expect to retain any share of the sympathy and support of lovers of clean sport, who are growing tired of paying to see such exhibitions as President Calder is now very properly out to put an end to.

As an Ottawa exchange very truly says: "If it is decided to cut out the 'pernicious propaganda' and unnecessary 'rough stuff' a very large majority of hockey supporters will be pleased beyond measure. The game was fast beginning to show itself bigger than the men in control of it and the latter now have an opportunity of reestablishing themselves. It is hoped they will not fail to take advantage of the opportunity." Play up, gentlemen! and play the game!

MUNICIPAL GALLERIES

(Los Angeles Times)

A wealthy favorite son has willed a collection of nearly 1,500 oil paintings to the city of Philadelphia. Included in the catalogue is a group of eighteen canvases from the brush of the delightful landscapeur, Jean Camille Corot. This is said to be the largest and finest assemblage of Corots in this or any other country.

Such a gift cannot but elevate the artistic perceptions of a community. When people become bewildered in the chase for dollars it is fine to be diverted for even a moment to that which is beautiful in art. Municipal libraries and municipal art galleries are the hope of a higher civilization.

SUPERSTITION DIES HARD

(Flint Journal)

And still there are many who consider it unsafe to start on a journey or embark on a new venture on Friday. The superstition that Friday is unlucky probably is of religious origin, in connection with the Crucifixion, according to historians. It has persisted so many centuries that it still survives despite its being disproved thousands of times. Superstition outlives granite.

FUTILE EFFORTS

(Montreal Star)

The mummy of Tut-Ankh-Amen still remains in its anthropoid coffin. Never, it would appear, were such infinite pains taken by the guardian of the dead to protect the latter from the inquisitive hands of the living as in this case.

But the elaborate precautions of these funerary rites of centuries long forgotten fade and pass and disappear before the persistence of these who bring all the resources of science to the unravelling of what mysteries may lie hidden within the sarcophagus of the mighty Egyptian dead.

DID ALEX-LAND-HER. SURE!

There was a youth who loved a maid;
Her name was Alexander.
He wanted her to marry him—
A ring did Alex-hand-her.
And later they were truly wed,
And when the folks the paper read,
Referring to the twain they said,
"Why there goes Alex-and-her."

LADIES AID MEETS

The members of the Centenary Ladies' Aid with their husbands gathered at the spacious home of Mr. and Mrs. Job Clapp on Thursday evening for a social time. Over fifty sat down to a sumptuous lunch after which the President, Mrs. G. Thrasher called the meeting to order and the remainder of the evening was spent in community singing, reading, games, etc. A most enjoyable evening was spent and over $14 added to the treasury.

Music & Drama

"SO THIS IS LONDON"

Arthur Goodrich who originally wrote "So This Is London" is one of the best friends of Anglo-American understanding we could name. So writes a newspaper commentor of British origin. George M. Cohan is responsible for the stage presentation has injected the Cohanesque "pep" and "punch" and has added another to his many notable services in the great cause of wholesome an diverting plays. In "So This Is London" Mr. Cohan presents a life-like picture of the pro-American and the pro-Briton coming in explosive contact, each certain of the other's shallowness and stupidity. The English speaking nations have here an excellent chance of coming together for better acquaintance in this most delightful of satirical comedies. You start laughing at the cockney servant and are soon roaring over the Yankee merchant prince. You hear familiar boasts, American and British an drealize how much they mean—and how little. An unusual cast of Cohan comedians will present this international success at Griffin Opera House. Thursday night Feb. 21. Seat sale Wed. Feb. 20. Mail orders now. Kindly omit postal notes express orders or cheques.

Jesse L. Lasky's fine picturization of Emerson Hough's romance of the Oregon Trail, "The Covered Wagon," is drawing capacity audiences at Griffin's Opera House both matinee and evening.

The narrative of "The Covered Wagon," is without doubt the most perfectly suited to the art of the camera of any that has so far been filmed. Its fine love story is revealed in episodes of extreme tenderness, loyalty and hroism; and in the background is the pictorial splendor of the movement of the great wagon train through perils of flood, prairie fire and attacks of hostile savages, bearing its company of heroic venturers on the valiant mission of conquering and bringing civilization to the vast wilderness of the west.

There is, in the entire story of the development of America, no brighter page than that upon which is recorded the deeds of courage and fortitude of the men and women who journeyed in covered wagons to the far West in the middle ages of the last century Mr. Hough caught and revealed in his novel the fine spirit of romance of that period, and it has been magnificently reflected by the producer, James Cruze, in the Paramount picture based upon the novel.

The chief characters in "The Covered Wagon" are impersonated on the screen by J. Warren Kerrigan, Lois Wilson, Alan Hale, Charles Ogle Ethel Wales, Earnest Torrence, Tully Marshall, Guy Oliver and John Fox The musical accompaniment to the picture, arranged by Hugo Reisenfeld is played by an orchestra carried by the company.

ARLIE MARKS HERE WEDNESDAY

Arlie Marks and her merry company of players open a four day's engagement at the City Hall, Wednesday evening. This will be glad news the lovers of popular priced amusement for the name of Marks is synonomous with the best in the field of popular priced amusement. Six big vaudeville numbers will be given between the acts each evening and play and vaudeville will be changed nightly. Miss Marks will open her engagement with the initial presentation of a play written especially for her in which she has a part believed to fit her like the proverbial glove. She has been unable to decide upon a suitable title for this vehicle however, and is going to ask the audience to select a title.

Wednesday evening will be "Ladies Night" and a ladies coupon will be found elsewhere in this issue of the Intelligencer. Twelve local juvenile Belleville actors will appear in one of

HUN CHILDREN ARE UNDER-FED

Dr. Emerson Makes Thorough Survey and Reads Disease in the Eyes of the Anaemic Children

By CARL D. GROAT

Berlin, Feb. 19 (United Press).—The blood of many German children is beginning to turn to water.

This is the startling condition that the Quaker feeders of German children have discovered. They have the word of no less an authority than Doctor Emerson, New York health expert, for this statement.

Doctor Emerson recently made a thorough survey of German conditions. He took no propagandist's word for things, but went out into the dark cold places of the big cities for himself.

His report to the Quaker mission was in substance that Germans, especially the children, are suffering from chronic under nourishment.

Actual starvation does not exist as it did in the Volga district of Russia.

But years of deprivation mingled with cold houses and lack of baths are now writing a fearful tragedy in the history of the nation.

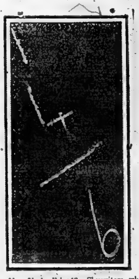
Babies who outwardly may appear sound are found on more careful examination to have no substantial layer of fat, such as the normal child should have. Such fat as they have is a fluid substance like vegetable fat. And thousands of them are, in their growth, two or three years behind normality.

In many the blood is beginning to turn to water—an illness which Germany knew directly after the war with its hunger blockade.

Tuberculosis is claiming for its own a ghastly number of victims constantly. Lack of coal to heat means in many German homes that fresh air is not admitted, but that the entire family breathes foul air because it is warmer; the same lack means no hot water for bathing. And that helps the white plague and the ravages of skin disease.

All in all, it is a pitiable tale that Emerson's findings tell. Germany, according to Mrs. Fritz Kreisler, wife of the famous violinist, relies too much on figures to tell the stories of her babies' misery. Read it rather, she says, in the eyes of babes and children and in the souls of little ones.

Sign Painters of Air Can't Add



New York, Feb. 12.—Skywriters, who paste their advertisements in smoke on the pale blue board overhead, have a weakness in common with their sign-writing brothers of Mother Earth.

They can't add correctly.

For years it has been a bromide that sign painters can't spell.

Now along come the aerial paint and brush boys showing their ignorance of addition a mile above smiling witnesses.

"Four and One Make Six" according to the pilot who described the pictured sum over New York City.

Consult the back of your arithmetic book for the correct answer.

4TH CON., SIDNEY.

Hawling ice and wood is the order of the day with the farmers on this line.

Miss Magdaline Lloyd gave a Valentine Party to a number of young people on Thursday evening last.

About sixty in number attended the social evening at the home of Mr. J. Tucker on Tuesday evening.

Mr. J. Reid is slowly improving.

A large number from this line attended the sale of Mr. Albert Holmes on the 13th inst.

Mrs. E. Holmes of Madoc is spending a few weeks with Mr. and Mrs. W. Holmes.

Mr. Frank Harris went to Oshawa on Wednesday and brought a car down for Mr. J. T. Warren.

Mr. W. Wood took dinner with Mr. R. McPherson on Taursday.

Mr. and Mrs. H. Pound and Miss M. Phillips were recent guests of Mr. and Mrs. F. Harris.

HIS BILLET DOUX

In the Usual Manner

A prisoner was being cross-examined by counsel for the prosecution, when the judge interrupted: "You say that yo udined at the Central Hotel. What did you partake of?" The prisoner turned to reply, "Beef steak, my Lord," he said. The judge looked stern. "On your oath?" he said. "No, my lord," he said, "on a plate."

When You Try "SALADA" TEA you will realize the difference between "Salada" and "just tea."

SINCLAIR'S

FROCKS of Canton Crepe

Among the many new arrivals are a number of very moderately priced Frocks of Canton Crepe. New touches in pleatings, beading and embroideries are used to make these pretty models. They are unusually good values at $15.00 to $24.50.

SALESMAN SHOT DOWN IN AUTO

Hamilton Man In Hospital Suffering From Three Bullet Wounds

Hamilton, Ont., Feb. 18.—William Norman Smith, aged 29, motor salesman, is in the hospital with three bullet wounds, two in the knee and one in the shoulder.

The police are looking for Antonio Gravino, 29, to whom Smith sold a car. Gravino complained that the car was not satisfactory and Smith was sent to investigate. Smith says that he told him to come to the garage and that when Smith got into his own car Gravino opened fire on him.

The victim fell on the running board in a semi-conscious condition, and the foreigner ran out the alley way and escaped. Smith succeeded in crawling along until he reached the grocery store and the police were notified.

Gravino's revolver was found in a snow bank a short distance from the scene of the shooting.

SHE HAD HEARD SO

They were busily knitting and chatting, and the conversation finally drifted to the subject of the weight of babies at birth.

"Well," said Mrs. Simpson, "I weighed only three pounds and a half when I was born!"

"Land sakes!" gasped Mrs. Oldone, "and did you live?"

"They say I did and done well," replied Mrs. Simpson binding off.

Think these Points Over with Care

They may apply to you. Beecham's Pills have been, for seventy years, used by thousands of people and are today considered very useful in safeguarding health. TO START DUCK FARM

Mr. Geo. Armour who lives near Cobourg, is getting ready for the spring season at his duck farm near Grafton. He has started his first series of incubators to work. Mr. Armour intends to raise about 6,000 ducks the coming season, it is stated.

ALYEA IS RECOVERING

Clifford Alyea, son of Dr. and Mrs. Alyea, Colborne, was removed to his home in Colborne a few days ago. He was with a chum, Melbourne Hodgins, who was killed when the C.N.R. "Capitol City" crashed into the truck in which they were riding recently. Alyea has since been in the hospital here at Cobourg.

Mrs. David Christie of Port Hope has been called to Belleville owing to the illness of her daughter, Mrs. H. E. Elvidge, who has been very ill.

IN MEMORIAM

In loving memoriam of Thomas Stanley W. Reid, passed away February 19, 1923.

One precious to our hearts has gone,
The face we loved is still.
The place made vacant in our home
Can never more be filled.

—Sadly missed by mother and father.

ROTARY CLUB AT BOWMANVILLE NOW

To Receive Charter To-morrow, When Proceedings Will be Broadcasted by Radio

Bowmanville, Ont., Feb. 19.—The recently organized Rotary Club of Bowmanville will receive its charter to-morrow night, when it is expected over 125 Rotarians within a radius of fifty miles will be present, including a carload coming by special from Toronto. Oshawa Rotarians, who have taken a keen interest in getting the Bowmanville club started, will have the honor of presenting the Rotary charter. Andrew H. Wallace, District Governor, St. Catharines, will be present, and give an address. The ceremony and banquet will take place in the Bowmanville House, where special radio equipment has been installed by Bowmanville Amateur Radio Club to broadcasting the addresses during the evening.

Rotary clubs, which will be represented at this gathering, include members from Belleville, Port Hope, Cobourg, Peterboro, Lindsay, Oshawa and Toronto.

NATION WIDE PLOT BY COUNTERFEITERS IN U. S. GOV'T OFFICE

Washington, Feb. 18.—(Associated Press)—A nation-wide conspiracy to make and distribute counterfeit treasury notes of $1,000 denomination has been nipped in the bud, according to secret service operatives, through the arrest of James C. Houghton, employe of the bureau of engraving and printing and Curt Jacobson, of New York.

U.S. Secretary Navy Resigns

Denby's Decision Followed Conversation With President

Washington, Feb. 19.—Edwin B. Denby has resigned as secretary of the navy and his resignation has been accepted.

After repeatedly declaring he never would quit the cabinet under the fire of those who have criticised his part in the oil leasing programme, the secretary notified President Coolidge this morning that he was ready to step out.

His decision followed a telephone conversation between the President and Mr. Denby in which all of the latest aspects of the situation were talked over in the light of information passed on to the President by Republican leaders in the senate.

President Consulted

Recently a number of the secretary's friends also have been consulted by Mr. Coolidge and they are understood to have advised the President that they fully understood the embarrassment that might result in retaining Mr. Denby in the cabinet while the oil annulment suits are in progress.

PLANS TO PROBE PULP INDUSTRIES

Lord Rothermere Will Visit Montreal And Possibly Winnipeg

London, Feb. 19.—Lord Rothermere, prominent English newspaper proprietor, brother of the late Lord Northcliffe, will during his proposed visit to Canada and the United States make investigation into the pulp and paper industries with a view to assuring further supplies for this British interests, whose consumption of newsprint is enormous.

Lord Rothermere expects to sail about the end of February. He will spend some time in New York and will probably go from this city to Montreal. It is possible that his Canadian trip will be extended to Toronto and Winnipeg. It is announced that Lord Rothermere's plans at present do not include a visit to the big Northcliffe pulp and paper plant at Grand Falls, Newfoundland.

TACTFUL

He was a very polite man and did not know what to reply when his pretty partner asked if they had not met before. He put his hand to his forehead reflectively.

"Yes," he said, "I think I have had the pleasure—and you the experience."

Deaths and Funerals

MRS. E. DALTON

The body of the late Mrs. Elizabeth Dalton was this morning placed in the vault at Belleville cemetery. At St. Michael's church, Rev. Father Killeen conducted services. Bearers were friends of the deceased.

MYRTLE BROOKER

Many were yesterday in attendance at the funeral of Myrtle Brooker, daughter of Mr. and Mrs. John Brooker, 2nd concession of Sidney. Pupils of Hogle school where deceased attended were out in a body to pay the last tribute of respect to their companion. At White's Church an impressive service was conducted by Rev. Mr. Batstone after which the body was interred in Foxboro cemetery. Many beautiful floral tributes were evidences of sympathy. Bearers were L. Donaldson, E. Jeffrey, G. Downs and J. Gheuts.

HENRY C. MALES

Mr. Henry C. Males, assistant manager of the Canadian Bank of Commerce at Halifax died on Sunday after a brief illness. An attack of pneumonia was the cause of death. Deceased who was 34 years of age was a son of the late Mr. and Mrs. Frank Males and was born at Cannifton. He received his education in the Belleville High School. Mr. Males was in New York for some time and for upwards of three years had been in Halifax. Deceased was exceptionally popular with the public and his demise will be regretted by a large circle of friends. Mr. Fred C. Fairman, residing at 97 Cedar street in this city, is a cousin of deceased. The body will arrive here on C. N. R. Thursday afternoon at 2.50 and will be taken to Belleville cemetery for interment in the family plot.

Floral Offerings

Floral and spiritual offerings for the late Mr. Daniel Hunt, of this city were as follows.

Floral offerings—Miss Frances Embury, spray; Mr. Wm. Grant spray; Canadian National Express, wreath.

Spiritual offerings—Mr. and Mrs. H. Glagier, Mr. and Mrs. T. J. McGurn, Marysville, Ont.; Miss Catherine Quinn, Mr. and Mrs. T. R. Barrett, Mae and Jim Mulvihill, Frankford, Ont.; Mr. and Mrs. Robt. Rastus—I done got a domestic turkey, sah.

Master—Well, how did the shot get in it?

Rastus—I 'specks they was meant

Budget

(Continued From Page One)

when the Prime Minister asked him to specify the contravention. Mr. McCausland declared himself still the champion of a liquor referendum, and Mr. Heenan wished to intensify Hon. Mr. Doherty's want of confidence motion by adding one of his own. The Speaker ruled, however, that only two amendments to the address could be in order, so that Mr. Heenan's motion was doomed to the oblivion, which Hon. Mr. Doherty's motion later shared.

The House then adjourned shortly after nine o'clock, having prepared itself for receiving the budget this afternoon.

CONCRETE SUCCEEDS WOOD

Wilson, N. C. (United Press).—The wooden curing barn will disappear from the bright leaf tobacco belt in this section, according to local authorities. Thousands of the flimsy structures dot the country sides. Many are lost annually by fire. Hollow concrete blocks will be used in future construction. Barns of this type will not close more than the wooden buildings, it is claimed. Curing barns are equipped with furnaces which at times attain a heat of several hundred degrees.

All That Steve Brodie's Bridge-Jumping Rival Got Was Very Wet And Badly Bruised

By STEVE HANNAGAN
NEA Service Staff Writer

Long Island City, N. Y., Feb. 18.—Steve Brodie has a rival.

Steve, you will remember, leaped off the Brooklyn Bridge, into the murky waters of East River and everlasting fame.

Now comes Peter Rubinsky, 40, married and the father of seven children, the only man who ever plunged the 135 feet from Queensboro Bridge to the water below, and lived to tell the tale.

All he got was wet and bruised. His plunge will never lift him from the trench of hard work to the heights of a celebrity.

In a few days he will be back swinging a pick.

"Yes, I made the jump—feet first. Certainly it hurt when I landed on my shoulder and back," he explained in broken English from his cot in St. John's Hospital here.

He would assign no reason for his feat, and denied ever having heard of the illustrous Mr. Brodie or his history-making dive.

"He'll be out in a few days," his nurse explained.

Now with Steve Brodie it was different.

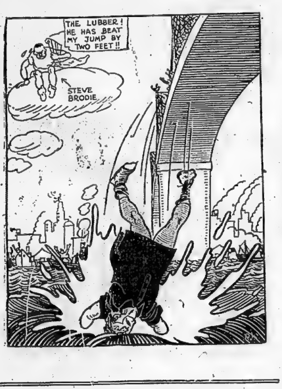
An obscure Bowery saloonkeeper, he wagered to jump off Brooklyn Bridge—and did.

Thereafter his thirst-quenching parlor became a mecca for the high lights of the sporting world.

For all Steve Brodie's fame there was one man who snubbed him. When the father of a famous prizefighter met him and was told of Brodie's jump, he glared at him in derision and shouted.

"Hell, jumping off Brooklyn Bridge is nothing. Sure. I thought you jumped over it Anybody could jump off it."

Yes, Steve Brodie—the lad who took a chance—is now dead.



THE LUBBER! HE HAS BEAT MY JUMP BY TWO FEET!!
STEVE BRODIE

WINTER LUMBERING ON PACIFIC COAST

Logging Camps and Saw Mills On Vancouver Island Very Busy

All logging camps and saw-mills on Vancouver Island are running at full blast. There has been little or no severe weather this winter and an increasing demand from all markets in the world for lumber which British Columbia alone can supply.

The Japanese earthquake was responsible for an influx of orders which B. C. mills are still filling; the building boom in Los Angeles has during the past year resulted in millions of feet of Vancouver Island lumber finding its way down to Southern California and there seems to be no decrease in orders from this quarter.

The eastern U.S.A. markets and those of the United Kingdom and South Africa are sending ships through the Panama Canal to fill up with Vancouver Island lumber. Millions of feet lie piled up on the Ogden Point Docks and outside the Cameron Mills at Point Ellice in Victoria waiting transportation to Australia by the Canadian Government Merchant Marine boats.

Private residents on the south end of the Island have taken to shipping the small timber on their properties over to Port Angeles on the opposite coast for pulp. They ship it over as cordwood on scows carying from 1-300 cords a trip. The Washington Pulp and Paper Company of Port Angeles themselves take out some 14 million feet of pulp-wood a year from the Renfrew and Barclay districts in the South-west corner of Vancouver Island.

On their seventy odd miles of working line from Victoria to Cowichan Lake, the Canadian National Railways alone show business-like figures for 1923. Their total exports for that year were 19 million feet of logs and 15 million feet of lumber.

Mrs. Mary DesRoche Spit Blood

Some of the results obtained by users of Carnol are almost beyond belief. Carnol, if taken according to directions, will relieve almost any case of a run-down nature. But, as disease develops slowly, it takes time to eradicate it. No wonder Mrs. DesRoche recommends Carnol after what it did for her:

"An attack of 'flu in the fall of 1918 left me in such a weakened condition that I could not walk across the kitchen. For nearly two months I spit blood and my neighbors, as well as myself, thought I was in the first stage of consumption. My weight, when I took sick, was 120 pounds, and I shrunk from that to 98 pounds. On the recommendation of my druggist, I began to take Carnol. Before finishing the first bottle I felt a marked improvement. I then took four bottles and my improvement was so marvellous that at the end of six months I weighed 130 pounds—the most I ever weighed in my life. I can safely recommend Carnol to anyone in a weakened and run down condition, as being the best as well as the most palatable tonic on the market today. My little girl aged eight years took a cold in the head and chest. She was so bad she could scarcely breathe. I gave her Carnol in hot water and the next morning she was able to get out of bed for the first time in several days."—Mrs. Mary A. DesRoche, Summerside, P. E. I. 13-9

Carnol is sold by all good druggists everywhere.

SOLD BY DOLAN THE DRUGGIST

NOT SO AGREEABLE

"Did you see the expression on the face of Mrs. Brown when I told her that she doesn't look any older than her daughter?" asked Jones.

"No," replied Mrs. Jones, "I didn't notice it. I was looking at the expression on the daughter's face."

NO REFERENCE TO THE STATES

Ponsonby's Statement Concerning Reports of Sales Explained

London, Feb. 18.—In connection with the statement made to Parliament yesterday by Arthur Ponsonby, Under Secretary for Foreign Affairs, concerning the reports of the sale to the United States by Great Britain of Jamaica and by France of her West Indian islands, it is learned that his allusion of an agreement for a certain small cessation of "territory" to which the previous government had committed itself had no reference to the United States.

The territory mentioned by Mr. Ponsonby is Jubaland, formerly a part of German East Africa upon which Italy has certain claims by virtue of her participation in the great war. It will be recalled that one of the conditions upon which Italy entered the war was that in the event of the acquisition of German territory in Africa by the Allies, Italy would be entitled to a liberal rectification of her frontiers in Somaliland and Libya.

In the closing months of his administration Lord Curzon, it is asserted told Premier Mussolini that the British government was prepared to carry out its part of the Allied pledge by ceding a part of the present British territory in Africa known as the Kenya colony, but that it could not grant Italy as large an area as she sought because to do so would deprive certain native tribes under British tutelage from access to important water wells and would cut across a number of caravan routes in British territory.

It is understood that if Italy is willing to accept that modification the Labor government stands ready to fulfill Lord Curzon's promise. France already has compensated Italy by ceding her a small strip in Tunisia.

Fire Destroys Two Hotels

Bromptonville Suffers $25,000 Blaze—Guests Escape In Night Attire

Sherbrooke, Que., Feb. 18.—The village of Bromptonville suffered one of the most severe fires ever experienced in the history of the municipality when both of its hotels, the Grand Central and the Balmoral were destroyed last evening and a number of other places were slightly damaged. Guests who had already retired for the night were compelled to make their escape clad only in their night apparel.

The outbreak which occurred in the Balmoral Hotel is believed due to an explosion in the furnace.

SAUVE MOVES LIQUOR INQUIRY

Debate Expected to be Hotly Contested When Matter Comes Up

Quebec, Feb. 18.—The Opposition has asked questions about the Quebec Liquor Commission ever since the session opened, and still continues to evince a marked interest in the workings of that organization.

Arthur Suave today posted notice of the following motion:

"That this House authorizes the Public Accounts Committee to inquire into the operations of the Quebec Liquor Commisson, and to require the appearance of all persons, and the production of all documents which it may require for this purpose, and that authority be further granted for the services of a stenographer to record evidence given before the said committee."

The motion will probably not come up before the latter part of next week and the address of the Opposition lead in speaking to his motion bids fair to open one of the bitterest and most hotly-contested debates of the present session.

FOREIGNER HAD AMERICAN LIQUOR

Oshawa, Feb. 18.—Michael Kawusla, who had enough American alcohol stored in his garage to cause all the cats in Oshawa to go out and do battle with moving electric fans, changed his mind as to his guilt since his last appearance, pleaded guilty and was fined $200 and costs with the option of six months in jail Friday. It will be recalled that in this case Inspector Mason and officers visited Kawuala's house searching for liquor. Nothing was found in the house but in the garage in the rear they discovered 23 tins of American alcohol each containing one gallon. At that time the case was enlarged as the officers wished if possible to find where the alcohol came from it being then thought that American bootleggers had established a depot here.

A MEAN REMARK

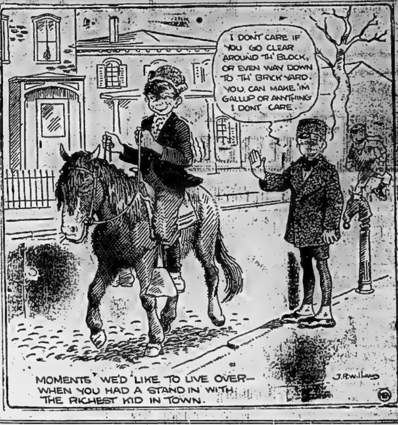
"Well, have you fixed the status of the lady who moved in across the street?" asked Mr. Tenspot.

"Not yet," replied his wife. "She has no car."

"No?"

"No pom, no peke, no talking machine, I can't imagine what they have."

"Maybe they have a bank account."



I DONT CARE IF YOU GO CLEAR AROUND TH' BLOCK, OR EVEN WAY DOWN TO TH' BRICK YARD. YOU CAN MAKE 'IM GALLUP OR ANYTHING I DONT CARE.
J.R.Williams

MOMENTS WE'D LIKE TO LIVE OVER—WHEN YOU HAD A STAND IN WITH THE RICHEST KID IN TOWN.

Sulphur Clears Rough, Red Skin

FACE, NECK AND ARMS EASILY MADE SMOOTH, SAYS SPECIALIST

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and disfigurement and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Accidental, Is Death Verdict

Norman B. Stark Hit By Train Before He Touched Ground

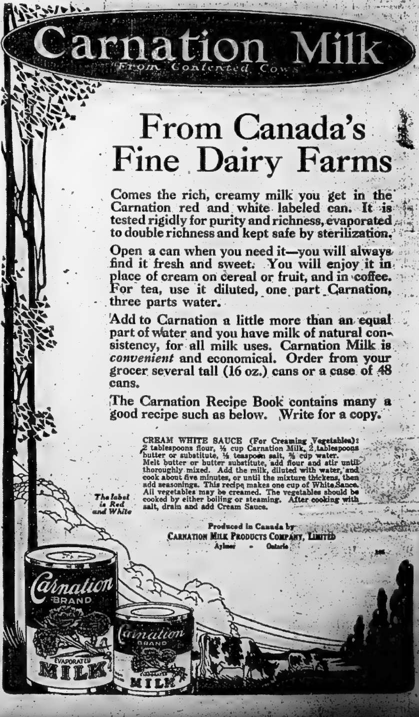
Sherbrooke, Que, Feb., 19.—A verdict of accidental death was returned this morning at the inquest held before Coroner Dr. Rachand into the death of Norman B. Stark, who was instantly killed yesterday two miles from Sherbrooke while ski-ing on the tracks, by the C.N.R. noon train from Montreal.

Both the fireman and the engineer staed they saw the deceased clear of the track when rounding the curve and that he fell in front of the engine and was hit before he actually touched the ground.

Both the fireman and the engineer stated they saw the deceased clear off the track when rounding the curve and that he fell in front of the engine and was hit before he actually touched the ground.

The deceased had been in Sherbrooke for the past year and a half, although Mrs. Stark and the children arrived only last fall to take up residence here. He was formerly actively engaged in the stock brokerage business in Montreal, and recently became associated with the Waterville Veneer and Panel Company, at Waterville.

Victoria, Feb. 19.—The salmon pack of this province according to figures issued by the board of trade was 1,341,681 cases in 1923, or about 50,000 cases in excess of that of 1922.



Carnation Milk
"From Contented Cows"

From Canada's Fine Dairy Farms

Comes the rich, creamy milk you get in the Carnation red and white labeled can. It is tested rigidly for purity and richness, evaporated to double richness and kept safe by sterilization.

Open a can when you need it—you will always find it fresh and sweet. You will enjoy it in place of cream on cereal or fruit, and in coffee. For tea, use it diluted, one part Carnation, three parts water.

Add to Carnation a little more than an equal part of water and you have milk of natural consistency, for all milk uses. Carnation Milk is *convenient* and economical. Order from your grocer several tall (16 oz.) cans or a case of 48 cans.

The Carnation Recipe Book contains many a good recipe such as below. Write for a copy.

CREAM WHITE SAUCE (For Creaming Vegetables): 2 tablespoons flour, ½ cup Carnation Milk, 2 tablespoons butter or substitute, ½ teaspoon salt, ⅔ cup water. Melt butter or butter substitute, add flour and stir until thoroughly mixed. Add the milk, diluted with water, and cook about five minutes, or until the mixture thickens, then add seasonings. This recipe makes one cup of White Sauce. All vegetables may be creamed. The vegetables should be cooked by either boiling or steaming. After cooking with salt, drain and add Cream Sauce.

The label is Red and White

FANNING WITH FARRELL

FARRELL ON U.S. OLYMPIC DEFEAT

By HENRY L. FARRELL,
(United Press Sports Editor)

New York, Feb. 19 (United Press).—America's winter sports team, if there is any disposition on the part of the public to consider nothing worth while unless won, was a bust in the opening of the 1924 Olympic games.

The American team finished fourth, behind Norway, Finland and Great Britain, and America's total of 29 points against Norway's pile of 134½ looked like a few runs in the ninth inning off a rookie pitcher.

Accepting the principle of the American Olympic Committee, which is also being urged upon the public by the leaders of other sport bodies, that victory in competition, while desirable, is not essential to uphold our national prestige, the Americans lost with no disgrace.

From a broad viewpoint and with a little thought as to what the American team went up against in aspiring to complete against champions of sports in which they might be classed as second-raters, the Americans made a very fine showing at Chamonix.

Asking an American team to compete against Norwegians in ski-jumping contests imposes the same handicap that Norway would have to carry in playing a game of baseball even against a champion baseball team of Class B rating.

Even at that, Anders Haugen, one of the American jumpers, made the best distance in the long jump, but he was ruled out because his style of jumping wasn't as graceful and artistic as that of the Norwegians.

The method of accomplishment means more, according to the rules quoted, than the actual accomplishment. The rule rewarding form, which placed Haugen fourth instead of first, exists no doubt and perhaps is considered as just in the northern countries of Europe but it seems foolish in this country.

There is no penalty attached to awkwardness in the American code of sports. Charley Paddock doesn't follow perfect form in sprinting, but he never would lose a championship because Scholz, or Nurchison, or McAllister might be judged to run more beautifully.

The best arm in baseball is judged by the distance a ball is made to travel, by the accuracy with which it finds its Target and not by the grace of the arm movement.

It must be admitted that he would tell the Norwegians to take up a residence in a warmer climate if they attempted to point out defects in the rules that govern our national sports, and if we attempt to find flaws in the method by which they arrive at championships in ski events, we should be prepared for the same kind of a reply.

It is a bet, however, that no American umpire would declare out a Norwegian batter who stepped over the boundary line of the batter's box in the ninth inning with two out and the score 13 to 2 in favor of the Americans.

The rule is there, of course, but an American official certainly would use some sportsmanship in its execution.

* * *

In the speed skating events, the American team won one of the four races on the card when Charles Jewthraw made the best time in the 500 meters race. That was a fair average.

The American hockey team finished second in the championshiips and was defeated only by the great Canadian team in the final round. There was no disgrace in losing.

It would appear, from cable reports, that the American hockey players in the final match were rather quick with the trigger. Both teams, according to reports, were guilty of very rough work, but it may be that the Americans started it.

The Canadians won the championship because they had a great team and because the Canadian players were intent chiefly upon scoring points and playing hockey and not on wrapping their sticks around American necks.

The Americans got sore just because one of the Canadian players said that: "We ought to beat them 10 or 12 to 0."

Under the same conditions that prompted that Canadian player to make such a remark, an American might have been twice as vehement and doubly certain.

The attitude and the actions of the American hockey players went to show conclusively that development of athletic ethics and standards in this country has not yet passed the point where an American falls back on the old line: "You might beat me at your game, but I can lick you."

* * *

Fourth place among the nineteen nations that competed was nothing to feel ashamed over. Sweden finished fifth, Switzerland seventh and Canada ninth, and those three nations have more natural advantages for the development of winter sports than the United States.

* * *

It might be well, however, for the American athletes of other classes to figure that the United States got a beating and made a bust in the opening of the games.

It might make the others less cocky and they are all too cocky for comfort.

Cobourg "Fools" High School Six

A loyal contingent of hockey fans wended their way to the arena last night to see the local High School squad in six an Interscholastic fixture. They six in an Intterscholastic fixture. They were disappointed however, for Cobourg failed to show up. The Junior O.H.A. squad gave the students a merry battle in a practice game, in which some good flashes of hockey were shown. The O. H. A. six won out after a good scrap.

It appears that the secretary of the Interscholastic hockey union did not notify Cobourg early enough for the team to make Belleville, although Manager Leuty of the High School team did phone Cobourg yesterday at noon with regard to the game last night. The locals expect to go to Cobourg on Friday.

HYDRO HOCKEYISTS CLASH

A picked team of the Hydro electric staff at Peterboro, Healy's Falls and Campbellford visited Belleville last night and in the hockey clash with the local K.V.A. six, tasted defeat, after a battle which went ten minutes overtime.

Circle Six Play Here Wednesday

Hockey will be resurrected in this city once more tomorrow night after a lapse which was caused by a tie up in the next group east between the two Kingston teams and Brockville. The deadlock down east is now settled, the antlers having been "unlocked" and a winner proclaimed in a three cornered tie. Brockville, Queen's and Circle Six junior O. H. A. squads were all tied. In a sudden death play off at Brockville recently, Queen's disposed of Brockville, and qualified to meet Circle Six, the other Kingston team in a sudden death game for the championship of the group.

Last night at the Jock Harty arena in the Limestone City, Circle Six defeated Queen's in a hard game by the score of 4-1, and it is this team that Belleville juniors now meet in the onward race for power.

The first of the home and home games will be played here on Wednesday (to-morrow) evening at the Turnbull street arena, commencing at 8.15 p.m. The second game will be played at Kingston on Friday night of this week, and the total goals scored on the round will decide which team goes on in the junior race.

LADIES TO "BATTLE"

Campbellford, Feb. 19.—Campbellford hockey fans are eagerly looking forward to the arrival of the Lakefield ladies' hockey team who will battle with the Campbellford ladies team at the rink there to-night.

ON THE ALLEYS

BREAKS ALLEY RECORDS

Returning to form yesterday afternoon, the Exelsiors Ladies Team rolled a total score of 2063 almost six hundred points better than their opponents of the afternoon. The feature of the game, however, was the timely bowling of Mrs. Goyer who broke both the single and three string record when she rolled 261 and 566 respectively.

Although ably lead by Hurricane, the rest of the Breezes found difficulty in following the lead. Apparently the wind dropped.

Prev. Westerly ..	28	62	73—163
			1491

In the junior league the Cycilats and the Aristocrats were the two winning teams, the former team won from the Express team by a safe margin, Baker rolling the high single and three strings. In the second game the Baby Shoes have been unable to break their winning streak and lost to the Aristocrats, (Smiler) Hall rolling the high three strings and Oster for the Baby Shoes leading his team. In the Senior league the Hardware won from the Sprinklers. Whalen rolling a single score of 304 and 650 for the three strings. Denis was high for the Sprinklers with 557. Players and scores:

BASKETBALL RESULTS HEARD OVER RADIO

Belleville radio fans heard the results of the Belleville—Queen's basketball game, played at Queen's Saturday night, the results having been broadcasted over Queen's broadcasting set right from the gymnasium floor.

Members of the Belleville team had a busy evening at Kingston Saturday. They played their own game, witnessed one period of the Queen's—McGill basketball game saw a period of the West Point—R. M. C. hockey game, and attended the Queen's dance afterwards.

PETES TOO GOOD FOR MARKHAM SIX

Markham, Feb. 19.—Peterboro Intermediates are still going strong in the Provincial race, and at Markham last night, easily disposed of the Hams by the score of 5-1. Markham ousted the "so called" North Toronto sextette, and were supposed to be speed merchants. Petes will make them look like a procession at the Brock street arena if they play like they did against Belleville.

ROD AND GUN

The story of Three Yankee Hunters who came up from New York to have some hunting in New Brunswick is well described by Charles E. Williams of New York, one of the party, in the March issue of Rod and Gun in Canada and all sportsmen will enjoy this narrative. For those who have never visited Jasper National Park, or for those who wish to renew their remembrances of this beauty spot, C. E. Trowbridge's well illustrated article on Jasper Park will be of particular interest. "Fishing on the Eastern Slope of the Rocky Mountains" is a good story by D. E. Elliott, while Bonnycastle Dale has a good account of moose hunting in Nova Scotia. In the Guns and Ammunition department H. W. Fry and J. R. Mattern continue their good articles in the new series, while R. P. Lincoln, W. C. Motley F. V. Williams and F. H. Walker have filled their various departments with interesting reading for the sportsman. The March issue of Rod and Gun in Canada contains something to interest all lovers of hunting, fishing, shooting, and kennel interests, while there are articles dealing with many phases of outdoor life.

Reach Finals In Contest For Campbellford Cup

The finals in the strenously contested 'spiel for the fine Campbellford curling trophy were not reached until Monday night, owing to the large entry list of contesting rinks. The finalists who battle it out for the cup at the rink there tomorrow night are Fred J. Smith and his "colt" rink, (all players being young men) and R. H. Cole with his strong and older rink, with no less a personage for his vice skip than Mayor A. J. Meyers.

The ice is exceptionally keen, and the curling fans are all 'het up' about the battle which will draw a record crowd and will be the classic of the curling season. Following are the players on the two rinks which are now qualified to fight it out.

Claude Buncalfe. James Gay, Harry Denike, Fred J. Smith (skip).

Roy Bell, Marshall West, A. J. Meyers, R. H. Cole (skip).

First and second prizes will also be donated in this contest.

In the semi-finals, Smith's famous colts defeated the "war horse" curler Pat Kelly by 13-6, and Dick Cole's All Stars defeated Mat Mulhearn's good rink by the close score of 12-10. Both winning teams are from Campbellford so it will be Campbellford vs. Campbellford for the Campbelford cup. The fortune is bound to remain in the family.

"Vicks Is Best For Croup"

SO DECLARES MOTHER OF TWIN BABIES

Mrs. Frank Cox, R.R. No. 2, Mountain Grove, Ontario, says: "My twin babies aged twenty-one months were seized with convulsions and croup. They were so choked up that I did not know what to do. Finally I rubbed their chests and throats with Vicks VapoRub and applied hot flannels. This immediately relieved the spasms. I also had the babies inhale the vapors from a tin cup and they grew quiet and slept. Vicks is the best croup remedy ever in this house."

If the child seems croupy, apply Vicks over throat and chest at bedtime. It usually averts a night attack. In severe cases heat a tin cup, drop in a teaspoonful of Vicks and as it melts hold the cup so vapors can be inhaled.

Vicks is a salve that acts like a plaster and a vapor lamp at the same time. It is absorbed and inhaled. This makes Vicks the ideal treatment for childrens' cold troubles; it avoids so much internal dosing. Just as good, too, for grown-ups' colds, and for cuts, burns, bruises, sores, stings and skin itchings.

At all drug stores 50c a jar. For free test size package write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

KLOTZ DIARIES ARE LEFT TO CANADA

Ottawa Feb. 1[illegible].—An estate amounting to $28,846 has been left by the late Dr. Otto J. Klotz, formerly director of the Dominion Observatory, according to his will which has been filed for probate at the court house.

One of the most important bequests made under the will is that the whole of the diaries of the late Dr. Klotz, which are given to the public achieves of Canada, on the condition that they are not to be available for reference, extracting, or publishing for a period of 25 years. Some of the diaries date back to 1866.

PAT JENNINGS IS "AT IT" ONCE MORE

Toronto, Feb. 19.—Pat Jennings, the irrepressible Trenton sportsman, is on the map once again. He sprang into "big time" away back in April 7, 1910, when he won a big wager by producing Jack Johnson at Belleville. Now he is back again riding with Johnson. He phoned the big black the other day and got his consent to appear in Trenton early next month for an exhibition bout. All Patrick needs now is a definite date and permit from the Ontario Athletic Commission.

Mr. R. J. E. Graham, left this afternoon for Detroit on legal business.

Mr. and Mrs. S. J. Fisher returned home today after spending a few days in Campbellford.

Dr. E. F. Richardson, formerly of Campbellford, who recently underwent a serious operation for appendicitis in a New York hospital, is reported to be progressing favourably now.

Messrs. John F. Wilder of Rochester N. Y., George D. and Harry of Detroit are in the city, owing to the serious illness of their father, Mr. W. John Wilder, residing on Grier street. Mr. G. D. Wilder of Milwaukee and Mr. J. J. Wilder of Montreal, brothers of Mr. Wilder are also here.

CONCERT AND PARTY AT ZION HILL

On Friday evening, February 8th, eight of the Ontario Ladies' College students of Whitby, gave a very enjoyable entertainment in aid of the Zion Hill Methodist Church.

The programme was lengthy, and varied by musical selections both classical and comic.

On the following evening one of the students, Miss Minnie Ketcheson entertained the young people by a delightful party at her home.

The time was passed most enjoyably by music, games and contests, lovely prizes being awarded to the winning groups and appropriate booby prizes to the losers.

After a danty luncheon, the party broke up, after singing "We'll All Go Home the Same Way."

Palm Beach Styles Show That Yellow Shades are Coming In

By Hedda Hoyt
Fashion Editor of the United Press
(Written for the United Press)

New York, N. Y., Feb. 19 (United Press).—Palm Beach styles cast spring shadows before them!

And Palm Beach follows the color scheme of orange and the grapefruit this season; it is safe to prophesy that spring will see much of these colors.

Frock for sport wear as well as those that gather nightly under the glittering light of the Everglades Club range from the palest of yellow to the vivid tones of the tangerine orange. Even the green stem of the fruit is borrowed by the fashionable as a color combination for the yellow or orange frock.

Hosiery, jewelry and gown accessories all carry out the vogue for yellow, orange and rust. Pale yellow hosiery goes with white, black or colored slippers, yellow crystal amber and cornelian necklaces and earrings are the favored jewels; yellow handbags, parasols and hats—all fall under the sway of the latest color scheme.

Frocks of yellow linen are seen in numbers, trimmed in black and worn with yellow hosiery and black slippers. Wide yellow leghorns and horsehairs use black ribbon flowers and ornaments. Parasols of yellow have black borders and handles.

Gold and Silver

The only variation from the popular color scheme that is noticeable is the wide use of gold and silver for evening wear. There are many gowns made of either cloth of gold or silver with wide panels of matching lace hung from rhinestone medallions that are placed at a low waistline. Sometimes the lace is studded with rhinestones or embroidered in pearls. The general trend for evening wear is the slender bodice with full ruffled, pleated or lace flounced skirt, although some of the matrons prefer velvets with simple sinuous lines. Long skirts are in the majority for evening gowns, although for day time wear skirts are quite short again.

Short Sleeved Gowns

If one is to forecast spring styles by those worn at Palm Beach at present one can be certain that short sleeved frocks have not had their day. They are worn for morning as well as for afternoon functions and sometimes the frock is absolutely sleeveless. Short one-button gloves, gauntlets and three-quarter length gloves are worn with the short sleeved frocks, the type of glove worn depending upon one's frock. With the mannish little one-piece frocks that one sees in the mornings, the short cuffed glove of tan or grey suede that pulls on over the hand is perhaps the smartest. With colorful sport frocks made of striped flannel, gauntlets with cuffs embroidered in the tones of the frock are seen a great deal. For afternoon wear there are white gauntlets trimmed in black and what is perhaps newer than these the three-quarter length suedes of mauve or fawn shades

Accessory Forecasts

Suede shoes with trimmings of varnished leather will be worn this spring

Crystal necklaces and earrings are the coveted jewels for the coming season.

Bib effects are noticeable on many of the latest afternoon and evening frocks. The bib may be made of lace outlined in embroidery or achieved pin-tucks. Their effect is always youthful.

Canes with straps sufficiently large for them to be carried about the elbow are shown for the spring tailleur. The newest of these are not ornate as to handle, but are straight with small enameled knobs.

Three-quarter length coats with scarf collars will be popular for sports wear.

Short fur jacquettes will be worn for the in-between season wrap. This season will see them in an assortment of furs ranging from ermine to spotted leopard. Summer ermine trimmed with collars and cuffs of white ermine are perhaps the dressiest models shown so far. Little box-shaped jacquettes made of baby leopard are both new and chic.

Many of the summer frocks have little tape loops attached to the shoulder seams with snapper adjustment so that one's lingerie straps can be held in place. This eliminates the trouble of having to constantly attend to one's understraps. These little tape affairs with snappers can be purchased at the notion counters of many stores.

That Body of Yours

By James W. Barton, M.D.

A PARALYSIS THAT IS NOT REALLY SERIOUS

You may suddenly discover some day that only one side of your face is working. One side has its wrinkles and ordinary expression, and the other is smooth and expressionless.

The eyelid drops, and the eye remains partly closed on the affected side.

You can eat, drink and talk, but not as well as usual.

When you laugh you look something like the reflection you've seen when you looked into the "trick" mirror at the summer resort or elsewhere.

Now this isn't a pleasant thing to contemplate, because the word paralysis is naturally associated in your mind with serious conditions of the body.

It is not an uncommon condition and is often found in men of early or middle age.

And the cause?

In the majority of cases it is due to cold or exposure, although injuries may cause it sometimes.

It varies in its intensity and in the length of time it lasts, according to the part of the nerve affected—the seventh.

The trouble is an actual inflammation of the nerve itself.

Is it serious?

No. In a few weeks you are completely better and no sign left of the embarrassing condition.

And the treatment?

Your physician will start off as usual with a good cleansing of the intestine, very frequently using the old reliable calomel followed with Epsom Salts.

Heat in various forms is applied to the face, even an old fashioned mustard plaster being sometimes used. To stimulate the muscles of the face to work an electric current—faradic—is used. Later massage of the face is given daily. Exercising the muscles of the face by imitating the movements of crying, laughing, and other emotions is also of help. Remember it is due to cold. Care should be taken to remain indoors for a few days to ensure an early recovery.

W.C.T.U. REGULAR MONTHLY MEETING

W.C.T.U. observed Francis Willard Memorial Day Friday afternoon in Y.M.C.A. The chair was taken by the president, Mrs. Geo. Cole. After singing, general business was proceeded with. Minutes, reports, etc.

The Union has invited the County Convention here to be held in June.

It was moved and seconded we give prizes to the Public and High School for the best essay in "Scientific Temperance". 1st prize $5, second [illegible] to the 3rd and 4th classes. 1st prize and second $5 to the High School pupils.—Carried.

Miss Gardiner, Rev. Kerr and Inspector Clark be asked to act as judges.

Mesdames Pearsall, Sharp and French gave interesting papers on Temperance.

It being in form of a Francis Willard Crusade Day for securing new members, 13 joined and signed the pledge.

The rest of the time was taken up with our new study book (Alcohol in Experience and Experiment), Mrs. Rev. Baker being in charge. Miss Hawley closed with prayer.

HOW HE REMEMBERED

Professor A—Do you know, I find it difficult to remember the ages of my children.

Professor B.—I had no such trouble. I was born twenty-three hundred years after Socrates, my wife eighteen hundred years after the death of Tiberius Caesar, our son John two thousand years after the entrance into Rome of Tiberius Sempronius Gracchus for the re-enactment of the "leges Liciniae," and our Amanda fifteen hundred years after the beginning of the Folk-wandering—that is perfectly simple, you see.

One symptom of eye strain

A person arises in the mornings feeling fit and ready for anything. He starts to work with enthusiasm, but in two or three hours begins to lose his energy. This is particularly true of those who use their eyes for close work. If your eyes are a handicap to you, first I could convince you of the fact, then relieve you.

Fifty Thousand Women

would comprise a vast army, yet that is the number who have replied to a questionnaire recently sent out by the Lydia E. Pinkham Medicine Co. of Cobourg, Ont. Ninety-eight out of every 100 letters from these women contained positive assurances that they have been benefited or restored to health by taking this old-fashioned root and herb medicine. This is most remarkable evidence of its power over the ills of women. Therefore with 98 chances out of one hundred that Lydia E. Pinkham's Vegetable Compound will overcome such ailments for you, why should you continue to go through life in pain and suffering?

NOT TO BE REGRETTED

"Mr. Chairman," said the orator, who was being severely heckled, "I must appeal on a point of order. I have been speaking now for over a quarter of an hour, but there are so many interruptions and so much ribaldry from all parts of the hall that I can scarcely hear myself speaking."

"Cheer up!" came a voice. "You're not missing much."

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

CHAPTER IV

Jack went round to the stable to see if the young mare was hurt—he had given her in charge of a chuckle-headed youth whose eyes threatened to drop out with staring at the stranger who looked like a tramp and talked like the gentry—and wandered about the rick-yards until the doctor drove up; then he sauntered round to the house to see if he could be of any use.

The doctor was an old man, bent and grey with years of toil—a country doctor's life is perhaps the hardest a man can lead. He sits in a gig or on a horse all day, and there is always the off chance that he will be called up in the night to do a dozen miles or so in rain or snow; but there was a good-tempered twinkle in his shrewd eyes and a cheerful ring in his voice, and though his manners were somewhat brusque, he was a gentleman.

"Well, what is it this time?" Jack heard him ask Mrs. Martin. "Fallen off a haystack, got chawed up by the threshing-machine? Oh, horse ran away; broke his leg, has he? Well, there's one good thing, he can't break his head; it's too thick. Hallo, young lady, what are you doing here?"

"You've no business here; don't you know there's a case of measles in the house?"

Esther laughed.

"I've been scolded for that already, doctor," she began, giving him her hand, then she caught sight of Jack and pulled up short. "Yes, I'm sorry to say poor Martin has met with an accident. The mare bolted, and Martin might have been killed—"

"Not he!" interjected Doctor Grey.

"If this—this gentleman had not stopped her."

The old doctor turned sharply on Jack and scrutinised him keenly.

"Humph! Looks as if he could. Not hurt yourself, I see. It's great pity. Such a nice creature—it was the young cart mare, I suppose? And it was market day—ah, yes! Just so. Well, I'll go upstairs and settle him. I've brought my tools; for when I heard it was Martin, I knew he'd broken something. I wish they'd put more water in what they call their whiskey at the King's Head."

He went upstairs, and Esther stood at the door, and Jack leant on the gate in silence.

"We shall be dreadfully late for dinner, Esther," said Miss Worcester, with plaintive resignation. "But we cannot go until we hear the doctor's opinion. Would you mind holding the pony's head, young man?"

She was getting tired of sitting in the cramped position demanded by a jingle, and was still in mortal terror lest Toby, demoralised by example, should take to bolting on his own account.

Jack helped her out and stood beside the pony, eyeing it gravely, and apparently unconscious of the presence of the beautiful girl in the porch, who, with equal gravity, was watching him, without appearing to look at him; a sleight of eye which can only be performed to perfection by a woman. Presently Bob rose with a yawn, and ran up to her and wagged his tail by way of opening a conversation. She sat down on the settle and took his head in her hands and looked into his big, soft orbs, then lifted his leg and inspected his foot.

"Your dog seem to be all right now," she said, her clear voice carrying to Jack quite easily. "Did you get the thorn out"

"Oh, yes," he said. "By the way, Miss Vancourt, I did not thank you for your kind attempts."

Esther raised her brows; for it was not usual for men in seedy attire, with unwaterproof boots, to address her as "Miss Vancourt." There was no disrespect in the tone, but a suggestion of equality that Esther thought rather strange.

"Bob was very grateful, and so was I, though we forgot to mention it."

"I am fond of dogs," she said, "especially when they are well-bred and handsome, and beautifully mannered, as this one is."

"Ah, yes," said Jack. "Though you often find a common mongrel well-mannered and affectionate: but beauty and birth have the first pull, of course."

"This—accident has detained you, I am afraid," she said, after a pause.

"Oh, it's of no consequence," remarked Jack, resignedly. "I'm in no particular hurry. It's all in the day's work."

Esther looked at him curiously—not for the first time.

"What is your—work?" she asked.

"Nothing—at present. I'm looking for some. I've been working at the docks—dock labourer, you know; but I suppose I can call myself a farmer—farm-hand."

"You will find it difficult to find work now," said Esther. "All the farmers have engaged their men; they do so at Lady Day, and it's just past."

"I daresay," he assented. "I'm going to London. There's always the docks there, if there's nothing else."

"It is terribly hard work, isn't it?" she asked. "I've read about the men at the docks, and I know they carry tremendous weights."

"Oh, it's hard enough, but I've seen harder. You don't think this pony is going to run away, do you?"

Esther laughed by way of reply, and Jack, who objected to talking at such a distance from his auditor, strolled up the garden. Esther coloured faintly, for there was something to her rather appalling in this young man's coolness, not to say sangfroid. And, woman-like, she was fighting against his evident strength and equally obvious grace.

"Do you like driving?" he asked, after a pause, as he leant against the porch.

"Oh, yes, replied Esther, wondering what he was going to say now, and whether she was going to be offended. "Why?"

"Oh, well, I daresay you will think it is like my cheek; but I was wondering why you didn't drive something different to that little beast, which, regarded as a nursery toy, is well enough, but as a horse, leaves something to be desired. But perhaps you like going at two miles an hour?"

"No, I don't," said Esther, indignantly. "But—well, I prefer it to a regular carriage, and though there is a dog-cart, of course, I'm not used to it. I've only been at the Towers a short time—that is, I didn't know whether they were mine—" She coloured and bit her lip, feeling that the dark eyes were studying her coolly.

To be Continued.)

CRIPPLED BY RHEUMATISM
Began to Improve After Taking "Fruit-a-tives"
The Medicine Made From Fruit

You can get rid of Rheumatism. You can be free of pain—of swollen hands and feet—of aching arms, legs and back.

"Fruit-a-tives" will drive the cause of Rheumatism out of the system and give you permanent relief.

"For over three years, I was confined to bed with Rheumatism. Finally I decided to try "Fruit-a-tives". Before using half a box, I noticed improvement. I continued taking "Fruit-a-tives" improving all the time. I can now walk about two miles and do chores around the place".

ALEX. MUNRO, Lorne, Ont.

50c. a box, 6 for $2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

MOTHER! GIVE SICK CHILD "CALIFORNIA FIG SYRUP"

Harmless Laxative for a Bilious, Constipated Baby or Child.

Constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It Sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

A woman can do without a lot of things if her neighbors haven't got them either.

Don't Let Housework Ruin Your Hands

To heal chafing, soreness or that harsh chapped feeling of the skin caused by housework, Zam-Buk is invaluable. This herbal balm soaks through the pores, soothing and purifying the whole tissue, killing and removing poisonous disease germs, and renewing the skin.

There are soothing, healing and germicidal virtues in Zam-Buk, never found in ordinary fatty ointments and salves. That is because Zam-Buk is a highly-concentrated medicinal preparation of *unique herbal origin*.

Zam-Buk is proved equally good for ending attacks of eczema, ulcers, ringworm, blood-poison or piles, it quickly soothes and heals all cuts, burns, chilblains, etc., and clears the skin of pimples and blotches.

Zam-Buk

FREE BOXES!

We will gladly mail any reader, free and post-paid, a small sample box of this famous herbal healer for trial purposes. Send your request for one on a postal, address to The Zam-Buk Mfg. Co. Toronto. Note the effect of Zam-Buk on any Cut Burn or Sore.

EFFORTS TO CURB PETTY SMUGGLING

Brockville, Ont., Feb. 19.—In an effort to curb petty smuggling on the ice bridge over the St. Lawrence between Brockville and Morristown, N. Y., the customs department was especially vigilant over the week end and stationed officers at all approaches to the town where they were on duty until late at night. As the result of the activity, various seizures of goods, the possessors of which were endeavoring to enter this country without reporting, were effected. It is announced that the campaign against smuggling will continue in force until the ice bridge is broken.

OLD STYLE HALTER HUMANE AS GAS OR CHAIR, SAYS MAXIM

New York, Feb. 18.—Choose your own poison. Thomas A. Edison and Hudson Maxim, the inventor, are split.

"Is lethal gas more humane than electrocution?" Maxim was asked yesterday following Edison's recent assertion that it was.

"Well," said Maxim earnestly, as he stroked his long beard, "there is nothing that beats the old-fashioned halter. Put a rope around a man's neck and let him drop."

Comparison of "Two" Well Known Language

London, Feb. 19.—In view of the approaching visit of thousands of American business men to London for the International Advertising Convention the newspapers here are publishing lists of phrases so that the visitor can make himself understood and also understand what is said to him. A glossary such as the following appears in one paper:

United States	English
Ash-can	Dust-bin
Bureau	Chest of drawers
Coal Oil	Paraffin
Cracker	Biscuit
Fraternal order	Friendly society
Trolley car	Tram car
Wash rag	Face cloth
Wood alcohol	Methylated spirit
Vest	Waistcoat

FUN AMONG THE EXAMINATION PAPERS

London, Feb. 19.—One of England's precocious juveniles has added several hitherto unknown facts to history. On his examination paper he wrote:

"Bunyan was the inventor of the Non-conformist Religion, and also wrote the Pilgrim's Chorus.

"In 1620 the Pilgrim's Progress.

"Charles I was going to marry the Infanta of Spain. He went to see her and Shakespeare says he never smiled again.

"During the war of American Independence Lord Northcliffe wisely gave the Irish volunteers Home Rule.

"Account of the Feudal System, William the Conqueror was thrown from his horse and wounded in the Feudal System and died of it.

"Marconi is used to make delicious puddings."

IMPLICATIONS DENIED

Cleveland O., Feb. 14.—The implication of irregularities in the sale of the Marion Star by President Harding to Louis H. Brush and Roy D. Moore made by A. V. Vanderlip, New York financier, in a speech at Ossining, N. Y., on Tuesday night, brought a sharp denial from Md. Brush last night. Brush is president of the Harding Publishing Company, in addition to owning several other newspapers in Ohio and has been a lifelong personal friend of the late president.

PARIS TO NEW YORK BY MONOPLANE SOON

Paris, Feb. 19 (United Press).—A non-stop flight from Paris to New York is to be attempted this summer, according to an inventor. For the project a giant monoplane has been built and will shortly undergo preliminary tests.

The machine is in effect a flying wing and there is no fuselage in the usual sense of the word. At its deepest part the wing will be accommodated the passengers and the enormous amount of fuel that will be needed on so long a flight.

The craft will be equipped with three 400 h.p. Loraine motors, which may be operated together or singly. With two engines running the aeroplane will be able to attain a speed of slightly less than two miles a minute.

As a trial test a non-stop flight from Paris to Cairo, a distance of about 1,500 miles will be essayed.

OSHAWA SELECTS FINE MEMORIAL

Oshawa, Ont., Feb. 19.—At a meeting of the Oshawa War Memorial Committee held yesterday afternoon, the design submitted by H. W. Howell, Toronto, was accepted, and will be one of the most unique and outstanding war memorials of the Province of Ontario. The width across the base will be 45 feet with a height of 28 feet, the whole scheme to be carried out in Stanstead granite and bronze. Included in the design will be stones gathered from the different Allied countries who fought together in the Great War and from the different battlefields in which Canadian soldiers fought. In front of the memorial will be a garden bearing the words, "The Garden of the Unforgotten."

LADIES' AID MEET AT FRANKFORD

The Ladies Aid of Frankford Methodist Church held their monthly meeting at the home of Mrs. Everett Moynes on Feb. 14. President Mrs. Dan Frost presiding. After the business meeting, lunch was daintily served by the hostess. Ruby Snider and Olive Moynes were appropriate waitresses, dressed to represent St. Valentine.

A very sociable time was enjoyed by all, there being fifty-nine members and visitors present.

PROVIDENTIALLY SPARED

A Londoner had had a man from Aberdeen as his guest for a fortnight and had done him exceedingly well. As the host was bidding his guest farewell at King's Cross Station, the latter as he mumbled his thanks, said something vague about sending the Londoner a fowl. However, days, weeks, and months passed without any sign of the present from Aberdeen until at length the time arrived when the Scotsman returned to London to pay his friend another visit. As they were shaking hands the Londoner said frankly, 'By the way, I never heard any more of the fowl you were going to send me." "Goodness gracious!" said his guest penitently; "did I no' tell ye?....It got better."

HELD BY HAMILTON POLICE

Hamilton, Ont., Feb. 19.—Eric Lawrason, of this city, son of a Toronto physician, is being held at the police station here pending an autopsy now being made on the body of a new born babe. Should the autopsy prove that the babe was alive at the time of birth, a charge of manslaughter will be laid, the police say. The mother of the child is a young girl who has been employed in the city income tax office. Lawrason, according to the police has admitted that he took the girl to a John street apartment last night and was present when the child was born. The dead body of the baby was found later to-day wrapped up in a paper parcel. Lawrason claims that he is not the father of the child.

DOYLE'S DRUG STORE

New York, Feb. 19. (United Press Despatch)—Thirteen were burned to death when a five storey tenement on Madison Ave., east side, burned last night. Many jumped from windows and were seriously injure.

WOMAN OF 103 HAS MEMORIES OF GREAT IN LAST CENTURY

London (United Press).—Miss Elizabeth Underwood Lisle will celebrate her 103rd birthday, if she lives until March, 1924. Her memory and digestion are almost perfect, but she has not walked for two years.

"I once stayed in the same hotel as Disraeli and his wife," she said. "They were a most devoted couple. Once when Disraeli was going to the House of Commons to make a speech a footman closed the carriage door on his wife's fingers. She did not mention it to her husband for fear it should spoil his speech. Wasn't that splendid?"

Then she spoke of Tennyson. "His character was as remarkable as his poetry. When he was asked out to dine it was always understood that he should be regaled with a bottle of the best port. On one occasion he dined with some friends of mine and was given some wine from the cellar which was not "too good" and Tennyson said so. His host was greatly upset and explained that the wine was taken over with the house and immediately sent out for a bottle of the best wine obtainable."

Miss Lisle also numbered Charles Dickens among her friends and she often heard him read extracts from his books.

On one occasion she wrote to Cardinal Newman saying she would like to visit him, but the Cardinal replied that he was too old to see anyone.

TELEPHONE "RIGHTS"

An excellent opportunity to invest in Bell Telephone stock on the instalment plan is offered through the purchase of "Rights."

The purchase of 5 "Rights" carries the privilege of subscribing to one new share of Bell stock at $100, payable quarterly. First payment $25 per share. Interest allowed on instalments.

Subscription privilege expires April 1st

No account too small to receive our careful attention.

PROPERTY IS NOT "SAFE" FROM DEMANDS OF THE LABOR PARTY

By C. T. HALLINAN

London, Feb. 19 (United Press).—Is property "safe" under the new Labor government? Is the Englishman secure in his "castle"? Can he be taxed without his consent?

These are questions now being hotly discussed in the great clubs along Pall Mall and Piccadilly.

According to Professor Morgan of the University of London, who is not especially friendly to the new regime, property is distinctly not "safe" if the Labor government wishes to attack it.

Among the powers already lodged with the "government of the day," be it Socialist or Tory, are such tremendous powers as these:

1. The Ministry of Health can take a man's land for housing purposes at its own figure, not subject to review by the courts; likewise the Ministry of Agriculture, whenever it wants land for "small holdings."

2. The Ministry of Health can oust him from his "castle" whenever it sees fit and he must accept whatever compensation is offered him.

3. While it can not increase his general taxes—such as his income tax—without the consent of Parliament, it can increase his local rates or taxes whenever it has a local enterprise which it is determined to put through. If, for example the town should object to a certain housing scheme the government can proceed with it and calmly charge it upon the town which must then raise it by local rates or taxes.

In short, all Ramsay MacDonald need do, it is said, is to sit tight in the House of Commons, avoiding controversial issues as long as possible, while the cabinet proceeds with its far-reaching plans for a "Merry England."

Eventually, no doubt, it will have to go to Parliament and thence to the people, for increased powers, but in the meantime it can lay solid foundations and have, perhaps, a remarkable showing to present to the electorate when it is forced into its next election. This was the domination of Prime Minister MacDonald by the Independent Labor party, whose members are known as "highbrows" by the Laborites who do not belong to it. Mr. Tillett was not a "highbrow" and was in need of something to direct attention to his union.

There appeared suddenly from it a demand for two shillings more.

Hostility To Thomas

Another row among the Labor leaders is considered to have precipitated the strike of the members of the Association of Locomotive Engineers and Firemen about the time Labor came into power. They were led by John Bromley, who for long had engaged in a feud with Mr. J. H. Thomas because 20 per cent of the engineers and firemen were members of Mr. Thomas organization of National Union Railwaymn. Mr. Thomas became Colonial Secretary and Mr. Bromley ordered the strike. It cost the country $25,000,000 and hurt the prestige of the Socialist Government.

EIGHTH CON. OF SIDNEY

Mr. Vernon Brush, 4th concession, Sidney, is spending a few days with friends here.

Mr. and Mrs. Stanley Irvin took tea with Mr. and Mrs. Clarence Chard on Sunday night.

There was no school here on Monday and Tuesday owing to the illness of our teacher Miss Bessie Rosebush.

Mr. and Mrs. Percy Utman and Dorothy spent Monday with Mr. and Mrs. George Heasman.

The R. V. W. I. meeting was held at the home of Mrs. W. H. Hanna on Thursday of last week.

Mr. and Mrs. Harry Taylor and Edna took tea with Mr. and Mrs. Alex Bush on Friday evening.

Mr. and Mrs. David Hanna and children spent a few days recently at Madoc.

When the President Goes a "Calling"

Washington, Feb. 14 (United Press)—It was Sunday morning at the home of Edward T. Clark, secretary to President Coolidge. Clark and Roger Babson, stastician, were lounging in Clark's study, perhaps studying statistics of the coming Presidential vote. A ring at the door bell. Another Then another.

"Probably a messenger boy," said Clark. "When he gets tired ringing, he'll drop the message through the slot."

More ringing, followed by vigorous thumps and kicks on the door.

"That's a persistent cuss," said Babson. "I'll run down and tell him a few things."

LAD SENTENCED TO DEATH TWICE

Unique Case in Annals of French Justice at Laon

Laon, France, Feb. 19.—Raoul Marchand, 20 years old, has just been convicted of murder and sentenced to death for the second time, a case which is believed to be unique in French justice.

He was condemned first in August last for the slaying of a young girl. While in prison awaiting the result of hislawyer's efforts to obtain a respite from President Millerand Marchand one day caught a prison attendant off guard and felled him with a chair in attempt to escape.

The attendant died the next day. Marchand was again arraigned before a jury, found guilty and sentenced to death.

STOMACH SOURCE OF SUFFERING

Dreco, By Correcting Its Action is Rapidly Restoring Peterboro Lady to Joyful Health. Aids Liver and Bowels as Well and Improves System Generally.

"For the past few years I have been a constant sufferer from stomach trouble," says Mrs. R. M. Graham, of 115 Robinson St., East City, Peterboro, Ont. "Gas would form after eating that felt like a lump of load. My food soured, causing nauseau and belching and I would get severe cramps. My appetite was very poor and my whole system suffered from lack of nourishment.

"My liver was sluggish too, and I would get dizzy spells, and the least bit of work would exhaust me. I would get tired out from just walking up stairs.

Two bottles of Dreco convinced me of its merit.

"My stomach is wonderfully improved and I have a splendid appetite. My food now digests perfectly without souring or causing the least distress and I hardly ever have a dizzy spell. Work, which was an effort before is a pleasure once more and my bowels whch were chronically constipated are regular as a clock."

Dreco brings health by putting the stomach and other vital digestive organs in proper working order. They purge the system of all impurities and absorb all the nourishing values of the good, thereby giving strength and vitality to the whole body. Dreco is made from herbs, roots, bark, and leaves and contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy, and is sold by a good druggist everywhere.

COLUMBIA TO TEACH INSURANCE SELLING

New York (United Press).—University Extension course in selling life insurance will be given at Columbia University during the spring session, it was announced by Director James C. Egbert. The instructor will be Howard K. Nixon of the psychology department.

"In the course," said the announcement, "the problem of the life insurance salesman will be approached from the psychological point of view. It is recognized that the greatest success in selling depends not only upon a knowledge of life insurance facts and figures but also, and more fundamentally, upon a practical knowledge of the mechanisms of human behavior—the motives, instincts and interests that lead the prospect to act or prevent his action.

"The case method of teaching is used, thus presenting in the shortest possible time the psychological principles involved as they actually work out in concrete instances. This will be followed by analysis and discussion

Two Dreams of World Peace Are Legacies of Nation

Harding, Shortly Before His Death, Commented Sympathetically on Plans of His Predecessor — Must Find Way to End War

By LAWRENCE MARTIN
(United Press Staff Correspondent)

Washington, Feb. 19. (United Press).—Two presidents of the United States have gone into the beyond within a year. Two dreams of world peace remain as legacies to the nation these Presidents served.

Wilson and Harding had different visions of the means to prevent war. Both of them were called away before their dreams came true, though Mr. Harding had the greater satisfaction of seeing his program partially adopted. But, ere he died, the Senate which balked Mr. Wilson had turned a hostile eye upon Mr. Harding's second step—the participation of the United States in the world court.

These two men had very different ideas about the peace program proposed by the other.

Mr. Wilson, for example, thought the arms limitation conference called by Mr. Harding was pretty much a waste of time.

Mr. Harding thought the United States ought to remain out of the League of Nations, which was Mr. Wilson's plan for peace.

But though they differed on methods, both men regarded as their chief mission, efforts to make the United States the chief agency for ending war.

After he became President, Mr. Harding viewed with much greater sympathy than previously the Wilson program, because he came in touch himself with the influences which sought to defeat and ultimately did defeat American participation.

This was one reason he determined to go on through with his own efforts to establish some means of preventing wars. He was so committed against the League of Nations that it was impossible for him to espouse Mr. Wilson's program, and he believed this country was against that. But it was borne in on him exactly as it was borne in on Mr Wilson, though in less tragic degree that America must do something to prevent new wars.

"I am very sorry that Mr. Wilson's program was not accepted, with reservations that would make it conform to American principles," Mr. Harding said one day while his ship was nearing Alaska in the summer of 1923, a few weeks before his death.

"The longer I am President, the sorrier I become that our full influence for peace has not been exercised. People do not realize the dangers that beset us. War is so easy to start, and right now it would not take much to start one."

Mr. Harding knew also that he faced a fight just like the one that broke Mr. Wilson.

"I suppose," he said, "that they will get after me the way they got after Wilson. We've got to do something; surely everybody can see that."

And now his world court plan is slumbering in the Senate foreign relation committee.

MAFALDA'S WEDDING TO PRINCE NICHOLAS IS DOUBTED IN ROME

Rome, Feb 19 (United Press).—Reports that the Princess Mafalda, second daughter of the King and Queen of Italy will be married to Prince Nicholas of Roumania were discounted in Vatican circles in statements to the United Press today. It war pointed out that the marriage would enail abjuration of the Princes' right to succession to the throne, which has never been done by a member of the House of Savoy and only once by a Catholic princess.

Additional Sports

Petes Trim the Bowmanville Crew

Peterboro, Ont., Feb. 19.—In a weird game of hockey last night, with the local juniors outskating and outplaying the husky Bowmanville boys, the Petes won by 8 goals to 4. The Petes showed all kinds of speed and combination. On the other hand, the Bowmanville boys did not hit their stride until the last period. In the first two periods the locals had the Bowmanville boys standing on their heads with the persistent zig-zagging rushes of H. McDougal, their centre man. He was the outstanding star of the Peterboro team, and he was always a hornet in the Bowmanville territory. Charterand the only man on the Bowmanville line-up that showed any speed and shooting ability, scored their four goals in the last period on long, swift shots. Thornton, the new defence man on the Peterboro line-up also showed up well, and he succeeded in bulging the twine behind Martin four times while H. McDougal and Holland scored twice and Cheu once.

The first period opened at a slow rate and the Petes had the better of the play throughout. When the period ended, the Petes had two goals to Bowmanville's none, and when the second period ended the Petes had increased their score to five, while the Green and White puck chasers still had nothing. The third period was the fastest of the game and the Bowmanville boys showed their only speed of the game. They stormed in on Lebarr from the face-off till the final gong, and when the period ended the score stood: Petes 8, Bowmanville 4. J. Cummings of Toronto handled the bell.

Terriers Lose Clean Game 8-5

Kitchener, Ont., Feb. 19.—The Kitchener Green Shirts remained in the running for second place in the Big Four race by defeating the Galt Terriers by 8 to 5 in the last regular scheduled game of the series here last night.

The game was fairly fast and decidedly clean and open with both teams showing a nice turn of combination. It would have been considerably more interesting had there been more of a crowd present, only about 300 people taking in the contest. Kitchener played much better than in the Preston game. Referee Jerry Laflamme had an easy time of it and not a penalty was given, there not being a semblance of any rough play.

It was the tenth loss of the Terriers and it ended the season for them, the most disastrous since they won the O. H. A. intermediate title three years ago. Their only wins of the year were a one-goal one over Stratford in Galt and a neat three goal victory over the Preston team also in Galt.

RITCHIE'S
AUSTRALENE WOOL YARNS 20c BALL

Australene Corticelli Yarns in one ounce balls in all the wanted shades including Sands, Browns, Buff, Coral, Rose, Hello, Nile, New Blues, etc., etc.

NEMO CORSETS
Sold by RITCHIE'S

A woman was heard to remark the other day: "I never knew there was real comfort, in wearing any corset until I tried Nemo Corsets."

Corsets are not only the foundation of style, but are a preserver of health when properly selected. If not properly selected and fitted it not only makes style impossible, but many times results in bodily discomfort.

The Corset Section announces the arrival of many new models. This bit of news will be welcome, for, of course, you'll want to be fitted for a new corset or girdle before ordering your new spring gown. In fact the new lines demand a new corset.

A retained corsetiere will give expert attention to all fittings.

Sergical and maternity corsets are fitted with superior skill in the proper manner.

Stop at the Corset Section and see the New Models in

WINTER'S WORST STORM HALTS TRAFFIC

$50,000 ATHLETIC FIELD AND AGRICULTURAL PARK IS FAVORABLY RECEIVED

Forty Representatives from Belleville and Surrounding Towns Guests of Local Parks Commissioners at Banquet—No Opposition Expressed to Scheme

PURCHASE OF LAND

Agricultural Buildings, Up-to-Date Race Course, Baseball Park and Other Improvements Estimated to Cost $50,000—Proposed City Council Pass By-law For Amount

Forty representative men of Belleville and surrounding towns were guests of Belleville Parks Commissioners at a banquet held at New Queen's Hotel last night where the new proposed athletic field and Agricultural park for this city was thoroughly discussed for two and a half hours, and some twelve helpful addresses were heard. No opposition to the new scheme was advanced. Mr. H. F. Ketcheson was chairman.

The plan of the commission is to purchase a tract of land adjacent to the present agricultural park (which will be taken over by Albert College in 1925) and erect thereon agricultural buildings which will make a real annual exhibition here possible. They also purpose to have an up to date race course and baseball park. The estimated cost is $50,000, and it has been proposed that the city council pass a by-law for this amount.

Many are Present

Amongst those present were members of the city council, Rotary and Kiwanis clubs, athletic clubs and agricultural societies.

As chairman of the board, Mr. T. P. Power extended a hearty welcome to all present and in his remarks briefly outlined what the Board had done during the past year. It was necessary to look elsewhere for recreation grounds as the present agricultural park cannot be used much longer.

Ald. Robinson extended to all present a hearty welcome. The Parks Board he said, was wise in placing Mr. Power at the head of the Parks commission.

Secure New Grounds

Ald. H. W. Greenleaf, explained to all present why we had a Parks Board. In March 1923, the Parks Board took office and last year whilst having quite a task before them, did their duties well. The members were careful and painstaking in every movement and had the city's interest at heart. The proposed new grounds should be secured this year.

(continued on page eight)

PACIFIC GRAIN MOVEMENT HAS RAPID INCREASE

Seventeen Million Bushels Shipped To Vancouver Since opening of Season

HUGE GRAIN PORT

Grain Marketing on Prairies Four Times as Heavy as For Previous Year

Montreal, Que., Feb. 20.—Alberta's grain movement to the Pacific Coast continued at a record pace for the week ending Thursday according to figures issued to-day by the Canadian Pacific Railway.

Since the beginning of the season 11,615 cars of grain have been shipped to the coast or seventeen million bushels. The railway unloaded 114 cars into elevators Friday at Vancouver while another 1,375 cars were under load at Vancouver or in transit west of the field. From the elevators Friday 431, 700 bushels were loaded into boats while to-day 20 boats were in the harbor with a capacity of five million bushels.

Exports from Vancouver to date are as follows: United States 18,452,000 bushels; Orient, 6,700,408 bushels, and south 338,185 bushels. Grain marketing on the prairies during the week ending February 14 was four times as heavy as a year ago, there was marketed 3,095,234 bushels this year compared with 716,394 a year previous. Alberta this year marketed 1,859,945 bushels. Cars loaded this year totalled 2,023 as compared with 50 last year.

TAXI DRIVER IS ARRESTED HERE

Roy Sandford Charged with Indecent Assault—Fifteen Year-old Fare Complainant

Roy Sandford, local taxi driver appeared before Police Magistrate Masson this morning, charged with indecent assault. Sandford was arrested at 1.30 a.m. today by Sergt. of Police D. T. Boyd and P. C. Arthur Booth.

The girl in the case, who is a ward of the Childrens' Shelter here, will not be sixteen until November next, and has been a ward in a foster home at Acton. She was returning to the Shelter and came in to the upper C. N. R. depot on the midnight train. James Donahue, C. N. R. ticket agent placed the girl in charge of Sandford who was at the depot with the taxicab he drives. He was instructed to driveaher to the Shelter.

On arrival at the Shelter, accused is alleged to have invited the girl to go for a short drive. The girl stepped into the taxi and it drove away. Miss Harris, matron of the Shelter saw the proceedings and immediately called the police who hurried out Dundas street in the police car. They came upon the taxi at the corner of Herchimer avenue. It was stalled. Sandford was taken into custody, P. C. Booth driving his car back to the city. Accused is married.

Sandford was remanded to jail for one week.

Sealed!

King Tut's tomb at Luxor, Egypt, has been closed by Howard Carter, excavator, due to difficulties he has had with the Egyptian government. Photo shows Professor Pierre Laucau, head of the Egyptian Antiquity Department, outside one of the entrances of the tomb.

CHARGE MALICIOUS BLOW AT CANADIAN CATTLE BUSINESS

Hold Irish Trouble Excuse for Excluding Dominion Stock From Britain—Appeal to Minister of Agriculture—Order Received To-day—Many Protests

Montreal, Feb. 20.—Charging the British Government with a malicious and deliberate effort to injure the Canadian cattle trade, the Canadian Livestock Exporters' Association, has wired Hon. W. R. Motherwell, Federal Minister of Agriculture, calling on him to protest against the order just received in Montreal from the British Government intimating that Canadian cattle are debarred from the entry into Great Britain.

The association draws special attention to the fact that 270 head of Canadian store cattle is loading to-day in Halifax on the Canadian Leader for Dundee, Scotland, and suggests that the Canadian Government should stand sponsor for this shipment, as the cattle were at the seaboard ready to load when the order was received.

Irish Disease

It is understood that the season of the order is an outbreak of disease among Irish store cattle, but the association fails to see in this a just reason for excluding Canadian animals.

The association's telegram to Hon. Mr. Motherwell sets forth that Dr. Stock representative, who resides in Montreal, has received instructions from Britain to the effect that an order has been issued prohibiting the importation of Canadian cattle. It states further that 279 Candians store cattle are loading at Halifax to-day on board the steamer Canadian Leader, bound for Dundee, Scotland; that the order is believed to have resulted from an outbreak of disease among Irish store cattle and that the Canadian Government should be sponsor for the shipment of cattle which was at the seabord ready to embark when the order came.

It further calls on Mr. Motherwell to take action immediately, saying that an outbreak of disease among Irish cattle is no reason for excluding Canadian animals, and that Canadians believe the order has been made with deliberate, malicious intention to injuriously affect Canadian cattle interests.

Receive Protests

Letters have been received from various parts of the West and Ontario, the dispatch concludes, asking why the Dominion Government representative is not in England now looking after the Canadian cattle interests, since the spring shipment of export store cattle has just commenced.

THIRTEEN MINES PRODUCING COAL

Work in Full Swing for the First Time Since January 15

Sydney, N.S., Feb. 20.—Thirteen collieries operated by the British Empire Steel Corporation are producing coal to-day the first time the entire number of pits operated by the corporation have been employed since the mines were closed on January 15 following the expiration of the 1923 wage agreement.

On Saturday the nine collieries operating produced some 4,000 tons, which will form the nucleus of 400,000 tons which will be banked at Sydney Mines and Glace Bay before the opening of navigation on the St. Lawrence. Navigation in the river will likely open around the middle of April, so therefore the company has some sixty days yet in which to prepare against early shipments.

No dates has yet been set for a referendum by the rank and file of this district as to whether they will accept or reject the wage contract signed by their officers at Montreal. It is quite evident that the miners do not realize that no matter how they vote on this question the agreement entered into by their local officers and endorsed by President Lewis must stand.

Not Back on Job

A message received from Springhill stated that the miners employed there would be back on the job to-morrow. Springhill and Acadia miners have reiterated their determ-

BANDITS STORM CHINESE TOWN

Large Forces of Thibetan Bandits Murder Petty Officials of Batang

Pekin, Feb. 20 (British United Press) by Ray Marshall, Staff correspondent.—Largeforces of Thibetan bandits under the Nanka Lama have stormed Batang, murdering petty district officials and threatening the foreign population. M. Perrone, French merchant in a tuntze says in a telegram to the British United Press.

The first attack was beaten off by citizens unaided by the Chinese garrison, the telegram says.

Later the bandits attacked again and there was heavy fighting before they were forced out of the city.

The Nanka Lama, in retreat, sent back a prisoner with this message. "I will return with reinforcements and level the city if necessary for we are determined to annex it to Thibetan territory.

BRANCH BANKS ARE LESSENED BY OVER 220

Canadian Chartered Banks Close Over 300 Branches During 1923

78 NEW BRANCHES

Largest Number Closed by Bank of Montreal, with Seventy, Others Close

The Canadian chartered banks, during the past year closed over 300 branches and opened only 78 new branches or sub-branches, so that the actual reduction of branches in operation was well over 220, according to figures furnished by the banks to The Financial Times of Montreal, and published in its Statistical Review and Outlook Number.

This movement towards cutting down branches in centres where they have proved unprofitable is likely to continue during the present year, according to the paper. The largest number of branches was closed during the year by the Bank of Montreal 70 in number, with the Royal Bank closing 30, the Union 23, Bank of Hochelaga 21 and Bank of Nova Scotia 19. Only two banks showed a net increase in number of branches during Montreal and the Bank of Toronto. The total number of branches at the end of the year was 4367, which will be further reduced when the Bank of Hamilton absorption by the Canadian Bank of Commerce has been finally completed.

The Financial Times points out that during 1919 there was an increase of nearly 900 branches in Canada, as previous to that time, during the war, the banks had been operating under an agreement which practically prevented any expansion in the number of their branches. The peak was reached in 1920, with 4676 branches. The article refered to is only one of a number of unique features in a special supplement published by The Financial Times. The isue contains thirty-six pages, devoted to statistical studies of various phases of development in the financial and business life of Canada.

In order to present as comprehensive a view of the remarkable growth of this country, the records in many cases include a period of 50 or 60 years, going back as far as Confederation. Among the subjects treated are Canada's trade, imports and exports agricultural production, banking, insurance, railways, mining, water-power etc.

A complete record is presented of bond issues, exceeding $300,000,000, during the year including Government, Municipal and Corporation offerings, and a comparative record of the stock markets from 1919 to 1923, inclusive. The figures are illustrated by a large number of graphic charts.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre. Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer. The feature picture tonight is "The Covered Wagon."

Sudbury, Feb. 19.—Nickel production in 1923 amounted to 61,444,000 pounds.

GROCERY STORE IS BURGLARIZED

James Latta Loses Tobacco Supply and Money

Burglars entered the grocery store operated by James Latta, corner North Front and East Moira streets sometime during last night, and rifled the till for one dollar's worth of coppers, also taking two packages of Milbank cigarettes and a quantity of chewing tobacco. Police believe that the burglary is the work of amateur juveniles.

Entrance was gained by breaking the glass of a rear window, removing a panel from the inner door, and turning the bolt after the panel had been removed.

ONTARIO AND STATES IN BLIZZARD'S GRIP; WIRES, RAILS, AFFECTED

Trains Leaving Toronto Reported Over Four Hours Late in Some Directions—Stage Service Completely Halted to Outlying Points Local Wires Not Damaged to Any Extent

TORONTO TIED-UP

Reports from Queen City State Street Cars and auto Traffic at Standstill—Wires, Both Telephone and Telegraph Down in Many Parts of Western Ontario and the United States

One of the season's premier snow storms swept the Province quite generally, during last night and this morning and the result has been paralysis of traffic in many sections. Belleville and district was visited by the Storm King, the cold north east blast with snow striking the city about 11 p.m. yesterday.

Today there is a brand new mantle spread over the city and district; and it is still snowing. Country roads are badly blocked, with the result that the stages which carry the mail from Tweed, Frankford and Ameliasburg did not arrive today.

Railways Suffer

The storm hit the railways hard and late trains are the order of the day. Even trains due here shortly after midnight were very late, having had to plough their way trough the rapidly filling cuts, against the stiff north east wind and into the teeth of the blinding snowstorm.

Railways are suffering the greatest from the tie up.

No. 14 left Toronto three hours late today, and at 1.30 p.m. the Peterboro train due here at 11 a.m. had not yet arrived. All trains both east and west are running late and the snow ploughs are working overtime in an endeavour to clear out the lines and have the system operating smoothly once more by evening.

Wires Escape Damages

Thanks to the fact that the snow was not wet and heavy, and was not driven by a high wind today, the telephone and Hydro lines have not given any trouble in this district, and no trouble is anticipated so officials stated this afternoon.

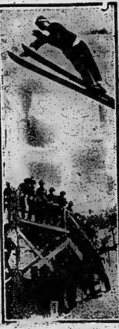
Rumors reaching this city today, are to the effect that Toronto is completely storm bound, with wires down communication disrupted, street cars stalled, and a general tie up not hitherto experienced this winter.

Reports from al sections of the northern and western states tell of complete tie-ups in many sections, and partial tie-ups with great delays in other sections.

PROVINCIAL OFFICERS BUSY

Provincial officers here will journey to Lime Lake, beyond Marlbank tomorrow where they will investigate a case there which has been brought to their attention. In all probability headquarters here will also be represented at the inquest into the death of the infant born to Mary O'Brien in the Orland hovel recently, which will be held before Coroner Durfee at Brighton tomorrow night.

This Did It



Here is the leap that won the world's ski-jumping title for Tullin Thams of Norway. Yep, its at the Olympic Games at Chamonix.

FORMER LOCAL MAN HONORED

Walter E. Dobbs, Son of Mr. and Mrs. Edward Dobbs, Receives Promotion

Everyone is always proud of the man who brings honor to his home town. That is why Bellevillians are proud to hear that Mr. Walter E. Dobbs, son of Mr. and Mrs. Edward Dobbs, Murney street, and brother of Mr. Garn E. Dobbs this city has just received an important appointment with the Canadian National Railways. Walter Dobbs, who has been chief clerk of the passenger department of the C.N.R. at Vancouver for the past seven years, has been transferred to Montreal, where he is now chief clerk to T. W. Melanson, General Passenger and Traffic Manager there of the C.N.R. Mr. Dobbs and family left Vancouver on February 6th, and he is now at work in Montreal.

Commenting on the promotion, the Vancouver Daily Province of February 2nd, states that Mr. Dobbs is one of the most popular officials on the western lines of the Canadian National, and enjoys the good will of the members of the passenger offices of competing lines. He has had a long experience in railway service in various parts of Canada, and Vancouver officials declare that he is equipped for his new duties.

Has Excellent Record

Mr. Dobbs started with the Canadian Expres Company as stenographer to the assistant general manager at Montreal, was clerk and stenographer in the car service department of the Grand Trunk Railway at Montreal, became tracing clerk and later secretary to the passenger traffic manager.

(Continued on Page Eight)

FURTHER PLANS ARE OUTLINED, FOR COURIERS TO WASHINGTON

During the course of an address on the U. E. Loyalists at the Foxboro Methodist Church last Tuesday night His Worship Mayor W. C. Mikel, K. C. said that volunteers had been requested, either men or women, to act as couriers to deliver invitations to President Calvin Coolidge at Washington and to the Governor-General at Ottawa to attend the U. E. L. Celebration, June 15th and 17th 1924 at Belleville.

The couriers would make the trips on horseback after the manner of the early pioneer days. Notice would be sent ahead of the couriers to the Mayors of the cities and towns through which the couriers would pass, also to the Chiefs of Police and the newspapers, and the trips would be announced by the various radio stations.

The couriers may give talks in Churches, before Rotary and Kiwanis Clubs and other organizations in the various places through which they pass where an opportunity is afforded. Already several young men have volunteered for the Washington ride which would start early in April.

Mayor Mikel also announced that the Adjutant General of the Military Forces of New York State had written him that he had asked the 108th Infantry Regiment and the 101st Cavalry of Rochester to volunteer for a trip to Belleville to attend the celebration.

Alarming Picture Painted Of Destruction of London

London, Feb. 20. (British United Press)—An alarming picture of the six hundred bombing planes of the French air force to rain 170 tons of bombs on London in 24 hours was painted by Sir Samuel Hoare, former air minister, in making a plea in the House of Commons for continuance of the policy of building up the British Air Force.

William Leach, replied on behalf of the British Government saying that while the Government declined to be alarmed and did desire to limit air armaments to a point consistent with the safety of the empire. There was no change for the time being in the policy of building up Britain aerial defence.

Laborite cries of "shame" greeted the declaration for the rank and file of the party oppose increasing air armaments. "The Government does not debar itself from taking full advantage of any new movement for reducing armaments", Leach added. "We should welcome a new Washington Conference on air armaments. If we put fear at the helm and follow at the bow we shall steer straight to the next war."

Daily Intelligencer

BAY OF QUINTE'S LEADING NEWSPAPER, BELLEVILLE.

Printed and published every afternoon (except Sundays and holidays) for The Intelligencer Printing and Publishing House (Limited), in the City of Belleville, County of Hastings, Province of Ontario. At their offices, 33 Front Street.

The Daily Intelligencer has a larger circulation than any other paper published in Hastings or Prince Edward Counties. Sworn circulation statement furnished on request.

DRURYISM AND ONTARIO

Prophecies to the effect that "Ramsay Macdonald won't last any longer than Drury lasted" are duly received and contents noted.

If the Ramsay MacDonald ascendancy lasts as long in England as the Drury ascendancy lasted in Ontario, and the Ramsay MacDonald ascendancy does as much harm to Great Britain as the Drury ascendancy did to Ontario, the British Empire and Great Britain will have good reason to repent the day Ramsay MacDonald was born.

Ten or fifteen years will be required to put Ontario forward as far and as fast as Druryism and the consequences thereof pushed Ontario backward.

BRITISH DEBT

Britain paid the United States the pound sterling equivalent of $125,000,000 of American dollars on war debt account from January 16, 1923, to January 16, 1924.

American dollar price of the British pound sterling went down from one-half of one cent over $4.65 on January 25, 1923, to one-half of one cent over $4.25 on January 25, 1924.

American dollar value of sterling exchange dropped forty cents on the price of every pound sterling. This appreciation in the value of the American dollar as compared with the British pound sterling, produced these effects in the twelve months from January 12, 1923:—

1—Britain paid over $300,000 per day to the United States on war debt account for year ending January 12, 1923.

Great Britain went further into debt to the United States on war debt account at the rate of $975,000 per day for the year ending January 12, 1924.

3—The American dollar value of the British pound sterling represented in Britain's war debt to the United States was $475,000,000 or $1,500,000 per day greater on January 12, 1924, than on January 12, 1923, although not an additional dollar of American money was advanced to Britain in that twelve months.

America dictated hard terms for the payment of Britain's war debt to the United States. Britain was too proud to fight against these terms. American terms would place a heavy burden on the British taxpayer if the British pound sterling had retained its 1923 relationship to the American dollar. The burden becomes crushing when the dollar value of the pound sterling sinks below its 1923 level. The following letter from the London Times describes the ever-growing weight of the debt charges Britain is bravely trying to pay into the United States treasury.

Sir,—In January of 1923, Mr. Baldwin, as Chancellor of the Exchequer settled the terms of repayment of debt by Great Britain to America. The amount then stood at $4,910,768,000, working out at £1,054,014,790 at the exchange rate of 4.65½ on January 16, 1923.

In the 12 months to January 16, 1924, we repaid to America the sum of $111,183,000, which we regard as reducing our debt by approximately £25,000,000. But this is a delusion.

Our debt to America on January 16, 1924, amounted to $4,799,585,000, which, at the rate of exchange that £1,127,987,474, or £73,042,284 more than we owed a year ago. In 12 months therefore, while we paid out £25,000,000 in sterling, our debt to America, notwithstanding and after allowing for this payment, by our taxpayers, has increased by £73,000,000.

Your obedient servant,

J. STANLEY HOLMES,

33 Paternoster Row, E.C.4, Feb. 1.

THE SILENCE OF THE SNOW

A Russian said: "You do not know as we,
The beauty of the silence of the snow—
How every ugly noise drowned out can be
As in some clean, white river's blessed flow.
The steppes and lonely izba know its peace;
But our great cities, too, have their release."

These words, in memory long sunken rose,
When, after night on night of tapping sleet,
And ghostly snow o'ershrouding other snows,
The Morning looked upon the trackless street.
And then, for me, from many a vanished year,
Fair pictures of a dreaming farm came near.

Behold another world with its new face!
The countryside in city held strange sway
(Or, so to me it was): for Time and Space
Within a cirque of artful Magic lay.
The soul withdrew to some lost, early mood,
Rapt far away in boundless quietude.

But now, The City, struggling as from swoon,
Turned her uneasily—stretched out an arm;
And helpless lifted up her outcry, soon—
But softened all within the dim snow charm!
With this, the horn of some stalled, venurous car—
The chime of church clock—all from very far.

At last the plough a clean cut furrow heaves—
A marble way through new created land!
Outflutter hungry sparrows from the eaves;
Outflutter, too, the children, sleds in hand,
Their tinkling laughter, in the magic morn,
Seems from some elfin underworld up-borne.

—Edith M. Thomas.

CONFERENCE ON SANITATION AND QUARANTINE METHODS

Dr. Belisario Porars, President of Panama has called a conference of the maritime quarantine authorities of the countries located on the West Coast of South America to convene at Panama, February 25th to 29th inclusive, under the direction of Colonel Juan Antonio Jimenez, Secretary of Development and Public Works, for the purpose of considering and studying the maritime quarantine problems of the West Coast of South America.

The Health Departments of Ecuador, Peru and Chile, the United States Public Health Service and the Pan American Union have been invited to send delegates. It is expected that observers from other countries will also be present. The program includes formal discussions on matters pertaining to quarantine, practical demonstrations of quarantine methods and demonstration of laboratory methods.

It is expected that the Conference will be productive of beneficial results in the improving of sanitary conditions in certain ports on the West Coast of South America and will result in increased health protection to the Panama Canal and the countries participating in or attending the conference.

COLDS GRIP

Fortify the system against Colds, Grip and Influenza by taking

Laxative Bromo Quinine tablets

which destroy germs, act as a tonic laxative, and keep the system in condition to throw off all attacks of Colds, Grip and Influenza.

PRESS OPINIONS

LABOR'S TEST

(Montreal Star)

The real test of the Labor ministry will come when the issue is joined between the Clydeside group and the moderates of the party. The popular issue is the first clash of steel and its outcome is being watched with intense interest.

MacDonald may not be able to hold the hotheads among his own followers which would mean the disintegration of what is now a loosely knit group. A break of their solid support in the trades unions is what Ramsay MacDonald has most to fear.

Improvement in trade, decreases of unemployment and an advance towards settlement in Europe may check such a defection and give Labor a longer lease of life than many who are now supporting it deem possible.

SAME OVER HERE

(Omaha Bee)

Passing the buck and dodging the question ought to come to an end. If Americans want prohibition, they ought to assist in giving life to the law. If they do not want it, they should come out in the open and say no. It is unfair to blame the president or the governor for not enforcing the law and then secretly break it, as many are doing daily.

STABILITY NEEDED

(Manchester Guardian)

Stability, which is not at all the same thing as a cramping rigidity, is an essential condition of social progress. Where no man knows what tomorrow will bring to him very few men will concentrate on patient labor in the study or the workshop or the counting-house.

Without some assurance of secure conditions in which that labor may bear fruit, to invest one's energy in this way is to cultivate an optimism which is akin to mere recklessness.

DUMB SUPPLIANTS

(Christian Science Monitor)

American women, aroused to a realization of the cruelties practiced in supplying certain birds for the adornment of their hats and gowns, indignantly decreed that such abuses must stop. They found a way, and that way has proved almost entirely effective. Similarly they, and their sisters in all parts of the civilized world, can discountenance and discourage the wanton and useless destruction of wild animals.

To a sympathetic ear the story of the torture endured by the fox, the mink, the beaver, or other animal whose coat is fashioned into a purely ornamental neck-piece, muff, or wrap would not come with real welcome. It is the recourse of those who can forget to forget, but the number those who cannot turn unhearing ears or unseeing eyes to the dumb suppliants grows larger day by day and year by year.

FLASHY LIVING

(Springfield Republican)

In some reports of New York's latest murder sensation its hapless victim is called an actress, while in others she is called a music student. Technically both may be correct, since she had once attempted a small part in a film play, and had taken some piano lessons.

But neither strumming the piano nor falling in a picture play brings enough diamonds to tempt burglars. Serious professional workers in music and the drama have a right to protest against the use of their arts as a cover of flashy living.

STANLEY HARRIS, second baseman of the Washington Senators, has been chosen by President Clark Griffith as player-manager of the team.

Music & Drama

GEORGE M. COHAN

George M. Cohan's opinion on things theatrical is important, for the reason that his phenominal success is not due to any one talent; for he is an actor, author, producer and manager; and when he voices an opinion it must be remembered he speaks as a leading factor in every department of the theatre world. He is as opposed to play censorship as he is to solicitous plays. He bears the unique distinction of never having written or offered on the stage a line or situation with the slightest taint of suggestiveness. Read down the long list of successes from this prolific author and producer.

"Little Johnny Jones," "45 Minutes from Broadway," "Seven Keys to Baldpate," "Three faces East," "Mary," "The O'Brien Girl," are only a few of the many. Now he comes forward with his latest comedy hit—"So This Is London" which is admittedly an attempt to heal the breach between Americans and the English in so far as that lies within the province of the theatre. It does this through the force of ridicule and there are many laughable situations which have suggested many surprisingly effective contrasts in Cohanesque humor.

"So This Is London" will be at Griffin's Opera House one night only Feb. 21. Seat sale opens Feb. 20. Mail orders now. Kindly remit postal notes express orders or cheques.

ARLIE MARKS TONIGHT

Arlie Marks and her players arrived in Belleville this morning and the company's working crew have been busy all day geting the stage mounted for the opening play tonight. The company carries fifteen people and six big vaudeville numbers will be given between the acts each night. Tonight is Ladies Night. See ladies coupon elsewhere in this issue of the Intelligencer.

FINAL SHOWING OF "COVERED WAGON" TONIGHT

The last day of the "Covered Wagon" special production at the Griffin Opera House will score once more with the theatregoers of Belleville.

The keen interest aroused everywhere by the Paramount picturing of Emerson Hough's novel of Pioneer Days indicates the continuance of a crowded house. The attraction offers one of the greatest and most thrilling human interest, and patriotic entertainments that have ever been devised. Tully Marshall, Earnest Torrance, J. Warren Kerrigan, Lois Wilson, Alan Hale, Charles Ogle, Ethel Wales, Guy Oliver and Johnny Fox contribute characteristic portrayals of the forty-niners while the wonderful direction of James Cruze reveals a number of thrills wholly new to the screen, including the much talked of feat of swiming an entire caravan of horses, live stock, covered wagons across a wide river. The comedy parts of the entertainment are all delightful, being fresh and unhackneyed and entirely away from tiresome movie slapstick. Lovers of romance enjoy the love theme of beautiful Molly Wingate, the girl wagon driver and the hot quarrelsome courtship of rival captains of wagon trains. "The Covered Wagon" will be shown for the last time tonight, and the Griffin's Opera House is the only theatre in Belleville that will present it this year.

ENGLISH CLASSIC AT GRIFFINS FRI. & SAT.

As full of punch as a punch bowl! In this manner has the English racing screen classic, "Son of Kissing Cup," which comes to the Griffin Theatre Fri. and Sat. been described. And the description is one which aptly suits it.

In the leading role will be seen a female star believed by thousands and thousands of picture fans and critics across the Atlantic to be the most beautiful artist of the silver sheet throughout the British Isles. Opposite her will appear Stewart Rome supported by a most brilliant cast, including Mrs. Hayden Coffin, Cameron Carr, Judd Green, Arthur Walcott, Bob Vallis, J. Fraser and Lewis Gilbert.

The outstanding feature of the picture is the winning by Papyrus, England's master horse, with O'Donoghue, England's premier jockey, of the Derby, at Epsom Downs, at the very last moment just when it seems the race is about to start without them.

INSURANCE DEPARTMENT ISSUES WARNING

Ottawa, Feb. 14.—(By Canadian Press)—Warning was issued by the federal department of insurance last night that Canadians insuring with United States companies unlicensed in Canada can get no protection under the Insurance Act by way of the deposit system under which a properly licensed company must deposit a guarantee with the government for its policyholders.

EXCESS WEALTH DOOMS SHAKERS

Chatham, N.Y., Feb. 20 (United Press).—Despite their great wealth in lands and real estate, the Shakers in the United States are rapidly nearing the time when they will be only a memory.

Their wealth is their doom. Because of it, the old men and women of the sect do not encourage accessions of young people, on the theory that young persons who might want to join them now would be prompted by purely mercenary motives.

"No person would want to unite with a society that is declining," is the way the elder looks at it.

Last stages in the final passing of the sect are underway at the Mount Lebanon colony of the Shakers, near here, in the picturesque hills of Columbia county, for half a century regarded as the center of Sharkerism in the United States. Thousands of motorists who have traversed the Mohawk trail in New York State and Massachusetts, one of the greatest scenic routes in the eastern part of the country, have seen and admired the Shaker colony holdings at Mount Lebanon. Its well kept houses, barns and shops have been an inspiration to thousands of passersby. Thousands of tourists stop at the colony headquarters to purchase knit goods, household articles and candy made by the Shakers.

At the zenith of their prosperity, probably fifty years ago, there were approximately 2,500 Shakers in the United States. Today there are not to exceed 250 and this remnant of the once strong organization is apportioned amon the settlements at Mount Lebanon, West Pittsfield; East Canterbury, N. H. Albany and New Gloucester, Mane. The strongest community is that at East Canterbury.

The Letter Box

Hamilton, Canada,
February 15, 1924

To the Editor of the Intelligencer,
Belleville, Ontario.

Dear Sir:—Being interested in the Boys and Girls of our Country, as well as in Sunday School work, may I emphasize the necessity of more thorough Bible knowledge for the younger generations who will eventually take our places in future years.

Our homes should conduct Scripture reading, a bulwark to our civilization.

The Churches (from the pulpits) would do well to enlighten and embellish Bible-reading and study, with foremost scholarship. The lead should come from the Sacred Desks of the Churches. The days of bald scriptural reading have passed. The finest scholarship with explanations etc., and authorities are in order. Superintendents have an excellent opportunity to encourage Bible study. Let them ever remember children learn by repetition. They are always present.

Observations extending over years confirm the opinion, too many boys and girls continue in the classes, or leave our Sunday schools with all too little knowledge of Christian principles, which ought to be intelligently their own, unfortunately they are but partially understood.

However, some primary knowledge is most necessary in taking up such instriction. The Bible consists of the Old and New Testaments. To find the various Books in the one or the other is worthy of a little perseverance and quite a necessary adjunct in following up Bible Study.

The Characteristics of the Old Dispensation, might be clarified considerably, when they began what they typified, and how they ended, would be interesting.

The New Dispensation, (the one in which we live) how it began, what changes it wrought and its fundamental teachings, forming foundation work.

What are the Fundamentals of Religion? Christ said: "If ye love Me, keep My Commandments." (St. John, Chap. 14-15). Then by all means, let us see to it that the boys and girls from East to West learn and know the commandments (Exodus 20, Vs 1-17 inclusive), and also, the Two Great Commandmends (St. Matthew Chap. 22, verses 37 to 40 inclusive). Infallible guides to citizenship. Confirmatory: "If any man do His will, he shall know the doctrine", etc., (St. John 7-17).

Now add to these the Apostles' Creed accepted by all Evangelical Churches as a basis of belief in the Trinity of the Godhead—Virgin Birth of Christ—and the power of God over Death, as manifested in the Resurrection of Jesus from the dead.

Then it is quite evident the Comandments and the Apostles' Creed are substantial outlines of the Fundamentals of Christian Doctrines for any and all, young or old. Confirmatory:—"For the Word of God is quick and powerful, sharper than any two-edged sword " etc. (Hebrews Chap. 4, vs 12.)

If to these are added the Beatitudes, (St. Matthew Chap. 5 vs. 3 to 12 inclusive) Christs's own teachings, what a wealth of Scripture knowledge, would Sunday School scholars have at their command throughout life, a foundation to build upon, an anchorage indeed, when trial, doubt and sorrow come, and come they will.

The foregoing is practical and can be readily carried on in the schools with the aid of Three Scrolls or Lantern Slides.

1. Containing the Ten Commandments.
2. Containing The Apostles' Creed.
3. Containing The Beatitudes and the Two Great Commandments.

Now each Sunday, the Superintendent (at an opportune time), leads the whole Sunday School repeating in Unison the inscription of one of the scrolls, a most helpful exercise in committing them to memory, and encouraging an atmosphere of worship throughout the schools.

Having adopted this method, a Sunday School repeated in Unison the Ten Commandments at the last Annual Rally, Hamilton.

The simplicity and effectiveness of the plan, will, it is hoped, commend itself to those who direct and impress the plastic minds of the Church and Country.

Yours truly,
Thomas Wickett.

Hamilton, February 15, 1924.

IT WOULD SEEM SO

At a dinner party a lady was introduced to a Chinese gentleman. "Me no speak velly good Chinee," she said flustered. "Never mind, madam," he responded, "I think I can manage to converse tolerably well in English for half an hour or so."

Silence may be golden, but a good deal of speech is brazen.

WEDDING BELLS

REID—MUIR

On Monday, February 18, 1924, at 11 o'clock, a pretty wedding was solemnized at the home of Mr. and Mrs. John Muir, 20 Pine street, when their youngest daughter Anna Gladys was united in marriage with Raymond M. Reid, eldest son of Mr. W. A. Reid, Reeve of Sydney. The officiating minister was Rev. A. S. Kerr of St. Andrew's Presbyterian church. The wedding march was played by Miss Edith Fenn in the presence of immediate relatives.

The bride who entered the drawing room on the arm of her father, looked charming in a French frock of accordian pleated apricot georgette over satin with picture hat trimmed with French flowers and streamers and carried a shower bouquet of cream roses and lily of the valley. The rooms were tastefully decorated with ferns, roses and daffadils. After a buffet luncheon was served Mr. and Mrs. Reid left on the flyer for points West and on their return they will reside in this city.

The bride received many beautiful gifts including two cheques from relatives of the groom and a piano from the bride's father.

ination to remain idle until such time as the company grants them the 1921 rates. According to U.M.W. officials here the miners on the mainland by this action have automatically read themselves out of the U.M.W. of America.

"As soon as we are assured of sufficient coal supply the Dominion Steel plant will start again," was the information given to the press by Superintendent Bischoff's office. With all the collieries producing coal there will be no lack of fuel for the plant. The daily requirements will run to nearly 4,000 tons, and as the daily output from the Dominion Coal Company mines will approximate 12,000 tons there will be no difficulty in giving the steel company all the coal required.

Number 8 blast furnace, which has been banked since the shut down some four weeks ago, will be made ready at once to produce iron. The open hearths have been lighted up and will be producing steel about the middle of the week. The rail mill will be made ready for rolling the 56,000 ton rail order for the Government railways. This department should be in operation within another week's time with an assured supply of coal and will be speeded up as rapidly as conditions warrant. Additional men will be taken on from day to day until the required staff is employed.

FIRE DESTROYS MARMORA STORE

General Store and Residence of Michael Kouri is Razed

Marmora, Feb. 20.—Fire which broke out at ten o'clock yesterday morning destroyed the general store and residence of Michael Kouri, on Mill street. The buildings, which were owned by the Swete Brothers, were partially covered by insurance, but there was no insurance on the stock of goods, a portion of which were saved from total destruction. No cause has been assigned for the blaze.

ANNIVERSARY TEA WELL ATTENDED

Fine Programme Presented by Well-Known Soloists and Reader

In connection with the Anniversary Services of the Tabernacle Church an old fashioned supper and musical entertainment was given last night. Upwards of 400 were in attendance at the supper which was provided by the ladies and was all that could have been desired. After supper an interesting programme was carried out in the auditorium of the Church, Rev. H. B. Kenney, Pastor, presided.

A mixed quartette composed of Mrs. Nicholson, Mrs. Brown, Dr. Haffner, and Mr. H. Moorman rendered two selections which were much appreciated. The selections were "Come Where the Lillies Bloom" and "In This Hour of Softened Splendor."

Dr. Haffner sang a solo entitled "Shadows" by Harry Jacob Bond.

Mrs. Alyea gave two readings in a most pleasing manner and was compelled to respond to encores.

Solos were also given by Mrs. Brown and Mr. H. Moorman.

REAL ESTATE DEAL OF INTEREST HERE

The Belleville Motors, Limited have purchased the property north of Hotel Quinte, which was formerly occupied and owned by W. B. Riggs. The premises are at present occupied by Doug. Elliott as a used car exchange.

The Belleville Motors purpose making some alterations and will probably occupy their new building on or about April 1st.

WOMAN PASSES CENTURY MARK

Mrs. A. P. Spafford was one Hundred Years Old Monday

Campbellford, Feb. 20.—Lying on her bed in a sunny room in the home of her daughter, Mrs. A. P. Spafford, near Bradley'se Corners, in Percy Township, Mrs. Minerva Benedict spent the 100th anniversary of her birth on Monday. The room in which she has been confined to her bed for over two years was fitted with flowers sent in by relatives and friends. On account of the state of Mrs. Benedict's health no formal celebration was held, but many friends called during the day to offer their congratulations while others at a distance sent in birthday cards and floral offerings. Mrs. Benedict had a few bright words of welcome for all her callers and readily recalled the names of some visitors whom she had not seen for months.

NATURALLY RUFFLED

Counsel (cross-examining complainant in English court case)—"Was the defendant's air, when he promised to marry you, perfectly serious, or one of levity and jocularity?"

Complainant—"If you please, sir, it was all ruffled with him running his hands through it."

Rebekah Lodge Hosts To Many

Yesterday at the Oddfellows Temple District. Deputy President, Sister M. Megginson, accompanied by about 60 members of Laurel Rebekah Lodge No. 211 of Stirling paid a fraternal visit to Quintena Rebekah Lodge No. 133 of this city. The visitors were met at the station at 3 o'clock by the officers and taken to the I. O. O. F. Temple where they were entertained. At 6 o'clock all sat down to supper which was served in the Lodge room. At 8 o'clock the large Lodge room was filled to capacity by local members who were present to witness the Rebekah Degree exemplified by the visitors. The following Stirling Sisters were on the Degree Staff and by their splendid floor work and Ritualistic work placed their Lodge along with the other Rebekah Lodges in this District who are known for their Degree Work.

N. G., J. Burkitt.
P. N. G., B. Thompson.
V. G., M. Brooks.
Chap., L. Windsor.
Warden, C. Walleer.
Con. E. Cranston.
R. S. N. G., H. Hubble.
L. S. N. G., E. Weaver.
R. S. V. G., A. McGie.
L. S. V. G., L. Anderson.
Banner bearers—M. Megginson, E. Bailey, A. Sine, A. Farrell.
Banner supporters—G. Spry, C. Burkitt, L. Weaver, A. Bailey, R. Carlyle J. Weaver, E. Utman, R. Carlyle, A. Hamunond, A. Bush.
J. G. E. Wilson.
Pianist, B. Eggleton.
Captain, Bro. H. Farrell.

Two candidates were instructed into the teachings of the Rebekahs Degree. P. D. D. P. Sister E. Neate on behalf of the Belleville lodge expressed congratulations to the visitors for their splendid work.

One notable feature was the absence of only one Past Noble Grand of both Belleville and Stirling Lodges not living in this District. District Deputy President Sister M. Megginson addressed thanks to the Belleville members for the hospitality shown and said Stirling Lodge was proud to have at last exemplified the Degree in what was to most of Stirling's members their Mother Lodge. Among the other visitors were representatives from Hamilton Montana Saskatoon, Beaches Companion, Toronto, Trenton, Frankford and Madoc. All spoke in highest terms of the Degree Work seen. Bro. H. Farrell replied on behalf of the staff. The Belleville members served refreshments at th close of the meeting.

DEFENCE PLAN IN RESOLUTION

Also Embodies Govt's View point on Imperial Conference Measures

London, Feb. 20 (British United Press)—The most interesting political event of the week outside the strike reactions is the resolution standing in the name of former Air Minister Hoare affirming the principle laid down by the former Government and accepted by the Imperial Conference that Britain must maintain a defensive air force for Home service adequate to protect her against the strongest air force within striking distance of the island. The resolution will demonstrate the procedure of the Government regarding the Imperial Conference resolutions and the general attitude of the Commons toward the resolutions passed by that body.

While Premier MacDonald has stated that the resolutions will be submitted he has also laid it down that the various Ministers and members of the party will be free to vote how they like. Certain questions which will be supported by the Conservative will also have the approval of a large number of Conservatives and if they had been made a strict party question the defection of the Liberals from the Government might have seriously embarrassed MacDonald and the Labor Government.

BRANCH LINES BILLS TO BE PRESENTED

Ottawa, Feb. 20.—George P. Graham announced the Canadian National Branch lines bill which was rejected in the senate last year will again be presented at the coming session. It is believed it will again meet defeat unless extensions are eliminated from the plan.

ADMITTING SOMETHING

It was in an old-fashioned village in County Cork where a smart young man from London went to spend his holidays. During his stay he played havoc with the hearts of the fair sex.

One night, in the smoking room of the hotel at which he was staying, he confessed that he had kissed all the young women in the village except one.

A young farmer who had quite recently married the belle of the village, overheard his remark, and went home and told his wife.

"Arrah, now, Patrick!" she replied, and a puzzled expression crossed her face "and who in the worruld can that wan be?"

MRS. BUDGE SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

River Desert, Que.—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound as she had had good results. I certainly got good results from it, too, as the last time I had a sore side was last May and I have not had it since. I am also glad of having good nursing for my baby, and I think it is your medicine that helped me in this way."—Mrs. L. V. BUDGE, River Desert, Quebec.

If you are suffering from the tortures of a displacement, irregularities, backache, headaches, nervousness, or a pain in the side, you should lose no time in trying Lydia E. Pinkham's Vegetable Compound.

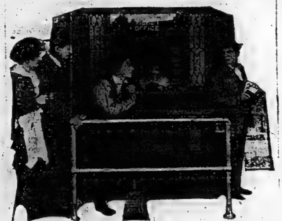
Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write for it to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. This book contains valuable information that every woman should know.

If Stomach Is Troubling You

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

BUSTER KEATON AS "SHERLOCK, JR."



A scene from Buster Keaton's third feature length comedy for Metro, "Sherlock, Junior," which the famous comedian now has in production in Hollywood. It follows his two great successes, "Three Ages" and "Our Hospitality"—also for Metro.

BRAZIL NOW HAS NEW INCOME TAX

Is Framed Closely After Income Tax of the United States

Rio de Janeiro, Brazil, Feb. 19 (By mail to United Press)—Americans employed in Brazil, as well as American companies operating here, are placed at a disadvantage in this country by the new Brazilian income tax law subjecting them to payment of dual income taxes—to the United States and to Brazil.

The Brazilian law, one of several measures put into operation this year to balance the federal budget, is framed closely after the income tax law of the United States. Commerce and any industrial exploitation excluding agriculture, are taxed by the new law. Employment of capital, private and public salaries, amoluments, gratuities, bonuses, pensions and remunerations under any contractual form are also hit, as well as the exercise of non-commercial professions.

The net income for merchants and persons carrying on industries in this country will be taxable at the following rates:

Up to 500,000 milreis annually (approximately $55,000, 6 per cent.

Between 500,000 and 1,000,000 milreis, 5 per cent.

Between 1,000,000 and 2,000,000 milreis, 4 per cent.

Between 2,000,000 and 3,000,000 milreis, 3 per cent.

Above 3,000,000 milreis, 2 per cent.

The taxable income mentioned will be that corresponding to the business operations relative to each preceding year.

Corporations will be subject to the obligatory declaration proved with the presentation of the balance sheet.

Salaries, public and private, will be taxed in accordance with the following table:

Up to 10,000 milreis annually (approximately $1,000 at existing rate of exchange), exempt.

Between 10,000 and 20,000 milreis, 1-2 per cent.

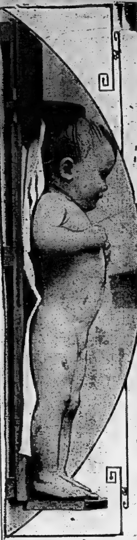
Between 20,000 and 30,000 milreis, 1 per cent.

Between 30,000 and 60,000 milreis, 2 per cent.

Between 60,000 and 100,000 milreis, 3 per cent.

The tax rate graduates up to 500,000 milreis. Incomes of 500,000 milreis and above are taxed at the rate of 8 per cent.

Pimples and Eczema Disappear the Skin Made Soft and Smooth by Using Dr. CHASE'S OINTMENT



The Bureau of Standards, Washington, has devised this improved measuring board for babies for the U. S. Children's Bureau. All that you have to do is keep baby still. That's all.

HOW TO DRESS AT THE NORTH POLE

Fur Underwear, Fur Shirt With Hair Lining 'n Everything

Los Angeles, Feb. 20 (United Press).—When Vihjalmur Stefansson, Arctic explorer, here recently, told how he dressed in the coldest weather in the polar regions.

"Preferably, I begin a complete set of underwear, including socks of young caribou, with the hair next the skin," he said. "Outside of the fur undersocks, I wear two or three pairs of blanket slippers and outside of them a loose boot with canvas uppers and sealskin sole.

"Outside my fur underwear, I wear ordinary cheap trousers, and outside of them several pairs of loose trousers, similar in cut to those worn by Chinamen. If the wind blows or the temperature drops, I put them on one by one until I had enough. I wear a fur shirt with the hair in, and somewhat heavier fur coat with the hair out. Outside of this is a coat, or linen duster effect, made of light khaki. Dense fabrics are undesirable for snow shirts, because hoar frost forms within them instead of on the outside.

"A properly fitted Arctic traveler suffers less from cold than do the inhabitants of such countries as Scotland and Norway, who dress in porous clothing.

"There has not been a frost-bitten finger or toe in any part with which I have been connected during any but the first of my ten years north of the Arctic Circle, so we know the experience of working out logarithms with tender, frost-bitten fingers (as told by Nansen) only by reading."

STOP IT!

Why Cough Your Head Off

Make Your Own Cough Mixture For the Whole Family and Save Money. It's Easy.

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrance of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Vegetable Syrup Takes Place Of Harsh Drugs and Medicines

Used By Dr. Thacher For Gas On Sour Stomach, Constipation, Indigestion, Colds and Run-Down Condition.

We were asked the other day to explain why so many people got such quick relief through the use of the vegetable syrup prescribed by Dr. Thacher—why it so often gave relief after harsh drugs and medicines had failed.

Why You Feel Badly

Dr. Thacher found that the majority who called on him with various ailments were suffering because one vital organ was out of order. This organ is the liver. It aids digestion, helps prevent constipation and purify your blood. But, when it becomes clogged and sluggish it cannot do these three things. Consequently you often wake up mornings feeling dull and tired and frequently suffer from one or more symptoms such as poor digestion, coated tongue, faulty movement of the bowels, colds and a general run-down, nervous and upset condition. And, medicines that fail to correct the cause of this condition fail to give you lasting relief.

Get Quick Relief!

Try this yourself! Just a few spoonsful of the vegetable syrup prescribed by Dr. Thacher. Notice the quick difference in the way you look, eat, sleep and feel! This vegetable syrup (known as Dr. Thacher's Liver & Blood Syrup) contains ingredients known to physicians for their corrective and health building properties. Start taking it after the next meal to cleanse and tone your liver and build up your system. You will be completely satisfied; otherwise druggists are authorized to refund the entire cost.

Dr. Thacher's Liver Blood Syrup is sold by Dolan the Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

All Dr. Thacher's Medicines Sold by DOLAN The Druggist

BRITAIN NOT YET TO RECOGNIZE MEXICO

London, Feb. 19.—Premier Macdonald has decided that the British Government can extend recognition to Mexico only when the stability and permanency of the President Obregon regime are assured. He is represented as not yet convinced that the insurrectionary movement is effectually suppressed or that the present regime enjoys unanimous support.

Other factors are the adjudication of commercial and mining claims of British subjects formerly resident in Mexico, indemnification against loss by British banks and individuals who hold a part of the $25,000,000 bond issue floated by the Huerta Government and the rights and privileges of British nationals generally.

HARD ON DAD

Teacher—"I am sorry to say it, Henry, but your composition is not worthy of you. The rhetoric is faulty, the logic weak, the statements are based upon misinformation and the style is lamentably crude."

Henry—"My won't dad be angry when I tell him that?"

Teacher—"But you can tell him you will do better next time."

Henry—"Do better—nothing. Dad wrote the whole of it himself!"

Feeding Germany
The Students

By CARL D. GROAT
(United Press Staff Correspondent)

Berlin, Feb. 19 (United Press).—The students of one American university have agreed to sacrifice their Sunday dinners for three months in order to contribute one thousand dollars to the Students' Friendship Funds for European Student Relief.

Conrad Hoffman, general secretary of the Student Relief, told German officials and charity workers that this was only one sample of what America was doing to aid suffering students in Germany this winter. "That," he said, "is the spirit of the New World."

Hoffman reported that the students of 42 countries are co-operating to aid German youth engaged in the stiff battle to obtain an education and to keep body and soul together at the same time.

In Austria the Student Relief has been placed on a self help basis, and efforts are being made to establish the same system in Germany. For the moment, however, it is impossible to institute such a system fully.

One of the chief contributions of the Student Relief work was 300 tons of food sent aboard the "friendship steamer" Hansa during the holidays. President Ebert and other officials attended a dinner at which the arrival of this vessel was commemorated.

Exchancellor Cuno expressed Germany thanks for the "meaningful relief work" and for all that America is doing now for German children. Recognizing the moral meaning of this relief as well as the material benefit, Cuno stressed the hope of re-established relations between nations and a real peace in the world.

FANNING WITH FARRELL

SISLER MAY PITCH IN '24; RUTH LATER

By HENRY L. FARRELL
(United Press Sorts Editor)

New York, Feb. 20 (United Press).—Reports current some time back and confirmed recently by the officials of the St. Louis Browns and George Sisler would try his hand at pitching next season, if he can't see well enough to return to first base, brings up the question. "Why couldn't Babe Ruth do the same thing when he can no longer qualify as an active regular."

Like Sisler who first attracted the attention of major league scouts when he was pitching for the University of Michigan nine, Ruth started out as a pitcher.

It was Sisler's talent at hitting that made him too valuable to sit on the bench three days after pitching one game and it was the same power with the stick that caused Ed Barrow to turn Ruth into an outfielder.

Sisler and Ruth have baseball talent that are strikingly in common. Sisler is a great first baseman and Ruth is a good one; Ruth is a great outfielder and Sisler is a good one; both can hit and both can pitch.

Ruth was the best southpaw in the American League when he was working as a pitcher with the Boston Red Sox and the Yankee players say that the Babe needs only serious work and a little practice to become a fine pitcher again.

Ruth's legs will go back on him before his batting eye begins to get out of focus. Sisler's vision went faulty when his other physical faculties had hardly more than reached their full development.

The Babe has a powerful pair of shoulders and a great arm and they should retain their strength even after his legs disqualify him for work in the field.

If Babe Adams can get along so well as a pitcher at an age which is decidedly antique for a major leaguer there should be no reason why Babe Ruth could not do the same thing even though he has not kept up on his pitching.

Ruth is thirty years old now. The experts give him no more than three more seasons to star, as he has been [illegible] and they think that he will start to slip.

Before the Sisler case, however, no one seemed to have given a serious thought to the possibility that Ruth might go back to pitching and prolong perhaps three or four seasons a career that had reached its natural end.

There have been many cases where a pitcher reached the end of his string and then continued as a player. Joe Wood did it with the Cleveland Indians, and Rebel Russell did it with the Pittsburgh Pirates. But there can be recalled no outstanding instances where a player reached the end of the road and then turned pitcher.

* * *

James McNulty, famed prophet of Minnesota, who predicted, this time last year, that the Yankees would beat the Giants in the 1923 world's series, and that Bush, Pennock and Jones would do the star pitching, recently favored the Yankee owners with his predictions for 1924 and distant points.

"The Yanks will beat the Giants again in the 1924 world's series," he sets down for the records. "Pennock Jones, Bush and Shawkey will be the star pitchers."

This much for baseball and upon general subjects he made the following predictions:

"Coolidge will receive the Republican nominaten on the first ballot. He will walk back to the White House by an overwhelming vote. There will be a woman President by 1934. She will have fair hair and light blue eyes. A colt sired by Man o' War will win the 1925 Kentucky Derby. Dempsey will remain heavyweight champion until 1927. He will meet Firpo, Gibbons and Wills in 1924, and knock them out. Carpentier and Gibbons will fight, and Carpentier will win."

* * *

With the most courageous fighting heart that has ever been seen in a modern ring, Floyd Johnson, the young Iowa heavyweight, failed to get along because he seemed unable to learn. He had all the natural qualifications of a great fighter, but he couldn't apply them.

After being knocked out by Jess Willard and Jack Renault in two bouts that a little headwork should have won for him, Johnson went into temporary retirement.

"I'm now at the point," he confided to a friend, "where I have to find out if I can be made into a fighter. If I can't, I had better get out of the business, as I don't want to be punch ed daffy."

He came back recently and stopped Jack Douglas, a big New York fellow, in the first round, after which he remarked:

"I could have won every one of my fights as I won tonight if I had carried out the instructions given me, but I thought I was smarter and knew how to fight my own way. I have learned my lesson. The old fellows know more than I do, and I must learn from them."

Johnson may yet develop into a great fighter if he learns how to hit properly and will use his head.

Sport Events Held at Y.M.C.A

Three events in the International Y.M.C.A. contest now in progress throughout Canada, were held last night at the Y. Three additional events will be run off on Friday next. The results of the three events last evening are as follows:

Running High Jump—First, Arthur Herity, 5 feet 1½ inches; Second, Leo Barlow, 4 feet, 11 inches; Third, Albert Armstrong, 4 feet, 10 inches.

12 pound shot put—Fred Miles, 34 ft. 2 in.; Allen Hitchon, 33 ft. 6 in.; Ralph Morden, 33 ft. 1 in.

Sixty yard potato race—First, Fred Miles, 15 3-5 sec.; Carl VanNorman, 15 3-5 sec; Leo Barlow, 15 3-5 sec.

Circle Six Are Here Tonight

Everything is set for the big junior O. H. A. hockey game at the arena here tonight when Belleville juniors meet Circle Six of Kingston in the first of the home and home play off games in the Provincial race.

Though out of active games for some two weeks owing to the tie up in the group to the east with which group winner the locals were slated to battle, the local sextette have been practicing, and recently played an exhibition game with the High School team of the Interscholastic league.

Manager Ed Thomas stated this afternoon the line-up for tonight's game will be practically the same as the line-up which figured in the game against Trenton.

It is expected that either Bob Armstrong or Willard Box will officiate as referee.

Belleville Girls Defeat Kingston

Last night the girls team of the B. H. S. journeyed to Kingston to play the K.C.I. girls. The result was a win for the Belleville girls by a score of 2 to 0.

The girls went down with the avowed intention of avenging the defeat they suffered at the hands of the K.C.I. girls last year here on their own ice by a score of 1 to 0.

The puck was faced off at 7 o'clock in the Jock Hardy arena and after the first ten minutes of play the result was never in doubt.

Betty Williams, star defence player, did a solo rush down the ice and scored after about five minutes of play.

The second period was scoreless with the Kingston team fast tiring.

The third period found the Belleville girls outplaying and outskating the Kingston girls and their efforts were soon rewarded when Evelyn Whalen rushed down centre ice to the defence passed to Marjorie Lynch who bulged the twine for the second counter of the night. The game ended with the score of 2 to 0.

It would be hard to pick any individual stars for the Belleville team as they all played exceptional hockey. Helen Maybee was the best for the Kingston team.

The Belleville team was entertained after the game at the school by the Kingston girls.

A return game will be played in Belleville a week from Friday and if the hockey fans want a real treat all turn out and see the Belleville girls hand out another whitewash to Kingston. Line-up of teams:

Kingston—Marjorie Lytle, goal; Helen Maybee, right defence; Nora Williamson, left defence; Helen Carrol, right wing; Irene Gordon, left wing; Florence Newman, centre; Dorothy Smith and Katie Sommer, subs.

Belleville—Peggie Holway, goal; Betty Williams, right defence; Nora Lynch, left defence; Marjorie Lynch, right wing; Dorothy Pearse, left wing Evelyn Whalen, centre; Grace Gilbert and Lila Sprague, subs.

OSCAR STANAGE, former star back stop of the American League, will be in harness with the Toronto Leafs this season.

ON THE ALLEYS

Last night at the Y Alleys the All Stars and Y Reds hooked up in a league fixture and the Reds came out on top by 224 pins. The Reds took the lead in the first game by 90 pins which the All Stars could not overcome although they tried hard and reduced the Reds total in the second game but fell short in the last game. Pearson of the Reds bowled a steady game all the way through and was high single and high three string of the evening with 226 and 618 respectively.

Y REDS

Hall	180	208	150—541
			2343

It took one of the junior bowlers to make a new league record at the Recreation Alleys last night when C. Bawden rolled 257 282 255 total 794 or only 5 pins below the alley record held by Chouinard. Although Wheeler from the O.B.C. rolled 656 the K. of C. won by over 300 pins. In the ladies league the Wanderers won from the Debutantes The Debutantes were only 2 pins down in the second game but the Wanderers made a strong finish and won out by nearly 100 pins, Mrs. Mott being the high bowler of the evening. Players and scores:

THE MOUNT ROBSON ROUTE ACROSS CANADA

The delights of a trip across Canada never fade in memory, the interest never wanes, and the ecstasy of one day's travel through the Canadian Rockies is an experience of a lifetime. The route of "The Continental Limited," which runs daily between Montreal and Vancouver with direct connections from Toronto, traverses the beautiful lake country of Northern Ontario. From Winnipeg to Saskatoon and Edmonton it passes through some of the most fertile lands of the great prairie provinces. A night's run from Edmonton and you are in Jasper National Park and the glorious Canadian Rockies, embracing some of the finest mountain scenery in the world—then on to the Pacific Coast through an ever-changing panorama of magnificent and stupendous scenery. The Canadian National line through the mountains skirts Canada's highest peak at the easiest gradient and lowest altitude of any trans-continental route, the highest point reached in crossing the "Great Divide" being 3,712 feet. You will consult your own interests if you will make your trip west by the new way. "The National Way"—you have the choice of various routes. You have the option of making the journey in a splendid tourist car at minimum cost, or, if taste dictates, the more luxurious Standard Sleeping Cars or Compartment-Library-Observation Cars are at your disposal.

The equipment on the "Continental Limited" is all-steel and modern in every particular.

Get full in formation from any Canadian National Ticket Agent.

AN INCOMPLETE JOB

A man who had committed suicide by hanging himself in a village barn was found by a yokel on his return from a day's work. An inquest was held upon the deceased and the yokel was the chief witness.

"Well," said the Coroner, "and where did you find this unfortunate man?"

"In a barn, yer honor, hanging by a cord on to one of the beams; so I run and fetched the police."

"But," asked the Coroner, "why did you not cut him down first?"

"Well, you see," the yokel replied, confidentially, "he warn't quite dead!"

THE KIWANIS JOLLIES REVUE NEXT MONDAY AND TUESDAY

Contrary to what some people seem to think—the Kiwanis Jollies Revue will not be **Just Singing**—true; the choruses exactly as appeared in the former show will be there—But there's going to be comedy too, and altogether according to Mr. Herb Fish and Dick Philbin, it's going to be two evenings of real fun and entertainment. To augment the Jollies, the committee has arranged for a real high-class feature picture, one of the recent releases entitled "Trifling with Honor" and those who have seen it in the large cities say it alone is worth the price of admission.

The proceeds of the show are to be used for charitable purposes, so let's get behind the Kiwanis Club in their worthy undertaking.

CANADIAN ATHLETES RIDING THROUGH CHAMONIX. "Dune" Munro is on the horse, and the sleigh load behind him include many of the Canadian athletes and "ath letesses" also Mr. and Mrs. W. A. Hewitt and others. Mr. P. J. Mulqueen is standing in the foreground. The picture is sent by Miss Cecil Eustace Smith, of Toronto, the Canadian fancy skater, who is seen sitting on the dash of the sleigh beside "Sig" Slater, of Montreal.

This is the material from which Australia gets its cricket ers. The boys are going through the regular drill carried out each week. They all hope to represent their country in international matches.

HOUSEWIVES' COLUMN

Sometimes it seems to me that the world is getting more sensible than it used to be in "my day." People seem to understand some things better.

For instance most any woman knows now that she pays the cost when she has groceries delivered to her door—or other peoples' delivery costs if her store delivers *their orders*.

Of course that's very simple, when you stop to think of it, but a lot of people never used to doubt that the store was kind enough to pay its own delivery costs, instead of adding it to the price of the things they sell.

Not a one of the 300 red front Dominion Stores ever adds a cent of delivery charges to the cost of anything you buy there. They never deliver to anybody at all, and you save the money. That's one of the reasons why you notice steady savings when you deal regularly at a Dominion Store.

So mothers go themselves for their groceries nowadays, or send their children. They pay for groceries *only* at their neighborhood Dominion Store—instead of groceries *plus* delivery charges.

Even more important is the fact that all the foods on Dominion Store shelves were bought by Dominion experts, in vast quantities, at the lower prices such buying makes possible. These savings are passed on to you, whether you are a housewife thoroughly experienced in marketing or the littlest of children—just big enough to stand on tiptoe and give the friendly man the food list mother sent. 54

"The Goose Hangs High" Is Native Drama De-luxe

By ALICE ROHE

New York, Feb. 20 (United Press)—There is something far more important in the Dramatists' Theatre Inc. production of "The Goose Hangs High," at the Bijou than the assurance of an enjoyable evening.

Indeed, when a group of playwrights band themselves together and determine to give the American author a chance they are really writing American theatrical history. Of course, this story is made by the success of their determination.

"The Goose Hangs High" is a real American play which reflects conditions affecting home life today. Now the fact that this real American play succeeded in "horning in" through the hordes of foreign plays, after having been neglected by several commercial managers, makes one ask: "Who are they, these Dramatists' Theatre Inc. altruists?"

Well, they are just that, a group of altruistic American dramatists, struggling to help the "native" drama. James Forbes of "The Chorus Lady" and "The Famous Mrs. Fair" fame directed the play without pay. Owen Davis and William Anthony McGuire guaranteed to make good any losses. But there is joy in the statement that the prospect seems to eliminate any such a thing as losses.

The Parents' Sacrifice

"The Goose Hangs High" is by Lewis Beach, who wrote "The Square Peg". The title refers to the ease and luxury the children of a midle west couple accept as a matter of fact from their parents. The play opens upon this father and mother awaiting the return of their offspring from college. And then they return, so full of themselves—their drinking, smoking, jazzing life—that they run right off again to their mad diversions leaving the parents to eat the dinner alone. But the play has an unexpected twist.

When disaster befalls the father, who has sacrificed his ambition to go into business for himself—because he had to keep his nose to the grind stone to send the children to college—these jazzy children should prove that beneath their frivolous exteriors beat hearts of gold. They refuse to return to college, take things in their own hands and save the situation.

Up to this point in the play we kept asking ourselves. Where have we met all this American home life before? Then we remember! We've read it all in Inez Haynes Irwin's incomparable stories of American family life—the "Phoebe and Ernest" series. We remember as well the little home tragedy of the children's return from college to the anxiously awaiting parents—only to chase off on their mad and social gayety.

In the Lewis Beach play there is a bit too much saccharine, especially in the last act. Katharine Gray mars an otherwise good performance by too much of this tremolo-voiced sweetness in the mother role. Norman Trevor is excellent as the father as is Mrs. Thomas Whiffen as the grandmother. But there is one member of this excellent cast who stands out with rare excellence. He is Eric Dressler who gives a faultless performance as the college boy son.

Men's Black Knitted Tie Now Stages Real Comeback

By "THE STROLLER"

New York, Feb. 20 (United Press).—Turn attention to neckwear—that important adjunct to male attire—for a moment.

Just at present the knitted scarf is enjoying a popular success around the necks of New Yorkers. A few years ago, you will remember, the black, silk-knitted neckties were all the rage. You could buy them cheaply, or you could put real money into them. Half the sweethearts of America were knitting silk ties for their beaux, (sometimes with painful results to the wearer). Then almost as suddenly as a mid-summer storm, which has raged furiously for an hour, dies away the fashion dropped out of sight. Today the black knitted tie, with its indispensible pearl scarf pin, is but a thing of memory.

Knitted scarfs of today are works of art, and they look mighty well. They don't wrinkle and lose their shape quickly. Of course, as in all ties, there are those which are garish and offensive to those whose sense of order is disturbed by sensuous color. But, as a general rule, these are found mainly in cheap ties which are made expressly for that trade.

If you wear a colored shirt with a collar of the same material, try a knitted scarf which will harmonize or contrast with the shirt. The knot can be made large or small as the taste dictates, but the large knot is the one which is most favored. Three or four dollars invested in a couple of knitted ties is worth while. They will retain their shape and their good looks for a long time, and while they are not adaptable to summer wear, they will always be in good taste.

It is a little too early to predict what spring styles in neckwear will be, but the best haberdasheries in New York are cleaning house with sales, so an official pronouncement may be expected momentarily.

The man who occasionally wears (and struggles) with his dress tie has been taken into consideration, and dress ties now have buttonholes in back and front just like a collar. This is a most welcome relief to the man who has often found the bow nestling under his ear, or the entire tie roosting on his neck, entirely off the collar. Once the tie is in place now, it sticks there and one worry and embarrassment incident to formal dress is eliminated.

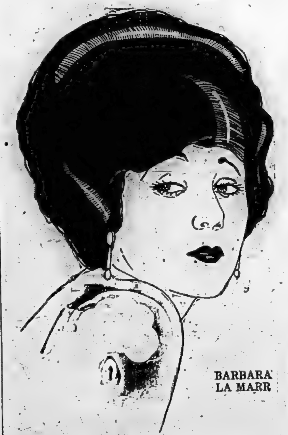
"HEAD MAN" STUFF

An expert is an ordinary fellow away from home.

It is a great and strange wonder for a man to double himself. We multiply in friendship and brotherhood.

SOUND ADVICE

Smile a little, play a little, sing a little gaily;
Help a little, love a little, pray a little, daily.

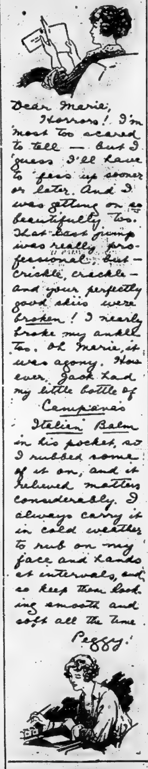


Having won great laurels in Metro's "Strangers of the Night," she scores again in Metro's "Thy Name Is Woman," and "The Shooting of Dan McGrew," both of which will soon be seen. Miss La Marr was first made famous by Rex Ingram in "The Prisoner of Zenda" and in "Trifling Women."

One symptom of eye strain

A person arises in the mornings feeling fit and ready for anything. He starts to work with enthusiasm, but in two or three hours begins to lose his energy. This is particularly true of those who use their eyes for close work. If your eyes are a handicap to you, first I could convince you of the fact, then relieve you.

J. A. McFEE
Optometrist
216 Front St. Phone 128



Dear Marie,

Horrors! I'm most too scared to tell — but I guess I'll have to 'fess up sooner or later. And I was getting on so beautifully, too. That last jump was really professional, but — crickle, crackle — and your perfectly good skiis were broken! I nearly broke my ankle too. Oh Marie, it was agony. However, Jack had my little bottle of Campana's Italian Balm in his pocket, so I rubbed some of it on, and it relieved matters considerably. I always carry it in cold weather to rub on my face and hands at intervals, and so keep them looking smooth and soft all the time.

Peggy.

A BLENDED TEA IS BETTER

Tea from one garden, no matter how fine it is, possesses certain desirable qualities but may lack others, because all characteristics are not developed under the same conditions. If the tea has a perfect flavour it may lack body; if it has body is is perhaps without the same perfection of flavour. To combine all desirable characteristics in one blend has been the work of the "Salada" experts for over a quarter of a century and "Salada" is the fruit of their labours. The flavour is more delicious than any unblended tea grown.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

"I beg your pardon: very rude of me. But you should try it. Given a well-balanced dog-cart with a clinking mare— Here's the doctor."

"All right, my dear young lady. Only a broken leg."

"Only!" said Esther.

"Do Martin all the good in the world to be quiet a bit; that is, if he doesn't worry; and he doesn't usually; but he's worrying now. Seems that he's a man short—his foreman left him suddenly, and Martin declares things will all go wrong if he can't get about. Where's the young man who played the hero? Oh, there you are! Do you want me to go over you? Sure you haven't broken or sprained anything? That young mare is strong and heady."

"Quite sure, thanks," said Jack. "Well, I'll be moving. Glad it's nothing serious with the farmer. Good-day!" He raised his hat and prepared to depart, and as he did so, Esther, with a touch of colour in her face, leant forward and said something in a low voice to the doctor.

"Eh? What? Yes; just so; but we don't know anything about him," he muttered, in response.

"Oh, I'm sure he's—he's honest, and can be trusted!" said Esther, swiftly. "Be quick, doctor, or he'll be gone!"

The keen eyes looked at her, as if he were amused by her impetuosity.

"Oh, if you answer for him—" he said. "Hi, young man!"

Jack stopped with a sigh and an inaudible word of one syllable.

"Are you loking for a job? Excuse my abruptness."

"Certainly," replied Jack, courteously. "Y-es, I am."

"Well, here's one ready to drop into your mouth!" said the doctor. "My friend Martin wants a hand—a foreman—and Miss Vancourt tells me you have been a farm-hand, and she is kind enough to speak for you."

Esther hadn't bargained for this, and she coloured, then drew herself up and gazed straight before her with the indifference of a hundred-ton gun.

Jack stood with his hands in his pockets, the picture of doubt and uncertainty; and the doctor, rather nettled by the young fellow's hesitation, said:

"It's a good offer, my young friend, and if I were you I should jump at it."

"Right," said Jack. "I jump."

The doctor smiled.

"That's better. Well, you'd better come in at once, I should think. Go upstairs and talk to Martin—I'll give you ten minutes. I suppose you've got a character?"

"Yes," said Jack, gravely; "but it's not a particularly good one."

The doctor tried to look grave, but there was a twinkle in his shrewd eyes. "I'm sorry to hear that—but we'll risk it. You've got the right look about you."

"Thank you; it's about all I've got about me," said Jack, pleasantly; "and I'm much obliged to you for giving me the place. I won't let Martin overtalk himself."

"From your style I should say you'd been abroad—colonies—Australia, eh?" queried the doctor, eyeing the stalwart figure and tanned face curiously.

"Oh, I've been around a bit," assented Jack.

Ether had risen, but seemed somehow, as if she could not go until the colloquy was over; but she walked down the path now, and Jack went and opened the gate for her.

"Thank you, Miss Vancourt," he said, simply.

She inclined her head—in the best lady-of-the-manor style—and passed out; but Jack, undaunted, helped the ladies into the jingle and closed the door in proper form.

"What a singular young man!" said Miss Worcester, as they drove off. "But he has behaved remarkably well. I'm sure it was shocking, the way that dreadful horse and he struggled! I never saw such a thing! For a common tramp, he displayed extraordinary heroism."

"I don't fancy he is a common tramp, aunt," said Esther, thoughtfully.

"No? Perhaps you didn't notice his clothes, my dear Esther. My eyes are sharp, and I am a particularly observant woman."

Miss Esther had noticed a great deal more than the young man's clothes; but she said nothing, and Miss Worcester rambled on:

"To tell you the truth, I was rather taken by the poor fellow; his manners were almost—almost—gentlemanly."

"I think he was rather—forward," said Esther, severely.

"Yes? Well, perhaps they were. He is very good-looking. It is strange how sometimes one sees a really high type of face among the quite common people. And his voice—"

Esther burst out laughing, but it was rather an impatient laugh.

"My dear aunt, don't let us talk any more about him, or the whole affair will get on my nerves, and you know what that means. Get up, you—you nursery toy! Aunt, do you think you'd be afraid to ride in a dog-cart?"

"A dog-cart!" echoed Miss Worcester, aghast. "My dear Esther, what ever put that into your head?"

"I—I don't know," replied Miss Vancourt, turning her head away to hide the blush caused her very much annoyance. "I—I just happened to think of it. Really, Toby is too ridiculous!"

She was silent after this condemnation of Toby. Presently Miss Worcester remarked that they really were dreadfully late for dinner.

"I wonder whether they will think to give him any?" said Esther absently.

"Him? Whom?" asked her aunt, not reasonably surprised.

Esther coloured again.

"The—the young man," she said.

"My dear Esther, why should you worry yourself about him! Of course they will, or he'll ask for it; that class of people always do— Why, dear me; what can that be!" she broke off, staring before her, in her nearsighted fashion.

They were jogging up the avenue by this time, and Esther, looking up, saw a gentleman standing on the terrace. He was in evening-dress and had the air of having been waiting for some time.

"Looks like a human man," she said, coolly; but she was not without curiosity.

Miss Worcester reddened with confusion and nervousness.

"My dear Esther, it is Mr. Layton!" she gasped. Esther turned to her quickly.

"But he does not come until to-morrow—the seventeenth," she said.

Miss Worcester's agony was painful to witness.

"Was it the seventeenth or the sixteenth? I thought it was the seventeenth, but it may have been to-day! My dear Esther, what a dreadful mistake! What shall we do?"

(To be Continued.)

Stop Coughing

The simplest and best way to stop coughs, colds, croup, bronchial, "flu" and la grippe coughs is to take

CHAMBERLAIN'S COUGH REMEDY

Every user is a friend

That Body of Yours

By James W. Barton, M.D.

WHEN A REST IS NEEDED

Years ago when a person coughed up or expectorated blood, it was believed to be an absolute sign of consumption or tuberculosis.

As a matter of fact, three out of four cases have proven on investigation to be due to tuberculosis.

But very violent coughing, a beginning of pneumonia or bronco-pneumonia, a growth, or an injury to the lung, might be the cause of the hemorrhage.

Sometimes inhaling irritating fumes and also hysteria and epilepsy have been the cause.

Now the amount of blood lost may be serious, but if not more than an ounce or two, it is not very important insofar as the effects of losing that much blood is concerned.

The main thing to think of is that it should not happen in a normal individual. There is something wrong.

The first thought therefore is to keep from getting excited. I know it is not a pleasant thing to contemplate, but excitement is your worst enemy.

If you have been feeling fairly well and have had just a slight cold and cough, a little spitting up of blood is not serious.

In any case your first care is to get right off your feet immediately, and get absolute rest.

This is one time where the cleansing of your intestine should not be done for a little while at least.

A little later, an injection may be given into lower bowel, but rest, complete rest, is the main idea in the treatment.

The meals should be brought to the bedside so as to ensure this perfect rest. Any exertion, however slight is a mistake.

Your next thought is to send for your physician.

If you are in a fair shape he may examine you immediately. If you are a bit weak he may postpone his examination till a later date. Don't be impatient with him then if he does nothing on his first visit.

He realized that rest is the essential factor until you get over your excitement.

KINGSTON HARD AFTER DANCING

Kingston, Feb. 20.—The City Council Monday evening received the requests of four organizations that a bylaw be passed to govern the city dance halls and private houses which charge a fee for dancing. The organizations are the Women's Council, the W.C.T.U. and the Sodality of the Children of Mary and the local branch of the International Machinists' Union. They want the dancing places closed at midnight, and no girls or women allowed to frequent the halls unless accompanied by a responsible person. A bylaw will be prepared to meet their wishes.

Coconaut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can not possibly injure the hair.

Simply moisten your hair with water and rub it in. Two or three teaspoonfuls of Mulsified will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

NO NEED OF IT

A young man from the country was about to be married, and, wishing to know the cost of the various items connected with the ceremony, called on the vicar, who, in answer to his request, replied:

"Well, there will be so-and-so to pay for the certificate, so-and-so for the fee, and then, of course, the banns—"

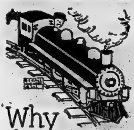
"Bands be blowed! We don't want no bands. Our Bill's comin' with his mouth organ!"

MRS. MARY BOXALL

CANADIAN WOMEN, THIS INTERESTING MESSAGE MAY BRING YOU HEALTH!

London, Ont.—"Dr. Pierce's Favorite Prescription brought me back to health when I had begun to think there was no help for me. I had quite a bad sick spell, which left me a physical wreck. I lost thirty pounds, was so weak I could not walk, my strength was completely gone. Nothing gave me any help until I began taking the Favorite Prescription. This medicine just put me right on my feet and made me well and strong. Favorite Prescription has no equal as a tonic and nervine for ailing women."—Mrs. Mary Boxall, 378 Ottawa Avenue.

Better go now to your neighborhood drug store and obtain Doctor Pierce's Favorite Prescription, in tablets or liquid. Write Doctor Pierce's Invalids Hotel, Buffalo, N. Y., for free medical advice, or send 10 cents for trial package of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont.



Why does steam run an engine?

—because steam is water vapor, expanding under heat. Trying to escape from the cylinder, it pushes outward with mighty power and moves the piston. Many take

Puretest Aspirin Tablets

to escape from that stuffed-up feeling which comes with a cold.

Absolutely true aspirin, tablets so skillfully made that their beneficial action begins in 15 seconds. Snow-white, highest purity, never irritate or burn.

One of 200 Puretest preparations for health and hygiene. Every item the best that skill and conscience can produce.

Women's Comfort Store's Slogan

While the temperature has been hovering about the zero mark, workmen have been busy creating a department for Ritchie's millinery and ready-to-wear garments. Those alterations are nearly complete and we will soon be ready for the public.

Fine Department

This is for millinery, dresses, coats, skirts and all ready-to-wear garments for ladies. The new department will be beautifully equipped with mirrors, trying on rooms, cases and tables for the display of new goods and the comfort and convenience of customers. Splendidly lighted and comfortably heated for winter and ventilated for summer.

BLOWN SAILS

The clouds before the norther scud
Across the wintry sky,
Like sails in ribbons blown away
From all the ships gone by—
The ships that labored in the wind
And wallowed in the foam,
And sometimes never saw again
The harbor lights of home.

Brown sails of banks from tropic parts
Below the stormy capes
With cargoes of mahogany
And paroquets and apes—
Gray sails of schooners odorous
Of fish and briny sea,
White sails of clippers sweet with scents
Of cinnimon and tea.

The snowy cloths that towered aloft
On frigates proud and tall,
Patched canvas lost from dingy sloops
In hurricane or squall,
Topgallants, royals, flying jibs
Ballooning in the blast,
Ripped from the stays and swept away
To black abysses vast.

Borne on the tempest's thrashing wings
Between the sky and spume,
They rode the elemental strife
And vanished in the gloom—
The clouds before the norther fly,
Unquiet ghosts of sails
Blown long ago from hapless ships
That foundered in the gales.
—Minna Irving.

CUCKOOS DESTROY GERMAN SILK WORM

Berlin, Feb. 20 (United Press).—Germany dreamed some time ago of becoming a leading silk producing nation.

Wieland and Schuster introduced in the Neckar valley near Heilbronn the bron and purple Chinese "airlanthus" silk worms, but the cuckoos are now destroying them.

In this connection it is recalled that Frederic the Great once endeavored to introduce the silk worm in Germany, and the mulberry trees he planted near Potsdam still stand as a monument to his unsuccessful attempt. There is still standing near Potsdam the silk mill he founded, but it draws its products from China instead of from Potsdam.

It's a still wind that blows nobody harm.

Cream Clears A Stuffed Up Head

INSTANTLY OPENS EVERY AIR PASSAGE—CLEARS THROAT

If your nostrils are clogged and your head is stuffed because of nasty catarrh or a cold, apply a little pure, antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or snuffling. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine.

Champion Swimmers All—In "Sunday Best'

The girls above are America's champion girl swimmers, and this unusual photograph shows them one way you seldom see them, without swimming togs. Snapped at Miami, Fla., where they smashed records recently. left to right: Aileen Riggin, Helen Meany, Katherine Brown, Adelaide Lambert, Helen Wainwright, Gertrude Ederle, Doris O'Mara, Sybil Bauer, Virginia Whitenack, Ethel McGary and Agnes Geraghty.

FROGS COULDN'T LIVE IN IRELAND

Kingston, N. C. (United Press).—James G. Mehegan, whose ancestral home is the home of Sir Walter Raleigh in Ireland has satisfied himself there are no snakes in that country. Mehegan has ascertained that a few frogs of one small species inhabit the bogs in places, but large "jumpers" and serpents are unknown.

According to Mehegan, two North Carolina black snakes and two bull frogs were sent to Ireland to test the tradition that such reptiles could not exist in the island. The snakes died on the way over The bull frogs arived safely.

Exhibited in a box they were viewed by hundreds of curious people. When they were placed on the ground in a park, according to the information to Mehegan, they died in short order.

NOTICE TO CONTRACTORS

Separate sealed tenders marked "Tender for Contract No. ...." will be received by the undersigned until 12 o'clock noon on Tuesday March 18th, 1924, for the following work on the Provincial Highways:—

Contract No.		Mileage
	BITUMINOUS PENETRATION PAVEMENT	
1023	Foxboro-Village [illegible]	0.6
	MACADAM ROADWAY	
1029	Belleville-Westerly [illegible]	6.0

Plans, specifications, information to bidders, tender forms and tender envelopes may be obtained on and after Tuesday February 26th, 1924, at the office of the undersigned or from the Resident Engineer, J. M. Empey, Port Hope.

A marked cheque for $1,000.00 payable to the Minister of Public Works and Highways, Ontario or a Guaranty Company's Bid Bond for a similar amount must be attached to tenders for pavement and macadam. A Guaranty Company's Contract Bond of 50 per cent of the amount of the tender will be furnished by the Contractor to the Department when Contract is signed. Maintenance Bonds for 25 per cent of the total of the tender and extension of work, if any, of pavement contracts shall be furnished to the Department when Contract is signed.

All Bonds must be made out on Departmental forms. The lowest or any tender not necessarily accepted.

S. L. SQUIRE,
Deputy Minister of Highways

Department of Public Highways, Ontario
Toronto, February, 18th, 1924. F20-1td

THE NELSON TOUCH

He had recently celebrated his eighth birthday and among his many presents was an air-gun for shooting darts. Wandering into the garden with the gun in his hand he espied the next door cat calmly seated on the wall. Creeping stealthily to within shooting range, he took steady aim and fired. The cat gave a screech, and with a mighty bound, disappeared. Nothing daunted, the small boy proceeded to the house next door and fearlessly rang the bell. A bespectacled old lady answered the door. "May I have my dart?" he inquired. "I haven't got your dart, my little man," she replied, smiling down at him benignly. "No," he retorted calmly, "but your cat has."

POINCARE APPROVES EXPERTS OPINIONS

Paris, Feb. 20. (British United Press)—Premier Poincare has approved in principle the main suggestions of experts committee number one for rehabilitation of Germany so that she can pay reparations the petit journal declares to-day. These suggestions include

1. A cash moratorium for Germany.
2. Creation of a German gold bank
3. Suppression of Franco Belgian control off the Rhineland Railways in order to permit an international Society to take up the administration of all German railroads
4. Suppression of the Rhine customs barriers.
5. An interior German loan in gold for the purpose of repatriating German capital.

Break a Chest Cold With Heat Of Red Peppers

Ease your tight aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

WHEN GRANDFATHER WOOED

A yellow paper folded small,
And tearing where the creases bent it;
Dust are the hearts that conned it all,
Both scribe and he to whom he sent it,
One late July in '35,
With pulses his excitement telling,
Young Thomas made his goose quill drive
In graceful curves but faulty spelling.
He "fears that" he "presumes too much,"
But does "it from the purest motive";
"Your lovely daughter Lydia—such
Was she to whom his signs were votive
"Impatiently" now Thomas signs;
The answer could not long have tarried.
His Bible quaintly quotes their "lines"
For in September they were married.
—New York Sun and Globe.

"STOCK TAKING" IN WESTERN FORESTS

Estimated 75,000 Deer in The Forests of the Pacific Northwest

Portland, Feb. 20 (United Press).—After noting [illegible] logs for bears, counting deer tracks, and enumerating cougar [illegible] forest rangers of the northwesthave compiled a census of animals in the national forest of Oregon and Washington.

Inasmuch as the census was not a house to house canvass, the rangers admit it only an approximation, because maybe, some ranger counted the same deer track's twice.

The census shows the deer predominate, there being aproximately 50,000 in the Oregon forests and 25,000 in the Washington forests.

There are about 8,000 black or brown bears in Oregon and 7,000 in Washington forest reserves.

Washington has 8,000 Elks and Oregon 3,000.

These figures are for about 17,000,000 acres of forest land in the two states and were compiled by 135 rangers, each making a report for his respective district.

Number of animals killed each hunting season. number of bounties paid, and verbal reports of mountaineers, as to the number of game seen all figured in the estimates.

Other animals listed included Cayotes, Oregon 25,000, Washington, 9,000; wolves, Oregon 150, Washington 90; bob-cats, Oregon, 13,000, Washington, 4,000; Oregon fur-bearing animals include: 6,000 badgers. 8,000 beavers. 3,500 foxes, 11,000 mink, 1,000 marten, 6,500 muskrats, 400 otter, 90 lynx. Washington's fur bearers include: 7,000 beavers, 600 badgers, 900 foxes, 1,000 lynx, 8,000 mink, 9,000 muskrats, 800 marten and 200 otter.

Sage Tea Keeps Your Hair Dark

WHEN MIXED WITH SULPHUR IT BRINGS BACK ITS BEAUTIFUL LUSTRE AT ONCE

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy, and lustrous and you appear years younger.

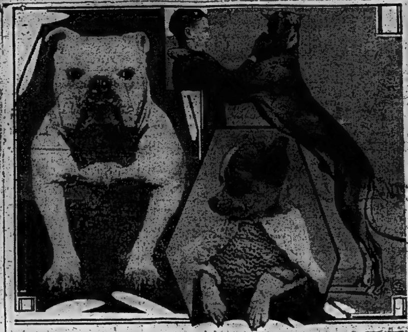
Aristocrats of Dogdom



Many wonderful specimens of dog-flesh were in evidence at New York City's annual dog show. "Oak Wall Model" is the husky looking pup on the left. Governor Al Smith's "Jeff," a great Dane, shown upper right with Walter Smith, also is entered, as is the friendly little pup shown in lower right. His name is Peaster's Little Chicuelo II.

BIG REDUCTIONS IN

Georginea Oxfords BLACK OR BROWN at

Holmes & Murdoff

Fifty Thousand

(continued from page one)

Hold Fairs Earlier

Mr. J. L. Boyes of Napanee stated that in his town they had an agricultural park and a driving park. They had good buildings and the prospects are that they will soon be out of debt. Get started right and there should not be any trouble to make the scheme a success. Be liberal in dealing with the farmers, who attend the fair and success is assured.

Mr. Boyes thought that agricultural fairs were held too late in the season. Some places that hold fairs earlier in the season have made a success of same. At Napanee the fair grounds have proved to be a success and have not cost the town one cent One of the buildings is used as a skating rink and the revenue from the rink was rented for $500.

Mr. R. Carter of Picton, in his opening remarks referred to the fact that for 18 years he had been on the Picton fair board. Belleville was well situated for a fair. The city had a great baseball team, known all over the Dominion, also a good hockey team. In speaking of a fair, Mr. Carter said, "Make it a Hasting's old boys fair and have a reunion of old boys and girls whilst the fair is on." Picton's land and buildings are valued at $30,000 and there is only $5,000 of a debt. Picton will help Belleville boost its fair. We get a County grant every year and the fair does not cost the town anything.

Mr. B. R. Leavers of Bloomfield endorsed the remarks of the previous speakers.

We gave the people good baseball, declared Mr. M. P. Duff, but the grounds and accommodation were by no means what they should be. If we had good grounds we would have both senior and junior baseball teams. The Parks Board last year did everything for the baseball team. Boys should be brought up in clean healthy sports.

Mr. C. J. Symons a member of the Parks Commission, reviewed minutely the work done by the Board last year. A revenue was derived from the bleachers built about the base-

$50,000 Page One Galley Two ....

ball diamond. The one mill allowed the Board would take care of the payments of the proposed debentures to be issued

The Parks Board is ready at all times to do what it can for the city. this debenture by-law so that we can have an athletic field.

Ex-Mayor W. H. Panter spoke eulogistically of the work done by the Parks Board the past year. It was business to show the public what had been done.

Ald. W. H. Patterson, congratulated the Parks Commission on what they did last year. He made a survey and a plan of Coleman flats, a portion of which is owned by the city A half mile track could be built on those grounds. He would like to see the three propositions considered carefully.

Ex-Mayor Bennett, as a Park Commissioner last year it was a pleasure to attend the Board meetings. All meetings were business meetings. The people voted for a Parks Board. Last year $3,100 was voted to the Parks Board and not a dollar was wanted He would if he had a vote take the western grounds as a suitable selection for an athletic ground and fair grounds. This matter should be carefully considered.

Mr. H. F. Ketcheson, "Whilst we have a considerable indebtedness, we have many great assets. We do need a proper athletic field for this city and the city owe the Parks Board a debt of gratitude. They are tax payers as well as Park Commissioners. This athletic field proposition will eventually mean a revenue. The citizens should get behind the Parks in this matter.

Mr. C. Dolan, All are agreed that we want an athletic field and fair grounds. We want adequate grounds and buildings and when we have these we will have a fine fair. This was a matter of investment. If Picton and Napanee can have fairs that pay their way why cannot Belleville do even better. It should be a money making venture for the city. We should have a county fair.

Rev. D. C. Ramsay spoke eulogistically of our baseball team and the necessity there was of securing suitable athletic grounds.

Mayor Mikel gave his hearty endorsation in the procuring of athletic grounds. Proper athletics were a necessity. His Worship also referred to the old Dundas street burying ground and stated that Bridge street church officials had offered the site as a park and the Parks Board might consider the proposition.

Mr. C. Dolan stated that much credit was due to Mr. C. J. Panter a member of the Board for the preparation of plans of grounds and buildings of the proposed new premises.

During the evening Mr. Bankier sang two songs.

The gathering was closed with the national anthem.

(continued from page one)

In June 1910 he was appointed secretary to the general passenger agent of the Grand Trunk Pacific Railway at Winnipeg. In 1911 he was excursion clerk, then chief rate clerk, and in 1917 was appointed chief clerk at Winnipeg. In 1917 he came to Vancouver as chief clerk of the Canadian National Railway. He has been active in the C.N.R. social and athletic club, and has an extensive acquaintance in business circles in the city.

Is Twice Presented

Prior to his departure for the east, office employees of the C.N.R. waited on Mr. Dobbs, and presented him with a gold watch. He was also given a travelling bag for Mrs. Dobbs. Mr. K. E. McLeod, divisional passenger agent, made the presentation on behalf of all the passenger department officials in the Pacific Coast officers.

A large number of friends also paid Mr. and Mrs. Dobbs a surprise visit, at their home there at 2246 Second avenue west, where they were presented with an electric percolator. News of both social events were printed in all Vancouver newspapers.

If Rheumatic Eat No Sweets

SAYS GLASS OF SALTS HELP TO OVERCOME RHEUMATISM ACID

Rheumatism is easier to avoid than to cure states a well known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kind.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast ech morning for a week. This is helpful to neutralize acidity, remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

GOOD SUGGESTION

"Fore!" shouted the golfer, preparing for a big swipe. But the woman who was crossing the links paid no attention. "Fore!" yelled the man angrily. "Try three-ninety-eight," suggested a friend. "Perhaps she's a bargain hunter."

MERELY TOOK A DETOUR

"Is it true you stopped your son's allowance when he married that pretty chorus girl?"

"Yes; I told him he needn't expect to get another dollar from me."

"How does he manage to live?"

"I have increased his mother's allowance about $5,000 a year."

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the 'Bayer Cross' on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds	Headache
Toothache	Lumbago
Neuritis	Rheumatism
Neuralgia	Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of salicylicacid. While it is well known that Aspirn means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

CHARCOAL PRODUCT REPLACES PETROL

Paris, France, Feb. 20 (United Press).—M. Imbert, an Alsatian chemist, claims to have invented a new fuel to take the place of petrol in internal combustion engines, which, it is said, will revolutionize the question of transportation.

The new fuel is derived from common charcoal and replaces petrol gas by a gas composed of 30 per cent. hydrogen, 2 per cent. methane, and the remainder, [illegible] (nitrogen) through admixture with air. The new invention enables the engine itself to manufacture its own gas.

A receptacle in which the gas is produced holds a supply of charcoal under which a flame burns, forming gas, which is sucked in by the motor's aspiration into a small reservoir, and thence through a special carburetor into cylinders.

A motor-lorry ran 218 miles, consuming 165 lbs. of charcoal, bought for about $1. The present apparatus is too heavy to be used in small cars but is said to be ideal for trucks.

CAUGHT

The young man was fondling her right hand.

"A nice diamond," he said, awkwardly. "Diamonds are beautiful stones, but on the other hand—"

"Oh, Jack," she murmured, "you make me so happy."

Strike of British Dockers Is Ended

WHEELS OF INDUSTRIAL PLANTS AGAIN MOVING; MACDONALD'S VICTORY

General Public Heaves Sigh of Relief When Announcement is Made of Settlement of Strike Which has Paralyzed Shipping in British Ports Since Last Saturday —Settlement Hailed as Due to Generalship of Premier Ramsay MacDonald.

EMPLOYERS AGREE TO MEN'S DEMANDS AFTER SECRET CONFERENCE WEDNESDAY

Dockworkers' Delegates Conference Meets To-night to Approve Terms to Which Leaders have Agreed—Acceptance of Employers' Terms Came Early To-day at Meeting of Ministry of Labor—Government Gains Credit for Settling Industrial Crisis.

London, Feb. 21.—(United Press).—The British dock strike was settled to-day. Settlement was hailed as due to the generalship of Premier MacDonald. The general public heaved sigh of relief when the morning papers announced that the strike of dockers which started Saturday noon was practically at an end.

After a secret conference Wednesday the employers agreed to the men's demand for a two shillings a day increase. Thep stipulated that the increase should come in two equal installments and agree dto inquiry into the questions of maintenance and steady employment.

The Dockworkers' delegates conference which meets to-night must approve these terms to which their leaders agreed. Leaders are confident that this will be done.

There is a possibility that some of the delegates will balk at the proposed delay in payment of the second shilling increase which is to come sometime early in the summer. One shilling increase is to be paid immediately.

Acceptance of the employers terms by the dockers leaders came early to-day at a meeting at the Ministry of Labor. The Government successfully brought heads of both sides together and thus gains credit for facing and settling the second big industrial crisis it has had to face within a month of assuming office.

Narrowly Escapes Defeat

London, Feb. 21.—The Labor Government escaped almost certain defeat in the House of Commons last night only through refusal by the Speaker to accept a motion for closure after debate on the Government's air force policy in which the teachings of the new testament were invoked by one side and repudiated by its opponents.

Major-General J. E. B. Seeley, Liberal, and Rear Admiral N. F. Sueter Conservative, were among Leach's opponents in the debate, the former exclaiming "if the Empire is to be defended by sermons on the mount, God help them!"

The Conservatives and many of the Liberals were manifestly uneasy at the air under-secretary's attitude, and when Sir Samuel Hoarse rose to move closure the defeat of the Government seemed unavoidable. The Speaker, however, ruled that the discussion was too important to be closured, and accordingly adjourned the session.

THE WEATHER

Northwest winds, fair and cold to-night and on Friday.

QUEBEC DEBATES MEASURE AIMED AGAINST PLAGUE

Lord Atholstan's Offer Delays Passing Gov't Bill to Third Reading

PREMIER FOR ACTION

Investigation Will be Made of $500,000 Offer to Fight Plague

Press Gallery, Que., Feb. 21—The stand of the Provincial Government in regard to combating tuberculosis and infant mortality was discussed at length on the floor of the Legislative Assembly yesterday afternoon on the second reading of the resolutions for the Provincial Secretary's bill calling for the expenditure of $100,000 a year for five years.

The letter received yesterday from Lord Atholstan by the Prime Minister and the Leader of the Opposition came into the debate from enquiry by Arthur Sauve. It was discussed in some detail and both sides of the House gave promise of correspondence on the matter, which will be discussed by the Cabinet. In the meantime the Premier was strongly in favor of going ahead with the resolutions in third reading, but Mr. Sauve insisted that the matter be deferred to allow further investigation of Lord Atholstan's offer of $500,000 for the anti-tuberculosis battle.

Hon. L. A. David, on introducing his subject, stressed that the moneys asked were supplementary and that the years would run to $600,000 a year, or a total of about $3,000,000, to fight tuberculosis and infantile mortality. He also gave details of $566,000 spent in the last 18 months in anti-tubercular warfare and referred to educative measures as the great means of combating the white plague.

Members of the Opposition, including Dr. P. V. Faucher (Quebec Centre) who gave a masterly address on anti-tubercular work from a medical standpoint; Hon. E. L. Patemaude (Jacques Cartier) and Brigadier-General Smart (Westmount) were unanimous in their claims that the sum proposed by the Government was inadequate for the needs of the situation, and expressed the Opposition's readiness to vote a large sum, if the Government could be persuaded to spend it.

Mr. David and the Prime Minister were the only speakers on the Government side. The Opposition gave no shadow of doubts as to its opinion of the inadequancy of the Government's proposals, which, however, it welcomed as something to go on with, though "barely touching the fringes of the situation."

RETURN VERDICT IN MACKENZIE CASE

The coroner's jury returned a verdict at the inquest into the death of Robert MacKenzie, Baltimore farmer who was found frozen to death in a snow drift after a recent storm, the team of horses which had been driving, standing nearby in the road which was blocked with snow.

The verdict returned to Coroner Ferris of Cobourg was that MacKenzie came to his death as a result of having become intoxicated and then exposed to the weather.

BULLET HOLE TAMPERED WITH

Statement . by . Provincial Constables at Murder Trial at Lindsay

Peterboro, Feb. 21.—That some unknown person has tampered with the bullet hole through the wall of the Galway Township shack where George MacNeal met his death last October, so that direction indicated by the shot was altogether different from the original was the startling statement made by Provincial Constable Hayston Storey, of Lindsay, in the trial of John Schell yesterday afternoon.

The Grand Jury, after deliberating five hours in all returned this morning a true bill indicting John Schell for murder. All of the Crown witnesses but one had been heard when court adjourned last night, Mrs. Harry Hopkins being missing. A bench warrant was issued, and it is expected that she will be produced by the Crown this evening.

Constable Storey's charge was made during cross examination by C. G. Frost, of Lindsay, representing the accused, who asked the constable to identify a board taken from the table of the shack in which the tragedy had been enacted. The plank contained a hole said to have been made by the bullet which killed MacNeal.

Storey said he could not identify it in its present shape, adding "I could from my first visit."

"Who, to your knowledge, had been to the shack after your visit?"

"You and your party."

"You don't insinuate that I tampered with the bullet hole?"

"Certainly not, but some one did. A knife had been used to change the hole so that the direction pointed down the side of the shack instead of into the corner where Schell's bunk was, as it originally did."

Provincial Constable W.H. Boyd, of Haliburton, who accompanied Storey on his first visit t othe shack, also declared the bullet hole had been changed.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre. Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

The feature picture tomorrow is "The Son of Kissing Cup."

AFFILIATION OF FAIRS SOUGHT

Special Meeting of Central Ontario Fair Association Affected by Storm

A special meeting of the Central Ontario Fairs Association was called for yesterday in this city, but owing to the storm, the attendance was limited to a few and no business was transacted.

The object of the meeting was to consider the proposition of having other fair associations affiliated, those desiring to do so being Renfrew, Lindsay, Peterboro, Norwood and Kingston. Some of the Associations applying for affiliation are desirous of having a change made in the dates of fairs made at the annual meeting held here last month.

It appears that Picton, Peterboro, Kingston and some smaller fairs are scheduled for the same dates, and it is thought that this can be avoided when a general meeting is held.

A motion made by ex-mayor Hanna prevailed that an adjourned meeting be held in this city on Friday afternoon the 29th inst. and all Fair Associations be notified of the object of the meeting.

Mr. B. R. Leavers of Bloomfield, President of the Central Ontario Fairs Association presided over the meeting.

AGENT KILLED

Cornwall, Feb. 21.—E. O. Winters, C. N. R. Agent at Moulinette was killed when struck by the steps o fthe train he was about to place mail aboard.

SNOW BOUND FOR SEVERAL HOURS

Chicago Woman encounters Blizzard Wearing Light Spring Hat and Shoes

Mrs. Marion Jerome Johnson and son Hugh Glen, of Chicago, Ill., will be guests of Mrs. I. E. Bowell for one month. Although due to arrive here at 12.19 p.m. yesterday, the train did not arrive until 8.30 p.m. owing of course to the heavy snowstorm. Just this side of Toronto the train, thorgh hauled by two heavy engines, was stalled in a heavy drift on an incline. Two other engines were attached behind the train to supply steam to the coaches which were becoming quite cold.

Mrs. Johnson was the only lady passenger on the train, and every consideration was shown her during the tie-up. Superintendent J.D. MacMillan's private car was attached to this train and every courtesy possible ws extended the passengers by Mr. and Mrs. MacMillan.

Mrs. Johnson with straw hat, corsage bouquet of violets and spring shoes was not prepared for the "wild" winter of Canada.

POINCARE NOW CONCERNED TO SAVE CABINET

Summons Meeting to Consider Measures to Offset Disaster

DEMANDS ACTION

Chamber Must Adopt Entire Financial Program, He Says

Paris, Feb. 21.—The collapse of the franc to 105 to the pound, the lowest point in history in face of the Chamber of Deputies acceptance of a twenty per cent increase of taxation has resulted in something resembling paic accompanied by a huge volume of selling French securities and attempts to purchase sterling and dollars.

The French Press first sought to camouflage the collapse by the statement that it was a concerted movement on the part of Germany and various neutral and Allied countries to force France to quit the Ruhr by hammering the franc but it is now openly admitted that it was the result of the wholesale-dumping of French securities by French people who feared that the 'sauve qui peut' spirit might filter through to the peasant class with probable disastrous results.

British Press Comment

Pointing out the responsibility for the fall of the currency, the Manchester Guardian comments that the French press 'now admits that the anti-franc movement orginates in France itself; London and New York are guiltless." The Guardian doubts the likelihood of the French Senate fully approving the Chamber's financial reforms, and emprasizes that the restoration of financial

(continued on page three.)

CANADA'S GREATEST MAP TO MAKE WORLD TOUR AFTER LONDON SHOWING

Ottawa, Feb. 21.—When the British Empire Exhibition opens in London next April, Canada will indeed be "put on the map". There has just been completed here one of the largest and most illuminating maps of this Dominion ever made. It will tell in a flash everything about the natural resources and physical features of this country, and tell it in a way that no map has told it before.

This huge map is being prepared by the Natural Resources Intelligence Service of the Department of the Interior in co-operation with the Canadian Pacific Railway. It is 28 feet long and 10 feet high, and is illuminated by more than eleven hundred electric lamps. It is made of steel, and is in eight sections for transportation purposes. The actual maps is painted on the steel in permanent colors, with all the rivers, lakes, cities, transportation lines, boundaries and territories marked in the usual way. In addition, every natural resource and product of the Dominion is clearly marked in the locality where they are found. Everything there is to know about the wealth of Canada is recorded.

But the unique feature of the map is that eevery spot where a certain natural product is found or an industry is in existence, is illuminated with electric lights of distinctve colors. For example, where copper is found, a purple light, conspicuous and brilliant, will mark the place. Where water power is present, it will be shown by a white light, with pulp in green, timber in brown, and so on. Each city is shown with a larger light, and each railway line is shown through a series of perforations in different colors—the C. P. R. is red, the Canadian National is green, and the others in yellow.

Miles of Wiring

These are illuminated by an intricate system of wiring. But they can be lighted separately. If a visitor wants to know where gold is found in Canada, the official in charge of the map will press a button and every place so designated will be illuminated and none others. Similarly if he wants to see where wheat is raised, where textiles are manufactured, or where timber is found, the distinguishing lights will be switched on. At each side of the map an illuminated index will be placed, on which the key color of each resource or industry is given. On the opposite side of the map will be an indicator which will reveal the statistics connected with any particular product. If a prospective settler asks where flax is produced the lights will go on the map, and if he wants to know the annual production and other things, it is immediately available on the indicator.

The map will be used in other parts of the world following the close of the exhibition in London.

WIFE FINDS HUSBAND TIED HAND AND FOOT BY UNKNOWN BANDITS

Nathaniel Van Meer Bound and Gagged by Thugs, After Being Menaced With Guns—$111.00 Taken from Person, After Being Advised That "We'll Blow Your Head Off" by Masked Intruders.

POLICE PROMPTLY ON SCENE FOLLOWING CALL FROM MRS. VAN MEER

Description of Two Men Given Authorities—Both Young Men, One Tall and Slim, Other Medium Height—Victim First Called Over Telephone to Make Sure no Other Person in House

Returning from a local theatre to her home on Canifton road last night at 11 p.m., Mrs. Nathaniel Van Meer found her husband, bound hand and foot, and his head buried in a chair before which he knelt on his knees. He had not been gagged, and told his wife that two men had menaced him with guns, took $111 from one of his hip pockets, then bound him, and made him kneel before the chair. "Do not move", the thugs advised, "or we'll blow your head off." They hastily departed and from 10 p.m., when the hold up occurred, until 11 p.m. Van Meer spent one hour of agony in fear of his life.

WIFE IS SURPRISED

Mrs. Van Meer was startled. She untide the ropes and bands which had bound her husband, and immediately called the police at 11.05 o'clock. At 11.15 Sergt. of Police D. T. Boyd was at the Van Meer home, and Chief Constable A. Kidd followed out shortly afterwards. Van Meer was not injured in any way, but suffered temporarily from the rude shock. The two thugs took the $111 from one hip pocket but neglected to search another pocket which also contained a large sum of money.

Victim Tells Story

"I was alone in the house," Van Meer told the police, "my wife having gone to the show, and brother Jack who lives with us having also gone out for the evening. Shortly before 10 p.m. the phone rang, and I answered it. A voice asked if Jack was in, and I answered 'no'. Then the person enquired if Mrs. Van Meer was at home and I answered no. 'Then you are alone?' Yes. The receiver clicked abruptly. Ten minutes later I heard a knock at the side door, and I opened it.

Both Thugs Armed

Each man held a gun, and both were fully masked. Their salutation was "hands up", and when Van Meer obeyed, they turned him towards the wall, lowered his hands and tied them behind his back with rope and bands which the police now have in thejr possession.

They then tied his legs similarly, forced him to kneel in front of a chair, bury his head and entreated him not to move. The Thugs quickly grabbed the rope with which they bound their victim in the house, which consisted of four strands of a small red rope sometimes seen about cushions and similar to awning trimming. Each rope is about the thickness of a man's smallest finger. The other band used, appears to be the hem of a woman's skirt, and it is believed they tore it off one of Mrs. Van Meer's skirts. It is about one and a half inches wide, two feet long, and is very stout black material.

Continued on page 3.

Kiddies' Dance Is Successful Event

An enjoyable dance held last night at Moose Academy under Belleville Kiddies and concert troupe auspices, also proved to be very successful, having been patronized by a large crowd despite inclement weather.

One of the newer, local musical organizations, The Four Melody Boys dispensed the music for dancing, and kindly consented to finish the dance programme which had not concluded at 2 a.m. A dainty lunch was served, and two features of the dance were the popular Leap Year dances where ladies are requested to select their partners.

TOO WELL READ

Stude—The more I read on the subject the less I seem to know about it.

Professor—I see that you've been reading a great deal.

MAKE TWO ARRESTS

At 3.40 p.m. today, police officers had made two arrests, but refused to comment on them as they are still investigating the case with which the arrests are connected. While nothing definite is known it is believed that the arrests are in connection with the Canifton Road holdup.

Let there be harmony in things essential—liberty in things not essential—charity in all.

WILL THERE BE AN ELECTION?

Rumors are afloat of a possible Dominion election this year. It is safe guessing that there will be no appeal to the people if Premier King can help it in view of the very evident turning of the tide towards the Conservative party and the Cabinet difficulties that the ministry faces. However, time and tide wait for no man and circumstances may develop which might force an appeal to the people sooner than Mr. King and his colleagues anticipate. The King Government, like the MacDonald ministry in England, is in the minority. Its fate lies in the hands of the Progressives. There is a general belief in political circles that Mr. King can depend upon the Progressive vote, no matter what happens, and they are more interested in retaining their identity than in defeating the Government. However, they are led in the House by a solid Scotchman, Robert Forke, who has not been long in politics and is troubled with a conscience. It is quite possible an issue might arise which would compel him to throw his vote and his influence against the Government.

There is no question that the King Government has been sadly weakened by recent political events. In the Maritime Provinces it has been defeated in two by-elections, which by every ordinary method of political calculation it would expect to hold. What is more, it has lost the two strongest men in the Cabinet. Sir Lomer Gouin has retired. Hon. W. S. Fielding, the finance minister, while still a member of the Government, is a sick man and admittedly can never take an active part in public life. The disappearance of these two men weakens confidence in the Cabinet. Recent changes have not strengthened the ministry. Premier King thus faces the House of Commons with a party without its two ablest parliamentarians and holding power at the good-will of the Progressive group.

At a time when a strong Government is sorely needed at Ottawa there is in office a weak ministry with its hands tied by a lack of majority. Mr. King is in no position to adopt with certainty any policy. On the fiscal question he cannot afford to alienate his protectionist followers in Quebec, while on the other hand he is dependent upon the support of the Progressive free traders in the West. He cannot with assurance of these two men weakens confidence in the Cabinet. Recent changes have not strengthened the ministry. Premier King thus faces the House of Commons with a party without its two ablest parliamentarians and holding power at the good-will of the Progressive group.

At a time when a strong Government is sorely needed at Ottawa there is in office a weak ministry with its hands tied by a lack of majority. Mr. King is in no position to adopt with certainty any policy. On the fiscal question he cannot afford to alienate his protectionist followers in Quebec, while on the other hand he is dependent upon the support of the Progressive free traders in the West. He cannot with assurance adopt any big program. No matter what his own views on the fiscal question—and these can only be surmised—he is compelled by circumstances, if he is to remain in power, to follow the line of least resistance. All he can do is shuffle along. Micawberlike, he can only wait for something to turn up.

Undesirable as is an election during the present year it might in the end be the best thing for the country. It would settle the present feeling of doubt in the business world. It would be better for some Government, Liberal or Progressive, to have a working majority in Parliament than to have a continuance of unsettled conditions. The longer we have the present uncertainty, wavering in regard to tariff policy, the present weakness of financial control and utter helplessness to take charge of and dispose of any responsibility the slower will be the recovery of the Dominion and the more difficult will it be to secure a return to normal conditions. Re-distribution is, of course, first necessary, but redistrabution, which is now long overdue, can be disposed of early in the present session. A measure of redistribution brought down in fairness to all will have no difficulty passing the House. Aside from any question of political advantage to either of the three parties, what is needed in Canada to-day is a strong administration, with a majority in the House, able to put in effect a policy of economy, to adopt a forward program for the conservation and development of our national resources and prepare to adopt a fiscal policy which will give business an assurance of certainty.

EDITORIAL NOTES

Sheik and thou shalt find him.

ONLY A SONG

It was only a simple ballad,
Sung to a careless throng;
There were none that knew the singer,
And few that heeded the song;
Yet the singer's voice was tender
And sweet as with love untold;
Surely those hearts were hardened
That it left so proud and cold.

She sang of the wondrous glory
That touches the woods in spring,
Of the strange, soul stirring voice,
When "the hills break forth and sing;"
Of the happy birds low warbling
The requiem of the day,
And the quiet hush of the valleys
In the dusk of the gloaming grey.

And one in a distant corner—
A woman worn with strife—
Heard in that song a message
From the spring-time of her life,
Fair forms rose up before her
From the midst of vanished years;
She sat in a happy blindness,
Her eyes were veiled with tears.

Then when the song was ended,
And hushed the last sweet tone,
The listener rose up softly
And went on her way alone.
Once more to her life of labor
She passed; but her heart was strong
And she prayed, "God bless the singer!
And, oh thank God for the song!"

TROUBLE IN THAT NAME

"Mrs. Jones, why does Mr. Jones keep on calling you Amelia?"

"Because that is my name, child."

"But mummy says your name is anathema to everybody who knows it."

PRESS OPINIONS

KIPLING AS A "SIGHT"

(Sunday Times)

Rudyard Kipling, who was 58 (December 30) is probably the only living man of letters who has been "done" as one of the sights of London. Soon after his first settlement here he was visited by a hustling American and two boys. Bursting in, the visitor asked briskly, "You are Rudyard Kipling?" On being answered he turned to his sons with "Boys, this is Rudyard Kipling." "And this is where you write? Boys, this where he writes." "And before I could so much as ask his name," says Mr. Kipling, "they were gone."

ANOTHER GOOD PAPER GONE

(Peterboro Examiner)

The number of daily papers in Ontario, as everywhere else, steadily decreases. The death of the Guelph Herald, a paper with a long and honorable record, makes 13 deaths since 1919. There are only 36 in the field. The Windsor Telegram and the Fort William Bulletin started a couple of years ago, but suspended after short and expensive careers. The Owen Sound Sun-Times, alone of the newcomers, is alive and well.

The casualties include the Fort William Bulletin, Guelph Herald, Kitchener Telegraph, Lindsay Warder, Peterborough Review, St. Catharines Journal, Stratford Beacon, Toronto News and Toronto World. At Chatham the News and Planet were combined by Editor Taylor whose Sentinel-Review at Woodstock buried the opposition paper. The Woodstock paper like the Toronto and London papers is now independent.

No account is taken here of the amalgamations at Sarnia, Ottawa, Niagara Falls and Brockville.

The end is not yet, says the Sault Ste. Marie Star. Only two cities in Ontario with less than 50,000 population have two daily papers, Kingston and Belleville, and newspaperdom looks for developments.

What is the reason of the high mortality? The exceedingly high cost of operating. In the newspaper game, the first cost is high, but the upkeep is what gets 'em.

WHY CHINA HAS FAMINE

(Quebec Telegraph)

The terrible famine conditions for several years past in China are a matter of general knowledge. Yet that country once had a wonderful covering of trees the equal of the well-wooded portions of Canada, but China poor benighted land that it is, did what we are doing in Canada, cut away its trees and allowed the land to be burned over. The vegetation was destroyed over vast areas, then the water swept over the land and carried with it the fertile top soil. So there are millions of acres in China that constitute a barren waste not capable of producing vegetation China has one crop in seven years, and in the other years of that period must look to the world for sustenance to feed her teeming millions. China has become, and will remain, a land of perpetual famine, because she has destroyed her forest covering, subjected herself to the devastation of alternating floods and droughts, and has sacrificed the fertile top soil over such a vast portion of her domain. A recent traveller relates what he saw in China. Sailing through the Yellow Sea, he was impressed by the fact that much of the water was of a deep chocolate color, the result of soil that had been washed down from the interior. Looking out across the land he saw miles and miles of barren waste from which the soil had been washed away, because no trees were there. He told of having seen groups of women out gathering weed stocks with which to cook their rice. They have no wood for heating, and none for fuel—not even bushes—just weed stocks, gathered laboriously from the country-side. He told how he saw dozens of human beings following the scrawny animals to pick up the droppings from those animals to be used for fuel. Think of a people reduced to such extremities. China was once blessed with a rich heritage of forests which were cut away, as we are doing in Canada. China is today paying a terrific price for her folly. If we would avoid the same terrible conditions befalling our children it is for each one of us individually to become not only a protector of the forest against fires, but an active planter of trees whenever and wherever the opportunity comes to us.

MAKING GOODWILL PAY

(McClary's Wireless)

Every manufacturer, wholesale distributor and actual dealer carries a certain value in his business which is known as goodwill in terms of dollars and cents, it is a hard task to arrive at a figure that would actually indicate the worth of this goodwill. No harder task ever faced a dealer—how much was friendliness worth—would the habit of certain customers continue to bring them to his store—his known integrity—his personal character—all the mental hazards that go towards the establishing of a sound and prosperous business.

Goodwill has a certain inventory value and this value is measured by the business it will bring, or we should say, determined by the good use that can be made from such fertile ground. Your problem is—how much can goodwill pay you?

Practically nothing, brother, if you sit back on your haunches and wait for the springtime. Practically nothing, if you imagine that goodwill does not require fertilizer and strong fertilizer at that.

The only difference between the casual customer and goodwill customer, is that the latter is already favorably disposed and is more likely to buy at our store when he comes to a decision.

But there is a big gap between a desire to own and desire to buy, and all your goodwill customers may want to buy from you but the pinprick of desire is not emphasized enough.

Good merchandizing will make goodwill pay.

Music & Drama

"SO THIS IS LONDON." AN ANTICIPATION TO-NIGHT—A PLAY!

By Alfred E. Henderson
Traveller, Writer, Lecturer

(Mr. Henderson is a visitor in our midst. He is an all-round journalist and has written for all the big newspapers and magazines, American, Canadian and Europen. At present he is spending a week in Belleville, writing up our city and having very strong ideas on the force of the theatre we invited him to express his opinions on the attraction of today, playing at Griffin's Opera House this evening at 8.15 p.m.)

Before coming to Belleville, I had been told (in Toronto, the home of self-centred provincialism in Canada) that everything was DEAD here. Since arriving on Tuesday evening I have found the most buoyant and sincere life I have met with in a long time, while, as to dramatic attractions well, you are having "So This Is London" with you this evening. Now this is a boon, for which all in Belleville should be truly grateful, for it is a play! Still more, it is a play with an IDEA behind it—and that idea the biggest and best that ever entered the mind of a playwright—the understanding union o fthe English-speaking peoples on both sides of the Atlantic. Burns says somewhere:—

"Would to God that He would gie us
To see OURSELVES as others see us!

That's it, in a nutshell! American and Britisher in England and here in Canada) love to rub each other the wrong way, to emphasize the little dissimilarities of customs and character—ALL SUPERFICIALITIES—to the DETRIMENT of BOTH PEOPLES and the world at large. What the world needs today is CO-OPERATION and UNDERSTANDING between Americans and Britishers, whether the latter, call theselves Canadians, Australians, South Africans or just plain English, Scotch and Irish—no twisting of the Lion's tail, no making the Eagle scream, just plain common sense and mutual allowances for the differences wrought by climate and local conditions.

"SO THIS IS LONDON" TONIGHT

"So This Is London" is an established success on both sides of the "big pond." In the English Metropolis, it is being presented at the Prince of Wales Theatre, where it has settled down for a run that is sure to equal that of the New York Company which ran for a solid year at the Hudson Theatre.

John Meehan, George M Cohan's General Stage Director, returned recently from London, after having seen this comedy properly staged over Asked how our English cousins liked seeing themselves caricatured, Meehan said, "They took to it like a duck Oh! Yes, they like it all right. You think you have heard them laugh at it over here, my, boys, its a whisper compared to the way they received it over there. They simply howled, commencing with the line in the first act where the American boy says to the English girl—'My father thinks all Englishman are either lords or butlers—one drinks tea all day, and the other brings it to him.' That was the first laugh, but when a little later in the act, the American father says—"I understand now why God made the ocean so wide" that line knocked them for a row of goals, my word how they did laugh."

So this is London will be presented at Griffin's Opera House tonight, one night only.

BARTHELMESS FILM HAS HISTORIC BACKGROUND

In one scene in "The Seventh Day" the First National attraction at the Regent Theatre, today in which Richard Barthelmess makes his second appearance as a star under the management of Inspiration Pictures, is shown what is probably the oldest fort in the United States. It is located at Pemaquid Point, Maine, where the exteriors of this picture were filmed.

Originally built in the spring of 1729, it figured in several of the bloodiest battles in the early history of this country. In this place the settlers sought refuge from the Indians who later became the allies of the French and assisted in its capture. Horrible massacres followed the first capture by the French and Indians of this fort. The first attack on the fort, though, was by the Indians unassisted, to capture one of their own, and when they succeeded their furies knew no bounds when they discovered that their tribesman had been chained hand and foot, to the wall of a dungeon.

While investigating the recesses of the fort, Mr. Barthelmess found himself precipitated through space by reason of the flooring giving away. He found himself in a damp space, which on investigation proved to be the dungeon, Ransacking through the prison, he stumbled across a pair of rusty anklets which had been hidden there probably for a couple of centuries. It was obvious how the settlers treated their prisoners.

ENGLISH RACE PICTURE GRIFFIN'S FRI. & SAT.

The Griffin Theatre is presenting the great English production "The Son Of Kissing Cup" Friday and Saturday of this week only. This picture should be of great interest to theatregoers as it is one of the best British pictures to reach Canada. It is the greatest racing drama ever made in England and shows Papyrus, England's Wonder Horse winning the Derby at Epsom Downs.

There is a beautiful love story running through the picture and from start to finish there is nothing but action.

We are not acquainted with the stars in the picture which point does not make the picture less interesting.

The photograph, the settings, in fact the whole make up of the picture leaves nothing to be desired.

A Lloyd Hamilton comedy, a Western story and a Hodge Podge scenic. Friday is Jazz night this week a 20-piece orchestra will render a special musical setting for the pictures, besides playing favorite Jazz numbers.

Heavy French Tax On American Guests

Paris, Feb. 21 (United Press).—Following the old German system—"make the foreigner pay"—is now the sentiment of a large section of the French press and people in face of the falling franc, and this has inspired a new bill providing special taxation for foreigners. It is aimed at foreigners enjoying a high rate of exchange, chiefly English and Americans.

The bill has been drawn up by the Deputies Meunier Gallois and Bosquette, and will be submitted to the French parliament soon. It provides that all managers or owners of hotels boarding and rooming houses are required to add a surtax of 20 per cent which is to go to the state, to the bills of foreign customers, with the exception of Belgian citizens.

In case of citizens of former allies of France whose exchange is not high and also in the case of employees of French firms, exceptions would be made.

It is expected that this measure, which presupposed that the low figure is due chiefly to speculation by foreigners, will add two billion francs to the annual receipts of the state.

RUSSIA HOLDS UP NAVAL CONFERENCE

Rome Feb. 21 (British United Press Staff Correspondent by Camillo Cianfarra).—The attitude of delegates of Russia and of the smaller nations party to the International Naval Conference under the auspices of the League of Nations today proved the biggest obstacle to progress.

Concrete results confirming to the spirit and letter of the Washington conventions were in sight but now the conference secretaries say will not even issue a communique until some thing definite can be announced.

Argentine, Brazil and Chile had expressed intention of settling the question of naval tonnage in a way satisfactory to all parties when Vice Admiral Berens Soviet delegate, unexpected demanded for Russia an allotmentof four hundred thousand tons. This staggered a majority of the delegates and undid what little the conference had accomplished to date.

STILL SOME LEFT

A woman charges that "her nerves were shattered" by a blast and sues for $15,000,000. What must her nerve have been before the shattering took place!

CONSECON

Mr. and Mrs. J. Thompson entertained Company on Tuesday evening.

Mr. and Mrs. W. W. Ward entertained a number of friends to a card party on Monday evening.

Miss Marjorie Thompson was tea hour guests of Miss Mavis Kenny on Saturday.

Mr. Gerald Lang from near Oshawa spent Sunday with Miss Anona Booth.

Mr. and Mrs. W. J. Moreland have purchased the home of the late Elias Clarke.

Miss Elsie Chase entertained a number of young people on Thursday evening.

Mrs. Rufus Howe returned home on Saturday after spending a few days with her sister, Mrs. Phil Hubbs, of Hillier.

Mrs. H. W. Weeks spent Sunday with Mr and Mrs. James Weeks.

Mrs. Geo. Bush returned home on Saturday after spending two weeks with her mother, Mrs. Webster, of Napanee.

Miss Eva Hickerson was tea hour guest of Miss Marjorie Thompson on Friday.

Mr. Ken. Danford spent the week end at his home near Madoc.

Rev. and Mrs. Wolfrain entertained some young people on Saturday evening.

Mrs. Eber Weeks and Mary spent the dinner hour on Sunday with Mr. and Mrs. Rufus Howe.

Mr. R. J. Young spent Thursday and Friday in Toronto.

Miss Mavis Kenny spent Sunday with Miss Marjorie Thompson.

Messrs Cecil and Arthur McConkey entertained a number of young people on Wednesday evening.

Miss Gena Zufelt and Miss Mabel Collins spent the tea hour on Sunday with the latter's aunt, Mrs W. W. Ward.

THE GROWING GIRL

REQUIRES A MOTHER'S CONSTANT CARE AND WATCHFULNESS

In their early teens it is quite common for girls to outgrow their strength and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by too rapid growth that anaemia develops. The first signs may be noticed by peevishness, languor and headaches. The face grows pale, breathlessness and palpitation follow, with low spirits.

At the first symptoms of anaemia mothers should act at once. Neglected anaemia often leads to decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure, red blood created by these pills will quickly banish all signs of anaemia. They will build up your girl's health, and ensure her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now. Make her strong like thousands of girls and women throughout Canada who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ALL ABOUT THE
SALE OF SALES
Here is what the Cosmopolitan has to say:

From our first day when we decided to open a bargain store, we made our policy to sell all kinds of merchandise at nothing over $5.00. We also knew well that we would have to give more than your money could buy elsewhere. Thousands of well satisfied customers know what we did in the big movement to make high prices come down, but the big sale which we are starting in a day or two will shadow all bargains the buying public bought before. We bought a big stock at discount off the regular cost price.

Its your chance now to watch for our big sale which starts soon. To-morrow's paper will tell you all about it.

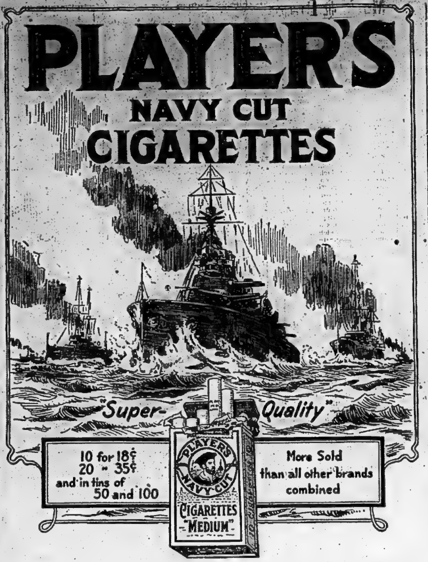
Remember such a chance comes only once in a life time.

Our aim in business is to give to our customers, if possible, more than 100% for their dollar. Our lucky purchase we made last week gives us a chance to make thousands of new customers, as our friends, and to repeat more bargains for our old customers. Our sale will be a sensation in Belleville. Our store will be closed to-day to mark down prices.

Our big advertisement in to-morrow's paper will tell you all about it in detail.

Yours for better service and more goods for your dollar.

THE COSMOPOLITAN STORE
FRONT STREET, BELLEVILLE



GOOD "SAIL" OF PANTS

When William H. Taft was stouter than he is now, he gave away two pairs of white duck trousers.

"Where did you get the queer shaped sails?" a summer visitor asked a guide at Murray Bay Canada when they were out in the guide's boat.

"Them sails, he is the pants of Meestaire Taft," grinned the guide.

Taft tells the story, so it must be true.

IN MOIRA LODGE FOR FORTY YEARS

John Newton and H. F. Ketcheson have Charge of Interesting Ceremonies

Mr. John Newton, J.P., police court clerk and ex-chief constable of this city, and Mr. H. Freeman Ketcheson, J.P. and ex-Mayor of this city met one another on the day they were initiated in Moira Lodge here as Masons. Since that day, a wonderful fellowship has existed, and last night, the fortieth anniversary of the initiation of those two citizens into Masonry, was fittingly observed.

On behalf of the officers and members of Moira Lodge, Mr. Newton sented them with a beautiful eight-day French clock. Mr. Ketcheson made a very neat reply after the presentation had been made by Mr. Newton, both men having complete charge of the work last night.

Both men have been District Deputy Grand Master for Prince Edward district no. 13.

The usual toasts were given, and an illustrated lecture on "Community Health Problems" given by Dr. G.S. Cronk, M.O.H. was educative and timely. Members of the craft who are visiting the city displayed motion pictures showing the progress of the raisin industry in California.

WEDDING BELLS

On Monday, January 27th, Mr. and Mrs. William Hanley, of Read celebrated the fiftieth anniversary of their wedding day.

Their son, Rev. J. T. Hanley obtained permission to celebrate the Holy Sacrifice of the Mass in their home on the occasion. The dinner was honored by the presence of Rev. Thomas McCarthy, over thirty-eight years pastor of the jubilarians.

Reminiscences of the older people were enjoyed by the younger generation. For instance, in these days of cars and radio, it is difficult to realize that fifty years ago even a spring wagon was unknown.

It is somewhat out of the ordinary that Mr. Hanley should have celebrated his Golden wedding at the home of his childhood—the home which his father before him carved for himself from the virgin forest which then was Tyendenaga.

Of the seven children five survive. Sr. M. Vincentia, of Troy, N. Y.; Rev. John T., of Tweed; Alice, of Belleville, and Michael and James, of Read.

Hold Up

(Continued from page one)

The men spoke good English, Van Meer declares, and were well dressed.

"Our families are starving and we simply must have the money," was the hurried parting words of one of the duo.

Mr. Nathaniel Van Meer is the owner of Van Meer's wood and lumber yard Canifton road.

Victim Describes Men

In conversation with Mr. Van Meer this morning, he informed The Intelligencer that he had not suffered any after effects of his harrowing experience.

"They did not hurt me in any way," he stated "and I am glad that I am alive although I did lose some money."

Asked for a description of the men, Van Meer stated that he did not have much time to size them up, but they were both slim, young men, one quite tall, and the other of medium height. Both wore light overcoats which appeared to be checked, but the snow on their coats may have caused this effect. Asked if the men spoke good English, Van Meer stated that he believed that their speech was somewhat hampered by the heavy mask which came down to their mouths. "They told me they had gone without food all day yesterday, but I do not credit that, for they did not appear to be destitute," Van Meer said. Van Meer does not believe that they had a car as he claims that they left by the back gate, as they later saw four tracks in the snow and one rein is missing from the harness which hung in the barn. Another strap off the harness was found in the snow. Van Meer hesitates to believe it was the work of local young men.

Asked if he makes a practice of carrying large sums of money in his pocket, Van Meer stated that he did, as he was in a business where he was receiving money throughout the day.

INQUIRY LIKELY INTO HOME BANK

Probe For Inside Facts Will Precede Any Aid to Depositors

case is being considered by the Government, in anticipation of the subject being one of the first broached in Parliament. When it is, an announcement of policy will be made. In the meantime all documents bearing on the case and its history are being digested.

There is reason to believe that the Government does not at this juncture plan to go to the aid of the affected depositors, but rather takes the position that an inquiry into all the facts of the case—the antecedent as well as the immediate causes—should be a preliminary to a decision, as to whether or not anything is to be done in the matter.

Under the auspices of the Bankers' Association a curator made an investigation. While this disclosed the condition of the bank at the time of suspension there was little that "went behind" the scenes. The record has been added to by statements from the former Minister of Finance and others. What form the inquiry will take is not certain. A Parliamentary investigation might turn out to be a political one and is not commonly seems assured before any decision is made.

Poincare Now

(continued from page one)

confidence depends upon "real Anglo-French agreement."

The Daily News feels that the slump in francs has an important bearing on the international situation and claims that it may influence France to adopt a more moderate attitude and reach an early agreement with Germany.

The Financial News claims that the French Chamber's emergency measures are the chief cause of the depreciation. "The prospects of increased taxation caused the flight of French capital abroad, and increased the demand for dollars and sterling," says the journal.

Paris, Feb. 21.—A number of the decrees issued during the crisis of 1919. prohibited exportation of various articles, are being revived, says the Echo de Paris, in a new campaign to buoy up the franc. Some of those already revived prohibit the exportation of fresh or preserved meat and eggs; wheat, oats, barley, rye, buckwheat and semolina; noodles and kindred foods; sugar, potatoes, structural lumber, slate and tiles, coal, coke and coal tar products, precious metals and scrap iron.

On the other hand the Ministry of Agriculture has decided to suspend the prohibition of exportation and substitute a tax of 15 per cent on cheese and dried vegetables and 10 per cent on fresh vegetables.

CANTON CARD PARTY SUCCESSFUL EVENT

Under the auspices of Canton Belleville No. 8., a card party and dance was held last evening in the I. O. O. F. Temple. Despite the inclement weather there was a large attendance and considerable interest was taken in cards and dancing. Winners of prizes for card playing were as follows

Ladies—First prize, Mrs. A. Goyer, Second Prize, Mrs. R. T. Johnson, Consolation Prize, Miss K. Mayne.

Gents—First Prize, C. Priory, Second Prize, C. M. Hall, Consolation Prize, W. Kerrigan.

At the conclusion of the contest, refreshments were served, after which dancing was indulged in for some time. Music was furnished by the Sills Orchestra.

Unconventional people can be as tiresome as the conventional brand.

BROTHER-LOVE BRINGS DEATH TO JOE DIAMOND

BY STEVE HANNAGAN
NEA Service Staff Writer.

Brooklyn, N. Y., Feb. 21.—Brother love, sordid though it is, is sending two boy-men to their doom.

Morris Diamond, 27, and Joe, 21, his brother, who love each other dearly and have heroically demonstrated it, have been convicted of first-degree murder of two bank messengers, who were robbed of $43,000.

They await a sentence that can be nothing but death.

Morris Diamond, thick set and the leader, was the idol of his kid brother. Joe followed the wake of his erring brother with the love of a hero worshipper misdirected in this case.

Had Joe's misguided hero love for his brother assumed that of a watch-dog instead of an imitator, both might be enjoying the solace of the comfortable home in Bensonhurst, where the brothers lived with their mother, 52 and a widow, and their four sisters—not to mention little David the motherless four-year-old son of Morris.

But Joe, a sheik of Broadway cut, blindly followed the wiles of Morris thick set, an admitted gambler and a leader.

"Do anything you want to me, but don't do anything to the kid," Morris said to detectives after his arrest.

"Don't let Morris sacrifice himself for me," countered the "kid."

Morris' only worry is Joe. Joe is too young to worry. He merely matches every play of bravado Morris displays.

With a poker face, Morris snapped back answers as he was tried in court. But when Joe's name was brought into the questioning, Morris faltered and then cracked. Hysterically he shouted Joe's innocence. It was a task for the court to subdue him.

When Joe took the stand in his trial, in a final attempt to stave off the electric chair, both he and his attorney passed the burden of blame to Brother Morris.

Somehow Joe's words didn't ring true and sincere. They didn't convince the jury which convicted him.

When his verdict was announced, Joe appeared relieved that he would remain with the brother he loves—even in the shadow of death.

At 21, when he might be preparing to cast his first vote, he undoubtedly will follow the brother he worshipped to the electric chair—game, blind and falsely heroic to the end.

It probably is easier for Joe—he merely follows. Morris has been the leader, and he seems to realize that it was he who led his young brother astray

With the passing of the two, there is but one male left to preserve the unhappy family for posterity. He is tiny, tow-headed David, who weeps, but knows not why.

MORRIS DIAMOND (LEFT), HIS BROTHER, JOE (RIGHT), AND DAVID, MORRIS' FOUR-YEAR-OLD MOTHERLESS SON, THE LAST MALE DIAMOND HEIR.

Science Is Now Salvation of "White Plague" Sufferers

By WILLIAM J. LOSH

(United Press Staff Correspondent)

Washington, Feb. 21.—Once a year Uncle Sam posts the returns from the relentlessly waged battle between Science and Disease and Death.

To his legions of physicians he says:

"You are winning here," or "You are losing there." And in the sectors where the fight is going in their favor, they press it more vigorously, confident of their tactics. Where it is going against them, they take counsel and seek new methods of attack.

Uncle Sam, through his Census Bureau, has just published the returns for the year 1922. Battle lines are being reformed accordingly.

Science and medicine, his figures show, are slowly winning against tuberculosis, the dread "white plague," which for so many years took the heaviest toll of all diseases; against diseases of early infancy, and those which permanently impair little children sometimes, such as scarlet fever, whooping cough, and diptheria; against typhoid fever, puerperal septicemia, and in preventing death through certain accidental causes.

But, according to his returns, the battle is not going so well against other major diseases. The fight seems to be losing against diseases of the heart, influenza and pneumonia, nephritis and Bright's diseases, cancer, diabetes, syphilis and many forms of accidental death.

The death rate of 37 states of the United States which comprise the death registration area of the nation, from which the Census Bureau's figures are drawn, in 1922, was 11.8 per 100,000, a slight increase over the low rate of 11.6, established in the preceding year. Actual deaths numbered 1,101,863 in 1922 against 1,032,009 in 1921.

To a heavy increase in the death rate from influenza and pneumonia, which jumped 60 per cent. in 1922 over 1921, the bureau attributes the entire increase in the national death rate in 1922.

Yet the figures for the nation as a whole are so encouraging as to cause medical officials of the government to regard the relatively poor showing against the major diseases, excluding tuberculosis, with equanimity.

Losses sustained against heart disease, nephritis and cancer, they say, are, in themselves, an indication of general progress in the battle. More people are living to the age at which they are liable to these diseases, they contend, and in great measure their increase indicates, not so much that the diseases are on the upgrade, but that science has prolonged many lives to years in which these diseases make progress. A quarter century ago the death rate was 30 per 100,000; now it is 11.8.

So the battle continues. In recent years, the average life has been lengthened by 11 from 42 years to 53 years, according to the insurance companies who deal in death. Science will confine itself to further study of those calcitrant ailments which now seem to take the crowning years of life, with the expectancy of raising the average human life well above the Biblical three score years and ten. The goal now set is 75 years. Uncle Sam will tabulate the progress toward it.

CALIFORNIA AND PACIFIC COAST TOURS

During the winter the Pacific Coast States and British Columbia offer a haven of refuge from our rigorous climate, particularly sunny California. California has become famous as a winter tourist region because of its excellent climatic conditions, its varied and magnificent scenery, the possibilities it affords for all kinds of outdoor sports and recreations its splendid motor roads, sea-bathing, etc.

The Canadian National Railways offer a wide choice of routes, embracing rail and sea trips. Travel one way through Canadian Rockies via Jasper National Park and Mount Robson, the North Pacific Coast Route to Vancouver and Victoria, Seattle, Portland, San Francisco and Los Angeles.

Any agent of the Canadian National Railways will be pleased to furnish full information regarding these tours.

WILL ROGERS BUYS ESTATE

Santa Monica, Calif., (United Press)—Will Rogers, motion picture actor, has bought a 200-acre home site between the Pacific Palisades and the recently acquired property of the Los Angeles Athletic club. Rogers is said to have paid $100,000 for his property He plans to develop a ranch estate which will include a large stable of horses and polo ponies.

If Ruptured Try This Free

Apply it to Any Rupture, Old or Recent, Large or Small, and You are on the Road That Has Convinced Thousands

Sent Free to Prove This

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 501-e Main St., Adams, N.Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance. Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Presbyterial Holds Meeting

A meeting of the Kingston Presbyterial Executive was held Tuesday afternoon in St. John's Presbyterian Church, Belleville, with a full attendance of members. Very encouraging reports were given by the different secretaries showing an increase in membership and growing enthusiasm in the various activities of the Women's Missionary Society.

Many important matters were discussed among them that of Social Service work in connection with the several auxiliaries. Arrangements are being made for the International and Inter-denominational Day of Prayer to be held on March 7th. Interesting programs are being drawn up for that service. Miss Templeton of Belleville was appointed Young Women's Secretary in place of Mrs. Barlowe, who has retired. Two vacancies on the Provincial were reported to fill which two nominations were made, that of Mrs. Lyster of Toronto for Prov. Treasurer and Mrs. E. L. Mowat, Kingston, for Vice-President.

Delegates to the Provincial to be held in Hamilton this year are Mrs. W.J. Paul, Kingston, Mrs. D.A. Volume, Kingston, Mrs. G.A. Reid, Belleville.

The annual meeting of the Presbyterial will be held in Trenton early in May. It was decided to have on exhibit at this meeting a collection of Chinese fancy work to be sold to help on the work in the Chinese girls' schools. Mrs. J. Matheson, Kingston was appointed to look after this.

A resolution was passed expressing the deep regret of the members for the loss sustained by the death of the late Mrs. J. E. Gow, Kingston, one of the most faithful and valued workers on the Executive, and conveying the sincerest sympathy to the bereaved family.

At the close of the meeting refreshments were served by the ladies of the Belleville Auxiliary. Those present from Kingston were: Mrs. W. J. Paul, Mrs. H. R. Duff, Mrs. D. A. Volume, Mrs. R. J. Black, Mrs. S.E. Revelle, Miss S. E. Newman and Miss M. Ross.

From Belleville: Mrs. A. Morrice, Mrs. G.A. Reid, Mrs. Moore, Mrs. H. Hill, Mrs. A. Hodkinson, Mrs. H. J. Sharpe, Mrs. McIntosh, Miss Templeton, Miss Helena Hill.

From Stirling: Miss Heme and Mrs. A.B. Fargey.

From Napanee: Mrs. E. J. Corkill.

From Tweed: Mrs. Meiklejohn.

From Madoc: Mrs. W.H. Jenkins.

The President Mrs. W.J. Paul, was in the chair.

A little snow, a little sleet,
Your head is where you had your
feet.—Chicago Tribune.

Salts Fine For Aching Kidneys

WHEN BACK HURTS FLUSH YOUR KIDNEYS AS YOU CLEAN YOUR BOWELS

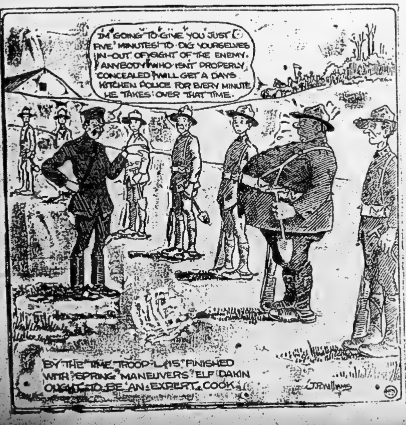
Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.

OUT OUR WAY



I'M GOING TO GIVE YOU JUST FIVE MINUTES TO DIG YOURSELVES IN—OUT OF SIGHT OF THE ENEMY. ANYBODY WHO ISN'T PROPERLY CONCEALED WILL GET A DAYS KITCHEN POLICE FOR EVERY MINUTE HE TAKES OVER THAT TIME.
BY THE TIME TROOP "L" 15 FINISHED WITH SPRING MANEUVERS ELF DAKIN OUGHT TO BE AN EXPERT COOK
J.R.Williams

It gets the edge dirt right out—

IS there anything harder to get clean than a dirty soft collar?

Yet the grimiest of soft collars are now washed white and clear of edge dirt without hard rubbing.

With this new soap, soaking takes the place of rubbing

Just by soaking in the rich Rinso suds, the most ground in dirt is gently loosened and dissolved, and not a thread is weakened. Even the dirt that gets absolutely ground in at cuff edges is so loosened that it comes out with only a light rubbing with dry Rinso.

Whatever your way of washing, Rinso does the whole job—with it you need no other soap.

Get Rinso today. All grocers and department stores have it.

Recent Oil Scandals Are Disgusting to the Voters

By LAWRENCE MARTIN

(Copyrighted 1924 by United Press)

Washington, Feb. 21 (United Press)—A third party movement this year, growing out of the Teapot Dome scandal, depends pretty largely on these developments:

What President Coolidge does about Denby.

2.—What the courts do about the naval leases and Fall.

In other words, the third party movement may depend on the vigor and success with which oil scandals are cleared up. In spite of all the indignation which has been voiced so freely, there is danger, some progressive fear, that the scandal will be closed up by making Fall the scapegoat, and letting others equally culpable escape. La Follette and others have openly voiced this apprehension.

Furthermore, there is tremendous pressure upon the administration from many sources to stop the whole business where it is—to refrain by any further disclosures from subjecting leading politicians and, most of all, the political system which obtains at Washington, to further public censure.

Strike at System.

Politicians are devout worshippers of things as they are. Both parties have built up a political system. Things like the Teapot Dome scandal do more than destroy men: they strike at the system. So that, underneath their indignation, the politicians are quaking for fear the scandal will weaken the foundations of the system, and thus undermine the present party lineup.

Will this affect the prosecution of the cases in court? It may. Witnesses may prove difficult; facts upon which action can be based may prove hard to get. How much of the wrongdoing in connection with oil scandals was moral and how much of it violated man-made law? Though the country condemns, the courts may prove less easily convinced. The minute the cases get into court, they are upon a different basis.

If the courts should refuse to revoke the leases, or if Fall should be tried on some charge and acquitted, it would be hard to float a third party on the basis of a scandal People might believe still there had been wrongdoing, but would not their indignation evaporate in the face of such a verdict the politicians ask.

If things should turn out that way, the country might applaud Mr. Coolidge for standing by Denby. Then the progressives would find themselves, as the Bull Moosers once did, a little group outside either party, and gradually would have to win their way back in.

Progressives Hesitate

In other words, the most astute progressives hesitate to throw away upon such a hazard, the gains they have steadily been registering in recent years. They feel their position in con- leaders all agree that they must keep creasing in power and importance and that eventually they will dominate. They want to avoid any step that would lose them the ground they have gained, and they understand how quick to change is the American public.

At the same time the progressive leaers all agree that they must keep themselves distinct in the public mind, from the "regular" or conservative members of the two parties whether they step out into a third party or not They cannot, they admit, sit still in the face of a thing like Teapot Dome, and do nothing to direct the public consciousness to new political methods.

If they do not cut loose and start a third party, what alternative have they? This will be discussed in the third article of this series.

LOS ANGELES LARGEST CITY IN THE WORLD

Los Angeles, Calif., (United Press)—That Los Angeles is the largest city in the world in the matter of area, spreading over 407.21 square miles, was revealed by reports compiled by the city auditor and city clerk. The next largest city in the world is Berlin, with an area of 356 square miles, while New York is third, with 290 square miles within the corporate limits of the city. When incorporated in 1850 the city of Los Angeles stretched over 28 square miles.

FANNING WITH FARRELL

MAYS SHOULD WIN FOR REDS,— FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 21 (United Press).—Change of scenery usually work to the benefit of the athlete who has fallen into a rut. It invariably improves an athlete who wants the scenery changed.

For these reasons it was agreed among baseball men here that the transfer from the N.Y. Yankees to the Cincinnati Reds would help Carl Mays the only submarine pitcher in captivity.

Mays has all the natural qualifications of a great pitcher. He is young, as baseball players are rated, he is game and he is the most willing toiler in baseball.

He didn't get along with the New York Yankees because he didn't like his surroundings and he couldn't get along with the manager of the club.

Figuring that he would be happier in Cincinnati that he can get along with the genial Pat Moran and that his underhand delivery ought to go good against National League batters who have never looked at it the wise baseball men figured he ought to be one of the best pitchers on that fine staff which the Reds have gathered.

For some reason John McGraw expresses the opinion that Mays will be a bust for Moran. Perhaps McGraw rates him on the temperament that he showed with the Yankees and figured that he would be with the Reds just what he was with the Yankees—a crabby hermit sulky and hard to get along with.

If Mays wants to pitch in Cincinnati if he gets a chance to do a lot of work and gets away good he ought to win a lot of games because he can pitch.

Gathering from what he said in an interview with Tommy Laird the able sport editor of the San Francisco News, Mays not only wants to pitch for Pat Moran, but he is "crazy" to get started.

Mays told Laird it was the most pleasant surprise of his life when he heard that he had been released from the Yanks to the Reds.

"I have been trying for two years to get away from Huggins," he said, "and I had just about given up hope. I broke into the majors under Bill Carrigan, and Pat Moran is just like him. I naturally desired to play with the Reds and you can imagine how pleased I was over the transfer."

Mays said that Huggins didn't deserve much credit because he plays favorites too much and he blamed the Yankee manager for making a bust out of Frank O'Doul, because he wouldn't give him a chance.

The former Yankee pitcher said the Reds had given him the best contract he ever had, and that he was going to work his head off to make good for Pat Moran.

• • •

Mays, who has established his home in Portland, also gave his opinion of Aorican League batters. He made the interesting observation that Harry Heilman was a much better hitter than Babe Ruth.

Ruth's greatest handicap, he said, is his over-anxiety to hit. He goes after all kinds of bad balls, while Heilman will not be pulled on anything he does not like.

Ruth can hit only certain pitchers. Some pitchers can never get him out and others like Urban Shocker, laugh at him, Mays said.

He classed Ruth as a sporadic hitter who is weak against left-handers while Heilman is a 400 hitter in every game against both kinds of pitching.

Mays said he would walk Heilman, a right handed batter, every time.

If the Reds get into the series against the Yankees next fall, Mays allows that he will pitch to the Babe and show that it is easy for a smart pitcher to make a sucker out of the Babe.

• • •

The recent Dundee-Moran fight was staged to decide the man best fitted to engage Benny Leonard in a championship bout this summer. The only thing it decided, or proved, is that both would be smart to stay away from the lightweight champion.

• • •

In directing the Washington ball club, Owner Clarke Griffith has some policies like a fight manager. He wants to be in a position to say: "We won the pennant," or in case of reverses to remark: "My manager didn't get the best out of the team."

• • •

Friends of Walter Reuther's, on the coast, after reading that the Dutch southpaw was playing golf with his boss, Charley Ebbets, in Florida, remarked to his father:

"At last, Walter is in good with Ebbets."

To which Reuther, Sr. answered: "Ach, you should say Mr. Ebbets iss in goot mit mine Valter."

• • •

With Reuther perfectly satisfied with the contract Ebbets gave him and apparently in complete accord with the boss, with whom he had disagreed so violently in the past it is not a guess that Reuther will win a lot of ball games for the Squire next season.

SOME OF THE FEATURES OF THE KIWANIS JOLLIES ARE ANNOUNCED

From a preliminary announcement made this morning as to the form the Kiwanis Jollies Revue will take there, it would seem certain that there is a rare treat in store for those who attend. It is now a certainty that Bob Gorman, Belleville's stage favorite in comedy will play an important part and his tickling feather, will team success, "Sweet Mama." He along with Russ Wotten as Jazz Johnston and his tickling patter, will team up in comedy parts and will be assisted by such wellknown comedy artists as George Lee and Ernie Dickens.

The singing and chorus numbers will be led by the best chorus in Belleville, namely the same as in the last Jollies Revue.

The musical numbers are being led by Harold Barrett, Jack McGie, Dr. Haffner, Miss Countryman, Miss Baker, Miss Blaind, and of course Bob Gorman.

Let's get behind Kiwanis in their worthy efforts for besides putting on a first class show, the proceeds are all to be used for charitable purposes.

Quebec Ready For Dog Race

Winter Sports Enthusiasts Crowding City Despite Blizzard

blizzard which has prevailed here for the last twelve hours, Quebec is filled with winter sports enthusiast from all over the continent. Every train has brought in large numbers and to-morrow will see the arrival of many more. Several parties are coming from American cities, including one hundred members of the Boston Chamber of Commerce and a large party from Detroit headed by Backus and Herbert Book, Jr. Tremendous interest is centring on the annual dog derby in which seventeen teams all start to-morrow

Despite the blizzard the carnival opened with considerable effect today. The Quebec Curling Club marked the occasion with a dinner at the Chateau Frontenac to-night and the Highland Pipers present for the occasion created something of an sensation among the American visitors.

The fancy dress torch light parade was necessarily postponed until Friday night when it will be a still more important event of the carnival. To-morrow night crowds will attend the hockey match between St. Patricks, of Ottawa, and the Sons of Ireland of Quebec The game will be for the Carnival Cup and is opinioned to prove a rare fight.

Belleville Junior Squad Smothers Circle Six In Lightning Game at Arena

Speed and Combination of Locals Prove Too Much For Visitors From Kingston—Stan Nurse Handles the Bell in Fine Style

The Belleville junior O.H.A. squad threw a real surprise into local hockey last night when they swarmed all over the crack Circle Six team from Kingston, and administered a 6-2 defeat. It had been expected that the fast team from Kingston would have an easy time in disposing of the local squad after driving through such fine junior teams as Brockville and Queens, but the local boys last night won purely on their merits and only the finest kind of goal tending saved the visitors from a score running into two figures.

Owing to the storm it was impossible for the referee to come from Toronto, and after a long distance call notifying Tackaberry of the situation it was decided to let Stan Nurse handle the bell. It may be said right here that there is no need of importing a referee to Belleville as long as Stan is here. He is absolutely impartial and his ability to follow plays, no matter where started, is seldom seen on local ice. It is to be hoped that he will handle the game in Kingston, and from expressions by the visitors, they would be pleased to have him do so.

The play was remarkably clean, few penalties being handed out, and the boys played hockey every minute on the ice. The Circle Six squad showed the effects of their constant playing during the past week, playing four games in five days, and were hardly the same team that defeated Queens. From flashes of form, however, they showed that when right they would be a mighty hard squad to keep down and little "Whitie" Kirby, though watched close by the locals, is as fast a junior as has been seen here in a long time.

Delehey, local sub and a new member of the team, certainly is a comer. He is fast, breaks on the instant and can rifle the puck like a bullet. His two goals last night were the result of some prety stickhandling and he went through the visiting team at ease.

Hibbard was the fastest skater on the ice last night and counted two goals, the only two scores in the second period. He had a hard man to watch in Patterson, but managed to break away for some pretty lone rushes.

Hunter scored the first goal on a 'Babe Dye' shot from centre ice, the puck going like a bullet past the goalie.

Wardaugh and Hibbard combined for a pretty goal at the beginning of the last period, Wardaugh going in close and taking the pass.

The two goals scored by Circle Six were earned, the first coming in the third period after Belleville had piled up a six goal lead, and the second a few minutes later.

The score by periods was:

First Period—Hunter.
Delehey.
Delehey.
Second Period—Hibbard
Hibbard
Third period—Wardaugh.
Kirby.
Lawless.

The lineups:

Kingston—Goal, Gray; Defense, Meltz and Lawless; Centre, Kirby; Wings, Hartley and Patterson; Subs., LaFlamme and Compeau.

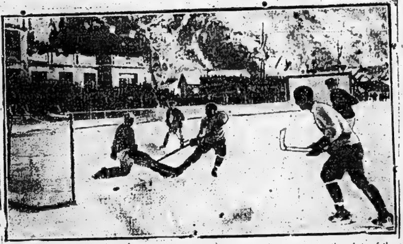
Belleville—Goal, Lloyd; Defense Strachan and Hunter, Centre Wardhaugh, Wings, Atchieson and Hibbard Subs, Delehey and Townsend.

Referee—Stan Nurse.

Hockey Fans

Hockey fans who wish to accompany the local junior O.H.A. squad to Kingston tomorrow night are advised this afternoon by Manager Ed Thomas that the players are going down on the 3.03 C.N.R. train, and the club rate, return fare is $2.60.

The game tommorow night at Jock Harty arena, Limestone City, Ont., is the second of the home and homers in the Provincial race. The locals take a nice four goal lead to the military city to use against the Circle Six onslaught, when the homesters will try and do the comeback.



SIGNIFICANT INCIDENT AT CHAMONIX. The photo reproduced above is the first action photo of the game between the U. S. and Canada to arrive in Canada. It shows "Hooley" Smith scoring a goal on a pass from Harry Watson—the puck has passed Lacroix, the U.S. goal tender and is on its way into the cage. Lacroix is on his knee. The U. S., it will be remembered, demanded the elimination of the rule which allows goal keepers to go to their knees, and get it.

ON THE ALLEYS

Obtaining a lead in each of the three games they played with the Originals, the Amateurs were 266 points up at the end of the setto. Miss Connell lead the Originals in scoring while Mrs. Howard of the Amateurs rolled the high three string and Miss Horton, of the Originals, high single.

[illegible]			1538

In a very close and exciting game at the Recreation alleys last night the Ramblers lost to the Lucky Strikes by 15 pins. It was a close game all the way through the girls from the Bell taking the first and second games by a few pins and loosing the third. Miss H. Blaind was high bowler for the evening. In a junior league game the National astings won there second game when they defeated the Durant Motors by 130 pins. Joe Henn rolling the highest three strings. Players and scores.

Telephone Boys Buy Supper

The Bell Telephone girl's team plus one male bowler defeated a man's team from the same office to the eats. It was a great game for the girls to win as there was no handicap given them and playing against two senior bowlers like Shappee and Nafin, but alas the rest of the team couldn't seem to find the four pin and the total score read girls 2642, men 2390. Miss Helen Nafin rolled a nice three string score of 537.

GIRLS

OF INTEREST TO WOMEN

SOCIAL and PERSONAL

Mrs. Latton, of Latta, is visiting her sister, Mrs. H. E. Elvidge, of this city, who is seriously ill.

Miss Margaret Wilson of Marlbank, Hungerford Township, was on Tuesday taken to Hotel Dieu at Kingston and operated upon for appendicitis.

Scarlet Fever—Some day public opinion will back up the medical health department to insist that all milk sold for human consumption be Pasteurized.

CITIZENS DAIRY LTD.

BUT WHAT DOES HER COLOR MATTER?

Bag Lost—Black Lady's canteen bag. Illinois Theatre. Liberal reward. —Noted in Chicago Tribune.

Are You the Woman You Were Meant to be

Every woman was meant to be healthy, happy, and fill her sphere in life to the best of her ability; but, alas, alas, how few have the health or physical endurance to live up to their ideals! Over-ambitious, many of them develop nervousness, irritability, headaches, backaches, irregularities, and often more serious ailments which retard their progress in life. Women in this condition should turn to Lydia E. Pinkham's Vegetable Compound, a root and herb medicine which has been proven to benefit 98 out of every 100 women who try it. Let Lydia E. Pinkham's Vegetable Compound make you well and strong and the woman you were meant to be.

Economy Hints on How to Add to Life of Clothing

By "THE STROLLER"

(Written for The United Press)

New York, Feb. 21—You've probably noticed how the "missus," when you positively refuse to authorise expenditure of domestic funds for a new dress or a new suit, resigns herself with a sigh to having her last year's model dry cleaned or dyed. As a general rule, men wear a suit until it is so shabby and worn that nothing remains of it except interment in the bag that goes to the old folks' home.

But sometimes (possibly most of the time) suits or topcoats are discarded when there is still a good bit of wear remaining in them. Take for instance, that light suit which you bought last spring and wore pretty steadily throughout the summer and fall. It's a little spotted. Dry cleaning will eliminate that difficulty. Well, you don't like the color of it anyhow In that case, take it around to the dyers and see what he will dye it for.

A suit that is dry cleaned and dyed looks like new and is well worth the expense that it takes to put it into condition. of Course, you can't take a worn out suit and revivify it, but if it looks as though it might stand a few months' further wear were it spruced up a bit, consult your tailor or dyer.

A little neighborhood tailor told "The Stroller" that there wasn't a thing in senseless to discard a suit just because couldn't be fixed. Of course, when confronted with the question, "Can you take shine off serge?", he said to confess to being nonplussed, but as a general rule the crafty tailoring craft remedy almost all ills of clothing. It's rather senseless to discard a suit just because there is a tear in the trouser leg. That's a little job that the subtlties of the sartorial art can fix up in a way that can't be discerned by the naked eyes.

A good dry cleaning will add to the life of a suit or topcoat. Even the suits you wear frequently, even though they don't look as if they might need it, will improve considerably and live longer if the dry cleaner is patronized. It's a good investment.

* * *

While on the subject of making clothes live longer, it might be opportune to speak of properly caring for the trousers of your extra suits The majority of coat hangers nowadays have a rod whereon to place the trousers. In most cases, this is a good procedure, but in certain materials, folding the trousers over the rod will make a crease. To avoid this, the best thing to do is to purchase some trouser hangers at the nearest "5-and-10". These hangers are equipped with wooden clips which are fastened to the bottoms of the trousers and they are hung upside down. The weight of the trousers is thus at the bottom and the crease is preserved. In worn for three or more Sundays without pressing with the aid of the trouser hangers.

Also don't forget that the man who prides himself on the looks of his clothes always brushes his duds carefully before hanging them up in the clothes press.

DIFFICULT TO COMPREHEND

Father was trying to explain "Standard Time" to little Harry, but Harry was not sure that he understood.

"After all, it is no great matter," said father. "You are now only in the fourth grade. When you have gone to school longer you will learn all about it."

"Maybe so," said Harry with a reassuring smile. "The teacher says that even lots of eighth-grade boys and don't understand longitude and gratitude."

The movies strain some people's eyes

Apparently these folks have not heard of the special lenses we supply for eyes that are sensitive to light and the movies. These lenses remove all annoyance from these causes. So there is no reason why you should be bothered in this way if you ARE bothered. Ready to talk to you any time about it.

TIME FOR CONFERENCE

"In a family," said Uncle Eben, "where de old folks things young folk is too far ahead of de times an' where de young folks thinks de old folks is too fur behind de times, it looks to me like dar ought to be some kind of a conference with a view to compromise."

Oh, mammy FRY'S does taste so good when you're hungry!

Mothers! Just try this—let the children have a cup of delicious, warming and invigorating FRY'S Cocoa when they come home from school. It is such a "hungry time," and such a long wait from dinner to supper, whereas a cup of FRY'S is easily made and every drop is nourishment of the finest kind.

If your child is nervous, pale and not strong, you will find a regular afternoon cup of FRY'S a wonderful tonic food because it contains every element a child needs for growing. Of course, everyone likes FRY'S, its flavor is so delightful, and really, it is one of the most economical foods you can buy. Of course, remember

"Nothing will do but FRY'S"

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

Esther laughed and glanced at the gentleman. He was a young man, and good looking, distinguished looking rather than handsome, with a smile that was almost too sweet for a man, but which was counterbalanced, counteracted by a peculiar twist of the upper lip.

"Is it Mr. Layton?" she asked in a low voice.

"Yes—yes!" murmured Miss Worcester, agitatedly. "What will he think, Esther?"

"That we're late for dinner, I should say."

"He—he doesn't look as if he were ill-tempered about it—he's smiling so," said poor Miss Forcester.

"Y-es," asserted Esther, in a low voice; "I wish he wouldn't."

Meanwhile the man with the smile was saying to himself, as he came to meet them:

"So she's pretty, is she? That makes it more difficult!"

Mr. Layton stood, hat in hand, waiting with a smile for the introduction.

"This is Mr. Selby Layton, Esther," said Miss Worcester, nervously.

Mr. Layton bowed, but Esther held out her hand.

"We are very glad to see you, Mr. Layton," she said, "and you must be very glad to see us. I'm afraid you thought you were not going to get any dinner to-day. I am sorry we are so late; but we have had a chapter—a whole volume—of accidents—"

"Please don't apologise," he said in a peculiarly soft voice which had something caressing in it. "I only arrived a short time ago, and I was afraid that it was I who would be late."
lief.

Miss Worcester drew a breath of relief.

"So nice of you to say so," she murmured; "and we will not keep you a moment longer than we can help—will we, Esther?"

"I do hope you will not hurry," he responded, with almost unnecessary earnestness. "The short time I have waited has been so pleasantly passed looking at the glorious view from the terrace, and admiring the front of this grand old place."

Now, he could not have hit upon a shorter cut to Esther's favour, for she was already proud of the Towers, and praise of it was sweet in her shell-like ears. So she smiled at him for the first time, and Selby Layton felt that he had said the right thing.

"We will be very quick," said Esther. "Will you go into the drawing-room, or would you rather wait here?"

They had reached the terrace by this time.

"Oh, here, please, if I may," he said, softly.

Esther ran up the stairs followed more slowly and sedately by Miss Worcester, and Selby Layton looked after her before he turned back to the terrace.

As he did so the smile faded from his face, his well-cut lips drew together thoughtfully, and his eyes grew sharp.

"She's more than pretty: she's beautiful—will be very much so. A charming girl; but no fool, my dear Selby. There's a look in those grey eyes which—I—don't—altogether like. I shall have to go slow and cautiously—very cautiously. What a place it is!" He looked round him slowly with a new expression in his eyes: the expression against which the commandment, 'Thou shalt not covet,' is especially applicable. "And all in the hands of a girl—a girl who was only a few weeks ago giving music-lessons to tradesmen's daughters! The old man's will was worse than wicked: it was absurd. What could I not have done with this? Well, who knows? It's not too late!"

He stroked his fair and carefully cultivated moustache with a hand as white and slim and as small as a woman's, and lighting a cigarette, leant his elbows on the rail and smoked thoughtfully.

In her eagerness for her seeming neglect of him, Miss Worcester was dressed first, and she went to Esther's door and knocked. Esther knew the nervous, timid knock, and said:

"Come in!"

The maid had gone down for a flower for Esther.

"Ready already, aunt?" she said. "Sorry to keep you waiting; and it's my fault, not Marie's. You see, I'm not used to a maid, and, Marie says, I don't 'keep quiet.' If I'd stand like a wooden image or a dress-block she would get me dressed ever so much sooner. Poor Marie, I'm afraid I try her dreadfully."

"Yes, my dear, I daresay you do," said Miss Worcester. "What—what do you think of Mr Layton, Esther?"

"I'm afraid I haven't thought much about him, aunt," responded Esther. "He seems very gentlemanly—how I hate the word! It's nearly as bad as 'respectable,' and if he wouldn't smile quite so much and hadn't quite so soft a voice—"

"My dear Esther! I am sure he has an exceedingly pleasant smile, not to say sweet, and his voice is very—refined—"

"'Our double refined oil,'" murmured Esther, quoting from the grocer's advertisement.

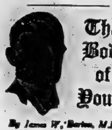
—"And he has been exceedingly kind. He is the only one of the family who has taken the least notice of us! All the rest have been most unfriendly."

"Not unnaturally," remarked Esther. Esther.

Indeed it was not unnatural that the Vancourts should be "unfriendly" to the young girl who had "stepped into" the vast estates and fortune of Sir Richard. It was not a large family, and all the members were only remote relations. But they had flocked to the funeral in the hope of receiving some crumbs from the dead rich man's table, and had gone away bitterly disappointed. That Sir Richard should leave everything to his nephew, Sir John, was bad enough, but that, this nephew having died out in Australia, the whole should go to a girl as distantly connected as the others, was infinitely worse. Some of them had maintained a sullen silence, others had threatened to upset the will—much to Messrs. Floss & Floss's amusement—but only one had extended the hand of friendship to the heiress

This one was Mr. Selby Layton. He was a "thirty-second cousin," or something of the sort, to Sir Richard, and had come down to the funeral with so little expectation of deriving any benefit from the will that he was not in the least disappointed. But, whereas the rest had departed shaking the dust of the Towers from their feet, he had gone away cheerfully if thoughtfully, and had written a letter of congratulation to Esther, and had even called at the little house in the dreary, dingy street in which Esther and Miss Worcester lived.

(To be Continued)



That Body of Yours

By James W. Barton, M.D.

CHRONIC APPENDICITIS

A patient tried to persuade himself that he had a cancer or ulcer of the intestine.

He outlined all his symptoms to his physician who pointed out that he hadn't an ulcer because there was no pain at any definite regular time after eating. He could not have cancer because he had pain only at times he was not losing any weight nor vomiting, and his color was normal.

He was so persistent that to satisfy him the physician had him undergo an X-ray meal.

Nothing abnormal showed that would indicate an ulcer or a cancer but when the meal got into the region of the appendix there seemed to be considerable delay, almost a stoppage for awhile.

A diagnosis of chronic appendicitis was made, and at the operation the appendix was apparently lost.

The operator was an unusually clever surgeon, a professor of surgery in fact. He said, "I'll find it all right but it has certainly been walled off from all the other organs."

You see there is a natural covering or fold over the organs called the peritoneum, and a loose portion of this simply spread itself over and around the inflamed appendix to prevent the inflammation from spreading. This caused a little kinking of the intestine which slowed up the passage of food, and likely caused some of the pain complained of. The point about this is that you might have an inflamed appendix, causing severe pain.

If the appendix were not walled off in this manner, the inflammation products would escape and inflame the surrounding tissues, causing serious complications, even death.

This chap must have had repeated attacks of a mild form of infection in his appendix, and Nature had kept walling it off for him.

Had the operation not been performed, a severe attack, or his own lowered resistance might have meant an emergency operation, with only a fair chance of recovery.

Now although most pains in the region of the appendix are due to gas, which you can distinguish by its moving to other parts of the body, nevertheless an X-ray meal under your doctor's orders, will clear up the matter if you are in doubt.

Menu For The Day

BREAKFAST

Orange Juice Fish Cakes Catsup
Johnny Cake Honey Coffee

LUNCHEON

Pigs in Blankets Potato Salad
Hot Gingerbread Orange Sauce Tea

DINNER

Cream of Celery Soup Fried Croutons
Baked Halibut Tomato Sauce
Parsley Potatoes, Scalloped Cabbage
Beet Salad
Lemon Tarts Coffee

Johnny Cake—¾ cup cornmeal, 1 cup flour, ¼ cup sugar, ½ tspn salt, ⅔ level tspn soda, 2 level tspn baking powder, 1 egg, 1 cup sour milk, 2 or 3 tbspns melted shortening.

Mix and sift dry ingredients, add egg well beaten, milk and last of all the melted fat. Beat. Bake in shallow pan in fairly hot oven.

Pigs in Blankets—Take as many large oysters as are wished, wash and dry thoroughly. Have breakfast bacon cut in thin slices, cover each oyster with a slice and pin around with wooden toothpicks. Broil or roast until bacon is crisp and brown. Serve hot.

Wash, pare and cut potatoes in ½ in. cubes or shape in balls with a vegetable cutter made for this purpose. Let stand in cold water 1 hr., place in steamer cover closely and steam till soft. Remove to hot serving dish, pour over ½ cup melted butter, sprinkle with salt and finely chopped parsley.

Lemon Tarts—Invert patty pans and cover outside with good paste; prick with fork over top and sides. Bake in hot oven. Remove from pans and fill with following mixture:

Dilute 2½ tbspns cornstarch with ⅓ cup cold water, stir into 1 cup boiling water; cook 3 minutes stirring constantly, then cook over hot water 15 minutes. Add 1 tspn butter and 2-3 cup sugar. Remove from stove, add juice and grated rind of 1 large lemon and the yolks of 3 eggs well beaten.

Turn into baked patty crusts, spread with a meringue and return to slow oven to cook and brown meringue.

SURPRISE SOAP
A PURE HARD
SURPRISE SOAP

Good Color

To have Clothes perfectly cleansed and good color, the Soap must remove all the visible and invisible impurities. SURPRISE will do this thoroughly. It is durable and pleasant to use.

DISCUSSION ON PROV. HIGHWAYS

Word was received in this city yesterday that the Premier and Minister of Public Works of the Province of Ontario have fixed 11 a.m. on Friday February 29th, as the time for receiving the delegates from the counties of the province and discuss the matter of the Government taking maintenance of the Provincial Highways throughout Ontario.

On the day previous to the conference with the Ministers the delegates representing a majority of the counties in Ontario, are to gather for a preliminary discussion as to the form their request will take, and for the selection of speakers from their number in the King Edward Hotel, Toronto, at 10 a.m.

Compare College Girls With Racing Horses

San Diego, Feb. 21. (United Press)—"My Gentleman's Handicap," appearing in the Campus Weekly of the State College, has caused the faculty to establish a censorship board which will oversee future issues of the weekly before they gain circulation.

The article classified 33 well-known college girls according to how they acted "on dates", after the style of newspaper racehorse stories.

The girls were classified by such paragraphs: "Runs well in fast company," "has changed hands too often," "worth a long shot when all else fails," "shows flashes of form" and "breaks slowly, but has good form."

MORTGAGE SALE

Under and by virtue of the powers of sale contained in a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction, on Saturday, the 22nd day of March, A. D. 1924, at the hour of 2 o'clock in the afternoon, at the premises, the following property, namely, ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Township of Ameliasburg, in the County of Prince Edward, and Province of Ontario, and being composed of all the East Half of Lot Number 86, in the First Concession of said Township, lying North of the Travelled Road, which runs along the shore of the Bay of Quinte, containing by admeasurement about 38 acres of land excepting and reserving thereout two parcels of land, containing one-quarter of an acre and three-quarters of an acre respectively heretofore sold and conveyed.

The said land is a fine fruit farm, situated on the shore of the Bay of Quinte, with bearing apple orchard of about 600 trees, and good soil. There is a school house on the adjoining lot, the property being situated on the Main Travelled Road along the Bay Shore, and lies between such road and the Bay, and only a short distance from Rednersville and Fruit Evaporator, Blacksmith's Shop, etc. Rural Mail Daily Delivery. Church and Cheese Factory convenient to the said premises, and a barn thereon.

TERMS OF SALE

The property will be offered for sale subject to a reserve bid. 10 per cent of the purchase money to be paid down at the time of the sale and the balance within thirty days thereafter, unless some other arrangements are made to let part of the purchase money remain on mortgage.

For further particulars and conditions of sale, apply to Porter, Butler and Payne 219 Front Street, Belleville, solicitors for the Mortgagee.

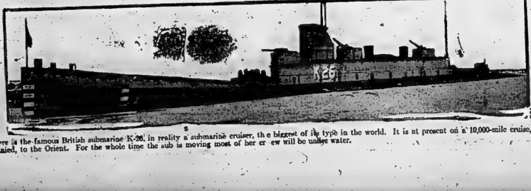
Biggest Submarine Now On Longest Peace Trip



Here is the famous British submarine K-26, in reality a submarine cruiser, the biggest of its type in the world. It is at present on a 10,000-mile cruise, unaccompanied, to the Orient. For the whole time the sub is moving most of her crew will be under water.

England Forming "Farm Bloc"

By MILTON BRONNER
NEA Service Writer

London, Feb. 21.—Spurred on by the presence of a Farm Bloc in our Congress and by the election successes of a Farmer's Party in some of our great wheat states, agricultural leaders of Great Britain are preparing to launch a real live Rural Party. It will have its own candidates for Parliament and they will act together, just as other political parties. Sir Herbert Matthews, for twenty years secretary of the Central Chamber of Agriculture, is one of the founders of the new party.

"Nearly every civilized country in the world has a political party that looks after the farmers' interests," says Sir Herbert. "So it is time Great Britain got in line.

"Out of 600-odd constituencies for the House of Commons, there are some 70 that are wholly rural and nearly 100 more in which agriculture predominates. We have, therefore, the chance, when we are well organized, to capture a big block of votes in the House of Commons and thus secure a strategic position of great value.

"Our objectives will in the main be:

"First—Maximum economic production from the land and maximum employment on it.

"Second—A living wage and better conditions of life for the rural worker.

"Third—The organization of agriculture and its allied industries.

"Fourth—Laws which will make agriculture flourish and thereby bring prosperity to the rural communities.

"Our program would envisage a control of imports, a law enforcing a minimum wage for farm workers, and the gradual development of small holdings by means of real credit facilities. This would mean the creation of land purchase banks enabling occupiers to purchase their holdings.

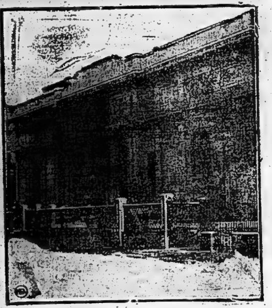
"So the two things for which we would fight at once would be:

"First—Rigid control of importations of outside farm products

"Second — Immediate creation of credit facilities."

SIR HERBERT MATTHEWS, RURAL PARTY ORGANIZER, AND THE PARTY FLAG.

Gives Greatest Private Library



J. P. Morgan, the banker, has given to the public his great private library, with an estimated worth of several millions of dollars. It contains about 25,000 volumes and paintings. Morgan gave it as a memorial to the memory of his father. It is located on Madison avenue and 36th street, New York City.

Additional Sports

PETES CINCH THE MARKHAM ROUND

Peterboro, Feb. 21.—The Peterboro intermediates eliminated Markham from the O.H.A. race last night by beating Pete Reesor's team by 8 to 1 thus winning theround by 13 to 2. The Petes were in front 2 to 0 at the end of the first period and 4 to 0 at the close of the second, and were much the better team at all stages, their speed and combination being too much for the visitors.

Parker was very much in the limelight for the winners, getting three goals on clever plays, while all the rest of the home squad turned in fine performances. Cowie and Reesor were the best for Markham, with Moore in the nets, playing a phenomenal game. Referee—H. H. Jacobi, Toronto

Senators Snowbound Play Game To-night

Montreal, Feb. 21.—Canadiens and Ottawa did not play their important National Hockey League game at the Mount Royal Arena here last night. The Ottawa team failed to put in an appearance, being snowbound aboard the Canadian National Railways train which left Ottawa at noon. The game will be played this evening, the Eastern Canada Amateur Hockey League fixture between Nationals and Three Rivers having been indefinitely postponed to give the pros use of the ice.

BATTLE ON ICE AT BOWMANVILLE

Referee Cumming is Assaulted by Spectators at Play-off Game

Bowmanville, Ont., Feb. 21—With six minutes to play and the score 5 to 1 in favor of Bowmanville, which tied the round with Peterboro in a junior O.H.A. fixture here last night the game was called off by Referee Cumming, interference on the part of certain spectators, who, it is reported came here from another town with a view to getting Cumming, is given as the cause of the trouble. In a setto which took place on the ice by these out-of-town rowdies, Cumming received a severe jolt in the back and required medical attention. It was found upon examination that Cumming was unable to continue the game so called it off.

Considerable dissatisfaction was expressed from certain quarters on Cumming's handling of the game and this became more pronounced as Bowmanville was piling up the score and eventually tied up the round. Bowmanville was given numerous penalties for minor offences, while Peterboro goalie was the only visitor sent to the penalty box for slashing at Luxon when the former held the puck at the side of his nets. The local management or players had made no complaint to the referee regarding his handling of the game but all the trouble appeared to be coming from spectators. Police were called on three occasions to clear the ice of spectators.

Bowmanville expressed the desire to finish the game using two official O.H.A. referees who were present but Peterboro refused to return to the ice so the matter now rests with Referee Cummings and the O.H.A. executive. Peterboro scored its only goal near the end of the first period when two Bowmanville men were off the ice. Chartran evened the score in less than a minute. Chartran got two more goals in the second period, assisted by Hooper. In the final period Chartran was again responsible for two goals on passes from Luxton and Corden.

Hams and Irish Stage Fist Fight

Hamilton, Ont., Feb. 21.—St. Patrick's hopes of getting into second place in the N.H.L. race for the right to meet Ottawa for group honors were slightly blighted here last night, when the lowly Hams handed them a 3 to 1 lacing, and at that the score was no indication of the play. Hamilton had by far the better of the play and only the wonderful work of John Ross Roach saved them from a terrible lacing. It was one of the finest games played here this season, but was marred by a fist fight between Noble and Randall, which later developed into a free-for-all, and the police had to step on the ice to stop action. With only three minutes of playing time left Noble went on a lone rush and was stopped by Randall He dropped his stick and piled into the Hamilton player, knocking him to the ice. Not content with this he began kicking at Ken when he was down, and only prompt action on the part of Forbes prevented serious trouble. The diminutive net tender jumped on Noble's back and he went down with a crash. Other players rushed to the scene, and in attempting to stop the fight they all fell in a heap. Even after being separated the first time the players went after each other again, and it was then that the police stepped in. Both were ruled off for the remainder of the game, but no arrests were made.

DETROIT CURLERS VISIT CITY

A number of the members of the Detroit Curling Club, the only Curling Club in the State of Michigan are making a tour of a portion of Ontario playing friendly games. This afternoon four rinks were competing against a similar number of rinks representing the Belleville Curling Club. Many interested spectators were at the rink on George street to witness the game. The composition of the rinks was as follows:

Belleville—W.E. Clarke, W. Symons, T.J. Hurley, R.J. Wray, skip.
Detroit—R. Crozier, F.B. Liberty, J. LaRue, H. B. West, skip.
Belleville—B.L. Hyman, J.A. Kerr, T.E. Ketcheson, W.N. Belair, skip.
Detroit—E. Huff, R. Dodds, F.W. Kerr, J.M. Kerr, skip.
Belleville—W.E. Gartley, Capt. Battun, M.J. Clarke, J.W. Davison, skip.
Detroit—Dr. Humber, J. Turnbull, Dr. Tibbals, A. Ward, skip.
Belleville—A. Symons, C.J. White, J. G. Galloway, R.A. Backus, skip.
Detroit—A.J. McCormick, J. Turnbull, A. Slater, R.M. Watson, skip.

COULD NOT EXERT HIMSELF

Toronto Man In Bad Physical Shape Till Dreco Cleansed His System And Put Him On Highroad To Health.

Mr. S. Harrison, of 117 Goody Ave., Toronto, has nothing but praise for Dreco and its remarkable help to him in time of trouble. This great remedy has worked wonders for this man and he tells you about it in the following statement:

"For years I suffered from stomach and liver trouble. After meals, gas would form in my stomach like a lump of lead. It seemed to affect my heart as well, as I would simply gasp for breath when walking fast or at the least exertion of any kind. Spots floated before my eyes and I would get terrible dizzy spells when bending over.

The results I have obtained with Dreco are wonderful. My bowels are regular. I am able to eat and enjoy almost anything and am so much stronger in every way that I do not mind work in the least. My biggest surprise, however, was the way in which Dreco cleared my face of pimples, which had been a source of much embarrassment to me."

Dreco is a splendid blood purifier and system cleanser. Its herb, root, bark and leaf juices tone and regulate the stomach, kidneys, liver and bowels and speedily put the whole system in prime working order. Dreco the safe, reliable remedy, contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy and is sold by a good druggist everywhere.

"Love-ly cake, dolly! Eat this and grow bigger"

Any child that will give away a piece of our delicious cake is almost sure to develop into a philanthropist. It's so toothsome, so good to eat!

Mothers, too, like our pastry, pies, and bread. They know that they are not only tempting to the appetite but perfectly safe to put into even delicate, fussy little "tummies."

They know that we use only the purest ingredients money can buy, with digestible, vegetable Crisco for shortening. They know that money spent with us brings full value and means safe, delicious food for the whole family.

Won't you drop into our shop and learn this, too?

PRINCESS LOUISE RICHEST ROYALTY

London, Feb. 21 (United Press).—The Princess Royal, sister of King George, celebrated her 57th birthday today. The title of Princess Royal of eldest daughter of the reinging sovereign and is held for life. Hence Princess Mary, King George's daughter, will have to wait for her aunt's death before she can get the title. Princess Louise, the present Princess Royal, made a love match with the late Duke of Fife, and never took a prominent part in court life. Of an exceedingly retiring nature, she was known as "Her Royal Shyness." The Fife estates are vast and of great value, so that the princess and her daughters are probably the wealthiest British royalties living.

Sympathy is wasted on the unknown man who lets a famous woman marry him.

MINE STRIKE IS LOOMING IN BRITAIN

ATTACK ON REPORTER BY QUEENS' STUDENTS RESULTS IN CHARGES

Kingston Writer mauled and Assaulted by Group of Students—Resented Comment on Dance Halls—Attorney-General Nickle Issues Orders for Prosecution of those Who Attacked Representative of British Whig

CRITICIZED DANCES

Alleged Loose Manner In Which Places of Amusement conducted Scored in Press—Given Mock Trial and locked in Sweat room For Two Hours After Being Kidnapped

Kingston, Ont., Feb. 22. (United Press).—Attorney-General Nickle has issued orders for the prosecution of Queens' students who assaulted F. B. Pense, a local reporter who criticized a students' dance.

Kingston, Feb. 22.—This city has been upset by what looks like drastic action on the part of the Hon. W. F. Nickle, Attorney-General, and the Crown Attorney, T. J. Rigney, over the assault of Fred Pense, the energetic representative of the British Whig, a few nights ago by a band of students from Queen's University.

The dance halls have been running in what Mr. Pense regarded as a rather loose manner and the system was criticized, with the necessity of some municipal control being suggested. Kingston has no municipal ordinance to regulate these dance halls, and in the opinion of Mr. Pense it was time there was. As the University of Queen's has given dances at which the fox trot and other of the latest steps occupied most of the programme, the students took exception to the criticism which was aimed at public dance halls and not at Queen's, which may be regarded as private.

Borrowed a Taxi.

However, the students borrowed a taxicab from a local driver and on Tuesday night last, went up in a body to Pense's home on Albert street, and waylaid him. When he came out to go to a corner store, he was grabbed mauled, thrown into the automobile and driven to Queen's, where he was given a mock trial and locked up for a couple of hours in a sweat box before being released and subjected to indignities that impelled Mr. Pense to take the matter up with the authorities.

Chief of Police Robinson stated today that he did not know what action might be taken. If any, he was inclined to the opinion that it would be drastic.

Reported to Atty.-General

The matter has been reported to Attorney-General Nickle, who is on the board of governors of Queen's, and resents the action of the unruly students.

The police in recent years have had their hands full at times, owing to the small force of police and the large number of students. On one occasion a couple of years ago, the students went on the rampage, and after requisitioning a number of cases of eggs from a local store-house, bombarded the police with the "hen fruit."

To Be Summoned

Principal R. Bruce Taylor, of Queen's University, is out of the city. Other officials state that Attorney-General Nickle, who is chairman of the Board of Governors, had instructed that prosecution be made, and it is the intention to serve those offenders with summonses as soon as possible, probably today. There are a number of students to come before the beak and explain why Pense was assaulted and his clothes torn off. They are said to represent alone some of the most prominent families, known socially by a wide circle.

Montreal, Feb. 22.—Exports of pulpwood from Canada for the year 1923 amounted to 1,384,230 cords.

COURT ACTIONS STARTED OVER RIGHTS TO TUT

Legal Fights Start Over Mummy and Treasures of Tut-Ankh-Amen

LICENSE REVOKED

Carter Sues to Bar Egypt from Tomb of Ancient Pharoah

Luxor, Feb. 22—(United Press).—The Egyptian director of antiquities took steps today preliminary to reopening the tomb of Tut-Ankh-Amen and safeguarding the contents thereof.

Following cancellation of the license under which Howard Carter had been excavating, Egytian authorities moved immediately to deal themselves with the tomb and mummy of their former ruler.

The license now cancelled was granted Lord Carnarvon in April 1915 when he took up the work of excavating in the Valley of the Kings. Came the discovery of the burial place of Tut-Ankh-Amen, unearthed in 1922, followed by the death of Carnarvon. The license was transferred to his widow, who since married a British officer, Colonel Dennistoun.

Carter has been carrying on, amid frequent altercations with the Egyptian Government, principally over the matter of press reports of progress, which the explorer wished to reserve to a syndicate with which he has a contract. The Government insisted upon equal rights for all press organizations and when Carter proved adamant upon this point and in the matter of visitors to the tomb, which he came to treat as his private property, the Ministry of Public Works took away his license.

Dogged By Bad Luck

London, Feb. 22.—The Countess of Carnarvon, interviewed by the Daily Express with regard to annulment of the license for excavation of Tut-Ank-Amen's tomb, re-granted her after her husband's death, expressed complete astonishment at the action of the Egyptian Government.

"Such a step is quite impossible," she said. "The license cannot be revoked after my signature is attached. Moreover no Government would be so discourteous as to take such action without first informing me of their intention. I have received no intimation that such course was intended."

There is little disposition in the press here to comment on the situation, but the representative of the Daily Express who attended the opening of the tomb in 1923 writes:

"The discovery of the tomb has been dogged by bad luck and bad temper—Howard Carter stands before the archaeological world, as a partly wronged, partly foolish figure. He has done all the hard work and done it well, but the Government of Egypt handed him a rope and persuaded him to hang himself. The writer assumes that the Egyptian Government does not intend that "one fragment" of the treasures from the tomb shall come to Britain.

Cairo, Feb. 22.—The mummy of King Tut-Ankh-Amen and the treasures of his tomb became the subject of two law suits Wednesday when lawyers of Howard Carter filed suits here against the Egyptian Government.

Application was made to the courts for a writ restraining the Government from entering the tomb. The case will be heard Saturday.

A second suit was later entered, asking the court for an order requiring the Government to hand the tomb over to Carter and to share the treasures equally with him. The hearings on this case will begin March 4.

FRENCH DOCTORS HAVE NEW DRUG WHICH STOPS PAINS AT CHILDBIRTH

Paris, Feb. 22 (United Press).—Three hours of anaethesia, two hours of sleep, the miracles of child-birth painlessly accomplished—such is the promise for mothers of the future held out today by two French physicians, Dr. Perlis and Dr. Ciiros.

Successful experiments with the newly discovered anaesthetic known as "di-ethyl-di-allyl-barbiturate of di-ethylamine," were conducted in 17 instances.

The doctors, after injecting the anaesthetic into the veins of the mother, observed complete disappearance of pain and instantaneous sleep. The period of accouchment was not prolonged, but hastened rather.

Anaesthesia lasted three hours, followed by two hours' sleep. Only slight pain was experienced upon the mother's awakening. As for the child, it goes to sleep immediately for several hours. The mother is not nauseated, nor does she suffer headaches, as when chloroform is administered.

CHINA JOINS IN RUSH TO SHAKE HAND OF SOVIET

Recognition to be given Provided Chinese given voice in Rail Government

BUSINESS TERMS

Federation of British Industries Outlines Views for Government

Peking, Feb. 22 (British United Press).—Recognition of Russia by China is imminent according to reports current in diplomatic circles. M. Karahau, Soviet plenipotentiary, conversed informally with Foreign Minister C. T. Wang, Thursday and another meeting will be held Friday. It is said that Russia is willing to evacuate Mongolia unconditionally and that China will grant DeJure recognition to the Soviet regime provided Peking is given a substantial voice in affairs of the Chinese Eastern railways. With these agreements made in advance it is said that other questions would be discussed after recognition had been granted.

London, Feb. 22.—Big business, through the Federation of British Industries, has written Premier MacDonald the terms it considers possible for large scale resumption of trade with Russia it was learned yesterday.

This is taken in view of the coming Anglo-Russian conference regarding treaties, debts, credits and propaganda. The Federation asks that it be represented on the British delegation to this conference.

The letter outlines these six conditions which industry considers essential:

First, Russia must recognize fully and without qualification her liability to discharge in full all public and private debts.

Second, Suitable provision for payment of the interest and arrears of interest must be made.

Third, a satisfactory arrangement for eventual repayment of the principal of these debts must be reached although it is admitted it may be necessary to grant Russia a moratorium.

Fourth, Russia must recognize her liability to pay full compensation to British subjects who suffered injury to person or property because of the revolution.

Fifth, the Soviets must accept suitable arrangements for assessing the amount of this compensation and guaranteeing prompt payment.

Sixth, Russia must agree to establish a clearing house system for dealing with the debts.

FACES O.T.A. CHARGE REMANDED ONE WEEK

Arrested at midnight on Pinnacle street near Bridge street by Sergt. of Police D. T. Boyd and Chief Constable A. Kidd, Thomas Ramsay appeared before Magistrate Masson this morning, charged with being intoxicated and also with having liquor in a public place.

Accused was remanded for one week, bail being set at $2,000. E. D. O'Flynn, counsel for accused is arranging bail today.

THUGS' VICTIM ASKED TO PASS ON 2 MEN HELD

Local Authorities Arrest two Men on Vagrancy charges —Are Remanded

ENGLISH ACCENT

Van Meer States His Belief Taller of Bandits betrayed by Speech

William Patrick Cox, aged 39, who gives Toronto as his home, and Henry Peerless Ashworth, 38, of Montreal, appeared before Magistrate S. Masson this morning. They were remanded for one week on vagrancy charges.

The two men were arrested at corner Coleman and West Moira streets at 11 a.m. Thursday by Chief Constable Kidd, P. C. Arthur Booth and Inspector Francis Naphan of the Provincial Police.

Quickly stepping from the police car, when the officers saw the two men walking on the street, Inspector Naphan shouted, "Cox, I'd like to see you two men at headquarters for a few minutes."

The two men walked right to the car, and were taken into custody, on vagrancy charges.

Both men arrived in Belleville on Monday, and represent themselves as subscription agents for the "Hockey Year Book" and a small traveller's case carried by Ashworth contains a copy of the Hockey Year Book. Both men registered at a local hotel.

Since their arrest, neither man has protested his arrest and both appear nervous.

With the view of determining whether or not Nathan Van Meer, the Canifton road hold-up victim could identify the duo as the men who bound and robbed him on Wednesday night, Police officers brought Van Meer to the station yesterday afternoon, but he could not positively identify them as the hold-up men. Miss Jeffrey, clerk at Wrightmeyer's grocery store was also brought to the station for identification purposes, as it is believed that the thugs phoned the Van Meer home from this store. Miss Jeffrey was also unable to state positively that they were the two men who she heard phoning to Van Meer's over the store telephone on Wednesday night.

Van Meer states that the taller of the men did the talking during the hold up, and he believes that he had a slight English accent. The only connection in this case is the fact that Ashworth, the taller of the two men now in custody, was born in England but has lived in Canada for many years. Cox is a former Belleville resident, having been a barber here years ago.

Police officers to-day are searching premises, but they are not divulging the addresses of the premises. The result of the search which is being duly made after the issuing of a search warrant may throw further light on the hold-up which has terrorized Bellevillians.

Both Ashworth and Cox, when they appeared this morning were well dressed and apparently prosperous appearing.

Searches of premises which the police made this morning, failed to reveal additional helpful information, in the Canifton hold-up case.

MANY ACCOUNTS ARE PASSED ON

Various Local Civic Committees Have Busy Session—Many Recommendations

SELECT CHAIRMEN

Ald. Robinson and Ald. Greenleaf named for Power and Labor Committees

At a meeting of the various civic Committees last night considerable business was transacted. Many accounts and recommendations were passed on to the council.

Ald. Robinson was selected as chairman of the new power committee.

The recommendations passed on to the council were as follows:

Recommended that the accounts of the Department of Highways covering the assessment against the city of Belleville for its proportion of expenses in connection with highway construction, be referred to the City Solicitor for preparation of a by-law authorizing sale of debentures to provide payment thereof in accordance with the liability of the city.

Recommended that the council of this city concur in the action of the Toronto city council in petitioning the Provincial Government for a percentage of the amusement tax and motor vehicles fees and that the delegation to the Good Roads convention represent the city of Belleville at the suggested conference.

Recommended that a committee composed of chairman of the Gas, Industries and Water Committees investigate the proposition of the United Creditors Association System and report to council.

Recommended that the Treasurer obtain membership in the Ontario Good Roads Association for 1924 and send cheque of $25 for same.

Recommended that Ald. Robinson be chairman of the Power Committee and Ald. Greenleaf, chairman of the Labor Committee.

Recommended that the arrears of taxes for 1922 and 1923 now overdue from the Chamber of Commerce, on the building occupied by it on Front street, Belleville be remitted to the same Chamber of Commerce.

Recommended that we register objection on behalf of the city of Belleville against Bills Nos. 79 and 80, providing amendments to the Municipal Income Tax and that the Clerk be authorized to wire the Hon. Prime Minister and Provincial Secretary accordingly. Also to communicate the same to Mr. W. H. Ireland, M. P. P. for West Hastings.

Bill No. 80 if adopted would greatly reduce the total assessment in many municipalities.

SPLITTING TREE CAUSES DEATH

North Marysburg Man Pinned Under Tree While Sawing Wood

A falling tree caused the death of Mr. Durwood Bishop of North Marysburg, Prince Edward County. The accident occurred on Wednesday afternoon. The victim was employed by Mr. John Shepard and was assisting the latter in sawing a standing tree. The trunk split and the tree came down, swinging towards Bishop, striking him across the back and pinning him to the ground. Mr. Shepard had to get help from the school house before he could release the unfortunate man. He was conveyed to the house where Miss Doyle, nurse, made him as comfortable as possible, but he died before a doctor could reach him. He was about forty-three years of age. He was the only son of the late Albert Bishop of Picton.

FIREMEN'S "PUSSY" RIDES TO FIRE

A chimney fire on Chatham street to-day at 10 a.m. brought fire reels out, but the fire was quickly extinguished. The outstanding feature of the run was the fact that the mascot "pussy" of fire station No. 2 who was taking a morning "snooze" on the truck was whirled away to the fire. She stayed on the truck while it remained at the fire and then returned to the station.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

The feature picture tonight is "The Son of Kissing Cup."

DOCKERS' VICTORY IS CLAIMED OPENING GUN OF BATTLE BY UNIONS

Great Britain Now Preparing for Next Big Industrial Struggle When Miners Plan to Walk Out Unless Demands for Wage Increases Are Met by Coal Operators

BREATHING SPACE

Chief Fear in Midst of General Relief Over Settlement of Dockers' Dispute is Fact that Victory is Likely to Result in Other Industries Following Example

London, Feb. 22.—(British United Press)—With the strike of the dockers ended, Great Britain now prepares for its next big industrial struggle expected about the middle of April, when the miners plan to walk out unless their demands on the operators are met.

The chief fear in the midst of the general relief over the settlement of the dockers' dispute is the fact that their victory may cause other industries to follow their example.

Intimations from headquarters of the kindred unions indicate that a general walk-out of the miners will be followed by other strikes in sympathy with the move. Miners' officials have refused to give any definite announcement as to when the unions will act, but communications are at present being carried to various centres to feel out the situation.

Terms upon which settlement of the dockers' strike was agreed to by both sides yesterday were explained to a conference of strikers' delegates today by Edward Bevin, the mens' leader. An exhaustive discussion took place, in which the acceptance was questioned by the more radical members of the conference.

Settlement of the strike was welcomed in Britain today because of the removal of a great strain from the economic condition of the country at this critical time. Sympathy was in general with the dockers and satisfaction was expressed at the increase granted the dockers, their present pay being considered far below a living wage.

Letters and telegrams flooded the office of Premier Ramsay MacDonald congratulating him on the successful ending of what threatened to be a crisis in industrial Britain. Much credit is given to the Labor Government for their action in the settlement.

Ottawa, Feb. 22.—An increase in the exports of animals from Canada for 1923 is noted.

Calgary, Feb. 22.—Ten million cubic feet of helium gas goes to waste every year in Alberta.

Quebec, Feb. 22.—Canada will secure between 8,000 and 10,000 Norwegian immigrants during the coming season.

CHOOSES TRIAL BEFORE JURY

ADELARDE DELORME

By Harold Matson
NEA Service Staff Writer.

Montreal, Feb. 22.—Abandoning the comparatively secure refuge of an insane asylum, the Rev. Adelarde Delorme has chosen to risk trial before a jury, with his life at stake.

The priest escaped trial on a plea of insanity when he was held a year ago for the murder of his half-brother, Raoul Delorme, a medical student. Crown prosecutors claim he killed Raoul to collect $25,000 on life insurance policies.

To-day, on his own demand, he is again adjudged sane and will face trial Feb. 25.

However, Abe Delorme has found circumstances materially changed.

Where before the community apparently stood ready to defend him, he now must plead for court privileges because of lack of counsel funds; where before certain prosecution witnesses were missing, to-day they are at hand to testify.

The most important of these witnesses, one Le Clerc, was Delorme's furnace man at the time of Raoul's death. Le Clerc was found in a New Hampshire county jail, serving time for a misdemeanor offense.

Delorme, retaining the garb of a priest, is impressively firm in his court behaviour.

"I am sane," he declared in a determined voice, "and not guilty."

The experience of being an insane asylum inmate seems not to have affected him, and he takes his confinement philosophically. Besides his counsel he is permitted to see only his sister, Rose Delorme.

Chevrolet Men Hold Meeting

Representatives of Dealers From Surrounding Country Hear Officials From Oshawa on New Service Programme

Mr. Ross MacKinnon, General Sales Manager for Canada with the Chevrolet Motor Car Company, was chief speaker at the luncheon held at Hotel Quinte today, and which was attended by dealers, salesmen and mechanics of this city and surrounding territory, who have been in convention here Thursday and today. The convention proper, known as the Chevrolet Sales and Service Convention is being held at John T. Warren's Front street garage. MacKinnon's address was on "The Chevrolet position in the

CANADIAN WORKMEN TOLD NOT WANTED IN U.S. FACTORIES

Toronto, Feb. 22.—Premier Howard Ferguson assured the Legislature Thursday afternoon that he would look into an alleged boycott of Canadian workmen living in Niagara Falls, Ont., who were told that they were no longer wanted in United States factories across the river. The question was brought before the Legislature by M. M. McBride, of Stratford, who, reading from a Niagara Falls newspaper, urged that the matter be brought to the attention of the Dominion Government.

Premier Ferguson said that it was not within the juridiction of Ontario but he would make a friendly request to have the matter looked into.

S. W. Wilson, of Windsor, stated that if similar tactics were carried out there it would result in 3,000 Canadian workmen leaving to live in the United States.

Before the orders of the day were called, Hon. W. E. Raney asked the speaker why it was that so many of his questions had not appeared on the order paper. He was informed that owing to the number which have been received it has been impossible to print them immediately.

GOOD JOBS IN COUNTRY

Last November a Toronto painter was driven from the city owing to lack of employment at his trade. With two cents in his pocket he decided to try his luck on the farm. As a result of his enterprise he has had comfortable lodging, the best in meals, and has earned $52 for less than two months' work. He states that there is no need for single men to loaf around the city 'panhandling' for the price of a bed and a meal when regular employment can be secured on the farms.

Herein seems to lie much of the trouble due to unemployment. Those in need of work want to pick and choose. They will suffer want rather than accept work that they consider uncongenial or beneath their dignity. On the other hand there are determined men and women who will undertake any honorable job as a stepping-stone to something better.

One cannot feel very much sympathy for the man who turns up his nose at the chance of work because it does not exactly appeal to his sense of fitness. The suggestion is constantly made that men out of employment apply to the farmer for at least temporary employment. There is nearly always a dearth of men on the farms. The demand exceeds the supply but men used to the city and to certain lines of work refuse to take chances in an unfamiliar environment.

But to the strong and intelligent man without family ties the farm opens up a solution to many difficulties. A good living is assured. Comfortable lodging and good meals are the usual thing. It is not always a kid-glove job but manual labor seldom is. Three good meals a day, a comfortable sleeping place, and good wholesome companionship are surely preferable to walking the streets in search of a "white collar" job that refuses to show itself. The life may not possess as many attractions as the Great White Way, one may have to tread the cowpath instead of the primrose ditto, but a starved soul is not as imperative in its demands as an empty stomach.

If more single men would follow the advice of the Toronto painter, the question of unemployment during the winter months would be greatly simplified, and it is more than likely that those who tried the experiment would be willing to stick at it rather than return to the uncertainties of city life.

FOREIGN EXCHANGE CRISIS

All favorable indications of France's commercial and industrial vitality and of her economic stability have not been sufficient to improve or even to stabilize the international value of the franc which, since the beginning of the year, has suffered a considerable depreciation.

This unwarranted depreciation which took place at different intervals and after periods of violent fluctuations is certainly due in its initial phase to [illegible] on the part of foreign opinion which has been influenced by repeated rumors as to the increasing burden that Germany's insolvency is imposing on the French Treasury. Even the best friends of France have felt some anxiety as to the consequences that Germany's continued defection would have on French finance in view of the heavy advances that the French Treasury is obliged to make for the reconstitution of the devastated district. It is possible to state that these apprehensions are absolutely unjustified. They take into account neither the resources nor the profound determination of the French nation to do all that is necessary for the defense of the franc and the safeguard of public credit.

In order to put an end to this crisis, the Government has decided to immediately readjust budgetary revenue and expenditure, and there is no doubt that the country will respond heartily to such increases of taxation as it may be necessary to make in addition to the reduction to a minimum of all Government expenditure.

This defense of the Franc, conducted as thoroughly as possible is the only way in which the cost of living may be brought down, and all the public and private financial burdens gradually lightened.

EDITORIAL NOTES

France has the deferred payment idea down to a fine point.

WINTER NIGHT

You are so blue and still and cold
You are so young—you are so old.
You chill my blood and make it freeze
With your unspoken mysteries—
You thrill my blood and make it burn
When old desires to beauty turn.

Yours is the iron hearted will,
Yours, the purpose to fulfill;
You are the hidden womb of earth
Where seeds lie dormant until birth—
The paradox of life and death
Within a shroud of icy breath.

Yours is the secret buried deep
Under the still, cold hand of sleep.

PRESS OPINIONS

CANNY ASQUITH

(Montreal Star)

Mr. Asquith's cunning comes in through the adroitness with which he handles the issue in the house. He knows that there is an uneasy feeling in the British electorate today that Labor may carry Britain further in the direction of extreme radicalism than it is prepared to go. Mr. Asquith realizes that the vulnerable point of the Labor cabinet is Mr. Wheatley, who is regarded as the representative and the spokesman of the Clyde school of red socialism.

He knows that it is the best possible tactics to try and drive Labor as far as he can towards the Left by forcing McDonald to appear as the champion of Wheatley, and, therefore, as the upholder of the Clydeside school, for many of those who now support Labor travels farther along the road to socialism. These defections Mr. Asquith hopes to control under his own banner.

GOOD NAME INVOLVED

(Toronto Star)

The suggestion that the least said about a case of this sort the better is one with which we cannot agree. It is a rare thing for a "Home" boy to commit suicide in this province, but it ought to be still more rare.

The fact that a hundred such boys do not commit suicide can not be set off against the fact that two of them have done so. Not only was it necessary to enquire into the two cases, but it inevitably followed that public opinion would call for a closer inspection of the home life of all other boys brought out to this country and placed here.

The good name of the province and of the dominion is involved in this, and public opinion was quick to declare itself in favor of a more complete system for protecting the interests of these juveniles.

TAKE WARNING

(Toronto Globe)

"The Hydro Lamp," published by the Hydro-Electric Power Commission warns its readers never to use portable heaters in the bathroom.

"If you must use auxiliary heat in the bathroom it is better to have a permanently installed wall heater controlled by a switch. It is dangerous to use a portable heater in the bathroom, but if you insist on using it do not move it while in the tub taking a bath, or while touching the basin or any of the plumbing fixtures.

"If you do you may receive a very disagreeable jolt. The heater, if it has been used for some time, may be grounded and by touching it and the plumbing fixtures, or the water, a good connection for the flow of electricity is established. The shock might be fatal. Be careful!"

Two recent accidents point to this warning, and lives may be saved by heeding it.

NO CASH BASIS

(N.Y. Commercial)

As for trade with Russia, it can only be carried on when that country has something to sell or good money with which to buy. As it stands now, Russia is ruined and her position, so far as commercial things may be concerned, is exactly like that of the bankrupt individual.

Russia has nothing to sell worth mentioning nor has she any credit. Her business men are doubtless as honest as the average of those of any other country, but all they can offer for manufactured or raw products is promises.

It is known throughout the world of commerce that Russian merchants have very little outlet for goods on a cash basis. The outlook from the standpoint of a firm in any other country desiring to do an export business is anything but rosy when it considers the country of the Soviets.

ENVIRONMENT

A worm may live in a garden fair
And never know he is living there;
A rose may bloom in a filthy yard,
A hovel shelters a gifted bard,
So what is the use of environment?

And many a man in a ragged coat
Has more in his brain than the world may note;
While many an ignorant, clumsy clown
Was born in a mansion in London town,
So what is the use of environment?

And many a lad all the sign-posts pass
Who was born of a poor and lonely lass;
While many a one in the purple bred
Was found in the gutter, lying dead;
So much for a man's environment.

A swaggering and a stylish garb
May cover the marks of the old back yard,
But the smallness of the soul within
May be meaner than the meanest sin,
A disgrace to any environment.

If your heart is always pure and clean
And you shun the things that are small and mean,
If you love your neighbor as yourself
And give to others if you've wealth,
You can shine in any environment.
We have all been given our own free will
To carry us up to the top of the hill,
And as we sow so shall we reap;
When gathering thorns we well may weep,
While blaming it on environment.

The worm may burrow through the earth
And return to the place that gave it birth;
The rose may hold its head on high
And cheer the lowly passer-by,
And bless its poor environment.

Now, if our mission we fulfill,
And do our Heavenly Father's will
We will then work out the Eternal plan,
And that is enough for any man,
To be a credit to any environment.
—Phoebe Hendry.

Music & Drama

BEAUTIFUL CAST IN "THE SEVENTH DAY"

Richard Barthelmess says that if the Chicago professor could see the young women who are in the cast in "The Seventh Day," this picture now running at the Regent Theatre, the educator would change his declaration that all the beautiful women are in Africa.

"I'll tell him," said the young screen star, "that I can show him quite a number who would not fear to be put in a beauty competition with the African belles."

Included among the beauties Mr. Barthelmess offers a proof of the libel in the Chicago professor's declaration are Miss Louise Huff, Miss Annie Corwall, Miss Teddie Gerard, Miss Gladys McClure, Miss Louise Lee and even the extras who appear in the ballroom scene, were especially selected for their pulchritude.

"The Seventh Day" was directed by Henry King and is distributed by associated First National Pictures, Inc.

Jackie Coogan as Prince in LONG LIVE THE KING First picture under $1,500,000 contract promises to be lavish production. The long heralded production LONG LIVE THE KING starring Jackie Coogan will come to the Griffin Theatre Wed., Thur., Fri., and Saturday, Feb. 27, 28, 29 and March 1. Particular interest is attached to this latest film of the young star as it is first production under the $1,000,000 contract which was given him recently in addition to half a million dollar bonus by Metro Pictures Corporation.

JACKIE COOGAN in "LONG LIVE THE KING"

LONG LIVE THE KING was only recently completed at Hollywood and its engagement at the Griffin Theatre is among the early dates allotted to a few houses throughout the country.

As is known to millions of readers LONG LIVE THE KING was adapted for Jackie from Mary Roberts Rinehart's novel of the same name. The plot is set in the mythical Balkan kingdom of Lavonia and hinges around the escapades of the little Crown Prince (Played by Jackie Coogan) who is beset by a band of Terrorists who threatened to seize the Government. The Book is fascinatingly told filled with romance and excitement a-plenty.

ARLIE MARKS AT CITY HALL

Last night the City Hall was well filled to see the Arlie Marks Company in "When Dreams Come True". A rural comedy brand that kept the audience in roars of laughter. Besides the play there was five acts of vaudeville which was above the average, and many encores were responded to by these vaudeville performers, the stage settings were exceptionally nice, and the wardrobe worn by Miss Marks herself was an outstanding feature. This clever company appear at the City Hall tonight, Saturday afternoon and night and are deserving of full houses, as the show is away above the average Stock Co.

To-night the company will be seen in "The Little Girl that God Forgot" one of the strongest plays written.

London, Feb. 21.—National Farmers Union have passed a resolution protesting against agreement between the Board of Agriculture and Canada whereby all cattle imported from Canada as stores are allowed entry into the interior of United Kingdom provided they are suitable for more feeding.

If Skin Breaks Out and Itches Apply Sulphur

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. The sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

Nations Stirred By U.S. Quota Law

Former Senator Says Russia, China and Japan are Angry

INFLUX TO MEXICO

Canada and U.S. Laboring for Same Ideals, He Declares

Mexico City, Feb. 22.—Former Senator J. Hamilton Lewis, of Chicago addressing the American Chamber of Commerce, predicts an entente of the United States, Canada and Mexico as a defensive measure against aggression from a combination of Russia, China, and Japan, which is considered inevitable in the near future due to the measures taken by the United States to restrict immigration.

Mr. Lewis stated that while the Treaty of Versailles had destroyed the old military balance of power, this was replaced by a realignment of powers in Europe and Asia to promote mutual interests of expansion. He stated that the United States was not able to look to any European power for assistance, since both France and Great Britain were vitally interested in the Far East, where their possessions are already threatened.

He outlined the recent developments of Russia in the Far East, where the Soviets are said to have growing understandings with China and Japan. He said these nations were stirred up by the new Immigration Bill.

Big Influx Expected

He predicted a great influx of European immigration to Mexico in the near future, making the closest relations between Mexico and the United States imperative.

He said that all nations of this continent, including Canada, are laboring for the ideals which constitute Americanism, being largely modelled on the United States.

"Today the United States, the republics of South America and Central America and Mexico are joined to the provinces of Canada to make our continent," he said. "The Governments of South and Central America and Mexico must be treated as Governments of the American continent. The United States is not their owner, nor their guardian.

"The United States, in this new era, is their partner and associate in the cause of Governments for justice and liberty. The Monroe Doctrine was for the protection of the United States against European invasion of America. It is not a doctrine of dictation to South and Central America and Mexico in their personal Government affairs."

VICTORIA

Church next Sunday afternoon 2.30. Sunday School at 1.30.

Mr. and Mrs. Will Hubbs entertained on Saturday evening, Mr. and Mrs. Stanton Fox, Mr. and Mrs. Ray Fox and girls, also Mr. and Mrs. Everett Brickman and boys.

Mr. and Mrs. Herb Pulver and family, Mr. and Mrs. Wl Fox and Earl and Mrs. D. B. Fox, spent Sunday evening last at Mr. B. L. Redner's

Mr. Thomas and Burnice Wannamaker returned home last week from New Ontario.

Mr. and Mrs. Everett Brickman and boys spent Sunday evening at Mr. M. M. Wilson's.

Comb Sage Tea Into Gray Hair

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beutifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening oyur hair with Weth's Sage and Sulphur Compound, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs are disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger.

Deaths and Funerals

MRS. F. STOLIKER

Mrs. J. Murphy, 37 Cedar street, has just received word of the death of her sister-in-law, in Ohio, Mrs. J. Frank Stoliker. Deceased was well and favorably known in this city by many relatives and friends who will regret to know of her sudden demise.

DEATH OF INFANT

James Douglas Finn, infant son of of Mr. and Mrs. J. S. Finn, Who reside on Octavia street, city, passed away last evening. The little one was four months old.

HARRY C. MALES

The body of the late Mr. Harry C. Males, who died at Halifax, N. S., arrived here at an early hour this morning, being accompanied by relatives and friends. At Tickell and Sons undertaking establishment at 10 o'clock, a service was held, conducted by Rev. H. B. Kenny, Pastor of the Tabernacle Church, who also officiated in the interment in the family plot Belleville Cemetery. The floral tributes were many and beautiful in effect. Bearers were: Messrs A. Y. Snider, E. Shorey, C. Collery, B. Bedell, W. S. Gilbert and A. Black.

LAURA BLACKBURN

The following from the Smith Falls Record-News tells of the funeral of the late Laura Blackburn:

It was with very sincere regret that friends in town learned of the death of Miss Laura A. Blackburn, youngest daughter of Mr. and Mrs. J. J. Blackburn, which occurred in Belleville on Tuesday, February 12th. Miss Blackburn was a teacher on the staff of the Prince of Wales school and two weeks previous to her death was taken ill with tonsilitis which did not appear to assume a serious form until Saturday, the 9th inst., when her mother was notified and immediately left for Belleville. Her condition was much improved on Monday, but that night she suffered a relapse and passed quietly away on Tuesday. Laura A. Blackburn was brought up in Smith Falls and attended the schools here, and after graduating from the Collegiate institute, she went to Ottawa where she attended the Normal school. She taught at a school near Merrickville but later went to Belleville where she was highly esteemed as a teacher in the school there.

Deceased is survived by her parents one sister Eva, and one brother, Wilbur.

She was a bright happy and accomplished young girl, and her death at the early age of 22 years has brought very deep sorrow, not only to the home, but also to a large circle of friends. The funeral took place from the family residence on Friday afternoon and was very largely attended by many sympathizing friends, after which the remains were laid at rest in the Public cemetery. Rev. Mr. McArthur of Westminster church officiated at the home and at the graveside. The pall bearers were Messrs. A. Paul, Harry Hall, Seymour Snowden and Fred Irvine (cousin). The floral tributes which were numerous included:—

Pillow—the family.

Wreath—Mr. Ronald H. M. Hall, Belleville.

Wreaths—T. H. Blackburn and family, Ottawa, staff of Prince of Wales school, Belleville; Board of Trustees Belleville.

Mounds—Mr. and Mrs. Hall, Whitby; Mr. R. L. Young; Miss Verna Phillips; Miss Vera Chalmers; Rainbow P's; Mr. and Mrs. T. S. McDonald.

Baskets—Mr. J. D. Ferguson and family; Miss Freda Burns.

Sprays—Mr. and Mrs. H. A. Ross, Belleville; Young People's Guild, St. Andrew's Church, Belleville; St. Andrew's Choir; Spray from class of Prince of Wales School; Henderson Bible Class; Miss Rath; Mrs. Alyea and Mrs. R. B. Asseltine, Belleville; Watchmakers of Ryrie Bros. Toronto; Mr. and Mrs. W. H. Kerfoot; Miss Glenna Gardiner and Mr. H. Hall; Miss Helen and Mike Nafin, Belleville; Miss Gertrude M. Best, Trenton the Advance Bible class, Westminster church; and from three pupils Winifred Ester and Constance, Belleville.

Those from out of town who attended the funeral were Mr. and Mrs. Wilbur H. Blackburn and Jack of Toronto; Mr. H. R. M. Hall, Belleville Misses Eva and Lou Stewart of Renfrew; Mr. M. Matthews of Carleton Place; Mr. Albert Low of North Gower Mr. T. H. Blackburn of Ottawa.

ENJOY SLEIGH PARTY

On Wednesday evening the members of the Excelsior Young Men's Club of Holloway St., Methodist Sunday School and their lady friends held their annual sleigh-drive and social evening. Meeting at the Sunday School rooms at 8 o'clock, about 20 in number, from then till 9.30 was spent in driving or to take the word of the majority, in running after the sleigh after having been pulled off by some over energetic member, and half buried in the huge banks of snow that adorned the country roads that night. Arriving back at the Sunday School rooms the next hour was spent in games and group singing. The talent discovered was remarkable, the future of the choir being established beyond doubt. Mr. Harry Post, one of the extremely active members of the club, very 'ably' directed the singing, assisted by Bert Adams. He was voted by all an extremely capable leader After serving very dainty refreshments, which were much enjoyed by all, a very pleasant evening was brought to a close by singing the National Anthem.

IN MEMORIAM

SYMONS—In sad and loving memory of our dear parents who passed away three years ago to-day.

Only those who have lost their parents like we have can tell of the grief we bear in silence for the ones we loved so well.

If only in dreams we could see your dear faces
In dreams clasp your hands so true.
If only in dreams we could hear you say,
We are waiting, dear children for you:
But the old heartache clings as years go by
As we struggle against the tide,
But the clouds will lift and brightness will come
When they lay us down by your sides.

Sadly missed by Sons and Daughters.

Oil Scandals Are Harmful To the Political System

Old-line Politicians Bringing Pressure to Hush Up the Whole Thing—Progressives Awaiting Out-come.

By LAWRENCE MARTIN

Copyrighted, 1924 by the United Press.

Washington, Feb. 21.—The oil scandals have greatly increased probability of a breakaway this year from the old political parties, in the opinion of the most informed and impartial political observers.

Teapot Dome has brought forward again the talk of a third party, a progressive party, headed by LaFollett, probably. It is the climax of a series of developments which have seemed to observers here to be making inevitable a strong, distinct third party movement this year.

Out of the confusion and murk of the naval oil reserve scandals, one fact has begun to emerge clearly: Neither of the old political parties will gain much out of the disclosures. At first it seemed as though the Democrats would register a tremendous gain in prestige as a result of uncovering the connection of Fall and Denby with the leasing of the naval reserves. But the entrance of Doheny, a Democrat, or former Democrat, and the injection of McAdoo, whether for political purposes or not, has served to spread the taint of oil—in the public mind at least—to both parties.

The Voters Disgusted

Whether it is fair to blame Democrats, or to hold the Democratic party responsible in a measure, along with Republicans and the Republican party, that is just what has happened in the public mind. The reaction from the country is unmistakable here. It comes in in many forms, in letters and telegrams to members of congress, in reports from political leaders throughout the nation. Not only has the country been shocked, it has been disgusted. Nothing in years has so hit the pubic consciousness.

The progressives made considerable talk, when this congress was being elected, about the failure of the two old parties, the breaking down morally and politically of the establishment political groups. Now comes Teapot Dome to lend point and emphasis to their charge.

But the progressives, for the most part, are within the two old parties. LaFollette is a Republican. As a Republican he shares the taint that attaches to his party. The Democratic progressives likewise share whatever odium attaches to their side.

Capitalize New Asset

It is only by getting out, and becoming a new group, that the progressives can capitalize the tremendous political asset which Teapot Dome has given them.

LaFollette is the author of the resolution which led to the disclosures in the oil scandal. He is getting no credit for it, at the moment. That is because he has not asked for any. But should he and the other progressives step out, tell the country they were responsible for uncovering the mess, and then demand that they be supported in a national clean-up that would remove all the old familiar faces, the Republicans and Democrats who, for years, have held office, if they would pledge themselves to a housecleaning from top to bottom and a new deal all through, they would win tremendous support from the popular reaction growing out of the scandal observeros here believe.

May—"Poor Reggie; since I turned him down, he is all broken up."

Mary—"Don't worry, dear, he was half cracked before."

Are You Only Half Alive?

Is life just one glorious existence for you? Are you thoroughly alive every minute, every hour, every day? Do you sleep well? Do you look forward to your meals and enjoy them? Are you always hungry at meal time? If your whole body is not thoroughly alive mentally and physically—fairly tingling with the joy of living—if you don't sleep well—if you don't look forward to your meals and enjoy them—if you are tired, listless, weak, you need a tonic. You need Carnol. Carnol goes to the root of the trouble by first building your body, enriching your blood, toning up your system and strengthening your nerves. L'Abbé Cantin thinks so highly of Carnol that he has endorsed it by the following letter:

"All the good that is claimed for Carnol seems to be well founded. I have myself observed how beneficial it has proved in a number of cases. That is why I recommended it so highly to my family and to all my friends. Carnol is within the means of every family as the price is most reasonable. To my sincere thanks I join my best wishes for the prosperity of your industry."—L'Abbé Auguste Cantin, 26 Cremazie St., Quebec. 14-9

Carnol is sold by all good druggists everywhere.

SOLD BY DOLAN THE DRUGGIST

Taxicab Fares Are Increased in Paris

Paris, Feb. 21 (By mail to United Press).—The Paris City Council has been forced to increase all transportation fares, including taxicab fares, to balance its budget and carry on this year with a clean slate. The budget was balanced at 1,438 million francs.

The new fares on the Metropolitan and the Nord-Sud will be raised ten centimes in first and five centimes in second class, becoming 60 centimes and 35 centimes respectively. Auto-buses and tramways will charge five centimes more. Street cleaning taxes will be raised 200 per cent. The initial fare for taxis will be for 400 instead of 600 metres, this being equal to an increase of 20 centimes per fare.

It was necessary to meet additional allowances, because of the recent vote of the Chamber of Deputies placing the bonus of higher pay to civil servants upon the municipal exchequer. This item alone represented 21,700,000 francs annually, and completely upset the plans of the economy seekers.

PERFECTLY BLENDED

Wifie: "Darling, didn't you notice that the sauce at the hotel last night tasted of furniture polish?"

Hubby: "Yes, dear; but it went well with the cabinet pudding."

PORTRAY "THE LOST COLONY"

Kingston, N. C. Feb. 21 (United Press).—An historical pageant will be given here April 11, by home talent from several counties. The actor folk with the "lost colony" of Virginia. Dave, the first white child born in America and other events in the early history of the south.

Kinston, N. C. Feb. 21. (United Press.— Dr. Abram Cory, pastor of the Gordon Street Church of Christ and head of the world organization of his denomination, has announced that at anearly date he will feature his service with a "bras band" program. He once presented at a church service an orchestra from a theatre which played only "church" music.

NORTH CAROLINA TOBACCO

Raleigh, N. C., Feb. 21 (United Press).—State agricultural authorities estimate that 386,000,000 pounds of tobacco were produced on North Carolina farms last summer. More than 262,000,000 pounds had been sold on the independent markets of the state up to January 1. while much of the remaining 124,000,000 pounds was known to have been sold through grower's co-operative marketing association. A small part of the crop remained in farmers' hands

GERMAN PROFITEERS

Berlin, Feb. 21 (United Press).—Berlin's profiteer police handled in December alone nearly four thousand cases of profiteering and similar offences against the public. Dealers charged with demanding too high prices, with failing to price-tag their goods, with refusal to accept paper marks were hailed before the police and a great majority of them were punished.

MEN'S BOOTS

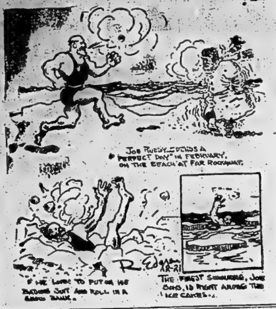
HERE, THERE AND EVERYWHERE

SPORTS THROUGH EDGREN'S EYES



JOE RUDDY SPENDS A "PERFECT DAY" IN FEBRUARY, ON THE BEACH AT FAR ROCKAWAY.
HE LIKES TO PUT ON HIS BATHING SUIT AND ROLL IN A SNOW BANK.
THE FINEST SWIMMING, JOE SAYS, IS RIGHT AMONG THE ICE CAKES.
R. EDGREN

One of the greatest athletes in the world hasn't figured as much as Gene Sarazen and Jack Dempsey in the news columns this year, but he is still among the champions although he began competing before Sarazen was born.

Joe Ruddy of the N. Y. A. C., greatest water polo player in America and a first class swimmer, boxer, wrestler, handball player, bowler and all around strong man, is in his twenty second year of competition under the N. Y. A. C. colors.

He has scored more than 1400 points for the club in swimming and all around athletics. This is a world's record for point scoring by an individual athlete. Ruddy won many events before he joined the club as he has been competing for over thirty years. He won his first swimming race in 1893, thirty-one years ago. Joe says that he expects to go on winning for ten years more, as he feels as fast and strong and full of endurance as he did when a youngster. He trains every day. His favorite exercise is a half a dozen games of handball. After that he swims, plays water polo, dives, bowls three or four games, shoots a little pool and calls it a day. When he takes a summer vacation, he picks out some resort where he can indulge in all his favorite sports, every day. He is one of the strongest men in athletics, and is built like Georges Hackenschmidt in his prime.

Joe's favorite winter sport is going swimming off the beach at Far Rockaway. One winter he went in every day. He kept a tent and a rubbing cot on the beach, where he dressed. First on the programme was a run in the snow, barefooted and wearing only a light bathing suit. Then he jumped into the surf, swam a couple of hundred yards and came in to roll in the snow and then dash for the tent and a hard rubdown. Joe never took a cold or had a day of sickness in his life, although a year of his usual routine would probably kill an ordinary man.

Billy Gibson tells a funny yarn about Charlie Leonard, Benny's brother. Charlie was a wonderful amateur, easy winner of amateur championships, but after an indifferent start as a professional dropped out of fighting and went into business, where he has succeeded very well.

Charlie didn't like hard training. Bill says that as a fighter he was lazy—quite the opposite of Benny who loves hard work. It was after winning nineteen out of twenty-one fights that Charlie turned professional and won eight straight. Some people thought he'd soon outshine Benny. Gibson finally matched him with Harvey Thorpe in Denver. He sent Charlie out to train near the battle ground, with orders not to smoke cigarettes and to do a certain amount of work every day. Charlie was warned that Thorpe was a tough bird, and he mustn't neglect training.

Gibson arrived in Denver two days before the bout. He found Charlie puffing a cigaretete in the gym, and on inquiring learned that Charlie hadn't been training steadily. He sent Charlie to his hotel and told him to pack his grip. Then Bill immediately called the fight off. He told Charlie he was through as a fighter. Charlie seemed relieved. He knew he lacked the temperament and ambition to be a ring champion. H didn't care for training, and instead of being interested in fights he liked to wander through stores and figure out how to conduct business. In course of time he may make as much as a business man as Benny Leonard has a fighter. But he'll have to go some. Benny is a money maker.

Bike riding has changed since the old days when Zimmerman, the "Jersey Skeeter," used to make the world's record on a high wheel with a little wheel in front and his pedals working up and down like pumps.

Racing tires for instance weigh only 6 3-4 ounces a pair. They are made of silk, with a bare covering of rubber. The tires are inflated to a pressure of from 180 to 190 pounds. When Frank Kramer was riding he always pumped his tires up himself before every race, and was careful to put in the full 190 pounds. A tire used for board track racing wouldn't stand up long on the road.

Joie Ray, the runner, does a lot of boxing and has boxed a number of amateur bouts. Ray says that boxing developed his chest and arms and legs and greatly improved his running style and speed. When he is through with running as an amateur he may take up boxing professionally. But Ray is likely to run himself out. After that he won't have much left for boxing. A professional boxer needs strength and stamina.

Benny Leonard says he is ten lbs. over the lightweight limit, but that the extra weight is all around his hips and legs, claiming that he can't box as a lightweight any more. There is a rumor that in his last Tendler fight, where newspaper men were barred from the weighing in, contrary to Boxing Commission regulations, fake weights were given out and both the men were far over the lightweight limit of 135 pounds. However, Leonard looks in fine shape, and says that he can take off the extra weight whenever he wants to. He doesn't keep down to weight because there is no more competition for him in the lightweight class since he beat Tendler, and he has an ambition to go after Mickey Walker and collect the welter title. That would give him plenty to do beating the other welters afterwards.

McTigue and Pancho Villa seem very coy about defending their championship titles. McTigue dodges a bout with Tunney and Villa runs out whenever Frankie Genaro's name is mentioned. Genaro, former Olympic boxer as an amateur, and a very good professional, has two decisions over Villa. Genaro seems to have Villa's number, although Villa is a sturdier and stronger boxer and a much harder hitter.

Junior Sextette Off For Kingston

Belleville Junior O.H.A. squad left this afternoon on the 3.03 C.N.R. train for Kingston where they meet Circle Six in the second of the home and home games, which will decide which team continues in the race for the Provincial honors.

Manager Ed. Thomas took his best and strongest team to the Limestone city to-day, and they promise to hold the Circle Six outfit within the bounds of the four goal lead which the locals now have on them, and win the round.

A few fans took advantage of the club rate fare which Manager Thomas secured, and accompanied the team to the scene of the battle.

VISITORS DEFEATED

At the local curling rink yesterday afternoon the four rinks of Detroit shots by the rinks of the local club. It was an interesting game and was witnessed by many spectators. The visitors later in the evening left for Cobourg where they were scheduled to play.

GUELPH OUST THE BRANTFORD CREW

Brantford, Ont., Feb. 22.—In the return game here last night the Guelph intermediates defeated the Red and Black by a score of 9-4, making the score 15 to 4 on the round. The game, was fast, especially in the second period, neither team scoring a goal. The visitors ran away in the third, scoring five goals. Bergault and Mitchell being the scorers. The game grew very rough, and Referee Hillier handed out 15 penalties. Baird and Corrigan getting five minutes for a little mix up. Summerhayes grew careless in the last period, not making much effort to stop the puck.

Local Basketeers Face Hard Game

When the local Basketeers face up to the Queen's aggregation on Saturday night, at the Y.M.C.A. Gymnasium, they will do so knowing that they must play real basket-ball every minute of the time they are on the floor. Belleville cannot afford to lose this game and the boys are quite determined they will not lose it. During the week, regular practices have been held and the team has made marked progress in the development of snappy team play. Working out with the High School Five last night, they held their final practice before Saturday's game; every member of the team is in the best of condition prepared to go the whole route if necessary.

Although Queen's won from the locals last week, down in the Lime Stone City, they were forced to travel at top speed all the time in order to register a win and the members of the team feel confident that the Scotlmen cannot repeat their performance of a week ago. Don't miss seeing this game it will be one of the best of the series.

Junior Sunday School League

Baptist Juniors won from the Bridge St. Qui Vive in a junior Sunday School fixture at Arnott's Arena last night, by the score of 3 to 1. No score was registered in the first period which was closely contested.

Gilbert was the most effective player on the Qui Vive line up while George (Shorty) Faulkner was the outstanding performer of the Baptist Six. Alex Weir called them to the satisfaction of both teams.

ON THE ALLEYS

The Granites ladies team were going "Great Guns" at the Y Alleys last night in their game with the High School seemed to be right on the job judging from the resultant scores and their grand total of 2026. The High School Quintette bowled a steady game which would in most instances be good enough for a win but not so last night.

GRANITES

COSTS MONEY NOW TO PLAY ROUGH HOCKEY

Montreal, Que. Feb. 22.—"Players Noble of the St. Patrick's team and Randall of the Hamilton team, are each fined fifty dollars for misconduct in the game played in Hamilton yesterday, with a caution that a recurrence of the offence will bring about suspension," was the announcement made last night by President Frank Calder of the National Hockey League concerning the mix-up on the ice of the two players at Hamilton last night.

Rotes Win Curling Games Kiwanians Pay For "Feed"

At the expense of three rinks of Kiwanians three rinks of Rotarians last evening enjoyed a supper. It was at the Curling rink rooms the supper was served.

The curling results told of a victory for the Rotarians and the supper was the penalty to Kiwanians for being defeated. Many members of the club were interested spectators whilst the games were in progress. Twelve ends were played and the players and results were as follows:

Rotarians	Kiwanis
G. F. Ostrom	F. Philbin
W. A. Elliott	Rev. Mallott
A. McGie	H. Bryant

Canadiens Swamp Senators By 3-0

Montreal, Feb. 22.—Canadiens defeated Ottawa Senators here last night 3 to 0 in a listlessly played game. Ottawa showed the effects of their previous night's experience aboard a snowbound train. They were never dangerous during the game, Clancy being the only player to show customary form. Sprague Cleghorn was the hero of the Canadiens' win, scoring two of three goals on individual rushes and otherwise turning in a remarkable game. Canadiens re resting comfortably in second plce in the N.H.L. race now and their chances of entering the league playoff are brighter.

Swept off their feet by Canadiens dashing play in the first period, Ottawa's representatives could not get started thereafter and were simply swamped by the fast skating local squad which commanded the game from first to last. Canadiens' three goals came in the first period and their supremacy was never questioned by any of the six thousand spectators who jammed the arena for the second night in succession to witness the old time rivals in action.

Champions Outclassed

The game, however, had none of the thrills customary in contests between the two teams. Canadiens did their best to make it a real contest but Ottawa was never in the picture. The splendid combination and shooting that generally marks the play of the Senators was missing, with the exception of Clancy, none of the visitors showed any particular interest in the struggle.

Joliat scored the first goal for Canadiens, five minutes after play started, and eight minutes later Sprague added to the mrgin after carrying the puck from behind the Canadien net, floating the entire Ottawa team and driving a terrific shot past Benedict. He duplicated a minute later, but this time the goal was more easily earned. The shot was wide. The puck hit the boards behind the net with a resounding whack and bounced out alongside the post. Benedict had his stick out at an angle, and deflected the disc behind the goal-line. His dismay on seeing what had happened was apparent to everyone in the rink.

IT JUST DEPENDED

Mrs. Terrace was engaging a new cook.

After interviewing a large number of equally large ladies she at last picked on one Irish woman who seemed to be as nearly perfect as any cook can be nowadays.

"I think we can arrange the matter of wages," remarked Mrs. Terrace. "What is your name"

"Mrs. O'Shannessey, ma'am," was the answer, accompanied by a beaming smile.

"Do you expect to be called Mrs. O'Shannessey?" asked Mrs. Terrace.

"Oh, no, ma'am," responded the applicant. "Not if you have an alarm clock."

Few Cheerful Words To Women Considered "Older"

By HEDDA HOYT
Fashion Editor of the United Press

New York, N. Y., Feb. 22.—

"I'm getting old," said Betty Jane
When she was only twenty,
And so she bought a jar of rouge
And smeered it on a plenty.
"I'm growing old," sighed Betty Jane
When she grew plump and forty
So she massaged her double chin
And tried to look real sporty.
"I won't grow old," snapped Betty Jane
When time had turned her fifty.
She went right out and bought a hat
To make herself look nifty
At ninety Betty's scalp was bare
Her mouth could boast no tooth
But clothes and bonnets thrilled her still,
She had perpetual youth!

A woman is never old until she ceases to fret about clothes! As long as she is interested in making herself attractive to her husband her children or her friends, she has a spark of youth in her heart that years can not extinguish.

Why is it that some women are old at fifty-five, others appear almost as young as their daughters? Contentment and a cheerful disposition aid a great deal towards keeping one young but the real keynote of perpetual youth is—clothes!

A man may retire at a given age and spend the remaining years of his life loafing about the house in carpet slippers and smoking jacquette without losing the love or respect of his family.

Ruins the Home

But when a woman commences to lose interest in her appearance and slouches about her home in kimono and curl-papers she not only drives out love, but she ruins the home. Rather than bring her boy friends to her home, daughter meets them on the corner drug store, her son probably spends his evenings looking at well groomed women on the streets and her husband more likely than not begins "flapper gazing."

Of course, no one expects mother to dress like a flapper and to lose her head about clothes. There is nothing so pathetic as an overdressed middle-aged woman with bobbed hair rouge lips, gauze stockings and all the shoddy earmarks of youth. Nor is it fitting that mother doll herself in silks and satins while father goes about with frayed coat-tails. But so often the family budget fails to include mother in its division of funds and she is forced to purchase her furbelows and fine feathers out of "kitchen money" and rather than skimp on eatables, she wears daughter's "castoffs" and becomes a "cast-off" herself in her own home.

In New York, the older women are quite as well dressed as their offspring. In fact, they are often over dressed in expensive clothes beyond their means. But as they trip along the Avenue on the arms of their admiring men folk, one wastes no useless tears on their extravagance.

How to Keep Love

There's an old saying that "he who has, gets," or words to that effect. It certainly is true as far as women are concerned. She who has—the ability of keeping herself beautiful in the eyes of her loved ones—gets love and faithfulness in return.

I am a firm believer in women's rights and one of the most important of her rights is to do anything whatsoever to keep herself attractive. If streaked gray hair is unbecoming to her, let her do it some more attractive shade, within the limits of reason. If she's eighty five years old and black is unbecoming to her, let her wear colors that soften her withered skin.

Dye! bleach! powder! rouge! primp and follow the styles. And never stop feeding the spark of youth whose first name is "enthusiasm."

That Body of Yours

By James W. Barton, M.D.

FATTY HEART

This is really not an uncommon condition, and the symptoms can be so embarrassing that a few words may be of help to one afflicted.

The first thing to remember is that fat is accumulating around the heart and actually in between the muscle fibres of the heart, just because it is another place for it to accumulate

You see one afflicted with a fatty heart has been putting on fat all over the body, and the heart simply shares in the general increase.

He may be free of any real symptoms until he tries to do something a little more than usual, walk a bit faster run a short distance for a car any extra exertion in fact, and immediately his breath becomes labored he has palpitation, tightness of the chest, and dizziness. In fact he may have a complete collapse.

So, if you are putting on an excess of fat, and a little exertion causes above symptoms, get busy with yourself.

You accumulated the fat in only one way—eating more than was necessary.

In young people it may be an inherited tendency to the accumulation of fat.

You correct the fatty heart condition by first cutting down on your food, particularly starchy food, and all liquids.

The next step is systematic exercise to hep to strengthen the muscle of the heart. The heart in fact is all muscle.

There is just this one point to remember.

If you are under forty, you will be in fair shape to stand the food reduction and the exercise.

In the matter of food, liquids should be cut to the lowest possible amount, as I said above. Vegetables and bread also.

I know that meats and eggs may be a little hard on the heart and kidneys, but they can be safely used where regular exercise is taken.

If you are past forty make the food reduction very gradual. Don't be in a hurry to reduce. It may weaken your whole system.

And be careful with the exercise. Take plenty of walking, and gradually increase the distance and pace. It is not unusual in cities where they have good sized hills or small mountains adjacent, to see numbers of these stout people with fatty hearts walkiig up the ascent to different heights, and at various rates of speed.

It is simple it is safe, and it gives the results.

STOPS CROUP

Mothers want it, for it quickly clears away the choking phlegm, stops the hoarse cough, gives restful sleep. Safe and reliable.

CHAMBERLAIN'S COUGH REMEDY

Local Store Plans Big Sales Effort

The announcement of the Cosmopolitan Store that they will conduct a big sale on shoes consigned to dispose of at a rate per dollar which will start Saturday, February 23, is sure to make a big hit because economy has become more of a necessity than ever before.

The fifteen-day consignment sale of shoes, rubbers, ladies', men's and children's readyto-wear, will give a great opportunity to all to save and make their dollar buy better goods for less money.

It will pay every one to come to the sale even from a radius of fifty miles from Belleville because it is a decided fact that the management of the Cosmopolitan Store has arranged to make this sale a demonstration of powerful value-giving. The public of Belleville will see a new era in low prices.

Included in this big coming event is a big lot of manufacturers' samples which will be offered at a third of the which will be offered at a third of the regular price.

The sale starts on Saturday at the Cosmopolitan Store, 249 Front street.

The movies strain some people's eyes

Apparently these folks have not heard of the special lenses we supply for eyes that are sensitive to light and the movies. These lenses remove all annoyance from these causes. So there is no reason why you should be bothered in this way if you ARE bothered. Ready to talk to you any time about it.

Menu For The Day

SATURDAY

Breakfast

Grapes Cereal
Bacon and Bananas
Toast Coffee

Luncheon

Chese Soup Saltines
Fish Salad Potato Chips
Lemon Tarts Tea

Dinner

Cream of Tomato Soup Cheese Wafers
Steak en Casserole
Baked Potatoes Cabbage Salad
Spiced Crabapples
Compote of Figs Coffee

BACON AND BANANAS

Have bacon fat very hot and after slicing bananas lengthwise, saute quickly and serve hot with bacon.

FISH SALAD

Use fish left over from Friday, flake and add equal quantities of small diced potatoes and green peas with a little onion juice. Mix lightly with sala dressing, serve on lettuce and garnish with pimento.

STEAK EN CASSEROLE

Cut thick (about 1 inch) round steak in three squares roll in seasoned flour and brown richly on both sides in very hot pan, well greased with bacon fat. Remove to hot casserole, add stock to cover (hot water will do) T the fat in the pan add 2 tbspns butter and in this saute 2 cups of sliced onions, previously par-boiled two minutes. Cover steak with the prepared onions, add 1 cup carrots cut in 2 in pieces, season carefully with pepper and salt, cover and cook in slow oven until vegetables are tender.

COMPOTE OF FIGS

Soak one pound of pulled figs in cold water to cover until they can be pressed into shape. Add 1-3 cup sugar to 1-2 cups water and cook to syrup. Then add 1-4 cup lemon juice. Arrange figs on serving dish, strain over syrup and chill thoroughly. When ready to serve garnish with whipped cream flavored with orange extract.

YOU CANNOT JUDGE BY APPEARANCE

It is impossible to tell the quality of tea by the appearance of the leaf. A rough, course, unevenly rolled tea may taste much better in the cup than a closely rolled, well tipped tea that LOOKS much finer. The only way to be sure of getting tea of reliable quality is to buy a tea like "Salada," whose goodness and purity are guaranteed.

Mrs. Rose Craig

SPARKLING EYES FOLLOW GOOD HEALTH

Toronto, Ont.—"From the time of my earliest girlhood I had always heard my mother speak in highest praise of Dr. Pierce's Favorite Prescription for women's ailments, so it is not at all strange that after I married and had backaches, nervous spells and other distresses that I should remember what my mother had always said of this Prescription, and I found it relieved me of my aches, pains and nervousness. It gave me renewed health and strength and so greatly benefited me that I have no hesitancy in saying that Doctor Pierce's Favorite Prescription is absolutely perfect as a tonic and nervine for women who are ailing or nervous."—Mrs. Rose Craig, 257 Sackville St.

You'll soon feel better if you obtain this Prescription of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package tablets. Write for free medical advice.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

Esther had been out teaching at the time, and had not had the pleasure of seeing Mr. Selby Layton; but Miss Worcester had seen him and been very much impressed by his good looks, his pleasant manner, and more than all by his charming smile and sweet voice.

It was she who had suggested that he should be asked to pay them a visit, and Esther had at once complied; and the more readily by reason of Mr. Selby Layton being one of the relations left out in the cold.

She felt so much pity for them that she was anxious to do something for them, and would have been quite willing to share, say, half Sir Richard's money with them; but Mr. Floss, the senior partner of the firm, had his own ideas on that project, and nipped it in the bud. But the desire still remained with Esther; and while her aunt was singing the praises of Selby Layton, Esther was asking herself whether that gentleman might not be able to help her in the matter.

"And I am sure he is very good-natured," said Miss Worcester. "There he is on the terrace smoking a cigarette quite contentedly, though we are dreadfully late, and men do so hate being kept without their dinner. Don't you think he has a very distinguished appearance, Esther?"

Esther went to the window as she put the finishing touch to her toilette, lounging not ungracefully on the terrace below.

"Y-es, I suppose he has," she said, absently; then she flushed with a tinge of shame, for she had caught herself comparing the elegant figure of Mr. Layton with that of the young man who had stopped the runaway mare.

"And he looks so clever. But I suppose all barristers are clever," remarked Miss Worcester.

"I suppose so," said Esther; "it's their only excuse. I don't like lawyers, aunt, since I've something of them."

"But I don't think he practises," said Miss Worcester; "in fact, I think I remember his saying so. I do hope you'll like him, my dear."

"Why, of course," assented Esther. "What a lovely spray, Marie! How did you manage to get it? Mr. Gibson"—Mr. Gibson was the gardener, retained at a tremendous salary to grow flowers which he guarded jealously from the attacks of even his mistress—"is so reluctant to cut his flowers."

Marie hid a smile.

"I told him that they were for yourself, miss," she said, "for you to wear, and I coaxed him into letting me choose them."

Esther smiled.

"I must thank him to-morrow morning when I go into the green-house."

"Thank him for your own flowers, Esther!" exclaimed Miss Worcester.

"Well, they're mine, I suppose—I never feel quite sure; but I am sure that Gibson considers them his. Anyway, he grows them."

Marie fixed the spray of delicate white blossoms in Esther's dress, and looked at her young mistress with approval and admiration, for the graceful figure in the soft folds of black not which threw up the clear pallor of the beautiful face and the deep grey of the eyes, made an exquisite picture of girlish loveliness.

"All my war-paint on, Marie? Well, then, we'll go down and face our natural foe—Man," said Esther, smiling.

Mr. Layton was awaiting them in the drawing-room, and Palmer, the butler, with a more-in-sorrow-than-in-anger air, at once announced dinner. Mr. Layton gave his arm to Miss Worcester, and Esther followed them into the dining-room.

The daylight was begining to wane, and the candles had been lit, and the soft light fell pleasantly on the handsome room with its rich but subdued decorations, and upon the magnificent plate and glass for which the Towers was as famous as for its pictures and collection of bric-a-brac.

Esther, at the head of the oval table, was rather silent and absent-minded, and left most of the talking to Miss Worcester, but Selby Layton was quite at his ease and conversed pleasantly and with that slow fluency which obtains in good society. Every now and then he glanced at the young girl, and at every glance his admiration increased. There was something impressive in the calm serenity of the violet eyes, an impressiveness which was deepened by the sudden animation with which she roused from her abstraction and joined in the conversation when it touched on a subject which interested her.

Palmer and his two footmen waited with perfectly trained assiduity, and the dinner, notwithstanding its postponement was an admirable one.

When the desert had appeared, and the servants departed, Esther woke up to the duties of a hostess.

"Would you like port or claret, Mr. Layton?" she said. "There are both here—I'll pass them; and presently you will want to smoke, won't you? All men smoke after their meals, don't they? There is a billiard and smoking-room at the end of the hall; but you won't care to sit there in solitude. Please smoke your cigarette here. We will wait until you have lit your cigarette, because we like the scent of it, don't we, auntie?"

Another man might have protested that he didn't want to smoke; but Selby Layton was too clever for such a banality, and he took out his silver cigarette-case presently. Esther lingered for a minute or two, then rose.

"You "You will find your way to the drawing -room, Mr. Layton? But please don't hurry. Enjoy your cigarette."

When he had opened the door for them, and returned to his place, Selby Layton leant back and smoked in serene enjoyment; but he was very thoughful as his eyes wandered round the magnificent room and rested on the pictures and the plate, the bronzes and the antique glass.

"Yes, she's lovely," he murmured, "and a lady. Strange how she manages to look and speak as if she'd been used to all this from her birth! Scarcely spoke to me through dinner, and wasn't even listening half the time. Wonder what she was thinking of? The old lady will be easy enough—soft as putty—but the girl! I've got my work cut out for me. Anyhow, I've got a fair start. There can't be any one else, yet—and—"

He did not finish the sentence, but turned his head and surveyed his reflection in the great mirror on the wall at his side.

Many Here Slowly Poisoned When Filter Becomes Clogged

Poisoned! Yes, that's exactly what happens to you and many others here when your liver, the body's filter, becomes too clogged and sluggish to purify your blood, aid digestion and nourishment or keep your bowles moving so that waste matter is eliminated from the intestines.

It is easily to know when your liver is out of order. Just answer this: Do you wake up mornings feeling dull and tired, bad taste in your mouth, offensive breath or coated tongue? Are you bothered with sour stomach and gas, heart palpitation, sick-headaches or a tired-out, nervous, upset condition? Is your system so run-down you catch cold easily and can't throw the cold off.

Get quick relief! Build yourself up by taking a good tonic, as your doctor would advise. Dr. Thacher's Liver & Blood Syrup has been praised by numbers who suffered from just such troubles because it contains ingredients known to Physicians for their corrective health-building properties. Let it cleanse and tone your liver, put your stomach in condition, send purer blood coursing through your veins and keep you feeling fine. You will be completely satisfied; otherwise druggists are authorized to refund the small cost.

Dr. Thacher's Liver & Blood Syrup is sold and recommended by Dolan The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists in every city and town.

Chevrolet

(continued from page one)

automobile field."

The purpose of the convention is to show dealers and their mechanics the uses of the latest pieces of garage equipment, and to talk over sales and service problems. The aim of the convention is to have dealers' garages well equipped with time saving tools in order to provide economical transportation and maintenance to Chevrolet owners. Canada is completely covered by similar conventions with the hope of ultimately and gradually raising the standards of service over the entire field.

This afternoon's business consisted of a sales' conference under the direction of Ross MacKinnon assisted by C.T. Bateman and W.J. Mullen, sales representative on this territory, also I.A. Hull of the General Motors Acceptance Corporation.

Tool equipment was supplied by Bennett & Elliott Co. of Toronto and Prest o' Lite Co. of Canada and the demonstration of equipment and service work was under the direction of H. Rutter, F.M. Gould and R.J. Cordick from Chevrolet Motors Co. at Oshawa.

Last evening at Hotel Quinte, a banquet was held at which E.A. Everson, Service Manager for Canada, presided, and where several dealers gave interesting addresses. Solos were rendered by Reg Wiseman, son of C.A. Wiseman, Chevrolet dealer at Napanee. Mr. Wiseman is a pupil of Professor Anglin.

Dealers, mechanics and salesmen present are:

Belleville—Jno. T. Warren, Albert Paradise, O.D. Clapp, F. H. Griffin, W.S. Gerow.

Kingston—George Bawden, J.P. Clark, Jack Bawden, J. R. Hamilton.

Napanee—C.A. Wiseman, H.J. McNeely, G.D. Robson, N. Richardson.

Stirling—E. G. Bailey, Ed. Salsbury.

Marmora—M.J. Maloney, Hugh Crawford.

Peterboro—W.S. Howson, S. Graham.

Hastings—Dr. J.H. Hess.

Colborne—R.J. Clarke, H. Pool.

Campbellford—C.H. Davidson, Roy Bell.

Tweed—C.R. Maguire, G. L. McGowan.

Trenton—W. Graham, C. Keeler.

TIGERS ELIMINATE U.T.S. SEXTETTE

Toronto, Feb. 22.—Hamilton Tigers stepped up another round nearer the junior O.H.A. final by decisively beating University of Toronto Schools at the Arena last night by 5 to 2, thereby winning the series by 10 to 6. In the first game in Hamilton the Toronto students made a much stronger stand than on their home ice, judging by the margin in goals in two contests, but last night's struggle was not one-sided by any means. The Double Blue and White gave their best against a weightier and speedier team and battled to the end. They showed at their best in the dying moments. With University of Toronto Schools elimination went flickering all chances for Toronto figuring in the junior finals unless Varsity juniors perform the unexpected and turn back Owen Sound on the latter's home ice.

IRISHMAN VERSUS YANKEE

Yankee: "I guess I had the finest canary in America that ever lived, and it was a lovely singer. It used to sing my favorite piece, "Home Sweet Home," and one day it sang it so pathetic that the tears fell from its bill, flooded the cage, and the poor bird fell in and was drowned."

Paddy: "Something like that happened to myself in Ireland. I got a present of a thrush from a blacksmith and I put it in a wicker cage. Its favorite whistle was "The Village Blacksmith," and one day it sang it so real that the sparks flew out of his beak, set fire to the cage, and the poor thing burned hisself to death."

PLACING THE BLAME

Keen, But Nervous Amateur—"I say, old chap, what shall I do if they ask me to sing?"

Candid Friend—"Do? Why sing, of course—it'll be their own fault!"

Brought to Book For Theft Four Years Ago

Case of Liquon Stolen From Magistrate Lets Two Men tence — Charge Against Freight Shed at Coe Hill Off on Suspended Sen- One is Reduced

That "the long arm of the law" is something more than a trite saying was again evidenced last week when the theft of a case of liquor from the Canadian National Railways four years ago almost to a day, came up before Magistrate O'Rourke and one man was found guilty of the theft and another pleaded guilty to receiving some of the stolen liquor. Thos. Sunderland of Trenton and Arthur Ralph of Coe Hill were the two men involved. Crown Attorney Donnan prosecuted and H. D. Graham was Counsel for Sunderland and Major H. J. Smith acted for Ralph. The case was heard last Friday and Inspector Flynn and Detectives Morden, Hope and Anderson were here in connection with it.

John Flynn, formerly agent for the Railway at Coe Hill, now stationed at Parry Sound, gave evidence that a case of whiskey which arrived at Coe Hill on Saturday, February 14th, 1920, on train No. 65 was placed in the freight shed and on the following Monday witness missed same and later reported it had been stolen. The lock on the building had been sprung.

Gave Clear Testimony

Arthur Ralph, who was later charged with receiving a quantity of stolen property was the next witness for the Crown. He swore that be is the night watchman at Coe Hill fo the Railway and was at the time of the alleged theft. He remembered a case of liquor had been stolen but could not be sure of date. He had put the box of liquor in the freight shed. Sunderland had asked witness if there was an liquor around and he (witness) told accused he had put some liquor in the freightshed. He had left Sunderland at the station and gone to get a pail of water. When he was returning be saw Sunderland going toward round house carrying a box on his shoulder. He followed him up to the round house and saw accused put the box on the cab of the engine and also saw him open the box there. It contained a jug. Sunderland then, witness stated, burned the case in the fire box of the engine and removed the cork from the jug and both men had a drink of the contents, which witness said was rye whiskey. Witness also admitted having a few drinks on Sunday at the bunk house.

Cross-examined by H. D. Graham, solicitor for Sunderland, witness claimed he had not previously had any liquor illegally but had treated his friends at his house on several occasions but not Sunderland.

Engineer's Evidence

Samuel Taylor, the engineer on the train that brought the liquor to Coe Hill, swore that while in the bunk house on the night in question Sunderland had awakened him and asked him to have a drink. Witness saw three bottles of liquor, and Sunderland handed witness one from which be took a drink. The bottle was not sealed. It was a "G. and W." bottle. Ralph was present. Witness had had another drink on Sunday when Ralph and Sunderland were again both present. Two bottles were finished at that time and witness had put the third bottle in his grip, being given it by Sunderland. Witness did not know where the liquor had come from.

Called in Own Defence

Thos. Sunderland the fireman on the train, was called in his own defence and strongly protested his innocence. On the day in question he had gone to bunk car about 7.30, going there direct from the engine. He had asked Ralph if be had anything to drink. He replied that he knew where there was some liquor. Taylor and witness then went to bunk house for their supper and Ralph came later and told accused he knew where there was some liquor. Ralph, accused said, went out about fifteen minutes later and accused followed him and met him at the round house. Ralph told him there was some liquor at the station. "We went down afterwards in about 15 minutes to the station and freight shed." "Ralph told me he had a case of liquor on the platform and he asked me to watch—I didn't see him go into the freight shed. He had no pail." Ralph had a box, accused claimed, which he saw him take to the round house. There, accused said, Ralph opened the box, which contained a jug and he helped him bottle the liquor, using eight quart bottles. Each took some bottles and went to the bunk house and the accused wakened Mr. Taylor and "we all had a drink". He had later heard of liquor being stolen from the station but did not know he had drank stolen liquor.

The Magistrate, summing up the case, said he could not see his way clear to believe Sunderland's evidence as against that of Ralph and Taylor. He therefore found Sunderland guilty and sentenced him to one year, sentence to be suspended, the accused to give bonds for good behaviour in one $500 surety to be furnished by himself.

Pleaded Guilty to Receiving

The original charge of theft against Ralph was then changed to one of receiving stolen property knowing it to have been stolen and to this charge be pleaded guilty. He was also given a year, on suspended sentence, and to furnish two sureties, one given by himself for $500 and another for $500 by another party. He also made restitution for the stolen liquor.

Heart Disease Deaths on Increase-- Fast Pace Cause

By WILLIAM J. LOSH
(United Press Staff Correspondent)

Washington, Feb. 22.—Death beckons to man through many doors, but the gateway most frequented by Americans is that marked "Heart Disease." Census Bureau records of the causes of death in recent years show.

In order, the next outstanding causes of death in adults are influenza and pneumonia, tuberculosis, nephritis, Bright's disease and cancer.

Physicians ask of the prevalence of heart disease: "Is this the result of the swift pace of American life?" Sociologists ask: "Is this not due to the trend away from the healthy, wholesome outdoor occupations to the sedentary ones of urban life?" No one has given a satisfactory answer.

Heart disease took 154,495 lives in the United States in 1922, an increase of more than 15,000 over the 139,264 deaths from this cause in 1921. The rate jumped from 157.1 per 100,000 population to 156.7, and led all other causes of death by a wide margin.

Medical science has advanced several tentative explanations of the recent increase of heart disease, prominent among them that advanced for all major diseases—that is, the fact that more and more people are living to the age when heart weaknesses and other major ailments develop.

Another explanation offered is that the influenza epidemic of the war period carried off a great many persons afflicted with heart weaknesses, so that the rate dropped in succeeding years, only to rise again now.

Two possible explanations seem to be favored above all, however, now. They are, first, that the illness of childhood which, until recent years grew apace, left many young hearts and other organs weakened, to succumb now to heart and other diseases, and, second, that as more Americans huddle in cities, living without restraints, and among temptations to eat more and loaf more, their resistance to ailments predisposing to heart weaknesses is lessened.

Sound Living Remedy

The same is said of influenza and pneumonia and nephritis and Bright's disease. Only education and constant adherence to the tenets of sound living will bring their rates down doctors say, though they make exceptions for influenza and pneumonia.

Deaths from the latter in 1922 totaled 124,441 against 88,456 in 1921, an increase in rate from 99.8 to 135.5.

Deaths from nephritis and Bright's disease in 1922 numbered 83,518 against 75,616 in 1921, an increase in rate from 85.4 to 88.5.

The dwindling menace of tuberculosis in recent years has been one of the marvels of medical science. Where a decade a go it led all causes of death with a rate of over 140 per 100,000 science and medicine have beat it down steadily, year by year, to 97 in 1922. In that year, 90,425 persons died of it against 88,135 in 1921.

This successful fight on the dread "white plague" is, in the opinion of many, due entirely to the active campaigns waged by national, state, and local health boards to improve living conditions, housing and food. Methods of treatment of afflicted persons, of course, have improved, but its prevention, more than any other thing, has cut the rate.

Cancer is one of the mysteries of medical science. It continues to flourish and no one seems to know its origin. There are many explanations, but there is no general harmony of opinion among doctors. In 1922 80,938 persons died of it against 76,274 in 1921, an increase in its rate from 86 per 100,000 population to 86.8.

There is encouragement in the belief of staticians that the increase in its rate does not inherently indicate its spread, but to the fact that more persons live to the age at which it flourishes and more important still, that it is now more accurately diagnosed, and more people are reported as having died from cancer, though it is not necessarily a fact that more actually have died from it.

PLAN OPENS TOMORROW FOR KIWANIS JOLLIES

"Give me 25 tickets for the Kiwanis Jollies". Thus was one Kiwanian greeted yesterday by a local man. It does seem hard to believe that's true and it was just as hard for the said Kiwanian to believe it—but when he seen the actual money forthcoming it was a case of "Seeing is Believing" and he produced the tickets.

Of course that buyer was really more interested in the work the Kiwanis are doing that he was in the show—and he took that as a means of helping along the good work among the underprivileged boys. He is by the way having as his guest at the show 25 returned soldiers in whom he is especially interested.

But Kiwanis are not asking for charity they're putting on a show of the first order, Bright snappy music and mirth and it will be two evenings of real engagement for all who attend.

Mr. Al Wilson who is directing the staging of the Jollies is enthusiastic as to the prospect of a real show.

Lets get behind Kiwanis and boost for two big nights, Monday and Tuesday.

Women's Low Cuts

SCHELL IS ACQUITTED OF MURDERING FRIEND IN HUT IN WILDERNESS

Jury Returns Verdict of Not Guilty in Peterboro' Court—Fiery Eloquence of Counsel for Defense Seldom Equalled in Annals of Peterboro' Court House—Lasts Two Hours

DEATH PICTURED

Tragedy in wilds and Death Agony of Comrade Rattled Him, Says Counsel—Panic and Wandering in Wilderness Caused by Harrowing Experiences—Judge Says Narrow Call

Peterboro, Feb. 23.—John Schell, charged with the wilful murder of Geo. Washington MacNeal while the two men were isolated in a lonely hunting shack last October, was acquitted last night when the jury returned a verdict of "not guilty." Mr. Justice Mowat, in setting him at liberty remarked that it had been a narrow escape, and gave the credit for his acquittal to C. G. Frost, of Lindsay, the counsel for the defense.

Defense Counsel's Eloquence

Mr. Frost in his address to the jury, which lasted two hours, reached a height of forensic oratory probably never before equalled in Peterboro' Court House. In graphic language he painted the picture of Schell returning from the spring on the eventful Sunday morning, the thumps he heard as he reached the corner of the shack, the heavier thud and the lighter rattle that succeeded, and Schell's perturbation as he approached to look on MacNeal's death agony.

The jury and the spectators who crowded the court leaned forward in rapt attention as Mr. Frost vividly described the effect on Schell of his friend's piercing death shriek, how it affected his injured head so as to throw him temporarily into a panic, how he later got lost in the bush in his eagerness to rush to civilization with his awful tidings, and declared Schell's statements were the outcome of his harrowing experiences.

No Evidence Produced

"Is there one title of evidence in this case that George MacNeal was killed by another?" he demanded.

"I do not remember one person saying he was killed by another. The Crown has not produced more than a mild suspicion that John Schell fired the shot. That is not even circumstantial evidence."

ALLOW CHILDREN TO MARRY

The Angora Assembly has passed a law permitting girls aged 9 to marry boys aged 12 in order to increase the population of Turkey rapidly.

NOT THIS RAMSAY

Mr. Thomas Ramsay, College-Street, is not the Thomas Ramsay who appeared in police court yesterday morning to answer an O.T.A. charge.

THE WEATHER

North and northeast winds, continued low temperature tonight and Sunday with occasional light snow.

COMING EVENTS

Missionary evening of the A. Y. P. A. on Friday, February 22, will be changed to Social evening, owing to unforeseen circumstances. 20-3td

An opportunity for everyone to hear Alfred E. Henderson, traveller, writer, lecturer, Y.M.C.A. Assembly Hall, Sunday, Feb. 24th, at 4 p.m. Subject "The Man Who Acts". A practical message of applied optimism. Women are specially invited. 1td

SHINGLES USED TO CAMOUFLAGE ALE SHIPMENT

Case in Toronto Revolves Around Seizure of Carload of Strong Beer

FILLS U.S. ORDER

Declare Arrangement Made By Brewer at Order of Clary and Davis

Toronto, Feb. 23.—Is it legitimate and bona fide for 160 barrels of Ontario bottled ale of considerable strength to masqueraded as 1,250 bundles of Ontario shingles, for the sole purpose of getting past the customs authorities into the United States?

That was the question which Magistrate Cohen was called upon to answer in Health Court yesterday. It was such a puzzling problem that his Worship postponed his answer for a week.

The matter revolved around the seizure of a car load of ale in Parkdale C.N.R. yards by provincial officers last Dec. 20. The car, according to evidence given yesterday, was billed as containing 1,250 bundles of shingles, consigned by the Adanac Lumber Company, Toronto, to Clary and Davis Lumber Company, Syracuse, N.Y. Inside the door were a few bundles of shingles which give the cargo a legitimate appearance, but behind the shingles was the barelled ale.

ORDERED BY PHONE

And the whole thing had been so arranged by the Cosgrave Brewing Company at the order of Clary and Davis. According to the evidence of James Cosgrave, president of the Cosgrave Export Brewing Company he received on Dec. 10 a long distance call from a party by the name of Clary, at Syracuse, asking if the brewery was in the way of selling for export. They said they had lots of export stuff on hand. After consulting with someone else, Clary came over, and arrangements were made to load the car as stated. Cosgraves were responsible until the wheels, turned, then Clary and Davis assumed all risks.

Permit to Use Name

"Who is this Adanac Lumber Company?" asked defence counsel James Haverson, K.C.

"We could not sell that beer as from the Cosgrave Export Company. We had to use the name of lumber company here and send to another lumber company in the United States. We applied and got permission to use the name of the Adanac 'Lumber Company," replied Mr. Cosgrave.

"That's part of the camouflage?" —"Yes".

QUICK THINKING SAVES CASUALTIES

Runaway on Front Street Stopped in Nick of Time By John Goodman

Suddenly frightened by a passing motor car a horse, attached to a cutter and driven by Mrs. J. Reddick, of Rosmore, bolted from the west end of the lower bridge, where it stood and created havoc for a few minutes at 9.45 this morning.

Galloping to Front street, the frightened steed bolted south and when a group of women loomed up in front turned for the sidewalk which was cluttered with Saturday morning shoppers.

John Goodman, R. R. No. 4 who was unloading cabbages in front of Boyle's grocery along with another man noticed the run-away. There was sufficient space between the rear of his sleigh and another standing sleigh for an entrance, and the horse galloped in between the two sleighs. Goodman jumped between the window and the horse which was going top speed, and grabbing the halter delayed the animal until he secured one rein, with which he pulled the horse so hard on the mouth that he crashed on the sidewalk.

Neither cutter nor harness was damaged and the horse was not even scratched. Mrs. Reddick, the driver, and her companion, Mrs. Manahan, 16 Pope street, were both in the cutter during the run but were not injured. P. C. William Evans who was present, took the horse to a feed barn.

Aged 80, He'll Sail the Pacific in 40-Foot Boat

By NEA Service

San Francisco, Calif. Feb. 22.—Eighty years old, Captain R. W. Nye soon will be sailing to the South Seas in a 40-foot schooner.

He has made and lost three fortunes, and this trip is planned with the hope of gaining a fourth.

Crew for the 35-day trip to the Galapagos Islands will be Nye, his wife and John J. Sjostrom.

The Gala pagos Islands are seldom visited, but are rich in pearls.

"A small boat and plenty of canvas, that's the way we'll go," explains Captain Nye. "We want plenty of thrills as well as plenty of pearls."

CAPTAIN AND MRS. R. W. NYE (UPPER LEFT) WILL SAIL OUT OF SAN FRANCISCO BAY IN A 40-FOOT BOAT FOR THE SOUTH SEAS. JOHN J. SJORSTROM (UPPER RIGHT) IS THE THIRD MEMBER OF THEIR PARTY. THE HULL (LOWER) HAS BEEN COMPLETED AND SJORSTROM IS NOW WORKING ON THE CABIN.

HOME RULE IN INDIA IS NEAR

Dominion Government to be Allowed When Factions Are Again United

CASTE PROBLEM

Caste Feeling Among Hindoos Presents More Serious Obstacle than other

By J. W. T. MASON

(Written for the United Press).

New York, Feb. 23 (United Press).—Self government for Indian, similar to Canadian automomy, awaits only the ending of discord between the moslems and hindoos, who compose most of India's population. As soon as the antagonistic religionists separate their modes of worship from politics, they will be able to show a united front to the British Labor government, and dominion home rule will follow.

The release of Gandhi from prison by the British home authorities is a move toward establishing harmony in India. The British laborities want to give India every possible measure of self control consistent with keeping British imperial interests secure. Absolute independence will not be granted by the Macdonald ministry under any consideration; but as soon as India can be trusted to carry on local government by herself alone, quasi independence will come.

The moslems distrusted the hindoos, accusing them of being fearsome and academic talkers and unwilling to fight. The hindoos declare the moslems have no intellectual powers and are always quarrelsome.

The Caste Problem

The caste feeling among the hindoos presents a more serious obstacle to cooperation than personal antagonisms. It is contrary to hindoo caste for a hindoo of high class to sit in the same assembly with the moslems. There have been efforts among hindoos to eliminate caste from politics, but they have only partly succeeded.

The public drinking fountains in India have on one side the notice, "This side for hindoo gentlemen," and on the other side the notice, "this side for moslem gentlemen." There are many other intentional and public differentiations between the two sects.

Before Gandhi was imprisoned two years ago for sedition, he had succeeded in winning the support of large numbers of moslems. Gandhi's personal character is so pure and guileless that he has gained the confidence of the moslems where others have failed. During old feelings of antagonism between the two races broke out afresh.

Gandhi, however, is capable, perhaps, of effecting a new reconcilliation. If he does this, he will have gone a long way toward clearing the road to home rule But Gandhi has always failed as a negotiator with the British government. Lord Reading, the Viceroy of India, who has liberal ideas, has tried repeatedly to persuade Gandhi to declare in detail what kind of self government for Indian would be acceptable for him.

Wanted England Out.

But Gandhi has always refused to do this. He has insisted that the British get out of India altogether. and then,

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre. Watch every night's paper—your name may be there anytime. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

The feature picture tonight is "The Son of Kissing Cup."

PARIS CHAMBER SITS ALL NIGHT

Government Financial Program Adopted After Discussion Lasting Many Hours

Paris, Feb. 23.—(British United Press Staff Correspondence by Webb Miller)—The Chamber of Deputies, after an unprecedent session which lasted through the night, at 7 a.m. today, adopted the Government financial program.

The vote was 354 to 218. The Chamber voted on more than one hundred articles during the night. Dawn found many dozing in their chairs and attendants had to awaken them at the roll calls.

Despite exhaustion, Premier Poincare kept his seat through the session and made a brief speech before the final vote.

There are already rumors of happy results from the work of the commission of experts examining Germany's capacity to pay reparation the Premier said, adding, however, that France must be prepared to bear for a certain time the affects of Germany's defaults.

NOTED TRAVELLER TO SPEAK SUNDAY

Alfred E. Henderson, Writer and Lecturer, to Talk on "The Man Who Acts"

Men and women of Belleville will be given an opportunity of hearing a bright address at the Y.M.C.A. Assembly room Sunday afternoon at 4 p.m. when Alfred E. Henderson, traveller, writer, and lecturer will give a short talk on "The Man Who Acts," which is a practical message of applied optimism.

Henderson, who is a newspaper man has visited many countries of the world for newspapers which he represented. At the present time he is touring Canada, writing descriptive and critical stories of cities and towns for leading newspapers and magazines of United States, Canada and Europe.

One of Mr. Henderson's greatest desires is to firmly establish Canada in the theatrical world.

BERLIN ENVOYS FORESEE CRASH

Era of Starvation Is now Apprehended After a Reign of Plenty

MARKET FLOODED

Little Hopes is Expressed Among People of Agreement on Reparations

Berlin, Feb. 23 (United Press).—Officials here believe that Germany's temporarily return to "normalcy" is dangerously liable to be followed by a terrible smash.

Some of these authorities on whom the British government relies for its information as to German conditions foresee that an era of starvation—even in the agricultural communities—can ensue. Their view is very pessimistic. They fear that unless an earlier reparation settlement comes, conditions similar to the famine in the Wolga district will arise within the German farming provinces.

Farmers, they fear, may plant less for their next harvest than they have hitherto done. Such a course would naturally bring with it a famine in the cities, too, as Germany never has been able to produce enough grains and meats for her populace.

At the moment, Germany's visible supply of meats and grains in surprisingly large. The food stores are crammed to overflowing with the plenty of the land.

But, it is explained, this plentitude is due to a dumping process on the part of the big land owners. For a time they held back their wares as they did not care to accept falling paper marks.

With the introduction of the renten mark they flooded the markets with their goods. But they killed too much cattle, it was claimed.

This pouring of cattle and grain on the city markets is destined—still in the opinion of outside officials—to lead to a severe collapse probably only a few months hence. The reason for this excessive slaughter of cattle lies in the fact that the landlords were compelled to gather hastily money for new taxes.

It is foreseen, however, that the agrarians will reach a point where they say that there is no profit for themselves, but that instead their substance is eaten up by too heavy tax burdens.

If they reach this point, it is then figured that they will adopt the scheme of the Russian peasants, namely, the planting of less acreage and the slaughter of fewer cattle. The results of such a policy would clearly be catastrophal.

The rentenmark is now thoroughly stable. The nation has confidence in it. But those who delve beneath the surface realize that it is only a transitional currency and that a stable gold money must be produced. Moreover an excess of exports over imports and an excess of state income over outgo must be achieved if actual stability of currency and conditions is to be had in mid Europe.

BELIEVE NET OF LAW HAS SNARED MEMBER OF FUR BANDIT GANG

Suspect Held in London as One of Those Who Robbed Tobacco Store Has Same Name and Answers Description of Man Wanted Here in Connection With Robbery of Woodley's Store

FINGER PRINTS

Belleville Police Authorities Receive Photograph of Man Named Richards—Picture Stated Unofficially That of Man Wearing Coon Coat Who Visited Stores Previous to Spectacular Robbery

Is the James R. Richards now in custody in London jail the same Richards who registered here at Hotel Quinte previous to the Woodley fur robbery, and is he the man who visited the Woodley store the day before the robbery? That is the question which local police officers are attempting to solve to-day.

Early this week Richards was arrested in Toronto as a suspect in the Scales and Roberts robbery where a large quantity of tobacco was taken, a reward of $500 having been offered for his arrest. He is now in custody there.

Belleville police immediately got into communication with London, and to-day received a photograph and finger prints of the Richards now in custody there. It was stated unofficially this morning that the picture had been identified as that of the dark man wearing the coon overcoat, who visited the Woodley and Hyman fur stores previous to the big burglary.

It is believed that the finger-prints will be sent to Ottawa and the result of the Ottawa investigation may throw additional light on the mystery.

When seen this morning by The Intelligencer, Mr. Russel Woodley stated that the facts outlined were correct.

PRESSES CAUSE OF REFERENDUM IN O.T.A. TALK

J. A. McCausland Declares Intention to Fight at "Smoke" In Toronto

McBRIEN ASSISTS

Declares thousands of Temperance People will vote Against Act

Toronto, Feb. 23.—"I am going to do my utmost to have something done this session and if there is nothing to report at the end of the session it will not be for the want of fighting.' said J. A. McCausland, M. P. P. speaking in reference to the O.T.A. at last night's annual "smoker" of the Ward Four Conservative Association which packed Alhambra Hall. Mr. McCausland suggested that a Government liquor vending system would soon wipe out the provincial debt.

Fred McBrien, M.P.P., favored a referendum within six months.

"I am a temperance man," he said "but unless I am badly mistaken, there will be thousands of temperance people here who will vote against the present administration of the O.T.A. Unless a person is a fool or a lunatic he will appreciate that the present method is nothing but a system of bootlegging."

Col. J. A. Currie, was of a similar mind. He, too, would like to see a change during the summer

Other speakers included Senator Lougheed, Hon. Forbes Godfrey, T. L. Church, M. P. and David Spence, M. P.

BANK BANDITS GET RICH HAUL

Manager and Messenger of Vancouver Branch Held Up By Masked Men

Vancouver, B. C., Feb. 23.—Armed automobile bandits at noon today robbed J. Anderson, Manager of the Fairview Branch of the Imperial Bank of Canada and W. Branwell, messenger for the bank, of $32,000. The robbery took place on Granville street, in the heart of the retail dis trict.

The money was being transported from the head office of the bank to the barnch in a small automobile driven by Mr. Anderson. The bandits were in a larger automobile which had been following the bank car through the city streets, and gradually edged up on it, forcing the smalelr car toward the curb. Another automboile was parked near the sidewalk, and in order to avoid a collision the manager was forced to come to a stop.

Masked Men Spring Out.

The moment this was done two masked men sprang from the larger car, one carying a revolver and the other a sawed-off shotgun.They attacked both sides of the smaller car.

The $32,000 was in a smaller satchel. Under the threat of death, Mr. Bramwell who at first attempted to draw his revolver, was forced to hand the satchel over to the robbers. They then disarmed the two bank employees, and, jumping to their own car, fired their guns in the air to intimidate the startled citizens who witnessed the robbery.

Collision Narrowly Averted

The engine of the larger car was running and another bandit was at the wheel. He started off with a sudden jump as his fellow-crooks sprang abroad and the car disappeared at a tremendous rate south on Granville Street. In making a turn from Pacific Street to the Granville Street bridge, the bandits, car skidded and almost collided with another automobile. The number of the bandits' car was secured.

Were All Young Men.

According to descriptions furnished by eye-witnesses, the bandits were all young men.

The denomination of the stolen bills was given by the bank as follows: 100 50-dollar bills; 1,500 ten-dollar bills; 500 twenty-dollar bills, and $1,500 in one and two-dollar Government notes.

DRAGON THAT SPITS FIRE IS LATEST GERMAN MOVIE STUNT

By CARL D. GROAT

(United Press Staff Correspondent)

Berlin (By mail to United Press).—German film producers are striving to gain a foothold on the production of spectacular films in which American producers have hitherto lead.

The most ambitious attempt in this direction is the filming of the world known folklore of the Nibelungen. The Ufa-Decla concern of Berlin has produced this saga, immortalized by Wagner and his music. Two years had been consumed in making the production with an army of actors, architects, engineers and stage hands.

The dragon in the picture, looking frightfully life like, is 70 feet long, and weighs nearly two tons. The beast is able to climb down rocks, drink water and move its ugly head in any direction. It spits fire at a distance of 25 feet and when Seigfried attacks it with his sword, it wraps itself in a veil of flames.

While the German film producers are striving for a foothold with spectacular products Germany imported from abroad more than 200,000 meters of foreign products. The works of Charlie Chaplin, Jackie Coogan, the Gish sisters, Mary Pickford and other American stars are now constantly displayed in the bigger metropolitan houses.

Let there be harmony in things essential—liberty in things not essential—charity in all.

BISHOP OF THE BOLSHEVISTS

Specific charges of heresy have been brought by three bishops of the Episcopal church in the United States against another member of the House of Bishops. While the accused clergyman has retired from active jurisdiction in his diocese of Arkansas ,he is still a member in good standing in the American church.

Bishop Brown is charged with having declared that Jesus Christ is a fictitious character and with having signed himself, "Bishops of the Bolshevists and Atheists." The charges are not denied, but the bishop asserts that he will fight any efforts to eject him from the church.

Since his retirement—more or less compulsory—from the active work in his see, Bishop Brown has devoted himself to writing and it is the matter contained in his books rather than in his sermons that has resulted in the charges against him. His books, according to the Toronto Mail and Empire", have been widely read by free thinkers and are accepted by them as widely as the works of Ingersoll and Voltaire, while he himself is a prime favorite. with the communists whose cause he espouses.

The best place for the gentleman in question is Soviet Russia. There he could dispense the kind of teaching that appeals to the anti-Christian and infidel. Russia has denied Christ as the bishop is also said to have done, and when a minister of the Christian church repudiates the very Founder of his faith it is high time that he threw in his lot with those who openly deny the tenets of Christendom.

The church has more to fear from enemies within her gates than from any attack from outside forces. The spirit of anti-Christ is abroad in the land today and while the faith will in the end stand all such attacks against it, they come at a time when the world needs stabilizing influences and the steadying force of an unquestioned moral power.

SUCCESS OFTEN MISUNDERSTOOD

A New York young man scarcely out of his teens committed suicide recently. He left a unique letter of explanation. He said that he for a long time had realized his inability to confront conditions. He found that if he succeeded in killing himself it would be the first success of his life. He frankly and candidly admitted that he did not possess the stern stuff that was needed to get along in the world.

Such is the fruit of modern paganism. Life to the Christian is a good thing, no matter in what lines it be cast, no matter what weakness one may have. He knows that God alone has the right to measure to success that success is in the trying more than in the accomplishment.

He knows, too, that no matter what conditions he may have to confront, no matter how unable he may be to cope with circumstances, God and His grace are never wanting.

TOOTHACHE EPIDEMICS

The Chairman of the License Commission for Ontario, according to the report in our columns, has been making some facetious remarks about the purchase of liquor. He is reported as saying that over $400,000 was used to purchase liquor last years for people who "would have died if they did not get it." Then he went on to speak of an epidemic of toothaches which had broken out in the province since dentists had been offering their patients the privilege of treating their teeth either via the gas or the liquor route. The patients chose the latter, and toothaches had apparently become a contagious disease since the O.T.A. went into effect. After that he said that horses must also have their little "toddy" before going into a race, and veterinaries were among the authorized issuers of "scrips" who had become offenders. Going on he referred to the use of liquor for sacramental purposes, Mr. Hales, stated that it was nothing short of remarkable to note its increased use for this purpose among the ranks of the Jews, who declare that not only the Rabbi need it, but the congregation also must have it at certain periods during the year to conform with their religious duty.

Thus it will be seen that the chairman of the License Commission really brought veiled charges against a large proportion of the public, which appears to us at least not to be a subject for facetiousness. It is rather a proof of what so many people have been contending, ourselves included, that the Ontario Temperance Act requires to be amended, so that people can obtain liquor in a perfectly legal way, under proper safeguards, when they require it, and at fair prices.

It is satisfactory to find that the Hon. W. F. Nickle has promptly taken Mr. Hales to task and the latter has apologized for the speech. It was absolutely uncalled for, and in the eyes of many people, offensive. But it affords another reason why the bill for holding a referendum just introduced should be passed. At present the law is leading to unseemly dissensions and disagreements.

PRESS OPINIONS

THE SCAPE-GOAT

(Woodstock Sentinel Review)

The responsibility of the press is admittedly very great, but there ought to be a limit placed somewhere. Not long ago two "home" boys in this country committed suicide, one after the other. The second boy is said to have read about the death of the first, and so the press was blamed.

In London a man killed his sweetheart. It is said that he read about a man in Hamilton who had done the same thing, and so the press was blamed.

Unfortunately there are a good many people in the world who are not very well fitted for the struggle for existence. No doubt somebody will make the discovery that the newspapers are responsible for such people being here—if the newspapers did not print birth notices, such people might never think of being born.

THREE MAGIC WORDS

(Marion Star)

What do you think are the most beautiful words in the English language A contest to select the most beautiful twenty words, recently conducted in New York, resulted in the following choice after thousands of people had submitted lists.:

Melody, splendor, adoration, eloquence, virtue, innocence, modesty, faith, joy, honor, radiance nobility, sympathy, heaven, hope, love, harmony, liberty, happiness and purity.

Grace, justice and truth were rejected by the judges, it is announced because of the harshness of the "g" in grace and the "j" in justice and "truth" was not accepted because of its metallic sound.

But there was no explanation given as to why God, mother and home were rejected from the list. If we had been one of the judges, we should hav insisted that these be accepted as the very first, for God, mother and home, so far as we are concerned, are the most beautiful of all the words in the English language.

TREACHEROUS REDS

(Lindsay Daily Post)

Having discovered that they scored a failure when they tried to pull the wool over the eyes of the British Labor government, the Bolshevist oligarchy speaking through the Third Internationale, proceeds to make a declaration again of propagandist war against Great Britain. It talks about a demand for complete independence for Ireland, India and Egypt, and advocates a general movement for depriving all capitalists of their rights.

The development is instructive. It demonstrates once more the utter perfidy of the Red regime in Moscow, and it stands as a warning to the outside world to keep clear of diplomatic and trade relationships with that gang until it gives guarantees of good character which can be depended upon. Incidently the British Premier must be glad he was cautious and canny.

THIRSTY WASHINGTON

(Quebec Telegraph)

The utter failure of the prohibition movement in the United States and especially in Washington, is shown by the fact that the supply of liquor in the capital is increasing rather then diminishing. There are 300 blind tigers in the city and at any of them liquor of all sorts can be purchased. Sound whiskey is a thing of the past except for the wealthy. Synthetic gin and corn whiskey fetch from $4 to $10 a quart. One guess is that there are 5,000 bootleggers in Washington, which works out at an average of one for every hundred people.

Of course the police are not as active as they might be, for the correspondent says that two heads of the city government recently attended a banquet at which quart bottles of Scotch and punch were openly served.

Music & Drama

HERE'S A FILM THAT RECALLS BOYHOOD DAYS

Influence National Heroes Have On Youngsters Is Vividly Depicted

There's many an official of high rating in the business world who was just once just an alley kid—and often times a tough kid at that.

And that fact hasn't been overlooked by the press agents who have their own little axes to grind. The results of the efforts of the press agents are well apparent. There is scarcely a prominent figure in the world's affairs who does not have the interest of the public centering around his life, especially his boyhood.

The same thing holds true in the kingdom of sport. For every champion in every line of sport there is a world of interest in the individual himself.

So when the baseball public commenced to cast its favor toward one Bat Shugrue, home-run king of the Pacific Coast Baseball League and hero of "Trifling With Honor," the Universal-Jewel production which will be at the Griffin Theatre Monday, Tuesday, Kelsey Lewis, a writer for a sports news syndicate, conceived the idea of writing a series of articles on the life of Bat Shugrue.

The result of the published articles was the remoulding of the life of a tough kid of the alleys who tried to live in reality the kind of life that the newspaper articles described in the autobiography of the famous baseball player.

William Slavens McNutt evolved a story of unusual human interest when he wrote the story for Collier's Weekly.

The story was adapted to the screen by Frank Beresford and Raymond L. Schrock and produced at Universal City under the direction of Harry A. Pollard with an all-star cast.

The gripping interest of the story has been entirely sustained in the picture which affords a high quality entertainment.

NATIONAL DIVORCE LAW ADVOCATED BY NOTED AUTHOR

Would Insure Happiness and Reduce Divorces, Claims Norris

"Divorces should be as hard to get as a snowball in June," says Major Charles G. Norris, author and authority on marriage and divorce.

Major Norris believes that a national divorce law would insure marital happiness and reduce the number of divorces. According to statistics one married couple in eight are divorced in this country, and this is due to the fact that each state has its own divorce laws. In other words, a person can be legally married in one state and divorced in another.

"If people knew that they could not rid themselves of their spouses so easily, they would choose mates more carefully, then make a more determined effort to make their common life more harmonious. To-day many persons marry, not because they are deeply in love, but rather that they want to experiment. In the back of their minds is the thought that if it turns out badly, they can divorce and try again."

"Brass" tells the story of the marriage of Philip Baldwin and Marjorie Oldacs, and the ultimate realization that they are un-suited to each other; that they married hastily, and that they should be divorced. The upshot of their respective careers is said to form the structure of an engrossing photodrama.

The picture will be shown at the Regent Theatre, beginning Monday.

Ask Big Damages From Vanderlip

Two Ohio Publishers File Suit for $600,000 against Financier

OIL PROBE SEQUEL

Defendant Issues Statement Welcoming Proceedings In Court

New York, Feb. 22 (United Press).—Louis H. Brush and Roy D. Moore, owners of the Marion, O. Star have brought suit for $600,000 against Frank A. Vanderlip, New York financier, and former president of the National City Bank, alleging that his speech of February 11, in which he declared the Marion Star was purchased from President Harding at a figure twice its value, impugned not only their own character, but the character of the late president.

Vanderlip's Statement

"I welcome these court proceedings," Frank A. Vanderlip said today referring to the $600,000 libel suit brought against him by Louis Brush and Roy D. Moore, purchasers of the Marion Star.

Vanderlip is alleged to have "wickedly and maliciously" charged the plaintiffs with bribing Warren G. Harding to fail to perform certain of his official duties as president of the United States.

The banker said: "The courts are an effective means to bring out the facts. I therefore, welcome this court proceeding. I hope that it is the forerunner of other court proceedings. There is nothing this country needs so much at the moment as some court proceedings initiated by grand juries and pressed by incorruptible prosecuting attorneys.

"Twenty-two months ago in April, 1922, the Senate, by unanimous vote, called for the facts in the Teapot Dome leases. That resolution was so framed that the red flag of suspicion was run up. For weeks no answer at all was received and none was urgently pressed for and thereafter until quite recently the search for facts was made without vigor. What were the newspapers doing for twenty-two months? What was Senator Walsh doing? It looks as if somebody had been asleep at the switch, or perhaps asphyxiated at the switch. At least no court proceedings have yet resulted from the Teapot Dome situation.

Profound Conviction

"Corruption has attacked the government at its heart.

"I believe I am a patriotic citizen and I propose to offer the same service in fighting this danger that a young man should offer in fighting foreign invasion. I am really enlisted in this matter because of profound conviction. My attitude hides no motives of partisanship. I have been a lifelong Republican. I believe that the facts are not fully presented to the country and even when presented are not being acted upon. I am prepared to spend quite as much as has been asked for in these court proceedings in an effort to make public some of the news that the great newspapers do not see fit to print."

THE COACH'S JOB

Something of the taskmaster, the general and the diplomat, and a lot of the doctor must be hidden away in the man who would be the coach of a successful football or track team.

Emergencies of all kinds are his daily routine. A thorough knowledge of first aid is as essential as a knowledge of the game played by his men.

Bumps, bruises, strained ligaments and muscles are every day happenings, but the coach never becomes contemptuous of them. He knows that if neglected, they may result in anything.

Trainers everywhere keep Absorbine Jr. in their lockers. They use it not only for sprains, cuts and bruises, but for the skin and blood protection of its disinfecting properties. In one convenient container it combines the functions of a number of preparations.

It is the first of all the First Aid requisites in use in all of the leading athletic clubs.

And there are just as many everyday uses for Absorbine Jr. in the homes of Canada as there are in the training camps. Always keep it in the home where you can "jump to it" in case of emergency. $1.25 at your druggist.

McMURRAY MAY LEAVE CABINET

Ottawa, Feb. 22.—The retirement from the Cabinet of Hon. E. J. McMurray is rumored today. "The whole situation is under consideration," was the announcement in regard to the Solicitor General around whom a considerable bad odor has arisen because of his connection with the Home Bank case.

Meanwhile the rumor is broadly circulated today and is credited that the Solicitor-General is on the point of resigning to relieve the Government of any embarrassment in dealing with the banking question.

It is also reported that Mr. McMurray has received a hint from the head of the Cabinet that his retirement might be an acceptable development.

"I have nothing to say," was the very abrupt comment of the Solicitor-General this afternoon to the rumors of his resignation.

It has come as a surprise to the Government that he was involved in the Home Bank case.

Among the Chaff By Omar Cayenne The Watchdog

Kingston member of the "Fourth estate" was recently introduced to a sample of "The Higher Education" of Queen's University. He "told" Attorney General William Nickle on the boys.

—o—

Those who blamed lack of snow last winter for dry wells last summer, should, like the consumers of near beer, have no kick coming now.

—o—

"Ha, Ha," laughed "Our Lady of the Snow." "While they make love to me, I will give them pneumonia."

—o—

Kingston Whig Carried a story recently with two identical headings over it. A double header so to speak, and it wasn't a "snow story" either.

—o—

Latest night robbers—radio parties.

—o—

"That's that," muttered the dinner guest, when he finished the meal. "The knives and forks came out just even."

Gerhard Heintzman's prices are sale value twelve months in the year.

Home Made Cough Mixture Considered Best

Spreads Over Membrane, Soothes, Heals and Stops Cough Almost Instantly.

Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best.

Simple coughs, or stubborn coughs, it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

It's fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice the costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

And remember—any remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

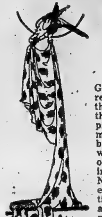
SINCLAIR'S

New Wash Fabrics



The first showing of Wash Goods for the coming season is ready, and wise shoppers will be the first to see them. Naturally the prettiest materials will be picked up first, for it is an easy matter to make selections now to be made up later. Many new weaves are shown in wide ranges of patterns and colors. Crepes in firm weaves, Ratine Voiles, Normandy Voiles with their beaded effects, figured Voiles and Ratines. All are shown in variety and the prices are pleasingly moderate. Some particularly good values are priced 85c. and $1.00 yard.

Cotton Batting

Though Raw Cotton has been steadily increasing in price these Cotton Batts are the lowest price having been bought two years ago. Rock River Brand in clean White Batts. Priced 18c., 30c., 45c., 60c. and $1.25.

BLACK SATIN

Cotton backed Black Satin in a very lustrous finish. Finest quality for linings or cushion covers. Will give good wearing service, 36" wide priced $4.50 yard.

WOOL BLOOMERS

Made from finest of Wool in a good range of shades. Priced $2.75.

BAGS & PURSES

Good looking Bags and Purses are ready in good variety for your selection. Made of solid leather in newest shapes. Priced $1.19 upward.

SATINETTE

Finest quality English Satinette in striped design. 37" wide, 15 shades at 75c. yard.

SINCLAIR'S

Our Special 20% Discount Sale Will End February 29th

With our special discount of 20% on all our furs it brings prices lower than they have been for years, and much lower than what they will be next fall.

The last fur auction sale showed an advance in price on almost every fur, which means an increase in price on all furs made up now, therefore if you are thinking about a fur coat buy it now, it is only necessary to put a small deposit on any article to secure it.

UNIQUE MEMORIAL

Stones from Gallipoli and Palestine will occupy prominent positions in the Oshawa War Memorial. Dr. T. E. Kaiser was notified yesterday morning by the Toronto representative of the White Star Steamship Company that his company will secure and transport the stones in question. Information as to just what is wanted will be sent forward and the stones will be secured without delay.

IN MEMORIAM

OAKLEY—In loving memory of our dear wife and mother, Eloise Oakley, who slept away in Jesus, Feby 24th, 1923.

The blow was great, the shock severe,
We little thought the end so near.
'Tis but a year ago to-day
Since God called mother dear away.
And never a day but her name is spoken,
Never an hour but she is in our thought
A link in our family chain is broken,
She has gone from our home but not from our hearts.

Husband, Mabel, John and Earle.

NOTICE OF MEETING

"U. E. L. Celebration Corporation 1924" requests yourself and friends to attend a meeting at the Public Reference Library, College Street, near St. George St., Toronto, on the evening of Wednesday, February 27th, 1924, at 8 p.m. to hear reports as to the progress of the celebration of the 140th anniversary of the settlement of Upper Canada by the United Empire Loyalists, and for general business. The meeting is open to all persons who are interested in the celebration whether U. E. Loyalists or not. Date of celebration, June 16th and 17th, 1924, at Belleville.

Col. S. S. Lazier, President. R. H. Ketcheson, Secretary.

The following among others will take part in the meeting:—W. S. Morden, K.C., President U. E. L. Association of Canada; W. W. Hiltz, Mayor of the City of Toronto; Hon. Edmund Bristol K. C.; Geo. A. Kingston; Hon. J. R. Cooke; Sir John Willison; Dr. J. L. Hughes, President York Pioneers; H. C. Hocken; Fred Dane; Hon. Manning Doherty M.P.P.; Austin Latchford; W. E. N. Sinclair, K.C., M.P.P.; W. H. Ireland, M.P.P.; W. C. Mikel K.C. mayor of the City of Belleville.

G.W.V.A. will hold a 3rd of June Celebration As Usual

NOTICE

Rev. H. B. Kenny of the Tabernacle Church, Belleville, will give an address in the Orange Hall, Front St., city, on February 26th 1924 to Orangemen. This will be an interesting and educational address. All Orangemen of sister lodges are cordially invited to come. f23-2td

A GOOD SHOW

The Arlie Marks Company appearing at the city hall again played to a large audience last night. The hall was filled to its utmost capacity, and every one who saw the show said it was the best seen in Belleville for some time at popular prices. Miss Marks is surrounded by a cast of competent people, who know their business like all tradesmen. Working under difficulties with a small stage, and making four complete changes of scenery is a piece of art in itself. "The Little Girl That God Forgot," is a good play and leads a story to those present that will live with them as long as time. Every member of the company played their individual roles without a flaw and deserve special mention. The snappy vaudeville between the acts of the play allowed no waits while changing scenery, and were well received.

Many times we have paid as high as two dollars to see worse shows than Miss Marks is giving Belleville theatregoers at the old time popular prices. Tonight this company will appear for the last time in "Cindes," a comedy with 1000 laughs.

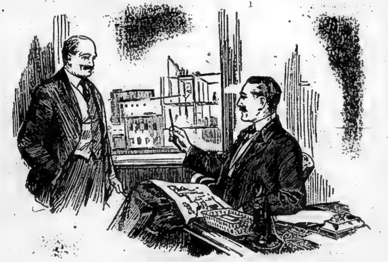
The company goes from here to Kingston where they will appear in the Grand for three days, then to Peterboro and Hamilton. The reason the company is playing in the city hall is that owing to sickness on the show, they cancelled their original dates in the Griffin, and after avoiding any lay off could not obtain dates which forced the show to play at the city hall where they claim they are enjoying their four days in Belleville.

DIED

GRANT—In Belleville, on Saturday, February 23rd, 1924, Catherine Grant, in her 68th year.

The funeral will take place from the family residence 14 Burton Street, on Monday 25th inst., at 2.30 p.m. Services at the house at 2 o'clock. Interment Belleville Cemetery vault.

For a good used piano or Phonograph try Gerhard Heintzman's



"Health Is After All Your Biggest Asset"

EXCESSIVE mental strain—worries and anxieties consequent on the ups and downs of business—

The difficulties in estimating what the future holds in store—

These are some of the causes which have hastened the end for many prominent men during recent years:

Employer and employee alike have been subjected to greater strain of brain and nerves than ever before.

Too often the value of guarding the health has been overlooked and the results are a warning to the survivors to remember that health after all is our biggest asset.

It is comparatively easy to restore the exhausted nerves by the use of Dr. Chase's Nerve Food provided treatment is begun in reasonable time.

When digestion breaks down—when you cannot rest or sleep—when you find yourself nervous and irritable you may be sure it is time to ease up and begin the use of this restorative treatment.

The brain and nerve cells are not getting proper nutrition. Nor will they so long as too much nervous energy is wasted in worry and anxiety and too little left to control the organs of digestion.

There is no magical way in which the depleted nerve cells can be restored.

They must be patiently nourished back to health and strength.

This restorative process is best brought about by the use of Dr. Chase's Nerve Food. This has been proven in so many thousands of cases that evidence is to be found in almost every community. Ask your friends and be master of your health by using Dr. Chase's Nerve Food.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. for 35 pills, instead of 25c. for 25 pills.

Edmanson, Bates & Co., Ltd., Toronto.

Deaths and Funerals

MRS. CATHARINE GRANT

At an early hour this morning Mrs. Catharine Grant passed away at the family residence 16 Burton street city. Deceased who was 69 years of age was born at Ilhay, Scotland and had resided here for some years. Mrs. Grant was a lady highly esteemed by all who knew her. She was a member of St. Andrew's church. In addition to the husband, three sons, John, Donald and William all of this city and one daughter, Mrs. Margaret Campbell of Saskatchewan, survive. The latter was at the bedside of the mother when she passed away.

Shingles Used

(continued from page one)

"And the reason for the camouflage was——?"—"That it might on their behalf elude the customs at the border."

Under cross-examination by Mr. McRuer, witness said that the local permission was given by Mr. Macdonald, president of the Adanac Lumber Company, which witness said he believed was now defunct.

"Do you know if Clary and Davis run a lumber company?" asked the Crown.—"They call themselves general distributors."

"Of what?"—"Various commodities."

The Crown stated that Davis had been here last Thursday, and wanted to know why the case hadn't gone on that day.

"Because," said witness, "they had their own solicitor along. He advised them that if they went into the witness box and gave sworn evidence, they might get into serious difficulty on the other side on a conspiracy charge."

"You could have proved last Thursday out of Davis' own mouth that they were the legitimate consignees, and you didn't"—"They refused."

"Do you get many orders from the States?"—"Many."

"And you ship many loads of liquor to the States?"—"We do to the water's edge."

"Do you ship much liquor camouflaged?"—"We have never had occasion to do so before."

"You can't swear as to where that liquor was going?"—"Only to the best of my knowledge."

"Wonder if They Did"

"And to the best of your knowledge, Clary and Davis might have done anything with that liquor by arrangement with the railway company. They might have unloaded it at Hamilton."—"It would have been a wonder if they did."

Mr. Haverson argued that the whole transaction was bona fide, declared that no man in his senses would go to all that trouble in camouflaging if the liquor were intended to be side tracked in Ontario. Mr. McRuer pointed out that Mr. Cosgrave admitted making out the deceptive railway papers, and that his surest proof of bona fides would have been to produce the consignees as witnesses.

Home Rule

(Continued From Page One)

he says, there will be a divine revelation showing India the best thing to do.

No such fantastic plan could be accepted by the British government. Civil war undoubtedly would break out among the Indians if the British army and British officials were to be withdrawn. Then Russia or Japan or some other nation would threaten to step in, and Great Britain would have to return to save India from foreign molestation.

Gandhi's term in prison may have given him time to ponder this controlling factor in the case. If so, Gandhi is now in a position to be the saviour of his country. If he is willing to endorse a plan for self government within the British empire, and if once more he can reconcile the moslems and hindoos, India will find a successful solution of her administrative difficulties.

Should Gandhi still remain obdurate, he will have to give way to another leader. Anyone, then, who can smooth over India's domestic religious difficulties and who will not dodge details of self government will become national leader.

MR. WRIGLEY SAYS:

I believe in newspaper advertising. I spend about a million dollars a year for newspaper space to tell the world about the goods I have to sell.

Nearly everybody reads the papers and they are the most effective medium to reach the buying public quickly and often.

Royal Templars of Temperance held a concert Friday evening. The concert consisted of:

Chairman's Address—Br. Rueton.
Chorus by the lodge.
Recitation by Miss Marsh.
Cornet Solo—Br. Wardle.
Recitation—Edna Dowzer.
Piano Solo—Evelyn Longden.
Reading—Mrs. Naylor.
Piano Solo—Miss Barlow and Miss Meyers.
Recitation—Miss Madden.
Recitation—Miss Marguerite Naylor.
Guitar Solo—Mr. Chas. Naylor.

TODAY OUR HAT'S OFF TO

FRANK KALTALER of North Bergen, N. J. He possesses the world's greatest collection of brand new right-foot shoes. In fact he has to pack away more new "kicks" than a mule would have any use for. Years ago Frank lost his right leg.

He's been buying pairs of shoes since and using 50 per cent of them. Part of the other 50 per cent may be seen on the ground posing proudly with him. Notice how shiny they are? Haven't been used. And won't be unless some chap with a left leg missing comes along and strikes a bargain.

Frank's married and has three children. His hobby is walking. Last year he hiked 100 miles alone. It makes him healthy and strong. In fact, he admits he's stronger than a cup of coffee in a one-arm cafeteria.

Yep—our hat's off to Frank to-day!

Atlantic City Prepares For Big Easter Crowds

Atlantic City, N.J. Feb. 21.—(United Press).—The spring festival here will open April 20, Easter Sunday, and it will see a bigger crowd than ever on the board walk to witness the annual fashion parade.

Although the "Playground of America" is thronged with guests the entire year, many of those who sojourn to Florida for the winter return from southern skies with the advent of spring and preparations are being made to handle a monster crowd this year.

One of the big events to be held here early in the season will be a marble shooting tournament from June 1 to June 7. There will be sixty boy and girl champions from as many cities and the beach will constitute the stage for the games.

The play rings will be on solid ground, similar to previous tournaments, and there will be a repetition of the entertainment for the youngsters.

The Beauty Pageant will be held the latter part of the summer season, and this year four days will be given over to the annual frolic instead of three, as formerly.

Whats' in a Name?

"What is your name?" the impatient vote clerk cried.

"Levinsky, sir," the voter said, with pride.

"And what's your Christian name?" then asked the clerk.

"It's Battling Hogan, sir," the pug replied.

This Pure Cream Ends Head Colds

APPLY IN NOSTRILS—IT OPENS AIR PASSAGES INSTANTLY

Colds and catarrh yield like magic to soothing, healing antiseptic cream that penetrates through every air passage and relieves swollen, inflamed membranes of nose and throat. Your clogged nostrils open right up and you can breathe freely. Hawking and snuffling stop. Don't stay stuffed up and miserable.

Get a small bottle of Ely's Cream Balm from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.

Relief to Thousands

During the past 20 years T.R.C.'s have brought relief to thousands of sufferers in the treatment of Rheumatism, Lumbago, Neuritis and Sciatica.

T.R.C.'s drive from the system the poisonous matters that are the cause of the trouble, and quickly rid you of pain.

That Body of Yours

By James W. Barton, M.D.

RINGING IN THE EARS

You are bothered with ringing, almost a sort of singing noise in the ear. It sometimes gets very loud, and gradually dies down, but never completely disappears.

It is very annoying, but finally you muster up courage, or rather sense, and see an ear specialist.

He may find that your hearing is affected and that some real trouble has started away inside your ear, either in the very inner or perhaps middle portion.

You've had a cold, perhaps some trouble with your nose and throat, and it has extended up the little tube from the throat right into the middle ear. Sometimes it is due to an actual back pressure from swelling of the covering of the little bones in nose.

On the other hand, he might find that some cerumen—wax—was tight up against the drum of the ear and that when he removes that, the noises disappear.

Perhaps when swimming you have put some cotton or paper into your ears to prevent water going in, and have forgotten to remove it. This collects some wax about it, lies up against the drum, and prevents the drum vibrating properly.

Fortunately in most cases, it is due to some interference with the auditory—the hearing nerve—which may be below par with the rest of the nervous system.

Repeated sounds are often responsible for the condition.

The hum of the city, the barking of dogs, some forms of music may account for it.

A special form of this ringing sensation in the ears is frequently found in telephone operators.

It is spoken of as "telephone tinnitus".

A period away from the telephone usually removes the condition.

If your specialist can find no cause for the trouble don't feel badly, because it is a hopeful sign.

Where it is due to actual chronic trouble in the inner or middle ear, it often fails to yield readily to treatment.

Where it is due to other causes the outlook is better. Some physicians claim to have helped many cases, by restricting the diet, watching the intestine, and getting their patient into the country.

WORSE OFF THAN EVER

A man seeking advice from a young solicitor on how to avoid his creditors was instructed to place all his property in his wife's name.

Later the solicitor presented his bill for services rendered and received the following reply:

"Dear Sir: I took your advice and placed all of my possessions in my wife's name, and now I have no money to pay for your services."

ALL IN THE [illegible]

"What's the matter with Smith? Got lumbago or spinal curvature or something?"

"No, he has to walk that way to fit some shirts his wife made him."

WHY PUT IT OFF?

"Do you have to see a doctor before you get booze in this town?"

"No, afterwards."

Cards All Night; Dies In Morning

Murderer Refuses to Accept Last Rites of Church, Although Importuned by Clergy to Do So

Regina, Sask., Feb. 23—Declaring that if there was a hereafter he could go there without any of that kind of thing, Fred Huss, alias Joe Fry, of Virginia, aged 35, went to his death on the gallows at Regina Jail at dawn yesterday, steadfastly refusing to make any supplication.

Fathers O'Hare and Kearney, of Regina, visited all night with Huss in an effort to induce him to take the last rites of his faith, but Huss only stopped them in their prayer, saying, "It is no use now; it's too late." The condemned man played cards all night and chatted conventionally.

Walking indifferently to the gallows, Huss paused at the entrance while the guard opened the door. He mounted the steps with ironical boldness. As he stepped on to the trap he said to Hangman Ellis, "Where is that drink you promised me?" "Haven't got it," said the hangman, who forthwith adjusted the caps and rope and sprung the trap. It was exactly seven seconds from the time Huss stepped on the trap until it was sprung. Death was instantaneous and the break a compound one. During his incarceration since last June, Huss had not been inclined to talk.

Huss paid the death penalty for the shooting of Gus Hollenbeck, of Dollard, in June, when he shot the latter during an attempted hold-up in a pool room of which Hollenbeck was the proprietor. An accomplice, Staven, a farmer, with whom Huss lived, was discharged when Huss assumed all guilt for the shooting.

Toronto (formerly Windsor)

THE MOUNT ROBSON ROUTE ACROSS CANADA

The delights of a trip across Canada never fade in memory, the interest never wanes and the ecstasy of one day's travel through the Canadian Rockies is an experience of a lifetime. The route of "The Continental Limited," which runs daily between Montreal and Vancouver with direct connections from Toronto, traverses the beautiful lake country of Northern Ontario. From Winnipeg to Saskatoon and Edmonton it passes through some of the most fertile lands of the great prairie provinces. A night's run from Edmonton and you are in Jasper National Park and the glorious Canadian Rockies, embracing some of the finest mountain scenery in the world—then on to the Pacific Coast through an ever-changing panorama of magnificent and stupendous scenery. The Canadian National line through the mountains skirts Canada's highest peak at the easiest gradient and lowest altitude of any trans-continental route, the highest point reached in crossing the "Great Divide" being 3,712 feet. You will consult your own interests if you will make your trip west by the new way. "The National Way"—you have the choice of various routes. You have the option of making the journey in a splendid tourist car at minimum cost, or, if taste dictates, the more luxurious Standard Sleeping Cars or Compartment-Library-Observation Cars are at your disposal.

The equipment on the "Continental Limited" is all-steel and modern in every particular.

Get full information from any Canadian National Ticket Agent.

Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Cold Felt On Local Market

Owing to the severe cold weather and many of the county roads being badly drifted, the attendance upon the market today was somewhat limited. In consequence of this state of affairs, prices were good for all products offered for sale.

On the outside market dressed meat and wood were the features, with a couple of market gardners present. Dressed beef sold from 8c to 12c by the quarter and pork $13 to $14 by the hundred weight.

Wood sold from $7 to $10 per load according to quality and size.

Butter was scarce and was readily disposed of at 45c per pound. Fresh eggs whilst quite plentiful, commanded a good price namely 48 c and 50c per dozen.

Dressed chickens sold from $1.50 to $2.50 per pair. A goose offered for sale sold at $3.50 which was an excellent price. Ducks sold at $1.40 and $1.50 each.

INTERESTING ADDRESS AT ARMOURIES

Geology from a motor car was the subject discussed last evening by Dr. Coleman of Toronto in the lecture room of the Armouries. The address was given under the auspices of the Women's Canadian Club and despite counter attractions there was a large number present. The subject was illuminated by lantern slides and was explained in a most interesting manner by the speaker.

At the close a note of thanks was tendered Dr. Coleman by Miss Masson vice president of the club, who acted as chairman in the absence of the president.

ST. THOMAS' GIRLS ELECT OFFICERS

The Girl's Branch of the Women's Auxiliary of St. Thomas Church held their annual meeting Friday afternoon, in the Parish House. The officers elected for the coming year were as follows:

Hon. Pres.—Mrs. Beaumont Jarvis.
Pres. Mrs. J. W. Davidson.
Vice-Pres.—Miss Amy Wallbridge.
Treas.—Mrs. Kink.
Sec.—Miss Ethel Gorman.

Reports that were read showed that the past year was a most successful one.

BIRTH DECREASE ALARMS FRANCE

Steady Decline in Number of Marriage Since Last Year

Paris, Feb. 22 (United News)—The decrease in the French birthrate which is causing wide-spread anxiety, and the more striking decrease in the number of marriages offers little hope for a greater French population unless more intensive propaganda is successful.

According to figures just published in the National Alliance, a service working for increase in the French population the number of marriages in the ten leading cities of France, fell from 73,971 in 1921 to 50,227 in 1923.

In 1922 there were 68,850 marriages.

Out of the ten cities the birthrate decreased in six and in Marseilles, Lyons, Lille and Strasbourg the increase in each was less than 200 between 1922 and 1923. Paris showed a decrease of 1,590 last year, registering only 46,451 births.

The number of deaths in the ten cities shows very slight decrease by comparison with 1922, but is insufficient to offset the decrease in births and check the decline in population. There were 86,614 deaths in 1921, 81,778 in 1922 and 81,552 last year.

The Alliance feels the decreases in marriages and births cannot be entirely explained by higher living costs and taxation, and its members are trying to discover and correct if possible, some psychological reason.

TROOP-CARRYING AEROPLANES SUCCESS IN BRITISH ARMY

London (United Press).—The British army in her dependencies has worked so successfully the develop troop-carrying aeroplanes that experts are now planning something far more impressive.

The Air Ministry has under contemplation the construction of a machine that will accomodate about 50 fully-armed soldiers—about a platoon of infantry. It is to be built entirely of steel.

The fuselage is exceptionally roomy. Seats, similar to those of the interior of an omnibus, and made to fold back against the sides of the cabin when not in use, are fitted.

This development indicates the coming of the time when armies will be whirled to action, through the air, at a speed of two miles a minute. Fifty men need not represent the limit of which the 'planes may be capable. Experts assert that there is no reason why machines should not be built that would be able to carry even 100 or 200 troops.

DISTURBING NEWS

An Irish servant girl asked leave of absence for an hour to consult a fortuneteller. She returned wailing dismally.

"Did she predict some great trouble?" asked her mistress sympathetically.

"Och, maa'm, sich therrible news!" moaned the girl, wringing her hands.

"Tell me what she said," asked the mistress, wishing to comfort the girl.

"She tould me that me father works hard shovellin' coal an' tindin' foiren for a livin'!"

"But that's no disgrace," said the mistress, a trifle vexed at such affectation.

"Och, ma'am, me poor father!" sobbed the girl. "What a hard time he must be havin'! He's been dead these noine years!"

Nervous Indigestion

SOME OF ITS CAUSES AND HOW RELIEF MAY BE OBTAINED

Many people suffer from nervous indigestion. The commonest causes are worry, overwork, lack of exercise, or a general run down condition of the system. It is a disease of the nerves rather than of the digestive organs, and is corrected by giving needed nourishment to the nervous system and building up the blood.

The treatment consists largely in rest, recreation and the use of a true tonic such as Dr. Williams' Pink Pills. In addition, the patient should follow a careful diet, and avoid coffee and stimulants these being unsuitable for nervous people. As one's nerves rely for nourishment upon the blood, the latter must be built up and made rich and pure, which is just what Dr. Williams' Pink Pills do. If there is loss of weight and pallor, Dr. Williams' Pink Pills are especially helpful. Mrs. Adolphus Villeneuve, R.R. No. 2, Apple Hill, tells as follows how she obtained relief:—"I was so bad with nervous indigestion that I could not digest anything I took, and as a consequence was a great sufferer. I doctored for four months, but seemed to be getting worse instead of better. I lost strength to such an extent that I could hardly go about. Then my mother came to see me, and urged me to try Dr. Williams' Pink Pills, and I followed her advice and got a supply at once. After taking a few boxes I felt my strength returning, and I continued their use, until at the end of a few months I could eat anything I desired, had regained my old time health and strength and was in every way a well woman. I am so thankful for what Dr. Williams' Pink Pills did for me that I always advise their use when any of my friends are run down or ailing."

You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams Medicine Co., Brockville, Ont.

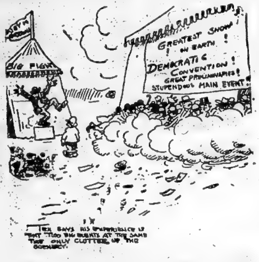
WELCOME FIRPO— APRIL FOOL!
AH, APRIL FOOL, LOUIS
HELLO LOUIE! APRIL FOOL!
?
COME ON, LUIS— JUMP RIGHT THROUGH HERE.
OH MEESTER TEX— HONEST— I NO MUCH GOOD FOR JOOMP!
LUIS ANGEL FIRPO
TEX
FIRST AGREEMENT
"FIRPO WILL COME AROUND EVENTUALLY."
PROBABLY FIRPO WILL ARRIVE EARLY IN APRIL — AN ARMY OF PROMOTERS WILL EXTEND THE COMPLIMENTS OF THE SEASON
IT SEEMS LIKELY THAT FIRPO WILL HAVE TO GET PAST WILLS BEFORE HE TACKLES DEMPSEY AGAIN.
R. Edgren 2-24.

SPORTS THROUGH EDGREN'S EYES



BIG FIGHT
GREATEST SHOW ON EARTH!
DEMOCRATIC CONVENTION!
GREAT PRELIMINARIES!
STUPENDOUS MAIN EVENT!
TEX SAYS HIS EXPERIENCE IS THAT TWO BIG EVENTS AT THE SAME TIME ONLY CLUTTER UP THE SCENERY.

If you want to know what's going to happen in the world of sport ask Tex Rickard.

I asked Tex. Here is his own statement of his plans, and what he knows of the plans of others in promotion of heavyweight championship events. Tex is closer to the boxing situation than anyone else. He has the mind of a prophet. His accurate forecasting of the future has brought millions in at the gates when he put on championships the public wanted to see. If Rickard knows a fight will draw he bids above anyone else to get it. If he knows it won't draw he usually leaves it alone.

"The Dempsey-Gibbons match is very much on," said Tex. "I expect to hold it in New York shortly before the Democratic Convention. I am not planning to hold it during the convention because I am not trying to cash in on having had a hand in bringing the convention to New York. Anyway I've found in my experience that a big event goes best when it goes alone. Two big events at the same time only split up the public's interest and the only way to make a success of anything is to make it the [illegible]est event of the moment, so that everybody will talk about it and be interested in it as long as the excitement lasts.

Firpo Probably Influenced by Friends

"Gibbons is already signed. I expect to sign Dempsey on his return from the trip through the South. Kearns has told me there will be no hitch on his end. It should be an interesting bout. I didn't want the Dempsey-Gibbons bout last year, my programme of bouts for the summer being all I cared to handle. I wanted to see the promoters at Shelby make good, just for the benefit of the sport in general. If I hadn't been tied up with a lot of business here in New York I would have offered to go out there, with no charge, and give them the benefit of my experience in running the bout off. They made a good start, an just a little experienced management would have made the show a success.

They were amateurs," starting off with a bout that was pretty big to handle so far from a big city. The fight itself was all right—good enough for New York or any other place on the map. There will be more interest in the next one because people know how Gibbons is game and clever enough to stand up to Jack and give him a battle.

"How about Firpo?"

"I have no contracts with Firpo," said Rickard. "but I have an understanding with him that he will fight for me this coming summer. I have always, before this, found that boxers keep their agreements with me, just as they know I'll keep my agreements with them. In some of the biggest matches I have made there hasn't been a written line.

If a man's word isn't good his contract isn't good either. I got a peculiar cable from Firpo a week or so ago, suggesting that I didn't count on him this summer. This is probably a hold-up. Firpo has some business friends who think they know more about his interests than he does, and sometimes he listens to them. I don't blame him. It'll be straightened out when he comes back.

No Firpo-Wills Bout in N. Y.

"I read in the papers that the Lew Raymond syndicate has come to terms with Firpo; offered him $250,000 for a match with Wills about July 4th. I hear from reliable sources that Raymond is around town trying to interest capital and is willing to sell don't think anyone can do it success- a part of his syndicate to anyone. It is rumored the Raymond syndicate will build a stadium in Connecticut and hold the fight there. I have been all over the Connecticut proposition in relation to holding championships across the state line only a short ride out of New York City, and have seen local Connecticut promoters make several starts without getting anywhere. It is legal to hold twelve round bouts in the state, but there always has been bitter opposition to any big fight. I wouldn't care to buck public opinion in a neighboring state, and don't think anyone ca do it successfully.

"There is no chance for anyone to run the Wills-Firpo bout in New York state. I would not dream of trying to do it, with the political situation so acute and so many Democrats from the South in the city, with their strong opposition to anything negro.

"The situation is different in New Jersey. I have assurance that there will be no official opposition as Firpo will be classed as a foreigner, and there will be no bitter feeling over his meeting Wills.

"I don't believe there is much of a chance for anyone else to hold a Firpo-Wills bout in New Jersey.

"If Firpo is reasonable and comes to my terms, I will promote the Firpo-Wills match in New Jersey about July 4th. I rather expect Firpo to come around eventually, although I think just now he is trying to hold me up. He will find me ready to make an arrangement that is fair to him as wel as fair to me.

"I am counting on a Firpo-Dempsey bout for the Fall, but this of course would depend upon the result of the Firpo-Wills engagement.

"The re-appointment of Mr. Muldoon to the Boxing Commission is a very fine thing. It will benefit boxing immensely. Muldoon has the interests of boxing at heart and the public has great confidence in his ability and honesty. Mr. Muldoon has been just as severe with me as with anyone else, but I am for him on the Commission."

Argentine Giant Could Develop Left Mitt

This was all Rickard had to say about his plans. He galloped off to attend to his business affairs, which keep him on the jump.

The re-appointment of Wiliam Muldoon will unquestionably save boxing in New York State. Before Governor Smith made a ten-strike by putting Muldoon back, the old game was growing wobbly on its pins. Boxing has never been conducted as well before as under the Walker law.

But it seems that in all professional sport rumors of graft and inefficiency start and grow until they affect public confidence. An ugly rumor is like a stone thrown in the dark—hard to trace to its source but just as damaging as if it was an honest rock carrying a tag and pedigree.

Cables from the Argentine have announced several dates for Firpo's arrival in New York. Probably he will come early in April. Firpo has been having a fine time at home as a national hero, with crowds following him wherever he appears, but it would have been better for him to stay in America and go through a campaign of boxing than to waste five or six months with only a couple of ring affairs in which he won't learn anything. He needs experience and he needs to develop a left hand if he is to go after the championship again.

Senior Basketball At Y.M.C.A. To-night

The probable line-up of the local basket-ball team which will play Queen's University to-night is as follows: Forwards, Armstrong, Doughty, and Nurse; Centre, Hitchon; Guards, Weir, Alexander and Morden. Every last man is in the "pink" and can be depended upon to do his utmost, for the members of the team realize that on this game, hinges their future chances. Besides this there is the sting of a lost game, played in Kingston last week, to be wiped out.

Queen's University were scheduled for a game in Peterboro last night and although returns of this game have not been received up to the present we have no hesitation in stating that both of these teams would realize that they were in a game before the time keeper sounded his gong at full time. Queen's come here to-night with possibly a slight handicap, after a hard game but at that they are not to be under rated and every fan who turns out to witness to-night's game can be assured of obtaining his money's worth.

Previous to the Queen-Belleville game there will be a game between two High School girls teams. The three time winners of the Rigg's basket-ball trophy will take on a team of all stars. This should be an interesting set-to.

While the intermediates are battling at home, the juvenile team have a scheduled O.A.B.A. fixture with the Oshawa Juveniles. A report of this game is expected during the progress of the game here for the benefit of those interested.

CIRCLE SIX WIN GAME 5-1 AND TIE ROUND---PLAY OFF SET

Jock Harty arena was well filled last night for the Belleville-Circle Six hockey game in the junior play off, which Circle Six won by 5 to 1, and incidentally tied up the round of home and home games, Belleville having won the game here Wednesday night last 6-2.

The matter will be settled Monday night for Manager Ed. Thomas states this morning that a sudden death game has been ordered for Monday night and it will be played at Trenton. Herb Matthews of Toronto will probably handle this game.

Last night's battle was a fast exhibition of the winter past time on a fast sheet of ice. The Circle Six kids were Johnny-on-the-spot on their home ice and gave the locals a merry battle all the way. Patterson, left wing speed merchant for the enemy, scored three of the goals while Kirby the white haired juvenile centre man netted the other pair for the Limestone city squad. A. Wardaugh bulged the Kingston net for Belleville's lonely counter.

Harry Batstone handled the game in a good satisfactory manner.

Circle Six—Goal, Grey; defence, Moltz and Lawless; centre, Kirby; wings Hartly and Patterson subs., Compeau and Laflamme.

Belleville—Goal, Lloyd; defence, Strachan and Hunter; center, Wardaugh; wings, Hibbard and Atkinson; subs. Townsend and Delchey.

Point Anne Six Trim the Battery Squad In Fast Game

Leaving a corporal's guard at home, Point Anne villagers came enmasse to the Turnbull street arena here last night where they watched with delight, the defeat of the 34th battery hockey squad at the hands of their Point Anne squad in a schedule game in the second half of the bay of Quinte hockey league. The score was 6-2, and the victory was well earned.

The ice was lightning fast and the game went at a fast clip for almost the full sixty minutes. Point Anne ran wild in the first frame, outskating and outscoring the locals 2-0 but in the second twenty minute go, the soldier boys carried the battle right into the Point Anne territory all the time, but were again outscored 2-1 making the score read 4-1 at the end of the second period.

In a final effort to overcome the lead the battery boys all played up on the forward line in the third go but could not even matters up. The best they could do was raise their count to two, while the boys from the Concrete Club shoved in another pair running their total up to a half dozen to the battery's pair. Considerable tripping and slashing took place of body checking which was used but very little owing to the keen ice and fast pace. The game was clean however, and few penalties were handed out by Referee Roe, of Napanee, who handled the game in a very satisfactory manner. There was no player on the ice stronger than Tompkins last night.

Play Again Monday.

Word was received this morning that Kingston team plays here Monday night against the Battery boys, and Major R. J. E. Graham this morning announced that for that game the prices will be lowered to a general admission of 25 cents anywhere in the arena.

Right now it looks like either Point Anne or Kingston for the second schedule winners, and if the locals can hold the Kingston squad to defeat here Monday, it will greatly enhance the chances of our neighbors from the Point.

Point Anne—Goal, Boland; defence, Tompkins and Maracle; centre, F. Goyer; wings, Brant and Green; subs., Generaux and Gaulin.

Battery—Goal—W. Scott; defence, W. Canning and "Nap." Goyer; centre, Ted Whalen; wings, Laporte and Symons; subs. Arnott, Blute and Hibbard.

Referee Roe, of Napanee.

Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigeston. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right, and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Scarlet Fever is spread through using raw milk. Pasteurized milk is safe milk.

Red Peppers End Rheumatic Pain In Few Minutes

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion—and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

POLICE SERGEANT SHOT BY LUNATIC

Provincial Officer F. B. Creasy Receives Bullet in Chest When Attempting to Arrest Lunatic

Toronto, Feb. 23.—Sergt. F. B. Creasy was shot in the chest and probably fatally wounded to day by Peter Tomac, a Finn, a crazed section hand whom he was attempting to arrest near Port Arthur, according to word received by Commissioner General Williams this afternoon.

The lunatic fled to the bush and is being pursued by Provincial and Port Arthur police. The shooting occurred on a bush spurline at Silver Mountain, thirty miles west of Port Arthur. Tomac is said to be well armed.

Creasy was formerly stationed in Toronto. He is a returned soldier, 32 years of age and married. He joined the police Nov. 5, 1921.

Sinical Sadie Sees

Don't be what you ain't,
  Jes' be what you is.
If you is not what you am,
  Then you am not what you is.
If you're just a little tadpole,
  Don't try to be a frog.
If you're just the tail,
  Don't try to wag the dog.
You can always pass the plate,
  If you cant exhort and preach.
If you're just a little pebble,
  Don't try to be the beach.
Don't be what you ain't,
  Jes' be what you is,
For the man who plays it square
  Is a'goin' to get "his".

If she wont' wash dishes at $50 a week, that's PRIDE. If she'll do them for nothing, that's MATRIMONY.

That Serenity and Composure may sound like old-fashioned virtues, but their benefits are surely needed today.

We took a holiday jaunt out of town this week and got a couple of smiles to brighten the day.

Heard in cafeteria. Man using telephone, "I'm speaking from a cafera, no, a cafera. N-O! One of these here eatin' houses!"

One member of visiting British raquet team to another—"Can you walk in this country? I cawn't, I'm scared to death."

"Are you going down the toboggan slides (in Montreal)? They say you simply d-i-e on the way down. I say, I shawn't try it!"

That to write a good loveletter you ought to begin without knowing what you mean to say and to finish without knowing what you have written.

The reason Swiss girls have such exquisite complexions: it is the custom there, even in midwinter, to serve outdoor luncheons to the school children.

Sinical Sadie says she tried that winter picnic stunt for one whole winter and just look at her now!

That since the "bob" has become the fashion the percentage of women who have suffered from headache has decreased more than one-half.

That the diamond when reduced to powder has a disagreeable odor, and if worn constantly, will make it's possessor selfish and irritable.

Sinical Sadie says this is no excuse for a man not buying an engagement ring. He ought to be a sport and take a chance.

The latest thing in Babbitry in the U.S.A. is the formation of a new fraternal society called the "Order of Bananas." Each society is a "plantation" and they "stick together" in "bunches". Their lodge costume of course is yellow.

We have Rotarians, Kiwanians, Moose, Oddfellows, Ladies' Aids, etc. in Belleville, but "Yes, we have no Bananas" YET.

Sinical Sadie says she heard some local Nuts talking of forming an organization so that they can get together in an annual Fruit Salad with the Bananas.

Sinical Sadie says the yellow costume of the Banana Order is a "slip-on".

That John Masefield said
"He who gives a child a treat
  Makes joybells ring in Heaven's
    street;
And he who gives a child a home
  Builds palace in Kingdom Come."

Our youngest hasn't been to school yet, but has learned to pick out a considerable number of words by the phonetic system explained by an older brother. His chief amusement with books is to go to the index, pick out a familar word; then turn to the indicated page and see how much he can read about it. This week he picked out dictionary to "read" and we heard intense contempt in his voice in the discovery "Hey, kid, this dictionary hasn't got an index!"

Marriage is like a beleaguered fortress; those who are without want to get in, and those within want to get out.

That one Toronto store gives free lessons in Mah Jongg with each set sold. We peeked in their little Chinese booth the other day and listened shamelessly for a few minutes to a girl in a gorgeous Mandarin tunic explaining some of the terms and rules to a bewildered woman and her eager daughter. Sinical Sadie says she saw the lady later at lunch and heard her order "tiles on toast".

WOOD'S PHOSPHODINE. The Great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old Veins. LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

Esther went straight to the piano and began to play softly and dreamily, so softly that Miss Worcester could "talk through" the music.

"Remarkably pleasant he seems, Esther," she said, taking up the knitting with which Esther had been familiar since she was a child. "He is a barrister, and he doesn't practise. I think he has a small income of his own. And he moves in very good society. Did you hear him mention Lady Blankyre?"

"No; I wasn't listening all the time," said Esther, absently. How sternly, almost roughly that young man, "the tramp," had ordered her to stand away from the mare—"I was thinking about something else."

"You are so dreamy, my dear Esther," said Miss Worcester, with gentle rebuke; "I remember I used to call your attention to that failing as a child. He lives in rooms in Claremont Street, May Fair, and he is fond of music and—er—art generally. I think he is a highly cultivated young man."

"Is he?" said Esther. How quietly "the tramp" had spoken to his dog. Perhaps, if she, Esther, had been a dog he wouldn't have spoken so roughly to her?

"Yes, oh, remarkably so. And did you notice his hands, Esther?"

"I'm afraid I didn't, aunt."

"They are really beautiful hands; almost like a woman's."

"Don't think I like small hands in a man—sign of weakness. Anyway, it's poaching on our preserves, aunt!"

"Nonsense, Esther! And he really is very kind and thoughtful. He has been making enquiries about the young baronet, poor Sir John—"

Esther stopped her playing, and looked round with sudden interest.

"Yes? Why did he do that? What has he discovered?"

"Discovered? Nothing more than we know; but you can ask him. Here he comes. Now, would he like a liqueur with his coffee, or not, Esther? I've heard that men like liqueur—"

Esther shrugged her shoulders.

"Then I daresay Palmer has given it to him."

She turned as Selby Layton came in with the slow self-possession of a man who is conscious of his grace and his good looks.

"You have found out something about my cousin—is he my cousin—Sir John Vancourt, Mr. Layton?" she said, with her characteristic directness.

He went to the piano and leant against it, his legs crossed, his head bent, with a mixture of ease and respect.

"I have been making some enquiries," he said; "but I have discovered little that is new—very little beyond what is already known. Sir John—he is your cousin, but ever so many times removed—certainly died in Australia. He was shot by bushrangers, and was discovered immediately after his death—his murder—by the police, who identified him and supplied Messrs. Flow & Flow, the lawyers, with the information and proof."

Esther bent over the piano and touched the keys softly.

"Poor fellow!" she said in a low voice. "To lose his life just as it had become worth living!"

Mr. Layton looked down sympathetically, then his lip twisted; and Esther, who was quick-eyed, looked at him enquiringly.

"Don't you think so!" she asked.

Selby Layton seemed to hesitate.

"He was very ill with fever—so the police said—when he was shot, and would not, in all probability, have lived. I am afraid he had lived rather a wild life."

Esther's fingers stopped as if she were interested.

"How do you know that?" she asked.

"I met a man who had been out in the same parts, and had heard of Sir John Arthur Burton, as he called himself—and my information told me that Arthur Burton was one of the maddest of the mad, that all sorts of stories were told of him. A sort of desperado, I gathered. He had for companion—'chum,' they call it—a man as reckless and wild as himself. I suppose it was the man who was with him when he was killed."

"What was his name—this 'chum' of Arthur Burton's, it is so difficult to remember that he was Sir John Vancourt, Esther said, thoughtfully.

"I don't know," replied Selby Layton. "My informan—the man who told me all this—did not know his name; and strange to say, the police, in their information, failed to give it. Either they did not know it, or they had forgotten it."

"What became of him—this other man?" asked Esther, musingly. "I should like to see him, to hear all about Sir John."

Selby shrugged his shoulders.

"He disappeared rather suddenly, and could not be found, though the police wanted his evidence in the case. They searched for him, but could not trace him. I imagine it is easy for a man to hide himself out there; there are plenty of persons willing to aid him in escaping disappearing."

Esther's brows came together.

"Why should he want to disappear—escape?" she murmured, more to herself than to Mr. Layton.

He smiled and shrugged his shoulders again.

"No doubt he had sufficient reasons," he said. "But he is of no importance—"

—"He was Sir John's friend and companion—was present at his death," said Esther in a low voice.

"Ah, yes, yes; just so!" murmured Mr. Layton, sympathetically. "I know that there was plenty of proof of Sir John's death without the missing man's evidence. There is no question as to your right of possession, Miss Vancourt.'

"No; I'm afraid not," said Esther, with a sigh. "Is that all you heard, Mr. Layton."

"That is all," he said, after a moment's pause, as if he were thinking. "I thought you would like to hear it."

"Thank you, yes. I am greatly obliged to you. I wonder whether I could ask you to add to the obligation?'

She looked up at him with sweet gravity, and Selby Layton's eyes sparkled. There was nothing he desired more than to place the heiress of Vancourt Towers under a real or supposed obligation to him.

"I should be greatly honoured and greatly pleased if I could be of the slightest service to you, Miss Vancourt," he said, with just the proper amount of eagerness.

Esther hesitated a moment or two, touching the keys too softly to produce any sound.

(To be Continued.)

The movies strain some people's eyes

Apparently these folks have not heard of the special lenses we supply for eyes that are sensitive to light and the movies. These lenses remove all annoyance from these causes. So there is no reason why you should be bothered in this way if you ARE bothered. Ready to talk to you any time about it.

Girls! A Gleamy Mass Of Hair

35-Cent "Danderine" so Improves Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drugstore.

"Let Me Tell You"

Beauty is more than skin deep and a good complexion must grow from within, out. Cold creams, powders, lotions etc. have their uses, but they cannot do everything.

Health and beauty depend on good digestion and for good digestion there must be proper food and waste elimination.

Use lots of fruit juices, oranges, lemons and grapefruit taken first thing in the morning and followed by a glass of hot water are great skin clearers.

Eat freely, too, of apples, raw or cooked, also prunes, with plenty of green vegetables.

Drinks lots of water, especially between meals. It is a very important aid to waste elimination.

And do not worry. Worry interferes with digestion. Worry brings lines wrinkles and dull eyes.

Also do not forget the daily bath. Beauty without cleanliness is impossible.

Make a habit night and morning of breathing deeply. Hold the breath while counting twenty, then expel slowly through the nose. Repeat exercise six or eight times. This is not only a hint for the complexion but helps to keep the voice soft and clear.

Cultivate contentment. Contentment brings serenity, poise, confidence and beauty—all worth having, are they not?

Frills and Fancies

Black georgette trimmed with black marabou made a mourning frock recently seen.

A new note in evening frocks is black chiffon over color.

The U is the favored neck line.

Coat frocks will still be popular and the very new ones are opened down the front.

White collars and cuffs of all types are seen on the tailored suits and dresses.

To clean your black velvet try brushing it with a damp (not wet) black silk stocking.

Fashion dictates walking sticks and there are many varieties from which to choose.

That elaborate combs and bandeaus of tortoise shell or carved ivory are taking the place of ribbons and flowers for hair ornaments for formal wear.

Shawls are gaining favor as evening wraps. Some women even make them at home. They buy a great square of heavy silk or gorgeous brocaded satin and finish the edges with long heavy fringe.

For sport wear the cape is newer than the jacket and the tweed suit is giving way to the dress and cape, or dress and top coat.

Pockets are with us again in suits make-believe ones and they will be welcomed by most of us I think.

For evening wear skirts may be slender or very full and flounced.

Three or four of the frocks in "So This is London" were decidedly new. The coral one with marabou trimming, was very pretty. Marabou is seen on both dresses and negligees.

The tiny pockets in Elinor's smart beige street frock and the cascades down the sides of Lady Amy's black and silver evening gown were according to fashion's last decree.

Liu of Chungking Tours the World

Leading Christian Layman of West China Will Visit Canada

HAS ROMANTIC CAREER

Farmer Boy who has Grown Rich Selling Western Sewing Machines

Toronto, Feb. 23.—Liu Dzi Ruh benefactor of Canadian Missionaries in West China, is coming to Canada to celebrate Dominion Day among friends and to learn more Western methods in promoting Christianity and sewing machines, it is announced in a brief article received here from Rev. Henry H Irish, a Nova Scotian, who has worked for years with this great Chinese churchman, lay preacher and sales manager in Chungking, a city of Szechwan Province, West China.

Mr Irish writes a graphic account of Mr. Liu's character and achievements and details many of his plans.

The writer is a graduate of Mount Allison University, Sackville, N.B., and a member of the Canadian Methodist Mission in West China since 1908.

By Henry H. Irish

Mr. Liu Dzi Ruh, the most prominent layman in the Christian Church in West China, left Chungking, his city and mine, on the upper Yangste early in the New Year and is now on a trip around the world, proceeding via Shanghai and the Suez route to America.

I am hoping to come to Canada in the Spring and have invited my parishoner to visit my family in the Maritime Provinces. That will be only a slight recognition of the countless courtesies that he had done me during my stay in his home city and more, especially in his home.

Mr. Liu is the principal member of the Canadian Methodist Church in Chungking. He is general agent for the Singer Sewing Machine Company in this province of Szechwan. That is, it is his business to put a famous Western device at the service of the 65,000,000 Szechwanese.

Of considerable wealth today, the former farmer boy is generous in support of Christian work. In the Chungking district of the West China Conference he has invested in land and the income goes to support a number of schools in country districts.

Revisiting one day the little hill on which once stood the little cabin where he was born and raised, he resolved to build there a church for Christian teaching among his own clan folk. This promise to himself he has made good with great satisfaction.

Chungking knows him as the man who founded and is still head of the city orphanage. Through his influence it has always been Christian in spirit.

The middle school chapel which he gaveto West China Union University in distant Chengtu is a gem of Chinese church architecture.

Through these benefactions and his personal character, Mr. Liu is recognized as the most active Christian layman of West China. His visit will be an honor to Canada.

It is his desire to visit this land from which have come so many scores of his Christian pastors.

We, who live with him in this city, know him well and admire his Christianity. Every day he conducts a Bible class among the workers in his office. He frequently preaches. As head of our self-supporting church here, he has been active in forming classes for worship and Bible study. Our church is sending photographs and gifts to the church in Canada by him.

It is his plan to enter Canada on our great Dominion Day, July 1, 1924. As he speaks no English, although his speeches in Chinese are excellent, an interpreter will accompany him, probably a friend who has been in China with him. Any who do not want to hear just what is being accomplished and what is needed in China had better stay away, for Liu Dzi Ruh has strong convictions and thorough knowledge.

Mr. Liu has several times set up the Singer organization and put life into its propaganda in other provinces of China, but loves Szechwan too well to leave for long. This great tour is considered by his business and church colleagues as frought with possibilities for his country. He will study Western methods, particularly in Y.M.C.A. work and will work out with great energy the plans he brings home. A great believer in young people's and social service work, he has been a strong power behind the young men's guild which we have organised here. He is no narrow sectarian or racialist, but a friend to all men and particularly to the colony of nearly fifty Canadian Methodists here.

Buying Spring Outfit For Fifty Dollars,-Can Be Done

By HEDDA HOYT
Fashion Editor of the United Press

New York, N.Y., Feb. 22.—Rich little poor girl! Do you know her? Her prototype is reflected among flappers, typists, extra girls, out of work and home girls who wash mother's dishes. She's the girl who is rich in health and youth, but poor in pocket money.

And she feels just a little bit glum, in spite of her health and her youth and good looks, because she can't have pretty clothes like Miss Van de Veer of the New York society columns.

But she can just turn up the corners of her cupid's bow and smile, because spring is coming, chuck full of fascinating clothes that are inexpensive and quite as becoming as winter's ermines and sables ever dared to be.

For Fifty Dollars

The other day a sweet little miss from up state asked me to shop with her. She had just fifty dollars to spend on her spring outfit. And we found the loveliest, sweetest things imaginable for her. We went first into the largest and most fashionable shops on Fifth Avenue, not with the idea of buying, but to get a correct idea of what was being sponsored by these places for the young miss. We learned that the suit with boyish lines was the thing for the coming season and since my little friend was the typical girl of today with slender figure, bobbed hair and saucy little face, nothing could have been more becoming to her.

Having gained an idea of what sort of suits were to be worn by the fashionable world, we went to several department stores for our selection, where prices are much more moderate than on the avenue. It was not difficult to find just the right suit for her. This was a little affair of blue Poiret twill, made with a double-breasted jacquette which was bound in bright red leather about the lapels and buttonholes. A little waist-length cape lined in red flannel was attached at the shoulder-seams forming the new cape-back idea. On the left side of the jacquette was a little breast pocket, for which we later bought a red crepe de chine handkerchief, in preference to the voguish monogram fob. The skirt of this suit was just twelve inches from the floor which is the correct length now. Although our expenditure was but 27.50, we had selected a suit of splendid material and with fascinating, youthful lines.

A Little Colored Vest

On the first floor of this establishment we found a little vest printed in Chinese red figures on a tan background. Its buttons were of red Chinese lacquer. This cost $5 and was very good looking over a plain white blouse.

We visited five or six millinery shops before finding just the right hat. Most of them were too tailored or too dressy, but a little off-the-face model with its up-turned brim studded with the tiniest red buttons imaginable proved just the style we were looking for. It was extremely smart on her dark, bobbed head and cost but $6.50.

Next we purchased a pair of black patent shoes with rather low heels and quite plain as to trim. We decided that while her costume was somewhat dressy for the sports shoe, it was too tailored for the strap and cut-out affairs. The shoes were $8.

Our remaining three dollars were spent on two pairs of nude-toned hosiery. Loaded with bags and bundles we went to a room in the Y.W.C.A. where my little miss tried on her purchases.

"How do I look?" she smiled as she gazed at herself in rapture.

"The only real way to tell how you look is to try yourself out on the avenue,' I told her.

I left her tripping up the avenue with no thought in her young head as to her flattened pocketbook. Women gazed at her with that sudden look that means O.K. My rich little poor girl was happy!

LIMERICK

LIMERICKS BY FAMOUS PEOPLE

"As a beauty, I am not a star—
  There are others more handsome
    by far,
But my face—I don't mind it,
  For I am behind it,
The people in front get the jar!"
—The late ex-Pres. Woodrow
  Wilson.

NO NEWS

A whoop-it-up London newspaper publisher was complaining one afternoon that the day had brought forth no news.

"Well," sid a member of parliament who happened to be calling, "you know the old adage."

"What old adage?"

"No news is good news."

"Still," declared the publisher, "it isn't good enough to call for an

:-: POEMS :-: Old and New

HER QUESTION

"Arent' you bigger," she used to say,
  "Than anything that can happen
    you?"
And I had to confess that it was true
Or else be labeled a puny, small
Person of not much use at all!

"Aren't you bigger?" she used to ask,
  "Than anything that can happen
    you?"
So now if I fail in any task
  If I find that I can't help feeling
    blue,
I just remember her asking eyes,
And my abashed, shamefaced replies.

And though she's gone, her question
  still
Keeps me in fighting mood and will.
I hear her, when things don't go my
  way,
"Aren't you bigger?" she used to say.
—Mary Carolyn Davies.

LIFE'S DAY

Like morn's glorious dawning,
  Childhood's days so bright,
Glorious dreams of happy days,
  Pleasures and delight.
Then youth's golden moments
  Like a happy crown,
Love strewn path of roses,
  Chaseth dull cares frown.

In the growing noon-tide,
  Reaching Zenith's heights
Manhood and maidenhood
  Shining in their light
Then the shadows lengthen,
  Life's noontide is past,
  And old age like twilight,
  Ends life's day at last.
—Edith Latta, Belleville.

Little Ah Sid
Was a Chinese kid,
A cute little chap you'd declare,
With eyes full of fun,
And a nose that begun
Right up in the roots of his hair.

Jolly and fat
Was the frolicsome brat
As he played thro' the long summer
  day,
And braided his queue
As his father used to,
In Chinaland, far, far, away.

Once o'er a lawn
That Ah Sid played upon,
A bumble bee flew in the Spring,
"Go Mellican buttle-fly,"
Cried he with winking eye,
"Me catchee and pull off 'um wing."

Then with his cap
He struck it a rap,
That innocent bumble bee,
And put its remains
Down into his jeans,
For a pocket had there the Chinee.

Down on the green
Sat the little sardine,
With a smile that was strangely demure,
And said with a grin
That was brimful of sin,
"Me mashee um buttle-fly, sure."

Little Ah Sid
Was only a kid,
Nor could you expect him to guess
What kind of a bug
He was holding so snug
In the folds of his loose-fitting dress.

"Ki-yi, Ki-ye,"
Ah Sid cried, as he
Rose hurriedly up from the spot,
"Ki-yi, puca-kan
Ki-yi, Mellican Man,
Um buttle-fly velly much hot."

Menu For The Day

SUNDAY BREAKFAST
Grapefruit Scrambled Eggs
Toast Jam Coffee
DINNER
Fried Chicken Cream Gravy
Mashed Potatoes Corn Fritters
Cranberry Jelly Head Lettuce
Russian Salad Dressing
Ice Cream Little Nut Cakes
Coffee
SUPPER
Nut and Ham Sandwiches
Jellied Tomato Salad
Fudge Cake Tea

Corn Fritters—1-2 can corn, 1 egg well beaten, 3 soda biscuits rolled fine, pepper and salt to taste. Let stand 15 minutes. Shape in small balls and fry in deep, very hot fat.

Russian Salad Dressing—This is made by adding chili sauce to your salad dressing.

Little Nut Cakes—2 eggs, 1 cup Brown sugar, 2-3 cup butter, 1 1-2 cup flour, 1 tspn allspice, 1 tspn cinnamon, 1 tspn soda (dissolve in hot water). 1 lb. dates cut fine, 1-2 lb walnuts cut fine, pinch salt.

Drop on buttered pan, 1 small tspnful at a time and bake in fairly good oven. (Test one at first to see they are of right consistency) These are delicious.

1 cup sugar, 2 tbspns cocoa, 1-4 cup butter, 1 egg, 1 tspn salt, 1 tspn soda, dissolved in 1-2 cup sour milk, 1 1-4 cups flour, 1-4 cups boiling water to which is added 1-2 tspn vanilla.

Put together in above order. Bake in shallow tin and cover with boiling white icing.

MONDAY
BREAKFAST
Oranges Cereal
Poached eggs on toast
Hot muffins marmalade coffee
LUNCHEON
Cheese Temptation
Fruit Salad Tea
DINNER
Consomme
Hambourg Steak Tomato Sauce
Baked Potatoes Carrots
Banana Salad
Prune Souffle Coffee

Cheese Temptation—Trim crusts from bread slices and spread one side with cottage cheese. Place slices together. Brown these sandwiches in hot buttered pan. Remove to platter and keep hot. Then melt 1 tbsn butter in same pan and add 1 large green pepper, seeded and chopped fine. Cook till tender, then add 1 can condensed tomato soup, salt and pepper and pour over toast. Serve hot.

Prune Scouffle—1-2 lb prunes, whites 4 eggs, 1-2 cup sugar, 1-2 tbsp lemon juice.

After prunes are cooked remove stones and rub through a sieve, add sugar and cook 5 minutes. The mixture should be the consistency of marmalade. Beat whites of eggs until stiff, add prune mixture gradually, when cold add lemon juice. Pile lightly in buttered baking dish and bake 20 minutes in slow oven. Serve hot or cold with a custard sauce

TOO COMPLICATED

A tourist who had lost his way near a Blackfoot reservation saw an Indian approaching. The tourist hailed him with a series of grunts and the salutation "How?"

"I am quite well, thank you," responded the red man.

"Injun sabe pale face lingo?"

"Not that kind," declared the Carlisle graduate. "It is too complicated for me to follow."

The Talk of The Day

The big sale, stock of shoes included, going on at the Cosmopolitan Store draw the attention from Belleville's keenest and careful shoppers.

The big crowds at our store, gave evidence that it is the only sale worth while. Come! see! buy! save! The big parcels carried out from our store prove that all and everybody have come to share in this saving event going on for 15 days.

On Monday, again, we expect to be busy. It's your duty to your own interest to be one of the early customers and pick your choice at prices never sold before.

Ask your neighbors they will tell you all about the sale going on at our store.

COSMOPOLITAN
FRONT STREET

Rub Baby's Colds Away With Vicks

"IS A WONDERFUL REMEDY," SAYS NEW BRUNSWICK MOTHER

Treat one cold with Vicks VapoRub and, as in the case reported below, you will adopt this external method for all the cold troubles of the family.

When the little ones come in wet and sniffling, just apply Vicks over throat and chest and cover with a flannel cloth. Repeat at bedtime.

Vicks acts like a liniment or plaster. In addition, its ingredients, vaporized by the body heat, are inhaled all night long.

The child is usually better next morning and the bad after-effects of internal dosing are avoided. Just as good of course, for adults.

Mrs. Emanuel Albert, of Ramsay street, Campbellton, New Brunswick, writes: "Vicks VapoRub is a wonderful remedy. My children were all sick with colds and I rubbed their chests with Vicks, always obtaining the best results. My two months old baby was very ill with a cold in his chest and I was afraid he would have inflammation of the lungs for he coughed so much. I applied Vicks and it relieved him. I can't speak too highly of Vicks."

At all drug stores 50c a jar. For a free test size package, write Vick Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

Practical

Some kindly inventor devised a combination knife and fork for use by war vets who lost an arm. Here it is in action.

Transient (setting down his suitcase on depot platform)—Don't they ever have a Clean-Up Week in this town?

Departing Guest—Yes, the hotels seem to be conducting one now.

CHURCH DIRECTORY

ST. ANDREW'S PRESBYTERIAN

MORTGAGE SALE

Under and by virtue of the powers of sale contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by public auction, on Saturday, the 22nd day of March, A. D. 1924, at the hour of 2 o'clock in the afternoon, at the premises, the following property, namely, ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Ameliasburg, in the County of Prince Edward, and Province of Ontario, and being composed of all the East Half of Lot Number 86, in the First Concession of said Township, lying North of the Travelled Road, which runs along the shore of the Bay of Quinte, containing by admeasurement about 30 acres of land excepting and reserving thereout two parcels of land, containing one-quarter of an acre and three-quarters of an acre respectively heretofore sold and conveyed.

The said land is a fine fruit farm, situated on the shore of the Bay of Quinte, with bearing apple orchard of about 600 trees, and good soil. There is a school house on the adjoining lot, the property being situated on the Main Travelled Road along the Bay Shore, and lies between such road and the Bay, and only a short distance from Rednersville and Fruit Evaporator, Blacksmith's Shop, etc. Rural Mail Daily Delivery, Church and Cheese Factory convenient to the said premises, and a barn thereon.

TERMS OF SALE

The property will be offered for sale subject to a reserve bid. 10 per cent of the purchase money to be paid down at the time of the sale and the balance within thirty days thereafter, unless some other arrangements are made to let part of the purchase money remain on mortgage.

For further particulars and conditions of sale, apply to Porter, Butler and Payne 219 Front Street, Belleville, solicitors for the Mortgagee.

"Why do you call your wife Chris?"

This was the question put to a gentleman by a lodge brother who had met the lady once or twice.

"Because that is her name."

"Seems an odd name for a girl."

"Well, her folks gave her a floral name. Her full name is Chrysanthemum. Of course I might use the last syllable," went on the husband, genially, "but she's never mum."

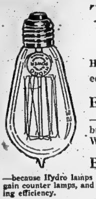
GIN PILLS FOR THE KIDNEYS
THE WORLD'S BEST REMEDY FOR ALL KIDNEY AND BLADDER TROUBLES

For Bladder Trouble

All such disorders as scanty or too frequent urination, brick dust deposits in the urine, or a burning sensation when voiding urine, are entirely due to disordered kidneys. To right such symptoms you must first restore your kidneys to their normal condition. Gin Pills go right to the kidneys relieving them of congestion and so quickly rid you of all bladder trouble. Before a more serious condition arises get the one specific remedy—Gin Pills—50c a box everywhere.

NATIONAL DRUG & CHEMICAL COMPANY of CANADA, LIMITED
Toronto, Ontario

Gino Pills in U.S.A. are the same as Gin Pills in Canada. 26



They Save You Money!

Hydro Lamps are most efficient and economical—

EFFICIENT—

—because every Hydro Lamp you buy is guaranteed to give you full Wattage as marked on the lamp.

ECONOMICAL—

—because Hydro lamps burn half as long again as ordinary bargain counter lamps, and do it without any sacrifice of their lighting efficiency.

LONG LOST CHEQUE IS FOUND IN CHURCH ORGAN TUBE IN OSHAWA

Oshawa, Feb. 23.—The removal of the pipe organ from old St. George's church to the new structure has resulted in throwing some light upon the fate of a cheque lost back in 1914 by License Inspector Mason. The License Inspector has had his cheque restored to him after being ten years missing, but how it came to be where it was found remains a mystery.

Back in May, 1914, License Inspector Mason drew a cheque to cover the premium on an insurance policy due a few days later. He thought he had sent his remittance to the insurance company's head office until a few days later when he received formal notice that the premium was still unpaid. He notified the company that he had already sent a cheque which had evidently miscarried in the mails, so he cancelled it and issued another to cover the amount due.

Ten years went by. Inspector Mason went overseas, played his part in the war and returned to Oshawa, but until yesterday he heard nothing of the missing cheque which he had long since forgotten about. Yesterday the caretaker of St. George's church notified him that a cheque drawn by him and payable to an insurance company, together with the company's statement of premium due had been found among the tubes of St. George's church organ. The cheque was returned to Inspector Mason just as he had drawn it, the only difference being that whereas he had enclosed cheque and statement in an addressed envelope, the envelope was missing and the cheque and statement were merely found folded together.

How it came to the organ pipes is a mystery which will probably never be solved. The inspector can throw no light upon it, for, while he admits that organ pipes are popularly associated with notes, yet they are the last place in the world to select as a depository for a cheque.

YOUTH PULLS GUN AT HOUSE PARTY

Kingston, Feb. 23.—Joseph Fisher, Kingston youth was remanded to jail until Monday for sentence, when he appeared in police court there yesterday.

Fisher is charged with carrying firearms without a permit and also with pointing a gun at another. He pleaded guilty to the first charge. The alleged offence occurred at a house party in the north end of the city where a quarrel marred the harmony of the party.

ADDITIONAL SPORTS

FANNING WITH FARRELL

NEW WAY TO MAKE BOXERS FIGHT

New York, Feb. 23 (United Press).—Regardless of its many failures in the past, the New York boxing commission may yet find a way to force champions to defend their titles, because the commission keeps trying.

Acting on the theory that there must be some way to keep titles out of the safety deposit boxes the commission gamely took the humiliation that attended a lot of beatings and came back for more.

It was at first reasoned that the champions might be shamed into activity, but it became apparent at once that the worst offending of the ducking champions had very little pride in their reputations.

They laughed at suspensions, ignoring criticism and ridiculed the idea that they could be displace without being tapped on the chin.

The commission then tried the method of poking at a sensitive pocket book, but that method failed, too, because the offenders went elsewhere and accepted smaller purses because the chances involved were less.

"We'll suspend the manager of any champion who refuses to defend his title," Brower suggested. "We'll keep that manager from making any matches in this state, not only for his champion, but for every boxer under his management. We'll set down the whole stable, including seconds, rubbers, trainers and everyone who has any connection whatever with the offending manager."

Any other boxer who has anything to do with a suspended boxer or his manager or any boxer in that manager's string will be suspended also, and the manager and all the other boxers under his management will be set down along with him.

This means that if any boxer under the management of Leo Flynn (for instance) who boxed Joe Lynch or any boxer under the management of Eddie Meade, Lynch's manager, the whole stable would be suspended.

This is the most drastic step ever attempted and if the commission tries to put it over it may be the one plan that will prove successful.

It is a cinch that mild measures never will accomplish the desired purpose.

Ty Cobb so far has failed to land a second baseman and that means if Cobb wasn't wearing dark glasses, that the Detroit Tigers are out of the American League pennant race. The boss of the Tigers said he could hope for no big place in the coming season if he didn't plug the hole at second. He tried hard to get Jimmy Dykes from the Athletics, but to give Connie Mack what he wanted in return he would have made a couple of other holes by filling one.

Billy McCarney, Firpo's New York business agent, tells how a certain friendship for his father kept him from getting a place among the victims of the great George Dixon.

"Tom O'Rourke brought Dixon to Philadelphia, taking all comers, and I went around to volunteer," McCarney tells. "They told me to come back the next night, and when I showed up again they told me to come back Thursday night. When I was waiting outside the door on the third trip, one of the men on the door asked:

" 'Are you Jim McCarney's boy?'

"I puffed out my chest and admitted, with some pride, that I was.

" 'You run home to your father and tell him you ought to be kept together,' they said, and gave me the air."

McCarney also tells one about the visit that Farmer Lodge paid him to find out about the offer that had been made for an American heavyweight to meet Firpo in South America. Lodge said that $3,000 and transportation was a good price, and that he was willing to accept.

"How many rounds, Bill?" the Farmer asked.

"Wouldn't make much difference if we said twenty or fifty, would it? You'll only be in there a couple." McCarney replied.

"Think I'm a tanker, uh?" the Farmer said in a huff and took the door out with him.

Frank Carbone, the veteran Jersey middleweight, who has never been knocked out until Paul Berlenbach, the latest fighting sensation, spilled him, is willing to make an affidavit that Berlenbach had lead in his dukes.

"I was never knocked down by a left jab before, and I know there was something in it he claims.

Jess Willard claimed the same thing when he was smacked by Dempsey's left hook at Toledo, but never went so far as to offer an affidavit.

ON THE ALLEYS

The Ramblers and Veronas two lady teams last evening at the Y. M. C. A. alleys battled for supremacy, with the result that the Ramblers were victorious by a good margin. Miss Wilma Ross a member of the winning team made the best score of three strings, namely 445 whilst Miss Brown of the same team bowled the best single game, 161. Miss McColl of the Veronas was by far the best bowler on her team, her score being 408. The players and scores were as follows:

Ramblers			
S. Ford	124	135	120—379
W. Ross	160	153	132—445
L. Brown	161	138	134—433
V. Rowson	118	102	94—314
N. Kemp	104	111	101—316
			1887

Veronas			
Miss McColl	115	142	151—408
Miss Lafferty	82	100	101—283
Miss Canning	93	125	115—333
Miss H. Bell	78	97	97—272
Miss G. Bell	92	96	80—268
			1564

Domenico's Recreation Alleys

It keeps Manager Frank Domenico of the Recreation Alleys busy changing the different records that have been made daily since the new rubber bands were put on the pins. Last night the Wanderers smashed two alley records that is going to take a long time to do again. The Wanderers just rolled 1238 for one game and 3270 for the three games, a score to be proud of for local bowlers and which isnt' made very often in Toronto where they have been bowling five pins for the last eight years. The K. of C. were the victims last night and although O'Callaghan didn't roll his usual good score the team behind him rolled steady scores and rolled 3047 the first time on the local alleys that two teams have gone over the 3000 mark. Wally Walshe was the big noise last night with a single of 318 and 743 for the three strings. T. Barrett was high for the Knights with 697. The second senior game between the Millionaires and the Ball team while the scores were not so high their not to be sneezed at, the Millionaires rolling 2889 against the Ball Teams 2867, the former winning out by 22 pins, Cornell and Shappee being the two leading bowlers. In another close game the Belleville Motors lost to the Lucky Strikes 27 pins. The Belleville Motors losing the first game and taking the next, but not enough to overcome the lead the Lucky Strikes had. F. Barrett and Wilbur leading for their respective teams. In the Ladies' League with the Canucks using two subs won from the Willowbanks the latter team playing four bowlers. The second game between the ladies was close through out, the Belmonts winning from the C.I.A. girls by 43 pins. The C.I.A. tried to stage a comeback in the last game and managed to cut down their opponents lead by 59 pins but it wasn't enough to win for them. Miss Boyle was the high bowler with 155 and 413.

WIDE INTEREST IN U.E.L. CELEBRATION

GERMANY MUST REALIZE DEFEAT IN GREAT WAR; EXPERTS MAKE CLEAR

Experts Committee, Under Supervision of General Dawes, Drafts Report of Results of Investigation into Germany's Capacity to Pay Reparations to Host of Debtors

$1,000,000,000 LOAN

Failure of People in Germany to Realize Position Among Nations of World Hardest Matter to Combat in Laying Problem Before Them—Refuse to Accept Fact of Defeat

Paris, Feb. 25.—The Expert's Committee, under the supervision of General Dawes, started today to draft a report of the results of it's investigation of the reparation problem.

The loan of $1,000,000,000, to Germany is one of the vital points to be discussed. It is recommended that half of this amount go to Belgium and France, the balance to be expended in building up the credit of Germany.

In their inquiry the experts attention had been focused on the following points:

(1) Germany is today the best equipped for labor and the most efficient in industrial organization.

(2) Practically without an internal overhead.

(3) Taxation in Germany less than either Britain, France or United States.

It has been shown in a survey conducted from the headquarters in Berlin, that if Germany shouldered the entire reparation bill, they would have a smaller war debt than other countries.

Before imposing terms on Germany, however, the Experts Committee states that the currency of the country must be stabilized. The fall of the mark has practically closed the system of internal distribution of farm produce; fluctuating of the paper notes tending to hoarding in the urban centres.

The proposed loan, will, in effect, place the currency of the country nearer to a gold basis, allowing a

EXHIBITS FROM DOMINION GAIN KEEN INTEREST

Wood Pulp Paper and Mine Products shown in France and Belgium

MANY VISITORS

Pavillion For British Empire Exhibition In Hands of Interior Decorators

St. John, N. B. Feb. 25.—That keen interest has manifested the Canadian Mine products and in wood pulp paper in every city in France was a statement made by H. E. Tessier of Montreal, assistant to J. D. Chesney, commercial director who arrived here today on the Canadian Pacific steamship Montclaire from Liverpool.

Mr. Tessier explained that they had taken the Canadian Exhibits to every important city in France and Belgium and that much good should result. While all of the Canadian manufacturers goods had attracted attention and had evoked complimentary comments, the mining products were of unusual interest to all of the visitors.

Mr. Tessier also brings word that the pavillion in which the Canadian exhibits will be shown at the great British Empire Exhibition and is now in the hands of interior decorators is situated at Wembley which is only about a twenty minute run from London.

Mr. Tessier left on one of the Canadian Pacific railway special trains for Montreal.

DELORME AGAIN TRIED FOR LIFE

Accused Priest Appears Before Jury For Third Time on Monday

Montreal, Feb. 28.—For the third time since that fateful January morning when the frozen body of his half-brother was found at Snowden with five bullet wounds in his head, Father Adelard Delorme, central figure in the most notorious and mysterious murder-case of the age, stood before a jury in the Court of King's Bench on Monday morning. Once again the elaborite preparations which have marked each preceding trial were adopted and the law will proceed to try Abbe Delorme for the murder of his brother.

Almost two years ago after a sensational hearing the accused priest was adjudged insane and sent to Beauport Asylum, near Quebec. Some months later, on the recommendation of Dr. Brochu., of the Beauport Institution, Delorme was sent to Bordeaux and later appeared for trial.

For six weeks the hearing went on producing sensational evidence day by day, but terminating in an undecided manner as the jury failed to agree, and Delorme was again returned to Bordeaux there to await another trial.

The insanity plea which was successful at the first hearing but failed at the second, was put forward again. The decision in the matter will be entirely in the hands of the presiding justice who may order the trial for murder proceeded with.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

THE WEATHER

Oh! for the Life of a Traffic Cop

New York City was struck by a storm of snow and sleet the other day. The streets were flooded and passage almost impossible. One fair victim was caught at 33rd street and Eighth avenue. Traffic Officer Henry C. Windell thereupon picked her up and just as the photographer happened along was about to hand her over to Officer John McGuire.

NEW STATION COMES ON AIR

Canadian National Railways Radio will be most Powerful in Canada

Ottawa, Ont., Feb. 25.—The largest and most powerful radio station in Canada, operated by the Canadian National Railways as the first of a chain which it is hoped will be extended across Canada, will come on the air Wednesday evening, February 27, with a complete and varied program of musical selections and a talk to listeners by Sir Henry W. Thornton Chairman and President of the Board of Directors. The new station expects to have a range beyond that of any station in Canada, due not only to its up-to-date equipment but also to the height of its aerial which stands on the roof of the Jackson Building and reaches two hundred feet above the ground.

A novel arrangement in connection with the station, to insure clearer reception by listeners, is the distance between the studio and the operating room. It is too frequently the case that receiving sets get the hum of the dynamos in connection with the program being broadcast but in this station the studio is located on the first floor of the Jackson Building and the operating room on the roof, thus avoiding this common fault.

The new station will sign CKCH and will broadcast on a wave of 435 metres. The initial program will be relayed by Station CHYC, Northern Electric Company, Montreal on a wave length of 341 metres, so that radio listeners everywhere in Canada and the United States should have no difficulty in receiving the program.

Mr. W. H. Swift, Jr., radio engineer for the Canadian National Railways, is responsible for the installation of the new station, which will undoubtedly have the most varied and interesting programs in Canada. Broadcasting will take place Wednesday and Saturday evenings with occasional church services on Sundays. It is the intention to make the Wednesday evening programs of a serious nature including music of the highest type addresses and possibly speeches in Parliament, while the Saturday evening programs will be in a lighter voin and will provide listeners-in with mu-

(continued on page eight)

SPEAKER SCORES TORONTO STAND

A. E. Henderson tells Rotarians Toronto "Stumbling Block of Unity"

At the Rotary Club luncheon today, Mr. Arthur E. Henderson, traveller, writer and lecturer, gave an address on "The Canada of Tomorrow," which covered in a broad manner many of the problems facing the Dominion, from immigration to a general survey of business conditions.

His remarks were featured by a scathing denunciation of Toronto, in which he declared that Toronto is the most provincial city in Canada, and the stumbling block to Canadian National Unitl.

Prefacing his address, Mr. Henderson declared that Canada was a 'large' country in every respect; large vision and broad vision predomnating. It is the bird's eye view that is needed, not the worm's eye view, he stated.

Unity is the great need in Canada, continued the speaker; the East and the West—Ontario and Quebec are waiting the word if only Toronto will play her part. In this respect, Mr. Henderson stated that Toronto's attitude is the stumbling block to the progress of the Dominion.

Speaking of the influence of the French-Canadian for the good of North America; he stated that the French-Canadian is a precious element in the civilization of the continent.

The high order of Canadian journalism was touched on by the speaker, but special stress was placed on the need of better system of payment to keep our best writers from migrating to the big dailies of the United States. A constructive citizen, stated Mr. Henderson, is one that has always a lookout for the soul of the country at large. It is this class of men and women that make the way hard here for the Bolsherist.

The immigration question was ably outlined by the speaker, who declared it was vital to keep Canadians in Canada to have a Canada for tomorrow. He proposed a selective system, obtaining only the adaptable types. British and Scandinavian make the best settlers, he stated.

J. M. Scott, an old Sydney Township boy, for the past 17 years a homesteader in Saskatchewan, gave a brief address.

500 Francs and a Suit Cash Value of Husband

Rheims, Feb. 25 (United Press).—A wife, who is charged with having offered cash payment for the death of her husband, is on trial here for murder. The price she put on her husband's head was 5,000 francs and a new suit of clothes.

Gabriel Meyer told the court that when he was friendly with Mme. Celestine Chaussinaud she frequently told him that she wanted to get rid of him. She offered Meyer the cash and clothes if he would kill Chaussinaud. Meyer thought that mixing business with their friendship was too much and broke off relations with the woman.

The wife was not discouraged and, according to the evidence, she then made friends with Roger Lamotte and asked him to get some strychnine. The husband became suspicious and refused to take his meals at the family table. By means of a rope he lowered a basket from his second floor window and a servant filled it.

Chassinaud's undoing came when he was lured to the stable, and it is charged, killed by Lamotte. Suspicion was directed to the stable by the fact that a new cement floor had been laid. The body, with arms and head severed was under the floor.

In addition to Lamotte and the wife, Chaussinaud's daughter is on trial for murder as an accomplice.

HOME BANK LOSS OVER $4,400,000

Shareholders to Decide on Action Regarding Extra Call

Toronto, Feb. 25.—W.T.J. Lee, K.C., representing Home Bank stockholders Saturday afternoon before Charles Garrow, K.C., master of the Supreme Court questioned G.T. Clarkson, one of the liquidators of the Home Bank to discover the liquidator grounds for stating that the bank would show losses of $4,400,000 or sufficient to wipe out the surplus and render necessary a call on the shareholders for double liability. On the result of this examination, said Mr. Lee would hang the decision of many shareholders whether to fight the extra-call or not.

MANITOBA BOY IS VICTOR IN DOG DERBY RUN

Eastern International Blue Ribbon Event Won by Youth from Le Pas

IN BLIZZARD'S WAKE

Only Eight of Fifteen teams Finish Gruelling Grind of 120 Miles

Quebec, Que., Feb. 25.—Earl Bridges boy, dog team driver, mushing his seven wonderful dogs from Le Pas, Manitoba, proved the winner of the Eastern International Dog Sled Derby run here Thursday, Friday and Saturday. Not only did his team win the gold cup and the thousand dollar purse, but it was also awarded the Quebec Kennel Club's Silver Cup for the best matched team of dogs in the race.

Of the fifteen teams that started Thursday morning in the wake of the greatest blizzard Quebec has known for half a century, only eight finished the full course of 120 miles, and one of these teams, the Gulf Pulp and Paper Company, was diqualified on the last lap.

Never have dog teams been subjected to a more severe test than was imposed upon them by weather conditions during the three days of this race, and it is a splendid tribute to the quality of the dogs, and to the excellence of the drivers, that no team finished in difficulties. Except that a few dogs were muscle bound after the race, a condition immediately relieved by massage, the animals suffered no inconvenience.

Only the highest type of driver was used during the race and not a single complaint was registered against the manner in which the dogs were handled.

Although bridges was an easy first, the contest for the remaining four prizes was most keen and the result was in doubt until the final compilation of the running times by the judges.

Second prize went to the Brown Corporation Team of Latique, driven by Henri Skeene, who finished three minutes ahead of the Chateau Robervale Team, driven by Victor Lavigne.

Fourth place went to the Brown Corporation Team of Quebec, driven by Jean Lebel, and fifth prize to the Canadian National Railways entry driven by C. E. Letourneu. Letourneaus' showing was the subject of many compliments from judges and spectators. He drove only four dogs, and most of the way sat on his sleigh. The first day he finished in twelfth place, the next day he was third, and on Saturday fifth. Each day he bettered his time considerably. His record for the third day being almost an hour better than that of the first.

Credit was accorded also to Phillip Molloy, the only entry from the United States, who after a miserable showing on the first day, continued in the event and succeeded in reaching sixth place. The following were the results on Saturday:

1.—Ontario Paper Co.—6.27.50.
2.—Brown Corporation Quebec—6.31.10.
3.—Chauteau Robervale—6.37.40.
4.—Phillip Molloy—6.38.15.
5.—Canadian National Railways—6.45.15.
6.—Brown Corporation Latuque—6.49.10.
7.—Huron Silver Black Fox Co.—7.36.55.

The following is the final result for the entire 120 miles:

1.—Cup and $1000—Ontario Paper Co., Earl Bridges driver, 18.44.15.
2.—$400—Brown Corporation Latuque, Henri Skeene, driver, 20.42.10.
3.—$300—Chateau Roberval, Victor Lavigne driver, 20.45.10.
4.—$300—Brown Corporation Quebec—Jean Lebel driver, 20.59.05
5.—$100—Canadian National Railways, C.E. Letourneau driver, 21.18.12.
6.—Philip Molloy, owner driving—21.53.55.
7.—Huron Silver Black Fox Co.—Arthur Hatcher driver—22.21.25

CELEBRATION OF U.E.L. ATTRACTING INTEREST OF MANY CITIES IN STATES

Then He'll Wed

Captain Robert A. Bartlett, who has lost count of his trips across the arctic circle, is going to settle down. The man who accompanied Peary on his pole-discovery trip, announces he will wed when he returns from a flight across the polar plane abroad the naval dirigible Shenandoah—if the naval dirigible makes the trip.

AIDING FARMERS TO GET LABOR

Canadian National Railways Offer Assistance to Farmers and Settlers

Montreal, Feb. 25.—A free employment service, whereby farmers in need of labor, will be brought into touch with newly-arrived immigrants who are looking for farm work, has been organized by the Canadian National Railways in preparation for the opening of the coming immigration season. By means of this service immigrants, arriving in Canada, will be advised of places awaiting them, and farmers who require help during the next few months, will be able to secure such help from the newcomers without cost to themselves.

When the immigration policy of the Canadian National Railways was drawn up it was considered that an important feature in the success of any immigration policy would be to assure that the immigrants could find work when they arrived in Canada. With this end in view machinery has been organized by means of which farmers may make their application to the nearest Canadian National Railways agent stating their requirements, and on their arrival of immigrants in search of farm work, these men will be directed to places awaiting them.

The influx of immigration is expected to commence by about March 15th and farmers are urged to make their applications as early as possible. The service is free and is designed to assist both the immigrants and farmers who are in need of labor during the coming season.

Mr. Justice Martineau is hearing the case, Robert Calder, K. C., Crown Prosecutor, acting for the Crown and Alban Germain, K. C., represents Delorme.

Bootleggers Are Victims Of Hold Up Near Cobourg

Cobourg, Feb. 25.—Two Toronto foreigners enroute to Cobourg where were held up Thursday night last, and they were to deliver a cargo of liquor, besides losing their cargo of twenty cases of whiskey and ten gallons of alcohol, they were forced to hand over $100 at the point of a gun. The offence which occurred at the outskirts of the town was hushed by the bootleggers who feared that they might be liable under the O.T.A. themselves if they reported the matter to the police.

The hold-up car met the Toronto car and crowding it over into deep snow, caused it to stall. Then the hold-up occurred.

Thefts of liquor apppear to be getting quite common, as last week the head investigator of the Canadian National Railways was in town investigating a complaint that a large shipment of beer that was consigned to Rochester had been stolen here while waiting to be shipped over by the ferry in the guise of pulpwood. There promises to be some interesting developments in this matter.

Telegrams and Letters from Faraway Points Requesting Information on Coming Event in Belleville—Route of Couriers Attracting Wide Interest in Metropolitan Cities of New York

MAYOR MIKEL BUSY

Requests for Information Being Personally Attended to by Mayor Mikel—Novel Publicity Attends Proposal to Send Couriers Over Route Taken by Forefathers in Days of Revolutionary War

Interest in the coming United Empire Loyalist Celebration has spread rapidly through the northeastern United States as well as within the Empire as evidenced by the number of requests from New York and Pennsylvania cities and towns to send the itinerary of the route taken by the couriers on their way to Washington with a message to President Coolidge.

The novel publicity attending the proposal to send couriers on horseback over the route taken by their forefathers during and after the Revolutionary War is being featured in many of the big metropolitan dailies and numerous requests to be named among the couriers has been sent to Mayor Mikel from points as far away as California.

The following telegram was received this morning by The Intelligencer, among several mailed requests for information, and shows the interest that has been aroused.

Watertown, N.Y., Feb. 25,1924.
City Editor,
The Intelligencer, Belleville, Ont.

Will United Empire Loyalist Couriers pass through Northern New York next June on horseback trip to Watertown? What route will they take? Please rush.

10.10 a.m. Watertown Times.

Mr. B.M. Cannif, 129 No. Plymouth Blvd., Los Angeles, California, sends the following:

Los Angeles, Calif.
Editor Belleville Intelligencer:

Dear Sir:—If I am not mistaken I saw in the columns of The Intelligencer some time ago, that the U. E. Loyalists and their descendants are talking of holding a re-union this coming summer in your city, and as my brother and myself are the only ones left of the Cannif family that lived in your city, have thought that we might be induced to attend such a gathering if it were possible.

Will you kindly inform me if such a meeting of the U. E. is likely to be held and date of same. Also, if any cheap rates on the R.R. and hotels will be offered. Thanking you in anticipation. I am, sincerely yours,

Byron M. Cannif.

All requests for information have been referred to Mayor Mikel and he is personally attending to many of the minor details requested.

While the itinerary of the couriers has not been definitely ascertained, it is expected that a route approximating as closely as possible the one taken by the Loyalists during the Revolutionary War will be followed and definite announcement as to who will act as couriers will be announced at an early date.

Owing to the keen competition in northern New York to be among the cities to first entertain the couriers it may be necessary to extend the trip in order to cover all points at which a reception fitting to their mission has been promised.

Much credit is due Mayor Mikel for creating of so much interest in the coming celebration and in placing Belleville to the front as a 'live city.'

MOTHER AND FOUR KIDDIES ASPHYXIATED

Troy, N.Y., Feb. 25.—Four persons, a mother and her three children, were asphyxiated and three other members of the family are in a critical condition as the result of a leaky illuminating gas pipe in their home, 2325 Second Avenue, Watervliet, at 7.20 o'clock this morning.

Let there be harmony in things essential—liberty in things not essential—charity in all.

CONSERVATIVES DID REDUCE THE CIVIL SERVICE

Amid the discussion over the reduction of national expenditure and taxation, and the strong criticism of the King Government for not having reduced the Civil Service, this fact stands out clearly—the Conservatives did reduce.

During the last full year in office the Meighen Government actually reduced the number of Civil Servants by 8,666, or by 20 per cent.

There is not the least doubt about this. If any one doubts it, let him look up page 917 of the official report of the evidence taken in 1923 by the special committee of the House of Commons to enquire into the operations of the Civil Service. In a statement filed by Commissioner Jameson of the Civil Service Commission it is shown that in 1919-20 the number of staff in the Service was 50,307, and in 1920-21 it was 41,641.

It is readily admitted that while the Conservatives were in office, while the Great War was raging, the Civil Service was greatly enlarged. In 1913-14 the number of staff was only 29,135, which, as has been shown, was increased by the end of 1919-20 to 50,307. Nor was this surprising. You can't mobilize 600,000 men; send over 450,000 of them across the seas; have 200,000 casualties, 60,000 dead and nearly 110,000 others to be cared for in hospitals and homes; you can't bring back from England and France 340,000 men and 48,000 dependents; place nearly 30,000 of them on farms; pay $33,000,000 a year in pensions, and give thousands of others vocational training—you can't do all these things without hiring a large additional staff. Now the Union and Meighen governments did all these things, which explains why they needed so many extra officials. But they began letting these out as soon as possible.

The country well knew what was being done. It knew that these extra employees were being engaged; but said "Go ahead; we must win the War." In 1917-18, when the Civil Servants numbered 44,378, Union Government went to the country on "the last man and the last dollar" policy, and was swept back into power.

There is, however, this to be said: "The Conservatives demobilized as quickly as they could. Just as soon as these extra employees could be dispensed with, they were let go. The best proof of this is that 8,666 went out in a single year. When the Liberals came in at the end of 1921, the work of reducing apparently stopped, or at least was greatly slackened. This is why to-day, there is such a clamor for reductions."

Its dealings with the Civil Service form one of the best pages in the record of the Conservative Party in office from 1911-21. During that time the Civil Service Commission in its present form was organized; the "outside service" was placed under it; the principle of making political appointments was abolished; promotion through merit was assured and a new system of classification introduced. The general chorus of approval with which these changes have been received throughout the country is proof that this work was good. An even better evidence of this is to be found in the fact that civil servants themselves have fought strenuously to retain the new order of things. They don't want to go back to the old system to which so many Liberals would return.

In looking after between 40,000 and 50,000 employees there is necessarily a great deal of work, especially when all the positions in the Civil Service have had to be classified, to say nothing of the re-organizing to be done. That this has been done with a comparatively small staff is evident from the fact that, whereas in 1921 the total staff was 235, at present it is only 150. That is in proportion as the reorganizing and classifying has been done and the numbers have been reduced. One of the best pieces of reorganizing ever done in the Civil Service took place in the Printing Bureau when the Conservatives were in power. It had long been plain that scores of unnecessary people were employed there at a cost of thousands of dollars a year to the country. It was impossible to get reductions through ordinary methods. But the Conservatives said that this shameful waste of the people's money must stop. So the Civil Service Commission was instructed to undertake the work of re-organizing.

The Commission soon got to work with the result that the number of employees was reduced from 1,159 in 1919 to 732 in 1922, with an annual saving in the payroll of $740,000. This is not mere rumor. It is an official statement that may be verified by reference to page eight in the annual report of the Civil Service of Canada for 1921. To save $740,000 a year in wages in only one department is some saving. The amount thus saved will meet about 30 per cent. of the annual interest charge on the last Canadian National Railways $50,000,000 loan. Nor has any difficulty been experienced in getting out work. The truth is that even with this smaller staff, work has been done more quickly than ever before.

Realizing that the number of Government departments might well be reduced without loss of efficiency in the Service, and at considerable saving to the country, steps were taken by the Conservatives in this direction. There were, for example, two large departments collecting revenue, the Customs and Inland Revenue. The former had been built up to a high state of efficiency through a long period of years; for before the Great War over 75 per cent. of our revenue came from Customs. But it soon became evident that, with the introduction of several war taxes and the sales tax, the collection of which was assigned to the Inland Revenue Department, that the latter would soon be taking in as much or more money than Customs. But it had neither the machinery, nor the experience for this work that Customs had. So the Conservatives concluded that the wisest course would be to merge Inland Revenue with Customs. This was provided for in May, 1918, the actual consolidating taking place in April, 1921. This too meant a savings of thousands of dollars a year to the country.

During the last year of the Meighen Government in office the re-organizing of the Customs and Post Office departments was undertaken, and would have been carried out with big savings, had not the general election intervened.

Much has been said about what some other countries have done in the last two years in the way of reducing their staffs. The fact is that the Meighen Government, by the big reduction in 1919-20, led the way. It also led the way in reducing the number of departments.

READY TO FOLLOW SUIT

In excitement, the circus manager rushed up to Sam, the colored canvasman. "We need a little help, Sam," he cried. "Four lions have escaped fro meago five." "Scaped?" ejaculated Sam. "Hol' dis hammer, boss. Dat's jes' zackly what Ah's gwine to do."

PRESS OPINIONS

WHAT IS SUCCESS?

(The Youth's Companion)

What is success? It is an achievement. How do we measure it? By the benefits that it confers. Wealth is not necessarily the measure of it. For a man may be successful and never rich. Or he may be rich and full of success. True success is measured not by dollars but by service—and health. Character, education and industry are foundation stones upon which it rises.

TREES ARE AN ASSET

(The Wingham Times)

The town should determine at all costs to keep its shade trees. To this end their wanton destruction should not be considered. It takes from twenty-five to fifty years ordinarily for a shade tree to grow to maturity, and to allow it to be destroyed in as many minutes, for other than the direst need, is nothing short of sacrilege. Trees are an asset to any community and should not be squandered any more than the town's finances.

MOTHER

(Kingston Standard)

Coleridge wrote that a mother is the holiest thing alive, and the foundation of Mother's Day seems to indicate that this is being appreciated more and more. But fortunately too people are not simply keeping Mothers' Day they are having their own special Mothers' Day when they delight to honor "the holiest thing on earth." And most mothers deserve this tribute for the love, devotion and self-sacrifice which they have shown to their children. It is wonderful to see how great men have praised and thanked their mothers for the high training which they received from them. Only this week some letters have been published from that great soldier, Lord Roberts, to his mother, in which this is nobly expressed. We should advise our readers to get this book and they will see the truth of what mothers can be, are, and have been as expressed by Tennyson:

Happy he—
With such a mother! Faith in womankind
Beats with his blood, and trust in all things high
Comes easy to him, and though he trip and fall
He shall not bind his soul with clay.

TORONTO'S "NEW KID SISTER"

(Toronto Star)

On March 18, Oshawa will formally become a city. In everything but name and constitution—in population, in business activity, in enterprise—it has already been a city for some time. It will be the twenty-fifth in Ontario, dispossessing Owen Sound as the youngest of the family.

The cityhood of Oshawa and the neighborly feeling with which Toronto already regards this "new kid sister," recalls early days. The founding of Oshawa led up to a disaster which touched Toronto intimately. Two brothers by the name of Farewell, who camped in 1804 on the site of what is now to be a city and who are regarded as Oshawa's founders, left behind them a man named John Sharp who was to guard their camp. Sharp, however, was killed by an Indian, and the latter, having disclosed his secret while drunk, was captured on Toronto island a trial attempted. But the Indian's counsel objected. He must be tried in the district where the crime was committed. This objection cost the lawyer, the Indian, and not a few others, their lives. Judge Cochrane, Solicitor-General Robert Gray, an interpreter and the various counsel and officials of the court, set out with the prisoner on the schooner Speedy in order that the accused might be tried in the proper district. The Speedy was lost in a storm with all on board. There were many widows in "York" as a result of a legal technicality.

All this ancient history now, and the camping site of the Farewells has become a bustling city which will be made some of the older cities in the province look to their laurels. The railway displaced the schooner as a means of communication and the motor car has to some extent replaced the railway. It has also put Oshawa "on the map." The prosperity of the new city will be closely bound up with the prosperity of General Motors.

THERE IS A LAND

There is a Land that we must love,
A North Land, wide and fair,
A Land of Pine and Maple trees,
And beauty everywhere;
And there free hearts have found home
And space to still be free,
Fronting the morrow confident
In her high destiny.

When the leaves are crimson,
When the fields are white,
When the woods are green in Spring,
Or bathed in Summer light,
Be sure we love her dearly,
Her woods, her streams, her flowers,
This sunny Pine and Maple land,
This Canada of ours.

And Oh, her skies are bright and blue,
Her waters bright and pure;
There's balm within her forest shades
All world-worn men to cure;
The wholesome sea is at her gates,
Her gates both East and West,
Then is it strange that we should love
This Land, our Land, the best?

When the hills stand dreaming;
When the Winter's here,
When the slumbering earth awakes,
Or summer crowns the year,
Be sure we love her dearly,
Her woods, her streams, her flowers,
This sunny Pine and Maple Land,
This Canada of ours.

Music & Drama

JACKIE COOGAN QUITS RAGS IN 'LONG LIVE THE KING'

Metro photoplay by Mary Roberts Rinehart shows boy star in his greatest role.

"Long Live the King" which comes to the Griffin Theatre Wednesday, Thursday, Friday and Saturday reveals Jackie Coogan at the Zenith of his powers in a delightfully romantic story by the supreme spinner of romantic tales, Mary Roberts Rinehart, the director the art director and chief cinematographer have brought the story to the screen with a wealth of beauty, gorgeous detail and general exquisite investiture that surpass by far any of Jackies earlier productions.

No characterization which Jackie has created before has fitted him so completely as the role of Crown Prince of Lavonia, Ferdinand William Otto in the story, and as Jackie Portrays in the picture is all boy. Every emotion—joy, of sadness, of puzzlement, of wistful desire, and of juvenile mischievousness, to which the normal eight year old is heir, is to be found in Jackies portrayal. His trial are those of an adventurous lad under the discipline which falls to the lot of youth in high station, his woes are those of any lad orphaned and farred by conventions from free companionship with other boys, his joys are those of any boys temporarily released from kindly yet omnipresent tutelage, his happiness is that of any youngster over the acquisition of new playthings or the consummation of other childish wishes.

"Long Live the King" will be shown at Griffin's Wednesday, Thursday, Friday and Saturday matinee Saturday at 2.30 and a special school children's matinee Saturday morning at 10.30.

Wednesday will be music lovers night when an orchestra of 20 musicians will render a special musical score for the pictures.

BRINGING THE MOUNTAIN TO PICTURE STUDIO

Cameramen ransack nature for scenic effects, but it remained for the ingenuity of Warner Brothers, motion picture producers, to bring a mountain into a studio.

This was done in connection with fitting a background for a certain scene in "Brass," the screen adaptation of Charles G. Norris' strong novel of marriage and divorce, which comes for a week at the Regent Theatre to-day.

Bringing the mountain to the studio proved a simpler task than Mahomet found it to be, thanks to the skill of a corps of landscape gardeners. Under their supervision a crew of workmen was sent out to collect a hill, trees, brushwood et al.; they moved these items in piecemeal, placing them on the interior stage at the rear of a constructed cottage. It looked just as it had in the country; each tree carefully transplanted and a fleet of ten motor trucks transferred the entire hummock. After serving its purpose, the mount was turned out to fill a hole dug out for a previous production.

Monte Blue is the featured player with a supporting cast consisting of Marie Prevost, Harry Myers, Vera Lewis, Irene Rich, Frank Keenan, Miss Dupont, Margaret Seddon, Helen Ferguson, Edward Jobson and Harvey Clark.

'Man Who Acts' Speaker's Theme

Good Audience Hears Able Address by Alfred E. Henderson, Writer and Lecturer

A fair sized audience heard Alfred E. Henderson, traveller, writer and lecturer, give his lecture on, "The Man Who Acts", at the Y.M.C.A. assembly hall yesterday afternoon. The lecture which is an inspirational application of practical optimism contained a strong plea for greater initiative in Canada, for the speaker showed that the man who acts displays control over crises.

"Give us men", entreated Henderson, "so that we may mass our forces on a certain point at a set time for a set purpose."

Analysis of one's self is essential to-day as never before. Look to your health, wisdom, hope, joy, power love, and fate, and do not neglect God and immortality. This was the advice to men of action—be healthy.

"Wisdom guides the man who acts," asserted the speaker. "The mind is a motor, not a memory box." Hopes frees the man who acts. Rout fear and be yourself.

Life is a splendid game, and should be played fairly for home, country and God. Joy helps the man who acts—always expect and get a victory.

Original thought in a man was described as being the power which moves the man who acts, and original thought is the only kind of thought which really builds the brain cells. Results are the only test of the theory.

In giving the recipe for progress, Mr. Henderson advised that every one choose the right frame of mind, then toil hard and long. A definite plan of action and a determined execution of the plan must underlie all permanent advancement. After progress comes fame, for fame is but the echo of a man's determination, and finally wealth rewards the man who acts and takes the future in hand, stepping off into space, and in imagination and execution taking a great stride.

Speaking of marriage, the speaker stated that love also chooses the man who acts. The right marriage-dower is not coin for the woman, but character for the man.

Fate obeys the man who acts, for each action, word, and thought in our life to-day becomes a mosaic in the mansion of our destiny. We decree our own fate ourselves. God blesses the man who acts. You cannot build a kingdom by splitting hairs. Honest effort builds our estate in heaven for a zealous Buddhist is better than a luke warm Baptist.

The excellent address was closed by the recitation of Robert Service's "Carry On."

Violent Deaths Problem of U.S.

By WILLIAM J. LOSH

(United Press Staff Correspondent)

Washington, Feb. 25 (United Press)—Murder and suicide are things that Uncle Sam is principally interested in preventing. Yet, since they occur, he studies them with a scientific eye and derives from his observations much of interest.

The most popular form of both suicide and murder, he finds, is through firearms. Year by year, the people who snuff out their own or someone's life use guns. After that, however, tastes differ.

Suicides in the United States in 1922 numbered 11,053, against 11,136 in 1921, another example of the remarkable constancy that pervades death's causes year by year. The suicide rate in 1922 was 11.9 per 100,000; in 1921 it was 12.6. Yet proportionately, to the total number of deaths in each year, the percentage was about the same—1 per cent of all in 1922 against 1.1 in 1921.

The murder rates in the two years were even more constant. Murders committed in 1922 totaled 7,788 in 1922 against 7,545 in 1921. The rates respectively were 8.4 and 8.5 per 100,000 population. In each year, however, murders accounted for just seven-tenths of one per cent of all deaths reported.

After "suicide by firearms" by which method 3,912 persons took their lives in 1922, as compared with 4,122 in 1921, the Census Bureau lists 1,893 deaths "by hanging or strangulation" in 1922. Apparently this form has suffered a decline in popularity for 1,942 killed themselves in this manner in 1921.

Suicide by poison, on the other hand, mounted in 1922 to 1,846 deaths against 1,739 in 1921. Suicides by asphyxia or gas numbered 1,449 in 1922, against 1,401 in 1921.

Following these four major types of suicide, the Census Bureau lists four other types, by none of which however did more than 1,000 persons take their lives. These classes are as follows:

	1922	1921
By cutting or piercing instruments	732	712
By drowning	688	710
By jumping from high places	288	271
By crushing	110	130

Suicides from all other causes in 1922 numbered 135; in 1921 135. Even in these minor types of suicide the same year by year constancy of number is observable.

By far the greater percentage of murders in both 1921 and 1922 were gun work. In 1922 gun work killed 5,714 out of the total of 7,788 homicides. In 1921, 5,500 murders were committed with guns. The only other particular type of murder listed by the Census Bureau is "by cutting or piercing instruments" in other words, by stabbing. These, in 1922, numbered 833; in 1921, 768. The large remaining number of murders were committed "by other means," or were of unknown cause.

NEW DEVICE OF RUM RUNNERS

Jettisoned Cargoes Swept Up by Fishermen in Small Launches

Freeport, N.Y., Feb. 25.—Prohibition agents yesterday began an intensive campaign for bottle fishermen who find and recover jettisoned cargoes of liquor by using small power launches equipped with devices similar to mine sweepers used during the war.

Discovery was made recently that rum runners, frustrated by vigilance of government boats had adopted a policy of sinking their cargoes in appointed places from which they were picked up by the small launches.

SYMPATHETIC TOWARD CLAIMS OF CANADA

London, Feb. 25.—Philip Snowden, Chancellor of the Exchequer, is receiving representations from Canada with regard to the adjustment of the debts between the Dominion and the United Kingdom in connection with war expenses and he is said to be etirely sympathetic with Canada in the matter. It is expected that a full agreement in the matter may be reached in a short time.

TRAIN NEWSBOY ARRESTED

New Liskeard, Ont., Feb. 25.—W.H. Smith, train newsboy, is under arrest at Cobalt and held on a charge of vagrancy in connection with the death of Flung Lung at Elk Lake, victim of Sunday's row. Four men are now detained and Doris Clark is held as a material witness.

SINCLAIR'S

New Wash Fabrics

The first showing of Wash Goods for the coming season is ready, and wise shoppers will be the first to see them. Naturally the prettiest materials will be picked up first, for it is an easy matter to make selections now to be made up later. Many new weaves are shown in wide ranges of patterns and colors. Crepes in firm weaves, Ratine Voiles, Normandy Voiles with their beaded effects, figured Voiles and Ratines. All are shown in variety and the prices are pleasingly moderate. Some particularly good values are priced 85c. and $1.00 yard.

Cotton Batting

Though Raw Cotton has been steadily increasing in price these Cotton Batts are the lowest price having been bought two years ago. Rock River Brand in clean White Batts. Priced 18c., 30c., 45c., 60c. and $1.25.

BLACK SATIN

Cotton backed Black Satin in a very lustrous finish. Finest quality for linings or cushion covers. Will give good wearing service, 36" wide priced $4.50 yard.

WOOL BLOOMERS

Made from finest of Wool in a good range of shades. Priced $2.75.

BAGS & PURSES

Good looking Bags and Purses are ready in good variety for your selection. Made of solid leather in newest shapes. Priced $1.19 upward.

SATINETTE

Finest quality English Satinette in striped design. 37" wide, 15 shades at 75c. yard.

SINCLAIR'S

Did You Ever Lose $90.00?

Next Saturday our 20% discount sale will end, and by putting off buying until that date you will lose that amount on $150.00 Persian Lamb Coat. If you are thinking about furs at all buy now while prices are low.

A discount of 20% is allowed on all furs purchased between now and the end of the month. To secure the discount it is only necessary to put a deposit on the article you want.

BEN FRANKLIN'S HOUSE RAZED FOR A BRIDGE

Philadelphia, Feb. 25. (United Press).—Benjamin Franklin's supposed "first Philadelphia home" has been razed to make way for modern day traffic.

The little alley house, more than 200 years old, was in the path of the approach of the Delaware River bridge which will connect southern New Jersey and Pennsylvania.

Sentiment demolished the house at Fourth and Race streets. Under the picks of the razers, the little dwelling vanished, but the bricks were good despite their age and will be sold to be used in the building of another house.

Whether the house was ever the Franklin home has long been debated, but never decided. Several efforts were made to save the structure, but were abandoned because the authenticity of the house could not be verified.

Investigators say the house was unquestionable of the period in which Poor Richard lived and express the belief that it was the home of Franklin.

Until rased, the house brought a rental of $15 a month.

SAYS WORLD WHEAT POOL IMPOSSIBLE

Saskatoon, Sask., Feb. 25.—A world wheat pool was impossible declared James R. Howard, of Chicago, organizer and fo rthree years, president of the American Farm Bureau Federation, addressing here last night, a meeting under the auspices of the Saskatchewan School Trustees Association, Aaron Sapiro, speaking in the same hall the previous night had forecast a world pool within three years if Canada led the way.

DEATH OF INFANT

Mr. and Mrs. Frank Windsor, residing on Burton street have been bereaved owing to the death of their infant son, who passed away on Sunday.

DIED

GALLAGHER—In Belleville on Sunday, Feb. 24th, 1924, Elizabeth Jane Gallagher, daughter of the late William and Elizabeth Gallagher.

Funeral from the family residence 35 Bridge street west, on Wednesday, Feb. 27th at 3.00 o'clock. Service at 2.30 p.m. Interment in the family plot in Belleville cemetery. f25-2td

READ—In 4th Concession of Sidney Township, on Monday, February 25th, 1924, John Read, aged 55 years.

The funeral will take place from his late residence, 4th Concession of Sidney, on Wednesday 27th inst., at 2 o'clock. Services in Methodist Stone Church at 2.30 p.m. Interment Stone Church cemetery.

WRIGHT—In Belleville on Monday, February 25th, Mrs. Wm. Wright, aged 55 years.

The funeral will take place from her late residence, 50 South Church street, on Wednesday 27th inst., at 3.45 p.m. Services at the house at 3.15 p.m. Interment Belleville cemetery vault.

CORDES—In Belleville, on Monday, February 25th, 1924, Violet Cordes, in her 28th year.

The funeral will take place from the residence of her parents, Mr. and Mrs James C. Cordes, 53 Murney Street, on Wednesday, 27th inst., at 2 p.m. Services at the house at 1.30 o'clock. Interment Belleville cemetery vault.

ROBINSON CRUSOE ARRESTED FRIDAY

Montreal, Feb. 25.—Friday may have been a help to Robinson Crusoe of book fame, but it proved rather unfortunate for his namesake in the flesh, for it was Friday afternoon that he fell into the toils. The tale is short. Robinson Crusoe is alleged to have been begging and is said to have been caught red-handed by Constable Bluteau of the C.P.R. police. He was haled before the Recorder's Court and pleaded not guilty. The accused refutes any suggestion that he was related to the other Robinson Crusoe, and states that he has never heard of any relative by the same name as his own.

City Council Meets Tonight

A regular meeting of the City Council will be held this evening when matters appertaining to the city's welfare will be considered.

The recommendation from the civic committee, namely, Ald. Robinson as chairman of the Power Committee and Ald. Greenleaf as chairman of the Labor Committee, will no doubt be concurred in. There are several other recommendations to be considered.

Suit Questioned In Factory Case

A Cheese Factory case of considerable interest occupied the attention of the Court Thursday afternoon and Friday forenoon the 21st and 22nd of this month.

In 1921 the Albert Factory Company of Tyendinaga passed a by-law to make stockholders, who did not send their milk to be made into cheese nevertheless liable for a share of the expenses of the operation of the Factory. John McNamara a stockholder owing 12 shares did not send his milk in 1922. The Company sued him for $103 as his share of the expenses. Mr. Mikel acting for defendant raised three defences, 1st, that under Sec. 75 of the Companies Act no company can impose any further financial burdens on its stockholders than the price of his shares and when these are paid up his liability is ended, therefore the by-law was beyond the power of the company; 2nd, if such a by-law was within the power of the company, the proper steps had not been taken to legally pass it; 3rd, in any event the defendant's act is not sending milk was at most only a breath of contract making him liable for what damages plaintiff sustained but plaintiff sustained none as the company simply collected the costs of operating the factory from those who did send milk. Judgment was reserved. A. B. Collins for plaintiff; W. C. Mikel K. C. for defendant.

Coast-Guard To Aid In Flight

Two Cutters Detailed To Help With Flight Along Aleutian Islands

Seattle, Wn., Feb. 25.—Partial plans of the United States coast guard to assist four planes of the United States Army in a flight around the earth, on which they are to leave this city April 1, were announced yeserday by Capain F. G. Dodge, division commander of the guard, with head-quarters here, two coastguard cutters are to help with the flight along the western Aleutian Islands and across to Japan, particularly in maintaining communication.

The last two stops that the planes are expected to make in the Aleutians are Atka Island, and Attu Island. Neither of these is accessible to any telegraph or cable or wireless station. Leaving Attu Island the planes must make a jump to the Kuril Islands which form the northern trip of the Empire of Japan.

County Finance Committee Meets

A meeting of the finance committee of the County Council was held in the County Buildings this afternoon. A number of accounts were passed. Some of the members will remain in the city over night and tomorrow will proceed to Toronto to attend the annual meeting of the Good Roads Association.

URGE CHURCHILL TO RUN AGAIN

Friends Boost Him for Vacancy in Abbey Division.

London, Feb. 25.—The Parliamentary vacancy in the Abbey division of Westminster, arising from the death of the Conservative member, Brig. Gen. J.S. Nicholson, is being boomed by Winston Spencer Churchill's political and newspaper friends as an opportunity to bring about his return to Parliament.

There has been much gossip of late about the probability of Mr. Churchill rejoining the Conservatives, but the suggestion now is that he contest the vacancy as an "independent anti-Socialist."

Mr. Churchill himself refuses to say whether he will stand in the bye-election. The Conservatives regard the Abbey division as an absolutely safe Conservative seat.

FATAL EXPLOSION AVERTED IN TIME

Captain of Firemen Describes Incendiary's Methods of Action

Montreal, Feb. 25.—How two officers of the Montreal Fire Department narrowly escaped death in the kitchen of a burning house at 6698 Berey street early Wednesday morning, after an incendiary had carefully laid the nefarious implements of his terrible trade, was related before Fire Commissioner Latulippe yesterday afternoon. Captain Ovila Viau said that if he and his lieutenant had not stumbled over a can of gasoline in the smoke-filled room, thus being able to hurl it out of danger, both lives would have been lost in the certain explosion which was only a few seconds distant at the time.

The fire started, according to witnesses, in a hen house, and within a short time broke out in a house at 1560 St. Zotique street, and finally in the Berey street dwelling. Photographs and other exhibits showed conclusively that the fires were set. Fortunately the activity of the firemen prevented the sinister designs from being carried out.

BEFORE HIS FINISH

Papa—I hear that Charlie Green is going to be married next week.

Little Robert (whose ideas on the subject are somewhat confused)—The last three days they give him everything to eat he asks for, don't they, papa?

CORPS COMMANDER DECLARES WAR

Montreal, Feb. 25.—Hazing is to be taboo at McGill University. In fact, in the slang of the late lamented war, it would appear that it already is "napoo fini."

For Sir Arthur Currie, who waged so many successful campaigns against the Hun in France, as commander of the Canadian Corps, has now, in his capacity of principal of McGill, declared war on all academic "strafes" and rags. Of the outcome, who can doubt?

Addressing the Arts Undergraduate Society recently, Sir Arthur said: "In the best British and American universities, the practice of hazing is no longer allowed. It is up to McGill to get in line. This endeavor to try and make a fool of the freshman has gone quite far enough."

Germany Must

(Continued from page one)

more even distribution of manufactured products and stabilizing the shipping of necessities.

One of the hardest matters to combat in laying any problem before the people of Germany is their attitude on the results of the Great War. The people as a whole have no realization of their position among the other nations of the world and are more concerned in "keeping their sovereignty" than accepting the fact of their defeat.

COURT DISMISSES PARENTS' CLAIM

Montreal, Feb. 25.—Justice Mercier passed judgment yesterday in a case upon which the interpretation of a will made in 1861 figured to a degress which affected the great grandchildren of the donorship of a part of the estate, valued at $76,675. Justice Mercier dismissed action brought by Dame Julie Gougeon Dame Marie Gougeon, Dame Mathilde Gougeon and Dame Regina Gougeon who claimed the property through the death of their sister, Zoe Gougeon, under the gift of their grandfather. They sought to be confirmed in the ownership of the shares to the exclusion of their own children. The decision of Justice Mercier upheld the right of the great grand children against their parents, on the evident intent of the donor and the provisions of the Civil Code governing the question.

Deaths and Funerals

J. D. BREEZE

The death took place at Vancouver, B.C., recently of Mr. J.D. Breeze who for many years was foreman for the late Hon. Billa Flint when Bridgewater was a flourishing village. He was also reeve of Elzevir for many years and took an active interest in municipal politics. He was known in Vancouver as the dean of the life insurance men, and was at one time Provincial Manager for the Confederation Life Assurance Co. He was 81 years of age.

ELIZABETH GALLAGHER

Many were the expressions of genuine sorrow and regret heard on every side when it became known yesterday that Miss Elizabeth Jane Gallagher, daughter of the late William and Elizabeth Gallagher of this city, had passed away at her home, 35 Bridge street west, early Sunday, after an illness of three months, borne with christian patience and fortitude.

Possessed of a very kind and sympathetic nature, she found her chief happiness in the home circle and doing little acts of kindness for her friends as well as for all others who were sick or afflicted.

She leaves to mourn her loss, five sisters, Mrs. D. Potter of Regina, Mrs. J. Grigor of Toronto, Mrs. J. Rathman and the Misses Annie and Carrie of this city.

She was a member of St. Andrew's Presbyterian church and her life was governed by the highest christian principles. She was also a valued member of the County of Hastings Registry office staff.

We extend to the bereaved relatives our deepest sympathy.

Property Men Are Invited

Invitations have been sent out to members of the Property Association of the city and others to attend the City Council meeting this evening. The object of the gathering is to appose a recommendation from the civic committees in reference to remitting of taxes on the Chamber of Commerce building. The recommendation which will be attacked reads as follows:

Recommended that the arrears of taxes for 1922 and 1923 now overdue from the Chamber of Commerce, on the building occupied by it on Front street, Belleville, be remitted to the same Chamber of Commerce.

MILLIONS OF TONS OF COAL SAVED BY WATER POWER SAYS U.S.

Washington, Feb. 25.— America's tumbling rivers and waterfalls— the few of them used for hydro-electric purposes—suplied 35.1 per cent of all electricity generated in the United States in 1923, the United States Geological Survey reported here today.

Generation of the percentage of the nation's total public-utility power requirements by water saved the nation 23,500,000 tons of coal, nearly 1,300 carloads a day, besides relieving the railroads of the burden of transporting this huge amount of fuel.

The total production of electricity by public-utility plants in 1923 was 55,928,000,000 kiowatt hours. Of this amount, 19,615,701,000 kilowatt hours were water generated. The total production represented an increase of mor than 11 per cent over the output for 1922. The percentage of water generated power, however, slipped down 1 per cent, from 36.1 to 35.1.

This decline in the percentage of water generated power represented another step backward from the high mark achieved in 1919, when 37.5 per cent of the 38,921,000,000 kilowatt hours generated in that year was water generated.

The production of electricity by the use of water power is dependent, however, upon the amount of water available for water power plants, and serious droughts have occurred in the past two years in different sections of the country which have materially affected the flow of streams in those sections. This reduction of water reduced the utilization of the full capacity of water power plants.

The 36,312,155,000 kilowatt hours of power obtained last year through the combustion of fuel was reduced at the rate of 2.4 pounds of coal per kilowatt hour as compared with 2.5 pounds last year. This slight increase in fuel efficiency resulted in a saving of 1,800,000 tons of coal.

Lakeside Ward School at Pine Bluff, Ark., claims the world's record for twins in these seven sets. The five sets at the left are al[illegible]e fifth grade; taught by Mrs. T. H. Davies, who is mother of the twin set of the little girls, third from the right.

ADVERTISE IN THE INTELLIGENCER

A Close-Up of Rockefeller Through Eyes of Partner

Ormond Beach, Fla., Feb. 25.—Here's an intimate close-up of John D. Rockefeller, Sr. It is made by Maj. Gen. Adelbert Ames, his daily golfing partner and one of his closest friends.

Few other men have had the opportunity to get to know the multi-millionaire philanthropist as has this Civil War veteran. For the two have played their game here during the winter practically every day—but Sunday—for the past eight years.

"Mr. Rockefeller," says General Ames, "is a very amiable, very conscientious, and a very lovable man. He has a conscience. He goes to church and he carries out his religion in his life. He is the only man I have ever known who fully lives up to his church beliefs. I have never known another man like him. He is a very fine man to know and be with.

"He has a deep sense of humor and is very entertaining. Here's a story that he told me the other day:

"'A young girl, in her first love affair, received her first kiss and, much perturbed, decided to confess the fact to her mother. The mother was much amused.

"'"Ah, only once?" she asked raising an admonishing finger. The young girl was equal to the occasion.

"'"I came to confess, not to boast," she replied.'"

* * *

The general chuckled and went on: "The other day Mr. Rockefeller said to me: 'Just think of those old fellows.' He had in mind men that you see all stooped over at 60, with gray faces. Men who do not take care of themselves. He calls them old men, and we both think of them as old men. Yet both he and I are far older than 60."

General Ames is 88; Rockefeller is 84.

"Mr. Rockefeller plays a wonderful game for his age," says his companion, "and I think he is playing better this year than for the last few years past. He plays the first nine holes around 50 strokes."

* * *

Watching Mr. Rockefeller play, the writer saw hom make four or five shots in the neighborhood of 150 yards. He addresses the ball very carefully with a long, low drive that raises it about 30 feet above the ground in the last third of its flight.

"Golf," continued the general, "has been a wonderful thing for Mr. Rockefeller and it is marvelous in the way he has persisted in it. He has, really fought his way back to health and many another man can do the same thing.

"Mr. Rockefeller holds himself well. I am erect because I have had a military training. But Mr. Rockefeller holds himself just as well, as he has always been a civilian and has a civilian carriage. His shoulders are very broad and may give him the appearance of being stoop-shouldered. But his body is held straight."

"Perhaps Mr. Rockefeller realizes," it was suggested, "that people now think kindly of him. They realize what he is trying to do to help humanity."

"I think he does sense a kindlier spirit," replied the general. "Yet people envy wealthy men. You and I, speaking generally, envy the man who has more than we have. But great happiness is not found in wealth. Ninety-nine men struggle to live. The hundredth, the great genius, becomes wealthy. Yet he is not as happy as those who are obliged to struggle. Mr. Rockefeer finds happiness in giving."

* * *

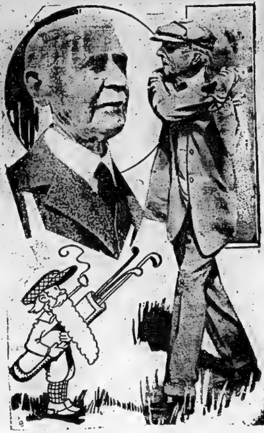
The golf links here might almost be called a constellation of millionaires. Round about are Frank Hedley, of the Interborough in New York; F. W. Rice, Jr., president of the General Electric; Albert Dice, president of the Philadelphia & Reading Railway; Charles Ellicott, secretary of the Westinghouse Electric Company; Paul Thompson, president of the Philadelphia Gas & Electric Company, a former president of the Pullman Company and all sorts of directors and chairmen of boards of directors.

But the eyes of these men and of the caddies often drift to watch a slight man of military bearing, and a tall broad-shouldered man wearing a brown cap and coat and with neatly pressed trousers. It is General Ames and Mr. Rockefeller golfing.

"The old gentleman is playing great golf to-day," observes a spectator.

"Aw, he's done give away more money than Henry Fowd evch had." says a colored caddy.

But the two old cronies genially go their way, with a welcome for everyone.



JOHN D. ROCKEFELLER ON THE GOLF LINKS AND (LEFT) MAJ. GEN. ADELBERT AMES, HIS GOLFING PARTNER.

Henry Robinson, bank president of Los Angeles, and member of the Allied Reparations Commission, is shown above taking a stroll in Berlin.

Standard Bank Had Fair Year

Toronto, Feb. 25.—The forty ninth annual report of the Standard Bank of Canada for the year ending January 3rd last, was mailed to shareholders last week.

While profits are slightly less than those of the previous year, they total $695,094. To this amount is added the balance carried forward from the previous year's operations, $160,566, making available the sum of $855,661. After paying dividends quarterly during the year amounting to $520,000, $40,000 was applied to war tax on net circulation; $55,000 reserved for Dominion income tax and $25,000 contributed to officers' pension fund, bringing the balance carried forward of $215,661. This is $55,000 more than carried forward on January 31, 1923.

The bank's satisfactory liquid position is indicated by a total of $29,318,972 in liquid assets, or 46.8 per cent of liabilities to the public. Cash assets stand at $15,253,441 or 24.3 per cent of the bank's liabilities to the public. Loans to municipalities stand at practically the same figure as last year, namely, $1,500,000. Current loans and discounts have been reduced during the year by nearly $7,000,000, the figures now being $35,653,253 as against $42,398,816 as on January 31, 1923. Holdings of Dominion Provincial and Municipal securities stand at $11,000,000 some $600,000 in advance of a year ago.

Mothers!

Give the children WRIGLEY'S after every meal

A prominent physician says:

"It is surprising how free from decay the teeth can be kept by using gum after each meal."

You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but *the reward is actually the means of performing this important service!*

WRIGLEY'S aids digestion too, and acts as an antiseptic wash for the mouth and throat. Several flavors-all of WRIGLEY quality.

KIWANIS JOLLIES AND FEATURE TO-NIGHT AT GRIFFIN'S

"A lot for your money", is the slogan of the Kiwanis Club in presenting the Revue of the Jollies and a feature picture at Griffin's to-night and to-morrow night.

It will be a real evening's entertainment. The picture "Trifling With Honor" is one that demands "extra admission" and with the Jollies to augment it with good snappy music, singing and comedy it should be an evening of real fun and entertainment.

The proceeds are going to be used strictly for charitable work particularly for the underprivileged boy, and that is another reason why you should buy one of the seats at Griffin's either to-night or Tuesday evening.

Absolute zero—the point at which bodies on earth are entirely devoid of heat—exists at 459.4 below the Fahrenheit zero.

A corn plant in India stands out as a rival of Jack's beanstalk. It is reported to have grown 12 inches in five days during extremely warm weather.

A little kerosene added to enamel will make it easier to apply. Stir in, very thoroughly, about one tablespoonful to the gallon enamel.

There's a complete electric railway, 3100 feet underground, at the bottom of the Calumet and Hecla copper mine in Michigan.

The brain of a baby gorilla at birth is almost as big as a human baby but grows at a much slower pace through infancy.

Public health authorities in Germany have recommended soy beans as a substitute milk for cooking, but not for baby feeding.

Predict Crisis Facing Cabinet Over Poplarism

Much Comment On Labor's Narrow Escapes in Past Week

London, Feb. 25.—Anti-government politicians and newspapers are making much of the difficulties of the government's position in parliament as shown twice this week, first when its defeat owing to the pacifist expressions of the under secretary for air, William Leach was averted by the Speaker; secondly when its adhesions to the late government's cruiser programme aroused the protests among the Labor rank and file and it only triumphed through the support of the Conservatives.

On the second occasion about twenty five Laborites refused to vote on behalf of the Government and one voted against it. The hostile newspapers declare that the dissatisfaction among the Laborites with what they regard as the Government's concessions to militarism manifest in its adoption of the air forces and cruiser schemes of the late administration, is growing so rapidly that a crisis may be expected and they predict that the Government will not last beyond mid summer.

The fact that Premier MacDonald is having some of the dourest "Clydesiders" as his guest over the week end at Chequers Court is interpreted by these newspaprs as an attempt to quiet the mutinous spirits "by Sabbath talks under the disarming influences of the rural resorts and pleasures which Chequers affords.

Another critical juncture is foreseen in the House of Commons next Tuesday when debate occurs on the Liberal motion condemning "Poplarism" or the policy of greater liberality in dealing with the unemployment allowances.

NOT ACCORDING TO SCHEDULE

Doctor—"I suppose, Mrs. Johnston, that you have given the medicine according to directions?"

Mrs. Johnson—"Well, doctah, I done mah bes.' You said give Sam one o' dere heah pills three times a day until gone but I done run out o' pills an' he hain't gone yit."

QUITE SATISFACTORY NOW

"How do you like your alarm clock?" "First rate." "You didn't seem pleased with it at first." "No but it's broken now."

At a certain church in a southern town it is the invariable custom of the pastor to kiss the bride after the ceremony. Now one young woman who was about to be married in his church did not relish the prospect, and instructed her prospective husband to advise the minister that she did not wish him to kiss her. The bridegroom obeyed the instruction given.

When the young man returned she asked: "Henry, did you tell the minister that I did not wish him to kiss me?"

"I did, Florence."

"What did he say?"

"He said that in that case he would charge only half the usual fee."

BANG WENT THAT ROMANCE

"You've been out with worse looking fellows than I am, haven't you?" (No answer.) "I say, you've been out with worse looking fellows than I, haven't you?" "I heard you the first time. I was just trying to think."

Why Ford Predominates

The Empire Builders

From time immemorial, Britons have gone forth and pioneered the remote corners of the earth.

In the face of seemingly insuperable difficulties they have built up a world-wide trade—trade that grew and flourished in spite of the limitations of those primitive burden-bearers, the native carriers, the mule train and the camel caravan.

Ford carries the burdens of Empire trade on the hill-trails of India, on the African veldt, on the sheep-stations of Australia and New Zealand, on the plantations of Ceylon and Burma, on the rubber estates of Malaya and on the jungle-paths of Borneo.

Universal usage under all these conditions has stamped the Ford as dependable transportation.

Made in Canada for the Empire

The Ford car is completely made in Canada with the exception of parts to the value of $15.02.

LONDONERS GREAT TEA DRINKERS NOW

London, Feb. 25 (United Press)

"Polly put the kettle on, and we'll have a cup of (China) tea."

This is a new fad in England.

For one thing, King George has learned to like it. He has a special brand that costs $3.75 a pound.

Of course, English kings have always liked tea. It's the fact that King George prefers China tea instead of the time-tried Indian or Ceylon that makes him different.

Formerly only the so-called "Bohemian set" drank China tea in England. But now it is becoming more and more the adopted five o'clock beverage. A large portion of the nine pounds of tea per head that the population of England consumes each year comes from China.

The increase of the cigarette habit among women is said to have much to do with it.

HERE, THERE AND EVERYWHERE

SPORTS THROUGH EDGREN'S EYES

Dean Cromwell, the famous U.S.C. coach who taught Charlie Paddock the sprinting style that made him a world's record breaker, has a new sprinter he is bringing up with the same methods. This is Keith Lloyd formerly a student at Nebraska University, transferred to the University of California and so not eligible for college meets until next year, but possibly an Olympic team prospect. Cromwell says he never saw any other man with Paddock's tremendous "bounce" but that Lloyd has a lot of it and other physical qualities that may make him as fast as Paddock within a year or so. Lloyd is entirely unlike Paddock in build. He is taller, is broad shouldered, flat chested, long legged, lean except for the natural sprinter's muscular thighs. He has a lot of Paddock's determination and his whole ambition is to succeed Paddock as champion. Running for Nebraska, won both dashes last year at the Missouri Valley Conference meet, so he isn't entirely a novice. This spring he has already been running ten second trials.

If Dean Cromwell can bring out another sprinter as great as Paddock nobody can deny that he is America's strongest sprinting coach.

The sudden discovery by A.A.U. officials of Charlie Paddock's excellent personal qualities proves again the power of public opinion. The American public resented an attempt to throw out one of our best athletes on a flimsy pretext, especially when it is generally believed that Paddock is a genuine amateur. Publicity is often a very fine thing.

Jack Jeffries tells a lot of funny stories about the old time champions. Jack was a pretty good heavyweight himself when he was travelling around the country with his brother Jim, and he won a lot of fights. Jack's favorite topic in talking over the old timers is Bob Fitzsimmons.

"When Jim was training at Harbin Springs for the Corbett fight in Frisco," Jack says, "Bob came to the camp bringing his new wife. He had just been married to Julia Gifford, the singer. Naturally Bob wanted to show his wife what a fighting man he was. He became a great friend of Jim's after Jim had beaten him the second time. He thought Jim was the greatest man in the world, and he wanted to teach Jim all his fighting tricks. Bob and I did most of the boxing with Jim at Harbin. One day Jim laid off and didn't work, and Bob came and Jim kidded and told him he'd have t Jim kidded him and told he'd have to look out, as I was pretty fast and might land on him, but Bob said that was all right. He wanted his wife to see him box somebody.

"So we went to the gym and started in. Bob was the greatest boxer in the world. He could shuffle in close to you before you knew it, and then dig in his short punches, and gee- they were punches! And he could roll his head around so that he was the hardest man in the world to hit. We had been boxing a few minutes when I let go a hard left and Bob stepped into it. It drove his upper lip down so that his teeth went nearly through it and the lip stuck there. Bob was making faces and trying to get his lip loose which he couldn't do because of the gloves, and the blood ran over his chin, and his wife screamed, "Oh my Bob—oh, my Bob"! as if she thought he was killed. Fitz pulled his lip loose and washed his mouth out with some water, and said "Come on Jack—that's nothing."

"But I'd pulled the gloves off. I didn't box any more with Fitz—not that day. Can you imagine what he'd have done to me, to make good with the bride? He wasn't sore. Old Bob never had any meanness in him and he thought it was a joke when any one put anything over on him. But I didn't box any more that day. Afterward, of course, and old Fitz never tried to get even for that punch. We were great friends.

"I had another funny experience with Fitz. I could handle a razor pretty well, and Fitz couldn't shave himself and there was no barber in camp, so I used to shave Fitz. One day Fitz got to fooling around with the razor and he said: "I can't shave myself, Jack, but I think I could shave anybody else. The boys won't take a chance. Let me shave you."

"'Not me,' I said. "You'd cut me all up.'"

"No," said Fitz, "If I cut you once I'll stop. Let me try it."

"He was just crazy to shave somebody. Bob was like a kid with a new toy every time he thought of a new stunt, and he was so insistent that I sat in a chair and let him start. I never had such a shave in my life before. Bob nicked me now and then but he wouldn't quit and I was getting a terrible scraping. He would not let me get out of the chair and he wouldn't take the razor away from my face and I was afraid to struggle. When he finished the job he was tickled half to death. So was I until I saw my face. Gee! I was scraped close and had little cuts all over. I looked as if I'd been through a finish fight with a lawn mower. It was a week before I could shave again. Nobody else in that camp would let Bob shave him, and Bob was so anxious for practice that we had to send down to Frisco for Joe the barber—an Italian—to come up and shave us, so we could get Bob's mind off the subject.

Jack was with Jim in St. Louis when Jim was training to fight Gus Ruhlin there—the fight that never came off. Tom Sharkey was showing in the same town, boxing bouts with big Bob Armstrong. Bob broke his hand on Sharkey's head, and there was no other sparring partner to take his place. So Bob went to Jim's camp and asked Jack to take his place at that night's show.

"You'll get $25 every time you box him—it's big money," said Bob.

Jack asked Jim if he could go.

"You'd better not," said Jim. "If you do, look out for yourself. Tom will try to knock your head off."

Jack went anyway. As he started boxing with Sharkey, Tom said: "Don't be afraid, Jack, I won't hurt you." But Jack was watchful. In a moment, swish! A mighty swing of Sharkey's just grazed his chin. Jack popped Tom with lefts and used his speed to keep away.

"Don't be afraid, Jack," said Tom, but the swings kept on swishing past and Jack knew what was coming if Tom could put it over. He kept on popping Tom with lefts and dodging his swings, and in one of his rushes Tom tore down the scenery while the crowd yelled.

"Come around tomorrow night, Jack," said Tom after the call time. "I won't hurt you."

PETERBORO PASTOR DIES SUDDENLY

Peterboro, Feb. 25.—Peterboro weekly market was Saturday morning the scene of a tragedy when Rev. Hamilton Spence, of 39 Crescent street, fell on the floor and expired after a few minutes.

Death is believed to have been caused by heart failure.

Rev. Mr. Spence had been a regular visitor at the market, and was known to a great many people who witnessed the sad event.

Assistance was quickly rendered, Constable Leonard Matthews bringing water with which he bathed the victim's head and lips, but after a few minutes death occurred.

Dr. T. W. H. Young was called and an examination showed that Mr. Spence was already dead.

The deceased lived with his sister, who kept house for him. He retired from the active pastorate of the Methodist Church in Newcastle about three years ago, after which he lived for a time in Norwood.

PETES DOWN QUEEN'S AT BASKETBALL

Peterboro, Feb. 25.—The tri-color of Queen's dipped in defeat Friday evening when, in a basketball game of the O.A.B.A. series, played on the local floor, the University's seconds went down for a 34 to 17 count at the hands of the Peterborough intermediates.

The game lived up to all advance notices and left nothing to be desired in the way of fast, clever basketball.

Queens' had their score doubled on them, but they went down fighting every inch of the way and this game is another example of a game with play about equal, when one team finally breaks out in front to pile up a lead. At one time in the second period the score stood, Petes 16, Queen's 15, and right then the tri-color was going great guns and was putting a real scare into the blue and white supporters. But the Petes' defence tightened and their forwards broke loose and ran in 18 points.

SPEYER MAKES JUMP

Chris. Speyer, 22-year-old defense man of the good Aura Lee hockey team has joined St. Patrick's professional squad. He decided to make the jump on Saturday.

He has a good turn of speed and sports a fine shot, and opinion is divided as to his ability to make the grade in the so-called "fastest hockey in the world." Speyer's jump came as a surprise to even his closest friends, as the St. Pats management, profiting by experience, kept the transaction secret until the player had definitely committed himself.

Juniors Play In Port Hope Tonight

Belleville juniors play off with Circle Six tonight in the final sudden death game to decide the champion squad between the two districts. The play-off is at Port Hope. Saturday morning Toronto papers had the play-off slated for Brockville and Saturday morning, Manager Ed Thomas received a wire stating that the game would be played off at Trenton tonight. Kingston refused to play at Trenton and the game was ordered played at Port Hope tonight, Manager Thomas receiving final word Saturday night.

The team left this afternoon on the 2.35 C. P. R. train for Port Hope, fans who accompanied them enjoying club rates. Herb Matthews will in all probability handle the game.

ON THE ALLEYS

'Everything comes to those who wait.' Surely it must be true, because after a considerable period of waiting the Hit and Miss aggregation finally registered a win. This against the O.S.D. quintette whom they met at the Y Alleys Saturday afternoon. Hit and Miss were off to rather a bad start in that they let the O.S.D. five obtain a lead of forty points in the first string and it looked like a reception of previous performances as far as the Hit and Missites were concerned. Luck, however, changed and in the second game they were able to overcome the lead registered against them and in the third, to further strengthen their position on the score column.

HIT AND MISS			
Miss Morden	127	141	128—396

Senators Win From Canadiens

Ottawa, Feb. 25.—Ottawa Senators nosed out the Montreal Canadiens in a thrilling National Hockey League game here Saturday night by a score of one goal to nothing. It was one of the most bitterly fought and wildly exciting games played here this season with the result in doubt until the gong signalled the termination of playing time. Ottawa's showed all the tricks in their locker to take down the victory while Canadiens, fighting desperately to hold their slim advantage over Toronto St. Pats in the race for second position, never let up from the opening whistle till the closing bell. Another capacity house saw the two teams battle it out, and for the greater part of the time the majority of the spectators were on their feet.

Play was lightning fast for the first two periods, but slowed down a little towards the finish of the last session, when Ottawa's perfectly played defence system held the raging Canucks outside the danger zone. The game was scrappy throughout, but the excellent work of Mike Rodden as referee kept the affair from getting out of hand.

To Harry Broadbent again goes the honor for downing the Canadiens in Ottawa. The second last time they played here it was Broadbent's wicked drive from the corner that broke a one-all tie and gave the Senators a victory in the closing seconds. Last night the solitary counter of the game came from his stick after sixteen and one-half minutes had elapsed of the second period. There was a face-off just outside the red line at the Canadien end, and from the draw Nighbor snapped the disc out to Broadbent. Punch whipped it hard and true. The puck struck Vezina's left pad near the top and glanced into the net to the amazement of the goaler and the majority of the audience. True, Vezina was asleep on the play, and the goal might be termed lucky, but it was cleverly driven by the Ottawa right winger.

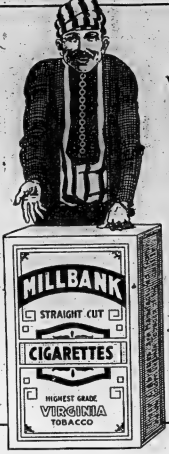
BROADCASTING OF CHURCH SERVICES

Montreal, Feb. 25.—In a letter to Montreal friends Rev. Dr. Johnston of Grace Church, Calgary says that the use of radio in broadcasting church services is rapidly becoming an important feature of religious work. He declares that hundreds of families, unable to attend church, eagerly await the ether waves from Station CFCN which regularly broadcasts his services.

Dr. Johnston has received many interesting letters, he writes, praising the system which has brought joy to many an aching heart. The practice will be continued, he says.

Swift!

This shows Mrs. Frank J. Gould, wife of the American millionaire, in action during her recent tennis game at Cannes, with the French marvel Suzanne Lenglen. Suzanne won.



YES! we have no Bananas,
But business is booming today.
This MILLBANK Cigarette
She's a seller, you bet;
All the men want her-and say!
She has the rich, mellow sweetness
Good enough to be eat-ness.
But-YES! we have no Bananas,
The call is for MILLBANKS today.

IRISH NOSE OUT HAMS, BY ONE GOAL

"Toots" Holway Used as Sub and Made Fair Showing

Toronto, Feb. 25.— Although weakened by the absence of Jack Adams which necessitated a reconstruction of the forward line, the St. Patrick's kept in the hunt for the N.H.L. championship on Saturday night at the Arena when they forced the Percies, of Hamilton, to accept the short end of a 2 to 1 count in the last meeting of the two aggregations this season and, while the margin of superiority was not great, the Irish deserved the victory. Spurred on by a realization that a defeat meant farewell to all championship hopes, the two teams played hockey all the way and those tender-hearted followers of the game who stayed away on account of the expected equalizing of accounts were disappointed in two ways, they missed a good game and saw just as many fireworks at home as they would have seen at the rink. There were eight penalties imposed by Referee Ross five of them going to the visitors, and none of them were for deliberate foul. Five of the penalties were drawn down by players who were filling defensive positions at the time and were due to trips to save almost certain goals. None of the penalties helped in the scoring of the three goals.

Both Teams "Saw Wood"

Both teams apparently had instructions to stay on the ice and to play hockey and they followed instructions. The Irish victory was all the more satisfactory as they were short on capable subs and it was practically six men against the pick of nine all the way. Arbour was started on left wing, while Andrews, Holway and Jackson were used for relief purposes but it was soon seen that Andrews, Holway and Arbour were not strong enough and Jackson was used most of the game. Holway made his local debut and was on long enough to hand out a couple of stiff body checks that slowed up the opposition, but Arbour and Andrews were of little use. Speyer, who made the jump to the monied crowd on Saturday afternoon, was in uniform, but was not used as the local defence pair played one of the best games of the season.

McGILL HONOR FOR GEORGE H. LORIMER

Montreal, Feb. 25.—Because of his outstanding ability as an author and journalist, George Horace Lorimer, editor-in-chief of the Saturday Evening Post, originally founded by Benjamin Franklin, will be awarded the honorary degree of LL.D. at the McGill University convocation this year, according to an announcement from the college yesterday.

Mr. Lorimer has had a distinguished literary career. One of his best known works is "Letters from a Self-made Merchant to His Son," which has been widely read.

Hockey Match

B.H.S. vs. K.C.I.

Hockey Fans turn out for the game of the season Thursday evening, B.H.S. Hockey team meet K. C. I. sextette. Puck faced at 7.30 at the Arena. A fast game is assured.

OF INTEREST TO WOMEN

SOCIAL and PERSONAL

Mrs. W.O. Kerr and son Edgar, who have been visiting her parents for the past two months, left yesterday for Toronto, accompanied by her mother, where she will visit friends before returning to her home in Ernfold, Sask.

Mr. S. Russell, Registrar of the County, is confined to the house through illness.

Mr. Charles Rollins, of Coe Hill, Reeve of Wollaston Township, and Warden of the County was in the city to-day.

Mr. Chas. Rose and family wish to thank their many friends and neighbors for their kindness in their recent sad bereavement in the death of a loving wife and mother. f25-1td

A NEW PECAN

Raleigh, N.C., Feb. 25 (United Press).—The "lady-finger" pecan is the latest in the market. The pecan tapers to a gourd-like point and is said to be sweeter than the ordinary pecan.

Miss H. Handford and Miss H. Smith of the Ritchie Co's Millinery staff, returned this morning from an extensive buying trip, also attending the formal Spring Millinery Openings.

RUB CHEST COLDS AWAY: STOP PAINS

Pain and congestion is gone. Quickly?—Yes. Almost instant relief from chest colds, sore throat, backache, lumbago follows a gentle rubbing with St. Jacobs Oil.

Rub this soothing, penetrating oil right on your chest and like magic relief comes. St. Jacobs Oil is a harmless liniment which quickly breaks chest colds, soothes the inflammation of sore throat and breaks up the congestion that causes pain. It never disappoints and does not burn the skin.

Get a 35 cent bottle of St. Jacobs Oil at any drug store. It has been recommended for 65 years.

Get Two Trial Boxes

PAZO OINTMENT is a Guaranteed Remedy for all forms of Piles.

Pay your druggist $1.20 for two boxes of PAZO OINTMENT. When you have used the two boxes, if you are not satisfied with the results obtained, we will send $1.20 to your druggist and request him to hand it to you.

We prefer to handle this through the druggist because his customers are usually his friends and will be honest with him.

PARIS MEDICINE COMPANY,
193 Spadina Ave., Toronto, Canada

Don't Spoil Your Child's Hair By Washing It

When you wash children's hair, be careful what you use. Do not use prepared shampoos or anything else that contains too much free alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces.

Two or three teaspoonfuls of Mulsified is all that is required. Simply moisten the hair with water and rub it in. It makes an abundance of rich creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. You can get Mulsified cocoanut oil shampoo at any drug store and a few ounces will last for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

On Bail

Hazel L. Beckett(above) of New York, Wall Street stenographer, has been released in $10,000 bail on a second degree forgery indictment. She is charged with obtaining $100,000 through an alleged pool movement in a certain stock.

That Body of Yours

By James W. Barton, M.D.

ONE CAUSE OF LAME KNEE

You have a knee that is beginning to give you trouble and you are at a loss to figure out what is causing the pain.

It is on the inner side of the knee and sometimes the pain is more severe that at other times.

You find that when you have been on your feet more than usual that the pain is worse.

There doesn't seem to be much swelling, you are not sick in any way, and have no temperature.

What is likely the matter?

Well you are eating well and feeling pretty well, and it may be that you are getting heavy, putting on a great deal of weight.

What effect does this have?

Well this extra weight must be sustained by the knees.

The hip is wide and takes the centre of gravity out to a considerable distance from the centre line of the body. The big bone running from the hip to the knee swings away inward to the centre line again toward the kee. Then the big bone below the knee has to swing out again to make a fair balance for your body.

And just here when the bone from the hip and the bone of the lower leg meet is a ligament holding the bones together.

It has some real job owing to the lower end of upper bone swinging in, and the upper end of lower bone swinging out. You see that a natural spread occurs between the bones.

If then you put twenty to fifty pounds more weight on it, its job will be still harder; it may give way a little and your pain results.

The obvious thing to do if possible is to keep the weight down, and bind up the knee with a factory cotton bandage.

As I pointed out in a former article a flat foot is a frequent cause of this form of painful knee. Putting a couple of lifts on the inner side of the sole of the shoe rolls the foot outward and takes the strain off the knee.

VERY LIMITED

Francless Frank—"Lend me a dollar till payday."

Buckless Buck—"Can't do it. I'm restricted to quarters."

FROM PICTURES ANYWAY

Sometimes it appears that the gentlemen who conduct beauty contests might be rated as the world's greatest optimists.

High Waisted Trousers Plus Pleats and "Braces," Vogue

New York, Feb. 25 (United Press).—Taking a peek at trousers of the present era, one finds that not only are they wider and longer, permitting that graceful drape about the ankles, but that they are becoming very high waisted. In fact, in the best tailoring shops in New York, trousers are well on their way to the armpits.

Then, too, one finds that trousers are being made with little pleats about the waist. The purpose of this innovation is to enable the trousers to fit snugly at the waist, yet retain the long, straight sweep from hip to foot which is the fashion in clothes of the better quality. This is particularly true of dress trousers, in which class of clothing the ample trouser has always been a feature of distinction.

The high waisted trousers have led to a new type of vest. The conventional pointed vest is now giving ground to a vest that is almost straight across the bottom. The double breasted vest, which is somewhat popular, is cut straight across, while in the single breasted vest the points have diminished about 75 per cent and are now round instead of triangular shaped. However, shopkeepers predict early doom for the double breasted waistcoat. It has had a slight vogue with wearers of Tuxedos and has been responsible for the wearing of white vests with the Tux. but for full dress wear, it didn't "take." The biggest New York haberdasheries are not going to carry them next season.

The man who has experienced difficulty in making his vest and trousers behave, i.e., who finds that every once in a while the waist of his trousers and the bottom of his vest part, revealing an expanse of belt buckle and sometimes even his shirt will welcome the high waisted trousers.

Belts have always been condemned by the medicos as leading to stomach trouble, bad digestion and poor figures. Of course, with the high waisted trousers, the suspender is the only thing. Suspenders always have been scoffed at and maligned, but they are the best aid for keeping the trousers hanging straight. The suspender is now deservedly enjoying a day of affluence and they are blossoming out into color, too. It is amazing the numerous color combinations and patterns that you can find in a display of suspenders these days. The ol' "galluses" is coming back with a "bang."

Society Bomb Of Most Value

What should one do if one spills a plate of one's ice cream down the back of one's feminine partner at a dance?

There is no longer any need to ponder over this and other questions of etiquette. They are all answered in "Leaping up the Social Ladder," the author of which is D. R. O. Hatswell, the young English dancing teacher in "The Fool's Awakening," the Metro picturization of William J. Locke's novel, "The Tale of Triona," which is now being made at the Metro Hollywood studios under the direction of Harold Shaw.

Here are a few of Mr. Hartswell's rules:

"Dance on your own feet part of the time.

"Don't fail to say, 'Pardon Me' when you step on your partner's bunions. Some prefer the phrase. 'So Sorry.' However, either is O. K.

"Don't continue dancing after the music stops. It is just as well not to dance before the music start.

"If while executing a step, you fall to the floor, dragging your partner with you, brush yourself off thoroughly before continuing. Nothing is so disgusting as a dust covered dinner coat.

Always have a cheery word for the host or hostess, as the case may be. It is well to address the hostess with some little remark as 'That's a swell rig you're flashing on the gang tonight,' or in speaking to the host, something like, 'There's a regular heman kick in the brew you're dishing up for us, guvernor,' would suffice.

"Do not fail to hold up your end of the conversation. Nothing is more painful at a refined social gathering than a dumbbell. Tell the crowd what you think about a return fight between Dempsey and Firpo. Recall that joke about the two Irishmen, Mike and Pat. This will make you the cynosure of all eyes.

It is not considered correct to chew gum while dancing. Leave your gum behind when you step forth on the polished hardwood. The underside of your chair is a good place to park the Wrigley. An easy way to remember the chair is to cut your initials in it.

"It doesn't look good to strike up a conversation with the waiters or other hired help. Wait until you've been introduced."

RAISES CHILDREN TO BE POLICEMEN

Philadelphia, Feb. 25 (United Press).—A new record was established here when Lorenz Betag, 67, of Cheltenham, Pa., father of 26 children embarked for the third time on the matrimonial sea and led Mrs. Anna M. Reese, blushing bride of seventy summers and twice widowed, up the main aisle of the church.

Nineteen of Betag's children are all his own; nine by his first marriage; ten by his second marriage. His second wife brought him three stepchildren and he adopted four others. Seven of the children are policemen.

"I did not raise my boys to be bums, but to go on the police force," the bridegroom said. "I did more for my country than any other man, for twelve of my boys served in the army. Some record, eh?"

Mrs. Betag has three children by her first marriage, but they all died. She said she could "manage" her stepchildren, even if they were old enough to work for themselves.

"LEAP YEAR" IDEA PERMEATES CHINA

Peking, China, Feb. 25 (United Press).—The new woman has really arrived in China.

For centuries past it has been the custom in China for the parents of a baby girl to betroth her in infancy to the youthful son of a friendly couple. The match was a question solely for the respective parents and the young couple were not consulted.

That the old order is changing is evidenced in four advertisements inserted in the vernacular press of Peking recently by which young women have given notice to the world that they decline to recognize the betrothals arranged for them in their infancies and that they reserve for themselves the right to select their life partners.

Peggy's Kept Her Promise

That long anticipated wedding of Peggy Wood, musical comedy star, and John Weaver, poet and literary critic, finally has been solemnized. The ceremony took place in Hamilton, Bermuda. The nuptials culminated a romance of nearly two years, marked by postponement and rumors of quarrels and reconciliations.

If your child's eyes are abnormal

Your child is handicapped. And he will remain handicapped as long as the eyes remain in that condition. Every child has a right to demand of somebody that his eyes should not prevent his progress. Thousands of children are every day studying with an imperfect seeing equipment. Parents should give this subject the thought it deserves.

Menu For The Day

TUESDAY MENU

BREAKFAST

Farina with Dates
Stewed Kidney on Toast
Popovers Coffee

LUNCHEON

Creamed Chicken Hot Biscuits
Cheese and Pimento Salad
Fudge Cake Coffee

DINNER

Roast Spareribs of Pork Stuffed
Mashed Potatoes Turnips diced
Hot Apple Sauce Cabbage Salad
Brown Betty Coffee

Popovers—Place one egg in bowl and beat slightly. Measure 1 cup of milk and 1 cup sifted bread flour to which 1-4 tspn salt has been added. Add the milk and flour alternately to the egg, using the egg-beater for mixing it. Then add 1 tspn melted butter and beat till batter is smooth and full of bubbles. Have hot muffin pans greased thoroughly and fill 2-3 full with batter. Bake immediately in hot oven 30 minutes, then lower temperature and cook 15 minutes longer. Serve hot.

Cheese and Pimento Salad—Moisten cream cheese with cream, add some chopped pimentos and form into small balls. Sprinkle with paprika and serve on lettuce. Garnish with strips of pimento.

Brown Betty—Butter baking dish and place in it a layer of sliced apples, sprinkle with brown sugar, a little cinnamon and a few drops of lemon juice. Cover with a layer of dry bread crumbs. Then repeat till dish is full and add a little water. Have layer of buttered crumbs on top and bake in moderate oven.

The recipe for the Mocha Cake appeared in Saturday's issue without a heading.

In Fridaym's paper an error occurred in the recipe for Compote of Figs. It called for 1-2 cup of w ater. This should read 1 1-2 cups.

ANGLICAN YOUNG PEOPLE'S ASSOCIATION MEETS

On Friday evening the regular meeting of the Christ Church Anglican Young People's Association was held in the Parish Hall. After a few games were played the speaker of the evening, Dr. Tower, was called upon and he gave a very interesting talk on "Progress of Medicine from the Time of the Egyptians and Greeks Down to the Present." After a hearty vote of thanks was tendered Dr. Tower, a very dainty lunch was served by the ladies which brought a very pleasant evening to a close.

A WINTER FANCY

It seems that overnight the spring has come
For all the air is white with butterflies,
They light on trees and grass until the world
Is clad in silver guise.

The cherry blooms once more, they hover there,
And in the apple tree down in the lane
Ever they float and drift and drop to earth,
Then seem to rise again.

And as they fall, these butterflies of snow,
One catches glimpses of the days of yore,
And almost fancies winter time has fled
And May is at the door.

—Elisabeth Scollard.

Mr. F. P. Thompson of the Ritchie Co. has returned from a buying trip. He reports having bought some very new and interesting creations for Spring.

LOVE, THE TYRANT OR, WHERE HER HEART LED

BY CHARLES GARVICE

"As you know, Mr. Layton," she said at last, and with a faint touch of colour in her face, "I have inherited—have got—the whole—everything that was Sir Richard's—the land and the house and the money."

"Yes," he said, simply. "And I am sure it could not have fallen into better hands."

"And I think it could scarcely have fallen into worse!" said Esther, flushing. "A young girl, unaccustomed to wealth— But we won't argue that; you would stick to your assertion for the sake of politeness—what I wanted to say was, that I wanted to share some of the money with the other relations."

Mr. Layton inclined his head.

"All distant ones," he murmured, "so remote that there is actually no one to succeed to the baronetcy, and it is therefore extinct."

"They are not more remote than I am," said Esther, "and they have a right to feel disappointed and neglected. Now, I want to—to make it up to them a little."

"Yes, yes," he murmured. "The lawyer, Mrs. Floss—"

—"Won't hear of it," she said, "and I"—she laughed— "am terribly afraid of that old man."

Mr. Layton smiled.

"He is rather fearsome," he admitted.

Esther laughed again.

"He has a way of knitting his brows and saying 'Tut, tut!' which fills my soul with awe. He knit his brows very much, and said, 'Tut, tut!' four distinct times when I told him what I wanted to do. He said I was too young, that I had no right to play the part of a female Quixote, and, in short, browbeat me. But I have a large income, have I not?"

"Very; one might, without exaggerating, call it immense," said Mr. Selby Layton, with a soft smile, but suppressing a sigh of envy.

"Very well, then; why shouldn't I devote half it to—to the others who were left nothing?"

Mr. Selby Layton was filled with horror at the idea, for to him such a proposal seemed absolutely wicked.

"If you could afford it," he said, thoughtfully.

"Afford it!—just now you said my income was immense," remarked Esther.

"Ah, yes; but so also is the estate, and it will take a large sum of money to keep it going."

Esther sighed and laughed with a touch of impatience.

"You are almost as bad as Mr. Floss!" she exclaimed.

"Oh, not quite, I hope," he said, with his sweet smile. "I was merely suggesting that a half is a large amount—possibly too large."

"Well, then, a third, a quarter—what I can afford!" said Esther, impatiently. "I thought you would help me to do this without Mr. Floss knowing about it. I suppose I can spend this money how I please, if I keep up the estate properly?"

"Certainly!" he said. "And I shall be more glad to help you. Need I say that I am proud of your confidence, Miss Vancourt?"

His voice was as soft as the note of a flute, and he bent forward with a smile sweeter than ever.

Esther nodded.

"It's very good of you. I am afraid it will give you a great deal of trouble—I haven't realized yet how much, for the idea has only just come into my head. But I thought you would be able to find out which of them were in need of—of money, assistance—you know them, perhaps; I don't you see."

"I am ashamed to say I don't," he said. "I have lived apart, they are so scattered— But I will find out, and make a list, on one condition, Miss Vancourt."

"What is that?" asked Esther, looking up quickly.

"That you except one person."

"Yes?" she said, curiosly. "Who is that?"

"Selby Layton," he said in a low voice.

Esther coloured.

"What must you think of me? It was as if I had been offering you money!" she said, quickly. "But I didn't even know that you were poor."

He laughed with an admirable assumption of frankness.

"I am as poor as the proverbial church mouse," he said, lightly. "I trust I am also honest, but certainly I am proud. So exclude Selby Layton from the list: that is agreed?"

Esther inclined her head. She did not know what to say. There was silence for a moment or two. Then she looked up.

"This must be a secret between us, please, Mr. Layton, I do not wish any to know of my idea."

She glanced at Miss Worcester, nodding over her knitting, and Selby Layton, with inward exultation, bowed.

"Yes, yes; I quite understand," he murmured. "You may trust me. I think I know exactly what you want: To benefit those of the family who need assistance without letting them know from whence it comes."

Esther nodded.

"That is it exactly!" she said, quickly, and in as low a voice. "I am very grateful to you, Mr. Layton."

"The gratitude is on my side—for your trust and confidence in me," he said, very sweetly.

Esther threw her head back with an air of relief.

"Do you care for music?" she asked. "If so, I will play to you. I am afraid you will find it very dull and slow here."

She did not wait for him to protest, but began to play.

He went to a chair, and leant back, and begged her to play again; and she was about to do so, when she said, as if she had suddenly thought of it:

"Perhaps you play or sing? Pray do so, if you do."

He shrugged his shoulders apologetically, and resitated, but got up at last and went to the piano.

There were many persons who disliked, not to say hated, Mr. Selby Layton; but no one had ever possessed the temerity to deny that he was a musician.

Esther had moved away from the piano, expecting the kind of performance on the piano which men generally treat us to; but as Selby Layton struck the first chords of an accompaniment, she turned her head with a sharp and sudden surprise and interest; and as the song progressed, her eyes began to deepen to a violet hue; for the man not only had an exquisite voice, but played and sang like an artist. And with Esther music was a passion.

(To be Continued.)

Clean Kidneys By Drinking Lots of Water

TAKE SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS OR BACK HURTS

Eating too much rich food may produce kidney trouble in some form says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts can not injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

WHOOPING COUGH

Hard on child—hard on parents. Control dreadful whooping and coughing, help to quiet sleep with

CHAMBERLAIN'S COUGH REMEDY

Every user is a friend

Aunt Martha's
HOUSEWIVES' COLUMN

Let me quote a few words from the little red book of instructions to Dominion Store managers. Right here on page 46 it says:

"The Dominion Stores policy is a full weight one, 16 ozs. to the pound, no more, no less. See that your scales are correct, verify them often and remember that if you give less than 16 ozs. to the pound you are cheating the customer. Violation of our accurate 16 ozs. to the pound regulation means immediate discharge."

It seems to me that's plain enough for anybody. Not that the 300 Dominion Stores managers need such instructions, for they are a very carefully picked group of men, but it's a satisfaction to know you are buying your groceries at a store where strict control insures that you get full weight always.

Nor is full weight the only advantage that centralized Dominion Store control brings to the housewife. High quality and low prices result from centralized Dominion buying in great quantities, at low prices that are immediately passed on to the Dominion customer.

That's why steady buying at the red front Dominion Store means sure steady savings for you. There isn't an article on our shelves that doesn't show the cut cost due to Dominion methods.

SHIP TONNAGE IS $535,260,000

Tonnage of Unemployed British Shipping Reduced From 672,000 Tons

The British National income from shipping services in 1923 approximated $535,260,000, according to figures by the Bankers Trust Company of New York from its British Information Service.

It is admitted in British shipping circles that American shipping is today taking a very much larger share of the Trans-Atlantic trade than in earlier years. On this account, it is stated that it is more difficult to-day than in the past to determine the weight of cargo carried by British ships.

The tonnage of unemployed British shipping at principal United Kingdom ports was reduced from 672,000 net tons at the beginning of 1923 to 606,000 net tons at the end of the year and there were also reductions in shipping laid up in foreign ports. The stimulus to coal exports afforded by the French occupation of the Ruhr gave considerable employment at fairly good rates to shipping previously laid up, and when this spurt died away the transporting of material for reconstruction in Japan after the earthquake supplied a fair quantity of cargo, and freight rates at the end of the year showed some revival.

BELIEVES COMPANY OF RESPONSIBILITY IN FATAL AUTO ACCIDENT

Montreal, Feb. 25.—Before Justice Maclennan yesterday a suit for $20,000 damages against the Crane Limited by Mrs. Raspa, for the death of her husband killed by an automobile owned by negligence of their driver, was dismissed by the jury who relieved the company from responsibility. The jury held to the view that the driver was at fault seventy per cent and the victim furnished twenty-five per cent of blame. The driver used the company's car without permission. The damages suffered by the widow were estimated at $8,000 and $1,000 for each of her six minor children.

"The Show off" Is Stellar Event in Theatre Annals

By ALICE ROHE
(Written for the United Press)

New York, N.Y., Feb. 25.—Those hesitative shoots, pushing their heads through the native dramatic soil, have suddenly found a full flower in their midst.

The event was marked by a rare phenomenon. For once all the metropolitan critics and that element known as the public agree that here is the best American play within memory.

Its name is "The Show Off" and its author is George Kelly, author and director of the satire "The Torchbearers." George Kelly has not only dramatized a page from American life, but he has directed this production with a simplicity and sureness which is nothing short of great art. Then, too, he has seen to it that his cast is flawless. Altogether "The Show Off" is a great achievement and a big event in the theatre's annals.

"The Show Off" is the leading character, so terrifically, so regretably American as to make every one wince and laugh at the same time. He is the $32-a-week clerk, swaggering, bragging, bluffing, lying through life. Not vicious, but full of sheer bragadoccio. Kelly, calls his play a "transcript from life." It is. And we look into that Philadelphia home into which "The Show Off" marries and view their clashes, their bickerings, their problems, their heart aches, as though we were looking at home life in reality.

But the play ends apparently on a happy note, due to the bragging boaster. The son has invented a certain process which he is contented to sell for $50,000. He is given instead $100,000 and a percentage in the output.

"Well, we pulled it off!" cries the pompous, back-slapping, loud-laughing boaster. And sure enough, his belief in the doctrine of bluff, making people think you are more than you are has done the trick. He has so impressed the lawyers and manufacturers with his protective rights of his brother-in-law that he gets double the price. Only the mother, who all along is the counter irritant, with her asidulous skepticism of the bragger, gives the glimpse into the future "God help me from now on" is her final line, as the curtain falls.

Superb acting was contributed by every member of the cast. But Louis John Bartels, of vaudeville renown, a new comer to the legitimate stage, was the real "riot," who convulsed Broadway, as "The Show Off." Helen Lowell, as Ma Fisher, does the finest work of a long career. She gives a priceless bit of characterization. Juliette Crosby, who plays Clara the elder married daughter, is a beautiful young woman and an excellent actress. Quiet, self repressed, natural in her methods, she is one of the most convincing members of the family group.

The producers of this notable 'hit' is the firm of Stewart and French. And a bit of drama from real life. The general public did not know that Bert French, who contributed largely to this uproarious success, died only a week before its triumphal arrival on Broadway.

Tea Drinkers Meeting In N.Y.

New York, Feb. 25 (United Press). —A conference that will decide what kinds of tea American tea drinkers will be permitted to have during the coming year convened at the customs house here today.

The meeting is of the board of tea experts appointed by Secretary of Agriculture Wallace, in conformity with the tea inspection act, to select official standards for tea imported into this country during the next season.

Standards of purity quality and fitness for consumption of all teas entering the United States will be measured, selected, and recommended to Secretary Wallace for approval. The approved standards will go into effect May 1.

The tea inspection act requires fixing of such standards to prevent importation of impure teas, dangerous to health. New standards are chosen each year to vary with the crops and changing conditions.

SOMEWHERE IN FLORIDA

To be somewhere in Florida, where the sun is always shining, where the golden oranges hang in clusters on the trees, the palms stir gently to the warm breezes and "where the sweet magnolia blooms," is the thought in the minds of hundreds of Canadians every winter.

When Canadians at home are skating and ski-ing, those in the south will be surf-bathing, sun-bathing on the warm sands, deep-sea fishing, golfing, etc.

When making arrangements for the trip south consult any agent of the Canadian National Railways for particulars of service. Winter tourist fares are now in effect, valid to return up to June 15th, and good for stop-over at all important points.

New Invention to Thwart Oil Trusts, Says Prof. Fischer

Any Country having Coal or Peat Can Manufacture the New Motor Fuel, is Claim of Scientist

By CARL D. GROAT
(United Press Staff Correspondent)

Berlin, Feb. 26 (United Press).—Germany and other lands, poor in petroleum fields but rich in coal, will soon be independent of the world's oil trusts as the result of the discovery of "Synthol" by Professor Dr. Franz Fischer and Dr. Trosch.

In an exclusive interview with the United Press today, Professor Fischer director for the "Kaiser Wilhelm Institute for Coal Research' in Mulheim, Ruhr, declared that it will be possible hereafter to make Synthol, resembling gasoline "in any desired quantity from coal."

Synthol will not come into question for America at the moment, he declared, and will be useful for that land only when the vast American supplies of gasoline begin to wane. He dissipated too, the impression that synthol could be made more cheaply than gasoline.

The significance of his discovery, however, lies in the fact that synthol can be made in any country which has coal or peat resources.

Fischer, one of Germany's foremost scientists, has achieved the position of head of the Kaiser Wilhelm Institute in Mulheim through years of brilliant labor.

His synthol discovery represents the work of nearly a score of years. His efforts in this direction went parallel with similar researches by the Badische Anilin and Soda Werke, but he was the first to discover a practical substitute for gasoline which can be commercially supplied.

"Our process," he said, "consists of obtaining water gas from coal, coke or half coke. With our system the water gas is converted into a volatile oil practically free from hydrocarbons. This synthetic oil which has been given the name of "synthol" is neither benzin or benzol, though it can be converted into benzin if desired. This conversion, however, has merely scientific interest.

"Tests of synthol in motors has proved that it is superior to benzol (a gasoline like substance gained from gasoline like a substance gained from coal). We believe that our work means the beginning of a new kind of fuel for motor vehicles. There is still considerable to do before the process is fully adapted to commercial purposes. We feel that our many years' devotion to this problem was justified because through it, it is possible to create in any desired quantity volatile motor fuels in countries which have no petroleum but have coal or peat."

The patent for the Fischer process is still held in Germany, though experiments are being made in Austria with his product.

"The new fuel Synthol," said Fischer, "is not at all identical with benzin. It can, however, replace benzin and is in my opinion even better than benzin."

ADDITIONAL SPORTS

Queen's University Five Too Good For Locals

Largely because of the fact that they had more system to their play, combining better than the local quintette, and also that the locals had a night off as far as shooting went, Queen's University were able to pull out of Belleville Saturday night, taking with them the heavy end of a 30-19 score. The half time score was 14-12 for the visitors with play up to that time fairly evenly divided. In the second half the locals became somewhat disorganized and repeatedly threw away opportunities for scoring by taking long pot shots at their opponents basket instead of working the ball down the floor for a close in shot. More often than not this proceedure resulted in Queen's obtaining possession of the ball from the rebound.

For Queen's, Hewgill, Ada and Graham were the most effective as point getters while Armstrong led the locals with Weir following in his footsteps.

Queen's—Hewgill 11, Forward; Gordon, Forward; Ada 9, Forward; Swayze, Forward; Graham, 8, Centre; Clary, Guard; Lane 2, Guard; Wright Sub.

Belleville — Doughty 2, Forward; Nurse, 1, Forward; Armstrong, 8, Forward; Hitchon, 2, Centre; Weir, 6, Guard; Alexander, Guard; Morden, Sub.

"FARMER" LODGE STAYS FOR FIVE ROUNDS WITH FIRPO,-K.O'd

Buenos Aires Feb. 25.—Luis Angel Firpo knocked out "Farmer" Lodge in the fifth round of what was to have been a fifteen round bout last night. The knockout blow was a terrific right to the body, preceded by a left to the jaw. Lodge had to be carried to his corner.

The fight was marked by frequent clinches on the part of Lodge who apparently was seeking to protect himself against Firpo's mighty right which the Argentine used almost exclusively.

Frequently Jurado Benigno Rodriguez, the referee, was obliged to pull Lodge out of the clinches by sheer force.

It is estimated that 35,000 saw the bout. There was a burst of frantic cheering over the victory of Firpo, who is the boxing idol of Argentina.

In the first round, Lodge took the aggressive, forcing Firpo to the ropes. The American, however, throughout the fight landed scarcely a blow which Firpo seemed to feel. Twice during the fight and before the knockout came, Lodge was sent to the floor by the heavy punches of Firpo.

In the fourth round it was evident that the American steadily was growing weaker. Just before the gong sounded to end this round Firpo landed a left to the face and Lodge went to his corner in a groggy condition. Firpo weighed 218 pounds, while Lodge tipped the beam at 231.

TODAY OUR HAT'S OFF TO

WHOOZIS. We don't know if that is his name and we don't care much.

At any rate Captain Frank Hurley, explorer, came back from New Guinea and offers Mr. Whoozis as a member of "The Lost Tribe," a new fraternity he discovered.

He doesn't swear Whoozis is the missing link, and you can use your own judgment.

Hurley says these strange people, whom white men never saw before, resemble Babylonians, which would convince a blind man Babylonians never won Atlantic City Beauty Pageants.

OSHAWA "SMOTHERS" QUINTE QUAD TEAM

Oshawa, Feb. 25.—Oshawa junior basketball team won its first start in the Ontario Association series on the Y. M. C.A. floor here Saturday evening by defeating the Quinte Quads from Belleville by 64 to 14, with the first period displaying some clever junior basket ball. The Easterners, with fast underhand passes, worked in close for the first two baskets of the game, before the local kids solved their style of play, but from then on to the ringing of the bell for the first rest it was a tidy struggle, with the score for the first period being Belleville 10, Oshawa 15. Oshawa piled up nine points to two in the second period, 22 in the third and 18 in the fourth. Teams:—

Belleville—Faulkner, 2, Barlow 4, Cole 6, Deroche 2, Townsend; Kerr, sub.

Oshawa—Western 11, McNally 17, Johnston 4, Salter 4, Kohen 14; subs, Lott 4, Luke 8, Butshard 2.

Referee—Al. Tyson.

FRANK FINNEGAN JOINS SENATORS

Ottawa, Feb. 25.—Frankie Finnegan subbed for the Ottawa Senators in the second period of the game with Canadiens here, Saturday night. Finnegan rated as the best amateur in these parts, signed up while the first period was in progress, and made good from the minute he was let into the play in the second session. He has been playing right wing for Montagnards who won the amateur championship of the city last week by defeating New Edinburghs, and his jump to professional ranks will greatly weaken the Monties in the Allan Cup elimination series which they will now enter. Finnegan is a local boy, twenty years of age, and possesses all the qualities that go to make a first-class hockey player.

Peace Officer's Tip To Brother Officers

MusKogee, Okla., Feb. 25 (United Press).—"Once a cop, always a cop". It gets into your blood and you can't get rid of it," is the conclusion of Samuel Jackson, veteran peace officer here.

Jackson has carried the badge of authority for 36 of his 56 years, starting as a deputy sheriff at Bonham, Texas.

After fifteen years of service in Texas, Jackson moved westward into the Oklahoma Territory in 1903 as a member of the Indian police service.

His proudest boast is that during his long service as a peace officer, he has never killed a man.

The golden rule for a cop, and they apply everywhere, Jackson says, is "don't accept bribe money; don't drink anyone's whiskey, and do what is right."

New Station

(Continued from page one)

sic in lighter form.

Station CKCH will transmit news items as a part of its program linking up with the radio receiving sets which have been installed in the observation library cars of the Canadian National Railways transcontinental trains.

Arrangements have also been made whereby Station CKCH will be at the disposal of the Canadian Government at any time desired.

Station CKCH will be open to public inspection from 3 to 6 p.m. Feb. 27th. The initial program at 435 metres from Station CKCH and 341 metres from CHYC will be as follows:

Opening of station.

National Airs.

March—"Old Comrade" (Teike) Chateau Laurier Orchestra.

Overture—"William Tell" (Rossini) Chateau Laurier Orchestra.

—Men's Store.

Gov't Will Bring In Special Act Covering Stolen Car Traffic

Premier Taschereau's Suggestions Accepted by Automobile Trade—Provides For Securing of License and Liability Insurance—Buyers Will be Protected

Quebec, Feb., Feb. 25.—In view of the acceptance by the Automobile trade of the province of the suggestions of Premier Taschereau made to a delegation of automobile men last week, the Government this session will bring in a special act to deal with the stolen car traffic.

All dealers must obtain a license from the provincial treasurer, showing that they are men of good repute, and with the application must submit a liability insurance policy sufficient in the opinion of the provincial treasurer to guarantee for a period of one year those who buy cars from them, and which later prove to be stolen. Those who buy cars outside of this povision will be considered not to be in good faith, and consequently will lose the benefit of the pro vision of the civil code which provides that in case of a purchase in good faith return of the article is not required without payment.

Cancellation Issue

Should the insurance company at any time cancel the policy of a dealer the Government license to such dealer will automatically cease unless another satisfactory policy is obtained and approved of by the treasurer. The Insurance company in cancelling a policy of a dealer must immediately notify the treasurer. The cancellation of a policy will not release the insurance company from acts submitted by the dealer previous to cancellation. The dealer must exhibit his license in a conspicuous place and return it to the Treasurer when cancelled under penalty, yet to be fixed. The policy will protect anyone who buys a stolen car for, the amount paid during a period of one year. Premier Taschereau suggested six months only, but the dealers are of opinion that the time should be one year.

Protect Buyers

The effect will therefore be that people who buy from a licensed dealer will be considered in good faith, and protected as now by means of the insurance company, against loss so in that way do not lose the benefits of article 1489. If a man buys a car from some one other than a licensed dealer he will be doing so at his own risk, and suffer consequently if the car has been stolen.

What the dealers aim at is to destroy the market for stolen cars. To that end, it is further asked that there be kept on file at the offices of the Motor Vehicle branch in the principal centres of the province a list of stolen automobiles as reported to the Department.

Registrative System

It is also suggested as part of the new Act that there be a system of registration at the office of the collector of revenue a record of title so that no transfer of a car may be valid unless registered at the office, after verification of the car and the identity of the parties is established. It is also asked that power be given to any officer to visit any garage or warehouse where motor cars are kept and inspect the cars there, as well as to examine at any place any car, with a view to identifying it.

The Montreal Automobile Trade Association, and its sister organization of Quebec suggest that it might be a good idea if they could be permitted to express their approval or disapproval of those applying for licenses as dealers, and in this way the Government will know the facts regarding each application, who necessarily would be better known by the dealers of the neighborhood than would the department, no matter how devoted its officers might be.

KING VICTOR ILL

Rome, Feb. 25.—King Victor Emmanuel is confined to his bed with influenza. His projected trip to Fiume in connection with the annexation of that city to Italy has been postponed.

WHERE THE BEST TEA GROWS

The tea plant flourishes best on the well drained side of a mountain in a country where there is plenty of moisture and a warm sun. Certain parts of Ceylon Indian and Java are ideal for the growing of delicious tea hence from these countries come the finest varieties. "SALADA" is a blend of the choicest qualities grown, in these, the three most famous tea-growing countries in the world.

NOT QUITE SO MUCH!

A timber merchant was sitting in his office one day, musing sadly over the general depression in trade, when a quiet-looking young man entered.

"Do you sell beechwood?" asked the stranger.

"Yes, sir," replied the timber man, rising with alacrity and hoping fervently to book a large order; "we can supply it either in the log or plank."

"Oh, I dont want so much as that," said the young man, shifting his feet uneasily, "I just want a bit for a violin bridge."

REMISSION OF TAXES ON CHAMBER BUILDING BEFORE CITY COUNCIL

Large Delegation of Property Owners Present at Meeting to Oppose Recommendation of Civic Committee that Arrears of Taxes for 1922 and 1923 be Remitted to Chamber of Commerce

PRO'S AND CON'S

Recommendation is Laid Over for Further Consideration—Alderman Robinson Will Give Support Only if Results Justify Action—Ex-Mayor Bennett Opposes Remission After Fixed Assessment Has Been Agreed Upon

At the City Council meeting last night the recommendation from the civic committees that the arrears of taxes for 1922 and 1923 now overdue from the Chamber of Commerce, on the building occupied by it on Front street, Belleville be remitted to the same Chamber of Commerce was laid over for further consideration.

A large deputation representing the Property Owner's Association of the city and others were present to present its view of the case and in opposition to the proposed remission.

Ex-Mayor W. H. Panter, president of the Association was the first speaker. The Property Owner's Association realize he said that the Chamber of Commerce was a good organization. A fixed assessment of $5000 on that part of the building occupied by the Chamber of Commerce was by the Association considered to be all the concession necessary. He asked that the matter be postponed for two weeks in order that all may become conversant in the same.

Ex-Mayor Bennett said when he was in the Council opposed the remission of the taxes on the Chamber of Commerce building. He did not think it right that taxes should be remitted after a fixed assessment had been agreed upon. It was not right to grant remission. The school tax and local improvement tax

(continued on page eight)

THE WEATHER

Fair today, Wednesday north-east winds, partly cloudy and rather cold.

PROTECTION IS CANADA'S NEED KIWANIS TOLD

Real "Treat" is Given Local Club in Hearing Alfred E. Henderson

UNITY STRESSED

World Traveller Sees Great Future of Dominion Through Protection

Few local organizations have had such a 'treat' as was given the Kiwanis Club to-day at their weekly luncheon, when they heard Alfred E. Henderson, writer, traveller, and lecturer, speaking on 'Unity in Canada.'

Mr. Henderson's address was spontaneous and expressed the views of a world traveller seeing Canada, appreciating the beauty of the country, stressing the myriad natural advantages and outlining faults in our present system of government.

The great need of Canada, said Mr. Henderson, was unity; the nation is too big—too broad-minded, to let petty factions predominate. The advance of unity is aptly expressed in the results of co-operation of Rotary and Kiwanis for the betterment of community standards, continued the speaker, the nations of the world are steadily working for the common goal of unity, and the broadening of Canada's scope within the Empire is being more evidenced every day.

Protection of our home industries is essential, said Mr. Henderson in citing the deplorable condition brought about by the dole system and free trade in Great Britain. Canada must be able to stand alone to command the respect of her sister nations and this is only possible through the development of our own resources, employment of our own workmen, and building up a national feeling of Canadianism.

P. C. McLaurin, club president, expressed the thanks of the Kiwanis Club to Mr. Henderson for so splendid an address and the hearty applause left no doubt as to the popularity of the speaker and his remarks.

A pleasing incident of the luncheon was the presentation to the President of hand-make silk Kiwanis cap to Mr. McLaurin by the members of the industrial classes of the night school. Mr. McLaurin, as principal, has rendered invaluable service to the city by his untiring efforts to build up this part of the High School work.

The members were asked to give full co-operation in making the last night of the showing of the Kiwanis Jollies a success. A review of the performance by Mr. Henderson is given on page four of this issue, in which is outlined the excellent class of entertainment rendered.

GREAT COINCIDENCE OF THE FIGURE FIVE

Montreal, Feb. 24.—Five is a very unlucky number for Henri Houle.

He appeared in Recorder's Court this morning charged with peddling without a license. Here is the remarkable coincidence of the figure 5:

There are five letters in each of his names. He is 55 years old. He lives at 555 Montcalm street. He has five children. He appeared on the 25th day of the month. He was arrested at 5 p.m. yesterday. He was fined $5 and costs. The price of a license is $5.

ALEXANDER ALEKHINE, Russian chess champion, recommends his favorite pastime as a dental anesthetic when having a tooth pulled.

COUNTY LOSES PROMINENT MAN

Samuel Russel, Registrar of Hastings County, Dies After Brief Illness

At one o'clock this afternoon Mr. Samuel Russell, Registrar of Hastings County, and Ex-M.P.P. for East Hastings, passed away at the family residence, 193 George street, city. Deceased had been ill but a few days.

Mr. Russell was a son of the late Mr. and Mrs. James Russell, both natives of Ireland, and was born at Newcastle, N.B., on January 1848. He was educated at the Newcastle Grammar school and the University of New Brunswick, where he won the Douglas Medal for English essay. From the University he graduated with honors. Subsequently, Mr. Russell studied theology at Queen's University, Kingston and Glasgow University, Scotland. He held the degree of B. A. from Queen's. Later the deceased went into newspaper work at Deseronto, where he resided for some years. He was for a few years editor of the Deseronto Tribune and Secretary-Treasurer of the Deseronto News Company.

In the year 1878 he was elected to the Legislature from East Hastings sitting in the Legislature for two sessions. Later he was appointed Registrar of Hastings County which position he has since occupied.

Mr. Russell manifested an interest in educational matters and moral reform. He was in religion a Presbyterian being an Elder of John Street Presbyterian Church. In politics he was a Liberal.

Mrs. Russell who is a daughter of the late Mr. James A. Davis, of Deseronto, survives, but no family.

Conscript Every One In France, Poincare's Aim

Paris, Feb. 26.—The Poincare administration has outlined a program to conscript every man, woman and child in France into a scheme that will convert the entire country into a vast military machine, with full equipment.

Every individual in France of either sex and whatever age will receive a mobilization card and those not suited for military activities will be relegated to the task of "national defence," best suited to his physical, intellectual or technical capacity.

All private corporations will be required to place their services at the disposal of the state; the project provides for the requisitioning of factories and the surrender of patent rights. The state's monopoly of all industries and commerce will be exercised by delegates to be chosen by the representatives of industry and commerce and there is a suggestion that after insisting on the principal state monopolies in war time the project foresees "alleviations" in the case of private industrialists. The state's monopoly of all industries and commerce will be exercised by delegates to be chosen by the representatives of industry and commerce and there is a suggestion that these "alleviations" may have the effect of making these delegates the masters and not the servants of the state—"The State? We are the State" for example.

Charlottetown, Prince Edward Island. According to the American consular agent here, there were 2,600 silver foxes shipped during 1923 from Prince Edward Island to American points.

MOTION PICTURE PROBE IS ASKED

Move is Made in To-day's Meeting of Legislature Over Trenton Affair

Toronto, Feb. 26.—Ontario's activity in the motion picture field is the subject of an enquiry for ministry contained on to-day's legislature order paper.

Hon. H. C. Nixon, who was Provincial Secretary in the Drury administration wants to know the details of the purchase of the Adanac Motion Picture plant in Trenton for the sum of $24,552.

"What and where is this property?" asks Mr. Nixon, "who recommended its purchase? what has been the total cost of the project to date? How many employees are stationed there?"

Mr. Nixon is also curious regarding the Filmcraft Industries deal, involving $38,659.23.

"What were the different payments totalling this amount," he asks.

"For what purpose and on what dates were payments made? Has the Government reached a complete settlement with the company, if not, what amount are outstanding, or in dispute?"

SOVIET MISSION EVADES PUBLIC

Members of Trade Delegation Give Slip to St. John Newspapermen

St. John, N. B., Feb. 26.—J. E. Koulik, A. Divilkovsky and D. P. Pavloff, all of Moscow, Russia, arrived here yesterday aboard the Canadian Pacific liner Montclare from Liverpool. Mrs. Koulik accompanied the party which constitutes the Soviet Trade Delegation to Canada. The members of the delegation were kept aboard the steamer for a long time after the rest of the cabin passengers went ashore. Finally when they did get ashore, they appeared before the immigration authorities and soon afterwards were placed aboard the special train which carried them to Montreal.

When an endeavor was made to get in touch with the delegates it was said by a C. P. R. official that they would not talk anyway. Another official said it was his understanding that the Governmental authorities would prefer that nothing be said about the arrival of the delegates. When, however, they were finally located in a general way by a representative of the Canadian Press he was told by other C. P. R. officials that they were in the front car of a ten-car train. They were sought out there but not located.

CHARGE INDIAN WITH SELLING LIQUOR

Murney Maracle, Mohawk Reserve Indian appeared before Magistrate H. Bedford at Deseronto yesterday, charged with selling liquor and the case was enlarged for one week. Maracle will fight the charge. Inspector Francis Naphan, of Provincial Police was present in the interests of the prosecution.

MUCH POMP TO MARK OPENING OF PARLIAMENT

Thursday's Session Will Be Brief But Brilliant Ceremony

EXPECT BATTLE

House to Adjourn Until Monday Following Preliminary Business

Ottawa, Feb. 26.—Added pomp and circumstance will mark the opening of Parliament on Thursday. The Parliament Buildings have been in the hands of workmen for weeks past, cleaning and preparing.

In the Senate Chamber, His Excellency the Governor-General will stand beneath a new velour canopy, specially made in England, when he reads the Speech from the Throne and formally declares that the third session of Canada's fourteenth parliament has begun its deliberations. In the Commons pages will wear new uniforms. Parliamentary plans sometimes have a habit of running astray but Thursday's proceedings will in all probability be brief.

Members of the Commons will meet in their own chamber whence the Gentleman Usher of the Black Rod, will summon them to the Bar of the Senate. There, headed by their Speaker, they will hear the Speech from the Throne, returning to the Commons Chamber immediately afterwards. New members will be introduced and reports tabled. Then, carrying out the old formality, the Prime Minister will introduce a bill respecting the oaths of office. It is purely a pro forma document; nothing will be heard of it again. But session after session, it is solemnly introduced before the Speech from the Throne is considered for thus the Commons, year after year assert their right to conduct business prior to that of the Crown.

Adjourn to Monday

Following this preliminary business, the House will adjourn over till Monday for the debate on the address. The address in reply to the Speech from the Throne will be moved by F. L. Kelly, Liberal member for North Cape Breton and seconded by E. A. Papierre, Liberal member for Nipissing. After will come the speeches of the three party leaders and the battle will begin.

Elaborate arrangements are made for the unveiling on Friday of the statute to Lieut. Col. Harry Baker, former M.P., for Brome, killed in the war. The statue stands in the lobby almost at the entrance to the Commons Chamber. The Governor-General will perform the ceremony of unveiling.

Appropriate speeches will be made by Premier King, Rt. Hon. Arthur Meighen and Robert Forke, leader of Progressives.

Redistribution which was before a special committee last session but failed to pass will again be submitted to parliament. The bill to provide for branch line construction on the Canadian National is to be reintroduced; and here there seems likelihood of a sharp clash with the Senate. Last year, the Senate threw out the Government branch line bill on the ground that it embodied a three-year constructional program.

But interest in the session will lie largely in its effect on the political situation. The Government meets Parliament this year in a technical minority of four. Two of its most experienced parliamentarians Hon. W. S. Fielding, Minister of Finance, and Sir Lomer Gouin, former Minister of Justice, are unlikely to take any active part. As a consequence of the position, the Government will necessarily be dependent on a certain measure of Progressive support. What it is asked, will be the effect on the Government's fiscal policy? there has been rumor of tariff reductions, particularly in regard to agriculture implements and fertilizers. In any event, the next budget will have particular interest.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

PROVINCIAL HIGHWAY BILL IS PRESENTED LOCAL COUNCILLORS

Accountant A. Scott Instructed by Deputy Minister to Forward Statement Showing Amount of Expenditure on Provincial Surburban Area, Also Showing Portion Repayable by Municipality

LONG OVER-DUE

Attention Called to Non-Receipt of Cheque Covering Statement Submitted for Work Performed on Suburban Area, Also tion Year of 1921—Many Minor Matters Quickly Settled by Council

1924
1848
76

City Clerk. J. W. Holmes received the following communication, which was read at the Council meeting last night and which in itself is explanatory:

Toronto, Feb. [illegible]

Dear Sir:—

I have been instructed by the Deputy Minister to forward you the enclosed statement showing the amount of expenditure on Provincial Suburban Area on that portion of the Provincial Highway which has been so designated, in or adjacent to your municipality, in accordance with the Act to provide for a Provincial Highway System, Chap. 16, Sec. 34, sub-Sec. I. also showing the portion repayable by your Municipality under section 11, sub-sec. I of the same Act.

I would also respectfully call your attention to the fact that we have not received a cheque from your Municipality covering the statement submitted you for work performed on Suburban Area in the construction year of 1921. Your Municipality's indebtedness to this Department therefore is as follows:—

1921 Total Expenditure...	$122,341.92
1922 Total Expenditure...	47,[illegible].56
1923 Total Expenditure...	[illegible]
	[illegible]
1921 Amount borne by the Municipality 20 per cent.	[illegible]
1922 Amount borne by the Municipality 20 per cent.	[illegible]
1923 Amount borne by the Municipality 20 per cent.	[illegible]
	[illegible]

We will be pleased to receive your cheque in the above amount at your earliest convenience.

Yours truly,
(Signed) A. SCOTT,
Accountant

Members present at the Council meeting last night were Mayor W. C. Mikel, Aldermen W. R. McCreary, S. H. Treverton, J. E. Graham, W. H. Patterson, R. Gardiner, A. Robinson, D. V. Ketcheson, H. W. Greenleaf, A. H. Ketcheson, R. P. White, Geo. E. Foster.

Ald. J. E. R. Graham was chairman of the committee of the whole on reports, etc.

Recommendations from the various civic committees were adopted also the following:

That the City Engineer go to Toronto on matters appertaining to his department.

That the City Engineer prepare a plan of the interior of the gas plant.

That by-law No. 2215 appointing

(Continued on Page 3)

MONTREAL HAS NEW ANGLE IN BANDIT'S CASE

$1,400 Worth of Tobacco Found in Rooms of James Richards

LOCAL INTEREST

Alleged to be Man Who Instigated Robbery of Woodley's Store

Montreal detectives, under Inspector Egan surprised two policemen from London yesterday morning by informing the London officers that $1,400 worth of cigars and cigarettes they were looking for were shipped to London.

J. A. Richards, Alias Kenney, is under arrest at London, Ont., charged with theft of $3,000 worth of goods. He gave the police there a key to his rooms at Montreal and when the detectives got to the office at the King's Hall, St. Catherine street, they found the place empty.

They appealed to Inspector Egan who informed them that his men recovered the goods and sent them west this morning.

James Richards alias Kenney is the man who is alleged to have been the instigator of the Woodley fur robbery in this city, and his photograph along with finger prints have been sent from London to Belleville and on to Ottawa where his record will be produced.

No word has been received from Ottawa as yet.

A London despatch yesterday stated that Richards had supplied London detectives with the names and addresses of his confederates.

Golden Jubilee Of Presbyterians Coming Feature

The next meeting of the General Assembly of the Presbyterian Church in Canada will be held in Owen Sound in June.

This will mark the fiftieth anniversary of the organization of the church, forty-nine years ago the four branches of Presbyterianism which then existed united to form what is known to-day as the Presbyterian Church in Canada.

It is probable that the Assembly will set apart an evening for the holding of a Commemorative service, similar services may be held in the Synod and Presbyteries. The General Board of the church has appointed an editorial committee to consider the advisability of publishing a volume, of about 300 pages, giving the history of the church during the fifty years of its existence.

COAL MINERS FRAME DEMANDS

Calgary, Alta., Feb. 26.—Demands that the coal miners of Alberta will make on the operators this year will be decided upon at the wage scale convention of district 18, U.M.A. which opens here today. About fifty officials will attend the convention.

Calgary, Feb. 25.—Bank clearings in Calgary in January were $31,474,446 an increase of $9,787,987 over the corresponding month last year.

QUESTION OF "WHERE IS HOME" FEATURE OF TRIAL OF YOUTH

A unique and unusual case is being heard before Police Magistrate H. Bedford at Deseronto to-day.

Last year a youth at Deseronto was convicted of theft of a motor car and sentenced to the Portsmouth Penitentiary. Recently he was allowed his freedom on parole on the understanding that he must return to his parents' home at Hamilton. He did so. It now develops however, that he had been adopted by foster parents at Deseronto, who have his lawful custody until he is aged 21, it is alleged.

When the youth recently left his parents' home at Hamilton, and came to his foster home at Deseronto, the Dominion Parole Board ordered his arrest for violation of parole. The case to-day will settle the question as to the boy's liberty, and as to which "home" will be regarded as his home.

C. A. Payne is appearing as counsel for accused.

KEEP OFF THE ICE HUMMOCKS, IS WARNING OF SAFETY LEAGUE

The following letter from the Ontario Safety League carries a warning to keep off the ice along the lake front. In past years several casualties have occurred through people walking among the ice hummocks, and the League is making this warning in an effort to mitigate accidents.

The Editor, Intelligencer,

Dear Sir:—

I would appreciate your warning the readers of your paper to keep off the ice hummocks along the lake front. These have formed this year a great way out and are dangerous on account of being weakened from the wash of the water under them, although the upper surface may look strong and safe.

In appreciation of anything you can do to prevent accidents from this cause which hapen every year, I am.

Yours very truly,
J. F. H. WYSE,
General Manager.

DRINK AND REVOLVERS

The report of Commissioner of Provincial Police General Williams is an able one, and one which deserves the close attention of the public and prompt action by the Government. His references to the Ontario Temperance Act go to prove that the Ferguson Government is right in making plans for referring this Act again to the public. It is evident that in its present form it is not fulfilling the objects of those who secured its passing. General Williams points out that illicit trading in liquor has developed into a highly organized business, which works smoothly, and which is so perfect as to defy the best efforts to trace the heads of it. It may be said that the same sort of thing exists in the States. Then he says that the greater menace is the "home brew" liquor which is being sold. This bears out the general report that this "home brew" is turning out to be a curse, and that it is increasing. It is this which is turning so many people particularly in the country districts against Prohibition. The Ontario Temperance Act has now been in force for several years and during the Drury regime it was enforced most vigorously, needlessly so some people claim, and the Ferguson Government has not been lax in its enforcement, and yet the public see this report from General Williams. No doubt the Act has done a certain amount of good, but the consensus of opinion seems to be that it has failed through its repressiveness and that modifications and alterations in it are necessary in order to cope with the terrible evils which General Williams speaks of, and which seem likely to increase and multiply unless measures are taken to deal with them.

Crimes with violence are another problem which General Williams finds difficult to deal with, and he suggests that radio must be brought to bear in order to prevent bandits and others getting away in their stolen autos so easily. He speaks of revolvers, that horribly handy and deadly bandit weapon, and bears out what has always been contended in these columns, as against the contrary view held by The Ottawa Journal, that there would be difficulty in drafting a law that would absolutely keep revolvers out of the hands of criminals, "but if the provisions of the Offensive Weapons Act and of section 118 of the Criminal Code were as drastically enforced as they should be, it would make it practically impossible for anyone without a permit to be knowingly in the possession of a revolver or pistol." We believe it would be impossible to keep revolvers out of the hands of criminals so long as they are made, and they will be made so long as human beings are such fools as to want to make weapons to kill each other with.

General Williams suggests what is most likely the only real method of dealing with the revolver problem. He advocates that the penalty for persons found unlawfully in possession of revolvers, be made more severe and that in all cases be punishable with imprisonment, and that extra punishment be meted out to persons arrested for robbery, burglary, etc. He is convinced that the knowledge that the possession of a revolver would add years to his sentence would make for effective prohibition of their use.

—(Kingston Standard)

HOW TO GET THE TAXES DOWN

Perhaps the brightest side of the taxation situation is the growing appreciation by the public that lower levies must necessarily be accompanied by less spending. Boards of Trade, which are usually calling on the various governments for local improvements to be financed out of the public purse, are leading the present campaign for retrenchment. Newspapers throughout the country are showing a desire to educate public opinion as to cause and effect in taxation. The Calgary Herald declares that "the members of the legislature should hear from the people in their constituencies, not in the form of requests for new services, but in the form of demands that the members support an economy programme." The Orillia Packet brings the issue home to the municipal taxpayers:

The primary concern of the Town Council for 1924 should be to keep down the tax rate. The council will require firmness. The council will have to learn to turn a deaf ear to many requests that in themselves sound reasonable, and even desirable. But a merely negative attitude will not be sufficient. There must be positive reductions. There will have to be less money on roads and streets, parks, public buildings, sewer operation and all the controllable items of public expenditure.

Politicians have for years worked on the principle that the way to get votes is to spend money—to get their hands into the "pork barrel." When the people bring it home to these same politicians that what they want is less spending and lower taxes and that they will cast their votes accordingly a real improvement in the situation may be looked for.

WHEN WINTER WINDS RAGE

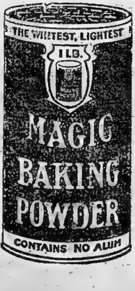
When winter winds are raging,
  Across the snowy waste,
And whirling mad-cap snow-wreaths
  Dash by in frantic haste;
When tall trees bow protesting
  Before the Storm King's might,
And hidden in the smother
  Swift falls the early night.
Then tasks are finished lightly
  To music of the storm,
And lighted lamps gleam brightly
  On log walls brown and warm;
The open fire then calls us
  And bids us linger long
With books and talk and laughter,
  With music and with song;
And children's merry faces
  Bloom in its rosy glow;
Then home is most delightful—
  The dearest place I know.
—By May Howe Dakin in Christian Guardian.

ONE ADVANTAGE

"How are your new false teeth?" "Best thing in the world to make a man keep his mouth shut."—Louisville Courier-Journal.

QUITE UNINTENTIONALLY

"Ah, so you are entertaining a brother-inlaw at your house, Mr. Gloom?" with a rising inflection said Professor Pate. "On the contrary," replied J. Fuller Gloom, "he is entertaining me with his manoeuvres to borrow money from me and at the same time stay in my good graces."—Kansas City Star.



PRESS OPINIONS

TOWARDS THE KINGDOM

(Daily Herald)

How far the world—our particular part of it—gets better and how far it gets worse is a subject for never-ending discussion.

In some directions we certainly have improved. We behave more decently to animals. We acknowledge more instinctively the fellowship in which the human race is joined with every thing.

There was an illustration of this yesterday in a hospital near London. A tiny kitten was run over. Some little boys picked it up and took it to the hospital.

Now that in itself was a decided advance. Fifty years ago that course would not even have suggested itself. "Put it out of its misery" would have been the most humane suggestion heard.

But more follows. At the hospital the kitten was treated with the utmost care. An operation was performed by doctors and nurses in the operating theatre. The little creature will be looked after until it is well again.

There is something in a story like this which thrills the chords of sympathy and even touches the font of tears. When we all act towards one another and towards every form of life—whether in suffering or in health—with this tenderness and kindly care, we shall be really civilized. We shall have begun to found the Ideal Commonwealth, the Kingdom of God upon earth.

VALUE OF MISTAKES

(E. W. Howe's Monthly)

I have been much impressed with the value of mistakes. I believe I have been helped as much by mistakes as I have been by natural advantages, or good advice. I have never made a mistake that it did not in some way prove advantageous. I have a bad stomach, because of indiscretions in diet in my younger days. A doctor said the other day my bad stomach was a good thing for me; it kept me from over-eating, and would result in a longer life.

MENTAL HOBOES

(Chicago Herald)

It is not a fear or affection, nor a pretense of simplicity, that encourages careless diction and slovenly language. It is laziness of mind. The man who really thinks is as careful in the use of his words as a goldsmith in the use of his tools. For words are the instruments of his thoughts. The man who merely pretends to think, who babbles half-thoughts, has no need for such case. And usually he is incapable of it.

PAY YOUR GROCER FIRST

(Profit Pointers)

When you pay your bills give your grocer first money. He supplies you with the most necessary thing in life—food.

The most important thing in the world is to get something to eat.

If you put off paying anyone, therefore, let it be anyone, but the grocer.

He is not wealthy. He seldom has a surplus in the bank. His money is all invested in merchandise and accounts.

He buys of wholesale houses who sell on stated terms and have experts who are paid to "get the money" when due. He cannot pay them with excuses. He cannot afford collection expenses. He should not be expected to. If he is courteous enough to give you credit, show him equal courtesy by paying him promptly and without making him any extra expense. He has no security.

What you buy of him is soon consumed and he cannot get it back. Who else does as much for you? He asks no favors—needs no charity, but is entitled to a square deal. Be square—be fair—be just.

MASSASSAUGA

Mr. and Mrs. Valian returned home on Wednesday from Toronto.

Dr. Davidson, Hamilton, who had a serious operation a few week's ago arrived on Friday to spend a few weeks with his parents.

Mrs. J. Howatson left on Monday to spend a few days as the guest of her nephew and family, Huff Island.

Sorry to say some of the farmers' horses have horse distemper.

Miss Tessie Carr is on the sick list.

Mr. and Mrs. Vallean spent Sunday at her daughter's Mrs. Nightingale.

Mr. Juby spent the week end at Demorestville

Mr. Rose, Belleville, was the guest of Tommie Jordan Friday evening.

Mr. Howard Wallbridge and wife, were the guest of Mr. and Mrs. C. Sprague, Mountain View, Thursday.

Jay Anderson and sisters were the guest of their sister Mrs. James Anderson.

Norma Huff took tea Friday evening with her friend Isabell.

HUGE NEW ZEALAND TUNNEL COMPLETE

Wellington, N.Z., Feb. 26.—After 23 months of work, the huge tunnel which is to convey Wellington's new water supply has been completed.

It penetrates two miles of rock through a range of hills 2,500 feet high. The work was performed by cooperative labor and was unmarred by accidents.

A true benefacter is one who makes us do the best we can.

Rob some men of their conceit and there would be nothing left.

Too much of the noise in this world tries to pass itself off as music.

Music & Drama

IMMENSE SETS WRECKED TO MAKE ROOM FOR NEW

For "Children of Dust," Frank Borzage's new First National picture, which is at the Regent Theatre Thursday, Friday and Saturday, the usual procedure of building sets was reversed because they first had to raze three sets to make room for a huge new set.

One of the doomed scenes was a gorgeous castle, while the second was an extensive Egyptian ruin and the third an old New York street. A tract of three acres was needed. Hence the decision to demolish the large structures to make room for the massive buildings which represent those surrounding Gramercy Park in the heart of Manhattan, as well as the park itself and the streets facing it.

It took a week to raze the buildings with a crew of thirty men and two tractors, and three weeks more to erect the new ones, and lay out the park with its walks, fences, trees and flower beds. It was the biggest motion picture building contract ever negotiated.

In the all-star cast of "Children of Dust," are Lloyd Hughes, Johnny Walker, Pauline Garon, Bert Woodruff, George Nichols, Frankie Lee and others.

JACKIE COOGAN QUITS RAGS IN "LONG LIVE THE KING"

Metro photoplay by Mary Roberts Rinehart shows boy star in his greatest role.

"Long Live the King," which comes to the Griffin Theatre Wednesday, Thursday, Friday and Saturday, reveals Jackie Coogan at the Zenith of his power, in a delightfully romantic story by the supreme spinner of romantic tales, Mary Roberts Rinehart the director, the art director and chief cinematographer have brought the story to the screen with a wealth of beauty, gorgeous detail and general exquisite investiture, that surpass by far any of Jackie's earlier productions.

No characterization which Jackie has created before has fitted him so completely as the role of Crown Prince of Lavonia, Ferdinand William Otto in the story, and as Jackie Portrays in the picture is all joy. Every emotion—joy, of sadness, of puzzlement, of wistful desire, and of juvenile mischievousness, to which the normal eight year old is heir, is to be found in Jackie's portrayal. His trial are those of an adventurous lad under the discipline which falls to the lot of youth in high station, his woes are those of any lad orphaned and farred by conventions from true companionship with other boys, his joys are those of any boys temporarily released from kindly yet omnipotent tutelage his happiness is that of any youngster over the acquisition of new playthings or the consummaton of other childish wishes.

"Long Live the King" will be shown at Griffin's Wednesday, Thursday, Friday and Saturday matinee Saturday at 2.30 and a special school children's matinee Saturday morning at 10.30.

Wednesday will be music lovers night when an orchestra of 20 musicians will render a special musical score for the pictures.

Don't Dose a Cold —Use Vicks

EXTERNAL TREATMENT WITH VAPORIZING SALVE IS BEST

Mr. Alex. McDugall, Box 655, Regent St., North Sydney, Nova Scotia, writes: "I had a bad cold in my head, I tried many remedies, but had no relief until I used Vicks. It is also the best salve I ever used for a cold in the chest. Put some Vicks VapoRub on your chest, cover with a flannel and you have a sure remedy. For a cold in the head, melt a little VapoRub, and inhale the vapors. In a short time your cold will be gone."

Vicks VapoRub is an externally applied vaporizing salve. While it acts like a liniment or plaster it is also inhaled as a vapor, and so gets in the throat and lungs immediately. The cold is often broken up overnight.

Vicks is the modern direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds Vicks gives remarkably quick results and also avoids nauseating internal dosing. Just as good for adults and for skin inflammatons, such as cuts, burns, bruises, bites, stings.

At all drug stores 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly

FLIES IN THE OINTMENT

Sir.—Dear, oh dear; it is a hard season for us poor girls in spite of the advantages of leap year. for now a leading drug company advertises a kiss proof lipstick and a face cream on the market has for a slogan "Enjoy a chapless winter," wails Topy to the Chicago News Editor.

HOME SWEET HOME

He had never told his wife that he believed he could paint, and that he was actually engaged on a masterpiece. At length, when he had given the final touches to a blue and purple canvas, he called his wife in and sprang the great surprise upon her.

She fixed upon the picture a long and steadfast gaze. He said:

"My dear, it only remains for you to suggest a title."

"Why not call it 'Home'? she said after a long look.

"Home? Why"

"Because there's no place like it," she replied gently.

SUNSHINE FOR SOULS OF COPS

Chief of Los Angeles Force Strong for Politeness and Sympathy

By HAROLD E. SWISHER
(United Press Staff Correspondent)

Los Angeles, Feb. 26.—The sunshine of California has spread to its police force—or at least that portion of it that directs Los Angeles' congested motor traffic.

No longer will the rays seen gleaming from the vicinity of the city's blue clad motor manipulators be those reflected from the impressive badges bedecking their chests. The warm glow of sunny smiles will also add to the general spirit of good fellowship.

All this is a result of sweeping changes made by Chief August Vollmer, Los Angeles' scientific, but human, police head.

Courtesy, politeness and sympathy with human kind is the new watchword on the traffic force.

"Kill the public with kindness," is Vollmer's slogan for the traffic controllers. And it appears to be working.

Even the worst tempered motorist finds it difficult to "cuss out the traffic cop" when that official turns the tide of traffic against him, if the officer is beaming a smile as he pivots about.

"There must be more sunshine in our souls," Chief Vollmer has decreed. "We aim to convince the city's many thousand visitors that the California climate puts love in the hearts of so-called hard boiled traffic cops.

"The new Los Angeles traffic policeman is the direct opposite of the sour, autocratic, ruler of the universe who formerly stood atop his perch in the crossing, imbued with the idea that the people were his pawns, and who dictated and insulted as he pleased, offending the best people in the community and bringing down hatred and contempt upon the department.

"We are going to bounce off the force every impolite traffic. He has a definite duty to perform, and it isn't to get off his box and argue with offenders. Those who violate the law can do their explaining at the sergeant's desk."

Vollmer does not mince his words, and the chaps on the force pay heed to his mandates.

But how could the traffic force be anything else but unusual with Officer Cyrus C. Johnson a member of it. Officer Johnson is a poet—a real honest-to-goodness poet, and some of his literary contributions have received wide renown.

A traffic cop with a poetic soul must naturally be kindly, and Johnson's example, backed up by Chief Vollmer's hints, are re-making the force.

Some time ago Officer Johnson's first book of poems was published. "Pools of Glass" is the name of it, and the little verses have been commended.

Johnson has written another poem, all about his day's work. It isn't in "Pools of Glass," but there's a feeling about it which impresses one with the belief that the author was imbued with his subject.

"Ode to a Traffic Cop," is the plaintive title of Officer Johnson's new poem. It follows:

"Under the blazing summer heat,
  The traffic copper stands;
His number tens are full of feet,
  And his fists are full of hands;
While the buttons on his manly chest
  Shine like tomato cans.

"Week in and week out
  From morn to night,
Horns toot at him, and blow;
  They all give him the same old razz
If he's a bit too fast or slow;
  And people ask ten billion things
They think he ought to know.

'He helps the children home from school
  While speeding autos pass;
The chauffeur calls him a darn fool,
  And steps upon the gas;
But he keeps his temper sweet and cool,
  And jugs the blame jackass."

May Wear Derby or Dark Felt With Full-Dress or "Tux"

By "THE STROLLER"

Written for the United Press)

New York, Feb. 26.—There is no strict dictum as to what a man should wear over his Tuxedo or full dress suit. Standing in the cloak room of the Palais Royal or the Hotel Pennsylvania Grill, one will see all sorts of overcoated and hatted men come in, consign their outer garments to the tender mercies of the mercenary attendant and then reappear in what the novelist of the Laura Jean Libbey type prefer to call "faultless evening dress."

There are all sorts of overcoats, from expensive raccoon and fur lined "bennies" down to the type which you walk upstairs to buy and thus save the price of next month's rent.

Headgear is of a similar hetrogenity, from silk opera hats to the moth eaten variety of 1921 vintage.

But the ordinary regular fellow, who has to step out in his dress toga occasionally, has but a simple formula to follow to be in good taste. With his dress suit a dark felt hat or derby is perfectly acceptable in place of the rigorous conventionality of the opera hat. A dark overcoat, either single or double breasted, and a long white silk muffler completes the requirements.

The muffler is there not alone to protect the wearer's chest from the flu. Overcoats have a habit of being a little unclean underneath at times and since the dress suit doesn't close over, the long muffler serves as a guaranty of the spotlessness of the waistcoat and shirt.

With the Tuxedo, 'most anything will do, but a dark hat and overcoat are preferable, as they provide an atmosphere of a little more formality.

The semi-soft collar, that unique invention now well established, combining "the comfort of a soft collar with the good appearance of a starched one," has gained a favored place in the hearts of men. But, "caveat emptor"—let the buyer beware! It always pays to purchase the product of a reputable concern. There is little dissatisfaction with your purchase, and, in the end, money is saved thereby in the enduring quality obtained.

Anyhow, the semi-soft collar is acquiring all manner of popular shapes and it is not stretching the imagination very much to predict that not a very long period of time will see the semi-soft collar with as great a variety of styles as can now be purchased in the starched collar.

Mothers Allowance Act

The Council concurred in a memorial from Ottawa Council relative to having some amendments made to the Mothers' Allowance Act.

A petition was presented from a number of citizens protesting against the depositing of garbage on a vacant lot on Everett street.

Ald. Treverton stated that he had ordered that no more be placed on the lot.

Committee rose and reported. Report received and adopted.

Want Material

At a meeting of the Parks Board the following motion was adopted and read at the Council meeting.

That communications be sent to the City Council and to the Harbor Commission requesting that should any dredging at the river mouth and harbor be authorized this year, the material available be deposited to build up parks property as far as may be required.

Motions

Ald. W. H. Greenleaf seconded by Ald. R. Gardiner that the Parks Board be requested to meet with the members of the Council for consideration of their request for appropriation said meeting on Thursday evening, March 6th 1924.

Ald. W. H. Patterson moved, seconded by Ald. J. E. R. Graham that the manager of the waterworks be authorized to attend the convention in Hamilton of the Canadian section of the American Water Works Association and become a member of same

Inaugural Meet Of Parks Board

Officers for Year 1924 Selected at Initial Session—Improvements Planned

All members of the Parks Board were yesterday afternoon in attendance at the inaugural meeting when officers were elected and other business was transacted. Officers selected were as follows:

Chairman—P. T. J. Power.
Treasurer—J. C. Panter.
Secretary—Ald. H. W. Greenleaf.

A motion was adopted that a fountain pen be procured and presented to chairman Powers in recognition of his services as chairman for the past year.

Ald. H. W. Greenleaf's services as secretary was suitably acknowledged by a resolution which was adopted thanking him for valuable assistance he had rendered to the Board.

Some other matters of minor detail were attended to.

The Parks Board has requested the City Council to provide for the Board an amount equivalent to 1 mill on all the rateable real and personal property of the city for the year 1924. The Board proposes to use the money so raised as follows:

Six thousand dollars to be devoted towards the purchase of grounds to be used for park and athletic purpose.

The balance of the requisition to be devoted to the maintenance and improvement of the present park properties under the control of the Board.

Request referred to the Executive Committee of Council.

Deaths and Funerals

MRS. CATHERINE GRANT

On Monday afternoon the funeral of the late Mrs. Catherine Grant took place from the family residence, Burton street. Rev. A. S. Kerr, Pastor of St. Andrews Church conducted services at the house. Interment at Belleville cemetery vault. Bearers were G. W. Dawes, S. Campbell, L. D., W. and H. Grant. The floral tributes, mute expressions of sympathy were as follows:

Pillow—Family.
Sheaf—Grandchildren.
Cross—Camp Rob Roy S. O. S., No. 43.
Sprays—Mr. and Mrs. Hector Grant, Mrs. U. E. Thompson and daughter, Mr. and Mrs. G. W. Dawes, Mr. and Mrs. Albert Johnstone, Mr. and Mrs. H. Hagerman, Mr. and Mrs. E. W. Vanner, Mr. and Mrs. J. F. Gordon.

"NAYADA" SOLD BUT STAYS IN TORONTO

Frank Wilson, F. M. Jeffrey and "Dug" Addison Are the New Owners

Toronto, Feb. 26.—Frank Wilson, who was skipper of the R.C.Y.C. champion Nayada for the George Cup last summer, will be at Nayada's helm again this season in the double capacity of skipper and part owner.

Nayada was designed by T. B. F. Benson, of Toronto, and built by the Ditchburn Boat Building Company, at Gravenhurst, for a syndicate of Royal Canadians yachtsmen, including among others, Major Walter Windeyer, Commodore Geo. H. Gooderham and several members of the Gooderham family. While she did not win the cup, she met with an unanimous chorus of approval as an excellent all-round R-boat and a creditable piece of Canadian design and Workmanship. She was put up at auction at the R.C.Y.C. meeting last fall and bought by Commodore Gooderham for $2,500.

The price paid for her on her present transfer has not been stated, but Mr. Wilson is satisfied that he and his associates are getting an excellent property at a reasonable figure.

Mr. Wilson's partners in the purchase of Nayada are Messrs. F. M. Jeffrey and Douglas Addison. Wilson and Jeffrey have long pulled together, both in the navy and in the little Swamba, which they sold recently. Mr. Addison is the famous "Dug" of the dinghy contests, so that Nayada is assured of racing management from her new owners.

THE SEA'S DEPTH

Up to a few years ago the commonest means of obtaining information as to the depth of the sea was by a line with a weight at the end. Experiments carried out during the war for the purpose of detecting enemy submarines led to the invention of the hydrophone by which distant sounds were promptly and accurately located.

From this idea has now been evolved a method of measuring depths by echoes sent out by an apparatus called a "buzzer." The "buzzer" is placed below the water line of the depth-finding vessel, and with the aid of "artificial ears" known as microphones its operators listen for the echoes of its sound waves to travel back to the ship.

By timing these echoes in conjunction with the speed of the ship, the depth of the ocean at a given point can be definitely ascertained.

Great advances in this science have been made since the war. It is now possible to detect by sound the presence of a ship ten miles away. A few months ago five miles was the greatest distance at which a vessel's engines could be heard in this way.

Sound under water travels at the rate of 1,118 feet a second. This is more than four times faster than the velocity of sound through the air.

China Has Found the Road to Education

Pasadena, Cal., Feb. 26.—Some day China will be one of the best educated countries in the world," Dr. Edward H. Hume told the University Club here. Hume is president of the Yale University branch in China.

When the Manchu dynasty fell 12 years ago, Dr. Hume said, only 1,500,000 children in China were attending school. Now there are 7,000,000.

"Time is not a prime consideration in China," Hume said. "The Chinaman is in no hurry. There fore the educational transformation of China may take a century, but the Chinese, have found the road and will follow it slowly but surely."

Yale in China, which is partly supported by the provincial government of Tunan, has an enrollment of 500, Dr. Hume said. 30 of whom are studying medicine.

A HINT TO THE FORD SALESMAN

In one of the leading churches of a certain big city the pastor took for the text of his sermon "Better Church Attendance". The pastor held that the automobile has taken more people from church than any other thing He concluded with the exclamation, "The Ford car has taken more people to hell than any other thing I can think of!" Whereupon an old lady in the congregation began to clap her hands and moan: "Praise the Lord! Praise the Lord!"

"What's the matter sister?" asked the pastor.

"The Ford never went any place that it couldn't make the round trip, and I am sure all those people in hell will be back. So praise the Lord"

SHOOTS TWO, THEN SUICIDES

Las Cruez, N.M., Feb. 25.—Steve Walter shot and killed Miss Blanche Kell and her mother, Mrs. John Kell, and then committed suicide yesterday afternoon, it was stated at the sheriff's office. Walter objected to Miss Kell keeping company with another youth.

LIQUOR SQUABBLE IS NOW RAGING THROUGHOUT NORWAY

Nation Excited as "Wets" Attempt to Abolish Prohibition—State's Finances Involved

Christiana, Norway, Feb. 26 (United Press).—Norway, since 1916 partial prohibition territory, will soon vote upon a bill repealing the law.

The king in his speech to the Storthing, the Norwegian parliament, on January 15, announced that his cabinet is about to introduce a bill designed to remove present restrictions upon the sale of heavy wines and liquors.

No definite time has been set for the presentation of the bill to the Storthing but it is considered probable that it will be this month or next. The cabinet sponsors of this bill are confident that it will be passed. The new budget estimates include, a 28,000,000 kroner ($4,000,000) possible duty on spirits.

Strong opposition to the measure is sure to be encountered when it is presented, however, and there is some doubt whether it can be passed.

At the present time there is a majority in favor of prohibition, but it is thought that some of these may possibly be persuaded to vote for the repeal of the law as a means of alleviating the national financial difficulties. Norway has been going through a period of acute depression, which has been reflected in the state revenues and proponents of the bill repealing prohibition that with the taxes which could be raised from the sale of liquors much of this embarrassment could be relieved.

Go To People

It is understood that the present cabinet is determined to resign in the event of the failure of the bill, and that they will ask the king to dissolve parliament in order that the question may be settled by a vote of the people The prohibition question is already the foremost political question of the day and in case parliament was dissolved it would become the leading question in the new elections.

Those demanding the repeal of the law declare that prohibition has not only failed, but added to the nation's financial troubles as well as lowered the morale of the people.

The first prohibition measure was introduced December 16, 1916, as a war measure for the conservation of the national food supply. At that time the manufacture, importation and sale of distilled liquors and heavy wines was prohibited. At first the maximum legal-alcoholic content was set at 11 per cent. Later it was increased to 23 per cent.

In October, 1919, a national plebiscite was taken on the question of maintaining the war-time measure. The vote was 489,060 in favor with 305,241 against a majority of 183,149 for prohibition. In September, 1921, the law passed both houses of the legislature and was made permanent.

Business Steps In.

Shortly thereafter, however, difficulties arose in connection with the renewal of treaties between Norway and France, Spain and Portugal. In pre-war times the French, Spanish and Portuguese wine growers had found a large outlet for their heavy wines in the cold northern countries of Scandinavia. Spain and Portugal imported large quantities of fish from Norway. In order to renew the commercial treaties, Norway had to agree to import 500,000 litres of brandy from France, a similar quantity of heavy wines from Spain and 850,000 litres of heavy wines from Portugal. The government presented this situation to the Storthing in January, 1923, and recommended that the treaties be adopted and that the prohibition against heavy wines be abolished. This, however, was defeated by a vote of 119 to 28. The government then resigned.

Since then the prohibition question has become perhaps the paramount national issue. Many conferences, political and non-political have been held in attempting to thrash out the problem. Norway's financial position has remained depressed.

Pending a definite decision by the Storthing, or by the electorate, every city and hamlet in the country is placarded with prohibition and anti-prohibition posters and in some places motion pictures are being shown depicting the advantages or disadvantages of liquor.

Intoxication Increased?

Those seeking the repeal of the law declare that ever since it came into force the numbr of crimes and cases of inebriety have not diminished. They say that, on the contrary, drunkenness has increased all kinds of substitutes having been found, as in the United States. Strong wines and liquors have been obtainable at all times upon presentation of a doctor's prescription at an authorized drug store or government dispensing station and it is claimed that this privilege has been abused to the detriment of the people generally.

Upholders of the law cite police figures to show that drunkenness has decreased since the law went into effect The United Kingdom Alliance, a British prohibition organization co-operating closely with similar organizations in Norway, recently printed the following figures: In 1916 (before prohibition) number of cases of drunkenness reported by the police was 62,281; 1917 (after prohibition became law), 31,109.

The Alliance report continues: "In 1918 the manufacture of beer having more than 2 1-2 per cent alcohol was prohibited. The cases of drunkenness were then reduced to 22,914.

the close of the war the importation of wine increased and the production of stronger beer was permitted, with the result that in 1919 the cases of drunkenness rose to 37,410. Alongside of the increasing volume of stronger liquors the drunkenness increased in proportion. In 1922 the figures reached a total of 44,711. In Christiania, in 1916 (before prohibition) the figures for drunkenness were 19,809. In the same city, in 1917 (after the adoption of prohibition) the figures were 11,049, and the following year 9,736. In 1919, when there was an increase in the production of wine and beer, we find 13,375 cases of drunkenness, and in 1922 this figure went up to 14,572."

Both sides seem to agree that a great deal of 'bootleg' liquor has found its way into Norway since the passing of the law. Hundreds of "home-brew" stills have also been reported.

Kiwanis Jollies Prove 'Up To' Advance Notice

Opening Night's Performance Brings Out Fact That Belleville Possesses Real Talent in Stage Work—Well Known Critic Writes Views of Show

By ALFRED E. HENDERSON

Traveller, Writer, Lecturer.

It is an excellent thing to play sometimes! It is a most excellent thing when the people of our city, of our own Kiwanis Club, forget their business for a time and become players! There is only one great difference between the amateur and the pro. The amateur takes two matches to light his cigarette and the pro, only one! But the cigarette must light—that is the point! The contract between artist and audience must be made. And so in the little show last night there were many points to praise.

Miss Bernice Blaind easily won first honors—for she lost herself in her role, and, with a chorus trained to take second place to her, in positions (as in ability) and with a partner who somewhat suggested her description, the number would have been recognized as the hit of the evening. There was ability and to spare.

Ida Folwell has everything that goes to make for success as a dancer, save the little "sureness" that gives perfect finish. Bob Gorman could, with advantage "cut" on his encores and dance more freely for he suggests that he could do it. Hilda Countryman must be "Ritzi Mitzi" all the time in playing the part for she also has ability.

I saw Mitzi a few weeks ago in Detroit and remember that it was sustained losing herself completely in her role that made her work so wonderful.

Dr. A. B. Haffner's vocal selections were one of the features of the evening. Tonight the number will go over bigger than ever. The pianist, John McGie, was another success, for he possesses personality, charm and platform modesty.

Harold Barrett sang several old favorites acceptably and through the whole entertainment there entered the spirit of friendliness that seems to be characteristic of Belleville. Certain it is that all who can should go this evening and prove that the time is ripe for a community theatre group in the city.

I wish I might remain to organize it for there is talent enough and with regular practice and the decision not to leave the characterization all will be well. I had almost forgotten Miss Irene Baker who has a delightful voice and should make a success of light musical comedies. And now to the film. I had seen it in Chicago. It was thoroughly "worth while" and worth going a long way to see. The music was always appropriate and if memory serves aright, the "right" selection for the film.

To Belleville and to the Kiwanians.
Adieu—Happy to meet.
Sorry to part.
Happy to meet again!
Alfred E. Henderson.

AMERICAN DIPLOMAT QUITE A 'FIDDLER'

New York, Feb. 26 (United Press). —When Willem Mengelberg, conductor, arrived in New York to resume his direction of the Philharmonic Orchestra for the balance of the current season, he proudly announced that he had made another musical "discovery" in the person of Richard Tobin, violinist. Of course that statement doesn't mean much until one considers that Tobin is the American minister to the Hague. Mengelberg said that Tobin is quite a fiddler and plays the Mendelssohn concerto "very well indeed." The fiery Dutch conductor intimated that should diplomatic life cloy upon Tobin, he could secure a job in the string section of Mengelberg's orchestra in Amsterdam any time.

With Tobin and Gen. Charles G. Dawes, who is a composer of parts, America is well represented in Europe by musical diplomats and world peace may yet be attained by the rendition of the Meditation from "Thais" or Dawes' popular "Melody in A major."

Sidelights On Delorme Trial

To judge from the sparse audience the public seems to have lost interest in the trial. In front of the court house there was only the usual crowd waiting for something to turn up while the court room itself was only half crowded. The proceedings, barring the courts criers frills and the parade into the court, had the appearance of an ordinary session.

The Delorme sisters, Rosa, Lily and Florence, were on the scene early but had to leave the room when all witnesses were excluded, before Crown Prosecutor Calder recapitulated, the details of the murder for the benefit of the new jury, which was picked in record time. Rosa Delorme smiled at her brother as she left the court and was given an answering nod.

The accused, as usual, was coolness personified. He was attired in the orthodox clerical attire, was well groomed and seems to have taken on flesh since his last trial. He smiled at the Herald artist as he was being sketched and tried his best to hide a grin as Mr. Gustave Monette K.C. made the insanity plea. This angle seemed to strike the Abbe as very funny.

Strange to relate the Abbe did not make a single note during this morning's session. Heretofore, he has feverishly scribbled sheet after sheet and wandered from one note to another. This morning after he was allowed to sit down he listened attentively to Mr. Calder's story, a cynical smile now and then curving his lips. He followed the selecton of the jury with the greatest attention and seemed to be satisfied with the twelve men and true who will decide whether he will be a free man once more or will go to the gallows.

The Delorme girls were nattily attired and seemed as unconcerned as the accused. One of the sisters was chewing gum while Rosa pointed out the different notables to her companions.

Indications this morning pointed to a short trial, unless the unexpected happens. Guess hazarders allowed ten days for a verdict.

Sheriff Lemieux's instructions to the attendants at the three doors of the court room were religiously obeyed. No one not in possession of an admittance card was allowed to pass the uniformed attendants.

Up to the present time the Crown and the defence have requisitioned by subpoena thirty-five witnesses to be called during the trial. The Crown holds in reserve subpoenas for ten other witnesses who can be reached by members of High Constable St. Mars's staff at a moments notice. They are mostly local citizens, who can be secured any day the trial judge wants.

Both the defence and the Crown admit new witnesses to appear during the trial. No information concerning the trend of their testimony could be secured from either side. The Crown has a man whose evidence is said to be most important and he has not figured in the case before. The defence is confident and do not hide their optimism. Such remarks as "something up their sleeve," were heard this morning and they referred to the defence and the Crown. Both sides seem sure of their footing and both are confident of the cause they espouse.

Arthur Leclaire, the furnace man is not in Bordeaux jail. A hitch in the arrangements to transfer him from the state prison at Vermont cropped up and the matter is now up to the Attorney General. It was stated this morning that an application from the Provincil Government through the Attorney General or R. L. Calder, Crown prosecutor would be made to the Governor of Vermont for the transfer of a state prisoner to Montreal.

FEDERAL RESERVE BANKS CONTINUE TO SHOW PROFITS

Washington, Feb. 26 (United Press) --The gross earnings of the banks of the American Federal Reserve System during the year 1923 totalled approximately $50,000,000, an amount about the same as that for the preceding year.

These figures have just been made public here by Federal Reserve officials. Earning assets of these banks have remained relatively constant during the past two years and, as a result, the earnings have been relatively constant.

As in the case of earnings, current expenses have also been on about the same scale for the past two years, in spite of the fact that in some departments of these banks the volume of work handled has steadily increased. Salaries paid to clerical employees show a decrease during 1923 as compared with 1922, but the total expense of maintenance during 1923 showed a slight increase over that for 1922, the official's figures show.

The current net earnings of the banks are announced to be $20,938,000 for 1923. Of this sum more than $8,000,000 has been set aside in additional reserves to provide for probable losses in connection with the failure of member banks, depreciation and other current charges.

Approximately $3,500,000 was paid to the national government in franchise taxes and member banks received a 6 per cent dividend for the year.

Since the inception of the Federal Reserve System, the national government has received $139,001,000 as franchise taxes.

Belleville's Hopes For O.H.A. Dashed by Fast Circle Six Team

Kingston Juniors Prove Too Much for Locals in Game at Port Hope—Final Score 8-1 — Beattie Ramsay, Member of Newly-returned Olympic Champions, Referees Game in Faultless Style

Any chances Belleville fans had of seeing a champion team this year were badly shattered by the Kingston Circle Six crew, which trimmed the local junior six 8-1 at Port Hope last night.

The Kingston boys by their win, now qualify for the next round.

The game itself was not great hockey, outside of the first period which was about evenly matched and which ended 1-0 for the Circle Six.

Circle Six Fast

The management of the Circle Six boys trotted out a nice bunch of boys as they are fast and had the edge of weight as well as speed.

Individual playing was practically the order of the night which mostly went for nought. The locals if they hadn't been so greedy at times with the puck, might have scored more goals as combination playing got several of Kingston's goals.

About 500 fans attended the game, and the support was about 50-50.

Beattie Ramsay Referees

Beattie Ramsay, a member of the champion Olympic team who just returned from France refereed and at all times had the game well under control.

Up until near the end of the 2nd period not a penalty was handed out, the 1st going to Hartley of Kingston.

Wardaugh, Lloyd and Delehey were the best for the locals, while it would be hard to pick the star of the Kingston boys, as everyone played a stellar game.

1st Period

The 1st period had hardly got started when Hartley took a pass out from behind for the 1st counter which Lloyd had no chance to save. Kirby showed up well and worked in many a dangerous rush and shot which kept Lloyd busy. He was equal to the task and again near the end of this period, when with but Lloyd to beat, Kirby was foiled again by Lloyd who made a wonderful save. The period ended 1-0 for Kingston.

2nd Period

Belleville started out on the offensive and in one minute Hunter, on a long shot from centre ice, scored Belleville's first and which proved to be their only counter of the game. Lloyd made some nice saves and was given a good hand. Belleville's hopes were soon shot to pieces again when Kirby beat Lloyd from close in. In less than a minute Lawless came right back with another Kingston which Lloyd should of saved.

Hartley at this stage got the 1st penalty of the game.

In a mixup in front of Kingston's goal, Hibbard got a bad smash in the ribs and had to be carried off for repairs, but later returned.

Belleville had the edge and only the good goal tending on the part of Gray kept them from scoring at least 3 goals.

Hartley again scored for Kingston making the score board read 4-1 for the Circle Six at the end of the second period.

3rd Period

Play had hardly started when Al Wardaugh got kicked in the leg, which slowed him up considerably although he was always a thorn in the side of the Kingston players. He gave Gray many an anxious time.

Kirby got a lucky goal when he shot, the puck hitting Atkinson's skate and flopping into the net. Belleville started to speed up and threw all their men up on the line to score but to no avail. Townsend and Atkinson both got a penalty which left Belleville two men short and Lloyd was called upon to keep the puck out until they got back on the ice which he did as Kingston playing 6 men against 4 failed to tally. Delehey and Wardaugh worked like trojans and only the hardest kind of luck kept them off the score sheet.

Townsend and Atkinson came on and Lawless went from end to end scoring on a pretty piece of stickhandling. Townsend tried to rough it but Referee Ramsay had his eye on him and which resulted in him getting another penalty.

To make matters worse Hartley charged Lloyd and the former retaliated from which both got a two-minute penalty. Atkinson went in goal and he was easy for Lawless who scored the last, making the score read 8-1 for Kingston.

Wardaugh and Patterson came to blows near the end and were sent to the showers.

Kingston have a good junior team and with just a little more team play will go a long way into the play-off. Here's wishing them luck, anyway.

The teams were as follows:

Belleville—Lloyd, goal; Strachan and Hunter, defence; Wardaugh, centre; Hibbard, right wing; Atkinson, left wing; Delehey and Townsend, subs.

Kingston—Gray, goal; Maltz and Lawless, defence; Patterson, right wing; Hartley, left wing; Kirby, centre; Lawler and Laflammo subs.

Scoring

1st Period

Hartley	1	0	0

2nd Period

Hunter	1	0	0
Patterson	3	0	0
Lawless	2	0	0
Hartley	1	0	0

3rd Period

Kirby	3	0	0
Patterson	5	0	0
Lawless	3	0	0
Lawless	6	0	0

Referee—Beattie Ramsay, Toronto.

OSHAWA SQUAD CHALLENGES PETES

Oshawa Using Mickey Murray and Carter Will Play For Brown Cup

Peterboro, Feb. 26.—Although the Petes have a bye this week and have to wait for the result of the Guelph-New Hamburg and Niagara Falls, Collingwood series to see who their next opponents will be, probably in the O.H.A. finals, the fans will have an opportunity of seeing them in action.

The Oshawa Club has challenged for the Brown Challenge Cup, put up for competition by Mr. Andrew Brow of Peterboro and won by the Petes last year. The game will be played at Brock street rink on Wednesday and in accordance with the terms of Mr. Brown's gift, the proceeds after expenses are paid, will be turned over to the Rotary Club to assist the work on behalf of crippled children.

Wednesday's game will, therefore, serve a three-fold purpose as it will keep the Petes in shape for their O.H.A. test, provide the fans with a rattling good game of hockey and assist a most worthy movement.

Oshawa will be stronger than in the O.H.A. series, as Micky Murray will play goal for them, and with the permission of the Petes, they will use Carter, the crack Port Hope defence man, hailed as one of the best hockey players in the east. This combination will keep the Petes busy holding on to the trophy they won last year.

PETES JUNIORS CLIMBING LADDER

Defeat Bowmanville Sextette at Whitby by 2 goals to Nothing

Whitby, Feb. 26.—Bowmanville's hopes for going into the third round of the junior O.H.A. play-offs were squelched here last night when Peterboro defeated the Rubber Town kids 2 to 0 in the re-played game, winning the round 10 to 4. Peterboro had a four-goal lead from the game in the Quaker City, and in the game in Bowmanville last week which was thrown out by the O.H.A. Bowmanville was leading 5 to 1 with six minutes to go, consequently the excitement was at fever heat, and a special train brought 400 rabid fans from the Rubber Town with visions of their pets overcoming the four-goal lead and winning the round, but their dreams were not realized, as the Petes showed too much speed and had the game cinched all the way.

Three minutes after play started Chew, the Petes' good left wing, bulged the net, bringing their lead up to five. From then until the dying minutes of the game there was no further score, although the Lift-Lockers had the advantage of the play. With only four minutes to go, McDougall worked in a pass to Chew, who snapped the puck back to McDougall for the final goal.

McDougall, the diminutive centre player, and Chew were the stars for the winners, while Hooper and Chaytran were best for Bowmanville, along with the goalkeeper, Martin. His sensational work in the nets was all that kept the score down to such a small count. Bowmanville seemed lost on the big ice, and did not find themselves until the third period, when they gave the Petes many anxious moments. The attendance was about one thousand.

Kingston Circle Six and Peterboro will meet in the next junior round with H. Jacobi as referee. The games will take place Thursday or Friday and Monday. Neither the Peterboro or Kingston rink is available for to-morrow night.

Niagara Falls Down Collingwood

Beribboned Black Cat From Falls Proves Jinx by 4-3 Score

Niagara Falls, Ont., Feb. 26.—The Niagara Falls sextette defeated the Collingwood intermediates in a close game in the third round of the semi-final O.H.A. championship at the Arena last night by a score of 4 to 3, before a crowd of 4,500 fans. The Falls slightly outplayed the Georgian Bay outfit, having a stronger defence and an offensive machine that worked in unison. Murray, Fraser, Bawtenheimer and Penne scored for the locals, while Cox counted twice for the visitors, and Morrill once. Harrington and Cox excelled in speed, while Cook, the visitors' goalie, saved the Cataract City lads from scoring on numerous occasions. He blocked many shots with his body and many times stopped an impossible one. The Power City team presented a black cat, adorned with rib bons symbolic of the Collingwood jinx, the superstition proved true in this case.

ON THE ALLEYS

The "Big Six" senior league is sure living up to its name judging by the scores that are being made every senior league night. Last night at the Recreation alleys the ball team rolled a total score of 3161 or the second highest score rolled to date, Weir going over the 700 mark. The Sprinklers from Corbyville were the vanquished, and although they had two new bowlers to fill in they rolled over 2400. The seniors are not the only ones that are showing form, the juniors are coming right along and raising their scores every week, in a junior game last night the Nat. Castings won from the Express boys to the tune of 2400 to 2227. Norm Turner rolling 616 for his three strings and Harris for the Express with 588.

Senior League

BALL TEAM

There was action aplenty in the Printers vs. Bowlers fixture at the Association Alleys last night and not a little excitement and speculation as the contest kept getting closer towards the conclusion of the third and last string. The Printers had a slight margin over their opponents in the first string, at the end of the second they increased this, giving them an advantage of 48 points to start out the final chapter. However, forty-eight points was not good enough as the Bowlers came along at this stage of the game with the necessary 48 and five to boot, making one of the closest games played on the "Y" Alleys for many a night.

GIRLS ORGANIZE FOR BASKETBALL

Miss N. Merry is Representative at Kingston Meeting Where Tournament Business is Arranged

Miss N. Merry of the Belleville High School staff was in Kingston last week-end acting as an official for the Women's Intercollegiate Basketball Tournament. One interesting feature of the tournament was the challenge issued to the University girls by the Kingston Collegiate Institute girls' basketball team. K. C. I. defeated Queen's and McGill and hoped to win a victory from Varsity, the Intercollegiate champions, but at the last minute Varsity refused to play.

K. C. I. also has a splendid hockey team. Last week the Bellevile girls journeyed to Kingston, and to the surprise of the K. C. I. fans defeated the home team by a score of 2 to 0.

Manager Raymond Arnott is expecting that his team wil do even better when the return game is played this week.

HER GREAT ADVANTAGE

"The sweetest pleasure of my life I get from my music," his wife remarked.

"What a great advantage you have over the neighbors," returned the unfeeling brute.—Boston Transcript.

Hockey Match

B.H.S. vs. K.C.I.

Hockey Fans turn out for the game of the season Thursday evening, B.H.S. Hockey team meet K. C. I. sextette. Puck faced at 7.30 at the Arena. A fast game is assured.

FANNING WITH FARRELL

'DRAFT MAKES YOUNG PLAYERS HUSTLE'

By HENRY L. FARRELL

(United Press Sports Editor)

New York, Feb. 26 (United Press).—Owners of minor league clubs insist that it would not be practical and would not be good business for them to agree to a restoration of the old draft agreement by which the major leagues were entitled to the best of the minor league players, for the nominal draft price.

Club owners naturally consider business first and there is much to support their argument that it would not be a sound financial move to allow a major league club to draw a star player and pay $5,000 for him when the same player might be sold on the open market for $50,000.

Minor league manager, however, are more inclined to look at the practical side, because they are paid to develop a winning team and their salary depends entirely upon the degree of success they meet with.

During the recent baseball meetings here, some very interesting opinions on the draft as it affects the playing standard of the minor leagues were voiced by a former minor league manager, one of the best in the business, who is now affiliated with a prominent major league club.

"I have had my own ideas in the past," he said, "but as my employer was not in favor of the draft, it would have been inconsistent and, at the same time, unwise for me to express my views to the contrary.

"I have always felt, and I feel now that the draft was a fine thing for baseball and that it made the minor leagues because it inspired the player to hustle. You can have good baseball only when the players do hustle.

"Supposing I have two or three good young players on my club and they are ambitious to get in the major league. They come to me and ask me if I couldn't do something to get them up on the big time, and I would tell them, as I have told many young players: "Get out and hustle and you'll be drafted by some major league club. They like hustlers in the major leagues and once you get there you'll get plenty of help if you have the right spirit."

"I have observed the contrast in the spirit of young players since the draft was turned down against that of the old days when the majors used to get together at the end of the season and draw the stars from the miners.

"When the draft was working young players used to hustle from the first to the last game of the season. They were in there all the time. They didn't go wide into a base and they didn't swing at anything that came up to them. They figured that they had a chance to cash in on their extra efforts and they went to it.

"Now they know that when they develop to the point where they are wanted in the majors that their boss will demand some exorbitant sum for them and that they will not get the chance to go up. They get the idea then that they are a major league player and they demand a major league player's salary. If they don't get what they want, they will play for you, but they'll only give you two hours work a day, and not very serious work at that."

"Minor league players and minor league managers know that I am right. Players know they haven't the chance to be sold into fast company that they once had of getting up by the draft. Managers know that they can't develop young players unless they have the old spirit and the minor leagues depend upon the development of young players.

"It seems to me that the minor league owners are wrong when they figure that the draft would destroy the open market. Let us take a current example to illustrate my point:

"Ty Cobb said last fall that he could win the pennant for Detroit in 1924 if he could get a good second baseman. Supposing that Columbus, for instance had such a second baseman. Do you think for a minute that Detroit would refuse to pay a fancy price for that player and take a chance on losing him to another club in the draft? Do you think that the New York Yankees figuring that this Columbus second baseman would make a serious contender out of the Tigers, would refuse to run up the price for him on the long-shot chance that Detroit would not get him in the draft?

"I have always maintained that the draft made the market brisker for young players. That players who were good enough to command such respect could be sold for fancy prices regardless of the draft, and that young players who didn't have so much color and who had just as much promise had their chance to get out and improve themselves by the draft.

"A lot of club owners who are now shouting down proposals for the restoration of the draft will have a good chance to see their theories under the test in the International League. If the International does not do something to get some help from the major league it will be a Class B league in five years."

TYRUS COBB BANS SCOTCH PASTIME

Detroit, Feb. 26.—Golf has been banned on the Detroit American League baseball club, reports from the Tiger training camp at Augusta, Ga.

Manager Cobb confiscated several sets of mashies, mid irons, drivers and spoons to-day from the baggage of the players and issued an edict against the Scotch pastime.

Twenty players have reported out of the 38 ordered to camp.

BLUENOSE

Canadian Granites, world hockey champions, will arrive at St. John, N.B., on March 2nd. Here they are shown just after their victory over the United States in the final round of the Olympic games at Chamonix.

Every Spring Mrs. Manson Had Bronchial Trouble —How She Was Relieved

It is a very advanced case of anemia, nervousness, neurasthenia, chronic bronchitis or general feebleness that will not show marked improvement after taking six bottles of Carnol, according to directions. Read how Mrs. Manson was relieved of a yearly recurrence of bronchitis:

"Myself and friend, Miss E. McKerroll, 399 King St. East, Toronto, would like to let you know how very highly we think of Carnol. We are now taking our sixth bottle and the great benefit we have derived from it is wonderful. It certainly does do everything the advertisements say and more. It is a genuine tonic and body builder. For my part it has worked off a bronchial trouble I am subject to every springtime. We feel it would interest you to know this. You are also at perfect liberty to use this unsolicited testimonial if you should so wish. We both of us take pleasure in recommending Carnol to anyone whom we know is feeling below par."—Mrs. Laura M. Manson, 1447 Dufferin St., Toronto. 15-9

Carnol is sold by all good druggists everywhere.

What Happens To Girls Who Win Beauty Contests

What have the fates in store for Miss Norma Niblock, the fifteen-year-old Toronto girl who won the recent National Beauty Contest at Madison Square Garden? asks Karl K. Kitchener, in an article in the New York World.

Will she meet with the same disappointment, disillusionments and disasters that have come to the winners of other beauty contests, or will she prove an exception to the rule that that prize-winning beauties are cursed with a jinx?

Here is a young woman who has been crowned as the first beauty of the land. No less a personage than the sheik of sheiks Rudolph Valentino selected her from among 88 prize-winners from as many American and Canadian cities. And in addition to a crown she has a contract to appear in the movies with the mud-massage star.

Will she go the way of Agnes Souret, "La Plus Belle Femme de France," who is now a humble chorus girl in the music hall in which she was starred after winning the greatest beauty contest ever held in France?

Will she experience the fate of Margaret Leahy, "the most beautiful girl in England," who was given a movie contract in Hollywood and who is now suing Joseph M. Schenck for $50,000 because she has not starred?

Or will she return to her home and mother as Mary Katherine Campbell twice winner of national beauty contests at Atlantic City, has done after failing to make an impression as a vaudeville actress?

Why is it that the winners of these Nation-wide beauty contests fail to live up to the expectations of their exploiters? Why do they invariably sink back into oblivion—failures on the stage and screen?

I think I can explain the reason at least in the three instances. For I have met Mlle. Souret, Miss Leahy and Miss Campbell and I have observed their careers since their meteoric rise to fame.

Not one of these possessed anything more than physical beauty.

Mlle. Souret was merely a sixteen-year-old schoolgirl when she won the Paris Journal's beauty contest in 1920 and while she was and still is, a very beautiful young person, she does not possess that elusive quality known as screen personality.

To put it bluntly but truthfully, this young school girl from Biarritz was unable to rise to the occasion. She simply did not have the brains.

Miss Margaret Leahy was hailed the most beautiful girl in England when she won a beauty contest conducted by the Daily Sketch in London. The prize was a film contract in America with Joseph M. Schenck, the husband and manager of Norma Talmadge. Miss Leahy was said to possess a perfect film face, and as soon as she was awarded the prize she left the shop in Brixton where she had been employed, and came to America with Miss Talmadge.

Arriving in Hollywood she was tried out in a Talmadge film production, but acquitted herself so poorly before the camera that she was put in a comedy picture with Buster Keaton. Even in a small role she was out of the picture, and her exploiters did no more with her, the result being that she is suing Mr. Schenck for $50,000 as a balm for her damaged feelings to say nothing of a broken contract.

Yet Miss Leahy is a very beautiful English blonde. I was struck by her beauty when I met her in New York before her departure for Hollywood. She seemed an ideal type for the silver screen if once she could be taught to act.

But that is the squidulum. No one could teach her to act. Like Mlle. Souret, she was without talent and without the brains to develop even the rudimentary art of acting before the camera. In short the ruthless critics of screenland called her "a beautiful dumbell."

Miss Mary Katherine Campbell, the sixteen-year-old high school girl from Columbus, Ohio, who was selected from among fifty-seven prize winners at Atlantic City in 1922, and again in 1923, began a vaudeville career soon after being acclaimed the ideal type of American beauty. But her stage debut was so inauspicious that the Keith booking office did not even bring her to New York. Her "act" was allowed to die in the provinces.

Despite the fact that such eminent artists as Howard Chandler Christy, Coles Philips, Willy Popany and Joseph Cummings Chase selected her from among scores of beauties from all parts of the country, she is now back in Columbus living in the bosom of her family. Flo Ziegfeld had no place for her in his famous revue, which is supposed to glorify the American girl. For while "Miss Columbus," as she is best known, is possessed of a figure that is displayed to advantage in a bathing suit, she is neither a singer nor a dancer and, of course is unacquainted with histrionic art.

Miss Norma Niblock, the latest prize-winner in these well advertised contests of feminine beauty, was probably chosen largely for business reasons.

Miss Niblock signified her willingness to indorse the medicated mud that made Valentino famous so he naturally crowned her. She may develop into a movie actress certainly she cannot be worse than some of the "cuties" whom certain public magnates have foisted on the public. But to put it mildly, a fifteen-year-old girl without either stage or screen experience is not likely to displace Mary Pickford.

The truth about all these beauty contests is that the winner really wins nothing except a little brief publicity. Beauty without brains is a drug on the market. And beautiful girls with brains do not enter such contests, for obvious reasons. They don't have to.

Baptists Issue Bonds To Build College

Raleigh, N. C. Feb. 26 (United Press)—The Baptists of North Carolina have adopted a new plan of financing their proposed college at a point near this city. A $750,000 bond issue has been announced. The securities will be offered to all classes of investors. They will bear 6 per cent interest and mature in from one to 15 years. A total of $3,000,000 will be raised for the college, a successor to Meredith college, a small institution here.

ANYTHING TO OBLIGE

Maid—I wonder, ma'am, if you'd be so good as to do me a little favor, ma'am?

Mistress—Certainly. If possible. What is it?

Maid—Well, ma'am, my young man is at the back door. Could you hold him in conversation for a few minutes while I run upstairs and put on a touch of powder?

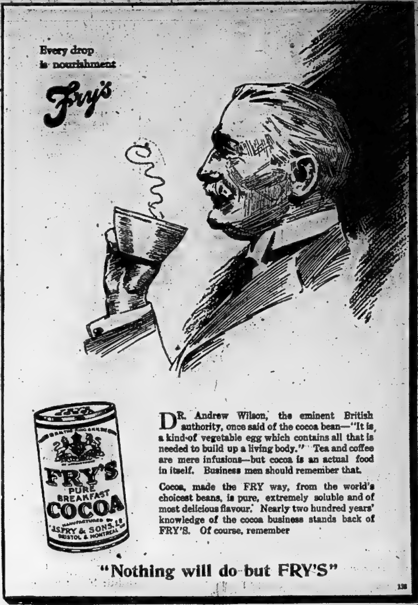
"SIEGE" IS A BRILLIANT NOVEL

By ALICE ROHE
(Written for The United Press)

New York (United Press).—Samuel Hopkins Adams more than any American writer of fiction has the rare gift of presentin gthe most vial of contemporary social and economic conditions in the most dramatic and human interest compelling of settings.

Being a man of the broadest cultivation and knowledg ehe is so comprehensive of the underlying causes of the shifting sands in modern life that hi can reflect the min his novels without turning a glaring searchlight upon them. He never frightens the "average reader," who shies off from the "novel with a purpose." He is one of the few who makes thinking pleasant and who makes fact and truth more credible than fancy.

In "Siege," Mr. Adams' new novel, just from the presses of Boni & Liveright, he frankly admits having subordinated social conditions to the human element. The result is the best novel of Adams' distinguished career. To the reader looking between the lines there lies all the understanding of conditions. To the reader who likes merely the story for the story's sake it is one of the most thrilling and exciting of modern novels.



Every drop is nourishment

Fry's

DR. Andrew Wilson, the eminent British authority, once said of the cocoa bean—"It is a kind of vegetable egg which contains all that is needed to build up a living body." Tea and coffee are mere infusions—but cocoa is an actual food in itself. Business men should remember that.

Cocoa, made the FRY way, from the world's choicest beans, is pure, extremely soluble and of most delicious flavour. Nearly two hundred years' knowledge of the cocoa business stands back of FRY'S. Of course, remember

"Nothing will do but FRY'S"

LOVE, THE TYRANT

OR,

WHERE HER HEART LED

BY

CHARLES GARVICE

Miss Worcester, roused and startled, raised her eyebrows and whispered:

"My dear Esther, what a beautiful voice!"

But Esther paid no heed. The "beautiful voice" was holding her in thrall. The notes were rich and liquid, and the phrasing perfect. Mr. Selby Layton at, and away from, the piano, were two different persons. The colour stole into Esther's face, her eyelids dropped, and her bosom heaved slowly, and every fibre of her being responded to the flood of melody which floated, now soft and tender, now deep and solemn, through the large room.

Mr. Selby Layton appeared—appeared—quite unconscious of the effect he was producing, and sang quite easily, looking before him as if he were trying to remember the words of the song, and as if he was doing the most natural thing in the world.

When the exquisite notes of the finale had died away, Esther went straight up to the piano.

"Why didn't you say you sang like—like a Sims Reeves?" she said.

Selby Layton looked up at her with the sweet smile and a little air of surprise.

"It's a good thing Sims Reeves can't hear you, Miss Vancourt. He'd be almost as shocked as I am," he said. "But I'm glad you liked the song," he added, as he rose.

"Don't think of getting up!" she said, almost imperiously. "You ought to be chained to a piano."

"Rather like a monkey," he retorted, with a pleasant laugh; but he resumed his seat and sang again.

This time it was just a simple ballad; but what a ballad Mr. Selby Layton made of it! The tears were not far from Esther's eyes as she listened.

"You'd make a fortune on the stage," she said in her abrupt fashion.

He smiled a modest repudiation.

"Oh, no; I assure you not! There are thousands of better voices."

Esther shook her head. as

"I know. I" —with mo[illegible] to the west. ence—" taught music, you k[illegible]ng to offi-

He was hunting amongst t[illegible] the pro- increase and held up a song.

"Will you do me the great fa[illegible] York

But Esther shook her head. The

"I'd rather not."

He turned over the music again and found a duet.

"Then, will you sing this with me?" he asked, very sweetly.

Esther shrugged her shoulders and went reluctantly to the piano. The [illegible] went well, but Esther noticed that Mr. Selby Layton artfully—in the literal sense of the word—subordinated his voice to hers throughout the whole of it.

"You are nursing me," she said, laughing. "No, I won't sing again: I think I'm tired."

[illegible] Worcester rose and rolled up her knitting.

"You know your room, Mr. Layton. I hope everything is comfortable."

He bowed and accompanied them to the hall, and Esther pointed to the door of the billiard-room.

"You will find there the things the soul of a man loveth before he goes to bed, Mr. Layton," she said, as she wished him good-night.

Mr. Selby Layton held the small, warm hand, and would have liked to press it, but there was something in the calm gaze of the lovely grey eyes which checked him.

But he went off to the billiard-room very well pleased with himself; and as he mixed a glass of soda and whiskey, and lit one of the choice Havanas which Sir Richard had left, with the rest of his wordly goods, to Miss Esther Vancourt, he smiled complacently.

"Not bad for one night. I'm in her confidence and charged with a secret mission: and my voice did its little part. Not bad by any means. How beautiful she is! I've always had a fancy for a good-looking wife. This girl satisfies my artistic sense." He looked round the room critically. "All very good, excepting the freese: I should alter that!"

When Esther had almost driven her aunt out of her room, she stood in a dressing-gown before the glass humming softly the notes of Mr. Selby Layton's ballad, and thinking of the scheme for benefiting Sir Richard's poor relations; but suddenly her mind switched off, and with a start she remembered the stalwart young man of whom she had seen so much that day. She went to the window and drew the curtain back a little and looked out. She could see the roof of the home-farm quite plainly in the moonlight, and she stood and looked at it dreamily for a minute or two; then, with a sudden gesture of impatience, she let the curtain fall back [illegible] place, and turned away, as if she [illegible]annoyed at herself for thinking of [illegible] and, [illegible] she had fallen asleep, the [illegible] the tanned face, the deep [illegible] voice with its masterful tone, [illegible]ed her in her dreams.

CHAPTER VI.

When Esther and Miss Worcester had driven away, Jack stood at the gate and looked after them with anything but a pleased expression of countenance. For though he had obtained employment, it was at the last place he would have chosen.

It was all very well to give up his estates to a young lady, but he had not calculated upon having to spend some time in looking on while that young lady ruled over his land and spent his money.

"But it's all in the day's work," he said to himself. "It's for her brother's sake—the brother who gave his life for me. But it's been a queer performance to-day, all through! I wonder whether there's a scene in which dinner comes in, for I'm precious hungry."

At that moment, as if she had read his thoughts, Mrs. Martin came to the door and timidly called him in, and Jack found a substantial meal awaiting him.

"I thought you might be hungry," she said, apologetically.

"Mrs. Martin, you have just saved my life, but it's by the narrowest squeak!" said Jack, as he sat down and fell to. "I ought to be used to feeling half famished, for there have been days in my life when everything has occurred but meals. You don't mind my giving Bob this bone?" He's a perfect gentleman and will take it on the mat."

Mrs. Martin shook her head.

"I'm glad you're going to stay, Mr.—" She hesitated.

"Gordon—Jack Gordon," said Jack, helping himself to a slice of the home-cured ham.

MRS. LINDQUIST TELLS WOMEN OF MIDDLE AGE

What Lydia E. Pinkham's Vegetable Compound Did for Her

Kansas City, Mo.—"I was left in a very serious condition after childbirth and no one thought I could ever be any better. Then came the 'Change of Life' and I was not prepared for what I had to suffer. I had to go to bed at times to be perfectly quiet as I could not even stoop down to pick anything from the floor. I did not suffer any pain, but I was decidedly nervous and could not sleep. For nearly two years I was this way, and the doctor was frank enough to tell me that he could do no more for me. Shortly after this I happened to see in a newspaper an advertisement of Lydia E. Pinkham's Vegetable Compound. In a few days the medicine was in the house and I had begun its use and I took it regularly until I was well. I recommend the Vegetable Compound to others when I have the opportunity."—Mrs. MAX LINDQUIST, 2814 Independence Ave., Kansas City, Mo.

Another Canadian Railroad Record

1 Unloading new rail from a flat car. 2 A Canadian Pacific work train. 3 Placing a new rail unit. 4 Throwing the old rail to the outside of the track. Note how the wheels are edging the old metal over the new.

Although Canada owes its prosperity, and even its national life to the Railroads which stretch across the Dominion and send feeders north and south into its rich agricultural and mining countries, the Railroad history of the country does not yet cover fifty years. In their short existence, however, Canadian Railways have progressed, and been so forced to meet the increasing demands and requirements of the country that their development has been extraordinarily rapid. Not only were the engineers employed by the Canadian Pacific compelled to press the laying of steel to the Pacific at a pace hitherto unknown, regardless of the many difficulties and obstacles which they encountered both on the plains and in the Rockies which were once thought impassable, but competition with other lines and the demand of the travelling public for service, comfort and convenience has stimulated the activities of the operating departments to such an extent that in the matter of equipment and service railroads in this Dominion are not surpassed on the continent.

Experiences gained in "construction days" were not lost, nor has the standard of efficiency which signalized the Canadian engineer been lowered, and today Canadians claim to be the world's leaders in railway construction, maintenance and operation.

Using unusual and effective methods, the Canadian Pacific recently laid over 100 miles of 100 pound rail at the rate of a mile or more an hour securing total daily mileages up to 10 miles and over and thus establishing another record. This while the road was under heavy traffic. First came the train with the new rail. By means of special handling appliances the rails were distributed along the track, outside the old steel. Following the distribution of the new steel, the rails were picked up by a special gang, set up end to end, and bolted into two rail units. Next, the inside spikes were pulled by a gang detailed off for this work, and the old rails were pushed in towards the centre of the track. The new rail was then lifted into place and spiked down against the shoulder of the old tie plates before being bolted into one continuous stretch. This ensured that the alignment and surface of the track remained undisturbed. The new tie plates were inserted later.

Perhaps the most interesting operation was the moving of the old rail to the outside of the track where it could be picked up by the salvage train. The discarded steel was not unbolted, being one continuous piece, sometimes half a mile in length. The end of this rail was thrown outside the new track and as a heavily weighted truck was pushed slowly by a powerful engine, so the phlanges on its foremost wheels shoved the old rail over the new to the outside of the track — a simple operation, but one which, in course of a few years saves the Company thousands of dollars. As a matter of fact, this system of re-laying track, practised first by the Canadian Pacific on the Megantic Subdivision, has attracted the attention of railroad officials all over the continent, many of whom have sent representatives from as far away as Texas to secure first hand knowledge of it and the special unloading equipment used.

FOUND GUILTY ON 3 CHARGES

Carried Firearms, Pointed Weapon, Attack on Girl, Cited in Kingston

Kingston, Feb. 26.—When Joseph Fisher, a young soldier, pleaded guilty in Police Court to a charge of carrying firearms, and was found guilty on another charge, that of pointing a weapon at another, it was thought by those on the outside that his troubles were over.

In court yesterday morning, Fisher faced the more serious charge of assault against a young woman. On this he was found guilty also, and in the end he was sentenced to three months for the assault, one month for having pointed a revolver at others, and fifteen days for carrying a firearm, contrary to the Criminal Code. The sentences are to run concurrently.

In the evidence which established Fisher's guilt on the charge of having pointed a weapon, it was brought out that the affair happened in a Quebec street home according to a couple of young men giving evidence.

The evidence showed that Fisher had been paying attention to a young woman who was in the house on the evening in question, that she had moved away from him when he attempted to monopolize her, that he blew out the light and then threw a handkerchief saturated with ether over her face while the other members of the company were searching for another lamp. When they appeared with a light he drew the revolver and threatened to use it, but in the meantime the young woman was dragged outside by some women and then carried to a nearby store where medical assistance was called and she was revived. Fisher was taken by police who were summoned by phone, and yesterday's hearing and sentence closed the incident. The young woman was quite ill for some time but has now recovered from the effects of her experience.

EPIDEMIC NOW UNDER CONTROL

Drastic Measures Taken At Windsor To Curb Smallpox

Windsor, Ont., Feb. 26.—Although seven persons in this district have succumbed to smallpox since the epidemic was first noticed about two weeks ago, physicians and the board of health here reported today that the epidemic was under control. Drastic measures have been taken and all cases are under constant care. Vaccination of all persons has been urged and today hundreds voluntarily visited physicians' offices.

AID FIGHTING EPIDEMIC

Toronto, Feb. 26.—Dr. J. W. S. McCullough, Provincial Health Officer, stated this morning that the Department was doing everything within its power to assist the city of Windsor in fighting the serious outbreak of smallpox there. Two doctors have gone to Windsor from the department and large quantities of vaccine have been sent.

"We have advised general vaccination" said Dr. McCullough. "I understand that the municipality of Windsor has ordered such vaccination. He added that the municipality and not the department had the power to make vaccination compulsory. The Windsor officials were fully alive to the situation, he stated.

ENJOYS HAPPIEST SUMMER IN YEARS

Toronto Man Thanks Famous Herbal Remedy For Relief it Brought Him. General Health Much Improved, and Suffering Relieved.

"At last a summer spent without continual suffering," says Mr. H. Bowles, of 23 Pryor Ave., Toronto. "For the past two years I have been a constant sufferer from rheumatism, the pains shooting through my hips, ankles and shoulders so bad that I could hardly get around at times. Dizzy spells often came over me and everything would turn black before my eyes.

"Pains through my whole body would often double me up when walking about and it seemed that I could never straighten up with comfort. Sick headaches also caused me hours of suffering. Life was a continual misery to me and nothing I took in the way of medicines or treatments gave me any noticeable benefit; that is, until I started taking Dreco.

"The rheumatism pains are rapidly disappearing and my entire system is far stronger. I am able to get out and enjoy the summer in comfort free from suffering and I gladly state that Dreco is the cause of my great improvement."

Dreco is specially prepared from herbs, roots, bark and leaves and acts on the kidneys, liver, stomach and bowels and purifies the blood. Let it make your life a comfort by putting your system in the shape that Nature intended it to be in. Dreco contains no mercury, potash or habit forming drugs.

Dreco is specially introduced in Belleville by the Belleville Pharmacy and is sold by a good druggist everywhere.

KEEP HARD COAL FOR HOME MARKET

Pennsylvania's Yearly Output of 90,000,000 Tons Needed in the East

Wilkes-Barre, Pa., Feb. 26.—A concerted drive to discourage the use of anthracite coal in all but the "home markets" of the east, is now under way by railroads and coal companies, according to officials of the federal bureau of mines, who have been investigating the hard coal industry.

These officials predict that within a very few years little if any anthracite will be shipped farther than a few hundred miles from the Pennsylvania producing area. They are in favor of the program, it is said, believing that it will benefit both the east and the west.

With a production averaging little over 90,000,000 tons a year, which mining engineers say cannot be materially increased, anthracite mines are no longer able to meet the normal demands of New England and the eastern states surrounding Pennsylvania. The result is that every ton of hard coal shipped to the northwest is at the expense of the demand from the "home markets" and the operators are faced with either sacrificing adjacent markets to bituminous and other substitutes, or yielding as soon as possible all traffic to the west.

The latest move, according to officials of the bureau of mines, is the proposed 40 per cent freight rate increase on anthracite coal from New York transfer points to the northwest. The hard coal "habit" has such a hold that the only way to break it is to make the price prohibitive, the officials point out.

With plenty of soft coal fields much nearer and the increasing development of the lignite fields in the west and northwest, the peoples of those sections could save large sums each year by stopping the use of the expensive hard coal, hauled from such a distance. It would also remove a heavy burden from the transportations system, the bureau says.

CITY FATHERS FALL FOR LURE OF RATTLING PINS

Women and men of Belleville have fallen very hard for bowling this winter 'tis true, but who would even have prophesied that the city fathers, those who guide the destiny of the city, would fall for the pin game.

They have though. Frank Domenico started this innovation when he extended an invitation to the councillors to be his guests at the Recreation Parlors on March 4th. The invitation was brought before the attention of the councillors at last night's meeting.

Alderman George Foster moved that the invitation be accepted and Alderman Richard White seconded the motion.

Alderman A. H. Ketcheson and Alderman William McCreary were appointed to select teams from the council and officials.

Last but not least, the losers must pay for a supper.

GOMPERS FIRM AGAINST SOVIET RECOGNITION

New York, Feb. 26.—British recognition of the soviet government is an act "hostile to democracy," and an act that "the British Government and the British people will regret," in the opinion of Samuel Gompers, president of the American Federation of Labor, who in a communication to the Brooklyn Daily Eagle, has made public for the first time his stand on this matter.

ROUGH HAZING AT KINGSTON IS CLAIM OF MANY

Military College Senior Compelled Junior to Carry Own Love Letters

NOT "PINK TEA"

Son of W. E. Raney Forced To Read Poem on Temperance

Kingston, Feb. 26.—Military authorities in Ottawa have not yet communicated with Major-General Sir A. C. Macdonell, commandment of the Royal Military College, in regard to an inquiry into the disappearance from the College of Cadet Florent Arnold.

Treat 'Em Rough

Public sentiment in the city, on the part of those who have in some way been in close touch with the college, is entirely and warmly opposed to methods employed towards juniors.

"They handle 'em rough," declared an ex-army sergeant-major, whose own experience in the ranks would not have been pink tea administerings "Of course, it is the finest standard of training, ranks with Westpoint in the States, and Sandhurst in England but in some cases this hazing and 'fagging' of juniors is carried beyond reason."

One story is to the effect that on evenings prior to Arnold's departure from the college, he was sent on messages by seniors to deliver letters to a girl in Kingston. It is even declared that Arnold was forced to make two trips on the same night with two letters to the same girl from the same senior. And Arnold was suffering from an injured knee, the night was wintery with lots of snow and that he had to beat his way from the college into the city and back again twice.

Another story is related and it comes from an informant who declared he saw it, of a number of junior cadets who were throwing a ball on the college square. Suddenly a senior's head was poked from a top floor window demanding a match. Everyone of the juniors are declared to have dropped their ball game and rushed to the top floor of the builing with matches for the senior.

Like Squirrel in Cage

Still another case is cited, where a senior from one of the windows saw a junior walking across the square from one building to another. "Double! You!" are the words credited to the senior. The junior doubled as fast as he could run, and when he reached the other side the senior ordered him to run back again, and when he reached that side he ordered him back again and each time being urge to run at a faster clip.

Another phase to Arnold's trouble at the college is recounted to have been that he resented the indignities of "fagging" and on at least one occasion setted the question with his fists against seniors. Arnold is declared to have "whaled" the senior, which brought him disfavor and further indignities.

Other instances are cited where junior cadets have been thrown into the lake, clothes, and all, for some petty offence. Another is related of a senior who was "hounding" a junior to such an extent that a senior with a mind of a more equality and justice, brought his senior mate to task with a warning that if he did not desist he would be reported to the commandant.

And still a more recent instance is that of the son of W. E. Raney, former Attorney-General in the Drury Government, who spent a few weeks here. His first initiation at the hands of seniors, it is declared was to read a poem on temperance, the seniors deeming it particularly timely and opportune in having a student of such a distinguished father. Young Raney left the college, boarded a train at Cobourg and went home to Toronto. The father later turned up at the college in a huff, demanding an investigation, but nothing ever came of it.

MIKE DEAD? SUR MIKE!

An Irishman seeing a funeral emerging from a side street, shouted out to a friend on a jaunting car, "Say, Larry, whose funeral is it." "Duggan's" answered Larry: "Little Mike Duggan." "And is poor Duggan dead? To which Larry retorted, "What do you think this is—a rehearsal?

Remission

(Continued from page one)

cannot be remitted. Personally he would be willing to pay more as a member of the Chamber of Commerce rather than have the taxes remitted. Against the Chamber of Commerce he had nothing to say.

Ex-Ald. Duckworth—The Chamber of Commerce was doing good work but he was not in favor of the Chamber of Commerce purchasing the block that they did. It is quite a task getting the taxes collected and if we continue to give away what will the city come to? Belleville is a progressive city and is surrounded by many great industries. He hoped the Council of this year would do the same as last year's council in this matter.

Ald. Robinson asked what the Chamber of Commerce has accomplished for the city?

Ex-Ald. Duckworth—He had nothing to say against the Chamber of Commerce but there was not one factory built here through the Chamber of Commerce. Some industries were located.

Ald. McCreary—He supported the recommendation. The assessment of $5,000 was at first fixed and last year it was raised to $7,000. To-day the city is deriving taxes from the upstairs part of the building to the extent of $3,000 of an assessment. We pay one-half of the salary of the Industrial Commissioner but the city does not pay for the stenographer or for the office.

Ex-Mayor H. W. Ackerman explained how the Chamber of Commerce building was at first procured by a few citizens known as the Industrial Corporation. Later Mr. J. Bone procured the building and the Chamber of Commerce and fixed the rooms upstairs which are bringing in a revenue to the city. The Chamber of Commerce is doing what it can for the city's interest and it has brought industries in this city.

Mr. Herity was working all the time for the building up of the city and he is assisted by the Directors of the Chamber of Commerce. The policy of the Chamber of Commerce is to secure industries for the city.

Ald. Robinson—I will support the recommendation if it can be shown that the Chamber of Commerce is doing all it can for the city.

Ald. Paterson—To-day the city is receiving taxes from an assessment of $3,875 from offices upstairs in the Chamber of Commerce building.

At the conclusion of the address the recommendation was laid over for further consideration.

NEW CABLE RATES

Canadian National Telegraphs announce new cable rates to Great Britain and Ireland as under:—

Fast full rate service—18 cents per word.

Deferred rate Service 8 cents per word

The new rates are the lowest that have ever been made by any cable company, and offer to the Canadian public the unsurpassed cable facilities of this Company's connections at rates lower than those of any other cable company; and, while affording a superior service, at rates as low as offered by any other means of communication.

NOT THE USUAL "POOR BUT HONEST"

(From an English paper)

The happy pair then left for Scotland. The parents were numerous and costly.

BURGLARS MAKE HAUL IN CHURCH

Montreal, Feb. 26.—Burglars who are believed to have hidden in the Sacred Heart Church, Ontario and Maisonneuve streets, after the 7 o'clock services Sunday night, robbed the presbytery of $50 in cash and overcoats and clothing. Entrance to the Presbytery can be gained by the church through a corridor and this is believed by the police to have been done by the burglars as no doors were forced or windows broken.

Scarlet Fever—Someday public opinion will back up the medical health department to insist that all milk sold for human consumption be Pasteurized.

CALIFORNIA AND PACIFIC COAST TOURS

During the winter the Pacific Coast States and British Columbia offer a haven of refuge from our rigorous climate, particularly Sunny California. California has become famous as a winter tourist region because of its excellent climatic condition, its varied and magnificent scenery, the possibilities it affords for all kinds of outdoor sports and recreations, its splendid motor roads, sea-bathing, etc.

The Canadain National Railways offer a wide choice of routes embracing rail and sea trips. Travel one way through Canadian Rockies via Jasper National Park and Mount Robson, the North Pacific Coast Route to Vancouver and Victoria, Seattle, Portland, San Francisco and Los Angeles.

Any agent of the Canadian National Railways will be pleased to furnish full information regarding these tours.

DISCUSS CREW PROSPECTS OF THE U. OF P. SHELL-MEN. Left to right: Jim Rice, assistant head coach, formerly of Toronto, and Joe Wright, of Toronto, well-known University of Pennsylvania, Phila., Pa., rowing coach, are here seen in a close consultation on the 1924 chances of the Penn. crews. Jim Rice is the former Columbia University, N. Y., coach, and with his "boss" expresses plenty of confidence in the future.

THREE LOCAL MEN DIE IN TRAIN CRASH

Pelts Stolen From Woodley's Fur Store Are Found In Montreal

COMPLETE RECOVERY IS MADE OF SKINS STOLEN FROM WOODLEY'S STORE

All Pelts Taken From Local Fur Store Found in Montreal—Value of total Reaches $4,500—Other Recoveries Expected to be made by To-night—Hope for Recovery of Fur Coats Taken by Thieves

EXCELLENT WORK OF LOCAL OFFICER RESPONSIBLE FOR PROMPT ACTION

Highest Praise given Sergeant of Detectives J. Truaisch For Manner in Which Stolen Goods Were Run Down—Has Been Working Quietly on Case Since Sensational Robbery

Every skin stolen from the Woodley fur store, in January last, during the most sensational burglary ever committed in this city, has been recovered in Montreal. The value of the skins recovered is $4,500.

The glad tidings reached Belleville at 11.30 o'clock last night when Chief Constable A. Kidd, received a telephone message from sergeant of detectives Jack Truaisch of this city, whose excellent work in Montreal has lead to the recovery of the furs. "We have all the skins, valued at $4,500" Officer Truaisch stated, "and by Wednesday night we expect to have better news than ever for you," he added.

Chief Kidd and the other officers are delighted with the good news and the Woodley's are naturally rejoicing also. Officers on duty this morning believe that by evening probably the fur coats will have been recovered and believe that that was what Detective Truaisch construed when he said that he would likely have better news for them by this evening.

Probably it was not known to citizens generally that Officer Truaisch has been in Montreal almost continuously since the burglary was committed, working indefatiguably at the unpleasant duties of a plainclothesman in a large city. He has been back in the city once since the burglary, and has spent the greater part of the cold winter in the cold city of Montreal working no doubt in conjunction with Montreal officers in an honest endeavor to locate the loot and the perpetrators of the boldest and nerviest crime ever pulled in the city.

Mr. George T. Woodley, senior member of the Woodley fur store, 273 Front street, was suddenly called to Montreal on Monday at noon and is still there.

In conversation with Mr. Russel Woodley early this afternoon, he stated that he had received a short letter from his father in Montreal, the letter stating that some of the stolen skins had been located and that by the evening they hoped to have the remainder of the skins.

THE WEATHER

Fair today and on Thursday; not much change in temperature.

COMING EVENTS

Sons of Scotland, Camp Rob Roy 43, will hold an At Home, Friday evening, Feb. 29th, in I.O.O.F. Temple. Cards, dancing and refreshments. Tickets 50c. 26-4td

NOTICE

Lady Trainmen's Card Party Postponed until a later date. 27-1t

CLEVER ARREST IN KINGSTON STREET

Provincial Constable Norman Maker arrived back in this city last evening with Gunner Henry Evans, a Belleville boy who enlisted in a Kingston battery one month ago. Evans is charged with theft of clothing, a revolver and a cheque which he is alleged to have cashed and spent the money. Jonathan Elliott, this city, is the complainant.

Evans was arrested at Kingston by Provincial Officer Roy Clarke yesterday and held until the arrival of the Belleville officer. Clarke deserves credit for good work, for he arrested Evans on the strength of descriptive information which he had received at the time of the alleged theft some time ago, and which he stored in the back of his head. When he saw Evans on the street, he "spotted" him immediately and effected the arrest.

CHARGED WITH THEFT FROM FATHER; BOY IS ARRESTED

Receiving word from Toronto police headquarters to be on the look-out for Harry Cline, whom they believed to be a passenger on the "Capital City Train" which arrives here daily at 3.03 p.m. Police sergeant D. Boyd and P. C. Arthur Booth met the train and from the description given them, quickly arrested Cline, who was a passenger enroute to Montreal.

Cline is charged with theft of $150 from no less a personage than his father, all of which was found on his person. Local police received the Toronto call at 1.30 p.m.

Detective Thompson of Toronto arrived today and took Cline back to the "Good City" for trial.

To Wed Egyptian Royalty

Mrs. Jean Nash, daughter of an American millionaire, who eloped at the age of 17, now is engaged, it is reported, to Prince Ahmed Sahib Bey (shown with her), nephew to King Faud of Egypt. One report is that Mrs. Nash will embrace the Mohammedan faith.

LOCAL YOUTH GIVEN LASHES AND 2 MONTHS

Roy Sandford Found Guilty on Indecent Assault Charge in Court

DETAILS SHOWN

Girl Placed in Care of Taxi Driver by Inspector's Orders

Roy Sandford, ex-taxi driver, found guilty on an indecent assault charge, was sentenced to two months imprisonment and seven lashes. The lash is not to be applied until the fourth week of incarceration pending an appeal.

Sandford appeared before Magistrate S. Masson in police court this morning, charged with indecent assault against a fifteen-year-old girl, ward of the Children's Aid Society, this city. Accused, who has been at liberty for one week on bail of $2,000 pleaded not guilty, and elected to be before Magistrate Masson. E. D. O'Flynn defended accused, and Crown Attorney B. C. Donnan conducted the prosecution.

Miss Harris, Matron at the Shelter and Inspector Thomas D. Ruston, of the Children's Aid Society were also present. Other witnesses who appeared were Police Sergant Dan Boyd, and P. C. Arthur Booth, who made the arrest, Miss Harris, Inspector Ruston and the complainant.

Case Recalled

It will be remembered that the girl returning from her foster home at Acton to the shelter, on the midnight train one week ago, was placed in the care of Sandford, a taxi driver by ticket agent Edward Donahue on instructions which he had received from Inspector Ruston. Sandford drove the girl to the Shelter but is now alleged to have persuaded her to go for a drive with him, and when found by the officers who rushed after him in the police car on being called over the telephone by Miss Harris who witnessed the happening from a window of the Shelter, the taxi was stalled on Herchimer avenue, and he was in the car with the girl.

LUDENDORFF IS PLACED ON TRIAL

Takes His Place in Dock With Other ex-Officers

STREETS CLOSED

Extra Precautions Taken to Guard Old War Academy

Munich, Feb. 27. (United Press).—In the gloomy chambers of the old war Academy, all entrances to which were protected by barbed wire and armed soldiery, General Ludenorff, his stepson, Lieutenant Heinz Pernet, Adolf Hitler, and seven former army officers and doctors were tried Tuesday for treason.

His head held proudly erect, a military and commanding figure despite his inconspicuous civilian clothes, Ludendorff stalked at the head of the little procession of prisoners as they were marched into the dock.

Hitler, notorious Monarchist agitator, brought up the rear, lugging a huge portfolio of defence documents under one arm.

Both Ludendorff and Hitler were warmly greeted when they entered the trial chamber, where 60 newspaper men besides judges and guards admitted.

Of the prisoners, only Lieutenant Robert Wagner was in uniform.

Ludendorff's bearing was proud and sneering, as though he ignored the somewhat ignominious position with which he was confronted.

The crime with which the prisoners was charged was of plotting against the State, in that they led the ludicrous "beer cellar putsch" that a filed so completely November 8, 1923.

Names of Accused

The trial opened at 8.30 a.m. The complete list of prisoners included:

General Ludendorff; Adolf Hitlier; Lieutenant Pernet, Ernst Poehner, Dr. Wilhelm Frick, Dr. Friedrich Weber, Captain Ernst Roehm, Lieutenant Wilhelm Burckner, Lieutenant Robert Wagner, Colonel Hermann Kriebel.

Chief Judge Ladzericht presided.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

CANADIAN WAR VETS TO STOP THUG THIEVERY

Newly-Organized Commissionaires Already Have Charter Filed

CORPS MODELLED

After English Organization Which Has Been Operative for 65 Years

Montreal, Feb. 27.—The proposed Canadian Corps of Commissionaires, which is being formed in Canada under the direction of Lieut-Col. W. G. Fellows, should be a great aid in preventing bank hold-ups, such as Montreal has experienced during the past couple of weeks, Col. Fellows said to-day.

"It stands to reason," he declared, "that an ex-soldier, fully qualified in the use of firearms; not afraid of bullets—for he had plenty of experience with them in France—can do more to withstand the attack of armed robbers than a civilian who has never been under fire and with little experience with firearms. Thus banks and companies who handle considerable money will be protected; messengers who are members of the corps would be more effective in safeguarding property and conditions would be improved all around. Of course men would be chosen for character and ability; indeed only those of proven worth would be placed in positions of trust."

The Canadian Corps of Commissionaires is modelled after the English organization which has been operative for 65 years. Already close to 100 charter members have been enrolled, and additional ex-service men are being accepted daily. Bank messengers, guards, watchmen, porters, doormen and other various posts which require tact, bravery and efficiency will be filled by the organization. Each man will be uniformed and bear a number.

Present employees in various positions will be enrolled, if they be ex-soldiers, and will continue in their present employment, according to information received from the organization's headquarters. Col. Fellows said that while there are many difficulties in the way of beginning the corps, he is confident of ultimate success.

Employees taken from the association's books will be eminently qualified for any position they may be called upon to fill. In the case of messengers or other responsible jobs, the men will be bonded. The corps eventually will become self-supporting, it is believed, for as its members increase they will be called upon for small fees in connection with the benefits. It is hoped to secure a building in the near future, and for this reason. Col. Fellows is calling upon public-spirited men to aid financially at the start.

It is understood that a number of prominent civilians and army officers will be asked to become honorary patrons of the corps, and by their influence and standing in the community lend backing to the movement.

The corps eventually will be extended to include other large Canadian cities.

GREEK MINISTRY HAS COLLAPSED

Government Breaks Down Over Proposal to Create Republic

London, Feb. 27.—The Greek Government headed by Premier Kafandaris has fallen, according to an Athens despatch to the Daily Express, in consequence of its refusal to accede to the demand of the extremists for the establishment of a republic before a plebiscite was taken.

The fall of the government came as a surprise as it was thought up to the last hour that the extremists would be defeated.

DYNASTY ENDED

Athens, Feb. 27.—At a meeting yesterday afternoon between ex-premier Venizelos and ex-minister of foreign affairs Rousson with General Othonallos representing the army it was agreed that the downfall of the dynasty should be proclaimed in the assembly, but conditionally upon confirmation of this decision by a plebiscite.

BLINDED BY THICK FOG; PASSENGER AND FREIGHT CRASH AT MALLORYTOWN

Canadian National Passenger Train No. 20 Smashes Head on Into Manifest Freight No. 490 at Mallorytown—Accident Occurred While Making Way for Repairs to Second Freight—Heavy Fog Blinded Enginemen

MOVING TENDER FIRST WHEN STRUCK BY FAST PASSENGER

Baggage Car on No. 20 Catches Fire, Destroying all First Class Mail—Lock Bag Mails Successfully Removed—Doctors and Nurses Despatched to Scene from Brockville—Inquest Being Held To-day

(Special to The Intelligencer)

Brockville, Ont., Feb. 27.—When Canadian National passenger train No. 20, eastbound met in collision with manifest freight train No. 490 at a point immediately east of Mallorytown station at 4 o'clock this morning three enginemen lost their lives.

The dead are Neil A. Woodcock, Belleville, engineer on train No. 490, William C. Kerrigan, Belleville, fireman on train No. 490 and James A. Ritchie, Belleville, fireman on train No. 20. Albert Boyes, Belleville, engineer on train No. 20, is dying in Brockville.

The accident occurred in a heavy fog.

BROKEN TRUCK ON FREIGHT

Earlier in the night one of the cars on the freight train which was originally also bound eastward suffered a broken truck between Mallorytown and Lynn and while repairs were being made the engine was detached and went to Brockville to replenish its supply of water and fuel.

The return trip was made to Mallorytown and then down the eastbound track where the engine was attached to the rear end of its train. It was intended to convey it to Mallorytown. The train was moving westerly with the engine tender first when No. 20 travelling at high speed emerged from the fog with such suddenness that the enginemen had no chance to escape.

Both engines were badly damaged and it was necessary to chop out the sides of the cabs to release the bodies of the dead employees.

FIRST CLASS MAIL BURNED

The baggage car on No. 20 also caught fire and all second class mails were burned. The lock bag mails were successfully removed.

DOCTORS RUSHED TO SCENE

When news of the accident was flashed to Brockville a relief train was hastily despatched to the scene of the accident carrying Dr. T. F. Robertson, Dr. A. H. Judson, Dr. E. J. F. Williams and six nurses, the Misses Hamilton, Drummond and Spence, of the general hospital staff, and the Misses Dillabough, Johnston and Maloney, private nurses. This train returned from Mallorytown at seven o'clock, bringing Engineer Boyes, and fireman Kerrigan.

Coroner Dr. Jackson, accompanied by Chief of Police W. Burk, and County Crown Attorney Brown left at nine o'clock for Mallorytown for the purpose of opening an inquest. Both tracks of the main line were blocked by the accident and it was impossible for members of the wrecking crews to approach the wreck for some time owing to the intense heat of the burning baggage car.

Despatches from Brockville at 3.30 this afternoon stated that Engineer Boyes, with but little chance to live, is making a strong fight against death.

(Continued on Page Eight)

FOUR O.T.A. CASES TRIED; FOUR CONVICTIONS MADE

Four convictions were registered out of four cases tried before Magistrate Jarmyn at Bancroft yesterday, all being O. T. A. cases. County Attorney Bryson C. Donnan conducted the prosecution.

Maurice O'Neill, convicted of selling moonshine was assessed $200 and costs or three months. He accepted the latter and is now in Belleville jail.

Louis Bresette also convicted of selling moonshine was similarly fined $200 and costs or three months.

Charles Maurois and John Hontoon were each found guilty of being intoxicated in a public place and were each fined $10 and costs which they paid.

All accused men live in the vicinity of Bancroft.

License Inspector William Nugent of Madoc laid the information in all four cases.

Let there be harmony in things essential—liberty in things not essential—charity in all.

SYMPATHY

Belleville, shocked this morning with news of the tragedy near Mallorytown in which the lives of three of our citizens were snuffed out, to-day wishes to express sympathy with those who survive the dead.

Those who met their death were slain in the performance of their duty, met death fearlessly and Belleville will feel their loss keenly.

The accident came like a bolt from the blue, and passed as suddenly. Those who died knew little suffering and have now gained their reward. Men who guide the destinies of thousands of people daily from ocean to ocean must necessarily be of the highest type. We can but pass on with praise for the dead and thought for the living.

CRIMINAL WASTE OF MONEY

Those who are of the opinion that the exposures of the desperate condition of this country under its mountainous burden of debts, deficits and waste which have appeared in this paper have been unduly pessimistic should keep their ears to the ground and note what purely businesslike officials in different parts of the Dominion are saying. For instance, Finance Commissioner Ross, of Toronto, has just told his City Council that "it is not an extravagant statement to say that a sort of financial madness is over the whole land. As private individuals we are living beyond our means. As citizens we have spent without thought and mortgaged our city so heavily that we and our children will groan under the burden."

The Calgary Herald is running a series of articles on "Canada's Burden of Taxes". In its first blast, it says:

"Canada is being swept from coast to coast by demands for curtailment of public expenditure. This demand is being expressed in rural municipalities, in cities, in relation to provincial outlays and to federal spending. Where expensive public services are proposed, ratepayers are scrutinizing them with critical attention. Large money by-laws are being turned down by city electors. The reeves of many Ontario townships have lately been handed resolutions passed by members of the U.F.O. and other ratepayers which declares that in view of the hardship caused by over-taxation, the chief cause of which has been a high rate of expenditure, they place themselves on record as opposed to heavy taxation and expenditure at this time when rigid economy should be practiced.

"Debts of Canadian municipalities have climbed steadily higher year after year since the war. Every province has added to its debt and has piled on new taxation. The public debt of the Dominion has increased since the Armistice by more than $350,000,000. It has increased since the King Government came into power by more than $100,000,000 [illegible] in [illegible] September alone the increase in the net debt amounted to $896,676. While this has been going on in Canada the British Government has cut its expenditure in half from £1,665,000,000 in 1919, to £812,000,000 in 1923."

There is nothing new in these appalling statements for our readers; but there do seem to be quite a number of Government pensioners, "pap-feeders" and perquisite-hunters generally who need to have the facts drilled into them again and again. They are all for cheerful optimism—no matter how imminent and menacing the danger—because cheerful optimism encourages public funds to flow, and the larger the flow the greater the chance that they will divert a proportion to their own yawning pockets.

In nine out of ten under present conditions, the optimist is an optimist-in-prospect. That is, he expects to make money by it. A frank acceptance of the startling truth would tighten the strings of the national purse and limit the expenditure of public money. This would cause its distribution to be much more carefully watched. And the last thing in the world that the typical "pap-feeder" wants is to have the diversion of public funds into his pocket by his generous friends at court too carefully scrutinized either by Parliament or the people.

But the men who have to raise the money which public bodies spend—who must devise and levy taxation—are fully aware of the difficulty and realize in how dangerous a position this Dominion and every part of it stands. They know that it is criminal to waste with the sheriff's officer at the door. They know that it is doubly criminal to permit "graft" and patronage to eat into our already perilously slendor resources.

Those who decry the truth because it is unpalatable and chirp out a cheap optimism to lull the people and especially the venal politicians into a sense of false security, should consult the impartial and sternly practical public officials who have to raise the revenues which our public bodies spend.

THE QUALITY OF BULK TEA

The Quality of Bulk Tea is always unreliable for several reasons. In the first place, being unlabelled its origin is unknown and there is no one who has any particular responsibility for its goodness. In the second place, it is exposed to the air and therefore very quickly loses its flavour and freshness. Even if it were as good as "SALADA" in the first place, it would rapidly deteriorate and in any case it would be impossible for any dealer to follow consistently the same quality throughout the year. "SALADA" always maintains an unvarying high standard, possible through skilful blending.

MY ROVER

Florence E. Marshall

When my upper lip is trembly,
And a lump gets in my throat,
And the fellows that I'm scared of
Have tried to get my goat;
And I'm feeling kind of lonesome
And I'm losing all my sand,
It's great to have my Rover
Come up and lick my hand.

For Rover is my buddie,
And I'm happy as can be
For I know there's simply nothing
That he wouldn't do for me;
For he loves me, and I know it,
And though other friends may fail
This world looks good, I tell you,
When Rover wags his tail.

You couldn't keep discouraged;
You couldn't long be blue
If you have a friend like Rover,
And know he's loving you;
For he rushes out to meet me
When I'm coming through the yard;
He just wags himself all over
'Cause he's loving me so hard.

Eccle-fechan! Auchtermuchty!

It was the Scotsman's first visit to London, and as he leaned over Blackfriars Bridge he was astounded to see all the lights on the Embankment flare up with one accord as if by magic. He walked up to the nearest policeman and said in surprised tones, "Tell me, mannie, wha' lichted a' the lichties?" The policeman scratched his head and thought hard. "Beg pardon sir," he said at last. "I wos juist askin' ye wha' lichted a' the lichties," replied the visitor. The policeman was dumbfounded, and at last courtesy fled from his soul. "Gang yer Portuguese blighter," he ordered sharply, "oppit."

FREE FOR ALL

You'd like to travel and perhaps you fret
Because you're kept at home—but, you forget,
A daily ride Earth gives to everyone,
And once a year a trip around the sun.

THAT STARTED IT

His Wife—Girl babies, I notice, commence to speak earlier than boy babies—

Him—And as they grow up they increase the advantage.

PRESS OPINIONS

WINDY ADDRESSES

(Toronto Star)

The Montreal Star has suggested one way in which the Federal Parliament could save money. It could shorten its own sessions. Students of parliamentary affairs will agree that this is not only practically, but necessary. Speakers who suffer from a paucity of ideas and surplus of words address the house upon subjects of minor national importance. The virtue of condensation is little known and less practised.

Windy addresses, made solely for consumption in the home constituency delay the progress of national business. Hansard does not always record the whole of a long speech. But even the recorded words of Canada's legislators could usually be condensed sixty per cent. without disturbing the effectiveness of the address or eliminating material arguments. It may be a difficult reform to accomplish, but if ten-minute speeches can be made the rule at Ottawa, the thing is worth doing and the country will be the richer for it.

REVISION OF VALUES

(Boston Globe)

It is sometimes said that the men most venerated by any generation are the dead radicals of a previous generation. This saying holds much truth. The civic saint of today was yesterday a despised figure plastered with mud hurled at him from the gutter. A man with a new idea, or with new courage to stand up for a rejected idea, must expect abuse.

There is nothing the ordinary run of the rest of us fear so much as a revision of values. Any proposal to change them seems a blow at things as they are, and is a signal that a storm will break about the head of its author.

CLEAR EVIDENCE NEEDED

(London Express)

Motorists, on the whole, are kind, civilized, sober, and sane—exactly like the mass of English people. Some motorists are inconsiderate, savage, drunken and crazy. Their licenses show it. Pedestrians, on the whole, are keen-eyed, alert, prudent and reasonable—just like most of us. Some pedestrians are blind, stupid, reckless and unreasonable. Now and then a suicidal death avows it. If one is driving a car pedestrians seem to be suicidal. If one is walking motorists seem to be murderous. Thus dogmatism becomes futile, and only clear evidence can disentangle the truth in any particular case.

WHAT DID HE SELL

(Woodstock Sentinel Review)

It 's announced that William Joseph Simmons, the founder of the Ku Klux Klan has sold out—disposed of his "right, title and interest," is the phrase used. Just what he sold out is not clearly stated, but he received the sum of $145,000, so somebody must have considered that he had some thing of value. Still the talk about the founder of an organization of men selling out has a queer sound, in this country, at least.

TOO EXPRESSIVE

(Los Angeles Times)

One of our foreign visitors says that Americans are highly expressive in dancing. If we knew what it is the dancers are trying to express this may prove to be no compliment. Offhand one might suspect that the dancers were striving to express their disrespect for convention.

THREE CLEVER STARETTES IN ABSORBING FILM PLAY

Director Frank Borzage, who made "Children of Dust," a First National picture which is coming to the Regent Theatre on Thursday, Friday and Saturday, used three of the starriest children of the films in this film. They are Frankie Lee, Josephino Adair and Newton Hall.

These starettes play important roles in the picture which are later portrayed by Johnny Walker, Pauline Garon and Lloyd Hughes.

Frankie Lee is the boy who played the crippled lad in "The Miracle Man" two seasons ago.

Josephine Adair did some excellent work in Emory Johnston's two features, "In the Name of Law" and "The Third Alarm."

Newton Hall is remembered for his work in "Dinty," "Penrod" and numerous other well known pictures. In "Children of Dust" he plays a little gentleman, his specialty.

Young Borzage has a failing when it comes to children, hence his careful selection of these three star-youngsters to play the important roles in "Children of Dust." It is an absorbing human-interest story.

JACKIE COOGAN HERE IN HIS LATEST AND BIGGEST FILM

At Griffin's Today, Thursday, Friday, and Saturday

With more than $400,000 spent on the construction of the sets alone, Jackie Coogan's latest picture, "Long Live the King," his first, under the $1,500,000 Metro Contract which was given him recently, ought to fulfil all the advance reports which were broadcasted through the country at the time this picture was in the making in Hollywood.

That it is an unusually lavish and beautiful production is substantiated by the fact that it contains several exact duplications of famous European structures. One is of the famous castle of Neusch Wanstein in Bulgaria, a landmark in European Architecture, another of the world renowned Opera House at Dresden, Germany, and still another of the beautiful cathedrals in Herzegovina, the shrine of millions of European visitors. A special research staff sailed from Europe for Hollywood at the time production was begun with exact designs and plans for the duplication of these famous structures. "Long Live the King" is an adaption of Mary Roberts Rinehart's famous novel of the same name.

It was directed by Victor Schertzinger from the Continuity by C. Gardner, Dullivan and Eva Unsell, and photographed by Frank Good and Robert Martin.

William Van Brincken was research expert and J.J. Hughes, art director. The picture was produced for Metro under the personal supervision of Jackie Coogan, Sr.

"HUNCHBACK OF NOTRE DAME" DIRECTOR ACTED IN HUGO CLASSIC ON STAGE IN 1901

At the Griffin Theatre on Monday night will be held the widely heralded premiere of the Universal production, "The Hunchback of Notre Dame," which won the unqualified praise of New York critics, being generally hailed as the finest achievement of the age.

Throughout the Hugo masterpiece runs a beautiful love story—certain changes were made in the production in order to avoid offending any particular religious body, but these changes have been endorsed by all who have seen the production.

Lon Chaney heads the stellar cast of 3091, which includes such notables as Ernest Torrence, Patsy Ruth Miller, Tully Marshall, Brandon Hurst, Nigel de Bruller and Winifred Bryson. The majority of these are as well-known on the stage as on the screen.

Wallace Worsley, who directed the filming of "The Hunchback of Notre Dame," occupies the unique position of having produced in motion pictures a theme in which he once acted on the legitimate stage. A role in "The Hunchback of Notre Dame," when it appeared in legitimate drama was Worsley's first stage appearance. That was 22 years ago, but he remembered well the unfortunate handling of the theme that kept it from attaining the success that should have been its, and in the film production it need not be assured, the same mistakes were not repeated.

In other ways Worsley was peculiarly fitted as the director for this production Worsley's favorite subject in Brown University was French history. His initial theatrical role revived this interest and through all of the intervening years he has been a student of French history. His knowledge is such that he could have been waked up in the middle of the night and he would have been able to direct from almost any period of French history.

Put Stomach In Order At Once

"Pape's Diapepsin" for Gases, Indigestion or Sour, Upset Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

Spain's Demands Were Refused

Cause of Withdrawal From The Disarmament Conference

Rome, Feb. 26.—The Spanish delegate to the League of Nations naval disarmament conference today issued an official statement explaining that Spain's withdrawal from the deliberations last week was because the commission refused to approve her demand for 105,000 tons of additional naval construction, offering instead to permit her 82,000 tons.

Spain still maintains an observer at the proceedings.

USED TO CURE EVERYTHING

The reason we don't believe the old-time patent medicine promoters are what they used to be is because we haven't heard of a cough drop or syrup being advertised to relieve, cure and prevent the cough of an automobile engine.

For the Cough That Sticks

COMMON COUGH SYRUPS WON'T HELP—YOU'VE GOT TO MAKE YOUR OWN.

Cheap and Best

For any kind of a cough, but especially for the stubborn one that persists and keeps you awake nights, this home made cough mixture will quickly loosen the phlegm, allay the inflammation and stop the cough

You can make it yourself at home in two minutes by following these instructions:

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one half pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost immediately No ordinary slow-acting cough syrup contains this expensive ingredient.

It's a mighty fine remedy for chest colds and acute nasal remedy that overcomes catarrh, partially or wholly is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

HALF MILLION LOSS IN QUEBEC BLAZE

Quebec, Feb. 27.—Damage estimated at $500,000 was caused by a fire which broke out in the Union Bank building this morning in the heart of the business section of the city. The firemen succeeded in preventing the blaze from spreading.

ASPIRIN

Beware of Imitations!

BAYER

Demand

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for

Colds Headache
Toothache Lumbago
Neuritis Rheumatism
Neuralgia Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SINCLAIR'S

THE BOYISH SUIT

The boyish suit is to fill a big place among suits this season. It is so new and different in style, yet may be classed with the much favored tailored models. OIL COMPANY HAS CLAIM FOR DAMAGES

Mexico City, Feb. 27.—A statement of damages suffered on account of the rebellion has been presented to the government by the Aguila Oil Company, the largest British corporation operating in Mexico, it is learned from Jose Vazquez Schiaffino, under-secretary of industry, commerce and labor. The claims for losses through the stoppage of wells, seizure of tankers and inability to fill contracts are estimated unofficially to total more than $5,000,000.

NOT IMPROBABLE

Judge—This man says after he fired a shot he saw you run from his chicken coop.

Rastus Johnson—He could easy be mistaken, jedge. Fast ez ah was runnin' it mought have been someone else what faintly resembles me.

A REMARKABLE MAN

Suppression Of White Plague Again Debated

Colonization Credits and St. Michael Hospital contract Dealt With

Quebec, Feb. 27.—As a rule the Monday session, in the Legislature is never featured by debates of any consequence and yesterday was no exception to the rule. The most important piece of legislation that came up for the consideration of the members yesterday was the Hon. Mr. David's measure providing for the expenditure of $100,000 a year for five years to fight the white plague. Mr. David's bill was put through on third reading on the resolutions.

When the measure came before the house the offer from Lord Atholstan to spend half a million dollars toward stamping out tuberculosis was discussed and it was pointed out by Premier Taschereau that whether it was possible for the province to benefit or not from the offer, was no reason for holding up government legislation looking towards suppression of the plague.

Lord Atholstan's offer cropped up when Mr. Sauve, leader of the Opposition wanted to know what had happened as regards the offer from that gentleman. Mr. Sauve said it was understood that third reading of the resolutions was to be postponed until such time as the Prime Minister had had time to discuss the letter with his colleagues. Mr. Sauve said it seemed to him that the government should have had some information for the House in the matter.

The Premier said that Lord Atholstan's letter had been laid before the cabinet, and he added: "I do not see, however, that this should have anything to do with the passage of the projected legislation of the provincial secretary. The offer is a generous one and I have no doubt of the sincerity of its intention to help in the work of better public health. We have had some further explanations from His Lordship and no doubt the leader of the Opposition has also received similar explanations, but it is still a question whether it is possible to comply with the conditions embodied in the letter, and it is a matter which we must discuss with the bureau of health. The latter is still not entirely clear, even as amended."

By Mr. Sauve.—"Does not the Prime Minister understand it?"

The Prime Minister.—"Not entirely and that is why I say that it is a matter for the Government's medical experts to look into. I do not see that it should in any manner bear on the present measure. We shall be glad to have the co-operation of our friends of the opposition."

The measure was put through except for formal third reading.

The Legislative Assembly occupied itself with a number of routine matters several of them being colonization credits and another being the ratification of the contract between the Government and the Hospital of St. Michael the Archangel.

Kiwanis Jollies Goes Over Big

Last evening's performance of the Kiwanis Jollies Revue was by all means a superior effort to the Monday evening show and with a larger audience in attendance, it really went over with a bang. Bernice Blaind in her Kiklo number excelled herself, her stage bearing and acting of the number being well nigh perfect. Miss Hilda Countryman and her Mitzi chorus was really one of the big hits of the evening. Dr. Haffner was called upon to render many encores to his "Old Irish Mother of Mine". Bob Gorman was really the life of the show last night and he with Russ Wotten as the colored porter, and Geo. Lee and Ernie Dickens as colored waiters added just enough real good comedy to put pep and zest in the show. Their jokes got over big last night. Bob Gorman sang "Sweet Mamma" and was a decided hit. Miss Ida Folwell was as dainty as ever in her dance specialty.

The final song of the first act with Miss Irene Baker singing "Wedding March in Ragtime" was really high grade. Miss Baker's charming stage manner and voice winning the audience for many encores.

The musical skit by Harold Barrett and Jack McGie was exceptionally well rendered and pleasing in the extreme. It brought to a close a programme of very high order. Mr. P. C. MacLaurin thanked the public for their attendance and their interest in the aims and object of Kiwanis. The Kiwanians in charge of presenting the Jollies Revue were Geo. Lee, R. Gorman, Russ Wotten, Dick Philbin, Herb Fish and Ed O'Flynn. Al Wilson served very acceptably as director.

JAPAN AND CHINA ENTER

New York, Feb. 27.—The official challenges of two Oriental nations, Japan and China, for the 1924 Davis Cup contest, were received to-day by the United States Lawn Tennis Association. This increases the total entry list to thirteen, in addition to which Canada already has indicated it will file a challenge.

St. Etienne, France, Feb. 27.—The Communist town council at Chambon Fougerolles has voted to name one of life streets after Nikolai Lenin.

are to bear a special tax in this city.

PREPARE FOR SPRING

City workmen are busily engaged today picking out and shovelling along the curbs along Front street in preparation for the spring freshet.

Deaths and Funerals

JOHN CAMPBELL

John Campbell, who lived on Campbell street, failed to rally from an operation performed at Belleville General Hospital, where he passed away early this morning. Deceased was born in Scotland 29 years ago, but had been living here for the past thirteen years. Campbell was a moulder by trade and a Presbyterian, and was a son of Mr. and Mrs. James Campbell, who now live at Newtonville, Ontario.

A sorrowing widow and infant son survive besides father, mother, nine sisters and one brother.

The sisters are Mrs. A. Gray this city Mrs. Dollyer, Kingston, Mrs. M. Ewart, Niagara Falls, Mrs. J. Whitfield, Mrs. A. Kilburn, Misses Elizabeth Campbell and Nellie Campbell, all of Cobourg, and Bella and Lena at home. One brother Thomas also lives at home.

FREDERICK ETHIER

After a short but serious illness from pneumonia, Frederick Ethier, son of Mr. and Mrs. Julius Ethier, passed away at his late residence, 72 South George street early this morning, having been ill but a few days.

Deceased was born in Montreal, thirty-four years ago, but has been a resident in Belleville for some fifteen years. The late Frederick Ethier was a member of St. Michael's church, is survived by his widow and three young children, two sisters and five brothers.

One sister, Ethel M. Ethier, resides in Belleville, the other sister, Mrs. Romeo Mercier living in Montreal. Three of the five brothers, John, Edward and Jule live in this city, but William and Walter reside in Montreal.

HELEN L. KNOX

At her late residence, 172 Dundas street, east, Mrs. Helen L. Knox, widow of the late Mr. Robert Knox, passed away yesterday afternoon after being ill for some time. Deceased was a daughter of the late Mr. Daniel Gerow and was born in hurlow Township in 1841, being thus in her 83rd year. She was a member of the Methodist church. Mrs. Knox had resided in this vicinity all her life. Her husband predeceased her some time ago. No family survives. One sister, Mrs. James Gibson of Thurlow is living.

PROGRESSIVES KEEP POLICY

Stated "Benevolent Neutrality" In Regard to Gov't To Be Observed

Ottawa, Feb. 27.—Robert Forke, Progressive leader, arrived in Ottawa yesterday. To-day Progressive members meet for their first caucus of the session. The attitude of Progressives will then be discussed, although the meeting will be mainly of a preliminary nature, rather of a get-together gathering than a formal caucus called for the purpose of reaching a definite party attitude on some particular question. This will more properly arise when the Government's policy, as outlined in the Spech from the Throne, has been Speech from the Throne, has been submitted to Parliament.

General intentions on the part of Progressives, however, it is learned in authoritative circles, are to continue their policy of last session, defined as one of "benevolent neutrality" in regard to the Government. There is no desire to rank as a formal Opposition. At the same time Progressives here make it clear that they considered the time ripe for tariff reductions. The fact that the Government will meet Parliament in a technical majority of four is also regarded by Progressives as improving their own position and opportunities in the House.

WOMAN PRISONER CHOKES MATRON

Brutal Murder committed in Indiana Prison by Inmate

Indianapolis, Ind., Feb. 27 (United Press).—Gladys Elliott, 26 an inmate of the Indiana Women's Prison here, early to-day strangled and beat Mrs. Louise Richards, 70, matron, to death and escaped from the prison, police announced.

The prisoner was confined in the cell for incorrigibles, Mrs. Richards, acting as substitutes matron, occupying the adjoining room.

A nurse making her rounds found Mrs. Richards dead in her bed. She had been strangled and beaten on the head. A gag was in her mouth, and she was bound hand and foot with strips of cloth, said to be part of the Elliott girl's dress.

It was believed that the inner door of the cell was left unlocked last night. The girl forced the lock of a wire cage door outside the cell, and this gave her access to the room where the aged matron lay sleeping. Bloodstains about the room indicated that the matron struggled before she was overpowered.

TRADE UNIONISTS BOSS KING'S HOUSEHOLD

By MILTON BRONNER

NEA Service Staff Correspondent

London, Feb. 27.—A tin plate worker, who started earning his daily bread when he was 11, a coal miner, who went into the pits when he was 10, and a bootmaker, who started sewing leather when he was 11, are running the household of the king of Great Britain.

And there are serious people who will tell you solemnly that this is the greatest and most astonishing revolution in British life caused by King George summoning Ramsay Macdonald to form a ministry.

The well-to-do English have reconciled themselves to seeing a Labor-Socialist intellectual like Macdonald filling the twin posts of prime minister and secretary for foreign affairs; they are accustoming themselves to thinking of trades unionists like J. H. Thomas and J. R. Clynes holding important cabinet jobs; they even endorse the wisdom of the royal family in remaking the laws as to court dress, so as to spare the pocketbooks of the Labor governors who are all poor men.

But trades unionists in the king's own palace, giving orders to some of the flunkies, supervising the bills, being consulted about social procedure—zowie! and then some!

Thomas Griffiths, who represents the Welsh district of Pontypool in the House of Commons, is the new treasurer of the household.

The man who thus officially supervices the expenditures of the royal family, started life in the humble home of a Welsh workman. Before he had left the elementary schools, he went to work as a half-timer in a tin plate factory at the magnificent wage of eight cents per day.

Griffiths is a type of the British workman with a tremendous thirst for the knowledge that the poor public school system of his country refused him. At the age of 33, with a wife and family to support, he entered Ruskin at Oxford.

When he was poring over text books, all the money he had to maintain himself at Oxford and his family at home was $12 a week. So he knows how to make ends meet.

After he left college, Griffiths became an organizer of the Steel Smelters Union and later became a divisional officer of the great Iron and Steel Trades Confederation—the immense union which has never had a strike.

THE KING'S HOUSEHOLD

RUNNING THE KING'S HOUSEHOLD. FROM LEFT TO RIGHT: THOMAS GRIFFITHS, TREASURER; JOHN ALLEN PARKINSON, COMPTROLLER, AND JOHN DAVISON, VICE CHAMBERLAIN.

John Allen Parkinson is the comptroller of the royal household. He will have a lot to do with regulating the big functions.

And that is something he never dreamed of doing when, as a kid in Lancashire, he quarrelled with his under-manager. He dreamed that his boy should be a manager.

But young John said he wanted to be a miner. He started as a half-timer at 10, became a full-time worker in the coal pits at 12, and at 17 was a thorough-going trades unionist. He advanced in trades union ranks until he was made a miners' agent and also member of the executive committee of the big miners' federation. He is an M. P. for the big mining town of Wigan.

John Davison, who is vice chamberlain of the household, started out as a bootmaker, but soon went into boiler making and iron founding. For 21 years he was a sand artist in a foundry.

He is one of the few men in the government who has been on American soil. In 1919 he went to Canada as a fraternal delegate to the Canadian Trades Union Congress. In 1921 he went to the United States on an unofficial pilgrimage to inquire into the workings of our anti-booze laws.

Asked whether England would go dry
Asked whether England would go dry years."

So it's a cinch that the new vice chamberlain will not put the kibosh on George V having his wee bit drappy o' Scotch.

Thousands of Jewish Marriages Illegal In Quebec, Says Judge

Many Jewish Ministers Ignore Laws With Criminal Indifference—Rabbis Not British Subjects and Fail to Record Proper Data

Montreal, Feb. 27.—In declaring a marriage which had been contracted between Dame Rose Feigleson and David Fleisig, null and void, the Court yesterday profited by the occasion to deliver a scathing arraignment of certain methods employed by Jews and their ministers relative to the register of marriages. Judge Bruneau granted the annulment to Rose Feigleson for the reason that the celebrant, Chaim Schulsinger, Jewish minister, was not a competent person to perform the ceremony as he was not a British subject and had not obtained requisite authority to keep civil registers.

Judge Bruneau, in the course of his remarks on prevalent conditions, said that he had occasion to note that very often Jews and their ministers ignore with almost criminal indifference, the disposition of Canadian laws relative to the register of civil status. Thousands of applications were made to register births and marriages during the regime of conscription, and the question arises whether most of them are legal or not.

Judge Bruneau said that there were hundreds perhaps thousands of marriages celebrated illegally in the province by Jews and it is a very serious matter.

Only British subjects may perform civil acts here in a legal manner and moreover, the minister must obtain jurisdiction from the provincial authorities in writing. Chaim Schulsinger, the minister who performed the above marriage, had only lived here six months and was a Rumanian from the United States. In the marriage certificate produced in court attention was called to the fact that the names of the parents, ages and professions, as well as the domicile of the contracting parties were omitted. No reference was made to banns and there was only one witness. As a matter of fact an American form of marriage was gone through which is useless here and therefore the certificate was absolutely illegal.

In declaring the marriage null and void the Court added that the above stated violations did not surprise him.

It is expected that the action of the court and the comprehensive arraignment of the marriage laws will throw consternation in the ranks of the local Jews as it will mean that many marriages performed by Rabbis not British subjects are worthless.

QUARANTINE AT WINDSOR BORDER

Drastic Action to Cope with Serious Smallpox Epidemic

Windsor, Feb. 27.—Co-operation of the United States federal government in clamping down a drastic border quarantine to prevent the further spread of small-pox which caused four deaths in Windsor Sunday and another last evening and also one in Detroit, was assured last night.

Surgeon General Cumming has ordered Dr. C. C. Pierce, district inspector of health service at Chicago, to come to Detroit to take charge of the situation. He is empowered to take such precautionary measures as he deems prudent, including a quarantine against Windsor if he thinks it necessary. Dr. Vaughan announced yesterday afternoon that preparations are being made for putting a quarantine against un-vaccinated persons in effect to-day.

'THE MAPLE LEAF' IS NEWEST MAGAZINE

Two years ago the Canadian Club organization sent out to their members the first copy of their magazine, "The Maple Leaf".

Like the Clubs for both men and women, it has grown into a most prominent position.

As a magazine it is unique, having no fiscal fiction to attract lovers of light literature, but is purely educational from cover to cover.

Men and women, boys and girls do not get all their education from school books alone.

The Maple Leaf will do its share in developing the national spirit of the times in this rapidly progressive Canada of ours.

It is proving a great bond of unity for the dominion (also for foreign fields) not only uniting the provinces from ocean to ocean, but the cities, towns and smaller towns, bringing them into one channel of sympathetic thought, the result being the greater development of Canada into a greater nation.

This will be the work of the Maple Leaf, having a distribution of 43,000. All lovers of good reading should enjoy its contents.

Federals Plan Drive On Rebels

Offensive Against Revolutionaries at Colenia is under Way

Mexico City, Feb. 27.—Manzanillo will be opened to international traffic next Thursday under instructions given by President Obregon to the ministry of communication. Repairs are being actively made on the Colima railway line from both ends.

General Joaquin Amaro, chief of operations, is directing the military operations from Guadalajara. He is sending forward eight military trains under command of General Elugio Ortiz and Enrique Leon. These forces are believed already to have joined the troops of General Lazaro Cardenas at Cuidad Guzman.

West Front Pacified

Mexico City, Feb. 27—"The Western front has been pacified, and constitutional order is re-established in Jalisco, Colim, Michaacan and Guanajuato", President Obregon stated upon his arrival last night from Guadalajara where he conferred with federal commanders regarding the operations necessary to clean up the regions which until recently were under the domination of the rebels.

SAXON SPINSTERS MUST GET MARRIED OR PAY HEAD TAX

Strollberg, Saxony, Feb. 27.—Bachelors and bachelor-maids alike are to bear a special tax in this city. The district council has decided that the unmarried of both sexes shall pay a head tax to lessen the burden on families.

Head Stuffed By Catarrh? Use A Healing Cream

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic germ destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffling, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure.

Red Pepper Heat Quickest Relief For Rheumatism

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

Norman E. Trimper

THIS MAN TELLS YOU HOW TO KEEP FIT!

Bear River, N. S.—"My back was so bad I could hardly work. I was always tired out and had no ambition; was nervous and dizzy, and everything seemed to worry me. I also had terrible pains in my right side. I felt badly for about eighteen months, and could not do my work as it should have been done. I tried several doctors, and also bought about $25.00 worth of put up medicines, but I found no relief until I took Doctor Pierce's Golden Medical Discovery and Doctor Pierce's Anuric (anti-uric-acid) Tablets. I have taken two bottles of the Discovery, and four of the Anuric Tablets, and can say that I feel as well as I have felt for the last ten years. I advise any sufferer to give Dr. Pierce's remedies a fair trial. I cannot recommend them too highly for what they have done for me and shall be pleased to answer any one who cares to write me."—Norman E. Trimper, R. R. 1.

Obtain these famous medicines now at your nearest drug store, in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of any of his remedies. Write Doctor Pierce, President Invalids Hotel in Buffalo, N. Y., if you desire free medical advice.

Sidelights On Delorme Trial

At the first trial ninety-two witnesses were summoned. Not more than half that number are on the list for the present trial.

The Abbe took copious notes and held several consultations with Mr. Germain.

Juryman No. 5 enjoyed the insurance actuary's evidence and smiled broadly. A ripple of laughter went through the Court when the instinct of the genius Insurance Agent appeared in evidence.

Father Delorme celebrated his 38th birthday, December 12th, 1923.

Many young lawyers who pass in and out of the court room during the trial were fellow college students of the accused.

The jurymen selected yesterday were taken from the third panel called for the February Trm. The speed with which the jury was formed can be accounted for by the announcement made at the opening of the term, when they answered to the call of their names and were ordered to report for the 25th. Both the Crown and defence were in possession of names from which the twelve men were to be selectd' That is court record.

One of the few changes made in the Court since the last trial was the moving of the witness box from its position at the side of the Judge's Bench to a more prominent place close to the jury. It was noticeable last June that the jurors had difficulty in hearing what certain witnesses said and it is apparently to avoid a repetition of this inconvenience that the stand has been placed so close to the jury box.

The jurors bade a temporary farewell to their liberty yesterday. Shortly after the afternoon session started one of them was handed a letter by the judge containing a five dollar bill. This was sent in by a creditor of the juror who had chased all over town trying to liquidate the debt and had finally found him in the box. The five spot will gather interest until the trial is over.

Before the jury was tucked away for the night they asked permission to scan the evening papers. Justice Martineau said he was very sorry but it would be a dangerous precedent to set. All of them carried lengthy stories of the Delorme trial and he thought that it would be in the interests of all that papers be withheld.

Willy Marion, the accountant, who gave details of the Abbe's accounting methods told of the accuseds two trips to New York. The latter shook his head twice in an affirmative manner as much as to say that it was old stuff and nobody was interested. The Abbe started his voluminous note writing when the first witness was called to the box and never let up until adjournment.

During the afternoon session a spectator fell fast asleep and was gradually working up to a fine explosion of snores, until one of the Abbe's guards woke him up and told him that the trial wasn't over yet. The accused grinned as the sleepy gent shook the cobwebs off his brain.

So far the trial has been a recapitulation of evidence that has been rehearsed many times but it is the calm before the storm as hints of new evidence are in circulation. The court was only half full yesterday afternoon and very little interest is being shown in the proceedings by the public.

SECOND LINE SIDNEY

There will be a tea meeting held at Holloway street church on March 18. A good programme and an abundance of food is assured.

Mr. and Mrs George Youkker spent Sunday with Mr. Youker's parents here.

Mr. H. Donnely is ill with the prevalent cold.

Mr. Ed Uaite's horses walked on the railway track one day last week but fortunately were not killed.

Copp Spikes Story Of Resignation

Secretary of State Has No Desire for Judicial Appointment

Ottawa, Feb. 27.—Hon. A. B. Copp, Secretary of State, is not to resign from the Government. Moreover, he has her stage rearing and acting of the no present lesire for eithel a judicial or Senatorial appointment. Mr. Copp who returned from New Brunswick this morning, denied absolutely rumors of his retirement from the Government which were circulated following a conference between himself, Premier Veniot, of New Brunswick, and other prominent Liberals of the province on Saturday.

Mr. Copp state dalso that as far as he knew the rumor that Premier Veniot was to be taken into the Federal Cabinet was as unfounded as the one about his one retirement.

Mr. Copp said that he had been elected to represent the people of his constituency for five years, and, unless something very exceptional occurred, he proposed to do so. He stated that no decision in regard to filling the vacancy on the Supreme Court bench of New Brunswick had yet been reached.

Take Salts If Stomach Isn't Acting Right

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air, says a noted authority He also tells us that indigestion is caused by Hyperacidity, meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy baloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas we eructate sour food or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescing, and further more, to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used for many stomach disorders with excellent results.

FANNING WITH FARRELL

PICKING STARS IN THE NATIONAL LEAGUE

By HENRY L. FARRELL

(United Press Sports Editor)

New York, Feb. 27 (United Press).—Awarding of a cash prize of $1,000 and a diploma of merit to the player voted by the baseball writer's as the most valuable player in the National League will involve a real contest next season.

The American League has been recognizing a vote on the most valuable player in its organization for two years but the awards of the honor involved practically no contest.

In 1922 it was a cinch that George Sisler, the dashing first baseman of the St. Louis Browns, would receive the majority vote, and he did.

Last season it was even more certain that Babe Ruth was the most valuable player in the league and he was favored so unanimously as such that every vote was cast for him.

There is no outstanding player in the National League like George Sisler was among the American League stars in 1922 and like the Babe was last season.

Casually, it might be considered from performances last season that Frank Frisch was the greatest star in the league, but the prize is not awarded to the greatest star. The honor goes to the most valuable player.

The wonderful pitching of Jimmy Ring with the lowly Phils last year would have made him a candidate almost as meritorious and deserving as Rogers Hornsby, another of the outstanding stars of the league.

Eddie Roush, the brilliant Cincinnati outfielder, would be among the leading candidates for star prize, but Roush is not a valuable team man, according to the ideas that the magnates had in putting up the prize. No player is a valuable team man who stays away for weeks from his team on account of a salary dispute. It must be admitted that the money is the main thing and that the diploma will not pay the rent in twenty years, but one of those diplomas will look nice on the wall in twenty years when a player will have to have some substantial proof to freshen the memories of the oldtimers and prove to the new fans that he once was a star.

There are many valuable players in the National, just as many as there are in the American League, but it is easier to pick out the more valuable players in the American League, perhaps because more attention has been paid to them in the past two years.

You would say right off hand that Eddie Collins is the most valuable player on the Chicago White Sox? Who is the most valuable player with the Cubs?

Howard Ehmke was pointed out as the most valuable player with the Boston Red Sox last year. Who would the Braves miss most if they lost him?

Very few fans can say right out with an accurate judgment on the most valuable player, the Robins, the Pirates, the Reds?

* * *

Inasmuch as there is not known to be a provision against repeaters in the American League, it is quite possible that Babe Ruth will get a great many votes again next year.

There is no logical reason why the Babe, if he is the player next season that he was last year, should not be re-elected as the most valuable player in the league.

If the Babe should be ruled out of the competition, or if he should be asked to accept a penalty for having had the honor once, the award of the prize will bring about a keen contest in the American League.

With Sisler apparently out of the running, there is no outstanding player in the leagues, excepting Ruth.

Of course, it is quite possible and rather to be expected that some player might step out next season and make a pennant winner out of some little considered club.

"SPARK PLUG" Matthews looked like he was going to make a pennant winner out of Connie Mack's Athletics last spring, but he turned out to be a bust and the A's crashed when he crashed.

If some young player comes out next spring and puts a team in the pennant race and keeps it there instead of dubbing it, like Matthews did, he would be the outstanding favorite for the honors.

There are a number of fine young ball players coming up in the American League next year and perhaps the 1924 sensation is hidden some place in the crowd.

* * *

The idea of rewarding the most valuable player is fine. It might be possible to reward star players by naming them on the All-National League team for the year. Such a team would be like Walter Camp's All-American football team. The spectacular players would get all the credit. The most valuable title carries with it more equality because a player on an eighth place club can be more valuable to his team than a laggard star on a champion team, who plays only for the averages.

PARRY SOUND DEFEATS NEWMARKET IN PLAY-OFF

Beaverton, Feb. 27.—A two-goal lead, secured by the Parry Sound team in the first period of Tuesday's game, enabled them to defeat Newmarket in the junior O.H.A. elimination series by 3 goals to 2 in the third game between the two teams, the home and home series resulting in a 3 to 3 tie. To-night's game was a clean, hard-fought contest, and local fans were greatly pleased with the exhibition of the visiting youngsters. Parry Sound scored two goals in the first period; the second was scoreless, while Newmarket outscored their opponents by 2 to 1 in the final session. The teams:—

Parry Sound—Goal, Lipscombe; defence, Walton and Steward; centre, Bourdignon; right wing, Bridley; left wing, Maheffey; subs., Woods and Blehn.

Newmarket—Goal, Rose; defence, Perreault and Thomas; right wing, Souletran; left wing, Beefrey; subs., Pownsley and Toms.

Referee—H. H. Jacobi, Toronto.

Tigers Win First From Varsity 5-1

Winner's Defence is Too Strong for Students—Losers Tire

Hamilton, Ont., Feb. 27.—Tigers will enter into the return game at Toronto on Friday night, for the honors of group No. 1 of the senior O.H.A. with a four-goal lead to work on. Last night the Bengals stepped into Varsity squad, checked them to a standstill and walked off with five to one victory, in as pretty a game as one would care to see. Aside from the first ten minutes of the opening period, the students were never in the picture. They tried hard to penetrate the Tiger defence, but found it an impossibility and on end they showed signs of tiring, the result of a fast pace which the Bengals set and never stopped.

Tigers showed at their best before the largest crowd that has witnessed an amateur game here this year. For the first three minutes they looked bad and Varsity backed them into their own end of the rink, but they came on and for the remainder of the game had the students at their mercy. It was only wonderful saves on the part of Thomson that saved Varsity from a worse drubbing.

The students could not penetrate the Tiger defence. Their combination play was broken up by the close checking of the forward line and their individual efforts to beat Day and Redding proved fruitless. The defensive work of the Hamilton team was the big factor. Every member of the forward line checked hard and close, while the work of the defence was the best turned in here this season.

Tigers—Goal, Stewart; right defence, Day; left defence, Redding; centre, Brackenborough; right wing, Cooper; left wing, Mitchell; subs, Stanley and Nelson.

Varsity—Goal, Thomson; right defence, Porter; left defence, McLeod; centre, Hudson; right wing, Westman, left wing, Greey; subs, Sommerville and Harris.

Referee—Donald Smith, Montreal.

The summary:

First Period

1. Hamilton ......Cooper 3.00

Second Period

2. Varsity ......Greey 10.00
3. Hamilton ......Cooper 3.00
4. Hamilton ......Cooper 1.00

Third Period

5. Hamilton ......Brackenborough 9.00
6. Hamilton ......Cooper 6.00

Final score—Hamilton 5, Varsity 1.

Stratford Gets One Goal Lead

Stratford, Ont., Feb. 27.—Stratford Indians have but a one-goal advantage for their game in Preston on Thursday night. In a hard-fought contest here last night in the first game in the play-off for the senior O.H.A. Group No. 2 honors, the homesters pulled out a 1 to 0 win, the lone goal coming in the third period. The game, which was witnessed by some 2,500 fans, including a good quota from Preston, was keenly contested throughout, though each team play a different brand of hockey.

Stratford started on the offensive and for a few minutes swept everything before them, but the coolness with which Farrell, the Preston goalie turned the shots aside impressed upon the Indians that they were up against a tough proposition. If Stratford goes down to defeat on the round the lion's share of the credit will be Farrell's. Never did he play better hockey.

Preston Plays Defensively

Preston's play during the greater part of the paly was of a defensive character and their defence was particularly effective. Clark and Kreason exchanged places on the wings and the latter held Carson in check better than Clark had been able to do in previous games. Arnott, as usual the mainstay of the forwards, got in many dangerous shots, but was watched pretty closely by Brickman. Berger made some sensational rushes but shot from too far out to beat Farrell. Brickman turned in one of the best games of the season and back-checked continuously.

The ice was keen when the game commenced, but became sticky toward the close of the game. Stratford fans are not disheartened that their team did not win by a larger margin and feel confident that they will emerge victorious on the round.

Preston—Goal, Farrell; right defence, Skelley; left defence, Bowman; centre, Arnott; left wing, Kreason; right wing, Clark; subs, Egener and Woodley.

Stratford—Goal, Dobson; right defence, Berger; left defence, Ashley; centre, Brickman; right wing, Carson; left wing, Kelterborne.

N. O. H. A. PLAY-OFF DATES

North Bay, Ont., Feb. 27.—Espanola's 9-3 victory over Sudbury at Espanola last night tied up the Southern Intermediate group of the N. O. H. A., and today Secretary Charlton ordered home-and-home games at Sudbury on Wednesday and at Espanola on Friday to determine the winner. The date for the intermediate finals have been set, with Iroquois Falls at the Southern winner on March 4, and the Southern winner at Iroquois Falls on March 7. The junior N. O. H. A. finals have also been set, Cobalt playing here on Thursday night, and North Bay at Cobalt on March 4.

Ogden's CUT PLUG TOBACCO

ON THE ALLEYS

The Veronas were not able to successfully cope with the Excelsiors in their league fixture last night. The latter took each of the three games by a comfortable margin and the conclusion of the play left them well out in front with four hundred odd points to the good. Mrs. Beal turned in the best score in both single and three string.

WILL PLAY FOR SPAIN

Bethlehem, Pa., Feb. 27.—Manuel Alonso, lawn tennis champion of Spain, said to-day that he and his brother Jose planned to go to Europe this Spring to compete for their country in both the Olympic and Davis Cup matches. They will leave early in June. SPORTS

Jack Himself!

Jack Dempsey called at the White House and discussed affairs of the nation with the president. Dempsey wanted to know why Czecho-Slovakia was not given mandate over Abyssinia, it is rumored. Coolidge assured Dempsey, gossips have it, that the only thing that stood in the way was Article X of the League of Nations, and the two thereupon discussed the league in detail.

Your Last Chance TO BUY AN Overcoat AT A Bargain

We are on the home stretch with Overcoats. We have a very nice assortment in sizes 35, 36, 37 and 38; not very many in the larger sizes.

Come in and let us show you a really big bargain—We have a lot of very fine Coats that sold all season at $30.00 each. Well, $20.00 will buy any one of them.

Menu For The Day

THURSDAY

Breakfast

Cereal

Baked Apples	Cream
Graham Muffins	Coffee.

Luncheon

Rice and Tomatoes

Cold Slice Tongue

Stewed Fruit	Sponge Cake

Cocoa

Dinner

Cream of Onion Soup Toasted Wafers

Stuffed Veal

Baked Potatoes, Scalloped Celery

Pickled Pears

Cherry Pie	Coffee

RICE WITH TOMATOES

Cut up fine 1-2 lb. bacon and keep stirring in frying pan until fried. Then add two onions cut fine, keep stirring till cooked. Then add 1 can tomatoes. Place alternate layers of cooked rice and tomato mixture in buttered bakedish and bake 1-2 to 3-4 hour.

CREAM OF ONION SOUP

Chop 6 onions, cook in 3 tbspns butter without browning; add 3 cups cold water and cook till onions are tender. Rub through strainer. Melt 3 tbspns butter, add flour, stir till well blended and frothy, add slowly 1 cup each of scalded milk and cream (2 cups of rich milk will do) stirring constantly. Season with salt, a few grains of cayenne and continue cooking 5 minutes. Combine the mixtures add 1 egg yolk slightly beaten and 1 tbspn pimento finely cut. Before serving sprinkle two tbspns grated cheese in soup.

"Having no income tax schedule to worry about," remarks the Chicago News, "Cato learned Greek at 80."

Girl Tells How to Dress Chick and Up-to-date, Little more than nothing

By HEDDA HOYT

(Written for the United Press)

New York, N. P., Feb. 27.—The girl who lives next door rushed into my apartment the other afternoon dressed in her finest bib and tucker.

Before I describe her clothes I must tell you about her. She's a little thing of flapper age who has just finished high school and put books behind her and a future husband in front of her. There isn't enough money in the family budget to send her to college and father and mother think she is a little too sweet to tackle office work. So she stays home dividing her time between helping mother and making over clothing so that she can keep up with the other girls of her crowd, whose fathers are more successful than hers.

I often marvel at her clothes! She spends very little money on them as there is little to spend, but she always manages to look just a trifle nicer than the other girls about the neighborhood.

Today she looked particularly lovely in a little black satin frock that was redeemed from inconspicuousness by an embroidered corsage of pink roses that were worked onto the frock. She wore a small black satin cloche bonnet, also embroidered in rose buds on one side of crown and on brim. A band of narrow velvet went under her chin and tied in a looped bow at one side.

How She Did It

"How do you do it?" I gasped.

"It's an effort," she laughed, "but lots of fun. This dress is two years old. It started out being one of those Bramley things, with pleated skirt, high neck and long sleeves. The pleats came out of the skirt so I cleaned it in gasoline, ironed it out and made a simple two-piece skirt of it. It looked too plain and severe then, so I got a pattern of flowers and stamped it on the gown and behold my moss roses! The sleeves were discarded and I made a batteau neckline."

As she lifted her skirt to show me her embroidery, I noticed a fluffy black lace petticoat beneath it.

"That's another old dress that had georgette sleeves. The sleeves wore out long before the gown, so I cut the top of the gown off at the armpits, added shoulder straps and some black lace about the hem and had an underslip."

"I'm made over from skin out," she laughed. "Even my underthings have been remodeled. Whenever an envelope chemise wears out about the edge, I cut the bottom off and make a shirt or a camisole out of it. I love silk underthings and if I wear them, I must wear them until they become rags."

I looked at her sheer stockings that were the flesh shade so popular at present.

Tinted The Stockings

"I bought these last summer. They were white and were perfectly good at the end of the season, so I made a mixture of pink and tan tintex and got the exact shade they are using now. By boiling them in this dye they hold their color for many washings."

She carried a frivolous little satin bag that was the same shade of green as the stems of her corsage. This she had made out of a discarded blouse, forming petal bands, one overlapping the other, each petal ending with a crystal bead drop.

As she left the room I noticed that her smart three-quarter length coat was none other than the tan flapper coat of last season. It had been dyed black and trimmed about the bottom and on collar and cuffs with some seal which had probably seen many season's service. The seal was used in pointed effect about the border with the points extending just above the knees.

I noticed that her umbrella had a green handle which smelled very much like new paint. Nevertheless, it matches her handbag.

Remodelling Hints.

Never discard the dress of silver or gold cloth as it will make an exquisite slip for the fashionable tulle or net dance frock. So many of the fluffy ruffled gowns these days are made over such foundations. Where the back of the frock has become soiled by the partner's hand while dancing, try covering it with a little black-cape effect of tulle or net if the bodice is to be left of the metal cloth. Of course where the entire gown is made over the slip, this isn't necessary.

In discarding a dress that has embroidered trimming, preserve the embroidery to be used as sleeves of another gown whose sleeves have given out before the rest of the gown. Embroidered side panels have been used to make Russian sleeves effectively. Sleeves and gown seldom match these days.

Satin evening slippers of light shades can be retinted when soiled or faded by using oil paint dissolved in gasoline. Dissolve a small amount of tube paint in gasoline until you get the desired shade and brush with small brush onto the slipper. Never attempt to dip the entire shoe into this mixture.

IMPERIAL GOV'T HEED DOMINION PLEA

Ottawa, Feb. 27.—Abandonment by the British Government of the idea of creating an Imperial Economic Committee is noted with satisfaction in Government circles here. The resolution to create the Committee was passed at the recent Imperial Economic Conference in London with Canada alone officially dissenting. Some objections, however, were raised by delegates from South Africa and India and there was some doubt if they would nominate representatives to the Committee, except on a few special subjects.

The Dominions were to be represented on the committee by two members; but it was understood that Canada in view of Canadian opposition to the committee would not nominate representatives.

Aunt Martha's

HOUSEWIVES' COLUMN

Your Dominion Store manager pays just as much attention to economy as the housewife does in her household affairs. He is trained to. His little red book of instructions tell him just why economy is important, and how to make savings.

Here's one thing it says:

"The aim of our business of selling at the lowest possible price consistent with quality and small profit, makes it imperative that in the management of our stores, in fact throughout our whole organization, every economy possible be effected."

Then this book goes on to tell how to save money on store supplies, lights, care of equipment—and even such little things as postage.

Every woman knows how the little expenses mount up until you feel like saying "Where on earth can the money have gone?" The Dominion Stores watch over little costs as well as big—and the Dominion customer gets the benefit in lower prices.

This is one reason why buying at one of the 300 red front Dominion Stores means steady savings. You don't have to pay for wasteful methods when you buy where every detail of the grocery business has been studied by experts and made into an exact science of selling goods for less.

After all, if we didn't pay attention to good old-fashioned economy we couldn't pass on to you *all* of the savings we make by buying Dominion Store foods in big quantities.

That Body of Yours

By James W. Barton, M.D.

THE SAME OLD CURE

More than twenty years ago I was called to look after a young woman who was having a "spell" of some kind.

She was lying on the floor groaning holding her hand over her stomach, then over the region of the appendix, and again grasping her head with both hands. She said she was unable to get up.

Her pulse seemed regular although a little rapid, her tongue looked normal, and I was at a loss as to whether it was appendicitis or some other serious condition.

I called up a well known professor of medicine, and after some persuasion on my part, he came to the house.

After a short examination he said: "Get her upstairs to bed"

"But she is unable to walk," I said.

"Oh, she's al right. There's nothing wrong with her. She'll walk upstairs all right. There's no need to carry her"

And sure enough she got up, went to bed for a few hours, and didn't complain further for some weeks.

Aside to me, the professor stated, that if she had not got up and walked he would have used more vigorous measures.

During the war there were exaggerated cases of the above, some called shell shock, others nerve shock, functional paralysis, and so forth.

Some of these men laid in bed or were helped to a sitting position, and did not move their bodies voluntarily for weeks.

Many of these cases were simply malingering, but there were others where the chap really thought that he could not move his legs, for instance.

How was the cure brought about?

He was told that electric treatment was to be tried out upon him and he quite willingly consented to it.

When the very strong electric faradic current was applied to his body, he gave one leap from his bed, and dashed around the room.

The cure was complete.

In thinking of these cases of "advanced" treatment for functional paralysis I could not help but think of the old professor and the vigorous measures he would have employed had not my patient got up and walked.

What is the trouble in these cases?

Thinking about themselves too much. They get too much sympathy from everybody and make no effort of their will to fight the idea that they are afflicted mortals. You can readily see how such a case might respond to a suggestion from a strong willed person, just as readily as from the severe pain of an electric current.

My point is that the treatment is not really new.

The old practitioners used it.

Dr CHASE'S OINTMENT

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

"I don't know what we should have done if you hadn't come as you did. It's Providence, I suppose."

Jack thought that market-day and whiskey had something to do with it, but didn't say so.

"Our last forman looked after the farm almost entirely; for Martin—"

She paused again; but Jack understood.

"I'll do my best, Mrs. Martin," he said. "But Martin must please make allowance for my short-comings. I I think I can say I understand farming. It was very good of Miss Vancourt to recommend me—and on such slight acquaintance. It seems to me that you are all very confiding: for how do you know I sha'n't murder you all in your beds and bolt off with the—the spoons?"

Mrs. Martin smiled, and did not appear to think the question required an answer.

"She is a very kind young lady," she said. "Poor thing!"

Jack looked up from the plate.

"Poor thing!"

"Yes," said Mrs. Martin, with a sigh "She is quite a girl, to have so much money and responsibilities laid upon her."

"Oh, she'll bear up under it, you'll see," said Jack, cheerfully, thinking how well he could have endured the weight of Vancourt Towers and Sir Richard's untold thousands. "And now, as, I am sorry to say, I cannot eat any more I think I will go round the farm, if I may."

"I'll call Georgie, and he'll show you," said Mrs. Martin. "He'll show you the forman's cottage. You can sleep there—there isn't room here—but you may have your meals here, for a time, at any rate. I hope you will be comfortable."

Jack laughed easily.

"I've slept in the open too often, and not in the best of weather, to be very particular; and I expected nothing better than a shake-down in a hay-loft where Bob and I have slept several times, and like tops."

He lit his pipe—asking permission first, Mrs. Martin noticed—and went out, followed by Rob. As his firm step sounded on the sanded floor, Nettie's voice called out in a thin treble:

"Is 'oo coming back?"

"Yes," he called back. "My name is Bad Penny. Didn't you know that? You go to sleep."

With the gaping Georgie at his side, Jack went round a portion of the farm. The late foreman was supposed to have "seen to it entirely;" but he had seen to it very badly. Jack's keen eye detected bad management and waste in every direction.

"And they wonder why farming doesn't pay in England," he said to Bob, but in too low a voice for Georgie to hear. "I should like to know what Miss Vancourt's butter and eggs cost her. Half a crown a pound, and five shillings a dozen, I should say. Well, we'll try and alter it a bit, old man; and much thanks we'll get for it! No matter; directly our friend Martin is well enough, we'll bolt."

They came to the cottage presently—it was some distance from the lodge—and Jack found it to be a pretty little box of a place with three tiny rooms, a thatched roof, and a rough little garden from which the clematis clambered over the walls and round the small windows. Jack thought of the hideously ugly shepherd's hut "out on the other side," and looked at the cottage admiringly, and sighed. He went in. A farm-girl had lit a fire, and the two rooms—the sitting-and the bed-room—looked cosy.

"We've fallen in a soft place, Bob!" he said. "It's all most a pity it isn't a permanent one. Open all the windows, there's a good girl," he said to the maid. "I'm very delicate, and the doctor says I am to have plenty of air."

She gaped with eyes and mouth at the stalwart figure, and smiled as she did as she was bid.

Jack resumed his tour of inspection. number of "hands" could be got from the estate, and told him to hunt up a couple and have them there next morning.

"They won't need to bring a broom, Georgie," he said; "they'll find one here, and he's going to sweep clean."

Georgie's mouth yawned like the Persian Gulf, and his eyes nearly dropped out; for he began to suspect that the new foreman was mad; for there wasn't a broom anywhere near him.

Jack got back to the farm lodge by supper-time. Martin was asleep, but Nettie was awake, and after he had satisfied his extremely healthy hunger, he smoked a pipe, and talked to Mrs. Martin about the farm.

"I'm going to go on without worrying Martin," he said. "That will be all right, I suppose?"

Mrs. Martin assented thankfully.

"He does just what he likes," she said. "Miss Vancourt never interferes or asks any questions."

"Is that Nettie I hear in there? Would there be any objection to my bidding her good-night?"

He went in to the child, who had been lying listening to him, and greeted him with her eager, brilliant eyes.

"What did you say your name was?" she asked.

"I said Bad Penny, because I'd come back to you, you know. But I'm called Jack Gordon."

"I like 'Jack,'" she said.

"It's lucky there are two names to choose from, isn't it?" he said, with that twinkle in his eyes which children love.

She laughed.

"And I like 'oo. I wish 'oo'd sit here beside me and talk to me all night. Do 'oo know any stories?"

"Heaps!" said Jack. "You lie down and close your eyes—you can't hear a story properly unless you do; fact! And I'll tell you one."

He dropped his voice after a time, and when she had fallen asleep, kissed her and stole out. Mrs. Martin had been watching him with a mother's gratitude.

"You—you are a good man," she said, timidly. "I don't wonder the child takes to you."

Jack went off to his cottage with these words in his ears; of course feeling ashamed of himself, as a man always does when a woman tells him he is good. Half-way to the cottage, he stopped and looked round him. He was not a bit sleepy, and he felt a desire to have a look at the Towers by moonlight. He fought with the desire for a moment or two, but it overcome him, and, vaulting the low park fence, he strolled slowly across towards the house. The light shining through the windows struggled with the moonlight streaming upon the old place; it looked weirdly beautiful in the night, and Jack, sauntering on absently, felt a strange wistfulness creeping over him. This grand old place was his! Oh, no, it wasn't! It was Miss Esther Vancourt's.

SCOTT'S
EMULSION

Healthy Babyhood Happy Motherhood

THE mother of the breast-fed baby realizes to the full the joy of motherhood. For she knows that by maternal feeding she is ensuring healthy, happy development for her little one.

Maternal milk is germ-free and of correct composition. It ensures easy assimilation. The breast-fed baby is immune from the ailments which in many cases follow artificial feeding.

"Ovaltine" performs a notable service to motherhood. Taken regularly for two months preceding the birth and throughout the entire nursing period, this delicious beverage provides an abundant supply of rich milk, and makes breast-feeding possible. It also safeguards the health of the mother and restores her to normal strength.

"Ovaltine" is prepared from ripe barley malt, creamy milk and fresh eggs. These valuable food elements are blended by a unique process and issue in the form of delicious golden granules which embody all the nutritive value, all the health and strength-giving properties of the natural tonic foods.

There is more nourishment in one cup of "Ovaltine" than in twelve cups of beef extract, seven cups of cocoa or three eggs.

RICKARD CALLS MEETING TO DISCUSS PRO. HOCKEY

Pittsburg, Pa., Feb. 27.—Roy D. Schooley, president of the local arena and backer of the Yellow Jackets, present leaders of the Western group of the United States Amateur Hockey League; George Brown, president and owner of the skate team wearing the colors of the Boston Arena, and leaders of the Eastern group; representatives from Buffalo, Montreal, Toronto and Canada are going to gather in New York Thursday at Tex Rickard's request, in regard to the proposed professional hockey league, it was learned from a reliable source here to-day.

According to the tentative plans and reports that have been coming from Gotham, negotiations are under way for the formation of an international professional league with four towns from Canada and the same number from the United States, providing a nightly schedule of games all over the circuit. The American cities selected tentatively are New York, Boston, Pittsburg and Buffalo, while Toronto, Montreal, Ottawa and Hamilton are the Canadian cities mentioned.

It was announced earlier in the year that two teams would probably sport Pittsburg's colors in hockey circles next year, and that a professional team might make its appearance here, but nothing definite has been announced since. The report yesterday that Rickard was seeking the Canadian Club of Toronto, winners of the Olympic skate championship, to represent Gotham in the proposed league, indicates that a professional league is in the making and that it will more than likely be organized and begin operations next winter.

A STUDY IN HEREDITY

An Irishman was seated in a train beside a pompous individual who was accompanied by a dog.

"Foine dog ye have," said the Irishman. "Pwhat kind is it?"

"A cross between an Irishman and an ape," the man replied.

"Shure an' it's related to both of us," the Irishman rejoined.

TODAY OUR HAT'S OFF TO

RUDOLPH VALENTINO. He has discarded the Spanish atmosphere that made a million girls call him a sheik, and for his next picture, "Monsieur Beaucaire," dons this sort of garb.

Powdered wig and everything. Fine clothes. Looks different but clothes don't make a man and our guess is that Rudy will get more letters from movie-smitten lassies than ever.

This might prove almost anything. Rudy has been away from the screen for some time, so that his return is something of an event—like f'rinstance, the birth of twin giraffes or breakfast in bed.

SUBSTITUTES A TALK ON ADVERTISING

When you ask for some nationally advertised product at your store and the clerk says he does not have it but has something just as good, that is time to go to another store.

When a manufacturer spends millions of dollars in advertising a soap, or soda fountain drink, or shoe, or fountain pen, or typewriter, or any other sort of commodity, it means that he is not afraid to invite the criticism of the world upon the value of his product. It creates the assumption that what he is advertising is sound and straight and all right.

The whole substitute business has a bad flavor. Substitutes are indications of bad taste, sly dealing and often of crookedness.

Sometimes we are compelled to use substitutes. In that case we are not to blame.

The Germans during the war had to wear paper clothes and resort to many other kinds of ersatz. Russia had bread made out of anything but wheat. And there was a time when nearly everybody took saccharine instead of sugar in coffee.

Those were substitutes by duress, and were pardonable.

Some people like to wear imitation diamonds and artificial pearls, and there are all sorts of articles made in imitation of precious metals, and cheap wood stained to make it look like walnut and red mahogany.

The whole moral condition of the world would be toned up if nobody tried to make anything look like anything but itself.

The use of substitutes is unfair to the producer. Take the case of a man who has invented, we will say, a kind of soft drink. He is honest, his product is scientifically compounded, healthful and tasteful. He puts millions of dollars into his business. He builds up a complicated organization. He spends his money freely in letting the people know the advantages of using his product.

When you ask for that particular kind of drink, but the clerk offers you something else, he is doing that which is unfair. The manufacturer, by his advertising, brought you into that store. He created the demand.

It is well to remember that if a druggist offers you a substitute at the soda fountain there is a reasonable suspicion that he will give you substitutes behind the prescription counter.

If a clothing manufacturer spends a great amount of capital in advertising certain garments with his mark upon them he loses his name unless he keeps the quality of those garments up to the mark.

This does not mean that extensive advertising absolutely guarantees quality, but it does mean that it is to a certain extent an insurance of quality.

The day is past when advertising implies fraud. Today advertising implies integrity. Yet, of course, it does not guarantee integrity. But advertising means that a man has staked his reputation and his capital upon his claims.

If he does not make those claims good the public eventually finds it out.

Nation-wide advertising is a wholesome factor in any business. To a great extent it protects the purchaser against fraud.

COLLEGE TO CURE STUDENT BLUES

Psychology Clinic Will Cheer Student, Who Co-ed has "Frozen"

University of California, Berkeley, Cal. Feb. 27 (United Press).—Elimination of pessimism, "blues" and worry has started at the University of California.

No more will students fret away their good nature and their health over the results of final examinations become despondent because they lost the smile of some fair co-ed; or even suffer from insomnia.

They will be cured at the physcolclinic which has become a part of the university infirmary.

Doctors Eva C. Reid and Sidney E. Smith of the infirmary staff have been assigned to the clinic. Their work will be that of treating students who are O. K. physically, but to whom the world looks blue or even drab.

"Although college students are young and obviously a healthy group, the announcement of the clinic said, "and there are few cases of actual mental trouble, many students from one cause or another, find themselves unequal to their social and college activities and desire the advice of a physician who specializes along this line."

The clinic is designed to help students "unravel their troubles by means of an understanding of modern prophylatic measures of mental hygiene."

It offers advise and care to students "who need assistance in their mental adjustments to society, environment and work."

MASONS OPEN BIG GATHERING

Toronto, Feb. 27.—With representatives from all parts of the jurisdiction and many distinguished visitors from the United States in attendance the Grand Chapter Royal Arch Masons of Canada, will open its sixty-sixth annual convocation in the Masonic Temple here today, concluding on Thursday. The executive committee of Grand Chapter will meet tonight, following which a banquet for the visiting delegates will be given by St. Albans Chapter.

Would not be Without Zutoo Tablets At Any Cost

Mr. A. O. Norton, the millionaire Jack Manufacturer, of Boston, who recently died, was a great "booster" for Zutoo Tablets.

He suffered from headaches from childhood and when he found Zutoo Tablets stopped these headaches in a few minutes and left no bad effect, he began recommending them to his family and friends. In an unsolicited letter, Mr. Norton says in closing:

"My family use them when ever needed with equally good results. I have frequently given them to friends who were suffering from Headache and they never failed to give quick relief. I always carry Zutoo Tablets in my grip on the road and WOULD NOT BE WITHOUT THEM AT ANY COST."

25 cents per box—at all dealers.

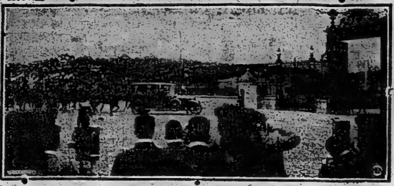
Easy To Darken Your Gray Hair

You can Bring Back Color and Lustre With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called, "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger

Pomp Marks Wedding of Prince Regent



Cameramen were lined before the Tokio palace gates to film the Prince Regent and his bride, the Princess Nagato, following the recent wedding ceremony. Japanese evidently must be afraid of cameramen at close range, hence the distance between cameras and auto.

MANY HERE SLOWLY POISONED WHEN FILTER GETS OUT OF FIX

Begins with Symptoms such as Headaches, Sour Stomach, Sharp Pains and Nervous, Upset Condition

Every drop of water used here passes through a filter where poisonous waste matter is eliminated and the water is made pure. People would soon protest if City Officials allowed this filter to get clogged up so that it could no longer purify water which flows into your home. Yet, people never stop to think that there is a filter in the body that is just as important to you as the one that purifies the city water supply.

Why You Feel Badly

This filter is your liver. When working as Nature intended it purifies your blood, every drop of which filters through your liver every 15 minutes. It also supplies the secretions that are essential to digestion and nourishment and prevents constipation. But, when this filter becomes clogged up with poisonous waste, it cannot do these three things. Consequently you often wake up feeling dull, nervous and tired. Your system is slowly poisoned and you suffer from such symptoms as sour stomach, belching of gas, improper movement of the bowels; sick headaches and a nervous, upset condition. You catch cold easily and your system is too run-down to throw off these troubles. You continue to feel badly until your filter has been properly cleansed and toned.

Dr. Thacher Offers Relief

Science can now help you feel your best again! Dr. Thacher has perfected a purely vegetable syrup (know as Dr. Thacher's Liver & Blood Syrup) which has brought quick relief in numerous cases like those described above. It contains only ingredients known to Physicians for their corrective and health-building properties. It helps Nature to cleanse and tone your liver properly and build up your system.

Try a spoonful after the next few meals. Notice the quick difference in the way you look, eat, sleep and feel. Dr. Thacher's Liver & Blood Syrup is sold by Dolan The Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and leading druggists everywhere with the understanding that you will be completely satisfied; otherwise your money will be returned—and you are the judge.

Dolan the Druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and by leading druggists everywhere.

Blinded

(Continued from page one)

Local Official's View

Particulars of the accident as outlined by a railway official are that it was a head on collision between express train No. 20, east bound, which left the Belleville station at 1 o'clock this morning, and an engine to which was attached a few cars and a caboose.

It appears that a freight train westward bound was in trouble owing to a break, and a portion of the train was taken away by an engine, in charge of engineer N. A. Woodcock and fireman W. Kerrigan, and was upon the track over which all east bound trains pass. At the time it was known that express train No. 20 should be approaching Mallorytown and signals, it is stated, were set against it. Owing to the weather conditions the signals could not be observed and the express travelling at a good rate of speed crashed into the engine in charge of Woodcock. The impact was a severe one and was heard for some distance. The scene was one of confusion and excitement and wreckage was strewn in all directions, completely blocking both tracks.

At the time it was feared that the casualty list would be a heavy one. The two engines were virtually locked together in deathly embrace, whilst the mail coach of the express train was wrecked and thrown about the tracks, also some of the freight cars.

The first report was to the effect that six persons had met an untimely death, but such was not the case. As quickly as possible, wrecking crews from Belleville and Brockville were rushed to the scene of the accident.

From the wreckage the bodies of Woodcock and Ritchie were recovered and taken into the station at Mallorytown. Engineer Boyes, who was seriously injured was as soon as possible conveyed to Brockville hospital. His injuries are of a serious nature.

Wm. Kerrigan, fireman, was alive when found, but his injuries were of such a nature that he died shortly after. Some members of the families of the unfortunate men were this morning taken to Mallorytown and Brockville.

A rather remarkable feature of the accident is the fact that not a passenger in the express train was injured to any extent. All were more or less shaken up when the collision occurred.

The baggageman and mail clerks in the mail coach escaped injury. It was reported that the brakeman of the freight train who went to flag the express train was missing, but such proved not to be the case. He had proceeded but a short distance when the express passed him, going at a good rate of speed. The express, a fast train, does not stop at Mallorytown, hence the speed at which it was travelling.

A thorough investigation into the accident will be made by the authorities and an inquest will be conducted by a coroner presumably from Brockville.

The Victims

The three victims were all well-known in this city and were efficient employees of the railway and had been such for some time.

Neil A. Woodcock resided at 287 Ann street. He has a wife and three small children. Deceased was twice married. For some time he was a fireman on the road, but of late had been in chrge of an engine.
in charge of an engine.
110 Station street, near the Canifton Road. He leaves a wife and a young son. Deceased was a veteran, having served overseas during the Great War.

Wm. Kerrigan's home was at 187 Station street. A wife, but no family survives. Deceased was comparatively a young man and was married less than two years ago.

The bodies will be brought to this city for interment as quickly as possible, after the preliminaries of the inquest had been attended.

All three victims were members of the Brotherhood of Locomotive Engineers and Firemen.

Ludendorff

(continued from page one)

The streets around the war Academy were barred to civilians, and assembly of more than two persons in the neighborhood was forbidden. Before the trial opened, a final search of the Academy was made, and extra precautions against fire and surprise were taken.

Although it was understood that the defence of the accused was to have involved throwing most of the blame for the putsch upon General von Kahr and General Lossow, plans were changed by defence counsel at the last minute.

Von Kahr, dictator of Bavaria, and Lossow, head of the army, resigned last week.

The defence will insist they co-operated in the putsch plans.

The defendants planned to claim they were not guilty of treason, since they did not aim to separate Bavaria from the Reich but to establish a new form of Government, a monarchy.

The trial began as the judges had filed solemnly into the chamber. The list of the accused was called and all answered "Here," in loud voices.

Ernest Poehner, who had been ill, affirmed that he was well enough to plead.

District-Attorney Stengel read the indictment, which was a lengthy recital of events on that fateful beer cellar night.

Campbellford Girls Win Round

Peterboro, Feb. 27.—Although they were defeated in Lakefield last night by the score of 6 goals to 4 by the Lakefield girls' team, the Campbellford girls won the round by 11 goals to 10 and will move up to the next stage of the L.O.H.A. series. The rink was packed with the biggest crowd in its history, attracted by the double-bill with Campbellford. The senior men's team of the Trent town meeting Lakefield's O.H.A. intermediate, and taking home the short end of the 9-1 score in a fast and exciting exhibition game. Lakefield deserved the victory last night, and only the capable Harriot Potts kept the score safe from Campbellford. All the Lakefield girls played well, the usual stars scintillating again. The girls lined up as follows:—

Campbellford—Goal, H. Potts; defence, E. Ferris and K. Dolman; centre, G. Blue; right wing, H. Wood; left wing, E. Irwin; subs, I Davidson and H. Lebrush.

Lakefield—Goal, W. Batten; defence, M. Mackenzie and S. Lennox; centre, E. Northey; right wing, J. Ridpath; left wing, F. MacKenzie; subs, H. Burgess and B. MacKenzie.

Referee—Reg Murduff.

Played the Ponies With Stolen Cash

Two Toronto Registry Clerks Plead Guilty to Charges

Toront, Feb. 27.—James F. Pollock and William F. Murphy, clerks in the city registry office, appeared in police court Tuesday and pleaded guilty to the theft of funds, the property of the Provincial Treasurer. According to the Provincial Auditor, Pollock's defalcations total so far about $10,000, with the investigation not yet completed; while the moneys taken by Murphy amounted to $1,498, the investigation as far as he is concerned, being completed. Both of the accused men were remanded in custody for a week for sentence.

According to R. H. Greer, K. C. neither of the men are possessed of a single cent to-day. "The money all went on the horses, your worship," said counsel. "The more they bet, the deeper they went and the wetter they got. There, in a word, you have the cause of their downfall."

A number of prominent lawyers appeared to give evidence on behalf of the convicted men. All spoke in warm terms of their civility and courteous behavior and all expressed surprise at their present position.

Pollock has been many years in the employ of the registry office, entering as a boy of 12. He has been there ever since, he is now thirty-three years of age, and has a wife and two young children.

LAY OFF MEN TO MODERNISE PLANT

Ottawa Feb. 27.—Upwards of 200 men will be thown out of employment on Wednesday of next week, and unemployment situation in this district will be considerably aggravated by the enforced closing down of the sulphite plant of the E. B. Eddy Company, Hull.

The reason for the shut-down is that the company is going to replace the present sulphite making machinery, which has been in continuous use for over thirty-six years, with more modern and up-to-date machinery, and this will take at least six months.

POOR THINGS DON'T REALIZE IT

How some people, who are widely different from us can be satisfied with themselves is past all human understanding.

ASK YOUR NEIGHBOR

There is hardly a neighborhood in the United States where women cannot be found who have derived benefit from Lydia E. Pinkham's Vegetable Compound. For nearly fifty years this botanic medicine has been overcoming some of the worst forms of female ills. As one woman has been benefited by its use she has told others who have used it with the same good results; so the use of this great medicine has spread from shore to shore by the recommendation of those who have found it good. Therefore, ask your neighbor; let her tell you from experience the benefit which ailing women derive from its use.

NEW TURN IN BUDGET DEBATE

Attorney-General says Treasurer Price Inherited Unexpected Debts

Toronto, Feb. 27.—With Attorney-General Nickle holding forth for the Government in the Legislature yesterday, the battle over Provincial financial statistics took a new turn. The Attorney-General declared—and challenged the Progressive Leader to prove him incorrect—that Mr. Doherty in his address had reversed the figures as to Drury and Ferguson Government expenditures in their respective terms of office, and made an error of $12,000,000.

A Vigorous Address

Mr. Nickle had all the incentive and enthusiasm in his task given by a full Legislature and crowded galleries. He bent to his oratorical effort with characteristic vigor. He somewhat lightened the terrific weight of figures with which he deluged the Assembly by his quips at the expense of the late Government party in general and its present Leader in particular.

The Attorney General prodded the Progressive Leader so consistently that Mr. Doherty on one occasion arose, purple-faced, and exclaimed that Mr. Nickle was "getting beyond himself." and he stated that the consideration which prevented him from interrupting was that he possessed those gentlemanly instincts which impelled him to allow a speaker to proceed no matter how wrong he might be in his conclusions.

CORNWALL'S NEW INDUSTRY

A large branch of an established British silk industry will locate in Cornwall. The Intelligencer was informed this afternoon on excellent authority.

CONSECON

Mr. and Mrs. J. B. Yott entertained a number of their friends on Thursday evening. Mrs. Harry Chase and Dr. B. Weeks were the lucky prize winners for cards.

Rev. and Mrs. Wolfrain spent Thursday with Mr. and Mrs. H. Weir.

Mr. Herb. McCabe, of Napanee, was in the village on Monday.

Mr. and Mrs. Bert Johnson entertained company on Monday evening.

Misses Mavis Kenny and Marjorie Thompson were guests of Miss Helen Miller Sunday evening.

Mr. Geo. Maidens, of Toronto, spent the week end with Mr. and Mrs. J. Thompson.

Miss Marion Bush was tea hour guests of Miss Marjorie Thompson Friday evening.

Mr. and Mrs. Ben. Hickerson, Mr. and Mrs. Bert. Johnson and Mr. and Mrs. W. W. Ward were dinner guests of Mrs. H. W. Weeks on Sunday.

Mr. and Mrs. Geo. Browne and son, of Carrying Place spent Sunday with Mr. and Mrs. C. W. Morrison.

Mr. Cleve Lont, of Ameliasburg spent the week end with his aunt, Mrs. T. Spencer.

GANDHI DEPLORES AKALI VIOLENCE

Bombay, British India, Feb. 27.—Mohandas Gandhi, the Nationalist leader, has sent a message to the Akali Sikhs saying that he learned with great distress of the fighting at Jaito, and urging the Akalis not to send any more fighters without consulting leaders outside the Sikh community. Gandhi recommends a policy of non-violence, particularly in a religious struggle such as he declares the Akalis are waging.

"Cascarets" 10c if Sick, Bilious, Constipated

"They work while you sleep."

When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two pleasant "Cascarets" to relieve constipation and biliousness. No griping—nicest cathartic-laxative on earth for Men, Women and Children. 10c boxes, also 25 and 50c sizes—any drug store.

PARLIAMENT OPENS IN OTTAWA TODAY

DEATH TOLL OF WRECK IS SWELLED TO FOUR ENGINEER BOYES DIES

Driver of Express Train succumbs to Injuries After Making Strong Fight for Life Despite Mangled Condition—Deceased was Deservedly Popular in Local Circles

REMAINS SHIPPED

Bodies of Neil A. Woodcock and James A. Ritchie Returned to Belleville for Interment—Funerals to be Held Friday and Saturday—Remains of Wm. C. Kerrigan Taken to Brockville

Bellevillians were saddened this morning when they learned that the fourth member of the engine crews, and also the fourth Belleville man had passed away as a result of terrible injuries sustained when engineer Albert J. Boyes, driver on express train No. 20, died at Brockville hospital last night shortly after nine o'clock. Boyes, it is reported was conscious to the last although one arm was burned off and the other arm frightfully mangled.

Engineer Boyes was deservedly popular not only amongst his fellow employees and railway officials, but citizens generally. He was considered one of the most efficient engineers on this division and his demise is sincerely regretted.

Deceased came to Belleville a few years ago from East Toronto, when a number of railway men were transferred from that point to this city and other places eastward. Mr. Boyes was in his 49th year and was born near Toronto.

He was a member of the Brotherhood of Locomotive Engineers and was also prominent in Masonic circles. He was a Past Master of Masonic Lodge No. 11 and always took an active part in the society. Deceased was a member of St. Andrews Presbyterian church. The body was brought to this city today and after being prepared for burial will be taken to Union cem

(continued on page seven)

THE WEATHER

Fair to-day. Friday mostly fair, not much change in temperature.

COMING EVENTS

Sons of Scotland, Camp Rob Roy 43 will hold an At Home, Friday evening Feb. 29th, in I.O.O.F. Temple. Cards dancing and refreshments. Tickets 50c

INSURANCE OF WORK AIM OF LABOR LEADER

Moore advocates Unemployment Insurance and Immigration Barrier

BETTER LABOR

Gives Outline of Failure of One Big Union's Influence

Kitchener, Feb. 28.— Unemployment insurance, a legislative barrier to control immigration with a view to properly and adequately distributing the labor supply so as not to over flood the labor market the regulation of industrial corporations such a the British Empire Steel Corporation so that conditions such as are maintaining in Sydney, N. B., at present time could not exist without the state stepping in and taking control and a general revivification of the entire trades union movement throughout Canada were the main points stressed by Tom Moore, president of the Trades and Labor Congress of Canada in an address before the Twin City Trades and Labor Council here last night. The meeting was also addressed by E. Engel electrical trades organizer and J. Marsh of Toronto.

He came here for the purpose of leaving something with the trades council members that might be of permanent benefit. He declared that he might have to say some things that were rather unpleasant but he was of the opinion that there was a canker in the midst of labor movement which should be removed so that the movement might progress to the goal for which it originally set out.

In this connection he mentioned the One Big Union which he claimed had issued a challenge to the trades union movement. It was a challenge that originated in a desire on the part of some workers to make the trades union movement go further than it was originally intended it should go.

The O. B. U. which had clamored for the freedom of speech and the freedom of the press had howled down the speakers who sought to show them the folly of their ways and to give them fair argument in support of the trades union movement as opposed to the idea behind the O. B. U.

The experience of the last few years has tested the O. B. U. with the result that today very little is heard of it and some of the most ardent supporters now coming back into the trade union movement are convinced of the mistake that was made.

Pull Strong For Junior League

If Robert Colling, member of the Parks Commission this city, and other enthusiastic baseball fans of this city and outlying towns, carry out their well made plans, Belleville fans will see junior baseball played on the local sand lot this coming summer.

In conversation with Mr. Colling yesterday, the advantageous points in fostering a junior ball league, were outlined to The Intelligencer. First of all, there is only one manner in which senior ball teams may be successfully "fed" with coming players and that is through the development of junior players right in the city. This is the manner in which to find out what there is in the city in the way of raw material, and with this "feeder" system in vogue, it would also lessen the importation of Ontario's well known commodities "ball players."

Belleville, Marmora Picton and Madoc have already signified their willingness and eagerness to form a junior league this summer, so Mr. Colling states, and he believes that other live neighboring towns might also readily fall in line when approached on the subject. The age limit will be placed at twenty years.

MONTREAL JEWISH RESIDENTS RESENT JUSTICE'S CLAIMS

Montreal, Feb. 28.—Hebrews generally are resenting the sweeping statements of Mr. Justice Bruneau in the practice division of the Superior Court yesterday when he handed down a judgment annuling the marriage of Rose Feigleson and David Fleisig. Mr. Justice Bruneau declared that there were hundreds of marriages celebrated illegally in the province of Quebec by Jews and that the condition was serious, almost criminal in its various aspects.

The crux of the situation seems to be that many Jewish rabbis are not British subjects. At least that was the claim made by the court, which declared that in this particular case Chaim Schulsinger, a Rumanian, only arrived in Canada six months ago from the United States, and that he had not been empowered to keep a civil register.

Rabbi M. J. Merritt declared that Mr. Justice Bruneau had no facts upon which to base his allegations.

"He is casting a very serious reflection on a vast community of the province which strongly objects to any such allegation," said Mr. Merritt. "The matter will be taken up with all the cudgels at our command.

"There are a large number of Jewish ministers in Montreal empowered to perform marriages," said Mr. Merritt, who declared that he is taking immediate steps to secure statistics and other data in order to refute the statements of Mr. Justice Bruneau.

Belleville's Leap-Year Baby To Get Wide Variety Of Presents From Merchants

New Arrival in City, Having Only One Birthday in Four Years, To Be Recipient of "Baby Trousseau" —Watch for the Arrival of The Leap Year Baby

How would you like to have only one birthday in four years? It's alright, of course, if you have reached years of discretion—say after forty. But for a youngster it must be pretty bad.

Yet this is what happens if your birthday comes on February 29th. Taking this in consideration a group of progressive Belleville merchants have decided that if Belleville acquires a new small citizen to-morrow, they will make his or her first birthday a memorable one to tide over the following three birthdayless years.

The announcements of the gifts in store for Belleville's prospective Leap Year Baby will be found on page four of this paper. The presents will go to the first baby born in Belleville to-morrow, or to the first baby born in Hastings County outside of the city, if no Leap Year Baby comes to Belleville.

The doctors have promised to notify us promptly of any new arrivals in this city, so that we may be able to announce the fortunate baby in to-morrow afternoon's paper.

VACCINE WILL STOP DISEASE

French Doctors Invent Serum To Combat Diphtheria

Paris, Feb. 28.—A vaccine against diphtheria, invented by Dr. Jules Renault and Dr. Perre, Paul Levy makes epidemics of that disease practically impossible, according to the results of their experiments, communicated to the academy of medicine. The vaccine which is called "T plus A" and is injected subcutaneously is hyper-neutralized and causes little inconvenience. Three hundred children treated with it were found to be completely immunized after three injections, it is said.

The inventors believe even better results can be attained and are continuing their experiments, but all the academicians declare the vaccine a great improvement over the anti-toxin treatment.

Norse Labor Unrest Grows

Some 50,000 Workers Idle—Dockers and many Trades Out

Christiania, Norway, Feb. 28.—About 50,000 workers are idle in Norway in consequence of the unrest in the labor world for several weeks past, with the prospect that 24,000 will be added to this number today unless there is an unexpected settlement meanwhile. The trouble was serious as long ago as last November, but was kept down until January 17, when a strike of dock workers tied up virtually every port in the country, wages being the point at dispute.

Other industries became involved and on February 7, the National Employers' Association proclaimed that it would on February 21 lock out 30,000 men employed in the building textile, tobacco, shoe and other trades and also threatened the lockout of a further 24,000, unless there was a quick settlement.

MINISTER SAVED BANK DEPOSITS

Withdrew Funds From Ottawa Branch of Home Bank Before Crash

Ottawa, Feb. 28.—Hon. E. J. McMurray is not the only Minister with a Home Bank connection that embarrasses the Government to the extent of threatening their tenure of office, but there is another member of the Government in an even worse plight personally, whose retention of his portfolio will also be challenged by the Conservative party in Parliament. In the case of the Solicitor-General it is a member of a firm in debt to the Home Bank that he has imperilled his own portfolio and the stability of the Government; in the case of the other Minister under fire, it is his successful effort to save his deposit in the now defunct bank that will be reviewed in Parliament.

The Withdrawal

The Minister in question carried a large deposit in the Ottawa branch of the Home Bank. The Home Bank closed its doors on Friday, August 17th, 1923, but for several days previous the Government was cognizant of the precarious condition of this institution, and it is known that the strongest efforts were made to have the Government come to its assistance. The Government decided otherwise and this decision was carefully guarded from the public. On Wednesday, less than forty-eight hours before the bank closed its doors, it is alleged that this Minister visited the Ottawa branch and asked he be given cash for a cheque of $4,000, practically his total deposit. He was requested, it appears, to accept a marked cheque and refused. The teller handed him four hundred ten-dollar bills in packages. He then left the bank and went into a bank a few yards away and deposited the whole amount.

"VENDOR" BEATS CRAFTY "SPOTTER"

Operator Gets Alcohol but Marked Money and Bottle Disappear

Toronto, Feb. 28.—Equipped with marked money and a marked pop bottle, William Clark, a liquor spotter, walked into the home of Mrs Fanny Shulman, at 50 Maria street on February 8th, spent a few pleasant moments there, and walked out again with two drinks of alcohol in a bottle, and two which required no bottle to contain them. The price for the four drinks was $1. Clark told Magistrate Cohen when Mrs. Shulman carrying a child in her arms was charged with keeping liquor for sale

Clark told the court that he had been sent on his mission by Plainclothesmen Mackie and Beddington who had kept observation on his movements from a point near the Schulman house. On his return the officers searched him. They found a pop bottle containing a generous measure of alcohol, but it was not the bottle which had been furnished the spotter.

MORNING FIRE SCARE

Volumes of smoke which poured from the Sinclair store at 222 Front street, this morning, caused an alarm to be sent into the fire stations, to which trucks and ladder sleighs responded. All that was required to subdue the trouble was a hand fire extinguisher in the hands of firemen. Damages were slight.

SPEECH FROM THE THRONE PLACES EMPHASIS ON LACK OF ECONOMY; PROGRESSIVES ARE 'WARMING UP'

Parliament Opens To-day With Much Pomp and Ceremony.—Expected That Coming Session Will Develop Into Most Momentous of the King Regime—New Conservative Members

MAJOR POINTS

Legislation Forecasted on Redistribution Bill; Superannuation Bill; amendments to Militia Act and Tariff Questions—Home Bank Probe Promised Strong Developments

Ottawa, Feb. 28.—Parliament was opened today with much pomp and ceremony. The city was decked in gala attire and many were on hand to see the start of what may prove the most momentous session in the King regime.

Two new Conservative members made it necessary that the Progressive's row be altered, in order that the opposition may be placed in order.

The speech from the Throne, delivered by the Governor-General, touched on the Imperial Conference and Imperial Economic conference attended by Canadian representatives in October and November of last year.

Coming legislation was forecasted on the redistribution bill; a superannuation bill for the civil service; amendements to the Militia Act in regard to the calling out of troops, and tariff questions.

While it is not generally expected that the Government will be defeated on a major issue during the session, and forced to resign, the Home Bank probe and other pertinent problems on the need of economy promises to make the session one of the warmest in many years.

Today the Progressives met to discuss their policy. Their attitude towards the Government at last session is not one of formal opposition. At the same time there is a wing of the Progressives that favors a more militant attitude and herein lies a field for prediction. Moreover, while Progressives generally take the less militant view indicated, they are looking forward to tariff reductions and expect that tariff reductions will be forthcoming.

POLICE FACING O.T.A. CHARGES IN KITCHENER

State Members of Force Have Been Peddling "Bootleg" at Will

DIRECT EVIDENCE

Deputy Chief, Sergeant, Plainclothesman and Constable Involved

Kitchener, Feb. 28.—After having heard five witnesses and arguments on Procedure by counsel the local police commission yesterday afternoon adjourned until March 17 the investigation of charges against the city police force of laxity of enforcement of the Ontario Temperance Act. The hearing opened at three o'clock before a crowded court house of over 200 persons half of whom were women.

Six charges were filed in a written communication to the commission by counsel for Rev. W. E. Pescott and others, V. H. Hattin. Evidence on all of these but two was put in. The evidence given was on alleged disinterestedness of four members of the force as regards the O. T. A.

Direct Evidence Wanted

Owing to two witnesses having failed to appear counsel was not able to produce evidence on the charge, number four, that some members of the force have been drinking at and in places which sell liquor illegally. Charge number six was not proceeded with by the commission because counsel had no evidence to offer other than letters received from citizens and other persons and newspaper clippings from the local and outside press in the way of letters in which the opinion was expressed that the Ontario Temperance Act is not actively enforced in Kitchener and in consequence thereof Kitchener's good name is being badly depreciated. Answering the pleading of counsel V. H. Hattin and concurring in the objections of George Bray, counsel for the city police, to the admission as evidence of letters and clippings from the newspapers Judge Hearn, chairman of the commission remarked:

This is a Christian community and I think that the people who make the charges against the local police force should have the courage and backbone to come out and tell us what they know. The police are paid to do their duty. If any man fails to do his duty we must know, let the axe fall where it may. However to admit letters and newspapers would be improper and unfair.

His colleagues, Magistrate Weir and Mayor L. O. Briethaupt concurred in his view. In order to enable the counsel to gather more evidence the commission then adjourned the hearing until March 17 which is the first open day for the judge.

The evidence given by five witnesses on the other charges involve four members of the force Deputy Chief Grasser, Sergeant Kraft, Plainclothesman P. Farrel and Constable Poll. The name of Sergeant Blevins and another unidentified constable were also mentioned, the first by counsel and the latter by a witness. Counsel stated that the name of Sergeant Blevins had been given in confidence to him and the man was un-willing to come forward as a witness. The chairman of the commission concurred in the view that this man should not be compelled under the circumstances to be summoned as a witness.

Did Not Harmonize

The various charges refer to alleged failures on the part of the constables to act when requested to do so and to remarks they are aleged to have made with regard to the enforcement of the O.T.A. With the exception of one the respective alleged incidents took place in December 1922, last summer and late last fall. An interesting development during the evidence by two of the witnesses was their contradiction in the identification of one of the constables. One alleged Constable Kraft had made certain remarks to him. The second witness who was present at the time when asked to identify the officer whom he said he did not know picked one out of the row of officers who were in civilian clothes. He was Constable Poll When the first witness, whose eye-sight is bad, was recalled. He was asked to pick out the officer. He pointed to another man who happened to be Deputy Chief Grasser.

None of the constables were put on the stand but they will be called later when they will give their version of the alleged incidents.

DUCHESS OF GENOA IS DEAD AT ROME

Rome, Feb. 27.—The Duchess of Genoa died yesterday of bronchial pneumonia after an illness of some days.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre.

Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

PROGRESSIVES HOLD CAUCUS

Real Business is Being Discussed at To-day's Session in Ottawa.

Ottawa, Feb. 28.—Progressives met this morning for their first caucus of the session in full strength. Liberals and Conservatives will not, in all probability, hold a caucus till next week.

Conservatives will be two stronger this session than last. The by-election victories in Halifax and Kent, N. B. have added two to their number and necessitated some small change in the seating arrangements on the Opposition side of the House. To make room for the two additions to Conservative ranks, a row of Progressives has been moved down a couple of seats.

Canada To Have Official In N.Y.

Customs Officer Provided in Federal Order-in-Council

Vancouver, Feb. 28.—In a telegram received here yesterday, Ottawa, by the board of trade, Hon. J.H. King, Minister of public works confirms decision of the federal government to appoint a Canadian customs officer in New York. The message stated an Order-in-Council had been passed on Monday containing the appointment

The creation of a customs officer in the United States seaport permits the shipment of Canadian merchandise through that port in bond to and from Canadian cities on the coast and the eastern provinces. Businessmen here are unanimous in the opinion that it will mean a largely increased trade between British Columbia and the east, particularly Ontario.

New York, Feb. 28.—Sir Esme Howard, new British ambassador to the United States as the successor of Sir Auckland Geddes, arrived on the steamer Olympic today prepared to take up his diplomatic duties at Washington. Sir Esme, genial and smiling, declared he had little to say in addition to a brief formal statement he handed out to newspaper men who greeted him aboard the liner. Veteran ship newspaper reporters voted him the "most democratic" and "easiest to talk to" foreign diplomat they had ever come across.

"Sir Auckland Geddes, my predessor, left the slate so clean that I don't know that there will be much of anything for me to do when I get to Washington," Sir Esme declared.

LUDENDORFF ON WITNESS STAND

Tells Court He Was Not Guilty of Treason—Friendly Air in Court

Munich, Bavaria, Feb. 28.—Former Field Marshall Ludendorff, Adolph Hitler, leader of the Bavarian Fascisti and seven other defendants were placed on trial yesterday for their connection with the "putsch" of last November. All of the defendants except one are charged with high treason.

The friendly atmosphere in which the trial began was noticeable, Hitler and Ludendorff chatted animatedly together, while the other accused men seemed not to take the trial seriously.

The afternoon session was taken up by Hitler's statement to the court, in which he related his share in the "pusch." He declared he was not guilty of treason. During his statement Hitler denounced the conduct of Dr. Von Kahr, the Bavarian dictator at the time, and of General von Lossow, commander of the Bavarian reichswehr.

Wild Bull And Wild Wolf Should Fight For The Highest Title In The World's Animal League

New York, Feb. 28.—The legend which grew around Luis Firpo, when he came out of the Argentine is already beginning to envelop Quintin Ramero-Rojas, Chilean heavyweight whom Tex Rickard has called from obscurity as a possible opponent for Jack Dempsey. Firpo became the wild bull of the Pampas; Rojas was christened 'the Wolf of the Andes' in Paris where he did most of his battling.

Rojas is awkward as Luis; Firpo has a flail-like blow in his right hand and Quintin uses a right hand hammer-drive on the back of his opponent's neck. His style is distinctive for its lack of form. He is said to be quite as hairy as Firpo, speaks no English and maintains a brotherly affection for his manager, a life-long Chilean friend.

Although Quintin's clumsiness failed to impress critics in France, he never lost a fight there. He is as big and courageous as Firpo and since returning to South America has become so prominent that the Buenos Aires boxing commission has threatened to vacate Firpo's South American title unless the Wild Bull consents to meet the Wolf.

Let there be harmony in things essential—liberty in things not essential—charity in all.

In an address delivered in Montreal before the St. James Literature Society Sir Henry W. Thornton, president of the Canadian National Railways, discussed the relationship between the State and the Railways.

In approaching his subject Sir Henry declared that growth of transportation was first by water, then by road, again by water and lastly by railway. He pointed out that as transportation rose in importance to one of the most vital factors in the economic life of nations there increased a demand for a closer scrutiny and a more exacting regulation of railways by the Government.

In some cases the demand being so strong that railways were state controlled from their inception. Any lapses of sufficient duration and sufficient importance are likely to provoke a discontent which finds expression in a demand for government ownership.

The speaker then went on to deal with the arguments put forward by those who favor Government ownership and those who favor private control. Those who favor Government ownership, he stated, generally advance the following reasons.

First—that the railways play an important part in the life and welfare of the community and they cannot be safety interested to private ownership lest discrimination, injustice and various irregularities develop.

Second—that under state ownership, rates and fares can be fixed up on that scale which will best promote development and progress.

Third—That broadly speaking a higher degree of justice will be accorded to communities and the public in general than under private ownership.

Those who favor private ownership and operation of railways generally contend.

First—That state owner and operated railways are inefficient, unprogressive, and expensive, largely because of the impossibility of divorcing entirely the railway administration from the field of politics and the feeling that officers and employees working for the state have less reason for initiative and industry than those who are employed by private corporations.

Second—That state ownership is a form fraternalism treading closely upon the heels of Socialism.

"As a matter of fact", continued Sir Henry, "beyond the general and broad statement that transportation has such a vital effect upon the community that it should properly be in the hands of the State, and the argument that the interjection of politics in any railway system is bound to produce disaster, there is not much to be added either for or against Government ownership and the problem becomes entirely a matter of expediency in individual states.

What may be necessary or desirable in one country may be quite the reverse in another, and some formula must be sought which will give expression to this principle."

Sir Henry went on to define the three Cardinal principles of the proper and successful operation of railways under private ownership and control.

These principles he enumerated as the maintenance of its financial obligations, the furnishing of transportation at reasonable rates to the public and the payment of wages to its employees that will enable them to live in decency and comfort under sanitary conditions and to bring up their children as self respecting members of society.

Here's luck to the Leap Year Babies!

Torturing Neuralgia

THE CRY OF STARVED NERVES FOR RICH, RED BLOOD

Most people associate neuralgia with a pain in the head or face, but neuralgia may affect any nerve in the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the disease and the nature of the pain are the same, the cause is the same and the remedy, to be effective must be the same.

The pain of neuralgia is the cry of starved nerves for nourishment. Normally the blood feeds the nerves, but if it is thin and weak, it cannot do so. Hence neuralgia and other nerve disorders. Build up and enrich your thin blood with Dr. Williams' Pink Pills, and you are attacking neuralgia at its root. These pills supply to the blood just the elements that the nerves need, and they have been proved to be the best possible remedy for the treatment of neuralgia, sciatica, neuritis, and in fact, for all diseases that owe their origin to weak nerves.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ELDERLY BANKER SEEKS TO ANNUL MARRIAGE

New York, Feb. 28—Trial of the suit brought by Beverly D. Harris elderly prominent banker, to annul his marriage to Eleanor Elaine Lee Harris, to whom his counsellors referred as "a woman of the underworld who palmed herself off as a member of one of the most aristocratic families in the Southland," was begun yesterday in supreme court. After the selection of a jury Mr. Harris' attorney launched into a detailed account of the manner in which Harris claims he was intrigued into marriage with "the beautiful young woman who might be taken for his daughter instead of his wife." The charges were categorically denied by counsel for the wife.

WINDSOR MAYOR PREDICTS EARLY END OF EPIDEMIC

Toronto, Feb 28.—"We want to impress upon the public that the only safeguard against smallpox is vaccination," said Dr. Charles J. Hastings, Toronto, medical officer of health yesterday, in announcing that the Department was arranging for the opening of public vaccination stations where the aplicants may undergo the operation.

Mayor Wilson of Windsor, who is in the city expressed the opinion that with the drastic measures taken in connection with the small pox epidemic the outbreak would be stamped out by the end of this week.

Deaths and Funerals

ELIZABETH J. GALLAGHER

On Wednesday afternoon the funeral of the late Miss Elizabeth Jane Gallagher took place from her late residence, 35 Bridge street west. Rev. A.S. Kerr, pastor of St. Andrew's Presbyterian Church, officiated at house and at the grave, in family plot in Belleville cemetery. At the service hymns favorites of deceased were sung, namely "Jerusalem the Golden" and "Peace Perfect Peace," singing led by Mrs. Knapp with Miss E. Fenn presided at piano. A solo, "Face to Face With Christ My Saviour" was sung by Mrs. Knapp. The floral tributes of sympathy were many and beautiful in effect. Many relatives and friends were present to pay the last tribute of respect to the departed. Bearers were Messrs. John Grigor, brother-in-law, and five nephews—H. W. Rathman, W.S. Rathman, F.W. Rathman, H.H. Empson, and John Anderson.

WARDE E. JOHNSTON

Word reached this city this morning that Warde E. Johnston, husband of Genevieve Brooker, formerly of this city, had passed away at New York city early this morning.

The late Warde Johnston underwent a serious operation in a New York hospital about one week ago, and though the operation was successful, he died from shock.

Mrs. Johnston, who is a Belleville girl and well known here sent the telegram to her cousin, Mr. George T. Woodley.

SARAH SANDERS

At her late residence, 10 Catharine street, Mrs. Sarah Sanders, widow of the late G.S. Sanders, passed peacefully away at 11 p.m. Tuesday evening after being a patient sufferer for many months.

Deceased was a daughter of the late Thomas and Julia Thompson and was born in Queen's County, Ireland, in 1856, coming to Canada when quite young.

In the year 1913 she was married to Mr. G.S. Sanders of Battleford, Sask., and resided there for some time Since coming back to Belleville she has made her home with her brother George Thompson.

She was a devoted member of the Reformed Episcopal Church and by her untiring acts of kindness made many friends who will greatly miss her.

She leaves to mourn her loss two brothers, William of the Thompson Furniture Co. and George, also Furniture Dealer, one sister Hannah of Canifton Road also Mrs. Howard May George and Lily Low, neices and nephew.

DAVID FISHER

Mr. David Fisher, a well known resident of this city passed away yesterday afternoon at his late home, 56 Alexander street, after being ill for some time. Deceased was born in England 68 years ago and for the past eight years had resided in this city, where he had many friends. Mr. Fisher was a member of Christ Church. A widow, three sons and two daughters survive. The sons are David E. and Charles J. of this city and Herbert J. of Detroit. The daughters are Mrs. Campbell of Toronto and Miss Katie at home.

Vancouver, B. C., Feb. 27.—Frank Patrick president of the Pacific Coast Hockey Association, announced last night that the final play-off games for the coast championship would be held in Vancouver on Monday and Friday nights of next week; March 3 and 7.

Move To End Cotton Strike

Manchester, Eng. Feb. 28.—A lockout of 150,000 cotton operatives is threatened almost immediately, eventually affecting if it materializes 500,000 workers. The decision to take the step was reached yesterday of all Master Cotton Spinners Federation, to enforce the calling off of a strike now in progress in a comparatively small mill at Royton.

A few weeks ago an extra machine for breaking up raw cotton was introduced into the mill. Two women operators claimed this imposed increased work upon them and demanded increased wages. Failure to arrange a settlement of their claim led to the strike.

The employers yesterday decided to give the operators one week more in which to resume work, failing which they say will close all the mills governed by the federation, and keep them idle until the workers agree to return.

EXTENSIVE PROGRAM OF TELEPHONE EXPANSION

Toronto, Feb. 28.—An extensive program of telephone expansion during the coming five years was announced by L.B. McFarlane, president of the Bell Telephone Company of Canada in an address delivered at the ninth annual banquet of Bell Telephone employes here. Expenditures on the system of 99,000,000 per year of new capital with an ultimate gain of 250,000 new subscribers was predicted by the president.

COMMITTEE TO PROBE GRIEVANCES OF SIKHS

Delhi, India, Feb. 28.—In the Legislative Assembly here the Swarajist motion in favor of the appointment of a committee to inquire into Sikh grievances, was carried without a division after a lengthy discussion in which Pundit Malavija bitterly denounced the treatment of the Sikhs and "the willing of nonviolent Akalis at Jaito."

Several members of the Assembly declared that a deposition made by the Maharaja of Nabha was a blow against the Sikh organization.

DIED

CAMPBELL—At Belleville General Hospital, on Wednesday, February 27, 1924, John Campbell, aged twenty-nine years.

The remains will be shipped from the home of deceased's sister, Mrs. Andrew Gray, College street, on Friday morning, to Cobourg where interment will be made.

WOODCOCK—Suddenly at Mallorytown on Wednesday, February 27, 1924, Neil A. Woodcock, in his 38th year.

The funeral will take place from his late residence 287 Ann street, tomorrow, Friday, afternoon at 4 o'clock. Service at the house at 3.30 p.m. Interment Belleville cemetery.

FISHER—In Belleville on Wednesday February 27th, 1924, David Fisher, aged 68 years.

The funeral will take place from his late residence, 56 Alexander street tomorrow, Friday, at 3.30 p.m. Service at the house at 2 o'clock. Interment Belleville cemetery vault.

Have Kidneys Examined By Your Doctor

SAYS BACKACHE OFTEN MEANS YOU HAVE NOT BEEN DRINKING ENOUGH WATER

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

RUB PAIN OUT OF RHEUMATIC JOINTS

For 65 years millions have rubbed soothing penetrating St. Jacobs Oil right on the tender spot, and by the time they say Jack Robinson—out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism and pain liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.

Rewaad of $500 Will Be Paid For Thug's Capture

The town of Oshawa will offer a reward of $500 for information leading to the arrest and conviction of the men who on the evening of Thursday February 14, broke into the residence of Roy Morphy, 543 Masson Street, and also cut and stabbed Henry Baldwin, Frederick Habberfield and Jack Gillespie. In the event of more than one person furnishing the information the question of the division of the reward will be left to the decision of the mayor.

This action was decided upon by the Finance Committee of the Town Council in session last evening and the announcement of the reward was officially made by Chief of Police Friend this morning.

THE CAT!

"Yes," said the bride of a week, "Jack tells me everything he knows, and I tell him everything I know." "Indeed," replied her ex-rival, "The silence when you are together must be oppressive."

THE LONGER THE LESS

Blinks—"It says here an average public speaker speaks from 120 to 150 words a minute." Jinks—"Yes, and he'll speak from 120 to 150 minutes without saying a thing."

EARLE & COOK COMPANY

Will Belleville Have A Leap Year Baby?

If a new little stranger comes to our city on Friday, Feb. 29th, he or she will not have another birthday for four years, so The Intelligencer and the Merchants advertising on this page have planned to give him or her a real birthday to start with. Each merchant will give the present announced on this page and The Intelligencer will print announcement cards and the usual birth notice without charge. If Belleville does not acquire a new citizen on Leap-Year Day, the presents will go to the first baby born in Hastings County on that day. If two or more babies arrive on the coming Friday, the presents will go to the first arrival. The doctors have been asked to co-operate by keeping an accurate record of the time of birth.

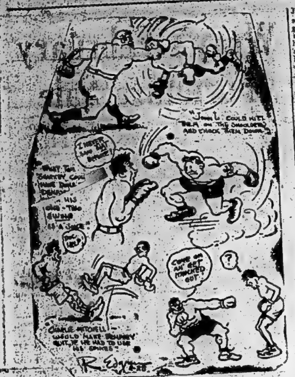
SPORTS THROUGH EDGREN'S EYES



"JOHN L. COULD HIT 'EM ON THE SHOULDER AND KNOCK 'EM DOWN."
I NEVER SAW THAT BEFORE!
WHAT TOM SHARKEY COULD HAVE DONE DEMPSEY WITH HIS ONE-TWO SWING IS A JOKE."
HELP!
COME ON AN' GET KNOCKED OUT
?
"CHARLIE MITCHELL — WOULD MAKE DEMPSEY QUIT IF HE HAD TO USE HIS SPIKES"
R. Edgren

Shortly after I went hunting buffalo on Antelope Island, Salt Lake, with Jack Dempsey after the Dempsey-Firpo fight and wrote a story about it, I received an interesting letter.

"Dear Mr. Edgren," it read, "In your article describing a hunt with Dempsey you refer to a ranchman, Joe Robbins. I have a brother, Joe Robbins, from whom we have not heard since the close of the war, and I am writing to see if this could possibly be he. He is thin, almost six feet tall, gray eyes, black lashes and heavy black eyebrows, a heavy mop of black hair, which is course with just a little curl in it. He has a charming personality and is one of the most unselfish men. He graduated from Penn State College and the Mass. Institute of Tech. My mother is almost eighty-five and her one wish is to see Joe before she dies. Government notified us when he was mustered out of the army. We sent him money to come home—a postal saying he was on his way was the last we heard from him, and the only response. Do you think this ranchman is he, and how can we reach him? With sincere appreciation for anything you can do for us, I am yours most sincerely,

Rachel Robbins Stieren
(Mrs. Edward Stieren)
Bellefield Dwellings Pittsburgh, Pa.

I looked up Joe Robbins of Antelope Island and found he isn't the man. Sent a snapshot of him to Mrs. Stieren, which proved the fact. But here is a chance for someone who may know this lost soldier boy, know where he is or know what has become of him, to do a deed of kindness for his old mother that never will be forgotten.

A gent who hides his identity under the signature "Old Timer" writes me a letter about Dempsey. He seems to think fairly well of the present heavyweight champion, but not to be overly enthusiastic.

The letter:

Dear Mr. Edgren:—

For a sport writer of your experience you seem to have a short memory. You write about Jack Dempsey as if he compared with the great champions of maybe twenty-five yrs. ago, or thirty yrs. Bunk! Dempsey is a champion because he has no real fighters to dispute the crown with him. I'll admit that Dempsey has shown some recklessness in the ring and a mean punch. But how does he compare with the great John L? You never heard of John L. playing golf and going swimming at Miami Beach. He was a fighter. When he wasn't busy fighting he'd break training and there was probably nobody ever wrecked more bar rooms or mopped up more real tough fighters for the fun of fighting and not for a world's record purse like they've got to show Dempsey before he will pull a glove on. John would have tackled this Dempsey as quick as anybody else and I bet in a cellar or a bar room he could of cleaned Dempsey up quick. John could hit them on the shoulder and knock them down.

"Then there was Jim Corbett who was a bank clerk and didn't have any punch but he was faster than Maud S. and could of run rings around Dempsey and made him fall on his face. Then there was Tom Sharkey that never was a champion but what he could of done to Dempsey is a joke. Tom couldn't hit straight, but he had a one-two swing that was a beaut. He swung his left and if he missed with that he swung his right, and if he missed with that he swung the left again and then he swung the right, and so on and after a while he landed and they rung the bell. Joe Coburn would have made Dempsey look like he never had a glove on, and Jem Mace could have taught him how to put his hands up, and little Charlie Mitchell I'd like to see him in the ring with Dempsey and he'd make Dempsey quit if he had to use his spikes on him because there was nobody could spike anybody like Charlie Mitchell could. In Chantilly that time he had Sullivan looking like he'd been running through a barb wire fence. Peter Jackson could have peppered Dempsey with that left hand and Peter could fight, because one time on a horse car when the gang jumped him Peter licked the whole gang and then the car conductor and the driver for good measure.

"Where would Dempsey be if he saw Jeffries in the ring with that crouch and his left arm stuck out like a walking beam waiting for Dempsey to run against it and get knocked down? I'll admit that Dempsey could fight these modern cheese fighters but who did Willard ever lick and even Jack Johnson, he never beat anybody only Tommy Burns and he was a middle-weight and Jeffries, when Jim had quit for six years and had got so fat he had to take off a hundred pounds and then they made a sure shot of it by slipping the salt in his tea. Jeffries was about the last of the real old timers and some of them we've had since wo [illegible] made a sparring partner fo [illegible] he was right. And I forgo [illegible] Coy. The Kid would of giv [illegible] what he give Henry Plack [illegible] Carolina grocery man that [illegible] New York and put over th [illegible] he was a Dutchman and c [illegible] English and wanted to fig [illegible] and they started him on M [illegible] that was his finish in tw [illegible] Can you imagine what McC [illegible] of done to Carpentier, the [illegible] champion Dempsey licked [illegible] City? McCoy would hav [illegible] French to Carp and asked [illegible] why he didn't tie his shoe laces. [illegible] don't ever hear of Dempsey spring [illegible] that stuff.

"Then I forgot Bob Fitzsimmons. He was an old time champion all right, the greatest of them all, except John L., maybe. What Bob would have done to Dempsey with his shift makes me laugh only of course if he hit Dempsey on his head he'd probably break his whole arm instead of his hand.

"I'll admit that if Dempsey hit any of these fellows he'd probably knock them for a ghoul because I've seen him hit a lot of guys and that's the way he knocks them, but what would they be doing while he was doing it—that's the question? They wouldn't stand flat-footed and hold out their chin for him to hit them like Firpo did. What I'd like to know is what's going to happen to Dempsey if he meets some fighter who can punch like Firpo and is as clever as Tommy Gibbons and can skip around like Jim Corbett and is as hard to hit as Jim Jeffries and is as game as Bob Fitzsimmons and can sock like old Bob too? Dempsey might lick him of course because I'll admit he can hit if they stand around and get in the way of his punches, but I'll bet he'd know he was in a battle. If Tex Rickard could put on John L. or maybe Jeffries [illegible] in their prime against Dempsey I wouldn't mind paying fifty to go in and see Dempsey slap over a set-up, and they're all set-ups for him, and turn around and go out again when the referee is making up his mind whether to go on counting or call the coroner.

"Answer that if you can."

"Old Timer"

Well Old Timer I've read your letter over six times, and I don't know yet what you want answered. You've surely got everything in the picture right where it belongs. In John L's day it was customary for fighters to "break training" after every fight. Sometimes they even ate the glasses. Dempsey is a mollycoddle, I suppose. He never breaks training.

John could hit them on the shoulder and knock them down. That's right. But in these days boxers don't hit them on the shoulder. It isn't considered scientific to waste punches.

You're right about Jim Corbett. They couldn't even hit him on the heel until he got winded. And Tom Sharkey was the only one-two swinger my recollection goes back to. You have the right dope on the kind of a bird they'll have to find to give Dempsey a fight—did you mean it that way? You've described the gent to perfection, because Dempsey can punch harder than Firpo, having two hands instead of one, and better forearms to put behind the punch and a better trick of timing. He is as clever as Tommy Gibbons, as fast as Corbett, nearly as hard to hurt as Jeffries and can sock like old Bob Fitzsimmons. Whether he's as game as old Bob we don't know yet. He's never been up against it like Bob, turning up his broken hands to hit with the bones that weren't yet splintered. Perhaps Dempsey will save enough to retire on before he reaches that stage.

ON THE ALLEYS

O. S. D. vs High School, was the first game of a double header played at the Y Alleys in the Ladies League last night, and resulted in a win for the School Girls. It was a keenly contested affair all the way with the West Hill Quintette, leading at the end of the first string only to have the High School Five step out in front of them in the second and lead the way for the remaindre of the game.

Both team leaders, Miss Gillanders of the O.S.D. and Miss McArthur of the High School set a worthy example for their team-mates when they rolled 463 and 460 respectively.

O. S. D.				
Miss Gillanders	129	147	187	463
Miss Blakley	117	92	80	289
Miss Signott	97	101	138	336
Miss Aitchison	177	141	131	449
Miss Churchill	48	113	104	265
				1802

HIGH SCHOOL				
Miss McArthur	156	142	163	460
Miss Whalen	120	118	157	395

Miss Potter	86	138	143	367
Miss Sidenius	89	139	129	357
				1883

The Amateurs played in a manner quite the opposite to what their name might indicate in their league contest with the Granites last night. The latter rolled a steady game which would ordinarily be good enough to win, but nothing of the kind last night. Getting away to a good start in the first string, the Amateurs obtained a lead of over 150 points and although they lost somewhat in the second, they more than made amends for it in the concluding game.

SOCIAL and PERSONAL

Mr. J. Grigor and Mrs. Grigor, of Toronto, were in the city to attend the funeral of the late Miss Elizabeth J. Gallagher, a sister of Mrs. Grigor.

Mr. H. W. Rathman left this afternoon for Quebec City after attending the funeral of his aunt, the late Miss Elizabeth Jane Gallagher.

Mayor Mikel, Aldermen La Roche and McCreary and City Engineer Campbell are in Toronto attending the annual convention of the Good Roads Association.

Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp makes the hair brittle and ruins it.

The best thing for steady use is Mulsified cocoanut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy, and easy to manage.

You can get Mulsified cocoanut oil shampoo at any drug store. It is inexpensive and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

CABBAGE AU GRATIN

Cook cabbage in boiling salted water till tender drain and chop, season with salt and pepper, add 1 green pepper (previously parboiled) or a pimento finely chopped. Turn into a buttered bake dish. Cover with thin white sauce to which has been added 1-3 cup grated cheese. Mix well and cover with buttered crumbs. Bake till crumbs are nice and brown.

SCALLOPED TOMATOES

Season canned tomatoes with 1 onion and a green pepper finely chopped salt pepper, 1 tbspn. butter and 1 tbspn sugar. Arrange in layers with buttered bread cubes. Have top layer tomatoes and cover with buttered crumbs mixed with 1-3 cup grated cheese. Bake 1-2 hour.

DEVILLED EGG SALAD

Cut hard boiled eggs in half lengthwise. Remove yolk and devil by adding mustard, salt, pepper, a few grains of cayenne and salad dressing.

Refill whites and arrange on lettuce. Garnish with pimento.

Scarlet Fever is spread through using raw milk. Pasteurized milk is safe milk.

LOVE, THE TYRANT
OR,
WHERE HER HEART LED

BY
CHARLES GARVICE

He was turning awa with a sigh, when he heard the stra s of a piano, and then a man's voic singing. He leant against the terrace in the shadow, and listened.

“Fine voice; sings lik fellow at the opera. Wonder who he s?”

There was a pause, the he heard the two voices.

“That's Miss Vancourt's” he said to himself. “I'm sure of it, hough I don't know why. Like it b tter than the other.”

Presently the wistful ss grew into a melancholy. He felt ke an outcast, out there in the night li ening to other people's voices singing in his house.

“I think we'd better g man,” he said to Bob, w himself up at his master's listening and watching fo movement. “Don't you any kind of a row, Bob, ness; if it wasn't so beas would be amusing!”

He waited until the duet then he went off to bed.

He fell asleep at once, B ying beside the bed; but suddenly, in the middle of the night, Bob sprang up and whined, for his master had started up and with outstretched hand, and eyes that looked upon avision, cried:

“No, no, old man! I'll keep my promise! The little sister's all right. I'll keep my promise; I won't take it away from her, old fellow! Ah, God! he's dead!”

The whine of the dog waked him, and he looked round. The sweat was on his brow, and he was shaking as he had shaken that night his chum had fallen at his

“All ght, Bob!” he said, his voice shaki too. “Only a dream. Lie down t's all right!”

CHAPTER VII

J ck woke in the morning, fresh as p t, notwithstanding his dream. But i ad left an impression behind as some d ams have a knack of doing. If he h d at any time wavered in his resolution to sacrifice himself for his dead chum's sister the vision of the night had confirmed his determination.

“No need to haunt me again old man!” he said. “I'll stand by my word!”

Early in the morning he visited an outlying part of the farm and found things in anything but a satisfactory state; and having set George and the men to work he went to the lodge to breakfast.

Mrs. Martin was looking out for him, and welcomed him as the timid woman welcomes the strong man upon whom she is beginning to rely, and Nettie hearing his steps, called out a piping:

“Is that 'oo, Mr. Jack? Are 'oo coming to say good morning?”

“Not till I've had something to eat,” Jack called back. “It wouldn't be safe. I once ate up a little girl—just about your size—because I happened to come across her when I was hungry—and not half as hungry as I am now.”

“Martin's been worrying,” said M Martin. “He wants to see you.”

Jack nodded.

“There's nothing to worry about; I put his mind at rest presently.”

He ate his breakfast and went up the now thoroughly sober and remor ful farmer.

“I've come to report,” he said, sea ing himself on the bed. “Better l down. Leg painful, of course? Strang how keenly a leg resent being broke you may bend it as much as you li but you mustn't break it. Oh, yes, I' been round the farm. What do I thi of it?” Well, ahem!”

“There's that four acre wants hoei commenced Martin, fretfully and apo getically. “It ought to have been d before; but I've been that short-ha ed—”

“I've set George and a couple scarecrows—they call themselves ha I daresay—upon it.”

“And there's that field on the side of the hill—”

“Yes, I know. Best bit of land you've got, I should say; but it's surrounded by trees. You can't expect to get a crop—”

“Yes, yes, you're right!” cut in Martin. “I know that, of course! But what can I do? Sir Richard wouldn't have a tree cut down to save my life, leave alone a crop.”

“But Sir Richard has gone where I hope his lov of timber will be gratified,” said ack. “Miss Vancourt is mistress ow, and she may not be so fond of m.”

“True, assented Martin; “but I d time to ask her.”

but you'll get to like it after a bit.”
“What is it?” asked Martin, doubt-
ful
“Water!” said Jack, with a grin; and
as he left the room he heard Martin
sig heavily.

After an interview with Nettie, he ad Bob set out for the Towers. The ace had looked poetic and picturesque the moonlight, but in the bright sunlight of the spring morning it looked uperb and imposing. Jack eyed it ravely as he approached the terrace, but he did not even sigh; his dream rose to his mind and crushed out any sense of covetousness. He had relinquished his possessions once and for all, and there was an end of it.

Palmer, the butler, met him at the door, and when Jack, in his cool, self-possessed way, asked for Miss Vancourt eyed him curiosly and rather doubtfully.

“Tell Miss Vancourt the foreman of the farm would be obliged if she could see him,” said Jack.

Gives Wife Glycerine Mixture

A merchant whose wife had catarrh of the stomach finally gave her simple buckthorn bark, glycerine, etc. as mixed with Adlerika. ONE bottle did wonders because Adlerika acts on BOTH upper and lower bowel and brings out all poisons. Helps any case gas on the stomach in TEN minutes. Excellent to guard against appendicitis and for obstinate constipation. J. S. McKeown, druggist.

Judging from the conduct of some of the elders, the age of discretion is childhood.

COULD HARDLY DO ANY WORK

But Since Taking Lydia E. Pinkham's Vegetable Compound This Woman Feels So Well

Keeseville, N.Y.—“I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for the good it has done me. I was so much troubled with female weakness I could hardly do any work. I saw your advertisement in the paper, and read it to my husband. He said, ‘You had better try Lydia E. Pinkham's Vegetable Compound’, so I bought six bottles, and by taking it I am not troubled as I was. I am gaining strength and getting fleshy. My female troubles have vanished and I have never felt so well. The Liver Pills are the best I ever took. If you think my letter will encourage other sufferers you have my permission to use it as an advertisement.”—Mrs. SARAH BLAISE, Box 177, Keeseville, N. Y.

Doing the housework for the average American family is some task, and many women lose their health in so doing. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments, caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

Death Toll

(Continued from page one)

etery near Whitby for interment. A widow and one son Robert, survives. The father of Mr. Boyes passed away two weeks ago. His mother is still living.

Remains to Belleville

The remains of Neil A. Woodcock, engine driver on freight train No. 400, and James A. Ritchie, fireman on express train No. 20 which figured in the fatal wreck just east of Mallorytown early Wednesday morning in a dense fog, were shipped to Belleville yesterday and arrived at 4 o'clock, in the afternoon. They were taken to Tickel and sons undertaking establishment for burial. Today the bodies were transferred to their respective late residences to await interment. Tomorrow afternoon Woodcock will be interred in Belleville cemetery and the funeral will be under the auspices of the Brotherhood of Locomotive Engineers.

Funeral of Duncan

The funeral of fireman James A. Ritchie from his late home 110 Station street will be on Saturday afternoon and with full military honors. Deceased was a member of the Veterans Association having served overseas during the great war.

Remains of William C. Kerrigan, fireman on freight train No. 490, were taken to Brockville and prepared for interment. Today it was shipped to Ottawa his former home for interment. His body was the one selected for inquest purposes. The inquest was held at Brockville yesterday before Coroner Dr. Jackson, County Crown Attorney Brown conducting the investigation.

Engineer Neil A. Woodcock was in his 38th year, being a son of Mr. Rueben Woodcock of Tamworth, where he was born. For the greater portion he had resided in this city and for some years had been a faithful employee of the railway, in the capacity of a brakeman, fireman and engineer.

He was a member of the Methodist church and a member of the Brotherhood of Locomotive Engineers. A widow, a daughter of Mr. and Mrs. Chas Boyle of this city, and three children survive.

NEW ARCHITECTURAL FIRM

Mr. J. A. Thomson lately of the chief architects staff in Public Works Dept. at Ottawa, where he was in charge of the draughting room for ten years, is opening an architect's office in Belleville, with Mr. W. J. Johnson, the well-known contractor and architect as associate.

Mr. J. A. Thomson has had a very large experience in the design and construction of all kinds of public and domestic work, having designed buildings which have been erected in many of our cities and towns from Atlantic to Pacific.

Mr. Johnson has had charge of the design and construction of several school buildings in this district, and is well known locally. Mr. Johnson is a licensed Fire Insurance adjuster as well.

They will operate under the firm name of J. A. Thomson and W. J. Johnson, Associated Architects, and have secured suitable quarters at 224 Front Street.

Which Will Your Child Have?

DISEASE
HEALTH

Give your child every opportunity of becoming a full, healthy, red-blooded citizen. Chiropractic offers you the best health insurance without drugs or "dope" of any kind. We can assure your child full, strong, vigorous, bodily health and mental alertness.

Chiropractic is for the youngest baby as well as the adult.

If your child is constipated, has a sick stomach any throat troubles or any of the many ailments common to children, you should consult a chiropractor.

Chiropractic will make and keep your child well.

The Greatest Screen Attraction of the Age!
The Hunchback of Notre Dame
with LON CHANEY
Presented by Carl Laemmle
A UNIVERSAL PICTURE

A PICTURE FOR ALL TIME!

"None who see this picture will soon forget it, for it is as beautiful and as immense as the great edifice itself. The gripping intensity of its dramatic action, surging with sensational incidents in rapid succession—all amid stupendous scenic splendor—will hold any audience spellbound. In short, Carl Laemmle has done a great epic, for "The Hunchback of Notre Dame" is one of the outstanding screen dramas of all time,—an unforgetable picture."

"LONG LIVE THE KING" PROVES JACKIE'S BEST

Jackie Coogan's first Metro picture "Long Live the King," has arrived at the Griffin Theatre. This unusually beautiful picture, plus Jackie's wonderful acting, lives up to all advance praise made for it all during the six months of its production in Hollywood.

Suffice it to say that in "Long Live the King" Jackie does some of the greatest work of his short career. For the first time a radical departure has been made in the type of role he portrays: In "Long Live the King" Jackie is a royal princeling and he is constantly surrounded by royal splendor.

Beautiful sets abound in this production—sets said to have been built at great cost. These and Jackie and the story and the cast round out a great and thrilling picture which none should miss.

"Long Live the King" was directed by Victor Schertzinger from C. Gardner Sullivan's and Eve Unsell's adaption of Mary Roberts Rinehart's novel of the same name. It was produced for Metro under the personal supervision of Jack Coogan, Sr.

ONCE PENNILESS ACTRESS, NOW POPULAR STAR

Housed in one of New York's biggest hotels with one dollar in cash! That was the situation confronting petite Pauline Garon after she arrived in the big city to realize her lifelong ambition to become an actress. Beauty and natural talent, however, soon won her a place in a Broadway show. Since then success has followed success on the stage and in motion pictures and she will be seen on the screen at the Regent today and Friday and Saturday in "Children of Dust", a First National Picture directed by Frank Borzage.

"Children of Dust" is the story of a romance which buds in childhood among three young people. The blossoming of this love in later years provides the essence of a wonderfully absorbing human-interest story. The culminating influence of a childhood incident furnishes the plot for intense dramatic sequence.

Others in the cast are Johnny Walker, Lloyd Hughes, Bert Wood-Newton Hall and Josephine Adair.

"HUNCHBACK OF NOTRE DAME" IS LAEMMLE'S REPLY TO THE BETTER PICTURE MOVEMENT

"The Hunchback of Notre Dame," the massive and much heralded film production of Victor Hugo's story masterpiece which swept into overnight fame in New York, will be given its local premier at the Griffin Theatre next Monday when it begins a limited engagement.

Never before, it is said, has there been offered a picture production representing so stupendous a cost—$1,500,000—never a film presentation so exact in its details, so artistic in its conception, so wonderful in the acting of its seventy-five principals, two hundred sub-principals, and in the handling of the mob scenes in which more than 3000 persons take part.

Lon Chaney, admittedly the finest interpreter of unusual character roles on either stage or screen, plays the stellar part of "Quasimodo," the deformed bell-ringer of Notre Dame, with Ernest Torrence as "Chopin," the underworld king; and Patsy Ruth Miller as "Esmeralda."

Carl Laemmle, who founded Universal City out in Southern California it is said, has achieved something there which awakens the utmost admiration. He has taken Hugo's rather turgid melodramic novel, and after building a replica of Paris' famous cathedral he has retold Hugo's story in pictures—vital, vivid pictures that hold the attention and excite admiration by their undeniable power and beauty.

The spirit of the story is "Quasimodo," the hunchback, an elemental creature twisted in body and restricted in mind, who haunts the great church. "Quasimodo," as Mr. Chaney presents him, is said to be a grotesque monster, and yet under the forbidding aspect the actor succeeds in making the character human and pitiful. His daring poses on the projecting gargoyles of the Cathedral, his bold descent, stone by stone, of the front facade of the great church, his hazardous swinging on the great bells at the risk of his life the gruesome scene of his castigation in the market place and the pathos of his final act as, dying, he rings his own death knell on his beloved bells, are features that make "The Hunchback of Notre Dame the most noted film production to date.

In constructing the Cathedral of army of Carpenters, Masons and other mechanics were employed. The building is an exact replica in every detail as the famous cathedral looked in 1482. It is declared to be an extraordinary feat and architectural triumph. In addition to the cathedral other historical sets include exact reproductions of the Coura of Miracles Place du Parvis, Palace de Justice, interior of the Bastille and the seven Noble Mansions. This may give a faint idea of this, the accredited most important screen production, not only in the history of the Universal Film Company, but of that of any producing concern in the world. Wallace Worsley was the director.

Among the other principals in the big cast are:—Norman Kerry, who plays "Phoebus"; Tully Marshall, as "Louis XI"; Raymond Hatton, as "Gringoire"; Nigel de Brulier, as "Don Claude," and Gladys Brockwell as the crazy "Godule."

With the Hunchback of Notre Dame it is said that "different picture" has arrived, one that marks the dawn of a new era in cinema art, and one that has made Carl Laemmle's slogan of "better and finer productions" an absolute fact.

Domenico's Recreation Alleys

The Millionaires and the Sprinklers was the senior game at the Recreation Alleys last night and although the scores were just fair it was due more to the bad breaks than to poor shooting. The Millionaires were leading the first game by 16 pins and were down the second 56 pins. Things weren't looking bright for the Millionaires until after the third frame and from then on the Millionaires just tightened up their belts and sailed into the Sprinklers rolling 1088 in the last game and winning out by over 300 pins, Denis and Chouinard being the high bowlers. In a junior game the Durant Motors won from the Lucky Strikes by 10 pins both teams going over the 2400 mark. It was anybodies game until the last man had bowled and then the winner wasn't known until the scores were totaled up. Bob Mohor was high man for the night with 632 and Soule next in line. Players and scores:

Dates Are Set For Junior Games

The dates for the remaining Basketball games of the Junior Sunday School have been arranged for on a basis of two games a night in order that the schedule may be completed. In every instance two games will be played on the same evening, the first from six to seven, the second from seven to eight o'clock. The first of these double headers will be played on March 3rd.

March 3rd, 6-7—St. Andrews vs St. Thomas.

March 3rd, 7-8—Qui Vive vs. Voyageurs.

March 5th, 6-7—Baptists vs. St. Andrews.

March 5th, 7-8—Voyageurs vs. St. Thomas.

March 7th, 6-7— Christ Church vs. Qui Vive.

March 7th, 7-8—St. Thomas vs. Baptists.

March 10th, 6-7—St. Andrews vs. Qui Vive.

March 10th, 7-8—Voyageurs vs Christ Church.

Standing to date of Sunday School League.

To date, six games have been played and the standing is as follows:

Team	Played	won	lost
Christ Church	2	2	0
St. Andrews	2	1	1
Voyageurs	2	1	1
Baptists	2	1	1
St. Thomas	2	1	1
Qui Vive	2	0	2

HEBRIDIANS FOR ONTARIO FARMS

London, Feb. 28.—Efforts of the Province of Ontario to secure farm workers from the Hebrides and Great Britain generally are proceeding with good results. Four hundred Hebrideans have applied for special sailings which already have been arranged for April [illegible] and May 18, and about 300 of them probably will be accepted.

THE MOUNT ROBSON ROUTE ACROSS CANADA

The delights of a trip across Canada never fade—in memory, the interest never wanes, and the ecstasy of one day's travel through the Canadian Rockies is an experience of a lifetime. The route of "The Continental Limited," which runs daily between Montreal and Vancouver with direct connections from Toronto, traverses the beautiful lake country of Northern Ontario. From Winnipeg to Saskatoon and Edmonton it passes through some of the most fertile lands of the great prairie provinces. A night's run from Edmonton and you are in Jasper National Park and the glorious Canadian Rockies, embracing some of the finest mountain scenery in the world—then on to the Pacific Coast through an ever-changing panorama of magnificent and stupendous scenery. The Canadian National line through the mountains skirts Canada's highest peak at the easiest gradient and lowest altitude of any trans-continental route, the highest point reached in crossing the "Great Divide" being 3,712 feet. You will consult your own interests if you will make your trip west by the new way. "The National Way"—you have the choice of various routes. You have the option of making the journey in a splendid tourist car at minimum cost, or, if taste dictates, the more luxurious Standard Sleeping Cars or Compartment-Library-Observation Cars are at your disposal.

The equipment on the "Continental Limited" is all-steel and modern in every particular.

Get full information from any Canadian National Ticket Agent.

CABINET MINISTERS UNDER HEAVY FIRE

TWO MEN ARE CONVICTED UNDER NEW HOTEL ACT; EPOCH IN COURT HISTORY

Arrested on Charges of Vagrancy, Ashworth and Cox are Convicted of Signing False Names to Register—Other Charges Withdrawn

FIRST LOCALLY

Each of Accused Assessed Minimum Fine—Act Passed by last Provincial Legislation Not Long in Force Jail Term Alternative

Henry Peerless Ashworth, of Montreal and William Patrick Cox of Toronto and formerly of Belleville, arrested on Coleman street one week ago by Chief Constable Kidd, P C. Arthur Booth and Inspector F. Naphan on vagrancy charges appeared before Magistrate Masson this morning.

The vagrancy charges were withdrawn and the two were charged with violation of the Standard Hotel Registration Act. Both pleaded guilty to a charge of registering at a local hotel under assumed names, Cox using the name "Bert Williams" and Ashworth using the name "P.R. Brown."

Each accused was assessed the minimum fine under the Act, $20 and costs of $6.50 each, or one month in the county jail. Today counsel for the accused men, E.J. Butler, will endeavour to raise the money to pay the fines.

The men were taking subscriptions for the Hockey Year Book, a sporting publication, when arrested.

First Two Convictions

The two convictions under this act marks an epoch in Belleville police court history for they are the first two convictions registered here. The act passed by the last Provincial Legislature, has not been long in force. The two men were charged under section 4 of the Standard Hotel Registration Act, which read as follows:

"A person who applies for admission as a guest in any standard hotel and who registers under or represents himself as bearing some other name than his own, or who in registering or procuring admission to a standard hotel, makes any false statement as to his ordinary place of residence, shall incur a penalty of not less than $20 nor more than $200 and in default of payment may be imprisoned for a period not exceeding three months.

THE WEATHER

Moderate winds, mostly cloudy and somewhat colder tonight and Saturday with local snow flurries.

COMING EVENTS

Sons of Scotland, Camp Rob Roy 43, will hold an At Home, Friday evening, Feb. 29th, in I.O.O.F. Temple. Cards, dancing and refreshments. Tickets 50c. 26-4td

B. H. S. Literary night, Friday, Feb. 29th 8 p.m. Oratorical contest and good musical programme. F28-2td

EVIDENCE LOST WHEN JUG IS THROWN AWAY

Case Against Wolfe Island Resident for Obstructing Officers Dismissed

NO CASE MADE

Jug had not Been Taken Into Possession, No Offence Committed

Kingston, Feb. 29.—Charged with obstructing an officer of the peace in the performance of his duty, Mr. Sam Wilson of Wolfe Island appeared before Magistrate Bradshaw this morning, and after the taking of evidence on each side the charge was dismissed. The act which constituted the alleged obstruction was the destruction of a jug which was thought to contain liquor which the officers had found on his premises when making a search. Inland Revenue Officer Montgomery and License Inspector McCammon and Provincial Officer Clark visited the home of Mr. Wilson recently and under the authority of a search warrant proceeded to search his house. A jug of what was said to be liquor was found. When the officers were searching through other parts of the house Wilson took the jug and threw it down into the cellar, where it was broken. No other evidence was found. In telling his story today the accused stated that the jug had contained alcohol, cider-vinegar and other materials which he was using to make a liniment. He destroyed it, he said, because he thought it might incriminate him for something of which he was not guilty.

Magistrate Bradshaw held that the liquor had not been taken into possession by the officers and therefore in destroying it the accused had not been produced and the accused had not formally been placed under arrest when the jug was found. Therefore, it was held that he did not know that he was supposed to be under arrest, and simply destroyed his own property. The action under the Federal law was therefore dismissed.

BASIS OF WIDE EMPIRE POLICY

Four Fundamentals Laid Down by Liberal Member of Commons

London, Feb. 29.—Sir Edward Grigg Liberal member of Parliament for Oldham and well-known journalist, in a comprehensive address on problems of Imperial organization to the London School of Economics today laid down four fundamental principles for a future Empire policy: first the diversity of the Empire must be recognized and Great Britain must realize that she is not merely a part of Europe but a component part of a world-wide commonwealth.

Secondly he emphasized that the British foreign policy must be on broad and simple lines like that of the United States, avoiding European entanglements, thirdly not a single part of the Empire should enter pacts and guarantees which are not accepted by the Empire as a whole and fourthly he prophesied that the Dominions in the future would insist that their action shall be governed by the will of the national parliaments.

Ferguson Outlines Stand On Curtailment of Highway Cost Until Survey Made

Further Construction of Provincial Roads Suspended Pending Complete Investigation Into Plans to Develop Highways in Rural Districts Of Ontario

Toronto, Feb. 28—According to the definite pronouncement of Hon. G. Howard Ferguson on the highway program of the Conservative Government as made last night at the banquet of the Ontario Good Roads Association at the King Edward Hotel, there will not be the construction of a single mile of roadway under the provincial highway development scheme until the Government has had an opportunity to make a complete financial survey of the affairs of the province and learn exactly where Ontario stands with relation to its highway expenditures. But, at the sameing time, there will be highway work confined for the most part to the townships, in order that the people who live in the country and who contribute so largely towards the cost of highway construction may get some adequate returns for their taxation in this regard. The announcement of Hon. George S. Henry, Minister of Public Works; and the Premier remarked that he had already been told that frankness was one of his weaknesses but in the face of that he felt that he owed it to the people of the province to let them understand the limitations of any highway program for the coming year.

PLAN TO BREAK FROM BRITAIN

Advanced Nationalists Would Sever Last Link of Connections

Cairo, Egypt, Feb. 29.—The advanced nationalists are trying to force the hand of Premier Zagloul Pasha in cutting the last link connecting Egypt with Great Britain. As a demonstration the students who have always been active in promoting Egyptian nationalism and shared prominently in the agitation for Zagloul's return to Egypt, sent a delegation to the premier yesterday to protest the recent statement by the British Prime Minister to the effect that he adhered to Great Britain's declaration of February 1922, which retained a partial British hold on Egypt.

Prime Zagloul told the delegation it was needless to protest against a declation elsewhere which did not commit the Egyptian government. He assured his hearers he was conscious of his responsibility and would never accept anything endangering the rights of Egypt.

LUXOR TOMB TO BE RE-OPENED

Visitors Approved By Cairo Gov't Admitted For Ten Days

Luxor, Feb. 29.—The tomb of Tut-Ankh-Amen will be reopened next Saturday for a period of ten days to permit its inspection by visitors sanctioned by the Egyptian Government. The premier and other members of the cabinet and the diplomatic corps will come from Cairo on a special train Friday night to be present at this ceremony.

For the past few days M. Lecau, director general of the antiquities department has been making an inventory of the contents of the tomb and the laboratory as left by Howard Carter when he ceased work and closed the tomb on February 14. After lowering the lid of the sarcophagus to insure the safety of the gold mummy case, M. Lecau sealed the doors of the two rooms containing treasures still untouched. The inspector of antiquities for the Luxor district has been busy erecting wooden railings around the sarcophagus and the portions of the shrines that still remain in the tomb to protect them from possible injury by the hundreds of visitors who are expected during the ten day period.

Port Perry Lads Tire of Sound Of Curfew Bells, Tie Them Up

Oshawa, Feb. 29.—A modern version of the curfew incident is now agitating the good people of Port Perry, in consequence of which three High School boys Hugh Grant, Reginald Doubt and D. Kauffman will appear before Police Magistrate E. H. Purdy in that town on Saturday to answer a charge of vandalism.

It is alleged that the lads became tired of the sound of the town bells and decided that Port Perry could get along very well without them. Consequently, in the spirit of mischief they climbed to the belfries of the Methodist Church and the Town Hall where they tied up the bells with stout rope so that despite the best efforts of the bell ringer not a sound came forth. The school bell was similarly treated in consequence of which there were more than the usual number of tardy pupils the following morning.

Investigation followed and the lads named were suspected. Summonses were issued and the hearing of the case set for Saturday. D. A. J. Swanson will appear for the Crown and W. H. Harris of Port Perry will conduct the defence.

FREE THEATRE TICKETS

Among the classified advertisements in each issue of the Intelligencer there will be the name of some person who will be invited to call at this office to receive two free tickets for Griffin's Theatre. Watch every night's paper—your name may be there any time. The films shown at Griffin's are well worth seeing and the lucky ones may see them as guests of the Theatre and the Intelligencer.

Film now showing is Jackie Coogan in "Long Live the King."

PRIZE MEDALS GIVEN WINNERS OF "Y" CONTEST

Members Participating in Drive to Boost Memberships Are Rewarded

GOOD ADDRESS

W. B. Deacon Uses "Salesmanship" to Show Better Points in Organization

There is a tradition among "Y" members that one is not completely a member until he has introduced at least one friend into the Association.

Last fall there was a dive instituted in this city to secure members for the local Y.M.C.A. and a goodly number were secured.

To captains of teams who were successful in securing a certain number of new members emblem pins were the reward and these were presented last evening.

Previous to the presentation of some supper was provided and the spread was all that could have been desired.

The emblem pins are of varying degrees of value, ranging from the bronze emblem button awarded for three new members to the jewelled triangle pins awarded for 25, 50 and 100.

Mr. George F. Cole presided over the gathering and performed his duties in a creditable manner.

Prizes Presented

A beautiful shield was presented to the girl's team who participated in the drive. Miss Betty Williams was Captain of the team and those under her were L. Thompson, V. R. Sidenius, R. Fox, G. Lazier, Ida Folwell and Miss M. Merry.

Bronze medals were presented to Robert Miles and Fred Miles for procuring five members each.

Mr. R. Woodley, was presented with a gold pin for procuring 10 members and Mr. A. Armstrong a silver pin for procuring 5 members. These pins were presented by Mr. S. Nurse, who spoke of the good that was being done by the Y.M.C.A.

In Belleville there was a building with a capable staff and at least 1000 members should be secured.

Mr. R. C. Sidenius the indefatigable secretary, gave a brief address outlining the reward of merit in securing members. The Association in Belleville had a membership of 600 and more should be procured. He coveted for the Association a membership of at least 700 by the 1st of May of this year.

Mr. W. B. Deacon gave an address the keynote of which was salesmanship.

The Y. M. C. A. had a good thing to sell namely a membership in an organization that was accomplishing good. It was a good thing to buy a membership first and then go out and sell to others. All objections in regard to the Y. M. C. A. could be successful met. It was a good place for boys as the environments were of the best. The surroundings were such as to help boys to lead a clean life. He urged upon all present to assist in the coming campaign to secure additional members.

A campaign to increase the membership will be instituted at once, two sides being chosen to be known as reds and robins.

SEEKING PROBE OF HOTEL DEAL

Limestone City Up in Arms Over "Secret" Hotel Scheme Proposed

Kingston, Feb. 29.—The city of Kingston is showing considerable annoyance at the reticence of the city council, or more particularly a committee headed by Ald. W. P. Peters which it is understood is discussing a scheme for the bonusing of a new hotel.

A well informed Kingston resident stated this morning that although it it was understood that plans for a new hotel were well advanced not a word of the negotiations was available for citizens. He said it was understood that Kingston was being asked to guarantee some $600,000 in the form of a bond issued to a proposed hotel, but the public was unable to get any information from the negotiators.

Keen objection is being taken by a certain section of the community to any bonus or guarantee for an hotel to be operated under the United Hotels chain until some satisfactory explanation has been received as to the existence of the American Purchasing Agency, which, as was reported recently is understood to do the entire purchasing for hotels in the United chain and to be composed of men who are directors of United Hotels. The question as to the poor showing made by the Mount Royal Hotel last year is also raised.

AND THE CONSEQUENCES

"When in doubt," says the modern youngster, "take a chance."

CONSERVATIVES DECLARE OPEN SEASON ON THOSE WHO HOLD HIGH PLACES

Minister of Labor Saved Deposit Before Crash of Home Bank—Hon. James Murdock Withdrew $4,050 With Full Knowledge of Bank's Condition

OTHERS NAMED

Sinclair and McMurray are Winged by Conservatives —Suggested that Solicitor-General Pay Minister $89 Left in Defunct Bank

Murdock, Minister of Labor admitted today that he was the Minister who "saved his deposit" in the dying hours of the Home Bank. Mr. Murdock claims that he is still a depositor to the extent of $89, but admits that he withdrew $4,050, after it was known to the Government that the Home Bank was doomed. He will give no definite explanation of for what purpose he withdrew the money, beyond suggesting he was going to make a payment on a house, but why he desired to make such a payment in cash or why he wished to pay through another bank than the institution he had patronized since coming to Ottawa, is still a mystery. He, further, does not take the public into his confidence why he refused a marked cheque.

The Conservatives have declared there is no close season for Cabinet Ministers. Already three, Messrs. Sinclair, McMurray and Murdock, have been winged and the Conservatives are confident of bagging even larger game before Parliament is in session many weeks. Mr. McMurray, Mr. Sinclair and Mr. Murdock will remain in the Government through the weakness of the administration and by the grace of the Progressives. It has been suggested that to settle the Cabinet differences on Home Bank affairs, the Solicitor-General should pay the Minister of Labor the $89 he left in the Home Bank. It is expected that the Home Bank and the peculiar position occupied by Messrs. McMurray and Murdock will be thoroughly discussed during the debate on the Address and that the Prime Minister will defend his two colleagues.

ANNIVERSARY OF MISSION IS COMMEMORATED

City Mission Founded by Rev. A. Schuster Forty-Three Years Ago

SERVICES HELD

Addresses and reports show Growth of Organization Since Founding

Forty-three years ago the City Mission in this city was instituted by Rev. A. Schuster and wife, both of whom have passed to their reward. The good work commenced by them has been continued year by year and last evening the 43rd anniversary was fittingly commemorated.

Previous to the evening meeting the pupils of the Sunday School to the number of 70 were entertained to tea by the officers and teachers, and the good things provided were much enjoyed by the children.

Mr. C. S. Clapp who has always taken an active interest in the mission presided at the meeting, which was well attended. After the singing of a hymn Rev. Dr. A. Brown led in prayer. The choir of the Baptist church conducted the singing. Rev. Geo. Marshall, Rector of Emmanuel Reformed church read the scripture lesson.

Rev. N. S. McKechnie, Pastor of the Baptist church gave the address of the evening which was both inspiring and interesting. His talk was much appreciated by all present.

Mr. Clapp, chairman, made a brief address appreciative of the good work done by those who were interested in the Mission.

Reports

Reports presented by the various organizations in connection with the Mission were most encouraging all showing a balance on hand.

Mr. C. Elvins, treasurer, showed that after all disbursements had been made there was a balance on hand of $15.

Miss R. Templeton presented her report of the sewing school which showed that there were 54 pupils and 10 teachers. Every Wednesday afternoon the girl pupils are taught plain and fancy sewing and many are showing efficiency. In this department the receipts were $69.64 and the disbursements $63.28.

The Sunday school report was presented by Miss Maud Reeve. It showed that there were 72 scholars in the school and 10 teachers. The average attendance on Sundays during the year was 43. The primary class is large and there are five intermediate and one adult class. During the year of visitors visited the school.

Presentation

At this stage of the proceedings Mrs. Galloway, residing on South Front street who is 80 years of age and the oldest member of the school was presented with a handsome bouquet of flowers. Little Miss Keegan of the primary class made the presentation.

During the year the Sunday school in collections raised $143.76, and the disbursements were $119.91.

Mrs. Capt. Smith reported on articles of clothing received during the year and the distribution of same to those needing it.

Mr. Harry Firth, librarian, reported that during the year 245 books had been taken out of the library.

Mrs. M. Farley's report on mothers' meetings held showed interest taken in this branch of the Mission work.

(Continued on Page Eight)

MASONS HONOR LOCAL CITIZEN

Col. W. N. Ponton Elected Grand Historian of The Grand Chapter

The Belleville Delegates from Moira and Quinte Friendship Chapters have returned from Toronto and all unite in reporting this Convocation of Grand Chapter of Royal Arch Masons one of the best.

The addresses of the Grand Representatives of Massachusettes, New York, Michigan and Pennsylvania were of a very high order of eloquence and good will.

M. Ex. Companion W.N. Ponton, I.P.G.Z. presented the Reports on Fraternal Correspondence and on the Condition of Capitular Masonry, and was elected Grand Historian of Grand Chapter.

R. Ex. Companion W.J. Potts of Trenton was elected Grand Superintendent of Prince Edward District.

The Belleville U.E.L. Celebration of June and its connection with Masonry of Ancient Days in Canada was brought before the meeting by the Grand Z. and the Immediate Past Grand Z. and by Ex. Companion Mikel.

A pleasing function was a social reception by Mrs. W.N. Ponton at the Queen's Hotel, attended by the Grand Chapter Officers and their distinguished guests from the United States.

Many a man suspects his neighbor as he suspects himself.

Aeroplane Safer Than Train For Transport Of Treasure

Paris, Feb. 29 (United Press).—The aeroplane is the safest transport This is the opinion of many on both sides of the English Channel, and is backed up by the insurance companies, whose rates by air are only half the railway and boat costs.

The most valuable airplane cargo ever carried across the channel, a hundred pounds of platinum, has been delivered safely in Paris from Croydon. Shippers use the air route to transport precious metals and jewels not only because its cheaper, but because it minimizes the liability of robbery and accident that would cause its loss. There is very little danger of falling into the sea because pilots are instructed to reach an altitude that will always enable them to volplane to one coast or the other.

Recently a pilot came into a rough field in France with engine trouble and crashed upon landing. He was forced to leave his wreck to find help When he returned a group of peasants had gathered and one asked him what was the big box; he was carrying as cargo. He did not know, but when it was lifted out a stream of gold fell into the grass. But not a piece was missing.

Let there be harmony in things essential—liberty in things not essential—charity in all.

"HE IS HEAVILY ARMED"

Once again the revolver plays its part, this time at Port Arthur, where a foreigner, apparently crazed, was able to turn a box car into a sort of combined fort and arsenal and defy arrest.

Before he escaped he shot one officer. He is now in the woods armed with a rifle, revolver and plenty of ammunition.

At the risk of becoming monotonous in referring to these cases, when are we going to shut down on guntoting in Canada?

Even a foreigner knows that he has to drive on the right side of the road in this country—but so far it has not been impressed on him that he cannot carry a gun, and a good many of our own people also seem conveniently ignorant of the law.

OUR CANADIAN DOLLAR

The Canadian dollar is discounted about 3½ per cent in New York, in spite of the fact that we have been spending more money than usual in United States.

The usual explanations are given concerning the balance of trade, etc. In fact some of our Canadian explainers are so adept at this business that we are made to believe that it is a favor on the part of United States to take our money.

In the British market our dollar is at a premium, and right at home it is at par.

The sensible thing is to put our money to work where its value is recognized.

$100,000 WORTH OF TROUBLE

Edward Bok offered $100,000 as a prize for the best peace plan for United States.

He has not known what peace looks like since that offer.

Senators have assailed him as a dangerous schemer; there have been requests for investigations in order to find the villains behind the plot.

And now a New York lawyer, Frank Hendrick, is suing him for $1,100,000 because his plan was not selected as the best.

Looking at the performance from our seat in the north, the antics of some of these grown-up men in United States look silly. Edward Bok apparently made the offer in good faith, and it has stirred up a squabble that is miserable, unworthy and positively disgusting.

EDITORIAL NOTES

The Mexican revolution may drag along because both sides are afraid of the same kind of peace that followed the world war.

The father who wants to save his reputation is always busy shaking the furnace or putting out the milk bottles when the boys are doing their algebra.

shirt-sleeve policy in getting immigrants. Yes, and let's have some shirt-sleeve immigrants and some shirt-sleeve officials.

A London, Eng., firm writes stating that "it is hoped to get a comprehensive record of all the important Colonial newspapers." Canada is still a colony in the eyes of many of the British people.

Toronto papers, engineers and professors are figuring out how much snow fell in that city last week. They're all tangled up in tons, cubic feet, acres, etc. The sure way is to measure it with the broom handle.

PRESS OPINIONS

PROPER ADDRESSES

(Flint Journal)

The postoffice department at Washington reports 20,000,000 letters go to the dead letter office every year, and that 200,000,000 letters require "directory service" during a period of twelve months. Most of the mail that pours into the dead letter office miscarries because of deficient address and direction. Many of those letters contain money, more of them carry important information or call for reply.

The actual injury sustained as a result of careless addressing of letters and other mail that prevents or delays delivery to the persons intended is incalculable. We can aid speeding up postal service and in reducing the cost of that service by properly addressing our mail.

GETTING READY

(N.Y. Evening Post)

Moscow has instituted an inquiry to find out how the United States gets along outside the league. If this country has solved the problem and has found it advantageous to stay out, Moscow wants to know how it is done. There are many who believe the United States is at a distinct disadvantage and that we have been able to remain aloof only by virtue of our tremendous power and our fortunate international position.

Russia is not likely to acquire similar power or position, and Moscow, facing the league at every diplomatic turn, would be rash indeed to refuse an invitation should it be forthcoming.

ONE OF HISTORY'S SHINING FIGURES

(New York Evening Post)

A very great man, who will tower as one of the shining figures of history, has gone. The waiting is over at the red brick house on S street. A weary warrior, broken in the battle for a new freedom may rest now under his shield. Woodrow Wilson has fallen in that long crusade for a world in which the battle flags are to be furled and the war drums stilled.

Music & Drama

"HUNCHBACK" TO BE SEEN HERE MONDAY.

Belleville will have its first opportunity on Monday of seeing the massive production which swept into overnight fame in New York and made the critics so far forget themselves as to use up nearly the entire stock of laudatory adjectives in the English language in their reviews. As a general rule success on Broadway does not always spell success here, but local theatregoers who visited the Astor Theatre in New York, the first of the metropolitan runs, expressed the opinion that the hit will be even greater here where Hugo's great work is so widely known. Seems like this is a reflection on Gotham's literary leanings.

From all advance accounts Universal has all the ingredients of a great success—a story that is internationally famous, that is replete with action, albeit somewhat gruesome, the greatest of character stars in Lon Chaney, an excellent supporting cast, studio facilities, and unlimited funds. It may be divulged a trade secret, but it has leaked out that Universal, to guard against the least chance of adverse criticism called in the director of New York's greatest cinema houses and one of the leading newspaper editors and had them do the final touches. The result is said to mark the dawn of a new day in cinema art and one that has made Carl Laemmle's slogan of "Better and finer productions" an absolute fact.

Lon Chaney, admitedly the finest interpreter of unusual character role on either stage or screen, plays the stellar part of "Quasimodo," with Ernest Torrence as "Clopin, the underworld king," and Patsy Ruth Miller as "Esmeralda." Seventy-two other noted performers have featured parts, while two hundred players interpret smaller roles with the mob scenes numbering slightly in excess of 3500 persons.

Some idea of the immensity of the production can be obtained when it is stated that the entire Cathedral of Notre Dame was reconstructed at Universal City, as well as eight blocks of Parisian streets and houses of the time of Louis XI. The total cost was a trifle less than $1,500,000.

BECK OPPOSES CHICAGO SCHEME

Menace to Navigation And Power Interests of Canada

Toronto, Feb. 29.—Sir Adam Beck, chairman of the Ontario Hydro Electric Power Commission issued a statement yesterday again emphasizing his opposition to the Sanitary district of Chicago scheme which he declares constitutes a menace to navigation and power interests in Canada.

The statement says in part: "The sanitary district of Chicago is using every possible effort to influence public opinion in favor of its present appeal to the congress of the United States for congressional sanction of its diversion of Great Lakes water to the Mississippi river. The province of Ontario is absolutely opposed to any continuance of the present diversion because it is illegal, a tremendous loss to navigation and to power as well as to numerous other interests of great importance to the two countries to whom these waters belong.

SEVERE SHOCK IN ALASKA

Anchorage, Alaska, Feb. 29.—An earthquake, declared the most violent ever noticed here, occurred at 2.07 Tuesday morning. A series of three waves, whose movement was described as lateral, lasted six seconds. This was the sixth earthquake recorded at Anchorage in six months. A few broken dishes was the only damage reported.

DOG TAGS ARRIVE

Dog tags for the year 1924 have arrived and are now at police headquarters here from which office they will be issued to dog owners who apply.

Socialists Here To Probe Trade

Members of Soviet In Montreal Are Uncertain of Status

Montreal, Feb. 28.—Three representatives of the Union of Soviet Socialist Republics, formerly a part of Russia, whose official status is undetermined are at the Windsor Hotel with a view to inquiring into trade conditions in Canada generally. They are, Ivan J. Kulik, assistant to the union's agent; Dr. Diviikovsky, acting secretary and D. Pavlov, a trade expert. After maintaining dead silence at St. John, where they arrived Sunday—even hiding from newspapermen, the delegation last night issued a lengthy statement outlining their objects. They will mark time until the arrival of Alexander Yarykoff, due to leave London Saturday.

"In the Anglo-Russian conference on the questions of economy and finance," said Mr. Kulik, "can reach an agreement of credits, we can hope for a material development in trade relations between the Soviet and Canada." He said the great need was for agricultural and railway apparatus.

Members of the delegation said they were not Russians, but Soviet Socialists. What standing the visitors have is indefinite. Before they left Moscow the Soviet government had not been recognized "de jure" by the British and Canadian governments. They do not know whether they are diplomatists, trade commissioners or consular representatives.

Much of the statement was given over to an explanation of the Socialist regime, currency, military affairs and other propaganda concerning the Soviet.

GUNMEN ROB BLIND WOMAN

Montreal, Feb. 29.—Gunmen robbed a blind woman and her daughter-inlaw yesterday afternoon at their home, 520 Jarry street. Mrs. Alfred Hetu, 65 years of age was confronted by two men who entered the house after ringing the bell at the front door.

The blind woman refused to part with her savings and was threatened before she removed a sum of money from both stockings. Her daughter-in-law, Mrs. Arthur Hetu, parted with $4 and the bandits left the house $40 richer than their visit.

VIOLENCE MARKS GARMENT STRIKE

Chicago, Feb. 29.—One man was shot and several persons were beaten today in a clash between striking garment workers and employees of a dressmaking factory. According to reports to the police, who rushed riot squads to the plant, William Goldsten, owner of the factory, was shot in the right leg when strike sympathizers stormed the shop.

OPPOSE VOTE ON O.T.A.

Toronto, Feb. 29.—The temperance and moral reform committee of the Grand Council of the Royal Templars of Temperance of Ontario at the Templars session yesterday adopted memorials to be forwarded to the Ontario and Federal premiers, urging among other things, that no vote on the Ontario Temperance Act be taken until the act has been given a thorough trial.

PETES RETAIN THE BROWN HOCKEY CUP

Intermediate Championship Aspirants Defeat Oshawa 7-5 and Keep Cup

Peterboro, Feb. 29—Ed. Ronald and Joe Walsh of Oshawa dropped into Peterborough last night with a select team from the Lakeshore group, wearing the Oshawa green shirts, and although they didn't lift the Brown Challenge Cup from the Petes, they came so close to it that the four hundred fans on the side lines nearly died of heart failure. The home talent won 7 to 5, but it was not until twenty minutes of overtime had been played that they finally copped the decision and the game was by long odds the most exciting ice battle of the season.

The first two periods were ordinary aside from a sparkling exhibition of goalkeeping by Micky Murray for the visitors and Joe Dwyer. The Petes started the last session in front 2 to 1, not much of a lead, but looking safe enough until the Lakeshore invaders ran in two counters in quick succession and took the lead. Parker evened it up in jig time, but the Donald-Walsh collection came right back with another, and with the end of the game in sight that one goal lead looked as big as Hon. Mr. Nickle's picture of the U.F.O. deficit. With a couple of minutes to go, however, Rose tied the score and the game went into overtime.

Neither team scored in the first five minutes, each got one in the second, the third five minute period was scoreless, but in the fourth the Petes grabbed off the game by beating Murray twice in quick succession.

It was a great finish to a hard fought game.

Visitors Were Fast

The Oshawa outfit included Micky Murray in the nets, the two best Port Hopers, Carter and Finnegan Hills, Sam Lowe and Houck of the Oshawa team, and a couple of Bowmanville intermediates and they looked much more dangerous than the Oshawa O.H.A. aggregation. Carter and Hills were a tower of strength. The former has a rare turn of speed and breaks fast while the famous Finnegan, while perhaps not as fast afoot as he was a few years ago, has lost none of his trickiness in working in on the nets. Sammy Lowe played the best hockey he has ever shown against the Petes, his stick-handling at close quarters keeping him always in the limelight. The rest of the crew worked their heads off, while Murray bolstered the invaders by a fine exhibition of goalkeeping. He beat the Petes' attack time after time when a goal seemed certain, and although knocked out with a shot from Burgess early in the second period, came back with a lump under his eye and turned them off as coolly as ever.

The teams:

Oshawa: Murray, goal; Carter and Lowe, defence; Hills, centre; Lott, right wing; Houck left wing Palmer and Stephens, subs.

Peterboro: Dwyer, goal; Parker and Halpin defence; Collins, centre; Burgess right wing, Rose left wing, Ranger, McPherson, McMartin, subs.

Referee, Walter Jackson.

NIAGARA FALLS WIN ROUND 7-6

Enter Intermediate Semi-Finals O.H.A. by Ousting Collingwood

Collingwood Feb. 29.—The one goal lead secured by Gene Fraser's Niagara Falls veterans in the first game of the play-off with the youthful Shipbuilders on Monday night at home was the margin by which they entered the O. H. A. intermediate semi-finals, as the locals held them to a three all tie game here last night, the score on the round being 7 to 6 for Niagara Falls. The game, which was played on rather heavy ice, was witnessed by the largest crowd of the season, and considering the importance of the struggle and the heavy nature of the ice, was well aid cleanly played, and was anybody's game until the final bell.

The locals gave their supporters great encouragement by scoring the first goal of the game, evening up the round, but Fraser put the visitors on even terms before the end of the period. Each team scored two goals in the second period, and in the third, despite the frantic attempts of the locals to beat Mayo, was scoreless. The visitors played the best combination the locals missing several good chances to score when they retained possession of the rubber when they reached the Falls' defence instead of passing to a team-mate.

There were no outstanding players for the visitors, all turning in good games, and the same applied to the locals, although Brophy rushed frequently.

JACK WILLIAMS IS OFF TO SOUTH LAND

Kingston, Feb. 29 (Verona News)—Jack Williams left on Monday via C. P. R. for Haddeck, Georgia, where he will join the rest of the Rochester baseball team where they will go in training. Many of his friends accompanied him to the depot to wish him bon voyage. Jack's progress will be eagerly watched by his host of friends in this district. His wife will join him in Rochester on his return from training camp.

B.H.S. GIRLS ARE WINNERS HERE

Defeat Kingston Collegiate Girl Hockeyists 2-0.

Th fans who did not visit the arena last night at 7.30 missed the game of the season when the B. H. S. girls hockey team once more did battle with the K. C. I. sextet.

The Kingston girls after being defeated to the tune of 2 to 0 in Kingston, practiced faithfully during the following week to make one great attempt to avenge their defeat by a decisive victory in Belleville but their efforts were not rewarded.

The puck was faced off at 7.30 by referee Richard Arnott and the battle was on.

The first period was a ding-dong with the play being fairly divided. In a mix-up in front of the Kingston goal, Dorothy Pearce batted the puck in for the first tally of the night amid great excitement.

The first period ended with the score 1 to 0 for the Belleville squad who had a slight edge on the play for the period. It must be said however that the Kingston girls were playing much better hockey than they played in Kingston.

The second period started off fast but both teams began to show the effects of the strenuous hockey and the play began to slow down. No love was lost in this period between the players and a little rough play marred the stellar performance.

The period ended scoreless with both teams going off the ice with the determination to make one last great effort in the third period and with this feeling to spur them on they played hockey in the last period that will long be remembered by the fans.

Belleville girls setled down to good clean hockey in the third period and their faithful training through the winter began to show. They passed the puck as well as the intermediates and their steady persistence produced the desired results when Marjorie Lynch on a nice combination play bulged the net for the last tally of the night.

The period ended with the score 2 to 0 for the B. H. S. girls.

Great credit must be given the regular forward line consisting of Evelyn Whalen, Marjorie Lynch and Dorothy Pearce as they played throug the entire struggle without a sub.

The team was greatly weakened last night, as Grace Gilbert one of the mainstays of the team was injured in the first game and was unable to play.

Peg Holway in goal gave a great exhibition in the art of net minding as she made many spectacular saves and aided greatly in the B. H. S. victory.

The Kingston girls were a greatly improved team and put up a game struggle. Marjorie Lytle in goal, Helen Maybee on the defence and Florence Newman at centre ice, were the pick of the Kingston team with the others running them a close race for the honours.

The K. C. I. girls were defeated by the Queens University girls 3 to 0 and the B. H. S. girls would like very much to meet the Queens sextet so fans of Belleville, turn out and support a team that is a great credit to the city.

The teams lined up as folows:

Kingston—Marjorie Lytle, goal; Dorothea Sands and Helen Maybee, defence; Florence N man, centre; Irene Gordon, and Helen Carol, wings; Katie Somner and Dorothea Smythe subs.

Belleville—Peg Holway, goal; Betty Williams and Nora Lynch, defence; Evelyn Whalen, centre; Marjorie Lynch and Dorothy Pearce, wings; Lila Sprague and Nora Wallbridge, subs.

"She is forever on the go and yet she is always sitting on her poor husband."

PRESTON NO MATCH FOR THE INDIANS

Stratford Seniors Qualify for Play-Off Winning Game 6-3 and Round 7 to 3

Preston, Ont. Feb. 29.—Stratford Indians had too much speed and their combination was too effective for Preston here last night with the result that the Classic City team won 6 to 3 and the round by 7 to 3, having won the first game at home, 1 to 0. The Indians will now meet the winner of Group No. 1, either Tigers or Varsity, in home and home games for the senior O.H.A. championship and the right to enter the Allan Cup play downs.

Preston made valient efforts to win, but when Stratford out-scored the Riversides 2 to 0 in the second period they practically lost any chance they may have had to qualify for the finals. They opened the third period by scoring the first goal and then Dad Ashley came back with one for Stratford, and it was a rather lucky shot at that. He followed in his own shot, which bounded off the goal-tender's pads and while Farrell was trying to clear the elusive rubber, Ashley slammed it into the open net. From a Preston point of view that was the real break of the game as far as the home team were concerned, for they came right back with the goal that would have tied the count had Ashley not tallied his flukey counter.

Better Team Won

However, there is little doubt as to which was the best team. The Indians outskated their opponents the entire game, were better stick-handlers and their combination repeatedly got them in on Farrell for shots. Defensively, they were also better, Ashley and Berger showing to much better advantage than Buck Bowman and Skelly. The Stratford pair were also better on the attack especially Ashley, who always managed to keep control of the puck until he was in a position to shoot.

The regular Stratford forwards, Frank Carson, Brickman and Kelterbourne, were very clever. They out guessed their checks time after time. Brickman is not a Morenz, but he proved himself to be a very useful player. He checked well through the centre and was an effective carrier. Carson played the righ rail perfectly, took passes cleanly and got his shots away fast, and they were always dead on. Carson and Ashley were the winners' best sharp shooters.

Stratford this year are well fortified with subs., Griffin and Battersby being very good, though the latter was not used very extensively. Griffin was just as fast as any of his team-mates, carried the puck splendidly and worked in well with Carson. A lot of Stratford's strength was in the players' unselfishness, and the whole team was backed up by a mighty fine goaltender in Dolson, who played great hockey.

"Lone Rush" System

Preston's efforts were mostly individual, and they lost numerous chances to score by not passing the puck. Twice Eddie Clark stood unchecked in front of the Stratford net, but waited in vain for the pass that did not come. Another time Woodley did take a pass two feet out and then shot wide. Clark made a good job of holding Kelterbourne until near the close, when the latter ran wild, and by brilliant stickhandling and combination with Carson scored two goals. Kreason could not do very much with Carson, and Gunner Arnott had his hands full with Brickman in centre.

Arnott and Clarke Star

However, Arnott and Clarke were the best of the Preston team, with old "Buck" Bowman and Skelly at times playing good hockey on the defensive. Woodley and Egerer were used as relief men, but hardly measured up to the regulars. Farrell was good in form—real good—but he had a rapid firing team shooting at him from all angles and had little chance on the majority of the goals that beat him.

CUTTING IT FINE

An old Irishwoman sent a parcel to her son, in which she enclosed the following note: "Pat—I am sending your waistcoat; to save weight I have cut all the buttons off.—Your loving Mother." "P.S.—You will find them in the top pocket."

A broad mind isn't necessarily deep.

OF INTEREST TO WOMEN

Dr. Thacher's Medicine

On Sale at

LATTIMER'S Drug Store

Purchase Price Refunded if Not Satisfactory.

You Don't Have To Pay For Dr. Thatcher's Syrup Unless You Get Satisfying Relief!

Prescribed by Physician for Colds, Sour Stomach, Bloating Gas, Sick Headaches and Tired, Nervous, Run-Down Condition.

"The majority of people who come into this store for medicines of various sorts are really suffering because of a sluggish liver," declared a leading druggist the other day. "What they really need is Dr. Thatcher's Liver and Blood Syrup to cleanse and tone the liver and build up the system so that they feel their best again. It gives quick relief; this is why we can afford to sell it with the understanding that it will give complete satisfaction; otherwise the purchase price will be returned.

It is easy to tell when your liver is sluggish and clogged. Just ask yourself: Do you feel dull and tired so often? Do you wake up with a bad taste coated tongue and offensive breath? Do you suffer from such symptoms as bad colds, sour stomach and gas, irregular movement of the bowels and that tired, nervous, upset and depressed feeling? If so, take just a spoonful of Dr. Thatcher's Liver and Blood Syrup after the next few meals and notice the quick difference in the way you look, eat, sleep and feel.

Get a bottle of Dr. Thatcher's from Dolan the druggist and W. H. Lattimer in Belleville; T. L. McCullough in Deseronto and leading druggists everywhere. And unless you really appreciate what it has done for you come back and your money will be returned without a single question. This is how much confidence we have in this splendid corrective, health-building preparation.

Recommended and Guaranteed By DOLAN The Druggist

AN INNOVATION ON THE CANADIAN NATIONAL RAILWAYS

Lunch Counter Service Between Toronto and Winnipeg

For the conveniences of its patrons the Canadian National Railways are now operating Colonist Cars equipped with lunch counters on "The National" between Toronto and Winnipeg, leaving Toronto, 10.45 p.m. daily arriving Winnipeg 4.10 p.m. the third day, and from Winnipeg to Toronto leaving Winnipeg 12.30 p.m. daily arriving Toronto 7.20 a.m. the third day. Hot tea, coffee and bovril sandwiches pies, jam milk, bread, butter, baked beans etc. may be purchased at the the lunch counter at any time during the day.

This service is of course in addition to the regular dining car service operated on the above mentioned trains.

Home Life Menaced

Never in the history of the world has the life of the family as a social unit been menaced as it is today. Social unrest, the independence afforded women by opening up almost every profession and every line of industry to them, equal rights with men, all of which are perfectly justified if not abused and women have the health and strength to cary out their inclinations in these matters. But alas, when a woman is almost at the point of breaking from her household cares and social life, to take on outside duties often mens the breaking point, and homes are often neglected for lack of strength or some ailment develops because of overwork. Weak and ailing women will do well to remember that Lydia E. Pinkham's Vegetable Compound made from roots and herbs benefits 98 out of every 100 women who try it, and let it help them.

BIBLE CLASS HOLDS SOCIAL EVENING

When the men and ladies' bible class of Christ Church held a social evening at the Great War Veterans' Memorial building last night, there was a good attendance and a most enjoyable time. Games were played, and in a guessing contest Miss Bessie Thomas and Alec Brien were the lucky guessers and prize winners. After the games, dancing was featured until midnight. A dainty lunch was served during the evening, and piano music for dancing was supplied by Miss Helen Byrnes.

LOVE, THE TYRANT

OR,

WHERE HER HEART LED

BY

CHARLES GARVICE

Palmer's look of curiosity increased. He had a large acquaintance with farmers and their men, but none of them had looked like this stalwart young fellow, or been so much at their ease.

"If you'll step into the library, I'll tell Miss Vancourt,' he said.

Jack nodded, and remembering the room, walked straight into it. Palmer was rather surprised, and still more so when the foreman of the home farm went to the window and looked out, "as if the place belonged to him," as Palmer remarked afterwards in the servant's hall.

Jack, when he had studied the view and tried to remember some of the points, turned to the room. One of the Vancourts had been a bibliomaniac, and had got together a very fine collection of books, and Jack walked round the cases and read some of the titles of the rare volumes of those worth he had little idea. Then as he glanced about him, he caught sight of a glove lying on the writing-table. It was a woman's glove: Suede; size six and a half.

He took it up and held it in his brown palm, and gazed at it absently. It was a wee, soft thing, and like the voice of the dream, seemed to plead for its owner. He had barely time to drop it when Palmer entered.

"Miss Vancourt is out of the house,' he said.

"Oh! Where is she? Do you know?"

Palmer felt inclined to resent the excessive coolness of this young man in the worn cord suit, and answered, rather stiffly:

"Miss Vancourt may be in the garden; on the other hand—"

—"She may not," said Jack, cheerfully. "I'll see if I can find her;" and out he strode followed by Bob, who had been told to wait on the terrace. As he passed out, one of the maid-servants crossed the hall and looked at him without appearing to do so.

"What a handsome young man, Mr. Palmer!" she said. "Who is he?"

"Judging by his coolness, not to say cheek, Mary, I should say he was one of the royal family; but he happens to be the new foreman at the farm," replied Palmer, with dignity, as he stalked away to his pantry.

Jack strode down the terrace and across the lawn, stopping now and again to look round him; but he could see nothing of Miss Vancourt, and, with a shrug of the shoulders, vaulted the park railing, and was taking a short cut for the farm, when Bob uttered a soft growl, and stopped short.

"Rabbit, old man?" said Jack. "Better let it alone Miss Vancourt or the keeper mightn't like it."

But Bob's growl changed into a soft bark of pleasure as he ran into the trees, and Jack presently saw that the rabbit, in a white dress and with a sunshade, was sitting at the foot of a big elm with a book in her hand. Bob sprang to her, thrust his nose against her bosom, and wagged his tail, then, with a sigh which said quite plainly. "How delightful to meet you again like this!" stretched himself at her feet, and, placing one huge paw on her white dress, looked up at his master with a kind of "Here's the pretty girl we saw yesterday, you know!"

Jack raised his hat.

"I apologize for my dog, Miss Vancourt. He means well; but he's a little free—with people he takes a fancy to. Come here, Bob!"

Esther inclined her head, then snuggled her face against Bob's soft and silky one.

"Don't call him, please. I think it is very nice of him to remember me."

"Oh, Bob never forgets a friend or a benefit," said Jack. "He leaves that to us men."

Esther held Bob's long nose in her white hand, and Jack, as he looked at it, remembered the size of the glove. There was a faint colour in her face, and she seemed so engrossed in the dog as to have forgotten his master's presence.

"Sorry to have disturbed you, Miss Vancourt," said Jack, after a pause, "but I've just been up to the house to see you, and they said I might find you about the grounds."

"You want to see me?" said Esther, rather coldly. "How is Martin this morning?"

"Getting on all right, I think."

"I am glad," she said as coldly as before. She had glanced up at him for a moment under half her lids, then she fell to caressing Bob again with an air of indifference to the man's proximity which the youngest girl can manage so cleverly.

Jack was slightly nettled by it—the man is intended to be nettled—and, rather abruptly, he said:

"Do you mind my cutting down most of the trees in one of the farm fields, Miss Vancourt?"

Esther looked up quickly, open-eyed now.

"Cutting down the trees," she echoed, vaguely. "Why? Why do you want to cut them?"

Jack stood bolt upright and stifled a sigh. Explaining the elementary rules of farming to a young girl is a large order for the most patient of men, and Jack Gordon was anything but patient.

"You can't grow corn and mangels, any kind of crop, in fact, and trees as well, in one field," he said.

Esther stared at him.

"Why do you try, then?" she asked. "Trees are ever so much prettier than mangels. What are mangels, Mr.—?" she hesitated.

"Gordon! Jack Gordon," she said, raising his hat slightly.

She returned the salution with a bend of her head, then was wild with herself for doing it and flushed.

"Mangels are roots: cows eat 'em," said Jack.

"Can't you grow them somewhere else?" asked Esther, languidly.

"Certainly; but this field happens to be the best on the farm.

"Then why didn't they grow them before? How old is your dog, Mr. Gordon?"

"Coming four," replied Jack, rather curtly. "They have tried, like the idiots they were, but, of course, it wasn't any use.

"Why didn't Sir Richard cut down the trees?"

"Because he had a fancy for them: some persons have."

"I have," said Esther, haughtily.

Jack nodded.

(To be Continued.)

MOTHERS--

Don't you know you can turn a distressed, feverish, coughing child into a comfortable and happily smiling one simply by giving

CHAMBERLAIN'S COUGH REMEDY

No Narcotics

A DEFINITION

"Pa, what's a fable?"
"A lie with a moral, my son."

Is Anything Wrong With Your Skin?

WHETHER it's a cut or scratch, an outbreak of pimples or rash, or a case of fiery disfiguring eczema, you need Zam-Buk.

You can always rely upon this grand herbal balm to soothe pain, draw out poisonous matter and inflammation, and quickly end the worst attack of skin disease.

A daily dressing of Zam-Buk keeps the skin healthy and free of all blemish. It is *a real skin medicine* and of a different nature entirely to ordinary ointments or salves.

ZAM-BUK is proved a marvellous success in the treatment of eczema, ringworm, poisoned wounds, ulcers, piles, cuts, sore hands and faces, chilblains, burns, scalds, etc. 50c. box or 3 for $1.25, of dealers everywhere.

Zam-Buk

SOOTHES, PURIFIES & HEALS.

Have Dark Hair And Look Young

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this old-time recipe improved by the addition of other ingredients all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

Try Sulphur On An Eczema Skin

COSTS LITTLE AND OVERCOMES TROUBLE ALMOST OVER NIGHT

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

SCIENCE DEMANDS UNIFORMITY

Careful research made in recent years in the study of dietetics has shown the great importance to the human system of purity and uniform quality in foods. It is a great blessing that today so many delicious foods as well as tea and coffee can be procured in tins and sealed metal packages. "SALADA" Tea was one of the first pure food products to become widely popular in Canada. The flavour-preserving aluminum package keeps the tea fresh and delicious. Skilful blending maintains the quality absolutely uniform.

Whose Fault If the Child Is Delicate?

The success of your child's future is largely dependent upon its present health. The time to watch its health is while it is young—during the growing age. Give a boy or girl health as a foundation and their future is fairly well assured. Isn't delicate health in children sometimes the result of unintentional neglect? Parents often dismiss these troubles with the remark, "They will be all right tomorrow." Drowsiness, weakness, lack of energy, loss of appetite, inability to study and concentrate, etc., in children are due to ill-health. Usually what the child, boy or girl, needs is a tonic. Carnol has worked wonders as a tonic with children. Read what Carnol did for Mrs. Ida Waite's little girl:

"I am very glad to be able to speak to any parent and explain to them that my little girl has been completely restored to health by the use of Carnol. She has been from infancy a weak, delicate child and very nervous, but the use of Carnol has not only completely strengthened her, but restored her to perfect health. I recommend Carnol to all mothers whenever a safe and effective tonic is needed."—Mrs. Ida Waite, 5 Summit Street, Halifax. 16-9

Carnol is sold by all good druggists everywhere.

Mrs. Rose Peters

Toronto Woman Advises Young Mothers!

Toronto, Ont.—"During all my years of wifehood and motherhood I have had such great comfort from the use of Dr. Pierce's Favorite Prescription that I do not hesitate to recommend it to other women who need strength and help during expectancy. 'Favorite Prescription' relieved me of all nausea, or sick stomach, and kept me well and strong. I took this splendid tonic and nervine during each of my four expectant periods and I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from the first moment."—Mrs. Rose Peters, No. 257 Sackville Street.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package.

Abolition Of Death Penalty

Prem. MacDonald Amongst Those Denouncing Capital Punishment

London, Feb. 29.—Abolition of the death penalty for murder in Great Britain, except when the offender is already undergoing a sentence of penal servitude for life, is the central feature of a bill just presented to parliament.

Capital punishment has long been opposed by advanced politicians here off Cape Ann. A band which boarded the vessel wounded the skipper and cook but failed to find any considerable sum of money.

FORMER BAVARIAN POLICE CHIEF ON WITNESS STAND

Munich, Bavaria, Feb. 29.—Herr Poehner, former chief of police of Bavaria, one of the defendants in the November "putsch" trial, gave testimony yesterday, making no attempt to conceal his enmity to the Government and his share in the plot to overthrow it.

He declared that Dr. von Kahr, at one time Premier, Minister of Interior and Foreign Minister of Bavoria, and who more recently acted as Bavarian military dictator gave his unconditional consent to the revolt. According to the testimony he offered Herr Poehner the post of Civil Governor of Saxony and Thuringia but the offer was refused.

AUDITOR'S REPORT TO SHAREHOLDERS

I certify that the above Balance Sheet is in accord with the books of The Standard Bank of Canada, and that, in my opinion, it discloses the true condition of the Bank as at 31st January, 1924. I have received all the information and explanations I have required and all transactions of the Bank which have come under my notice have been within the powers of the Bank.

Toronto, 21st February, 1924.

C. T. CLARKSON, F.C.A.,
Auditor for the Shareholders.

A Good Year

Earnings of The Standard Bank of Canada Satisfactory

LARGE HOLDINGS OF GOV'T SECURITIES

The forty-ninth annual statement of The Standard Bank of Canada which was presented to the shareholders at the annual meeting held at the head office of the Bank in the City of Toronto, on Wednesday, February 27th, was accepted by the shareholders as highly satisfactory.

A review of the figures shows that the earnings have been well maintained and that the Bank's liquid position has improved considerably during the past twelve months.

The profits for the year stand at $695,094 which, together with a balance of $160,567 carried forward from the previous year, makes available for distribution $855,661.

After paying quarterly dividends during the year amounting to $520,000; reserving for Dominion Income Tax $55,000; applying $40,000 to War Tax on circulation and making a contribution of $25,000 to the Officers' Pension Fund, a balance of $215,661, is carried forward. This is an increase of $55,000 over the amount carried forward a year ago.

It has been evident to the business community in Canada that the past twelve months have been hesitant and uncertain. It therefore, reflects very creditably on the management that under these conditions such an excellent statement has been produced.

Liquidity is an outstanding feature of the statement, as the liquid assets are at a higher figure than at January 31st, 1923, in fact cash assets are $15,253,441 or 24.3% of the Bank's Liabilities to the public and liquid assets have reached the considerable figure of $29,318,972 or 46.8% of liabilities to the public. The Bank's holdings of Dominion and Municipal securities have increased during the year and now stand at $11,000,000. Loans to towns, municipalities and

The Bank's capital remains at $4,000,000 with a balance at the credit of Reserve Fund of $2,750,000.

YOUNG LADY GAINS 15 POUNDS

Miss O'Brien, of Peterboro, Finds Wonderful Relief From Digestive Disorders in Dreco, the Famous Herb and Root Remedy. Now Has Fine Appetite and Sleeps Soundly.

Mrs. D. O'Brien, of 621 George St., Peterboro, tells how Dreco is helping her 20-year-old daughter regain her wanted health and spirits, by correcting digestive ailments that were making life a misery.

"For about a year, my daughter, Marguerite, has been suffering from stomach trouble," says Mrs. O'Brien. "Gas would form on her stomach and she would have terrible bilious and dizzy spells. Her nerves were very bad and her whole left side would tremble. She had a very poor appetite and, in fact, was afraid to eat because of the suffering afterwards.

"She lost weight rapidly and although I must have spent hundreds of dollars seeking relief for her, it was only when we discovered Dreco that improvement commenced.

"Three bottles of this grand medicine have done wonders for her. She no longer has any trouble with her stomach, has a fine appetite and sleeps soundly at nights. Dreco has built up her entire system and she has gained fifteen pounds in weight since starting with it."

Dreco is a reliable tonic and corrective, made from the pure extracts of herbs, roots, bark and leaves. It contains no mercury, potash or habit forming drugs. Everybody needs just such a tonic to keep their system in proper shape.

Dreco is being specially introduced in Belleville by The Belleville Pharmacy. It is also sold in Stirling by J. S. Morton, and by a good druggist everywhere.

Anniversary

(continued from page one).

A prize, both useful and valuable, was presented to Norma Cook for being able to repeat the golden texts during the year. This was given and presented by Mr. Hodkinson, who is the leader of the primary class.

Services are held every Sunday evening at the Mission, the same being in charge of Mr. Carrington, a student of Albert College.

Before the proceedings of the evening closed Mr. Clapp, chairman, voiced the apreciation of all present for the valuable services rendered by the choir of the Baptist Church, the quartette of the choir, also the ministers who had taken part in the anniversary services.

The primary class, led by Mr. Hodkinson, sang "Jesus Loves Me," and Rev. G. Marshall pronounced the benediction.

Woman Accused Of Murder Is Allowed Bail

Montreal, Feb. 28.—Emelina Robillard is out on bail. For only the third time within recent years bail was granted this morning by Mr. Justice Demers in a murder case. Mrs. Robillard stands indicted for the killing of Albert Turcotte on the verandah of her home near Hull on February 6th last. The first jury impannelled to view the body of Turcotte rendered an open verdict, but at the request of the Attorney-General a second jury was summoned, and the latter held Mrs. Robillard responsible for the death. At her preliminary hearing before Magistrate F. X. Lacoursiere of Hull she was held for murder and bail was refused. In the matter of bail the Magistrate had no option as Articles 699 and 700 of the Criminal Code of Canada formally forbid Magistrate to grant bail in cases of murder, treason and rape. Application in such cases must be made to the Judges of either the Superior Court or the Court of King's Bench.

This morning Mr. J. E. Gaboury of the firm Gaboury and Gaudet, Barristers of Hull, presented an application on behalf of Mrs. Robillard before Mr. Justice Damers of the Superior Court, Montreal. Magistrate F. X. Lacoursiere was made a party to the proceedings and Mr. J. A. Parent, K. C. Crown Attorney for the District of Hull, opposed the granting of bail on behalf of the Crown.

In rendering his decision, Mr. Justice Demers recited the exceptional circumstances surrounding this case and gave his opinion that the interests of justice would be satisfied if Mrs. Robillard was released on a personal recognizance of $3,000.00 with one bondsman of $3,000.00.

Details of Shooting

Turcotte was shot through the breast on the night of February 6th, while about to enter the home of Mrs. Robillard at Ste. Sixte. For some time the Provincial Police were puzzled as to who fired the shot, but later Mrs. Robillard came forward and confessed that she had fired the shot through the door at the moment when Turcotte was about to enter. She pleaded self-defense stating that the victim was thrusting his attention on her while her husband was away from home. At the first inquest, the woman was not warned and her deposition was therefore illegal, but she was held on a murder charge at a second hearing before Coroner McMahon.
